1. Overview

1.1. Purpose of this Guide

The purpose of this document is to provide guidance on how to generate and view *CSO EHECS Returns* in *Payroll*. This document also covers the changes introduced for Quarter 2, 2021, affecting enterprises who return more than one *CSO EHECS Return* using a 'dummy' enterprise ID.

Note:

- For details on the changes introduced from Quarter 2, 2021, see section [2. What's Changed?](#)
- To review the configuration steps required to prepare for these changes, see section [2.3. CSO Changes 2021 Q2 – Configuration Changes Required.](#)

1.2. Overview of this Document

This document covers the following areas:

- [What's Changed?](#)
 - [CSO Changes 2021 Q2 – Configuration Changes Required.](#)
- [Access the CSO Module](#)
- [Generate EHECS Returns](#)
- [CSO EHECS Returns – Setup Options](#)
- [View EHECS Return Details](#)

Note:

Maintaining reference data is not covered in this document. See the [CSO Returns Reference Setup](#) user guide.

1.3. Definitions

	Description
CSO	Central Statistics Office
EHECS	Earnings, Hours and Employment Costs Survey
CBR Number	Central Business Registration Number

1.4. What is a CSO EHECS Return?

The *CSO EHECS Return* is a survey that produces an index of labour costs per hour worked. The survey requires collecting wages & salaries, employers' social contributions, other non-wage costs, and hours worked.

All *E.U. member states* are obliged to compile Labour Cost indices. They provide vital information for future social and economic planning, such as wage agreements, etc.

Each quarter, employers receive a questionnaire relating to the number of people employed in their business during that quarter. Each employee is categorised into one of the following three occupational groups:

1. *Managers, Administrators, Professionals & Associate Professional* (Legislators and senior officials, corporate managers, managers of small enterprises, professionals, and associate professionals)
2. *Clerical, Sales & Service Workers* (Clerks, office workers, service & sales workers).
3. *Production, Transport Workers, Craft & Tradespersons and Other Manual Workers* (Plant & machine operators & assemblers, skilled craft & trade workers, and other manual occupations)

Employers need to provide the total labour costs, the total hours worked, and the total hours not worked (e.g., annual leave) for each employee category. Enterprises with small numbers employed are only required to send data for a set number of quarters.

2. What's Changed?

2.1. Central Business Register

Current System

- Some enterprises return more than one *CSO EHECS Return* to the CSO. This is primarily to facilitate a separate return for Executive staff or payrolls split across different payroll systems.
- Up to now, "dummy" enterprises were set up on the CSO system, with a different enterprise ID, and surveyed as if they were a separate enterprise.
- Enterprises are identified using a Company Business Registration (CBR) number. The CBR number is the unique permanent identifier assigned to each enterprise.

New System

Following *E.U.* best practice, the CSO has now implemented a new *Central Business Register (CBR)*.

The new CBR requires enterprises to make the following changes:

- From Quarter 2, 2021, the CBR can no longer facilitate "dummy" enterprise ID's. This means that all *CSO EHECS Returns* for an enterprise now need to use the same enterprise ID.
- To support this change, the CSO are introducing the ability to complete a second EHECS survey. This is referred to as a "Supplementary Survey" and will be returned using the same enterprise ID.
- If you are unsure if a *CSO EHECS Return* should be made as a 'Main' or 'Supplementary' survey, you should check with the CSO.

Note:

An enterprise can still return the executive payroll data separately. The new process involves returning one 'Main' *CSO EHECS Return* and one 'Supplementary' *CSO EHECS Return*. Both *CSO EHECS Returns* need to be under the same enterprise ID.

2.2. Main and Supplementary CSO EHECS Return

Enterprises can now generate the *CSO EHECS Return* in both Main and Supplementary mode. This allows enterprises to return a second *CSO EHECS Return* under the same *CBR number*.

There is no limit on how many *CSO EHECS Returns* the *CSO Module* allows you to generate. However, an enterprise can only return two *CSO EHECS Returns* to the CSO per quarter. Employers with multiple *Payroll Companies* operating under the one *Tax Registration Number* can continue to include these in the same *CBR number*.

Changes made to the CSO EHECS Returns allow you to do the following:

- Generate the *CSO EHECS Return* in both Main and Supplementary mode.
- Produce *CSO EHECS Validation Reports* for employees returned in both the Main and Supplementary CSO EHECS Returns.
- Record *CSO EHECS Return* override values for both the Main and Supplementary CSO EHECS Returns.
- Produce a B.I./Insight report on figures returned for both the Main and Supplementary CSO EHECS Returns.

When uploading a *CSO EHECS Return* to the CSO, you can now select one of two options:

CSO EHECS Return	Naming Convention
EHECS Survey	CBR_Yr_Qtr_DDMMYYYY_HHMMSS.XML
EHECS Supplementary Survey	CBR_Yr_Qtr_DDMMYYYY_HHMMSS_Supp.XML

2.3. CSO Changes 2021 Q2 – Configuration Changes Required

2.3.1. Organisations with No 'Dummy' Enterprise ID

If your organisation has never used this 'dummy' enterprise ID facility, then, by default, all CSO *EHECS Returns* will be returned as part of your 'Main' survey. This means that **no additional configuration steps are required**.

Note the following:

- By default, your organisation's current *CSO EHECS Return* configuration applies to the *Main CSO EHECS Return*.
- When generating the *CSO EHECS Return*, the *CSO EHECS Return* type defaults to 'Main.' Therefore, no additional steps are required.

2.3.2. Organisations with 'Dummy' Enterprise ID

Since from Quarter 2, 2021, it will be no longer possible to return a second CSO survey using a 'dummy' CBR number; you must configure a *Supplementary CSO EHECS Return*.

