1.4	23 rd May 2025	James Martin	Updated section 3.1.2. Set up a BIK Pay Code

1. Overview

1.1. Purpose of the Guide

The purpose of this document is to guide how to record and maintain Employee Benefits in Expense and Payroll. This document covers the following:

- How to configure PeopleXD for Payrolling Benefits.
- How to record and maintain Employees' vehicles in the Car Administration Centre – both company and private.
- How to Payroll Benefits using the Car Administration Centre.
- How to Payroll Benefits without using the Car Administration Centre.
- Vehicle Benefit Rates.
- Load Employee BIK details.

1.2. Benefit Management Options

- Payroll Benefits using the Car Administration Centre.
- Payroll Benefits not using the Car Administration Centre.
- Do not Payroll Benefits, i.e. Employee benefits are not returned via RTI, but filed using a P11D.

1.3. What is Payrolling Benefits

Payrolling Benefits allow Employers to account for the tax on benefits provided to Employees through the PAYE system, by adding notional pay to the Employees' Taxable Income.

Note the following:

- Payrolled Benefits are often referred to as Benefits in Kind (BIK).
- If intending to Payrolled Benefits (including Vehicle BIK), then you must register your intention to do so with HMRC before the start of the new tax year.
- You must also give your Employees a letter explaining that you're Payrolled Benefits, and what it means for them.
- Payrolled Benefits and Expenses removes the need submit a form P11D.
- You are still required to work out the Class 1A National Insurance contributions on the cash equivalent (notional value) and return a form P11D(b).
 - If a benefit is subject to PAYE, Class 1A National Insurance is payable.

- Class 1A National Insurance is an Employer only liability.
 - Class 1A National Insurance is 13.8% of the end of your taxable benefit total.
- If you choose to Payroll company vehicle benefits, you do not need to submit a form P46(Car). The PeopleXD system does not currently support the production of a P46 Car return.

Note:

You can Payroll all benefits except:

- Employer provided living accommodation.
- Interest free and low interest (beneficial) loans.

You must still report these benefits on a P11D, even if you're Payrolling other benefits for the same Employees.

2. Benefit Management Options

To Payroll Vehicle Benefits, you will need to review the parameters held on the RTI Parameters screen. To do this:

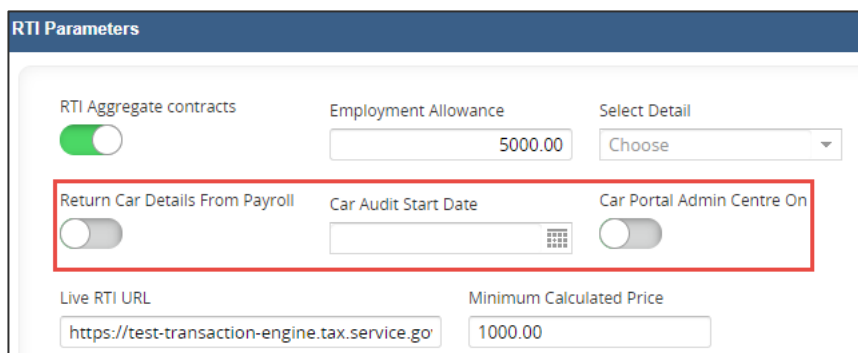

1. On the **Payroll Dashboard** click the **Settings** tab.
2. In the *UK Tax Rates* section click **General**.
3. At the bottom of the screen click **RTI**.

See section [Payrolling Benefits \(BIK\) Configuration](#) for further details on the configuration required.

2.1. Return Benefits via the P11D – Configuration

If you are not Payrolling Benefits, but instead returning Employee benefits via a P11D, ensure the following RTI Parameters are configured correctly:

1. Turn off the **Return Car Details from Payroll** indicator.
2. Clear the **Car Audit Start Date** field.
3. Turn off the **Car Portal Admin Centre On** indicator.

If you are not payrolling benefits and returning via the P11D:

- Record and maintain company vehicles using the [Car Administration Centre](#).
- Vehicles may also be [administered through back office](#). However, using the Car Administration Centre is the recommended approach.
- A P11D will need to be produced and filed.

Note:

See the [P11D Configuration and User Guide](#) for details on how to produce and file a P11D.

2.2. Payroll Benefits – Using the Car Administration Centre

If you are Payrolling Vehicle Benefits using the Car Administration Centre, ensure the following RTI Parameters are configured correctly:

1. Enable the **Return Car Details from Payroll** indicator.
2. Fill in the **Car Audit Start Date** field.
3. Enable the **Car Portal Admin Centre On** indicator.

The screenshot shows the 'RTI Parameters' form. A red box highlights the 'Return Car Details From Payroll' toggle (checked), the 'Car Audit Start Date' field (06-Apr-2017), and the 'Car Portal Admin Centre On' toggle (checked). Other fields include 'RTI Aggregate contracts' (checked), 'Employment Allowance' (5000.00), 'Select Detail' (Choose), 'Live RTI URL' (https://test-transaction-engine.tax.service.gov), and 'Minimum Calculated Price' (1000.00).

If you are Payrolling Vehicle Benefits using the Car Administration Centre:

- Vehicles are set up and maintained using the [Car Administration Centre](#).
- Vehicles are then loaded into Payroll using the shortened [Load Employee BIK Details](#) file.

2.3. Payrolling Benefits – Not Using the Car Admin Centre

If you are Payrolling Vehicle Benefits, but not using the Car Administration Centre, ensure the following RTI Parameters are configured correctly:

1. Enable the **Return Car Details from Payroll** indicator.
2. Clear the **Car Audit Start Date** field.
3. Turn off the **Car Portal Admin Centre On** indicator.

The screenshot shows the 'RTI Parameters' form. A red box highlights the 'Return Car Details From Payroll' toggle (checked), the 'Car Audit Start Date' field (06-Apr-2017), and the 'Car Portal Admin Centre On' toggle (unchecked). Other fields include 'RTI Aggregate contracts' (checked), 'Employment Allowance' (5000.00), 'Select Detail' (Choose), 'Live RTI URL' (https://test-transaction-engine.tax.service.gov), and 'Minimum Calculated Price' (1000.00).

If Payrolling Benefits, but not using the Car Administration Centre, the vehicle BIK record must be recorded in Payroll. Records can be either:

- Loaded, using the Full [Load Employee BIK Details](#) file.
- Input manually.

2.3.1. Manually Record Vehicle BIK Records

1. Go to *CorePay > Employee > Employee BIK Details > Maintain Employee BIK Details*.
2. Click the **Query** icon.
3. Click the **Add** icon to create a new record.
4. Enter or select an **Employee Reference**.
5. Enter or select a BIK **Pay Code**.

