1. Overview

1.1. Purpose of this Guide

The purpose of this document is to provide guidance on how to set up and maintain *CSO reference data* in Payroll.

1.2. What is a CSO EHECS Return?

The *CSO Earnings, Hours and Employment Costs Survey (EHECS)* is a survey that produces an index of labour costs per hour worked. The survey requires collecting wages & salaries, employers' social contributions, other non-wage costs, and hours worked.

All *E.U. member states* are obliged to compile Labour Cost indices. They provide vital information for future social and economic planning, such as wage agreements, etc.

Each quarter, employers receive a questionnaire relating to the number of people employed in their business during that quarter. Each employee is categorised into one of the following three occupational groups:

1. *Managers, Administrators, Professionals & Associate Professional* (Legislators and senior officials, corporate managers, managers of small enterprises, professionals, and associate professionals)
2. *Clerical, Sales & Service Workers* (Clerks, office workers, service & sales workers)
3. *Production, Transport Workers, Craft & Tradespersons and Other Manual Workers* (Plant & machine operators & assemblers, skilled craft & trade workers, and other manual occupations)

Employers need to provide the total labour costs, the total hours worked, and the total hours not worked (e.g. annual leave) for each employee category. Enterprises with small numbers employed are only required to send data for a set number of quarters.

1.3. Definitions

	Description
CSO	Central Statistics Office
EHECS	Earnings, Hours and Employment Costs Survey
CBR	Central Business Register
CBR Number	Central Business Registration Number

2. Access the CSO Module

2.1. Overview

The CSO module is located through a submenu in the Payroll module. Follow the below instructions to set up and maintain CSO reference data in Payroll.

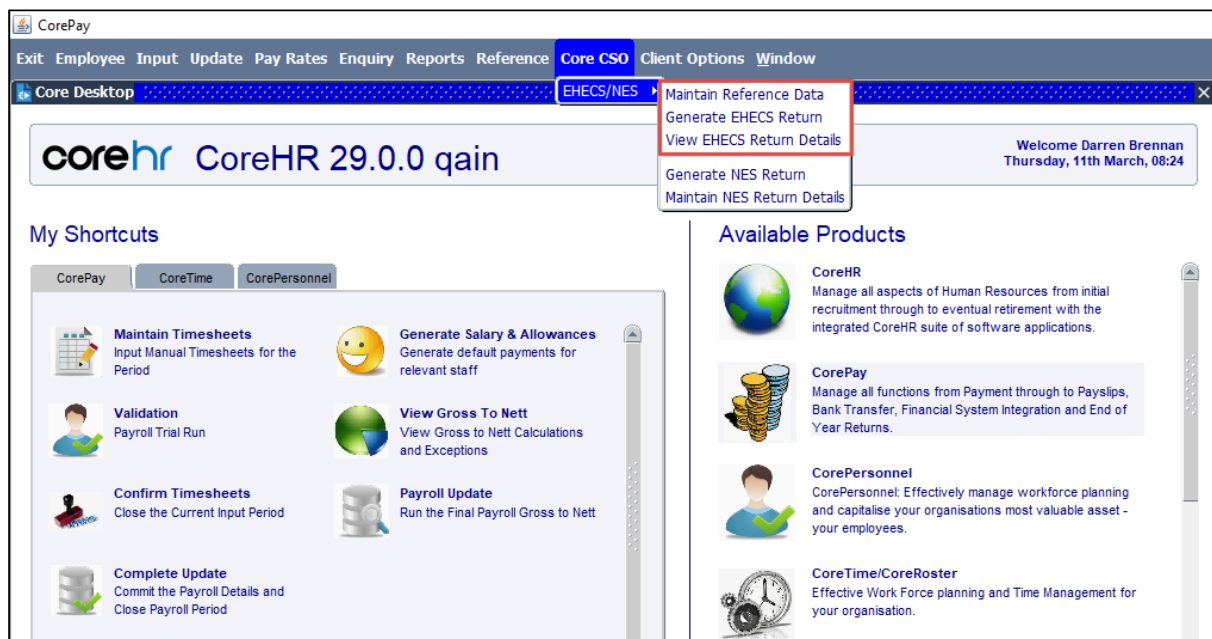

2.2. Access the CSO Module

To access the CSO module:

Go to *CorePay* > *Core CSO* > *EHECS/NES*.

