1. Overview

1.1. Purpose of the Guide

The Gender Pay reporting solution can be run on any Irish or UK Payroll held within PeopleXD.

The reporting involves the analysis and calculation of pay data to report on pay gaps between male and female employees.

Note:

For further guidance on the gender pay gap please refer to the relevant government website:

- <https://www.gov.uk/government/collections/gender-pay-gap-reporting>
- <https://www.gov.ie/en/campaigns/0cb29-gender-pay-gap-information-act-2021/>

2. Calculating Gender Pay Gap

2.1. Pre-build reports

The solution comes with a pre-built XD Insight report (for data extraction) and an [Excel template](#) (for calculating the metrics). These can be used to report the metrics listed below:

1. The mean gender pay gap in hourly pay.
2. The median gender pay gap in hourly pay.
3. The mean gender pay gap in Bonus pay.
4. The median gender pay gap in Bonus pay.
5. Part Time Employees mean gender pay gap in hourly pay.
6. Part Time Employees median gender pay gap in hourly pay.
7. The proportions of men and women getting a bonus.
8. The proportions of men and women getting Benefit in Kind.
9. Temp Contract mean gender pay gap in hourly pay.
10. Temp Contract median gender pay gap in hourly pay.
11. The proportion of men and women in each of four pay quartiles.

Note:

- The excel template to derive these metrics is provided as a guidance and the reports must be configured to suit your organisation.
- Instructions for configuration are provided in this document and in the Excel file attached in this document.

2.2. Gender Pay Gap Guidance

XD Insight calculates the Gender Pay Gap using a number of functions and data fields from the PACI_APPOINTMENT_HISTORY table. The Gender Pay Gap calculations can be used on any UK or Irish payroll within People XD.

For the calculations, the functions use the max period in the specified period range for the employee's last pay group's pay frequency for Hourly Pay.

Bonus are calculated by specifying the Pay Period ranges for the Start Period and End Period.

2.2.1. Hourly Pay

All employees who were paid their usual full pay in their pay period that included the snapshot date.

2.2.2. Bonus Pay

Bonuses paid to each relevant employee (including full pay relevant employees) in the 12 months to the snapshot date.

2.3. CEO vs Employee Pay Gap (UK Only)

Executive pay ratio reporting requires companies to identify employees' average pay across different quartiles in comparison to the CEO's pay.

2.3.1. Calculating the CEO Pay Ratio

To calculate each ratio, divide the CEO's remuneration by that of the employee at each percentile. For example, the CEO's STFR is 3,200,000 and the remuneration of the employees at the 25th, 50th and 75th percentiles are 20,000, 40,000 and 100,000, respectively. Therefore, the ratios to report are 160:1, 80:1 and 32:1. In this example, it would take 160 years for a worker at the 25th percentile to earn the amount that the CEO earns in a single year.

CEO Pay Ratio			
		Use ranking from Gender Pay Data tab to identify figures to be input for CEO, 25th, 50th and 75th Tab. This will output the CEO Pay Ratio Results	
CEO's STFR	25th percentile	50th percentile	75th percentile
3,200,000	20000	40000	100000
Ratio	160	80	32

2.3.2. Calculating the Figures

The CEO's remuneration figure must be the latest Single Total Figure of Remuneration (STFR), which is already part of the directors' report, calculated according to existing regulations. Where there has been a change of CEO during the year, the total pay, and benefits paid to each post holder must be considered (but not their pay and benefits from other roles held during the year).

To calculate each ratio, divide the CEO's remuneration by that of the employee at each percentile.

