1. Overview

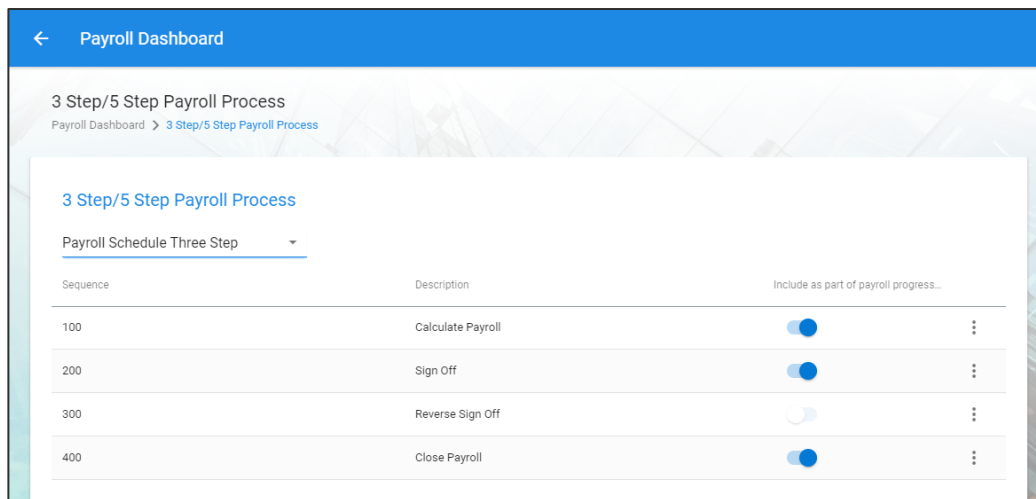

1.1. Purpose of the Guide

The purpose of this document is to provide guidance and instruction on how to configure the Payroll Task List.

1.2. What is the Task List?

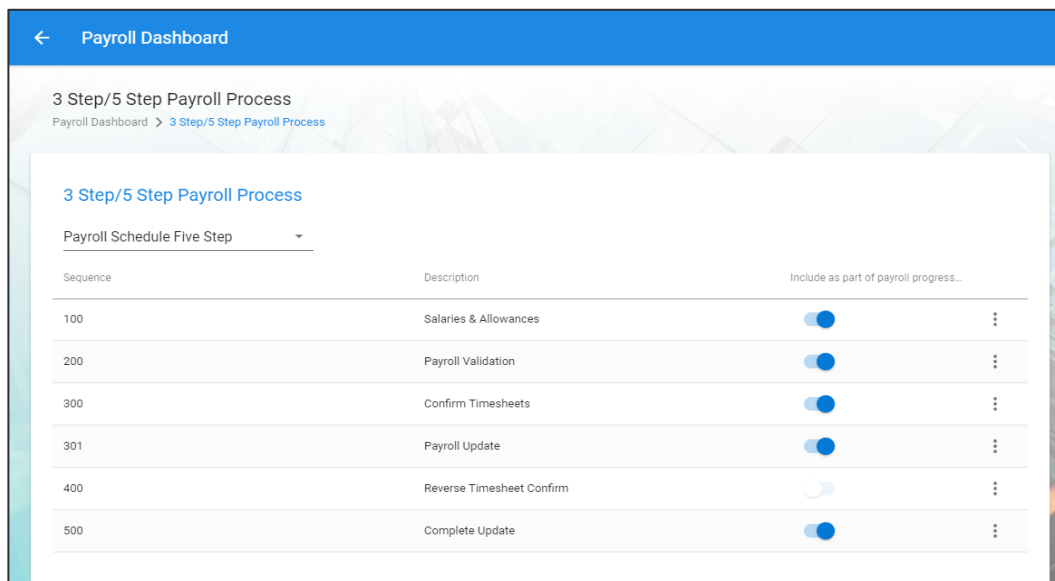

As part of the software delivery, Payroll provides 2 pre-configured options for running payroll. For more information, please see the *Processing Payroll* user guide.

- The 3 Step Payroll Schedule

Sequence	Description	Include as part of payroll progress...	
100	Calculate Payroll	☒	⋮
200	Sign Off	☒	⋮
300	Reverse Sign Off	☐	⋮
400	Close Payroll	☒	⋮

- The 5 Step Payroll Schedule

Sequence	Description	Include as part of payroll progress...	
100	Salaries & Allowances	☒	⋮
200	Payroll Validation	☒	⋮
300	Confirm Timesheets	☒	⋮
301	Payroll Update	☒	⋮
400	Reverse Timesheet Confirm	☐	⋮
500	Complete Update	☒	⋮

Payroll: Configuring the Task List

These are system tasks which cannot be deleted or amended and must be processed in that sequence. For example, *Salaries and Allowances* must always be run before *Payroll Validation*, and *Payroll Validation* must always be completed before *Confirm Timesheets*.

Additional steps/tasks can be added between the task list. You may have other manual tasks which you want to add to form part of their own checklist.

For example:

- The 5 Step Payroll Schedule
 - Salaries & Allowances
 - Payroll Validation
 - **View Gross to Net**
 - Confirm Timesheets
 - Payroll Update
 - Complete Update
 - **Print Payslips**

Note:

Only the preconfigured system tasks listed on the 3 Step/5 Step Payroll Process must be run. Additional tasks added to the task list require manual intervention, i.e. View Gross to Nett and Print Payslips.

