1.2	14 th Sep 2020	Brian O’Keeffe	Update to section 1.1. Purpose of this Guide and section 2.2. About the Report Centre .																		

1. Introduction

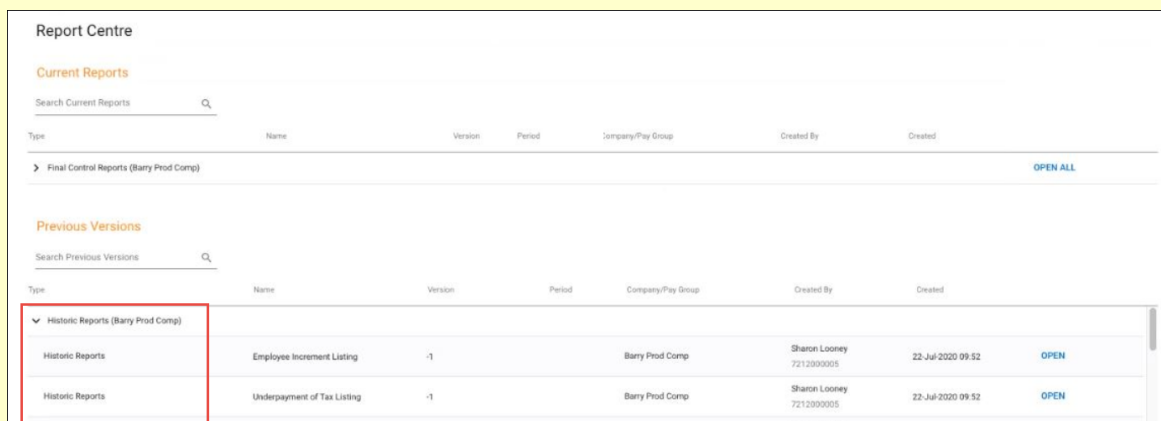

1.1. Purpose of this Guide

The purpose of this document is to provide guidance on how to use the new *Report Centre* in Payroll.

Note:

When implementing the new *Report Centre*, payroll reports and files generated before the implementation can be still be accessed. Note the following:

- Access previously generated payroll reports and files from the *Previous Versions* section.
- These reports have a report type of *Historic Reports*.
- Generating a new version of these payroll reports and files overwrites the historical reports.

1.2. Overview of Report Centre

Payroll: New Report Centre

The *Report Centre* provides you with a central location for retrieving payroll reports and files, e.g. payslips, control reports etc. Payroll reports and files, once generated, are sent to the *Report Centre* where they can be downloaded and viewed.

2. Report Centre

2.1. Menu Options Required

2.1.1. Enable Access to the new Report Centre

To access the new *Report Centre*, the user requires the following menu options:

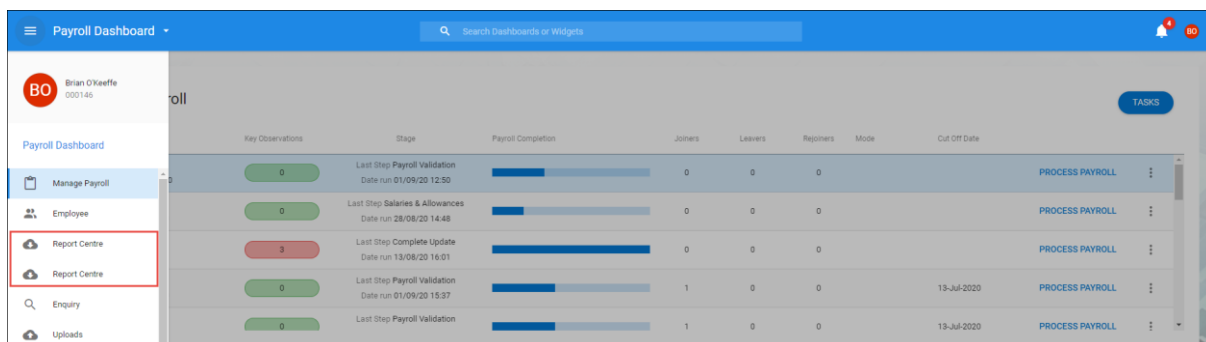

Menu Option	Description	System
Get reports	Payroll > Get reports	Webservices
Get reports Proxy (Pay Access)	Payroll > Get reports Proxy (Pay Access)	Webservices

2.1.2. Disable Access to the old Report Centre

To disable access to the old *Report Centre*, remove the users' access to the following menu option.

