1.0	24 th Oct 2024	James Martin	Published to Customer Success Portal.

1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how to process the year end for 2024 and prepare for the 2025 tax year. This document covers the following:

- Legislative rate changes as outlined in the Budget.
- Software changes introduced as part of the year end delivery.
- Tasks to complete before your Year End Cleardown task.
- Tasks to complete after your Year End Cleardown task.
- Steps required to configure your system correctly for the 2025 tax year.

1.2. What is Year End?

The Year End Cleardown task in Payroll completes the following tasks:

- Closes out the old tax year and moves the company into a new tax year.
- Resets the employees' cumulative figures.
- Moves the employees' cumulative figures from the completed tax year to the *End of Year* table.
- Creates a new payroll company calendar for the next two years.

The year end software delivery provides our customers with the following:

- Preloaded rate changes as outlined in the Budget.
- Software updates required to process the legislative changes set out by Revenue.

Note:

Revenue reconciliations are now completed as part of the payroll process, using the *Revenue Reconciliation Service*. For further information, see the [PAYE Modernisation user guide](#).

2. Summary of Changes

The changes made for the 2025 tax year are outlined below, and covered in the following sections:

- [2.1. Rate Changes 2025](#)
 - [Preloaded Rates](#)
 - [Customer Configurable Rates](#)
- [2.2. Software Changes 2025](#)

2.1. Rate Changes 2025

2.1.1. [Preloaded Rates](#)

The following rate changes are preloaded as part of the year end software. See section [5.2 Check Preloaded 2025 Rates](#) for steps on how to review.

- [PAYE Rates](#)
- [PRSI Rates](#)
- [USC Rates](#)
- [SSP Entitlement Days](#)
- [ASC Rates](#)

Pay As You Earn (PAYE) 2025

The standard rate band is increasing by €2,000 to €44,000 while the emergency cut off is increasing to €846.16 weekly and €3,666.67 per month.

Weekly Paid	Weekly Cut-Off Point	Weekly Tax Credit
Weeks 1 to 4	€846.16	€0.00
Week 5 onward	€0.00	0.00

Monthly Paid	Monthly Cut-Off	Monthly Tax Credit
Month 1	€3,666.67	€0.00
Month 2 onwards	€0.00	€0.00

See section [5.2 Check Preloaded 2025 Rates](#) to check preloaded 2025 rates including PAYE.

2.1.2. PRSI Changes 2025

Employee PRSI

There are no further changes in employee rates of PRSI.

There is no change to the employee PRSI Credit.

Employer PRSI

There are no further changes in employer rates of PRSI.

In line with the increase in the National Minimum Wage to €13.50 per hour, the upper threshold for paying the 8.9% Class A rate of employer PRSI is being increased from €496 to €527 per week from the 1st of January 2025.

Note:

- All PRSI rates will increase by a further 0.1% on 1 October 2025.
- The Department of Social Protection have advised that a Revised Advance Notice will be circulated mid-2025 with these changes. Once that has been issued, we will provide an update to include the October rates.

See [section 2.2.5. PRSI Class Instruction via Revenue Payroll Notification \(RPN\)](#) for further

Last year, the Government introduced legislation raising the upper age limit for PRSI exemption from 66 to 70 years, effective from 1st January 2024. This change applied to both employee and employer PRSI liabilities and affects the PRSI class used for some employees.

However, a key challenge with this requirement was that employers might not always be aware if an individual is receiving the State Pension Contributory (SPC).

To address this, Revenue has updated the 2025 RPNs to include a new field to provide instruction confirming whether an employee is in receipt of SPC. This will assist employers in determining the appropriate PRSI class to assign. Users will need to review and potentially amend the PRSI Class for their employees flagged as being in receipt of the SPC.

See section [5.2 Check Preloaded 2025 Rates](#) to check preloaded 2025 rates including PRSI.

Universal Social Charge (USC) Changes 2025

The Minister announced changes to the USC rates and thresholds:

- The middle rate of USC fell from 4% to 3%.
- The entry point for this rate will increase by €1,622, in line with the increase to NMW, so it will apply to income between €27,382 and €70,044.

Standard Rates of USC:

Changes to rates and thresholds are in **bold**.

USC Rate	2024 USC Rate Bands	2025 USC Rate Bands
Rate 1 – 0.5%	€0 – €12,012	€0 – €12,012
Rate 2 – 2%	€12,012.01 – €25,760	€12,012.01 – €27,382
Rate 3 – 4%	€25,760.01 – €70,044	N/A
Rate 3 – 3%	N/A	€27,382.01 – €70,044
Rate 4 – 8%	Income above €70,044	Income above €70,044

Employee USC thresholds will be updated once Employers retrieve the Revenue Payroll Notifications (RPNs). Revenue expect the 2025 RPNs to be available from the 9th December.

ASC Changes 2025

The Additional Superannuation Rates for 2025 remain the same as the 2024 rates. These rates are preloaded into the system as part of the year end release.

All Public Servants – 2021 onwards:

All Staff – 2021 onwards Standard Accrual Group	All Staff – 2021 onwards Fast Accrual Group	All Staff – 2021 onwards Single Scheme Group
First €34,500 @ 0%	First €28,750 @ 0%	First €34,500 @ 0%
Next €25,500 @ 10%	Next €31,250 @ 10%	Next €25,500 @ 3.33%
Balance @ 10.5%	Balance @ 10.5%	Balance @ 3.5%

See section [5.2 Check Preloaded 2025 Rates](#) to check preloaded 2025 rates including ASC.

2.1.3. **Customer Configurable Rates**

The following rates are not preloaded as part of the year end software delivery. See section [5.3 Update 2025 Rates – Configuration Required](#) for steps on how to update these.

- [OAP Rates](#)
- [Social Welfare Rates](#)
- [National Minimum Wage](#)

OAP & Social Welfare Rates 2025

The maximum rate of all weekly social welfare payments (including Old Age Pension) will increase by €12 to €289.30 from January 2025.

See section [5.3 Update 2025 Rates – Configuration Required](#) for steps users need to take to update the Old Age Pension and Social Welfare Rates on the Payroll and Pension system.

National Minimum Wage 2025

The NMW will increase by 80c from €12.70 to €13.50 per hour. This change comes into effect for hours worked on or after 1st January 2025.

You will need to review pay scales to ensure compliance with the new national minimum wage and update the rate in the system for the minimum wage warning report and the CSO Module.

Further information on how to do this is covered in the below sections:

- [5.3.3. Update the Minimum Wage Rates in the CSO Module](#)
- [5.3.4. Update Minimum Wage HR Warning in HR](#)

2.2. Software Changes 2025

In addition to the Tax Rates outlined above the following changes were also announced as part of Budget 2025.

2.2.1. Statutory Sick Pay Entitlement Days

In line with the Sick Leave Bill 2022, statutory sick paid leave entitlement was expected to increase from five to seven days, effective 1st January 2025. However earlier this year, the Department advised that this would be frozen at five days as part of measures to protect employers from rising costs. This freeze was not confirmed in the recent budget though so we have reached out to the Department of Social Protection, which has yet to confirm the final decision.

Once confirmed, we will provide an update on the paid SSP days. Until then, the paid SSP entitlement remains at the current five days.

See section [5.2.4. SSP Entitlement Days](#) for further details.

2.2.2. PRSI Class Instruction via Revenue Payroll Notification (RPN)

Legislation was introduced by the Government last year to change the upper age limit for PRSI exemption from 66 years to 70 years with effect from 1st Jan 2024. This applied to both the employee and the employer PRSI liability. This legislation impacts on the PRSI Class to be used for some employees.

This change applies to all persons, with the exception of the following categories:

1. People who are in receipt of State Pension (Contributory). People may attain this status on/after reaching 66 years. Once SPC is in payment the person's earning are not subject to PRSI.
2. People who have already reached 66 years of age by 01/01/2024 i.e. those born before 01/01/1958.

Anyone who falls into either of these categories will continue to be exempt from PRSI.

What does this mean?

The below table explains what the impact of this requirement means for employees.

Class	Person Born before/after 1 st Jan 1958	Current Class Under 66	Current Class After 66	From 2024, Class After 66 - Not SPC Drawdown	From 2024, Class After 66 - SPC Drawdown	PRSI Class Post Age 70
A	Before	A	J	J	J	J
	After	A	J	A	J	J
S	Before	S	M	M	M	M
	After	S	M	S	M	M

To support this, Revenue and the Department of Social Protection are introducing a change from the 2025 RPNs onward to populate a new field in the Revenue Payroll Notification (RPN) sent to Employers for Employees whom are in receipt of the State Pension Contributory (SPC)

1. Employers will be required to review the PRSI Class for employees that are marked as in receipt of the State Pension Contribution. If they meet the required criteria then you will need to update the employees' PRSI Class.
2. Users should review the [PeopleXD Payroll: Revenue Payroll Notification \(RPN\) Portal - user guide](#) which outlines the detail of how the new SPC field works in the People XD system.

