# 1. Overview

## 1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how to process the year end for 2024 and prepare for the 2025 tax year. This document covers the following:

- Legislative rate changes as outlined in the Budget.
- Software changes introduced as part of the year end delivery.
- Tasks to complete before your Year End Cleardown task.
- Tasks to complete after your Year End Cleardown task.
- Steps required to configure your system correctly for the 2025 tax year.

## 1.2. What is Year End?

The Year End Cleardown task in Payroll completes the following tasks:

- Closes out the old tax year and moves the company into a new tax year.
- Resets the employees' cumulative figures.
- Moves the employees' cumulative figures from the completed tax year to the *End of Year* table.
- Creates a new payroll company calendar for the next two years.

The year end software delivery provides our customers with the following:

- Preloaded rate changes as outlined in the Budget.
- Software updates required to process the legislative changes set out by Revenue.

### **Note:**

Revenue reconciliations are now completed as part of the payroll process, using the *Revenue Reconciliation Service*. For further information, see the [PAYE Modernisation user guide](#).

## 2. Summary of Changes

The changes made for the 2025 tax year are outlined below, and covered in the following sections:

- [2.1. Rate Changes 2025](#)
  - [Preloaded Rates](#)
  - [Customer Configurable Rates](#)
- [2.2. Software Changes 2025](#)

### 2.1. Rate Changes 2025

#### 2.1.1. Preloaded Rates

The following rate changes are preloaded as part of the year end software. See section [5.2 Check Preloaded 2025 Rates](#) for steps on how to review.

- [PAYE Rates](#)
- [PRSI Rates](#)
- [USC Rates](#)
- [SSP Entitlement Days](#)
- [ASC Rates](#)

#### **Pay As You Earn (PAYE) 2025**

The standard rate band is increasing by €2,000 to €44,000 while the emergency cut off is increasing to €846.16 weekly and €3,666.67 per month.

| Weekly Paid          | Weekly Cut-Off Point | Weekly Tax Credit |
|----------------------|----------------------|-------------------|
| <b>Weeks 1 to 4</b>  | €846.16              | €0.00             |
| <b>Week 5 onward</b> | €0.00                | 0.00              |

| Monthly Paid           | Monthly Cut-Off | Monthly Tax Credit |
|------------------------|-----------------|--------------------|
| <b>Month 1</b>         | €3,666.67       | €0.00              |
| <b>Month 2 onwards</b> | €0.00           | €0.00              |

See section [5.2 Check Preloaded 2025 Rates](#) to check preloaded 2025 rates including PAYE.

### 2.1.2. PRSI Changes 2025

#### **Employee PRSI**

There are no further changes in employee rates of PRSI.

There is no change to the employee PRSI Credit.

#### **Employer PRSI**

There are no further changes in employer rates of PRSI.

In line with the increase in the National Minimum Wage to €13.50 per hour, the upper threshold for paying the 8.9% Class A rate of employer PRSI is being increased from €496 to €527 per week from the 1st January 2025.

#### **Note:**

- All PRSI rates will increase by a further 0.1% on 1 October 2025.
- The Department of Social Protection have advised that a Revised Advance Notice will be circulated mid-2025 with these changes. Once that has been issued, we will provide an update to include the October rates.

See [section 2.2.5. PRSI Class Instruction via Revenue Payroll Notification \(RPN\)](#) for further

Last year, the Government introduced legislation raising the upper age limit for PRSI exemption from 66 to 70 years, effective from 1st January 2024. This change applied to both employee and employer PRSI liabilities and affects the PRSI class used for some employees.

However, a key challenge with this requirement was that employers might not always be aware if an individual is receiving the State Pension Contributory (SPC).

To address this, Revenue has updated the 2025 RPNs to include a new field to provide instruction confirming whether an employee is in receipt of SPC. This will assist employers in determining the appropriate PRSI class to assign. Users will need to review and potentially amend the PRSI Class for their employees flagged as being in receipt of the SPC.

See [section 2.2.5. SPC field via Revenue Payroll Notification \(RPN\)](#) for further details.

## Universal Social Charge (USC) Changes 2025

The Minister announced changes to the USC rates and thresholds:

- The middle rate of USC fell from 4% to 3%.
- The entry point for this rate will increase by €1,622, in line with the increase to NMW, so it will apply to income between €27,382 and €70,044.

### Standard Rates of USC:

Changes to rates and thresholds are in **bold**.

| USC Rate             | 2024 USC Rate Bands  | 2025 USC Rate Bands         |
|----------------------|----------------------|-----------------------------|
| <b>Rate 1 – 0.5%</b> | €0 – €12,012         | €0 – €12,012                |
| <b>Rate 2 – 2%</b>   | €12,012.01 – €25,760 | €12,012.01 – <b>€27,382</b> |
| <b>Rate 3 – 4%</b>   | €25,760.01 – €70,044 | N/A                         |
| <b>Rate 3 – 3%</b>   | N/A                  | <b>€27,382.01</b> – €70,044 |
| <b>Rate 4 – 8%</b>   | Income above €70,044 | Income above €70,044        |

Employee USC thresholds will be updated once Employers retrieve the Revenue Payroll Notifications (RPNs). Revenue expect the 2025 RPNs to be available from the 9<sup>th</sup> December.

### ASC Changes 2025

The Additional Superannuation Rates for 2025 remain the same as the 2024 rates. These rates are preloaded into the system as part of the year end release.

All Public Servants – 2021 onwards:

| All Staff – 2021 onwards<br>Standard Accrual Group | All Staff – 2021 onwards<br>Fast Accrual Group | All Staff – 2021 onwards<br>Single Scheme Group |
|----------------------------------------------------|------------------------------------------------|-------------------------------------------------|
| First €34,500 @ 0%                                 | First €28,750 @ 0%                             | First €34,500 @ 0%                              |
| Next €25,500 @ 10%                                 | Next €31,250 @ 10%                             | Next €25,500 @ 3.33%                            |
| Balance @ 10.5%                                    | Balance @ 10.5%                                | Balance @ 3.5%                                  |

See section [5.2 Check Preloaded 2025 Rates](#) to check preloaded 2025 rates including ASC.

### 2.1.3. Customer Configurable Rates

The following rates are not preloaded as part of the year end software delivery. See section [5.3 Update 2025 Rates – Configuration Required](#) for steps on how to update.

- [OAP Rates](#)
- [Social Welfare Rates](#)
- [National Minimum Wage](#)

#### **OAP & Social Welfare Rates 2025**

The maximum rate of all weekly social welfare payments (including Old Age Pension) will increase by €12 to €289.30 from January 2025.

See section [5.3 Update 2025 Rates – Configuration Required](#) for steps users need to take to update the Old Age Pension and Social Welfare Rates on the Payroll and Pension system.

#### **National Minimum Wage 2025**

The NMW will increase by 80c from €12.70 to €13.50 per hour. This change comes into effect for hours worked on or after 1st January 2025.

You will need to review pay scales to ensure compliance with the new national minimum wage and update the rate in the system for the minimum wage warning report and the CSO Module.

Further information on how to do this is covered in the below sections:

- [5.3.3. Update the Minimum Wage Rates in the CSO Module](#)
- [5.3.4. Update Minimum Wage HR Warning in HR](#)

### 2.2. Software Changes 2025

In addition to the Tax Rates outlined above the following changes were also announced:

#### 2.2.1. Statutory Sick Pay Entitlement Days

In line with the Sick Leave Bill 2022, statutory sick paid leave entitlement was expected to increase from five to seven days, effective 1st January 2025. However earlier this year, the Department advised that this would be frozen at five days as part of measures to protect employers from rising costs. This freeze was not confirmed in the recent budget though so we have reached out to the Department of Social Protection, which has yet to confirm the final decision.

Once confirmed, we will provide an update on the paid SSP days. Until then, the paid SSP entitlement remains at the current five days.

See section [5.2.4. SSP Entitlement Days](#) for further details.

#### 2.2.2. PRSI Class Instruction via Revenue Payroll Notification (RPN)

Legislation was introduced by the Government last year to change the upper age limit for PRSI exemption from 66 years to 70 years with effect from 1<sup>st</sup> Jan 2024. This applied to both the employee and the employer PRSI liability. This legislation impacts on the PRSI Class to be used for some employees.

This change applies to all persons, with the exception of the following categories:

1. People who are in receipt of State Pension (Contributory). People may attain this status on/after reaching 66 years. Once SPC is in payment the person's earning are not subject to PRSI.
2. People who have already reached 66 years of age by 01/01/2024 i.e. those born before 01/01/1958.

Anyone who falls into either of these categories will continue to be exempt from PRSI.

