1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide detailed guidance on how to configure access for *CorePortal* users to the *Payroll Dashboard*. This includes:

- What is configurable on the *Payroll Dashboard* and how that is managed?
- The default *Security Menu Profile* that is available to assign to *CorePortal* users.
- A breakdown of all available *Payroll Dashboard* menu options in *Security*, that can be used to configure your own *Menu Profiles* for users.

Note:

This guide does not include details on how users are given access to the underlying payroll data i.e. how to see Pay Groups and employees. Please see the **Configure Pay Group Access** on the CoreHR University for further details on how that is managed.

1.2. How is the Payroll Dashboard Configured?

The following points should be taken into consideration when configuring the *Payroll Dashboard*:

- The *Payroll Dashboard* cannot be configured by the *Dashboard Configuration* screen. This is a functional dashboard and it is not possible to reorder or remove tabs. However, Menu Profiles can be used to make sure users only see screens that they should have access to.
- Access to the *Payroll Dashboard*, tabs, screens and further options are all controlled by Security Menu Profiles.
- The default menu profile “CorePortal_Pay_Admin” is available to quickly give users access to the all options on the Payroll Dashboard.

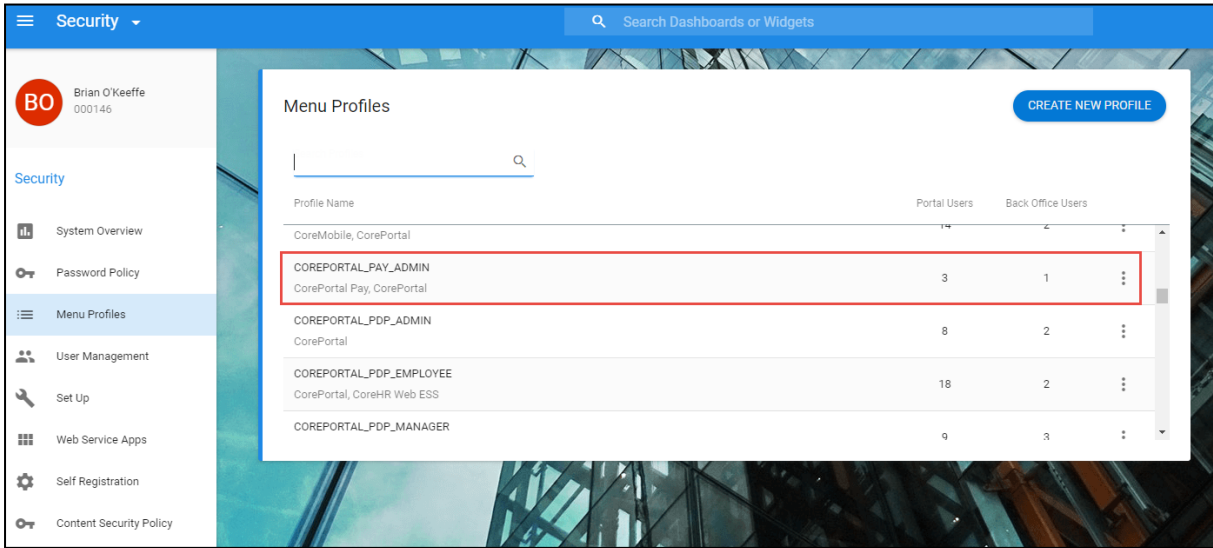

2. Default Menu Profile

2.1. Full Access for Payroll Admins

The below Menu Profile enables all available menu options for the *Payroll Dashboard* by default. The menu profile can be edited to remove options not required for your organisation. Alternatively, you can create a new Menu Profile from scratch or copy and edit the below Menu Profile using the guidance in [3. Payroll Dashboard Menu Options](#).

Menu Profile	
COREPORTAL_PAY_ADMIN	

The below screenshot shows this *Menu Profile* in *Security*.

