1. Overview

1.1. Purpose of the Guide

This document provides guidance on using the Pay Rates tab on the Payroll Dashboard.

1.2. Overview

The Pay Rates tab is used to configure and maintain all pay-related scenarios for an employee, including pay rates by code, employee and/or position. It also allows you to bulk upload allowance scale rates.

The tab contains four sections:

- View and Add Pay Rate by Code
- Pay Rates Bulk Update by Employee
- Pay Rates Bulk Update by Position
- Allowances Scale Rates Bulk Update

2. Maintain Pay Rates

2.1. View and Add Pay Rate by Code

This section is used to view and maintain position rates and allowance scale rates.

View and Add Pay Rate by Code

View Position Rates

View Allowance Scale Rates

Add Position Rates

Add Allowances Rates

2.1.1. View Position Rates

To view position rates:

1. Click **View Position Rates**.
2. Select the **Position** from the drop-down menu.
3. Select the **Date Effective** from the drop-down menu.

The screen populates with corresponding scales points and rates for the selected position and effective date.

View Position Rates

Payroll Dashboard > View Position Rates

1	22-MAR-22		3	0	0	24000	0	0

< >

2.1.2. Add Position Rates

To add Position Rates:

1. Click **Add Position Rates**.

2. Select a **Position Code** from the drop-down menu.
3. Fill in the **Rate Sequence Number**.

Note:

The Rate Sequence field is always populated with a value of 1.

4. Select the **Date Effective** i.e. the date the Pay Scale Rates will be effective from.
5. If required enter a **Reference**.
6. Click **Add** to make a new row available.
7. Fill in the **Scale Point Code**.
8. Fill in the required rates. A minimum of one rate needs to be entered:
 - Hourly Rate
 - Daily Rate
 - Annual Salary
 - Weekly Rate
 - Unit Rate
9. Click **Add** and repeat the steps above to add all the required rates.

Add Position Rates
Payroll Dashboard > Add Position Rates

OPEN LEGACY FORM

ADD **SAVE**

10. Click **Save**.

- If an invalid Scale Point Code has been entered an error will display. You will need to amend or delete the row before the record can be saved.

2.1.3. Edit or Delete Pay Rates

Pay rates cannot be edited or deleted, this ensures there's a record of previous rates on the system. To make changes to a rate made in error you can add new position rates with the same effective date and a different reference.

2.2. Allowance Scale Rates

2.2.1. View Allowance Scale Rates

To view allowance scale rates:

1. Click **View Allowance Scale Rates**.
2. Search for an Allowance Scale. You can search by selecting a:
 - Pay Code
 - Date Effective
 - Date Input
 - Reference

2.2.3. Edit or Delete Allowance Rates

Allowance rates cannot be edited or deleted, this ensures there's a record of previous rates on the system. To make changes to a rate made in error you can add new allowance rates with the same effective date and a different reference.

2.3. **Pay Rates Bulk Update by Employee**

This section is used to apply pay rate changes in bulk to employees on a Personal Rate.

The screenshot shows a web interface titled "Pay Rates Bulk Update by Employee". It contains five buttons arranged in two rows. The top row has four buttons: "Record Employee Ranges and Exclusions...", "Maintain Employee List", "Delete Employee List", and "Trial Run". The bottom row has one button: "Apply the Updates".

There are 5 steps in this process:

1. **Record Employee Ranges and Exclusions** – this step is used to select which employees you want to include in the update and which employees should be excluded.
2. **Maintain Employee List** - All employees that have been included from step 1 can be viewed during this step . You can also add or delete employees as needed.
3. **Delete Employee List** – This step is used to delete the employee list generated. You cannot set up a new Employee list until the previous one has been deleted
4. **Trial Run** – This step is used to input percentage/value increases and preview the changes before applying them to employees. It generates a report detailing any exceptions and the changes to employees personal rates.
5. **Apply the Updates** – This step is used to input and apply percentage/value increases to personal rates. It generates a report detailing any exceptions and the changes to employees personal rates.

2.3.1. Record Employee Ranges and Exclusions

This *Record Employee Ranges and Exclusions* screen is used to select which employees you want to include in the update and which employees should be excluded.

