Version	Date	Author	Details
1.0	16 th Dec 2021	Isabelle Grey	Published to Customer Success Portal
1.1	19 th Nov 2024	James Martin	Updated section 2.1.7 Information Per Absence Type

1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how to use the new features and functionality introduced to absence pay in Payroll.

The new features and functionality are applicable to payroll occupational or statutory absence types, such as:

- Maternity Pay
- Paternity Pay
- Adoptive Pay
- Shared Parental Pay

This new functionality is applicable doesn't apply to non-payroll absences, such as:

- Annual Leave
- Innovative Thinking Days
- Privilege Day
- Jury Service Leave

1.2. Overview

The new features and functionality introduced to the absence pay in Payroll include:

1. Employee Absence Information

Several new screens have been added to the *Employee Dashboard* in Payroll where you can view employees' absence information, including:

- The [Absence Summary](#) screen, which displays the following tabs:
 - [Absences Pay Per Period](#) – displays summarised absence pay information relating to groups of occupational absence days/hours processed. The [Absence Display Settings](#) screen allows you to select which columns display on the screen.
 - [WFM Absences Current Period](#) – displays absence days/hours recorded this period in *Workforce Management* highlighting which have been processed by Payroll.
 - [Information Per Absence Type](#) – displays the key absence information for each of the employee's absence types and absence rules.
- The [Occupational Detail](#) screen is an enhanced version of the Back Office *Absence Manager Maintenance* screen, which allows you to:
 - To [View Historical Occupational Absence](#) details.
 - To [View Predicted Occupational Absence](#) details.

- To [Add Historical](#) occupational absences.
- To check a [Calculation Explanation](#).
- To [Edit an Absence](#).
- To [Cancel an Absence](#).
- To [Reverse an Absence Payment](#), where the cancelled absence relates to the previous payroll period.
- To [View the FTE History](#).
- To [View the FTE Deductions](#).
- The [Absence Display Settings](#) screen allows you to select which columns display when the *Occupational Detail* screen is opened in regular or [Full Screen](#) mode.
- The [SSP Detail](#) screen replaces the current *SSP History* screen and contains an additional information column to identify cancelled and reversed days.
- The [Statutory Detail](#) screen replaces the current *Statutory Payment Profile* screen and contains an additional information column to identify reversed days.

2. Absence Period Daily Rate

The [Absence Period Daily Rate](#) introduces new methods for calculating an employee's absence daily rate. The absence daily rate can now be derived by dividing the period salary by the number of days in the period. Note the following:

- The absence period daily rate calculation method can be configured at the following levels:
 - [Company Level](#).
 - [Pay Group Level](#).
 - [Absence Rule Level](#).
- The number of days in the period can be derived from:
 - [Calendar Days](#).
 - [Monday to Friday Days](#).
 - [Workforce Management Work Days](#).
- [Allowance Groups](#) allow you to select non-percentage allowance pay codes to include in the calculation for deriving the employees' absence daily rate.

3. Absence Rate Override

The [Absence Rate Override](#) screen allows you to override an employee's daily or hourly rate from a specified effective date. Note the following:

- Multiple *Absence Rate Overrides* can be added for a single employee, with the date input dictating which override rate takes precedence.
- The *Calculation Explanation* screen displays a notification to payroll users when the *Absence Rate Override* was used in the Daily/Hourly rate calculation.

4. Absence Pay Prediction

The [Absence Pay Prediction](#) task is a new overnight task which calculates future occupational absences based on the WFM absence start and end dates. The *Absence Pay Prediction* task predicts the date the occupational pay is expected to drop or increase, based on:

- The absence entitlement rule assigned to the employee.
- The employee's FTE.

For example, full pay to half pay or half pay to zero pay.

The *Absence Pay Prediction* task can be manually run for a single employee via *Employee Dashboard* in Payroll.

5. Absence Reversals

If the cancelled absence relates to the previous payroll period, payroll can now reverse the transactions related to the absence.

There are two reversal solutions available:

- **Fully Automatic Reversals:** Allows the system to reverse the payment automatically, while informing you of the reversal via a [Payroll Message](#).
- **User-Triggered Reversals:** Requires user intervention to reverse an absence payment, giving you control over what payroll transactions are processed.

6. Absence Entry

The [Absences](#) screen is the *WFM Person Absence* screen accessed via the *Employee Dashboard* in Payroll. Use the *Absences* screen to:

- [Add a New Absence](#).
- [View or Edit an Existing Absence](#).
- [Delete an Existing Absence](#).
- [Link an Existing Absence to a Statutory Absence](#).
- [View, Edit or Delete the Statutory Details Linked to the Absence](#).

1.3. Menu Profile Access

Assign users one of the following pre-configured menu profiles to grant access to the menu options required to use the absence pay in Payroll.

Menu Profiles			CREATE NEW PROFILE
absence			
Profile Name	Portal Users	Back Office Users	
Enhanced Absence Config - System Admin Web Services, CorePortal Pay	1	0	⋮
PayPortal Absence Information - Payroll Admin Web Services, CorePortal Pay	1	0	⋮

#	Profile Name	Description
1	PayPortal Absence Information - Payroll Admin	This menu profile includes all the <i>Absence Summary</i> screen functionality and drill downs, including: The Absence Summary screen. The Occupational Detail screen (including edit, add, reverse, and cancel). The Calculation Explanation screen. The SSP Detail screen (read only). The Statutory Detail screen. The Absence Pay Prediction screen (if enabled at Pay Group level). This menu profile does not include access to configuration screens or the following: The Absence Entry screen. The Absence Daily Rate Calculation screen. Note: Payroll Admins may grant further access as required. Adopting the Absence Summary screen is a pre-requisite to adopting any other features.

#	Profile Name	Description
2	Enhanced Absence Config System Admin	This menu profile includes the Payroll configuration screens required to configure the new Absence features, including: The Absence Daily Rate Calculation screen. The Absence Display Settings screen. The Absence Pay Parameters screen. - The <i>Pay Groups</i> screen (<i>Settings > Pay Groups</i>). - The <i>Company Parameters</i> screen (<i>Settings > General</i>).

1.4. Configuration Required – UK Only

The absence type must be linked to a statutory type for UK statutory absences:

- Go to *Payroll Dashboard > Settings > Absence Configuration > Absence Pay Parameters*.
- Select *Absence Type* from the *Select Detail* drop-down menu.

2. Employee Absence Information

2.1. The Absence Summary Screen

2.1.1. Overview

Adopting the *Absence Summary* screen is a pre-requisite to adopting any other features.

You can access the *Absence Summary* screen in one of two ways, go to:

- *Payroll Dashboard > Employee > Absence Summary* or
- *Payroll Dashboard > Manage Payroll > Input > Manage Payroll Employees.*

The *Absence Summary* screen displays the following information:

1. The employee's *Absence Category*.
2. The date the [Predictive Job](#) was last run for the employee. This only appears where the [Absence Pay Prediction](#) is enabled.

The screenshot shows the 'Absence Summary' screen for employee Alan Farrell. The top section displays employee details: Name (Alan Farrell), Employee Reference No (000163), NI Number (JL2066596), Period Left (201917), Original Start Date (01-Mar-2019), Leave Date, Date of Birth (25-Feb-1966), and Latest Start Date (08-Aug-2019). Below this, there are three tabs: 'Absence Pay Per Period', 'WFM Absences Current Period', and 'Information Per Absence Type'. The 'Absence Pay Per Period' tab is selected. The table below shows absence data for various periods. Red boxes highlight the 'Absence Category' and 'Predictive Job last run' fields.

Pay Period	Absence Type	Days	Hours	Multiplier	Occupational Payment	Occupational Salary Offset	Statutory Payment	Statutory Offset	Additional Information
Sep-2020									
	Sick	3.00	21.00	0.50	150.00	-300.00	57.51	0.00	
	Sick	5.00	35.00	1.00	500.00	-500.00	38.34	-38.34	
Aug-2020									
	Sick	0.00	0.00	0.00	0.00	0.00			1 Reversed Days
	Sick	9.00	63.00	0.50	450.00	-900.00	172.53	0.00	1 Cancelled Day 1 Reversed Days
	Sick	9.00	63.00	1.00	900.00	-900.00	115.02	-115.02	1 Reversed Days
Jan-2020									
	Sick	2.00	14.00	1.00	281.54	-281.54	0.00		2 Cancelled Days

The *Absence Summary* screen contains the following three tabs:

- [Absences Pay Per Period](#) – The *Information Per Absence Type* tab allows you to view the key absence information for each of the employee's absence types and absence rules.
- [WFM Absences Current Period](#)
- [Information Per Absence Type](#)

Note:

For Irish employees, the *Social Welfare Code* is displayed on the screen.

2.1.3. Pre-configured Menu Profile

Profile Name	Description
PayPortal Absence Information - Payroll Admin	This menu profile grants users access to the <i>Absence Summary</i> screen and the drill-down options available from this screen. Payroll Admins may grant further access as required. Adopting the <i>Absence Summary</i> screen is a prerequisite to adopting any other features.

2.1.5. Absence Pay Per Period

Overview

The *Absence Pay Per Period* tab displays summarised absence pay information relating to groups of occupational absence days/hours processed. The absences are grouped by:

- Pay Period.
- Absence Type.
- Pay Multiplier.

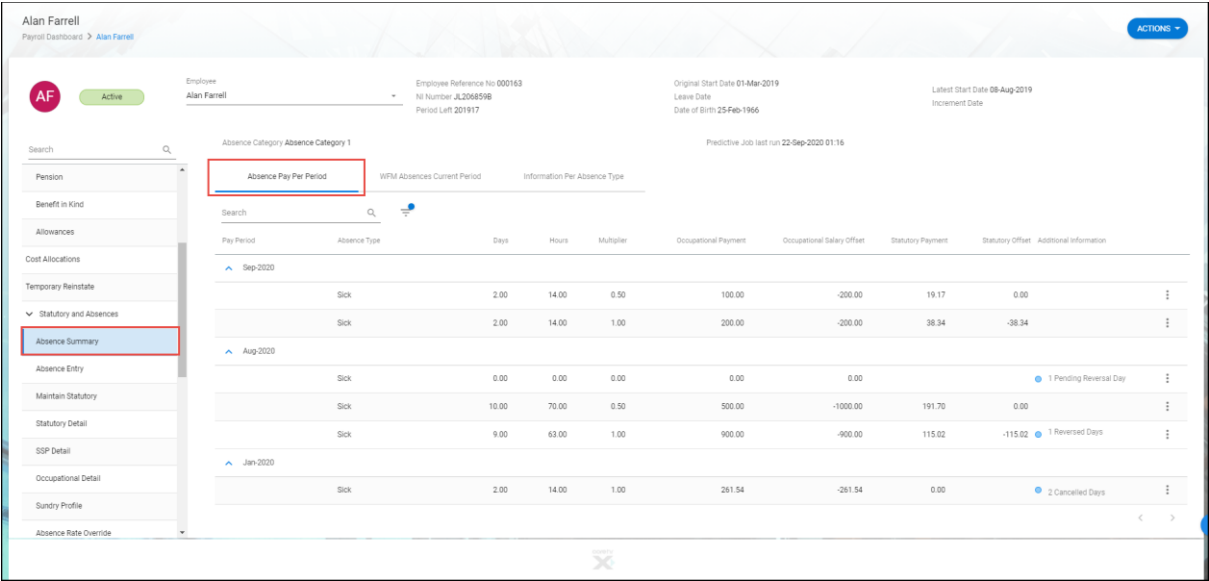

Note:

- Pay periods not containing any absences are not displayed.
- The *Absence Pay Per Period* tab can be configured to include Statutory Pay details for UK sites and Social Welfare Pay details for Republic of Ireland sites, see section [8. Absence Display Settings](#).
- Where enabled, the Statutory Pay and Statutory Offset values displayed, are the values for the Occupational Days grouped on the row. Therefore, the total of the Statutory Pay and Statutory Offset values displayed, may not equal the total Statutory Pay and Statutory Offset in that period. This may occur in the following circumstances:
 - Where Occupational Maternity is paid over five days, but SMP paid over seven days.
 - Where SMP is paid in arrears.
- The total values displayed for historical *Occupational Pay* and *Salary Offset* may contain a rounding inconsistency; this is due to the absence pay enhancement feature now rounding to 5 decimal places.

Access the Absence Pay Per Period Screen

1. Go to *Payroll Dashboard > Employee > Absence Summary*.
2. Select the *Absence Pay Per Period* tab.

The Absence Pay Period Screen Explained

The following *Absence Pay Period* information displays on the screen:

Column	Description																											
Pay Period	This column displays the payroll period in which the absence was input. The pay periods display in a tree structure, with an option to expand and collapse pay periods. To expand/collapse the pay periods: 1. Select  to expand the pay period. 	Sick	10.00	70.00	0.50	500.00	-1000.00	191.70	0.00																				
Sick	9.00	63.00	1.00	900.00	-900.00	115.02	-115.02	1 Reversed Days																				
Absence Type	This column displays the absence type associated with the absence entry.																											
Days/Hours	This column displays the days or hours processed.																											
Multiplier	This column displays the pay multiplier applied to the days/hours to calculate the absence daily rate.																											

Column	Description
Occupational Payment	This column displays the occupational absence payment for the absence days/hours taken – Rate x Absence Days/Hours x Multiplier x Roster Multiplier (where applicable).
Occupational Salary Offset	This column displays the occupational salary offset is the value used to reduce/offset the employee's salary when an absence is taken.
Additional Information	Any additional information related to the absence, such as: • The number of <i>Predicted</i> days. • The number of <i>Cancelled</i> days • The number of <i>Pending Reversal</i> days. • The number of <i>Reversal</i> days.
Multi Appointment Only	
Appointment ID	This column displays the appointment ID against which the absence was entered.
Appointment Title	This column displays the appointment title against which the absence was entered.
Irish Only	
SW. Days Paid	This column displays the social welfare days paid associated with the absence.
SW. Value (Tax)	This column displays the taxable value of the social welfare payment associated with the absence.
SW. Value (Non Tax)	This column displays the non-taxable value of the social welfare payment associated with the absence.

Note:

The following column can be enabled by going to *Payroll Dashboard > Settings > Absence Display Settings*. See section [8. Absence Display Settings](#).

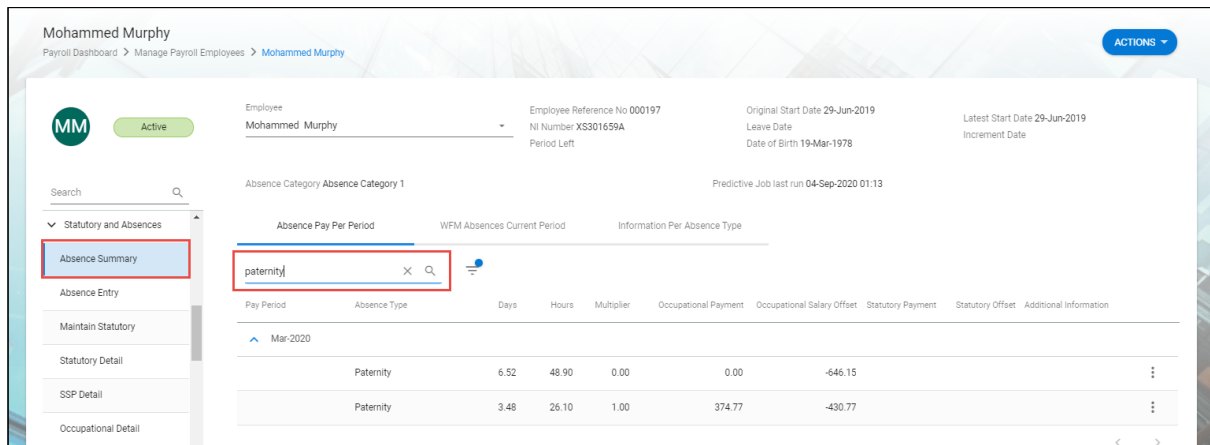

Column	Description
Adjustment Applied	Where an employee is absent for an entire payroll period, and an adjustment was applied to occupational pay and salary offset, due to: • Capping • Top Up See section 9.2. Top Ups and Capping – only applicable when the absence daily rate is calculated using the Annual Salary calculation method.
Statutory Payment	This column displays the statutory pay element of the employee's period pay – based on UK statutory rates. For further details, see <i>Payroll Dashboard > Settings > UK Tax Rates > General</i>.
Statutory Offset	This column displays the value used to offset the employee's statutory pay needs, to prevent the employee from being overpaid.

Occupational Detail
SSP Detail

Option 1:

Select *Occupational Detail*.

The *Occupational Detail* screen opens – see section [2.2. The Occupational Detail Screen](#).

**Note:**

Once accessed, the *Occupational Detail* screen opens in full screen and is auto filtered by the payroll period and absence type.

Option 2:

1. Select *SSP Detail* in the case of statutory sick pay.

The *SSP Detail* screen opens – see section [3.3. SPP Detail](#).

2. Select *Statutory Detail* in the case of non-sick statutory absences.

The *Statutory Detail* screen opens – see section [3.4. Statutory Detail](#).

**Note:**

The user must have access to the *Occupational Detail*, *Statutory Detail* and *SSP Detail* screens.

Absence Pay Per Period Screen Display Options

The following screen display options are available:

- Adjust Column Widths, see section [10.1.1. Adjust Column Widths](#).
- Reorder Columns, see section [10.1.2. Reorder Columns](#).
- Show/Hide Columns, see section [10.1.3. Show/Hide Columns](#).
- Group by Fields, see section [10.1.4. Group by Fields](#).
- Show in Groups, see section [10.1.5. Show in Groups](#).

2.1.6. WFM Absences Current Period**Overview**

The *WFM Absence Current Period* tab displays absence days/hours recorded this period in *Workforce Management* and splits the absence by:

- Absence Type.
- Processed Status.

This includes absences entered this period with absence dates for closed payroll periods.

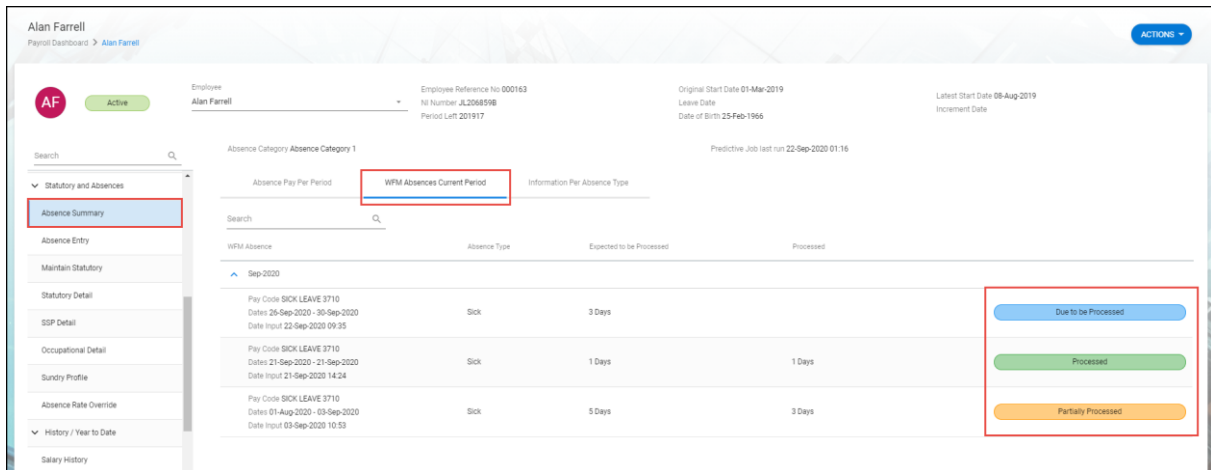

Note:

WFM displays absences for the current period regardless of whether the absences have been pulled into Payroll. The absences display with the following status:

- **Processed:** This absence has been pulled into payroll by running the *Payroll Validation* or *Absence Out of Validation* task.
- **Due to be Processed:** This absence has not yet pulled into payroll by running the *Payroll Validation* or *Absence Out of Validation* task.
- **Partially Processed:** Where part of an absence has been pulled into Payroll, e.g. where the WFM *Future Calculation* task has not been run to bring your processed absences up to the end of the payroll period.

Access the WFM Absences Current Period Screen

1. Go to *Payroll Dashboard > Employee > Absence Summary*.
2. Select the *WFM Absence Current Period* tab.

The screenshot shows the 'WFM Absences Current Period' screen for Alan Farrell. The left sidebar contains a search bar and a list of tabs: 'Absence Summary' (selected), 'Absence Entry', 'Maintain Statutory', 'Statutory Detail', 'SSP Detail', 'Occupational Detail', 'Sundry Profile', 'Absence Rate Override', 'History / Year to Date', and 'Salary History'. The main content area displays employee details for Alan Farrell, including his reference number, dates, and a predictive job last run. Below this is a table of absences. The table has columns for 'WFM Absence', 'Absence Type', 'Expected to be Processed', and 'Processed'. Three absences are listed, all with a status of 'Due to be Processed'. A red box highlights the 'WFM Absences Current Period' tab and the 'Due to be Processed' status button.

WFM Absence	Absence Type	Expected to be Processed	Processed
Pay Code SICK LEAVE 3710 Dates 26-Sep-2020 - 30-Sep-2020 Date Input 22-Sep-2020 09:35	Sick	3 Days	
Pay Code SICK LEAVE 3710 Dates 21-Sep-2020 - 21-Sep-2020 Date Input 21-Sep-2020 14:24	Sick	1 Days	1 Days
Pay Code SICK LEAVE 3710 Dates 01-Aug-2020 - 03-Sep-2020 Date Input 03-Sep-2020 10:53	Sick	5 Days	3 Days

The WFM Absence Current Period Screen Explained

The following *WFM Absence Current Period* information displays on the screen:

Column	Description
WFM Absence	The WFM Absence field displays the following information: • The pay code description. • The start and end date (if entered) of the absence. • The date the absence was input or amended.

Column	Description
Absence Type	This column displays the absence type associated with the absence entry.
Expected to be Processed	This column displays the total number of absence days/hours expected to be processed this period.
Processed	This column displays the total number of absence days/hours processed this period. This may differ from the 'Expected to be Processed' days/hours if the WFM <i>Future Calculation</i> task has not been run to bring your processed absences up to the end of the payroll period.
Processed/ Due to be Processed/ Partially Processed	• Processed – where the absence days for the current payroll period have been pulled into payroll, i.e., Due to be Processed = Processed. • Due to be Processed – the absence days not yet pulled into payroll, i.e., Due to be Processed ≠ Processed. • Partially Processed – where part of the absence has been pulled into payroll, e.g., where the WFM <i>Future Calculation</i> task has not been run to bring your processed absences up to the end of the payroll period.

Search Field

You can search the *WFM Absence Current Period* tab by:

- Pay Code Description.
- Absence Start Date.
- Absence End Date.
- Date Input.

2.1.7. Information Per Absence Type

Overview

The *Information Per Absence Type* tab allows you to view the key absence information for each of the employee's absence types and absence rules.

Access the Information Per Absence Type Screen

1. Go to *Payroll Dashboard > Employee > Absence Summary*.
2. Select the *Information Per Absence Type* tab.

The screenshot shows the 'Information Per Absence Type' screen for employee Alan Farrell. The interface includes a sidebar with navigation options like 'Statutory and Absences', 'Absences', 'Maintain Statutory', 'Statutory Detail', 'SSP Detail', 'Occupational Detail', 'Sundry Profile', 'Absence Rate Override', 'History / Year to Date', 'Salary History', 'Payslip History', 'View Payment Details', and 'Appointment History'. The main content area displays the 'Information Per Absence Type' tab, which shows the absence type 'Sick' and the absence rule 'Sick Scheme'. It also displays the 'Most Recent Absence' table and the 'Future Absence' table.

