1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide an overview of the *Payroll Dashboard*, including detailed guidance on the standard tabs and widgets that are enabled for this feature.

Items covered include:

- How to access the *Payroll Dashboard*?
- The standard tabs and widgets that are available on this Dashboard.

1.2. The Payroll Dashboard

The *Payroll Dashboard* is used by payroll administrators to configure, maintain, and run payrolls for pay groups to which they have access. The dashboard consists of nine tabs, consisting of widgets used to manage that specific feature.

For example, The *My Payrolls* tab contains the *My Payrolls* widget, which displays the pay groups to which you have access.

The *Payroll Dashboard* cannot be configured using the *Dashboard Configuration* screen. This is a functional dashboard, and it is not possible to reorder or remove tabs.

Note:

Menu Profiles can be used to make sure users only see screens to which they should have access. This is covered in the *Configuring the Payroll Dashboard* user guide.

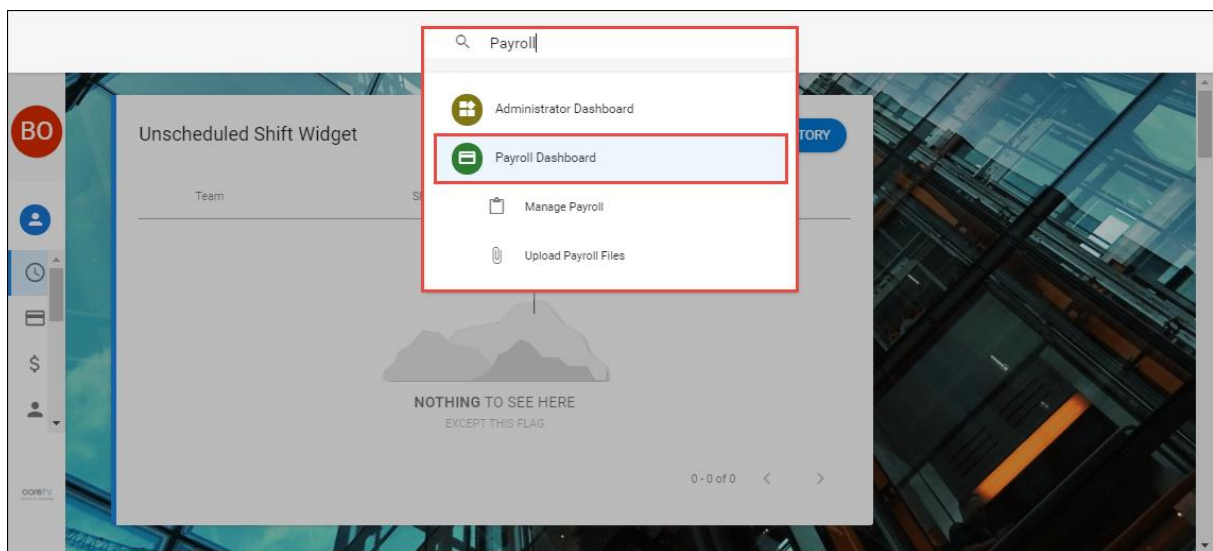

2. Payroll Dashboard

2.1. How to Access the Payroll Dashboard

There are two ways to access the *Payroll Dashboard* in CorePortal.

2.1.1. Quick Jump

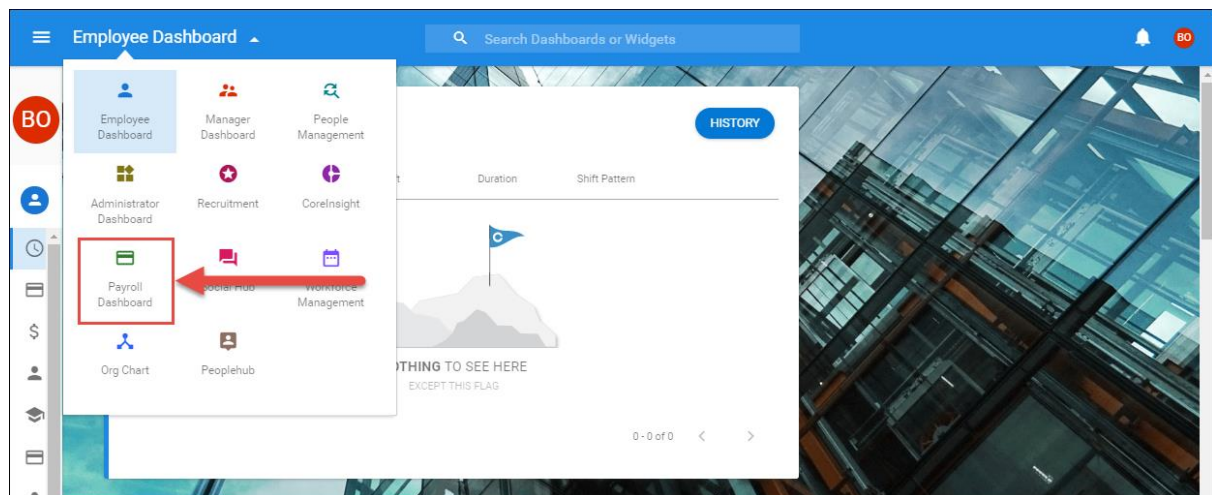

The *Payroll Dashboard* option is listed in the *Quick Jump* menu at the top of the CorePortal screen. Use this to search for the term *Payroll Dashboard* or any of the tags associated with it, i.e. Payroll, Dashboard etc.

2.1.2. Dashboard Slide

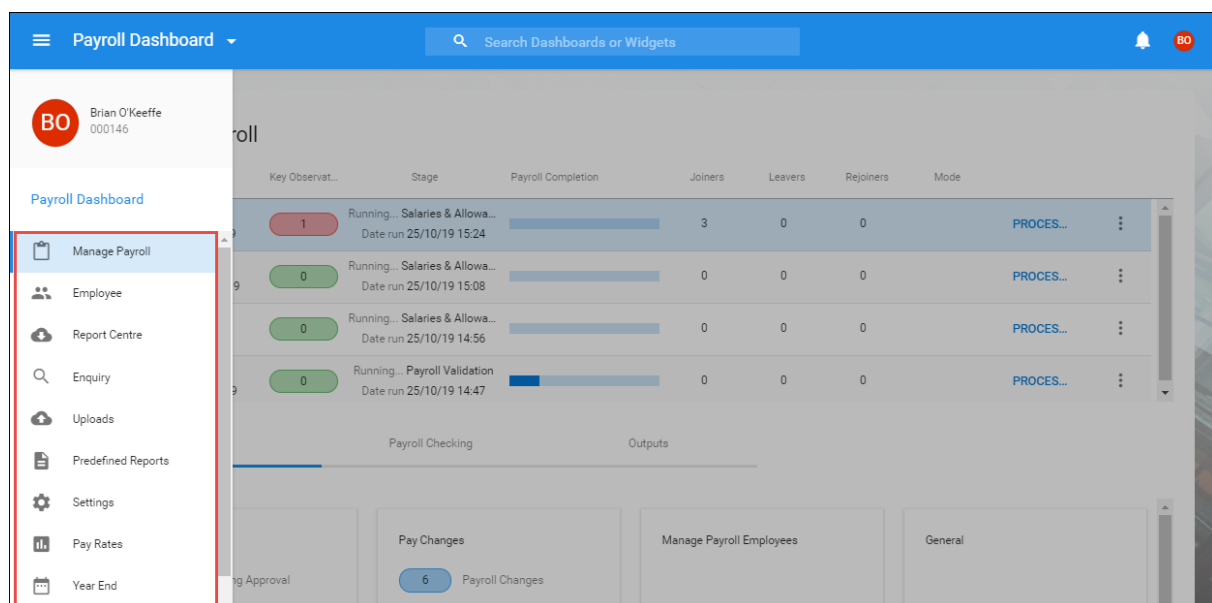

1. Click on the *Navigation Menu* at the top left of the CorePortal screen.
The menu expands to show a list of dashboards to which you have access.
2. Click on **Payroll Dashboard**.

Payroll: Payroll Dashboard

2.2. Payroll Dashboard Tabs

The *Payroll Dashboard* consists of nine preconfigured tabs.

1. [Manage Payroll](#)

The *Manage Payroll* tab allows you to manage, run, and perform payroll tasks. It is preconfigured to display the *Manage Payroll* widget.

2. [Employee](#)

The *Employee* tab provides access to all employees to which you have access across all pay groups. It is effectively the centre of operations for all employee level tasks. It is preconfigured to display the *Employees* widget.

3. [Report Centre](#)

The *Report Centre* tab provides you with access to a centralised location for any downloadable reports. It is preconfigured to display the *Reports Centre* widget.

4. [Enquiry](#)

The *Enquiry* tab acts as a central repository of key employee-level details/information across all employees to which you have access. This is preconfigured to display the *Enquiry* widget. All information here is read-only.

5. [Uploads](#)

The *Uploads* tab provides you with a central location for uploading key pay-related data, i.e. Statutory/Legislative Rates, Pay Rates, Tax Codes etc. This is preconfigured to display the *Payroll Uploads* widget.

6. [Predefined Reports](#)

The *Predefined Reports* tab provides you with the ability to print/generate from a list of predefined Payroll, Employee, and Reference Data reports. This is preconfigured to display the *Reports* widget.

7. [Settings](#)

The *Settings* tab facilitates the configuration of all essential payroll details. This is preconfigured to display the *Payroll Settings* widget, which consists of eight different sections:

- Company Parameters
- Codes
- Pay Rates

- General Ledger Costing
- UK Tax Rates
- Ireland Tax Rates
- Banking
- General

8. [Pay Rates](#)

The *Pay Rates* tab allows you to manage all pay-related details for each employee. For example:

- Annual Salary
- Position
- Pay Scale

This tab is preconfigured to display the *Pay Rates* widget.