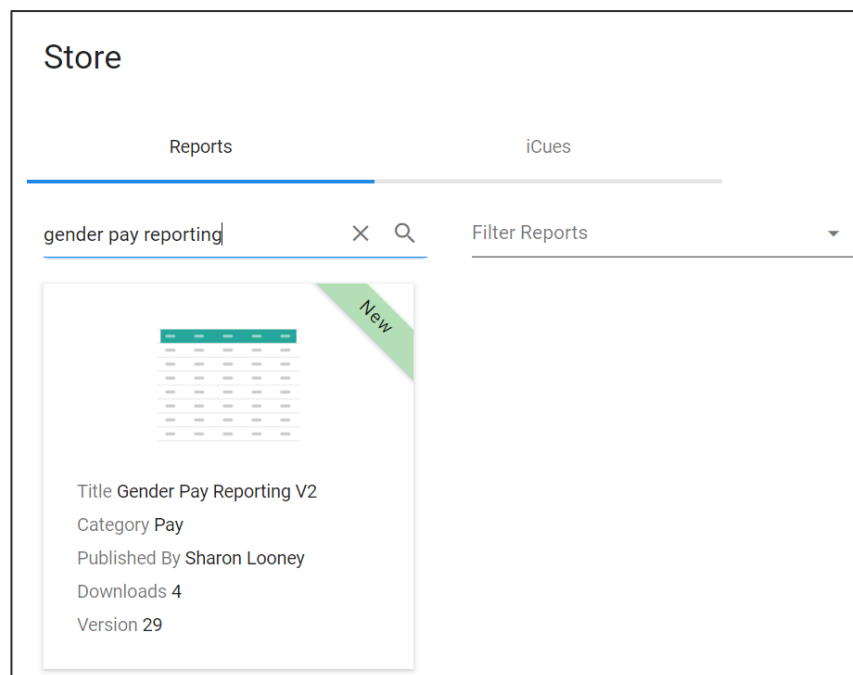

3. XD Insight Report Setup

3.1. Download Gender Pay Gap Report V3 from Report Store

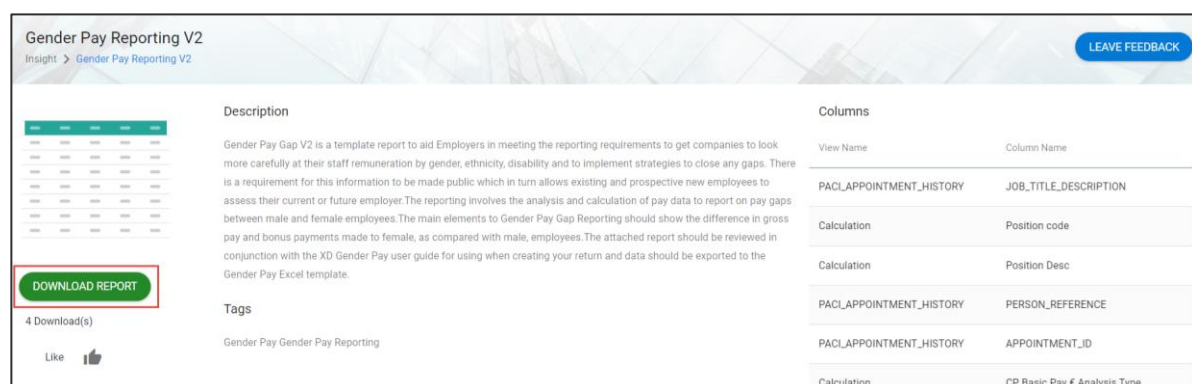

Users should first download the Gender Pay Gap Report V3 from the report store.

To do this access the Insight dashboard:

1. Quick Jump to **Insight**
2. Go to the **Report Store** tab.
3. Search for the *Gender Pay Reporting V3*.

4. The *Gender Pay Gap Reporting V3* should appear in this list as a Standard Report.
5. Click on the report and **Download Report**.