Play Code	Start Date	End Date	Days Processed	Hours Processed
SICK LEAVE 3710	21-Sep-2020	30-Sep-2020	5	35

Play Code	Start Date	End Date	Weeks	Days	Hours
SICK LEAVE 3710	24-Oct-2020	30-Oct-2020	1	5	35

Selecting an Absence Type and Absence Rule

To view the *Information Per Absence Type*:

1. Select an absence type from the drop-down *Absence Type* menu.
2. Select an absence rule from the *Absence Rule* drop-down menu (if more than one absence rule is in place for the selected absence type).

Absence Pay Per Period WFM Absences Current Period Information Per Absence Type

Absence Type: Sick
Absence Rule: Sick Scheme

Most Recent Absence

Pay Code	Start Date	End Date	Days Processed	Hours Processed
SICK LEAVE 3710	21-Sep-2020	21-Sep-2020	1	7

Future Absence

Pay Code	Start Date	End Date	Weeks	Days	Hours
SICK LEAVE 3710	26-Sep-2020	30-Sep-2020	0.71	3	21

The Information Per Absence Type Screen Explained

The following employee 'Absence Rule' information displays:

Absence Type	Absence Rule
Sick	Sick Scheme
This information is as at today	
Days taken from 23-Sep-2019 to 30-Sep-2020	
23	
Length of Service as at 22-Sep-2020	
18.65 Months	

! Note:

- 'This information is as per the current absence' – displays when an employee is currently absent.
- 'This information is as at today' – displays when an employee is not currently absent.
- Once the *Payroll Validation* task is complete, the Days/Hours Taken 'To' date updates to the final day of the payroll period.
- Where the 'From' date is greater than the 'To' date, nothing displays. For example, where an absence has been started, but the *Payroll Validation* task has not yet been run.

Information	Description
Days taken from DD-MMM-YYYY to DD-MMM-YYYY	The 'From' date displayed here is based on one of the following options configured on the absence rule:

Information	Description
	• Fixed Basis: A fixed calendar is used if the absence rule applies to a fixed period, e.g., 01-Jan to 31-Dec. • Rolling Period Basis: A rolling calendar is used if the absence rule considers a rolling period, e.g., 12 months based on: ○ Original Absence Date Back ○ End Date of Absence Back ○ Original Absence Date Forward ○ End Date of Previous Period Back The 'To' date displayed is the end date of the payroll period.
Length of Service	Length of Service Start Date The employee's length of service is calculated as at the absence start date, based on <i>Length of Service</i> absence rule configuration, i.e. • Original Start Date • Latest Start Date • Continuance Date Length of Service End Date The <i>Length of Service End Date</i> is used for Maternity/Adoptive Length of Service and is based on a date in the future. Use where an employees' length of service is calculated into the future for maternity/adoptive leave. • Baby Due Date. • Adoption Date. • Week of Baby Due Date. • Week of Adoption Matched Date.

The Entitlement Window

The employee's entitlement information displays in the *Entitlement* window. The employee's entitlement is based on their current service range, as set up on the absence rule, and includes their days/hours remaining at each entitlement range.

Note:

Where no absence exists for today's date, the *Entitlement* window displays the employee's days/hours absence rule entitlement based their latest absence record or 'Length of Service,' where no absence has been recorded, i.e., the entitlement has not been pro-rated to take account of their current FTE.

Entitlements (Have not been pro-rated)			
Days From	Days To	Multiplier	Days Remaining
0	22	1	17
22	44	0.5	22
44	999999	0	999999

Where an absence exists for the current day, and where the absence rule 'Entitlement Basis' is set to one of the following:

- Current Appointment
- All Substantive Appointments
- Current Appointment/ Current Gaps
- All Substantive Appointments/Current Gaps

The employee's entitlement range is pro-rated by their current FTE. For example, where the employee has an FTE of 0.5.

Entitlements			
Days From	Days To	Multiplier	Days Remaining
0	11	1	5
11	22	0.5	11
22	999999	0	999999

The Most Recent Absence/Future Absence Window

The *Most Recent Absence/Future Absence* window displays the following information:

Column	Description
Pay Code	The absence leave pay code and pay code description.
Start Date	The start date of the most recent or future absence entered.

Payroll: Absence Pay Enhancement User Guide

Column	Description
End Date	The end date of the most recent or future absence, if populated.
Days Processed	The total absence days processed for the absence.
Hours Processed	The total absence hours processed for the absence.
Date Pay Changed	Most Recent Absence: The date the absence pay multiplier changed or is predicted to change. Future Absence: The date the absence pay multiplier is predicted to change. Future absences only display where the Absence Pay Prediction feature is enabled.
Pay Multiplier	The decreased or increased pay multiplier at the 'Date Pay Changed.'

2.2.5. The Occupational Detail Screen Explained

The following columns display when the *Occupational Detail* screen is in regular mode:

Column	Description
Payroll Period	This column displays the payroll period in which the absence was processed – format: Monthly = MMM-YYYY, e.g., Mar-2020. Weekly/Fortnightly/Four Weekly = period number, e.g., 202026.
Absence Date	This column displays the date on which the absence occurred.
Days/Hours	This column displays the number of absence days or hours processed.  Note: Days/Hours depends on the calculation basis selected in the 'Absence Entitlement Range.'
Multiplier	This column displays the <i>Pay Multiplier</i> to be applied to the days/hours to calculate the absence daily rate.

Column	Description
Payment	This column displays the occupational absence payment for the absence days/hours taken – Rate x Absence Days/Hours x Multiplier x Roster Multiplier (where applicable).
Salary Offset	This column displays the occupational salary offset is the value used to reduce/offset an employee's salary for the absence.
Pay Code	This column displays the absence pay code number and the pay code description.
Pattern	This column displays the work pattern day, i.e. Work or Rest.
Information Field	This column displays the information related to the absence day: - Cancelled - Pending Reversal - Reversed - Predicted
Multi Appointment Only	
Appointment ID	This column displays the appointment ID against which the absence was entered.

The following columns display when the Occupational Detail screen is in Full Screen, see section

2.2.4. Full Screen:

Column	Description
Only Applicable to Irish Payroll	
SW Days	This column displays the social welfare days associated with the absence.
SW Value (Tax)	This column displays the taxable value of the social welfare payment.
SW Value (Non Tax)	This column displays the non-taxable value of the social welfare payment.
Multi Appointment Only	
Appointment Title	This column displays the appointment title against which the absence was entered.
Paid Days	This column displays the days paid associated with the absence.
Paid Hours	This column displays the hours paid associated with the absence.

Column	Description
Paid Pro-rata Days	This column displays the pro-rata days paid associated with the absence, i.e. the paid days * roster multiplier where a roster multiplier is applied to the absence rule.
Paid Pro-rata Hours	This column displays the pro-rata hours paid associated with the absence, i.e. the paid hours * roster multiplier where a roster multiplier is applied to the absence rule.

Note:

The following column can be enabled by going to *Payroll Dashboard > Settings > Absence Display Settings*. See section [8. Absence Display Settings](#).

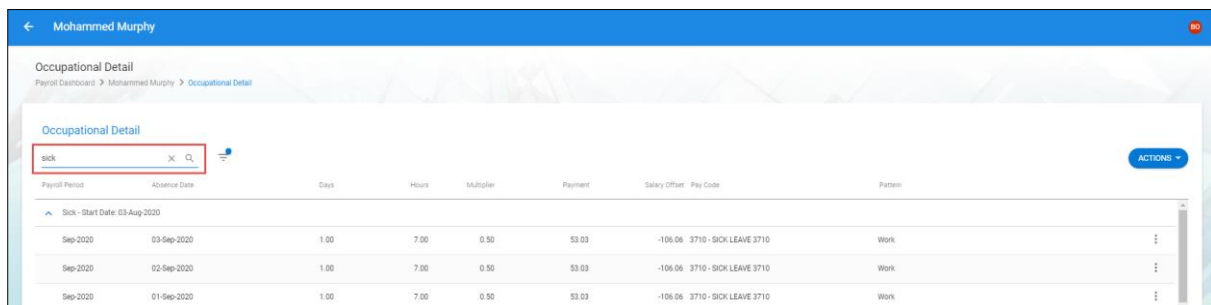

Column	Description
Pro-rata Day	This column displays the occupational absence calculation uses the WFM shifts to pro-rata days taken based on the roster multiplier (Days in Cycle/ Workdays).
Pro-rata Hours	This column displays the occupational absence calculation uses the WFM shifts to pro-rata hours taken based on the roster multiplier (Days in Cycle/ Workdays).
Override Multiplier	This column displays the value displays if the WFM Pay Code Multiplier Override is applied
Top Up	This column indicates where the 'Top Up' feature is switched on for the absence rule entitlement. This is an advanced feature.
Scheduled Run	This column indicates if a scheduled run is applied.

2.2.6. Searching the Occupational Detail Screen

Both the standard and full *Occupational Detail* screens can be searched using the search field or search filter.

Use the search field to search for occupational absences by:

- Absence Type.
- Pay Code.
- Pay Code Description.

Payroll Period	Absence Date	Days	Hours	Multiplier	Payment	Salary Offset	Pay Code	Pattern
Sick - Start Date: 03-Aug-2020								
Sep-2020	03-Sep-2020	1.00	7.00	0.50	53.03	-106.06	3710 - SICK LEAVE 3710	Work
Sep-2020	02-Sep-2020	1.00	7.00	0.50	53.03	-106.06	3710 - SICK LEAVE 3710	Work
Sep-2020	01-Sep-2020	1.00	7.00	0.50	53.03	-106.06	3710 - SICK LEAVE 3710	Work

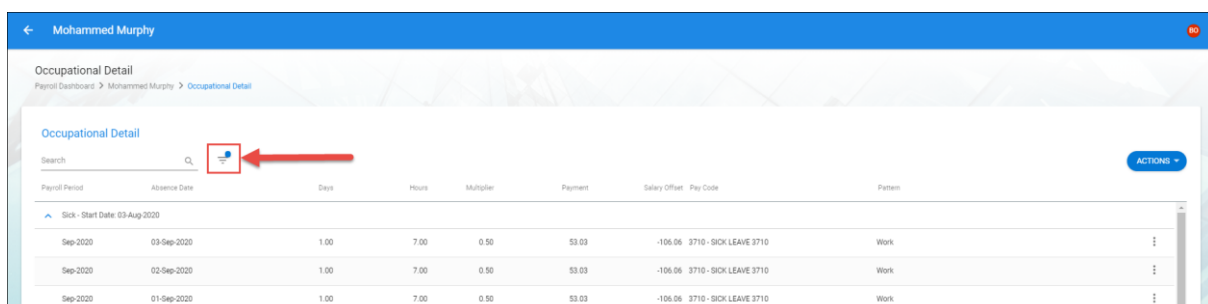

Filtered Search

Note:

- By default, the *Payroll Processing Status* filter is set to *Processed*.
- The blue dot next to the Pay Code Filter  indicates that the filter is on.

1. Select the  button to open the *Filter absences* screen.

Payroll Period	Absence Date	Days	Hours	Multiplier	Payment	Salary Offset	Pay Code	Pattern
Sick - Start Date: 03-Aug-2020								
Sep-2020	03-Sep-2020	1.00	7.00	0.50	53.03	-106.06	3710 - SICK LEAVE 3710	Work
Sep-2020	02-Sep-2020	1.00	7.00	0.50	53.03	-106.06	3710 - SICK LEAVE 3710	Work
Sep-2020	01-Sep-2020	1.00	7.00	0.50	53.03	-106.06	3710 - SICK LEAVE 3710	Work

This allows you to filter the *Occupational Detail* screen using the following:

- Appointment
- Absence Type

- Period
- Absence Status
 - Cancelled
 - Active
- Reversal Status
 - Not Reversed
 - Reversal Pending
 - Reversed
- Payroll Processing Status
 - Processed
 - Predicted

RESETAPPLY

2. Click **Apply**.

2.2.7. FTE History and FTE Deductions

The *Occupational Detail* screen allows you to view the employee's absence rules FTE History and FTE Deductions. These screens allow you to view what impact an employee's service/FTE history has on their entitlement for deriving the entitlement calculation.

FTE History

The *FTE History* tab allows you to view the employee's FTE History of each absence rule.

Note:

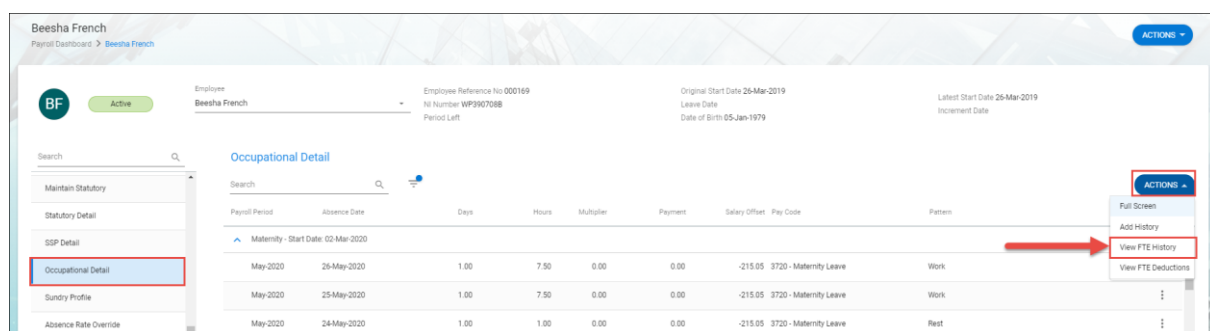

The employee's current FTE affects the absence rule 'Entitlement Range' where the absence rule 'Entitlement Basis' is set one of the following:

- Current Appointment
- All Substantive Appointments
- Current Appointment/ Current Gaps
- All Substantive Appointments/Current Gaps

The employee's entitlement range is pro-rated by their current FTE.

To view the employee's FTE History:

1. Select the **Actions** Button.
2. Select *View FTE History*.

The *View FTE History* screen opens.

Payroll: Absence Pay Enhancement User Guide

FTE History									
Payroll Dashboard > Beesha French > FTE History

S1	Sick Scheme	02-SEP-19 to 31-AUG-20 @ 50% (44 range units @ 365/365 days)	-22	01-Sep-2020

The *FTE Deductions* columns explained:

Column	Description
Rule ID	This column contains absence rule ID.
Rule Name	This column contains absence rule description.

Column	Description
Narrative	This column contains the calculation method used to adjust to the absence rule entitlement 'Range Units' based on the employee's FTE.
Deduction	This column contains the adjustment value deducted from the entitlement 'Range Units' based on the employee's current FTE.
Rule Date	This column contains the date the <i>Payroll Validation</i> or <i>Absence Out of Validation</i> task last completed.

FTE History/FTE Deductions Screen Display Options

The following screen display options are available:

- Adjust Column Widths, see section [10.1.1. Adjust Column Widths](#).
- Reorder Columns, see section [10.1.2. Reorder Columns](#).
- Show/Hide Columns, see section [10.1.3. Show/Hide Columns](#).

2.2.8. Add History

The *Add History* screen allows you to add additional absence history so that you can ensure that the history used to calculate the employee's entitlement pay going forward is correct.

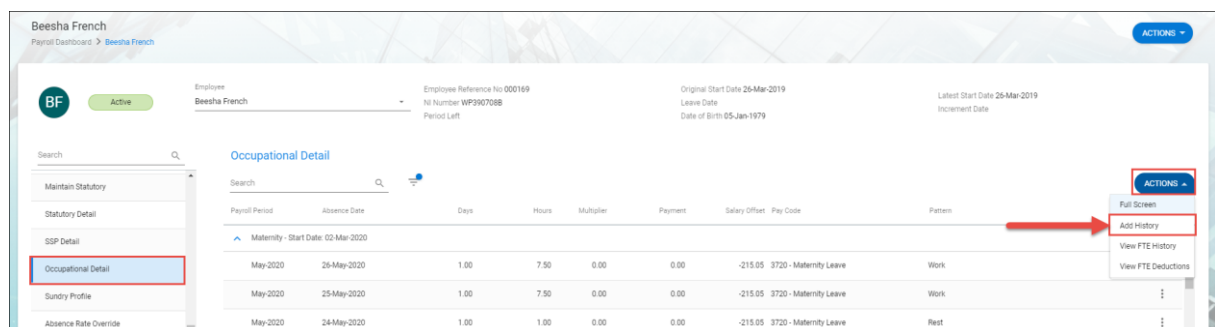

Note:

Absence history may be added for any payroll periods before the current period.

To add absence history:

1. Select the **Actions** Button.
2. Select *Add History*.

The *Add Absence History* screen opens.

Payroll: Absence Pay Enhancement User Guide

Add Absence History
Payroll Dashboard > Manage Payroll Employees > Beesha French > Add Absence History

Payroll Period Payroll End Date Absence Start Date* Absence Date*

Days* Hours* Pro-rata Days Pro-rata Hours

Pay Code* Absence Type Absence Description

Payment Multiplier Canceled Absence ☐

SAVE

3. Populate the following fields:

Details	Description
Payroll Period	Select a payroll period from the <i>Payroll Period</i> drop-down menu. The payroll period displays both the date range and period number.
Payroll End Date	The <i>Payroll End Date</i> populates automatically.
Absence Start Date	Enter the <i>Absence Start Date</i> .
Enter the Absence Date	Enter the Absence Date.
Days	Enter the number of <i>Days</i> the employee was absent.
Hours	Enter the number of <i>Hours</i> the employee was absent.
Pro-rata Days	(Optional) Enter the number of <i>Pro-rata Days</i> .
Pro-rata Hours	(Optional) Enter the number of <i>Pro-rata Hours</i> .
Pay Code	Select an absence pay code from the <i>Pay Code</i> drop-down menu.
Absence Type	The Absence Type automatically populates.
Absence Description	The Absence Description automatically populates.
Payment	Enter a payment figure if the employee received occupational absence pay.
Multiplier	Enter the absence multiplier applied.
Canceled Absence	Enable the <i>Canceled Absence</i> indicator if the absence was cancelled.

4. Click **Save**.

**Note:**

Adding absence history does not cause the current period payroll to recalculate but does affect the employee's occupation pay entitlement by increasing the absence days taken.

2.2.9. Calculation Explanation

This read-only screen explains how the absence daily or hourly rate was calculated, and how the pay multiplier was determined.

The following information about the absence daily or hourly rate calculation displays:

- Length of Service.
- Entitlement.
- Daily/Hourly Rate Calculation.

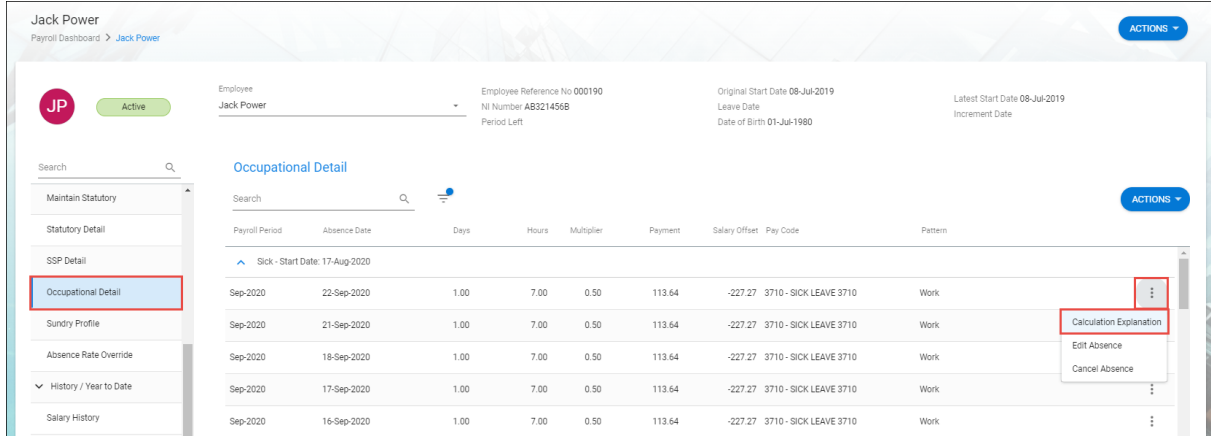

Menu Options Required

Menu Option	Description	System

Edit Absence
Cancel Absence

The *Calculation Explanation* screen opens.

Calculation Explanation
Payroll Dashboard > Jack Power > Calculation Explanation

Absence Date: 11-Sep-2020
Absence Days: 1.00
Absence Rule: S1 - Sick Scheme
Absence Category: 1 - Absence Category 1

Occupational Pay: 113.64
Occupational Pay for Day = Daily Rate x Absence Days x Pay Multiplier
113.64 = 227.27 x 1.00 x 0.50

Daily Rate: 227.27
Daily Rate = Period Salary / No. of Monday to Friday Days in period
227.27 = Period Salary / 22

Pay Multiplier: 0.50
21 Sick Day(s) taken since 18-Aug-2019 (excluding current record)
Following Entitlements are based on a length of service of 13.25 months

Start Day	End Day	Pay Multiplier
0	11	1
11	22	0.5
22	999999	0

Applicable Pay Codes

Code	Description
1000	Salary
1000	Salary
1009	Holiday Pay Hours
3008	SHIFT ALLOWANCE

2.2.10. The Calculation Explanation Screen Explained

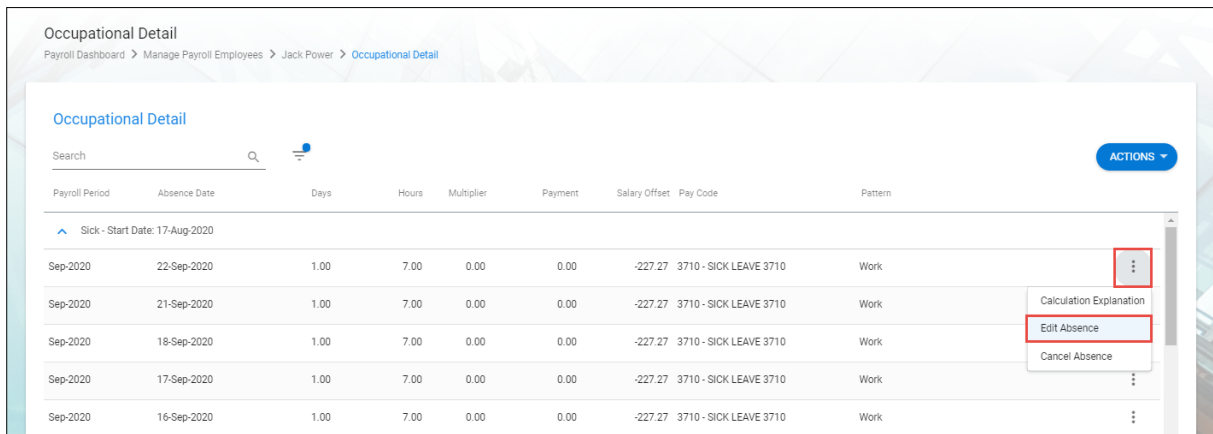

Details	Description
Overview	The overview contains the following information: • Absence Date. • Absence Days/Hours. • Absence Rule. • Absence Category.
Occupational Pay	The occupational absence payment rate for an absence day taken, i.e., Occupational Payment – Daily/Hourly Rate x Absence Days/Hours x Absence Multiplier x Roster Multiplier (where applicable).
Daily/Hourly Rate	The daily rate is calculated as either: • Annual salary / Days in Years set at the pay group level (Days in Year may be overwritten at absence rule level). • Based on Period Salary – see section 3. Absence Period Daily Rate.
Pay Multiplier	What pay multiplier was used, based on the absence entitlement range.
Additional Information	• The employee's length of service is calculated as at the absence start date, based on <i>Length of Service</i> absence rule configuration. • The 'From' date displayed here is based on <i>Rolling Period Basis</i> configured in the absence rule.
Entitlement	The employee's absence pay entitlement range based on the absence rule applied. The employee's entitlement range is pro-rated by their current FTE.
Applicable Pay Codes	The pay codes applicable to the absence day calculation, i.e. • Salary pay code. • Second salary pay code. • Allowance group pay codes.