9. [Year End](#)

The *Year End* tab allows you to manage and run the *Year End* process for the companies for which you have access. This is preconfigured to display the *Companies* widget.

2.3. Manage Payroll Tab

The *Manage Payroll* tab allows you to access and manage the payroll run for specific pay groups and pay periods.

The *Manage Payrolls* tab consists of the *Manage Payroll* widget.

The screenshot shows the 'Manage Payroll' dashboard. At the top, there's a blue header with a search bar and a 'BO' logo. Below the header, the dashboard is divided into a table of payroll runs and a sidebar with navigation options. The table has columns for Pay Groups, Key Observations, Stage, Payroll Completion, Joiners, Leavers, Rejoiners, and Mode. The sidebar on the left contains icons for various functions, including a 'BO' logo, a list icon, a search icon, a cloud icon, a document icon, a gear icon, a bar chart icon, a calendar icon, a magnifying glass icon, and a star icon. The table lists four payroll runs: 1 - Monthly Payroll (Uk), 2 - Monthly (Uk), 3 - Weekly (Uk), and 4 - Monthly (Ire). Each row shows the current period, key observations, stage, payroll completion progress bar, and joiners/leavers/rejoiners counts. The 'Mode' column shows 'PROCESS...' for each run. Below the table, there are four tabs: Inputs, Payroll Checking, Outputs, and More Info. The 'Inputs' tab is selected, showing a grid of four boxes: Approvals, Pay Changes, Manage Payroll Employees, and General.

Pay Groups	Key Observati...	Stage	Payroll Completion	Joiners	Leavers	Rejoiners	Mode
1 - Monthly Payroll (Uk) Current Period Apr-2019	1	Running... Salaries & Allowa... Date run 25/10/19 15:24		3	0	0	PROCESS... ⋮
2 - Monthly (Uk) Current Period May-2019	0	Running... Salaries & Allowa... Date run 25/10/19 15:08		0	0	0	PROCESS... ⋮
3 - Weekly (Uk) Current Period 201904	0	Running... Salaries & Allowa... Date run 25/10/19 14:56		0	0	0	PROCESS... ⋮
4 - Monthly (Ire) Current Period Jan-2019	0	Running... Payroll Validation Date run 25/10/19 14:47		0	0	0	PROCESS... ⋮

Inputs Payroll Checking Outputs

Approvals Pay Changes Manage Payroll Employees General

More Info

2.3.1. Process Payroll

If you have access to multiple pay groups, you can view and process payroll for each pay group.

Manage Payroll								
Pay Groups	Key Observations	Stage	Payroll Completion	Joiners	Leavers	Rejoiners	Mode	
1 - Monthly Payroll (Uk) Current Period Apr-2019	1	Running... Salaries & Allowances Date run 25/10/19 15:24		3	0	0	PROCESS PAYROLL	⋮
2 - Monthly (Uk) Current Period May-2019	0	Running... Salaries & Allowances Date run 25/10/19 15:08		0	0	0	PROCESS PAYROLL	⋮
3 - Weekly (Uk) Current Period 201904	0	Running... Salaries & Allowances Date run 25/10/19 14:56		0	0	0	PROCESS PAYROLL	⋮
4 - Monthly (Ire) Current Period Jan-2019	0	Running... Payroll Validation Date run 25/10/19 14:47		0	0	0	PROCESS PAYROLL	⋮

2.3.2. Payroll Completion

The Payroll Completion status will increase in % after each job/task is completed.

Pay Groups	Key Observations	Stage	Payroll Completion	Joiners	Leavers	Rejoiners	Mode
1 - Monthly Payroll (UK) Current Period Apr-2019	4	Last Step Payroll Validation Date run 20/11/19 09:43		6	0	0	PROCESS PAYROLL
2 - Monthly (UK) Current Period May-2019	0	Last Step Payroll Update Date run 22/11/19 10:00		0	0	0	PROCESS PAYROLL
3 - Weekly (UK) Current Period 201904	2	Last Step Salaries & Allowances Date run 19/11/19 12:22		0	1	0	PROCESS PAYROLL
4 - Monthly (Ire) Current Period Jan-2019	0	Last Step Salaries & Allowances Date run 19/11/19 12:22		0	0	0	PROCESS PAYROLL

2.3.3. More Options

- Click the **Job History** button for more information on the current job/task running.
- Click the **Release Payslips** button to release online payslips where online payslips are being used.
- Click the **View Gross to Nett** to access the gross to nett breakdown for the current payroll period. The Gross to Nett breakdown becomes available once the Payroll *Validation* task completes. The *View Gross to Nett* screen can also be accessed by going to *Input > Checking > View Gross to Nett*.
- Click on the **Schedule Tasks** button to access the *Schedule Manager* screen. This screen is used to schedule payroll tasks.

Note: For more information on Scheduling Tasks, see the *Schedule Tasks* user guide.

Payroll Dashboard

Manage Payroll							
Pay Groups	Key Observations	Stage	Payroll Completion	Joiners	Leavers	Rejoiners	Mode
1 - Monthly Payroll (UK) Current Period Apr-2019	1	Last Step Salaries & Allowances Date run 15/11/19 12:29		6	0	0	PROCESS PAYROLL
2 - Monthly (UK) Current Period May-2019	0	Failed Payroll Validation		0	0	0	PROCESS PA
3 - Weekly (UK) Current Period 201904	0	Failed Payroll Validation		0	1	0	PROCESS PA
4 - Monthly (Ire) Current Period Jan-2019	0	Failed Payroll Validation		0	0	0	PROCESS PAYROLL

2.3.4. Manage Payroll Inputs, Checking, and Outputs

Payroll: Payroll Dashboard

Using this section of the *Manage Payroll* widget, you can:

1. Input any key pay related details required before calculating payroll.
2. Perform a number of checks or run reports during the payroll run.
3. Generate key outputs/reports after payroll has been completed.

The screenshot displays the 'Manage Payroll' widget in a dashboard. At the top, there's a blue header with a menu icon, 'Payroll Dashboard', a search bar, and a notification bell. Below the header, a sidebar on the left contains various icons. The main content area shows a table of payroll runs with columns: Pay Groups, Key Obs..., Stage, Payroll Completion, Joiners, Leavers, Rejoiners, and Mode. The table lists four payroll runs: 1 - Monthly Payroll..., 2 - Monthly (Uk), 3 - Weekly (Uk), and 4 - Monthly (Ire). Below the table, a red-bordered box highlights the 'Inputs', 'Payroll Checking', and 'Outputs' sections. The 'Inputs' section includes 'Approvals' (5 Awaiting Approval), 'Pay Changes' (2 Payroll Changes), and 'General'. The 'Payroll Checking' section includes 'Manage Payroll Employees' and 'More Info'.

Payroll Inputs:

Inputs	Description
Approvals	Key pay related inputs which require approval before being added to the payroll, e.g. New Joiner.
Pay Changes	Read-only changes made to payroll for this period, e.g. Leavers, Joiners, Re-joiners, Salary, or Tax changes.

Manage Employees	This opens the <i>Employees</i> widget. This allows you to view a dashboard for each employee in the selected pay group. For more information, see section 2.4 Employee Tab .
General	This provides you with a list of general pay inputs. For example, Issue Cancel/Manual Payments, Maintain Tax Details, Amend Pay Group etc.
More Info	This opens the <i>Enquiry</i> widget. This provides employee master record details. This is a duplicate of the <i>Enquiry</i> widget on the <i>Enquiry</i> tab, but here it displays details at pay group level.

**Note:**

For more information, see the *Managing Payroll Inputs* user guide.

Payroll Checking for the Current Payroll Period:

Checking	Description
View Gross to Nett	Provides the Gross to Nett view for the current pay period.
Key Observations	Provides a list of key observations, i.e. issues which is causing an employee not to be paid.
All Observations	A list of all observations relating to payroll for this current period.
Compare	Allows you to run a Gross to Nett comparison with a previous pay period.
Control Reports	Allows you to generate control reports during the current pay period, i.e. Exceptions Report, Detailed Amendments Report, Gross to Nett Report etc.

**Note:**

For more information, see the *Payroll Checking* user guide.

Payroll Outputs:

Output	Description
Reports	Allows you to generate post payroll reports, i.e. Final Control Reports, P45, Net Pay, & Deduction Orders.
Bank File	Allows you to generate the bank file once payroll has been completed.
RTI	Allows you to generate and transfer your payroll submissions to HRMC in real time.
Print Payslips	Allows you to print payslips. Printed payslips are generated to the <i>Report Centre</i> .
General Ledger	Allows you to generate the General Ledger once the Payroll Update task is complete.