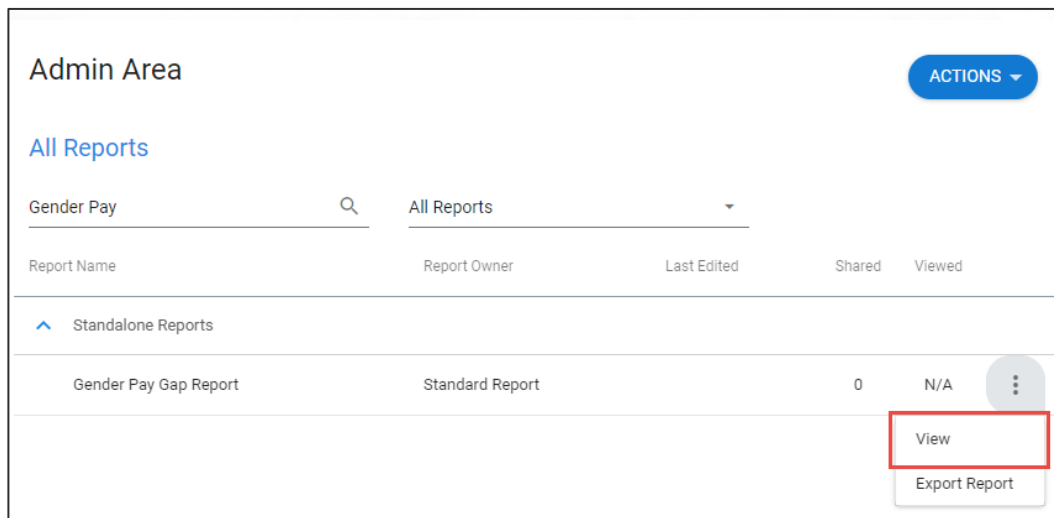

Once this report has been downloaded users can open the report from within Insight.

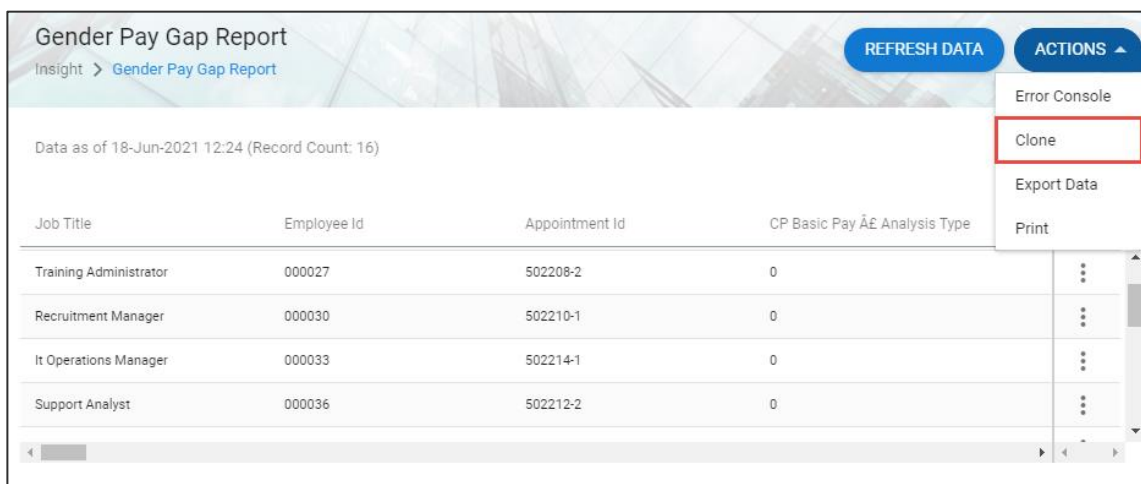

3.2. Open Gender Pay Gap Report

To open the Gender Pay Gap Report:

1. Quick Jump to **Insight**
2. Go to the **Admin Area** tab.
3. Search for *Gender Pay*.
4. The *Gender Pay Gap Report V3* appears in this list as a Standard Report.
5. Click on **View** to open the report.

6. Standard Reports are read only by default. In order to update/amend this report, it needs to be cloned first. To carry this out, click on the **Action** button.
7. Click on **Clone**.

8. Once a copy of the standard report has been made, changes can be carried out on the newly cloned report.

3.3. Edit Gender Pay Gap Report

Specify which *Pay Codes* and/or *Analysis Types* you wish to include in the metrics. Salaries, bonuses etc. must be specified at Pay Code level.

Users are required to amend all the calculations fields (listed below) relevant to their company.