Note :

- If the BIK record is a vehicle BIK, ensure the Pay Code is assigned as a [Car BIK Pay Code](#) in the *Payment Pay Code* screen.
- If the Pay Code entered is a Car BIK Pay Code, the *Car Reg Number* field and the *BIK Car Details* button display.

Maintain Employee BIK Details

Employee Reference: 2513054 Name: Ebony Lee
Address: 48 Mill Road
London

BIK Details

Pay Code: 3500 Benefit In Kind - BENEFIT IN KIND
Std. Value: 100.00 Reference: 3500
Start Date: 06-APR-2020 End Date: 05-APR-2021
Start Period: 1 End Period: 53
Cost Centre:
Expense:
Project:
ER Annual Eligibility for Tax Relief: .00

Text... Car Reg Number: 201KK1236 **BIK Car Details**

6. Populate the following fields:

Field	Description
Std. Value	Enter the period cash equivalent value of the Vehicle.
Start Period	Enter the start period of the benefit.
End Period	Enter the end period of the benefit.
Start Period	The benefit start period defaults to 1.
End Period	The benefit end period defaults to 53.
Cost Centre	Enter a cost centre to override the pay code/contract cost centre.
Expense	Enter an expense code to override the pay code/matrix expense code.
Project	Enter a project code to override the pay code/contract project code.
Car Reg Number	Enter the car registration number.

7. Click **Car BIK Details**.

The screenshot shows a software window titled "Maintain Employee BIK Details". Inside, there is a section titled "Car Allowance BIK Details" which contains two columns of input fields. The fields are as follows:

Field	Value	Field	Value
Reg Number	201KK2000	Date First Registered	10-DEC-2019
Car Model	FORD MONDEO	Available From	11-APR-2020
Approved CO2 Emissions	50	Available To	31-DEC-2020
Electric Vehicle Range (miles)	130	Date Free Fuel Provided	11-DEC-2020
Fuel Type	Electric	Cash Equivalent of Fuel	655.00
Cash Equiv of Car	25000.50	Date Free Fuel Withdrawn	31-DEC-2020
Car List Price	33000.65	Calculated Price	33000.65
Accessories Price	0.00	Vehicle Type	VAN
Employee Capital Contribution	0.00	Vehicle Type Code	V
		Company Vehicle	☒

8. Populate the following fields:

Field	Description
Car Model	Enter the Car Model.
Approved CO2 Emissions	Enter the Approved CO2 Emissions figure.
Electric Vehicle Range (miles)	If the Approved CO2 Emissions figure entered is between 1 and 50 inclusive, enter an Electric Vehicle Range (miles).
Fuel Type	Select a Fuel Type from the drop-down list:

Field	Description
	• Diesel • All Other • Hybrid • Electric • Diesel meeting Euro Standard
Date First Registered	Enter a Date First Registered, this is now a mandatory field for RTI returns.
Available From	Enter the date from which the Vehicle was made available. If this date is before the start of the tax year, it defaults to the beginning of the tax year on the FPS.
Available To	Enter the date to which the Vehicle will be available. If this date is after the end of the tax year, it defaults to the end of the tax year on the FPS.
Date Free Fuel Provided	Enter the date from which free fuel was provided.
Cash Equivalent of Fuel	Enter the cash equivalent of fuel provided, see section 6.4. Vehicle Cash Equivalent and Fuel Cash Equivalent Values.
Cash Equivalent of Car	Enter the cash equivalent of the vehicle, see section 6.4. Vehicle Cash Equivalent and Fuel Cash Equivalent Values.
Date Free Fuel Withdrawn	Enter the date the free fuel was withdrawn.
Car List Price	The price provided must be the list price or notional price of the Vehicle on the day before the date that it is first licensed and registered. The list price is the individual retail price published by the manufacturer, importer, or distributor for the Vehicle if sold in the UK.
Accessories Price	Any non-standard options fitted by the dealer/retailer that are not included in the list price.
Employee Capital Contribution	Enter the value of any employee contribution to the cost of the Vehicle.
Calculated Price	The calculated price populates automatically.
Vehicle Type	Select a Vehicle Type from the drop-down list.
Vehicle Code	The vehicle code populates automatically.

Field	Description
Company Vehicle	Select the checkbox if this is a company vehicle.

9. Click **Save**.

3. Payrolling Benefits (BIK) Configuration

The following configuration is required if you intend to Payroll Benefits.

3.1. Configure Payrolling Benefits – Portal

3.1.1. Configure RTI Parameters

Note:

- By default, PeopleXD assumes vehicle details are **NOT** being returned via Payroll RTI.
- If intending to Payroll Benefits (including vehicle BIK), then you must register your intention with HMRC **before** the start of the new tax year.

To Payroll Vehicle Benefits, you must enable the *Return Car Details From Payroll* indicator. To do this:

1. On the **Payroll Dashboard** click the **Settings** tab.
2. In the *UK Tax Rates* section click **General**.
3. At the bottom of the screen click **RTI**.

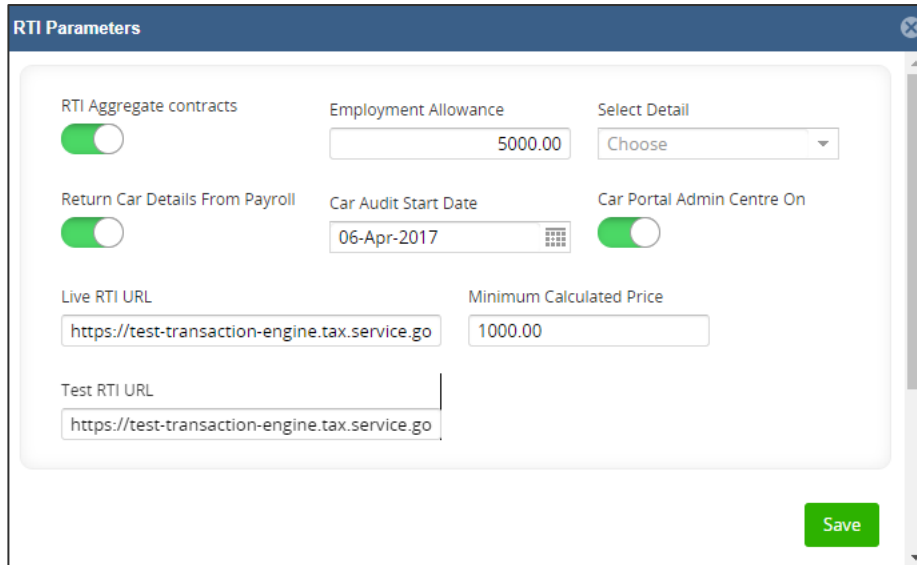

Redundancy

Max Redundancy Rate: 475 Max Redundancy Weeks: 20 Max Redundancy Years:

Average Pay/Pay Days Redundancy Statutory Recovery Auto Enrolment **RTI** Other

Save

4. Enable the **Return Car Details from Payroll** toggle, if you want to return the vehicle BIK details via Payroll.

The screenshot shows a window titled "RTI Parameters" with a close button in the top right corner. The window contains several configuration fields:

- RTI Aggregate contracts:** A toggle switch that is currently turned on (green).
- Employment Allowance:** A text input field containing the value "5000.00".
- Select Detail:** A dropdown menu with "Choose" selected.
- Return Car Details From Payroll:** A toggle switch that is currently turned on (green).
- Car Audit Start Date:** A date picker field showing "06-Apr-2017".
- Car Portal Admin Centre On:** A toggle switch that is currently turned on (green).
- Live RTI URL:** A text input field containing "https://test-transaction-engine.tax.service.go".
- Minimum Calculated Price:** A text input field containing "1000.00".
- Test RTI URL:** A text input field containing "https://test-transaction-engine.tax.service.go".

A green "Save" button is located at the bottom right of the window.

5. Enter a **Car Audit Start Date**. This is the date from which the system starts auditing changes made to the vehicle BIK details in the Car Administration Centre, for RTI purposes.
 - Any changes to company vehicles **before** this date are not reported to HMRC via the RTI FPS.
 - Any changes to company vehicles **on or after** this date are reported to HMRC via the RTI FPS.

Note:

This date should not be changed as part of your year end procedure.

6. Enable the **Car Portal Admin Centre On** toggle to report company vehicle changes made in the Car Administration Centre on the RTI.

Note:

If the *Car Portal Admin Centre On* indicator is enabled, then set up vehicles in the Car Administration Centre, and load into Payroll using the short version of the Load Employee BIK Details File. See section [7. Load Employee BIK Details](#).

3.1.2. Set up a BIK Pay Code

It is best practise to copy an existing BIK Pay Code to minimise the amount of changes needed to the pay code.

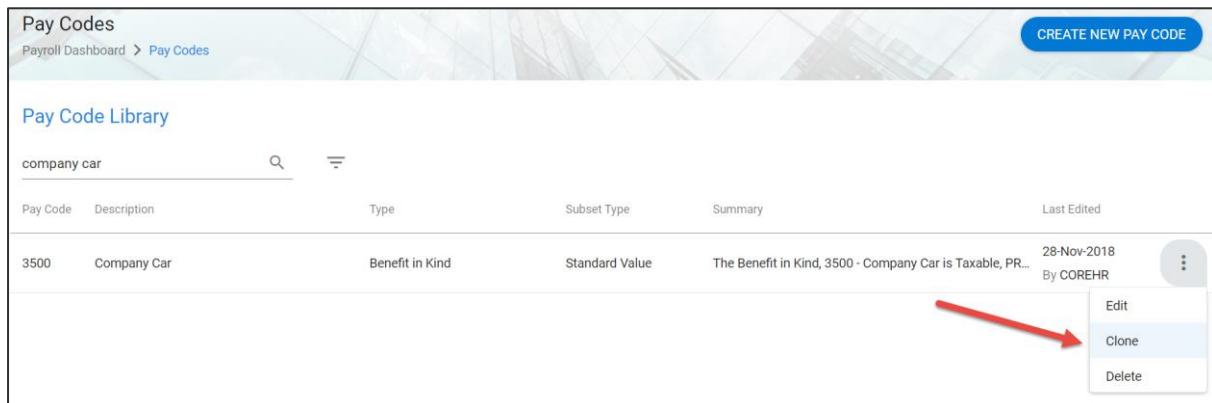

Note:

If no BIK Pay Code exists you will need to create a new Pay Code. Further guidance on creating pay codes can be found in the [Pay Code Wizard User Guide](#).

To copy a Pay Code:

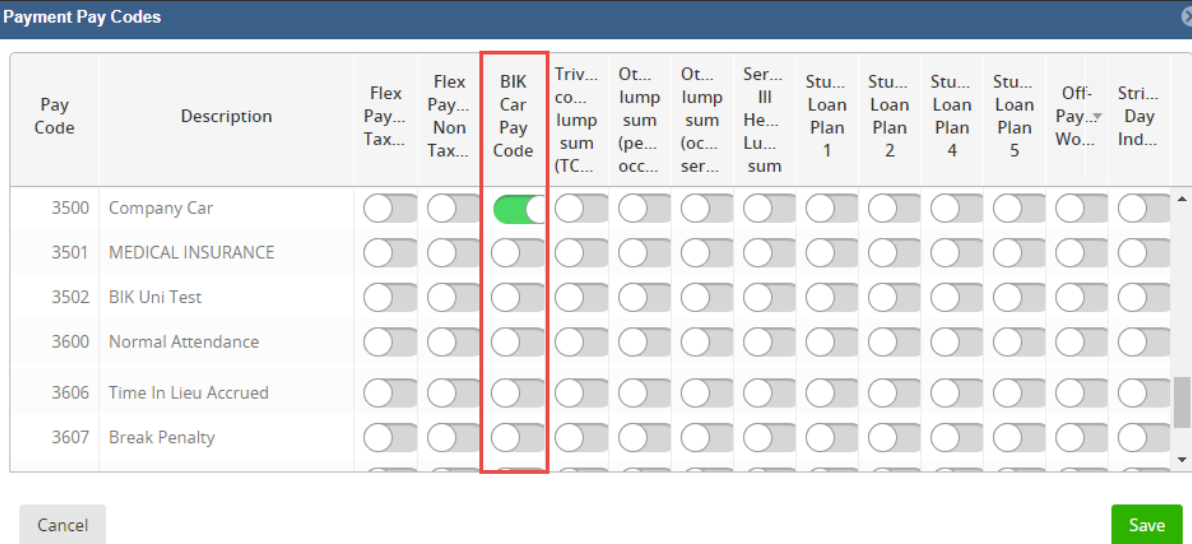

1. On the **Payroll Dashboard** click the **Settings** tab.
2. In the *Codes* section click **Pay Codes**.
3. Search for the pay code you want to copy and expand its **3-dot menu**.
4. Click **Clone**.

5. Enter a **New Pay Code** number and **Description**.
6. Click **OK**.
7. Click **Step 2 - Rules** and review the rules. Example BIK rules are:
 - a) Taxable = Taxable
 - b) Hours/Value/Days/Units = Value
 - c) Pay Code Type = BIK
 - d) NIable = NIable
 - e) Multiplier = 1
 - f) Pensionable EE = Disable
 - g) Pensionable ER = Disable
 - h) Assign to an Analysis Code of BIK.
8. **Save** the Pay Code.

