1.1	7 th Nov 2022	Isabelle Grey	Updated formatting. Added section 2.1.3. Generate Nett Pay & Deduction Orders .
1.2	4 th May 2023	Isabelle Grey	Reconciliation report added to section 2.1. Generate Reports .

1. Introduction

1.1. Purpose of this Guide

This document provides guidance on how to use the Payroll Outputs section of the *Manage Payroll* widget.

This includes all required post payroll related tasks:

- Generate Reports
- Generate Bank File
- Generate RTI
- Print Payslips
- Generate General Ledger

2. Payroll Outputs

After closing the payroll, you can perform the following tasks:

- Generate Reports
- Generate Bank File
- Generate RTI
- Print Payslips
- Generate General Ledger

2.1. Generate Reports

After completing payroll you can generate post payroll reports. To do this:

1. Go to *Manage Payrolls > Outputs*.
2. Click the **Reports** tile.

There are four options:

Report	Description
Final Control Report	This report is generated after the Complete Update, or Close Payroll has been completed and is a final check to ensure that the balance of the payment. The closing balances can be compared between the update and the complete update. If everything is as expected, the message 'ALL PAYROLL TOTALS HAVE BALANCED' will appear at the bottom of the report.
P45	The P45 section under Reports is only available for UK Pay Groups. From the P45 screen, the user can produce P45s by selecting the specific employee and click on the Generate P45 button.
Net Pay & Deduction Orders	This report provides you with an overall view of the payments made to each employee, as well as the bank account details or cheque number that was used to pay them.
Reconciliation Report (UK Only)	This report brings data together in one place, allowing you to see payroll values that would otherwise only be available in a limited format on a P32 report. This facilitates a more efficient end-of-period reconciliation process.

2.1.1. Generate Final Control Reports

To do this:

1. Click **Final Control Reports**. The report is generated and sent to the *Reports Centre*.
2. Click the **Report Centre** tab.
3. Click **Open All**. The report is downloaded as a PDF file and is available in your *Downloads* folder on your computer. This can be opened, saved or printed as required.

Final Control Report	
Submitted By	MPRACHETT
Date	07-FEB-2019 15:36:01
Report ID	PAY355CT
Report Name	Final Control Report
Pay Group	MONTHLY PAYROLL 1
Pay Period	Jul-2018

2.1.2. Generate P45s

To generate P45s for all leavers during that period:

1. Click **P45**.
2. The P45 screen defaults to the selected pay group for which you have been processing payroll outputs.
3. Add an employee if you wish to generate a P45 for that employee only (Optional).
4. Click **Generate P45**. The P45s are generated and sent to the *Reports Centre*.

The screenshot shows the 'P45' screen within the 'Reports' section. The breadcrumb trail is 'Payroll Dashboard > Reports > P45'. A blue button labeled 'GENERATE P45' is highlighted with a red rectangle in the top right corner. Below this, there are three input fields: 'Pay group' with the value 'Monthly Payroll 1', 'Employee' with a dropdown arrow, and 'Period left' with the value 'Mar-2018'.

5. Click the **Report Centre** Tab.
6. Click **Open All** on the P45UK report. The report is downloaded as a PDF file and is available in your *Downloads* folder on your computer. This can be opened, saved or printed as required.

2. Select a **Pay Group**.
3. Select a **Period**.
4. Select a **Run Number**.
5. Click **Generate Report**.
6. Click the **Report Centre** tab.
7. Click **Open All**. The PDF and .csv files are downloaded and are available in your *Downloads* folder on your computer. This can be opened, saved or printed as required.

2.1.4. Generate Reconciliation Report

To generate a reconciliation report:

1. Click **Reconciliation**.

The screenshot shows the 'Reconciliation' page in the PeopleXD Payroll system. The breadcrumb trail at the top reads 'Payroll Dashboard > Reports > Reconciliation'. Below this, the title 'Reconciliation' is displayed. The main area contains four dropdown menus: 'Company*', 'Pay Group*', 'Year*', and 'Tax Month*'. At the bottom center, there is a logo for 'access PeopleXD' and a green 'PRINT' button in the bottom right corner.