2.2.11. Edit Absence

The *Edit Absence* screen allows you to edit historical absence days to ensure that the history used to calculate occupational absence pay going forward is correct.

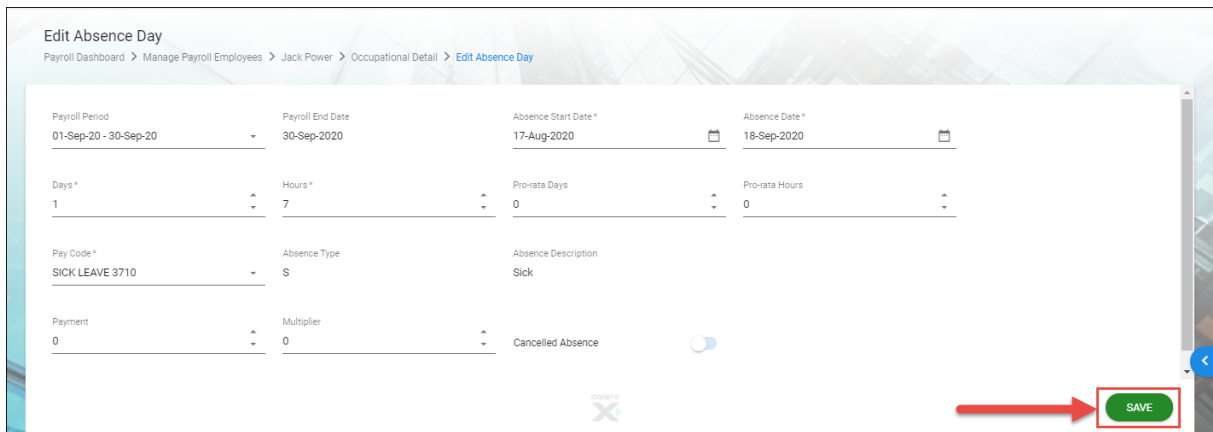

To edit a historical absence:

1. Select More Options  next to the absence day for which you want to edit the absence.
2. Select *Edit Absence*.

The screenshot shows the 'Occupational Detail' screen. At the top, there's a breadcrumb trail: 'Payroll Dashboard > Manage Payroll Employees > Jack Power > Occupational Detail'. Below this is a search bar and an 'ACTIONS' button. A table lists absence days with columns: Payroll Period, Absence Date, Days, Hours, Multiplier, Payment, Salary Offset, Pay Code, and Pattern. The first row is highlighted, and a dropdown menu is open next to it, showing options: 'Calculation Explanation', 'Edit Absence' (highlighted with a red box), and 'Cancel Absence'.

The *Edit Absence History* screen opens.

The screenshot shows the 'Edit Absence Day' screen. It has a breadcrumb trail: 'Payroll Dashboard > Manage Payroll Employees > Jack Power > Occupational Detail > Edit Absence Day'. The form contains several fields: 'Payroll Period' (01-Sep-20 - 30-Sep-20), 'Payroll End Date' (30-Sep-20), 'Absence Start Date' (17-Aug-2020), 'Absence Date' (18-Sep-2020), 'Days' (1), 'Hours' (7), 'Pro-rata Days' (0), 'Pro-rata Hours' (0), 'Pay Code' (SICK LEAVE 3710), 'Absence Type' (S), 'Absence Description' (Sick), 'Payment' (0), 'Multiplier' (0), and a 'Cancelled Absence' toggle switch. A red arrow points to a green 'SAVE' button at the bottom right.

Note:

For details of each of the available fields, see section [2.2.8. Add History](#).

3. Edit the Absence Details.

4. Click **Save**.

2.2.12. Occupational Detail Screen Display Options

The following screen display options are available:

- Adjust Column Widths, see section [10.1.1. Adjust Column Widths](#).
- Reorder Columns, see section [10.1.2. Reorder Columns](#).
- Show/Hide Columns, see section [10.1.3. Show/Hide Columns](#).
- Group by Fields, see section [10.1.4. Group by Fields](#).
- Show in Groups, see section [10.1.5. Show in Groups](#).

2.3. SSP Detail

2.3.1. Overview

The purpose of the *SSP Detail* screen is to detail the Statutory Sick Pay (SSP) per day.

Note:

- This is effectively the same as the *SSP History* screen, with an additional information column to identify cancelled and reversed days.
- It is recommended to switch off access to the *SSP History* screen when turning on access to the *SSP Detail* screen. See menu option below.

2.3.4. The SSP Detail Screen Explained

The *SSP Details* screen displays the following columns:

Column	Description
Start Date	This column displays the start date of the SSP absence.
End Date	This column displays the end date of the SSP absence.
Payment Period	This column displays the payroll period in which the SSP was paid.
PIW Date	This column displays the date the 'Period of Incapacity for Work' started.
Paid Days	This column displays the number of days paid.
Value	This column displays the value of the SSP payment, e.g. £95.85 / Work Days.
Offset	This column displays the salary offset value, which prevents the employee from being overpaid.
Absence Type	This column displays the absence type associated with the absence.
PIW Status	1 = Linked to previous 'Period of Incapacity for Work'. 0 = Not linked to previous 'Period of Incapacity for Work'.
SMTWTFS Day of Week	This column displays the day of the week to which the absence relates. This can be based on: - Workforce Management days. - CorePay Qualifying days.

Column	Description
	See <i>CorePay > Reference > Maintain Statutory Pay Parameters</i>. Overwritten at the employee level. See <i>CorePay > Input > Statutory Pay > Maintain SSP Profile</i>.
Waiting Days	1 = Waiting day. 0 = Non-waiting day.
Payroll Period	This column displays the payroll period in which the absence was processed – format: Monthly = MMM-YYYY, e.g. Mar-2020. Weekly/Fortnightly/Four Weekly = period number, e.g. 202026.
Information Field	This information field displays a notification if the absence has: - Cancelled - Reversed - Pending Reversal

2.3.5. Searching for SSP Detail Screen

The *SSP Detail* screen can be searched using the search field or search filter.

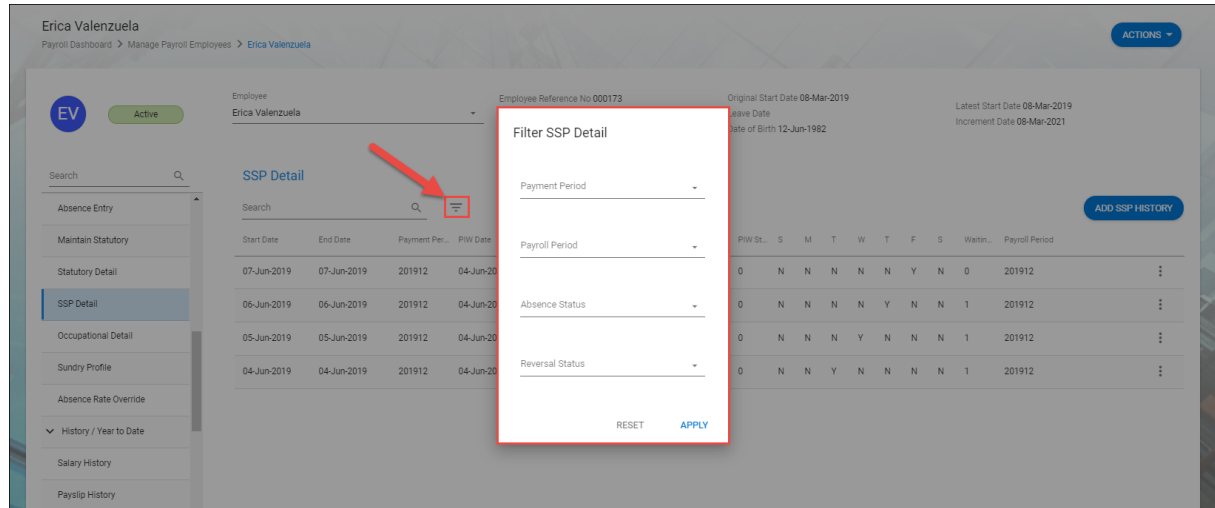

Use the search field to search the *SSP Detail* screen by:

- Start Date, e.g. 21-Sep-20.
- Payroll Period, e.g. Sep-20.
- Payment Period, e.g. Aug-20.
- Absence Type, e.g. Sick.

The screenshot displays the 'SSP Detail' screen for employee Alan Farrell. The top section shows employee information: Alan Farrell (Active), Employee Reference No 000163, NI Number JL206859B, Period Left 201917, Original Start Date 01-Mar-2019, Leave Date, Date of Birth 25-Feb-1966, Latest Start Date 08-Aug-2019, and Increment Date. Below this is a search bar with 'Aug-20' entered. The main table lists absence periods with columns for Start Date, End Date, Payment Per..., PIW Date, Paid D..., Value, Offset, Absence Type, PIW St..., S, M, T, W, T, F, S, Waitin..., and Payroll Period. The table shows four rows of absence data for August 2020, all of which are 'SICK LEAVE' with a value of 19.17 and an offset of 0.00. The status indicators for these absences are 'Reversed', 'Cancelled', 'Reversed', and 'Reversed' respectively. A sidebar on the left contains links to 'Statutory Detail', 'SSP Detail' (highlighted), 'Occupational Detail', 'Sundry Profile', 'Absence Rate Override', and 'History / Year to Date'. An 'ADD SSP HISTORY' button is located in the top right corner of the table area.

Filtered Search

1. Select the  button to open the *Filter SSP Detail* screen.

This allows you to filter the *SSP Detail* screen using the following:

- Payment Period
- Payroll Period
- Absence Status
 - Cancelled
 - Active
- Reversal Status
 - Not Reversed
 - Reversal Pending
 - Reversed

2. Click **Apply**.

2.3.6. Add SSP History

To add SSP History:

Select **Add SSP History**.

The screenshot shows the 'SSP Detail' screen for employee Alan Farrell. The left sidebar contains a menu with 'SSP Detail' highlighted. The main area displays a table of SSP details. A red arrow points to the 'ADD SSP HISTORY' button in the top right corner.

Start Date	End Date	Payment Period	PIW Date	Paid Days	Value	Offset	Absence Type	PIW Status	S	M	T	W	T	F	S	Waiting D.	Payroll Period	
31-Aug-2020	31-Aug-2020	Aug-2020	03-Aug-2020	1	19.17	0.00	SICK LEAVE	0	N	Y	N	N	N	N	N	0	Aug-2020	Reversed
28-Aug-2020	28-Aug-2020	Aug-2020	03-Aug-2020	1	19.17	0.00	SICK LEAVE	0	N	N	N	N	N	Y	N	0	Aug-2020	Cancelled
27-Aug-2020	27-Aug-2020	Aug-2020	03-Aug-2020	1	19.17	0.00	SICK LEAVE	0	N	N	N	N	Y	N	N	0	Aug-2020	Pending Reversal

The *Add SSP History* screen opens.

The screenshot shows the 'Add SSP History' screen. It contains several input fields for adding new SSP history entries. The fields are organized into sections: 'Absence Type', 'Paid Days', 'Paid Value', 'Payroll Period', 'Payment Period', 'Start Date', 'End Date', 'PIW Date', 'Waiting Days', and 'Qualifying Days' (with checkboxes for Sunday through Saturday). A 'SAVE' button is located at the bottom right.

Note:

- For details of each of the available fields, see section [The SSP Detail Screen Explained](#).
- The *Payment Period* field is optional.

2.3.7. Edit SSP History

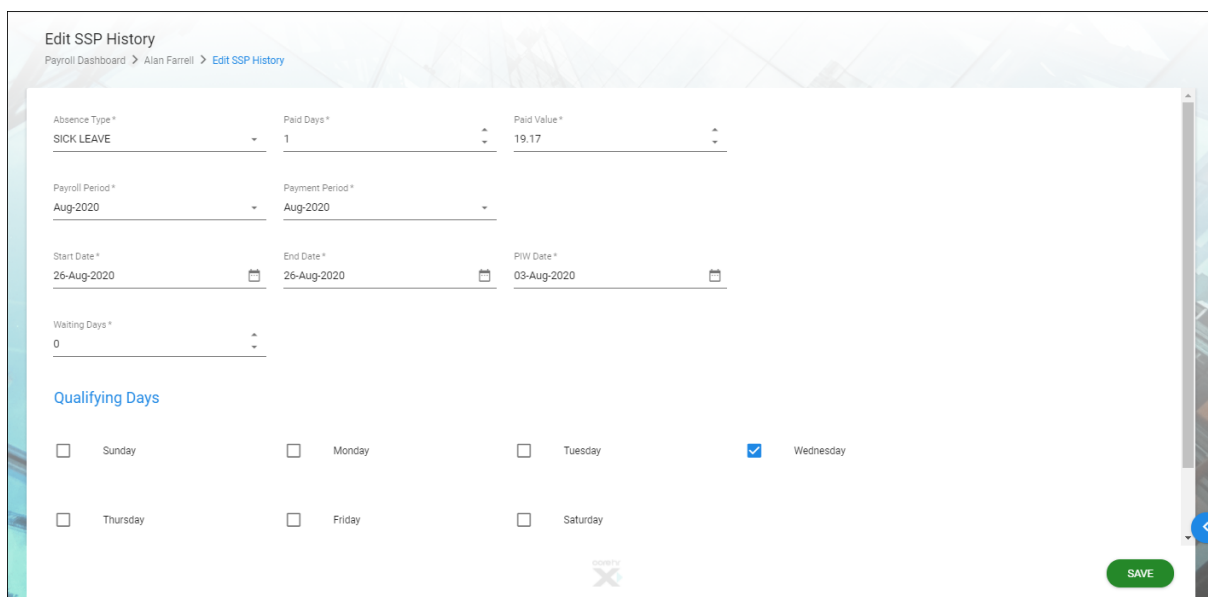

To edit SSP History:

1. Select More Options  next to the SSP absence.
2. Select *Edit*.

Start Date	End Date	Payment Period	PIW Date	Paid Days	Value	Offset	Absence Type	PIW Status	S	M	T	W	T	F	S	Waiting D...	Payroll Period	
31-Aug-2020	31-Aug-2020	Aug-2020	03-Aug-2020	1	19.17	0.00	SICK LEAVE	0	N	Y	N	N	N	N	N	0	Aug-2020	Reversed
28-Aug-2020	28-Aug-2020	Aug-2020	03-Aug-2020	1	19.17	0.00	SICK LEAVE	0	N	N	N	N	N	Y	N	0	Aug-2020	Cancelled
27-Aug-2020	27-Aug-2020	Aug-2020	03-Aug-2020	1	19.17	0.00	SICK LEAVE	0	N	N	N	N	Y	N	N	0	Aug-2020	Pending Reversal

2.3.8. Delete SSP History

To delete SSP History:

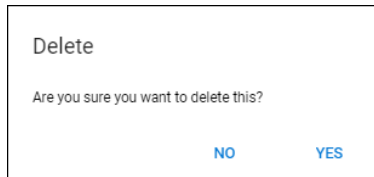

1. Select More Options  next to the SSP absence.
2. Select *Delete*.

The screenshot shows the 'SSP Detail' screen for employee Alan Farrell. It displays a table of SSP absences with columns for Start Date, End Date, Payment, PIW Date, Paid, Value, Offset, Absence Type, PIW, S, M, T, W, T, F, S, Wait, and Payroll P. The table contains five rows of data for August 2020. The 'Delete' button is highlighted in the actions column for the last row.

Start Date	End Date	Payment	PIW Date	Paid	Value	Offset	Absence Type	PIW	S	M	T	W	T	F	S	Wait	Payroll P.
31-Aug-2020	31-Aug-2020	Aug-2020	03-Aug-2020	1	19.17	0.00	SICK LEAVE	0	N	Y	N	N	N	N	N	0	Aug-2020

24-Aug-2020	24-Aug-2020	Aug-2020	03-Aug-2020	1	19.17	0.00	SICK LEAVE	0	N	Y	N	N	N	N	N	0	Aug-2020

The *Delete* screen appears.

A dialog box titled 'Delete' with the text 'Are you sure you want to delete this?'. It has two buttons: 'NO' and 'YES'.

3. Click **Yes**.

2.3.9. SSP Detail Screen Display Options

The following screen display options are available:

- Adjust Column Widths, see section [10.1.1. Adjust Column Widths](#).
- Reorder Columns, see section [10.1.2. Reorder Columns](#).
- Show/Hide Columns, see section [10.1.3. Show/Hide Columns](#).

2.4. Statutory Detail

2.4.1. Overview

The *Statutory Detail* screen is a UK read-only screen which displays a history of non-sick statutory payments made to the employee. The following changes were made to this screen as part of the new features introduced to absence pay in Payroll.:

- Statutory offset values now display on the screen.
- An additional information column was added, which highlights:
 - Cancelled absences.
 - Reversed payments.

Note:

- This is effectively the same as the *Statutory Payment Profile* screen with an additional information column to identify reversed absence days.
- It is recommended to switch off access to the *Statutory Payment Profile* screen when turning on access to the *Statutory Detail* screen. See menu option below.

Menu Option	Description	System
EMPLOYEE DASH - Statutory Payment Profile	MAIN MENU - EMPLOYEE DASH > EMPLOYEE DASH - Statutory Payment Profile	CorePortal Pay

2.4.2. Menu Option Required

Menu Option	Description	System
EMPLOYEE DASH - Statutory Detail	MAIN MENU - EMPLOYEE DASH > EMPLOYEE DASH - Statutory Detail	CorePortal Pay

2.4.3. Access the Statutory Detail Screen

To access the *Statutory Detail* screen.

Go to *Payroll Dashboard > Employee > View > Statutory Detail*.

The screenshot shows the Edwina Bea Payroll Dashboard. The top navigation bar includes 'Edwina Bea', 'Payroll Dashboard > Manage Payroll Employees > Edwina Bea', and an 'ACTIONS' button. The main content area is divided into two sections: 'Statutory Detail' and 'Statutory Payment History'.

Statutory Detail: This section displays a table with columns: Statutory Type, Leave start, Payment Start, Payment End, Average Weekly Earnings, Higher Rate, Baby Due Date, Notice Date, 15th Week, Paid Days, Weeks, and Days. The table shows one row for SMP (Statutory Maternity Pay) with a value of 500 and a higher rate of 450.

Statutory Payment History: This section displays a table with columns: Period, Day, Start date, End date, Value, Offset, Arrears, Total, Period cancelled, and Type. The table shows five rows of payment history for SMP, with values ranging from 64.29 to 64.29. The first row is marked as 'Reversed' and the second as 'Pending Reversal'.

Note:

The Statutory Payment Profile menu contains the recorded Statutory Absence details, see section [7.5. Link to a Statutory Absence – UK Only](#).

2.4.4. The Statutory Payment Profile Screen Explained

The *Statutory Payment History* section contains the following columns:

Column	Description
Period	This column displays the payroll period to which the statutory payment relates.
Day	This column displays the number assigned to the statutory absence day. The numbers are sequenced from the absence start date.
Start Date	This column displays the payment start date.
End Date	This column displays the payment end date.
Value	This column displays the statutory payment value.
Arrears	This column displays the statutory payment arrears values.
Total	This column displays the statutory payment total (value plus arrears).
Type	This column displays the statutory absence type, i.e. - Statutory Paternity Pay (SPP) - Statutory Adoptive Pay (SAP)

Column	Description
	- Statutory Maternity Pay (SMP) - Shared Parental Pay (ShPP)
Additional Information	Additional information on the status of the statutory payment, i.e. - Reversed - Pending Reversal

**Note:**

Reversals entered through the [*Occupational Detail*](#) screen are displayed on the *Statutory Detail* screen.

3. Absence Period Daily Rate

3.1. Overview

The *Absence Period Daily Rate* introduces new methods for calculating an employee's absence daily rate. The absence daily rate can now be derived by dividing the period salary by the number of days in the period.

Note:

The current method of calculating and paying absences based on the employee's annual salary remains unchanged and continues to be the default option.

The employees' absence daily rate can now be calculated based on the number of days in the period, using one of the following methods:

- 'Calendar days' in the period.
- 'Monday to Friday days' in the period.
- 'Workforce Management work days' in the period.

Notes:

- The absence daily rate calculation method can be enabled at the company, pay group, or absence rule level.
- Using the period salary, to calculate the absence daily rate, removes the need for capping and top ups, see section [9.2. Top Ups and Capping](#).
- The absence daily rate is derived from the period salary in which the absence date occurred, not the period in which the absence date was paid.
- The period salary used excludes retro pay processed in the period.
- If the period salary cannot be determined, the annual salary is used to derive the daily rate; A payroll message outputs, see section [3.3.5. Period Daily Rate – Payroll Messages](#).
- The period daily rate reflects mid-period salary changes, see section [3.3.8. Mid Period Salary Changes](#).
- You can choose which pay codes make up an employee's period salary when deriving the absence daily rate, see section [3.4. Allowance Groups](#).
- Where multiple absences occur in a period (e.g., sick leave and maternity), with differing daily rate configuration, and the employee is on leave for the entire period, the absence pay for the period may not match the period salary; A payroll message outputs, see section [3.3.5. Period Daily Rate – Payroll Messages](#).
- If the period daily rate method is enabled at Company level, you cannot use the *Annual Salary* method at the Pay Group or Absence Rule level.
- The *Absence Rate Override* screen allows you to override an employee's daily or hourly rate from a specified effective date, see section [4. Absence Rate Override](#).

3.2. The Absence Daily Rate Calculation Screen

3.2.1. Menu Options Required

Note:

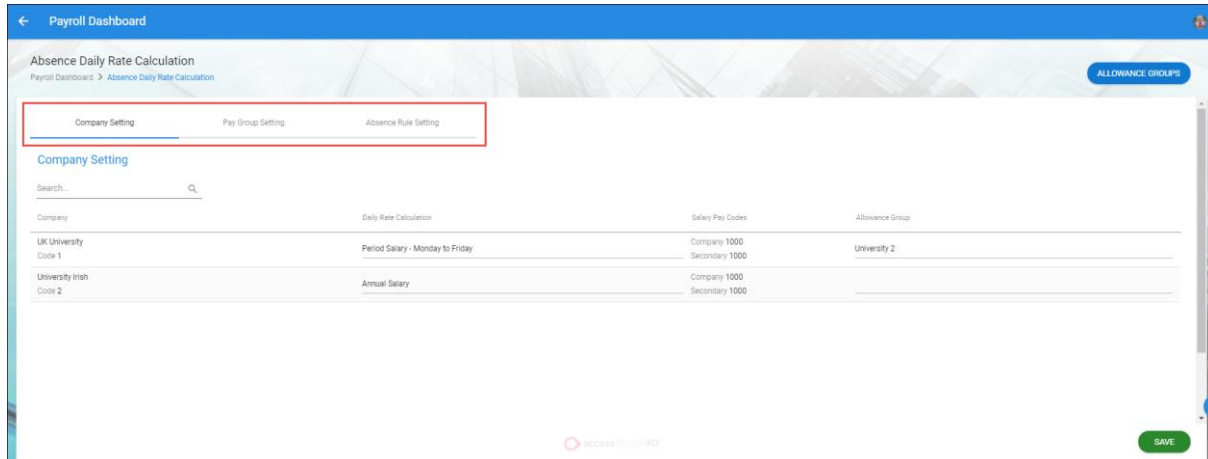

Enabling access to the *Absence Daily Rate Calculation* screen allows access to view and update the daily rate calculation method for all companies and pay groups. Not just the pay groups the user has been granted access to via the *Payroll Dashboard > Settings > Pay Group Access* screen.

