1. Introduction

1.1. Purpose of this Guide

The purpose of this document is to provide guidance on how to use and configure *Payroll Messages* in Payroll. This document also covers the new *Unprocessed Employees* screen and how to use it.

1.2. What are Payroll Messages?

Payroll Messages replace the current process of checking *Observation Messages*. *Payroll Messages*, once generated, detail all *Errors*, *Warnings* and *Notifications* for the current *Payroll Period*.

Note:

- *Payroll Messages* are now interactive.
- *Payroll Messages* generate and can be configured at a *Pay Group Level*.
- All *Payroll Messages*, except for *System Messages*, can be:
 - [Enabled](#) or [Disabled](#).
 - [Classified](#) according to their urgency.
 - [Customised](#) to meet your organisation's requirements.
 - [Categorised](#) to customise your organisation's control checks.
- You can review *Payroll Messages* at an *Employee Level*.
- You can view which *Payroll Messages* other *Payroll Users* have actioned, providing you with confidence that all *Payroll Messages* have been reviewed and [Actioned](#).
- Previously, running the *Payroll Validation* task cleared all *Observation Messages* from previous *Payroll Periods*.
- *Payroll Messages* generated in previous *Payroll Periods*, and their current [Status](#), are now carried forward and available to view at *Employee Level* through the [OneView screen](#).

1.3. When do Payroll Messages Generate?

Payroll Messages generate once the following task(s) are complete in the *Payroll Process*:

- **5-Step Payroll:** Generate the *Salaries & Allowances* task, the *Payroll Validation* task or both – depending on the *Payroll Message*.
- **3-Step Payroll:** Generate the *Calculate Payroll* task.
- **Single Processing:** Generate a *Single Processing* task – see the [Single Employee Processing](#) user guide.

Once *Payroll* is processed, the *Payroll Messages* provide you with *System Messages*, *Key Observations*, *Notifications*, and *Warnings* relating all *Employees* in the *Pay Group*.

1.4. The Payroll Messages Screen

The *Payroll Messages* screen improves transparency by providing you with detailed information to help you identify and resolve potential errors in your *Payroll*.

Note:

- The *Payroll Messages* screen is interactive.
- You can search the *Payroll Messages* screen using the [Search Field](#).
- You can display *Payroll Messages* by [Classification](#).
- You can use the [Filtered Search](#) to filter the *Payroll Messages* screen by *Category* and *Current Status*.
- The *Payroll Messages* screen allows you to drill into the *Employee's Dashboard* to action a *Payroll Message*.
- The *Payroll Messages* are now assigned a *Payroll Message* status:
 - [No Status](#)
 - [Dismissed](#)
 - [Reprocess](#)
 - [Resolved](#)
 - [Unresolved](#)
- *Payroll Users* can update the *Status* of a *Payroll Message* by [Actioning](#) the *Payroll Message*:

Action	Description
Dismiss	Once a <i>Payroll Message</i> is reviewed, and you are happy that no action is required, you can <i>Dismiss</i> the <i>Payroll Message</i> and move on with your <i>Payroll</i> . For example, once read, you may decide to <i>Dismiss</i> a <i>Notification Message</i> .
Reprocess	Once an <i>Action</i> has been taken to resolve an <i>Employee's Payroll Message</i> , you can update the <i>Payroll Message's</i> status to Reprocess , sending the <i>Employee</i> to the Unprocessed Employees screen. Completing this task informs other <i>Payroll Users</i> that the <i>Employee's Payroll</i> needs to be <i>Reprocessed</i> .

1.5. The OneView Screen

The *Status of Payroll Messages*, for the current *Payroll Period*, can be reviewed and [Actioned](#) by *Payroll Users* through [The OneView Screen](#).

The *Status of Payroll Messages*, generated in previous *Payroll Periods*, are carried forward and can be reviewed by *Payroll Users* through [The OneView Screen](#).

1.6. The Payroll Message Settings Screen

All *Payroll Messages* are configured in the new *Payroll Message Settings* screen.

- *Payroll Messages* are configured at a *Pay Group Level*.
- All *Payroll Messages* are pre-classified according to urgency. All *Payroll Messages* are colour coded based on their classification:
 - System Message
 - Key Observation
 - Warning
 - Notification
- You can search the *Payroll Message Settings* screen using the [Search Field](#).
- You can filter the *Payroll Message Settings* screen by *Category*, *Classification* or both.
- All *Payroll Messages*, except for *System Messages*, can be [Reclassified](#), [Customised](#), [Categorised](#), [Enabled](#) or [Disabled](#) at a *Pay Group Level*, to customise your organisation's control checks.
- You can configure the [Gross or Nett Thresholds Levels](#) for *Employees' Salaries*, which, when exceeded, trigger a *Payroll Message*.
- Once a *Payroll Message* is *Reclassified*, *Customised*, *Categorised*, *Enabled* or *Disabled*, you can copy this configuration to another *Pay Group* in your *Organisation*. You can complete this task for an individual *Payroll Message*, or all *Payroll Messages* in the *Pay Group*.
- You can reset the *Classification*, *Customisation*, *Categorisation*, and the *Enabled* indicator for *Payroll Messages* to the default settings. You can complete this task for an individual *Payroll Message*, or all *Payroll Messages* in the *Pay Group*.
- Where a *Payroll Message* has been *Reclassified*, *Customised*, *Categorised*, *Enabled* or *Disabled*, a record is held in the *View Message History* screen.

1.7. The Unprocessed Employee Screen

The *Unprocessed Employee* screen displays *Employees* for which Payroll needs to be *Reprocessed*, see section [Reprocess – Resolved and Unresolved](#).

An *Employee* is added to the *Unprocessed Employees* screen when the *Employee* has a *Payroll Message* updated to [Reprocess](#).

Once a *Payroll Message*'s status has updated to [Reprocess](#), an *Unprocessed Items* chip displays on the *OneView* screen.

1.8. Configuration Required

Switch on the following parameter to enable *Payroll Messages*.

Parameter Code	Description
CP_USING_PAY_PORTAL	This parameter enables the <i>Payroll Messages Module</i> .

2. Payroll Messages

2.1. Overview

Payroll Messages replace the current process of checking *Observation Messages*. *Payroll Messages*, once generated, detail all *Errors*, *Warnings* and *Notifications* for the current *Payroll Period*.

- The *Payroll Messages* screen is interactive.
- You can search the *Payroll Messages* screen using the [Search Field](#).
- You can display *Payroll Messages* by [Classification](#).
- You can use the [Filtered Search](#) to filter the *Payroll Messages* screen by *Category* and *Current Status*.
- The *Payroll Messages* screen allows you to drill into the *Employee's Dashboard* to action a *Payroll Message*.
- The *Payroll Messages* are now assigned a *Payroll Message* status:
 - [No Status](#)
 - [Dismissed](#)
 - [Reprocess](#)
 - [Resolved](#)
 - [Unresolved](#)
- *Payroll Users* can update the *Status* of a *Payroll Message* by actioning the *Payroll Message*:

Action	Description
Dismiss	Once a <i>Payroll Message</i> is reviewed, and you are happy that no action is required, you can <i>Dismiss</i> the <i>Payroll Message</i> and move on with your Payroll. For example, once read, you may decide to <i>Dismiss</i> a <i>Notification Message</i> .
Reprocess	Once an action has been taken to resolve an <i>Employee's Payroll Message</i> , you can update the <i>Payroll Message's</i> status to Reprocess , sending the Employee to the Unprocessed Employee screen. Completing this task informs other <i>Payroll Users</i> that the <i>Employee's Payroll</i> needs to be <i>Reprocessed</i> .

2.2. To Access Payroll Messages

To access a *Pay Groups' Payroll Messages*:

1. Go to *Payroll Dashboard > Manage Payroll > Payroll Checking*.

Note:

The total number of individual *Payroll Messages* generated for the *Employees* in the *Pay Group* displays on the *Payroll Messages* tab, i.e. where the same *Payroll Message* generates multiple times for a single *Employee*, this only increases the count by one.

The screenshot shows the 'Manage Payroll' interface. At the top, there's a table with columns: Pay Groups, Key Observations, Stage, Payroll Completion, Joiners, Leavers, Rejoiners, Mode, and Cut Off Date. Two rows are visible: '1114 - Payroll Messaging' and '1122 Monthly Payroll (Ireland)'. The 'Key Observations' column has red pill-shaped buttons with the numbers 4 and 2 respectively. Below the table, there are tabs for 'Inputs', 'Payroll Checking' (selected), and 'Outputs'. Under 'Payroll Checking', there are five widgets: 'View Gross to Nett', 'Key Observations' (with a red pill button showing 2), 'Payroll Messages' (with a yellow pill button showing 5), 'Compare', and 'Control Reports'.

Note:

- The total number of individual *Payroll Messages*, classified as *Key Observations*, generated for the *Employees* in the *Pay Group*, displays on the *Key Observations* tab.
- The total number of individual *Payroll Messages*, classified as *Key Observations*, generated for the *Employees* in the *Pay Group*, displays on the *Key Observations* column on the *Payroll Dashboard > Manage Payroll* screen.

This screenshot is similar to the previous one but with the 'Key Observations' tab selected. The table at the top remains the same. In the 'Payroll Checking' tab area, the 'Key Observations' widget now shows a red pill button with the number 2, and the 'Payroll Messages' widget still shows a yellow pill button with the number 5.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

- 2. Select the *Payroll Messages* tab to open the *Payroll Messages* screen.

Note:

Select the *Key Observations* tab to open the *Payroll Messages* screen, prefiltered to show *Payroll Messages* classified as *Key Observations*.

The *Payroll Messages* screen opens.

Payroll Dashboard

000236	Hasad Byrne	Value timesheet 3010 contains no value			VIEW
000319	Wyett Burke	Value timesheet 2000 contains no value			VIEW

The *Payroll Messages* screen contains two sections:

1. The *Payroll Messages* Section

The first section displays the *Payroll Messages* generated.

Column	Description
Message Number	This column contains the <i>Payroll Message</i> number assigned to the <i>Payroll Message</i> . See section The Payroll Message Settings Screen .
Message	This column contains the <i>Payroll Message</i> description. To edit the <i>Payroll Message</i> description, see section Customise Payroll Messages .
Count	This column contains the number of <i>Employees</i> for whom the <i>Payroll Message</i> generated.

Column	Description
Message Categories	This column contains the <i>Category(s)</i> assigned to the <i>Payroll Message</i> , see section Categorising Payroll Messages .
Classification	This column contains the <i>Payroll Message</i> Classification, see section Classification of Payroll Messages .

2. The Employee Section

The second section displays the *Employees* to whom the selected *Payroll Message* generated.

Column	Description
Employee Reference	This column contains the <i>Employee's Reference</i>
Name	This column contains the <i>Employee's Name</i> .
Message	This column contains the <i>Payroll Message</i> description.
Actioned By	This column contains the <i>Payroll User</i> who Actioned the <i>Payroll Message</i> .
Actioned Date	This column contains the date the <i>Payroll User</i> actioned the <i>Payroll Message</i> .
Status	This column contains the <i>Current Status</i> of the <i>Payroll Message</i> , i.e. • No Status • Dismissed • Reprocess • Resolved • Unresolved

2.4. Searching the Payroll Message Screen

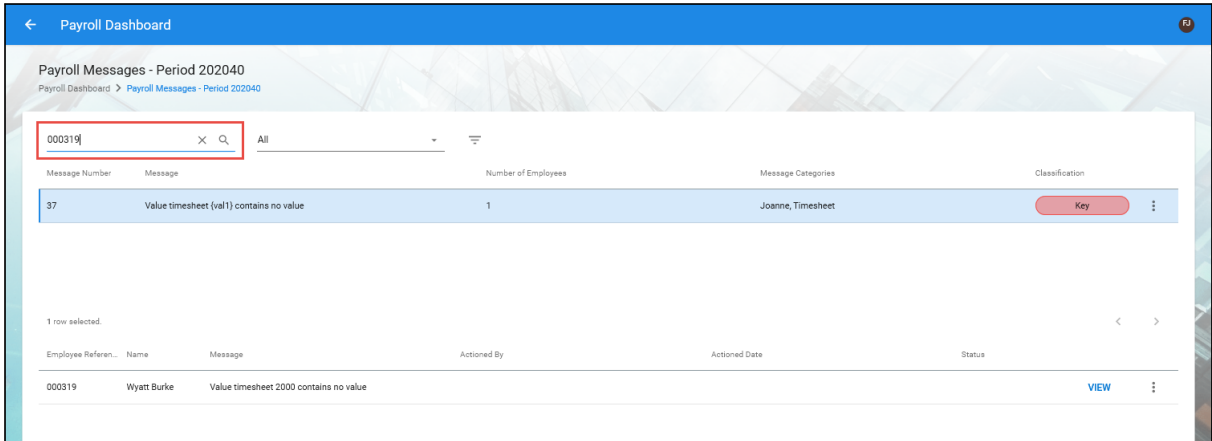

2.4.1. Search Field

You can search the *Payroll Message* screen using the *Search Field*.