3.1.3. Select the Vehicle BIK Pay Codes to be used:

1. On the **Payroll Dashboard** click the **Settings** tab.
2. In the *UK Tax Rates* section click **General**.
3. At the bottom of the screen click **RTI**.
4. Select **Payment Pay Codes** from the *Select Detail* drop-down menu.
5. Enable the **BIK Car Pay Code** toggle for the relevant pay codes.

Cancel Save

6. Click **Save**.

3.1.4. Date First Registered

For those payroll BIK car benefits, you need to report the Date First Registered through the RTI FPS file. This is mandatory as it affects the BIK percentage rate used when calculating the cash equivalent value of the vehicle.

To make Date First Registered a mandatory field:

1. Go to the **Administrator Dashboard** and click the **Site Manager** tab.
2. On the **Site Manager Widget** open the **Admin Settings** option.
3. Search for *cp_validate_veh*.
4. Click **Edit**.
5. Update the *Current Value* to **Y**.
6. Click **OK**.

3.2. Configure Payrolling Benefits – Back Office

3.2.1. Configure RTI Parameters

Note:

- By default, PeopleXD assumes vehicle details are **NOT** being returned via Payroll RTI.
- If intending to Payroll Benefits (including vehicle BIK), then you must register your intention with HMRC **before** the start of the new tax year.

To Payroll Vehicle Benefits, you must enable the *Return Car Details From Payroll* indicator. To do this:

1. Go to *Reference > Maintain Statutory Pay Parameters*
2. Click **RTI**.

The screenshot shows the 'Maintain Statutory Pay Parameters' form. The 'RTI' tab is selected and highlighted with a red box. Other tabs include 'Average Pay / Pay Days', 'Redundancy', 'Statutory Recovery', 'Auto Enrolment', and 'Other'. The 'RTI' tab contains fields for 'SPBP Pay Code' (2513), 'SPBP Recovery Percentage' (92.00), and 'Redundancy' (Max Redundancy Rate: 475.00, Max Redundancy Weeks: 20, Max Redundancy Years: 20).

3. Select **Return Car Details from Payroll** if you want to return the vehicle BIK details via Payroll.

The screenshot shows the 'RTI Parameters' dialog box. The 'Return Car Details From Payroll' checkbox is checked and highlighted with a red box. Other options include 'RTI Normal Hours Worked', 'RTI Irregular Payments', 'UK Country Identifier', 'Exclude Pay Groups', 'Late Reason Codes', 'Company Allowance', and 'Payment Pay Codes'. The 'Car Audit Start Date' is set to 06-APR-2017. The 'Live URL' and 'Test URL' are both set to https://test-transaction-engine.tax.service.gov.uk/submission.

4. Enter a **Car Audit Start Date**. This is the date from which the system starts auditing changes made to company vehicles in the Car Administration Centre for RTI purposes.
 - Any changes to company vehicles **before** this date are not reported to HMRC via the RTI FPS.

- Any changes to company vehicles **on or after** this date are reported to HMRC via the RTI FPS.

**Note:**

This date should not be changed as part of your year end procedure.

- Select **Car Portal Admin Centre On** to report company vehicle changes made in the Car Administration Centre on the RTI.

**Note:**

If the *Car Portal Admin Centre On* indicator is enabled, then set up vehicles in the Car Administration Centre, and load into Payroll using the short version of the Load Employee BIK Details File. See section [7. Load Employee BIK Details](#).

3.2.2. Set up a BIK Pay Code

It is best practise to copy an existing BIK Pay Code to minimise the amount of changes needed to the pay code. If no BIK Pay Code exists you can also copy an allowance Pay Code.

To copy a Pay Code:

- Go to *Reference > Pay Codes*.

- Enter or select the **Pay Code** you want to copy and click the **Query** icon.
- Click the **Add** icon to create a new record.
- Click the **Duplicate** icon.
- Enter a new **Pay Code** number and **Description**. Example of BIK rules:

- a) Taxable = Taxable
 - b) Hours/Value/Days/Units = Value
 - c) Pay Code Type = BIK
 - d) Nlable = Nlable
 - e) Multiplier = 1
 - f) Pensionable EE = Disable
 - g) Pensionable ER = Disable
 - h) Assign to an Analysis Code of BIK.
- Click **Save**.

3.2.3. Select the Vehicle BIK Pay Codes to be used:

To select the Vehicle BIK Pay Codes to be used:

- Go to *Reference > Maintain Statutory Pay Parameters*
- Click **RTI**.
- Select **Payment Pay Codes** from the *Select Detail* drop-down menu.
- Select **BIK Car Pay Code** for the relevant pay codes.

Pay Code	Description	Flex Payment Taxable	Flex Payment NonTaxable	BIK Vehicle Pay Code	Trivial Comm Lump Sum	Other Lump Sum Occ	Other Lump Sum NonOcc	Serious Ill Health Lump Sum	Student Loan Plan 1	Student Loan Plan 2	Off-Payroll Worker

3603	Missed Clocking	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
3604	Late	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
3605	Early Out	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
3606	Time In Lieu Accrued	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
3607	Break Penalty	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐

- Click **Save**.

3.3. Configure Payrolling Benefits per Vehicle – Portal

Note:

When using the Car Administration Centre, you have the option not to return a Company Car on the Full Payment Submission (FPS).

To configure whether to return a car on RTI:

- Navigate to the **Car Administration Centre** widget.
- Search for the vehicle and expand its **3-dot menu**.
- Click **Additional Details**.

4. Review the **Return Record on RTI** toggle:
 - a. Turn on to return the record on RTI.
 - b. Turn off to ensure the car record does not get returned on RTI.

4. Car Administration Centre

4.1. About the Car Administration Centre

The Car Administration Centre is part of the Expense solution for managing vehicles and should be used as a single source of information for Employee vehicle details.

Use the Car Administration Centre for the following:

- Keeping a record of Employees' private vehicles for managing Expenses.
- Keeping a record of Employees' company vehicles for Payrolling Benefits, see section [3.3. Configure Payrolling Benefits per Vehicle](#).
- Keeping a record of Employees' company vehicles to make returns via a P11D.

Note:

You may need to be set up with [access to the Car Administration Centre](#).

4.2. Use the Car Administration Centre

Administrators can manage both private and company vehicles in the Car Administration Centre.

4.2.1. Add a New Vehicle

Note:

When setting up a new vehicle or updating an existing vehicle, it is now possible for an:

- Administrator to select a *P11D Fuel Type* of *Zero Emissions Cars (incl. electric cars)*.
- Administrator or an employee to select a *Mileage Fuel Type* of *Electric*.