The new tasks are added and displayed on the task list:

2. Provide Access to Task Manager Configuration

2.1. Access to Task Manager on the Settings Tab

The following menu option is required for an employee to access the *Task Manager* screen from the Settings tab.

System	Menu Option
CorePortal Pay	Settings - Task Manager

Status	Impact
Enabled	The user has full view and edit access to the <i>Task Manager</i> screen.
Disabled	The user can still access the screen, but a 'You do not have access to this screen' message will be displayed.

3. Configuring the Task List

3.1. Add New Tasks to the Task List

1. Go to *Settings > General > Task Manager*.
2. Select a pay group from the *Pay Group* drop-down menu. This will populate the list of automatic tasks based on which of the 3 step or 5 step payroll processes are selected.
3. Add a *Notification Email Address* (Optional). This will generate email notifications when each task is signed off, i.e. completed. This is useful where a company may have multiple payroll administrators. A suggestion would be to use a generic email account, i.e. payroll@abcsolutions.co.uk whereby all relevant payroll users can see the payroll status and updates.
4. Click the blue **Add** button. This creates a new blank row.

5. Type a position for the new task. This will place the new task in the required order on the task list.
6. Type the Task Description. This is what will be displayed on the task list, e.g. View Gross to Nett.

Payroll: Configuring the Task List

The screenshot shows the 'Task Manager' section of the 'Payroll Dashboard'. At the top, there's a header with a back arrow and the title 'Payroll Dashboard'. Below it, the 'Task Manager' title is followed by a breadcrumb 'Payroll Dashboard > Task Manager'. A form area contains a dropdown menu labeled 'Please select a pay group' with '1 - Monthly Payroll (Uk)' selected, and a text field for 'Notification Email' with 'test@corehr.com'. Below the form is a table with columns 'Position' and 'Task Description'. The table lists five tasks: 1. Salaries & Allowances, 2. Payroll Validation, 3. View Gross to Net (highlighted with a red box), 4. Confirm Timesheets, and 5. Payroll Update. Each task has a 'DELETE' button to its right. An 'ADD' button is in the top right, and a 'SAVE' button is at the bottom right.

7. Click the green **Save** button.

3.1.1. Impact of new Tasks

Manage Payrolls Tab:

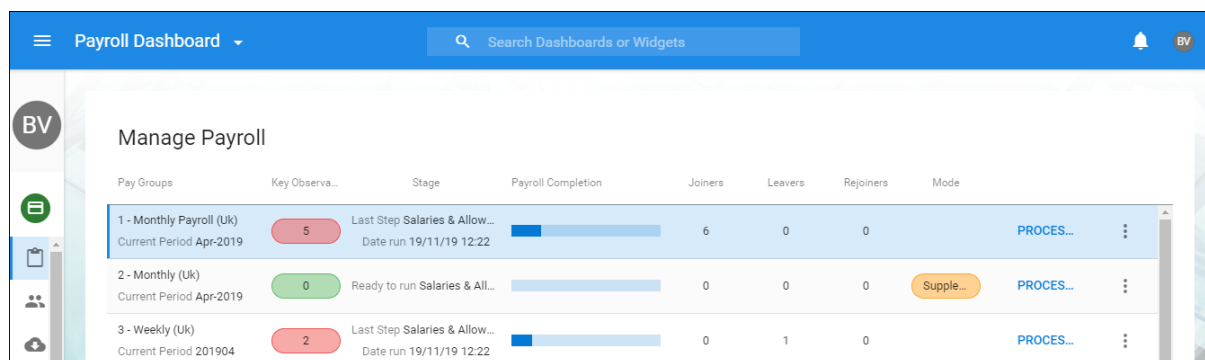

When the user clicks on a pay group with additional tasks, the **Tasks** button is displayed:

The screenshot shows the 'Manage Payroll' table. The first row is highlighted with a red box. A 'TASKS' button is highlighted with a red box in the top right corner of the table area.

This opens the checklist, which is the total tasks required to complete payroll. This includes all system tasks and the additional tasks added.

Payroll: Configuring the Task List

The screenshot displays the 'Payroll Dashboard' with a 'Tasks' section. At the top, there's a blue header with a back arrow and the text 'Payroll Dashboard'. Below this, the 'Tasks' section is titled, with a breadcrumb 'Payroll Dashboard > Tasks' and an 'ACTIONS' button. The main content area shows a table with columns for 'Task', 'Message', and 'Complete'. The 'Complete' column contains toggle switches. The tasks listed are: 'Salaries & Allowances' (Completed by CoreHR V28 19/11/19 12:22), 'Payroll Validation' (Failed), 'View Gross to Nett' (Not Actioned Yet), 'Confirm Timesheets' (Not Actioned Yet), 'Payroll Update' (Not Actioned Yet), and 'Complete Update' (Not Actioned Yet). At the bottom right, there is a green 'OVERALL SIGNOFF' button. A vertical scrollbar is visible on the right side of the task list.

Payroll Validation	Failed	☐
View Gross to Nett	Not Actioned Yet	☐
Confirm Timesheets	Not Actioned Yet	☐
Payroll Update	Not Actioned Yet	☐
Complete Update	Not Actioned Yet	☐

All system tasks will complete automatically as they are processed. However, the additional tasks need to be completed manually on the task list by enabling the complete indicator.

3.1.2. Overall Signoff

This button only becomes active when all tasks are marked as complete (all indicators are enabled). This closes the payroll period in the task list.
