Company logos are uploaded via a preconfigured widget. It is advised that this widget be added to a standalone tab on a dashboard. For example, this is typically added to the *Administrator Dashboard* as only system administrators should have access to do this.

Note: Please refer to the Dashboard Configuration user guide for guidance on how to configure a new tab and new widget.

2.2. Grant Security Access to Upload Logos

1. *Quick Jump* > *Security*.
2. Click **Menu Profiles** tab.

3. Enable *the Employee Document Upload* menu option. This controls the ability to upload documents
