1. Overview

1.1. Purpose of the Guide

This document provides guidance on how to change an employee's start date on CoreHR, including:

- How to change their start date.
- How to update their contract start date.
- What elements of the employee's record get updated?
- What elements of the employee's record do not get automatically updated.

1.2. Overview of Start Date Corrections

1.2.1. What Contracts can be Updated?

This functionality is used to change the start date that has been set up for an employee's contract.

This is applicable in the following scenarios:

1. New Hire
2. Rehire
3. Additional Contract

For options 1 & 2 above:

1. **New Hire:** When a start date is changed for the contract that was set up for the employee as a new hire, the following dates are updated:
 - a. Contract Start Date
 - b. Date First Joined
2. **Rehire:** When a start date is changed for the contract that was set up for the employee as a rehire, the following dates are updated:
 - a. Contract Start Date
 - b. Latest Start Date

Changes to additional contracts will not result in any update to the *Date First Joined* or the *Rehire Date*.

If the substantive contract is updated, the corresponding *Substantive Date* is also be updated.

1.2.2. What Else is Updated for the Employee's Contract?

The following elements of the employee's contract will be reviewed and potentially updated, when the start date is changed.

- Salary
- Allowance
- Cost Allocations
- Pension
- BIK
- Deductions
- Substantive Date
- Org Roles

Each of these elements will be reviewed and flagged to the user as requiring / not requiring an update. The details of what will be updated will also be made clear. This is covered in greater detail in [2.2 What Contract Elements Will be Updated?](#).

1.2.3. Impact on Payroll

Where an employee has already been set up on payroll, this is also considered as part of the change start date process:

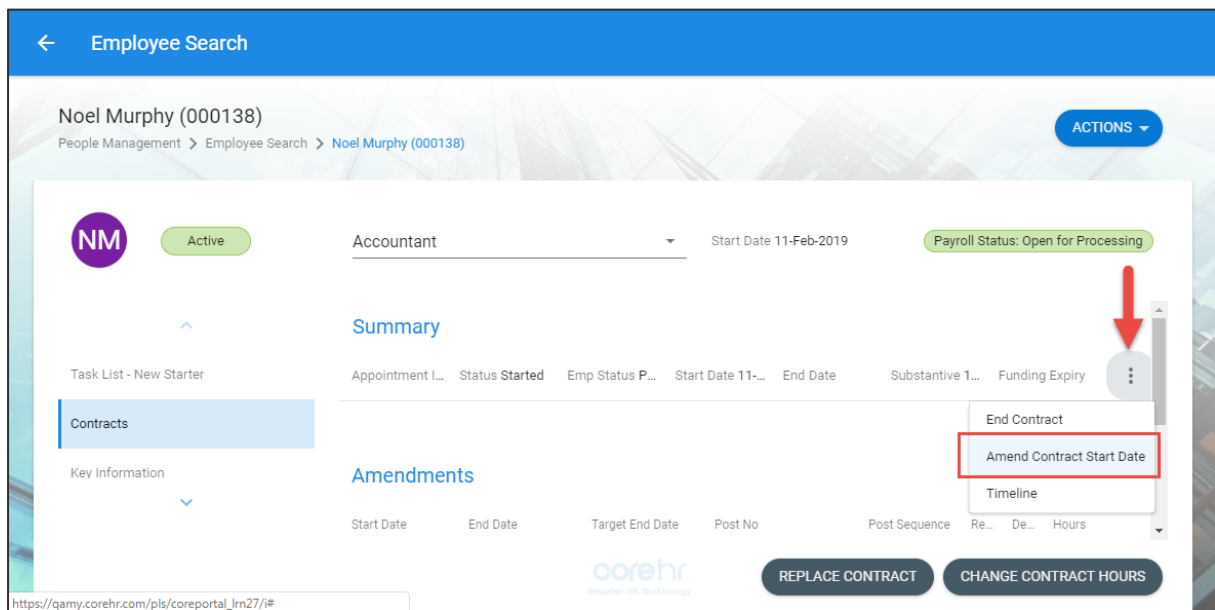

- *Start Date & Latest Start Date* are updated for the employee's payroll record.
- Changes to any pay related elements of the employee's contract will be reflected in payroll:
 - Salary
 - Allowance
 - BIK
 - Deductions
 - Pension Scheme
 - Cost Allocations