Menu Option	Description	System
MAIN MENU - REPORT CENTRE	MAIN MENU - REPORT CENTRE	CorePortal Pay

Failure to remove access to the old Report Centre results in the Report Centre appearing twice on your *Payroll Dashboard* menu.

2.2. About the Report Centre

The *Report Centre* provides you with a central location for retrieving payroll reports and files, e.g. payslips, control reports etc. Payroll reports and files, once generated, are sent to the *Report Centre* where they can be downloaded and viewed.

Note the following points:

- You can only access payroll reports and files which you generate. You cannot access payroll reports and files generated by other payroll users.

- The *Report Centre* stores previous versions of payroll reports generated in the payroll period. Reports which are not specific to a payroll period are overwritten once regenerated.
- Once generated, reports specific to a payroll period are assigned a version number, with the highest number representing the latest report. Version numbers are assigned in sequential order for each payroll user.
- To help identify the most recently generated payroll reports and files, the *Report Centre* groups payroll reports and files into two sections:
 - **Current Reports:** This section contains the most recent version of the payroll report or file generated for a pay group or company.
 - **Previous Reports:** If a payroll report or file, specific to a payroll period, is generated multiple times for a pay group or company, then the older versions of the payroll report or file move to the *Previous Reports* section.
- Payroll reports and files are grouped by both report type and pay group or company.
- Reports display in a tree structure, with an option to expand and collapse the report groupings.
- The *Report Centre* is searchable by:
 - Report Type
 - Report Name
 - Payroll Period
 - Company/Pay Group
 - Created by

2.3. Access the Report Centre

To access the *Report Centre*:

Go to *Payroll Dashboard > Report Centre*.

2.4. Current and Previous Reports

To help identify the most recently generated reports and files, the *Report Centre* groups reports and files into two sections:

- **Current Reports:** This section contains the most recent version of the payroll report or file generated for a pay group/company.
- **Previous Reports:** If a payroll report or file, specific to a payroll period, is generated multiple times for a pay group or company, then the older versions of the payroll report or file move to the *Previous Reports* section.

The screenshot shows the 'Report Centre' interface. It has a sidebar on the left with various icons. The main content area is divided into two sections: 'Current Reports' and 'Previous Reports'. Each section has a search bar and a table of reports. The 'Current Reports' section is highlighted with a red border and contains a table with columns: Type, Name, Version, Period, Company/Pay Group, Created By, Created, and an 'OPEN' button. The 'Previous Reports' section also has a similar table. The 'Current Reports' table lists three reports under the category 'Control Reports (1112 - Monthly (Eng))'. The 'Previous Reports' table lists one report under the category 'Control Reports (2 - Monthly (Uk))'.

Type	Name	Version	Period	Company/Pay Group	Created By	Created

Control Reports	PAYE Analysis Report	3	Apr-2020 202004	2 - Monthly (Uk) 2	Brian O'Keeffe 000146	11-Aug-2020 08:49	OPEN

**Note:**

- Only reports related to payroll periods are assigned version numbers. Reports which are not specific to a payroll period, such as the 'Year End Control Report', are overwritten once regenerated.
- Once regenerated, bank files are overwritten.
- Reports relating to a previous payroll period are overwritten once the current payroll period's report is generated.
- Reports that allow you to select a payroll period, such as the General Ledger, are overwritten once generated for an alternative payroll period, i.e only the period last generated will show in the *Report Centre*.
- Reports that allow you to generate for an individual employee, such as printing copy payslips, are overwritten once generated for the entire pay group. Likewise, the reports

2.5. Report Centre Columns

The *Report Centre* is made up of the following columns:

Column	Description
Type	This column contains the payroll report or file type, with the pay group description in brackets.
Name	This column contains the payroll report or file name. For a detailed list of payroll report or file names, see section 4. Payroll Reports and Files .
Version	This column contains the payroll report or file version number. Once generated, reports specific to a payroll period are assigned a version number, with the highest number representing the latest report. Version numbers are assigned in sequential order for each payroll user.
Period	This column contains the payroll period to which the payroll report or file relates – where the payroll report or file is specific to a payroll period.
Company / Pay Group	This column contains the company or pay group for which the payroll report or file was generated.