2. Select a **Company**.
3. Select a **Pay Group**.
4. Enter a **Year**.
5. Select a **Tax Month**.
6. Click **Print**.
7. Click **Open All**. The report is downloaded as a .csv file and is available in your *Downloads* folder on your computer. This can be opened, saved or printed as required.

For further details on the data contained in this report see the [reconciliation report article](#) on the knowledge base.

2.2. Generate Bank File

The Bank File output option is used to generate the bank file for the closed payroll. To do this:

1. Go to: *Manage Payrolls > Outputs*.
2. Click the **Bank File** tile.

Bank File
Payroll Dashboard > Bank File

Report Name: Paypath Processing
Company: Abc Solutions
Sort Code: 089003
Account No.: 70002203
User ID: 996381
Bank Name: Bacs
File number: 1
Processing Date:

All Companies: ☐

GENERATE

Pay Group	Run No	Employees	Attachments	Processing Date	New Processing Date	Exclude P...
Monthly Payroll 1	0	3	0	31-Jan-2019	31-Jan-2019	☐
Monthly Payroll 2	0	1	0	01-Dec-2017	01-Dec-2017	☐

The *Bank File* screen displays the following:

Field	Description
Report Name	- Select Paypath Processing to generate the file. - Select Rest Paypath to reset the Paypath and regenerate the bank file.
Company	This will default to the company for which you are processing outputs. However, you can select other companies you have access to from the drop-down menu.
Sort Code and Account Number	The bank account details for the bank file are displayed here.
User ID	UserID is recorded for Non-Sepa companies to identify the origin of the file. For Sepa companies, this screen will display PrivateID instead. This is controlled on the Maintain Payroll Parameters screen.

Field	Description
Bank Name	In the UK, companies generally use the following options for transferring banking transactions: • BACS • Albany BACS
File Number	Select a file number to be associated with the file.
Processing Date	Select the processing date for the bank file.
All Companies	Toggle this indicator to ON to generate bank files for all companies you have access to.

3. Click **Generate**. The generated bank file will be sent to the *Reports Centre*.

4. Click the **Report Centre** tab.

The report centre now contains the following:

- The Bank File (including an excel .CSV file).
- The Bank File – Paypath Listing report (PAYB430).

5. Click **Open** to download and view the files.

2.3. Generate / Transfer Real Time Information (RTI)

Once payroll has been completed, you must generate and transfer the Real Time Information (RTI) file to HMRC. You can choose from the following file types:

- Full Payroll Submission (FPS)
- Employer Alignment Submission (EAS)
- Employer Payment Summary (EPS)
- Earlier Year Update (EYU)

2.3.1. RTI File Types

Full Payroll Submission (FPS)

The FPS is the submission you must make to HMRC each time you pay your employees and contains:

- Details of all payments made to employees in the pay run.
- Employee income tax and NI contributions in the pay run.
- Details of any starters or leavers from the pay run.

- Employee details, such as name, NI number and tax code.

HMRC tracks this information throughout the tax year to confirm that each employee's PAYE and NIC liabilities are being deducted correctly.

Employer Alignment Submission (EAS)

If you have 250 employees or more, your first submission must be an Employer Alignment Submission (EAS), which simply contains the details of all your employees, allowing HMRC to align their records with yours.

Employer Payment Summary (EPS)

Your regular FPS submissions after each pay run, generally provide HMRC with the information they need to confirm throughout the year that each employee's tax and national insurance (NI) liabilities are being deducted correctly. It also determines the amount you owe HMRC at the end of each tax reporting period. The payment due to HMRC for this liability is known as a P32 payment.