2.2.3. Small Benefit Exemption

In the budget the Minister announced the increase to the Small Benefit Exemption limit from €1,000 to €1,500 per annum per employee.

The number of benefits an employer may give has also increased from the current limit of two to five. These benefits must be non-cash and must not exceed an aggregate value of €1,500 in a tax year.

There are no software changes required for this.

2.2.4. Extension of lower rates of Benefit in Kind

The Minister maintained the following measures relating to the Benefit in kind (BIK) tax for lower CO2 emission vehicles:

- The temporary universal relief of €10,000 to the original market value (OMV) of a vehicle was extended by a further year to 31st December 2025.
- The existing €35,000 OMV reduction for electric vehicles (EVs) was extended for 2025.
- The 4,000-kilometre reduction in the highest mileage band was extended until 31st December 2025.
- Taken together with the extension of the universal OMV relief of €10,000, an employee with a company EV will continue to see an overall benefit-in-kind OMV relief of €45,000 in 2025.

2.2.5. SEPA – ISO20022

As part of ongoing regulatory updates, SEPA (Single Euro Payments Area) is introducing changes aimed at enhancing payment processing across Europe. A significant element of this upgrade is the transition to more structured payment data, which will streamline transactions and improve accuracy. Please note that the deadline for full compliance with ISO 20022 for cross-border transactions via SWIFT is November 2025. However, most banks will require adoption by October 2025 to comply with the European Central Bank (ECB) and TARGET2 system deadlines.

This transition will result in an updated SEPA bank file format. While the majority of the changes are technical and will occur automatically once users switch to the new SEPA method, there is a new structured address reporting requirement which may necessitate data cleaning of address information. This is due to the new requirement that, where reporting addresses, they will need to be reported in a structured format. The address structure is configurable and can vary Bank to Bank depending on their requirements.

Illustration of unstructured vs. structured address data (example for SCT transaction):	
Unstructured address	Structured address
<pre><Dbtr> <Nm>PETRA DUPONT</Nm> <PstlAdr> <Ctry>BE</Ctry> <AdrLine> CITY HALL GROTE MARKT 1</AdrLine> <AdrLine>1000 BRUSSELS</AdrLine> </PstlAdr> </Dbtr></pre>	<pre><Dbtr> <Nm>PETRA DUPONT</Nm> <PstlAdr> <StrtNm>GROTE MARKT</StrtNm> <BldgNb>1</BldgNb> <BldgNm>CITY HALL</BldgNm> <PstlCd>1000</PstlCd> <TwnNm>BRUSSELS</TwnNm> <Ctry>BE</Ctry> </PstlAdr> </Dbtr></pre>

We have developed the software for this new SEPA method and will begin communicating details about a SEPA implementation project in Q1 2025. This project will guide the rollout of the updated SEPA solution, ensuring your systems are prepared and compliant. Further details of our SEPA solution and instructions on how to transition to this new SEPA method will be included in our 2025 communications.

Banks are likely to increase their push for adoption to the new SEPA standards throughout next year so we also recommend that employers should review any other internal systems used for making payments, as they may also be impacted by these changes. For example, please check with your accounting or financial systems and verify with them their plans for the updates needed to maintain SEPA compliance.

2.2.6. Auto Enrolment

Auto Enrolment in Ireland is due to be introduced in 2025. The Department have announced 30th September 2025 as the go live date.

We will provide further updates early next year, once we have clearer direction from the Department on their official timelines.

Please keep an eye out for additional communications from us regarding the steps you'll need to take to prepare for this important change. In the meantime, you can review the webinar overview on Auto Enrolment that we hosted in October here: [PeopleXD Irish Auto Enrolment](#)

2.2.7. Single Pension Scheme (SPS) reporting via Payroll Submissions

The Department of Public Expenditure and Reform is working with Revenue to introduce a requirement to report specific Single Pension Scheme (SPS) information in every payroll run via the Payroll Submission Return (PSR) (PAYE Modernisation).

The five new data items that will need to be reported are:

- Gross Pensionable Remuneration (GPR)
- Net Pensionable Remuneration (NPR)
- Full Time Equivalent (FTE) / Work Pattern
- Lump Sum Referable Amounts Accrued
- Pension Referable Amounts Accrued

To achieve this, clarification and standardization of how Single Pension Scheme calculations are managed across all relevant employers will be required. The Department has been conducting several workshops in recent months to address this.

Currently, the requirement is set to go live in January 2026. We have requested an extension to January 2027 to allow sufficient time for software development and to ensure employers can adopt the necessary calculation changes and plan for the new processes required between Pension and Payroll departments, as this information will be reported in every payroll run.

We have not yet received confirmation on the extension request, so the official deadline remains January 2026. We will provide an update if there are any changes.

We anticipate this will be a major project for 2025 either way. Further updates on this will be coming in 2025.

3. Pre Year End Cleardown

Revenue reconciliations are now completed as part of the payroll process, using the *Revenue Reconciliation Service*. For further information, see the [PAYE Modernisation user guide](#).

**Note:**

The *Pre Year End Data Check Report* is no longer required for reconciliation purposes.

3.1. Pre-requisites to Running the Year End Cleardown

Before proceeding with the year end cleardown:

- Ensure all the company's payrolls are complete for the current tax year, i.e. all pay groups.
- Ensure your I.T team have a database backup. This is required in the unlikely event that you wish to rollback.

**Note:**

This is already in place for customers hosted by PeopleXD.

- Ensure all *Payroll Submission Files* are transferred to Revenue, and Revenue returns are reconciled.
- If public sector, run the [Pre Year End ASC Listing Report](#).

3.2. Year End Cleardown Checklist

These steps are intended as a checklist which can be printed and used as a reference while completing the year end cleardown tasks. Ensure you are familiar with the guidance provided on how to complete each task.

#	Task	Action	Done Y/N
1	PAYE Modernisation payroll tasks.	Ensure all <i>Payroll Submission Files</i> are transferred to Revenue, and returns are reconciled, see the PAYE Modernisation user guide .	
2	Run the ASC – Pre Year End Data Check Report (public sector only).	Run the ASC – Pre Year End Data Check Report, see section ASC – Pre Year End Data Check Report .	

Irish Year End 2024: Portal User Guide

#	Task	Action	Done Y/N
3	Export Database.	Export your database, see section Exporting the Database .	
4	Run Year End Cleardown.	Run the Year End Cleardown, see section Run the Year End Cleardown .	
5	Review the Payroll Calendar.	Review the payroll calendar and review the offset days set on the pay groups linked to the calendar. For example, is a 53 rd week required? See section How do I Insert a Week 53 into the Payroll Calendar?	
6	Retrieve new RPNs.	Retrieve the employees' new 2025 RPNs, which will be available from December 2024, see the PAYE Modernisation user guide.	
7	Update new RPNs.	Update the employees' new 2025 RPNs, see the PAYE Modernisation user guide .	
8	Review new PAYE, PRSI, USC & ASC Rates.	Review the new rates loaded into the system as part of the year end delivery, see section Check Preloaded 2025 Rates .	
9	Update the OAP, Minimum Wage and Social Welfare Rates.	Update the system with the new OAP, Minimum Wage and Social Welfare Rates, see section Update 2025 Rates – Configuration Required .	
10	Review PRSI Class Legislation	Review the PRSI Class legislation changes. See section PRSI Class Instruction via (RPN) .	
11	Review Record Work Pattern Steps.	If applicable, review the Record Work Pattern Steps, see section Appendix A: Work Sharing .	
12	Review Term Time/Shorter	If applicable, review the Term Time/Shorter Working Year, see section Appendix B: Shorter Working Year (SWY)/ Parental Leave .	
 Note: At this point you can proceed with payrolls for the new tax year. Complete the following tasks at any stage, in any sequence, after year end cleardown.			

#	Task	Action	Done Y/N
13	PAYE Modernisation	Review the PAYE Modernisation configuration, see section Review PAYE Modernisation Configuration .	
14	Enhanced Reporting Requirements (ERR)	Review and complete the Enhanced Reporting Requirements (ERR) set up & configuration requirements	
15	Generate the ASC Annual Report.	ASC35s – public sector only, see section ASC Annual Report .	
16	Generate ASC60s.	ASC60s – public sector only, see section Generate ASC60s .	

3.3. ASC – Pre Year End Data Check Report

Note:

- Public sector payrolls only.
- The *ASC – Pre Year End Data Check* Report allows you to check the employees' ASCable Pay and ASC Paid for their current and previous employments.

To run the *Pre Year End ASC Listing* Report from the *Pre Year End Data Check Listing* screen:

1. Go to *Payroll Dashboard > Year End*.
2. Click **Manage** next to the relevant company.
3. Enter a **Company Reference** or select a company from the drop-down list.
4. Click **ASC**.

