Document Control

Version	Date	Author	Details
1.0	28 th Feb 2026	James Martin	Published to Customer Success Portal
1.1	31 st Mar 2026	Brian O'Keeffe	Update to section 3.5.1. Unpaid Parental Leave – Day One Access
1.2	15 th April 2026	Darren Brennan	Update to section 3.4.6.1. to clarify no user configuration changes are required for the new SSP rules.

1. Overview

1.1. Purpose of this Guide

The purpose of this document is to provide guidance on how to process the Year End for 2025/26 and prepare for the 2026/27 tax year. This document covers the following:

- The legislative rate changes as outlined in the Budget.
- The software changes introduced as part of the *UK Year End Software Release*.
- The tasks to complete before your Year End Cleardown task.
- The tasks to complete after your Year End Cleardown task.
- The steps required to configure your Payroll System correctly for the 2026/27 tax year.

1.2. What is Year End?

At the end of the tax year, after the final Payrolls have been processed, you are required to:

- Submit a Final EPS to HMRC.
- Complete the Pre Year End Checks.
- Run the Year End Cleardown task.
- Complete your Post Year End Tasks.
- Issue Employees with a P60.

The Year End Cleardown task in Payroll completes the following tasks:

- Closes out the old tax year and moves the Payroll Company into a new tax year.
- Resets the Employees' cumulative figures.
- Moves the Employees' cumulative figures from the completed tax year to the '*End of Year*' table.
- Generates the Payroll Company Calendar for the next two years.

The *UK Year End Software Release* provides our customers with the following:

- The preloaded rate changes as outlined by HMRC for the new tax year.
- The software updates required to process the legislative changes set out by HMRC.

2. 2026/27 Rates

2.1. Rates – Preloaded

The following rates are preloaded as part of the *UK Year End Software Release*. For a detailed breakdown, see section [6.4. Rate Changes – Preloaded](#).

- [NI Earnings Limit](#)
- [NI Employee Rates](#)
- [NI Employer Rates](#)
- [PAYE Codes/Rates](#)
- [SRIT PAYE Codes/Rates](#)
- [Welsh PAYE Codes/Rates](#)
- [SSP Rates](#)
- [Auto Enrolment Rates](#)

2.2. Rates – Customer Configuration Required

The following rates are not preloaded as part of the *UK Year End Software Release*. See section [6.5. Rates Changes – Customer Configuration Required](#) for steps on how to update.

- [Apprentice Levy Rates](#)
- [Employment Allowance](#)
- [Current Year Statutory Rate, Previous Year Statutory Rate and Emergency Tax Code](#)
- [Student Loan Plan 1](#)
- [Student Loan Plan 2](#)
- [Scottish Student Loan Plan 4](#)
- [Postgraduate Loans](#)
- [Council Tax Rates](#)
- [DEA / DEO Pay Codes](#)
- [Scottish Arrestment Order Rates](#)
- [Max Redundancy Rates](#)
- [Auto Enrolment LEL / UEL Thresholds](#)
- [Employee Global Update of Tax Codes](#)
- [Minimum Wage Increases](#)

3. Software Changes

The following software changes have been loaded as part of the year *UK Year End Software Release*.

3.1. P60

3.1.1. New Template

A new template has been introduced by HMRC for the 2025/26 tax year P60 with the introduction of a new field for Statutory Neonatal Care Pay. This new template is automatically preloaded and available within the system. The *Paper P60* is covered in section [7.1 – Print P60's](#) and the *Portal P60* in section [7.2 – Generate P60's to Portal](#) of this guide.

3.2. Real Time Information

3.2.1. FPS Schema

The RTI FPS Schema has been updated to reflect the 2026/27 changes. Most schema updates are automatically linked to the tax year the payroll company is in, so no user action is required for those.

Changes which may impact user processes and configuration are covered in more detail under section 3.3. These include:

- **Student Loan Plan Type:** New enumeration '05' added for Plan 5.
- **Northern Ireland Statutory Parental Bereavement Pay (SPBPNIRES):** New elements added, along with new error conditions 7956 and 7957.

3.2.2. EPS Schema

The RTI EPS Schema has been updated to reflect the 2026/27 changes. Most schema updates are automatically linked to the tax year the payroll company is in, no user action is required for those. In addition to the standard schema updates for rolling into a new tax year (namespace, date ranges), the following changes have been made:

- **De Minimis State Aid:** The entire group has been removed, including all related error conditions.
- **NI Statutory Parental Bereavement Pay:** Recovery elements have been added. This is covered in more detail under section 3.3

3.3. RTI – Other Changes

3.3.1. Student Loan Plan Type: New enumeration '05' added for Plan 5.

Student Loan Plan 5 is a new student loan repayment plan that begins its first payroll deductions from 6 April 2026. It applies to students who started courses on or after 1 August 2023 in England. This section covers what Plan 5 is, how it differs from existing plans, what configuration is required in PeopleXD, and how file processing works. Plan 5 has three key characteristics:

- Applies to students who started courses on or after 1 August 2023 in England
- First deductions begin 6 April 2026 through PAYE — SL1 start notices issued from March 2026
- From 2026/27, Plan 5 becomes the default plan type when an employee does not know their plan type. Previously Plan 1 was the default.

3.3.2. 2026/27 Student Loan Thresholds — All Plans

The table below summarises all student loan plan thresholds for 2026/27. Plan 5 has the lowest repayment threshold of the undergraduate plans at £25,000 annually.

Plan Type	Annual Threshold	Monthly	Weekly	Rate
Plan 1	£26,900	£2,241.66	£517.30	9%
Plan 2	£29,385	£2,448.75	£565.09	9%
Plan 4	£33,795	£2,816.25	£649.90	9%
Plan 5 (NEW)	£25,000	£2,083.33	£480.76	9%
Postgraduate	£21,000	£1,750.00	£403.84	6%

3.3.3. Employer Actions and Timeline

Date	Action
March 2026	HMRC issues SL1 start notices for Plan 5 borrowers. Load these into PeopleXD via the SL1 file process.
Before 6 April 2026	Create the Student Loan Plan Type 5 pay code in PeopleXD. Ensure software is updated to support Plan 5 deductions.
6 April 2026	First Plan 5 deductions begin through PAYE. Plan 5 becomes the default plan type for employees who do not know their plan.

3.3.4. System Configuration — Plan 5 Pay Code

A new pay code for Student Loan Plan 5 must be created manually in PeopleXD before deductions can be processed. This is a user action and is not created automatically.

To set up a new pay code:

1. Go to *Setting > Pay Codes*.
2. Search for an existing Student Loan Pay Code.
3. From the 3-dot menu click **Clone**.
4. Enter a new **Pay Code** (use a pay code number that is free) and **Description**.
5. Click **OK**.
6. Ensure to record the Student Loan Plan type 5 thresholds:

Desc	Annual	Monthly	Weekly	%
Plan 5 (NEW)	£25,000	£2,083.33	£480.76	9%

7. **Save**.

After creating a new student loan plan code ensure to toggle on the student loan plan 5 indicator as follows:

Info MENU PATH

Menu path: Payroll > Settings > UK Tax Rates - General - RTI - Payment Pay codes

- Navigate to Payroll > Settings > UK Tax Rates - General - RTI - Payment Pay codes

- Create a new pay code and set the description (e.g. Student Loan Plan 5)
- Toggle the Student Loan Plan 5 indicator ON for that pay code
- Save the configuration before processing any SL1 files

Pay Code	Description	Flex Pay... Tax...	Flex Pay... Non Tax...	BIK Car Pay Code	Trivial com... lump sum (TCLS)	Other lump sum (per... occ...	Other lump sum (occ... serv...	Seri... Ill Hea... Lump sum	Stu... Loan Plan 1	Stu... Loan Plan 2	Stu... Loan Plan 4	Stu... Loan Plan 5
0	Test New Pay Code	☐	☐	☒	☐	☐	☐	☐	☐	☐	☐	☐
1	Colie Test	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☒

Warning CONFIGURE BEFORE LOADING SL1 FILES

The Plan 5 pay code must exist and be configured before loading any SL1 files that contain Plan 5 deductions. Loading an SL1 file without the pay code in place will prevent correct assignment.

3.3.5. SL1 File Processing — Starting Plan 5 Deductions

When loading an SL1 file from HMRC to start student loan deductions, Plan 5 is now available as a pay code option alongside Plans 1, 2, and 4.

- Go to the Payroll Dashboard and select Load SL1/SL2 or PGL1/PGL2
- Set the file type to Load SL1 and upload the SL1 xml file received from HMRC
- Once loaded, a confirmation message displays: SL1 file contains new student loan deductions
- Select the appropriate pay code for each plan type — including the new SL plan 5 pay code
- Submit to apply the deductions

3.3.6. SL2 File Processing — Ending Plan 5 Deductions

When HMRC issues an SL2 notice to end student loan deductions, Plan 5 is included in the SL2 file processing screen alongside the other plan types.

- Go to the Payroll Dashboard and select Load SL1/SL2 or PGL1/PGL2
- Set the file type to Load SL2 and upload the SL2 xml file from HMRC
- Confirmation message displays: SL2 file will end existing student loan deductions
- Select the pay code for each plan type including SL plan 5 pay code
- Submit to stop the relevant deductions

3.3.7. Student Loan Report

The Student Loan Deductions report shows all active student loan deductions by employee, including the Plan Type. From April 2026 this report will show Plan Type 5 entries alongside existing plan types. The report displays Employee Reference, Name, NI Number, Start Date, and Plan Type.