### What does this mean?

The below table explains what the impact of this requirement means for employees.

| Class    | Person Born before/after 1 <sup>st</sup> Jan 1958 | Current Class Under 66 | Current Class After 66 | From 2024, Class After 66 - Not SPC Drawdown | From 2024, Class After 66 - SPC Drawdown | PRSI Class Post Age 70 |
|----------|---------------------------------------------------|------------------------|------------------------|----------------------------------------------|------------------------------------------|------------------------|
| <b>A</b> | Before                                            | A                      | J                      | J                                            | J                                        | J                      |
|          | After                                             | A                      | J                      | A                                            | J                                        | J                      |
| <b>S</b> | Before                                            | S                      | M                      | M                                            | M                                        | M                      |
|          | After                                             | S                      | M                      | S                                            | M                                        | M                      |

To support this, Revenue and the Department of Social Protection are introducing a change from the 2025 RPNs onward to populate a new field in the Revenue Payroll Notification (RPN) sent to Employers for Employees whom are in receipt of the State Pension Contributory (SPC)

1. Employers will be required to review the PRSI Class for employees that are marked as in receipt of the State Pension Contribution. If they meet the required criteria then you will need to update the employees' PRSI Class.
2. Users should review the [PeopleXD Payroll: Revenue Payroll Notification \(RPN\) Back Office - user guide](#) which outlines the detail of how the new SPC field works in the People XD system.

### 2.2.3. Small Benefit Exemption

In the budget the Minister announced the increase to the Small Benefit Exemption limit from €1,000 to €1,500 per annum per employee.

The number of benefits an employer may give has also increased from the current limit of two to five. These benefits must be non-cash and must not exceed an aggregate value of €1,500 in a tax year.

There are no software changes required for this.

### 2.2.4. Extension of lower rates of Benefit in Kind

The Minister maintained the following measures relating to the Benefit in kind (BIK) tax for lower CO2 emission vehicles:

- The temporary universal relief of €10,000 to the original market value (OMV) of a vehicle was extended by a further year to 31st December 2025.
- The existing €35,000 OMV reduction for electric vehicles (EVs) was extended for 2025.
- The 4,000-kilometre reduction in the highest mileage band was extended until 31st December 2025.
- Taken together with the extension of the universal OMV relief of €10,000, an employee with a company EV will continue to see an overall benefit-in-kind OMV relief of €45,000 in 2025.

### 2.2.5. SEPA – ISO20022

As part of ongoing regulatory updates, SEPA (Single Euro Payments Area) is introducing changes aimed at enhancing payment processing across Europe. A significant element of this upgrade is the transition to more structured payment data, which will streamline transactions and improve accuracy. Please note that the deadline for full compliance with ISO 20022 for cross-border transactions via SWIFT is November 2025. However, most banks will require adoption by October 2025 to comply with the European Central Bank (ECB) and TARGET2 system deadlines.

This transition will result in an updated SEPA bank file format. While the majority of the changes are technical and will occur automatically once users switch to the new SEPA method, there is a new structured address reporting requirement which may necessitate data cleaning of address information. This is due to the new requirement that, where reporting addresses, they will need to be reported in a structured format. The address structure is configurable and can vary Bank to Bank depending on their requirements.

| Illustration of unstructured vs. structured address data (example for SCT transaction):                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Unstructured address                                                                                                                                                                                                                                                                                                        | Structured address                                                                                                                                                                                                                                                                                                                                                                                                            |
| <div>&lt;Dbtr&gt;<br/>    &lt;Nm&gt;PETRA DUPONT&lt;/Nm&gt;<br/>    &lt;PstlAdr&gt;<br/>        &lt;Ctry&gt;BE&lt;/Ctry&gt;<br/>        &lt;AdrLine&gt;  CITY  HALL  GROTE  MARKT<br/>          1&lt;/AdrLine&gt;<br/>        &lt;AdrLine&gt;1000 BRUSSELS&lt;/AdrLine&gt;<br/>    &lt;PstlAdr&gt;<br/>  &lt;Dbtr&gt;</div> | <div>&lt;Dbtr&gt;<br/>    &lt;Nm&gt;PETRA DUPONT&lt;/Nm&gt;<br/>    &lt;PstlAdr&gt;<br/>        &lt;StrtNm&gt;GROTE MARKT&lt;/StrtNm&gt;<br/>        &lt;BldgNb&gt;1&lt;/BldgNb&gt;<br/>        &lt;BldgNm&gt;CITY HALL&lt;/BldgNm&gt;<br/>        &lt;PstlCd&gt;1000&lt;/PstlCd&gt;<br/>        &lt;TwnNm&gt;BRUSSELS&lt;/TwnNm&gt;<br/>        &lt;Ctry&gt;BE&lt;/Ctry&gt;<br/>    &lt;PstlAdr&gt;<br/>  &lt;Dbtr&gt;</div> |

We have developed the software for this new SEPA method and will begin communicating details about a SEPA implementation project in Q1 2025. This project will guide the rollout of the updated SEPA solution, ensuring your systems are prepared and compliant. Further details of our SEPA solution and instructions on how to transition to this new SEPA method will be included in our 2025 communications.

Banks are likely to increase their push for adoption to the new SEPA standards throughout next year so we also recommend that employers should review any other internal systems used for making payments, as they may also be impacted by these changes. For example, please check with your accounting or financial systems and verify with them their plans for the updates needed to maintain SEPA compliance.

2.2.6. Auto Enrolment

Auto Enrolment in Ireland is due to be introduced in 2025. The Department have announced 30<sup>th</sup> September 2025 as the go live date.

We will provide further updates early next year, once we have clearer direction from the Department on their official timelines.

Please keep an eye out for additional communications from us regarding the steps you'll need to take to prepare for this important change. In the meantime, you can review the webinar overview on Auto Enrolment that we hosted in October here: [PeopleXD Irish Auto Enrolment](#)

### 2.2.7. Single Pension Scheme (SPS) reporting via Payroll Submissions

The Department of Public Expenditure and Reform is working with Revenue to introduce a requirement to report specific Single Pension Scheme (SPS) information in every payroll run via the Payroll Submission Return (PSR) (PAYE Modernisation).

The five new data items that will need to be reported are:

- Gross Pensionable Remuneration (GPR)
- Net Pensionable Remuneration (NPR)
- Full Time Equivalent (FTE) / Work Pattern
- Lump Sum Referable Amounts Accrued
- Pension Referable Amounts Accrued

To achieve this, clarification and standardization of how Single Pension Scheme calculations are managed across all relevant employers will be required. The Department has been conducting several workshops in recent months to address this.

Currently, the requirement is set to go live in January 2026. We have requested an extension to January 2027 to allow sufficient time for software development and to ensure employers can adopt the necessary calculation changes and plan for the new processes required between Pension and Payroll departments, as this information will be reported in every payroll run.

We have not yet received confirmation on the extension request, so the official deadline remains January 2026. We will provide an update if there are any changes.

We anticipate this will be a major project for 2025 either way. Further updates on this will be coming in 2025.

### 3. Pre Year End Cleardown

Revenue reconciliations are now completed as part of the payroll process, using the *Revenue Reconciliation Service*. For further information, see the [PAYE Modernisation user guide](#).

**Note:**

The *Pre Year End Data Check Report* is no longer required for reconciliation purposes.

#### 3.1. Pre-requisites to Running the Year End Cleardown

Before proceeding with the year end cleardown:

- Ensure all the company's payrolls are complete for the current tax year, i.e., all pay groups.
- Ensure your I.T team have a database backup. This is required in the unlikely event that you wish to rollback.

**Note:**

A database back up is already in place for customers hosted by PeopleXD.

- Ensure all *Payroll Submission Files* are transferred to Revenue, and Revenue returns are reconciled.
- If public sector, run the [Pre Year End ASC Listing Report](#).

#### 3.2. Year End Cleardown Checklist

These steps are intended as a checklist which can be printed and used as a reference while completing the year end cleardown tasks. Ensure you are familiar with the guidance provided on how to complete each task.

| # | Task                                                               | Action                                                                                                                                                     | Done<br>Y/N |
|---|--------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| 1 | PAYE Modernisation payroll tasks.                                  | Ensure all <i>Payroll Submission Files</i> are transferred to Revenue, and returns are reconciled, see the <a href="#">PAYE Modernisation user guide</a> . |             |
| 2 | Run the ASC – Pre Year End Data Check Report (public sector only). | Run the ASC – Pre Year End Data Check Report, see section <a href="#">ASC – Pre Year End Data Check Report</a> .                                           |             |

| #                                                                                                                                                                                                                                                                                            | Task                                                   | Action                                                                                                                                                                                                                                  | Done<br>Y/N |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|

### 3.3. ASC – Pre Year End Data Check Report

**Note:**

- Public sector payrolls only.
- The *ASC – Pre Year End Data Check Report* allows you to check the employees' *ASCable Pay* and *ASC Paid* for their current and previous employments.

To run the *Pre Year End ASC Listing Report* from the *Pre Year End Data Check Listing* Screen.

1. Go to *CorePay > Update > Advanced Update Features > Year End Update > Pre-Year End Data Check*.

2. Enter a **Company Reference** or click  and select a company.
3. Click **ASC**.

The ASC – *Pre Year End Data Check PDF Report* opens.

**Note:**

The ASC – *Pre Year End Data Check Report* only provides details for employees in pay groups to which you have access.