Pre Yearend Cleardown Data Check

The ASC – Pre Year End Data Check PDF Report generates to the *Report Centre*.

Note:

The ASC – Pre Year End Data Check Report only provides details for employees in pay groups to which you have access.

3.4. Exporting the Database

Note:

An export of your database must be performed **before the Year End Cleardown**. Clients on Exa Data platforms do not need to complete this step.

Important points to note:

- Ensure your I.T. team have taken a backup from the night before.
- This is required in the unlikely event that you wish to rollback.
- It is the customer's responsibility to perform this step to ensure a backup is available if required.

4. Year End Cleardown

Reminder:

Before running this step, it is vital to make sure the database has been exported. Clients on Exa Data platforms do not need to complete this step.

4.1. What is the Year End Cleardown?

The Year End Cleardown task completes the following:

- Moves the payroll company into a new tax year.
- Clears down the cumulatives for all employees.
- Moves the cumulative figures from the completed tax year to the *End of Year* table.
- Creates a payroll calendar for the two next years.

4.2. Run the Year End Cleardown

To complete the Year End Cleardown process:

1. Go to *Payroll Dashboard > Year End*.
2. Click **Manage** next to the company for which you want to run the cleardown.
3. Click **Yearend Cleardown**.
4. Enter a **Company Reference** or select a company from the drop-down list.
5. Ensure that all pay groups are complete for the tax year.
6. Click **OK**.

A confirmation message displays – 'Job Paye520 Submitted To Task Queue, Task No. Is XXXXX.

- To check the status of the PAYE520 job by going to the *Payroll Dashboard > Settings > Pay Group* screen.

4.3. Troubleshooting the Year End Cleardown and FAQs

4.3.1. All Company Processing has not yet Been Completed

A common error encountered during the Year End Cleardown is 'All company processing has not yet been completed.'

To resolve this, check that all your pay groups are completed for the tax year:

1. Go to *Payroll Dashboard > Settings > Organisations*.
2. Enter a **Company Reference** or select a company from the drop-down *Company* list.
3. Select **Payroll Parameters** from the *Select Detail* drop-down menu.

4. Ensure the payroll period and the number of pay weeks match, i.e. if there are 52 payroll weeks, then the payroll period should be 202552. If there are 53 payroll weeks and the payroll period is set to 202552, update the payroll period to 202553.
5. Click **Save**.

4.3.2. Unable to Clear Down Twice in One Year

Another common error encountered during the Year End Cleardown is "Unable to clear down twice in one year".

This error occurs when the Year End Cleardown task has been completed within the last 12 months. You will need to [raise a case](#) using the customer support portal to resolve this.

4.3.3. Does the Final Payroll of the Year Need to be Completed Before Year End Software can be Applied?

No, the software can be applied before the final payroll period has been completed.

4.3.4. Should the Payroll Calendar Setup be Checked Starting the New Tax Year?

Yes, before starting the new tax year, make any required changes to the payroll calendar. Changing the payroll calendar midyear can lead to the incorrect calculation of arrears payments.

4.3.5. How do I Insert a Week 53 into the Payroll Calendar?

1. Go to *Payroll Dashboard > Settings > Calendar*.
2. Enter a **Company Reference** or select a Company from the drop-down list.

Calendars

Company

Amend Dates

Build / Rebuild Year

Week Number	Tax Period	Calendar Period	Week End Date	Production Week	Mth. Seq.	Qtr. Seq.	FNtly Ind.	4 Wkly Ind.	Mont... Ind.	Multi Run		

Cancel

Add

Save

3. Click **Add**.
4. On the new line fill in the **Week Number**, in the format of YYYY53.
5. Fill in the **Tax Period** and **Calendar Period**, in the format of YYYY12.
6. Fill in the **Week End Date** of the payroll period.
7. Fill in the **Production Week** this should be the same as *Week Number*.
8. Set the **Monthly Indicator** to Y for week 52, and N for week 53.

 **Note:** This is of particular relevance for Public Sector clients who pay ASC.

9. To correct the dates for 2025, click **Build/Rebuild year**. The base year should be 2024.
10. Review the calendar again making sure the week end dates are correct for the next year.

4.3.6. Should the Payroll Period on the Payroll Parameter Screen Display Payroll Period 52 After the Year End Clear Down?

Yes, it will show payroll period 52, not payroll period 01.

To view the payroll period field:

1. Go to *Payroll Dashboard > Settings > Organisations*.
2. Enter a **Company Reference** or select a Company from the drop-down list.
3. Select **Payroll Parameters** from the *Select Detail* drop-down menu.

The screenshot shows a web interface titled "General Settings" in the top left corner. In the top right corner, there is a blue button labeled "Next Page". Below the title, there is a form with three input fields. The first field is labeled "Company Code" and has a dropdown arrow. The second field is labeled "Payroll Period" and the third is labeled "Pay Periods *". Both the "Payroll Period" and "Pay Periods *" fields are highlighted with a red rectangular border. The "Payroll Period" field contains the number "52".

5. Post Year End Cleardown Tasks

5.1. Review the Company Calendar

Once the Year End Cleardown has completed, check the company payroll calendar and the offset days set on the pay groups linked to that company. If a 53rd week is required, then the company calendar may need to be realigned.

To check the payroll calendar:

1. Go to *Payroll Dashboard > Settings > Calendar*.

Calendars

Company

Amend Dates

Build / Rebuild Year

Week Number	Tax Period	Calendar Period	Week End Date	Production Week	Mth. Seq.	Qtr. Seq.	FNtly Ind.	4 Wkly Ind.	Mont... Ind.	Multi Run		

Cancel

Add

Save

2. Enter a **Company Reference** or select a Company from the drop-down list.
3. Review the *Week End Date* on the calendar to ensure it is set up correctly. [Check Pay Group Offset Days](#) if applicable, as well as the other key fields, such as the tax period and monthly indicator.

Note:

- It is critical that any return for the tax year relates to a payment made in the same tax year.
- Monthly payrolls always use the calendar month, not the week end date, i.e. the payroll period ends on the last day of the month.

4. Review the payment indicators e.g., Mth Seq, Qtr Seq, F/Ntly Ind, 4 Wkly Ind, Monthly Ind to ensure they are correctly aligned.
5. Add or remove a 53rd, 54th or 56th week if required – See section [How do I Insert Week 53 into the Payroll Calendar?](#) This can be done at any stage during the year.

Note:

If you add a week 53 to the calendar it is important that you also update the pay periods using the *Payroll Dashboard > Settings > Organisation > Payroll Parameters* screen. See section [All Company Processing has not yet Been Completed.](#)

5.1.1. Check Pay Group Offset Days

Once the Year End Cleardown is complete, review your pay group offset days. Offset days are used to adjust a pay group's week end date, if it differs from the week end date on the company calendar. The offset days may need to change if you add a week 53, 54 or 56 to the company calendar.

To check pay group offset days:

1. Go to *Payroll Dashboard > Settings > Pay Groups*.
2. Enter a **Pay Group** or select a Pay Group from the drop-down list.
3. Click **Next Page** to go to page 2.
4. If required, update the **Offset Days** field and click **Save**.

The screenshot shows the 'Pay Groups' settings page. The 'Offset Days' field is highlighted with a red box. The page includes various input fields for pay group configuration, such as 'Dormant Pay Group', 'PAYPATH PROCESSING DATE', 'Day In Week', 'Day In Month', 'Sort Code', 'Bank Name', 'Account No', 'User id', 'Output File Location', 'Payment Calendar Link', 'Extract Code', and 'Offset Days'. There are also sections for 'Validation Overtime Parameters' and 'Civil Service Overtime Parameters'.

5.1.2. Report Expected Number of Pay Periods

It is now mandatory to report the expected number of pay periods for each pay group in your Payroll.

Note:

- By default, if nothing is selected, Payroll reports 52 weeks, 26 fortnights, or 13 four-weekly periods depending on the pay frequency.
- No selection is required for monthly pay groups.

Action is required for weekly, fortnightly, and 4-weekly pay groups where week 53, week 54, or week 56 scenarios are set to arise in the current tax year. Revenue uses this information to determine if a "Week One" or "Cumulative" RPN is issued when an employee moves jobs or pay frequencies.

Follow the below steps:

1. Go to *Payroll Dashboard > Manage Payroll > Outputs > ROS > PAYE Modernisation*.
2. Click the **Pay Group Parameters** tab.