The CSO module uses the following three sub-menus:

- Maintain Reference Data. See section Maintain Reference Data
- Generate EHECS Return. See the [CSO EHECS Return](#) user guide.
- View EHECS Return Details. See the [CSO EHECS Return](#) user guide.

3. Maintain Reference Data

3.1. Overview

The EHECS form requires staff classification into three separate groupings, each sub-divided into several different occupations: (These details are loaded as part of the software installation).

1. Category A – Managers, Professionals & Associate Professionals
 - a) Managers
 - b) Administrators
 - c) Professionals
 - d) Associate Professionals
2. Category B – Clerical, Sales & Service Workers
 - a) Clerical
 - b) Sales
 - c) Service Workers
3. Category C – Production, Transport Workers, Craft & Tradespersons, Other Manual Workers
 - a) Production
 - b) Transport Workers
 - c) Craft and Tradespersons
 - d) Other Manual Workers

3.2. Access the Maintain Reference Data Screen

To access the CSO *Maintain Reference Data* screen:

1. Go to *CorePay > Core CSO > EHECS/NES > Maintain Reference Data*.

Category Code	Description
A	MANAGERS, PROFESSIONALS AND ASSOCIATE PROFESSIONALS
B	CLERICAL, SALES AND SERVICE WORKERS
C	PRODUCTION, TRANSPORT WORKERS, CRAFT AND TRADESPERSONS, OTHER MANUAL WORKERS

4. CSO Category Codes

4.1. Overview

This screen allows you to set up and maintain the following *CSO Category Codes*.

- *Category Codes*
- *Occupational Codes*
- *Occupational Status Codes*

4.2. Category Codes

The category code determines the section of the *CSO EHECS Return* under which the employee displays. The *Category Codes* link to the *Occupation Codes*.

Select the *Category Codes* tab.

The screenshot shows the 'CSO Reference Data' application window. The 'Reference Data' section has five radio buttons: 'CSO Category Codes' (selected), 'CSO Employee Status', 'CSO Payment Types', 'CSO BIK Types', and 'CSO Employment Contract Types'. Below this, there are three tabs: 'Category Codes' (highlighted with a red box), 'Occupation Codes', and 'Occupation Status Codes'. The 'Category Codes' tab displays a table with two columns: 'Category Code' and 'Description'.

Category Code	Description
A	MANAGERS, PROFESSIONALS AND ASSOCIATE PROFESSIONALS
B	CLERICAL, SALES AND SERVICE WORKERS
C	PRODUCTION, TRANSPORT WORKERS, CRAFT AND TRADESPERSONS, OTHER MANUAL W

4.3. Occupation Codes

The *Occupation Codes* link to the *Occupation Status Codes*.

Select the *Occupation Codes* tab.

The screenshot shows the 'CSO Reference Data' application window. At the top, there is a toolbar with various icons. Below the toolbar, the 'Reference Data' section contains five radio buttons: 'CSO Category Codes' (selected), 'CSO Employee Status', 'CSO Payment Types', 'CSO BIK Types', and 'CSO Employment Contract Types'. Below this, there are three tabs: 'Category Codes', 'Occupation Codes' (highlighted with a red box), and 'Occupation Status Codes'. The 'Occupation Codes' tab displays a table with three columns: 'Occupation Code', 'Description', and 'Category Code'. The table contains nine rows of data, with the first row highlighted in blue.

Occupation Code	Description	Category Code
1	MANAGERS, SENIOR OFFICIALS	A
2	PROFESSIONALS	A
3	TECHNICIANS AND ASSOCIATED PROFESSIONALS	A
4	CLERICAL WORKERS	B
5	SALES AND SERVICE WORKERS	B
6	SKILLED AGRICULTURE AND FISHERY WORKERS	B
7	CRAFT AND RELATED TRADES WORKERS	C
8	PLANT AND MACHINE OPERATORS AND ASSEMBLERS	C
9	OTHER MANUAL OCCUPATIONS	C

4.4. Occupation Status Codes

The *Occupation Status Codes* link to the positions or job titles depending on setup parameters. See the [CSO EHECS Returns](#) user guide.

Select the *Occupation Status Codes* tab.