To add a new vehicle for a claimant:

1. Navigate to the **Car Administration Centre** widget.

Odometer	
Reading	Enter the odometer reading.
Expiry	Enter the odometer expiry date.

- Click **Save**.

Note:

If Payrolling Benefits, vehicles set up in the Car Administration Centre must then be loaded into Payroll using the shortened [Load Employee BIK Details](#) file.

4.2.2. Edit Vehicle Details

To edit an existing vehicle:

- Navigate to the **Car Administration Centre** widget.
- Search for the vehicle and expand its **3-dot menu**.
- Click **Additional Details**.

Additional Details
Administrator Dashboard > Additional Details

Vehicle Details

Reg No *
151-KK-8574

SAVE

- Update the details then click **Save**.

4.2.3. Delete a Vehicle

To delete a vehicle from the Car Administration Centre:

1. Navigate to the **Car Administration Centre** widget.
2. Search for the vehicle and expand its **3-dot menu**.
3. Click **Delete**.

4.2.4. P46/P11D Details

For company vehicles, populate the P46/P11D section. This section is used for calculating the vehicles cash equivalent value and the fuel cash equivalent value for tax purposes.

To populate the P46/P11D section:

1. Navigate to the **Car Administration Centre** widget.
2. Search for the vehicle and expand its **3-dot menu**.
3. Click **P46/P11D**.

The screenshot shows the 'P46/P11D Details' form. At the top, there's a breadcrumb trail: 'Administrator Dashboard > P46/P11D Details'. Below this is a section titled 'Vehicle Details' with four input fields: 'Claimant Name *' (filled with 'Phillip Cross'), 'Reg No' (filled with '151-KK-8574'), 'Vehicle Make/Model' (filled with 'Totyota'), and 'P11D Fuel Type' (a dropdown menu). Below these fields are four tabs: 'Availability', 'CO2 Emissions', 'Vehicle Costs', and 'Free Fuel'. The 'Availability' tab is currently selected and highlighted with a blue underline. Below the tabs is a section titled 'Availability' with four input fields: 'First Available' (with a calendar icon), 'Available From' (with a calendar icon), 'Available To' (with a calendar icon), and 'Days Vehicle Unavailable' (with a dropdown arrow). A green 'SAVE' button is located at the bottom right of the form.

4. Click each of the four tabs and fill in the details:
 - a) Availability
 - b) CO2 Emissions
 - c) Vehicle Costs
 - d) Free Fuel
5. Click **Save**.

The fields on each tab are:

Availability tab:

Availability	CO2 Emissions	Vehicle Costs	Free Fuel
Availability			
First Available	Available From	Available To	Days Vehicle Unavailable

Field	Description
First Available	Enter the date the Vehicle was first made available in the format DD-MMM-YYYY.
Available From	Enter the date from which the Vehicle was made available. If this date is before the start of the tax year, it defaults to the beginning of the tax year on the FPS in the format DD-MMM-YYYY.
Available To	Enter the date to which the Vehicle will be available. If this date is after the end of the tax year, it defaults to the end of the tax year on the FPS in the format DD-MMM-YYYY.
Days Vehicle Unavailable	Enter the total number of days the Vehicle was unavailable to the Employee.

CO2 Emissions tab:

Vehicle Details			
Claimant Name *	Reg No	Vehicle Make/Model	P11D Fuel Type
Phillip Cross	09D2217	Ford Focus	Zero emission cars (incl electric cars)
Availability	CO2 Emissions	Vehicle Costs	Free Fuel
CO2 Emissions			
Approved CO2 Emissions	Electric Vehicle Range *	"No CO2 Figure" Reason	

Field	Description
P11D Fuel Type	Select a P11D Fuel Type: - All other cars - Diesel Cars (non RDE2 Standard only) - Zero-emission cars (incl. electric vehicles)
Approved CO2 Emissions	Fill in the Approved CO2 Emissions of the Vehicle.

Field	Description
Electric Vehicles Range	Enter the Electric Vehicle Range of the Vehicle. This field only becomes available when: - The P11D Fuel Type is set to Zero Emissions Vehicle (incl. electric cars). - The Approved CO2 Emissions figure is between 1 and 50 inclusive.
No CO2 Figure Reason	If no Approved CO2 Emissions figure is available, select a reason from the drop-down list: - No CO2 Figure Reason. - Reg. Before 1998.

Vehicle Costs tab:

Availability	CO2 Emissions	Vehicle Costs	Free Fuel
Vehicle Costs			
List Price	Calculated Price		
Price of Accessories	Employee Payments for Private Use		
Employee Capital Contributions	Cash Equivalent of Vehicle	Cash Equivalent Override	

Field	Description
List Price	The price provided must be the list price or notional price of the Vehicle on the day before the date that it is first licensed and registered. The list price is the individual retail price published by the manufacturer, importer, or distributor for the Vehicle if sold in the UK.
Price of Accessories	Any non-standard options fitted by the dealer/retailer that are not included in the list price.
Employee Payments for Private Use	Any payments repaid to the employer for the private use of the Car.

Field	Description
Employee Capital Contributions	Any employee payments towards the cost of the Vehicle.
Cash Equivalent of Vehicle	The cash equivalent of vehicle auto-populates.
Cash Equivalent Override	Override the cash equivalent value of required. See section, 6.4. Vehicle Cash Equivalent and Fuel Equivalent Values.

Free Fuel tab:

Availability	CO2 Emissions	Vehicle Costs	Free Fuel
Free Fuel Is fuel provided for private use? ☒ If yes, must employee pay for private fuel? ☒ Was Free Fuel Reinstated in the year? ☒ Cash Equivalent of Fuel for Vehicle Fuel Cash Equivalent Value Override			

Field	Description
Is Fuel Provided for Private Use?	If enabled, an annual fuel cash equivalent value is reported via the RTI, as per HMRC instructions.
If yes, must Employee pay for Private Fuel?	If enabled, an annual fuel cash equivalent value of £0 is reported via the RTI, as per HMRC instructions.
Was Free Fuel Reinstated in the year?	Use in conjunction with the next two fields.
Date Free Fuel Provided	Enter a date free fuel was provided.
Date Free Fuel Withdrawn	Enter a date free fuel was withdrawn.
Cash Equivalent of Fuel for Vehicle	This field auto-populates the annual fuel cash equivalent value to be reported via RTI.
Fuel Cash Equivalent Value Override	Use to override the annual fuel cash equivalent value to be reported via RTI. See section, 6.4. Vehicle Cash Equivalent and Fuel Equivalent Values.