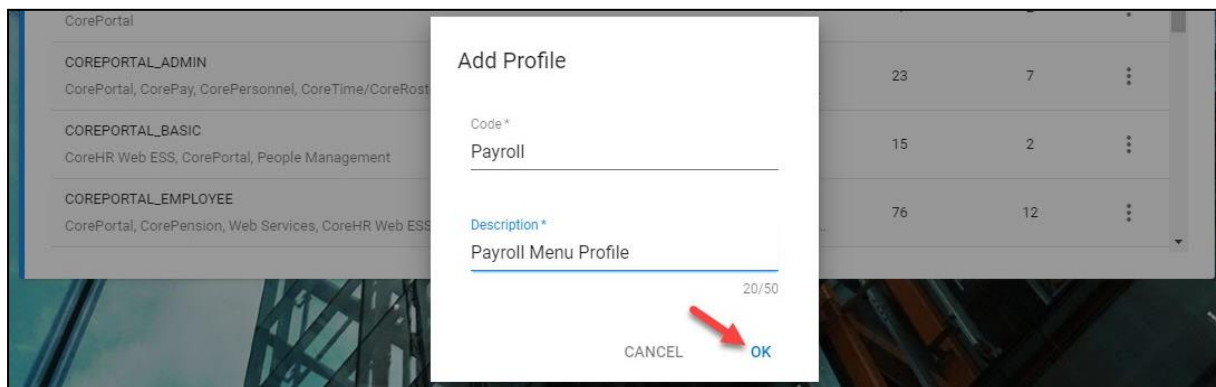

2.2. Building a Custom Menu Profile

You don't have to use the default Menu Profile. You can edit an existing Menu Profile or create your own Menu Profile for different types of users.

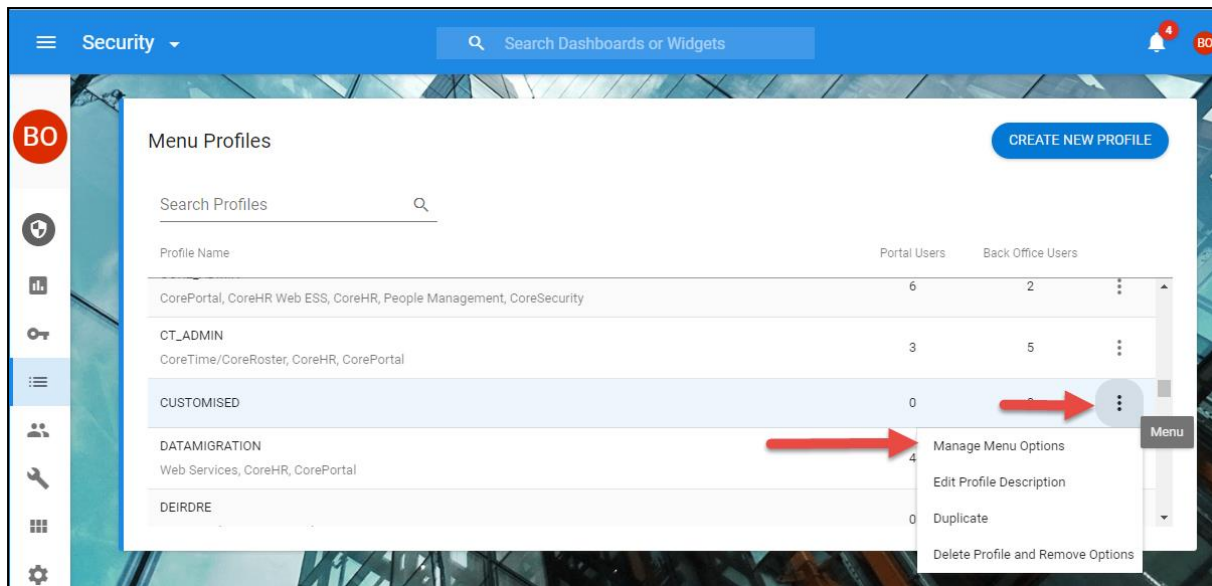

[Section 3](#) includes a full list of available Menu Options and what they control, to help you decide what options may be required.

To create a customised menu option:

1. Quick jump to *Security*.
2. Open the *Menu Profiles* tab.
3. Click on **Create New Profile**.
4. Enter a *Code* and *Description*.
5. Click **OK**.