The screenshot shows the 'PAYE Modernisation' interface. The 'Pay Group Parameters' tab is selected. A table lists pay groups with columns for 'Pay group', 'Agent TAIN', 'Shadow payroll', 'Previous periods', 'Expected pay periods', 'Exclude pay group', 'Bulk transfer', and 'Retirement Arrangement'. The 'Expected pay periods' dropdown menu is open, showing options 13, 14, 26, 27, 52, and 53. The sidebar on the left contains links for 'PAYE Modernisation Files Process', 'Pay Code Parameters', 'Pension Scheme Parameters', 'Employee Parameters', 'PAYE Modernisation Parameters', 'Load Digital Certificates', 'Data Mapping', and 'Company Parameters'.

3. Select the **Expected Pay Periods** from the drop-down list so Payroll can output this value on the *Payment Submission File*.
 - 14 - If a 14th 4-weekly pay period is expected for 2025, i.e. pay date lands on the 1st January.
 - 27 - If a fortnight 27 is expected for 2025, i.e. pay date lands on the 1st January.
 - 53 - If a week 53 is expected for 2025, i.e. pay date lands on the 1st January.

5.2. Check Preloaded 2025 Rates

Note:

- The new PAYE, PRSI, USC and ASC rates are loaded as part of the year end delivery.
- It is the responsibility of each customer to review and confirm that the rates are correct on the system. If for any reason the rates are incorrect or not loaded, please [raise a case](#) on the Customer Success Portal.

5.2.1. Check PAYE Rates

The new emergency weekly cut-off point is €846.16

The new emergency monthly cut-off point is €3,666.67

Weekly Paid	Weekly Cut-Off Point	Weekly Tax Credit
Weeks 1 to 4	€846.16	€0.00
Week 5 onward	€0.00	0.00

Monthly Paid	Monthly Cut-Off	Monthly Tax Credit
Month 1	€3,666.67	€0.00
Month 2 onwards	€0.00	€0.00

To check the PAYE rates loaded as part of the year end software delivery.

1. Go to *Payroll Dashboard > Settings > Emergency PAYE Rates*.

PAYE Rates

Year Number *

PAYE Code	PAYE Rate	Upper Limit	EMERGENCY				Week
			Tax Credit	Cut Off	Month	Rate	

Cancel

Copy Year ...

Add

Save

2. Enter **2025** in the *Year Number* field and press **Enter/Tab**.
3. Review the rates displayed.

5.2.2. Check PRSI Rates

To check the PRSI rates loaded as part of the year end software delivery:

1. Go to *Payroll Dashboard > Settings > PRSI Rates*.

PRSI/USC/ASC

Year Number

ASC

USC

PRSI Class	Cumul. Earnings	Alt. PRSI Class	Weekly Threshold	Monthly Threshold	Weekly PRSI Credit	Monthly PRSI Credit	Min Weekly Earnings	Max Weekly Earnings	Min Monthly Earnings	Max Monthly Earnings	PRSI Tapered Credit Divisor

Cancel

Age Related PRSI Class

Load Rates

Copy Year

Add

Save

2. Enter **2025** in the *Year Number* field and press **Enter/Tab**.
3. Review the rates displayed.

5.2.3. Check USC Rates

The Minister announced changes to the USC rates and thresholds:

- The middle rate of USC fell from 4% to 3%.
- The entry point for this rate will increase by €1,622, in line with the increase to NMW, so it will apply to income between €27,382 and €70,044.

Standard Rates of USC:

Changes to rates and thresholds are in **bold**.

USC Rate	2024 USC Rate Bands	2025 USC Rate Bands
Rate 1 – 0.5%	€0 – €12,012	€0 – €12,012
Rate 2 – 2%	€12,012.01 – €25,760	€12,012.01 – €27,382
Rate 3 – 4%	€25,760.01 – €70,044	N/A
Rate 3 – 3%	N/A	€27,382.01 – €70,044
Rate 4 – 8%	Income above €70,044	Income above €70,044

USC operates in the same manner as PAYE, varying by employee:

- Employers are advised of these rates and COPs, along with the calculation basis on the Revenue Payroll Notification (RPN).
- Employers should not alter from the RPN instruction.

To check the USC rates loaded as part of the year end software delivery:

1. Go to *Payroll Dashboard > Settings > PRSI Rates*.
2. Click **USC**.

The screenshot shows the 'PRSI Rates' page with a sub-section for 'Universal Social Charge'. It includes a 'Year Number' input field, a table with columns for 'Weekly Threshold', 'Monthly Threshold', 'Annual Threshold', and 'USC %', and buttons for 'Cancel', 'Add', and 'Save'.

Weekly Threshold	Monthly Threshold	Annual Threshold	USC %
------------------	-------------------	------------------	-------

3. Enter **2025** in the *Year Number* field and press **Enter/Tab**.
4. Review the rates displayed.

5.2.4. Statutory Sick Pay Entitlement Days

In line with the Sick Leave Bill 2022, statutory sick paid leave entitlement was expected to increase from five to seven days, effective 1st January 2025. However earlier this year, the Department advised that this would be frozen at five days as part of measures to protect employers from rising costs. This freeze was not confirmed in the recent budget though so we have reached out to the Department of Social Protection, which has yet to confirm the final decision.

Once confirmed, we will provide an update on the paid SSP days. Until then, the paid SSP entitlement remains at the current five days.

Irish Year End 2024: Portal User Guide

For sites using the PeopleXD Payroll SSP module, this is preloaded into the system. To review this:

1. Go to *Settings > Irish Statutory Sick Pay Settings*.
2. On the **System Parameters** tab, review the rows.

Note: The system uses the paid SSP days for the most recent tax year if a row for the current year does not exist.

Irish Statutory Sick Pay Settings				
Payroll Dashboard > Irish Statutory Sick Pay Settings				
< System Parameters Payment Parameters Pay Codes General Pay Groups Employee >				
ADD STATUTORY SICK PAY PARAMETER				
Date Effective	SSP Days	Qualifying Weeks	Payment Percent	Max Payment
01-Jan-2023	3	13	70	110
01-Jan-2024	5	13	70	110

Note:

The Statutory Sick Pay configuration screen is available on portal only.

5.2.5. Check Additional Superannuation Contribution (ASC) Rates

Note:

Public Sector only.

The Additional Superannuation Rates for 2025 remain the same as used in 2024.

To check the ASC rates loaded as part of the year end software delivery:

1. Go to *Payroll Dashboard > Settings > PRSI Rates*.
2. Click **ASC**.
3. Enter **2025** in the *Year Number* field and press **Enter/Tab**.
4. Select each **ASC Category** from the drop-down list and review the rates displayed.

5.3. Update 2025 Rates – Configuration Required

Note:

It is the responsibility of each customer to update the new OAP, Social Welfare and Minimum Wage rates. Please see the PeopleXD Year End Communication for the correct rates for the new tax year.

5.3.1. Update the OAP Rates

The maximum rate of all weekly social welfare payments (including Old Age Pension) will increase by €12 to €289.30 from January 2025.

To update OAP rates:

1. Go to *Payroll Dashboard > Settings > Old Age Pension Rates*.

Date Effective	Weekly Value Standard	Weekly Value Job Share	Monthly Value Standard	Monthly Value Job Share

2. Click **Add**.
3. Fill in the new OAP Rates.
4. Click **Save**.

Note:

For customers using PeopleXD Pension, the OAP rates also need to be updated in the following screen:

- *CorePension > Reference > Pension Social Welfare Rates*.

5.3.2. Update Social Welfare Rates

Note:

It is the responsibility of each customer to update the new Social Welfare rates.

Irish Year End 2024: Portal User Guide

The January 2025 updates for social welfare rates are: €289.30

To update the social welfare rates:

1. Go to *Payroll Dashboard > Settings > Social Welfare Rates*.

Social Welfare

Year Number *

Code	Description	Rate (Tax)	Rate (Non Tax)	Date Effective	

Cancel

Copy Year ...

Add

Save

2. Enter a **Year** in the *Year Number* field and press **Enter/Tab**.
5. Click **Add**.
6. Fill in the new Social Welfare Rates.
7. Click **Save**.

5.3.3. Update the Minimum Wage Rates in the CSO Module

Note:

- This section is only relevant to clients using the CSO module.
- The CSO Module is only available in Back Office.
- You need to time this change correctly, do not make the change before Q1 2025.

The NMW will increase by 80c from €12.70 to €13.50 per hour. This change comes into effect for hours worked on or after 1st January 2025.

You need to update the NMW rate under the CSO Module before the next Quarter return is made.

1. Select *CorePay > Core CSO > EHECS/NES > Generate EHECS* return.
2. Select **01-Setup Parameters** from the *Select Detail* menu.

3. Update the **National Minimum Wage** field to the revised value.

4. Close the *Setup Parameters* window to save the change.

5.3.4. Update Minimum Wage HR Warning in People Management

To access the Wage Warning Setup screen:

1. Navigate to *People Management > Data Centre*.
2. Open the **HR Admin Setup Settings** option.
3. Search for and click on **Wage Warning Setup**.