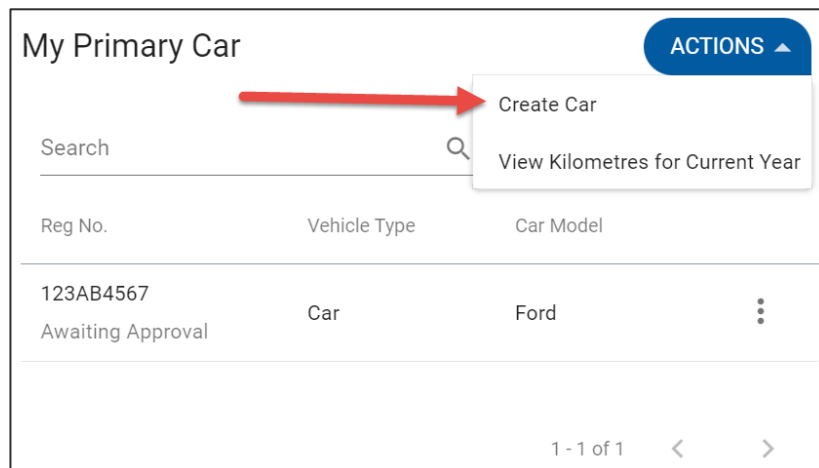

4.3. ESS My Primary Car Widget

Employees can add private vehicles to the Car Administration Centre via the ESS *My Primary Car* Widget for the purpose of business travel. From here they:

- Cannot set up company vehicles.
- Cannot record figures for Approved CO2 Emissions or Electric Vehicle Range.
- Can select a Mileage Fuel Type of Electric.
- Select a van for the purpose of business travel.

To add a car using the widget:

1. Navigate to the **My Primary Car** widget on the **Employee Dashboard**.
2. Expand the **Actions** menu and click **Create Car**.

3. Fill in the details, these are the same as when using the [car administration area](#).

The screenshot shows the 'Create Car' form. The title is 'Create Car' with a breadcrumb 'Employee Dashboard > Create Car'. Below the title is the section 'Vehicle Details'. The form has several fields: 'Reg No *', 'Vehicle Model *', 'Date First Registered *' (with a calendar icon), 'Engine CC *' (with a dropdown arrow), 'Approver *' (with a dropdown arrow), 'Vehicle Type *' (with a dropdown arrow), and 'Mileage Fuel Type' (with a dropdown arrow). At the bottom right is a green 'SAVE' button. The 'access PeopleXD' logo is visible at the bottom center.

4. Select an **Approver**.
5. Select the checkbox to confirm the details entered are correct.

Click [here](#) to read and review the terms and conditions for vehicles.

☐

I confirm that the details entered concerning the above vehicle are correct

6. Click **Save**.

5. Vehicle Administration – Back Office

Note:

The recommended process for creating and maintaining vehicles is to use the Car Administration Centre widget within Portal.

5.1. Adding a Vehicle

To add a vehicle via the Claimant Car Approval screen:

1. Go to *CoreExpense > Reference > Reference C-C > Car*.
2. Click the **Query** icon.

The screenshot shows the 'Claimant Car Approval' window. It contains a table with the following columns: Claimant, Car Registration, Model, Vehicle Type, Vehicle Type Code, Mileage, Fuel Type, Engine CC, Insurance Expiry Date, Status, and Company Vehicle. The first row is populated with: 7211000019, Darren Brennan, CS15 NET, FORD, VAN, V, Diesel, 3000, 31-DEC-2020, Approved, and a checked checkbox. Below the table are two buttons: 'View Additional Car Details' and 'View Car Audit'.

3. Fill in the following details.

Field	Description
Claimant Number	Enter or select a Claimant Number.
Car Registration	Enter the vehicle registration number.
Model	Enter the vehicle model.
Vehicle Type	Select a vehicle type from the drop-down list. If required add a new vehicle type .

Field	Description
Mileage Fuel Type	Select a mileage fuel type from the drop-down menu: • Diesel • Diesel Cars meeting EURO Standard • Electric • Hybrid • LPG • Petrol
Engine CC	Enter the Engine CC.
Insurance Expiry Date	Enter the insurance expiry date in the format DD-MMM-YYYY.
Status	Select a 'Status' from the drop-down list: • Submitted • Approved • Rejected
Company Vehicle	Select the checkbox if this is a company vehicle.

4. Click **Save**.

5.2. Adding a New Vehicle Type

The following configuration steps are required to add new vehicle types, e.g. Van or Electric.

To add a new vehicle type:

1. Go to *Reference > Reference S-Z > Vehicle Types*.
2. Click the **Query** icon.
3. Fill in the following details on a new row:

Field	Description
Vehicle Types Code	Enter a numerical code.
Description	Enter a unique description.
Vehicle Type	Select a vehicle type from the drop-down list.
Display in ESS	Enable the checkbox to allow employees to set up this vehicle type using the My Primary Car widget.

Field	Description
Display in Admin	Select the checkbox to allow administrators to set up this vehicle type within the Car Administration Centre.

4. Click **Save**.

Note:

Vehicle Type and *Vehicle Type Code* have been added to the Car Claimant View in Insight.

6. Year End Administration

6.1. BIK Rates – Payrolling Car Benefits

The CO2 rates are installed each year as part of the [year end release](#).

Note the following:

- This is only relevant to customers who are Payrolling Car Benefits
- If intending to Payroll Benefits (including Car BIK), you must register your intention to do so with HMRC before the start of the new tax year.
- BIK rates are held on the database and cannot be viewed or updated through any screen.
- The system will use these rates to calculate the 'company vehicle' cash equivalent value.
- The Year End Rollover procedure recalculates the Vehicle Cash Equivalent and Fuel Cash Equivalent values for the new tax year.
- After the Year End Software Delivery, any vehicles which are not assigned a Vehicle Type, default to Car for the purposes of calculating Cash Equivalent Values.
- The Class 1A NIC rate is automatically set as part of the Year End Release but can be amended.

6.2. Cash Equivalent Rates – Configuration Required

Note:

- The Car Fuel Benefit Charge should be updated **after** the current tax year has been completed and the P11D's have been generated.
- The Car Fuel Benefit Charge is held as a parameter in Portal.

To update the Car Fuel Benefit Charge each year:

1. Navigate to the **Administrator Dashboard**.
2. On the *Site Manager* widget open the **Admin Settings** option.
3. Search for parameter code - *cp_p11d_fuel_benefit*.
4. Click **Edit**.

Admin Settings
Administrator Dashboard > Admin Settings

Coreportal Parameters

cp_p11d_fuel_benefit

Parameter Description	Parameter Code	Product Name	Current Value
A sum used to calculate the P11D fuel benefit charge	cp_p11d_fuel_benefit		24500

EDIT

5. Update the Current Value.
6. Click **OK**.
7. A confirmation message displays - *Parameter has been successfully updated.*

6.3. Van Benefit Charge and Van Fuel Benefit Charge Parameters – Configuration Required

Note:

- The Van Benefit Charge and Van Fuel Benefit Charge should be updated **after** the current tax year has been completed and the P11D's have been generated.
- The Van Benefit Charge and Van Fuel Benefit Charge are held as a parameter in **Portal**.