3.3.1. Configuration Checklist

Column	Column Description	Data Required	Completed Y/N
1	CP Basic Pay Analysis Type	Analysis Codes	
2	CP Basic Pay Pay Code	Pay Codes	
3	YTD Basic Pay Hrs by Ana Type	Analysis Codes	
4	YTD Basic Pay Hrs by Pay Code	Pay Codes	
5	CP Leave Pay by Ana Type	Analysis Codes	
6	CP Leave Pay Pay Code	Pay Codes	
7	YTD Leave Pay Hrs Ana Type	Analysis Codes	
8	YTD Leave Pay Hrs Pay Code	Pay Codes	
9	CP Shift Premium Pay Code	Pay Codes	
10	YTD Shift Prem Hours Pay Code	Pay Codes	
11	CP Car Allowance Pay Code	Pay Codes	
12	YTD Car Allowance Pay Code	Pay Codes	

13	CP Bonus Commission Pay Code	Pay Codes	
14	YTD Basic Pay Ana Type	Analysis Codes	
15	YTD Basic Pay Pay Code	Pay Codes	
16	YTD Leave Pay Pay Code	Pay Codes	
17	YTD Shift Premium Pay Code	Pay Codes	
18	YTD Bonus Comm Pay Code	Pay Codes	
19	CP BIK Allowance Pay Code	Pay Codes	
20	YTD BIK Allowance Pay Code	Pay Codes	
21	Start Period	Enter the Start Payroll Period to be used for reporting Payment values	
22	End Period	Enter the End Payroll Period to be used for reporting Payment values	
23	Snapshot Date	Enter the date to be used for the snapshot date.	

Note:

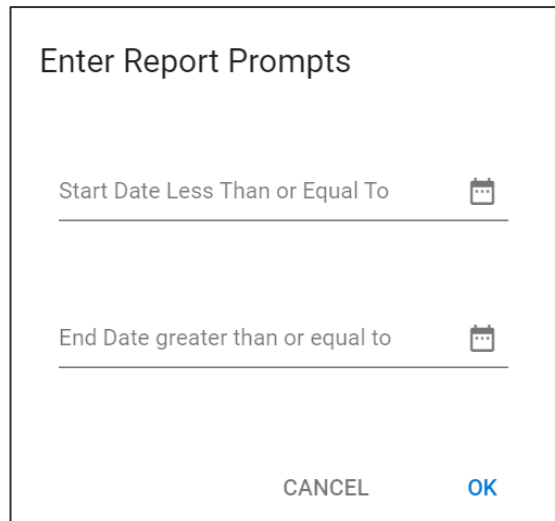

- CP = Current Period
- YTD = Year To Date

3.3.2. Report Prompts

When running the report users will be prompted for the Start/End date to run the report for.

This will be the reporting year, for example, if choosing a snapshot date of the 30th Jun 2022 then this will be

