1. Overview

1.1. Purpose of the Guide

This guide gives an overview of the *Assign Access* screen on an employee's record. This allows a HR administrator to manage the employee's security roles and privileges directly from the employee record, including:

- Menu profiles
 - Organisation Roles
 - HR user access
- etc.

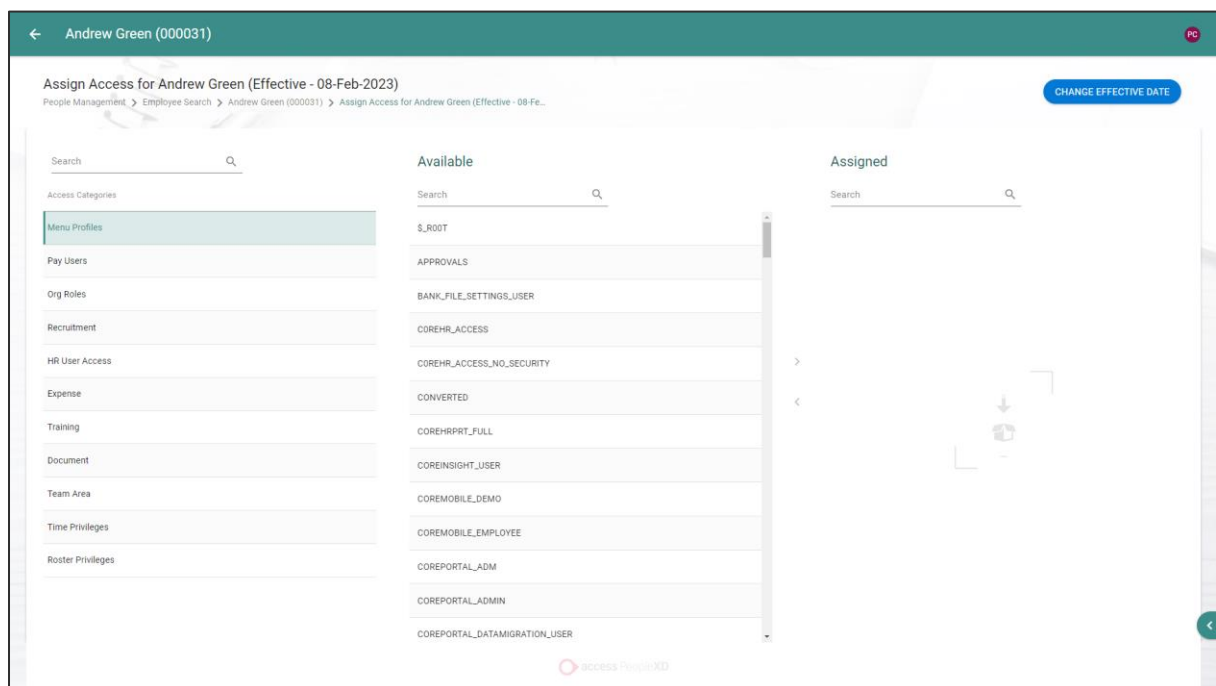

2. Assign Access

2.1. How to access the Assign Access screen

To manage user access from the *People Management* dashboard:

1. Quick jump to the *Command Centre* widget.
2. Click the **View** button for *Employees*.
3. Search for the employee that you want to assign access for.
4. Select **View** to open the employee's record.
5. Click **Actions**, then click **Assign Access**.

The *Assign Access* screen opens.

The left hand menu displays the available security categories from which you can define the access required for that employee. The table below provides information on each item:

Item	Description
Menu Profiles	Menu profiles are used to control and restrict user's access to system functionality. Various elements of the system are controlled by menu options including: • Dashboards

	• Screens • Buttons • Widgets
Pay Users	Access to data on the <i>Payroll Dashboard</i> is grouped at Pay Group level. Payroll administrators can only see employees and process payrolls for pay groups to which they have access.
Org Roles	Organisational roles (org roles) are assigned to users that have certain managerial or approval responsibilities for specific tasks, for example: • HR Salary Approver • Payroll Salary Approver • Reports to (typically used for <i>Manager Dashboard</i> access)
Recruitment	Access to the <i>Recruitment Dashboard</i> is grouped at Department level. Users can only access vacancy and applicant records for departments which they have access to.
HR User Access	Access to employee, post, and contract data on the <i>People Management Dashboard</i> is based on the organisational structure. For example, a user may be granted access for: • The entire company • A particular Department • A particular Management Unit
Expense	Access to Expenses is grouped at Expense Group level. Users can only access employees and claims for expense groups which they have access to.
Training	Access to Training is grouped at Department level. Users can only access data for departments which they have access to.
Document	This controls and restricts a user's access to files on the employee record. Access is assigned by Document Type.
Team Area	Access to WFM roster management is grouped at team area level. Users can only see and edit the roster schedules of team areas they have access to.
Time Privileges	Time privileges are assigned to users that have certain managerial or approval responsibilities for specific tasks in WFM Time & Attendance, for example: • Approving hours • Overriding leave requests

	• Viewing hidden balances
Roster Privileges	Roster privileges are assigned to users that have certain managerial or approval responsibilities for specific tasks in WFM roster management, for example: • Updating closed roster periods • Rostering non-staff • Closing roster periods

2.1.1. Change Effective Date

It is possible to apply the changes made in this screen at a future date, rather than immediately.