2. How to Use

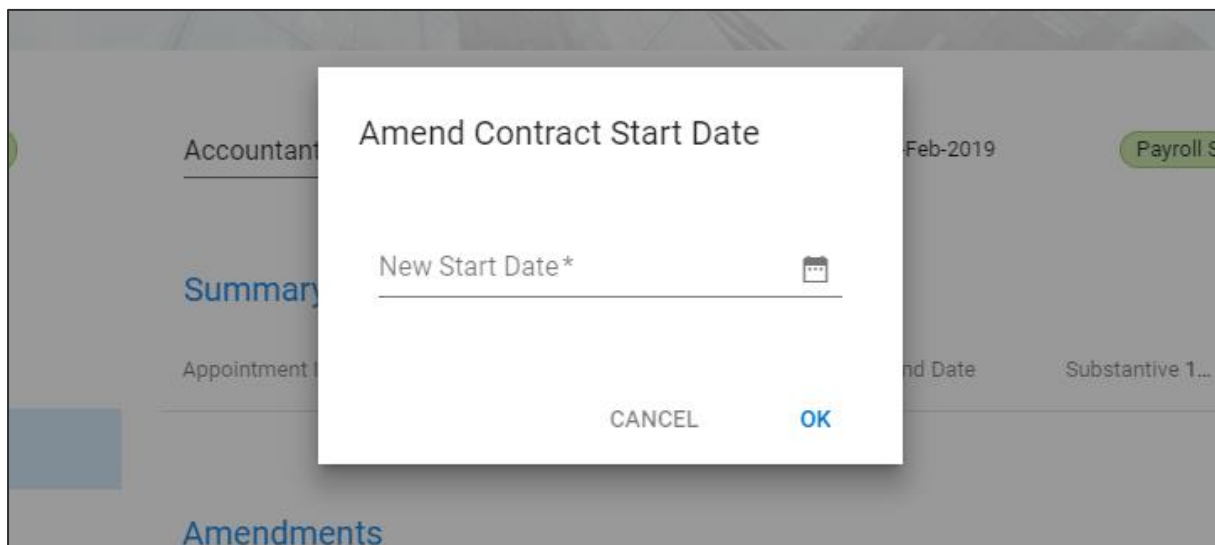

2.1. Change an Employee's Start Date

To change the employee's start date:

1. Open the employee record in People Management.
2. Select *Contracts*.
3. Click the  button and select **Amend Contract Start Date**.

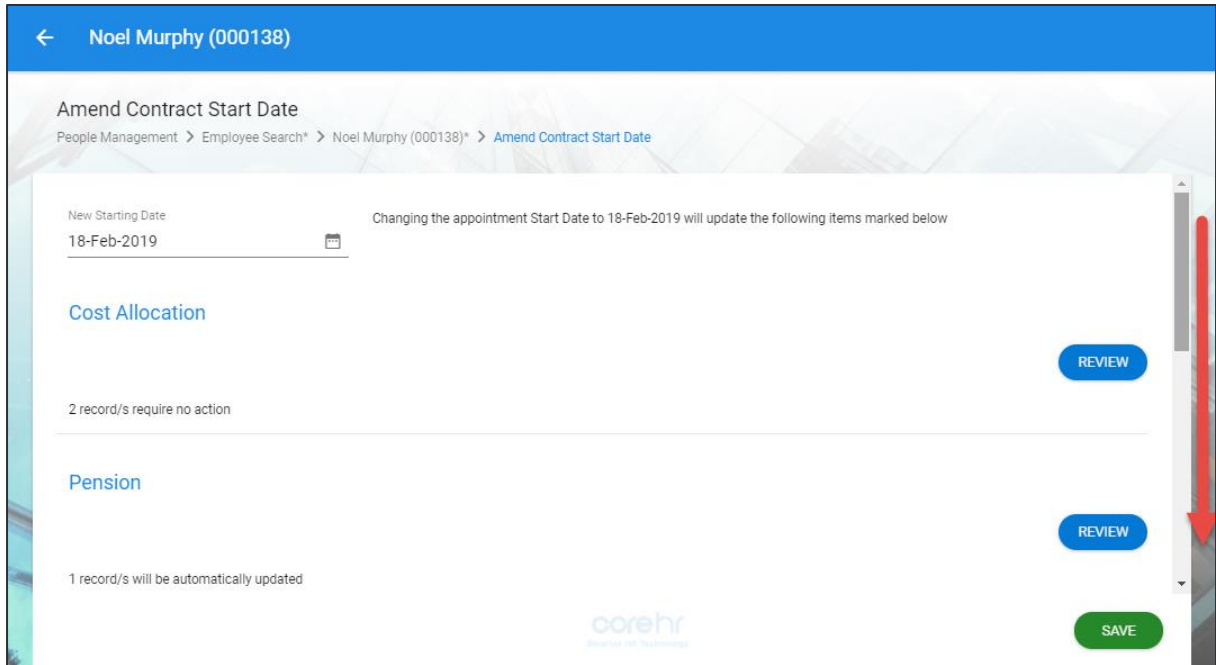

4. On the *Amend Contract Start Date* prompt, enter the new start date and click **OK**:

The *Amend Contract Start Date* screen opens.

The screen displays a list of all of the additional elements associated with that contract that will be updated as part of this task. Scroll down the screen to see all elements.

The screenshot shows the 'Amend Contract Start Date' interface for Noel Murphy (000138). The header bar is blue with a back arrow and the name 'Noel Murphy (000138)'. Below the header, the title 'Amend Contract Start Date' is displayed, followed by a breadcrumb trail: 'People Management > Employee Search* > Noel Murphy (000138)* > Amend Contract Start Date'. The main content area has a light blue background. It features a 'New Starting Date' field with the value '18-Feb-2019' and a calendar icon. To the right of this field, a message states: 'Changing the appointment Start Date to 18-Feb-2019 will update the following items marked below'. Below this, there are two sections: 'Cost Allocation' and 'Pension'. The 'Cost Allocation' section shows '2 record/s require no action' and has a blue 'REVIEW' button. The 'Pension' section shows '1 record/s will be automatically updated' and has a blue 'REVIEW' button. At the bottom right, there is a green 'SAVE' button. A red arrow on the right side of the screen points downwards, indicating the scroll direction.