- Start Date: 30th June 2022
- End date: 1st July 2021

Enter Report Prompts

Start Date Less Than or Equal To 

End Date greater than or equal to 

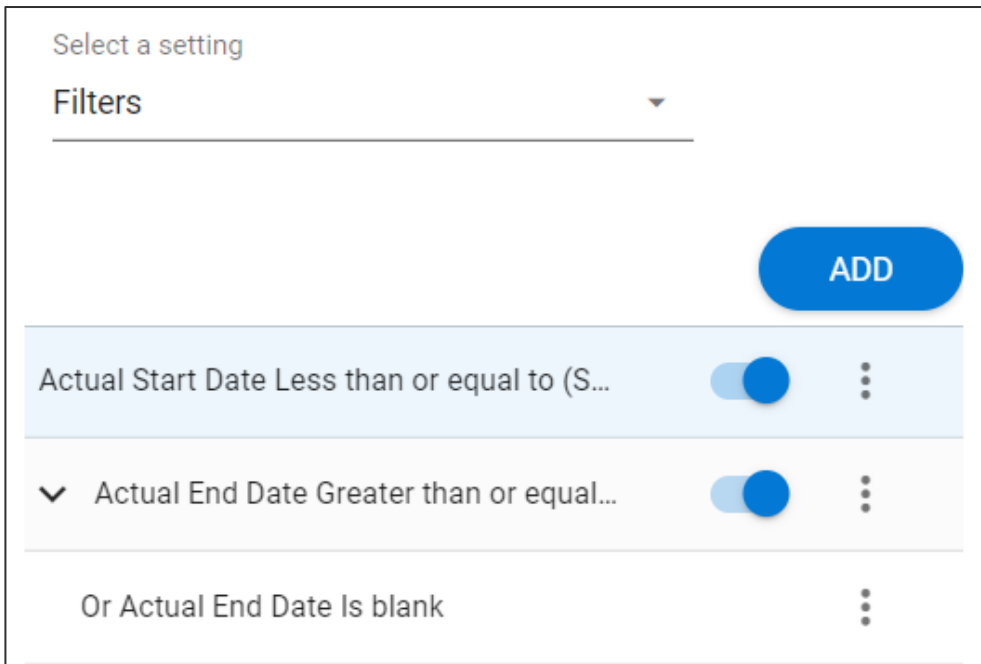

CANCEL OK

3.3.3. Filters

There are two new filters enabled automatically as part of this new report which are there to perform the following key functions:

1. Exclude appointments which have started after the *Snapshot Date* e.g. if the snapshot date is 30th June 2022. This means, if I have an appointment that starts after this date it will not be included.
2. Exclude appointments which have ended before the *Start Periods* e.g. start period 30th June 2021. This means, if I have an appointment that ended before this date it will not be included.

- a. There is a sub filter as part of this to also pick up appointments which have no end dates recorded yet as these are still active appointments also.

The screenshot shows a filter configuration panel. At the top, there is a dropdown menu labeled 'Select a setting' and a section titled 'Filters'. Below this, there is a list of filters. The first filter is 'Actual Start Date Less than or equal to (S...' with a blue toggle switch and a three-dot menu icon. The second filter is 'Actual End Date Greater than or equal...' with a blue toggle switch and a three-dot menu icon. Below these, there is a section labeled 'Or Actual End Date Is blank' with a three-dot menu icon. A blue 'ADD' button is located in the top right corner of the panel.

For both the 'Start Date' and 'End Date' filters, update the Date as relevant to the current reporting requirements.

3.4. Export the Data

Once the required updates have been made to the report, the data needs to be added to the preconfigured [Excel Template](#) which you have been provided with.

There are 4 export options available within XD Insight

1. Export to Excel
2. Export to CSV
3. Export to TXT
4. Export to HTML

To export a report:

1. View the report.
 - a. You may want to refresh the data before completing an export to ensure that the data is current.
2. Click **Actions**.
3. Click **Export Data**.

Choose an Export Type

☒ Excel

☐ CSV

☐ Text

☐ HTML

Hide Report Title ☐

Hide Column Headers ☐

Hide Date/Time ☒

CANCEL OK

4. The exported file downloads as per your browser settings.
5. Once the data is exported and the data is added to the pre-built Excel template, it can be used to help generate the Gender Pay Metrics.

Note:

- If your report contains multiple tabs, only the current tab is exported.
- If your report includes a data sensitivity classification, this is included on all export types.
- Totals are not exported.
- Exports include all rows displayed on screen. This matches the max number of rows defined for the report on the *Manage Reports > Settings* screen.

4. Excel Template Setup

4.1. Import Report Data

Open the exported data file from XD Insight and copy the data into the *Gender Pay Data* tab of the [Excel Template](#).

4.2. Configure the Gender Pay Data tab

You are required to specify which employees are full pay relevant and specify which employees are regular. Exclusions of relevant employees and irregular employees need to be performed by the user.

	A	B	C	D	E
1	Job Title	Employee	Appointment Id	Cp Basic Pay £ Analysis Type	Cp Basic Pay £ Pay Code
2	SENIOR SALES ASSISTANT	1434	FP0011-2005	1773.74	1404.44
3	DEPUTY MANAGER	7418	TR0037-2000	1367.08	1367.08
4	SALES ASSISTANT	7740	TR0031-2001	826.14	826.14

1. To provide the data required for the Quartile reporting it is important to Sort the Calculated Hourly Rate Pay Code (column AI) in descending order
2. Update the ranking column. This is in order to perform the quartile ranking.
 - a. Clear the 'Ranking' Column of any values.
 - b. Enter '1' in cell CG3.
 - c. Enter '2' in cell CG4.
 - d. Select both Cells CG3 and CG4.
 - e. Drag the cells down to the last row.