### 3.4. Exporting the Database

**Note:**

An export of your database must be performed **before the Year End Cleardown**. Clients on Exa Data platforms do not need to complete this step.

Important points to note:

- Ensure your I.T. team have taken a backup from the night before.
- This is required in the unlikely event that you wish to rollback.
- It is the customer's responsibility to perform this step to ensure a backup is available if required.

## 4. Year End Cleardown

### ! **Reminder:**

Before running this step, it is vital to make sure the database has been exported. Clients on Exa Data platforms do not need to complete this step.

### 4.1. What is the Year End Cleardown?

The Year End Cleardown task completes the following:

- Moves the payroll company into a new tax year.
- Clears down the cumulatives for all employees.
- Moves the cumulative figures from the completed tax year to the *End of Year* table.
- Creates a payroll calendar for the two next years.

### 4.2. Run the Year End Cleardown

To complete the Year End Cleardown process:

1. Go to *CorePay > Update > Advance Update Features > Year End Update > Year End Cleardown*.
2. Enter a **Company Reference**, or click  and select a company.  
All pay groups for the company are listed, their pay frequency and last completed period display.
3. Ensure that all pay groups are complete for the tax year.
4. Click **OK**.

| Pay Group | Description      | Status | Frequency | Period |
|-----------|------------------|--------|-----------|--------|
| 2022      | Irish YE Monthly |        | M         | 2022S2 |
| 22        | Irish YE Weekly  |        | W         | 2022S2 |
|           |                  |        |           |        |
|           |                  |        |           |        |
|           |                  |        |           |        |
|           |                  |        |           |        |

The following message displays.

5. You can check the status of the PAYE520 job by going to the *CorePay > Reference > Pay Group* screen.

### 4.3. Troubleshooting the Year End Cleardown and FAQs

#### 4.3.1. All Company Processing has not yet Been Completed

A common error encountered during the Year End Cleardown is "All company processing has not yet been completed."

To resolve this, use the following steps:

1. Check that all your pay groups are completed for the tax year.
2. Go to *CorePay > Reference > Payroll Parameters*.

3. Enter a **Company Code** or click  and select a company.
4. Click  to execute the query.
5. Ensure the payroll period and the number of pay weeks match, i.e., if there are 52 payroll weeks, then the payroll period is 202552. If there are 53 payroll weeks and the payroll period is set to 202552, update the payroll period to 202553.
6. Click **Save**.

### 4.3.2. Unable to Clear Down Twice in One Year

Another common error encountered during the Year End Cleardown is "Unable to clear down twice in one year".

This error occurs when the Year End Cleardown task has been completed within the last 12 months. You will need to [raise a case](#) using the customer support portal to resolve this.

### 4.3.3. Does the Final Payroll of the Year Need to be Completed Before Year End Software can be Applied?

No, the software can be applied before the final payroll period has been completed.

### 4.3.4. Should the Payroll Calendar Setup be Checked Starting the New Tax Year?

Yes, before starting the new tax year, make any required changes to the payroll calendar. Changing the payroll calendar midyear can lead to the incorrect calculation of arrears payments.

### 4.3.5. How do I Insert a Week 53 into the Payroll Calendar?

1. Select *CorePay > Reference > Payroll Calendar*.
2. Enter a **Company Reference** or click  and select a company.
3. To add an extra week, click .
4. On the same line enter in the week number, in the format of YYYY53.
5. Enter the **Week End Date** of the payroll period.
6. Fill in the **Production Week** this should be the same as *Week Number*.
7. Set the **Monthly Indicator** to Y for week 52, and N for week 53.

 **Note:** This is of particular relevance for Public Sector, ASC paying clients

8. To correct the dates for 2025, click on **Build/Rebuild year**. The base year should be 2024.

9. Review the calendar again making sure the week end dates are correct for the next year.

#### **4.3.6. Should the *Payroll Period* on the *Payroll Parameter* Screen Display Payroll Period 52 After the Year End Clear Down?**

Yes, it will show payroll period 52, not payroll period 01.

To view the payroll period field:

1. Go to *CorePay > Reference > Payroll Parameters*.
2. Enter a **Company reference** and press **Enter/Tab**.

## 5. Post Year End Cleardown Tasks

### 5.1. Review the Company Calendar

Once the Year End Cleardown has completed, check the company payroll calendar and the offset days set on the pay groups linked to that company. If a 53<sup>rd</sup> week is required, then the company calendar may need to be realigned.

To check the payroll calendar:

1. Go to *CorePay > Reference > Payroll Calendar*.
2. Enter a **Company Reference** or click  and select a company.

| Week Number | Tax Period | Calendar Period | Week End Date | Production Week | Mth. Seq. | Qtr. Seq. | F/Ntly Ind. | 4 Wkly Ind. | Monthly Ind. | Multi Run |
|-------------|------------|-----------------|---------------|-----------------|-----------|-----------|-------------|-------------|--------------|-----------|
|-------------|------------|-----------------|---------------|-----------------|-----------|-----------|-------------|-------------|--------------|-----------|

3. Review the *Week End Date* on the calendar to ensure the calendar is set up correctly. [Check Pay Group Offset Days](#) if applicable, as well as the other key fields, such as the tax period and monthly indicator.

#### **Note:**

- It is critical that any return for the tax year relates to a payment made in the same tax year.
- Monthly payrolls always use the calendar month, not the week end date, i.e., the payroll period ends on the last day of the month.

4. Review the payment indicators e.g., Mth Seq, Qtr Seq, F/Ntly Ind, 4 Wkly Ind, Monthly Ind to ensure they are correctly aligned.
5. Add or remove a 53<sup>rd</sup>, 54<sup>th</sup> or 56<sup>th</sup> week if required – See section [How do I Insert Week 53 into the Payroll Calendar?](#) This can be done at any stage during the year.

#### **Note:**

If you do add a week 53 to the calendar it is important that you also update the payroll period in the *CorePay > Reference > Payroll Parameters* screen. See section [All Company Processing has not yet Been Completed.](#)

### 5.1.1. Check Pay Group Offset Days

Once the Year End Cleardown is complete, review your pay group offset days. Offset days are used to adjust a pay group's week end date, if it differs from the week end date on the company calendar. The offset days may need to change if you add a week 53, 54 or 56 to the company calendar.

To check pay group offset days:

1. Go to *CorePay > Reference > Pay Groups*.
2. Enter a **Pay Group** or click  and select a Pay Group.
3. Click the  to execute the query.
4. Click the  to go to page 2.
5. If required, update the **Offset Days** field and click **OK**.

### 5.1.2. Report Expected Number of Pay Periods

It is now mandatory to report the expected number of pay periods for each pay group in your Payroll.

#### **Note:**

- By default, if nothing is selected, Payroll reports 52 weeks, 26 fortnights, or 13 four-weekly periods depending on the pay frequency.
- No selection is required for monthly pay groups.

Action is required for weekly, fortnightly, and 4-weekly pay groups where week 53, week 54, or week 56 scenarios are set to arise in the current tax year. Revenue uses this information to determine if a "Week One" or "Cumulative" RPN is issued when an employee moves jobs or pay frequencies.

Follow the below steps:

1. Go to *CorePay > Update > PAYE Modernisation*.
2. Double click option **02 – Pay Group Parameters** from the menu.

| Pay Group | Description                   | Agent TAIN | Shadow Payroll           | Previous Periods         | Expected Pay Periods | Exclude Pay Group        | Bulk Transfer            |
|-----------|-------------------------------|------------|--------------------------|--------------------------|----------------------|--------------------------|--------------------------|
| 1         | 1 - Monthly Payroll (Uk)      |            | <input type="checkbox"/> | <input type="checkbox"/> | 13                   | <input type="checkbox"/> | <input type="checkbox"/> |
| 2         | 2 - Monthly (Uk)              |            | <input type="checkbox"/> | <input type="checkbox"/> | 14                   | <input type="checkbox"/> | <input type="checkbox"/> |
| 3         | 3 - Weekly (Uk)               |            | <input type="checkbox"/> | <input type="checkbox"/> | 26                   | <input type="checkbox"/> | <input type="checkbox"/> |
| 4         | 4 - Monthly (Ire)             |            | <input type="checkbox"/> | <input type="checkbox"/> | 27                   | <input type="checkbox"/> | <input type="checkbox"/> |
| 10        | 10 - Irish Monthly            |            | <input type="checkbox"/> | <input type="checkbox"/> | 52                   | <input type="checkbox"/> | <input type="checkbox"/> |
| 11        | 11 - Irish Weekly             |            | <input type="checkbox"/> | <input type="checkbox"/> | 53                   | <input type="checkbox"/> | <input type="checkbox"/> |
| 22        | 22 - Monthly (Uk)             |            | <input type="checkbox"/> | <input type="checkbox"/> |                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 23        | 23 - Monthly (Uk)             |            | <input type="checkbox"/> | <input type="checkbox"/> |                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 96        | 96 - Monthly (Uk)             |            | <input type="checkbox"/> | <input type="checkbox"/> |                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 97        | 97 - Monthly (Uk)             |            | <input type="checkbox"/> | <input type="checkbox"/> |                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 98        | 98 - Reversals Monthly (Uk)   |            | <input type="checkbox"/> | <input type="checkbox"/> |                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 99        | 99 - Monthly (Uk) - Reversals |            | <input type="checkbox"/> | <input type="checkbox"/> |                      | <input type="checkbox"/> | <input type="checkbox"/> |

3. Select the **Expected Pay Periods** from the drop-down list so Payroll can output this value on the *Payment Submission File*.