Employee Reference	Name	NI Number	Start Date	Plan Type
ASDF001	Trish Green	JW729218C	16-APR-26	2
004157	Jim Brown	RP605467A	16-APR-26	5
ASDF003	Trish Blue	JW729418C	16-APR-26	5
ASDF002	Trish Brown	JW729318C	16-APR-26	4
ASDF004	Trish Red	JW729518C	16-APR-26	5

3.3.8. De Minimis State Aid

- The entire section related to De Minimis State Aid has been removed from the EPS file.
- This applies automatically from April 2026 onwards.
- No user action is required.

3.3.9. Northern Ireland Statutory Neonatal Care Leave/Pay

- **Northern Ireland Statutory Parental Bereavement Pay (NIRESPBP):** New elements added, along with new error conditions 7956 and 7957.
- **NI Statutory Parental Bereavement Pay:** Recovery elements have been added.

From April 2026, enhanced Statutory Parental Bereavement Pay (SPBP) provisions will apply specifically to employees gainfully employed in Northern Ireland, where the employer makes Class 1 National Insurance contributions on their behalf.

Key Changes:

- **Day 1 Right:** Employees in Northern Ireland will be entitled to SPBP from their first day of employment for stillbirth and child death cases, removing the 26-week continuous employment requirement that continues to apply in England, Scotland, and Wales.
- **Miscarriage Coverage:** SPBP will extend to include miscarriage (pregnancy loss before 24 completed weeks), available from day 1 of employment. This makes Northern Ireland the first jurisdiction in Europe to provide statutory bereavement support for miscarriage.
- **Separate Reporting:** Payments for Northern Ireland SPBP must be reported and accounted for separately from standard SPBP in RTI submissions.

RTI Reporting Requirements:

- **FPS Files (from April 2026):**
 - Northern Ireland SPBP Year to Date values must be reported separately
 - Employee workplace postcode is mandatory when Northern Ireland SPBP values are present
 - New validation checks will ensure workplace postcodes are populated for Northern Ireland SPBP claims
- **EPS Files (from April 2026):**
 - Northern Ireland SPBP recovered Year to Date amounts must be reported separately
 - NIC compensation on Northern Ireland SPBP Year to Date must be reported separately

PeopleXD Implementation:

A new section for Northern Ireland Statutory Neonatal Parameters has been added where users should set out the payment pay code being used and the recovery percentage (92%). Payment of NIRESPBP is made by timesheet record and any recovery will be calculated automatically as part

of the HMRC EPS file once the NIRESPBP parameters are configured. Users operating in Northern Ireland will need to ensure they use the correct pay code going forward.

To configure the NIRESPBP Pay codes and recovery percentage:

1. Go to the **Payroll Dashboard**.
2. Go to **Settings**.
3. Click the **General** tile.
4. Enter a **NIRESPBP Pay Code** and **Miscarriage pay code** and enter the **SNCP Recovery Percentage** (92%).

The screenshot shows a configuration form for NIRESPBP. It is divided into two sections. The first section, titled 'NIRESPBP', contains two input fields: 'NIRE SPBP Pay Code' with a dropdown menu showing 'SPBP NIRL', and 'NIRE SPBP Recovery Percentage *' with a text input field containing '92'. The second section, titled 'NIRESPBP Miscarriage', also contains two input fields: 'NIRE SPBP Miscarriage Pay Code' with a dropdown menu showing 'SPBP NIRL - Miscarriage', and 'NIRE SPBP Miscarriage Recovery Percentage *' with a text input field containing '92'.

Note:

For further guidance on creating Pay Codes and Leave Types, please see the following user guides:

- [PeopleXD Payroll: Pay Code Wizard](#)
- [PeopleXD Workforce Management: Pay Codes](#)

HMRC have also mandated the reporting of a workplace post code for Northern Ireland employees in receipt of this payment, and this workplace post code can be captured via the existing Employee Parameters on the RTI screen to meet the new reporting requirements. The RTI FPS Validation report has been updated to include Northern Ireland SPBP workplace postcode checks from April 2026 onwards as well.

3.4. Statutory Sick Pay (SSP)

3.4.1. Overview of Changes

The Employment Rights Act 2025 (Royal Assent December 2025) introduces the most significant reforms to Statutory Sick Pay (SSP) since 1985. The changes take effect from 6 April 2026 and affect all UK employers regardless of size. These changes are part of the UK Government's plan to strengthen worker protections and ensure all employees have financial security when they are unwell.

There are three core changes:

Day-One SSP Waiting days abolished	LEL Removed Wider eligibility	New Rate Formula 80% AWE or flat rate
--	---	---

3.4.2. Change 1 — Abolition of Waiting Days

Area	Before 6 April 2026	From 6 April 2026
Waiting Days	3 unpaid waiting days before SSP could be paid	Abolished. SSP payable from the first qualifying day of absence.
Eligibility Threshold	Employees must earn at least £125/week (Lower Earnings Limit) to qualify	LEL removed. All employees eligible regardless of earnings.
SSP Rate / Calculation	Flat rate only: £118.75/week (2025/26)	Lower of: 80% of Average Weekly Earnings OR flat rate of £123.25/week.
Period of Incapacity for Work (PIW)	Minimum 4 consecutive qualifying days	Reduced to 1 day.

3.4.2.1. What was the rule before?

Under the previous rules, an employee had to serve three 'waiting days' (also called qualifying days) at the start of every new Period of Incapacity for Work (PIW) before SSP became payable.

This meant an employee off sick from a Monday would not receive SSP until the following Thursday (assuming a Mon-Fri contract). No payment was due for the first three days.

The minimum PIW was 4 consecutive qualifying days. Absences of fewer than 4 days did not qualify for SSP at all.

3.4.2.2. [What changes from 6 April 2026?](#)

Waiting days are completely abolished. SSP is payable from the first qualifying day of sickness absence. Simultaneously, the minimum PIW is reduced from 4 days to 1 day, meaning a single qualifying day of absence can now trigger SSP.

3.4.2.3. [Before vs. After: Visual Example](#)

BEFORE (up to 5 April 2026) — Employee off Monday to Friday

Day 1 — Monday	Day 2 — Tuesday	Day 3 — Wednesday	Day 4 — Thursday	Day 5 — Friday
WAITING DAY No SSP	WAITING DAY No SSP	WAITING DAY No SSP	SSP STARTS SSP paid	SSP SSP paid

AFTER (from 6 April 2026) — Same employee, same absence

Day 1 — Monday	Day 2 — Tuesday	Day 3 — Wednesday	Day 4 — Thursday	Day 5 — Friday
SSP STARTS SSP paid from day 1	SSP SSP paid	SSP SSP paid	SSP SSP paid	SSP SSP paid

i IMPACT SUMMARY

In the 'before' scenario above, the employee received 2 days of SSP. In the 'after' scenario for the same 5-day absence, they receive 5 days of SSP.

3.4.2.4. [Worked Example — Waiting Days](#)

EXAMPLE: Sarah — Mon-Fri worker, earns £400/week, off sick Monday 13 April 2026

Sarah goes off sick on Monday. Under the old rules, she would not receive SSP until Thursday. From 6 April 2026, SSP is due from Monday — her first qualifying day. There are no waiting days to serve. The first day of absence is also the first day SSP can be paid.

3.4.3. [Change 2 — Removal of the Lower Earnings Limit](#)

3.4.3.1. [What was the Lower Earnings Limit?](#)

The Lower Earnings Limit (LEL) is the minimum level of weekly earnings an employee must have to qualify for SSP. For 2025/26 the LEL was £125 per week (£6,500 per year). Employees earning below this threshold — however many hours they work — were entirely excluded from SSP, regardless of how long they had been employed. This disproportionately affected part-time workers, zero-hours contract workers, and lower-paid employees, many of whom had no entitlement to sick pay at all.

3.4.3.2. [What changes from 6 April 2026?](#)

The LEL for SSP purposes is completely removed. All employees will be eligible for SSP from 6 April 2026 regardless of how much they earn, provided they meet the other qualifying conditions (they are an employee, they are sick, and they follow the notification requirements).

3.4.3.3. [Who is newly eligible?](#)

Approximately 1.3 million additional workers gain SSP eligibility from 6 April 2026. The groups most affected include:

- Part-time employees earning below £125/week
- Zero-hours contract workers with variable or low weekly earnings
- Casual workers on short-term or seasonal contracts
- Workers with multiple part-time jobs where no individual job reaches the LEL

3.4.3.4. [Eligibility: Before vs. After](#)

Employee Profile	Weekly Earnings	Eligible Before?	Eligible After?
Full-time, permanent	£450/week	YES	YES
Part-time (16 hrs @ £8.50)	£136/week	YES	YES
Zero-hours, variable hours	£80/week avg.	NO — below LEL	YES
Casual/seasonal worker	£50/week	NO — below LEL	YES

3.4.3.5. [Worked Example — LEL Removal](#)

EXAMPLE: Jake — Zero-hours contract, average earnings £90/week, off sick from 13 April 2026

Before April 2026: Jake earns £90/week on average. This is below the £125 LEL, so he has no entitlement to SSP. If he gets sick, he receives nothing from his employer.

After 6 April 2026: The LEL no longer applies. Jake is now eligible for SSP. His SSP rate will be the lower of 80% of his Average Weekly Earnings or the flat rate of £123.25. His AWE is £90, so 80% = £72/week. This is lower than £123.25, so Jake receives £72/week SSP.