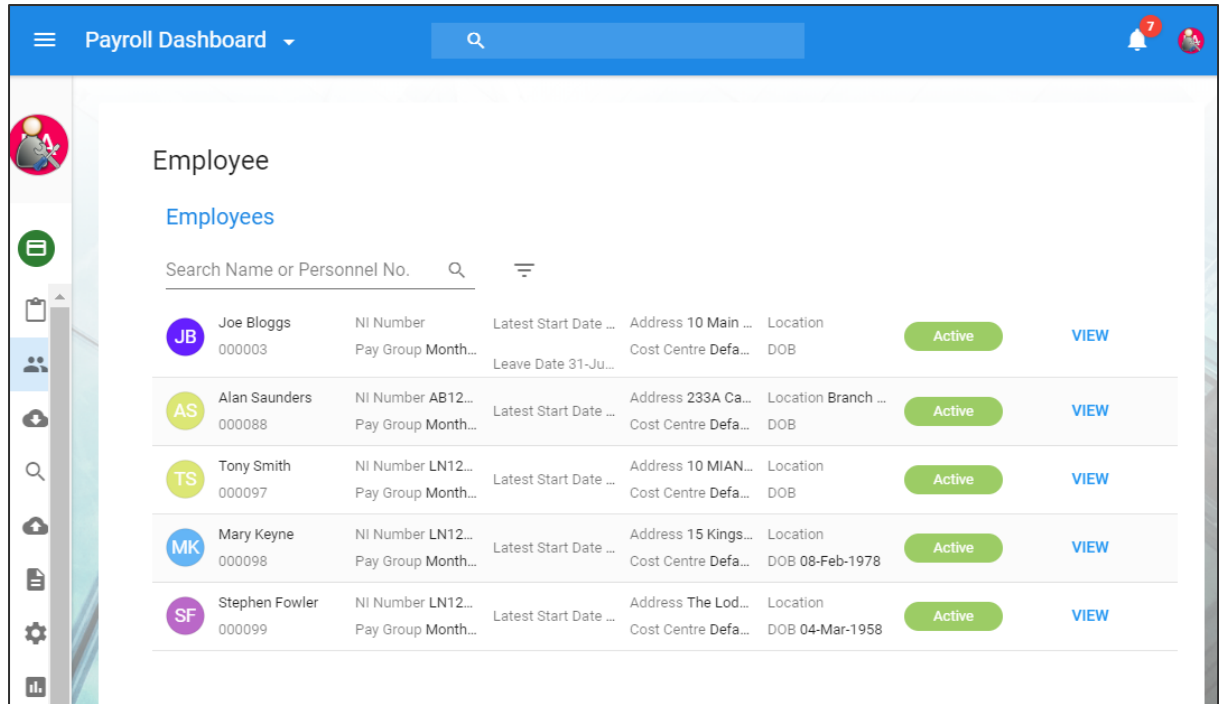

Note:

For more information, see the *Payroll Outputs* user guide.

2.4. Employee Tab

The *Employee* tab provides you with access to an *Employee Dashboard* for each employee to which you have access. This tab consists of the *Employees* widget.

The screenshot shows the 'Payroll Dashboard' interface. At the top, there is a blue header bar with a menu icon, the text 'Payroll Dashboard', a search bar, and a notification bell with a red '7' badge. On the left side, there is a vertical sidebar with icons for home, employees, search, and settings. The main content area is titled 'Employee' and 'Employees'. Below the title is a search bar labeled 'Search Name or Personnel No.'. A table lists five employees, each with a circular profile picture, name, and various details. Each row has an 'Active' status button and a 'VIEW' link.

Employee							
Employees							
Search Name or Personnel No.							
	Joe Bloggs 000003	NI Number Pay Group Month...	Latest Start Date ... Leave Date 31-Ju...	Address 10 Main ... Cost Centre Defa...	Location DOB	Active	VIEW

Each employee row displays the following information:

- Name
- Employee Number
- Employment Status
- NI/PRSI Number
- Pay Group
- Latest Start Date
- Leave Date
- Address
- Cost Centre
- Location
- Date of Birth

Click the **View** button to open the dashboard for the selected employee.

The dashboard consists of the following options, which can be used to manage the day to day pay changes/updates at employee level.

Option	Description
Trial Payroll	Run a trial payroll for this employee.
GL Summary	Generate a GL summary for this employee.
Tax Details	View/update tax details for the employee, i.e. NI Number/NI Letter/Tax Code etc.
Salary History	View previous salary and allowance history for this employee.
Timesheets Current Period	View/add timesheets for the employee for the current period.
Allowances	View/add allowances for the selected employee.

Option	Description
Pension	View/add pension details for the selected employee.
Deductions	View/add deductions for the selected employee.
Year To Date Cumulatives	View/amend YTD cumulatives for the selected employee.
Maintain Statutory	View/add any statutory absence types for the selected employee.
Cost Allocations	View/add any cost allocations by appointment for the selected employee.
Gross to Nett	View Gross to Nett data for the selected employee. This also provides options for Observations and Control Reports.
Payslip History	View previous payslips for this employee. This will include payslips across appointments where applicable.
Temporary Reinstatement	To temporarily reinstate an employee.
View P60	View employee P60.
NI Letter History	View a history of NI Letters held by the employee.
Payslip Message	View/add/update a message to appear on the payslip of the selected employee.
Redundancy	View employee redundancy details, including redundancy calculation.
Shared Parental Leave	View/add shared parental leave details for the selected employee.
View Payment Details	View previous payment details for the selected employee. This includes Pay Method, Bank Details, Payment Value etc.
Benefit in Kind	View/add BIK details for the selected employee.
Sundry Profile	View/add sundry profile details for the selected employee.
Banking Details	View bank details for the selected employee.
Tax Codes History	View a history of tax codes held for the selected employee.
View Tax Certs	View a list of tax certs for the selected employee.
Statutory Payment Profile	If applicable, view any statutory payment profile details for the selected employee, i.e. Baby Due Date, Notice, Leave and Leave Start Date etc
Appointment History	View a list of all appointments held by the employee, including salaries and allowances for each appointment.

Option	Description
SSP History	View a history of statutory sick details for the selected employee.
Additional Contracts	Where applicable, view a list of contracts held by the selected employee.

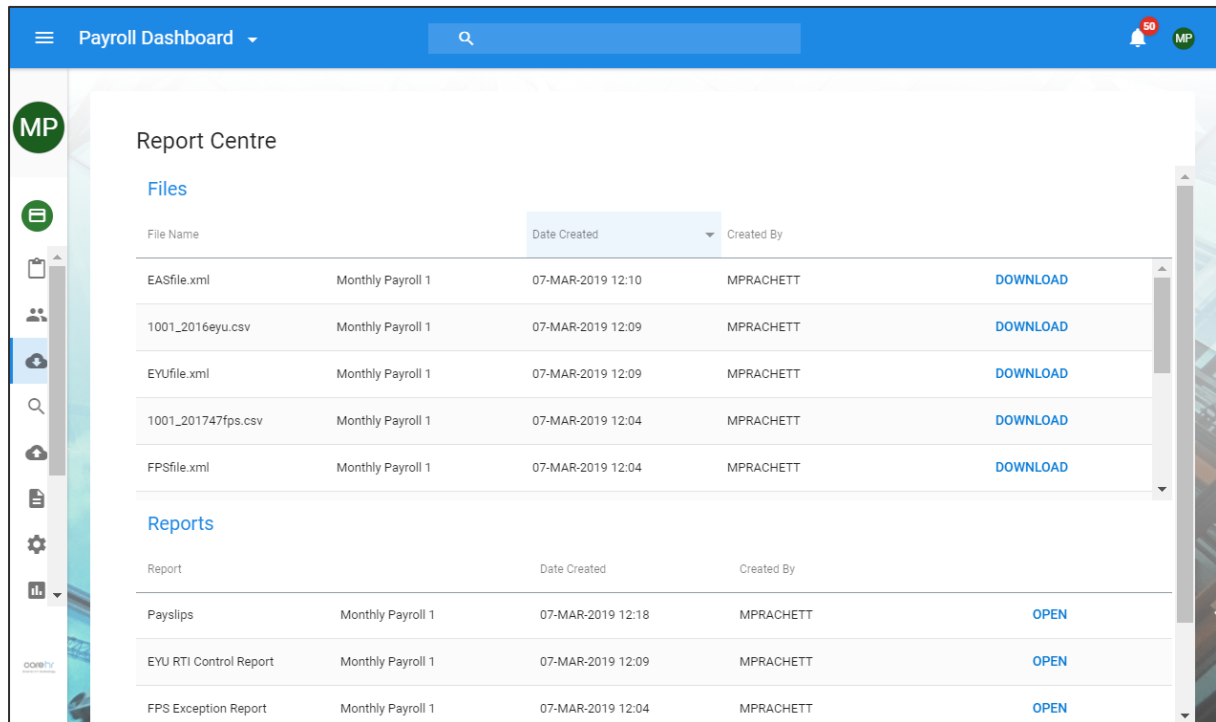

Note:

More detailed information on these options can be found in the *Employee Dashboard Overview* user guide.

2.5. Report Centre

The *Report Centre* provides you with a central location for retrieving reports and pay related files, i.e. payslips, control reports etc. This tab consists of the *Reports Centre* widget. Items may be generated from other widgets in other tabs, but once ready will be sent to the *Report Centre* for viewing and downloading.

The screenshot shows the 'Report Centre' interface within the 'Payroll Dashboard'. It features a sidebar with navigation icons and a main content area with two sections: 'Files' and 'Reports'. Both sections contain a table of items with columns for File Name, Date Created, and Created By. Each item has a corresponding action link (DOWNLOAD or OPEN).