To configure a *Supplementary CSO EHECS Return*:

Step	Area	Action
1	03 – Pay Group/CBR Number.	For Pay Group(s) to be returned on your organisation's <i>Supplementary CSO EHECS Return</i> . • Enter the <i>CBR Number</i> for the impacted Pay Group(s) • Enable the <i>Supplementary</i> indicator.
2	01 – Setup Parameters.	Configure the <i>Supplementary CSO EHECS Return</i> parameters for your organisation's <i>CBR Number</i> .
3	09 – User Required Data. (Override Values)	Ensure override values are entered against the correct 'Main' or 'Supplementary' <i>CSO EHECS Return</i> .
4	Generate CSO EHECS Return	Select 'Main' or 'Supplementary' when generating the <i>CSO EHECS Return</i> .
5	View EHECS Return Details.	Select 'Main' or 'Supplementary' when viewing the <i>CSO EHECS Return</i> .

		 Note: Drill-down options and Validation Reports will also only display the corresponding information for the selected option.
6	Process Guides	Update any process guides used to include new supplementary process.

3. Access the CSO Module

3.1. Overview

The CSO module is located through a submenu in the Payroll module. Follow the below instructions to generate and view *CSO EHECS Returns* for your enterprise's *CBR Number*.

3.2. Access the CSO Module

To access the CSO module:

Go to *CorePay* > *Core CSO* > *EHECS/NES*.

The CSO module uses the following three sub-menus:

- Maintain Reference Data. See the [CSO Returns Reference Setup](#) user guide.
- Generate EHECS Return. See section [Generate EHECS Return](#).
- View EHECS Return Details. See section [View EHECS Return Details](#).

4. Generate CSO EHECS Return

4.1. Overview

From Quarter 2, 2021, all an enterprise's *CSO EHECS Return* information must align to a single *CBR number*. You can now generate the *CSO EHECS Return* in both Main and Supplementary mode.

This allows you to return a second *CSO EHECS Return* under the same *CBR number*.

Note:

Before generating your first *CSO EHECS Return*, the following configuration steps are required:

- Maintain Reference Data, see the [CSO Returns Reference Setup](#) user guide.
- Configure your setup options, see section [CSO EHECS Returns – Setup Options](#).

4.2. Generate CSO EHECS Return:

To generate the CSO EHECS Return:

1. Go to *CorePay > Core CSO > EHECS/NES > Generate EHECS Return*.

2. Populate the *Year* field with the year to which the EHECS Return relates, e.g., 2021.
3. Populate the *Quarter* field with the quarter to which the EHECS Return relates, e.g., 2.
4. Populate the *CBR Number* field with the *CBR Number* to which the EHECS Return relates, e.g., EN32879571.

5. Select a *Return Type* from the *Return Type* drop-down menu, i.e.
 - **Original:** Select this option if this is an original CSO EHECS Return.
 - **Amended:** Select this option where this is an amendment to an original CSO EHECS Return.
6. Select a *CBR Type* from the *CBR Type* drop-down menu, i.e.
 - **Main:** Select this option to generate the *CSO EHECS Return* for all pay groups assigned to this *CBR Number* that do not have the *Supplementary* Indicator enabled. See section [03 – Pay Group/CBR Number](#).
 - **Supplementary:** Select this option to generate the CSO EHECS Return for all pay groups assigned to this *CBR Number* with the *Supplementary* Indicator enabled. See section [03 – Pay Group/CBR Number](#).

 Note:

The *CBR Type* drop-down only displays where:

- The quarter selected is on or after quarter 2, 2021.
- At least one pay group has the *Supplementary* Indicator enabled See section [03 – Pay Group/CBR Number](#).

7. Select Browse to choose a location to save your file.
8. Click **OK**.

 Note:

- The CSO EHECS Return pdf file generates to your default browser.
- The CSO EHECS Return XML file generates to the location selected in step 7.

4.3. Main and Supplementary CSO EHECS Return

4.3.1. Main and Supplementary CSO EHECS PDF files

The CSO EHECS Return PDF file displays the following information in the file title:

- **CBR Number:** The CBR Number for which the CSO EHECS Return was generated.
- **CBR Type:** The CBR Type for which the CSO EHECS Return was generated, i.e., Main or Supplementary.

Example of a Main CSO EHECS Return PDF file:

CBR Number: EN0308073- CBR Type: Main				
Part 1 - Number of Persons Employed				
PERSONS EMPLOYED	Managers, Prof's & Assoc Prof's	Clerical, Sales & Service	Production, Transport, Crafts&Trades Other Manual	
FULL-TIME EMPLOYEES	0	0	0	
- as at first day of quarter	0	0	0	
- as at last day of quarter	0	0	0	
- hired during the quarter	0	0	0	
PART-TIME EMPLOYEES	0	0	0	
- as at first day of quarter	0	0	0	
- as at last day of quarter	0	0	0	
- hired during the quarter	0	0	0	
AVERAGE NUMBER OF APPRENTICES/TRAINEES engaged in the business during the quarter	0	0	0	
AVERAGE NUMBER OF OTHER PERSONS ENGAGED				
Part 3 - Total Hours Paid (both worked and unworked paid hours)				
HOURS PAID IN THE QUARTER	Managers, Prof's & Assoc Prof's	Clerical, Sales & Service	Production, Transport, Crafts&Trades Other Manual	
FULL-TIME EMPLOYEES	0	0	0	
- Paid Contracted Hours	0	0	0	
- Paid Overtime Hours	0	0	0	
PART-TIME EMPLOYEES	0	0	0	
- Paid Contracted Hours	0	0	0	
- Paid Overtime Hours	0	0	0	
APPRENTICES/TRAINEES	0	0	0	
- Paid Contracted Hours	0	0	0	
- Paid Overtime Hours	0	0	0	
Part 4 - Total Number of Paid Hours Not Worked				

Example of a Supplementary CSO EHECS Return PDF file:

CBR Number: EN0308073-		CBR Type: Supplementary	
Part 1 - Number of Persons Employed			
PERSONS EMPLOYED	Managers, Prof's & Assoc Prof's	Clerical, Sales & Service	Production, Transport, Crafts/Trades Other Manual
FULL-TIME EMPLOYEES	0	0	0
- as at first day of quarter	0	0	0
- as at last day of quarter	0	0	0
- hired during the quarter	0	0	0
PART-TIME EMPLOYEES	0	0	0
- as at first day of quarter	0	0	0
- as at last day of quarter	0	0	0
- hired during the quarter	0	0	0
AVERAGE NUMBER OF APPRENTICES/TRAINEEs engaged in the business during the quarter	0	0	0
Part 3 - Total Hours Paid (both worked and unworked paid hours)			
HOURS PAID IN THE QUARTER	Managers, Prof's & Assoc Prof's	Clerical, Sales & Service	Production, Transport, Crafts/Trades Other Manual
FULL-TIME EMPLOYEES	0	0	0
- Paid Contracted Hours	0	0	0
- Paid Overtime Hours	0	0	0
PART-TIME EMPLOYEES	0	0	0
- Paid Contracted Hours	0	0	0
- Paid Overtime Hours	0	0	0
APPRENTICES/TRAINEEs	0	0	0
- Paid Contracted Hours	0	0	0
- Paid Overtime Hours	0	0	0

4.3.2. Main and Supplementary CSO EHECS XML files

The CSO EHECS Return XML file follows the below naming convention:

CSO EHECS Return	Naming Convention
EHECS Survey	CBR_Yr_Qtr_DDMMYYYY_HHMMSS.XML
EHECS Supplementary Survey	CBR_Yr_Qtr_DDMMYYYY_HHMMSS_Supp.XML

5. CSO EHECS Returns – Setup Options

5.1. Assess the CSO EHECS Returns Setup Options

Several setup options are required before generating your first CSO EHECS Return.

To access these *CSO EHECS Return* setup options:

Go to *CorePay > Core CSO > EHECS/NES > Generate EHECS Return*.

The following configuration setup options available are in the *Select Detail* window.

- 01 – Setup Parameters
- 02 – Company Details
- 03 – Pay Group/CBR Number
- 04 – Employee Status/CSO Employee Status
- 05 – Assign CSO Employee Status
- 06 – CoreTime Absence Pay Codes
- 07 – CorePersonnel Job Vacancies
- 08 – CorePersonnel Recruitment Costs
- 09 – User Required Data
- 10 – Pension Schemes

Each of these sub-screens is detailed below:

5.2. 01 – Setup Parameters

5.2.1. Overview

Use this option to set up and maintain the parameters required for generating the *CSO EHECS Return*.

Note the following:

- A record of parameters must be set up for each *CBR Number*. From quarter 2, 2021, all an enterprise's *CSO EHECS Return* information must align to a single *CBR number*.
- A record of parameters must be set up for both the Main and Supplementary returns.
- The combination of options selected determines how the data is derived.
- An explanation of each parameter is available in the subsections below.

Note:

To create a new CBR record:

1. Click  to create a new record.
2. Enter a *CBR number*
3. Select Main or Supplementary from the CBR Type drop-down menu.
4. Enter the setup parameters for your enterprise.
5. Click **Save**.

5.2.2. CBR Type

#	Field	Description
1	CBR Number	This the <i>CBR Number</i> as provided by the CSO. This is used for all returns made to the CSO.
2	CBR Type	Select whether these parameters relate to the Main or Supplementary <i>CSO EHECS Return</i> .
3	CorePay	Enable this indicator if you use the Payroll module.
4	CorePersonnel	Enable this indicator if you use the People Management module.
5	CoreTime	Enable this indicator if you use the Workforce Management module.

5.2.3. CSO Occupation Status Code Setup

Setup Parameters

Parameters

CBR Number: EN32879563 CBR Type: Main

CorePay ☒ CorePersonnel ☒ CoreTime ☒

1 Job Title ☐ 2 Position References ☐

CSO Employee Status ☐ Employee Status ☐

#	Field	Description
1	Job Title	Enable this indicator if the <i>People Management Job Titles</i> screen is used for assigning the <i>CSO Occupation Status Codes</i> at the Job Title level. See section Job Title .
2	Position References	Enable this indicator if the <i>Payroll Position References</i> screen is used for assigning the <i>CSO Occupation Status Codes</i> at Position Level. See section Position Reference .

5.2.4. **Employee Status**

Setup Parameters

Parameters

CBR Number: EN32879563 CBR Type: Main

CorePay ☒ CorePersonnel ☒ CoreTime ☒

Job Title ☐ Position References ☐

1 CSO Employee Status ☐ 2 Employee Status ☒

Each employee must be assigned to a *CSO Employee Status*. This can be done in one of two ways:

#	Field	Description
1	CSO Employee Status	Enable the <i>CSO Employee Status</i> indicator where the <i>CSO Employee Status</i> is assigned to either: - See section, Amend Employee Sundry Profile screen. - See section, 04 – Employee Status/CSO Employee Status.
2	Employee Status	Enable the <i>Employee Status</i> indicator if the <i>CSO Employee Status</i> is mapped through the <i>Assign CSO Employee Status</i> screen. See section 05 – Assign CSO Employee Status .

There are currently four CSO Employee Statuses:

CSO Employee Status	Description
F	Full Time
P	Part Time
A	Apprentice/Trainee
O	Other Person Engaged

Note:

- If an employee is not assigned to a *CSO Employee Status* in either of the two above ways, then a set of rules apply to determine if an employee is *Full Time* or *Part Time*. See section [Method to Determine CSO Employee Status](#).
- An *Apprentice/Trainee* or *Other Person Engaged* employee must be assigned a *CSO Employee Status*.

5.2.5. Method to Determine CSO Employee Status**Hourly Employees**

Method to Determine CSO Employee Status

Hourly Employees **1** FTE Hours ☒ **2** Standard Hours ☐

Salary Employees -> FTE Hours ☐ Standard Hours ☐ Pay Multiplier ☒ Pay Multiplier /Additional Hrs ☐

These parameters are used for deriving whether an *Hourly Employee* is a *Full Time* or *Part Time* employee, where no *CSO Employee Status* is assigned. See section [Employee Status](#). This is based on how many hours the employee worked in the last period of the quarter.