3.4.4. [Change 3 — New SSP Rate and Calculation Method](#)

3.4.4.1. [What is the new flat rate?](#)

The SSP flat rate increases from £118.75 per week (2025/26) to £123.25 per week from 6 April 2026. This is in line with the annual uprating that applies each April.

3.4.4.2. [The new calculation formula](#)

From 6 April 2026, SSP is no longer always paid at the flat rate. Instead, SSP is calculated as the lower of two amounts:

Option A	Option B
-----------------	-----------------

80% of Average Weekly Earnings (AWE) Based on the 8 weeks prior to the first day of absence. Uses earnings subject to National Insurance only.	Flat rate: £123.25/week The maximum SSP payable. Applies when an employee earns enough that 80% of AWE exceeds the flat rate.
PAY WHICHEVER IS LOWER	

3.4.4.3. [How is Average Weekly Earnings \(AWE\) calculated?](#)

AWE uses the same 8-week reference period already used for other statutory payments (such as SMP). The calculation uses earnings in the 8 weeks immediately prior to the 'relevant date' — which is the first day of the PIW. Only earnings subject to National Insurance contributions are included.

Note: Where an employee has no previous history for AWE the system uses the absence Linked Date to find the employee's annual salary (based on their grade and scale point). Allowances are added on top, and any part-time multiplier is applied. The weekly pay is simply the total earnings as per the above divided by 52.

3.4.4.4. [Worked Examples — Rate Calculation](#)

EXAMPLE 1: Maria — earns £600/week (average), off sick 13 April 2026

80% of AWE = £600 x 80% = £480/week

Flat rate = £123.25/week

Lower amount = £123.25 → Maria receives £123.25/week SSP (flat rate applies)

EXAMPLE 2: Jake — earns £90/week (average), off sick 13 April 2026

80% of AWE = £90 x 80% = £72/week

Flat rate = £123.25/week

Lower amount = £72 → Jake receives £72/week SSP (80% AWE applies)

EXAMPLE 3: David — earns £155/week (average), off sick 13 April 2026

80% of AWE = £155 x 80% = £124/week

Flat rate = £123.25/week

Lower amount = £123.25 → David receives £123.25/week SSP (flat rate applies, as 80% AWE is just above the flat rate)

The flat rate cap protects employers from paying SSP above the statutory maximum. The 80% calculation only results in a lower SSP payment for lower-paid employees.

3.4.5. Transitional Protections

Employees who were already off sick and receiving SSP before 6 April 2026 are protected from any reduction in their SSP payment because of the new rules. These transitional protections are intended to prevent mid-absence disruption.

Scenario	Start Date	Type	Protection?	SSP Rate
Already on SSP	Before 6 April	EXISTING	✓ YES	£123.25 (protected)
In waiting days	4-5 April	EXISTING	⚠ Special	SSP from 6 April
Below LEL	Before 6 April	EXISTING	✗ NO	80% of AWE (from 6 April)
New absence	On/After 6 April	NEW	✗ NO	80% of AWE (capped)

3.4.5.1. Who is protected?

Transitional protection applies to employees who:

- Were already off sick and in receipt of SSP before 6 April 2026, AND
- Are earning between £125.00 and £154.05 per week (the range where 80% of AWE is less than the flat rate), AND
- Remain continuously absent on and after 6 April 2026

⚠ KEY RULE — Continuous Absence Only

Protection only applies to continuous sickness absences that span the 6 April 2026 changeover date. An employee who returned to work before 6 April and goes off sick again after that date is not transitionally protected.

3.4.5.2. [What does transitional protection mean in practice?](#)

A transitionally protected employee continues to receive SSP at the uprated flat rate of £123.25 per week for the remainder of their absence, rather than switching to the 80% AWE calculation. This ensures they do not see a reduction in their SSP payment mid-absence.

3.4.5.3. [When does transitional protection end?](#)

Protection ends on whichever of the following occurs first:

- The employee returns to work (because they are fit for work)
- The 28-week SSP entitlement is exhausted
- The employee's contract of employment ends
- The start of the SMP/MA exclusion period (pregnancy-related)

3.4.5.4. [What about employees serving waiting days on 6 April 2026?](#)

Employees who are off sick and serving their waiting days (days 1-3 of absence) at the point 6 April 2026 arrives become entitled to SSP from that date onwards, since waiting days are abolished. They do not need to have been in receipt of SSP prior to the changeover — the abolition of waiting days is applied immediately.

3.4.5.5. [Transitional Scenarios — Summary Table](#)

Scenario	Status on 6 April 2026	Outcome
Amina — earns £140/week, off sick since 1 March, still off on 6 April	In receipt of SSP, continuous absence	Transitionally protected — continues at £123.25/week flat rate until absence ends
Clare — earns £125/week, off sick but RETURNED to work 4	Not continuously absent across 6 April	No protection. New absence from 8 April uses new rules:

April, goes off sick again 8 April		SSP from day 1 at 80% AWE = £100/week
Joan — earns £125/week, off sick since 1 March, still off on 6 April, returns 8 April	Continuously absent, in receipt of SSP	Protected. Receives £123.25/week throughout absence, including after 6 April
Tom — earns £140/week, serving waiting days on 6 April (day 2 of absence)	Off sick, NOT yet in receipt of SSP (waiting days)	Waiting days abolished from 6 April — SSP starts immediately on 6 April. 80% AWE applies: £112/week
Maria — earns £600/week, already receiving SSP before 6 April	In receipt of SSP, continuous absence	80% of AWE (£480) exceeds flat rate. Transitional protection gives her flat rate £123.25 — no change

3.4.6. Employer Impact and Required Actions

3.4.6.1. System Changes

The system software has been amended to automatically apply the new rules from April 6th, 2026, so **no configuration changes from users are required.**

As part of these changes the system will: (**Note:** the following rules are automatically applied by the system — users should **not** amend the existing SSP Parameter rules or make any related configuration changes to the existing SSP Parameters.)

#	New System Logic (NB: No User Action Required)
1	automatically remove / disable the 3-day waiting day logic as SSP must be payable from day 1 of qualifying absence.

2	automatically remove the LEL earnings check. All employees should be flagged as eligible for SSP regardless of earnings.
3	Automatically implement the new rate calculation: lower of 80% AWE or £123.25/week. Ensure AWE is computed over the 8 weeks prior to absence using NI-liable earnings.
4	Automatically update the flat rate to £123.25/week
5	Automatically implement transitional protection logic for employees already receiving SSP at changeover date (continuous absence spanning 6 April 2026).
6	Automatically reduce the PIW minimum from 4 days to 1 day.

3.4.6.2. New Statutory Sick Override Process

While we have sought to automate the SSP calculation changes there may still be cases that require user intervention. As part of the UK Year End a new screen has been introduced to make it easier for users to override the system SSP calculation for the current period.

Menu Path: Payroll Dashboard > Employee > View > SSP Details

Note: Ensure users are assigned the following pre-configured menu profiles to grant access to the menu options required to use the absence pay in Payroll.

Menu Profiles				CREATE NEW PROFILE
absence				X Q
Profile Name	Portal Users	Back Office Users		
Enhanced Absence Config - System Admin Web Services, CorePortal Pay	1	0	...	
PayPortal Absence Information - Payroll Admin Web Services, CorePortal Pay	1	0	...	

Here users can edit the sick record:

3.4.6.3. Review Company Sick Scheme

Statutory Sick Pay has been automatically updated for the new rules. However occupational rules are specific to each company so each company should review their existing occupational sick pay scheme and determine whether any changes are required.

3.4.6.1. Consider Cost Impact

Each of the three changes individually increases the SSP cost for employers. Combined, the impact is material:

Change	Cost Impact
Abolition of waiting days	Every absence now has SSP from day 1. Short absences that previously cost nothing now generate an SSP liability. For example, a 2-day absence previously cost £0 in SSP; after April 2026 it costs the equivalent of 2/5 of the weekly rate.
LEL removal	All 1.3 million newly eligible employees can now claim SSP when sick. Employers with large numbers of part-time or zero-hours workers face the greatest new exposure.
New rate formula	For employees above the flat rate crossover point (£154.06/week), SSP remains at £123.25. For lower-paid employees, SSP is lower than the flat rate. Net effect: lower earners cost less per week, but there are now far more of them eligible.

3.4.6.2. [Non-system Actions](#)

Beyond the payroll system itself, employers should also consider:

- Updating HR policies and employment contracts to remove references to waiting days and the LEL
- Communicate changes to employees before April 2026 — especially the expansion of eligibility

3.5. Employment Rights Bill — Other April 2026 Changes

The Employment Rights Act 2025 introduces three additional changes from April 2026 that affect statutory leave. These are separate from the SSP reforms covered in earlier sections. Customers should review their Occupational Absence configuration in PeopleXD to ensure it aligns with company policies considering these new changes.

Info CONFIGURATION PATH

Review path: Settings > UK Tax Rates > General > Absence Pay Parameters

Topic	Before 6 April 2026	From 6 April 2026
Paternity Leave	Employee must have 26 weeks' continuous service to qualify for paternity leave.	26-week qualifying period for leave is removed. Paternity leave is available from the first day of employment.
Statutory Paternity Pay (SPP)	Employee must have 26 weeks' continuous service to qualify for SPP.	No change. Employee must still have 26 weeks' continuous employment to qualify for SPP. The minimum earnings threshold (£125/week) also still applies.