Use the *Search Field* to search the *Payroll Messages* screen by:

- *Employee Name*
- *Employee Number*

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

Note:

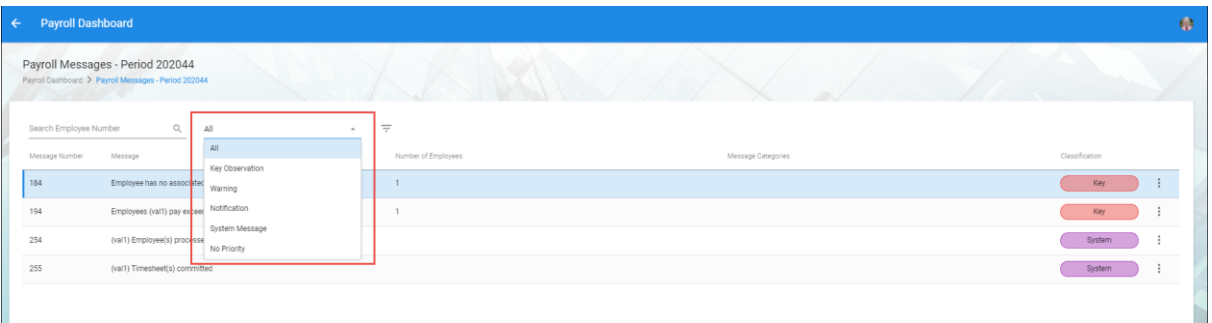

Searching by *Employee* returns all *Payroll Messages* for that employee. You may need to add Statuses to the [Filtered Search](#) to see all of the *Employee's Payroll Messages*.

2.4.2. Display Payroll Messages by Classification

You can display *Payroll Messages* on the *Payroll Messages* screen by [Classification](#).

To display *Payroll Messages* by *Classification*:

1. Select  to display the *Classification* drop-down menu.
2. Select a *Payroll Message Classification* from the *Classification* drop-down menu.

2.4.3. Filtered Search

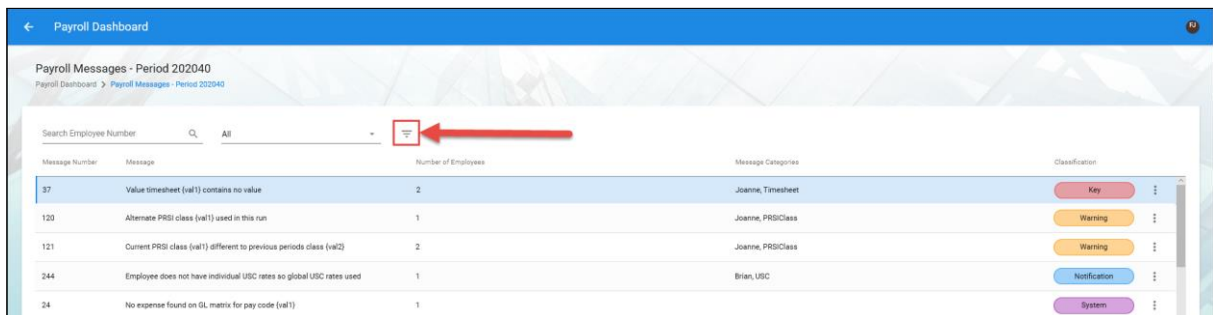

You can use the *Filtered Search* to filter the *Payroll Messages* screen by *Category*, *Current Status* or both.

Note:

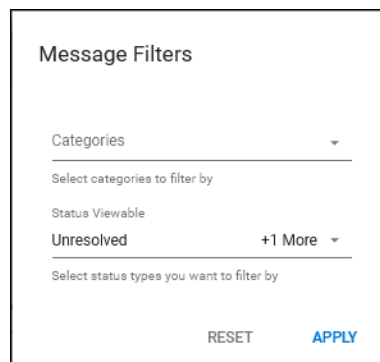

By default, the *Payroll Messages* screen is filtered to show *Payroll Messages* with a *Status* of **Unresolved** and **No Status**.

1. Select the  button to open the *Message Filter* screen.

Message Number	Message	Number of Employees	Message Categories	Classification
37	Value timesheet (val1) contains no value	2	Joanne, Timesheet	Key
120	Alternate PRSI class (val1) used in this run	1	Joanne, PRSIClass	Warning
121	Current PRSI class (val1) different to previous periods class (val2)	2	Joanne, PRSIClass	Warning
244	Employee does not have individual USC rates so global USC rates used	1	Brian, USC	Notification
24	No expense found on GL matrix for pay code (val1)	1		System

The *Message Filters* screen opens.

Message Filters

Categories ▼

Select categories to filter by

Status Viewable

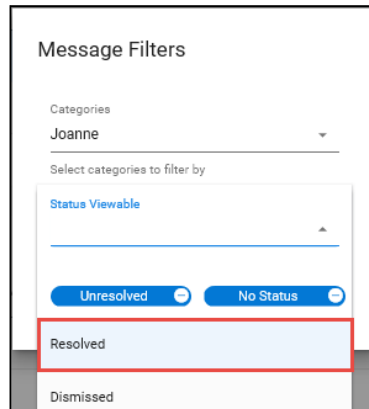

Unresolved +1 More ▼

Select status types you want to filter by

RESET APPLY

To add *Payroll Message Categories* and *Statuses* to the *Message Filter*:

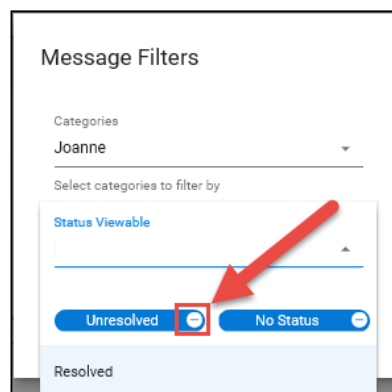

2. Select a *Category* from the *Categories* drop-down menu or type a *Category* into the *Categories* field.
3. Select a *Status* from the *Status Viewable* drop-down menu or type a *Status* into the *Status* field.

4. Click **Apply**.

To remove a *Category* or *Status* from the *Message Filter*:

5. Click on the *Minus* symbol next to the *Category* or *Status* filter selected:

6. Click **Apply**.

2.5. Payroll Message Statuses

2.5.1. No Status

A *Payroll Message* generates for the current *Payroll Period*, which has not been actioned by a *Payroll User*.

2.5.2. Dismissed

Once a *Payroll Message* is reviewed, and you are happy that no [Action](#) is required, you can *Dismiss* the *Payroll Message* and move on with your Payroll. For example, once read, you may decide to *Dismiss* a *Notification Message*. See section [Dismiss Message](#).

Note:

Once *Dismissed*, you need to use the [Filtered Search](#) to display *Dismissed Payroll Messages*, i.e. by default, the *Payroll Messages* screen is filtered to show *Payroll Messages* with a *Status* of [Unresolved](#) and [No Status](#).

2.5.3. Reprocess

Once an [Action](#) has been taken to resolve an *Employee's Payroll Message*, you can update the *Payroll Message's* status to *Reprocess*. This sends the *Employee* to the [Unprocessed Employees](#) screen. Completing this task informs other *Payroll Users* that the *Employee's Payroll* needs to be *Reprocessed*. Once *Payroll* is *Reprocessed*, the *Payroll Message's Status* updates to [Resolved](#) or [Unresolved](#).

2.5.4. Resolved

Once a *Payroll Message* with a *Status* of [Reprocess](#) is resolved, and *Payroll* is *Reprocessed*; the *Payroll Message Status* updates to *Resolved*. See section [Reprocess – Resolved and Unresolved](#).

2.5.5. Unresolved

Where a *Payroll Message* has been updated to a *Status* of [Reprocess](#), and *Reprocessing Payroll* has not resolved the *Payroll Message*; the *Payroll Message's Status* updates to **Unresolved**. See section [Reprocess – Resolved and Unresolved](#).

Note:

Payroll Messages with a *Status* of [Dismissed](#) or [No Status](#) do not update to a *Status* of *Unresolved*.

2.6. Action Payroll Messages

2.6.1. Overview

**Note:**

To Action a *Payroll Message*, a *Payroll User* requires access to the *Employee's Pay Group* and *Input Location*.

The *Payroll User(s)* should review all *Payroll Messages* generated and take *Action*. Once *Actioned*, other *Payroll Users* can see who *Actioned* the *Payroll Message*, the *Action* taken and the *Date Actioned*.

The *Action*, the *Payroll User*, should take is dependent on the *Payroll Message*:

- **Dismiss Message** – Select this option where you have read the *Payroll Message* and are happy no action is required before continuing with your *Payroll*.
- **Reprocess** – Select this option to indicate that *Payroll* should be *Reprocessed* for the *Employee* once the *Payroll Message* is **Resolved**. Selecting this option moves the *Employee* to the **Unprocessed Employees** screen.
- **View Employee** – Select this option to move to the *Employee's Dashboard* in *Payroll* and resolve the *Payroll Message*.

2.6.2. Dismiss Message

Once a *Payroll User* reviews a *Payroll Message* and is happy that no *Action* is required before moving on with their *Payroll*, the *Payroll User* can **Dismiss** the *Payroll Message*. For example, once read, the *Payroll User* may decide to *Dismiss* a *Notification Message*.

To *Dismiss* a *Payroll Message*:

1. Go to *Payroll Dashboard* > *Manage Payroll* > *Checking* > *Payroll Messages*.
2. Select More Options  next to the *Payroll Message* assigned to the *Employee*.
3. Select *Dismiss Message*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

Dismiss Message

Reprocess

Note:

Once *Dismissed*, the *Payroll Message's Status* updates to *Dismissed*. Therefore, you may need to use the **Filtered Search** to view the now *Dismissed* message.

The *Payroll Message* updates with the following information, which can be viewed by all *Payroll Users* with access to this *Pay Group and Input Location*:

- 1. **Actioned By** – The *Payroll User* who *Dismissed* the *Payroll Message*.
- 2. **Actioned Date** – The date the *Payroll Message* was *Dismissed*.
- 3. **Status** – *Dismissed*.

Payroll Messages - Period 202044
Payroll Dashboard > Payroll Messages - Period 202044

Search Employee Number

All

Message Number	Message	Number of Employees	Message Categories	Classification
184	Employee has no associated timesheet entries	1		Key
194	Employees (va1) pay exceeds taxable pay	2		Key
244	Employee does not have individual USC rates so global USC rates used	1	Brian, USC	Notification

000233	Simone Machamara	Employee does not have individual USC rates so global USC rates used	Brian O'Keeffe	19-Nov-2020	Dismissed

2.6.3. Dismiss All

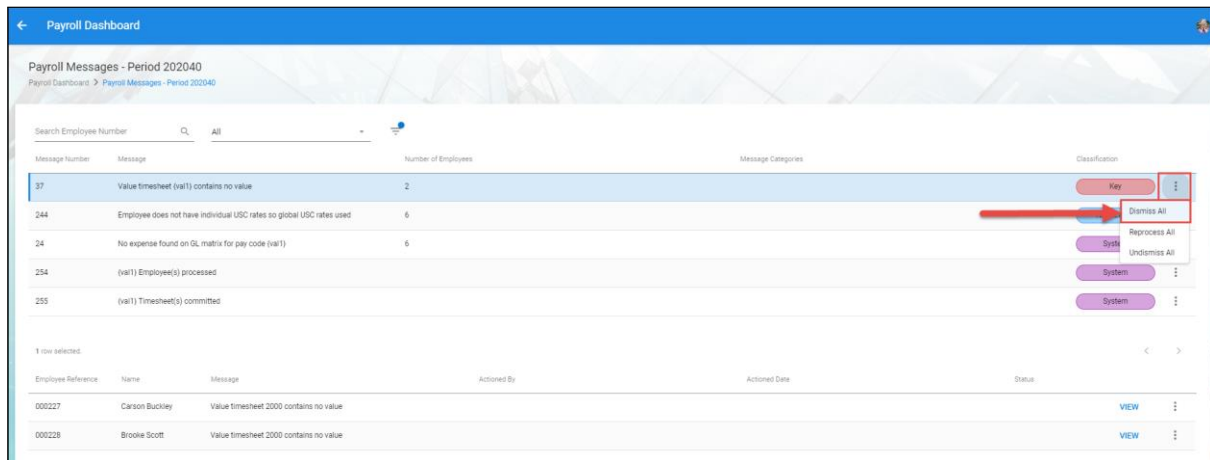

Where a *Payroll Message* has generated for multiple *Employees*, you can *Dismiss* the *Payroll Message* for all *Employees* in the *Pay Group*.