You would normally submit an employer payment summary (EPS) when you recover statutory payments, which reduces your liability and the amount you owe HMRC. It includes supplementary information about your company's tax and NI liability, such as employment allowance.

Earlier Year Update (EYU)

EYU stands for Earlier Year Update. It is required if an adjustment needs to be made to a previous RTI tax year. This will only apply for corrections in previous years where a client was returning PAYE using RTI.

An FPS can only be sent up until 19th April following the end of a tax year. After this any corrections need to be made on an EYU. Non-RTI years will still be corrected via amended P35/P14s as per the existing PAYE arrangement.

Note:

From April 2021 the EYU file is defunct and replaced by a Prior Year FPS. This means that corrections for previous tax years 2020 or higher will now be made via Prior Year FPS file submissions. Corrections for years prior to this will continue to be made via the EYU file.

Prior Year FPS

From April 2021 Prior Year Corrections are now made via the FPS File Submission. A key part of this change is that this now means when reporting the correction, we now report the final Year To Date figure back to HMRC. Whereas the EYU use to report the value of the adjustment to be made. The UK Year End user guide will cover the Prior Year FPS in more detail.

2.3.2. Generate RTI FPS File

To generate the FPS file:

1. Go to *Manage Payrolls > Outputs*.
2. Click the **RTI** tile.
3. Click **Generate File**.

Payroll Dashboard

Generate / Transfer Files

Payroll Dashboard > Generate / Transfer Files

GENERATE FILE

File Type	Company	Pay Group	Mode	Return Period	Run no	Status	By
FPS	Abc Solutions	Monthly Payroll 1	Live	201708	0	Generated	TRANSFER

4. Select **FPS** from the *File Type* drop-down menu.

The screenshot shows the 'Generate RTI' interface. At the top, there's a breadcrumb trail: 'Payroll Dashboard > Generate / Transfer Files > Generate RTI'. A blue button labeled 'EMPLOYEE PARAMETERS' is in the top right. The main section is titled 'File Type' and contains a 'File Type' dropdown menu with 'FPS' selected. Below the dropdown are two radio buttons: 'Live' (which is selected) and 'Test'. Further down, there's a section titled 'FPS File Type' with three dropdown menus: 'Pay Group*', 'Pay Period*', and 'Late Reason Code'. At the bottom, there's a 'Run No' dropdown menu.

5. Select a pay group from the drop-down menu.
6. If required enter a **Late Reason Code** this is for when generating late submissions.
7. Click **Generate**. You will receive a notification once the file is generated. To view the file, return to the *Generate/Transfer Files* screen.

2.3.3. Generate the RTI EPS File

To generate the EPS file:

1. Go to *Manage Payrolls > Outputs*.
2. Click **RTI**.
3. Click the **Generate File** button.
4. Select **EPS** from the *File Type* drop-down menu.

The screenshot shows the 'Generate RTI' interface for EPS. The breadcrumb trail is 'Payroll Dashboard > Generate / Transfer Files > Generate RTI'. A blue button labeled 'EPS PARAMETERS' is in the top right. The main section is titled 'File Type' and contains a 'File Type' dropdown menu with 'EPS' selected. Below the dropdown are two radio buttons: 'Live' (which is selected) and 'Test'. Further down, there's a section titled 'EPS File Type' with four dropdown menus: 'EPS Type' (set to 'Normal'), 'Company*', 'Year*', and 'Tax Month*'. At the bottom, there's a 'Run No' dropdown menu.

5. Select an option from the *EPS Type* drop-down menu. The options are as follows:
 - a. **Normal**: Used when generating files for payroll periods during the tax year.
 - b. **Final**: Used when generating the last file of the tax year.
6. Select a company from the *Company* drop-down menu.
7. The year will default to the current year.
8. The *Tax Month* field will default to the last closed payroll.
9. Optionally, if you wish to configure EPS details for the file, click **EPS Parameters**.
 - a. EPS can be configured at the company level. The user may wish to configure EPS parameters for each company.