From 6 April 2026, a new employee is entitled to take Paternity Leave from their first day of employment. However, to qualify for Statutory Paternity Pay, the employee must still meet the existing requirement of 26 weeks' continuous employment. Employers should update leave policies to reflect the day-one entitlement to leave, while maintaining the existing qualifying criteria for pay.

Warning ACTION REQUIRED

Review any internal paternity leave policies or contracts that reference the 26-week qualifying period. These must be updated to reflect day-one entitlement from 6 April 2026.

Review your Occupational Absence configuration at Settings > UK Tax Rates > General > Absence Pay Parameters to ensure alignment.

3.5.1. Unpaid Parental Leave – Day One Access

Before 6 April 2026	From 6 April 2026
Employee required a qualifying period before being entitled to unpaid parental leave	Qualifying period removed. Unpaid parental leave available from the first day of employment.
Approximately 1.5 million parents were excluded due to the qualifying period requirement	1.5 million additional parents gain day-one access to unpaid parental leave.

Unpaid Parental Leave allows eligible parents to take up to 18 weeks of unpaid leave per child up to the child's 18th birthday, in blocks of up to four weeks per year. The only change from April 2026 is the removal of the qualifying period — the entitlement duration and other rules remain unchanged.

Info **NO STATUTORY PAY IMPACT**

Unpaid Parental Leave is unpaid — there is no statutory pay associated with it. However, employers must still track and manage the leave correctly. Review your absence management configuration to ensure unpaid parental leave can be recorded from day one of employment.

Warning **ACTION REQUIRED**

Any internal policies or contracts that reference a qualifying period for unpaid parental leave must be updated. Review your Occupational Absence configuration at Settings > UK Tax Rates > General > Absence Pay Parameters.

3.5.2. Bereaved Partner's Leave – New entitlement

Warning **NEW ENTITLEMENT**

This is a completely new statutory entitlement. It does not exist under current legislation. No equivalent leave type exists in PeopleXD today — a new absence type will need to be configured.

Detail	Rule
Who it applies to	A parent whose partner dies before their child's first birthday
Duration	Up to 52 weeks of leave

Qualifying period	Day one — no qualifying period required
-------------------	---

This entitlement recognises the unique circumstances of a parent who loses their partner within the first year of their child's life — a period when parental care demands are at their highest. The 52-week entitlement gives the bereaved parent time to grieve and care for their child without the immediate pressure of returning to work.

Warning CONFIGURATION REQUIRED — NEW ABSENCE TYPE NEEDED

A new leave type for Bereaved Partner's Leave will need to be set up in PeopleXD before April 2026. This does not exist as a standard absence type today. Review and configure via Settings > UK Tax Rates > General > Absence Pay Parameters.

3.6. P11d

3.6.1. Schema

The P11d Schema has been updated to reflect the 2025/26 changes. The majority of these schema updates are linked to the tax year which are automatically handled within the system, so no user action is required. The exception is the percentage rate change which requires a user update as outlined under the rates section of the user guide.

Data Item 112. Increase in percentage rate from 13.80% to 15.00%

Data Item 119. Increase in percentage rate from 13.80% to 15.00%

3.6.2. P11d - Class 1A NIC Rate

The Class 1a NIC rate has been updated to **15.00%**. Users should update this rate to **15.00%**.

The Class 1A NIC rate can be updated in the following locations:

- **Portal:** *Payroll Dashboard > Settings > General > System Configuration > General > P11D Section.*
- **Back Office:** *CorePay > Update > Utilities > System Configuration > General > P11D Section.*

3.7. Payroll Benefits

As part of the Autumn Budget 2024, the Government announced its intention to mandate the reporting of benefits in kind through RTI, originally planned from April 2026. This has since been **postponed to April 2027**, giving employers additional time to prepare.

Employers should use this additional time to assess their current approach to benefit management and familiarise themselves with the existing functionality within PeopleXD.

Further information on this announcement is available at:

<https://www.gov.uk/government/publications/reporting-and-paying-income-tax-and-class-1a-national-insurance-contributions-on-benefits-in-kind-in-real-time-an-update>

Software updates to support the April 2027 requirements are planned, including changes necessary for the proposed end of year correction process outlined in HMRC's guidelines.

Further information on the specific changes will be provided as HMRC publishes clarification on the final requirements to payroll vendors.

4. Pre Year End Cleardown

4.1. Pre Year End Cleardown Checklist

Note:

The following Checklist can be printed and used when completing the Year End Cleardown tasks.

Task	Action	Completed Y/N
1	Complete your Payroll for all the Pay Groups in your Company.	
2	Ensure all Full Payment Submission (FPS) files are successfully transferred to HMRC.	
3	Generate and submit a Final EPS, ensuring it is successfully transferred to HMRC. See section Final Employer Payment Summary (EPS) .	
4	Run the <i>Pre Year End Data Check Report</i> , reconcile it with the <i>Employee Cumulatives (All) Report</i> and the <i>Payroll Final Control (PAY355CT) Report</i> from your last Payroll Run. See section Pre Year End Data Check .	
5	Run the Year End Cleardown; see section Year End Cleardown .	
6	Generate and check the <i>Year End Control Reports</i> ; see section Year End Control Reports .	

4.2. Final Employer Payment Summary (EPS)

4.2.1. Overview

At the end of the tax year, in addition to your final FPS, a Final Employer Payment Summary (EPS) submission is required. This informs HMRC that you have completed all submissions for the tax year.

4.2.2. Generate the Final EPS

To generate a Final EPS:

1. Go to *Manage Payroll > Outputs*.
2. Click the **RTI** tile.
3. Click the **Generate File** button.
4. Select **EPS** from the *File Type* drop-down menu.
5. Select **Final** from the *EPS Type* drop-down menu.

6. Select the **Company** from the drop-down menu.
7. Enter the **tax year** to which the Final EPS relates in the *Year* field.
8. Select a **Tax Month**.
9. Click **Generate**.

The *EPS Report* and *XML file* generate to the *Report Centre*.

4.2.3. Transfer the Final EPS

1. Once generated, go to *Manage Payroll > Outputs > RTI*.
2. Click **Transfer**.

4.3. Pre Year End Data Check

4.3.1. Overview

The purpose of the Pre Year End Data Check is to ensure that your Payroll System is in good order before completing the Year End Cleardown task.

Run the *Pre Year End Data Check Report*, reconcile it with the *Employee Cumulatives (All) Report* and the *Payroll Final Control (PAY355CT) Report* from your last Payroll Run.

4.3.2. Generate the Payroll Final Control Report

To generate the *Payroll Complete Update Report (PAY355CT)* from your last Payroll Run.

1. Go to *Manage Payroll > Outputs*.
2. Click the **Reports** tile.
3. Click **Final Control Report**.

An information message appears “*Final Control Report sent to Reports Centre*”.

4.3.3. Generate the Employee Cumulatives (All) Report

To generate the *Employee Cumulatives (All) (PAYB084B) Report*:

1. Go to the **Predefined Reports** tab.
2. Click the **Employee Data** tile.
3. Select **Employee Cumulative (ALL)** from the *Report Name* drop-down menu.
4. Select the **Pay Group** from the drop-down menu.

The screenshot shows the 'Employee Data' report configuration page. At the top, there's a breadcrumb 'Payroll Dashboard > Employee Data'. The main title is 'Employee Data'. Below it, there are several dropdown menus and toggle switches. The 'Report Name' dropdown is set to 'EMPLOYEE CUMULATIVES (ALL)'. The 'Pay Groups' dropdown is set to '2113 - UK Year End Monthly'. To the right of these dropdowns are toggle switches, all of which are currently turned off. Below the 'Pay Groups' dropdown, there are fields for 'Employee(s)', 'Pay Period(s)', and 'Parameter (date(s))', each followed by a toggle switch, all of which are also turned off. The interface is clean with a light blue header and a white main area.

5. Click **Run Report**.

The report generates to the *Report Centre*, where it can be downloaded in a PDF format.

4.3.4. Generate the Pre Year End Cleardown Data Check Report

To generate the *Pre Year End Cleardown Data Check Report*:

1. Go to the **Year End** tab.
2. Click the **Manage** button next to the relevant company.

The screenshot shows the 'Year End' section with a 'Companies' tab. Below the tab is a search bar and a table. The table has columns: Company, Tax year, Pay groups ready to clear down, Total completion %, and Last cleared. There is one row for '2113 UK Year End' with tax year '2021', '0' pay groups ready, '0' total completion, and 'Last cleared'. To the right of the table is a 'Ready To Run' button and a 'MANAGE' button. A red arrow points from the 'SYSTEM LEGISLATIVE RATES' button to the 'MANAGE' button.

Company	Tax year	Pay groups ready to clear down	Total completion %	Last cleared
2113 UK Year End	2021	0	0	

3. Click the **Pre Year End Data Check** tile.
4. Select the **Company** from the drop-down menu.
5. Select **PAY, PAYE, NIC** from the *Report* drop-down menu.

The screenshot shows the 'Pre Yearend Cleardown Data Check' form. It has a header with the title and a breadcrumb trail: 'Payroll Dashboard > Year End > Pre Yearend Cleardown Data Check'. Below the header is a note: 'NOTE: This report will only contain data relating to pay groups you have access to'. The form has three dropdown menus: 'Report' (selected: PAY, PAYE, NIC), 'Company' (selected: 2113 UK Year End), and 'Period' (empty). At the bottom right are 'OK' and 'Cancel' buttons. The 'access PeopleXD' logo is at the bottom center.