Each item includes a summary of the changes that will / will not be amended e.g.

- X record/s need to be reviewed.
- X record/s will be automatically updated.
- X record/s will be automatically deleted.
- X record/s will require end date input.
- X record/s will require no action.

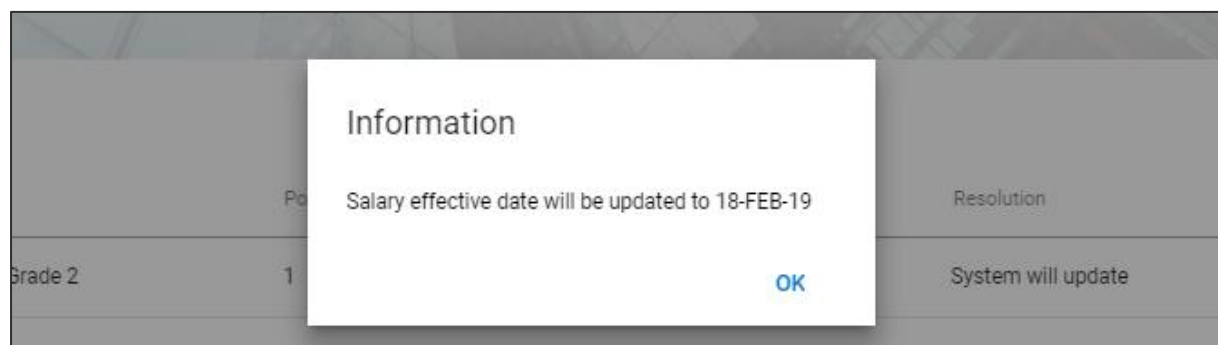

- When a start date has been updated, the *Amend Contract Start Date* overview screen that appears includes information and statuses to ensure the user is aware of what impact changing the start date has across various items and attributes on their environment.

Status	Colour	Description
To be reviewed		This status requires the item or the data to be reviewed or manually updated by the user.
No change required		This status does not require a manual change as the item or data is automatically updated

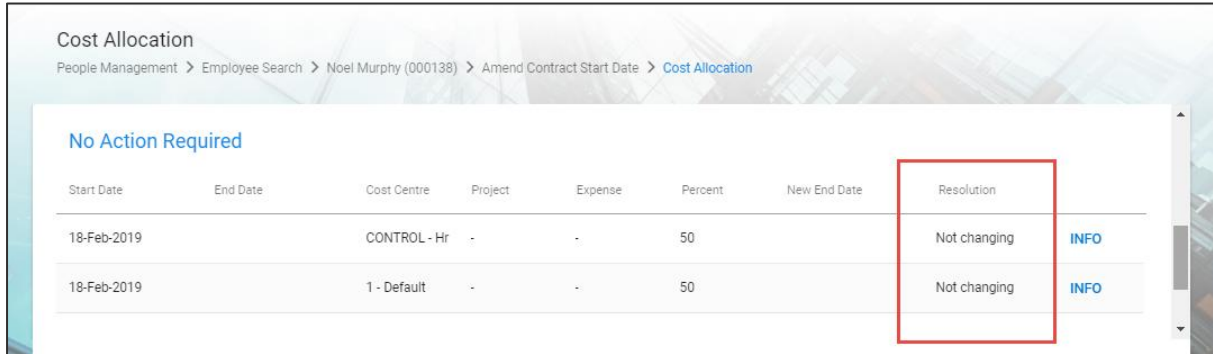

- Click the **Review** button for each of the contract elements to view further details.
In the screenshot below, the details of an amendment to the employee's salary are displayed. The employee's current salary details are displayed i.e. Effective Date, Grade, Point & Approval Status.

Click the **Info** button to see what will be changed. In this case, the *Effective Date* will be changed.

In the next screenshot, the corresponding records will not require a change. In this example, the cost allocations associated with the employee's record have a start date that is equal to the new start date. The *Resolution* column indicates that it will not be changed.

The screenshot shows the 'Cost Allocation' screen for Noel Murphy (000138). The breadcrumb trail is: People Management > Employee Search > Noel Murphy (000138) > Amend Contract Start Date > Cost Allocation. The section title is 'No Action Required'. Below it is a table with columns: Start Date, End Date, Cost Centre, Project, Expense, Percent, New End Date, Resolution, and an Info icon. Two records are listed, both with a start date of 18-Feb-2019 and a resolution of 'Not changing'.

Start Date	End Date	Cost Centre	Project	Expense	Percent	New End Date	Resolution	
18-Feb-2019		CONTROL - Hr	-	-	50		Not changing	INFO
18-Feb-2019		1 - Default	-	-	50		Not changing	INFO

In some cases, the system cannot automatically update the record for you. If this is the case, the record is listed under the *Action Required* section of the screen. Here you will be either:

- Guided to enter a new end date e.g. see this example for a BIK record.
 - a. To do this, click **Update**
 - b. Enter the new date and click **OK**.