Column	Description
Created By	This column contains the username and employee reference of the user who generated the payroll report or file.
Created	This column contains the date and timestamp on which the payroll report or file was created.

**Note:**

The *Report Centre* display options available:

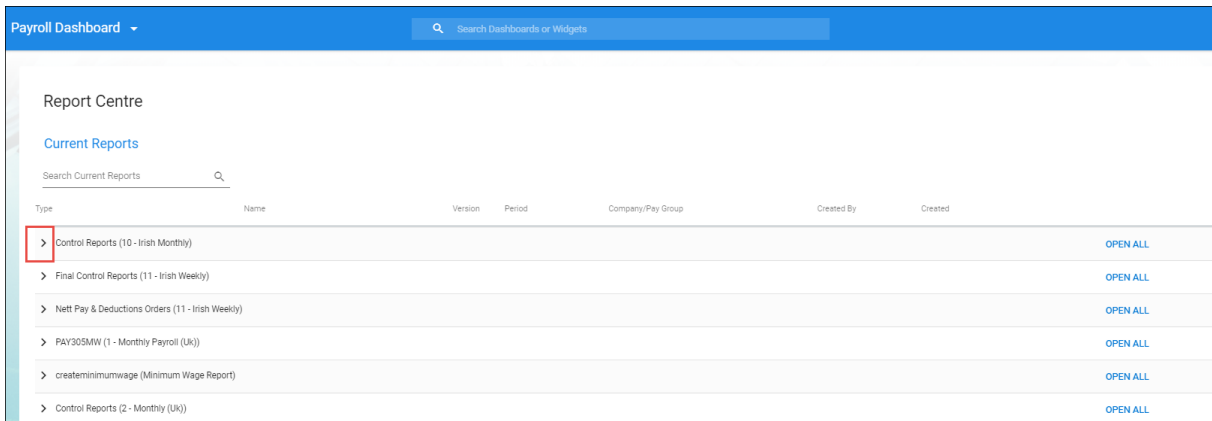

- Adjust Column Widths, see section [3.1. Adjust Column Widths](#).
- Reorder Columns, see section [3.2. Reorder Columns](#).
- Show/Hide Columns, see section [3.3. Show/Hide Columns](#).

2.6. Expand and Collapse Groupings

Payroll reports and files display in a tree structure, with an option to expand and collapse the report groupings.

To expand the report grouping to view all reports in the group.