6. Click **OK**.

The PDF and CSV Report generates to the *Report Centre*.

7. Repeat the above steps, selecting the *Other Statutory All Employment* and *Other Statutory Current Employment* reports.

Pre Yearend Cleardown Data Check

NOTE: This report will only contain data relating to pay groups you have access to

Report

PAY, PAYE, NIC
PAY, PAYE, NIC

Company

Other Statutory All Employment
Other Statutory Current Employment

Period

OK

Cancel

Note:

These reports only provide details for Employees to which you have access.

The table below summarises the three reports generated:

Report Option	Outline	Purpose
PAY, PAYE, NIC Cumulative	This report lists the Employees' Cumulative: - PAY - PAYE - NIC This report splits PAY and PAYE into - Current Employment - Previous This Employer - Previous P45	Use for the usual end of year balancing, i.e., P60. It can be used for RTI FPS returns in terms of Pay, PAYE, and NI (See RTI User Guide).
Other Statutory All Employments	This report lists all <i>Statutory</i> and <i>Student Loan</i> details paid by <i>Employees</i> for the tax year.	It can be used for year to date totals of all statutory employment payments.
Other Statutory Current Employment	This report lists all <i>Statutory</i> and <i>Student Loan</i> details paid by <i>Employees</i> for their latest period of employment, i.e., rejoiners figures will only show the latest period of employment.	It is useful for end of year reconciling in terms of P60. It can be used going forward for RTI NORMAL FPS return.

4.3.5. Reconciling the Pre Year End Reports

Reconcile the *Pre Year End Data Check Report* back to the following reports:

- Employee Cumulatives (All) (PAY084B)
- Final Control Report (PAY355CT)

The *Pre Year End Data Check Report* needs to be reconciled with the *Final Control Report* for each Pay Group in the Company:

1. "Current Taxable" plus "Previous P45 Taxable" on the *Pre Year End Data Check Report* should equal "Taxable Pay" less "Pension" on the *Final Control Report*.

 Note:

The Taxable Pay figures on the *Pre Year End Data Check Report* are net of Pension. This is because year end returns such as P35s and P60s are always net of Pension.

2. "Current PAYE" plus "Previous P45 Taxable" on the *Pre Year End Data Check Report* should equal PAYE on the *Final Control Report*.

 Note:

The *Pre-Year End Data Check Report* splits the Taxable Pay and PAYE figures into current and previous employment. In contrast, the *Employee Cumulative (All) Report* and *Final Control Report* combine the two figures.

3. "NIC EE All Employment" on the *Pre Year End Data Check Report* should equal the "NI Employee" on the *Final Control Report*.
4. "NIC ER All Employment" on the *Pre Year End Data Check Report* should equal the "NI Employer" on the *Final Control Report*.

 Note:

The *Pre Year End Data Check Report* can be checked at any point during the year. Some clients do this every few months as a health check.

4	"NI Employer"	13,530.52	"NIC ER All Employment"	13,530.52

4.3.6. Reconciling the Pre Year End Statutory Pay Report

Compare the *Other Statutory All Employments Report* to the equivalent figures on the *Detailed Observation Report* for the relevant Pay Codes.

You should have a copy of the *Detailed Observation Report* from your last Payroll Run for each Pay Group.

STATUTORY PAYMENTS EMPLOYEE LISTING BASED ON PAY HISTORY										
Employee	Name	NI Number	Latest Start Date	Period Rejoined	SSP	SMP	SAP	SPP	ShPP	Student Loan
2513054	Ebony Lee	PN125318A			0	0	0	0	0	252

6007	Student Loan - Plan 2	0.00	-252.00	0.00	-252.00					

4.3.7. Troubleshooting: Common Reasons why the Reports Don't Match

#	Reason	Description
1	Employee Moving Company	If during the tax year, one or more Employees transferred to another Company in your Payroll. Issue: If an Employee moves from "Company A" to "Company B" during the year; their cumulatives are not included in the <i>Employee Cumulatives (All) Report</i> or the <i>Final Control Report</i> for the old Pay Group. However, their cumulatives are still be included in the <i>Pre Year End Data Check Report</i> for the original Company, similar to what would happen on the old P35.
2	Manual or Cancel Payments processed.	Processing Cancel or Manual Payments after the Final Payroll Run is processed, and the <i>Final Control Report</i> has been generated, can cause reports not to balance.

#	Reason	Description
		 Issue: The <i>Complete Update Report</i> reflects the Employees' Cumulatives before the Cancel or Manual Payments were processed, where the <i>Pre Year End Data Check Report</i> reflects the Employees' Current Cumulatives.
3	Manually Adjusting Cumulatives	Adjusting the Employees' Cumulatives after the Final Payroll Run, and the <i>Final Control Report</i> has been generated can cause reports not to balance.  Issue: - The <i>Complete Update Report</i> reflects the Employees' cumulatives before the Employees' cumulatives were adjusted. - The <i>Pre Year End Data Check Report</i> reflects the Employees' current cumulatives.
4	Checking the reports in the middle of a payroll run	Checking the reports in the middle of a Payroll Run can cause the reports not to balance.  Issue: This check should be done at the end of a Payroll Run and before you start the next payroll run.

4.3.8. Pre Year End Taxable Pay Vs Post Year End Tax Taxable Pay

The *PAY, PAYE, NIC Report* lists all Employees who have net taxable pay for this tax year, with

Note:

'Taxable Pay' on *Post Year End Reports*, including P60s, is always a whole number, i.e., no pence, see the table below.

overall totals for current PAYE, NI, and Taxable Pay.

Employee Reference	Pre-Year End Taxable Pay	Post Year End Taxable Pay	P60
001 – Joe Bloggs	10,000.78	10,000.00	10,000.00
002 – John Smith	10,000.25	10,000.00	10,000.00

003 – John Doe	10,000.40	10,000.00	10,000.00
----------------	-----------	-----------	-----------

Note:

Allowances must be made for this when reconciling total pay figures on *Pre Year End* and *Post Year End Reports*.

5. Year End Cleardown

5.1. What is the Year End Cleardown?

The Year End Cleardown task in Payroll completes the following tasks:

- Closes out the old tax year and moves the Payroll Company into a new tax year.
- Resets the Employees' cumulative figures.
- Moves the Employees' cumulative figures from the completed tax year to the 'End of Year' table.
- Generates the Payroll Company Calendar for the next two years.

5.2. Running the Year End Cleardown

Do not run your Year End Cleardown until:

- All your Company's Pay Groups are completed for the current tax year.
- The RTI Files for the current tax year are successfully transferred to HMRC, including the Final EPS.
- The totals from the *Pre Year End Data Check Report* are balanced.
- All Statutory Payments Pay Codes are assigned as such.

To run the Year End Cleardown:

1. Go to the **Year End** tab.
2. Click the **Manage** button next to the relevant Company.

Year End				
Companies				
Enter search text...				
Company	Tax year	Pay groups ready to cleardown	Total completion %	Last cleared
2113 UK Year End	2021	0	0	
				Ready To Run MANAGE

3. Click the **Year End Cleardown** tile.
4. Select the **Company** from the *Company Reference* drop-down menu.

All the Company's Pay Groups are displayed, along with their Pay Frequency and last completed Payroll Period.

5. Ensure all Pay Groups are completed for the current tax year.

Yearend Cleardown
Payroll Dashboard > Year End > [Yearend Cleardown](#)

Yearend Cleardown

Company Reference: 2113 UK Year End Payroll Period: 202252

ENSURE THAT PAYROLLS HAVE BEEN COMPLETED FOR ALL LISTED PAY GROUPS AND THAT YOUR DATABASE HAS BEEN EXPORTED BEFORE SELECTING THIS OPTION AS ALL YEAR TO DATE VALUES WILL BE CLEARED DOWN

Pay Group	Status	Frequency	Period
2113 - UK Year End Monthly	PAY290	M	202252

OK **Cancel**

6. Click **OK**.

The following message displays:

Note:

All Pay Groups in the selected Company are processed regardless of whether the user has access to the Pay Group.

5.3. Year End Control Reports

Go to *Year End > Manage*. The following three reports are available in the *Post Cleardown Activities* section after the Year End Cleardown task completes:

- Control Reports
- Cumulative Report by Employee
- NIC Control Report

5.3.1. Generate the Employee Year End Pay Listing Report

The *Print Year End Control Report* can only be run after your Year End Cleardown completes. It provides an end of year pay listing for each Employee.

Note:

- If you have made amendments to an Employee's cumulative pay details, then the Employee's new cumulative pay figures will be reflected in this report.
- The information on this report is the basis for each Employee's P60.
- Only Employees to which you have access are included in the report.

To generate the *Cumulatives Report by Employee*:

1. Go to *Year End > Manage*.
2. Click the **Cumulative Report by Employee** tile.

3. Select a **Company** from the drop-down *Company* menu.
4. Enter the **tax year**.
5. Click **OK**.

The *Cumulatives Report by Employee Report* generates to the *Report Centre*.