To update any of the parameters:

1. Navigate to the **Administrator Dashboard**.
2. On the *Site Manager* widget open the **Admin Settings** option.
3. Search for the parameter '*cp_van_cash_benefit*'.
4. Click **Edit**.

Admin Settings
Administrator Dashboard > Admin Settings

Coreportal Parameters

cp_van

Search Whole Phrase

Parameter Description	Parameter Code	Product Name	Current Value
A sum used to calculate the P11D van Cash benefit charge	cp_van_cash_benefit		3490
A sum used to calculate the P11D van fuel benefit charge	cp_van_fuel_benefit		666

EDIT

EDIT

5. Update the **Current Value** and click **OK**.
6. Search for the parameter '*cp_van_fuel_benefit*'.
7. Update the **Current Value** click **OK**.
8. A confirmation message displays - *Parameter has been successfully updated.*

6.4. Vehicle Cash Equivalent and Fuel Cash Equivalent Values

Vehicle Cash Equivalent and Vehicle Fuel Cash Equivalent values can be reviewed in the Car Administration Area, for further details see the [P46/P11D Details](#) section.

Certain scenarios mean you may need to amend or override this value.

6.4.1. Optional Remuneration Arrangements (OpRA)

These rules apply to employees offered either a specific cash allowance or company car, and employees who receive a company car as a salary sacrifice.

Note the following:

- It also applies to sacrifice salary arrangements to receive a fuel/mileage allowance free of income tax.
- The rules exclude sacrifice salary arrangements for an ultra-low emission vehicle.

The taxable benefit is determined to be the greater of the cash sum sacrificed and the level of benefit in kind arising on the company vehicle.

6.4.2. Car Benefit Charge

The Car Benefit Charge is based on the yearly BIK rates, this value may vary where:

- The Car was unavailable for at least 30 consecutive days.
- You were providing fuel for private use but stopped doing this.

6.4.3. Car Fuel Benefit Charge

An annual Car Fuel Benefit Charge is based on a multiplier and is reported via the RTI, as per HMRC instructions. The Car Fuel Benefit Charge is calculated by taking the appropriate percentage and multiplying by the fixed figure. The Car Fuel Cash Equivalent value can be reduced if:

- The Employee cannot use the Car for 30 days in a row.
- The Employee pays you back for all their private fuel.
- You stopped providing fuel during the tax year.

6.4.4. Van Benefit Charge

An annual Van Benefit Charge is reported via the RTI, as per HMRC instructions. The Van Cash Equivalent can be reduced if:

- The Employee cannot use the van for 30 days in a row.
- The Employee pays you to use the van privately.
- Other Employees use the van – divide by the number of employees.

6.4.5. Van Benefit Charge – Zero Emissions

Since April 2021, there are no Van Benefit Charge for vans that produce zero carbon emissions.

6.4.6. Van Fuel Benefit Charge

The Van Fuel Benefit Charge can be reduced if:

- The Employee cannot use the van for 30 days in a row.
- The Employee pays you back for all their private fuel.
- You stopped providing fuel during the tax year.

7. Processing Payrolled Benefits

Note:

If intending to *Payroll Benefits* (including Car BIK), then you must register your intention to do so with HMRC **before** the start of the new tax year.

7.1. Load Employee BIK Details

Employee BIK Details can be loaded in bulk using a CSV file. You can upload:

- Non-vehicle benefits.
- Vehicle benefits where vehicles exist in the car admin centre.
- Vehicle benefits where the car admin centre is not being used.

For further information see the [Load Employee BIK Portal](#) or [Load Employee BIK Back Office](#) User Guides.

7.2. Processing Payrolled Benefits

Benefits in Kind calculate during the payroll validation task, and the results of the calculation can be viewed in the View Gross to Nett Screen.

Portal:

1. On the **Payroll Dashboard** click the **Manage Payroll** tab
2. Select a **Pay Group**.
3. Click the **Payroll Checking** tab.
4. Click **View Gross to Nett**.
5. Search for the employee and expand the 3-dot menu.

7.3. Real Time Information (RTI)

7.3.1. Full Payment Submission (FPS)

If the benefit in kind is configured as taxable, it is included in the taxable pay this employment field.

Data item	Description	Comments	FPS	EPS	EYU 19-20	Inclusion on a submission-by-submission basis
41A	Taxable pay to date in this employment including payrolled benefits in kind	Enter your employee's 'Total taxable pay to date' within the tax year, including this payment. Do not include taxable pay from any previous employment. Enter the cumulative amount in your employment since last 5th April for the following: - All pay, including wages, salaries, fees, overtime, bonuses and commission - Pension income from registered pension schemes - Employer-financed retirement benefits schemes - All Statutory Payments - Payrolled benefits in kind - Certain benefits – You can find guidance on this in HMRC's booklet CWG2 Employer Further Guide to PAYE/NICs Minus any authorised deductions under the 'net pay arrangements' for superannuation contributions, or payroll giving schemes.	Y			On every employment record (YTD)

If the benefit in kind is configured as taxable, it is included in the taxable pay this period field.

Data item	Description	Comments	FPS	EPS	EYU 18 19	Inclusion on a submission by submission basis
58	Taxable pay in this pay period including payrolled benefits in kind	Enter your employee's 'taxable pay in this pay period' in this employment including - All pay, including wages, salaries, fees, overtime, bonuses and commission - Pension income from registered pension schemes - Employer-financed retirement benefits schemes - All Statutory Payments - Payrolled benefits in kind - Certain benefits – You can find guidance on this in HMRC's booklet CWG2 Employer Further Guide to PAYE/NICs Minus any authorised deductions under the 'net pay arrangements' for superannuation contributions, or payroll giving schemes.	Y			On every employment record

If the benefit in kind is configured as taxable, it is included in the value of benefits taxed via Payroll this period field.

Data item	Description	Comments	FPS	EPS	EYU 19-20	Inclusion on a submission-by-submission basis
60	Value of benefits taxed via the payroll in pay period	Enter the value of benefits in kind on which PAYE has been operated, via the payroll in this pay period. Benefits can only be taxed in this way with the prior agreement of HMRC. P11D's are not required where benefits have been payrolled and this has been registered using the PBIK Service Completion of this box does not negate the need for completion of a form P11D(b) at the end of the tax year.	Y			If applicable for this payment

If the benefit in kind is configured as taxable, it is included in the value of benefits taxed via payroll year to date field.