The screenshot shows the 'BIK' screen for Peter Thompson (000139). The breadcrumb trail is: People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > BIK. The section title is 'Action Required'. Below it is a table with columns: Start Date, End Date, Pay Code, Std Value, New End Date, Resolution, and an Update icon. One record is listed with a start date of 01-Feb-2019, an end date of 15-Feb-2019, and a resolution of 'Input end date'.

Start Date	End Date	Pay Code	Std Value	New End Date	Resolution	
01-Feb-2019	15-Feb-2019	3500 - Company Car	150		Input end date	UPDATE

- c. Click **Save** on that screen to save the new date.

OR

- You will be notified that you are required to make an update manually on the employee's record e.g. see this example for an org role:

Org Roles

People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Org Roles

Action Required

Org Role	Org Group	Org Group Item	Structure C...	Date From	Date To	New End Date	Resolution
Hr Salary Approver	Company	1000 - Abc So...	Abc Soluti...	10-Feb-2019			User must change UPDATE

Information

New start date is greater than the existing org role start date. Manual Updates/Deletes required

[OK](#)

- To complete the update, click the **Save** button on the main *Amend Contract Start Date* screen.

The next section [2.2 What Employee / Contract Elements Will be Updated?](#) details how each individual contract / employee element is updated by this process.

2.2. What Employee / Contract Elements Will be Updated?

2.2.1. Date First Joined & Rehire Date

If the contract that was amended was the employee's first contract on CoreHR (i.e. new hire contract), the start date will be the same as the *Date First Joined*. Once this is changed, the *Date First Joined* will also be changed.

Noel Murphy (000138)
People Management > Employee Search > Noel Murphy (000138)

Period P45 Issued

Pay Group* Input Location*

Similarly, if the contract that was amended was the contract they were rehired into on CoreHR, (i.e. rehire contract):

- The *Recent Start Date* will be updated in HR.
- The *Latest Start Date* will be updated in Payroll.

2.2.2. Substantive Date

If the contract updated is the employee's substantive contract, then the *Substantive Date* is also updated.

The screenshot displays the employee profile for Noel Murphy (000138). The profile includes a summary section with fields for Appointment ID, Status, Started, Emp Status, Per..., Start Date (18-Feb-2019), End Date, Substantive (18-Feb-2019), and Funding Expiry. The 'Substantive 18-Feb-2019' date is highlighted with a red box. A red arrow points to the 'Contracts' tab in the left sidebar. Below the summary is an 'Amendments' section with a table showing Start Date, End Date, Target End Date, Post No, Post Sequence, Re..., De..., Hours, and FTE. At the bottom, there are buttons for 'REPLACE CONTRACT' and 'CHANGE CONTRACT HOURS'.

2.2.3. Salary

The *Effective Date* for the salary associated with the contract will be updated.

- **Approved Salaries**
 - Salary will remain as approved.
 - Effective date will be updated

The screenshot shows the 'Amend Contract Start Date' page for Peter Thompson (000139). The page title is 'Amend Contract Start Date'. Below the title, the breadcrumb trail is 'People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Salary'. The main heading is 'Salary'. Below this, the text 'No Action Required' is displayed. A table shows the following data:

Effective Date	Grade	Point	Approval Status	Resolution
11-Feb-2019	GR2 - Grade 2	3	Approved	System will update

An 'INFO' link is visible next to the 'Resolution' column.

- **Unapproved Salaries** i.e. Pending, In Approval:
 - The original salary will be 'Rejected'.

The screenshot shows the 'Amend Contract Start Date' page for Mark Lynch (000140). The page title is 'Amend Contract Start Date'. Below the title, the breadcrumb trail is 'People Management > Employee Search > Mark Lynch (000140) > Amend Contract Start Date > Salary'. The main heading is 'Salary'. Below this, the text 'No Action Required' is displayed. A table shows the following data:

Effective Date	Grade	Point	Approval Status	Resolution
18-Feb-2019	GR1 - Grade 1	5	Pending	System will update

An 'INFO' link is visible next to the 'Resolution' column. A red box highlights the 'Approval Status' and 'Resolution' columns. A red arrow points from the 'INFO' link to an 'Information' dialog box.

Information

The outstanding salary will be rejected and re-submitted with a new effective date of 25-FEB-19

OK

- A new salary record will be created for the new start date and will require full approval (i.e. the approval process begins again).

Salary History									
Exclude Rate History									
Start Date	Rate Effective	Pay Scale / Gra...	Point	Rate Type	Rate Amount	Multiplier	Actual Pay	Status	Reason
25-Feb-2019	01-Jan-1990	Grade 1	5	Annual	£36,000.00	1	£36,000.00	Pending	Hire
18-Feb-2019	01-Jan-1990	Grade 1	5	Annual	£36,000.00	1	£36,000.00	Rejected	Hire

2.2.4. Allowances

Allowances associated with the contract, will be updated in accordance with the allowance start and end dates.

See examples below of how the allowance is updated, for the various date scenarios.

Original contract start date = 1st Feb 2019

New contract start date = 18th Feb 2019

- If the **allowance start date = the original contract start date**, the data will be automatically updated.