To *Dismiss* a *Payroll Message* for all *Employees*:

- 1. Go to *Payroll Dashboard > Manage Payroll > Checking > Payroll Messages*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

2. Select More Options  next to the *Payroll Message*.
3. Select *Dismiss All*.

Message Number	Message	Number of Employees	Message Categories	Classification
37	Value timesheet (val1) contains no value	2		Key 
244	Employee does not have individual USC rates so global USC rates used	6		Dismiss All
24	No expense found on GL matrix for pay code (val1)	6		Reprocess All

000227	Carson Buckley	Value timesheet 2000 contains no value			VIEW
000228	Brooke Scott	Value timesheet 2000 contains no value			VIEW

2.6.4. Undismiss Message

A previously *Dismissed Payroll Message* can be **Undismissed** by any *Payroll User* with access to the *Pay Group and Input Location*, i.e. not just the *Payroll User* who *Dismissed* the *Payroll Message*.

To *Undismiss* a *Payroll Message*:

1. Go to *Payroll Dashboard* > *Manage Payroll* > *Checking* > *Payroll Messages*.
2. Select More Options  next to the *Dismissed Payroll Message*.
3. Select *Undismiss*.

Message Number	Message	Number of Employees	Message Categories	Classification
184	Employee has no associated timesheet entries	1		Key
194	Employee(s) (val1) pay exceeds taxable pay	2		Key 
244	Employee does not have individual USC rates so global USC rates used	1	Brian, USC	Notification
254	(val1) Employee(s) processed			System
255	(val1) Timesheet(s) committed			System

Employee Reference	Name	Message	Actioned By	Actioned Date	Status
000223	Simone Machamara	Employee PRSable pay exceeds taxable pay	Brian O'Keeffe	19-Nov-2020	Unresolved VIEW
000218	Wade Doyle	Employee PRSable pay exceeds taxable pay	Brian O'Keeffe	19-Nov-2020	Dismissed VIEW 

Note:

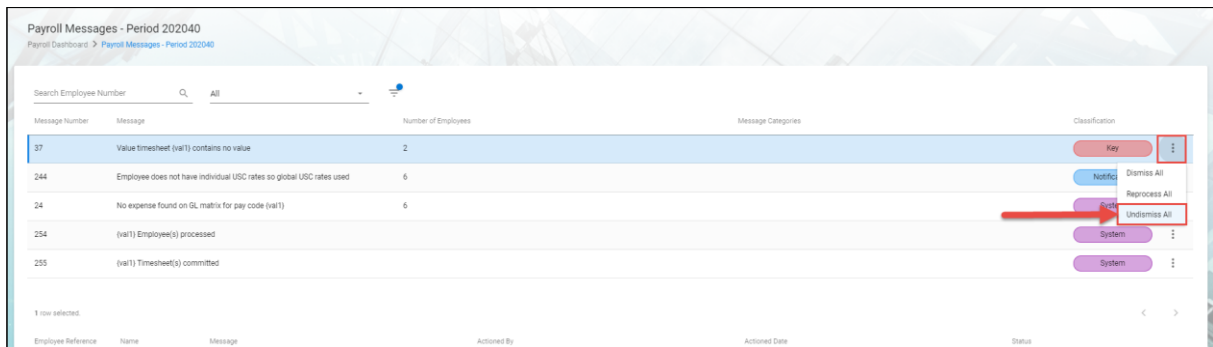

Once *Undismissed*, the *Payroll Message* reverts to its original *Status*, i.e. **No Status** or **Unresolved**.

2.6.5. Undismiss All

Where a *Payroll Message* has been *Dismissed* for multiple *Employees*, you can *Undismiss* the *Payroll Message* for all *Employees*.

To *Undismiss* a *Payroll Message* for all *Employees*:

1. Go to *Payroll Dashboard* > *Manage Payroll* > *Checking* > *Payroll Messages*.
2. Select More Options  next to the *Payroll Message*.
3. Select *Undismiss All*.

Message Number	Message	Number of Employees	Message Categories	Classification
37	Value timesheet (val1) contains no value	2		Key
244	Employee does not have individual USC rates so global USC rates used	6		Notice
24	No expense found on GL matrix for pay code (val1)	6		Notice
254	(val1) Employee(s) processed			System
255	(val1) Timesheet(s) committed			System

Note:

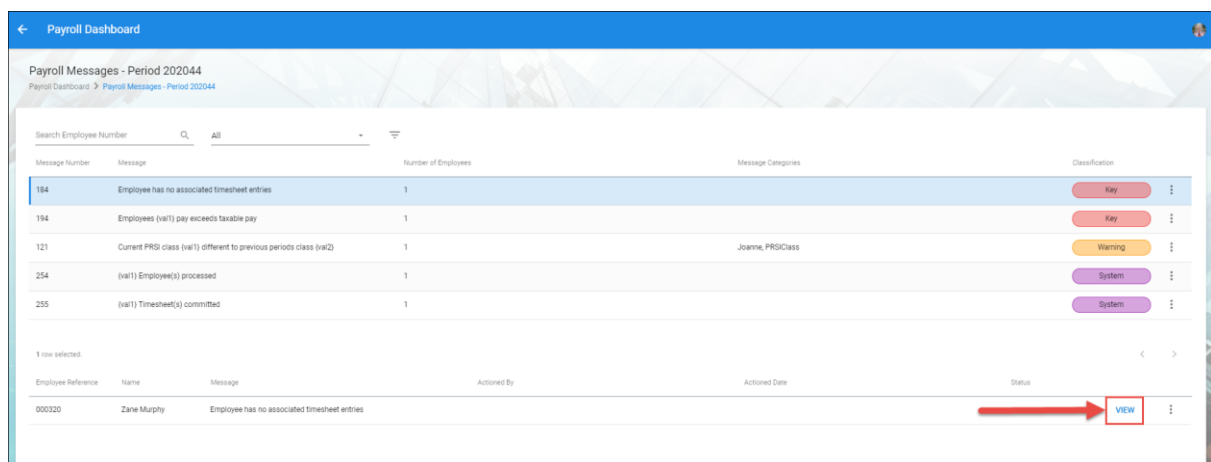

Once *Undismissed*, the *Payroll Messages* revert to their original *Status*, i.e. *No Status* or *Unresolved*.

2.6.6. View Employee

Select this option to move to the *Employee's Dashboard* in *Payroll* and resolve the *Payroll Message*.

To resolve a *Payroll Message*:

1. Select **View** next to the *Employee's Payroll Message* to drill into to the *Employee Dashboard*.

Message Number	Message	Number of Employees	Message Categories	Classification
184	Employee has no associated timesheet entries	1		Key
194	Employees (val1) pay exceeds taxable pay	1		Key

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

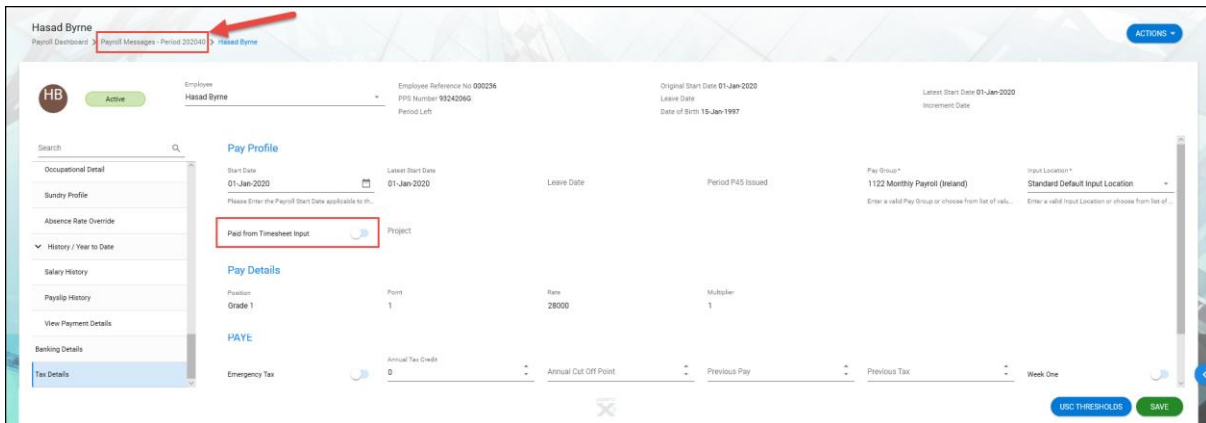

The *Employee Dashboard* in *Payroll* opens for this *Employee*.

2. Resolve the issue causing the *Payroll Message* to generate.

Example:

In this example, to resolve the issue, the *Paid from Timesheet Input* indicator was disabled.

3. Select *Payroll Messages* to return to the *Payroll Messages* screen.

2.6.7. Reprocess – Resolved and Unresolved

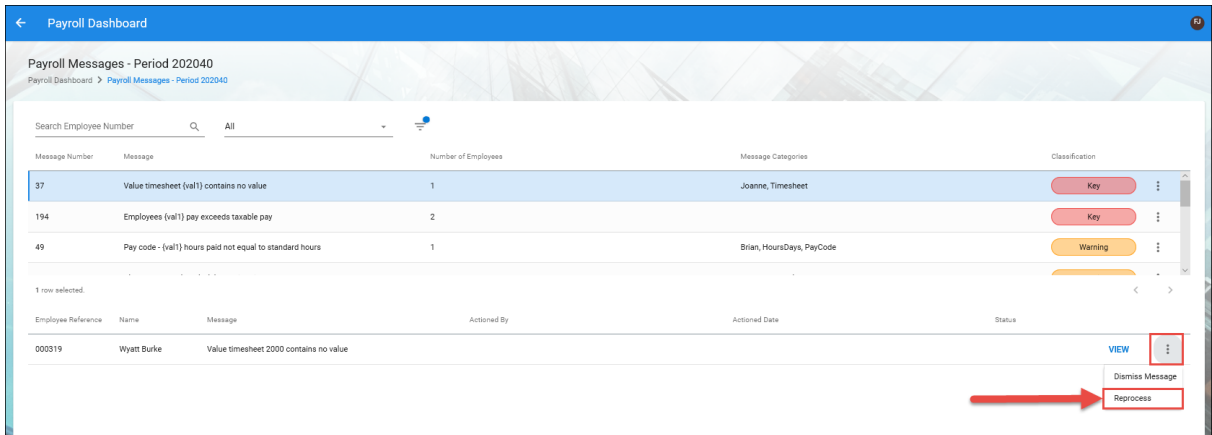

Once an *Action* has been taken to resolve an *Employee's Payroll Message*, you can update the *Payroll Message's* status to **Reprocess**, sending the *Employee* to the **Unprocessed Employees** screen. Completing this task informs other *Payroll Users* that the *Employee's Payroll* needs to be *Reprocessed*.

Once *Payroll* is *Reprocessed*, the *Payroll Message's Status* updates to **Resolved** or **Unresolved**.

To *Reprocess* a *Payroll Message*:

1. Go to *Payroll Dashboard* > *Manage Payroll* > *Checking* > *Payroll Messages*.
2. Select More Options  next to the resolved *Payroll Message*.
3. Select *Reprocess* to indicate that the *Employee's Payroll* needs to be *Reprocessed*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

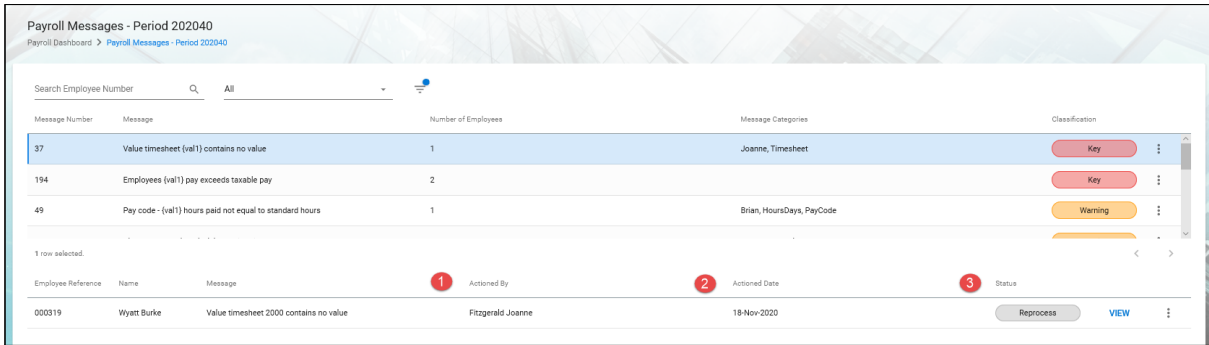

Note:

Once *Reprocess* is selected, the *Payroll Message Status* updates to *Reprocess*. Therefore, you may need to use the [Filtered Search](#) to view the *Reprocess Payroll Message*.

The *Payroll Message* updates with the following information which can be viewed by all *Payroll Users* with access to this *Pay Group* and *Input Location*:

- 1. **Actioned By** – The *Payroll User* who updated the *Payroll Message* status to *Reprocess*.
- 2. **Actioned Date** – The date the *Payroll Message* was updated to a status of *Reprocess*.
- 3. **Status** – *Reprocessed*.