Date Effective	Age From	Hourly Rate	Country Code	
			Ireland	DELETE
			Ireland	DELETE

4. Use the tabs to create the new wage warnings as required.

Note:

For details on how to add a HR wage warning, see the [Wage Warning](#) user guide.

5.4. RPNs for the 2025 Tax Year

5.4.1. Overview

You need to request 2025 RPNs for all employees, under each employer registration number, for the first payroll run of 2025. If you receive no 2025 RPN for an employee, or if the tax credits on the 2025 RPN are zero, you **cannot** use the 2024 RPN.

Revenue expects to make the 2025 RPNS available for employers at the start of December.

Note:

If no 2025 RPN is available, Payroll will operate PAYE and USC on an emergency basis.

5.4.2. Exemption Orders

An employee with an exemption order will revert to an emergency basis for tax and USC until a 2025 RPN is retrieved. See *Payroll Dashboard > Employee > View > Tax Details*.

5.4.3. Exclusion Orders

Where an employee has an exclusion order applied, continue to apply the exclusion order until you receive a new RPN for the employee. If the employee is on a "single year" tax cert exclusion order, they should revert to the emergency basic until a 2025 RPN is applied.

Review the Exclusion Order indicator for all employees:

1. Go to *Payroll Dashboard > Manage Payroll > Outputs > ROS > PAYE Modernisation*.
2. Click the **Employee Parameters** tab.
3. Ensure the **Exclusion Order** toggle is enabled for employees to which exclusion orders have been received.

The screenshot shows the 'PAYE Modernisation' interface. The breadcrumb trail is 'Payroll Dashboard > ROS > PAYE Modernisation'. The left sidebar lists various parameter categories, with 'Employee Parameters' selected. The main area displays a table with columns: Employee, Director, PRSI exempt, PRSI exempt reason, Exclude employee, Bulk transfer exclusion, and Exclusion order. The 'Exclusion order' column contains toggle switches for each employee. A red box highlights this column. At the bottom right, there is a 'SAVE' button and a page indicator '1 - 7 of 7'.

Employee	Director	PRSI exempt	PRSI exempt reason	Exclude employee	Bulk transfer exclusion	Exclusion order
Payroll Admin 000260		☒		☒	☒	☒
Tomas Mears 000262		☒		☒	☒	☐
Ann O'Leary 000263		☒		☒	☒	☐

Amelia May 000265		☒		☒	☒	☐
Adam Jones 000277		☒		☒	☒	☐
Brent Flanagan 000590		☒		☒	☒	☐

4. Click **Save**.

5.4.4. RPN call for 2024 in 2025

After 01st January 2025, it will no longer be possible to call 2024 RPNs. This change applies to both services, retrieving RPNs and creating new RPNs.

5.4.5. Revenue Payroll Notifications (RPNs)

Retrieve your new 2025 Revenue Payroll Notifications (RPNs) from Revenue before running your first payroll of 2025. To do this:

Go to *Payroll Dashboard > Uploads > Load Employee PAYE Certificates* and run the following processes:

1. Retrieve Employee RPNs.
 - Ensure the *Company Date Last Updated* is left blank.
2. Print Revenue Exception Reports.
3. Maintain Employee RPNs.
4. Update Employee RPNs.

Load Employee PAYE Certificates

Note:

For further information on the RPN process, see the *Managing the RPN Process* section of the [PeopleXD Payroll: Revenue Payroll Notification \(RPN\) Portal – User Guide](#)

5.5. Review PAYE Modernisation Configuration

Before processing payrolls for the new tax year, complete a review of existing PAYE Modernisation configuration steps to ensure the configuration is up to date. See the *How to Configure* section of the [PAYE Modernisation user guide](#).

The parameters are all located on the *Payroll Dashboard > Manage Payroll > Outputs > ROS > PAYE Modernisation* screen. You should review the following to ensure that the configuration is up to date:

- Pay Code Parameters
- Pay Group Parameters
- Pension Parameters
- Employee Parameters

PAYE Modernisation
Payroll Dashboard > ROS > PAYE Modernisation

5.5.1. Map Pan European Pension Scheme Pay Codes

You are required to complete a pay code mapping on the system to identify what Pay Code(s) are used for the deduction of contributions on PAN European Personal Pension schemes.

To do this:

1. Navigate to *Payroll Dashboard > Outputs > ROS > PAYE Modernisation*.
2. Click the **Pay Code Parameters** tab.

3. Select **PAN European Pension Type** from the *Pension Type* list.

The screenshot shows the 'PAYE Modernisation' portal with the 'Pay Code Parameters' tab selected. The 'Pension type' dropdown is highlighted with a red box, showing 'PAN European Pension' selected. The table lists pay codes and their associated parameters.

Pay Code	Taxabl...	Non ta...	Share ...	EE AVC	Taxabl...	Medic...	Previo...	Pension type
2244 SOCIAL ...	☐	☐	☐	☐	☐	☐	☐	PAN European Pension
3444 Uni 3444	☐	☐	☐	☐	☐	☐	☐	
AEO (Magistrat...	☐	☐	☐	☐	☐	☐	☐	

4. Click **Save**.

5.5.2. Pay Code Parameters – Review Required

Follow the below steps:

1. Go to *Payroll Dashboard > Manage Payroll > Outputs > ROS > PAYE Modernisation*.
2. Click the **Pay Code Parameters** tab.
 - This includes a list of all *Pay Codes* in Payroll and a set of parameters that should be updated for each as required. *Pay Code* information captured here outputs for employees on the *Payroll Submission File*.

The screenshot shows the 'PAYE Modernisation' portal with the 'Pay Code Parameters' tab selected. The 'Pension type' dropdown is highlighted with a red box, showing 'PAN European Pension' selected. The table lists pay codes and their associated parameters.

Pay Code	Taxable lum...	Non taxable l...	Share based ...	EE AVC	Taxable Ben...	Medical Insu...	Previous yea...	Pension type
2244 SOCIAL WELFARE 22...	☐	☐	☐	☐	☐	☐	☐	
3444 Uni 3444	☐	☐	☐	☐	☐	☐	☐	
AEO (Magistrates Court) 7...	☐	☐	☐	☐	☐	☐	☐	

3. Review the parameters attached to each pay code.
4. Click **Save** if you make any changes.

This below table describes each parameter and guidance on when it is required:

Data Item	Description	When is this Required?
Taxable Lump Sum	For Pay Codes where a lump sum is being paid, and an amount of the taxable lump sum is included in Pay for Income Tax.	For any company where such Pay Codes are relevant, this parameter is mandatory. When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates.
Non-Taxable Lump Sum	For Pay Codes where a lump sum is being paid, and an amount of the lump sum is not included in Pay for Income Tax.	For any company where such Pay Codes are relevant, this parameter is mandatory. When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates.
EE AVC	Additional Voluntary Contribution (AVC) Pay Code assigned to the employee.	When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates.
Share-Based Remuneration	Pay Codes where an employee's remuneration consists of shares in the company and is included in Gross Pay.	For any company where such Pay Codes are relevant, this parameter is mandatory. When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates.
Taxable Benefit	These Pay Codes consist of the amount of non-cash benefits provided to the employee included in Gross Pay, e.g. company car.	For any company where such Pay Codes are relevant, this parameter is mandatory. When the parameter is enabled, this is included when the <i>Payroll Submission File</i> generates.
Medical Insurance	Medical Insurance BIK must be associated with relevant Pay Codes.	Enable for the Pay Codes that are part of Medical Insurance BIK.

Data Item	Description	When is this Required?
Pension Type	The Pension Type must be associated with the relevant Pay Codes.	Enable for the relevant Pay Codes. Set the Pension Types are as follows; • B - Retirement Benefit Scheme • P - PRSA • A - Retirement Annuity Contract • E - Pan European Pension
Previous Year Recoupment	This Previous Year Recoupment indicator is to be used with a new pay code only.	The gross overpayment is deducted from net pay where an employee is "Living". This gross value is not output on the payroll submission file, and the tax liability remains between the employee and Revenue. See the Managing Corrections section of the PAYE Modernisation user guide for more details.

5.5.3. Pay Group Parameters – Update Required

Follow the below steps:

1. Go to *Payroll Dashboard > Manage Payroll > Outputs > ROS > PAYE Modernisation*.
2. Click the **Pay Group Parameters** tab.
3. Review the parameters attached to each pay group.

The screenshot shows the 'PAYE Modernisation' section of the portal. The 'Pay Group Parameters' tab is selected. The interface displays a search bar for 'Search pay group' and a table of parameters for each pay group. The parameters are: Agent TAIN, Shadow payroll, Previous periods, Expected pay peri..., Exclude pay group, Bulk transfer, and Retirement Arran... The table shows three pay groups: '10 - Irish Month...', '2021 - Irish Mo...', and '2021 - Irish YE ...'. Each pay group has a set of toggle switches for the parameters.