File Name	Date Created	Created By	Action
EASfile.xml	07-MAR-2019 12:10	MPRACHETT	DOWNLOAD
1001_2016eyu.csv	07-MAR-2019 12:09	MPRACHETT	DOWNLOAD
EYUfile.xml	07-MAR-2019 12:09	MPRACHETT	DOWNLOAD
1001_201747fps.csv	07-MAR-2019 12:04	MPRACHETT	DOWNLOAD
FPSfile.xml	07-MAR-2019 12:04	MPRACHETT	DOWNLOAD

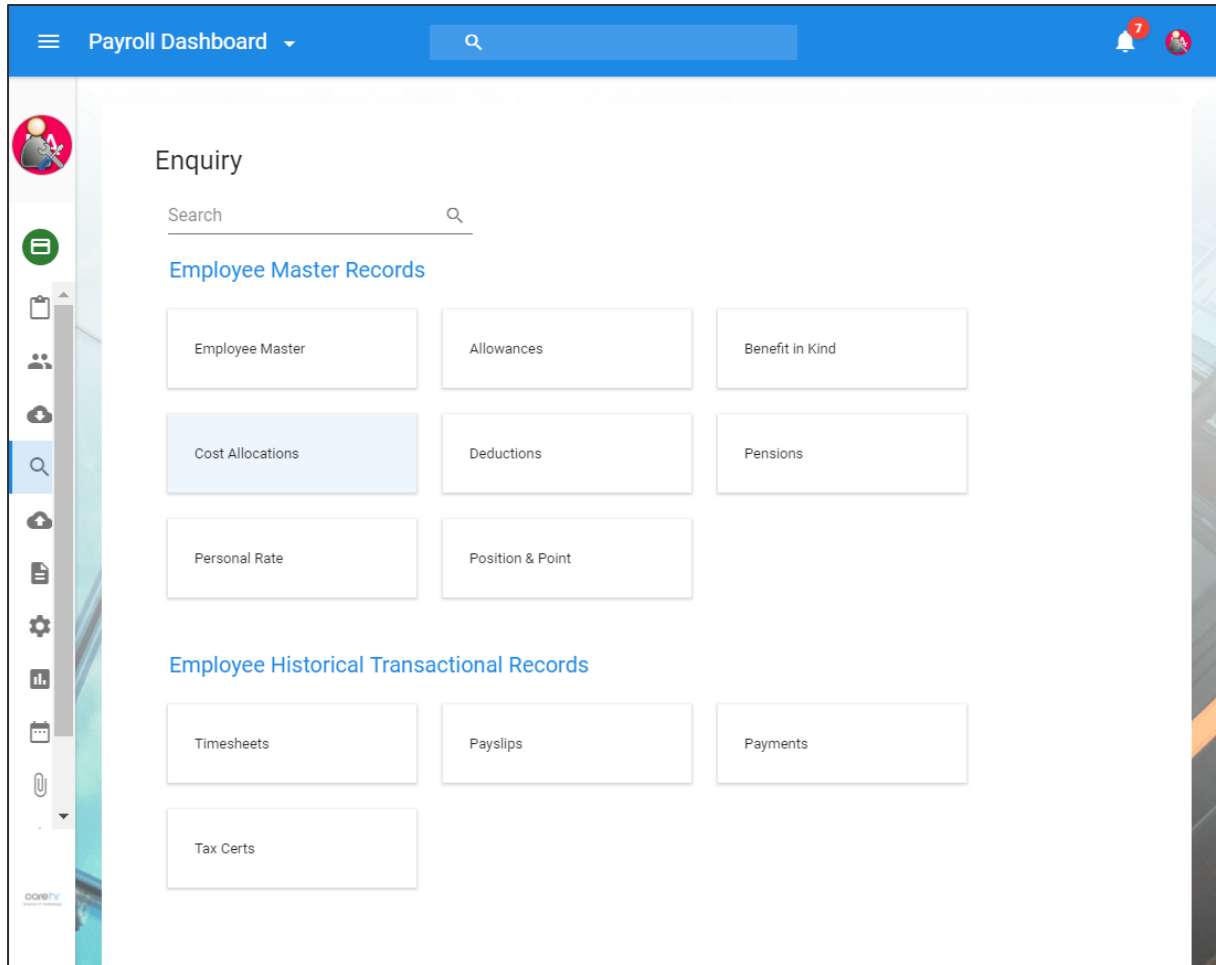

Report	Date Created	Created By	Action
Payslips	07-MAR-2019 12:18	MPRACHETT	OPEN
EYU RTI Control Report	07-MAR-2019 12:09	MPRACHETT	OPEN
FPS Exception Report	07-MAR-2019 12:04	MPRACHETT	OPEN

2.6. Enquiry Tab

The *Enquiry* tab is essentially a copy of the *More Info* screen (*Manage Payrolls > Inputs > More Info*). The difference here is that from the *Enquiry* tab, the information provided is for all employees, in all pay groups to which you have access (unlike in *Inputs > More Info*, which is locked down to Pay Group level).

From the *Enquiry* widget, you have access to the following options:

- Employee Master Records
- Employee Historical Transactional Records

2.6.1. Employee Master Records

Option	Description
Employee Master	Provides access to the employee dashboard for all employees to which you have access.
Allowances	Allows you to run an Allowances query by: • Employee Reference • Employee Name • Allowance Type • Start Date • End Date • Standard Value • Standard %

Option	Description
	• Scale Point • Rate • Reference
Benefit In Kind	Allows you to run a BIK query by: • Employee Reference • Employee Name • Benefit Type • Start Date • End Date • Standard Value • Reference
Cost Allocations	Allows you to run a Cost Allocation query by: • Employee Reference • Employee Name • Start Date • End Date • Cost Centre • Project • Expense
Deductions	Allows you to run a Deductions query by: • Employee Reference • Employee Name • Deduction • Reference • Start Date • End Date • Value • Paid to Date • Balance O/S
Pensions	Allows you to run a Deductions query by:

Option	Description
	• Emp Reference • Employee Name • Scheme • AVC • Employer
Personal Rate	Allows you to run a rates query by: • Employee Reference • Rt. Sq. • Code • Effective Date • Hourly Rate • Daily Rate • Annual Salary • Weekly Rate • Reference • Pay Multiplier This is not available in Post Management environments.
Position & Point	Allows you to run a Position & Point query by: • Employee Reference • Appointment ID • Position Code • Rate Sequence • Reference • Pay Multiplier • Source

2.6.2. Employee Historical Transactional Records

Option	Description
Timesheets	Allows you to run a Timesheets query by: • Employee Reference

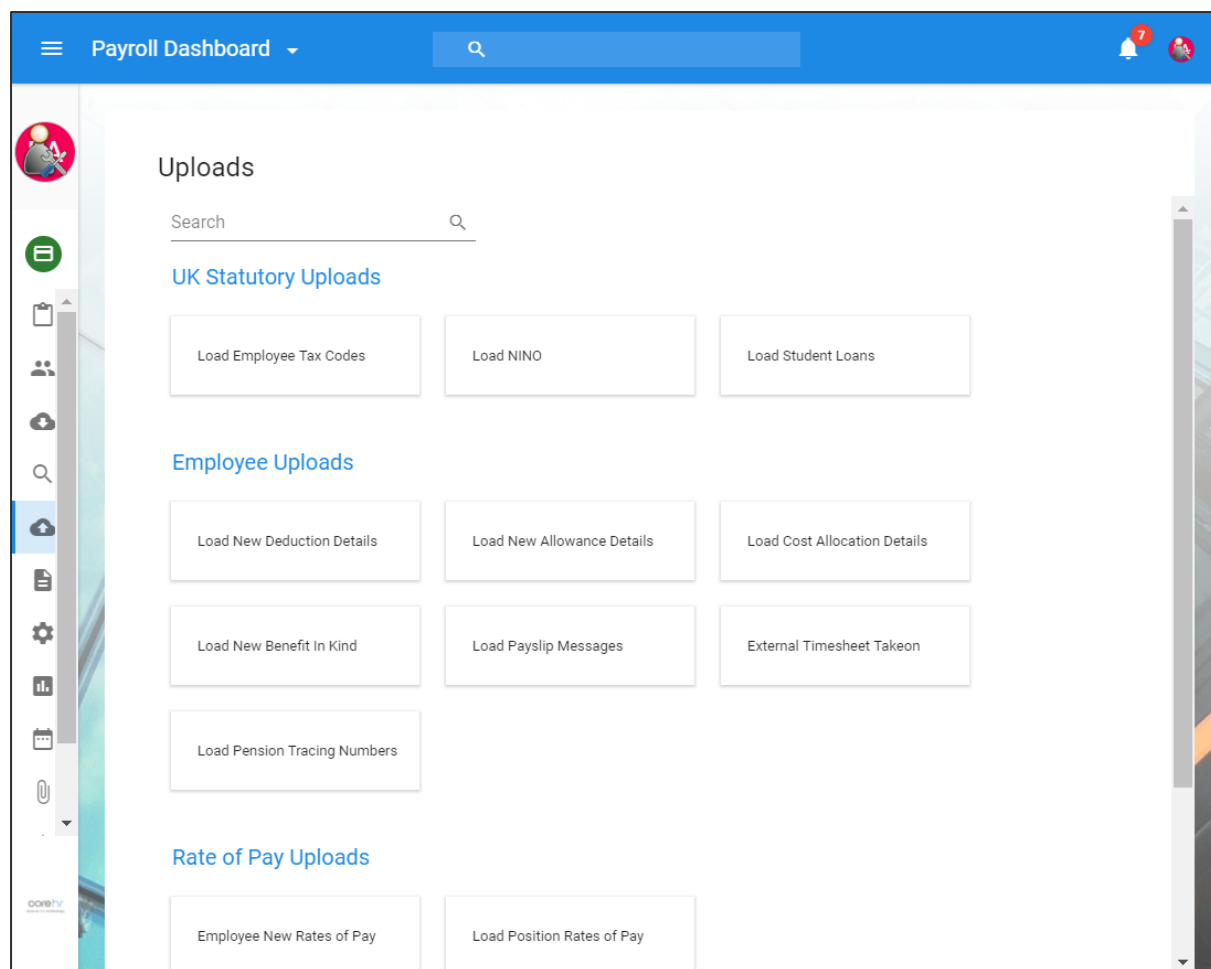

Option	Description
	• Employee Name • Payroll Period • Pay Code • Cost Centre • Project • Expense • Pay Group • Source • Reference • Hours/Days/Units Type • Transaction Date • Hours/Days/Units • Value
Payslips	Allows you to run a Payslips query by: • Employee Reference • Payroll Period • Pay Code • Hours • Value • Project • Cost Centre • Expense • Appointment • Analysis Code • Pay Group • History Date
Payments	Allows you to run a Payments query by: • Employee Reference • Employee Name • Payroll Period

Option	Description
	• Run No. • Pay Method • Cheque No. • BIC • IBAN • Sort Code • Account Number • Paid • Cancelled
Tax Credits	Allows you to run a Tax Certs query by: • Employee Reference • Employee Name • Date Effective • Date Received

2.7. Uploads Tab

The *Uploads* tab allows you to upload specific pay related requirements. The *Payroll Uploads* widget consists of 4 sections:

1. UK Statutory Uploads
2. Employee Uploads
3. Rate of Pay Uploads
4. Irish Statutory Uploads

2.7.1. UK Statutory Rates

Option	Description
Load Employee Tax Codes	This option loads employees' new tax codes from the HMRC file onto CorePay. This screen also provides the option to maintain/update employee tax codes.
Load NINO	Loads National Insurance Numbers.
Load Student Loans	Loads Student Loan files

2.7.2. Employee Uploads

Option	Description
Load New Deduction Details	This upload facility provides for the setup of new deduction records and ending of previous deduction records.