Note:

- This *Employee* now displays on the [Unprocessed Employees](#) screen.
- An [Unprocessed Items](#) chip displays on the *Employee's OneView* screen.

See section [The Unprocessed Employees Screen](#).

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

Once payroll is *Reprocessed*, the *Payroll Message Status* updates to **Resolved** or **Unresolved**. These statuses cannot be updated manually.

The *Payroll Message* updates with the following information which can be viewed by all *Payroll Users* with access to the *Pay Group and Input Location*:

1. **Actioned By** – The *Payroll User* who updated the *Payroll Message* status to *Reprocess*.
2. **Actioned Date** – The date the *Payroll Message* was updated to a status of *Reprocess*.
3. **Status** – **Resolved** or **Unresolved**.

The screenshot shows the 'Payroll Messages - Period 202040' interface. It includes a search bar for 'Employee Number' and a filter set to 'All'. Below this is a table with columns: Message Number, Message, Number of Employees, Message Categories, and Classification. Three messages are listed: Message 37 (Value timesheet (val1) contains no value), Message 184 (Employee has no associated timesheet entries), and Message 194 (Employees (val1) pay exceeds taxable pay). Below this table, a section titled '1 row selected.' shows a detailed view of a message. This detailed view has columns: Employee Reference, Name, Message, Actioned By, Actioned Date, and Status. Two rows are shown: one for Employee 000236 (Hasad Byrne) with status 'Unresolved', and one for Employee 000319 (Wyatt Burke) with status 'Resolved'. The 'Status' column in the detailed view is highlighted with a red box and a red circle with the number 3. The 'Actioned By' and 'Actioned Date' columns are also highlighted with red circles and numbers 1 and 2 respectively.

Message Number	Message	Number of Employees	Message Categories	Classification
37	Value timesheet (val1) contains no value	2	Joanne, Timesheet	Key
184	Employee has no associated timesheet entries	2		Key
194	Employees (val1) pay exceeds taxable pay	1		Key

1 row selected.

Employee Reference	Name	Message	Actioned By	Actioned Date	Status
000236	Hasad Byrne	Value timesheet 3010 contains no value	Fitzgerald Joanne	18-Nov-2020	Unresolved
000319	Wyatt Burke	Value timesheet 2000 contains no value	Fitzgerald Joanne	18-Nov-2020	Resolved

2.6.8. Reprocess All

You can set a *Payroll Message's Status* to **Reprocess** for all *Employees* for whom the *Payroll Message* has generated.

To update a *Payroll Message's Status* to *Reprocess* for all *Employees* for whom the *Payroll Message* generated.

1. Go to *Payroll Dashboard > Manage Payroll > Checking > Payroll Messages*.
2. Select More Options  next to the *Payroll Message*.
3. Select *Reprocess All*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

000229	Candice Bell	Employee does not have individual USC rates so global USC rates used			VIEW
000230	Norman O'Sullivan	Employee does not have individual USC rates so global USC rates used			VIEW

Note:

Selecting *Reprocess All*, updates the *Payroll Messages Status* to **Reprocess** for *Payroll Messages* with a previous *Status* of **No Status**, **Dismissed** or **Unresolved**.

2.7. The OneView Screen

2.7.1. Overview

For the current Payroll Period, the Status of Payroll Messages can be reviewed and **Actioned** by *Payroll Users* through the *OneView* screen.

The *Status* of *Payroll Messages*, generated in previous *Payroll Periods*, are carried forward and can be reviewed by *Payroll Users* through the *OneView* screen.

Note:

For further details on the *OneView* screen, see the following user guides:

- [OneView UK](#)
- [OneView Irish](#)

2.7.2. Access the OneView Screen

To access the *OneView* screen:

1. Go to *Payroll Dashboard > Employee > View* or

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

Payroll Dashboard > Manage Payroll > Inputs > Manage Payroll Employees.

2. Select *OneView*.
3. Select a *Payroll Period* from the drop-down *Payroll Period* menu.

The screenshot shows the 'Manage Payroll Employees' interface for Wyatt Burke. The left sidebar contains a search bar and a list of filters: Current Period, OneView (highlighted with a red box), Timesheets Current Period, Gross to Net, Redundancy, Additional, Deductions, Pension, Benefit in Kind, Allowances, Cost Allocations, Temporary Reinstatement, Statutory and Absences, and Absence Summary. The main content area displays employee details for Wyatt Burke, including his reference number, PPS number, and dates. Below this, there's a 'Payroll Messages' section with a warning message: 'Current PRSI class B1 different to previous periods class A1'. To the right, there are two summary tables: 'Period Summary' and 'Year to Date'. The 'Period Summary' table shows Gross Pay (4750.00), Deductions (1620.57), and Net Pay (2929.43). The 'Year to Date' table shows Gross Earnings (32843.33), Taxable Pay (32843.33), Pre Tax Deductions (0), and Paye (10387.33). At the bottom, there's a 'Pay Details' table with columns for Type, Pay Code, Appointment, Hours, Rate, YTD Value, Current Value, Previous Value, and % Change. It lists Earnings for 'HR Administrator' and Deductions for 'HR Administrator'. A 'BREAKDOWN' button is visible on the right side of the Pay Details table.

2.7.3. Action a Payroll Message Using the OneView Screen

To Action a *Payroll Message* using the *OneView* screen.

1. Select More Options  next to the *Payroll Message* you want to action.
2. Section one of the following actions:
 - [Dismiss Message](#)
 - [Reprocess](#)

3. The Payroll Message Settings Screen

3.1. Overview

All *Payroll Messages* are configured in the new *Payroll Message Settings* screen.

- *Payroll Messages* are configured at a *Pay Group Level*.
- All *Payroll Messages* are pre-classified according to urgency. All *Payroll Messages* are colour coded based on their classification:
 - System Message
 - Key Observation
 - Warning
 - Notification
- You can search the *Payroll Message Settings* screen using the [Search Field](#).
- You can filter the *Payroll Message Settings* screen by *Category*, *Classification* or both.
- All *Payroll Messages*, except for *System Messages*, can be [Reclassified](#), [Customised](#), [Categorised](#), [Enabled](#) or [Disabled](#) at a *Pay Group Level*, to customise your organisation's control checks.
- You can configure the [Gross or Nett Thresholds Levels](#) for *Employees' Salaries*, which, when exceeded, trigger a *Payroll Message*.
- Once a *Payroll Message* is *Reclassified*, *Customised*, *Categorised*, *Enabled* or *Disabled*, you can copy this configuration to another *Pay Group* in your *Organisation*. You can complete this task for an individual *Payroll Message*, or all *Payroll Messages* in the *Pay Group*.
- You can reset the *Classification*, *Customisation*, *Categorisation*, and the *Enabled* indicator for *Payroll Messages* to the default settings. You can complete this task for an individual *Payroll Message*, or all *Payroll Messages* in the *Pay Group*.
- Where a *Payroll Message* has been *Reclassified*, *Customised*, *Categorised*, *Enabled* or *Disabled*, a record is held in the *View Message History* screen.

3.2. Menu Options Required

Get payroll unprocessed	People > Get payroll unprocessed	Webservices
Create settings messages clone	Payroll > Create settings messages clone	Webservices

3.3. Access the Payroll Message Settings Screen

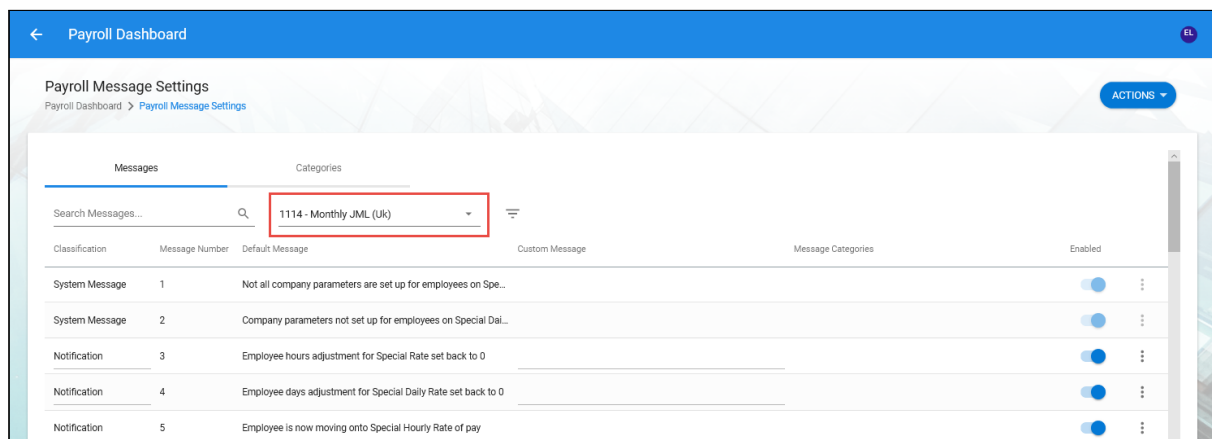

To access the *Payroll Message Settings* screen:

1. Go to *Payroll Dashboard > Settings > Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.

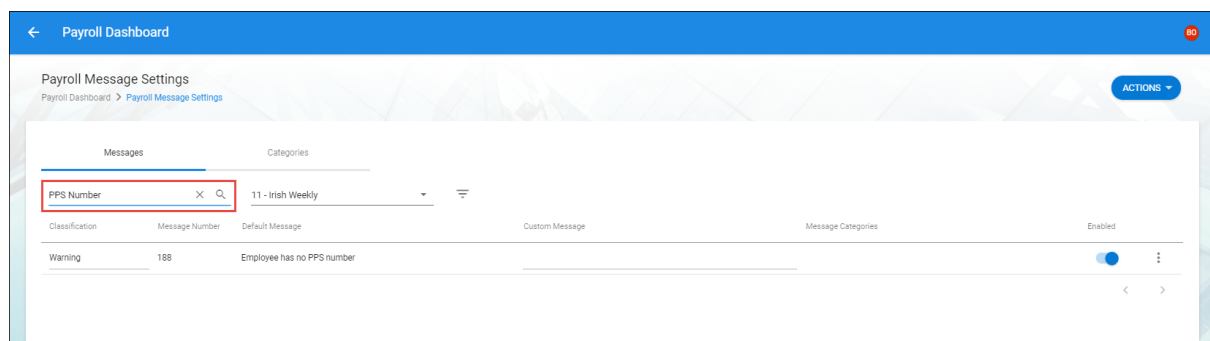

Note:

To select a *Pay Group* from the drop-down *Pay Group* menu, you must have access to the *Pay Group* in *Payroll*, see the [Configuring Pay Group Access](#) user guide.

3.3.1. Search Field

Use the *Search Messages* field to search *Payroll Messages* by their *Default Message* description:

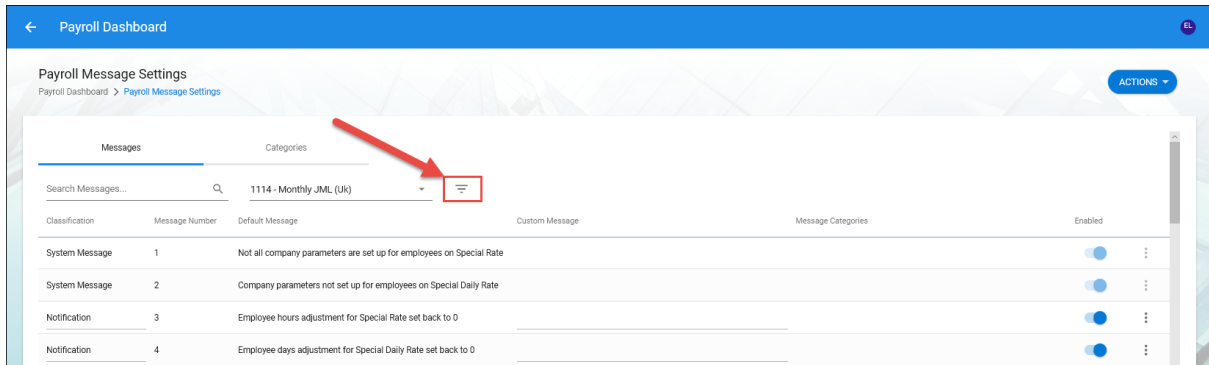

3.3.2. Filtered Search

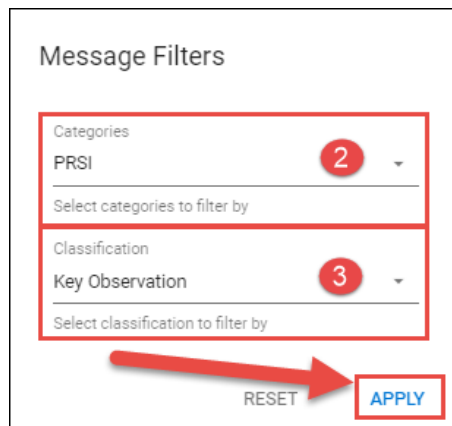

To filter the *Payroll Message Settings* screen by *Category*, *Classification* or both:

1. Click on the  button to open the *Message Filters* screen.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

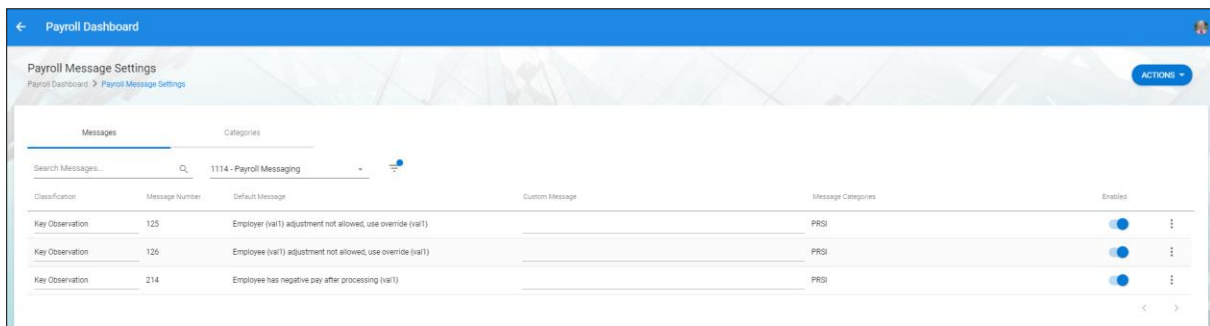

The *Message Filters* screen opens.