Allowances						
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Allowances						
No Action Required						
Start Date	End Date	Pay Code	Approval Status	New End Date	Resolution	
01-Feb-2019		3010 - Adhoc Value Allowance	Approved		System will update	INFO

- If the **allowance start date is greater than the original contract start date & less than the new contract start date**, the data will be automatically updated.
- If the **allowance start date = the original contract start date**, but the **end date is less than new start date**:

- Allowance start date is automatically updated to the new contract start date.
- User will need to manually input a new end date on the allowance record.

The screenshot displays the 'Amend Contract Start Date' interface. At the top, a blue header bar contains a back arrow and the title 'Amend Contract Start Date'. Below this, the breadcrumb trail reads: 'People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Allowances'. The main content area features a table with the following data:

Start Date	End Date	Pay Code	Approval Status	New End Date	Resolution
01-Feb-2019	15-Feb-2019	9015 - Night Duty (2)	Approved		Input end date UPDATE

A red arrow points to the 'Action Required' link above the table. Another red arrow points from the 'UPDATE' link in the table to the 'Update' dialog box. The dialog box contains the following text:

Update

Allowance start date will be updated to 18-FEB-19 . Please enter a new end date for this allowance

Current End Date
15-Feb-2019

New End Date
01-Mar-2019

CANCEL OK

A green 'SAVE' button is visible in the bottom right corner of the main interface.

- If the **allocation start date** *greater than* the **new contract start date**:
 - no action is required.

Allowances						
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Allowances						
No Action Required						
Start Date	End Date	Pay Code	Approval Status	New End Date	Resolution	
25-Feb-2019		9014 - Night Duty (1)	Approved		Not changing	INFO

- For **Unapproved Allowances** i.e. Pending, In Approval:
 - The original allowance will be 'Rejected'.
 - A new allowance record will be created for the new start date and will require full approval (i.e. the approval process begins again).

2.2.5. Cost Allocations

- If the **allocation start date** = the **original contract start date**, the data will be automatically updated.

Cost Allocation							
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Cost Allocation							
No Action Required							
Start Date	End Date	Cost Centre	Project	Expense	Percent	New End Date	Resolution
01-Feb-2019		1 - Default	7 - Project Delivery	-	60		System will update
01-Feb-2019		1 - Default	2 - Training	-	40		System will update

- If the **allocation start date** *is greater than* the **original contract start date**:
 - This will be deleted and should be manually input again for the employee.

Cost Allocation							
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Cost Allocation							
No Action Required							
Start Date	End Date	Cost Centre	Project	Expense	Percent	Ne...	Resolution
11-Feb-2019		1 - Default	7 - Project De...	-	60		System will delete
11-Feb-2019		1 - Default	2 - Training	-	40		System will delete

- If the **allocation start date = the original contract start date**, but the **end date is less than new start date**:
 - Start date is automatically updated to the new contract start date.
 - User will need to manually input a new end date on the allocation record.

Cost Allocation							
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Cost Allocation							
Action Required							
Start Date	End Date	Cost ...	Project	Expe...	Perce...	New End Date	Resolution
01-Feb-2019	08-Feb-2019	1 - D...	7 - Pr...	-	60		Input end date
01-Feb-2019	08-Feb-2019	1 - D...	2 - Tr...	-	40		Input end date

Update

Cost Allocation start date will be updated to 18-FEB-19. Please enter a new end date for this allocation

Current End Date 08-Feb-2019

New End Date 01-Mar-2019

CANCEL OK

- if the **allocation start date is greater than the new contract start date**:
 - no action is required.

Cost Allocation							
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Cost Allocation							
No Action Required							
Start Date	End Date	Cost Centre	Project	Expe...	Perc...	New End Date	Resolution
01-Mar-2019		1 - Default	7 - Project Deli...	-	60		Not changing
01-Mar-2019		1 - Default	2 - Training	-	40		Not changing

2.2.6. Pension

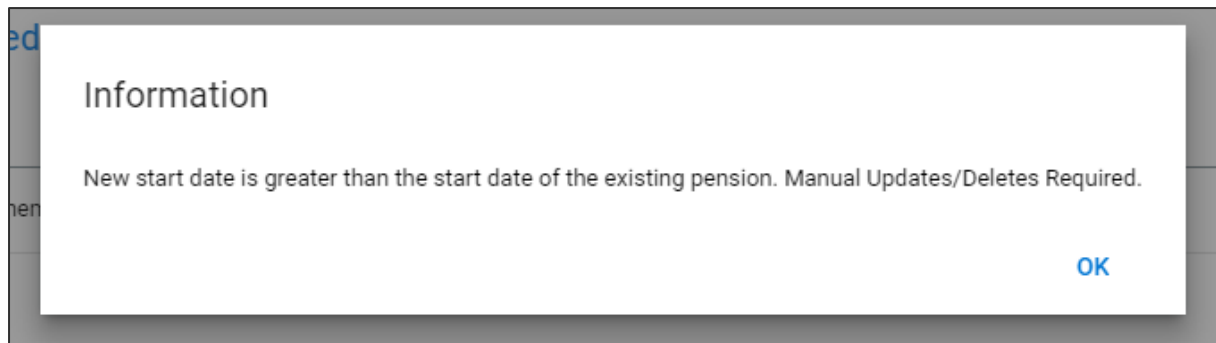

Pension by Appointment:

- If the **pension start date = the original contract start date:**
 - The pension start date is updated to match the new contract start date

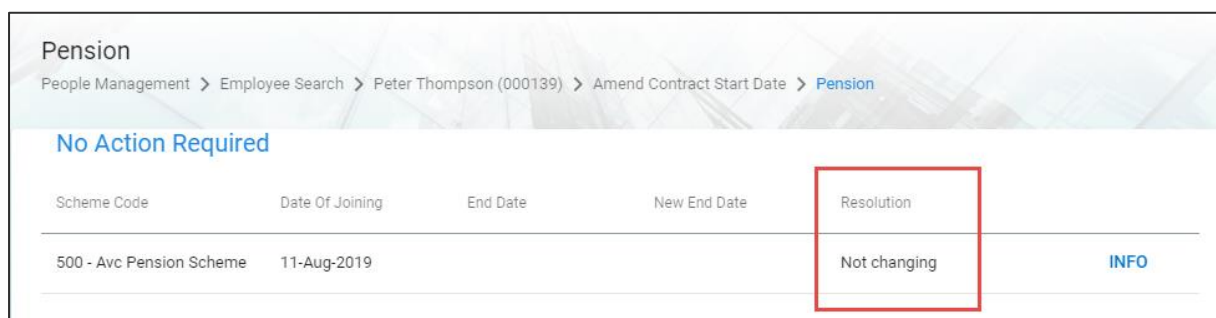

Pension				
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Pension				
No Action Required				
Scheme Code	Date Of Joining	End Date	New End Date	Resolution
500 - Avc Pension Scheme	01-Feb-2019			System will update

- If the **pension start date is greater than the original contract start date:**
 - No change is made.
 - User is required to manually change for the employee.

Pension				
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Pension				
Action Required				
Scheme Code	Date Of Joining	End Date	New End Date	Resolution
500 - Avc Pension Scheme	11-Feb-2019			User must change

- If the **pension start date** is *greater than* the **new contract start date**:
 - No action is required.

Pension by Person

If the Pension Schemes are assigned to employees as 'Pension by Person', then the Pension Scheme start date will only be amended if:

- the contract being amended is the joiner / rehire contract.
- the scheme start date matches the original contract start date.

2.2.7. **BIK**

Note:

BIKs are attached to the employee and not the contract. Automatic updates will only be applied if the BIK start date = the original contract start date.

- The **BIK start date = the original contract start date**:
 - The BIK start date is updated to match the new contract start date

BIK

People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > BIK

No Action Required

Start Date	End Date	Pay Code	Std Value	New End Date	Resolution	
01-Feb-2019		3500 - Company Car	150		System will update	INFO

- **BIK start date is greater than the original contract start date**
 - No change is applied.
 - This should be manually re-entered for the employee

BIK

People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > BIK

Action Required

Start Date	En...	Pay Code	Std...	New End Date	Resolution	
11-Feb-2019		3500 - Company Car	150		User must change	UPDATE

Information

New start date is greater or equal to the start date of the BIK record. Manual Updates/Deletes required

[OK](#)

- **BIK start date = the original contract start date AND BIK end date is less than new contract start date**
 - Start date is automatically updated to the new contract start date.
 - User will need to manually input a new end date on the BIK record.

BIK
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > BIK

Action Required

Start Date	End Date	Pay Code	Std Value	New End Date	Resolution
01-Feb-2019	15-Feb-2019	3500 - Company Car	150		Input end date UPDATE

Update

BIK start date will be updated to 04-MAR-19 .
Please enter a new end date for this record

Current End Date
15-Feb-2019

New End Date
22-Mar-2019

[UPDATE](#)

[CANCEL](#) [OK](#)

- If the **BIK start date** is *greater than* **new start date**: no action is required.

BIK
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > BIK

No Action Required

Start Date	End Date	Pay Code	Std Value	New End Date	Resolution
04-Mar-2019		3500 - Company Car	150		Not changing INFO

2.2.8. Deductions

Note:

Deductions are attached to the employee and not the contract. Automatic updates will only be applied if the Deduction start date = the original contract start date.

- The **deduction start date = the original contract start date:**
 - The deduction start date is updated to match the new contract start date

Deductions					
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Deductions					
No Action Required					
Start Date	End Date	Pay Code	New End Date	Resolution	
01-Feb-2019		5025 - Give As You Earn		System will update	INFO

- **Deduction start date is greater than the original contract start date:**
 - No change is applied.
 - This should be manually re-entered for the employee.

Deductions					
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Deductions					
Action Required					
Start Date	End Date	Pay Code	New End Date	Resolution	
11-Feb-2019		7002 - Car Park		User must change	UPDATE

- **Deduction start date = the original contract start date AND deduction end date is less than new contract start date:**
 - Start date is automatically updated to the new contract start date
 - User will need to manually input a new end date on the allowance record.

- If the **deduction start date** *is greater than the new start date*: no action is required.

2.2.9. Org Roles

Note:

Organisational roles are not linked to employee contracts. They are set up against the employee. However, if there is an organisational role with the role start date matches the start date of a contract, then this will be updated.