Note:

If the *Periodic Employee Hours* indicator is not enabled, the FTE/Standard hours are converted to a periodic value, e.g., where an employee is in a monthly pay group, the hours held as 160; where an employee is in a weekly pay group, the hours are held as 40. See section [Additional Indicators](#).

	Field	Description
1	FTE Hours	Enable this indicator if employees are paid using the FTE Hours on their appointment in <i>People Management</i>. An employee is deemed <i>Full Time</i> if their basic timesheet hours is greater than 80% of the FTE Hours. Otherwise, they are deemed to be <i>Part Time</i>. See section View Appointment Details. • Percentage Calculation: Basic Hours/FTE Hours * 100

	Field	Description
2		Enable this indicator if employees are paid using <i>Standard Hours (Contracted Hours)</i> on their appointment in <i>People Management</i>. If <i>Standard Hours</i> are not set up for an employee, then the employee hours are defined as the <i>Amend Employee Profile</i> Screen's <i>Weekly Hours</i> field. See section Amend Employee Profile. If these are not defined, then the default is the <i>Weekly Hours</i> in the <i>Pay Group/CBR Number</i> screen. See section 03 – Pay Group/CBR Number. People Management and Payroll An employee is deemed <i>Full Time</i> if their basic timesheet hours is greater than 80% of the <i>Standard Hours</i>. Otherwise, they are deemed to be <i>Part Time</i>. - Percentage Calculation: Basic Hours/ Standard Hours * 100 Payroll An employee is deemed <i>Full Time</i> if their basic timesheet hours is greater than 80% of the Employee Hours / Pay Group Hours. Otherwise, they are deemed to be <i>Part Time</i>. - Percentage Calculation: Basic Hours/Employee Hours * 100
	Standard Hours	

Salary Employees

Method to Determine CSO Employee Status

Hourly Employees -> ☒ FTE Hours ☐ Standard Hours

Salary Employees **1** ☐ FTE Hours ☒ **2** Standard Hours ☐ **3** Pay Multiplier ☒ **4** Pay Multiplier /Additional Hrs

Where no [CSO Employee Status](#) is assigned to a *Salary Employee*, these parameters are used for deriving whether the employee is *Full Time* or *Part Time*,

#	Field	Description
1	FTE Hours	Enable this indicator if employees are paid using FTE Hours on their appointment in <i>People Management</i> .

#	Field	Description
		People Management An employee is deemed <i>Full Time</i> if they work more than 80% of their FTE Hours. Otherwise, they are deemed to be <i>Part Time</i>. Percentage Calculation: Standard Hours/FTE Hours * 100.
2	Standard Hours	Enable this indicator if employees are paid using <i>Standard Hours</i> (<i>Contracted Hours</i>) on their appointment in People Management. If <i>Standard Hours</i> are not set up for an employee, then the employee hours are the defined Weekly Hours in the Pay Group/CBR mapping screen. See section 03 – Pay Group/CBR Number. People Management An employee is deemed <i>Full Time</i> if their Standard Hours are more than 80% of their Pay Group Hours. Otherwise, they are deemed to be <i>Part Time</i>. - Percentage Calculation: Standard Hours/Pay Group Hours * 100. Payroll An employee is deemed <i>Full Time</i> if their Employee Hours is greater than 80% of their Pay Group Hours. Otherwise, they are deemed to be <i>Part Time</i>. - Percentage Calculation: Employee Hours/Pay Group Hours * 100.
3	Pay Multiplier	Enable the <i>Pay Multiplier</i> indicator if the <i>Pay Multiplier</i> is used in Payroll for identifying an employee's <i>CSO Employee Status</i>. An employee is deemed <i>Full Time</i> if the <i>Pay Multiplier</i> on the employee's effective Position History is more than 0.8. Otherwise, they are deemed to be <i>Part Time</i>. Percentage Calculation: Pay Multiplier * 100.
4	Pay Multiplier / Additional Hours	Enable this indicator if the <i>Pay Multiplier</i> and <i>Additional Hours</i> worked are used to identify an employee's <i>CSO Employee Status</i>. Additional Hours are

#	Field	Description
		the hours paid against all pay codes with a CSO Payment Type of 'Regular' and 'Irregular' for the relevant CSO quarter. See section Additional Hours. In some cases, the employee may have worked additional hours that may increase the multiplier above 0.8. Therefore, the employee would be deemed <i>Full Time</i>. People Management and Payroll An employee is deemed <i>Full Time</i> if their <i>FTE Hours</i> plus <i>Additional Hours</i> are more than 80% of their <i>Standard Hours</i>. Otherwise, they are deemed to be <i>Part Time</i>. - Percentage Calculation: $\text{FTE Hours} + \text{Additional Hours} / \text{Standard Hours} * 100$. Payroll An employee is deemed <i>Full Time</i> if their <i>Employee Hours</i> plus their <i>Additional Hours</i> are more than 80% of their Pay Group Hours. Otherwise, they are deemed to be <i>Part Time</i>. - Percentage Calculation: $\text{Employee Hours} + \text{Additional Hours} / \text{Pay Group Hours} * 100$.

5.2.6. Data Collection Method for Hours Paid

Hourly Employees

For Hourly Employees, contracted hours include hourly, daily and unit pay codes taken from the history table. For further details, see the [CSO Returns Reference Setup](#) user guide.

Salaried Employees

For Salary Employees, contracted hours will include hourly, unit, value, and daily pay codes from the history table.

Value Pay Codes

Value pay codes are converted to an hourly amount in the below order:

- *CSO Multiplier* populated on the pay code. See the [CSO Returns Reference Setup](#) user guide.
- *CSO Contracted Hours*. See section [CSO Contracted Hours](#).
- The *Data Collection Method for Hours Paid*. See section [Data Collection Method for Hours Paid](#).