- Optional – Select a *Category* from the drop-down *Categories* menu.
- Optional – Select a *Classification* from the drop-down *Classification* menu.
- Click **APPLY**.

The *Payroll Message Settings* screen now filters by the selected Category and/or Classification.

Note:

To clear the **Filtered Search**, click **Reset**, then **Apply**.

3.4. Enable or Disable A Payroll Message

3.4.1. Overview

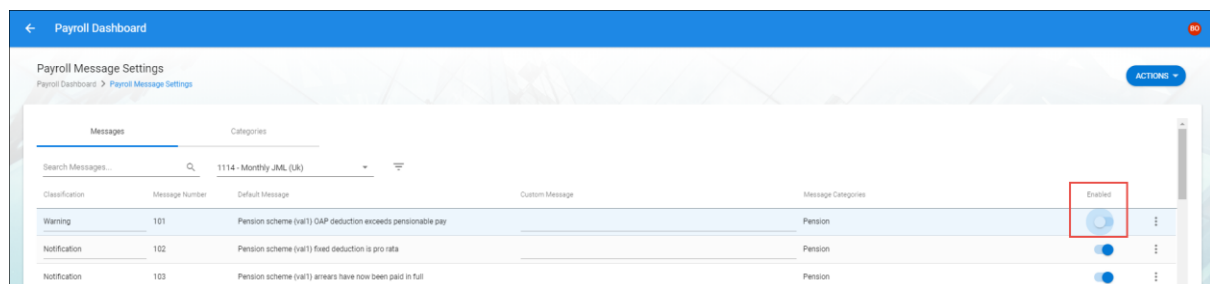

Note:

- Payroll Messages can be **Enabled** or **Disabled** at the Pay Group Level.
- All Payroll Messages, except system messages, can be **Enabled** or **Disabled**
- By Default, all Payroll Messages are **Enabled**.

3.4.2. Disable a Payroll Message

To Disable a Payroll Message for a Pay Group:

1. Go to *Payroll Dashboard > Settings > Payroll Message Settings*.
2. Select a Pay Group from the drop-down Pay Group menu.
3. Select the *Enabled* indicator next to the Payroll Message you want to Disable.

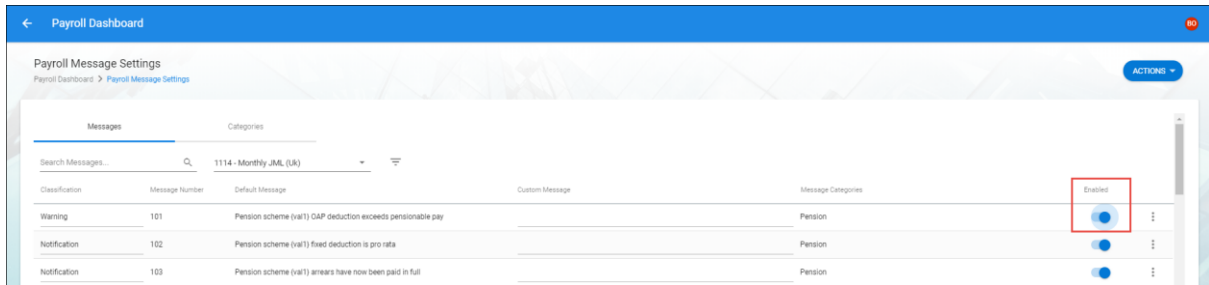

Note:

Configuration changes made via the *Payroll Message Settings* screen save automatically.

3.4.3. Enable a Payroll Message

To Enable a Payroll Message for a Pay Group:

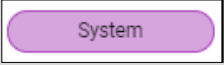

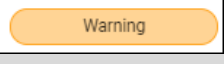

1. Go to *Payroll Dashboard > Settings > Payroll Message Settings*.
2. Select a Pay Group from the drop-down Pay Group menu.
3. Select the *Enabled* indicator next to the Payroll Message you want to Enable.

3.5. Classification of Payroll Messages

3.5.1. Overview

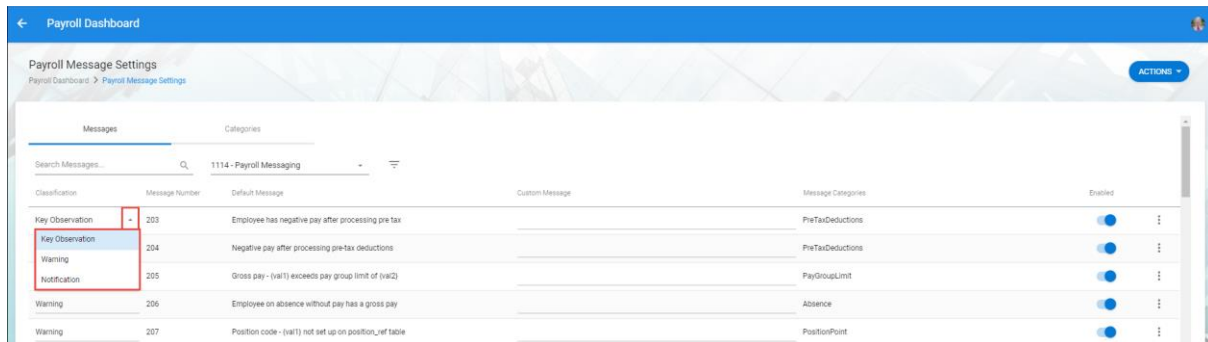

All *Payroll Messages* are pre-classified according to urgency. All *Payroll Messages* are colour coded based on their classification. All *Payroll Messages*, except for *System Messages*, can be reclassified. All *Payroll Messages* fall into one of the following classifications:

Classification	Colour	Description	Action
System Message	Purple 	<i>System Messages</i> cannot be <i>Reclassified</i> , <i>Customised</i> , <i>Categorised</i> , <i>Enabled</i> or <i>Disabled</i> . <i>System Messages</i> notify <i>Payroll Users</i> of an issue which is not specific to an <i>Employee</i> , e.g. a configuration issue which may affect a <i>Payroll Task</i> .	Take Action
Key Observation	Red 	<i>Key Observations Messages</i> generally notify <i>Payroll Users</i> of: - An employee which will not be paid. - An employee which will be paid incorrectly.	Take Action
Warning	Orange 	<i>Warning Messages</i> generally notify <i>Payroll Users</i> of something 'Out of the Ordinary' in an <i>Employee's Payroll Information</i> .	Review
Notification	Blue 	<i>Notification Messages</i> are generally for informational purposes. The <i>Payroll User</i> should review and acknowledge the <i>Payroll Message</i> .	Review

3.5.2. Reclassify a Payroll Message

To *Reclassify* a Payroll Message:

1. Go to *Payroll Dashboard > Settings > Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Click in the *Classification* Column of the *Payroll Message* you want to *Reclassify*.
4. Select an alternative *Classification* from the drop-down *Classification* menu.

Classification	Message Number	Default Message	Custom Message	Message Categories	Enabled
Key Observation	203	Employee has negative pay after processing pre-tax		PreTaxDeductions	☒
Key Observation	204	Negative pay after processing pre-tax deductions		PreTaxDeductions	☒
Warning Notification	205	Gross pay - (vat1) exceeds pay group limit of (vat2)		PayGroupLimit	☒
Warning	206	Employee on absence without pay has a gross pay		Absence	☒
Warning	207	Position code - (vat1) not set up on position_ref table		PositionPoint	☒

Note:

Configuration changes made via the *Payroll Message Settings* screen save automatically.

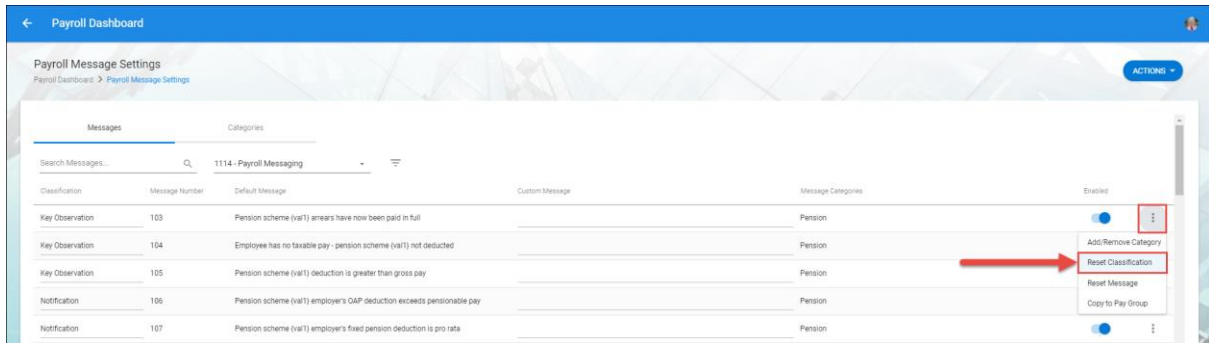

3.5.3. Reset Classification – Payroll Message

Once a *Payroll Message* has been classified, you can reset the *Payroll Message* classification to the default classification.

To reset a *Payroll Message* classification:

1. Go the *Payroll Dashboard > Settings > Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Click the Further Options  button next to the message for which you want to reset the classification.
4. Select *Reset Classification*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

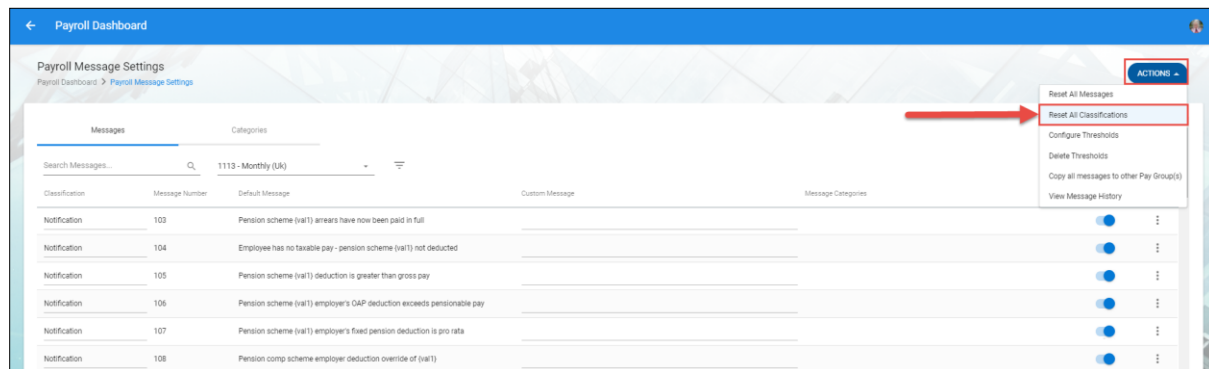

3.5.4. Reset Classification – All Payroll Messages in the Pay Group

Once *Payroll Messages* has been classified for a *Pay Group*, you can reset the *Payroll Message* classifications to their default classification.

To reset a *Pay Group's Payroll Message* classifications:

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Select the **Actions** Button.
4. Select *Reset All Classifications*.

3.6. Customise Payroll Messages

3.6.1. Overview

All *Payroll Messages* are assigned a default text field, which displays to the *Payroll User* once the *Payroll Message* generates. All *Payroll Messages*, except for *System Messages*, can be *Customised* to suit your organisation's requirements.