5.3.2. Amend Employee's Cumulative Pay Details after the Year End Cleardown

To amend an Employee's Cumulative Pay Details after *the Year End Cleardown*:

1. Go to *Year End > Manage*.
2. Click the **Maintain Cumulatives** tile.

3. Make the required amendments.
4. Click **Save**.

Note:

- Amendments made here after the Year End Cleardown are reflected in the Employee's P60.
- Use the Cancel or Manual Payment option, to include amendments on the EYU or

5.3.3. Generate the Year End Control Reports

To generate the *Year End Control Report*:

1. Go to *Year End > Manage*.
2. Click the **Control Reports** tile.

3. Select a **Company** from the drop-down menu.
4. Enter the **tax year**.
5. Click **OK**.

The *Control Reports* generate to the *Report Centre*.

Year End Control Report								
1	Title: Year End Control Report							
No. of Emps	Current Taxable Pay	Previous Taxable Pay	Total Pay	Current PAYE	Previous PAYE	Total PAYE	EE NI	Total NI
5	215874	111500	327374	51121.76	7000.00	58121.76	20143.82	46974.25
2	Title: CONTROLS FOR CHECKING P60s							
No. of Emps	Current Taxable Pay	Previous Taxable Pay	Total Pay	Current PAYE	Previous PAYE	Total PAYE	EE NI	Total NI
5	215874	111500	327374	51121.76	7000.00	58121.76	20143.82	46974.25
3	Title: CONTROLS FOR CHECKING P35s							
No. of Emps	Taxable Pay		PAYE		EE NI		Total NI	
5	215874		51121.76		20143.82		46974.25	
4	Title: LIST OF EMPLOYEES WITH NEGATIVE OR ZERO EARNINGS							
Employee Reference			Name		PPS Number		P35	P60
Total number of employees:			0					
5	Title: THE FOLLOWING EMPLOYEES LEFT DURING THE YEAR AND ARE NOT ENTITLED TO A P60							
Employee Reference			Name		PPS Number		Date Leaving	
Total employees Not Entitled a P60:			0					
			End Report					

The *Year End Control Report* consists of the following sections:

Section	Description
Year End Control Report	This section shows the total cumulative pay details <i>for</i> all <i>Employees</i> in the <i>Company</i> .

Section	Description
Controls for Checking P60s	This section shows the total P60 cumulatives for all <i>Employees</i> in the <i>Company</i> . The totals on this report should agree with the control totals at the end of your P60 run.
Controls for Checking P35's	This section shows the total P35 cumulative for all <i>Employees</i> in the <i>Company</i> .
List of Employees with Negative or Zero Earnings	This section lists all <i>Employees</i> who have zero or negative taxable earnings. This is for informational purposes only. Employees' earnings are not shown for confidential reasons but can be viewed by going to: - Update > Advanced Update Features > UK Year End Update > Maintain Year End Cumulative Details screen. - Update > Advanced Update Features > UK Year End Update > Print Employee Year End Pay Listing.
List of Employees who Left During the Tax Year	This section gives a list of <i>Employees</i> who left during the tax year. It does not show the Employees' earnings, but they can be viewed by going to: Update > Advanced Update Features > UK Year End Update > Maintain Year End Cumulative Details screen.

5.3.4. Generate the Year End NI Control Report

The *Year End NI Control Report* shows all necessary NI details.

To generate the *Year End NI Control Report*:

1. Go to the *Year End > Manage*.
2. Click the **NIC Control Report** tile.

3. Select a **Company** from the drop-down menu.

4. (Optional) Select a **Pay Group** from the drop-down menu.
5. (Optional) Enter an **Employee Reference**.
6. Enter the **tax year**.
7. Click **OK**.

The *NI Control Report* generates to the *Report Centre*.

5.3.5. Amend the Employees' NI details

If amendments to employees' NI details are required:

1. Go to the *Year End > Manage*.
2. Click the **Maintain NI Letter Details** tile.

6. Post Year End Cleardown Tasks

6.1. Overview

This section outlines the following:

- The Post Year End Cleardown tasks to complete.
- The preloaded rate changes for the new tax year 2026/27.
- The rate changes that require configuration for the new tax year 2026/27.
- How to generate/print Employee P60s.

6.2. Post Year End Cleardown Checklist

Complete the following tasks after your Year End Cleardown, and before running the first Payroll of the new tax year:

Task	Action	Completed Y/N
1	Review the Payroll Company Calendar.	
2	Review the RTI Changes for the new tax year	
3	Review the NI Earnings Limits for 2026/27	
4	Review the NI Rates EE for 2026/27	
5	Review the NI Rates ER for 2026/27	
6	Review UK / SRIT / Welsh PAYE Codes for the new tax year.	
7	Review the UK /SRIT / Welsh PAYE Code Overrides.	
8	Review the UK / SRIT / Welsh PAYE Rates for 2026/27	
9	Review the new weekly rate for SSP.	
10	Review the Auto Enrolment Rates.	
11	Review the Pension Scheme Auto Enrolment rates for 2026/27	
12	Review the Apprentice Levy Rates and configuration	
13	Review your Company's eligibility for the Employment Allowance. If required, update the Company's Employment Allowance parameters.	
14	Enter the Current and Previous Year Statutory Rate / Emergency tax code.	

Task	Action	Completed Y/N
15a	Create new pay code for Student Loan Plan Type 5 and mark for RTI return via Payroll > Settings > UK Tax Rates - General - RTI - Payment Pay codes	
15b	Review the Student Loan Plan Type 1,2, 4 & 5 thresholds.	
16	Review the Post Graduate Loan thresholds.	
17	Create a new NIRESPBP Pay Code and NI Miscarriage pay code and enter the SNCP Recovery Percentage (92%), if applicable.	
18	Review new Employment Rights Bill Leave entitlements from April 2026 and impact on existing company policy.	
19	Update the Council Tax Pay Code thresholds.	
20	Update the DEA / DEO Pay Code thresholds.	
21	Update the Scottish Arrestment Order Pay Code thresholds.	
22	Update the Class 1A NIC Rate	
23	Review the Max Redundancy Rate.	
24	Load / Update Employee Tax Codes (Including Global EE Update).	
25	Review the Minimum / Living Wage increases.	
26	If applicable, review the Payrolling of Car Benefits.	
27	Review the RTI payment Pay Codes.	
28	Print P60s.	
29	Run your Payroll for the new tax year.	

6.3. Review the Company Calendar

Once the Year End Cleardown has completed, check the Company Payroll Calendar and the Offset Days on the Pay Groups linked to that Company. If a 53rd week is required, then the Company Calendar may need to be realigned.

To check the Payroll Calendar:

1. Go to *Settings > Calendars*.
2. Select a **Company** from the drop-down menu.

3. Review the week end date on the calendar and the other key fields, such as the tax period and monthly indicator.
 - a. It is critical for RTI that any tax year return relates to a payment made in that tax year. Review the week end date on the calendar (considering offset days if applicable) to ensure the calendar is correct.
 - b. Monthly payrolls always pay the calendar month regardless of the week end date.
4. Add a 53rd, 54th, or 56th week if required – See section [6.3.2. How do I Insert Week 53 into the Payroll Calendar?](#) You can do this at any stage during the year.

6.3.1. Check Offset Pay Days

Once the Year End Cleardown is complete, review your Pay Group offset days. Use Offset Days to adjust a Pay Group's week end date if it differs from the week end date on the Company Payroll Calendar. The Offset Days may need to change if you add a week 53, 54, or 56 to the Company Payroll Calendar.

To check Offset Days:

1. Go to *Settings > Pay Groups*.
2. Select a **Pay Group** from the drop-down menu to view the details.
3. Click **Next Page**.
4. If required, update the *Offset Days* field.

The screenshot shows a web interface for managing Pay Groups. On the left, there are several input fields: a dropdown menu, 'Account No', 'User Id', 'Output File Location', 'Payment Calendar Link', 'Extract Code', and 'Offset Days'. The 'Offset Days' field is highlighted with a red rectangular box. Below these fields are two toggle switches labeled 'Offset Month Ind' and 'Print Pay Method'. On the right side, there are two panels. The top panel is titled 'Civil Service Overtime Parameters' and contains three input fields: 'Max Claims Allowed', 'Weekend Day', and 'Night Duty Days'. The bottom panel is titled 'Payslip' and contains two toggle switches: 'Group Payslips / Letters and Cheques' and 'Payslip Address Sort'.

6.3.2. How do I Insert Week 53 into the Payroll Calendar?

1. Go to *Setting > Calendar*.

2. Select a **Company** from the drop-down menu.
3. Click **Add**.
4. On the new line enter the **week number**, in the format 202653.
5. On the same line enter the **Tax Period** and **Calendar Period**, in the format YYYY12.
6. Enter the week end date of the payroll period.
7. *Production Week* should be the same as *Week Number*.
8. Set the monthly indicator against week 52, not against week 53.
9. To correct the dates for 2026, click **Build/Rebuild year**. The base year should be 2025.

6.4.8. Auto Enrolment Rates

To view the new Auto Enrolment Rates:

1. Go to *Settings > General*.
2. Click **Auto Enrolment**.

3. Select **05 – Earnings Parameters** from the *Options* drop-down menu.
4. Review the rates for 2026.

6.5. Rate Changes – Customer Configuration Required

The following rates are not preloaded as part of the Year End Software Delivery. These rates should be updated manually.

Note:

Do not change these rates until you have finished processing all Payrolls for the current tax year. The following rates must be configured **BEFORE** processing the first Payroll of the new tax year.

6.5.1. Apprentice Levy Rates

Note:

For details on how to configure your Payroll System to cater for the Apprentice Levy, at either *System Level* or *Employee Level*, see section [8.2. Apprentice Levy – Review](#).