Note:

- You may notice that once complete, there are some 'Job Titles' with no 'Hourly Pay' values. These need to be omitted from the Quartile Ranking. The reason being is that employees were not employed on the 'Snapshot Date'. Bonuses are still applicable as they were paid within the Start & End periods. This could be because the appointment may have ended, or the employee may have moved to new Appointment ID. Bonus & Hourly Pay are recorded at Appointment ID level.
- Hourly Pay only looks at Ordinary Pay, payments (bonuses) need to be calculated manually when deriving the final Hourly Pay figure.
- The Excel Template is configured by default to use the pay code hourly rate. This can be amended by users to the analysis type hourly rate if more appropriate for their site.

5. Configure & Update the Report Metrics

You are now required to update the formulas in the reportable metrics for each of the following:

1. The mean gender pay gap in hourly pay.
2. The median gender pay gap in hourly pay.
3. The mean gender pay gap in Bonus pay.
4. The median gender pay gap in Bonus pay.
5. Part Time Employees mean gender pay gap in hourly pay.
6. Part Time Employees median gender pay gap in hourly pay.
7. The proportions of men and women getting a bonus.
8. The proportions of men and women getting Benefit in Kind.
9. Temp Contract mean gender pay gap in hourly pay.
10. Temp Contract median gender pay gap in hourly pay.
11. The proportion of men and women in each of four pay quartiles.

Gender Pay Reporting Metrics							
	Mean Gender Pay Gap %	Median Gender Pay Gap %	Mean Male Hourly Pay	Mean Female Hourly Pay	Median Male Hourly Pay	Median Female Hourly Pay	
Mean and Median Hourly Gender Pay Gap % =	3.3%	-3.6%	£16.44	£15.35	£12.81	£13.27	
	Mean Bonus Gender Pay Gap %	Median Bonus Gender Pay Gap %	Mean Male Bonus Pay	Mean Female Bonus Pay	Median Male Bonus Pay	Median Female Bonus Pay	
Mean and Median Bonus Gender Pay Gap % =	19.4%	20.2%	£5,855.38	£4,838.88	£2,433.83	£2,588.88	
	Part Time EE Mean Gender Pay Gap %	Part Time EE Median Gender Pay Gap %	Part Time EE Mean Male Hourly Pay	Part Time EE Mean Female Hourly Pay	Part Time EE Median Male Hourly Pay	Part Time EE Median Female Hourly Pay	
Part Time EE Mean and Median Hourly Gender Pay Gap % =	3.3%	-3.6%	£16.44	£15.35	£12.81	£13.27	
	Temp Contracts Mean Gender Pay Gap %	Temp Contracts Median Gender Pay Gap %	Temp Contracts Mean Male Hourly Pay	Temp Contracts Mean Female Hourly Pay	Temp Contracts Median Male Hourly Pay	Temp Contracts Median Female Hourly Pay	
Temp Contracts Mean and Median Hourly Gender Pay Gap % =	3.3%	-3.6%	£16.44	£15.35	£12.81	£13.27	
	% of Males Receiving Bonus	% of Females Receiving Bonus	# of Males Receiving Bonus	# of Females Receiving Bonus	# of Males Receiving Bonus	# of Females Receiving Bonus	
% of Males & Females Receiving Bonus =	50.0%	50.0%	18	18	5	5	
	% of Males Receiving BIK	% of Females Receiving BIK	# of Males Receiving BIK	# of Females Receiving BIK	# of Males Receiving BIK	# of Females Receiving BIK	
% of Males & Females Receiving BIK =	60.0%	40.0%	18	18	5	4	
	Quartile	Male	Female	Quartile Ranking System			
% of Males & Females in Each Quartile =	A(Upper)	20%	20%	5			
	B(UpperMiddle)	60%	40%	10			
	C(LowerMiddle)	40%	60%	15			
	D(Lower)	20%	80%	20			

Note:

The formulas may need to be modified to exclude employees, pull in bonuses (possibly more than one column needed), additional columns etc. As this varies from company to company, the user needs to specify these in the formula bar to suit their bespoke reporting needs.

