1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on the available XD Recruitment functions in Insight reports.

 **Note:** This guide is for reference purposes; information on how to use functions and build reports is not included.

1.2. XD Functions Overview

XD functions are standard functions built into Insight. They perform operations using the provided parameters based on XD data fields (e.g. get email address, active pension scheme appointment data etc.). XD functions enable you to define logical columns returning the data without needing knowledge of the underlying data or internal logic.

 **Note:** To avoid complexity and improve performance, it is recommended to get data directly from data views where possible. Before using functions, check to see if the desired information can be returned through the standard views and columns.

XD Functions are used in the following scenarios:

1. Abstract some of the logic for complex operations and data retrieval.
2. Getting data that may not be accessible from the views in your report (for example, employee name or email address).

-  **Note:**
- A function isn't capable of retrieving more than one information; that means if you have two different data matching the parameters, the result will be either null or one of them.
 - You will need data access to be granted for the function to return a result, for example Expense functions would only return results for the pay groups you have

1.3. List of XD functions not covered

The following functions are not covered in this document:

- RTBI_GET_MAX_PASSPORT_NO

Functions for Personnel are covered in [XD Personnel Functions – Reference Guide](#).

Functions for Payroll are covered in [XD Payroll Functions – Reference Guide](#).

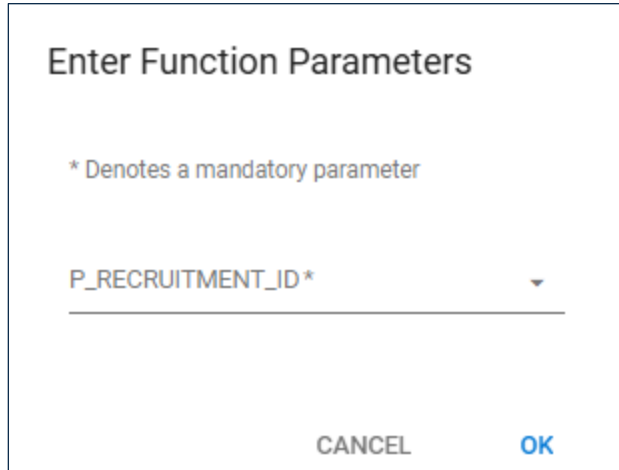

Functions for Expense are covered in [XD Expense Functions – Reference Guide](#).

Functions for Pensions are covered in [XD Pensions Functions – Reference Guide](#).

2. Recruitment

2.1.1. RTBI_CHECK_FOR_APPLICANTS

This function will return an indicator from Recruitment for the parameter entered as such:

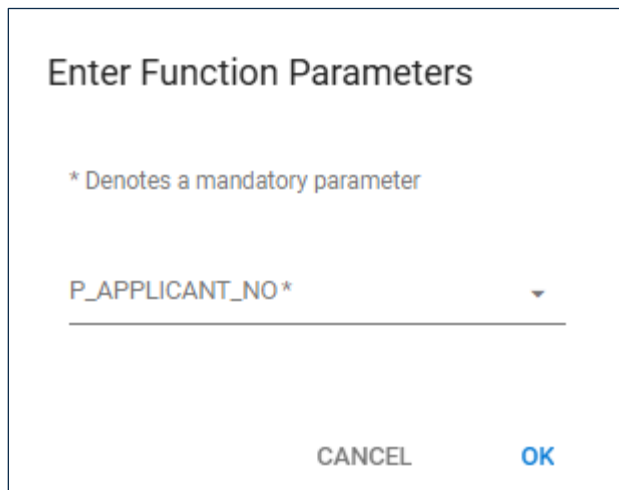

P_RECRUITMENT_ID ← Recruitment id you are looking at,

If there is at least one applicant, then the indicator will be Y, else it will be blank.