To do this:

1. Click **Change Effective Date**.
2. Enter the date.
3. Click **OK**.

Any changes you now make will be effective from the date entered.

2.1.2. Menu Profiles

Any menu profiles that are currently assigned to the user will be visible in the **Assigned** column.

To assign a new menu profile to a user:

4. Click the **Menu Profiles** category.
5. Search for and click on the required menu profile in the **Available** column.
6. Use the arrow to move the menu profile to the **Assigned** column.

The list is automatically saved.

2.1.3. Pay Users

Any pay groups that are currently assigned to the user will be visible in the **Assigned** column. To assign a new pay group to a user:

1. Click the **Pay Group** category.
2. Search for and click on the required pay group in the **Available** column.
3. Use the arrow to move the pay group to the **Assigned** column.

The list is automatically saved.

2.1.4. Org Roles

Any org roles that are currently assigned to the user will be visible in the table. To assign a new org role to a user:

1. Click the **Org Roles** category.
2. Click **Add**.
3. Select the required org structure from the *Structure* dropdown menu.
4. Select the required org role from the *Role* dropdown menu.
5. Select the org group that the role will be defined against from the *Org Group* dropdown menu. For example, *Department* for the *Head of Department*, *Pay Group* for *Payroll Salary Approver*, or *Work Group* for *Reports to Manager*.
6. Select the required org role item from the *Org Item* dropdown menu. This list is directly related to the org group already selected, for example a list of departments will display if the org group is set to *Department*.
7. Enter a *Date From*. This is the date that the employee will be recognised on PeopleXD as having that role.
8. If required, enter a *Date To*. This is an optional field that identifies the date the employee no longer has that role assigned.
9. Click **OK**.

2.1.5. Recruitment

Any departments that are currently assigned to the user will be visible in the **Assigned** column. To assign a new department to a user:

1. Click the **Recruitment** category.
2. Search for and click on the required department in the **Available** column.
3. Use the arrow to move the department to the **Assigned** column.

The list is automatically saved.

2.1.6. HR User Access

Any HR data access that is currently assigned to the user will be visible in the **Assigned** column, after filtering using the *Structure* and *Structure Level* dropdown menus. To assign HR data access to a user:

1. Click the **HR User Access** category.

2. Select the required structure from the *Structure* dropdown menu.
3. Select a level from the *Structure Level* dropdown menu. This reflects the organisational hierarchy configured for the organisation. If access is granted at a higher level in the structure, this implies that the user has access to all units that are included under that level.
4. Search for and click on the required item in the **Available** column. This list is directly related to the structure level already selected, for example a list of departments will display if the structure level is set to *Department*.
5. Use the arrow to move the item to the **Assigned** column.

The list is automatically saved.

2.1.7. Expense

Any expense groups that are currently assigned to the user will be visible in the **Assigned** column.

To assign a new expense group to a user:

1. Click the **Expense** category.
2. Search for and click on the required expense group in the **Available** column.
3. Use the arrow to move the item to the **Assigned** column.

The list is automatically saved.

2.1.8. Training

Any departments that are currently assigned to the user will be visible in the **Assigned** column. To assign a new department to a user:

1. Click the **Training** category.
2. Search for and click on the required department in the **Available** column.
3. Use the arrow to move the department to the **Assigned** column.

The list is automatically saved.

2.1.9. Document

Any document access that is currently assigned to the user will be visible in the **Assigned** column.

To assign document access to a user:

1. Click the **Document** category.
2. Search for and click on the required action in the **Available** column.

3. Use the arrow to move the action to the **Assigned** column.

The list is automatically saved.

2.1.10. Team Area

Any team areas that are currently assigned to the user will be visible in the table. To assign a new team area to a user:

1. Click the **Team Area** category.
2. Click **Add**.
3. Select the required team area from the dropdown menu.
4. Enter a *Start Date*. This is the date that the employee will be recognised on PeopleXD as having access to that team area.
5. Click **OK**.

2.1.11. Time Privileges

Any time privileges that are currently assigned to the user will be visible in the **Assigned** column.

To assign a new time privilege to a user:

1. Click the **Time Privileges** category.
2. Search for and click on the required action in the **Available** column.
3. Use the arrow to move the action to the **Assigned** column.

The list is automatically saved.

2.1.12. Roster Privileges

Any roster privileges that are currently assigned to the user will be visible in the **Assigned** column.

To assign a new roster privilege to a user:

1. Click the **Roster Privileges** category.
2. Search for and click on the required action in the **Available** column.
3. Use the arrow to move the action to the **Assigned** column.

The list is automatically saved.