4. Click **Save** if you make any changes.

Expected Pay Periods – Year End Configuration Required

It is now mandatory to report the number of expected pay periods in your Payroll Submission File.

See section [Report Expected Number of Pay Periods](#).

The screenshot shows the 'PAYE Modernisation Files Process' configuration page. On the left, there are navigation links: 'Pay Code Parameters', 'Pension Scheme Parameters', 'Employee Parameters', 'PAYE Modernisation Parameters', 'Load Digital Certificates', and 'Data Mapping'. The main area has a search bar 'Search pay group' and a table with columns: 'Pay group', 'Agent TAIN', 'Shadow payroll', 'Previous periods', 'Expected pay periods', 'Exclude pay group', 'Bulk transfer', and 'Retirement Arrangement'. The 'Expected pay periods' dropdown is open, showing a list of values: 13, 14, 26, 27, 52, and 53. The first row in the table is '10 - Irish Monthly 10'.

Review Pay Group Parameters

This below table describes each parameter and guidance on when it is required:

Data Item	Description	When is this Required?
Agent TAIN	The TAIN (Tax Advisor Identification Number) parameter is used to identify the agent submitting returns on behalf of the employer. This ensures there is an established link between the employer and agent for the relevant payroll period.	Set this parameter to enabled where an agent is running payroll on behalf of an employer. The agent must enter their <i>Agent TAIN</i> number for the pay groups.
Shadow Payroll	This parameter is used to indicate if the pay group is running for a <i>Shadow Payroll</i>.	Enable this parameter to run a <i>Shadow Payroll</i>.
Previous Periods	This parameter is used to indicate if the pay group can be run for Previous Periods.	Set this parameter to enabled to delete a previous period submission file.
Exclude Pay Group	This parameter is used if the pay group is to be excluded from PAYE Modernisation.	This disables the <i>PAYE Modernisation Validation Checks</i> for this pay group, i.e. there is no requirement to submit the Payroll Submission

Data Item	Description	When is this Required?
		for the current period before running payroll jobs in the next payroll period.
Bulk Transfer	Used in conjunction with Revenue Bulk Transfer of employment functionality. Requires pre-approval.	Only after permission is received from Revenue & PeopleXD to use the Bulk Transfer of employment functionality. This results in a bulk move of employees between tax registered companies with no start/end dates reported in the final file from old pay group and first file from new pay group.

5.5.4. Pension Scheme Parameters – Review Required

Follow the below steps:

1. Go to *Payroll Dashboard > Manage Payroll > Outputs > ROS > PAYE Modernisation*.
2. Click the **Pension Scheme Parameters** tab.
3. Review **Pension Tracing Numbers** assigned to pension schemes.

The screenshot displays the 'PAYE Modernisation' interface. On the left, a sidebar lists various parameters: 'PAYE Modernisation Files Process', 'Pay Code Parameters', 'Pay Group Parameters', 'Pension Scheme Parameters' (which is highlighted), 'Employee Parameters', and 'PAYE Modernisation Parameters'. The main area shows a search bar for 'Search pension schemes' and a table with two columns: 'Pension scheme' and 'Tracing number'. The table contains the following entries:

Pension scheme	Tracing number
Avc 2 1004	
Avc Pension Scheme 500	XX1234
Local Government Pension Scheme (Lgps) 1	
Nest 5	

4. Click **Save** if you make any changes.

5.5.5. Employee Parameters – Review Required

Follow the below steps:

1. Go to *Payroll Dashboard > Manage Payroll > Outputs > ROS > PAYE Modernisation*.
2. Click the **Employee Parameters** tab.

PAYE Modernisation
Payroll Dashboard > ROS > PAYE Modernisation

PAYE Modernisation Files Process

Search for employee

PAYE Modernisation Parameters							

3. Review the **Directorship** and **PRSI exempt** status of employees.
 - a. If an employee is exempt from PRSI. Select the appropriate reason from the *PRSI exempt reason* drop-down list.
4. Enable **Exclude Employee** if an employee is to be excluded from a Payroll Submission.
5. Enable **Bulk Transfer Exclusion** if you are doing a bulk transfer for this pay group but need the employee start/end dates to be sent to revenue as they are a starter/leaver.
6. Ensure the **Exclusion Order** toggle is enabled for employees to which exclusion orders have been received.
7. Click **Save** if you make any changes.

5.6. Post Year End ASC Returns

 **Note:** Public sector payrolls only.

While P35s and P60s were replaced under the PAYE Modernisation system, organisations processing public sector payrolls still need to produce ASC forms. Further information on ASC is available in the ASC user guide.

5.6.1. Generate ASC Annual Report – ASC35

Use these steps to generate/print the ASC Annual Report:

1. Go to *Payroll Dashboard > Year End*
2. Click **Manage** next to the relevant company.
3. Click the **ASC Annual Report** tile.

The screenshot shows a web form titled "ASC Annual Report". It contains several input fields and buttons. At the top, there are three dropdown menus labeled "Company", "Pay Group", and "Location". Below these is a text input field labeled "Year *". Under the "Output" section, there is a "Return Type" dropdown menu with "Choose" as the selected option. The "Employee Types" section features three radio buttons: "All", "Non exempt", and "Exempt". At the bottom right, there are two blue buttons: "ASC Annual Report" and "Cancel".

4. Enter a **Company Reference** or select a Company from the drop-down list.
5. Enter a **Pay Group Code** or select a Pay Group from the drop-down list.
 - Leave the field blank to generate for all pay groups.
6. Enter or select a **Location**. This is a work location, NOT an input location.
 - Leave the field blank to generate for all locations.
7. The *Tax Year* automatically populates.
8. Select a **Return Type** from the drop-down list:
 - a. **O** - Select if generating the original/first ASC35 file. All records are included in the output file and report.
 - b. **A** - Select if generating an amended/supplementary file to be sent to ROS. Only the employee records with 'A' or 'S' are extracted and produced on the ASC35.
9. Select an **Employee Type**:
 - a. **All** - The file/report includes all employees regardless of tax exemption status.
 - b. **Non-Exempt** - The file/report only includes employees whose tax exemption status is 'Not Exempt'.
 - c. **Exempt** - The file/report only includes employees whose tax exemption status is 'Exempt Normal PRSI' or 'Reduced PRSI'.
10. Click **ASC Annual Report**.
11. The *ASC Annual Report* generates to the *Report Centre*.

5.6.2. Generate ASC60s

For the tax year 2024, you can produce the following certs:

- ASC60 Cert
- ASC60 Amended Cert

To generate ASC60s:

1. Go to *Payroll Dashboard > Year End*.
2. Click **Manage** next to the relevant company.
3. Click **Print P60s**.

The screenshot shows the 'Print P60s' form. At the top, a note states: 'Note: The P60s will only contain data relating to pay groups you have access to.' Below this, there are several input fields: 'Company' (a dropdown menu), 'Pay Group' (a dropdown menu), 'Location' (a dropdown menu), 'Employee Reference' (a dropdown menu), 'Stationery Date' (a date picker), and 'Year' (a text input). There are also two toggle switches: 'Extra Pay Days' and 'Generate Labels'. At the bottom, there are four buttons: 'ASC60 Cert.', 'Amended ASC60 Cert.', 'Print Order', and 'Release Portal P60s'. At the very bottom, there are 'OK' and 'Cancel' buttons.

4. Enter a **Company Reference** or select a Company from the drop-down list.
5. Enter a **Pay Group Code** or select a Pay Group from the drop-down list.
 - Leave the field blank to generate for all pay groups.
6. Enter or select a **Location**. This is a work location, NOT an input location.
 - Leave the field blank to generate for all locations.
7. Select an **Employee Reference** from the drop-down list.
 - Leave the field blank to retrieve ASC60s for all employees.
8. Click **ASC60 Cert.**
 - A confirmation message displays – You will receive notification when your report is ready.
9. The *ASC60s* generate, as a PDF report to the *Report Centre*.

Note:

- The ASC60s are released to the Employee Self Service Portal and made available to view and download in the PRD60 Certs widget.
- The PRD60 Cert widget contains, as well as the newly issued ASC60, all the employees' old PRD60 certs generated on PeopleXD.
- Use the Language pack if you wish to update the name of the PRD60 Certs widget, e.g. update the name to ASC60 Certs. See section [Employee Self Service ASC60 & ASC60As](#).

Below is an example of an ASC60 Cert opened from the PRD60 Certs widget. Note how the employee has the option to view the ASC60 Cert in Irish.

5.6.3. Amend an Employee's ASC Cumulatives

If there is a subsequent change to the figures provided to an employee on an ASC60, then an ASC60A should be provided.

Firstly, update the cumulative figures for the year to which the change relates.