The screenshot shows the 'CSO Reference Data' application window. The 'Reference Data' section has five radio buttons: 'CSO Category Codes' (selected), 'CSO Employee Status', 'CSO Payment Types', 'CSO BIK Types', and 'CSO Employment Contract Types'. Below this, there are three tabs: 'Category Codes', 'Occupation Codes', and 'Occupation Status Codes' (highlighted with a red box). The 'Occupation Status Codes' tab displays a table with three columns: 'Occupation Status Code', 'Description', and 'Occupation Code'.

Occupation Status Code	Description	Occupation Code
11	LEGISLATORS AND SENIOR OFFICIALS	1
12	CORPORATE MANAGERS	1
13	MANAGERS OF SMALL ENTERPRISES	1
21	ENGINEERING AND SCIENCE PROFESSIONALS	2
22	LIFE AND SCIENCE PROFESSIONALS	2
23	TEACHING PROFESSIONALS	2
24	OTHER PROFESSIONALS	2
31	ENGINEERING AND SCIENCE ASSOCIATE PROFESSIONALS	3
32	LIFE SCIENCE AND HEALTH ASSOCIATE PROFESSIONALS	3
33	TEACHING ASSOCIATE PROFESSIONALS	3
34	OTHER ASSOCIATE PROFESSIONALS	3
41	OFFICE CLERKS	4
42	CUSTOMER SERVICE CLERKS	4
51	PERSONAL AND PROTECTIVE SERVICE WORKERS	5
52	MODELS, SALESPERSONS AND DEMONSTRATORS	5

4.5. Assigning CSO Occupation Status Codes to Positions/Job Titles

The newly setup *CSO Occupation Status Codes* need to be assigned to employees, so the employees' information can be accounted for under the correct Category on the CSO Returns.

Assign *CSO Occupation Status Codes* to employees in one of the following ways:

Modules	Assign to Employees
CorePay Only Sites	Position References Screen
CoreTime and CorePay Sites	Job Titles Screen
Sites that don't maintain Position References or Job Titles	Assign CSO Employee Status

4.5.1. Position References Screen

The screen allows you to assign a *CSO Occupation Status Code* to a *Position Code*.

Go to *CorePay > Reference > Position References*.

Note:

When setting up new *Position References*, ensure you map them to an *Occupational Status Code* to allow the employees to be returned on the *CSO EHECS Return*.

4.5.2. Job Titles Screen

This screen allows you to assign a *CSO Occupation Status Code* to a *Job Title*.

Go to *CorePersonnel > Reference > Reference D – J > Job Title Codes*.

Job Title Code	Description	Analysis Code	Description	Occupation Status	Description	Active	Active on Staff Req.
A1	Recruitment Administrator					☒	☐
A2	Finance Analyst					☒	☐
A3	System Administrator					☒	☐
ACCT	Accountant					☒	☒
ADM	Administrator					☒	☒
BA	**Do Not Use**					☐	☐
BM	Budget Manager					☒	☒
BUDA	Budget Analyst					☒	☒
CB	**Do Not Use**					☐	☐
CEO	Ceo					☒	☒
CFO	Chief Financial Officer					☒	☒
CTO	Chief Technology Officer					☒	☒
CUST	Customer Support Analyst					☒	☐
CUST2	Senior Customer Support Analyst					☒	☐

Note:

When setting up new *Job Titles*, ensure you map them to an *Occupational Status Code* to allow the employees to be returned on the *CSO EHECS Return*.

4.5.3. Assign CSO Employee Status

This screen allows you to assign a *CSO Employee Status* and a *CSO Occupation Status Code* to an individual employee.

1. Go to *CorePay > Core CSO > ENECS\NES > Generate EHECS Return Menu*.
2. Select *05 – Assign CSO Employee Status*.

Employee Reference	Forename Surname	CSO Emp. Status	Occupation Status Code	Hourly/Daily
0001634	Forename Surname-0001634	F	11	LEGISLATORS AND SENIOR OFFICIALS
0003490	Forename Surname-0003490			
0006418	Forename Surname-0006418			
0006740	Forename Surname-0006740			
0006771	Forename Surname-0006771			
0006959	Forename Surname-0006959			
0012241	Forename Surname-0012241			
0012255	Forename Surname-0012255			
0013640	Forename Surname-0013640			
0014302	Forename Surname-0014302			
0014395	Forename Surname-0014395			
0014618	Forename Surname-0014618			
0015860	Forename Surname-0015860			
0016983	Forename Surname-0016983			

5. CSO Employee Status

5.1. Overview

This screen allows you to set up and maintain the employees' CSO *Employee Status*. The CSO defines CSO Employee status values. These have been preloaded as part of the software installation.