Note:

Where the *CSO Multiplier* has not been populated on a value pay code, only one hour is included on the *CSO EHECS Return*. This is to ensure employees contracted hours are not doubled for a period.

Daily Pay Codes

Daily pay codes are converted to an hourly amount in the below order:

- *CSO Contracted Hours*. See section [CSO Contracted Hours](#).
- The *Data Collection Method for Hours Paid*. See section [Data Collection Method for Hours Paid](#).

Unit Pay Codes

Unit pay codes are converted to an hourly amount using the *CSO Unit Multiplier* field on the pay code. See the [CSO Returns Reference Setup](#) user guide.

Data Collection Method for Hours Paid

Data Collection Method for Hours Paid

Salary Employees **1** FTE Hours ☒ **2** Standard Hours ☐ **3** Pay Multiplier ☐

Note:

- If the *Use Grade Code Hours* indicator is enabled on the *Pay Group/CBR Number* mapping screen. This takes precedence over all the salary parameters below. See section [03 – Pay Group/CBR Number](#).
- If the *Periodic Employee Hours* indicator is not enabled, the FTE/Standard hours are converted to a periodic value, e.g., where an employee is in a monthly pay group, the hours held as 160; where an employee is in a weekly pay group, the hours are held as 40. See

#	Field	Description
1	FTE Hours	Enable the <i>FTE Hours</i> indicator if the employees are paid using <i>FTE Hours</i> on their appointment in People Management. If <i>FTE hours</i> are not set up for an employee, then the default is the Weekly Hours in the Pay Group/CBR mapping screen. See section 03 – Pay Group/CBR Number.
2	Standard Hours	Enable the <i>Standard Hours</i> indicator if employees are paid using <i>Standard Hours (Contracted Hours)</i> on their appointment in People Management. If <i>Standard Hours (Contracted Hours)</i> are not set up for an employee, then the default is the Weekly Hours in the Pay Group/CBR mapping screen. See section 03 – Pay Group/CBR Number.
3	Pay Multiplier	Enable the <i>Pay Multiplier</i> indicator if the <i>Pay Multiplier</i> is used in Payroll for identifying employees' <i>CSO Employee Status</i>. Hours from the <i>Pay Period Hours</i> field on the Amend Employee Profile screen is used. If <i>Pay Period Hours</i> are not set up for an employee, then the default is the <i>Weekly Hours</i> in the Pay Group/CBR mapping screen. See section 03 – Pay Group/CBR Number.

5.2.7. CSO Contracted Hours

Enable the *Use Grade Code Hours* indicator (Pay Group Level) to use the hours recorded against an employee's [Position Reference](#) when calculating *Paid Contracted Hours*. If there are no hours against the [Position Reference](#), see section [Data Collection Method for Hours Paid](#).

See section [03 – Pay Group/CBR Number](#).

CBR Numbers

Pay Group/CBR Number Mapping

5.2.8. Additional Indicators

CoreTime Calculate Paid Hours Not Worked	☒	CorePersonnel Job Vacancies	☒	CorePersonnel Recruitment Costs	☒
CorePersonnel Training Costs	☒	Manually Calculate Employers Pension Contributions	☐	Manually Calculate Redundancy Payments	☐
Manually Calculate Number of Other Persons Engaged	☐	National Minimum Wage	10.20	Periodic Employee Hours	☐

#	Field	Description
1	CoreTime Calculate Paid Hours Not Worked	Enable this indicator if you use WFM to record Paid Hours not Worked, e.g., Absences, Bank Holidays, Sick Leave, Annual leave. If enabled, then the screen <i>CoreTime Absence Pay Codes</i> screen is used to identify the pay codes for recording paid hours not worked. See section 06 – CoreTime Absence Pay Codes .
2	CorePersonnel Job Vacancies	Enable this indicator if your use People Management to record Job Vacancies. If enabled, then the Job Vacancies screen is used to identify the applicable Job Vacancies.
3	CorePersonnel Recruitment Costs	Enable this indicator if you use People Management to record Recruitment Costs. This indicator can only be enabled if the <i>CorePersonnel Job Vacancies</i> indicator is enabled, i.e., you can't record recruitment costs if you do not record job vacancies. If enabled, then the <i>CorePersonnel Recruitment Costs</i> screen must identify the recruitment costs applicable to Job Vacancies.
4	CorePersonnel Training Costs	Enable this indicator if you use CorePersonnel to record Training Costs.
5	Manually Calculate Employers Pension Contributions	Enable this indicator if you manually calculate Employers Pension Contributions. Otherwise, the <i>CSO EHECS Return</i> calculates this value based on employer pension contributions recorded in history.
6	Manually Calculate Number of other Persons Engaged	Enable this indicator if you manually calculate the number of <i>Other Persons Engaged</i> in the company Payroll, e.g., proprietors, unpaid voluntary workers or unpaid family members.

#	Field	Description
7	National Minimum Wage	Enter the <i>National Minimum Wage</i> effective on the last day of the CSO Quarter here. Any <i>Full Time</i> or <i>Part Time</i> employees on or below this value are recorded as being on a Minimum Wage.
8	Periodic Employee Hours	If enabled, this indicator tells the application that employee FTE/STD hours are stored as a periodic figure, e.g., where an employee is in a monthly pay group, the hours held as 160; where an employee is in a weekly pay group, the hours are held as 40. Otherwise, employee hours are converted to a periodic amount.

5.3. 02 – Company Details

Note:

Before setting up Company Details, the *CBR number* must first be assigned to at least one pay group. See section [03 – Pay Group/CBR Number](#).

This screen is used for recording the *Company Details* of the returning enterprise. Create a separate record for each CBR Number.

