1. Overview

1.1. Purpose of this Guide

This document provides guidance and instruction for adding or editing timesheets at employee level for the current pay period. For example when you want to add overtime hours worked by the employee for which they are to be paid this pay period.

Items covered include:

- Adding a new timesheet.
- Edit a timesheet.
- Delete a timesheet.

1.2. What is a Timesheet?

Timesheets hold the data required for payments to an employee in a payroll period, e.g. salary, permanent allowances, basic hours, overtime hours and arrears.

Some timesheet details are automatically generated in payroll as part of the Salaries & Allowances payroll task, e.g. salary, pension payment and permanent allowances.

Timesheets can be input to correct an employee's pay in the current payroll period, e.g. adding overtime hours worked by the employee. There are several ways in which data may be entered, such as:

- Manually input.
- Loaded from CSV File.
- Transferred from Workforce Management.

Note:

The Payroll Validation task must be run after these timesheets are input.

When a timesheet entry is created:

- Details may be entered as hours, cash value, days or units depending on the definition of the pay code used, e.g. if 39 casual hours are to be input, then use the *Casual Hours* pay code.
- Positive or negative values may be input.
- They are for the current open payroll period.
- Appointment ID and Cost Centre are mandatory for each entry.
- The transaction date for each timesheet entry defaults to the payroll week-end date or the month-end date in the case of monthly payroll.
- Non-cash value timesheets are valued based on the transaction date, i.e. the employee's rate of pay as of the transaction date.

2. Maintain Timesheets for the Current Period

2.1. Timesheet Current Period Screen

The Timesheet Current Period screen is used to view timesheets entered for an employee for the current period. To access the screen:

1. On the **Payroll Dashboard** click the **Employees** tab.
2. Search for the relevant employee and click **View**.
3. Click the **Timesheets Current Period** tab.

There are three sections on the screen:

Payroll Details:

This section displays key details of the current period and the employee in relation to their pay:

- Pay Group
- Pay Period
- Pay Period End Date
- Pay Grade & Point
- Input Period

NI/PRSI Weeks:

- For UK companies, this section is used to:

PeopleXD Payroll: Maintain Timesheets Current Period

- Enter a NI week band override (between 1 and 56)
- Enter the week which the PAYE is up to (between 1 and 53)
- Enable the zero NI band if no thresholds are to be applied.

The fields available are:

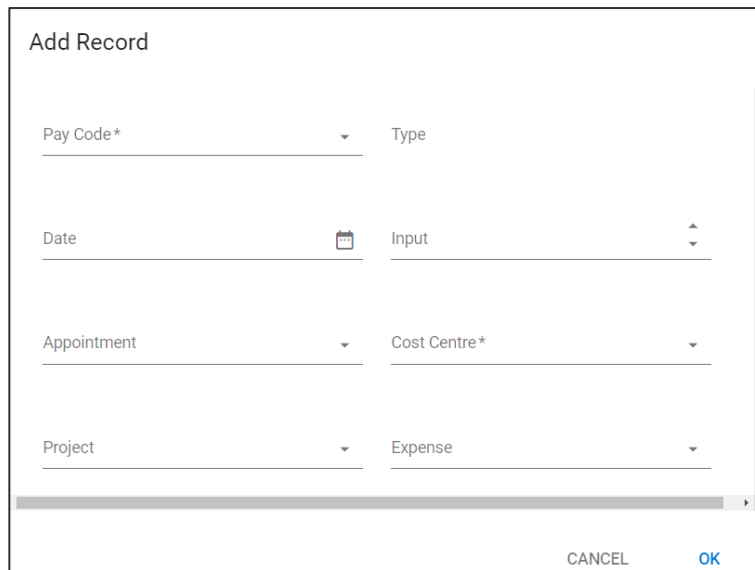

Column	Description
Pay Code	The salary or allowance pay code , e.g. Salary, Overtime, Shift Allowance etc.
Type	Populated based on the pay code configuration and details the type of pay, for example, Value, Unit or Hourly Rate.
Date	The applicable date for the timesheet entry. Defaults to last day of the period.

Column	Description
Input	The payment amount.
Appointment	Identifies which appointment/contract the timesheet entry is linked to. Useful where employees have multiple appointments.
Cost Centre	The cost centre that the payment is paid against. This will prepopulate but can be overridden if necessary.
Project	The project code for the timesheet (optional)
Expense	The expense code for the timesheet (optional)
Override Rate of Pay	The override rate of pay, if applied (optional)
Override Position	The override position, if applied (optional)
Override Point	The override point, if applied (optional)
Holiday Period	The holiday period the timesheet related to (optional)
Source/Reference	The source of the timesheet entry. If populated by the system the task name and reference will show e.g. Pay290 for the salaries & allowances task.
Start/End	The start/end date of the payment for example 1 st Sept – 30 th Sept for a monthly salary entry.

2.2. Add a Timesheet for the Current Period

To add a new timesheet:

1. On the **Payroll Dashboard** click the **Employees** tab.
2. Search for the relevant employee and click **View**.
3. Click the **Timesheets Current Period** tab.
4. Click **Add**.

Add Record

Pay Code* Type

Date Input

Appointment Cost Centre*

Project Expense

CANCEL OK

5. Select a **Pay Code**.
6. Enter an **Input**.
7. Fill in the fields as required.
8. Click **OK**.
9. Click **Save** to save any timesheet records added.

2.3. Edit a Timesheet

If changes are required, you can edit a timesheet for the current period. To do this:

1. Expand the timesheets **3-dot menu**.
2. Click **Edit**.
3. Make the relevant changes.
4. Click **OK**.
5. Click **Save**.

2.4. Delete a Timesheet for the Current Period

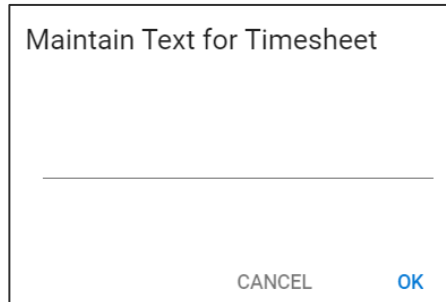

To delete a timesheet for the current period:

1. Expand the timesheets **3-dot menu**.
2. Click **Delete**.
3. A confirmation message will display, click **Yes**.
4. Click **Save**.

2.5. Maintain Notes

You can add a note to a timesheet including information which is useful for other users reviewing the entry. To do this:

1. Expand the timesheets **3-dot menu**.
2. Click **Maintain Notes**.

A screenshot of a dialog box titled "Maintain Text for Timesheet". The dialog box has a white background and a thin black border. Inside, there is a horizontal line for text entry. At the bottom right, there are two buttons: "CANCEL" in grey and "OK" in blue.

3. Enter your note text and click **OK**.

3. Menu Options Required

To access the Timesheet Current Period screen and functionality, users require the following menu options:

Menu Option	System
Coreportal - Payroll - Payroll Employee Scheduler	CorePortal
Employee Dash - Timesheets Current	CorePortal Pay