- 14 (If a 14<sup>th</sup> 4-weekly pay period is expected for 2025, i.e., pay date lands on the 01<sup>st</sup> January).
- 27 (If a fortnight 27 is expected for 2025, i.e., pay date lands on the 01<sup>st</sup> January).
- 53 (If a week 53 is expected for 2025, i.e., pay date lands on the 01<sup>st</sup> January).

### 5.2. Check Preloaded 2025 Rates

#### **Note:**

- The new PAYE, PRSI, USC and ASC rates are loaded as part of the year end delivery.
- It is the responsibility of each customer to review and confirm that the rates are correct on the system. If for any reason the rates are incorrect or not loaded, please raise a support case through the PeopleXD Community.

#### 5.2.1. Check PAYE Rates

The new emergency weekly cut-off point is €846.16

The new emergency monthly cut-off point is €3,666.67

| Weekly Paid          | Weekly Cut-Off Point | Weekly Tax Credit |
|----------------------|----------------------|-------------------|
| <b>Weeks 1 to 4</b>  | €846.16              | €0.00             |
| <b>Week 5 onward</b> | €0.00                | 0.00              |

| Monthly Paid           | Monthly Cut-Off | Monthly Tax Credit |
|------------------------|-----------------|--------------------|
| <b>Month 1</b>         | €3,666.67       | €0.00              |
| <b>Month 2 onwards</b> | €0.00           | €0.00              |

To check the PAYE rates loaded as part of the year end software delivery.

1. Go to CorePay > Reference > PAYE Rates.

2. Enter **2025** in the *Year Number* field and press **Enter/Tab**.
3. Review the rates displayed.

## 5.2.2. Check PRSI Rates

To check the PRSI rates loaded as part of the year end software delivery:

1. Go to *CorePay > Reference > PRSI Rates*.

2. Enter **2025** in the *Year Number* field and press **Enter/Tab**.
3. Review the rates displayed.

## 5.2.3. Check USC Rates

The Minister announced changes to the USC rates and thresholds:

- The middle rate of USC fell from 4% to 3%.
- The entry point for this rate will increase by €1,622, in line with the increase to NMW, so it will apply to income between €27,382 and €70,044.

### Standard Rates of USC:

Changes to rates and thresholds are in **bold**.

| USC Rate             | 2024 USC Rate Bands  | 2025 USC Rate Bands         |
|----------------------|----------------------|-----------------------------|
| <b>Rate 1 – 0.5%</b> | €0 – €12,012         | €0 – €12,012                |
| <b>Rate 2 – 2%</b>   | €12,012.01 – €25,760 | €12,012.01 – <b>€27,382</b> |
| <b>Rate 3 – 4%</b>   | €25,760.01 – €70,044 | N/A                         |
| <b>Rate 3 – 3%</b>   | N/A                  | <b>€27,382.01</b> – €70,044 |
| <b>Rate 4 – 8%</b>   | Income above €70,044 | Income above €70,044        |

USC operates in the same manner as PAYE, varying by employee:

- Employers are advised of these rates and COPs, along with the calculation basis on the Revenue Payroll Notification (RPN).
- Employers should not alter from the RPN instruction.

To check the USC rates loaded as part of the year end software delivery:

1. Click the **USC** button.
2. Enter **2025** in the *Year Number* field and press **Enter/Tab**.

3. Review the rates displayed.

### 5.2.4. SSP Entitlement Days

In line with the Sick Leave Bill 2022, statutory sick paid leave entitlement was expected to increase from five to seven days, effective 1st January 2025. However earlier this year, the Department advised that this would be frozen at five days as part of measures to protect employers from rising costs. This freeze was not confirmed in the recent budget though so we have reached out to the Department of Social Protection, which has yet to confirm the final decision.

Once confirmed, we will provide an update on the paid SSP days. Until then, the paid SSP entitlement remains at the current five days.

For sites using the PeopleXD Payroll SSP module, this is preloaded into the system. To review this:

1. Go to *Settings > Irish Statutory Sick Pay Settings*.
2. On the **System Parameters** tab, review the rows.

Note: The system uses the paid SSP days for the most recent tax year if a row for the current year does not exist.

| Irish Statutory Sick Pay Settings                                                                                                                                                                         |          |                  |                 |             |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|------------------|-----------------|-------------|
| Payroll Dashboard > Irish Statutory Sick Pay Settings                                                                                                                                                     |          |                  |                 |             |
| <div> <span>&lt;</span> <span>System Parameters</span> <span>Payment Parameters</span> <span>Pay Codes</span> <span>General</span> <span>Pay Groups</span> <span>Employee</span> <span>&gt;</span> </div> |          |                  |                 |             |
| <div>ADD STATUTORY SICK PAY PARAMETER</div>                                                                                                                                                               |          |                  |                 |             |
| Date Effective                                                                                                                                                                                            | SSP Days | Qualifying Weeks | Payment Percent | Max Payment |
| 01-Jan-2023                                                                                                                                                                                               | 3        | 13               | 70              | 110         |
| 01-Jan-2024                                                                                                                                                                                               | 5        | 13               | 70              | 110         |

#### Note:

The Statutory Sick Pay configuration screen is available on portal only.

### 5.2.5. Check Additional Superannuation Contribution (ASC) Rates

**Note:**

Public Sector only.

The Additional Superannuation Rates for 2025 remain the same as used in 2024.

To check the ASC rates loaded as part of the year end software delivery:

1. Go to *CorePay > Reference > PRSI Rates*.
2. Click **ASC**.
3. Click  and select an ASC Status.
4. Enter **2025** in the *Year Number* field and press **Enter/Tab**.

| PRSI Rule           |                     |                      |                      |                             |
|---------------------|---------------------|----------------------|----------------------|-----------------------------|
| Min Weekly Earnings | Max Weekly Earnings | Min Monthly Earnings | Max Monthly Earnings | PRSI Tapered Credit Divisor |
| 352.01              | 424.00              | 1525.38              | 1837.33              | 6                           |
| 352.01              | 424.00              | 1525.38              | 1837.33              | 6                           |

5. Check the rates displayed:
  - a. Fast Accrual Pension
  - b. Covered Single Scheme
  - c. Standard Accrual Pension

### 5.3. Update 2025 Rates – Configuration Required

**Note:**

It is the responsibility of each client update the new OAP, Social Welfare and Minimum Wage rates. Please see the PeopleXD Year End Communication for the correct rates for the new tax year.

#### 5.3.1. Update the OAP Rates

The maximum rate of all weekly social welfare payments (including Old Age Pension) will increase by €12 to €289.30 from January 2025.

To update OAP rates:

1. Go to *CorePay > Reference > Advanced Reference Features > Reference K-P > Old Age Pension Rates*

| Date Effective | Weekly Value |           | Monthly Value |           |
|----------------|--------------|-----------|---------------|-----------|
|                | Standard     | Job Share | Standard      | Job Share |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |
|                |              |           |               |           |

Pension Tax Limits... PRSA Tax Limits...

2. Click the magnifying glass icon to enter entry mode.
3. Fill in the new OAP Rates.
4. Click **Save**.

### **Note:**

For customers using PeopleXD Pension, the OAP rates also need to be updated in the following screen:

- *CorePension > Reference > Pension Social Welfare Rates.*

### 5.3.2. Update Social Welfare Rates

### **Note:**

It is the responsibility of each customer update the new Social Welfare rates.

The January 2025 updates for social welfare rates are: €289.30

To update the social welfare rates:

1. Go to *CorePay > Reference > Advanced Reference Features > Q-Z > Social Welfare Rates.*

| Code | Description | Rate(Tax) | Rate(Non Tax) | Date Effective |
|------|-------------|-----------|---------------|----------------|
|      |             |           |               |                |
|      |             |           |               |                |
|      |             |           |               |                |
|      |             |           |               |                |
|      |             |           |               |                |
|      |             |           |               |                |
|      |             |           |               |                |
|      |             |           |               |                |
|      |             |           |               |                |

2. Enter a **Year** in the *Year Number* field and press **Enter/Tab**.
3. Enter/Update the Rates.
4. Click **Save**.

### 5.3.3. Update the Minimum Wage Rates in the CSO Module

#### **Note:**

- This section is only relevant to clients using the CSO module.
- You need to time this change correctly, do not make the change before Q1 2025.

The NMW will increase by 80c from €12.70 to €13.50 per hour. This change comes into effect for hours worked on or after 1st January 2025.