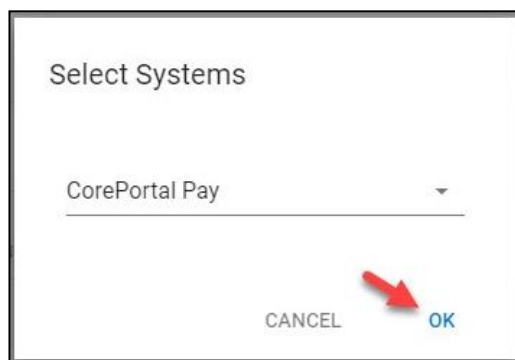

6. Click the  button, on the newly created *Menu Profile*.
7. Click **Manage Menu Options**.

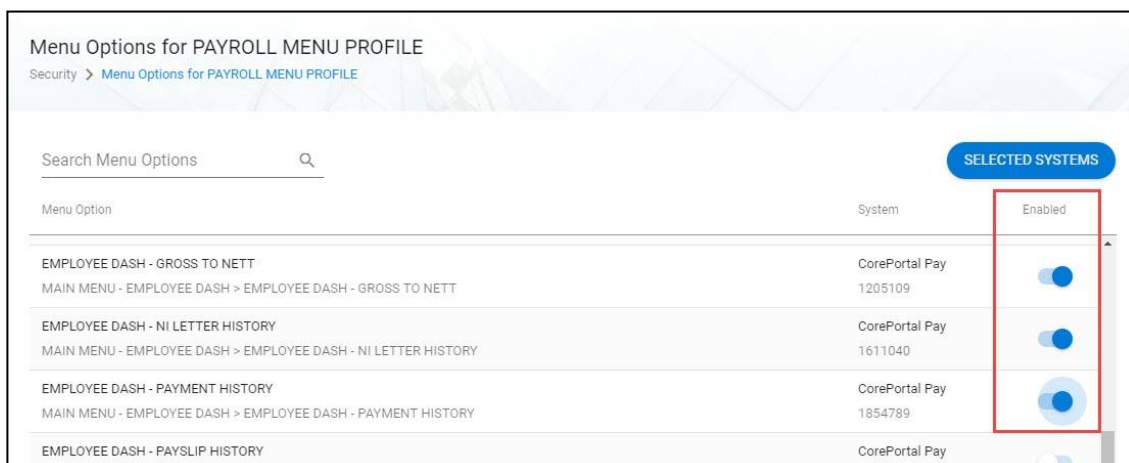

8. Choose the **CorePortal Pay** system.

9. Click **OK**.

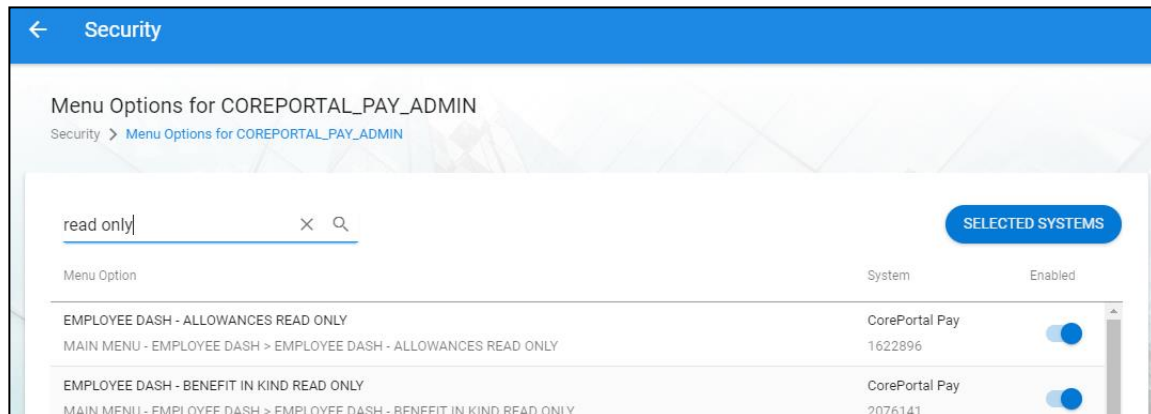

10. Switch the **Enable** indicator on for the required Menu Options.

2.3. Read Only Access

To grant read only access to portal users, assign only the menu options that include the text as read only. This can be done by searching for all menu options that include the text “read only” under the CorePortal Pay system. These options allow users to view payroll screens, but they cannot complete any payroll tasks or update employee records. Follow the steps in [2.2. Building a Custom Menu Profile](#) for guidance on how to create a new menu profile.