5.1. Data Updates Required

The data extract of the Insight report is the raw data for the Gender Pay Gap return.

Users will need to review/amend data extracted for various items still including the following:

#	Area	Comment
1	External Payrolls	Combine Payrolls processed by other users or processed elsewhere
2	Employee Inclusion	Review workforce to determine who to include/exclude
3	Review Rewards	Payments outside the system, e.g., one4all vouchers, shares must be included.
4	Review Bonus	Bonus paid related to the reporting year? If not, adjustment required.
5	Rule for Part Time Employees	A rule needs to be identified to calculate the required mean/medium for part time employees.
6	Rule for Temp Contract Employees	A rule needs to be identified to calculate the required mean/medium for Temp contract employees.
7	Hours	Amend Hours where Employee work less than full period Amend Hours where Employees work Irregular Hours. The 12-week hours average is not included in the current extract – identify relevant employees who fall into this category and determine approach to update.
8	General Review	Identify anomalies or further adjustments required

6. Scheduling the Gender Pay Gap Report to Run

An option is available via XD Insight allowing you to schedule when you wish to run/receive the Gender Pay Report and who receives the report.

6.1. Sharing Reports

Reports that you create in XD Insight can be shared with other XD users. These are available to them on their *Insight > Home screen*, on the *All Reports* list. These can be identified as reports where their own name is not set as the *Report Owner*.

My Recent Reports		All Reports			
Search Reports		All Reports			
Report Name	Report Owner	Last Edited	Shared	Viewed	
Current Allowances					
Current Allowances	Declan Carey	23-Apr-2021	0	54	
Current Deductions	Declan Carey		0	25

SAVE

When a report is shared with another user, they receive a notification in the *Notification Centre* as seen on the image below.

The screenshot displays the 'Manager Dashboard' interface. At the top, there is a blue header bar with a hamburger menu icon, the text 'Manager Dashboard', a search bar labeled 'Search Dashboards or Widgets', and a notification bell icon with a red '2' badge. A red arrow points to the notification bell. Below the header, the main content area is divided into two sections. On the left, under the heading 'My Team', there is a table listing team members. On the right, a 'Notifications' dropdown menu is open, showing two notifications. The first notification, from Declan Carey (DC), is titled 'New Insight Shared Report' and is highlighted with a red border. The second notification, from Trevor Hemmings (TH), is titled 'Path to Great'. The team list table has columns for 'Name, Department, Job Title' and 'Position'. The notifications list shows the user's name, the notification title, and the time.

6.1.1. Sharing with Employees

This option allows you to search for and select the specific employees that you wish to share the report with. You can select one or many employees.

To share a report with specific employees:

1. Select the option **Share with Employee** tab.
2. Search for the employee(s) required. This is the full list of employees on the system.
3. Add them to the *Selected Recipients* list by using the arrows buttons.
4. Click **Save**.

The screenshot shows the 'Share/Schedule' interface with two tabs: 'Share with employee' (active) and 'Share with org role/group'. The 'Available Recipients' list on the left contains three entries: Adara Goodman (000162), Alan Connolly (000243), and Alan Farrell (000163). The 'Selected Recipients' list on the right contains two entries: Aimee Forster (000251) and Trevor Hemmings (000204). A red box highlights the 'Available Recipients' list. A green 'SAVE' button is at the bottom right.

Note:

- If you chose the option to **Filter by Org Role**, all employees with that organisation role for any organisational group are automatically added to the *Available Recipients* list.
- This allows you to add all people with that role, and then manually remove any people that you do not want to share the report with.
- This creates a 1-to-1 share of the report with the selected employees. However, if new employees are awarded that org role OR any of these employees have that org role revoked, those changes are not reflected here. Therefore, it is recommended that org role-based report sharing is completed using the **Sharing with org roles / group** option instead.