Menu Options	Description	System
PAYRATES - Daily Rate Calculations	PAYRATES - Daily Rate Calculations	CorePortal Pay
Get settings parameters sickpay	Payroll > Get settings parameters sickpay	Webservice
Update settings parameters sickpay	Payroll > Update settings parameters sickpay	Webservice
Get paygroup dailyrate	Payroll > Get paygroup dailyrate	Webservice
Update paygroup dailyrate	Payroll > Update paygroup dailyrate	Webservice
Get absences rules	Payroll > Get absences rules	Webservice
Get absences rules Proxy (Pay Access)	Payroll > Get absences rules Proxy (Pay Access)	Webservice
Update absences rules	Payroll > Update absences rules	Webservice
Get bytype	Refdata > Get bytype	Webservice
Get paycode groups codes	Payroll > Get paycode groups codes	Webservice
Get paycode groups items	Payroll > Get paycode groups items	Webservice
Create paycode groups items	Payroll > Create paycode groups items	Webservice
Delete paycode groups items	Payroll > Delete paycode groups items	Webservice
Create paycode groups	Payroll > Create paycode groups	Webservice
Delete paycode groups	Payroll > Delete paycode groups	Webservice

3.2.2. Access the Daily Rate Calculation Screen

To access the *Absence Daily Rate Calculation* screen:

Go to *Payroll Dashboard > Settings > Absence Daily Rate Calculation*.

The *Absence Daily Rate Calculation* screen contains three tabs:

- Company Settings
- Pay Group Settings
- Absence Rule Settings

3.2.3. Absence Period Daily Rate Hierarchy

The absence daily rate calculation for both occupational pay and occupational salary offset can be configured at the following levels:

Absence Period Daily Rate Calculation Levels	Description
Company Settings	Set the absence period daily rate calculation method for the payroll company.
Pay Group Settings	Set at the absence period daily rate calculation method at the pay group level, if the pay group calculation method differs from the calculation method set at the company level.
Absence Rule Settings	Set the absence period daily rate calculation method at the absence rule level, if the absence rule calculation method differs

Absence Period Daily Rate Calculation Levels	Description
	from the calculation methods set at company level and pay group level.

Note:

If the period daily rate method is enabled at Company level, you cannot override it at the Pay Group or Absence Rule level to use the annual salary.

3.2.4. The Company Settings Tab

To set the absence daily rate calculation method at the company level:

1. Select the *Company Settings Tab*.

The screenshot shows the 'Payroll Dashboard' with the 'Absence Daily Rate Calculation' section. The 'Company Setting' tab is active. Below the tabs, there is a search bar and a table with the following data:

Company	Daily Rate Calculation	Salary Pay Codes	Allowance Group
UK University Code 1	Period Salary - Calendar Days	Company 1000 Secondary 1000	Uni Group

A 'SAVE' button is located at the bottom right of the screen.

The *Company Settings Tab* contains the following columns:

Column	Description
Company	This column contains the company code and company description to which the daily rate calculation method applies.
Daily Rate Calculation	This column contains the absence daily rate calculation method, which applies to each company, see section 3.3. Absence Period Daily Rate Calculations .

Column	Description
Salary Pay Codes	This column contains the salary and second salary pay codes that contribute to the period value used to derive the period daily rate.
Allowance Group	This column contains the allowance group of pay codes which make up the period value; this is used to derive the period daily rate, see section 3.4, Allowance Groups .

2. Select an absence daily rate calculation method from the *Daily Rate Calculation* drop-down menu.
3. **Optional:** Select an allowance group from the *Allowance Group* drop-down menu.

Note:

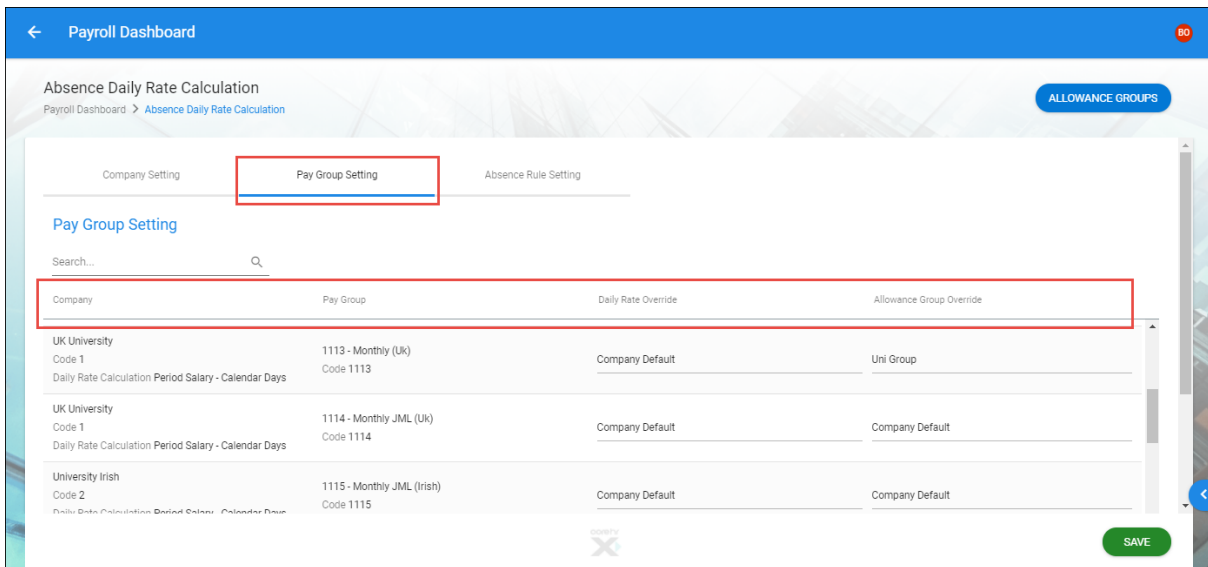

Allowance Groups cannot be added to the default 'Annual Salary' daily rate calculation method. For 'Annual Salary,' use the 'Qualifying Basic Pay Code' pay code indicator to include additional pay codes.

4. Click **Save**.

3.2.5. The Pay Group Settings Tab

To set the absence daily rate calculation method at the pay group level:

1. Select the *Pay Group Settings Tab*.

The screenshot shows the 'Payroll Dashboard' with the 'Absence Daily Rate Calculation' section. The 'Pay Group Setting' tab is selected and highlighted with a red box. Below the tab, there is a search bar and a table with the following columns: Company, Pay Group, Daily Rate Override, and Allowance Group Override. The table is also highlighted with a red box. The table contains three rows of data:

Company	Pay Group	Daily Rate Override	Allowance Group Override
UK University Code 1 Daily Rate Calculation Period Salary - Calendar Days	1113 - Monthly (UK) Code 1113	Company Default	Uni Group
UK University Code 1 Daily Rate Calculation Period Salary - Calendar Days	1114 - Monthly JML (UK) Code 1114	Company Default	Company Default
University Irish Code 2 Daily Rate Calculation Period Salary - Calendar Days	1115 - Monthly JML (Irish) Code 1115	Company Default	Company Default

A 'SAVE' button is located at the bottom right of the table.

The *Pay Group Settings Tab* contains the following columns:

Column	Description
Company	This column contains the company code and company description. This column also contains the daily rate calculation method applied at the company level.
Pay Group	This column contains the pay group code and the pay group description.
Daily Rate Override	This column contains the absence daily rate calculation method, which applies to each pay group, see section 3.3. Absence Period Daily Rate Calculations .
Allowance Group Override	This column contains the allowance group of pay codes which make up the period value, and are used to derive the period daily rate, see section 3.4. Allowance Groups .

2. Select an absence daily rate calculation method from the *Daily Rate Override* drop-down menu.

**Note:**

The *Daily Rate Override* drop-down menu defaults to *Company Default*, i.e. the absence daily rate calculation method is set at company level.

3. Optional: Select an allowance group from the *Allowance Group* drop-down menu.
4. Click **Save**.

3.2.6. The Absence Rule Settings Tab

To set the absence daily rate calculation method at absence rule level:

1. Select the *Absence Rule Settings Tab*.

The screenshot shows the 'Payroll Dashboard' with the 'Absence Daily Rate Calculation' section. The 'Absence Rule Setting' tab is selected and highlighted with a red box. Below the tab, there is a search bar and a table with three columns: 'Rule', 'Daily Rate Override', and 'Allowance Group Override'. The table is also highlighted with a red box. The table contains the following data:

Rule	Daily Rate Override	Allowance Group Override
Adoption Scheme Code A1	Company or Pay Group Default	Company or Pay Group Default
Maternity Scheme Code M1	Company or Pay Group Default	Company or Pay Group Default
Maternity Scheme Code M2	Company or Pay Group Default	Company or Pay Group Default
Ord. Paternity Scheme Code P1	Company or Pay Group Default	Company or Pay Group Default
Sick Scheme Code S1	Company or Pay Group Default	Company or Pay Group Default

A 'SAVE' button is located at the bottom right of the table.

The *Absence Rule Settings Tab* contains the following columns:

Column	Description
Rule	This column contains the absence rule code and absence rule description.
Daily Rate Override	This column contains the absence daily rate calculation method, which applies to each absence rule, see section 3.3. Absence Period Daily Rate Calculations .
Allowance Group Override	This column contains the allowance group of pay codes which make up the period value; this is used to derive the period daily rate, see section 3.4. Allowance Groups .

2. Select an absence daily rate calculation method from the *Daily Rate Override* drop-down menu.

Note:

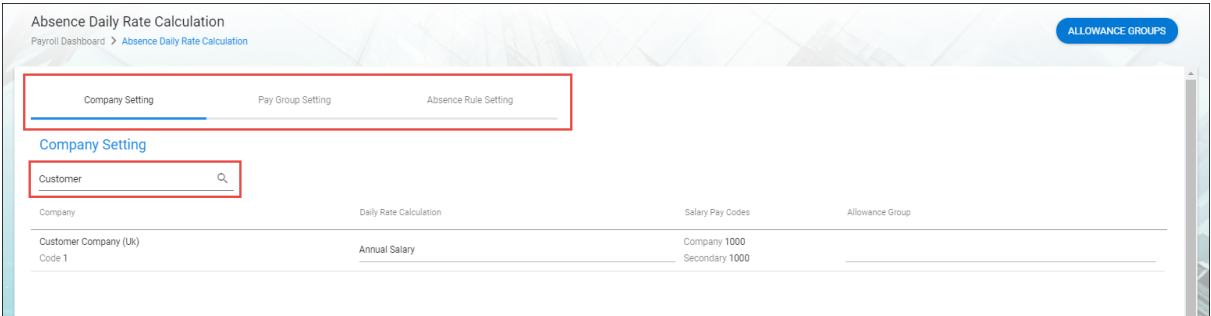

The *Daily Rate Override* drop-down menu defaults to *Company or Pay Group Default*, i.e. the absence daily rate calculation method is set at company level or pay group level.

3. **Optional:** Select an allowance group from the *Allowance Group* drop-down menu.
4. Click **Save**.

3.2.7. Searching the Absence Daily Rate Calculation Screen

Use the search field to search for companies, pay groups or absence rules using:

- The company, pay group or absence rule number/code.
- The company, pay group or absence rule description.

3.2.8. Absence Daily Rate Calculation Screen Display Options

The following screen display options are available:

- Adjust Column Widths, see section [10.1.1. Adjust Column Widths.](#)
- Reorder Columns, see section [10.1.2. Reorder Columns.](#)
- Show/Hide Columns, see section [10.1.3. Show/Hide Columns.](#)

3.3. Absence Period Daily Rate Calculations

To set the absence daily rate calculation method at the Company, Pay Group or Absence Rule level:

1. Go to *Payroll Dashboard > Settings > Absence Configuration > Absence Daily Rate Calculation*.
2. Select the Hierarchy tab, for the level you want to set the absence daily rate calculation method, i.e.
 - Company Settings
 - Pay Group Settings
 - Absence Rule Settings

See section, [3.2.3 Absence Period Daily Rate Hierarchy](#).

3. Choose one of the following calculation methods from the Daily Rate Calculations drop-down menu:
 - Annual Salary.
 - Period Salary – Calendar Days.
 - Period Salary – Monday to Friday.
 - Period Salary – Work Days (WFM).

The screenshot shows the 'Absence Daily Rate Calculation' page in the Payroll Dashboard. The page has a blue header with a back arrow and 'Payroll Dashboard' text. Below the header, there's a breadcrumb trail: 'Payroll Dashboard > Absence Daily Rate Calculation'. A blue button labeled 'ALLOWANCE GROUPS' is in the top right. The main content area has three tabs: 'Company Setting' (active), 'Pay Group Setting', and 'Absence Rule Setting'. Under 'Company Setting', there's a search bar and a table. The table has columns: 'Company', 'Daily Rate Calculation', 'Salary Pay Codes', and 'Pay Code Group'. The first row shows 'Customer Company (UK)' and 'Code 1' in the 'Company' column. The 'Daily Rate Calculation' column has a dropdown menu open, showing options: 'Annual Salary', 'Period Salary - Calendar Days', 'Period Salary - Monday to Friday', 'Period Salary - Work days (WFM)', and 'Annual Salary'. The 'Annual Salary' option is highlighted. The 'Salary Pay Codes' column shows 'Company 1000' and 'Secondary 1000'. The 'Pay Code Group' column is empty. At the bottom right, there's a green 'SAVE' button.

3.3.1. Annual Salary – Default Option

Note:

- This is the default absence daily rate calculation method.
- If a period daily rate method is enabled at Company level, you cannot select the *Annual Salary* method at the Pay Group or Absence Rule level.

To set a company, pay group or absence rule's daily rate calculation method to annual salary:

1. Go to *Payroll Dashboard > Settings > Absence Configuration > Absence Daily Rate Calculation*.
2. Select the *Company Settings, Pay Group Settings* or *Absence Rule Settings* tab.
3. Select *Annual Salary* from the *Daily Rate Calculation* drop-down menu.

Daily Calculation	Rate	Description
Occupational Salary Offset		The occupational salary offset daily rate is calculated by taking the employee's annual salary, divided the 'Days in Year' set at pay group level. For Example, 30,000 (annual salary) / 260 (pay group work days) = 115.3846 (daily rate).
Occupational Pay		The occupational pay is calculated by taking the employee's annual salary, divided the 'Days in Year' set at pay group level, multiplied by the employee's FTE Entitlement multiplier. For Example, (30,000 (annual salary) / 260 (pay group work days)) * 1 (multiplier) = 115.3846 (daily rate).

Note:

- The 'Days in Year' can be overwritten at the Absence Rule level.
- The Absence Rule can be configured to exclude the employee's FTE from the absence daily rate calculation.

Days in Year

To view the 'Days in Year' set at pay group level:

Go to *Payroll Dashboard > Settings > Pay Groups*.

The screenshot shows the 'Pay Groups' settings page in the Payroll Dashboard. The page has a blue header with a back arrow and the text 'Payroll Dashboard'. Below the header, the breadcrumb trail is 'Payroll Dashboard > Pay Groups'. The main content area contains several input fields for configuring pay groups. The 'Days in Year' field is highlighted with a red box and contains the value '260.00'. Other fields include 'Payslip Message (1)', '(2)', '(3)', '(4)', '(5)', '(6)', 'Pay Period Hours' (37.50), 'Pay Period Days' (7), 'Positive Input' (toggle), 'Retrospection Indicator' (toggle), 'Employee Shift Indicator' (toggle), 'Unprocess Zero Gross' (dropdown), 'Telephone Number', and 'Extension Number'. At the bottom, there are 'Cancel' and 'Save' buttons.

Calculation Explanation

To access the *Calculation Explanation* screen, see section [2.2.9. Calculation Explanation](#).

The screenshot shows the 'Calculation Explanation' screen for Candace Jensen. The page has a blue header with a back arrow and the text 'Candace Jensen'. Below the header, the breadcrumb trail is 'Payroll Dashboard > Candace Jensen > Calculation Explanation'. The main content area contains an 'Overview' section with the following information:

- Absence Date: 18-Aug-2020
- Absence Days: 1.00
- Absence Rule: SZ2 - BOK UK Sick
- Absence Category: 1 - Absence Category 1
- Occupational Pay: 115.38
- Occupational Pay for Day = Daily Rate x Absence Days x Multiplier
- 115.38 = 115.38 x 1.00 x 1.00
- Daily Rate: 115.38** (highlighted with a red box)
- Daily Rate = Annual Salary / No. of Days in year
- 115.38 = Annual Salary / 260
- Pay Multiplier: 1.00
- 9 Sick Day(s) taken since 19-Aug-2019 (excluding current record)
- Following Entitlements are based on a length of service of 16.42 months

Below the overview, there is a table showing entitlements based on length of service:

From Day	To Day	Pay Multiplier
0	10	1
10	20	0.5
20	999999	0

3.3.2. Period Salary – Calendar Days

Note:

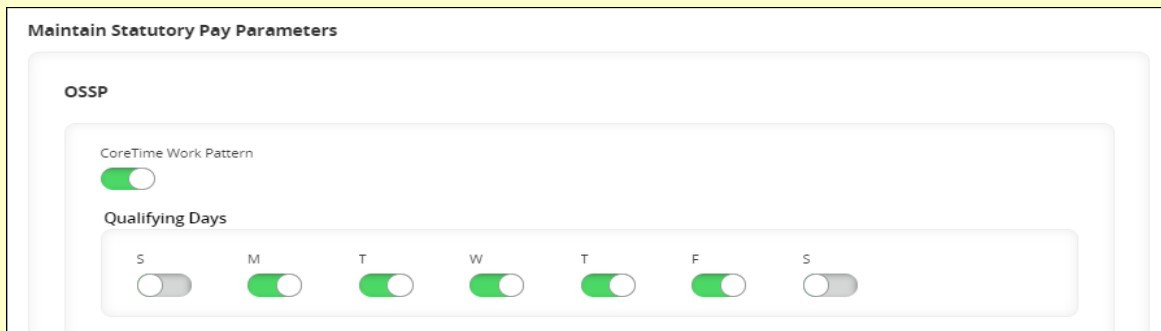

- For UK customers, the 'Calendar Days' option is not recommended for sick pay absence rules.
- When configuring occupational sick pay, it is advisable to maintain consistency with Statutory Sick Pay, e.g., where SSP is configured to pay based on the employee's CoreTime Work Pattern, Occupational Sick pay should be configured to pay based on the employee's WFM work days.

Reminder:

Statutory Sick Pay (SSP) payment days are set at system level, based on:

- *Workforce Management* work pattern.
- Fixed qualifying days.

Go to *Payroll Dashboard > Settings > General*.

Configuring occupational sick pay to pay based on calendar days will cause SSP to calculate incorrectly where an inconsistency exists, i.e.

- The employees are not on a seven day WFM work pattern.
- The fixed qualifying days are not set to a seven day week.

Company	Daily Rate Calculation	Salary Pay Codes	Allowance Group
Customer Company (UK) Code 1	Period Salary - Monday to Friday	Company 1000 Secondary 1000	

Daily Calculation	Rate	Description
Occupational Salary Offset		The occupational salary offset is calculated by taking the employee's period salary and dividing it by Monday to Friday days in the period. For example, 2,500 (period salary) / 21 (period Mon to Fri days) = 119.0476 (daily rate).
Occupational Pay		The occupational pay is calculated by taking the employee's period salary and dividing it by the Monday to Friday days in the period, multiplied by the employee's FTE Entitlement multiplier.

Daily Calculation	Rate	Description
		For example, (2,500 (period salary) / 21 (period calendar days)) * 1 (multiplier) = 119.0476 (daily rate).

Calculation Explanation

To access the *Calculation Explanation* screen, see section [2.2.9. Calculation Explanation](#).

The screenshot shows the 'Calculation Explanation' screen for Candace Jensen. The screen has a blue header with a back arrow and the name 'Candace Jensen'. Below the header, there's a breadcrumb trail: 'Payroll Dashboard > Candace Jensen > Calculation Explanation'. The main content area is titled 'Overview' and displays the following information:

- Absence Date:** 18-Aug-2020
- Absence Days:** 1.00
- Absence Rule:** S22 - BOK UK Sick
- Absence Category:** 1 - Absence Category 1

Occupational Pay: 119.05

Occupational Pay for Day = Daily Rate x Absence Days x Multiplier
119.05 = 119.05 x 1.00 x 1.00

Daily Rate: 119.05

Daily Rate = Period Salary / No. of Monday to Friday Days in period
119.05 = Period Salary / 21

Pay Multiplier: 1.00

9 Sick Day(s) taken since 19-Aug-2019 (excluding current record)
Following Entitlements are based on a length of service of 16.42 months

From Day	To Day	Pay Multiplier
0	10	1
10	20	0.5
20	999999	0

3.3.4. Period Salary – WFM Work Days

Payroll Dashboard > Settings > Absence Configuration > Absence Daily Rate Calculation.

Daily Rate Calculation	Description
Occupational Salary Offset	The occupational salary offset is calculated by taking the employee's period salary and dividing it by the WFM work days in the period. For example, 2,500 (period salary) / 19 (period WFM work days) = 119.0476 (daily rate).
Occupational Pay	The occupational pay is calculated by taking the employee's period salary and dividing it by the WFM work days in the period, multiplied by the employee's FTE Entitlement multiplier. For example, (2,500 (period salary) / 21 (period WFM work days)) * 1 (multiplier) = 119.0476 (daily rate).

Note:

- Whether Public Holidays are counted depends on the following Absence Rule configuration:
 - Pay Absence on Public Holiday*
 - Treat Public Holiday as Normal Day
- A day is counted as a part day if the work pattern is set up as a part day. For example, go to *CoreTime BO > System params > Work Pattern > Misc Options 1 > Half Day value*.
- Where payrolls are run mid-period, the WFM work days option should not be used if employees are not scheduled in advance, i.e. the employee needs to be scheduled/rostered for the entire payroll period when payroll is run.

Calculation Explanation

To access the *Calculation Explanation* screen, see section [2.2.9. Calculation Explanation](#).

Calculation Explanation

Payroll Dashboard > Candace Jensen > Calculation Explanation

Overview

Absence Date 18-Aug-2020	Absence Days 1.00	Absence Rule S22 - BOK UK Sick	Absence Category 1 - Absence Category 1
-----------------------------	----------------------	-----------------------------------	--

Occupational Pay: 119.05

Occupational Pay for Day = Daily Rate x Absence Days x Multiplier
 $119.05 = 119.05 \times 1.00 \times 1.00$

Daily Rate: 119.05

Daily Rate = Period Salary / No. of Work Days in period
 $119.05 = \text{Period Salary} / 21$

Pay Multiplier: 1.00

9 Sick Day(s) taken since 19-Aug-2019 (excluding current record)
 Following Entitlements are based on a length of service of 16.42 months

10	20	0.5
20	999999	0

3.3.5. Period Daily Rate – Payroll Messages

Num ber	Scenario	Payroll Message
249	If the period salary cannot be determined, the annual salary is used to derive the daily rate.	Period Daily Rate could not be calculated - Period Salary is zero for period [period number] - Annual Rate used instead.
251	If the period days are zero, the annual salary is used to derive the daily rate. For example, if the employee is not rostered to work, and the period daily rate is set to 'WFM work days.'	Period Daily Rate could not be calculated - Days in Period are zero for Period: XXXX - Annual Daily Rate used'
252	If the period daily rate could not be determined as this is an hourly paid employee, the hourly rate is used. For example, if the period daily rate is enabled at the absence rule level, but the absence rule	Period Daily Rate could not be calculated - Not a Daily Absence Calculation - Hourly Rate used.

Number	Scenario	Payroll Message
	is also configured to pay absence based on an hourly rate (as opposed to daily).	
313	Where multiple absences occur in a period (e.g., sick leave and maternity), with differing daily rate configuration. In this scenario, the employee may be on leave for the entire period, and the absence pay for the period may not match the period salary.	Employee is being paid using different absence rates this period. Please review the calculated absence pay/offset.

3.3.6. Mid Period Joiners

When an employee starts mid-period, the start date is used when calculating an absence period daily rate.