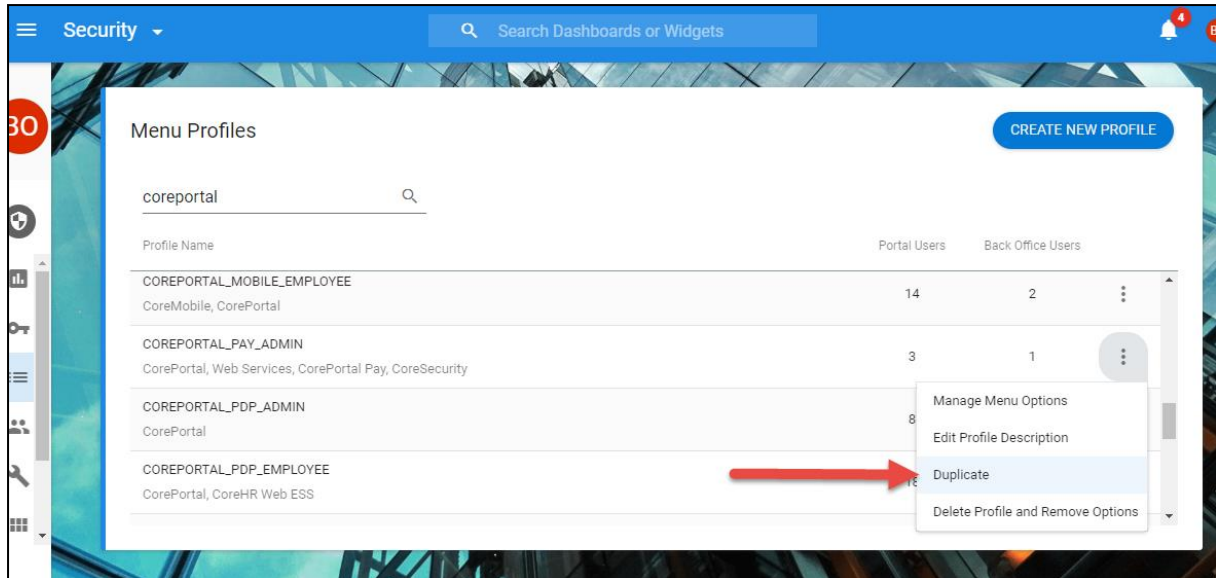

2.4. Duplicate an Existing Menu Profile

Another option to quickly create a new menu profile, would be to duplicate the “CorePortal_Pay_Admin” Menu Profile and edit this to enable/disable the required Menu Options.

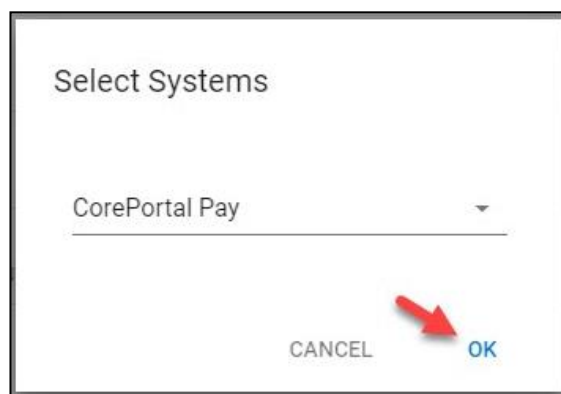

To duplicate a Menu Profile:

1. Quick jump to *Security*.
2. Open the *Menu Profiles* tab.
3. Select the *Menu Profile* to duplicate.
4. Click on the  button.
5. Click **Duplicate**.

6. Enter a *Code* and *Description*.

7. Click **OK**.

8. To edit the new profile:

a. Search for the new profile.

b. Click the  button and select **Manage Menu Options**.

9. Switch the **Enable** indicator on/off as needed for the required Menu Options for your new profile.

3. Payroll Dashboard Menu Options

3.1. Overview

This section provides a detailed breakdown of each of the available menu options and what they control for the user. Each sub section is grouped according to the different sections of the dashboard, e.g. for all the menu options needed for the *Manage Payroll* tab, see section [3.4. Manage Payroll](#).

**Note:**

All menu options are under the “CorePortal Pay” system in Security, unless otherwise specified.

3.2. Access to the Payroll Dashboard

To access the *Payroll Dashboard*, the user requires the following menu option:

System	Menu Option	Description
CorePortal Pay	Main Menu - Payroll View Access	This turns on access to the <i>Payroll Dashboard</i> .

3.3. Access to the Main Menu Tabs

To access the *Payroll Dashboard* tabs, the user requires the following menu options:

System	Menu Option	Description
CorePortal Pay	Main Menu - Manage Payroll	This turns on the <i>Payroll Dashboard</i> > <i>Manage Payroll</i> tab for running payroll.
CorePortal Pay	Main Menu - Employee Dash	This turns on the <i>Payroll Dashboard</i> > <i>Employee</i> tab for viewing employee payroll information.
CorePortal Pay	Main Menu - Enquiry	This turns the <i>Payroll Dashboard</i> > <i>Enquiry</i> tab for viewing payroll information.