There are currently four CSO Employee Statuses:

- F – Full Time
- P – Part Time
- A – Apprentice/Training
- O – Other Person Engaged

The CSO Employee Status defines how an employee is returned in the CSO returns. For example, if an employee is linked to *A – Apprentice/Trainee*, they are treated differently and appear under a different section of the CSO returns than if they had been marked as *F - Full Time*.

**Note:**

For further details, see the [CSO EHECS Returns](#) user guide.

The screenshot shows the 'CSO Reference Data' window. In the 'Reference Data' section, 'CSO Employee Status' is selected and highlighted with a red box. Below this, a table lists the preloaded employee statuses.

CSO Employee Status	Description
A	APPRENTICE/TRAINEE
E	EXCLUDED
F	FULL TIME
O	OTHER PERSONS ENGAGED
P	PART TIME

6. CSO Payment Types

6.1. Overview

CSO *Payment Types* are preloaded as part of the CSO Software delivery. This screen allows you to set up and maintain the employees' CSO *Payment Types*.

The CSO *EHECS Return* requires values to be recorded for payments in the following types:

- REG - BASIC WAGES/SALARIES (INCL.SICK/HOL PAY)
- REGBNCM - REGULAR BONUS/COMMISSION
- IREGSH - REGULAR SHIFT
- IREGBNCM - IRREGULAR BONUS/COMMISSION
- IREGSH - IRREGULAR SHIFT
- OT - OVERTIME
- EXCL - EXCLUDE
- RED - REDUNDANCY

The screenshot shows the 'CSO Reference Data' window. In the 'Reference Data' section, 'CSO Payment Types' is selected and highlighted with a red box. Below this, the 'CSO Payment Type' table is displayed with the following data:

Type	Description
EXCL	EXCLUDE
IREGBNCM	IRREGULAR BONUS/COMMISSION
IREGSH	IRREGULAR SHIFT
OT	OVERTIME
RED	REDUNDANCY
REG	BASIC WAGES/SALARIES (INCL.SICK/HOL PAY)
REGBNCM	REGULAR BONUS/COMMISSION
REGSH	REGULAR SHIFT