1. Go to *Payroll Dashboard > Year End*
2. Click **Manage** next to the relevant company.
3. Click **Maintain Cumulatives**.
4. Enter an **Employee Reference** or select an employee from the drop-down list.
5. Click **Query**.
6. Populate the *ASC Form Type* field to '**A**' for Amended.

Maintain Year End Cumulative Details

The screenshot shows a web form titled "Additional Superannuation Contribution". It contains several input fields and dropdown menus. The fields are arranged in a grid-like fashion. The "ASC Earnings To Date" field has a value of 49314.86. The "ASC To Date" field has a value of 2156.51. The "ASC Commencement Date" field is empty. The "Previous ASC Earnings" field has a value of 0.00. The "Previous ASC" field has a value of 0.00. The "ASC Employment Type" dropdown menu is set to "Main". The "ASC Earnings Week 53" field has a value of 0.00. The "ASC Deducted Week 53" field has a value of 0.00. The "ASC Category" dropdown menu is set to "Covered Fast Accrual Pension". The "Previous ASC Earnings Week 53" field has a value of 0.00. The "Previous ASC Deducted Week 53" field has a value of 0.00. The "Supplementary ASC Earnings" field has a value of 0.00. The "Supplementary ASC" field has a value of 0.00. The "Previous ASC Earnings This Employer" field has a value of 0.00. The "Previous ASC Deducted This Employer" field has a value of 0.00. The "ASC Week One" toggle switch is turned off. A blue button labeled "Subsidiary Details" is located at the bottom right of the form.

Field	Value
ASC Earnings To Date	49314.86
ASC To Date	2156.51
ASC Commencement Date	
Previous ASC Earnings	0.00
Previous ASC	0.00
ASC Employment Type	Main
ASC Earnings Week 53	0.00
ASC Deducted Week 53	0.00
ASC Category	Covered Fast Accrual Pension
Previous ASC Earnings Week 53	0.00
Previous ASC Deducted Week 53	0.00
Supplementary ASC Earnings	0.00
Supplementary ASC	0.00
Previous ASC Earnings This Employer	0.00
Previous ASC Deducted This Employer	0.00
ASC Week One	Off

8. Update the cumulative figures to reflect the change.

9. If a Subsidiary Employment ASC60 has been received.

a. Click **Subsidiary Details**.

The screenshot shows a web form titled "Subsidiary Employment Details for Re-Balancing ASC". It contains two input fields. The first field is labeled "Total ASCABLE pay all Subsidiary Employments (ASC60S)" and has a value of 1000.00. The second field is labeled "Total ASC Deducted for all Subsidiary Employments (ASC60S)" and has a value of 100.65. A note at the top of the form states: "(Only enter the details here if you receive a ASC60S from your employee)".

Field	Value
Total ASCABLE pay all Subsidiary Employments (ASC60S)	1000.00
Total ASC Deducted for all Subsidiary Employments (ASC60S)	100.65

b. Enter the figures from the *Subsidiary Employment ASC60* and close the screen.

10. Close the Additional Superannuation Contribution screen.

11. Click **Save**.

Note:

Any ASC amendments require a manual calculation.

5.6.4. Generate ASC60As

To generate an ASC60A:

1. Follow steps 1 to 6 in section [Generate ASC60s](#).
2. Click **Amended ASC60 Cert** to produce an ASC60A cert for the employee.

Print P60s

Note: The P60s will only contain data relating to pay groups you have access to.

Company		
Pay Group		
Location		
Employee Reference		
Stationery Date		
Year		
Extra Pay Days	☐	
Generate Labels	☐	

3. A confirmation message displays – You will receive notification when your report is ready.
4. The ASC60As generate, as a PDF report, to the *Report Centre*.

Note:

- The ASC60As are released to the [Employee Self Service Portal](#) and made available to view and download in the PRD60 Certs widget.
- The ASC60A will replace the ASC60 for the year to which it relates in the PRD60 Certs widget.
- The PRD60 Cert widget contains, as well as the newly issued ASC60A, all the employees' PRD60s produced on PeopleXD.

Below is an example of an ASC60A cert opened from the PRD60 Certs widget.

Note:

There is an option for the employee to view the ASC60A cert in Irish.

5.6.5. Employee Self Service ASC60 & ASC60As

The ASC60 & ASC60A forms are available via the Employee Self Service using the existing PRD60 widget. If you have the PRD60 widget already configured, there is no requirement to reconfigure the Employee Dashboard in Portal.

Use the Language pack if you want to update the name of the PRD60 Certs widget, e.g. update the name to ASC60 Certs.

To access the PeopleXD language pack:

1. Navigate to the **Administrator Dashboard** and click the **Site Manager** tab.
2. Using the *Site Manager Widget* open the **Language Pack** option.
3. Search for *PRD60 Certs* and update the *Label* field e.g. to ASC60 Certs.

The PRD60 Certs widget will now display as ASC60 Certs:

Note:

For details on how to add the *PRD60 Cert Widget* to the Employee Dashboard, see the [Portal Payroll Employee Self Service Widgets](#) user guide.

6. Appendix – Work Share and Shorter Working Year

Note:

- The following steps are only necessary for public sector companies using the *Work Share* and *Shorter Working Year* Modules.
- The following configuration screens are currently only available in Back Office.

6.1. Appendix A: Work Sharing

This option enables you to record patterns and generate a work share calendar for employees.

There are two steps involved in this process:

- Record Work Share Patterns
- Apply Work Share Patterns

6.1.1. Work Share Patterns

Use this option to record a new pattern or query an existing one. Note the following points:

- An employee may only have one pattern in operation at any one time. If the employee requires the new pattern, delete the old pattern first and then enter a new one.
- When recording an employee for work sharing, you must also apply the appropriate Pay Multiplier to their Position/Point required.
- This module does not generate a multiplier.

There are two categories of pattern:

Category	Description
Compliant	A Compliant pattern has no impact on PRSI or Pension, and payroll processes as though no pattern or calendar exists.
Non-Compliant	A Non-Compliant pattern is one where an employee is on a week on / week off pattern, and each week corresponds to a PRSI week. Example: A Non-Compliant pattern in 2021 must start on a Friday (01st January), and the employee works from Friday to Thursday and is then off work on the next Friday to Thursday (in line with Revenue tax weeks).

Category	Description
	This pattern type entitles the employee to 26 credits in the year and has implications for PRSI and Pension deductions.

6.1.2. Record a New Work Share Pattern

To record new work share patterns follow the below steps:

1. Go to *CorePay > Employee > Advanced Update Features > Work Sharing > Record Work Share Patterns*.

2. Use the **Record Work Share Patterns** tab to record a new pattern type.

Note:

An employee may only have one pattern in operation at any one time. If the employee requires a new pattern, delete the old pattern first and then enter a new one.

- a. Enter the **Employee Reference**.
- b. Enter a **Start Date** for the pattern.

Note:

A Non-Complaint pattern must a line with the Revenue tax week i.e. start on 1st January and the employee must be off for one week and on for the other.

- c. Enter the **Number of Weeks** in the work pattern. The number of weeks specified must be within the agreed set of patterns.
- d. Enter an **End Date** for the pattern. This field is optional.
- e. Enter a **Default Status**:

- **W** (Working): All days in the pattern default to working days but may be amended as required.
 - **O** (Off): All days default to off days and may be amended as required.
- f. For each week select the days on/off as required.
3. Click **Save**.

6.1.3. Amend a Work Share Pattern

To amend a new work share pattern, follow the below steps:

1. Go to *CorePay > Employee > Work Sharing > Record Work Share Patterns*.
2. Click the **Amend/Delete Work Share Patterns** tab to amend an existing pattern type.

3. Enter an **Employee Reference** and press **Tab/Enter**.
4. Update the reference data to amend the work share pattern.

Note:

A pattern may only be amended if it has not yet already been applied. If you want to change a pattern but have already applied it, then delete the pattern and record a new one. See section below [6.1.4 Delete a Work Share Pattern That has not Been Applied](#)

5. Click **Save**.

6.1.4. Delete a Work Share Pattern That has not Been Applied

To delete a work share pattern that has not been applied, follow the below steps:

1. Go to *CorePay > Employee > Work Sharing > Record Work Share Patterns*:
2. Click the **Amend/Delete Work Share Patterns** tab.
3. Enter an **Employee Reference** and press **Tab/Enter**.
4. Click **Delete**.

6.1.5. Delete a Work Share Pattern That Has Been Applied

To delete a work share pattern that has been applied, follow the below steps:

1. Go to *CorePay > Employee > Work Sharing > Record Work Share Patterns*:
2. Click the **Amend/Delete Work Share Patterns** tab.
3. Enter an **Employee Reference** and press **Tab/Enter**.
4. Click **Delete**.
5. A confirmation message displays - Calendar already exists for this pattern do you want to continue with deletion.
6. Click **YES**.