6.1.2. Sharing with Organisational Roles

To share a report with employees using their assigned organisational role(s):

1. Select the option **Share with org role / group**.
2. Select the org role and org group required.

The screenshot shows the 'Share/Schedule' interface. At the top, there is a breadcrumb trail: 'Insight > Current Allowances* > Share/Schedule'. Below this, there are two tabs: 'Share with employee' and 'Share with org role/group'. The 'Share with org role/group' tab is selected and highlighted with a red box. Below the tabs, there are two dropdown menus. The first dropdown is labeled 'Org Role' and has 'Reports To Manager' selected, with a red circle '1' next to it. The second dropdown is labeled 'Org Group' and has 'Work Group' selected, with a red circle '2' next to it. Below these dropdowns, there is a section titled 'Current employees with selected org role and group'. This section contains a list of employees: 'Rory Admin' (000193), 'Sarah Taylor' (000026), and 'Susan Jennings' (000039). At the bottom right of the interface, there is a green 'SAVE' button. The 'access PeopleXD' logo is visible at the bottom center.

3. Click **Save**.

Note:

- The screen updates to show all employees who currently have that org role / org group assignment. These are the employees the report is shared with e.g. all users that have the role of "Reports to Manager" for any "Work Group".
- If the employee org role / group assignments change, this is automatically picked up on the report share e.g. if an employee org role assignment is ended, they no longer see that report, if a new employee is assigned the org role / group, they automatically see that role.

6.1.3. What Report Data can Users view?

When you run a report that has been shared with you, this only shows data based on your own data access e.g.

- User 1 has access to report on Payroll data for Pay Group A.
- User 2 has access to report on Payroll data for Pay Group B.
- User 1 creates a monthly payroll report and shares with User 2.
- When each user runs the report, they see different sets of data, relative to the pay groups they have access to.

Reports can be set with different *Report Access* settings i.e.

- Administrator
- Manager
- Employee

The data returned when you run the report reflect your own access, for the Report Access type e.g.

- If Manager, this shows report data for your team
- If Employee, this shows data related to your record.
- If Administrator, this is based on your People XD data access (e.g. pay group example above).

6.2. Scheduling Reports

Scheduling a Report allows it to be sent at repeated frequencies to an XD User via an email link.

To schedule a report with specific employees:

1. Select the **Schedule** tab.

Share/Schedule

Insight > Current Allowances* > Share/Schedule

Share Schedule

This will schedule a email link for the report to the shared person

Start Date

End Date

Schedule Frequency

access PeopleXD

DELETE SAVE

2. Define when the report is to be scheduled to send. The table below gives details of the options on screen.

Field	Description
Start Date	The date from which the report starts to send.
End Date	After this date, the report is no longer sent.
Schedule Frequency	Select if the report is to be sent By Minute, Hourly, Daily, Weekly, Monthly, Yearly.
Recur Every	This is directly linked to the schedule frequency e.g. If Weekly, select the weekly recurrence e.g. every 1 week, every 2 weeks. If Hourly, select the hourly recurrence e.g. every 2 hours.
Time	Only required for Daily, Weekly and Monthly frequencies. Select the time of day the report is to be sent.
Day(s) if required	Only required for Daily, Weekly and Monthly frequencies. Select days required. Multiple days of the week can be selected e.g. you could choose to send on a Monday, Wednesday, and a Friday only.
Run report at scheduled time	This refreshes the data on the report at the stated time and day.

3. Click **Save**.

Note:

- It is recommended to schedule reports to send outside of your normal business hours.
- If you want to see the data at a point in time i.e. At 7am: the report runs to show the snapshot at that point in time and cache the data so you the data as of 7am.
- A report can only be scheduled for a max of 5 people if running at a specific time.

7. Appendix

7.1. List of Available Fields

The below fields are available in XD Insight and can be manipulated to suit the organisation's needs.

Field Name	Sample Data	Description of field
Job Title	Retention Manager	Employee job title
Position Code	123	Employee position code
Position Description	Teacher	Employee position description
Employee Id	501035	Employee Reference Number