6.2. Link CSO Payment Types to Pay Codes

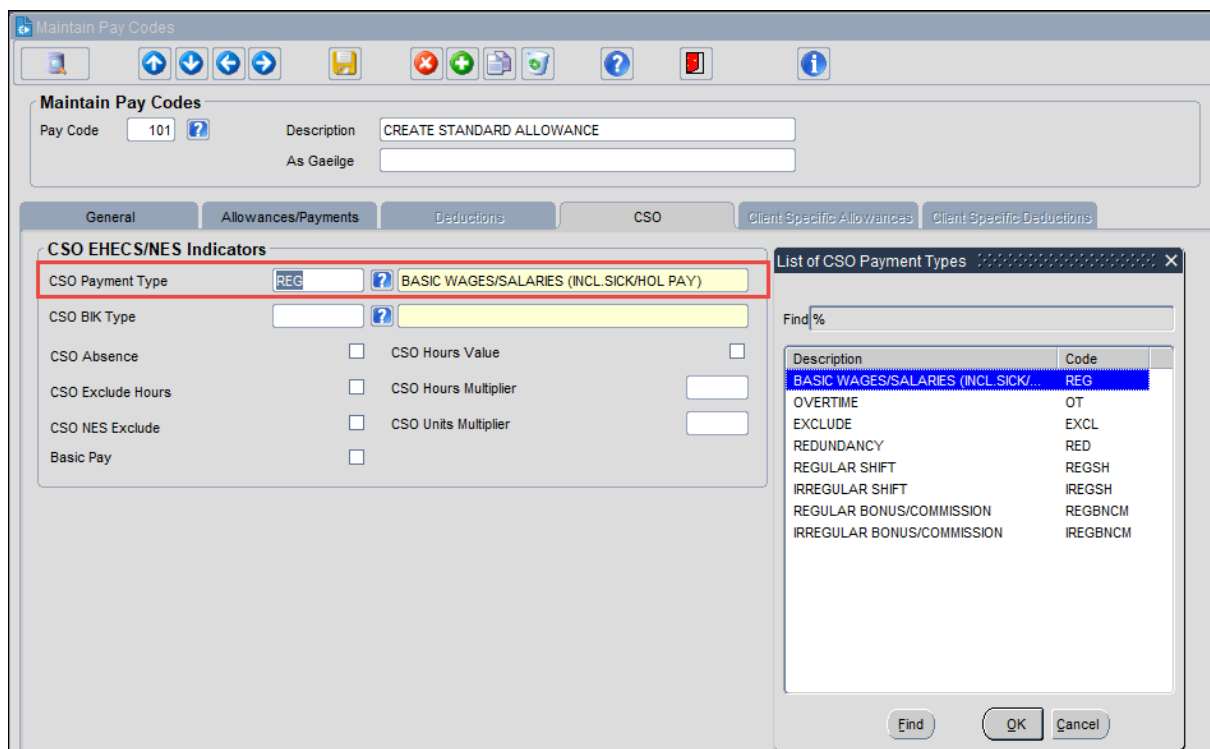

Ensure *Pay Codes* in *Payroll* are linked to these *Payment Types*.

Note:

Any pay code that does not fall under any a payment type, and should not be included in the *CSO Returns*, set be set to *E – Exclude*. These pay codes will not be included in any figures derived for the *CSO Returns*.

To assign a pay code to one of these *CSO Payment Types*:

1. Go to *CorePay > Reference > Pay Codes*.
2. Select the *CSO Tab*.
3. Enter a *CSO Payment Type* in the *CSO Payment Type* field or click  to select a *CSO Payment Type* from the LOVs.

Maintain Pay Codes

Pay Code: 101 Description: CREATE STANDARD ALLOWANCE

OVERTIME	OT
EXCLUDE	EXCL
REDUNDANCY	RED
REGULAR SHIFT	REGSH
IRREGULAR SHIFT	IREGSH
REGULAR BONUS/COMMISSION	REGBNCM
IRREGULAR BONUS/COMMISSION	IREGBNCM

Find OK Cancel

4. Click **Save**.

Note:

- Deductions are not looked at as part of the CSO module. Therefore, pay codes marked as deductions do not need to be mapped, as they are not relevant for the returns.
- *Nett Pay* should be set to *E – Exclude*.
- Ensure new pay codes are mapped to a *CSO Payment type or BIK* (if applicable) to include in the CSO returns.
- If *Generate EHECS details* results with employees are missing, this may be because either the pay codes and/or Positions/Job Titles have not been mapped.
- If there are is a lot of employees missing from the *Section A – Head count*, and they were paid at the start/end of the quarter, this may be because the Basic Pay indicator on the pay codes is not set to 'Y'. (This indicator is also used in pension renewal). The CSO module only returns employees in the head count where they have received a basic type of payment as per CSO requirements.

7. CSO BIK Types

7.1. Overview

The CSO *EHECS Return* requires values to be recorded for *BIK payments*. These *BIK types* are preloaded as part of the CSO software delivery. This screen allows you to set up and maintain the employees' *CSO BIK Types*. The current CSO BIK Status

- Company Vehicle
- Health Insurance
- Staff Housing
- Other

The screenshot shows a software window titled "CSO Reference Data". It features a toolbar with navigation and action icons. Below the toolbar, there is a "Reference Data" section with five radio button options: "CSO Category Codes", "CSO Employee Status", "CSO Payment Types", "CSO BIK Types" (which is selected and highlighted with a red rectangle), and "CSO Employment Contract Types". Below this, the "CSO BIK" section contains a table with two columns: "Type" and "Description". The table lists four preloaded entries: "CC" for "COMPANY VEHICLE", "HI" for "HEALTH INSURANCE", "OTH" for "OTHER", and "SH" for "STAFF HOUSING". There are several empty rows below these, indicating the ability to add new BIK types. A vertical scrollbar is visible on the right side of the table.