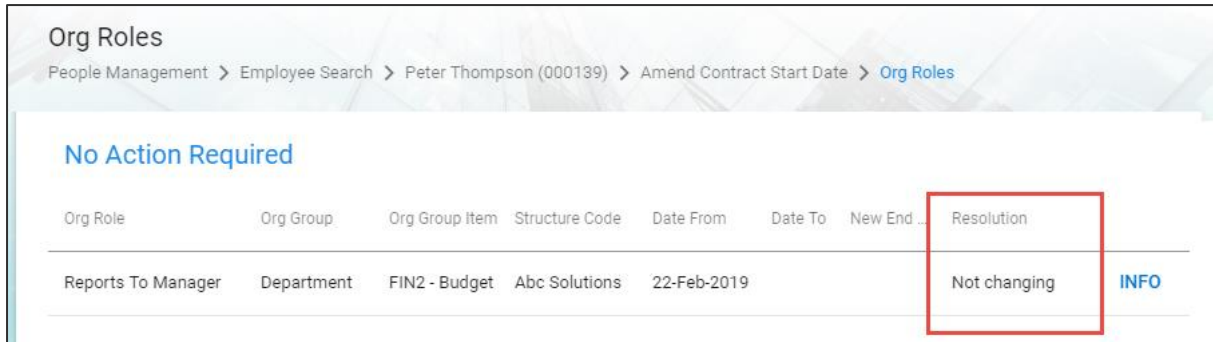

- If the **org role start date = the original contract start date**:
 - The org role start date is updated to match the new contract start date.

Org Roles							
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Org Roles							
No Action Required							
Org Role	Org Group	Org Group Item	Structure Co...	Date From	Date ...	New ...	Resolution

- If the **org role start date** *is greater than the original contract start date*:
 - No change is made.
 - User is required to manually change for the employee.

Org Roles							
People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Org Roles							
Action Required							
Org Role	Org Group	Org Group Item	Structure C...	Date From	Date To	New End Date	Resolution
Hr Salary Approver	Company	1000 - Abc So...	Abc Soluti...	10-Feb-2019			User must change UPDATE

- if the **org role start date** *is greater than the new contract start date*: no action is required.

Org Roles

People Management > Employee Search > Peter Thompson (000139) > Amend Contract Start Date > Org Roles

No Action Required

Org Role	Org Group	Org Group Item	Structure Code	Date From	Date To	New End ...	Resolution	
Reports To Manager	Department	FIN2 - Budget	Abc Solutions	22-Feb-2019			Not changing	INFO

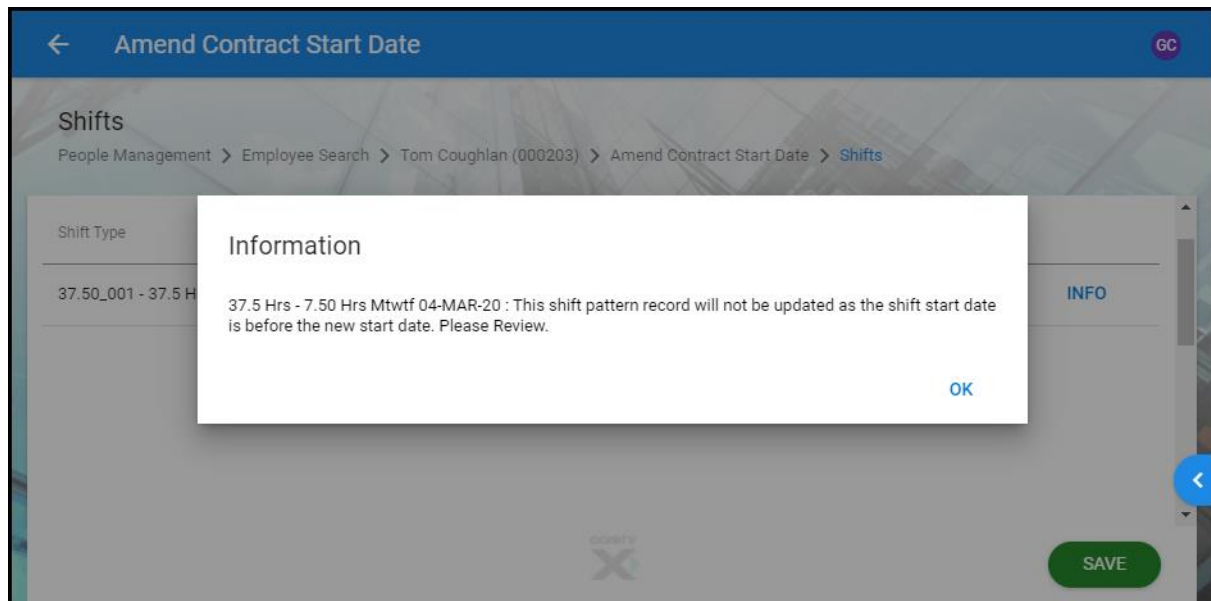

2.2.10. Shift Types

Appointment Driven System: Contract Start Date

- When an employee's contract start date is updated, all existing shift types linked to that appointment are highlighted for review. The system does not update an existing shift pattern record automatically, the user needs to review the changes and make the amendments manually.
- The system does not display all shifts the employee has, only shifts linked to the appointment are highlighted. Any existing shifts that overlap with the new Contract Start Date are marked for review, If shifts exists but there are no overlaps, this section does not display
- If an employee moves from Post A to Post B, and Post B's Start Date has been adjusted, all existing shift types linked to that appointment are highlighted for review.