Calculation Method	Description
Calendar Days	The period daily rate is calculated by dividing the period salary by the number of calendar days between the employee's start date and the end date of the period. For example, an employee starts on 16th Nov on £30,000 and takes one day's absence – Calculation $\text{£1250 (Period Salary)} / 15 \text{ (calendar days)} = \text{£83.3333}$.
Monday to Friday Days	The period daily rate is calculated by dividing the period salary by the number of Monday to Friday days between the employee's start date and the end date of the period. For example, an employee starts on 16th Nov on £30,000 and takes one day's absence – Calculation $\text{£1250 (Period Salary)} / 10 \text{ (No. of work days)} = \text{£125}$.
WFM Work Days	The period daily rate is calculated by dividing the period salary by the number of WFM work days between the employee's start date and the end date of the period. For example, an employee starts on 16th Nov on £30,000 and takes one day's absence – Calculation $\text{£1250 (Period Salary)} / 10 \text{ (WFM days)} = \text{£125}$.

3.3.7. Mid Period Leavers

When an employee leaves mid-period, the leave date is used when calculating an absence period daily rate.

Calculation Method	Description
Calendar Days	The period daily rate is calculated by dividing the period salary by the number of calendar days between the period start date and the employee's leave date. For example, an employee on £30,000 leaves on 15th Nov and takes one day's absence – Calculation $\text{£1250 (Period Salary)} / 15 \text{ (calendar days)} = \text{£83.3333}$.
Monday to Friday Days	The period daily rate is calculated by dividing the period salary by the number of Monday to Friday days between the period start date and the employee's leave date. For example, an employee on £30,000 leaves on 15th Nov and takes one day's absence – Calculation $\text{£1250 (Period Salary)} / 10 \text{ (No. of work days)} = \text{£125}$.
WFM Days	The period daily rate is calculated by dividing the period salary by the number of WFM days between the period start date and the employee's leave date. For example, an employee on £30,000 leaves on 15th Nov and takes one day's absence – Calculation $\text{£1250 (Period Salary)} / 10 \text{ (WFM days)} = \text{£125}$.

3.3.8. Mid Period Salary Change

When an employee changes salary mid-period (e.g., pay rise, or reduced multiplier), then the period daily rate is calculated using the portion of the salary applicable to the absence date.

Calculation Method	Description
Calendar Days	The period daily rate is calculated by dividing the period salary in place at the time of absence by the number of calendar days on that salary. For example, an employee on a £60,000 salary up to the 15th of Nov and then moves to a salary of £80,000 from 16th Nov. - Absence days daily rate between 1st Nov and 15th Nov is calculated as $\text{£2500 (period salary)} / 15 \text{ (days in period)} = 166.6667 \text{ (daily rate)}$. - Absence days daily rate between 16th Nov and 30th Nov is calculated as $\text{£3333.3334 (period salary)} / 15 \text{ (days in period)} = \text{£222.2222 (daily rate)}$.
Monday to Friday Days	The period daily rate is calculated by dividing the period salary in place at the time of absence by the number of Monday to Friday days on that salary. For example, an employee on £60,000 salary to the 15th Nov moves to a salary of £80,000 on 16th Nov. - Absence days daily rate between 1st Nov and 15th Nov is calculated as $\text{£2500 (period salary)} / 11 \text{ (Mon to Fri days)} = \text{£227.2727 (daily rate)}$. - Absence days daily rate between 16th Nov and 30th Nov is calculated as $\text{£3333.33 (period salary)} / 10 \text{ (Mon to Fri days)} = \text{£333.33 (daily rate)}$.
WFM Work Days	The period daily rate is calculated by dividing the period salary in place at the time of absence by the number of WFM work days on that salary. For example, an employee on £60,000 salary to the 15th Nov moves to a salary of £80,000 on 16th Nov. Absence days daily rate between 1st Nov and 15th Nov is calculated as $\text{£2500 (period salary)} / 11 \text{ (WFM days)} = \text{£227.2727 (daily rate)}$.

Calculation Method	Description
	Absence days daily rate between 16th Nov and 30th Nov is calculated as $\text{£3333.33 (period salary)} / 10 \text{ (WFM days)} = \text{£333.33 (daily rate)}$.

3.4. Allowance Groups

3.4.1. Overview

Allowance groups allow you to select allowance pay codes to include in the calculation for deriving the absence daily rate for occupational pay and occupational salary offset.

Note:

- Allowance Groups can only be added where the period daily rate method is set to:
 - Calendar days
 - Monday to Friday days
 - Workforce Management work days
- Use the 'Qualifying Basic Pay Code' Pay Code indicator where the absence daily rate calculation method is set to 'Annual Salary'.
- Percentage Allowance pay codes cannot be included.
- It is not possible to delete or edit an Allowance Group that is already in use.
- The *Allowance Group* screen is audited, via Core Audit.

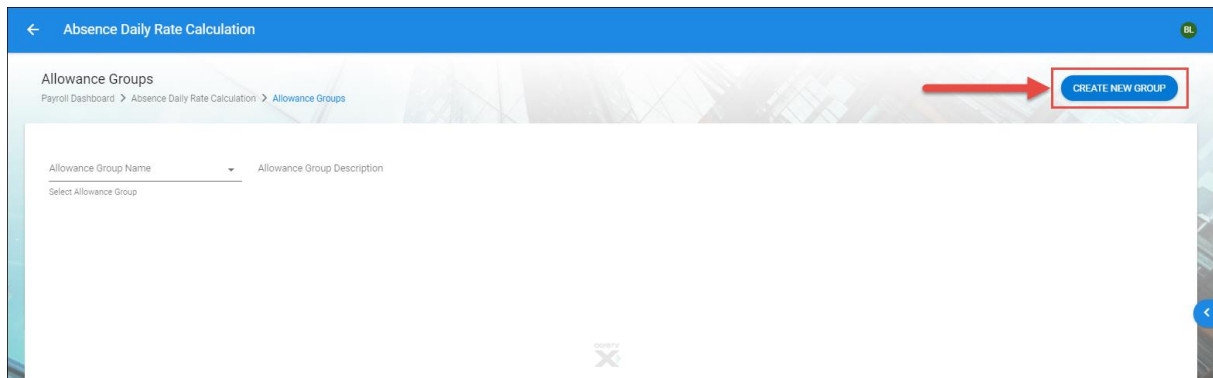

3.4.2. Add Allowance Groups

To add an Allowance Group:

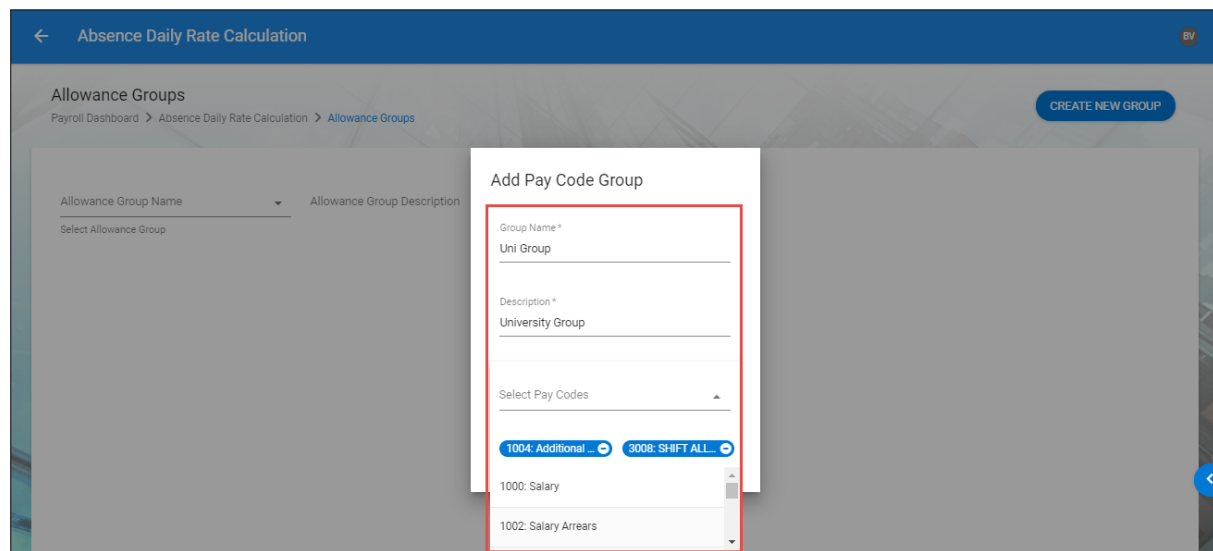

1. Go to *Payroll Dashboard > Setting > Absence Daily Rate Calculation*.
2. Select **Allowance Groups**.

The screenshot shows the 'Payroll Dashboard' interface. At the top, there's a blue header with a back arrow and the text 'Payroll Dashboard'. Below this, the main content area is titled 'Absence Daily Rate Calculation' with a breadcrumb trail 'Payroll Dashboard > Absence Daily Rate Calculation'. On the right side of this header, there's a blue button labeled 'ALLOWANCE GROUPS' which is highlighted with a red rectangular box. Below the header, there are three tabs: 'Company Setting', 'Pay Group Setting', and 'Absence Rule Setting'. The 'Company Setting' tab is active. Under this tab, there's a search bar and a table with four columns: 'Company', 'Daily Rate Calculation', 'Salary Pay Codes', and 'Allowance Group'. The table contains one row with the following data: 'Customer Company (Uk) Code 1', 'Period Salary - Work days (WFM)', 'Company 1000 Secondary 1000', and an empty 'Allowance Group' cell. At the bottom right of the screen, there's a green 'SAVE' button.

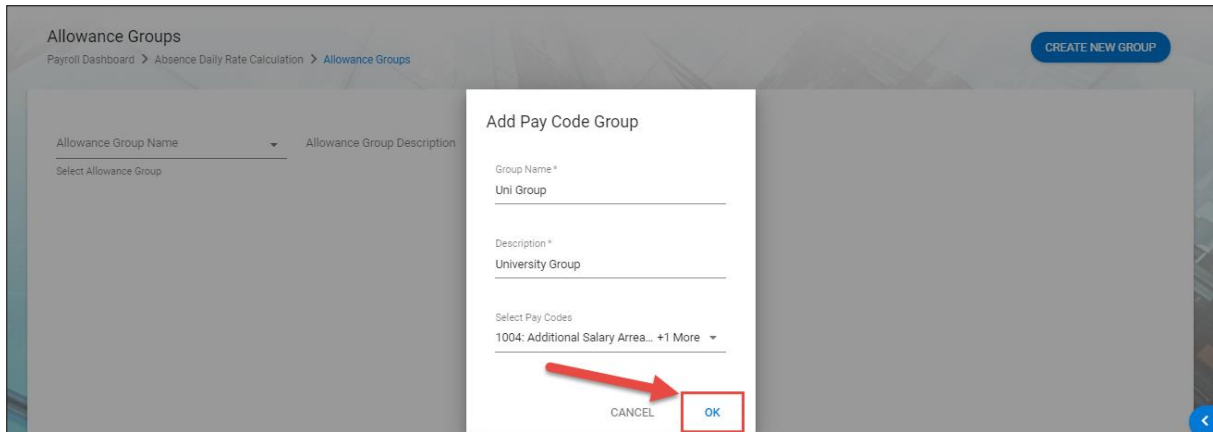

The *Allowance Groups* screen opens.

3. Select **Create New Group**.

4. Enter a group name in the *Group Name* field.
5. Enter a group description in the *Group Description* field.
6. Enter what pay codes you want to include in the Allowance Group or use the drop-down menu to select the pay codes – Searchable by pay code number and pay code description.

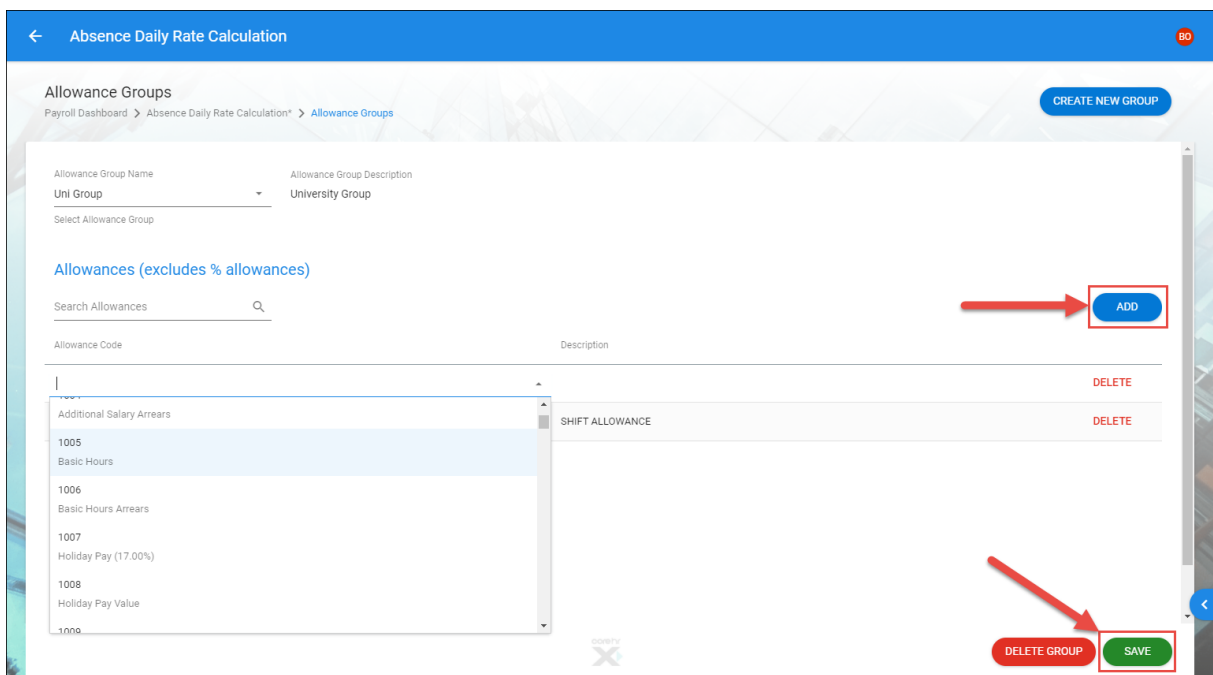

7. Click **OK**.

To add further pay codes to the Allowance Group:

8. Select **ADD**.

9. Select an additional allowance pay code from the *Allowance Code* drop-down menu.

10. Click **Save**.

3.4.3. Searching the Allowance Group Screen

Use the search field to search for pay codes included in the *Allowance Group*:

- Allowance pay code number.
- Allowance pay code description.

Allowance Groups

Payroll Dashboard > Absence Daily Rate Calculation* > Allowance Groups

CREATE NEW GROUP

Allowance Group Name

Uni Group

Select Allowance Group

Allowance Group Description

University Group

Allowances (excludes % allowances)

3008

ADD

Allowance Code	Description	
3008	SHIFT ALLOWANCE	DELETE

3.4.4. Absence Daily Rate Calculation Screen Display Options

The following screen display options are available:

- Adjust Column Widths, see section [10.1.1. Adjust Column Widths](#).
- Reorder Columns, see section [10.1.2. Reorder Columns](#).
- Show/Hide Columns, see section [10.1.3. Show/Hide Columns](#).

3.4.5. Add an Allowance Group to a Company or Pay Group Calculation Method

To add an *Allowance Group* to a Company or Pay Group calculation method:

1. Go to *Payroll Dashboard > Settings > Absence Daily Rate Calculation*.
2. Select the *Company Settings* or *Pay Group Settings* tab.

The screenshot shows the 'Absence Daily Rate Calculation' screen. At the top, there's a breadcrumb trail: 'Payroll Dashboard > Absence Daily Rate Calculation'. A blue button labeled 'ALLOWANCE GROUPS' is in the top right. Below the breadcrumb, there are three tabs: 'Company Setting' (highlighted with a red box), 'Pay Group Setting', and 'Absence Rule Setting'. Under the 'Company Setting' tab, there's a search bar and a table. The table has four columns: 'Company', 'Daily Rate Calculation', 'Salary Pay Codes', and 'Allowance Group'. The first row shows 'UK University Code 1', 'Period Salary - Work days (WFM)', 'Company 1000', and 'Secondary 1000'. A green 'SAVE' button is at the bottom right.

3. Select the Allowance Group from the *Allowance Group* drop-down menu.

This screenshot is similar to the previous one, but the 'Allowance Group' column in the table is highlighted with a red box. A dropdown menu is open, showing three options: 'Uni Group', 'University 2', and 'Uni Group'. A red arrow points from the 'SAVE' button at the bottom right towards the dropdown menu.

4. Click **Save**.

3.4.6. Allowance Group – Calculation Example

Calculation Method	Remuneration	Calculation Explanation
Period Salary – Monday to Friday	Period Salary £2500, Period Allowance £100.	The absence daily rate calculation for Occupational Pay (by multiplier) and Occupational Salary Offset is calculated as employees' period remuneration divided the Monday to Friday days in the period. For Example, 2,500 (period salary) + 100 (period allowance) / 21 (period Mon to Fri days) = 123.8095 (daily rate).

Calculation Explanation

To access the *Calculation Explanation* screen, see section [2.2.9. Calculation Explanation](#).

Note:

The *Allowance Group* pay codes display in the *Applicable Pay Codes* window.

4. Absence Rate Override

4.1. Overview

The *Absence Rate Override* screen allows you to override an employee's daily or hourly rate from a specified effective date.

Note:

- Multiple *Absence Rate Overrides* can be added for a single employee, with the date input dictating which override rate takes precedence, i.e. the latest input date takes precedence.
- The *Absence Rate Override* calculates as part of the *Payroll Validation* or *Absence Out of Validation* task.
- The override daily or hourly rate is multiplied by the absence entitlement multiplier derived from the absence rule.
- The *Calculation Explanation* screen notifies payroll users when the *Absence Rate Override* was used in the Daily/Hourly rate calculation.

4.2. Menu Options Required

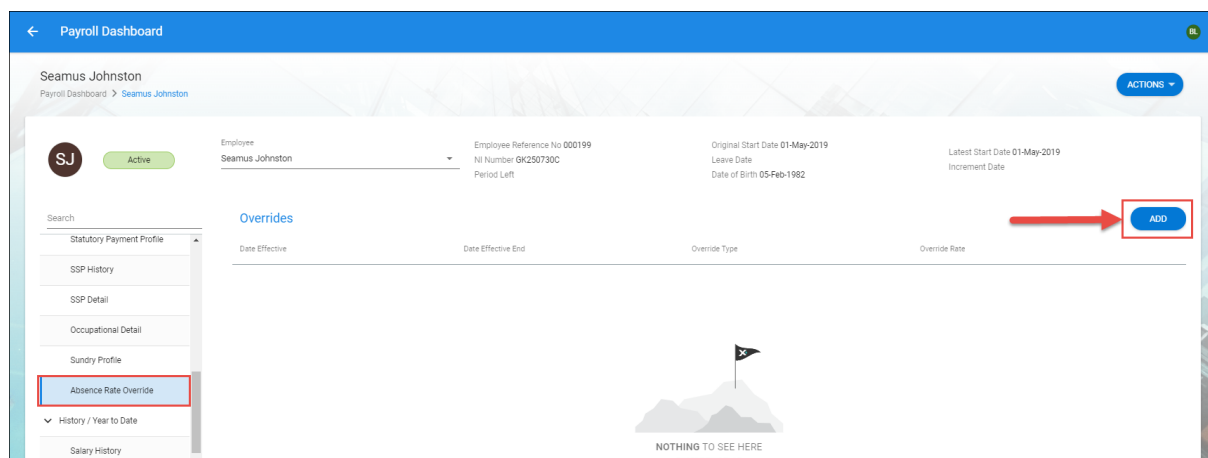

Menu Options	Description	System
PAYRATES - Absence Rate Override	MAIN MENU - PAYRATES > PAYRATES - Absence Rate Override	CorePortal Pay
Create absences employees rates	Payroll > Create absences employees rates	Webservice
Create absences employees rates Proxy (Pay Access)	Payroll > Create absences employees rates Proxy (Pay Access)	Webservice

4.3. Add an Absence Rate Override

To override an employee's absence daily or hourly rate.

1. Go to *Payroll Dashboard > Employee > View > Absence Rate Override*.
2. Select **Add**.

The *Add Override* screen opens.

Add Override

Date Effective
01-Aug-2019

End Date Effective
07-Aug-2019

Override Type *
Daily Override

Override Rate *
100

CANCEL OK

Populate the *Add Override* screen with the following information:

Field	Description
Date Effective	Enter the date from which the override is effective.
End Date Effective	Optional – Enter the date from which the override is to end.
Override Type	Select an override type from the <i>Override Type</i> drop-down menu: - Daily Override - Hourly Override
Override Rate	Enter the Daily or Hourly override rate to be applied to this employee. Note: Ensure the override rate entered here is a monetary value.

- Click **OK**.

The *Absence Override Rate* populates on the screen.

The screenshot shows the Payroll Dashboard for Seamus Johnston. The top navigation bar includes the user's name and a dropdown menu. The main content area displays employee details and a table of Overrides. The table has columns for Date Effective, Date Effective End, Override Type, and Override Rate. A red box highlights the first row of the table, which shows a Daily Override starting on 01-Aug-2019 and ending on 07-Aug-2019 at a rate of 100. A red arrow points to the 'Edit Override' button in the bottom right corner of the table row.

Date Effective	Date Effective End	Override Type	Override Rate
01-Aug-2019	07-Aug-2019	Daily Override	100

4.4. Edit an Absence Rate Override

To edit an *Absence Rate Override*:

1. Select More Options  next to the *Absence Rate Override*.
2. Select *Edit Override*.

The screenshot shows the Payroll Dashboard with the 'Absence Rate Override' option selected in the left sidebar. The main content area displays the Overrides table. A red box highlights the 'Edit Override' button in the bottom right corner of the table row. A red arrow points to the 'Edit Override' button.

Date Effective	Date Effective End	Override Type	Override Rate
01-Aug-2019	07-Aug-2019	Daily Override	100

The *Edit Override* screen opens.

The screenshot shows the 'Edit Override' screen. It contains fields for Date Effective (01-Aug-2019), End Date Effective (07-Aug-2019), Override Type (Daily Override), and Override Rate (100). A red box highlights the 'End Date Effective' field. A red arrow points to the 'OK' button at the bottom right.

Edit Override

CANCEL OK

3. Update the *End Date Effective* field.
4. Click **OK**.

4.5. Calculation Explanation

Once the Absence Rate Override is in place, this overrides the daily or hourly Occupational Pay and Occupational Salary Offset. The *Calculation Explanation* screen displays 'Daily Rate Override applied to record.'

Example:

To access the *Calculation Explanation* screen, see section [2.2.9. Calculation Explanation](#).

The screenshot shows the 'Calculation Explanation' screen for Seamus Johnston. The screen has a blue header with a back arrow and the name 'Seamus Johnston'. Below the header, the title 'Calculation Explanation' is displayed, followed by a breadcrumb trail: 'Payroll Dashboard > Seamus Johnston > Calculation Explanation'. The main content area is divided into two columns. The left column contains the following information: 'Overview', 'Absence Date: 02-Aug-2019', 'Occupational Pay: 91.00', 'Occupational Pay for Day = Daily Rate x Absence Days x Multiplier', '91.00 = 100.00 x 0.91 x 1.00', 'Daily Rate: 100.00' (highlighted with a red box), 'Daily Rate Override applied to this record', 'Pay Multiplier: 1.00', and '24 Sick Day(s) taken since 31-Jul-2018 (excluding current record)'. The right column contains: 'Absence Days: 0.91', 'Absence Rule: S22 - BOK UK Sick', and 'Absence Category: 1 - Absence Category 1'. At the bottom of the screen, it states 'Following Entitlements are based on a length of service of 2.97 months'.