Generate EHECS Return

Address: 52 CRAIC CIRCUS
CARRICK-ON-SUIR
TIPPERARY
IRELAND

Address Change: 0

Contact: BRIAN O KEEFFE

Phone: 056-7754321

Email Address: university@theaccessgroup.com

Position: ROLL MANAGER

Field	Description
Phone	This is the phone number of the enterprise.
CBR Number	This is the <i>CBR Number</i> of the enterprise as provided by the CSO.
Company Name	This is the company name of the returning enterprise.
Address	These are the address details of the enterprise.
Address Change	This field is used to notify the CSO of any changes to the company name and address. Otherwise, the default is blank.
Contact	This is the name of the person signing the declaration.
Phone	This is the phone number of the person signing the declaration.
Email Address	This is the email address of the person signing the declaration.
Position	This is the position of the person signing the declaration.

5.4. 03 – Pay Group/ CBR Number

The screenshot shows a window titled 'CBR Numbers' with a sub-header 'Pay Group/ CBR Number Mapping'. It contains a table with the following columns: Pay Group, CBR Number, Weekly Hours, Hourly/ Daily, Use Grade Code Hours, Average Hours, and Supp Pay Group. The table lists various pay groups and their corresponding CBR numbers and settings.

Pay Group	CBR Number	Weekly Hours	Hourly/ Daily	Use Grade Code Hours	Average Hours	Supp Pay Group
1230 University UK	EN32879571	39	D	☐	☐	☐
1233 - Irish YE University 1	EN0308073-	39	D	☐	☐	☐
1235 - Irish YE University 1	EN0308073-	39	D	☐	☐	☐
1236 - Irish YE University 1	EN0308073-	39	D	☐	☐	☐
1237 - Irish YE University				☐	☐	☐
1238 - University 1				☐	☐	☐
1239 University UK				☐	☐	☐
1240 University UK				☐	☐	☐
1241 University UK				☐	☐	☐
1242 - Irish YE University 1				☐	☐	☐
1249 University UK				☐	☐	☐
1290 University UK Monthly				☐	☐	☐
1407 1600 UK				☐	☐	☐

Field	Description
CBR Number	Each pay group must be mapped to a <i>CBR Number</i> . This mapping determines what employees are to be included in the <i>CSO EHECS Return</i> . This <i>CBR Number</i> is provided to the enterprise by the CSO. It is how the CSO can identify who is making the returns.
Weekly Hours	Pay group standard weekly hours may be included in the calculation of employees' contracted hours. Whether this value is used depends on settings in the 01 -Setup Parameter screen. See section Data Collection method for Hours Paid .
Hourly/Daily	- Enter 'D' in the <i>Hourly/Daily</i> field to indicate a salary paid Pay Group. - Enter 'H' in the <i>Hourly/Daily</i> field to indicate an hourly paid Pay Group. If you have a mixture of employees in a pay group (some paid hourly, some daily), set the most common method on the pay group level. The exceptions then need to be mapped at the employee level as described in the section Employee Status.
Use Grade Code Hours	If this indicator is enabled, hours recorded against the employee position on the Position References screen are used for the calculation of 'Paid

Field	Description
	Contracted Hours'. If there are no hours against the position, the method described in Data Collection method for Hours Paid is used.
Average Hours	Enable this indicator if employees' average hours for the CSO quarter are to be used for determining whether employees are <i>Full Time</i> or <i>Part Time</i> . Only enable after consultation.
Supplementary Pay Group	If this indicator is enabled, the pay group will be returned as part of the supplementary CSO EHECS Return. See section Main and Supplementary COS EHECS Return .

5.5. 04 – Employee Status/CSO Employee Status

Setup Parameters

Parameters

CBR Number: EN32879563 CBR Type: Main

CorePay ☒ CorePersonnel ☒ CoreTime ☒

Job Title ☐ Position References ☐

CSO Employee Status ☒ Employee Status ☐

If the *CSO Employee Status* indicator is enabled in the section [Employee Status](#), the system checks the set up on this screen.

Employee Status

Employee Status/CSO Employee Status Mappings

Employee Status	CSO Employee Status
A Apprentice/Trainee	
A1 P	
A2 ContractDesc	
A3 New Status	
A4 A	F
AC Agency Worker	
AG Aprentice/Trainee	
CS Concession Tstm Only	
CT Freelance/Contractor	
DM DM Post	
F Test	
LE Leaver	
O Other Person Engaged	

This screen allows for the mapping of the *Employees Status* to a *CSO Employee Status*. This mapping determines into which status the employee is returned, i.e.

- F – Full Time
- P – Part Time
- A – Apprentice/Trainee
- O – Other Person Engaged.
- E – Excluded.

If the *CSO Employee Status* field is left blank, then the CSO rules are applied. See section [Method to Determine CSO Employee Status](#).

5.6. 05 – Assign CSO Employee Status

The screenshot shows a software window titled "Setup Parameters". Inside, there's a "Parameters" section. At the top, "CBR Number" is set to "EN32879563" and "CBR Type" is set to "Main". Below this, there are several settings: "CorePay" (checked), "CorePersonnel" (checked), "CoreTime" (checked), "Job Title" (radio button), "Position References" (radio button), "CSO Employee Status" (radio button), and "Employee Status" (radio button). The "Employee Status" radio button is highlighted with a red rectangular box.

If the *Employee Status* indicator is enabled in the section [Employee Status](#), the system checks the set up on this screen. This screen allows you to assign a *CSO Employee Status* and a *CSO Occupation Status Code* to an individual employee.