You need to update the NMW rate under the CSO Module before the next Quarter return is made.

1. Select *CorePay > Core CSO > EHECS/NES > Generate EHECS* return.
2. Double click **01-Setup Parameters** from the *Select Detail* menu.

3. Update the **National Minimum Wage** field to the revised value.

7. Close the *Setup Parameters* window to save the change.

### 5.3.4. Update Minimum Wage HR Warning in HR

To access the Wage Warning Setup screen:

1. Navigate to *People Management > Data Centre*.
2. Open the **HR Admin Setup Settings** option.
3. Search for and click on **Wage Warning Setup**.

Wage Warning Setup

People Management > HR Admin Setup Settings > Wage Warning Setup

Minimum Wage Living Wage Apprentice Wage

National Minimum Wage Warning Active

ADD

| Date Effective | Age From | Hourly Rate | Country Code |        |
|----------------|----------|-------------|--------------|--------|
|                |          |             | Ireland      | DELETE |
|                |          |             | Ireland      | DELETE |

4. Use the tabs to create the new wage warnings as required.

#### **Note:**

For details on how to add a HR wage warning, see the [Wage Warning](#) user guide.

## 5.4. RPNs for the 2025 Tax Year

### 5.4.1. Overview

You need to request 2025 RPNs for all employees, under each employer registration number, for the first payroll run of 2025. If you receive no 2025 RPN for an employee, you cannot use the 2024 RPN. Revenue expect to make the 2025 RPNS available for employers at the start of December.

#### **Note:**

If no 2025 RPN is available, Payroll operates PAYE and USC an emergency basis.

#### 5.4.2. Exemption Orders

An employee with an exemption order reverts to an emergency basis for tax and USC until a 2025 RPN is retrieved. See *CorePay > Employee > Maintain Employee Details*.

#### 5.4.3. Exclusion Orders

Where an employee has an exclusion order applied, continue to apply the exclusion order until you receive a new RPN for the employee. If the employee is on a “single year” tax cert exclusion order, they revert to the emergency basic until a 2025 RPN is applied.

Review the *Exclusion Order* indicator for all employees:

1. Go to *CorePay > Update > PAYE Modernisation*.
2. Double click **04 – Employee Parameters** from the menu.
3. Ensure the **Exclusion Order** indicator is selected for employees to which exclusion orders have been received.
4. Click **OK**.

The screenshot shows two overlapping windows. The top window is titled 'PAYE Modernisation' and contains a 'Generate/Transfer' section with a 'Generate Submission File' dropdown menu. A red arrow points from this dropdown to a list of options: '01 - Pay Code Parameters', '02 - Pay Group Parameters', '03 - Pension Scheme Parameters', '04 - Employee Parameters', and '05 - PAYE Modernisation Parameters'. The bottom window is titled 'Employee Parameters' and displays a table of employee data. The table has the following columns: Employee, Name, Director, PRSI Exempt, PRSI Exemption Reason, Exclude Employee, Bulk Transfer Exclusion, Exclusion Order, and EWSS. The 'Exclusion Order' column is highlighted with a red rectangular box. The table lists several employees, including Joe Bloggs, John Ryan, Ann Simpson, Tom Jones, Joseph Tyndall, Jessica Stone, Alice Jones, and Michael Hurley.

| Employee | Name           | Director | PRSI Exempt              | PRSI Exemption Reason | Exclude Employee         | Bulk Transfer Exclusion  | Exclusion Order          | EWSS                     |
|----------|----------------|----------|--------------------------|-----------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 000003   | Joe Bloggs     |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 000004   | John Ryan      |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 000005   | Ann Simpson    |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 000006   | Tom Jones      |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 000007   | Joseph Tyndall |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 000008   | Jessica Stone  |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 000013   | Alice Jones    |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 000019   | Michael Hurley |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

#### 5.4.4. RPN call for 2024 in 2025

From 01st January 2025, it is no longer be possible to call 2024 RPNs. This change applies to both services, retrieving RPNs and creating new RPNs.

### 5.4.5. Revenue Payroll Notifications (RPNs)

Retrieve your new 2025 Revenue Payroll Notifications (RPNs) from Revenue before running your first payroll of 2025. To do this:

Go to *CorePay > ROS Interface > Load Employee PAYE Certificates* and run the following:

1. Retrieve New Employee RPNs.
  - Ensure the *Company Date Last Updated* is left blank.
2. Print Revenue Exceptions.
3. Maintain Employee RPNs.
4. Update Employee RPNs.
5. Ensure the *Company Date Last Updated* is left blank.

#### **Note:**

For further information on the RPN process, see the [PeopleXD Payroll: Revenue Payroll Notification \(RPN\) Back Office - user guide](#).

### 5.5. **Review PAYE Modernisation Configuration**

Before processing payrolls for the new tax year, complete a review of existing PAYE Modernisation configuration steps to ensure the configuration is up to date. See the *How to Configure* section of the [PAYE Modernisation](#) user guide.

The parameters are all located on the *CorePay > Update > PAYE Modernisation* screen. Review the following to ensure that the configuration is up to date:

- 01 - Pay Code Parameters
- 02 - Pay Group Parameters

- 03 - Pension Parameters
- 04 - Employee Parameters

### 5.5.1. Map Pan European Pension Scheme Pay Codes

You are required to complete a pay code mapping on the system to identify what Pay Code(s) are used for the deduction of contributions on PAN European Personal Pension schemes.

To do this:

1. Go to *CorePay > Update > PAYE Modernisation*.
2. Double click **01 – Pay Code Parameters** from the menu.
3. Select **PAN European Pension Type** from the *Pension Type* list.

4. Click **OK**.

### 5.5.2. 01 – Pay Code Parameters – Review Required

Follow the below steps:

1. Go to *CorePay > Update > PAYE Modernisation*.
2. Double click **01 – Pay Code Parameters** from the menu.

- This includes a list of all *Pay Codes* in Payroll and a set of parameters to be updated for each as required. *Pay Code* information captured here outputs for employees on the *Payroll Submission File*.

| Pay Code | Description       | Taxable Lump Sum         | Non Taxable Lump Sum     | Share Based Remuneration | EE AVC                   | Taxable Benefit          | Medical Insurance        | Previous Year Recoupment | Pension Type |
|----------|-------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------|
| 30       | Scaled Test       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |              |
| 625      | Advance Misc      | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |              |
| 1000     | Salary            | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |              |
| 1001     | Additional Salary | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |              |

- Review the parameters attached to each pay code.
- Click **OK** if you make any changes.

This below table describes each parameter and guidance on when it is required:

| Data Item                       | Description                                                                                                                           | When is this Required?                                                                                                                                                                           |
|---------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Taxable Lump Sum</b>         | For <i>Pay Codes</i> where a lump sum is being paid, and an amount of the taxable lump sum is included in <i>Pay for Income Tax</i> . | For any company where such <i>Pay Codes</i> are relevant, this parameter is mandatory.<br><br>When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates. |
| <b>Non-Taxable Lump Sum</b>     | For <i>Pay Codes</i> where a lump sum is being paid, and an amount of the lump sum is not included in <i>Pay for Income Tax</i> .     | For any company where such <i>Pay Codes</i> are relevant, this parameter is mandatory.<br><br>When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates. |
| <b>EE AVC</b>                   | Additional Voluntary Contribution (AVC) <i>Pay Code</i> assigned to the employee.                                                     | When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates.                                                                                               |
| <b>Share-Based Remuneration</b> | <i>Pay Codes</i> where an employee's remuneration consists of shares in the company and is included in <i>Gross Pay</i> .             | For any company where such <i>Pay Codes</i> are relevant, this parameter is mandatory.                                                                                                           |

| Data Item                       | Description                                                                                                                                  | When is this Required?                                                                                                                                                                                                                                                                                                                 |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                 |                                                                                                                                              | When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates.                                                                                                                                                                                                                                     |
| <b>Taxable Benefit</b>          | These <i>Pay Codes</i> consist of the amount of non-cash benefits provided to the employee included in <i>Gross Pay</i> , e.g., company car. | For any company where such <i>Pay Codes</i> are relevant, this parameter is mandatory.<br><br>When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates.                                                                                                                                       |
| <b>Medical Insurance</b>        | Medical Insurance BIK must be associated with relevant <i>Pay Codes</i> .                                                                    | Enable for the <i>Pay Codes</i> that are part of <i>Medical Insurance BIK</i> .                                                                                                                                                                                                                                                        |
| <b>Pension Type</b>             | The <i>Pension Type</i> must be associated with the relevant <i>Pay Codes</i> .                                                              | Enable for the relevant <i>Pay Codes</i> .<br><br>Set the Pension Types are as follows:<br>B - Retirement Benefit Scheme<br>P - PRSA<br>A - Retirement Annuity Contract                                                                                                                                                                |
| <b>Previous Year Recoupment</b> | This <i>Previous Year Recoupment</i> indicator is to be used with a new pay code only.                                                       | The gross overpayment is deducted from net pay where an employee is "Living". This gross value is not output on the payroll submission file, and the tax liability remains between the employee and Revenue.<br><br>See the <i>Managing Corrections</i> section of the <a href="#">PAYE Modernisation</a> user guide for more details. |

## 5.5.3. 02 – Pay Group Parameters – Update Required

Follow the below steps:

1. Go to *CorePay > Update > PAYE Modernisation*.
2. Double click **02 – Pay Group Parameters** from the menu.
3. Review the parameters attached to each pay group.
4. Click **OK** if you make any changes.