Option	Description
Load New Allowance Details	This upload facility provides for the setup of new Allowance records.
Load New Cost Allocation Details	This option provides the facility to upload new Cost Allocations for employees from a comma-separated file (CSV).
Load New Benefit in Kind	This option loads new employee BIK details and produces an error report on invalid transactions.
Load Payslip Messages	Loads a message to appear on the employee's payslips.
External Timesheet Takeon	This module loads timesheet entries from external sources and produces an error report on rejected transactions.
Load Pension Tracing Numbers	This options loads employee Pension Trace Numbers and produces a report on valid and invalid records.

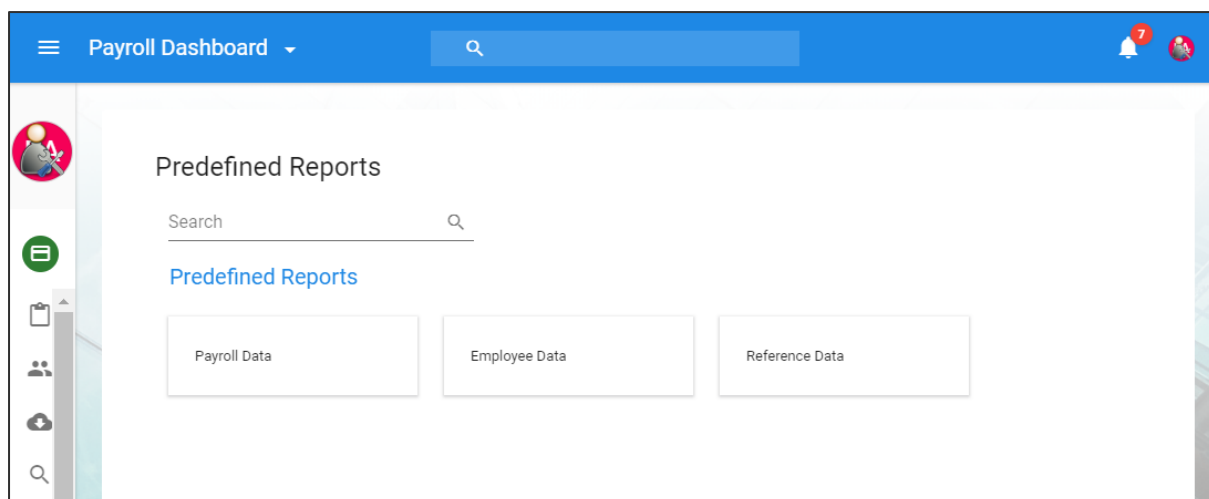

2.7.3. Rate of Pay Uploads

Option	Description
Employee New Rates of Pay	This option loads new employee rates of pay from a comma-separated (CSV) or pipe-delimited file. It automatically produces a report of valid employee rates created in the system and rejected details.
Load Position Rates of Pay	This option loads new position rates of pay from a comma-separated (CSV) or fixed file format. If there are any invalid records, then the entire file will be rejected.

2.8. **Predefined Reports Tab**

The *Predefined Reports* tab gives you access to a series of predefined reports from which to run. These are accessed via the *Reports* widget and include multiple report options for the following three report categories:

1. Payroll Data
2. Employee Data
3. Reference Data

2.8.1. Generate Payroll Data Reports

Report	Description
PAY364L	Deductions Listing By Location
PAY364	Deductions Listing By Pay Code
PAY366	Employee Summary Listing
PAY585	PAYE/PRSI Analysis Listing
PAY095	Timesheet Listing

2.8.2. Generate Employee Data Reports

Report	Description
PAY084A	Employee Cumulatives (Current)
PAY155PN	Employee PRSI Report (K1 to M, Over70)
PAY067	Personal Rates Listing
PAY9092	Employee Rate Listing
PAY0848	Employee Cumulatives (All)
PAY085	Employee Profile Listing
PAY089A	Allowance Listing By Pay Code
PAY084C	Employee Cumulatives (Previous)

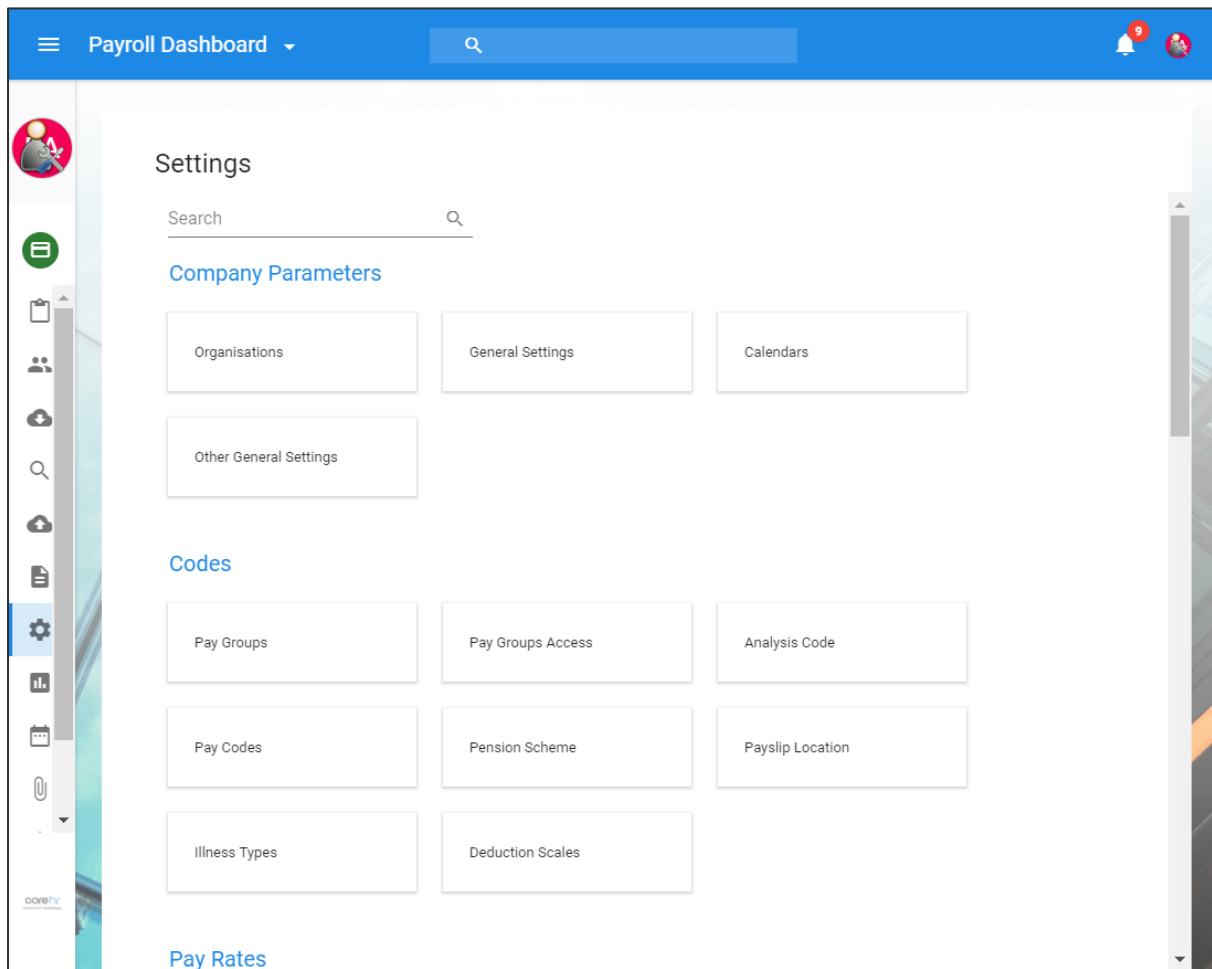

2.8.3. Generate Reference Data Reports

Report	Description
--------	-------------

Pay Users Listing	Pay Users Reference Data Report
Pay Codes Listing	Pay Codes Reference Data Report

2.9. Settings Tab

The *Settings* tab is used to manage the configuration of all essential pay related details including bank details, paye details, calendar set up, pay rates, tax rates, general ledger details, organisations/companies, and cost centres etc.