The screenshot shows the 'EPS Parameters' configuration page. At the top, there is a breadcrumb trail: 'Payroll Dashboard > Generate / Transfer Files > Generate RTI > EPS Parameters'. The page is divided into two main sections: 'Non Payment Details' and 'Recovery Payments Override'. The 'Non Payment Details' section contains three date pickers: 'No Payment Dates from', 'No Payment Dates to', and 'Period of Inactivity From', followed by a 'Period of Inactivity To' date picker. The 'Recovery Payments Override' section contains a grid of nine compensation fields, each with an up/down arrow for adjustment. The fields are: SSP Recovered, SMP Compensation, SMP Recovered, SAP Compensation, SAP Recovered, SPP Compensation, SPP Recovered, ShPP Compensation, and ShPP Recovered. A 'CIS Compensation' field is located at the bottom left.

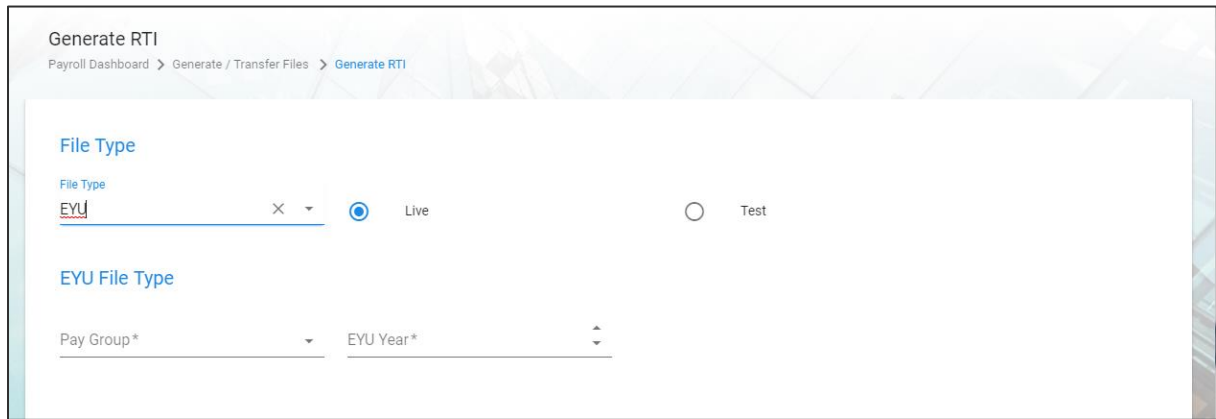

10. Click **Generate**.

2.3.4. Generate RTI EYU File

To generate the EAS file:

1. Go to *Manage Payrolls > Outputs*.
2. Click **RTI**.
3. Click the **Generate File** button.

4. Select **EYU** from the *File Type* drop-down menu.

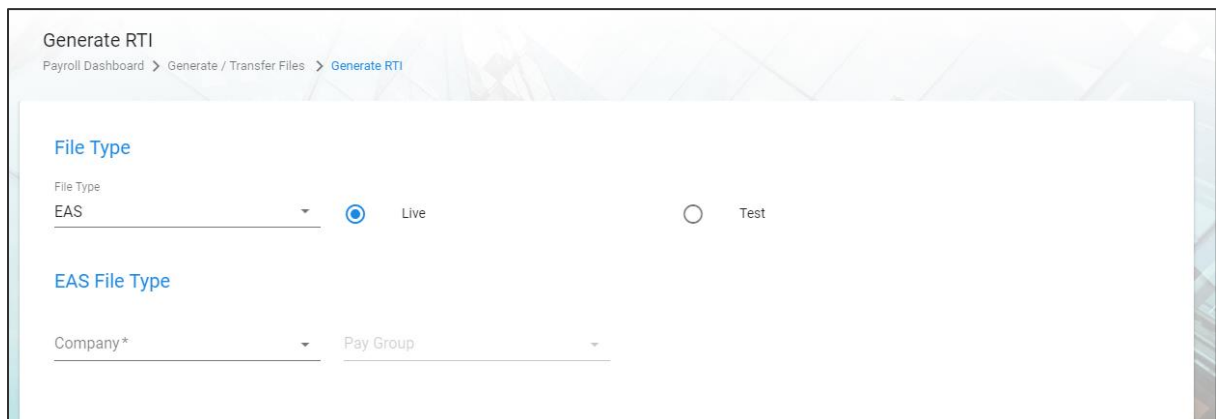

The screenshot shows the 'Generate RTI' interface. At the top, there's a breadcrumb trail: 'Payroll Dashboard > Generate / Transfer Files > Generate RTI'. Below this, the 'File Type' section has a dropdown menu with 'EYU' selected. To the right of the dropdown are two radio buttons: 'Live' (which is selected) and 'Test'. Below the 'File Type' section is the 'EYU File Type' section, which contains two dropdown menus: 'Pay Group*' and 'EYU Year*'. The 'EYU Year*' dropdown has a small up/down arrow icon next to it.

5. Select a pay group from the *Pay Group* drop-down menu.
6. The EYU Year field will default to the relevant year.
7. Click **Generate**. You will be notified when the file is generated.

2.3.5. Generate RTI EAS File

To generate the EAS file:

1. Go to *Manage Payrolls > Outputs*.
2. Click **RTI**.
3. Click the **Generate File** button.
4. Select **EAS** from the *File Type* drop-down menu.

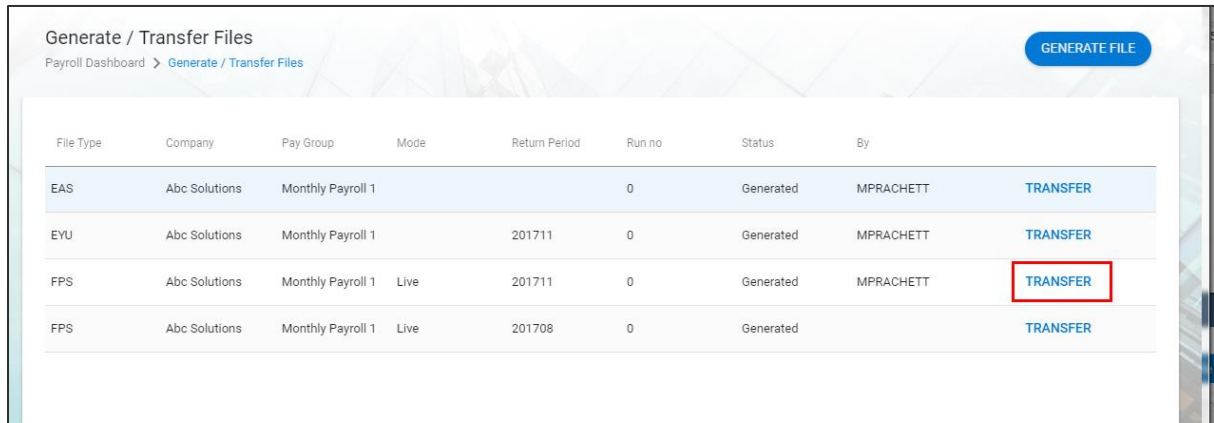

The screenshot shows the 'Generate RTI' interface. At the top, there's a breadcrumb trail: 'Payroll Dashboard > Generate / Transfer Files > Generate RTI'. Below this, the 'File Type' section has a dropdown menu with 'EAS' selected. To the right of the dropdown are two radio buttons: 'Live' (which is selected) and 'Test'. Below the 'File Type' section is the 'EAS File Type' section, which contains two dropdown menus: 'Company*' and 'Pay Group'. The 'Pay Group' dropdown has a small up/down arrow icon next to it.