System	Menu Option	Description
CorePortal Pay	Main Menu - Payroll Uploads	This turns on the <i>Payroll Dashboard > Uploads</i> tab for uploading payroll information.
CorePortal Pay	Main Menu - Payroll Reports	This turns on the <i>Payroll Dashboard > Predefined Reports</i> tab for running predefined reports.
CorePortal Pay	Main Menu - Settings	This turns on the <i>Payroll Dashboard > Settings</i> tab for accessing payroll settings.
CorePortal Pay	Main Menu - Payrates	This turns on the <i>Payroll Dashboard > Pay Rates</i> tab for viewing and updating pay rates.
CorePortal Pay	Main Menu - Year End	This turns on the <i>Payroll Dashboard > Year End</i> tab for updating system legislative rates and running year end activities.
CorePortal Pay	Main Menu - Upload Payroll Files	This turns on the <i>Payroll Dashboard > Upload Payroll Files</i> tab for uploading payroll files.
CorePortal Pay	Main Menu - Document Requests	This turns on the <i>Payroll Dashboard > Document Request</i> tab for viewing and creating document requests.

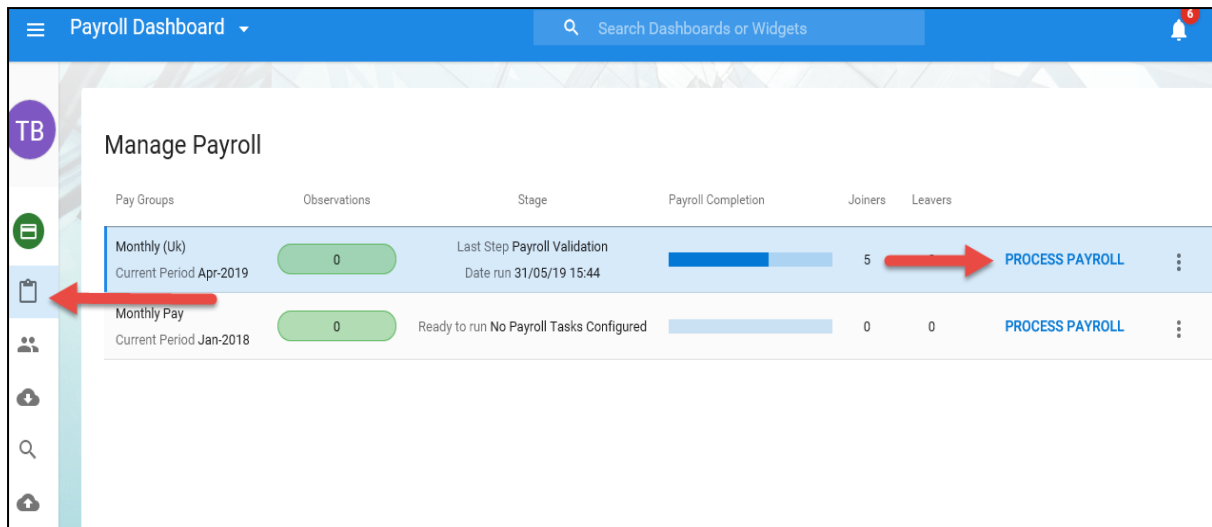

3.4. Manage Payroll Tab

This section provides a list of all the applicable menu options for the screens and further options on the *Manage Payroll* tab and what each of them controls.

3.4.1. Menu Options for Running Payroll (5-Step)

This is the main screen on the *Payroll Dashboard* for running payroll. To access this:

1. Click on the **Manage Payroll** tab.
2. Click on the **Process Payroll** button.

Access to run 5 step payroll jobs is controlled by the below menu options:

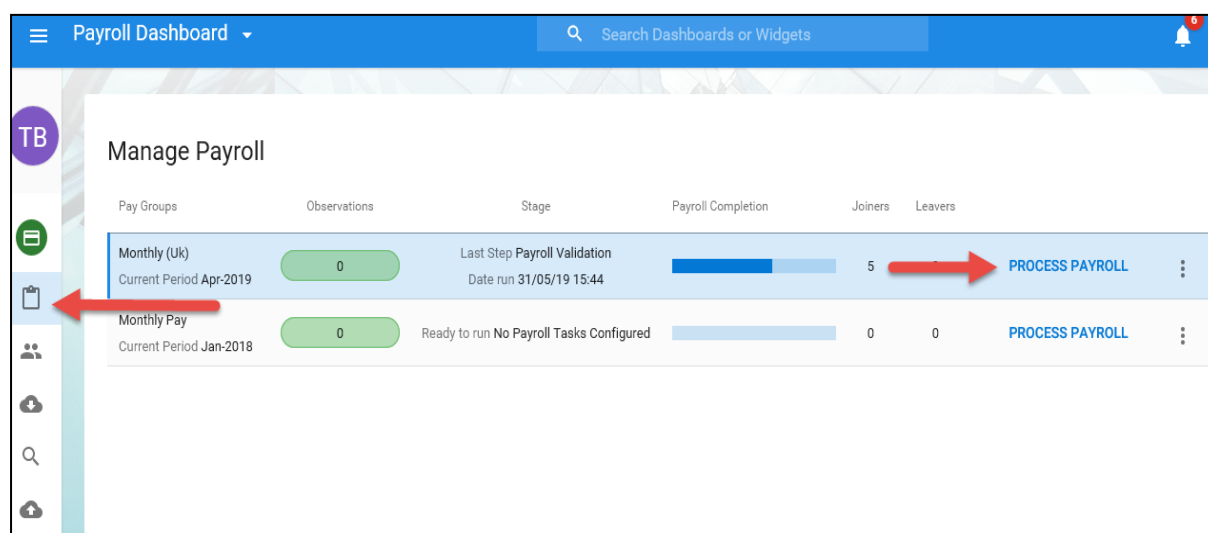

System	Menu Option	Description
CorePortal Pay	Main Menu - Run Payroll	This turns on access to run payroll jobs in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.
CorePortal Pay	Run Payroll - Generate Salaries and Allowances	This turns on access to run the <i>Generate Salaries and Allowances</i> job in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.
CorePortal Pay	Run Payroll - Run Validation	This turns on access to <i>Run Validation</i> in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.
CorePortal Pay	Run Payroll - Confirm Timesheets	This turns on access to run a <i>Confirm Timesheets</i> job in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.
CorePortal Pay	Run Payroll - Payroll Update	This turns on access to run a <i>Payroll Update</i> job in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.

System	Menu Option	Description
CorePortal Pay	Run Payroll - Complete Update	This turns on access to run a <i>Complete Update</i> job in the <i>Payroll Dashboard</i> > <i>Manage Payroll</i> > <i>Process Payroll</i> screen

3.4.2. Menu Options for Running Payroll (3-Step)

This is the main screen on the *Payroll Dashboard* for running a 3-step payroll. To access this:

1. Click on the **Manage Payroll** tab.
2. Click on the **Process Payroll** button.

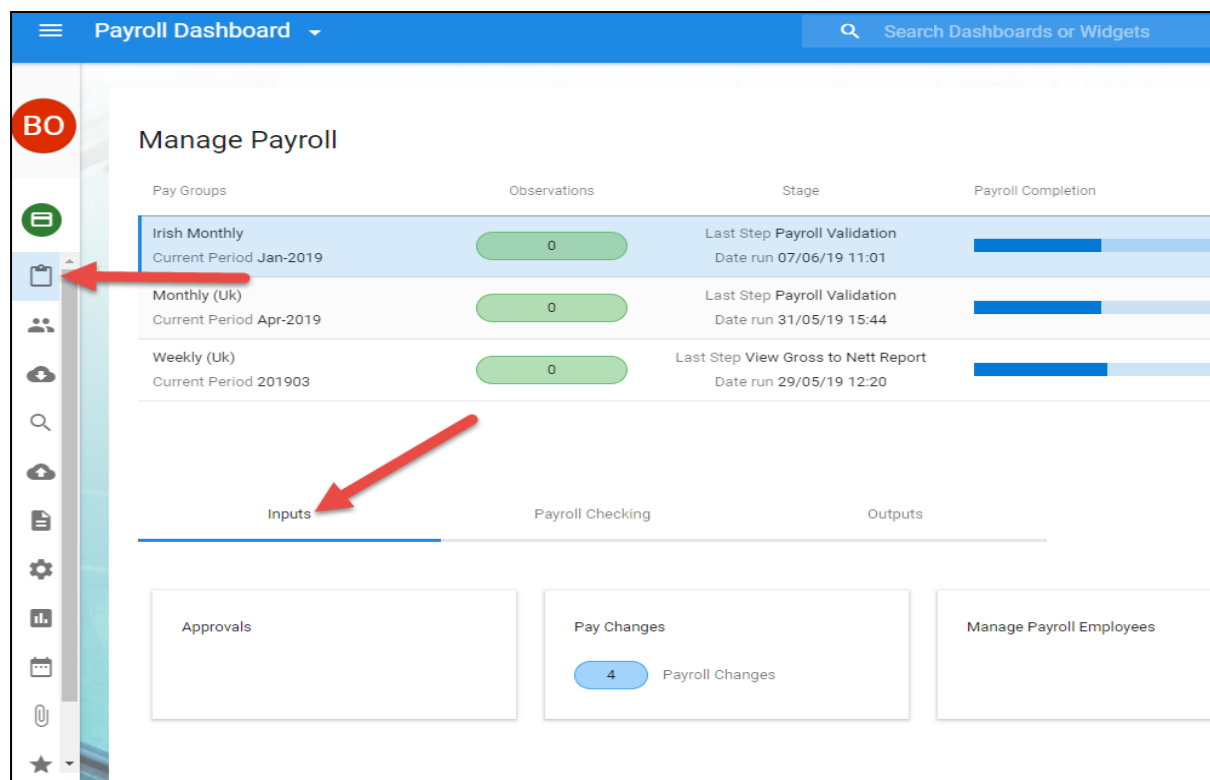

Access to run 3-step payroll jobs is controlled by the below menu options:

System	Menu Option	Description
CorePortal Pay	Main Menu - Run Payroll	This turns on access to run payroll jobs in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.
CorePortal Pay	Run Payroll - Pay Calculate	This turns on access to run a <i>Calculate Payroll</i> job in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.
CorePortal Pay	Run Payroll - Sign Off	This turns on access to run a <i>Sign Off payroll</i> job in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.
CorePortal Pay	Run Payroll - Pay Close	This turns on access to run a <i>Close Payroll</i> job in the <i>Payroll Dashboard > Manage Payroll > Process Payroll</i> screen.

3.4.3. Menu Options for the Inputs Tab

This is the **Inputs** tab, for the specified pay group, on the *Manage Payroll* Screen.

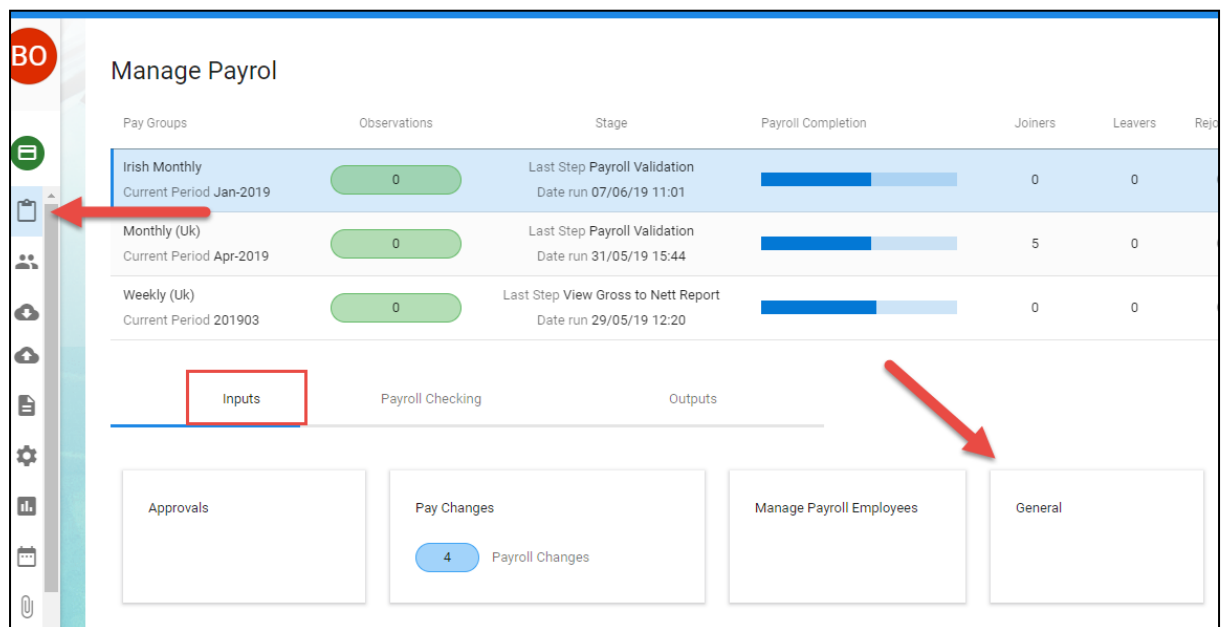

Access to *Manage Payroll - Inputs* tab is controlled by the following menu options (next page):