## Expected Pay Periods – Year End Configuration Required

It is now mandatory to report the number of expected pay periods in your Payroll Submission File.

See section [Report Expected Number of Pay Periods](#).

**Review Pay Group Parameter**

This below table describes each parameter and guidance on when it is required:

| Data Item                | Description                                                                                                                                                                                                                                                | When is this Required?                                                                                                                                                                                                                                                                         |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Agent TAIN</b>        | <p>The TAIN (Tax Advisor Identification Number) parameter is used to identify the agent submitting returns on behalf of the employer.</p> <p>This ensures there is an established link between the employer and agent for the relevant payroll period.</p> | <p>Set this parameter to enabled where an agent is running payroll on behalf of an employer.</p> <p>The agent must enter their <i>Agent TAIN</i> number for their pay groups.</p>                                                                                                              |
| <b>Shadow Payroll</b>    | This parameter is used to indicate if the pay group is running for a <i>Shadow Payroll</i> .                                                                                                                                                               | Enable this parameter to run a <i>Shadow Payroll</i> .                                                                                                                                                                                                                                         |
| <b>Previous Periods</b>  | This parameter is used to indicate if the pay group can be run for <i>Previous Periods</i> .                                                                                                                                                               | Set this parameter to enabled to delete a previous period submission file.                                                                                                                                                                                                                     |
| <b>Exclude Pay Group</b> | This parameter is used if the pay group is to be excluded from PAYE Modernisation.                                                                                                                                                                         | This disables the <i>PAYE Modernisation Validation Checks</i> for this pay group, i.e., there is no requirement to submit the Payroll Submission for the current period before running payroll jobs in the next payroll period.                                                                |
| <b>Bulk Transfer</b>     | Used in conjunction with Revenue Bulk Transfer of employment functionality. Requires pre-approval.                                                                                                                                                         | Only after permission is received from Revenue & Core to use the Bulk Transfer of employment functionality. This results in a bulk move of employees between tax registered companies with no start/end dates reported in the final file from old pay group and first file from new pay group. |

#### 5.5.4. **03 – Pension Scheme Parameters – Review Required**

Follow the below steps:

1. Go to *CorePay > Update > PAYE Modernisation*.
2. Double click **03 – Pension Scheme Parameters** from the menu.
3. Review **Pension Tracing Numbers** assigned to pension schemes.
4. Click **OK** if you make any changes.

| Pension Scheme | Description                            | Pension Tracing Number |
|----------------|----------------------------------------|------------------------|
| 1              | LOCAL GOVERNMENT PENSION SCHEME (LGPS) | PB577                  |
| 2              | TEACHERS PENSION SCHEME (TPS)          |                        |
| 3              | UNIVERSAL SUPERANNUATION SCHEME (USS)  | PB123456               |
| 4              | AVC PENSION SCHEME                     |                        |
| 5              | NEST                                   |                        |

#### 5.5.5. **04 – Employee Parameters – Review Required**

Follow the below steps:

1. Go to *CorePay > Update > PAYE Modernisation*.
2. Double click **04 – Employee Parameters** from the menu.

| Employee | Name            | Director | PRSI Exempt              | PRSI Exemption Reason | Exclude Employee         | Bulk Transfer Exclusion  | Exclusion Order          | EWSS                     |

| 000045   | Claire Atkinson |          | <input type="checkbox"/> |                       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

3. Review the **Directorship** and **PRSI exempt** status of employees.
  - a. If an employee is exempt from PRSI. Select the appropriate reason from the drop-down menu.
4. Enable **Exclude Employee** if an employee is to be excluded from a Payroll Submission.

5. Enable **Bulk Transfer Exclusion** if you are doing a bulk transfer for this pay group but need the employee start/end dates to be sent to revenue as they are a starter/leaver.
6. Ensure the **Exclusion Order** indicator is enabled for employees to which exclusion orders have been received.
7. Enable the **EWSS** indicator is enabled for employees on the Employee Wage Subsidy Scheme.
8. Click **OK** if you make any changes.

### 5.6. Post Year End ASC Returns

 **Note:** Public sector payrolls only.

While P35s and P60s were replaced under the PAYE Modernisation system, organisations processing public sector payrolls still need to produce ASC forms. Further information on ASC is available in the ASC user guide.

#### 5.6.1. ASC Annual Report

Use these steps to generate/print the ASC35s:

1. Go to *CorePay > Update > Advanced Update Features > Year End Update > Generate P35*.

The 'Generate P35s' dialog box contains the following elements:

- NOTE:** The P35 will only contain data relating to pay groups you have access to.
- Company:** A text input field with a yellow highlight.
- Pay Group:** A text input field with a yellow highlight.
- Location:** A text input field with a yellow highlight.
- Year:** A text input field.
- P35 Form Version:** A dropdown menu set to '15'.
- Output:** A section with a 'Return Type' dropdown menu set to 'O' - Original'.
- Employee Type(s):** Radio buttons for 'All' (selected), 'Non Exempt', and 'Exempt'.
- Browse:** A button next to a text input field for file selection.
- OK** and **Cancel** buttons at the bottom.

2. Enter a **Company Reference** or click  and select a company.
3. Enter a **Pay Group Code** or leave blank to generate for all pay groups.

4. Enter or select a **Location**. This is a work location, NOT an input location or leave the field blank to generate for all locations.
5. Select a **Return Type** from the drop-down list:
  - a. **O** - Select if generating the original/first ASC35 file. All records are included in the output file and report.
  - b. **A** - Select if generating an amended/supplementary file to be sent to ROS. Only the employee records with 'A' or 'S' are extracted and produced on the ASC35.
6. Select an **Employee Type**:
  - a. **All** - The file/report includes all employees regardless of tax exemption status.
  - b. **Non-Exempt** - The file/report only includes employees whose tax exemption status is 'Not Exempt'.
  - c. **Exempt** - The file/report only includes employees whose tax exemption status is 'Exempt Normal PRSI' or 'Reduced PRSI'.
7. Click **ASC Annual Report**
8. The ASC35 report generates.

### 5.6.2. Generate ASC60s

For the tax year 2024, you can produce the following certs:

- ASC60 Cert
- ASC60 Amended Cert

To generate ASC60s:

1. Go to *CorePay > Update > Advanced Update Features > Year End Update > Generate P60s*.

**P60 Details**

NOTE: The P60's will only contain data relating to pay groups you have access to.

Company:

Pay Group:

Location:

Employee Reference:

Stationery Date: 10-NOV-2023

Year:

Extra Pay Days: ☐

Generate Labels: ☐

2009 Income Levy Cert. USC Certificate PRD60 Cert. PRD60 Supplementary Cert.

ASC60 Cert. Amended ASC60 Cert.

Format: ☒ Template ☐ Laser ☐ Duplex

Release Portal P60s

OK Cancel

2. Enter a **Company Reference** or click  and select a company.
3. Enter a **Pay Group Code** or leave blank to generate for all pay groups.
4. Enter or select a **Location**. This is a work location, NOT an input location or leave the field blank to generate for all locations.
5. Enter the **Employee Reference** or click  to select an employee. Leave the field blank to retrieve ASC60s for all employees.
6. Click on **ASC60 Cert** to produce an ASC60 cert the employees.
7. To format the ASC60 Print Order, select **Template**.
  - It is recommended you use the default template.

**P60 Print Order**

Order:  INPUT LOCATION

PAY GROUP

**Paper Type**

☐ A4 ☒ Duplex

**Copies**

☒ 1 ☐ 2

Print P60's as Gaelige ☐ Print Home Address ☒

Exclude Exempt Employees ☐ Left Align Address ☐

Additional Address Information:  PAY GROUP

COST CENTRE

Print Descriptions ☒

Print Zero Paid P60'S ☒

8. Select a maximum of 5 items to determine the print order for the ASC60 from the following list:
  - Category
  - Cost Centre
  - Employee Reference
  - Forename
  - Input Location
  - Location
  - Pay Group
  - Pay Method
  - Payslip Location
  - Surname
9. Check the **Print P60s as Gaelige** indicator if you require the ASC60 form is in Irish.
10. Close the Template window.
11. Click **ASC60 Cert** to generate ASC60s.

**Note:**

- The ASC60s generate and automatically open on the screen in a PDF format, allowing you to print the document.
- The ASC60s are released to the Employee Self Service Portal and made available to view and download in the PRD Certs widget.
- The PRD60 Cert widget contains, as well as the newly issued ASC60, all of the employees' old PRD60 certs generated on PeopleXD.
- Use the Language pack if you wish to update the name of the PRD60 Certs widget, e.g., update the name to ASC60 Certs. See section [Employee Self Service ASC60 & ASC60As](#).