2.1.2. RTBI_GET_APPLICANT_FNAME

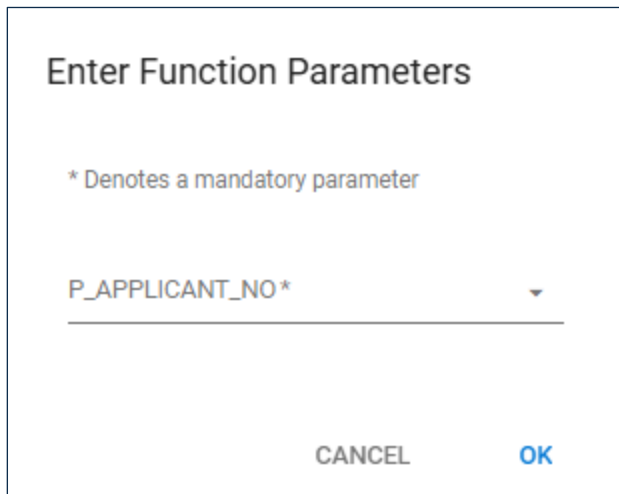

This function will return the item Forename from Recruitment for the parameter entered as such:

P_APPLICANT_NO ← Applicant Number you are looking at,

2.1.3. RTBI_GET_APPLICANT_SNAME

This function will return the item Surname from Recruitment for the parameter entered as such:

Enter Function Parameters

* Denotes a mandatory parameter

P_APPLICANT_NO*

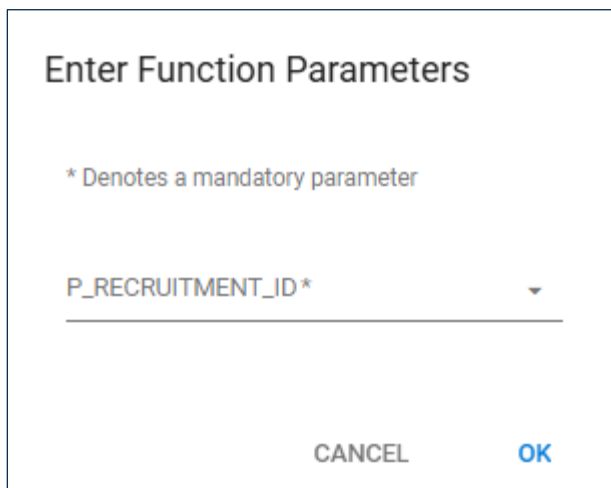

CANCEL OK

P_APPLICANT_NO ← Applicant Number you are looking at,

2.2. Competition Master

2.2.1. RTBI_GET_RECRUITMENT_DESC

This function will return the item Recruitment Description from the view Competition Master from Recruitment for the parameter entered as such:

Enter Function Parameters

* Denotes a mandatory parameter

P_RECRUITMENT_ID*

CANCEL OK

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.2.2. RTBI_GET_RECRUITMENT_TYPE

This function will return the item Recruitment Type from the view Competition Master from Recruitment for the parameter entered as such:

Enter Function Parameters

* Denotes a mandatory parameter

P_RECRUITMENT_ID*

CANCEL OK

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.2.3. RTBI_GET_RECRUIT_COST CENTRE

This function will return the item Recruitment Cost Centre from the view Competition Master from Recruitment for the parameter entered as such:

Enter Function Parameters

* Denotes a mandatory parameter

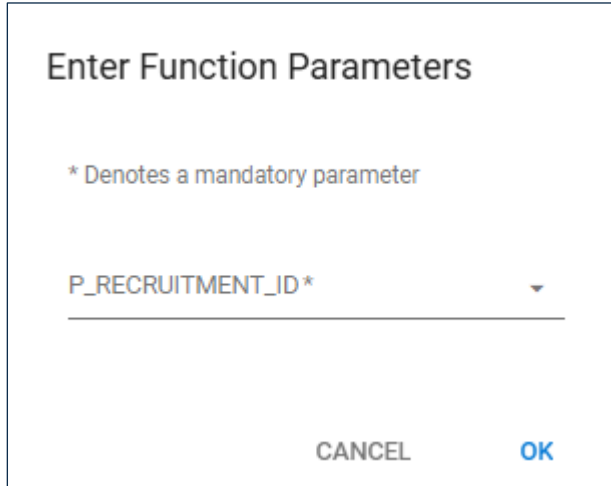

P_RECRUITMENT_ID*

CANCEL OK

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.2.4. RTBI_GET_RECRUIT_END_DATE