The *Payroll Settings* widget consists of 7 sections which hold the options for specific configuration. These are:

- Company Parameters
- Codes
- Pay Rates

- General Ledger Costing
- UK Tax Rates
- Ireland Tax Rates
- Banking
- General

2.9.1. Maintain Company Parameters

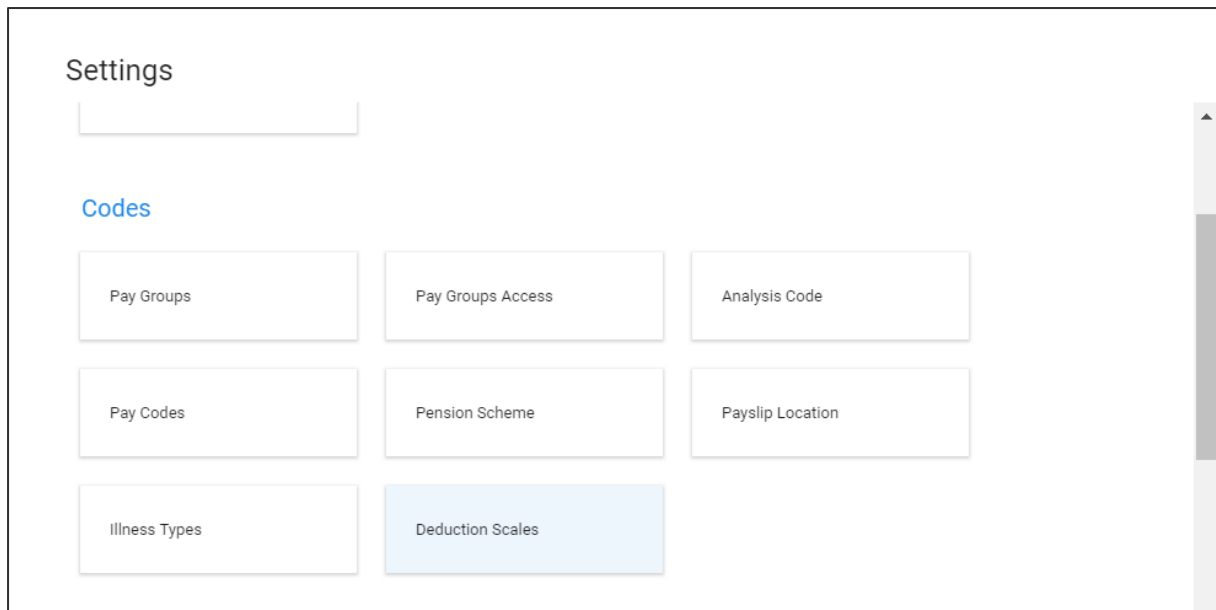

These four options are used to configure and set parameters at the company level.

Option	Description
Organisations	Add companies within an organisation. Configure company level parameters.
General Settings	Set up the number of payroll periods for a given Company Code. You can also enter pay codes for all relevant tax and salary details such as PAYE, Salary, Medical Insurance, among others. This is also the screen where an organisation's account details for the bank or building society are stored.
Calendars	Configure and maintain the payroll calendar for each company.
Other General Settings	Set the country code of the selected organisation, as well as input details such as Tax Credits, SWY (Shorter Working Year) Pay Code, Parental Leave Deduction, Pay as well as SSP Recovered and Bank Account details.

2.9.2. Maintain Codes

The *Codes* section is used to configure and maintain the following reference items codes:

- Pay Groups
- Pay Groups Access
- Analysis Codes
- Pay Codes
- Pension Schemes
- Payslip Location
- Illness Types
- Deduction Scales

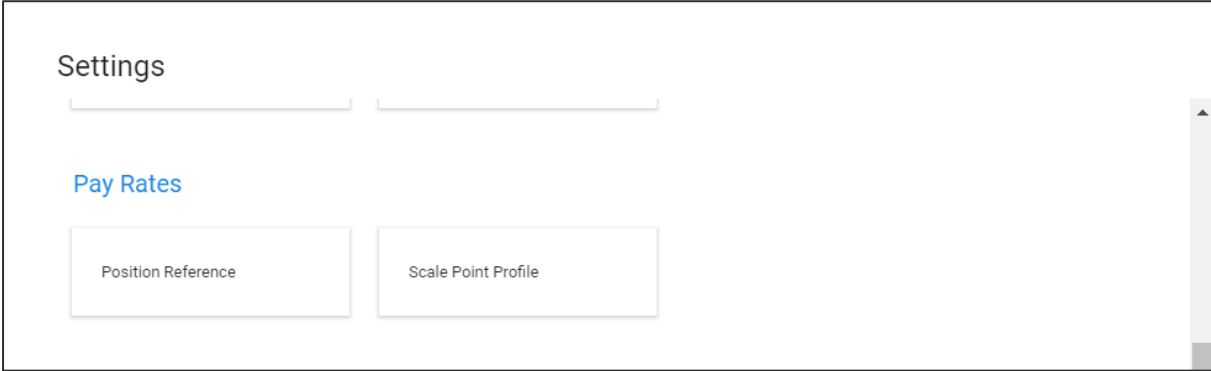

See the *How to Configure* documentation for more detailed documentation on items such as configuring pay groups, pay codes etc.

Option	Description
Pay Groups	A pay group is used for grouping employees that have the same pay frequency. From the Pay Groups screen, you can add, query, duplicate, delete, or amend pay group details. You can set up a pay group and at this stage, set the pay frequency, pay period, company etc. for the specified Pay Group.
Pay Groups Access	Payroll administrators can only process payroll for pay groups to which they have access. Granting that access is set here.
Analysis Codes	Analysis Codes are used for grouping pay codes which share common characteristics and are used to extract data for management information/ad hoc reporting. They are also used in the posting of the General Ledger. Analysis codes can be added, edited, and deleted from here.

Pay Codes	Pay codes uniquely identify payroll events which are used to add or deduct money from employee's pay, e.g. Gross Pay, PAYE, Medical Insurance etc. These are configured and maintained here.
Pension Scheme	Pension schemes are configured here. These are set in line with the pension rules applied to the organisation.
Payslip Location	Payslip locations are used to identify address and location details for specific groups within an organisation. Configuring location codes means the payslips will be printed by location code which saves time manually sorting payslips later. This is useful where organisations have multiple companies/departments/offices with different locations.
Illness Types	Illness types are configured to group absences by type which is then aligned with statutory absence entries.
Deduction Scales	Deduction pay codes can be configured with default: • Weekly and monthly deduction limits by pay code. • A week and monthly deduction rates by pay code.

2.9.3. Maintain Pay Rates

This section is used to configure positions which hold job grades and/or job titles. Scale points and rates for each position can also be configured if required.

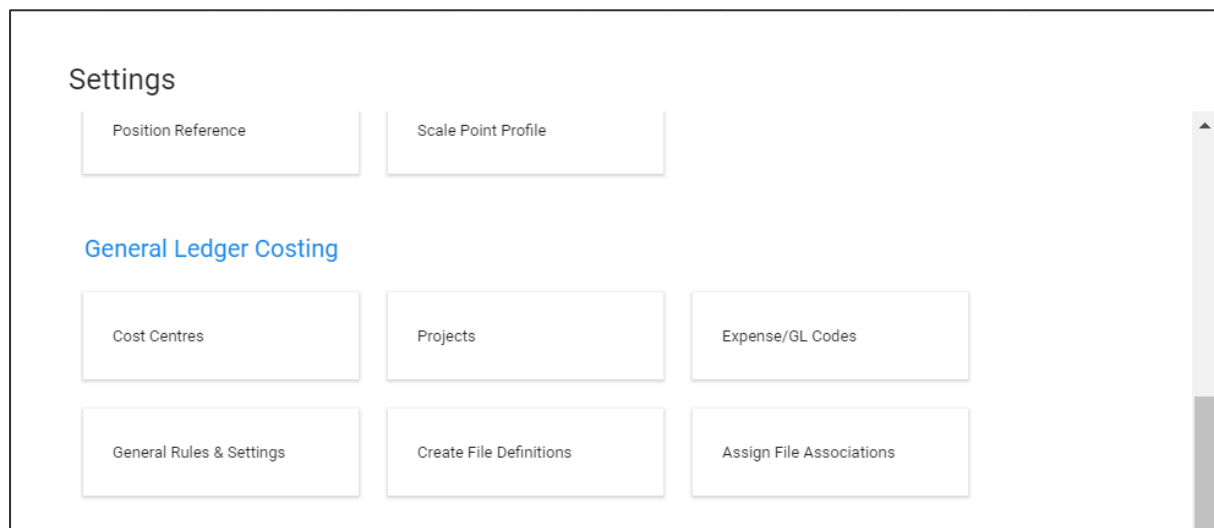

Option	Description
--------	-------------

Position Reference	Configure positions for employees which are used to hold job grades and titles
Scale Rate Profile	Configure the pay scale rates for each position reference. Each position reference can hold multiple-scale rates. These can be used for progression, e.g. an employee remains in the same position within the company but may increase through the scale rates for that position.

2.9.4. Maintain General Ledger Costing

The *General Ledger Costings* section is used to configure and maintain the GL and in particular the company's costings and how they appear on the GL. There are six configuration options:

- Cost Centres
- Projects
- Expense / GL Codes
- General Rules & Settings
- Create File Definitions
- Assign File Associations

Option	Description
Cost Centres	A Cost Centre is a code to which an employee's costs are charged. Each employee is assigned a cost centre on set up.

	The <i>Cost Centres</i> screen will auto-populate with the list of cost centres. You can add and edit the fields as desired, as well as changing the status for Active Cost Code setting if a Cost Code is to incorporate BIK.
Projects	A Project Code can be assigned to an employee's salary. The salary costs are then charged to that project and recorded as such in the GL. This screen allows the configuration and maintenance of project codes.
Expense / GL Codes	Expense Codes are used for interfacing with the GL Expense codes identify payments or deductions to be categorised as an expense item. This screen allows the configuration and maintenance of Expense Codes.
General Rules & Settings	This section allows you to select a GL Matrix type, e.g. Profit & Loss matrix or Balance Sheet matrix. These can also be configured to add the relevant pay groups used to generate the GL.
Create File Definitions	The <i>File Definition</i> is used for assigning <i>General Ledger File Definitions</i> and creating the <i>File Code</i> . This screen will allow you to define the fields from CoreHR and states which of these fields are to appear on the finance system.
Assign File Associations	This section is used to assign the file to a pay group(s).