1. Select  to expand a report grouping.

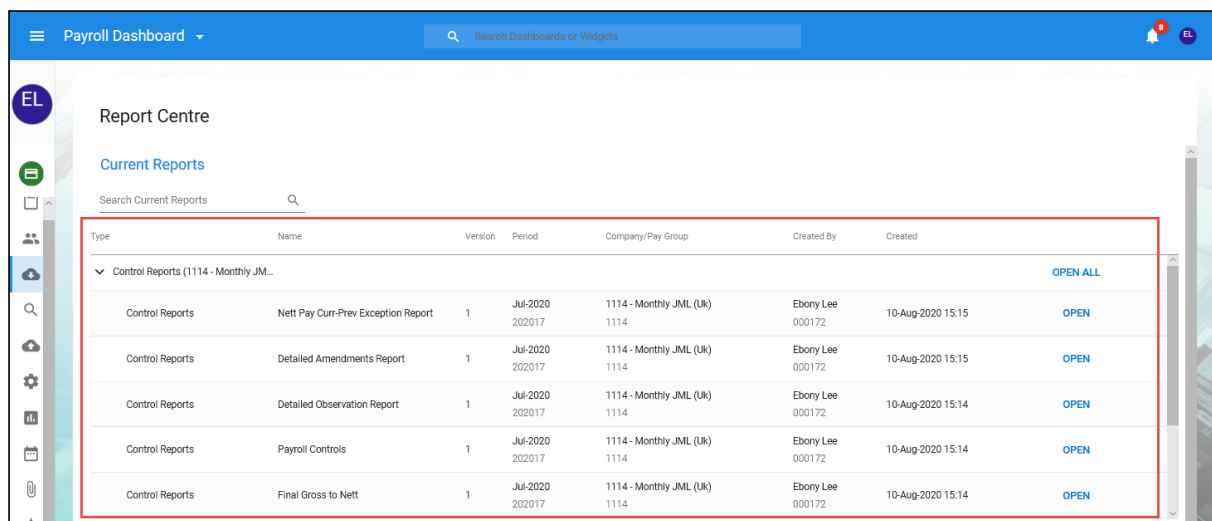

Type	Name	Version	Period	Company/Pay Group	Created By	Created
>	Control Reports (10 - Irish Monthly)					OPEN ALL
>	Final Control Reports (11 - Irish Weekly)					OPEN ALL
>	Nett Pay & Deductions Orders (11 - Irish Weekly)					OPEN ALL
>	PAY305MW (1 - Monthly Payroll (Uk))					OPEN ALL
>	createminimumwage (Minimum Wage Report)					OPEN ALL
>	Control Reports (2 - Monthly (Uk))					OPEN ALL

2. Click  to re-collapse a report grouping.

2.7. Grouping Reports

Payroll reports and files are grouped by both report type and pay group or company, e.g. Control Reports are grouped by pay group.

Type	Name	Version	Period	Company/Pay Group	Created By	Created
▼ Control Reports (1114 - Monthly JML...)						OPEN ALL

2.10. Open All

An **Open All** option has been added to allow you to download all reports in a report group.

To open all reports for a *Report Type*:

Select **Open All** next to a *Report Type*.

The screenshot shows the 'Report Centre' interface. Under 'Current Reports', there is a search bar with '1114' entered. Below it, a table lists reports. The first report group is 'Control Reports (1114 - Monthly JML...)' with an 'OPEN ALL' button highlighted by a red arrow. The second report is 'Nett Pay Curr-Prev Exception Report' with an 'OPEN' button. The third report is 'Detailed Amendments Report' with an 'OPEN' button. The fourth report is 'Detailed Observation Report' with an 'OPEN' button. The fifth report is 'Payroll Controls' with an 'OPEN' button. The sixth report is 'Final Gross to Nett' with an 'OPEN' button.

Type	Name	Version	Period	Company/Pay Group	Created By	Created

Note:

- The payroll reports or files download to your web browser.
- A limitation exists here where there is more than one non-PDF file in the group. In this scenario, open payroll reports and files individually.