To update the new Apprentice Levy Rates:

1. Go to *Settings > General*.
2. Click **Other**.

3. Select **Apprentice Levy** from the *Select Detail* drop-down menu.

To review the allocation of Apprentice Levy thresholds:

1. Select 2026 from the *Year* drop-down menu.
2. Select **Company Parameters** from the drop-down *Select Menu*.
3. Amend as required.

The screenshot shows a window titled "Company Parameters" with a "Year" dropdown menu set to 2026. Below the menu is a table with the following columns: Company, Override Apprentice Levy Rate, Apprentice Levy Threshold, Apprentice Levy Pay Code, and a description. The table contains six rows of data.

Company	Override Apprentice Levy Rate	Apprentice Levy Threshold	Apprentice Levy Pay Code	
1238	UK YE 2020 Univer...			
1239	1239 University UK		9905	Apprentice Levy
1240	1240 University UK		9905	Apprentice Levy
1406	LARGE COMPANY ...		9905	Apprentice Levy
1417	UK YE 2020 1417 DS	15000	9905	Apprentice Levy
1418	UK YE 2020 1418 DS	15000	9905	Apprentice Levy

At the bottom of the window are "Cancel" and "Save" buttons.

4. Click **Save**.

6.5.2. Employment Allowance

The Employment Allowance (EA) allows eligible businesses and charities to reduce their Employer's Class 1 NIC liability.

- For April 2026, the maximum EA will remain at £10,500.

Note:

If claiming the EA, it is your responsibility to check eligibility

User Action 1:

Review your Organisation's eligibility for claiming the EA and update the System Parameter.

Review and update the EA entitlement indicator in Payroll, to ensure HMRC are accurately informed regarding the claim:

1. Go to *Settings > General*.
2. Click **RTI**.

6.6.5. Postgraduate Loans

Note:

The Department of Education has confirmed that the Postgraduate Loan for the 2026/27 tax year remains £21,000. The repayment percentage remains at 6%.

To update the new Post Graduate Loan Thresholds:

1. Go to *Settings > Codes > Pay Codes*.
2. Search for the Student Loan Pay Code.
3. From the relevant 3 dot menu click **Edit**.
4. Click step **2 Rules** and search for the postgrad loan rules.
5. Click **Edit** to update each threshold.
 - The Postgraduate Loan threshold for 2026/27 remains £21,000.
 - £1,750 a month and £403.84 a week

6. Click **Next** then **Save**.

6.6.6. Council Tax Rates

The user must review any Council Tax Pay Codes and set up the required Council Tax Rates for 2026/27 against them.

Note:

It is the customer's responsibility to confirm and configure the correct Council Tax Rates for the new tax year for each Council Tax Pay Code used.

To do this:

1. Go to *Year End > System Legislative Rates > Council Tax Rates*.

2. Select the Council Tax **Pay Code** from the drop-down menu.

3. Update the rates as per your local council tax rates for the new tax year.
4. Click **Save**.

6.6.7. DEA / DEO Pay Codes

Customers must review any DEA / DEO Pay Codes and set up the required Rates for 2026/27 against them.

Note:

It is the customer's responsibility to confirm and configure the correct rates for the new tax year for each DEA / DEO pay code used.

To do this:

1. Go to *Settings > Pay Codes*.
2. Search for the DEA / DEO Pay Code (example, Direct Earnings Attachment Pay Code).
3. From the relevant 3 dot menu click **Edit**.
4. Click step **2 Payment Orders**.
5. Enable the **Nett Earnings** indicator.

6.6.9. Maximum Redundancy Rate

Customers are required to review the Maximum Redundancy Rates for the new tax year.

Note:

It is the customer's responsibility to confirm and configure the correct rates for the new tax year.

To do this:

1. Go to *Settings > UK Tax Rates > General*.
2. Go to the *Redundancy* section.

Note:

The screenshot below is for illustrative purposes only and not reflective of the rates to be used.

Redundancy

Max Redundancy Rate	Max Redundancy Weeks	Max Redundancy Years
544	20	20

3. Update the rates as required for the new tax year.
4. Click **Save**.

6.6.10. Auto Enrolment LEL / UEL Thresholds

The Department for Work and Pensions (DWP) has confirmed that all key [automatic enrolment pension thresholds](#) will remain unchanged for the 2026/27 tax year.

Note:

The below Auto Enrolment LEL / UEL thresholds apply for the 2026/27 tax year.

Annual Threshold	2026/27
QEB Lower Limit	£6,240 (LEL)
QEB Upper Limit	£50,270 (UEL)
Earnings Trigger	£10,000

Customers are required to review and update any Pension Scheme Rates for the new tax year.

This includes:

- LEL / UEL thresholds.
- Banded Scheme Type Tiered Rates.

To do this:

1. Go to *Settings > Pension Schemes*.

2. Select a **Pension Scheme** from the *Pension Code* drop-down menu.
3. Click **Next Page** to move to page 2.
4. Click the **LEL / UEL** button to update if required.

5. Update the *Annual LEL* and *Annual UEL* as required.
6. Click **Save**.

6.6.11. Employee Global Update of Tax Codes

Use a global update of tax codes to increment tax codes across the system.

Note:

- Perform this update before loading tax certs from HMRC. Doing this after loading tax certs would result in increasing the tax certs received by HMRC.
- Ensure you complete this step, as it's possible not all Employees will be included on P9

Before doing this:

1. Go to *Settings > System Configuration > General*.
2. Review the **Dormant Employee on Tax Certs** indicator.

Indicator Status	Description
Enabled	Dormant employees will have their tax details updated.
Disabled	Dormant employees will not have their tax details updated.

Once you have reviewed the *Dormant Employee on Tax Certs* indicator, you can now update the tax certificates globally for Employees on the Payroll System. A global update applies to all Employees.

S

Review and update based on the following for 2026/27 tax code changes.

<u>Tax Codes</u>	<u>Adjustment</u>
Emergency Tax Code	1257L
L Suffix Uplift	N/A due to no change in the Personal Allowance
M Suffix Uplift	N/A due to no change in the Personal Allowance
N Suffix Uplift	N/A due to no change in the Personal Allowance

To perform a global update of tax codes:

1. Go to *Year End > Manage*.
2. Click the **Tax Code Employee Uplift** tile.

3. Select a **Company** from the drop-down menu.
4. Enter the **Tax Code Letter** for which you want to uplift, i.e., Add 'L' in the *Letter* field for 'L' suffix updates.
5. Enter 'S' to uplift a suffix or enter 'P' to uplift a prefix.
 - As Tax Code Letter 'L' is a suffix, enter 'S'.
6. The *Update Employee Tax Codes* field defaults to 'A' for all employees.

Note:

To update Employee Tax Codes based on region:

1. Select an option from the drop-down *Update Employee Tax Codes* menu. i.e.
 - a. 'S' = Scottish only
 - b. 'C' = Welsh only
 - c. 'E' = English only

7. Enter the **Adjustment** value for the 'L' suffix adjustment.

8. Select a **Date Effective**.

9. Click **OK**.

The *Employees Updated with New Tax Codes* pdf report generates to the *Report Centre*.

PAY3445				
Pay Group	Employee Reference	Name	Old Tax Code	New Tax Code
1249	2517908	Daisy Barber	1250L	1257L
No. of Employees:		1		

10. Repeat for both 'M' and 'N' suffixes.

6.6.12. Minimum Wage Increases

From April 2026, National Minimum and Living Wage is increasing.

	21 and over	18 to 21	Under 18	Apprentice
April 2026	£12.71	£10.85	£8.00	£8.00

Note:

It is the customer's responsibility to review and update the affected Pay Scales/Personal

Note:

The national Living wage will be £12.71. The London Living Wage being £14.80. Only one living wage can be set on the system so where the London Living Wage is to be applied in checks this is the rate that should be added by users.

6.6.13. HR Admin Wage Warning

For customers using the *HR Admin Wage Warning* or the *Payroll Minimum Wage Validation* report, you should update the Wage Warning Setup to include the new rates.

To do this:

1. Go to *People Management Dashboard > Data Centre*.
2. Click **View All**.
3. Search for and click on the **Wage Warning Setup** tile.

4. Add new rates to the relevant tabs:
 - a. Minimum Wage
 - b. Living Wage
 - c. Apprentice Wage
5. Click **Save**.

6.7. RTI Payment Pay Codes

There is a requirement within RTI to be able to report on certain types of payments.

To ensure the correct reporting requirements:

1. Go to *Settings > General > RTI*.

To define the print order of the P60s:

Field / Indicator	Description
Order	This option allows you to control the print order. There are five levels of printing available with each level consisting of 11 options as follows: • Category • Cost Centre • Department • Employee Reference • Forename • Input Location • Location • Pay Group • Pay Method • Payslip Location • Surname
Paper Type	Select from: • A4 • Duplex
Additional Address Information	Select an option from the drop-down menu to print one or two extra lines of print detail. These extra lines are printed underneath the Employee's home address on the P60. Select from: • Cost Centre • Employee Reference • Input Location • Location • Pay Group • Payslip Location
Print Descriptions	If you select an option from the <i>Additional Address Information</i> fields: • Enable the indicator to display both the code and the additional print detail line description. • Disable to only display the code for the additional print detail line.

Field / Indicator	Description
Print Home Address	Enable the indicator to print the Home Address on the P60.
Print Zero Paid Employees	Enable the indicator to print P60s for all employees, including those who have not been paid during the tax year.