**Note:**

You cannot create a new employee list if an existing list has been created and not processed. An error will appear on screen if an existing list needs to be deleted. See section [Delete Employee List](#) for further guidance.

The screen is split into two. The top half of the screen is used to record the employee range.

The fields available are:

Field	Mandatory	Description
From Pay Group	Y	Enter a Pay Group range to include employees from between the selected values.
To Pay Group	Y	
From Category	N	Enter a Category range to include employees from between the selected values. Leave blank for all categories to be included.
To Category	N	
Pay Method	N	Include employees with the selected pay method only.
Min Start Date	N	Include employees with the selected minimum start date only.
Current Personal Rates Only	N	Only include employees on a personal rate.

The lower half of the screen contains tables which are used to add exclusions. Click next to navigate to each exclusion table.

Record Pay Groups For Exclusions

Pay Group	Description
 No data to display	

Buttons: Cancel, Previous, Next, Add

The exclusions available are:

Name	Description
Record Pay Groups for Exclusions	Add Pay Groups to be excluded.
Record Deductions for Exclusions	Add deduction Pay Codes to be excluded. If a pay code is entered this results in any employee that has this deduction pay code being excluded from the employee list.
Record Input Locations for Exclusions	Add Input Locations to be excluded. No employees whose payments are input from these locations will be included in the employee list.
Record Employee Status Exclusions	Add employee status codes to be excluded.
Record Employee Sub Status Exclusions	Add employee sub status codes to be excluded.
Record Category Exclusions	Add category codes to be excluded.
Record Sub-Category Exclusions	Add sub-category codes to be excluded.
Record Positions Exclusions	Add position codes to be excluded.
Record Wages Type Exclusions	Add wage type codes to be excluded.
Record Employee Exclusions	Add employees to be excluded.

To create the employee list:

1. Click **Record Employee Ranges and Exclusions**.
2. Select a **From Pay Group** and **To Pay Group**.
3. Fill in any further fields.
4. If required click **Add** and enter details on the new line to add Pay Groups for exclusion.
5. Click **Next** to navigate and add exclusions as required.

Note:

There are 9 exclusion tables to navigate through. If no exclusions are required click next until you reach the final screen.

6. Click **Next** on the Record Employee Exclusions table.
7. If required enable the **Generate Report** toggle. This will generate an *Ad Hoc Employee Listing* report in the Report Centre once the employee list is created.

Save

To amend the employee list:

1. Click **Maintain Employee List**.
2. If required add additional employees to the list:
 - a. Click **Add**.
 - b. Select an employee from the **Employee Reference** field.
3. If required delete employees from the list:

- a. Expand the 3 dot menu.
 - b. Click **Delete**.
4. Click **Save**.

2.3.3. Delete Employee List

The *Delete Employee List* screen is used to delete the employee list.

Note:

You cannot create a new employee list until any pre-existing list has been deleted.

To delete the employee list:

1. Click **Delete Employee List**.

The screenshot shows the 'Delete Employee List' screen. At the top, there is a header with the title 'Delete Employee List' and a breadcrumb trail 'Payroll Dashboard > Delete Employee List'. Below the header, the main content area has the title 'Delete Employee List' and a confirmation message: 'Confirming this screen will cause all ranges of employees to be deleted from ad-hoc ranges.' At the bottom of the confirmation box, there are two blue buttons: 'OK' and 'Cancel'.

2. Review the confirmation message.
 3. Click **OK**.

2.3.4. Trial Run

The *Trial Run* screen is used to input percentage/value increases and preview the changes in a report before applying them to employees.

To amend the position list:

1. Click **Maintain List**.
2. If required add Position Codes to the list:
 - a. Click **Add**.
 - b. Select a **Position Code** from the drop-down menu.
3. If required delete Position Codes from the list:
 - a. Expand the **3 dot menu**.
 - b. Click **Delete**.
4. Click **Save**.