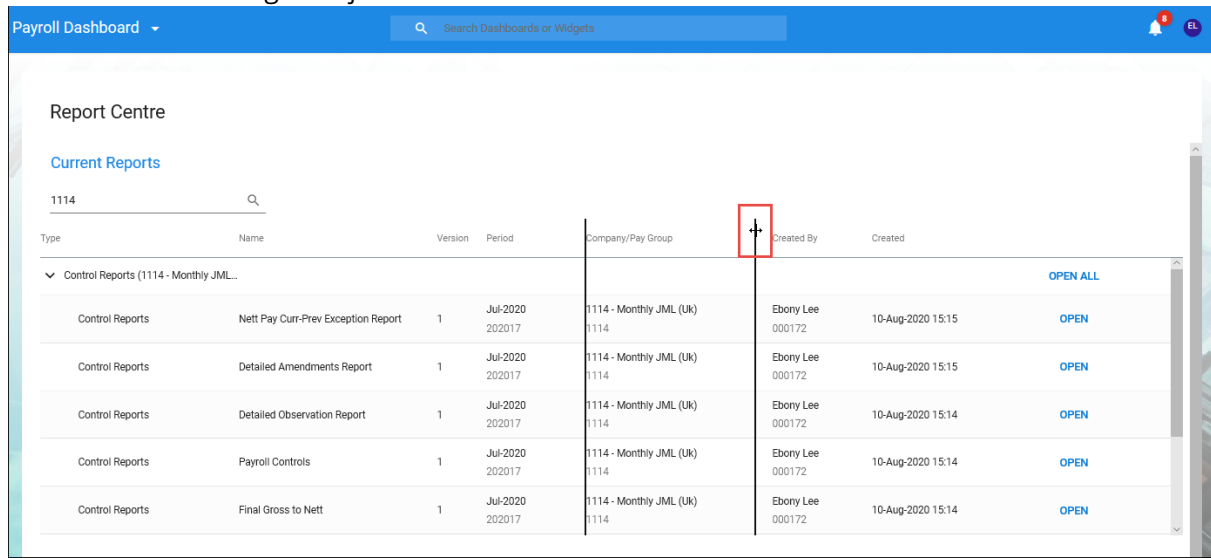

3. How to Adjust Screen Displays

3.1. Adjust Column Widths

You can adjust the width of any column in the *Report Centre*.

To adjust the width of a column:

1. Place the cursor between two columns until the crosshair arrow appears.
2. Click and drag to adjust the column width.

Note:

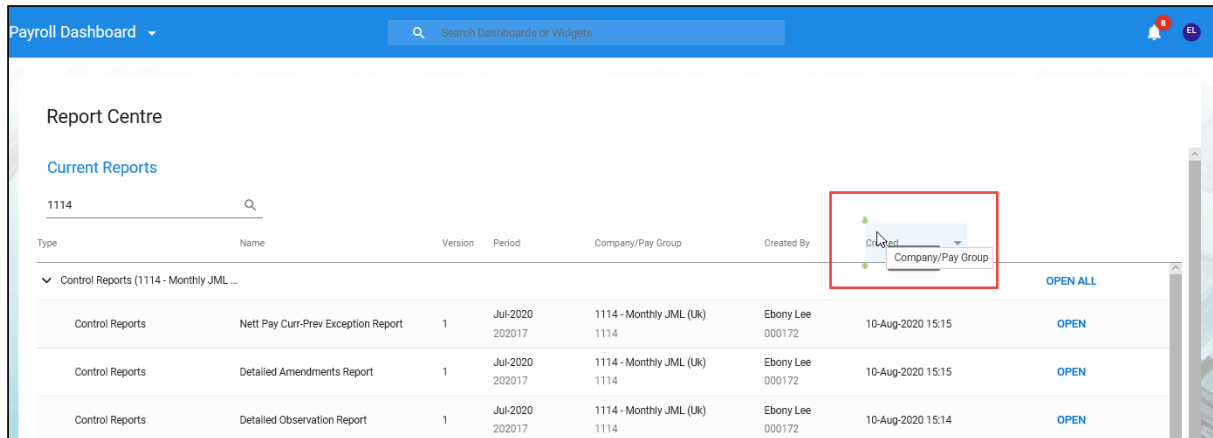

Column widths reset to the original layout once you close the *Report Centre*.

3.2. Reorder Columns

Follow these steps to **reorder** a column:

1. Click the column header and hold.
2. Drag to a new position, using the green arrows as a guide.

Payroll: New Report Centre

The screenshot shows the 'Report Centre' interface. At the top, there's a 'Payroll Dashboard' header with a search bar. Below it, the 'Report Centre' section has a 'Current Reports' link and a search bar with '1114' entered. A table lists reports with columns: Type, Name, Version, Period, Company/Pay Group, Created By, and an action column. A red box highlights the 'Company/Pay Group' column header, which has a dropdown arrow. The table contains three rows of reports, each with an 'OPEN' button. An 'OPEN ALL' link is also present.

Note:

Reordered columns reset to the original layout once you close the *Report Centre*.

3.3. Show/Hide Columns

Follow these steps to **show/hide** a column:

1. Hover over any of the filter options displayed on the screen.
2. Click on .
3. Select *Columns* to view a full list of columns available.
 - a. To **hide** a column, disable it on the list. The column is immediately hidden.
 - b. To **show** a hidden column, enable it on the list. The column is immediately displayed.