4. Click **Save**.
5. Click **OK**.

The P60s generate to the *Report Centre*.

Note:

The printed P60 is only available in portrait, which is the HMRC standard. The P60 produced is "V fold" to cater for duplex printing, and to allow the name and address to print in the relevant box on the back.

7.1.1. Print Zero Paid Employees

You can print P60s for active employees who have not been paid during the tax year.

To do this ensure the following parameter is enabled:

1. Go to *Year End > Manage > Print P60s*.
2. Click **P60 Print Options**.
3. Enable the **Print Zero Paid Employees** indicator.

Indicator Status	Description
Enabled	P60s generate for all employees, including those who have not been paid during the tax year.
Disabled	P60s will only generate for those employees who have been paid during the tax year.

Example of Printed P60

7.2. Generate P60s to Portal

1. Go to *Year End > Manage > Print P60s*
2. Click **Release to Employees**.

The screenshot shows a dialog box titled "Release Portal P60s" with a close button in the top right corner. Inside the dialog, the title "Release P60" is displayed. Below the title, there are three input fields: "Company" (a drop-down menu), "Employee" (a drop-down menu), and "Year" (a text input field). At the bottom of the dialog, there are two blue buttons: "OK" and "Cancel".

3. Select a **Company** from the drop-down menu.
4. Enter the **Tax Year**, i.e., 2025.
5. Click **OK**.

8. Key Reminders

8.1. Payrolling Car Benefits

Note:

If intending to Payroll Benefits (including Car BIK), then you must register your intention to do so with HMRC **prior** to the start of the new tax year.

The following configuration steps are required if you intend to Payroll Car Benefits for the first time.

8.1.1. Configure RTI Parameters

By default, car details are **NOT** returned via Payroll. If you do intend to Payroll Car Benefits, you must enable the *Return Car Details From Payroll* indicator.

To do this:

1. Go to *Settings > General*.
2. Click **RTI**.

3. Enable the **Return Car Details from Payroll** indicator if you want to return the Car BIK details via Payroll.
4. Enter a **Car Audit Start Date**. This defaults to the start of the tax year but may be overwritten. Any changes to the Car BIK on or after this date is reported to HMRC via the RTI FPS.

5. Enable the **Car Portal Admin Centre On** indicator if you use the *Car Portal Admin Centre* for Payrolling car benefits.
6. Click **Save**.
7. Confirm the BIK pay codes used for Payroll Benefits. To do this:
 - a. Go to *Settings > General > RTI*.
 - b. Select **Payment Pay Codes** from the *Select Detail* drop-down menu.
 - c. Enable the **BIK Car Pay Code** indicator to identify the BIK Car Pay Codes.
 - d. Click **Save**.

8.2. Apprentice Levy – Review

The following Levy Rates are installed as part of the 2026/27 software year end release:

- Apprentice Rate of 0.5%
- Company Salary Threshold of £3,000,000.

8.2.1. Review Company Parameters

1. Go to *Settings > General*.
2. Click **Other**.
3. Select **Apprentice Levy** from the *Select Detail* drop-down menu.
4. Select a **Year** from the drop-down menu.
5. Select **Company Parameters** from the *Select* drop-down menu.

6. Here you can set the *Apprentice Levy Threshold* and *Apprentice Levy Pay Code* for each Company in your Organisation.

Company		Override Apprentice Levy Rate	Apprentice Levy Threshold	Apprentice Levy Pay Code	
1602	1600 UK			9905	Apprentice Levy
1604	1600 UK			9905	Apprentice Levy
1606	1600 UK			9905	Apprentice Levy
1611	1611 UK			9905	Apprentice Levy
1612	5050 UK		15000	9905	Apprentice Levy
1613	1613 UK			9905	Apprentice Levy

Cancel Save

Parameter	Description
Override Apprentice Levy Rates	This field is a rate different from the system level rate (currently 0.5%) to be used at a Company Level. For the 2023/24 tax year, this can be left null.
Apprentice Levy Thresholds (e.g. £15,000)	This field is the threshold that you wish to allocate to that individual Company. - This is a manual process. In the case of connected companies, you may have to split the threshold. - Once you decide how you wish to allocate the threshold, update these fields.
Apprentice Levy Pay code	This is an Apprentice Levy Output Pay Code – null by default. - If populated with a Pay Code, the system will cost the Apprentice Levy during the Payroll Validation task and output against this Pay Code. Note: If populated with a Pay Code, then the system applies the Apprentice Levy at an Employee Level during each pay run and outputs against this Pay Code. - There is no statutory basis on which to calculate the Apprentice Levy at an Employee Level. If you decide to enable this option, you need to review the sections below.

8.2.2. Review GL Matrix

Review and update your GL Matrix if you intend to payroll the apprentice levy at employee level. The set up required differs depending on the classification that you use in your matrix.

Note:

For further information on how to configure your GL Matrix, see user guide [Integration with the Financial Management System](#).

To review your GL Matrix:

1. Go to *Settings > General Rules & Settings*.

8.2.3. Set Up a New Analysis Code for Apprentice Levy

To set up a new Analysis Code:

1. Go to *Settings > Analysis Codes*.
2. Click **Add Analysis Code**.
3. Enter a new **Analysis Code** and **Analysis Code Description**. Any free analysis code can be used, e.g., 6200.
4. *AL* must be selected as the **Analysis Type**.
5. Click **OK**.

8.2.4. Set Up a New Pay Code for Apprentice Levy

To set up a new pay code:

8. Go to *Setting > Pay Codes*.
9. Search for the *Employer NI* Pay Code.
10. From the 3-dot menu click **Clone**.
11. Enter a new **Pay Code** (use a pay code number that is free) and **Description**.
12. Click **OK**.
13. From the 3-dot menu click **Edit**.
14. In step 1 *Pay Code Formula* update the **Analysis Code** to the *Apprentice Levy* code set up in the previous step.
15. Click **Next** twice then **Save**.

Note:

Ensure to check the following indicators on the new Apprentice Levy Pay Code.

- The Inland Revenue pay path indicator should **NOT** be checked for this Apprentice NI Pay Code.
 - (*Settings > Pay Codes > Edit > Rules*)
- This Apprentice levy pay code should **NOT** be marked as an RTI statutory payment.
 - (*Settings > Pay Code > Edit > Rules*).

8.2.5. Record the New Pay Code for Apprentice Levy Against the Relevant Company

To assign a Pay Code against the Company:

1. Go to *Settings > General*.
2. Click **Other**.
3. Select **Apprentice Levy** from the *Select Detail* drop-down menu.
4. Select a **Year** from the drop-down menu.
5. Select **Company Parameters** from the *Select* drop-down menu.

Note:

This is optional and only required if you want the Apprentice Levy to cost per Employee in the Payroll Run.

8.2.6. Update the Company Costing Elements for Apprentice Levy

To do this:

1. Go to *Settings > General Settings*.
2. Select a **Company** from the *Company Code* drop-down menu.
3. Click **Next Page** twice to go to page 3.
4. Scroll down to the *Apprentice Levy* section.

The screenshot shows the 'Apprentice Levy' settings form. It contains four dropdown menus: 'Cost Centre' (set to 200), 'Location' (set to Ts0934 - Athlone), 'Expense' (set to PAYE & NI Control), and 'Project' (empty). Below these is a toggle switch labeled 'Exclude From Apprentice Levy', which is currently turned off.

5. Add the following as required:
 - a. Cost Centre
 - b. Location
 - c. Expense
 - d. Project
6. If required enable the *Exclude From Apprentice Levy* indicator. If enabled, this means no apprentice levy calculation is performed for this company.
7. Click **Save**.

8.2.7. Exclude Pay Groups from Apprentice Levy

To exclude Pay Groups from Apprentice Levy calculations:

1. Go to *Settings > General*.
2. Click **Other**.
3. Select **Apprentice Levy** from the *Select Detail* drop-down menu.
4. Select **Pay Groups Parameters** from the *Select* drop-down menu.

Pay Group	Name	Exclude
11	JamesTest	☐
60	POD 1	☐
61	POD 2	☐
62	POD 3	☐
100	Retail - UK	☐
101	UK Monthly	☐
102	102 Test Pay Group	☐
200	Head Office	☐

5. Enable the **Exclude** indicator for each Pay Group to be excluded.
6. Click **Save**.

8.2.8. Exclude an Employee from Apprentice Levy

To exclude Employees from Apprentice Levy calculations:

1. Go to *Settings > General*.
2. Click **Other**.
3. Select **Apprentice Levy** from the *Select Detail* drop-down menu.
4. Select **Employee Parameters** from the *Select* drop-down menu.

Employee Reference	Name	Exclude App Levy
0068674	Surname-0068674 For...	☐
0069559	Surname-0069559 For...	☐
0070741	Surname-0070741 For...	☐
0070866	Surname-0070866 For...	☐
0071612	Surname-0071612 For...	☐

0072944	Surname-0072944 For...	☐
0073960	Surname-0073960 For...	☐

5. Enable the **Exclude App Levy** indicator for each Employee to be excluded.
6. Click **Save**.

8.2.9. Include BIK Pay Codes for Apprentice Levy

To include BIK Pay Codes for Apprentice Levy calculations:

1. Go to *Settings > General*.
2. Click **Other**.
3. Select **Apprentice Levy** from the *Select Detail* drop-down menu.
4. Select **Include BIK Pay Codes for Apprentice Levy** from the *Select* drop-down menu.

Include BIK Pay Codes for Apprentice Levy