2.4.3. Delete List

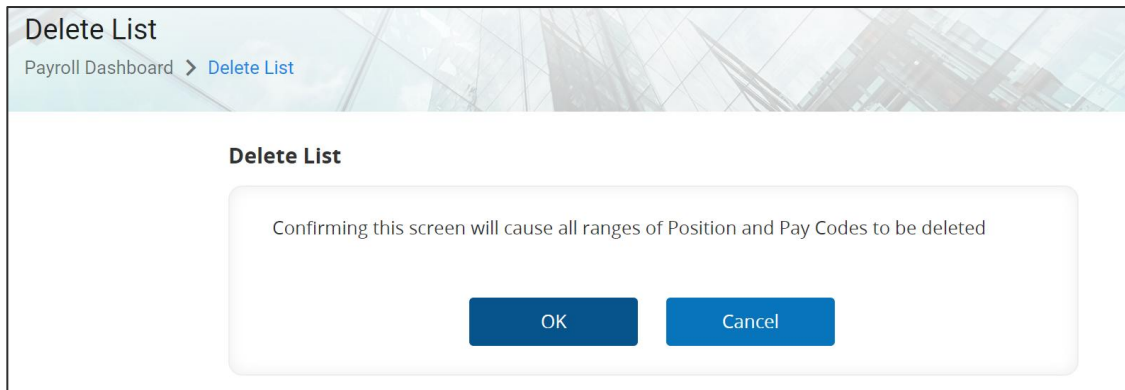

The *Delete List* screen is used to delete the position list.

Note:

You cannot create a new position list until any pre-existing list has been deleted.

To delete the position list:

1. Click **Delete List**.

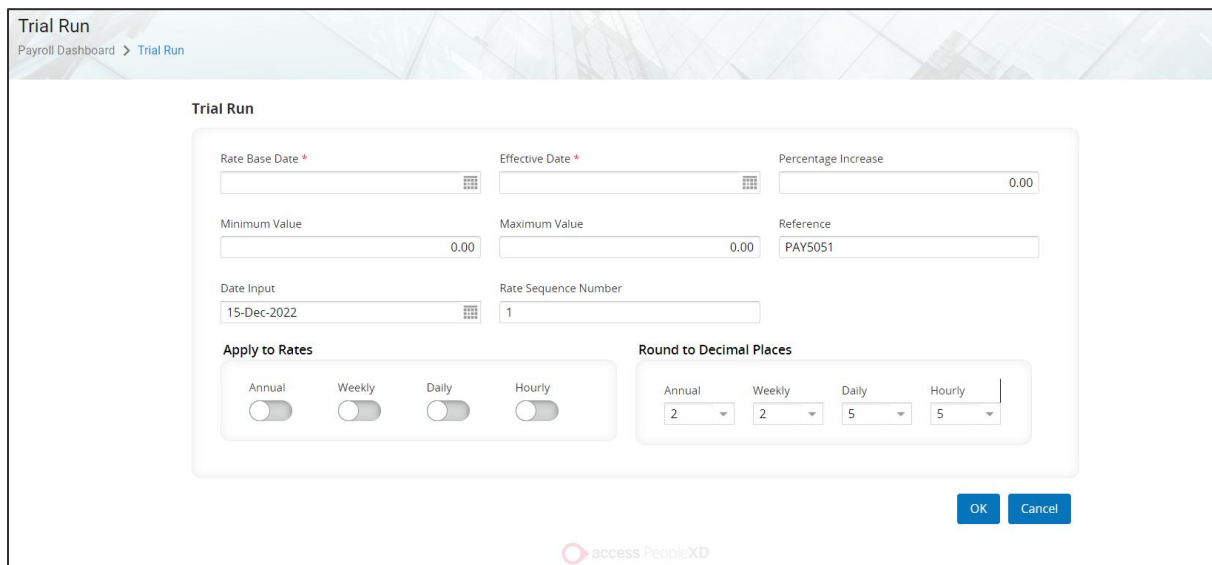

The screenshot shows a web interface titled 'Delete List' with a breadcrumb 'Payroll Dashboard > Delete List'. Below the title, there is a confirmation message: 'Confirming this screen will cause all ranges of Position and Pay Codes to be deleted'. At the bottom of the message box are two buttons: 'OK' and 'Cancel'.