This function will return the item Recruitment End Date from the view Competition Master from Recruitment for the parameter entered as such:

Enter Function Parameters

* Denotes a mandatory parameter

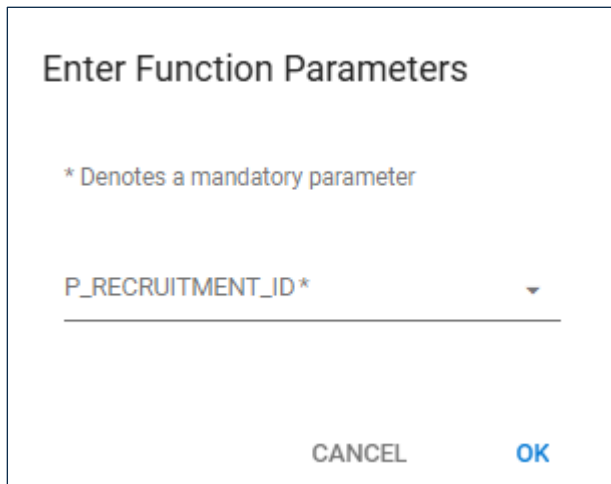

P_RECRUITMENT_ID*

CANCEL OK

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.2.5. RTBI_GET_RECRUIT_MGT_UNIT

This function will return the item Recruitment Management Unit (Code) from the view Competition Master from Recruitment for the parameter entered as such:

Enter Function Parameters

* Denotes a mandatory parameter

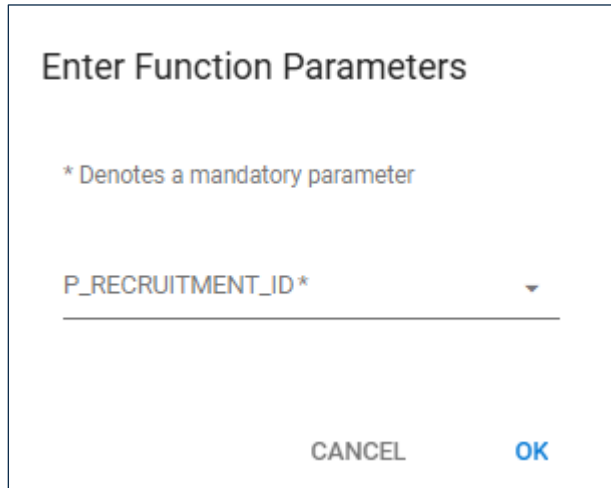

P_RECRUITMENT_ID*

CANCEL OK

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.2.6. RTBI_GET_RECRUIT_POSITION

This function will return the item Recruitment Position (Code) from the view Competition Master from Recruitment for the parameter entered as such:

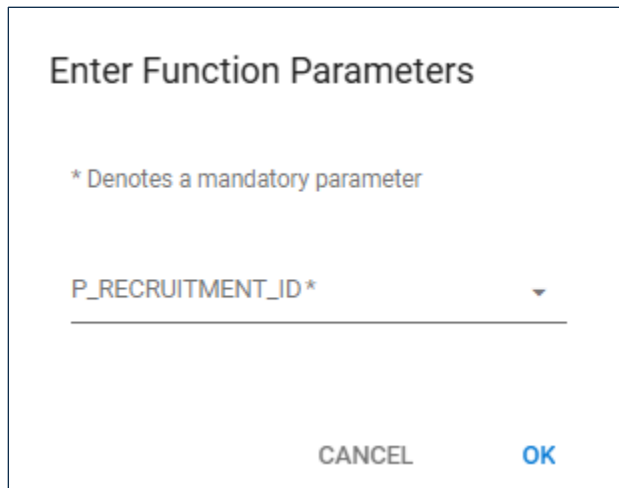

The screenshot shows a dialog box titled "Enter Function Parameters". Inside, there is a note: "* Denotes a mandatory parameter". Below this, the parameter "P_RECRUITMENT_ID*" is displayed next to a dropdown arrow. At the bottom of the dialog, there are two buttons: "CANCEL" and "OK".