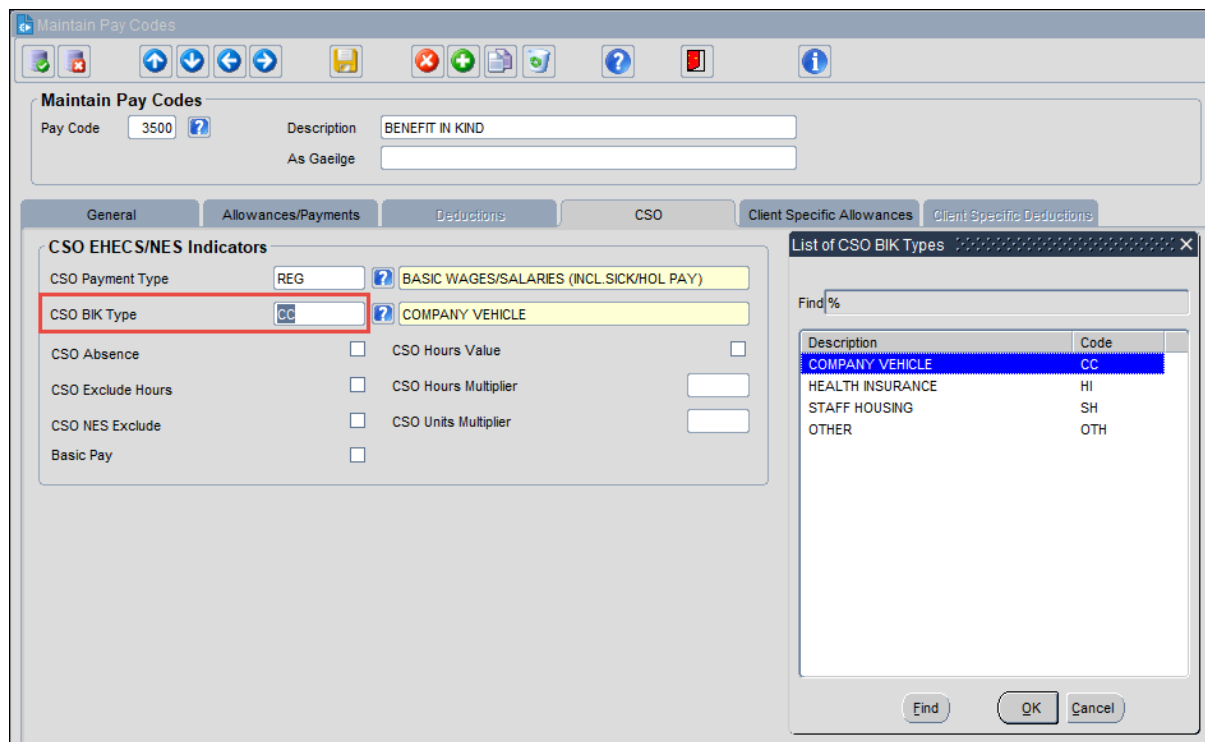

CSO BIK Type	Description
CC	COMPANY VEHICLE
HI	HEALTH INSURANCE
OTH	OTHER
SH	STAFF HOUSING

7.2. Link CSO BIK Types to Pay Codes

Ensure pay codes in Payroll are linked to these BIK types.

To assign a pay code to one of these CSO BIK Types:

1. Go to *CorePay > Reference > Pay Codes*.
2. Select the *CSO Tab*.
3. Enter a *CSO BIK Type* in the *CSO BIK Type* field or click  to select a *CSO BIK Type* from the LOVs.

The screenshot shows the 'Maintain Pay Codes' window with the 'CSO' tab selected. The 'CSO EHECS/NES Indicators' section is visible, with the 'CSO BIK Type' field highlighted by a red box. The field contains the code 'CC'. To the right, a 'List of CSO BIK Types' dialog box is open, displaying a table of BIK types and their codes.

Description	Code
COMPANY VEHICLE	CC
HEALTH INSURANCE	HI
STAFF HOUSING	SH
OTHER	OTH

4. Click **Save**.

8. CSO Employee Contract Types

8.1. Overview

**Note:**

- This section is no longer applicable.
- Previously the CSO NES Return required you to identify into which type of employment contract type the employee falls.

The screenshot shows the 'CSO Reference Data' application window. The 'Reference Data' section on the left has five radio buttons: 'CSO Category Codes', 'CSO Employee Status', 'CSO Payment Types', 'CSO BIK Types', and 'CSO Employment Contract Types'. The 'CSO Employment Contract Types' option is selected and highlighted with a red rectangle. The main area displays a table titled 'Emp. Contract' with two columns: 'Type' and 'Description'. The table contains three rows of data: '1 INDEFINITE CONTRACT', '2 FIXED TERM', and '3 APPRENTICE/TRAINEE'. There are several empty rows below these. A vertical scrollbar is visible on the right side of the table.