Employee Reference	Forename Surname	CSO Emp. Status	Occupation Status Code	Hourly/Daily
0001634	Forename Surname-0001634	F	11	LEGISLATORS AND SENIOR OFFICIALS
0003490	Forename Surname-0003490			
0006418	Forename Surname-0006418			
0006740	Forename Surname-0006740			
0006771	Forename Surname-0006771			
0006959	Forename Surname-0006959			
0012241	Forename Surname-0012241			
0012255	Forename Surname-0012255			
0013640	Forename Surname-0013640			
0014302	Forename Surname-0014302			
0014395	Forename Surname-0014395			
0014618	Forename Surname-0014618			
0015860	Forename Surname-0015860			
0016983	Forename Surname-0016983			
0020136	Forename Surname-0020136			
0022675	Forename Surname-0022675			
0023643	Forename Surname-0023643			

Note:

- If an employee is not assigned to a CSO Employee status in either of the above two ways, then a set of rules apply to determine if an employee is *Full Time* or *Part Time*. See section [Method to Determine CSO Employee Status](#).
- An *Apprentice/Trainee* or *Other Person Engaged* employee must be assigned a status.

#	Field	Description
1	CSO Emp. Status	Populate this field to allow for the mapping of a <i>CSO Employee Status</i> to an individual employee. This mapping determines the employees' Category. - F - Full Time - P - Part Time - A - Apprentice/Trainee - O - Other Person Engaged. Regardless of which option is selected, this screen allows you to enter an override at the employee level for the remaining two columns detailed below.

#	Field	Description
2	Occupational Status Code	Link an <i>Occupational Status Code</i> at an employee level. By default, an <i>Occupational Status Code</i> is found by looking up either the employee's position or job title at the end of the quarter, depending on which option enabled in section 01 – Setup Parameters .
3	Hourly/Daily	Enter 'H' or 'D' to indicate whether the employee is Hourly, or Salary paid. Should only be assigned to employees who are the exceptions to the pay groups, see section 03 – Pay Group/CBR Number .

5.7. 06 – CoreTime Absence Pay Codes

Pay Code	Annual Leave	Bank Holiday	Maternity Leave	Sick Leave	Other Leave
3700 ANNUAL LEAVE 3700 DEC	☒	☐	☐	☐	☐
3701 Public Holiday	☐	☒	☐	☐	☐
3764 Study Leave (Paid)	☐	☐	☐	☐	☒
3790 Other Leave (Paid)	☐	☐	☐	☐	☒
3795 Paid Sickness	☐	☐	☐	☒	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐
	☐	☐	☐	☐	☐

Use this screen where the *CoreTime Calculate Paid Hours Not Worked* parameter is enabled. See section [Additional Indicators](#). The screen allows for the mapping of CoreTime pay codes to absences.

By default, this screen is blank. To populate this screen:

1. Enter a *CoreTime Pay Code* in the *Pay Code* field or click  to select a *CoreTime Pay Code* from the LOVs.
2. Enable the absence indicator to identify the leave type.

3. Click **Save**.

Note:

- The hours associated with these pay codes will be recorded in the 'Paid Hours Not Worked in the Quarter' section of the CSO Return.
- Only WFM users can use this facility. Otherwise, the *Paid Hours Not Worked* has to be manually calculated by the company and entered on the [09 – User Required Data](#) screen.

5.8. 07 – CorePersonnel Job Vacancies

Position Type		CSO Job Vacancy	Category Code
COV	Cover Required	☐	
N	New Position	☐	
PR	Project	☐	
REP	Replacement	☐	
		☐	
		☐	
		☐	

Use this screen where the *CorePersonnel Job Vacancies* parameter is enabled, and the company uses the *Core Recruitment Module* to record *Job Vacancies*. See section [Additional Indicators](#)

The screen indicates which positions determine the number of Job Vacancies open during the relevant CSO Quarter.

Any position that is advertised as an external job vacancy should have the *CSO Job Vacancy* indicator enabled, and a Category Code assigned to indicate categories the positions fall under:

- A – Managers, Professional & Associate Professionals
- B – Clerical, Sales & Service Workers
- C – Production, Transport Workers, Craft & Tradespersons, Other Manual Workers

5.9. 08 – CorePersonnel Recruitment Costs

The screenshot shows a window titled "Recruitment Costs" with a close button (X) in the top right corner. Inside the window, there is a table with two columns: "Cost Type" and "CSO Recruitment Cost". The table contains the following rows:

Cost Type	CSO Recruitment Cost
10 Psychometric Testing	☐
4 Travel Expenses	☐
5 Recruitment Agency Costs	☐
6 Installation Allowances	☐
7 Advertising Costs	☐
8 Meals	☐
9 External Interviewer Costs	☐
ACC Accommodation Costs	☐
CC Conference Call	☐
LUNC Lunch For Panel	☐
REF Refreshments For Interview Room	☐
RM Room Booking	☐
TE Travel Expenses	☐
TRAV Travel Expenses	☐
	☐
	☐
	☐

On the right side of the table, there is a vertical scrollbar and a "CSO Recruitment Cost" label.

Use this screen where the *CorePersonnel Recruitment Costs* parameter is enabled, and the company uses the *Core Recruitment Module* to record *Recruitment Costs*. See section [Additional Indicators](#)

Note:

Any cost that is associated with the recruitment of an external job vacancy should be selected. These costs are then calculated for all open external job vacancies during the relevant CSO quarter and recorded as 'Other Expenditure' on the *CSO EHECS Return*.

5.10. 09 – User Required Data

User Required Data

COMMENTS

Please make any comments that help CSO interpret the data provided and avoid further queries. In particular, explanations of significant changes from the previous quarter in number of persons employed, total wages & salaries, total hours paid etc. would be useful.

test 1

test 2

This screen allows for the input of values for data that the system cannot calculate. In this section, you must enter any data that you have calculated manually.

Note:

- Grayed out fields mean that you have selected for the system calculate, see section [01 – Setup Parameters](#).
- When a new *CSO EHECS Return* is generated, the figures from the previous *CSO EHECS Return* remain until manually removed.

5.11. 10 – Pension Schemes

The screenshot shows a window titled "Pension Schemes" with a close button (X) in the top right corner. Inside the window, there is a table with two columns: "Pension Scheme" and "Exclude Scheme". The table lists 22 pension schemes, each with a corresponding checkbox in the "Exclude Scheme" column. The "Exclude Scheme" checkbox for "Etam Salary Sacrifice" is checked.