Data item	Description	Comments	FPS	EPS	EYU 19-20	Inclusion on a submission-by-submission basis
149	Value of benefits taxed via payroll year to date	Enter the value of benefits in kind on which PAYE has been operated, via the payroll, to date in this employment within the tax year.	Y			Once an amount sent, it must be supplied for the remainder of the tax year (YTD)

7.3.2. Earlier Year Update (EYU)

If a prior year correction is made to a benefit, it is reported in value of benefits taxed via Payroll as part of the EYU submission for that year.

Data item	Description	Comments	FPS	EPS	EYU 19-20	Inclusion on a submission-by-submission basis
165	Value of benefits taxed via payroll	Enter the difference between the last reported figure and what the figure should be, if you have previously amended this figure it is the difference between the amended total and what the figures should be. For an example, see 'Taxable pay' at 120.			Y	If applicable for this payment

7.3.3. Car BIK Returns

Car benefits also have the following additional reporting requirements. These fields are all available on the RTI FPS CSV file and can be reported through the BI/Insight RTI History view.

Full Payment Submissions (FPS)

Data item	Description	Comments	FPS	EPS	EYU 19-20	Inclusion on a submission-by-submission basis
175	Make and model of car	Make and model of car you are payrolling	Y			On the first FPS submitted each tax year and on the FPS following a change.
176	CO2 emissions	Approved CO2 emissions figure of car you are payrolling	Y			On the first FPS submitted each tax year and on the FPS following a change.
177	Fuel type	Fuel type of car you are payrolling	Y			On the first FPS submitted each tax year and on the FPS following a change.
178	Car identifier	A unique identifier for the car you are payrolling, car registration number is recommended	Y			On the first FPS submitted each tax year and on the FPS following a change.
179	Amendment indicator	To be used to indicate that the information you are reporting is an amendment to payrolled car data reported in an earlier FPS submission.	Y			On the first FPS submitted each tax year and on the FPS following a change.
180	Calculated price	List price added to price of any accessories, minus capital contribution paid by the employee	Y			On the first FPS submitted each tax year and on the FPS following a change.
181	Date car was available from	First date car was made available to employee within tax year	Y			On the first FPS submitted each tax year and on the FPS following a change.
182	Cash equivalent of car	Value of car benefit to be payrolled during tax year	Y			On the first FPS submitted each tax year and on the FPS following a change.
183	Date car was available to	Last date payrolled car was available to employee within tax year	Y			On the first FPS submitted each tax year and on the FPS following a change.
184	Date free fuel provided	First date payrolled free fuel was made available to employee within tax year	Y			On the first FPS submitted each tax year and on the FPS following a change.
185	Cash equivalent of fuel	Value of fuel benefit to be payrolled during tax year	Y			On the first FPS submitted each tax year and on the FPS following a change.
186	Date free fuel withdrawn	Last date payrolled fuel was available to employee within tax year	Y			On the first FPS submitted each tax year and on the FPS following a change.
214	Date first registered	Date of Registration of the car you are payrolling	Y			On the first FPS submitted each tax year and on the FPS following a change.
211	Zero emissions mileage	The approved zero emissions mileage figure for the car you are payrolling. A figure is only required where the car has CO2 emissions falling in the range 1-50g/km.	Y			On the first FPS submitted each tax year and on the FPS following a change.

7.4. P11D Return

To compile P11D benefit details from Payroll, the P11D section of the benefit Pay Codes must be mapped to the relevant Expense Codes in Expense. For further information, see the [P11D Configuration and User Guide](#).

Only benefits that are not payrolled are required to be returned on the electronic P11D. However, the P11D(b) XML section, shows the total benefit value, which is the sum of both payrolled and non-payrolled benefits, reporting the total Class1A NIC due. There is no change to the process for P11D/P11D(b) file generation.

8. User Access Required

8.1. Menu Options Required

To access the benefit management screens and functionality, users require access to the following menu options:

Menu Option	System
SETTINGS_MENU.GENERAL	CorePortal Pay
MAIN_MENU.CAR_ADMIN_CENTRE	CorePortal
MAIN_MENU.CLAIMANT_CAR	CoreExpense
MAIN_MENU.CLAIMANT_CAR_APPROVAL	CoreExpense
EMPLOYEE_MENU.EMP_BIK	CorePay
EMP_BIK_MENU.PAY900BK	CorePay
EMP_BIK_MENU.PAY630BK	CorePay
EMPLOYEEEDASH_MENU.BIK	CorePortal Pay

To do this [add the menu option to an existing menu profile](#).

8.2. Access the Car Administration Centre

The Car Administration Centre is accessed via a widget on PeopleXD. To view the widget you will need to:

1. Add the Car Administration Centre widget to a dashboard tab. You will need [access to the Administration Dashboard](#) to complete this.
2. Assign users access to the car admin centre [menu option](#).
3. Assign users access to Expense groups.

8.2.1. Add the Car Administration Centre Widget to a Dashboard Tab

To add the widget to a dashboard tab:

1. Go to the **Administration Dashboard** and click the **Site Manager** tab.
2. On the *Site Manager* widget, open the **Dashboard Configuration** option.
3. Select **Administration Dashboard** from the *Select Dashboard* drop-down list.
4. Select the **Dashboard Tab** you want to add the widget to or create a new page tab.

Dashboard Configuration

Administrator Dashboard > Dashboard Configuration

ADD PAGE TAB

Select Dashboard*

Administrator Dashboard

CONFIGURE

6. Enter the **Position** you want the widget to be in on the tab.
7. Enable the **Selected** toggle.
 - The widget will now display on the selected dashboard tab.

8.2.2. Assign Expense Group Access - Portal

Administrators are only able to view/update/add vehicles for claimants in Expense Groups to which they have access.

To view/update a users access to an Expense Group in Portal:

1. Go to the **Security** Dashboard and click the **Set Up** tab.
2. On the *System Set Up* widget, open the **CoreExpense System Users** option.
3. Select the **Account Type**.
4. Click the **Filter** icon.

CoreExpense System Users
Security > CoreExpense System Users

Account Type

☒ Portal Account ☐ Back Office Account

System Users

ORACLE or PORTAL Username	Expense Group	Expense Group Name	Input Location	Input Location Name
 No data to display				

Cancel Add Save

5. Select the **ORACLE or PORTAL Username**.
6. Click **Filter**.
7. To add a new row:
 - a) Click **Add**.
 - b) Fill in the fields and click **Save**.

8.2.3. Assign Expense Group Access – Back Office

Administrators are only able to view/update/add vehicles for claimants in Expense Groups to which they have access.

To update a users access to an Expense Group in Back Office:

1. Go to *CoreExpense > Reference > Reference S-Z > System Users*.

Maintain System Users