3.6.2. Customise a Payroll Message

To *Customise* a *Payroll Message*:

1. Go to *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Select the *Payroll Message* you want to *Customise*. You can use the [Search Field](#) or [Filtered Search](#) options to search the *Payroll Messages*.
4. Type your *Customised Payroll Message* in the *Custom Message* field.

The screenshot shows the 'Payroll Message Settings' interface. At the top, there's a blue header with 'Payroll Dashboard' and a user profile icon. Below the header, the page title is 'Payroll Message Settings' with a breadcrumb 'Payroll Dashboard > Payroll Message Settings' and an 'ACTIONS' button. The main content area has two tabs: 'Messages' (selected) and 'Categories'. Under the 'Messages' tab, there's a search bar with 'Emergency' entered and a dropdown menu showing '1114 - Payroll Messaging'. Below this is a table with the following columns: Classification, Message Number, Default Message, Custom Message, Message Categories, and Enabled. The table contains six rows of messages. The 'Custom Message' column for the first row is highlighted with a red box, showing the text 'This Employee is on EMERGENCY tax'. The 'Enabled' column has toggle switches for each row, all of which are currently turned on. The bottom of the screen has a blue bar with a white 'X' icon.

Classification	Message Number	Default Message	Custom Message	Message Categories	Enabled
Notification	134	Employee is on emergency tax basis	This Employee is on EMERGENCY tax	TaxBasis	☒
Warning	135	Invalid start/end emergency tax week/month		TaxBasis	☒

Notification	231	Employee has been updated to emergency tax		TaxBasis	☒
Warning	235	Employee rejoining without a new tax/USC cert. Emergency tax ap...		Rejoiner, TaxBasis	☒

3.7. Categorising Payroll Messages

3.7.1. Overview

The *Payroll Message Setting* screen allows you to *Categorise* all *Payroll Messages*, except *System Messages*, to customise your organisation's control checks.

You can then use the [Filtered Search](#) to filter *Payroll Messages* by their assigned *Category*, e.g. PAYE, Maternity, Configuration, or Payroll User.

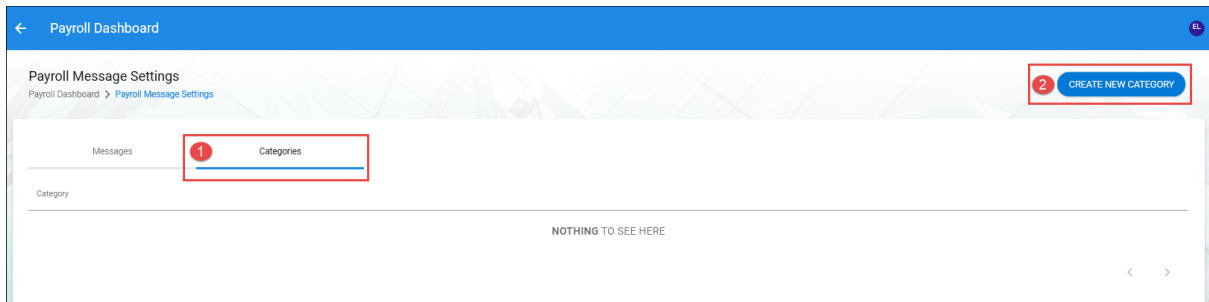

Note:

- Once *Categories* are created, they are available for all *Pay Groups*.
- *Payroll Messages* are *Categorised* at a *Pay Group Level*.
- A *Payroll Message* may be assigned up to 5 categories.
- You can delete *Categories*.
- You can remove *Categories* from *Payroll Messages*.

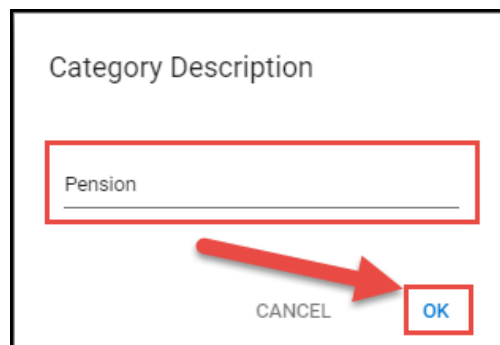

3.7.2. Add new Categories

To add a new *Payroll Message Category*:

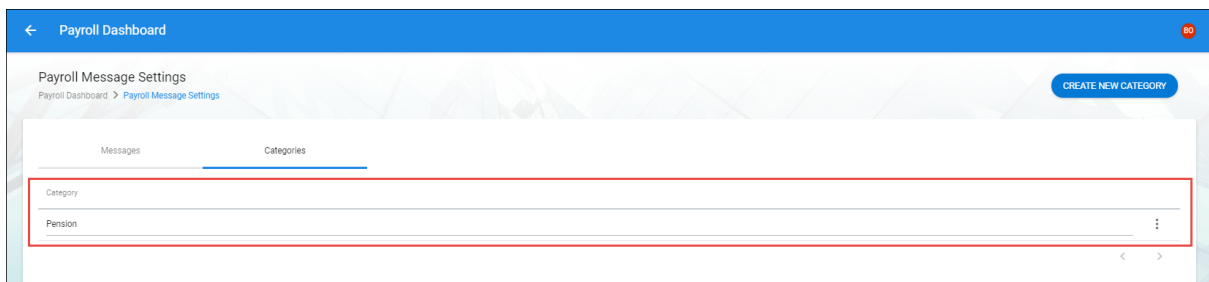

1. Go to *Payroll Dashboard > Settings > Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
4. Select the *Categories* tab.
5. Select the **CREATE NEW CATEGORY** button.

The *Category Description* screen opens.

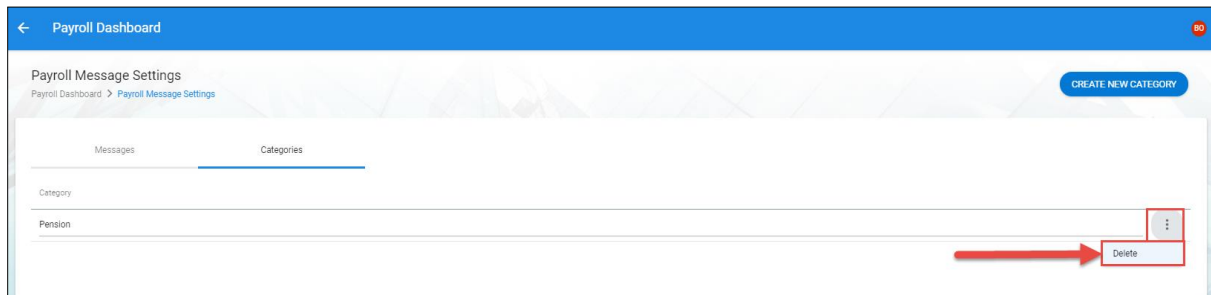

6. Enter a *Category Description*.
7. Click **OK** to create the new *Category*.

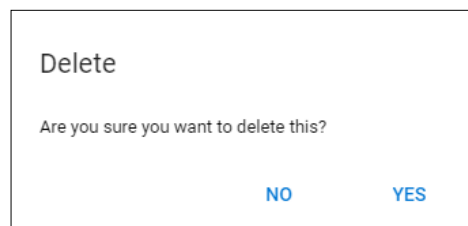

3.7.3. Delete Categories

To Delete a Payroll Message Category:

1. Go to Payroll Dashboard > Settings > Payroll Message Settings.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Click the Further Options  button next to the Category you want to delete.
4. Select *Delete*.

The following message appears.

5. Click **Yes**.

3.7.4. Categorise a Payroll Message

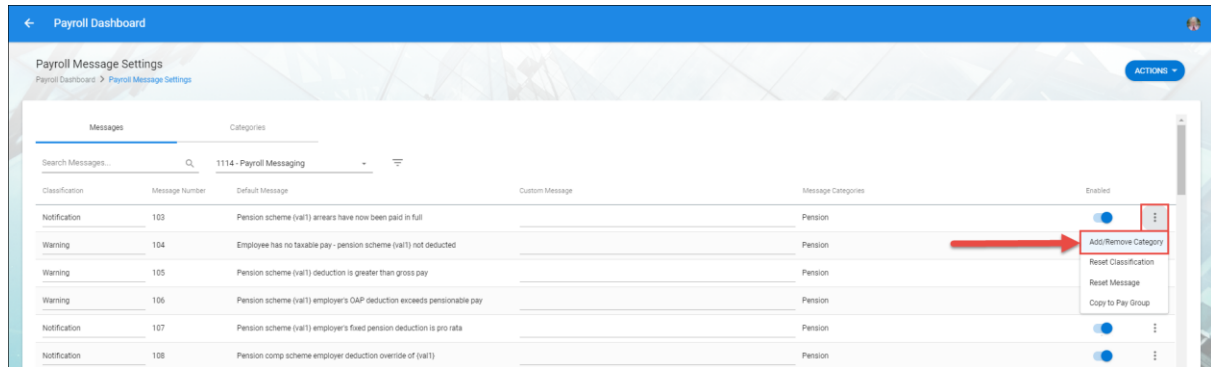

Note:

Payroll Messages are Categorised at the Pay Group Level.

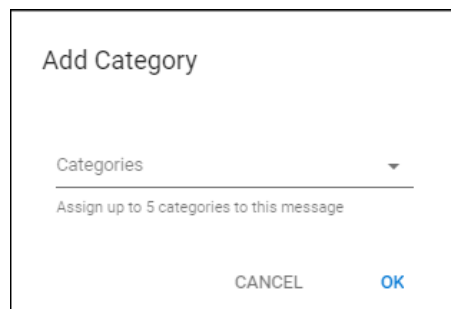

To assign a *Category* to a *Payroll Message*:

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Click the Further Options  button next to the *Payroll Message* you want to *Categorise*.
4. Select *Add/Remove Category*.

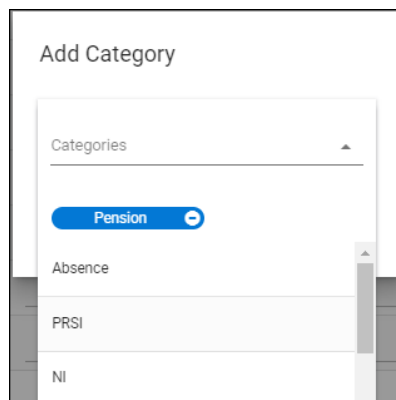

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

The *Add Category* screen opens.

5. Search for a *Category* or select a *Category* from the drop-down *Category* menu.

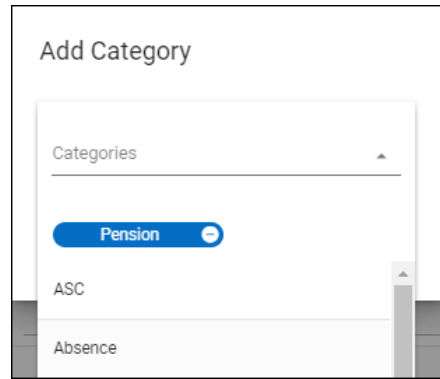

Note:

A *Payroll Message* may be assigned up to 5 categories.

6. Click **OK**.

To remove a *Category* from a *Payroll Message*:

7. Click on the *Minus* symbol next to the *Category*.

8. Click **OK**.

3.8. Configure Thresholds

3.8.1. Configure Gross and Nett Thresholds for a Pay Group

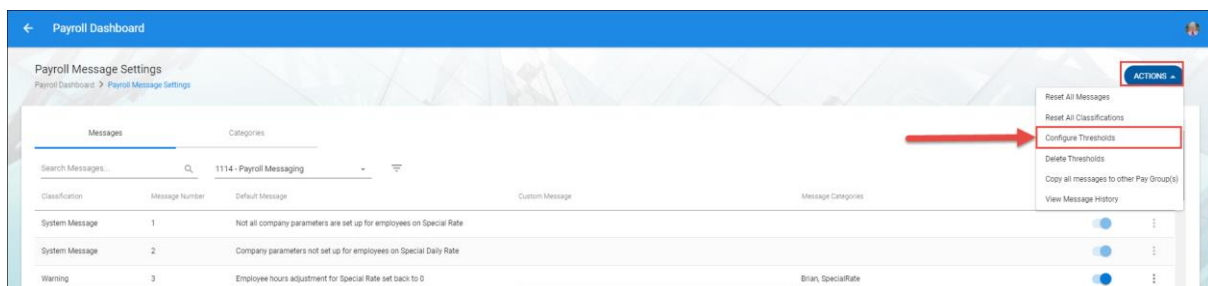

You can configure the *Gross or Nett Thresholds Levels* for *Employees' Salaries*, which, when exceeded, trigger a *Payroll Message*.

Note:

The *Gross or Nett Thresholds Levels* is the percentage change in *Gross or Nett* pay from the previous *Payroll Period* to the current *Payroll Period* allowed before a *Payroll Message* generates.

To set the *Gross or Nett Thresholds Levels* for *Employees' Salaries* in a *Pay Group*:

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Select the **Actions** Button.
4. Select *Configure Thresholds*.