Pension Scheme	Exclude Scheme
1 Guernsey	☐
2 Apprentice Levy	☐
5 Etam Salary Sacrifice	☒
6 Etam Pension	☐
7 Exec - Qualifying Scheme	☐
11 Agppp	☐
12 Agpppss	☐
13 AE-All Earnings	☐
14 AE-Sal Sac- All Earns	☐
15 AE-Band Earnings	☐
16 AE-Band Earn-Sal Sac	☐
17 AE-Band Earn 17	☐
18 AE-All Earnings 18	☐
19 Irish Pension	☐
20 AE-Ers Minus Lel	☐
21 AE-Ers Minus Lel (14)	☐
22 Peoples Pension - Parkwood (AE)	☐

Use this screen to exclude pensions schemes where the *Manually Calculate Employers Pension Contributions* parameter is enabled. See section [Additional Indicators](#).

**Note:**

If this indicator enabled, manually calculate Employer Pension Contributions. Otherwise, the CSO module calculates these values based on employer pension contributions recorded in history.

6. View EHECS Return Details

6.1. Overview

The *View CSO EHECS Return Details* screen can display the Main or Supplementary *CSO EHECS Return* data for the last CSO Quarter processed.

6.2. View CSO EHECS Return Details

Note:

To access the *View CSO EHECS Return Details* screen, see section [Access the CSO Module](#).

To view CSO EHECS Return Details:

1. Enter a *CBR Number* in the *CBR Number* field and hit tab/enter.
2. Select Main or Supplementary from the *CBR Type* drop-down menu.
3. Optional: Enter an employee number to view the *CSO EHECS Return* information for an individual employee.
4. Click tab/enter.

The *View CSO EHECS Return Details* screen shows the Main or Supplementary CSO Return data for the last CSO Quarter processed.

View CSO EHECS Return Details

**Note:**

- The data is shown by *CBR Number*.
- Pay Group access is required to view employee details.

A drill-down facility allows you to view the breakdown of the figures displayed.

To drill down into a figure:

Select the  button beside the figure.

**Note:**

Any field that has a  button beside it allows for a drill down which shows the employees and their associated value that made up the total figure.

Employee Reference	Name	Pay Group	Description	Value
1720-10	JUSTIN LYONS	1720	CSO RETURNS WEEKLY	3835.60
1720-11	GRAINNE DUNNE	1720	CSO RETURNS WEEKLY	2454.80
1720-30	JOHN DINNEEN	1720	CSO RETURNS WEEKLY	3490.40
1720-31	GRAINNE DUNNE	1720	CSO RETURNS WEEKLY	2454.80
1720-32	ELEANORE CAREY	1720	CSO RETURNS WEEKLY	2454.80
1720-40	JUSTIN LYONS	1720	CSO RETURNS WEEKLY	2391.72

6.3. Validation Reports

The *View CSO EHECS Details* screen allows you to run Validation Reports for both your Main and Supplementary *CSO EHECS Returns*. To run Validation Reports:

1. Enter a *CBR Number* in the *CBR Number* field and hit tab/enter.
2. Select Main or Supplementary from the *CBR Type* drop-down menu.
3. Select **Validation Reports**.

The screenshot shows the 'View CSO EHECS Details' window. At the top, there are fields for 'CBR Number' and 'CBR Type' (set to 'Main'). Below these are sections for 'Persons Employed' and 'Hours Paid in Quarter'. In the top right corner, there is a 'Validation Reports' button, which is highlighted with a red box and a red arrow pointing to it.

The *Validation Reports* screen opens.

The screenshot shows the 'Validation Reports' window. It is divided into three main sections:

- Reference Data Reports:** Includes checkboxes for 'Pay Code/CSO Payment Type Listing', 'Position Ref/CSO Occupation Status Code Listing', 'BIK Pay Code/CSO Payment Types Listing', and 'Employee CSO Category Code Listing'. A 'Run Report' button is at the bottom right of this section.
- Wages Reports:** Includes checkboxes for 'Wages Comparison', 'Wages Differences', and 'Employee Differences'. A 'Run Report' button is at the bottom right of this section.
- Paid Hours Not Worked Reports:** Includes a checkbox for 'Paid Hours Not Worked in Quarter'. A 'Run Report' button is at the bottom right of this section.

These reports include fall under three main sections.

Section	Report	Description
Reference Data Reports	Pay Code/CSO Payment Type Listing	This returns all pay codes and the CSO payment type to which they are mapped.
	Position Ref./CSO Occupation Status Code Listing	This returns all position codes and the CSO <i>Occupation Status Code</i> to which they are mapped.
	BIK Pay Code/CSO Payment Types Listing	This returns all BIK pay codes and the CSO <i>Payment Type</i> to which they are mapped.
	Employee CSO Category Code Listing	This returns all employees and the CSO <i>Category Codes</i> to which they are mapped.
Wages Reports	Wages Comparison	This shows all employees and compares the EHECS earnings versus the Payroll earnings.
	Wages Differences	This shows all the employees whose EHECS wage does not match their Payroll earnings.
	Employee Difference	This report shows only employees who are not in the returns.
Paid Hours Not Worked Reports	Paid Hours Not Worked in the Quarter	This shows a breakdown for all employees, and what <i>Paid Hours not Worked</i> is being returned from Workforce Management.

7. Appendix

7.1. Amend Employee Sundry Profile – CSO Employee Status

An employee's CSO status can be assigned at an employee level. This takes precedence over the system parameter settings. See section [Employee Status](#). This update will take effect the next time the CSO EHECS Return is generated.

1. Go to *CorePay > Employee > Advanced Employee Features > Amend Employee Sundry Profile*.
2. Enter an *Employee Reference* in the *Employee Reference* field or click  to select an *Employee Reference* from the LOVs.
3. Enter a *CSO Employee Status* in the *CSO Employee Status* field or click  to select a *CSO Employee Status* from the LOVs.