System	Menu Option	Description
CorePortal Pay	Manage Payroll - Inputs	This turns on access to <i>the Dashboard > Manage Payroll > Inputs</i> tab.
CorePortal Pay	Inputs - Approvals	This makes the Approvals button appear on the <i>Payroll Dashboard > Manage Payroll > Inputs</i> tab, for approving joiners and rejoiners.
CorePortal Pay	Inputs - Pay Changes	This makes the Pay Changes button appear on the <i>Payroll Dashboard > Manage Payroll > Inputs</i> tab, for viewing payroll changes.
CorePortal Pay	Inputs - Manage	This makes the Manage Payroll Employees button appear on the <i>Payroll Dashboard > Manage Payroll > Inputs</i> tab, for viewing employee records.

System	Menu Option	Description
CorePortal Pay	Inputs - General	This makes the General button appear on the <i>Payroll Dashboard > Manage Payroll > Inputs tab</i> , for accessing various options.
CorePortal Pay	Inputs - Enquiries	This makes the More Info button appear on the <i>Payroll Dashboard > Manage Payroll > Inputs tab</i> , for accessing payroll enquiries.

3.4.4. Menu options for the Inputs Tab - General Screen

This is the **General** button, for the specified pay group, on the *Manage Payroll* Screen.

Access to *Manage Payroll - Inputs - General* button can be controlled by the following menu options:

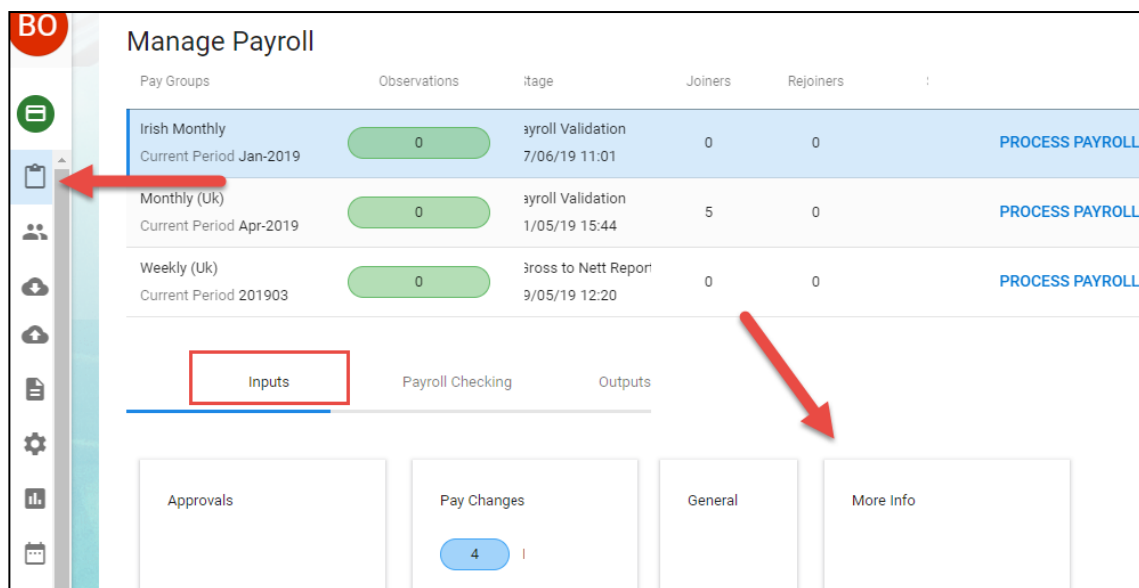

System	Menu Option	Description
CorePortal Pay	Main Menu - Payroll General	This makes the General button appear on the <i>Payroll Dashboard > Manage Payroll > Inputs tab</i> for running payroll tasks.
CorePortal Pay	Maintain Tax Details	This makes the Maintain Tax Details button appear on the <i>Payroll Dashboard > Manage</i>

System	Menu Option	Description
		<i>Payroll > Inputs > General screen</i> , for maintaining employee tax details.
CorePortal Pay	Amend Employee Pay Group	This makes the Amend Employee Pay Group button appear on the <i>Payroll Dashboard > Manage Payroll > Inputs > General screen</i> , for amending an employee's pay group.