The *Configure Thresholds for Pay Group* screen opens.

Configure Thresholds for 1114 - Payroll Messaging

Gross Percentage *
2

Nett Percentage *
2

CANCEL OK

Enter the *Gross Percentage* threshold, the *Nett Percentage* threshold, or both.

5. Click **OK**.

3.8.2. Gross and Nett Thresholds – Payroll Message

Where an *Employee* exceeds the *Gross or Nett Salary Thresholds Levels* configured on the *Pay Group*, the following *Payroll Messages* generate.

Payroll Dashboard

Payroll Messages - Period 202030

Payroll Dashboard > Payroll Messages - Period 202030

Message Number	Message	Number of Employees	Message Categories	Classification
319	Employee's gross has changed by (val1)%	1		System
320	Employee's nett has changed by (val1)%	1		System

1 row selected.

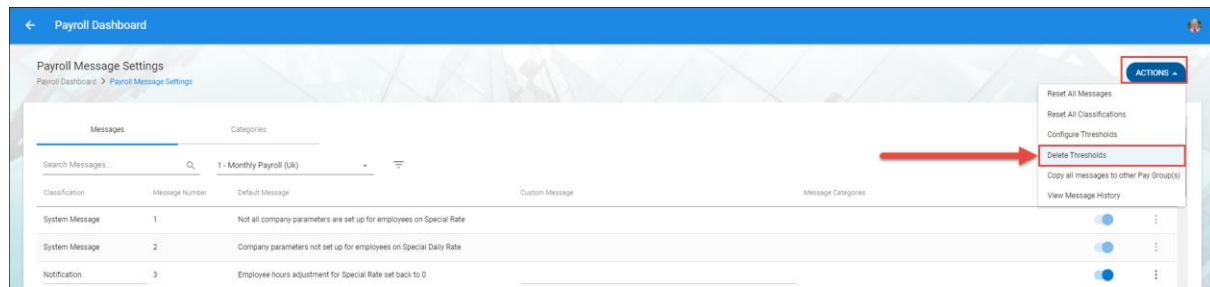

Employee Refere...	Name	Message	Actioned By	Actioned Date	Status
000221	David Ryan	Employee's gross has changed by 19%			VIEW

3.8.3. Delete Gross or Nett Thresholds for a Pay Group

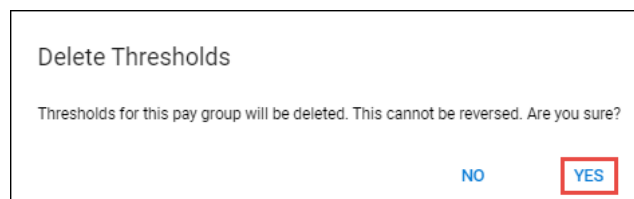

To *Delete* the *Gross or Nett Thresholds Levels* for *Employees' Salaries* in a *Pay Group*:

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Select the **Actions** Button.
4. Select *Delete Thresholds*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

The following message appears.

5. Click **YES**.

3.9. Copy Payroll Message Configuration

3.9.1. Overview

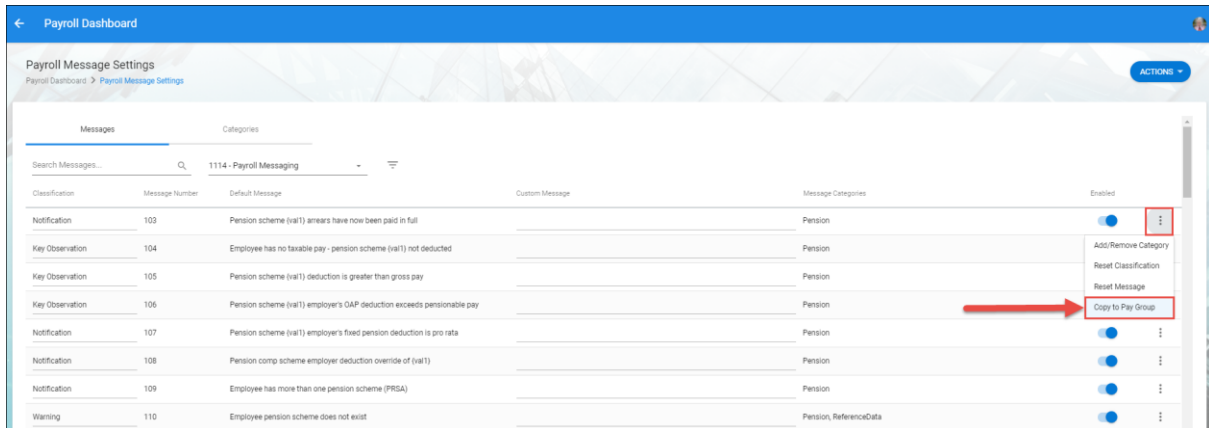

Once a *Payroll Message* has been *Reclassified*, *Customised*, *Categorised*, *Enabled* or *Disabled*, you can copy this configuration to another *Pay Group* in your *Organisation*.

3.9.2. Copy a Payroll Message's Configuration to Another Pay Group

To copy a *Payroll Message*'s configuration to another *Pay Group* in your *Organisation*:

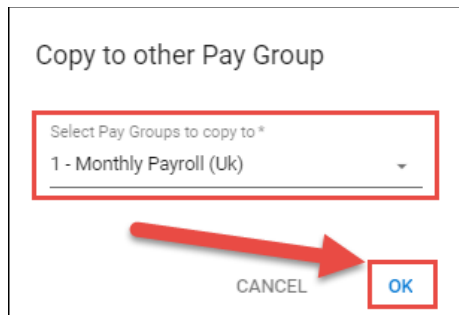

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Click the Further Options  button next to the *Payroll Message* you want to *Copy*.
4. Select *Copy to Pay Group*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

The *Copy to Other Pay Group* screen opens.

5. Select a *Pay Group*(s) from the drop-down *Select Pay Groups to Copy to* menu.

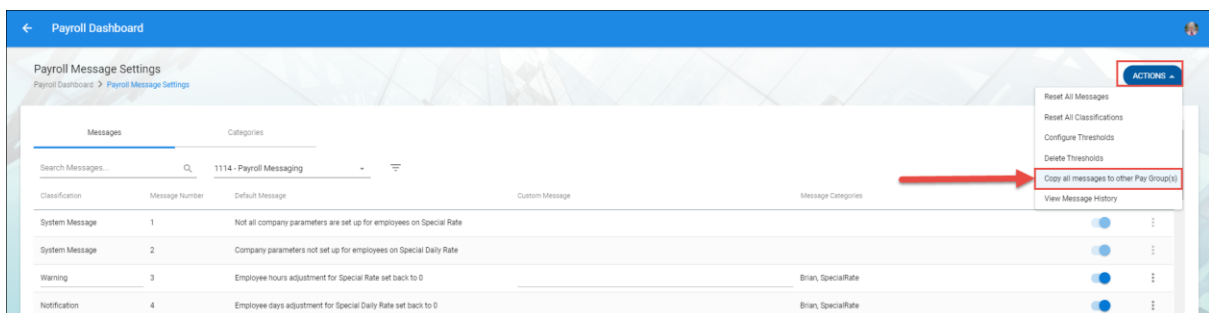

6. Click **OK**.

3.9.3. Copy a Pay Group's Payroll Message Configuration to Other Pay Group

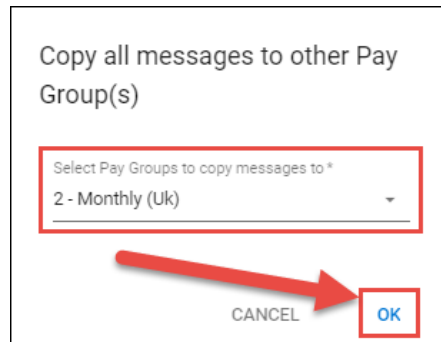

To copy a *Pay Group's Payroll Message* configuration to another *Pay Group* in your organisation:

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Select the **Actions** Button.
4. Select *Copy all Messages to Other Pay Group(s)*.

The *Copy All Messages to Other Pay Group(s)* screen opens.

5. Select a *Pay Group(s)* from the drop-down *Select Pay Groups to Copy Messages To* menu.

6. Click **OK**.

3.10. Reset Payroll Messages

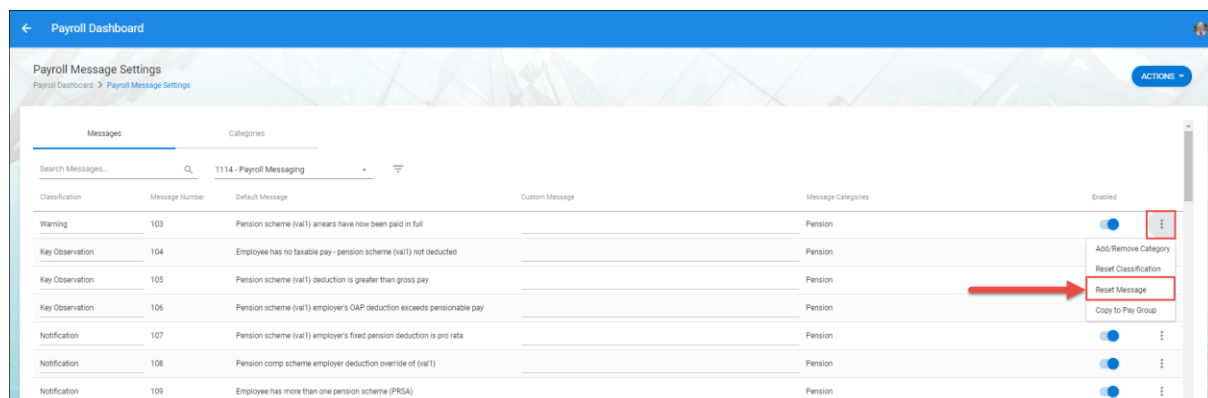

3.10.1. Overview

You can reset the *Classification*, *Customisation*, *Categorisation*, and the *Enabled* indicator for *Payroll Messages* in a *Pay Group* to their default settings.

3.10.2. Reset a Payroll Message

To reset the *Classification*, *Customisation*, *Categorisation*, and the *Enabled* indicator for an individual *Payroll Message* in the *Pay Group*:

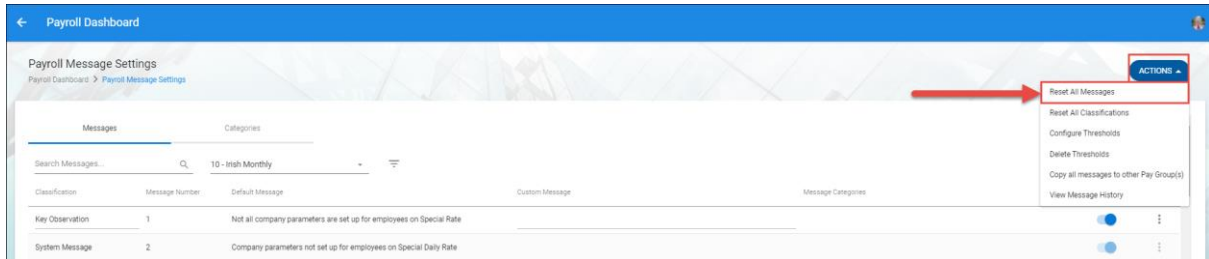

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Click the Further Options  button next to the *Payroll Message* you want to *Reset*.
4. Select *Reset Message*.

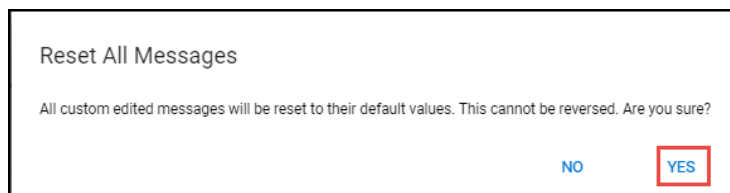

3.10.3. Reset All Payroll Messages

To reset the *Classification*, *Customisation*, *Categorisation*, and the *Enabled* indicator for all *Payroll Messages* in the *Pay Group*:

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Select the **Actions** Button.
4. Select *Reset All Messages*.

The following message appears.

5. Click **YES**.

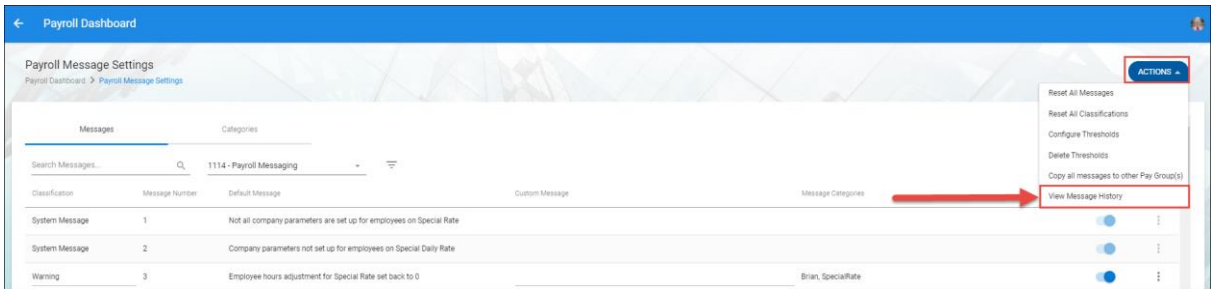

3.11. View Message History

Where a *Payroll Message* has been *Reclassified*, *Customised*, *Categorised*, *Enabled* or *Disabled*, a record is held in the *View Message History* screen.