Type	Description
1	INDEFINITE CONTRACT
2	FIXED TERM
3	APPRENTICE/TRAINEE

9. Other Pay Code Configuration

9.1. Overview

Several other pay code indicators dictate:

- Which pay codes are returned on the CSO Return.
- Which section these pay codes are returned in on the CSO Return.

1. Go to *Payroll > Reference > Pay Codes*.
2. Select the *CSO tab*.

9.2. CSO Absence

Note:

- This section is no longer relevant for EHECS as the CSO no longer require that absences be returned (previously this was section 4 of the EHECS).
- This option is only used in sites that do not use CoreTime and record paid absence through Payroll.

Enable the *CSO Absence indicator* if the pay code is identified as a CSO Absence, i.e. Paid Sick leave, Maternity leave, Public Holidays and any other kind of paid leave. This option is only used in sites that do not use CoreTime and record paid absence through Payroll.

9.3. CSO Exclude Hours

Certain hours employees are being paid for might need to be excluded from the CSO Returns, e.g. employee shift premium or acting up. This is because these payments are made to the employee but do not represent extra hours an employee is working, i.e. they get this allowance on top of their payment for their normal working with, but they don't work extra hours to receive the payment. This is to prevent the distorting of Paid hours in the returns.

A way to identify what pay codes to exclude is by running the Pay Code Report:

1. Go to CorePay > Reports > Reference Reports Selections Criteria.
2. Run the Pay Code Listing Report.

Note:

This report gives you a breakdown of your pay codes based on analysis types. You should review the pay codes asking yourself whether this payment represents hours an employee is working (or was paid to work) or does the employee receive the payment regardless. Pay codes that are set up as Allowances or BIK (e.g. Salary, Basic Wages, Overtime, Allowances and Non-Taxable Allowances) need to be reviewed. Deductions do not need to be reviewed as they are not considered for the EHECS returns.

9.4. CSO NES Exclude

Note:

This indicator is no longer applicable to CSO Returns.

Enable the *CSO NES Exclude* indicator if the pay code should be excluded from the reference month Gross Earnings calculation of the NES return, e.g. Tool Allowances. This option is only used in sites where clients do not use CoreTime and record paid absence through Payroll instead.

9.5. CSO Hours Value

Enable the *CSO Hours Value* indicator where there are hours associated with value pay codes. This is used for determining *Hours Paid* in Quarter on the CSO return. If there are value pay codes with hours associated, then these are used as the contracted hours for that period.

Note:

All other payments are ignored.

9.6. CSO Hours Multiplier

Enable the CSO Hours Multiplier indicator where employees are paid for hours worked through a value. From the employees' history, value payments are multiplied by the pay code CSO Hours Multiplier to derive the hours.

Note:

Where the CSO Multiplier has not been populated on a value pay code, only one hour is included on the CSO EHECS Return. This is to ensure employees contracted hours are not doubled for a period.

Note the following:

- Hours are added to standard or overtime hours, depending on the selected CSO Payment Type.
- Value payments can only be included for salary paid employees.
- This solution can only be used if the pay code is specific to the work an employee completes.
- All employees receiving it are on the same rate of pay for this pay code.
- The CSO Hours Multiplier will also have to be maintained in case of rate changes.

Example:

If an employee received a value payment of €100 and we entered 20.00 in the '*CSO Hours Multiplier*' field that employee will be awarded 5 hours for this payment in the CSO Returns. ($€100/20 = 5$ hours)

9.7. CSO Unit Multiplier

Enable the CSO Unit Multiplier for unit pay codes to be included in hours worked. The CSO Unit Multiplier must also be populated.

From the employees' history, units' payments are multiplied by the pay code *CSO Unit Multiplier* to derive the hours.

**Note:**

- Hours are added to standard or overtime hours, depending on the selected CSO Payment Type.
- Unit payments are applicable for both salary and hourly paid employees.

**Example:**

If an employee worked 10 units and we entered 5 in the 'CSO Units Multiplier' field, that employee will be awarded 50 hours for this in the CSO Returns.

9.8. Basic Pay Indicator

The EHECS Module checks to see if an employee has received a basic pay type payment at the start and the end of the quarter. They must have received this to be returned in the headcount.

Set the Basic Pay Indicator to 'Y' for pay codes that are part of an employees' Basic Pay.

**Note:**

This field is also used in the Pension Renewal Module.