Below is an example of an ASC60 Cert opened from the PRD60 Certs widget. Note how the employee has the option to view the ASC60 Cert in Irish.

### Additional Superannuation Contribution Details

Below are the details of the Additional Superannuation Contribution made in previous employments and in this employment during the year

|                                                                                                                                                           |                                                                                                                                                           |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gross Pensionable Income for Additional Superannuation Contribution for Previous Employments in this year<br><div style="text-align: right;">€ 0.00</div> | Gross Pensionable Income for Additional Superannuation Contribution for this Employment in this year<br><div style="text-align: right;">€ 49,314.86</div> |
| Amount of Additional Superannuation Contribution made for previous employments in this year<br><div style="text-align: right;">€ 0.00</div>               | Amount of Additional Superannuation Contribution made for this employment<br><div style="text-align: right;">€ 2,056.51</div>                             |

Please insert total of all gross pensionable incomes and Additional Superannuation Contribution made in all previous employments in this year in the first column. Where an employee had more than one period of employment with the same employer in the year, please insert the **gross pensionable income** and Additional Superannuation Contribution figures for the latest period of employment **only** in the second column.

### Employer Details

I certify that the particulars entered above are correct.

|                       |                            |
|-----------------------|----------------------------|
| Employer              | Employer Registered Number |
| 2114 - IRISH YEAR END | A546                       |
| Address               | Phone Number               |
| 59 Tilly Mews         | N/A                        |
| Carlow                | E-mail                     |
| Carlow                | N/A                        |
| Signature             | Date                       |
|                       | 3rd November 2021          |

**Employer**  
This certificate is to be given to the employee.

**Employee**  
This is a certificate of the Additional Superannuation Contribution made in previous employments and in this employment and in this current year to the end of the year. Please retain carefully.

**PLEASE PRINT THIS CERTIFICATE OR COMPLETE IN BLOCK CAPITALS**

## 5.6.3. Amend an Employee's ASC Cumulatives

If there is a subsequent change to the figures provided to an employee on an ASC60, then provide an ASC60A.

Firstly, update the cumulative figures for the year to which the change relates.

1. Go to *CorePay > Update > Advanced Update Features > Year End Update > Maintain Year End Cumulative Details*.
2. Enter an **Employee Reference** or click  to select an employee.
3. Click  to execute the query.
4. Populate the *ASC Form Type* field to 'A' for Amended.

Recalculate ASC Subsidiary Details

7. If a Subsidiary Employment ASC60 has been received.

- a. Click on **Subsidiary Details**.

**ASC Subsidiary Details**

**Subsidiary Employment Details for Re-Balancing ASC**

(Only enter the details here if you receive a ASC60S from your employee)

|                                                            |         |
|------------------------------------------------------------|---------|
| Total ASCABLE pay all Subsidiary Employments (ASC60S)      | 1000.00 |
| Total ASC Deducted for all Subsidiary Employments (ASC60S) | 100.65  |

- b. Enter the figures from the *Subsidiary Employment ASC60* and close the screen.

8. Click **Save**.

**Note:**

Any ASC amendments require a manual calculation.

### 5.6.4. Generate ASC60As

To generate an ASC60A:

1. Follow steps 1 to 5 in section [Generate ASC60s](#).
2. Click **Amended ASC60 Cert** to produce an ASC60A cert for the employee.

The ASC60A form opens in a pdf format.

#### **Note:**

- The ASC60As generate and automatically open on the screen in a PDF format, allowing you to print the document.
- The ASC60As are released to the Employee Self Service Portal and made available to view and download in the PRD60 Certs widget.
- The ASC60A replaces the ASC60 for the year to which it relates in the PRD60 Certs widget.
- The PRD60 Cert widget contains, as well as the newly issued ASC60A, all of the

Below is an example of an ASC60A cert opened from the PRD60 Certs widget.

#### **Note:**

There is an option for the employee to view the ASC60A cert in Irish.

### Employer

This certificate is to be given to the employee.

### Employee

This is a certificate of the Additional Superannuation Contribution made in previous employments and in this employment and in this current year to the end of the year. Please retain carefully.

**PLEASE PRINT THIS CERTIFICATE OR COMPLETE IN BLOCK CAPITALS**

### 5.6.5. Employee Self Service ASC60 & ASC60As

The ASC60 & ASC60A forms are available via the Employee Self Service using the existing PRD60 widget. If you have the PRD60 widget already configured, there is no requirement to reconfigure the Employee Dashboard in Portal.

Use the Language pack if you wish to update the name of the PRD60 Certs widget, e.g., update the name to ASC60 Certs.

To access the PeopleXD language pack:

1. Navigate to the **Administrator Dashboard** and click the **Site Manager** tab.
2. Using the *Site Manager Widget* open the **Language Pack** option.
3. Search for *PRD60 Certs* and update the *Label* field e.g. to ASC60 Certs.

Language Pack  
Administrator Dashboard > Language Pack

All labels are cached to significantly improve performance for users. Therefore, it might take some time for labels to generate and for users to see the updated text.  
Labels last generated on 22-Oct-2021 12:58:06

PRD60 Certs English

| Label       | Default Label | Updated On           |
|-------------|---------------|----------------------|
| ASC60 Certs | PRD60 Certs   | 22-Oct-2021 12:58:45 |

The PRD60 Certs widget now updates to ASC60 Certs:

#### **Note:**

For details on how to add the PRD60 Cert Widget to the Employee Dashboard, see the [Portal Payroll Employee Self Service Widgets](#) user guide.

## 6. Appendix – Work Share and Shorter Working Year

### **Note:**

The following steps are only necessary for public sector companies using the *Work Share* and *Shorter Working Year* Modules.

### 6.1. Appendix A: Work Sharing

This option enables you to record patterns and generate a work share calendar for employees.

There are two steps involved in this process:

- Record Work Share Patterns
- Apply Work Share Patterns

#### 6.1.1. Work Share Patterns

Use this option to record a new pattern or query an existing one. Note the following points:

- An employee may only have one pattern in operation at any one time. If the employee requires the new pattern, delete the old pattern first and then enter a new one.
- When recording an employee for work sharing, you must also apply the appropriate Pay Multiplier to their Position/Point required.
- This module does not generate a multiplier.

There are essentially two categories of pattern:

| Category             | Description                                                                                                                                                                                                                                                                                                                                                       |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compliant</b>     | A Compliant pattern has no impact on PRSI or Pension, and payroll processes as though no pattern or calendar exists.                                                                                                                                                                                                                                              |
| <b>Non-Compliant</b> | <p>A Non-Compliant pattern is one where an employee is on a week on / week off pattern, and each week corresponds to a PRSI week.</p> <p>Example: A Non-Compliant pattern in 2021 must start on a Friday (01st January), and the employee works from Friday to Thursday and is then off work on the next Friday to Thursday (in line with Revenue tax weeks).</p> |

| Category | Description                                                                                                             |
|----------|-------------------------------------------------------------------------------------------------------------------------|
|          | This pattern type entitles the employee to 26 credits in the year and has implications for PRSI and Pension deductions. |

### 6.1.2. Record a New Work Share Pattern

To record new work share patterns follow the below steps:

1. Go to *CorePay > Employee > Advanced Employee Features > Work Sharing > Record Work Share Patterns*:

2. Use the **Record Work Share Patterns** tab to record a new pattern type.

#### **Note:**

An employee may only have one pattern in operation at any one time. If the employee requires a new pattern, delete the old pattern first and then enter a new one.

- a. Enter the **Employee Reference**.
- b. Enter a **Start Date** for the pattern.

#### **Note:**

A Non-Complaint pattern must a line with the Revenue tax week i.e., start on 1<sup>st</sup> January and the employee must be off for one week and on for the other.

- c. Enter the **Number of Weeks** in the work pattern. The number of weeks specified must be within the agreed set of patterns.
- d. Enter an **End Date** for the pattern. This field is optional.
- e. Enter a **Default Status**:

- **W** (Working): All days in the pattern default to working days but may be amended as required.
  - **O** (Off): All days default to off days and may be amended as required.
- f. For each week select the days on/off as required.
3. Click **Save**.

#### 6.1.3. Amend a Work Share Pattern

To amend a new work share pattern, follow the below steps:

1. Go to *CorePay > Employee > Work Sharing > Record Work Share Patterns*.
2. Click the **Amend/Delete Work Share Patterns** tab to amend an existing pattern type.

3. Enter an **Employee Reference** and press **Tab/Enter**.
4. Update the reference data to amend the work share pattern.