4.6. Absence Rate Override – Payroll Messages

The following payroll messages display when an absence rate override is used:

Number	Scenario	Payroll Message
271	Where an hourly/daily absence override rate exists for an employee.	Employee has an (hourly/daily) absence override rate of (value) commencing (date)
272	Where an hourly/daily absence override rate has ceased for an employee.	Employee's (hourly/daily) absence override rate ceased on (date)

Note:

These payroll messages only appear where the employee has an absence processed at the absence override rate in the current period.

4.7. CoreInsight Report

The following view allows you to report on the Absence Rate Override details for employees:

Business Area: Core Pay

View Name: Employee Absence Rate Override

The screenshot shows the 'Report Wizard' interface with the following details:

5. Absence Pay Prediction

5.1. Overview

The *Absence Pay Prediction* task is a new overnight task which calculates future occupational absences based on the WFM absence start and end dates. The *Absence Pay Prediction* task predicts the date the occupational pay is expected to drop or increase, based on:

- The absence entitlement rule assigned to the employee.
- The employee's FTE.

For example, full pay to half pay or half pay to zero pay.

Note:

- The *Absence Pay Prediction* overnight task runs for all employees with updated absence information, e.g. new absence entries, absence rule changes etc.
- Like the *Payroll Validation* task, *Absence Pay Prediction* task can be manually run for a single employee via the *Employee Dashboard* in Payroll.

5.2. Prerequisites for Using Absence Pay Prediction

The company payroll calendar must be populated for the future payroll period to which the predicted absence relates.

Note:

Running the year end cleardown task creates a new payroll calendar for the following 2 years.

5.3. Menu Options Required

Menu Option	Description	System
Payroll Predictive Run	MAIN MENU - EMPLOYEE DASH > Payroll Predictive Run	CorePortal Pay

Menu Option	Description	System
Create absences process predictive	Payroll > Create absences process predictive	Webservices
Create absences process predictive Proxy (Pay Access)	Payroll > Create absences process predictive Proxy (Pay Access)	Webservices

Get access portal menu	Profile > Get access portal menu	Webservices
Profile	Profile	Webservices

5.4. Switch on Absence Pay Prediction

You can switch on the *Absence Pay Prediction* task at the pay group level.

To turn on the *Absence Pay Prediction* task:

1. Go to *Payroll Dashboard > Settings > Pay Groups*.
2. Select a pay group code from the drop-down *Pay Group* menu.
3. Click **Next Page** twice to browse to page 3.
4. Enable the *Absence Pay Prediction* indicator.
5. Enter a cut off value.

Note:

The *Absence Pay Prediction* task calculates for 9 months into the future.

Absence Settings

Absence Pay Prediction

5.5. Run Absence Pay Prediction for a Single Employee

To run the *Absence Pay Prediction* task at employee level:

1. Go to *Payroll Dashboard > Employee > View*.
2. Select **Actions**.
3. Select *Absence Predictive Run*.

The screenshot shows the 'Payroll Dashboard' for 'Alan Farrell'. The employee is 'Active'. The 'Actions' menu is open, showing options: 'Single Processing', 'OL Summary', and 'Absence Predictive Run' (highlighted with a red box and a red arrow). The dashboard also displays employee details: 'Employee Reference No: 000163', 'NI Number: AJ206598', 'Original Start Date: 01-Mar-2019', 'Leave Date', 'Date of Birth: 25-Feb-1966', 'Latest Start Date: 08-10-2020', and 'Increment Date'. The 'Absence Category' is 'Absence Category 1'. The 'Predictive Job last run' date is '15-Oct-2020 08:59'. The 'Absence Pay Per Period' table shows data for 'Sep-2020' and 'Aug-2020'.

Pay Period	Absence Type	Days	Hours	Multiplier	Occupational Payment	Occupational Salary Offset	Statutory Payment	Statutory Offset	Additional Information
Sep-2020	Sick	2.00	14.00	0.50	100.00	-200.00	38.34	0.00	
	Sick	9.00	63.00	1.00	900.00	-900.00	0.00	0.00	
Aug-2020	Sick	0.00	0.00	0.00	0.00	0.00			1 Reversed Days

The following message appears.

Predictive run has been submitted successfully. You will receive a notification when this task is complete

Once the Predictive Run completes, a notification message appears.

The notification message shows the user's initials 'AF' and the text 'Predictive run has completed' with a timestamp of '13:56'.

The 'Predictive Job last run' date updates on the *Absence Summary* screen.

6. Automatic Absence Reversals

6.1. Overview

6.1.1. Cancelling Absences

Payroll gives you the option to cancel absence days relating to previous periods, so they are not counted when calculating an employee's future entitlement – see [section 6.2. Cancelling Absences](#).

6.1.2. Reversing Payments

If the cancelled absence relates to the previous payroll period, Payroll can now reverse the absence payment transactions – see section [6.3. Reversing an Absence Payment](#).

6.2. Cancelling an Absence

6.2.1. Menu Options Required

Menu Option	Description	System
Update absences employees	Payroll > Update absences employees	Webservices

6.2.2. How to Cancel an Absence

 Note:

You can cancel historical absences in one of the following ways:

- Use the *Absences* screen in WFM to delete the absence or change the absence start or end dates, e.g. sick leave.
- Use the [Absences screen](#) in Payroll to delete the absence or change the absence start or end dates.
- Use the [Occupational Detail screen](#) in Payroll.

You can cancel current period absences in one of the following ways:

- Use the *Absences* screen in WFM to delete the absence or change the absence start or end dates.
- Use the [Absences screen](#) in Payroll to delete the absence or change the absence start or end dates, see sections:
 - [Delete Absences](#).
 - [Edit Absence](#).

6.2.3. Cancel an Absence Using the Occupational Detail Screen

To cancel a historic absence using the *Occupational Details* screen:

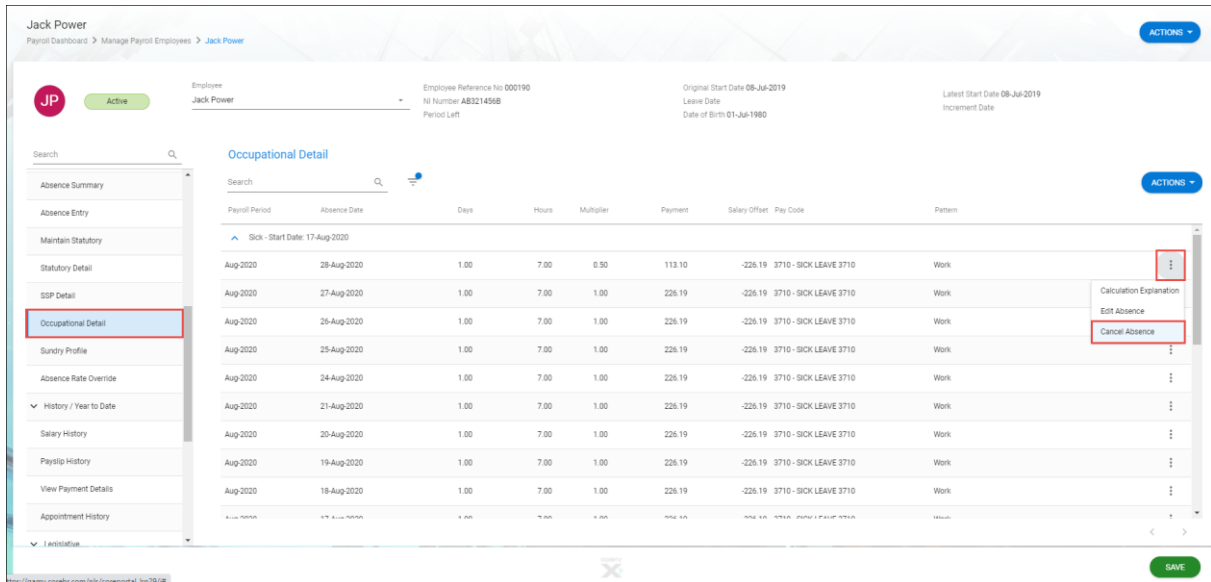

1. Go to *Payroll Dashboard > Employee > View > Occupational Detail*.

Note:

You can cancel an absence on the *Occupational Details* screen when it is in regular or full screen mode, see section [2.2.4. Full Screen](#).

2. Select More Options  next to the absence you want to cancel.
3. Select *Cancel Absence*.

Cancelled

Calculation Explanation

Edit Absence

Undo Cancellation

Reverse Payment

4. Click **Save**.

Note:

Undoing a cancelled absence does not cause the current period payroll to recalculate but does affect the employee's occupation pay entitlement by decreasing the employee's entitlement. the absence days taken.

6.3. Reversing an Absence Payment

6.3.1. Overview

If the cancelled absence relates to the previous payroll period, Payroll can now reverse the payroll transactions related to the absence.

There are two reversal solutions available:

- **Fully Automatic Reversals:** Allows the system to reverse the payment automatically, while informing you of the reversal via a [Payroll Message](#).
- **User-Triggered Reversals:** Requires user intervention to reverse an absence payment, giving you control over what payroll transactions are processed.

Note:

- If the cancelled absence relates to a payroll period before the previous payroll period, then manual intervention is required to reverse absence payment transactions.
- Reversals are only applicable to salaried employees; it's not possible to reserve absence days for non-salaried employees.
- The reversal timesheet transactions generate as part of the *Payroll Validation or Absence out of Validation* task and use the same pay codes, cost centres, projects and expense codes as the original transactions, but with reversed values.

6.3.2. Menu Options Required

Menu Options	Description	System
Create absences reversals changes	Payroll > Create absences reversals changes	Webservice
Create absences reversals changes Proxy (Pay Access)	Payroll > Create absences reversals changes Proxy (Pay Access)	Webservice
Delete absences reversals changes	Payroll > Delete absences reversals changes	Webservice
Delete absences reversals changes Proxy (Pay Access)	Payroll > Delete absences reversals changes Proxy (Pay Access)	Webservice
Get absences reversals changes totals	Payroll > Get absences reversals changes totals	Webservice
Get absences reversals changes totals Proxy (Pay Access)	Payroll > Get absences reversals changes totals Proxy (Pay Access)	Webservice

6.3.3. Configuration Required – User-Triggered Reversals / Fully Automatic Reversals

There are two reversal solutions available:

- **Fully Automatic Reversals:** Allows the system to reverse the payment automatically.
- **User-Triggered Reversals:** Requires manual intervention to reverse the payment.

Note:

The *User-Triggered Reversals* solution is enabled by default; however, the *Absence Auto Reversal* solution can be switched on at company or pay group level.

Company Level

To switch on *Fully Automatic Reversals* at the company level:

1. Go to *Payroll Dashboard > Settings > Organisations*.
2. Select *Payroll Parameters* from the drop-down *Select Detail* menu.
3. Click **Next Page** to browse to page 2.
4. Enable the *Absence Auto Reversal* indicator.

Maintain Payroll Parameters

Academic Start Year 199301	Academic End Year 199352	Validate Cost Centre Y
PAYE Standard Rate 20.00	Withhold Tax Percent 	PAYE Higher Rate 40.00
Validate Position/Location Allowances 	PAYE Marginal Rate 40.00	Advance Pay (Max Periods)
Child Allowance Limit 18	Job Share Multiplier .5	Pension Contribution Limit 115000
Pay Multiplier Limit 	Abatement Floor 	Multiple Periods Of Employment ☐
Absence Auto Reversal ☒	Allocate Salary Cost ☒	Allocate ER Costs By Expense ☐
		Advance Pay Cleardown ☒

5. Click **Save**.

Note:

- Setting the *Absence Auto Reversals* indicator at a company level enables Fully Automatic Reversals for all pay groups in that company.
- The *Absence Auto Reversals* indicator can be set at a pay group level.

Pay Group Level

To switch on *Fully Automatic Reversals* at pay group level:

1. Go to *Payroll Dashboard > Settings > Pay Groups*.
2. Click twice on **Next Page** to browse to page 3.

Absence Settings

Absence Pay Prediction ☒

Prediction Cut Off (Months)

Absence Auto Reversal ☒

3. Enable the *Absence Auto Reversal* indicator.
4. Click **Save**.
- 5.

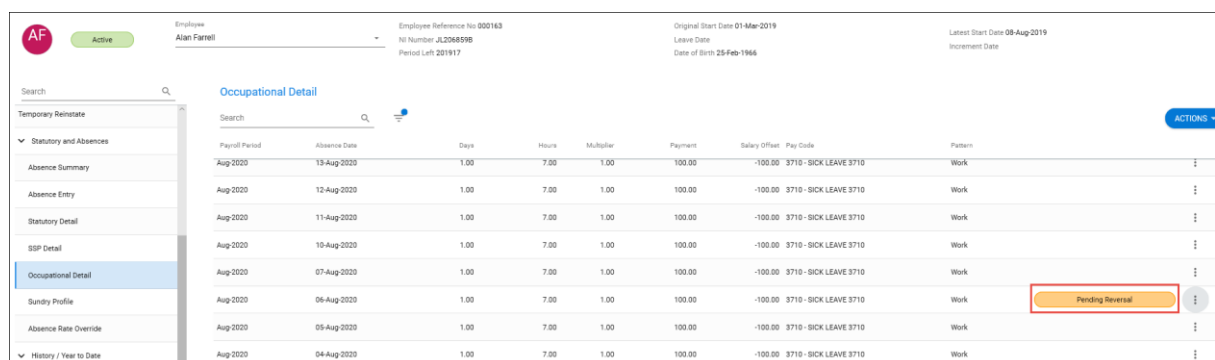

Note:

The *User-Triggered Reversals* is enabled when the *Absence Auto Reversal* indicator is off.

6.3.4. Fully Automatic Reversals

Reversing a payment using the fully automatic solution:

1. Once an absence day relating to the previous period is cancelled, see section [6.2. Cancelling Absence](#), the absence day status updates to 'Pending Reversal' in the *Employee > View > Occupational Detail* screen.

Occupational Detail

Payroll Period	Absence Date	Days	Hours	Multipier	Payment	Salary Offset	Pay Code	Pattern	
Aug 2020	13-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work	
Aug 2020	12-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work	
Aug 2020	11-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work	
Aug 2020	10-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work	
Aug 2020	07-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work	
Aug 2020	06-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work	Pending Reversal
Aug 2020	05-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work	
Aug 2020	04-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work	

Note:

- Run the *Payroll Validation* or the *Absence Out of Validation* task to process the reversal.
- Where the *Unprocessed Employee* feature is enabled, the employee displays in the *Unprocessed Employee* screen until the *Payroll Validation* or *Absence out of Validation* task is processed.

To view this unprocessed reversal:

Go to *Payroll Dashboard > Manage Payroll > Inputs > Unprocessed Employees*.

The screenshot shows the 'Manage Payroll' interface. At the top, there's a table with columns: Pay Groups, Key Observations, Stage, Payroll Completion, Joiners, Leavers, Rejoiners, and Mode. Below this, there's a section for 'Inputs' which contains several widgets. The 'Unprocessed Employees' widget is highlighted with a red box and shows '1 Employees'. Other widgets include 'Approvals', 'Joiners', 'Rejoiners', 'Salary Approvals', 'Pay Changes', 'Manage Payroll Employees', and 'General'.

The *Unprocessed Employees* screen opens, allowing you to view all unprocessed employees.

The screenshot shows the 'Unprocessed Employees' screen. It has a table with the following data:

Personnel No	Name	Change Type	
2515690	Adara Goodman	REVERSAL	VIEW

2. Run the *Payroll Validation* or *Absence out of Validation* task.

Note:

Running the *Payroll Validation or Absence out of Validation* task completes the following processes:

- Removes the employee from the *Unprocessed Employees* screen.
- The reversed value timesheets generate and use the same pay codes, cost centres, projects and expense codes as the original transaction payments and offsets.
- Updates the absence status to *Reversed*, see screenshot below.

3. The payroll administrator receives a payroll message 'Employee Has An Absence(S) Cancelled In The Previous Period That Will Be Automatically Reversed', see section [Reversals – Payroll Messages](#).

Payroll Period	Absence Date	Days	Hours	Multiplier	Payment	Salary Offset	Pay Code	Pattern
Aug-2020	17-Aug-2020	1.00	7.00	0.50	50.00	-100.00	3710- SICK LEAVE 3710	Work
Aug-2020	14-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work
Aug-2020	13-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work
Aug-2020	12-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work
Aug-2020	11-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work
Aug-2020	10-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work
Aug-2020	07-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work
Aug-2020	06-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work
Aug-2020	05-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710- SICK LEAVE 3710	Work

6.3.5. User Triggered Reversals

Reversing a payment using the user triggered reversals:

1. Once an absence day relating to the previous period is cancelled, the absence day status updates to *Cancelled* on the *Employee > View > Occupational Detail* screen.
2. Select More Options next to the cancelled absence.
3. Select *Reverse Payment*.

Pending Reversal

SAVE

4. Click **Save**.

Note:

To reverse different absence types, such as maternity and sick, in the same period, reverse the first absence type and save, then reverse the second absence type and save.

The *Confirm Reversal Changes* screen opens.

Absence by Employee Example:

Confirm Reversal Changes
Payroll Dashboard > Manage Payroll Employees* > Alan Farrell* > Confirm Reversal Changes

Reversal changes will be updated on timesheet when payroll validation is run

Change Type	Absence Type	Statutory Type	Total Occupational Days	Total Occupational Pay	Total Occupational Offset	Total Statutory Days	Total Statutory Pay	Total Statutory Offset
Reversal	Sick	SSP	1.00	-100.00	100.00	1.00	-19.17	19.17

 **SAVE**

Absence by Appointment Example:

Confirm Reversal Changes
Payroll Dashboard > Manage Payroll Employees* > 1851 Multi Appointments JG Test 2* > Confirm Reversal Changes

Reversals will be updated on timesheet when payroll validation is run

Change Type	Appointment ID	Appointment Title	Absence Type	Statutory Type	Total Occupational Days	Total Occupational Pay	Total Occupational Off...	Total Statutory Days	Total Statutory Pay	Total Statutory Offset
Reversal	727411-34	Product Team Lead ...	Sick	SSP	0.50	-62.50	62.50	1.00	-23.57	23.57
Reversal	727418-42	QA Engineer 7274	Sick	SSP	0.50	-15.63	15.63	0.00	0.00	0.00

 **SAVE**

Note:

Where multiple appointments exist, the reversal is split by appointment ID.

The *Confirm Reversal Changes* screen contains the following columns:

Column	Description
Change Type	The change type, i.e., Reversal or Undo Reversal.
Absence Type	The absence type, e.g., sick, maternity.
Statutory Type	The statutory type, e.g., SSP, SPP, SMP, SAP, ShPP
Total Occupational Days	The total occupational days, e.g., 1.0. 0.5.
Total Occupational Pay	The occupational pay being reversed.
Total Occupational Offset	The occupational offset being reversed.
Total Statutory Days	The statutory days being reversed.
Total Statutory Pay	The statutory pay being reversed.

Column	Description
Total Statutory Offset	The statutory offset being reversed.
Multi Appointment Columns	
Appointment ID	The appointment ID being reversed
Appointment Title	The appointment title being reversed.

Note:

Review the reversal timesheet transactions to ensure you are happy to process the change.

5. Click **Save**.

Note:

- Run the *Payroll Validation or Absence out of Validation* task to process the reversal.
- Where the *Unprocessed Employee* feature is enabled, the employee displays in the *Unprocessed Employee* screen until the *Payroll Validation or Absence out of Validation* task is processed.

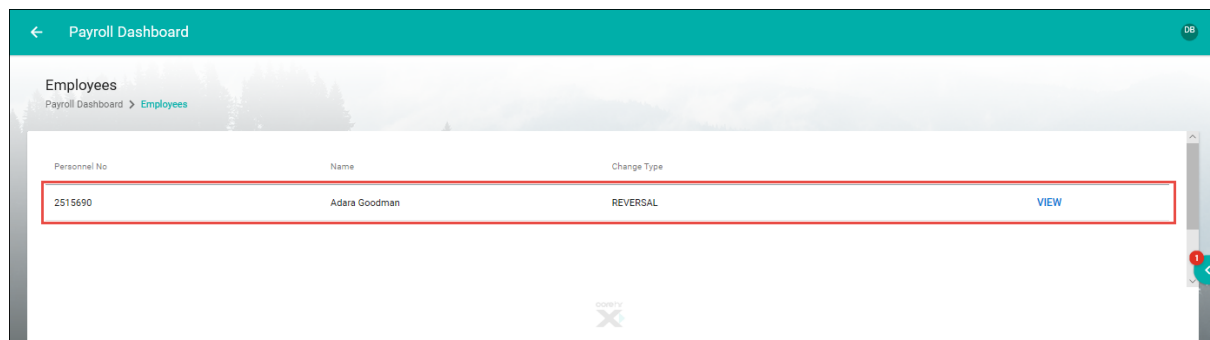

To view this unprocessed reversal:

Go to *Payroll Dashboard > Manage Payroll > Inputs > Unprocessed Employees*.

The screenshot shows the 'Manage Payroll' dashboard. On the left sidebar, the 'Inputs' tab is selected and highlighted with a red box. The main area displays a table of payroll groups with columns: Pay Groups, Key Observations, Stage, Payroll Completion, Joiners, Leavers, Rejoiners, and Mode. The table lists four groups: 'Pay Mod Corrections', 'Payroll Moderisation', 'University UK Monthly', and 'Weekly SPS Pension'. Each group has a status indicator (red or green circle with a number) and a 'PROCESS PAYRO...' button. Below the table, there are four tabs: 'Inputs', 'Payroll Checking', 'Outputs', and 'Unprocessed Employees'. The 'Unprocessed Employees' tab is selected and highlighted with a red box, showing a count of '1 Employees'.

Payroll: Absence Pay Enhancement User Guide

The *Unprocessed Employees* screen opens, allowing you to view all unprocessed employees.

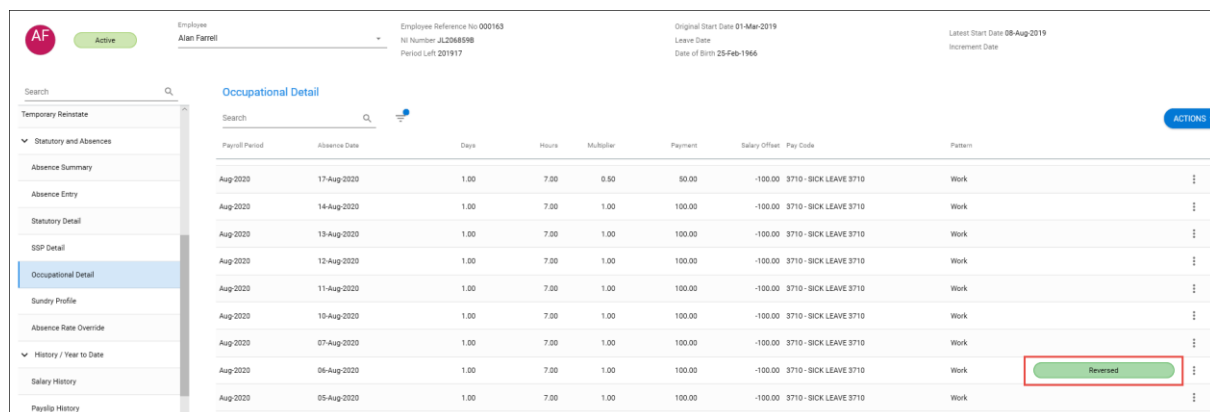

Personnel No	Name	Change Type	
2515690	Adara Goodman	REVERSAL	VIEW

Note:

Running the *Payroll Validation* or *Absence out of Validation* task completes the following processes:

- Removes the employee from the *Unprocessed Employees* screen.
- The reversed value timesheets generate and use the same pay codes, cost centres, projects and expense codes as the original transaction payments and offsets.
- Updates the absence status to *Reversed*, see screenshot below.