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.2.7. RTBI_GET_RECRUIT_POSITION_TYPE

This function will return the item Recruitment Position Type (Code) from the view Competition Master from Recruitment for the parameter entered as such:

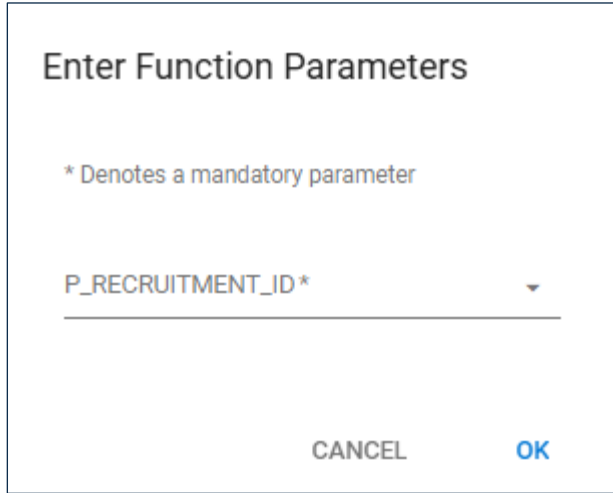

The screenshot shows a dialog box titled "Enter Function Parameters". Inside, there is a note: "* Denotes a mandatory parameter". Below this, the parameter "P_RECRUITMENT_ID*" is displayed next to a dropdown arrow. At the bottom of the dialog, there are two buttons: "CANCEL" and "OK".

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.2.8. RTBI_GET_RECRUIT_START_DATE

This function will return the item Recruitment Start Date from the view Competition Master from Recruitment for the parameter entered as such:

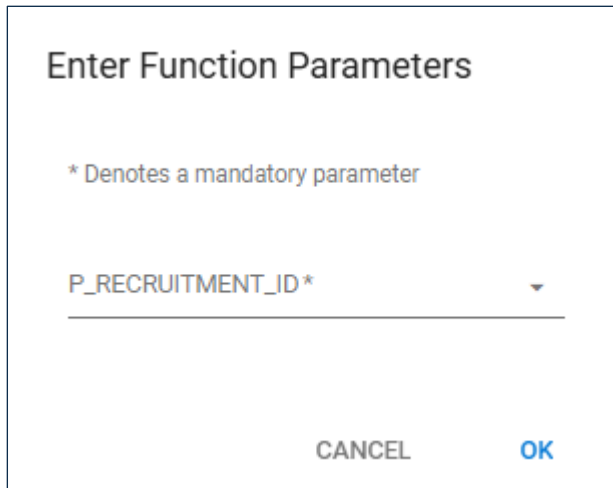

The screenshot shows a dialog box titled "Enter Function Parameters". Inside, there is a note: "* Denotes a mandatory parameter". Below this, the parameter "P_RECRUITMENT_ID*" is displayed next to a dropdown arrow. At the bottom of the dialog, there are two buttons: "CANCEL" and "OK".