2. Review the confirmation message.
3. Click **OK**.

2.4.4. Trial Run

The *Trial Run* screen is used to input percentage/value increases and preview the changes in a report before applying them.

The screenshot shows the 'Trial Run' configuration screen. It has a breadcrumb 'Payroll Dashboard > Trial Run'. The main area is titled 'Trial Run' and contains several input fields and sections:

- Rate Base Date ***: A date picker field.
- Effective Date ***: A date picker field.
- Percentage Increase**: A text input field with the value '0.00'.
- Minimum Value**: A text input field with the value '0.00'.
- Maximum Value**: A text input field with the value '0.00'.
- Reference**: A text input field with the value 'PAY5051'.
- Date Input**: A date picker field with the value '15-Dec-2022'.
- Rate Sequence Number**: A text input field with the value '1'.
- Apply to Rates**: A section with four radio buttons: 'Annual', 'Weekly', 'Daily', and 'Hourly'. The 'Annual' button is selected.
- Round to Decimal Places**: A section with four dropdown menus: 'Annual' (value 2), 'Weekly' (value 2), 'Daily' (value 5), and 'Hourly' (value 5).

At the bottom right of the form are two buttons: 'OK' and 'Cancel'. The 'access PeopleXD' logo is visible at the bottom center.

The fields available are:

Name	Description
Rate Base Date	Enter the date on which the new rates will be based, i.e. if you intend to increase the rates effective on the 1 st December, then this date should be the 30 th November
Effective Date	Enter the date the new rates become effective.
Percentage Increase	• Percentage increase - Enter the percentage by which the rates are to be increased. • Fixed value increase - Leave blank.
Minimum Value	• Percentage increase - enter the minimum value for the increase. The minimum value will be used if the percentage increase does not increase the rate by the minimum value. • Fixed value increase - enter the value. Do not enter a Max. Value if applying a value increase.
Maximum Value	If applying a percentage increase, enter the maximum value for the increase. The maximum value will be used if the percentage increase is above the maximum value.
Reference	Enter a reference. The screen name is used as the default reference.
Date Input	Defaults to todays date.
Rate Sequence Number	Defaults to 1.
Apply to Rates	Select the rate types to apply the increase to. This can be Annual, Weekly, Daily and Hourly rates.
Round to Decimal Places	Select the number of decimal places, to which the rates are rounded for each rate type. By default the number of decimal places are rounded to the maximum allowed by PeopleXD.

To run a trial run:

1. Click **Trial Run**.
2. Select a **Rate Base Date**.
3. Select an **Effective Date**.
4. Fill in the relevant fields.

5. Click **OK**.
6. Navigate to the **Report Centre**.
7. Open the *Apply Trial Rate Increases* report file.

2. Select a **Rate Base Date**.
3. Select an **Effective Date**.
4. Fill in the relevant fields.
5. Click **OK**.
6. Navigate to the **Report Centre**.
7. Open the *Apply Position Rate Increases* report file.

2.5. Allowances Scale Rates Bulk Update

This section is used to apply pay rate changes in bulk to Allowance Scale Rates.

There are 3 steps in this process:

1. **Create and Maintain the Employee List** - The allowance scale rates employee list is the same list used in the Pay Rates Bulk Update by Employee process and is created using the options within this section of the screen.

Note:

There are no options to create or maintain the list within the Allowances Scale Rates Bulk Update screen.

2. **Trial Run** – This step is used to input percentage/value increases and preview the changes before applying them to employees. It generates a report detailing any exceptions and the changes to allowance scale rates.
3. **Apply the Updates** – This step is used to input and apply percentage/value increases to allowance scale rates. It generates a report detailing any exceptions and the changes to employees personal rates.

2.5.1. Create and Maintain the Employee List

The allowance scale rates employee list is the same list used in the Pay Rates Bulk Update by Employee process and is created using the options within this section of the screen. To create and maintain the employee list:

1. [Record Employee Ranges and Exclusions](#)
2. [Maintain Employee List](#)
3. [Delete Employee List](#)

2.5.2. Trial Run

The Trial Run screen is used to input percentage/value increases and preview the changes in a report before applying them.