Payroll Period	Absence Date	Days	Hours	Multiplier	Payment	Salary Offset	Pay Code	Pattern	
Aug 2020	17-Aug-2020	1.00	7.00	0.50	50.00	-100.00	3710 - SICK LEAVE 3710	Work	
Aug 2020	14-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710 - SICK LEAVE 3710	Work	
Aug 2020	13-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710 - SICK LEAVE 3710	Work	
Aug 2020	12-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710 - SICK LEAVE 3710	Work	
Aug 2020	11-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710 - SICK LEAVE 3710	Work	
Aug 2020	10-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710 - SICK LEAVE 3710	Work	
Aug 2020	07-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710 - SICK LEAVE 3710	Work	
Aug 2020	06-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710 - SICK LEAVE 3710	Work	Reversed
Aug 2020	05-Aug-2020	1.00	7.00	1.00	100.00	-100.00	3710 - SICK LEAVE 3710	Work	

6.3.6. Reversed Payment Transparency

In addition to the *Occupational Detail* screen, information regarding cancelled absences with payments reversed can be viewed in the following screens:

- Absence Pay Per Period
- SSP Detail
- Statutory Detail

Absence Pay Per Period Screen

Notification of the reversed day displays in the *Additional Information* field in the *Absence Pay Per Period* tab of the *Absence Summary* screen.

6.3.7. Undo Reversal Absence Payments

You can undo absence payment reversals processed in the current period with the following payroll status:

- Reverse Pending.
- Reversed.

Payroll: Absence Pay Enhancement User Guide

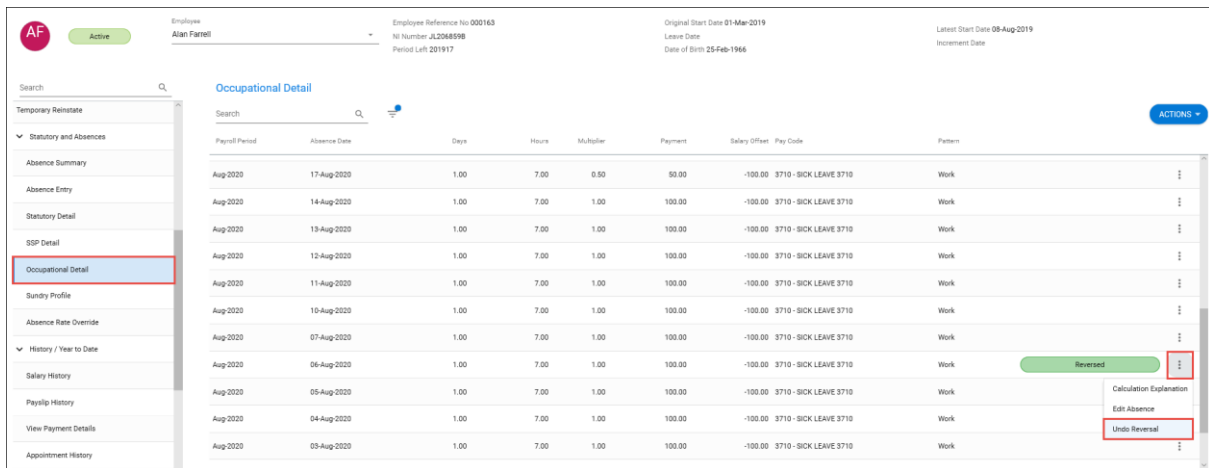

Note:

You cannot undo absence payment reversals processed in a previous period.

To undo a Reversed Absence Payment.

1. Go to *Payroll Dashboard > Employee > View > Occupational Details*.
2. Select More Options  next to the reversed absence.
3. Select *Undo Reversal*.

- The absence status reverts to *Cancelled*.

6.3.8. Reversal – Payroll Messages

The following payroll messages display in relation to cancelled and reversed absences:

Number	Scenario	Payroll Message
253	Cancelled Payment Where an employee has an absence cancelled for a period before the previous payroll period. Consider a manual intervention.	An absence paid in an historical period has been cancelled. A manual amendment is required to reverse this absence.
268	Reversed Payment – Moved Pay Group Where an employee's absence payment is reversed, and absence occurred before the employee moved pay group. Consider a manual intervention.	Employee has moved paygroup and has an absence(s) being reversed.
269	Reversed Payment – Moved Company Where an employee's absence payment is reversed, and absence occurred before the employee moved pay group and company. Consider a manual intervention.	Employee has moved paygroup and company and has an absence(s) being reversed.
270	Reversed Payment – Moved Pay Frequency Where an employee has a cancelled absence and has moved to a pay group with a different pay frequency; in this scenario, an automatic reversal is not possible. Consider a manual intervention.	Employee has moved paygroup frequency and an automatic reversal of cancelled absence day(s) is not possible
273	User-triggered solution only Where an employee has an absence in the previous period, that has since been cancelled but not reversed. Consider a reversing the payment.	An absence paid in the previous period has since been cancelled. You can reverse this absence via the Occupational Detail screen.

Number	Scenario	Payroll Message
274	Fully Automatic solution only Where an employee's absence for the previous payroll period has been cancelled, the payment will be automatically reversed. Consider reviewing the payroll transactions.	An absence paid in the previous period has been reversed.
275	Reversed Payment – Pay Multiplier Where an employee's absence for the previous payroll period has been reversed, and the employee's pay multiplier dropped in this period. Consider a manual intervention.	This employee's absence pay dropped to a reduced multiplier in the previous period. An absence day was reversed that may impact this. Please review.
276	Reversed Payment – Subsequent absence Where an employee's absence for the previous payroll period has been reversed, review the impact on subsequent absences. Consider a manual intervention.	You have reversed a day(s) that may impact on a subsequent absence.
277	SSP Only – Subsequent absence Where an employee's absence for the previous payroll period has been reversed, and the reversed days occur in the middle of an absence period, review the impact on SSP, e.g., waiting days. Consider a manual intervention.	X days(s) have been reversed from the middle of the period of sickness where subsequent days are not reversed. This may have an impact on SSP for those subsequent days.
278	SSP Only – PIW Where an employee's absence for the previous payroll period has been reversed, review the impact on the employee's PIW. Consider a manual intervention.	The PIW has been invalidated by reversing the x-date This may have an impact on SSP for any subsequent non reversed days.
279	SMP Only	Rest days will need to be manually reversed for SMP.

Number	Scenario	Payroll Message
	As SMP is paid over a seven-day basis, the rest days need to be manually reversed. Consider a manual intervention.	
280	Capping Where an employee's absence for the previous payroll period was reversed, and capping was applied in the previous period. Consider a manual intervention.	You are reversing day(s) from a period that had capping applied.
281	Top-Ups Where an employee's absence for the previous payroll period was reversed, and a top-up was applied in the previous period. Consider a manual intervention.	You are reversing day(s) from a period that had Top-Ups applied to the value of {value}
282	Reversing Statutory Pay (Not SSP or SMP) Where an employee's absence for the previous payroll period was reversed, the statutory element should be manually reversed. Consider a manual intervention.	The reversal off statutory {val1} will need to be manually completed for the corresponding occupational day(s) reversed.
314	Unprocessed Employee Where an employee's absence for the previous payroll period was reversed, but <i>Payroll Validation or Absence out of Validation</i> task was not run to process the reversed payment. Consider a manual intervention.	Employee has had reversal(s) that were not processed in the previous period.
315	Unprocessed – Undo Reversal Where an employee's reversed absence for the previous payroll period was undone, but <i>Payroll Validation or Absence out of Validation</i> task was not run to process the Undo Reversal. Consider a manual intervention.	Employee has had reversal(s) that were un-reversed and not processed in the previous period.

7. Absence Entry

7.1. Overview of Absence Entry

The *Absences* screen is the *WFM Person Absences* screen accessed via the *Employee Dashboard* in Payroll. Use the *Absences* screen to:

- [Add a New Absence.](#)
- [View or Edit an Existing Absence.](#)
- [Delete an Existing Absence.](#)
- [Link an Existing Absences to a Statutory Absence.](#)
- [View, Edit or Delete the Statutory Details Linked to the Absence.](#)

Notable Changes:

- The screen is now searchable.
- A search filter has been added.
- By default, the *Absence Screen* is filtered to only show Payroll absences. However, you can disable the *Payroll Only* indicator to show all absences to which you have access. See section [Filtered Search](#).

Note:

- To access an employee, you must have access to the employee's pay group and input location.
- Granting access to the *Absences* screen allows users access all the employees' absence records, i.e., attached documents etc.

Alternative ways of recording an absence. Not covered in this document:

1. How to record absences using Workforce Management.
2. How to record absences using the Employee Self Service "My Requests" widget.
3. How to record absences using the Manager Self Service screen (performed by the Line Manager).

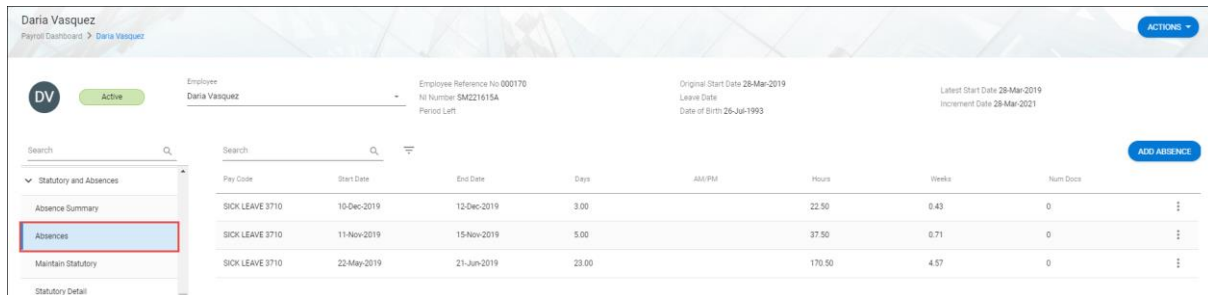

7.1.1. Menu Options

Menu Option		Description	System
Payroll	Person	MAIN MENU - EMPLOYEE DASH > Payroll Person	CorePortal Pay
Absences		Absences	
Maintain	Statutory	Maintain Statutory WFM	CorePortal Pay
WFM			

7.1.2. Access the Absences Screen

To access to the *Absences* screen.

Go to *Payroll Dashboard > Employee > View > Absences*.

7.1.3. The Absences Screen Explained

The *Absences* screen displays the following columns:

Column	Description
Pay Code	This column displays the absence leave pay code description. Only <i>Payroll Absences Pay Codes</i> appear. See section Absence Pay Codes .
Start Date	This column displays the date on which the absence started.
End Date	This column displays the date on which the absence finished (if populated).
Days	This column displays the number of absence days entered.
AM/PM	Where a part-day absence occurs, i.e. • AM • PM
Hours	This column displays the total number of absence hours entered.
Weeks	This column displays the total number of absence weeks entered.
Num Docs	This column displays the number of documents attached to the absence entry.

7.1.4. Searching for Absences

Use the search field to search for absence entries using keywords:

- Pay Code Description
- Start Date
- End Date

Payroll: Absence Pay Enhancement User Guide

Pay Code	Start Date	End Date	Days	AM/PM	Hours	Weeks	Num Docs
SICK LEAVE 3710	10-Dec-2019	12-Dec-2019	3.00		22.50	0.43	0
SICK LEAVE 3710	11-Nov-2019	15-Nov-2019	5.00		37.50	0.71	0
SICK LEAVE 3710	22-May-2019	21-Jun-2019	23.00		170.50	4.57	0

7.1.5. Filter by Appointment ID – Multi Appointment Environment

In Multi Appointment ID environments, you can filter absences by Appointment ID.

Pay Code	Start Date	End Date	Days	AM/PM	Hours	Weeks	Num Docs
SICK LEAVE 3710	17-Feb-2020		.38		3.00	0.06	0

7.1.6. Filtered Search

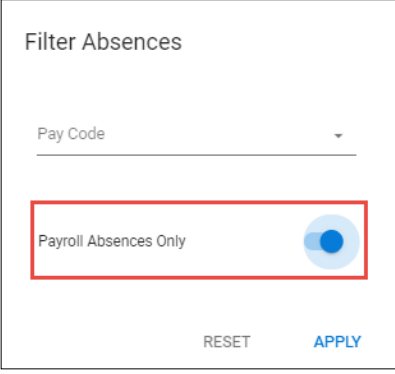

Note:

By default, the *Absence Screen* is filtered to only show Payroll absences. However, you can disable the *Payroll Only* indicator to show all absences to which you have access.

1. Click on the  button to open the *Filter Search* screen.

Pay Code	Start Date	End Date	Days	AM/PM	Hours	Weeks	Num Docs
Maternity Leave	01-Jul-2020	01-Jul-2021	262.00		1834.00	52.29	0

The Filter Absences screen opens.

4. Click **Apply**.

The blue dot next to the Pay Code Filter  indicates that the filter is on.

7.2. Add Absences

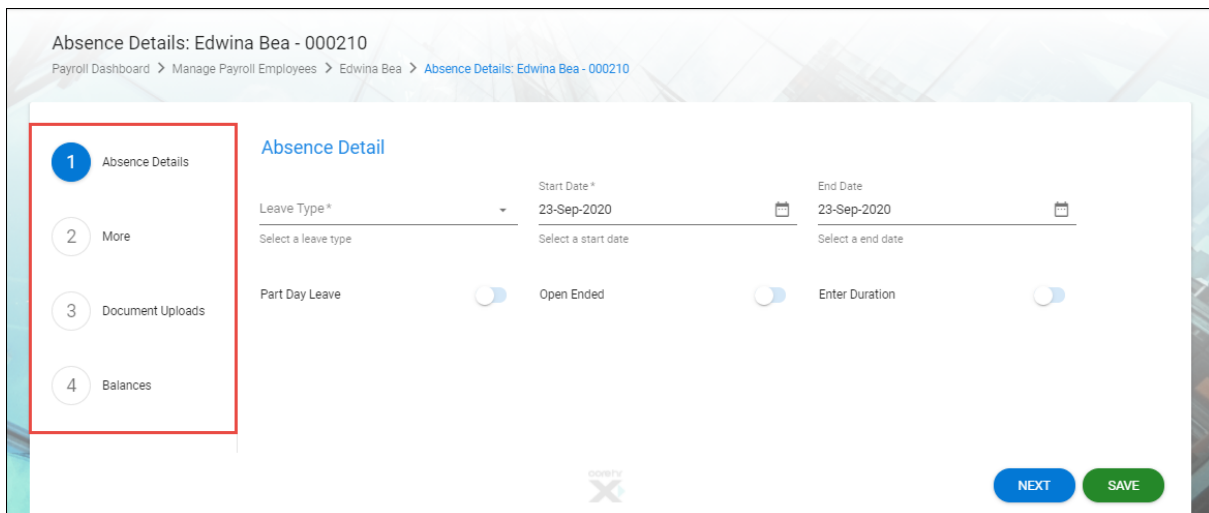

Follow these steps to add a new absence for an employee:

Select **Add Absence**.

The screenshot shows the 'Edwina Bea' Payroll Dashboard. On the left, there is a sidebar with a search bar and a list of options: 'Statutory and Absences', 'Absence Summary', 'Absences' (highlighted with a red box), 'Maintain Statutory', and 'Statutory Detail'. In the main area, there is a table with columns: 'Pay Code', 'Start Date', 'End Date', 'Days', 'AM/PM', 'Hours', 'Weeks', and 'Num Docs'. A red arrow points from the 'ADD ABSENCE' button in the top right corner of the main area to the 'Absences' option in the sidebar.

The *Absence Details* screen opens.

The screenshot shows the 'Absence Details: Edwina Bea - 000210' screen. On the left, there is a sidebar with four options: '1 Absence Details' (highlighted with a red box), '2 More', '3 Document Uploads', and '4 Balances'. The main area is titled 'Absence Detail' and contains fields for 'Leave Type *', 'Start Date *', 'End Date', 'Part Day Leave', 'Open Ended', and 'Enter Duration'. At the bottom, there are 'NEXT' and 'SAVE' buttons.

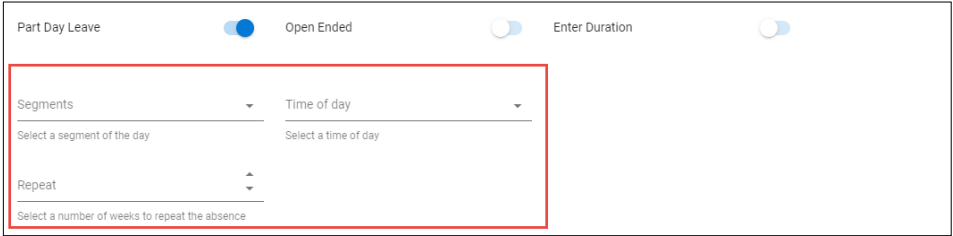

The *Absence Details* screen opens containing four options:

1. Absence Details
2. More
3. Documents Uploads
4. Balances

7.2.1. Absence Details

The first option on the *Absence Details* screen allows you to add the absence details.

Add the following details:

Details	Description
Leave Type	Select a leave type from the drop-down menu, e.g. Sick, Maternity etc.  Note: Where a <i>Leave Type</i> is not displaying, review the <i>Payroll Users WFM Pay Code Access</i>. For further details, see the WFM (Time & Attendance) v28: Pay Code Access Groups user guide.
Start Date	Enter the start date of the absence.
End Date	Enter the end date of the absence, if known.
Part Day Leave	Enable the indicator if the absence is a part-day. Populate the additional fields:  - Select which segment of the day for which the employee was absent. ¼ ½ ¾ - Select the time of day for which the employee was absent. - AM - PM - Enter the number of weeks to repeat the absence.
Open Ended	Enable the <i>Open Ended</i> indicator if this is an open-ended absence. Once enabled, the <i>End Date</i> field is removed.
Enter Duration	Enable the <i>Enter Duration</i> indicator to enter a numeric duration. Once enabled, the <i>End Date</i> field is removed. Populate the additional fields:

Details	Description
	Part Day Leave ☐ Open Ended ☐ Enter Duration ☒ Duration Enter a numeric duration Duration Type* Select a duration type 1. Enter a numeric duration. 2. Select a duration type. • Days • Weeks

7.2.2. More

The second option on the *Absence Details* screen allows you to add more details.

Absence Details: Candace Jensen - 000167

Payroll Dashboard > Candace Jensen > Absence Details: Candace Jensen - 000167

Click **Save**.

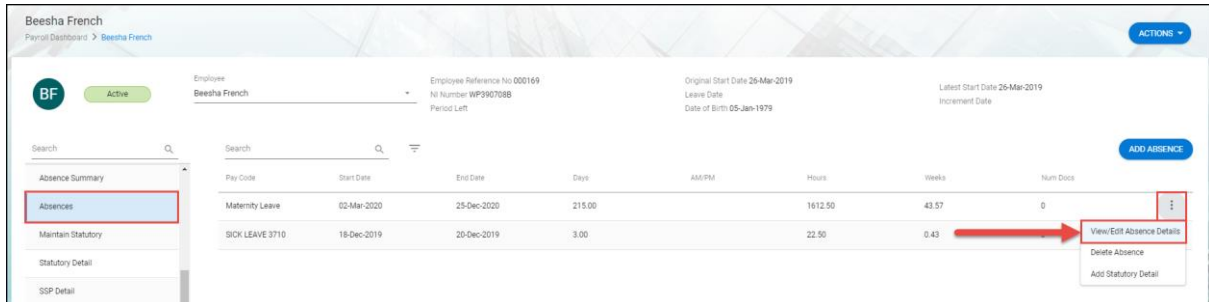

Note:

Run the *Payroll Validation* or *Absence Out of Validation* task to generate the occupational absence transaction timesheets.

7.3. View/Edit Absences Details

To view or edit an existing absence:

1. Click the Further Options  next to the absence you want to view/edit.
2. Select *View/Edit Absence Details*.

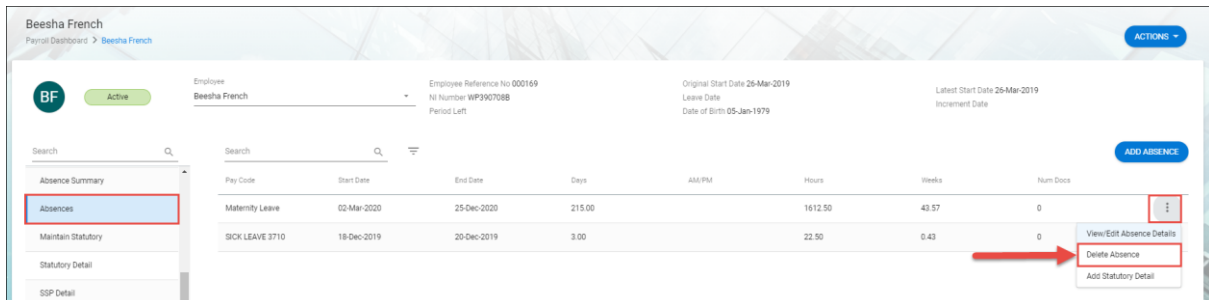

The screenshot shows the Beesha French Payroll Dashboard. On the left, a sidebar contains a search bar and a list of tabs: 'Absence Summary', 'Absences' (highlighted with a red box), 'Maintain Statutory', 'Statutory Detail', and 'SSP Detail'. The main area displays employee details for Beesha French and a table of absences. The table has columns for Pay Code, Start Date, End Date, Days, AM/PM, Hours, Weeks, and Num Docs. Two rows are visible: 'Maternity Leave' and 'SICK LEAVE 3710'. A red arrow points from the 'Further Options' button (three dots) next to the 'SICK LEAVE 3710' row to a dropdown menu. The dropdown menu contains three options: 'View/Edit Absence Details', 'Delete Absence', and 'Add Statutory Detail'.

3. Edit the details explained in section [7.2 Add Absences](#).

7.4. Delete Absences

To delete an existing absence:

1. Click the Further Options  button next to the absence you want to delete.
2. Select *Delete Absence*.

This screenshot is identical to the one in section 7.3, showing the Beesha French Payroll Dashboard. The 'Absences' tab is highlighted in the sidebar. A red arrow points from the 'Further Options' button (three dots) next to the 'SICK LEAVE 3710' row to the 'Delete Absence' option in the dropdown menu.

The following message appears.

Delete

Are you sure you want to delete this?

NO **YES**

3. Click **Yes**.

 Note:

- This effectively cancels the absence, i.e., once the *Payroll Validation or Absence Out of Validation* task is run, the absence is no longer be counted when calculating the employee's entitlement to occupational pay.
- Deleting the occupational absence automatically deletes the statutory absence linked to the absence entry, see section [7.5. Link to a Statutory Absence – UK Only](#).

7.5. Link to a Statutory Absence – UK Only

7.5.1. Overview

You can link the absence entries to statutory absences through the *Absences* screen.

If the absence entry is non-sick statutory leave, i.e.

- Statutory Paternity Pay (SPP)
- Statutory Adoption Pay (SAP)
- Statutory Maternity Pay (SMP)
- Shared Parental Pay (ShPP)

 Note:

Absence types must be linked to a statutory type, see section [1.4. Configuration Required](#).

7.5.2. Link to a Statutory Absence

To link a statutory absence to a current absence entry:

1. Select More Options  next to the absence entry you want to link to a statutory absence.
2. Select *Add Statutory Detail*.

7.6. Maintain Statutory

7.6.1. Overview

This is now a read-only screen used to review UK specific statutory payments in Payroll. The following statutory payments can be reviewed through this screen.

- Statutory Paternity Pay (SPP)
- Statutory Adoption Pay (SAP)
- Statutory Maternity Pay (SMP)
- Shared Parental Pay (ShPP)

Note:

Before the absence pay enhancements, statutory payments were maintained through this screen. See the [Maintain Statutory \(UK\)](#) user guide.