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.2.9. RTBI_GET_RECRUIT_STATUS

This function will return the item Recruitment Status (Code) from the view Competition Master from Recruitment for the parameter entered as such:

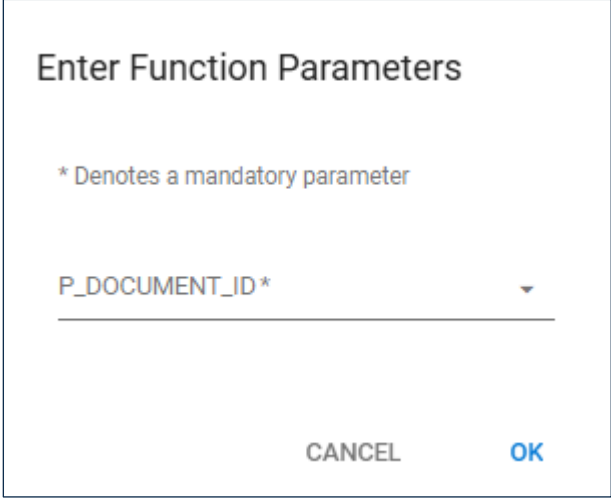

The screenshot shows a dialog box titled "Enter Function Parameters". Inside, there is a note: "* Denotes a mandatory parameter". Below this, the parameter "P_RECRUITMENT_ID*" is displayed next to a dropdown arrow. At the bottom of the dialog, there are two buttons: "CANCEL" and "OK".

P_RECRUITMENT_ID ← Recruitment id you are looking at,

2.3. HR Document Details

2.3.1. RTBI_GET_DOC_RECRUIT_ID

This function will return information from the Document Details for the parameter entered as such:

The screenshot shows a dialog box titled "Enter Function Parameters". Inside, there is a note: "* Denotes a mandatory parameter". Below this, the parameter "P_DOCUMENT_ID*" is displayed in a text field with a dropdown arrow on the right. At the bottom of the dialog, there are two buttons: "CANCEL" and "OK".

P_DOCUMENT_ID ← Document id you are looking at,

For all documents where the Key Type is RECRUITMENT_APPLICANT and the document id is agreeing the parameter, the function will return the part of the Key Value before the character '_'

That means you will retrieve the person reference, example here:

Key Value is 001202_A1831, the function will give you 001202.

2.4. Referee Status

2.4.1. RTBI_GET_REFeree_DETAILS

This function will return an item from the view Referee Status from Recruitment for the parameters entered as such:

Enter Function Parameters

* Denotes a mandatory parameter

P_CORE_ID* 

P_TYPE* 

CANCEL OK

P_CORE_ID ← Referee Core id you are looking at,

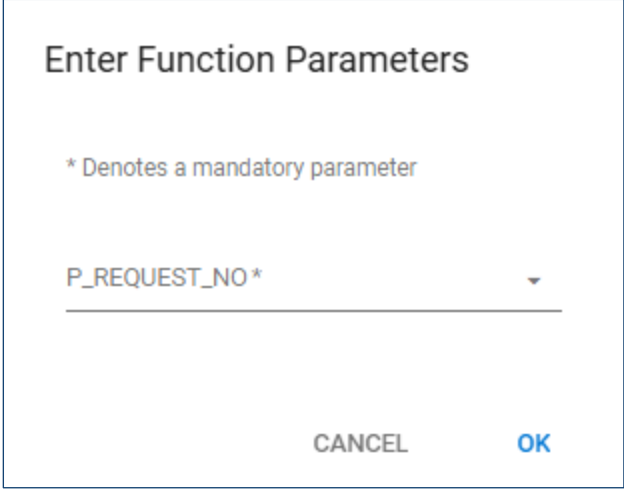

P_TYPE ← Item you want to retrieve, 'DATE' for the Status Date, Referee Status for other scenarios.

Please note that the information retrieved will be for the latest Status Date for the Referee Core Id.

2.5. Staff Requests

2.5.1. RTBI_GET_STAFF_REQ_DATE

This function will return the item Request Date from the view Staff Requests from Recruitment for the parameters entered as such:

The screenshot shows a dialog box titled "Enter Function Parameters". Inside the dialog, there is a note: "* Denotes a mandatory parameter". Below this, there is a text input field containing "P_REQUEST_NO*" with a small downward arrow to its right. At the bottom of the dialog, there are two buttons: "CANCEL" and "OK".

P_REQUEST_NO ← Request No you are looking at,