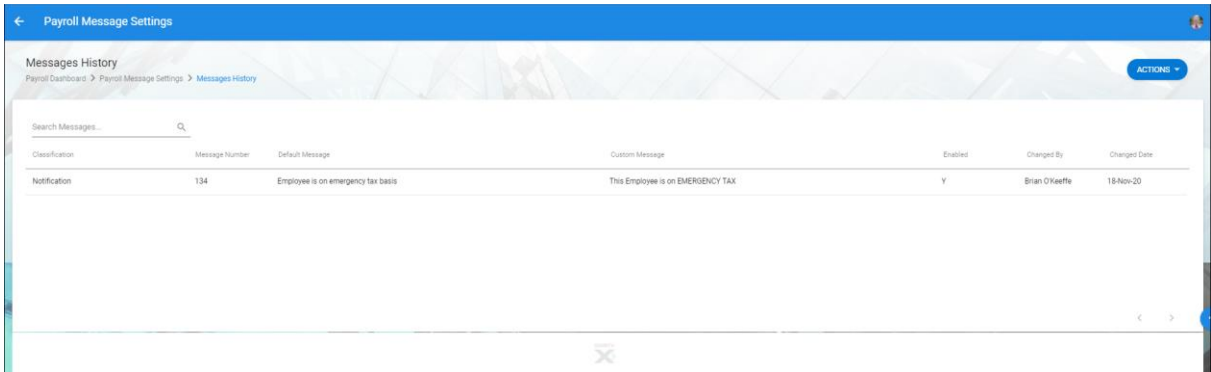

To access the *View Message History* screen.

1. Go the *Payroll Dashboard* > *Settings* > *Payroll Message Settings*.
2. Select a *Pay Group* from the drop-down *Pay Group* menu.
3. Select the **Actions** Button.
4. Select *View Message History*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

The *Message History* screen opens and displays the *Payroll User* who updated the *Payroll Message*, and the date on which the *Payroll Message* updated.

4. The Unprocessed Employees Screen

4.1. Overview

The *Unprocessed Employees* screen displays *Employees* for which Payroll needs to be *Reprocessed*, see section [Reprocess – Resolved and Unresolved](#).

An *Employee* is added to the *Unprocessed Employees* screen when the *Employee* has a *Payroll Message* updated to a status of [Reprocess](#).

Once *Payroll* is *Reprocessed*, the *Employees* are removed from the *Unprocessed Employee* screen.

Reminder:

To *Reprocess Payroll*, run the following Payroll task(s):

- **5-Step Payroll:** Generate the *Salaries & Allowances* task, the *Payroll Validation* task or both – depending on the *Payroll Message*.
- **3-Step Payroll:** Generate the *Calculate Payroll* task.
- **Single Processing:** Generate a *Single Processing* task – see the [Single Employee Processing](#) user guide.

4.2. Menu Options Required

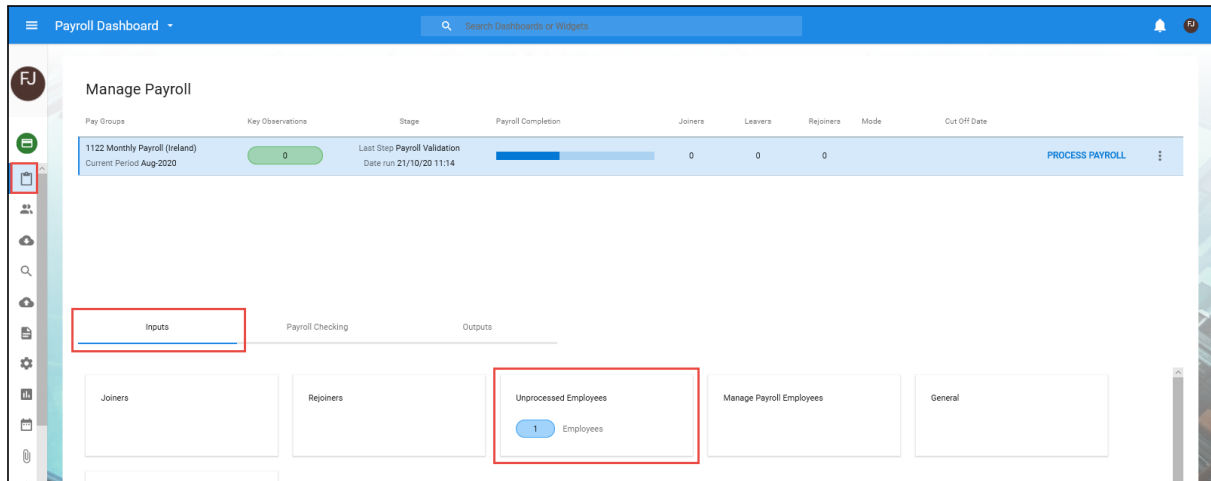

Menu Option	Description	System
Get payroll unprocessed	People > Get payroll unprocessed	Webservice

4.3. Access the Unprocessed Employees Screen

To access the *Unprocessed Employees* tab:

1. Go to *Payroll Dashboard > Manage Payroll > Inputs > Unprocessed Employees*.

Payroll: Enhanced Payroll Messaging and Unprocessed Employees

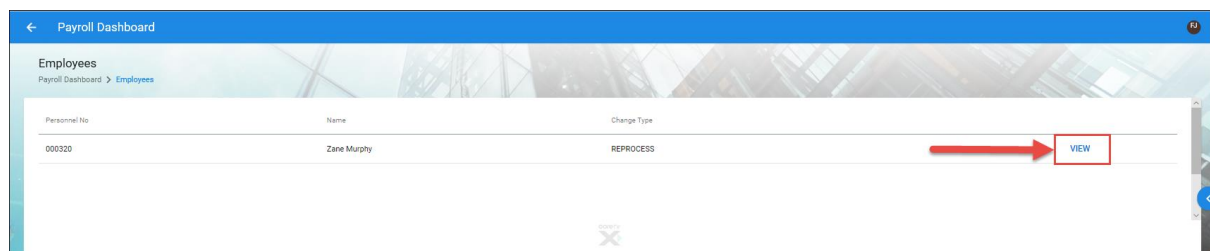

Note:

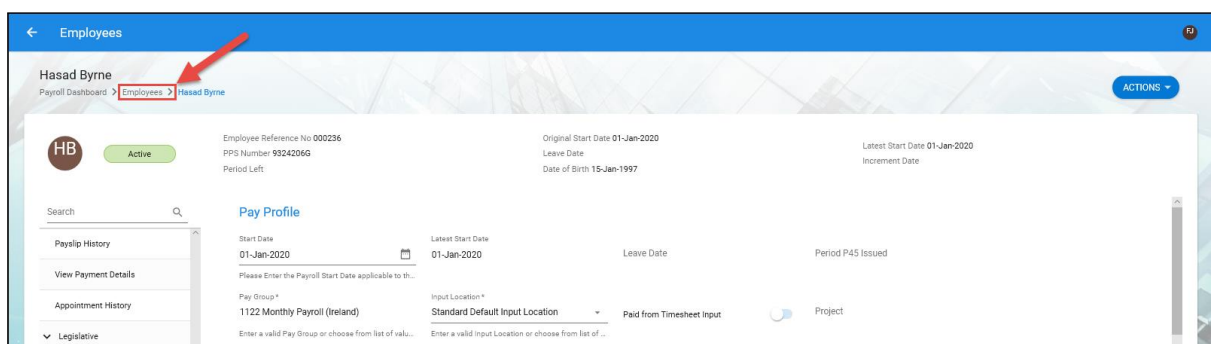

The number displayed in the *Unprocessed Employee* tab is the total number of *Employees* for which Payroll need to be *Reprocessed*.

The *Employees* screen opens.

2. Click **View** to open the *Employee Dashboard*.

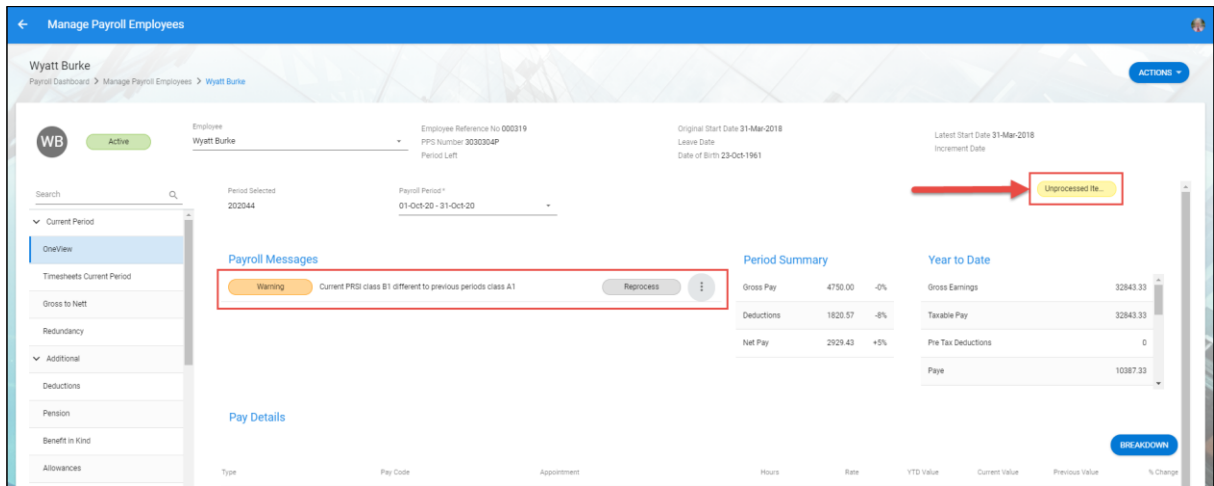

Click **Employees** to return to the *Employees* screen.

4.4. Unprocessed Items – OneView Screen

Once a *Payroll Message*’s status has updated to *Reprocess*, an *Unprocessed Items* chip displays on the *OneView* screen.

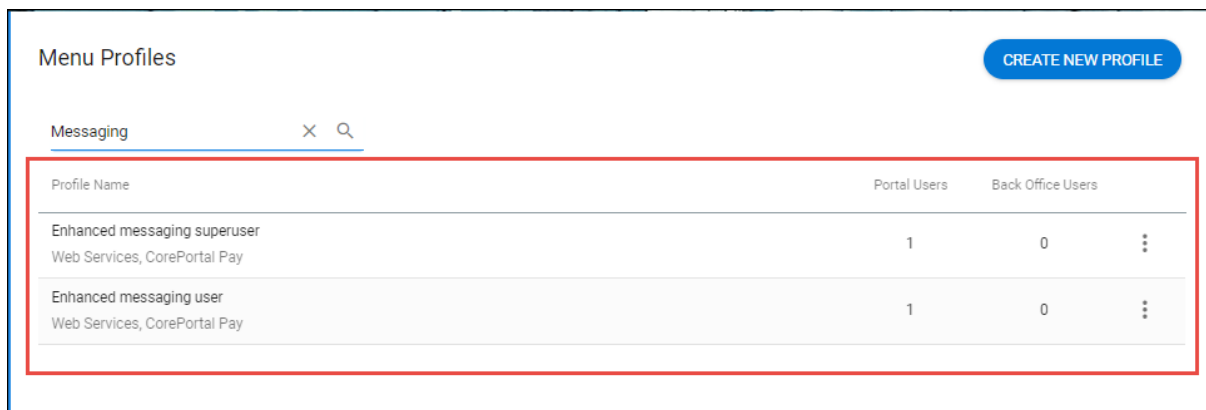

5. Full List of Menu Options Required

5.1. Menu Profile Access

Assign *Payroll Users* one of the following pre-configured *Menu Profiles* to grant access to the *Menu Options* required to use *Payroll Messages*.

Profile Name	Description
Enhanced messaging superuser	This <i>Menu Profile</i> grants users access to all the <i>Menu Options</i> required to use and configure <i>Payroll Messaging</i> and the <i>Unprocessed Employee</i> screen.
Enhanced messaging user	This <i>Menu Profile</i> grants users access to only the <i>Payroll Messaging</i> screen, the <i>Unprocessed Employee</i> Screen and the <i>OneView</i> screen <i>Messaging Webservices</i> and <i>Menu Options</i> , i.e. this <i>Menu Profile</i> does not grant users access to <i>Payroll Messaging</i> configuration.