7.6.2. Menu Options Required

Menu Option	Description	System
EMPLOYEE DASH - STATUTORY ABSENCES	MAIN MENU - EMPLOYEE DASH > EMPLOYEE DASH - STATUTORY ABSENCES	CorePortal Pay
Get settings	Payroll > Get settings	Webservice

7.6.3. Access the Maintain Statutory Screen

To access the *Maintain Statutory* screen:

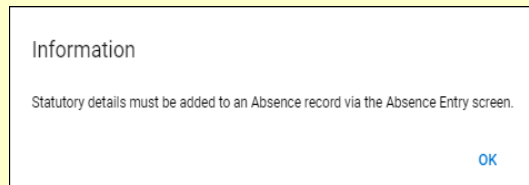

Go to *Payroll Dashboard > Employee > View > Maintain Statutory*.

Note:

Once a user is granted access to the Absences screen, clicking **Add** displays the following message.

7.6.4. The Maintain Statutory Screen Explained

Column	Description
Statutory Type	The statutory absence type, i.e. - Statutory Paternity Pay (SPP) - Statutory Adoptive Pay (SAP) - Statutory Maternity Pay (SMP) - Shared Parental Pay (ShPP)
Based on	Based on, i.e. - Birth. - Adoptive.
Baby due	The expected due date.
Notice date	The date the employer was informed of the upcoming statutory leave.
EWC due	This is the week the baby is due. The exact date is provided on the MATB1 maternity certificate by the midwife or GP from week 16. The week starts on a Sunday.
AWE	The average weekly earnings – the average gross earnings over a period of at least eight weeks up to and including the last payday before the end of the qualifying week. The qualifying week is the 15th week before the week your baby is due.
Leave start	The start date of the statutory leave.

Column	Description
Payment start	The start date of the statutory pay.
Payment end	The date the statutory pay is due to end.
Paid days	The number of statutory days paid.

8. Absence Display Settings

8.1. Overview

The *Absence Display Settings* screen allows you to enable additional columns and disable unwanted columns in both the *Occupational Detail* and *Absence Pay Per Period* screens.

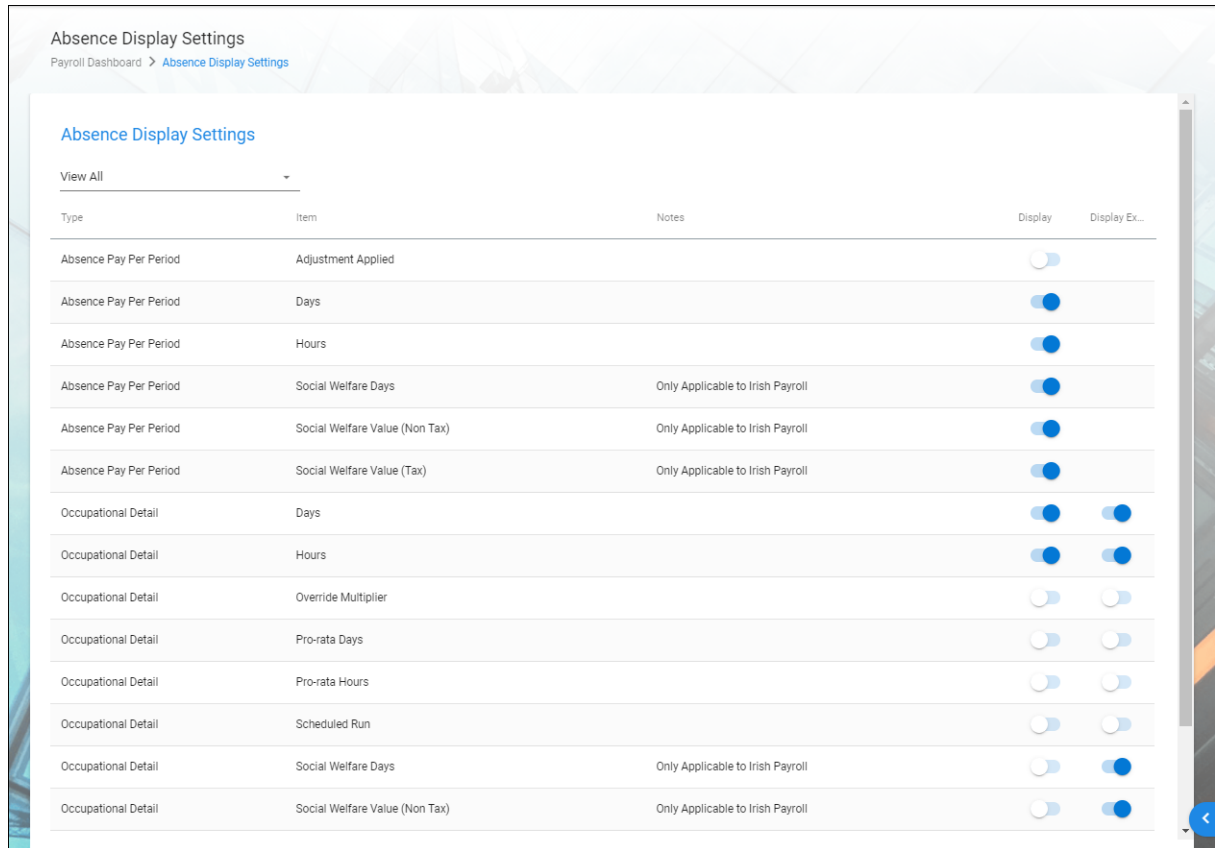

8.2. Menu Options Required

Menu Option	Description	System
Settings - Display Column Settings	MAIN MENU - Settings > Settings - Display Column Settings	CorePortal Pay
Get settings columns	Payroll > Get settings columns	Webservice
Update settings columns	Payroll > Update settings columns	Webservice
Get settings columns types	Payroll > Get settings columns types	Webservice

8.3. Access the Absence Display Settings Screen

To access the *Absence Display Settings* screen:

Go to *Payroll Dashboard > Settings > Absence Display Settings*.

8.4. Using the Absence Display Settings screen

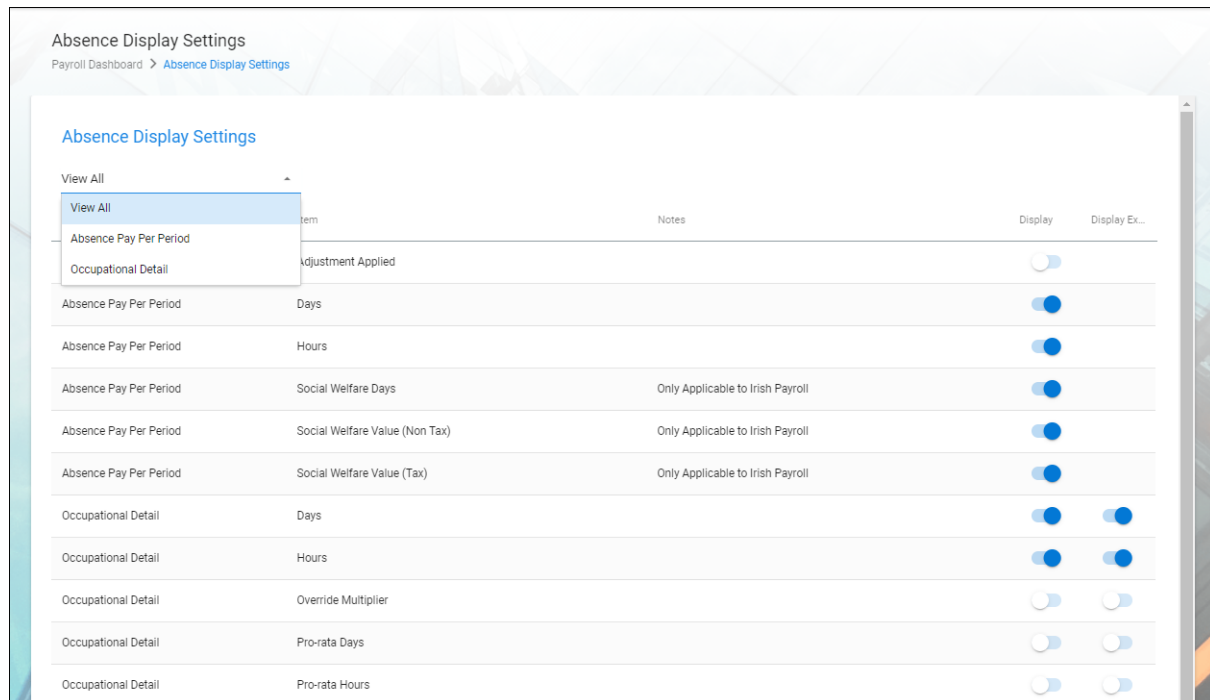

By default, the *Absence Display Settings* screen displays all columns that can be added or removed from both the *Occupational Detail* and *Absence Pay Per Period* screens.

8.4.1. Filter the Absence Display Settings screen

You can filter the *Absence Display Settings* screen to display the columns available in the following screens:

- The *Occupational Detail* screen.
- The *Absence Pay Per Period* screen.

Click on .

8.4.2. The Absence Display Settings Screen Explained

The *Absence Display Settings* screen contains the following columns:

Column	Description
Type	This column contains the absence screen on which you can display the item, i.e. - Occupational Detail screen - Absence Pay Per Period screen
Item	This column contains the item which displays as an additional column in the absence screen. For a detailed explained of each item, see section 2.2.5. The Occupational Detail Screen Explained.
Notes	This column displays any notes associated with the item, e.g. 'Only Applicable to Irish Payroll.'
Display	This column contains the <i>Display</i> indicator, which, when enabled, displays the item when the absence screen is in regular mode.
Display Expanded	This column contains the <i>Display Expanded</i> indicator, which, when enabled, displays the item when the absence screen is in full mode.

8.4.3. Enabling Items on the Absence Screens

To enable items to display on the absence screens:

Payroll: Absence Pay Enhancement User Guide

1. Enable the *Display* indicator – to the display the item when the absence screen is in regular mode.
2. Enable the *Display Expand* indicator – to the display the item when the absence screen is in full mode.

9. Frequency Asked Questions

9.1. CoreInsight Changes

No changes have been made to the Weekly Sick Insight view available in the CoreTime Business Area.

The existing Sickness History Insight view (based on weekly_sick and available within the CorePay Business Area) has been updated with the follows:

- Some new fields were added (e.g., Cancell_Illness_Update).
- A new *Pay Change* flag was added to make it easier to report on pay drops/increases in a payroll period, see section [Absence Pay Prediction](#).

Note:

- The Sickness History view includes all occupational absence details not just sick pay.
- No changes have been made to BI Views – only Insight Views.

9.1.1. CoreInsight Predictive Pay Change Report

CoreInsight gives you the ability to create a report that only brings back the date an employee's pay multiplier is set to change.

The following views allow you to report on the predicted pay change for employees:

		000183	S - Sick	1	Y	31-Aug-2020

9.1.2. Cancelled Absences

Insight can be used to identify who cancelled an absence day and when was it cancelled. The following three fields are applicable to cancelled absences and have been added to the Sickness History view.

Number	Field	Description
1	Cancel_Illness_Update	The date the absence was last cancelled or uncanceled.
2	Cancel_Illness_Update_User	The system user who last cancelled or uncanceled the absence
3	Cancel_Illness_Update_Source	Whether it was last or uncanceled via the WFM or Payroll <i>Occupational Detail</i> screen: - WFM : WFM - Payroll : Payroll <i>Occupational Detail</i> screen.

Note:

Only the last 'cancelled' or 'uncancel' action is recorded.

9.2. Top Ups and Capping

Note:

- Top Ups and Capping are only applicable with the absence daily rate calculation method is set to [Annual Salary – Default Option](#).
- Top Ups and Capping are switched on at company level.

9.2.1. Top Ups

When an employee is absent for a full payroll period, the situation may arise where the sum of the daily rate * days in period is less than the employee's period salary. In this situation, top-up value timesheet for occupational pay and salary offset generate.

9.2.2. Capping

When an employee is absent for a full payroll period, the situation may arise where the sum of the daily rate * days in period is more than the employee's period salary. In this situation, offset value timesheets for occupational pay and salary offset generate.

9.3. Absence Pay Codes

Both Payroll and WFM pay codes are required to operate the absence pay from Payroll.

Note:

For details on how configure *Payroll Absence Pay Codes*, see the [Configure Absence Pay Parameters](#) user guide.

9.4. When are Absences Processed?

Run the *Payroll Validation* or *Absence Out of Validation* task to process the current period's absences.

Note:

- Running the *Confirm Timesheet* task closes the current input period (not to be confused with the payroll period) for processing absences.
- If an absence is recorded in a future month, the payroll input period for the absence is set to the corresponding future payroll period.
- If the payroll period in which the absence date falls in is earlier than the pay group's current input period, then set the absence input period is set to the current open input period.

9.5. Multi Appointment – Statutory Pay

Where an employee has more than one appointment, and absences are recorded against more than one appointment, the sum of the statutory pay displays on the substantive appointment row. Where an employee only has absences recorded against a non-substantive appointment, the sum of the statutory pay displays against the non-substantive appointment row.

9.6. Salary Offset Pay Code

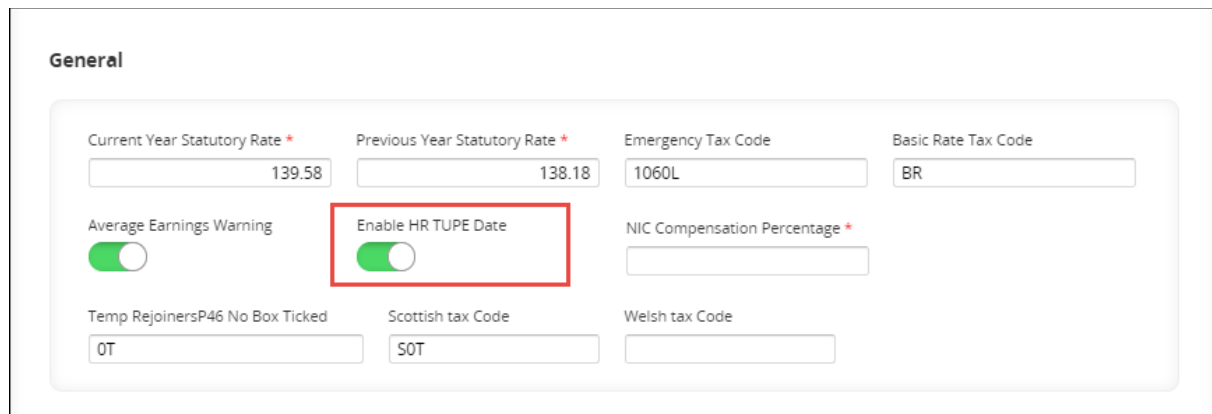

The offset pay code can be set at company level and overridden at the absence rule level.

9.7. Use TUPE Date for Statutory Pay Calculation – Legislative Change

A new system-level parameter has been introduced to ensure, where applicable, the TUPE date is used in determining employees' eligibility for statutory payments and calculating their average weekly earnings.

To access this system-level parameter:

Go to *Payroll Dashboard > Settings > UK Tax Rates > General*:

The screenshot shows the 'General' settings page. The 'Enable HR TUPE Date' toggle switch is highlighted with a red box. Other visible fields include 'Current Year Statutory Rate' (139.58), 'Previous Year Statutory Rate' (138.18), 'Emergency Tax Code' (1060L), 'Basic Rate Tax Code' (BR), 'Average Earnings Warning' (toggle on), 'NIC Compensation Percentage' (empty), 'Temp RejoinersP46 No Box Ticked' (OT), 'Scottish tax Code' (SOT), and 'Welsh tax Code' (empty).

Once enabled, the TUPE date field displays when recording non-sick statutory absences.

The screenshot shows the 'Key dates' section. The 'TUPE Date' field is highlighted with a red box. Other visible fields include 'Type' (SMP), 'Baby due date' (01-Jan-2020), 'Notice date' (15-Sep-2019), '15th week' (15-Sep-2019), 'Birth date' (empty), 'Average weekly earnings' (1538.46231), 'Leave start' (25-May-2020), 'Payment Start Date' (25-May-2020), 'Higher rate' (1384.62), 'Paid days' (0), 'Weeks' (empty), and 'Days' (empty).

Note:

To record an employee's TUPE Date:

Go to *People Management > Employees > View > Key Information*.

10. How to Adjust Screen Displays

10.1. Occupational Detail Full Screen – Example

10.1.1. Adjust Column Widths

You can adjust the width of any column displayed on the screen.

To adjust the width of a column:

1. Place the cursor between two columns until the crosshair arrow appears.
2. Click and drag to adjust the column width.

10.2. Absences Screen – Example

10.2.1. Use the Filter Options to Sort in Ascending or Descending Order

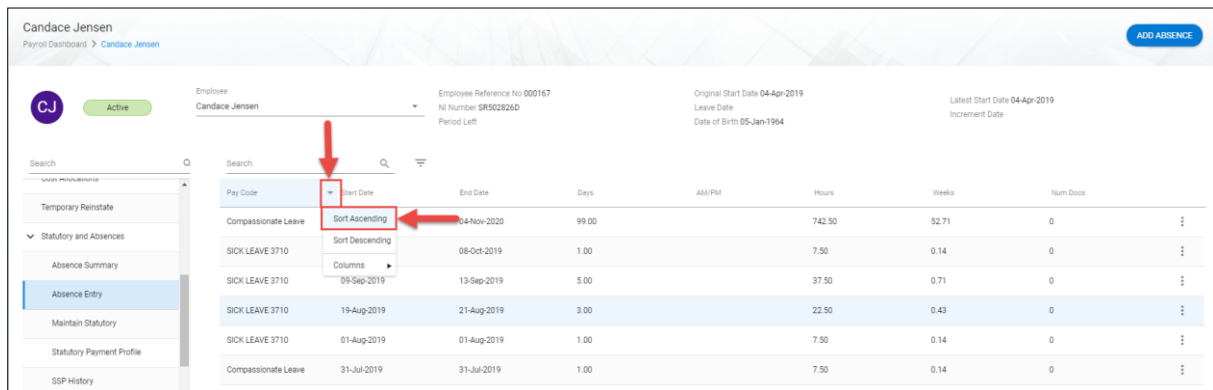

By default, the *Absences screen* displays absences by in ascending order. Each of the filter options allows you to sort absences in ascending or descending order.

For example, you can sort the list of absences by pay code in ascending order.

To sort the absences by pay code:

1. Hover over the *Pay Code* filter option.

2. Click on .

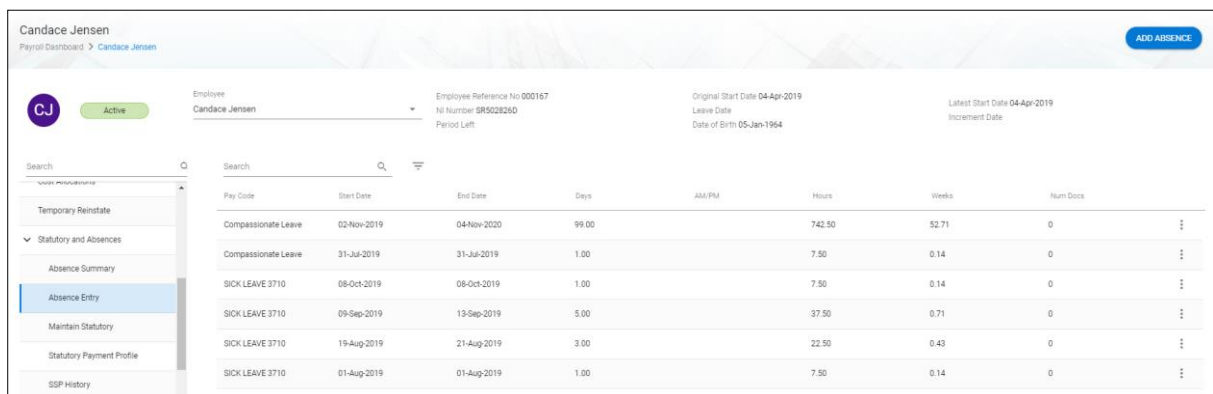

The screenshot shows the 'Absences' screen for employee Candace Jensen. The 'Pay Code' filter dropdown is open, and 'Sort Ascending' is selected. The table below shows the list of absences sorted by pay code in ascending order.

Pay Code	Start Date	End Date	Days	AM/PM	Hours	Weeks	Num Docs
Compassionate Leave	02-Nov-2019	04-Nov-2020	99.00		742.50	52.71	0
Compassionate Leave	31-Jul-2019	31-Jul-2019	1.00		7.50	0.14	0
SICK LEAVE 3710	08-Oct-2019	08-Oct-2019	1.00		7.50	0.14	0
SICK LEAVE 3710	09-Sep-2019	13-Sep-2019	5.00		37.50	0.71	0
SICK LEAVE 3710	19-Aug-2019	21-Aug-2019	3.00		22.50	0.43	0
SICK LEAVE 3710	01-Aug-2019	01-Aug-2019	1.00		7.50	0.14	0
Compassionate Leave	31-Jul-2019	31-Jul-2019	1.00		7.50	0.14	0

3. Select **Sort Ascending**.

The absences now display in sequential order by pay code.

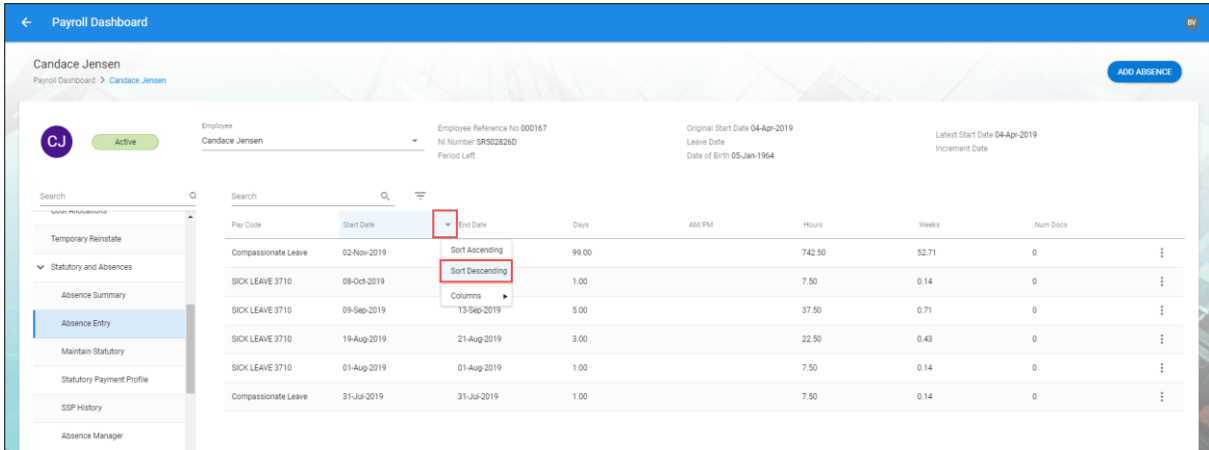

The screenshot shows the 'Absences' screen for employee Candace Jensen. The absences are now displayed in sequential order by pay code.

Pay Code	Start Date	End Date	Days	AM/PM	Hours	Weeks	Num Docs
Compassionate Leave	02-Nov-2019	04-Nov-2020	99.00		742.50	52.71	0
Compassionate Leave	31-Jul-2019	31-Jul-2019	1.00		7.50	0.14	0
SICK LEAVE 3710	08-Oct-2019	08-Oct-2019	1.00		7.50	0.14	0
SICK LEAVE 3710	09-Sep-2019	13-Sep-2019	5.00		37.50	0.71	0
SICK LEAVE 3710	19-Aug-2019	21-Aug-2019	3.00		22.50	0.43	0
SICK LEAVE 3710	01-Aug-2019	01-Aug-2019	1.00		7.50	0.14	0

To turn off the ascending or descending filter:

- Exit and re-enter the *Absences* **OR**
- Sort the *Start Date* filter option in descending order.