**Note:**

A pattern may only be amended if it has not yet already been applied. If you want to change a pattern but have already applied it, then delete the pattern and record a new one. See section below [6.1.4 Delete a Work Share Pattern That has not Been Applied](#)

5. Click **Save**.

### 6.1.4. Delete a Work Share Pattern That has not Been Applied

To delete a work share pattern that has not been applied, follow the below steps:

1. Go to *CorePay > Employee > Work Sharing > Record Work Share Patterns*:
2. Click the **Amend/Delete Work Share Patterns** tab.
3. Enter an **Employee Reference** and press **Tab/Enter**.
4. Click **Delete**.

### 6.1.5. Delete a Work Share Pattern That Has Been Applied

To delete a work share pattern that has been applied, follow the below steps:

1. Go to *CorePay > Employee > Work Sharing > Record Work Share Patterns*:
2. Click the **Amend/Delete Work Share Patterns** tab.
3. Enter an **Employee Reference** and press **Tab/Enter**.
4. Click **Delete**.
5. A confirmation message displays - Calendar already exists for this pattern do you want to continue with deletion.
6. Click **YES**.

### 6.1.6. Apply Work Share Patterns

Once recorded, a work share pattern must be applied. You may record and apply patterns at any time even if you have already applied other patterns.

**Note:**

- This generates a calendar in the background which is used when processing payroll. For payroll calculation, a calendar is only significant when the pattern is non-Compliant.
- If the pattern is never subsequently changed, the system creates a further 12-month calendar at the end of the first year and repeats the process in the subsequent years.

To apply work share patterns, follow the below steps:

1. Go to *CorePay > Employee > Work Sharing > Generate Work Patterns*.

2. Enter the **Pay Group** you want to apply the work share pattern for.
3. Click **OK**.
4. A confirmation message displays – Job PAY1951 submitted to task queue, task no. is X.  
Once this job has run the work pattern is applied.

## 6.2. Appendix B - Shorter Working Year (SWY)/ Parental Leave

There are three tasks associated with Shorter Working Year (SWY):

- Maintain Shorter Working Year Employees.
- Generate Shorter Working Year Transactions.
- Term Time Shorter Working Year Clear down.

### 6.2.1. Maintain Shorter Working Year Employees

All employees going on SWY must have their details recorded. To record employee details:

1. Go to *CorePay > Employee > Advanced Employee Features > Shorter Working Year > Maintain Shorter Working Year Employees*.

| Start Date | No Of Pers. | End Date | Daily Allowance | Daily Deduction | Total |
|------------|-------------|----------|-----------------|-----------------|-------|
|            |             |          |                 |                 |       |
|            |             |          |                 |                 |       |
|            |             |          |                 |                 |       |
|            |             |          |                 |                 |       |

2. Enter an **Employee Reference**.
3. Select an **Absence Type**:
  - Shorter Working Year
  - Parental Leave
4. Enter **Y** in the *Tax Rebate* field if a tax rebate is to be processed during periods of SWY or Parental Leave.
5. Enter the **Start Date** for each period of leave.
6. Enter the **Number of Periods** relating to the *Start Period*.
  - The system automatically populates the *End Date*.
7. Repeat the steps for each period of leave.
  - The remaining fields on this screen are populated by the system when you run the option *Generate Term Time Transactions*.

### 6.2.2. Generate Shorter Working Year Transactions

The Generate step can be run in trial or actual mode. PeopleXD recommends that you run it in trial mode and check your results before running in actual mode.

To run Generate Shorter Working Year Transactions:

1. Go to *CorePay > Employees > Advanced Employee Features > Shorter Work Year > Generate Shorter Working Year Transactions*.

2. Enter the **Pay Group**.
3. Enter the **Start Period** and **End Period** over which the SWY runs.
  - The start period is typically the next period in which you run payroll and may not necessarily be period 01. The end period is the last period of the year.
4. To check the calculations, select **Trial Mode** and click **OK**. You can then check the reports.

**Note:**

- When you run in trial mode, the system calculates the Deduction and Allowance values due to be created but does not create them.
- The most common problem is that you have not correctly identified the pay codes to be included in the process.
- Adjustments can be made at this stage, e.g. include/exclude specific pay codes, change the start dates or number of weeks.
- You may want to change the start dates or number of weeks.

5. Once reviewed repeat the steps, select **Actual Mode** and click **OK**.

- PeopleXD writes the Deduction and Allowance records to the system.
- The PAY7902 report generates giving you a detailed breakdown of the calculation.

### 6.2.3. Shorter Working Year End Cleardown

Run the Shorter Working Year End Cleardown once per year, to clear down previous year's transactions.

**Note:**

- The Shorter Working Year End Cleardown must be run before you begin your Shorter Working Year (SWY) process as it deletes all the (SWY) deductions and allowances for the previous year.
- You must not run the cleardown until **all** payrolls have been completed for the year. The cleardown produces a report of any balances outstanding for the year just ended.

To run the Shorter Working Year Cleardown:

1. Go to *CorePay > Employee > Advanced Employee Features > Shorter Working Year > SWY Yearend Cleardown*.

2. Enter the **Pay Group** number.
3. Click **OK**.

## 7. Frequency Asked Questions

### 7.1. Amendments

Where amendments to previously reported information are required, either before or after the Year End Cleardown, see the Corrections section of the [PAYE Modernisation user guide](#).

### 7.2. End of Year Statement

You cannot generate "End of Year Statements" on Payroll. Revenue has confirmed "End of Year Statements" will be made available to employees through "MyAccount". If an employee is unable to access MyAccount, they can request a paper statement by contacting Revenue. This includes details of your pay and deductions from all employments for that tax year.

### 7.3. Start/Leave Dates to Roll Over Year

Revenue has issued an instruction permitting the reporting of start and leave dates from a previous tax year from January 2021. This applies for all future tax years as well.

#### Example Scenarios (these apply to all future years):

##### Scenario A:

On the calendar date, 31st December 2020, an employee is updated to record a leave date of the 28th December 2020. The employee is paid for the full month of December 2020, and the recalculation is actioned January 2021.

**Result:** Revenue confirmed that it is correct to report this leave date in the January 2021 submission file.

##### Scenario B:

On the calendar date, 1<sup>st</sup> January 2021, an employee is updated to record a leave date of the 28th December 2020. The employee is paid for the full month of December 2020, and the recalculation is actioned in January 2021.

**Result:** Revenue confirmed that it is correct to report this leave date in the January 2021 submission file.

##### Scenario C:

On the calendar date, 31st December 2020, an employee is set up with a start date of the 28th December 2020. The employee is paid for the first time in January 2021.

**Result:** Revenue confirmed that it is correct to report this start date in the January 2021 submission file.

### **Scenario D:**

On the calendar date, 1st January 2021, an employee is set up with a start date of the 28th December 2020. The employee is paid for the first time in January 2021.

**Result:** Revenue confirmed that it is correct to report this start date in the January 2021 submission file.

The same principal applies for future tax years as well.

### **7.4. PAYE Modernisation – Week 53, 54 and 56**

Payroll grants Week 53, 54 and 56 tax credits, SRCOPs, and USC COPs on a "Week One" basis, i.e., employees on a "Cumulative" basis in week 52 switch to a "Week One" basis in week 53.

Assuming an updated RPN has is not received:

- Employees on a "Week One" basis in week 52, stay on the "Week One" basis in week 53.
- Employees on an "Emergency" basis in week 52, stay on the emergency basis in week 53.
- Employees with a USC exemption continue to be exempt in week 53.

### **7.5. Emergency Basis When the Payroll Year Rolls Over**

For employees on an emergency basis when payroll rolls over into a new tax year. The emergency tax "week number" count continues from the last period of the previous tax year. The Year End Cleardown populates a field called *Previous Year Emergency Weeks*.

**! Example:**

A weekly paid employee who provides their employer with a PPS number but is not registered with Revenue, i.e., no RPN available, commences work in income tax week 46 of 2022 and leaves in week 5 of 2023. The emergency basis applies throughout:

- Weeks 46, 47, 48 and 49 are the first four weeks of employment for the emergency basis.
- Weeks 50, 51 and 52 are weeks five, six and seven for the emergency basis.
- Weeks 1, 2, 3 and 4 of 2023 are weeks eight, nine, ten and eleven of the emergency basis.

To view the emergency week number count:

- Go to *CorePay > Employee > Cumulatives > Amend Cumulative Pay Details.*

**! Note:**

The emergency tax week number increments each week, starting from the date joined, regardless of whether the employee works.

## 7.6. Salary Sacrifice Pay Codes

Ensure the "Salary Sacrifice" indicator is enabled for all salary sacrifice pay codes. This step is required to ensure the correct gross pay figure is reported on your *Payroll Submission File* for employees with salary sacrifices. Not having this indicator enabled results in the understatement of Gross Pay Earnings on the *Payroll Submission File* to Revenue.

If you are required to report an amended previous PAYE Modernisation submission to Revenue to correct Gross Pay reported, this can be done using the Full Resubmission option. See the [PAYE Modernisation user guide](#) for details on how to generate a Full Resubmission file.

To review salary sacrifice pay codes:

1. Go to *CorePay > Reference > Pay Codes*.
2. Ensure that the salary sacrifice pay codes have the *Salary Sacrifice* indicator enabled.