2.9.5. Maintain UK Tax Rates

This section is used to configure and maintain tax rates and details for UK employees. This includes the following ten screens.

- NIC Letters
- NIC Earnings Limits
- NIC Rates Employee
- NIC Rates Employee
- General
- PAYE Letters
- PAYE Codes
- PAYE Rates

- Council Tax Rates
- Maintain SSP Rate

Settings

UK Tax Rates

NIC Letters

NIC Earnings Limit

NIC Rates Employee

NIC Rates Employer

General

PAYE Letters

PAYE Codes

PAYE Rates

Council Tax Rates

Maintain SSP Rates

Option	Description
NIC Letters	Configure and maintain NIC Letters. An employee's NI letter depends on whether they have a separate (contracted-out) pension scheme and opted out of paying into the State Pension. Once an employee is auto enrolled, their National Insurance Category must be revisited and corrected where necessary. Clients should check https://www.gov.uk/national-insurance-rates-letters/category-letters for the latest National Insurance Category to which each employee should be assigned.
NIC Earning Limits	As part of the UK year end delivery, these limits and rates will be pre-populated for you, so you will not need to re-enter them. However, it is the responsibility of each client to check these rates or update if required.
NIC Rates Employee	Any employee aged 16 or over and under state pension age 65 years for men and 60 years for women, who earn more than the lower

Option	Description
	earnings limit must pay employees contributions on all earnings above the lower earnings limit up to and including the upper earnings limit. As part of the UK year end delivery these rates will be automatically populated for you, so you will not need to re-enter them. However, it is the responsibility of each client to check these rates or updated if required.
NIC Rates Employer	An employer is liable to pay the employer's contribution on all their employee's earnings above the earnings threshold if they: 1. Are aged 16 or over 2. Earn more than the earnings threshold There is no upper earnings limit for paying employers contributions, and they are payable even if the employee is over state pension age or otherwise exempt from paying their primary NICs. As part of the UK year end delivery these rates will be automatically populated for you, so you will not need to re-enter them.
General	From the <i>General</i> screen, users can maintain statutory parameters and details such as: • Ordinary Statutory Parental Pay (OSSP) • Statutory Maternity Pay (SMP) • Statutory Sick Pay (SSP) • Period of Incapacity for Work (PIW) • Redundancy details.
PAYE Letters	Maintain PAYE letters (Tax Code Letters). The standard letters will be delivered with the system on installation. However, it is your responsibility to check the letters are correct.

Option	Description
PAYE Codes	This screen will display the PAYE Codes for both the UK and Scotland. On receiving the year end delivery, the rates for the new year will be prepopulated. From the PAYE Codes screen, you can add the Suffix/Prefix, PAYE Code, Regulatory Limit etc.
PAYE Rates	Maintain the PAYE Rates for general UK and Scotland. The rates are prepopulated as part of the year end delivery. However, it is your responsibility to check the rates are correct.
Council Tax Rates	This screen allows you to view and update details for Council Tax Rates. Users should set up the required Council Tax Rates for the new year for each Council Tax Pay Code.
Maintain SSP Rate	The rates are prepopulated as part of the year end delivery. However, it is the responsibility of the client to check the rates are correct. If required, they can be maintained here.

2.9.6. Irish Tax Rates

Option	Description
Emergency PAYE Rates	Check the PAYE rates loaded as part of the year end software delivery
PRSI Rates	Check the PRSI rates loaded as part of the year end software delivery.
Old Age Pension	Any changes to OAP rates need to be updated manually.
Social Welfare Rates	For customers using the Social Welfare module, any changes to Social Welfare rates need to be updated manually.

2.9.7. Maintain Banking Details

This section is used to configure and maintain bank details, including:

- Bank Details
- Bank Country Codes
- Bank Identifiers

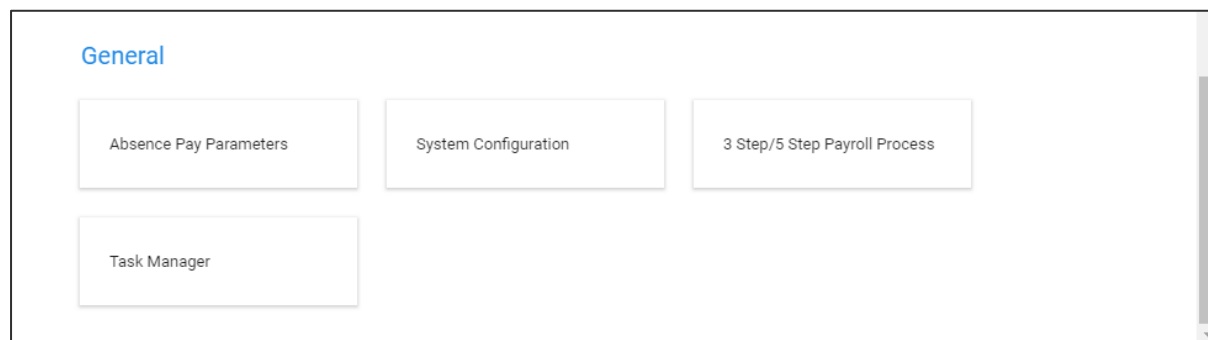

- Pay Method

Option	Description
Bank Details	Configure and maintain banks, by Sort Code or BIC. You can add or edit bank details as required.
Bank Country Codes	Configure and maintain banks from other countries.
Bank Identifiers	Configure and maintain bank identifiers, e.g. 'BARC' for Barclays, 'BNPA' for BNP Paribas etc.
Pay Methods	Configure and maintain the payment method by which employees are paid, e.g. Cheque, BACS etc.

2.9.8. Maintain General

This section is used to configure how payroll will run and for configuring payroll tasks. This includes the following configuration options:

- Absence Pay Parameters
- System Configuration
- 3 Step / 5 Step Payroll Process
- Task Manager

Option	Description
Absence Pay Parameters	Configure and maintain offset absence payments and set up the parameters. This includes setting up absence types, absence rules, absence pay groups by company.

Option	Description
System Configuration	This section should be used as part of the initial set up. This allows you to set up the system and configure it work based on your specific requirements. There are 15 options which include parameters to configure the following: • General parameters • Technical • Maintain Employee Details • Salaries and Allowances • Payroll Validation / Update • Complete Update • Exact Match Data Validation • Client Specific • Payslip • Timesheets • Allowances • Pensions • External HR Configuration • Positive Input Retro • Work Group Prefix
3 Step / 5 Step Payroll Process	Use this option to choose between the 3 step payroll process or the 5 step payroll process. See the <i>Processing Payroll</i> user guide for more info.
Task Manager	Configure and maintain additional tasks you wish to complete as part of the payroll run. This acts a checklist of tasks to complete before, during and after payroll has been run.

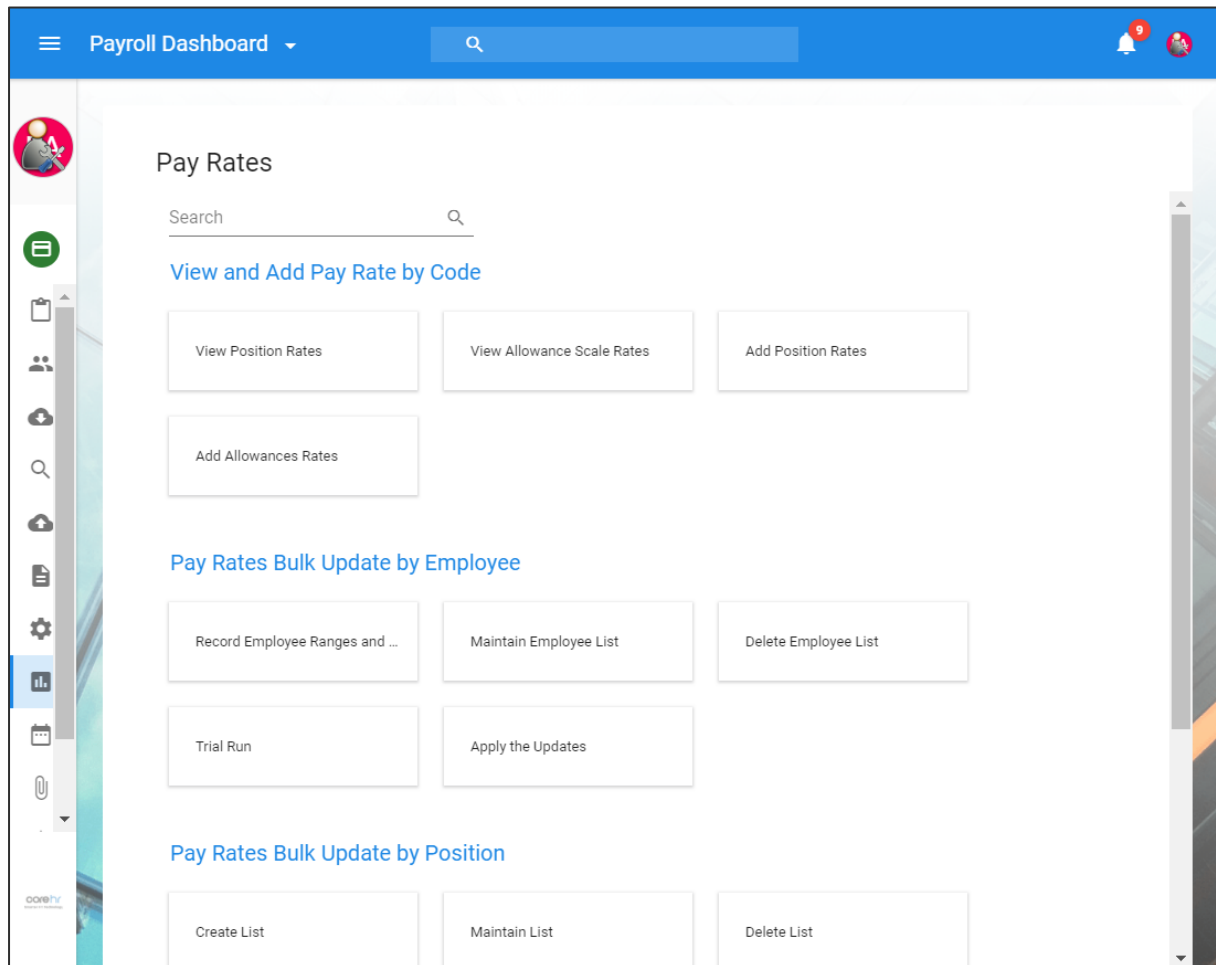

2.10. Pay Rates Tab

The *Pay Rates* tab is used to configure and maintain all pay-related scenarios for an employee, including pay rates by code, employee and/or position. It also allows you to bulk upload allowance scale rates. The *Pay Rates* widget holds all the parameters for configuring these in 4 sections:

- View and Add Pay Rate by Code

Payroll: Payroll Dashboard

- Pay Rates Bulk Update by Employee
- Pay Rates Bulk Update by Position
- Allowances Scale Rates Bulk Update

2.10.1. View and Add Pay Rate by Code

The View and Add Pay Rate by Code section are comprised of 4 options. From these screens, you can maintain rates for positions, allowance rates, thresholds and specify effective dates.

Option	Description
View Position Rates	This screen enables you to select a position and, from there, view the corresponding scale points and rates for the selected position.
View Allowance Scale Rates	The View Allowance Scale Rates screen enables you to select an allowance pay code which is set as a scaled allowance (this is set on the Pay Codes screen) and view the set of pay points and their associated rates.
Add Position Rates	From this screen, you can delete, add, query, and save rates by employee position.
Add Allowance Rates	From this screen, you can add and edit rates by pay code.

2.10.2. Pay Rates Bulk Update by Employee

The Pay Rates Bulk Update by Employee section is comprised of 5 options. From these screens, you can bulk upload rates by employee.

Option	Description
Record Employee Ranges and Exclusions	Bulk upload rates/ranges and select the employees for whom these rate changes are to apply.
Maintain Employee List	Configure and manage the employee list.
Delete Employee List	Delete a previously configured employee list.
Trial Run	Trial Run allows you to preview any rate changes before applying them. This is a hypothetical view before selecting the Apply the Updates option.
Apply the Updates	Apply the Updates – this applies the updated rates for payroll.

2.10.3. Pay Rates Bulk Update by Position

The Pay Rates Bulk Update by Employee section is comprised of 5 options and enables users to make large volume uploads by position.

Option	Description
Create List	This is used to configure/record the range of Position Codes.

Maintain List	Configure the position codes to which any rate changes apply.
Delete List	Use this to delete the range of Position Codes to be included in rate increases.
Trial Run	Trial Run allows you to preview any rate changes before applying them. This is a hypothetical view before selecting the Apply the Updates option.
Apply the Updates	Apply the Updates – this applies the updates rates for payroll.

2.10.4. Allowances Scale Rates Bulk Updates

This is used to apply rate increases to scaled allowances.

Option	Description
Trial Run	Trial Run allows you to preview any scale rate changes before applying them. This is a hypothetical view before selecting the Apply the Updates option.
Apply the Updates	Apply the Updates – this applies the updates rates for payroll.

2.11. Run/Manage Year End

The *Year End* section allows you to view all the relevant companies available to them and perform the year end clear down and complete the relevant checks associated with the yearend clear down.

The *Year End* tab consists of the *Companies* widget which holds all companies to which you have access. This provides the following high-level information for each company:

- Company Name
- Tax Year
- Pay Groups Ready to Cleardown
- Total Completion
- Last Cleared
- Ready to Run status
- Manage
- System Legislative Rates

Payroll: Payroll Dashboard

The screenshot shows the 'Payroll Dashboard' with a sidebar on the left containing icons for home, companies, reports, and settings. The main content area is titled 'Year End' and 'Companies'. It features a search bar with the placeholder 'Enter search text...' and a magnifying glass icon. To the right of the search bar is a blue button labeled 'SYSTEM LEGISLATIVE RATES'. Below the search bar is a table with the following columns: 'Company', 'Tax year', 'Pay groups ready to ...', 'Total completion %', and 'Last cleared'. The table contains three rows of data:

Company	Tax year	Pay groups ready to ...	Total completion %	Last cleared
Abc Solutions	2017	0	0	MANAGE
Abc Solutions	2017	0	0	MANAGE
Customer Compa...	2017	0	0	MANAGE

Click the manage button to perform the key year end tasks:

The screenshot shows the 'Year end' page in the 'Payroll Dashboard'. The breadcrumb trail is 'Payroll Dashboard > Year end'. The page is divided into three main sections:

- Pre-Yearend Cleardown Checking**: Contains a button labeled 'Pre Yearend Cleardown Data C...'.
- Yearend Cleardown**: Contains a button labeled 'Yearend Cleardown'.
- Post Cleardown Activities**: Contains six buttons arranged in a 2x3 grid:
 - Control Reports
 - Cumulative Report by Employee
 - NIC Control Report
 - Maintain Cumulatives
 - Maintain NI Letter Details
 - Print P60s

The 'corehr' logo is visible at the bottom center of the page.

This consists of three sections which make up the year end process.

2.11.1. Pre Year End Cleardown Checking

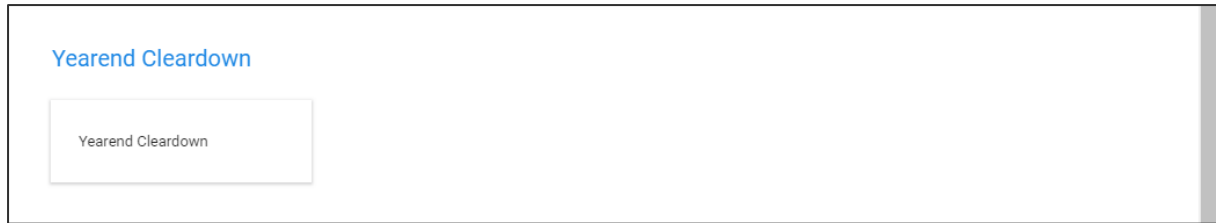

The Pre-Yearend Cleardown Data Check option provides access to a set of reports to run as part of the checks. These must be run for each company.

Report Option	Outline	Purpose
PAY, PAYE, NIC Cumulative	This report shows PAY, PAYE and NIC. It splits PAY and PAYE into multiple columns for the different employments.	It is useful for the usual end of year balancing, i.e. P60. It can also be used going forward for RTI FPS returns in terms of Pay, PAYE and NI.
Other Statutory All Employments	This report shows SSP, SMP, SAP, OSPP, ASPP and Student Loans for employees for all periods of employment with your company since the start of the tax year.	It is useful for a YTD picture of all statutory employment payments.
Other Statutory Current Employment	This report shows SSP, SMP, SAP, OSPP, ASPP and Student Loans for an employee's latest / current period of employment only, i.e. from the period in which they re-joined.	It is useful for end of year reconciling in terms of P60. It can be used going forward for RTI NORMAL FPS return.

2.11.2. Year End Cleardown

Before you can process the first pay period for the upcoming year, you must ensure that the payroll system is cleared down.

It is imperative to ensure that payrolls have been completed for all listed pay groups and that the database has been exported before selecting this option as all year to date values will be cleared down.

The yearend cleardown process performs the following tasks:

1. Creates a calendar for the next two years.
2. Moves the company on to a new tax year.
3. Moves the cumulative figures from the recently completed tax year, to the end of year table and resets the current year cumulative figures.
4. Gathers the required information required for the post year end reports.

2.11.3. Post-Cleardown Activities

The post cleardown activities consist of the following seven options:

- Control Reports
- Cumulative Report by Employee
- NIC Control Report
- Maintain Cumulatives
- Maintain NI Letter Details
- Print P60s
- Tax Codes Employee Uplift

Post Cleardown Activities

Control Reports

Cumulative Report by Employee

NIC Control Report

Maintain Cumulatives

Maintain NI Letter Details

Print P60s

Tax Codes Employee Uplift

Option	Description
Control Reports	Generate the yearend control report for each company. This will be sent to the <i>Report Centre</i> once generated and is broken down into the following sections: - Controls for Checking P60s - Controls for Checking P35s - List of Employees with Negative or Zero Earnings - List of Employees who left during the tax year
Cumulative Report by Employee	This will be sent to the Report Centre once generated and will detail the cumulative tax details for each employee within a pay group for the selected company.
NIC Control Report	This report displays the NI details for selected entries. Once generated, it will be sent to the Report Centre.
Maintain Cumulatives	The cumulatives generated here will display a full set of pay and tax for each employee. Once generated, you can view cumulatives for that year or previous years.
Maintain NI Letter Details	This displays the NI Letter details for the selected employees.
Print P60s	Print the P60s. P60s can be printed by: - Company - Pay Group - Location

Option	Description
	- Employee - Year Online P60s can be released from here also.
Tax Codes Employee Uplift	This is used to increment PAYE Letters across the system. Complete this step before loading tax certs from HMRC as if done after it would result in increasing the tax certs received by HMRC. This is an update for all UK employees in the selected company.

2.11.4. System Legislative Rates

Use the **System Legislative Rates** button to access the *UK Tax Rates* and *Irish Tax Rates* screen.

Year End					
Companies					
Enter search text...					
Company	Tax year	Pay groups ready to clear down	Total completion %	Last cleared