6.1.6. Apply Work Share Patterns

Once recorded, a work share pattern must be applied. You may record and apply patterns at any time even if you have already applied other patterns.

Note:

- This generates a calendar in the background which is used when processing payroll. For payroll calculation, a calendar is only significant when the pattern is Non-Compliant.
- If the pattern is never subsequently changed, the system creates a further 12-month calendar at the end of the first year and repeats the process in the subsequent years.

To apply work share patterns, follow the below steps:

1. Go to *CorePay > Employee > Work Sharing > Generate Work Patterns*.

2. Enter the **Pay Group** you want to apply the work share pattern for.
3. Click **OK**.
4. A confirmation message displays – Job PAY1951 submitted to task queue, task no. is X.
Once this job has run the work pattern is applied.

6.2. Appendix B - Shorter Working Year (SWY)/ Parental Leave

There are three tasks associated with Shorter Working Year (SWY):

- Maintain Shorter Working Year Employees.
- Generate Shorter Working Year Transactions.
- Term Time Shorter Working Year Clear down.

6.2.1. Maintain Shorter Working Year Employees

All employees going on SWY must have their details recorded. To record employee details:

1. Go to *CorePay > Employee > Advanced Employee Features > Maintain Shorter Working Year Employees*.

Start Date	No Of Pers.	End Date	Daily Allowance	Daily Deduction	Total

2. Enter an **Employee Reference**.
3. Select an **Absence Type**:
 - Shorter Working Year
 - Parental Leave
4. Enter **Y** in the *Tax Rebate* field if a tax rebate is to be processed during periods of SWY or Parental Leave.
5. Enter the **Start Date** for each period of leave.
6. Enter the **Number of Periods** relating to the *Start Period*.
 - The system automatically populates the *End Date*.
7. Repeat the steps for each period of leave.
 - The remaining fields on this screen are populated by the system when you run the option *Generate Term Time Transactions*.

6.2.2. Generate Shorter Working Year Transactions

The Generate step can be run in trial or actual mode. PeopleXD recommends that you run it in trial mode and check your results before running in actual mode.

To Generate Shorter Working Year Transactions:

1. Go to *CorePay > Employees > Advanced Employee Features > Shorter Work Year > Generate Shorter Working Year Transactions*.

2. Enter the **Pay Group**.
3. Enter the **Start Period** and **End Period** over which the SWY runs.
 - The start period is typically the next period in which you run payroll and may not necessarily be period 01. The end period is the last period of the year.
4. To check the calculations, select **Trial Mode** and click **OK**. You can then check the reports.

Note:

- When you run in trial mode, the system calculates the Deduction and Allowance values due to be created but does not create them.
- The most common problem is that you have not correctly identified the pay codes to be included in the process.
- Adjustments can be made at this stage, e.g. include/exclude specific pay codes, change the start dates or number of weeks.
- You may want to change the start dates or number of weeks.

5. Once reviewed repeat the steps, select **Actual Mode** and click **OK**.
 - PeopleXD writes the Deduction and Allowance records to the system.
 - The PAY7902 report generates giving you a detailed breakdown of the calculation.

6.2.3. Shorter Working Year End Cleardown

Run the Shorter Working Year End Cleardown once per year, to clear down previous year's transactions.

Note:

- The Shorter Working Year End Cleardown must be run before you begin your Shorter Working Year (SWY) process as it deletes all the (SWY) deductions and allowances for the previous year.
- You must not run the cleardown until **all** payrolls have been completed for the year. The cleardown will produce a report of any balances outstanding for the year just ended.

To run the Shorter Working Year Cleardown:

1. Go to *CorePay > Employee > Advanced Employee Features > Shorter Working Year > SWY Yearend Cleardown*.

2. Enter the **Pay Group** number.
3. Click **OK**.

7. Frequency Asked Questions

7.1. Amendments

Where amendments to previously reported information are required, either before or after the Year End Cleardown, see the Corrections section of the [PAYE Modernisation user guide](#).

7.2. End of Year Statement

You cannot generate "End of Year Statements" on Payroll. Revenue has confirmed "End of Year Statements" will be made available to employees through "MyAccount". If an employee is unable to access MyAccount, they will be able to request a paper statement by contacting Revenue. This will include details of your pay and deductions from all employments for that tax year.

7.3. Start/Leave Dates to Roll Over Year

Revenue has issued an instruction permitting the reporting of start and leave dates from a previous tax year from January 2021.

Example Scenarios (these apply to all future years):

Scenario A:

On the calendar date, 31st December 2020, an employee is updated to record a leave date of the 28th December 2020. The employee is paid for the full month of December 2020, and the recalculation is actioned January 2021.

Result: Revenue confirmed that it is correct to report this leave date in the January 2021 submission file.

Scenario B:

On the calendar date, 1st January 2021, an employee is updated to record a leave date of the 28th December 2020. The employee is paid for the full month of December 2020, and the recalculation is actioned in January 2021.

Result: Revenue confirmed that it is correct to report this leave date in the January 2021 submission file.

Scenario C:

On the calendar date, 31st December 2020, an employee is set up with a start date of the 28th December 2020. The employee is paid for the first time in January 2021.

Result: Revenue confirmed that it is correct to report this start date in the January 2021 submission file.

Scenario D:

On the calendar date, 1st January 2021, an employee is set up with a start date of the 28th December 2020. The employee is paid for the first time in January 2021.

Result: Revenue confirmed that it is correct to report this start date in the January 2021 submission file.

The same principal applies for future tax years as well.

7.4. PAYE Modernisation – Week 53, 54 and 56

Payroll grants Week 53, 54 and 56 tax credits, SRCOPs, and USC COPs on a "Week One" basis, i.e. employees on a "Cumulative" basis in week 52 switch to a "Week One" basis in week 53.

Assuming an updated RPN has is not received:

- Employees on a "Week One" basis in week 52, stay on the "Week One" basis in week 53.
- Employees on an "Emergency" basis in week 52, stay on the emergency basis in week 53.
- Employees with a USC exemption continue to be exempt in week 53.

7.5. Emergency Basis When the Payroll Year Rolls Over

For employees on an emergency basis when payroll rolls over into a new tax year. The emergency tax 'week number' count continues from the last period of the previous tax year. The Year End Cleardown populates a field called *Previous Year Emergency Weeks*.

! Example:

A weekly paid employee who provides their employer with a PPS number but is not registered with Revenue, i.e. no RPN available, commences work in income tax week 46 of 2020 and leaves in week 5 of 2021. The emergency basis applies throughout:

- Weeks 46, 47, 48 and 49 are the first four weeks of employment for the emergency basis.
- Weeks 50, 51 and 52 are weeks five, six and seven for the emergency basis.
- Weeks 1, 2, 3 and 4 of 2021 are weeks eight, nine, ten and eleven of the emergency basis.

To view the emergency week number count:

- Go to *Payroll Dashboard > Employee > Year to Date Cumulatives*.

Rafael Maguire
Payroll Dashboard > Manage Payroll Employees > Rafael Maguire

Employee: Rafael Maguire (Active)

! Note:

The emergency tax week number increments each week, starting from the date joined, regardless of whether the employee works.

7.6. Salary Sacrifice Pay Codes

Ensure the 'Salary Sacrifice' indicator is enabled for all salary sacrifice pay codes. This step is required to ensure the correct gross pay figure is reported on your *Payroll Submission File* for employees with salary sacrifices. Not having this indicator enabled will result in the understatement of Gross Pay Earnings on the *Payroll Submission File* to Revenue.

If you are required to report an amended previous PAYE Modernisation submission to Revenue to correct Gross Pay reported, this can be done using the Full Resubmission option. See the [PAYE Modernisation user guide](#) for details on how to generate a Full Resubmission file.

To review salary sacrifice pay codes:

1. Go to *Payroll Dashboard > Settings > Pay Codes*.
2. **Edit** the Pay Code and click **Step 2 – Rules**.
3. Ensure that salary sacrifice pay codes have the *Salary Sacrifice* indicator enabled.

The screenshot shows the 'Pay Code Wizard' interface with the 'Rules' step selected. The breadcrumb trail is 'Payroll Dashboard > Pay Codes > Pay Code Wizard'. On the left, a sidebar shows three steps: '1 Pay Code Formula', '2 Rules' (which is highlighted with a blue circle), and '3 General Ledger'. The main area is titled 'Rules' and contains a search bar with the text 'salary'. Below the search bar is a table with columns 'Rule', 'Description', and 'Value'. The table has one row: 'Salary Sacrifice' with the description 'Toggle if salary foregone' and the value 'On'. To the right of the table is an 'EDIT' link. At the bottom right, there are 'PREVIOUS' and 'NEXT' buttons. The 'access PeopleXD' logo is at the bottom center.

Rule	Description	Value
Salary Sacrifice	Toggle if salary foregone	On