5. Select a company from the *Company* field.
6. Select Tax Month.
7. Select a pay group from the *Pay Group* field.
8. Click **Generate**.

2.3.6. Transfer the RTI File

To transfer the generated RTI file to HMRC:

1. Go to *Outputs for Last Payroll Closed > RTI*
2. Click **Transfer**.

The screenshot shows the 'Generate / Transfer Files' page. At the top, there is a breadcrumb 'Payroll Dashboard > Generate / Transfer Files' and a 'GENERATE FILE' button. Below is a table with columns: File Type, Company, Pay Group, Mode, Return Period, Run no, Status, and By. The table contains four rows of data. The third row, for 'FPS' file type, has a 'TRANSFER' button highlighted with a red rectangle.

File Type	Company	Pay Group	Mode	Return Period	Run no	Status	By
EAS	Abc Solutions	Monthly Payroll 1			0	Generated	MPRACHETT
EVU	Abc Solutions	Monthly Payroll 1		201711	0	Generated	MPRACHETT
FPS	Abc Solutions	Monthly Payroll 1	Live	201711	0	Generated	MPRACHETT
FPS	Abc Solutions	Monthly Payroll 1	Live	201708	0	Generated	

3. You will be notified once the file has been transferred.

2.3.7. Reports Centre

All generated files and reports will be made available for viewing / downloading in the *Reports Centre*.

2.4. **Generate Payslips**

After completing payroll for the closed payroll period, you must provide employees with their payslip.

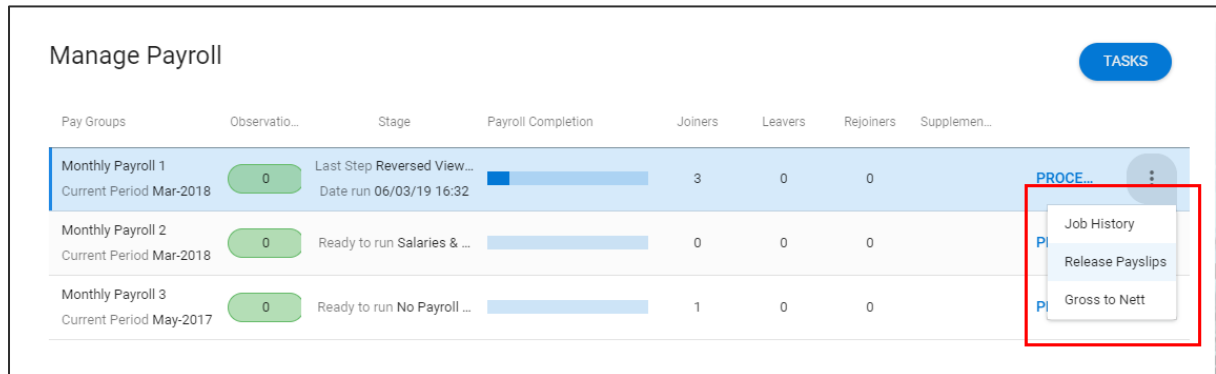

Employers can provide these by:

- Releasing payslips to the portal (for employers using the self-service portal).
- Printing and distributing physical payslips.

2.4.1. Release Payslips

To release portal payslips to the employee self-service dashboard:

1. Go to *Payroll Dashboard > Manage Payrolls*
2. Click the 3-dot menu.
3. Click **Release Payslips**.

Pay Groups	Observatio...	Stage	Payroll Completion	Joiners	Leavers	Rejoiners	Supplemen...
Monthly Payroll 1 Current Period Mar-2018	0	Last Step Reversed View... Date run 06/03/19 16:32		3	0	0	PROCE... ⋮ Job History Release Payslips Gross to Nett
Monthly Payroll 2 Current Period Mar-2018	0	Ready to run Salaries & ...		0	0	0	
Monthly Payroll 3 Current Period May-2017	0	Ready to run No Payroll ...		1	0	0	

2.4.2. Print Payslips

To generate and print payslips:

1. Go to *Payroll Dashboard > Manage Payrolls > Outputs*.
2. Click the **Print Payslips** tile.

The following fields are populated by default:

- Pay Group
- Completed Update
- Payslip Date
- Cheque Date
- Payslip Options

Print Payslips
Payroll Dashboard > Print Payslips

Information

Pay Group: 1001
Completed Update: Feb-2018
Employee(s):

Cost Centre:

Category: Sub Category: Input Location:

Payslip Location From:

Payslip Location To: Payslip Date: 28-Feb-2018 Cheque Date: 28-Feb-2018

Payslip Options: Payslips

Print Remittance: ☒ From Period: To Period:

corehr
Smarter HR Technology

PRINT

3. Click **Print**.

Printing payslips using the default fields only will print payslips for all employees in the pay group for the last closed payroll period.

You will be notified when the payslips have been generated. All payslips to be generated are in this file and will be available in the *Report Centre*.

To print the payslips:

1. Navigate to the **Report Centre**.
2. Click **Open**. This downloads the payslips in PDF format.
3. Open the PDF.
4. Click **Print**.

2.4.3. Print Payslip Order

You can configure the order of the payslips to be printed. To do this, select any of the following options:

Order By	Description
Employee	Print payslips for the selected employees only.
Cost Centre	Print payslips only for employees associated with the selected cost centre.
Categories	Print payslips for the employees assigned to the selected category.
Sub Categories	Print payslips for the employees assigned to the selected sub-category.
Input Location	Print payslips for employees with the selected input location only.
Payslip Location to and Payslip Location From	Set a location range and print payslips for employees with input locations between the selected values.

2.4.4. Employer Pension

As an optional step, you can select to print the Employer Pension remittance for a specific period.

To do this:

1. Turn on the **Print Remittance** indicator.
2. Add a *From Period*
3. Add a *To Period*

The screenshot shows the 'Payslip Options' form. At the top, there are fields for 'Payslip Location To' (a dropdown), 'Payslip Date' (28-Feb-2018), and 'Cheque Date' (28-Feb-2018). Below these is a 'Payslip Options' section with a 'Payslips' dropdown. A red rectangular box highlights the 'Print Remittance' section, which includes a toggle switch (currently turned on), a 'From Period' dropdown, and a 'To Period' dropdown. At the bottom right of the form is a green 'PRINT' button. The 'corehr' logo is visible at the bottom center.

2.5. Generate the General Ledger

To generate the GL after the payroll is closed:

1. Go to *Manage Payrolls > Outputs*.
2. Click the **General Ledger** tile.
3. The pay group defaults to the pay group you have selected outputs for. The report once generated, will display the Cost Centre, Expense, Debits and Credits for all employees in the selected pay group.

The screenshot shows the 'General Ledger' form within the 'Payroll Dashboard'. The form has a blue header bar with a back arrow and the title 'Payroll Dashboard'. Below the header, the title 'General Ledger' is displayed, followed by a breadcrumb 'Payroll Dashboard > General Ledger' and a blue button labeled 'BALANCE EXCEPTION ENQUIRY'. The form contains several input fields: 'Pay Group *' with a dropdown menu showing 'Monthly Payroll 1', 'Employee' with a dropdown menu, 'From Period' with a date picker showing '201747', 'To Period' with a date picker showing '201747', 'Financial Period' with a date picker showing '201802', and 'Run Number' with a dropdown menu showing '0'.

4. Select an employee from the Employee drop-down menu. The report once generated, will display the Cost Centre, Expense, Debits and Credits for the selected employee (Optional).
5. The *From Period*, *To Period* and *Financial Period* fields, will default to last closed period.
6. Click **Generate**.

The generated GL will be available in the *Report Centre*. This report is then generally shared with the companies finance department.