Person Level Driven System - Original Join Date

- When CoreTime is based on Person Level configuration, if the Original Join Date is updated, the system highlights shift that where an overlap occurs are highlighted and where the user needs to review. The system does not update an existing shift type record automatically, the user needs to review the changes and make the amendments manually.
- Within this screen the following items are available to view and over-ride if present:
 - Shift Date Effective
 - Linked Pattern
- If an employee moves from Post A to Post B, and Post B's Start Date has been adjusted, no shift types are highlighted.

2.2.11. Absences

Appointment Driven System: Contract Start Date

- When an employee's contract start date is updated, only the absences that the user is to review are shown. The system does not display all absences the employee has, only absences linked to the appointment are highlighted. Any existing absence that overlaps with the new Contract Start Date is marked for review. The system does not update an existing absence record automatically, the user needs to review the changes and make the amendments manually. If absences exist but there are no overlaps, this section does not display

Appointment Driven System: Replacement Contract Start Date

- When an employee's replacement contract start date is updated, we only check for overlaps with absence records within that contract.

Person Level Driven System: Replacement Contract Start Date

- This check does not come into play here as the system only checks overlaps for new starters and rehires.
- If an employee moves from Post A to Post B, and Post B's Start Date has been adjusted, any overlapping absences linked to the first appointment are highlighted.

Person Level Driven System - Original Join Date

- When an employee's Original Join Date is updated, all absences where an overlap occurs are highlighted and where the user needs to review. All absences are not shown on screen. The system does not update an existing absence record automatically, the user needs to review the changes and make the amendments manually.
- If an employee moves from Post A to Post B, and Post B's Start Date has been adjusted but there are no absences linked to Post B, then no Absences are highlighted.

2.2.12. Team Areas

Appointment Driven System - Contract Start Date

- When an employee's contract start date is updated, the system automatically updates the employee's team area if it matches the contract start date being updated. The team area's start date is highlighted to be reviewed if the new contract start overlaps with the existing team areas start date or if the new start date is greater than team area end date.

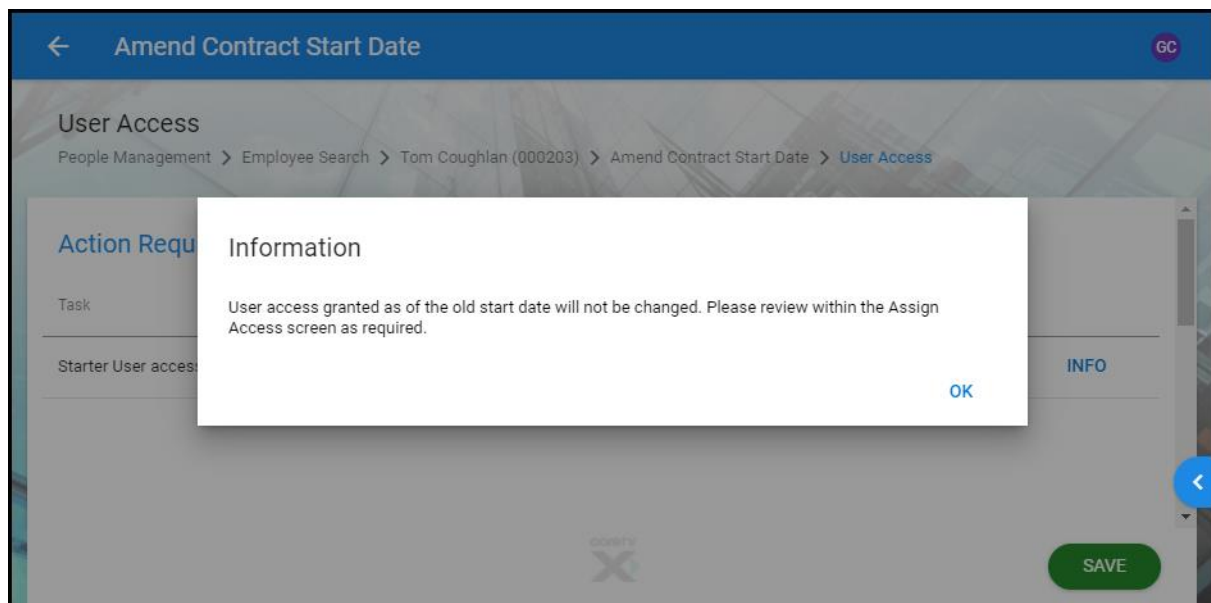

Person Driven System - Original Join Date

- When an employee's original join date is update, the team area's start date is automatically updated if it matches the new Original Join Date.
- The team area's start date is highlighted to be reviewed if the new contract start overlaps with the existing team areas start date or if the new start date is greater than team area end date.

2.2.13. JML (User Access)

User Access start date is now also included in the global checks when a start date is updated. The following scenarios are tracked on the *Amend Contract Start Date* overview screen:

1. Future Start Date
 - Access is assigned to the user on the new Start Date.
2. Historical Start Date
 - No change in access rights

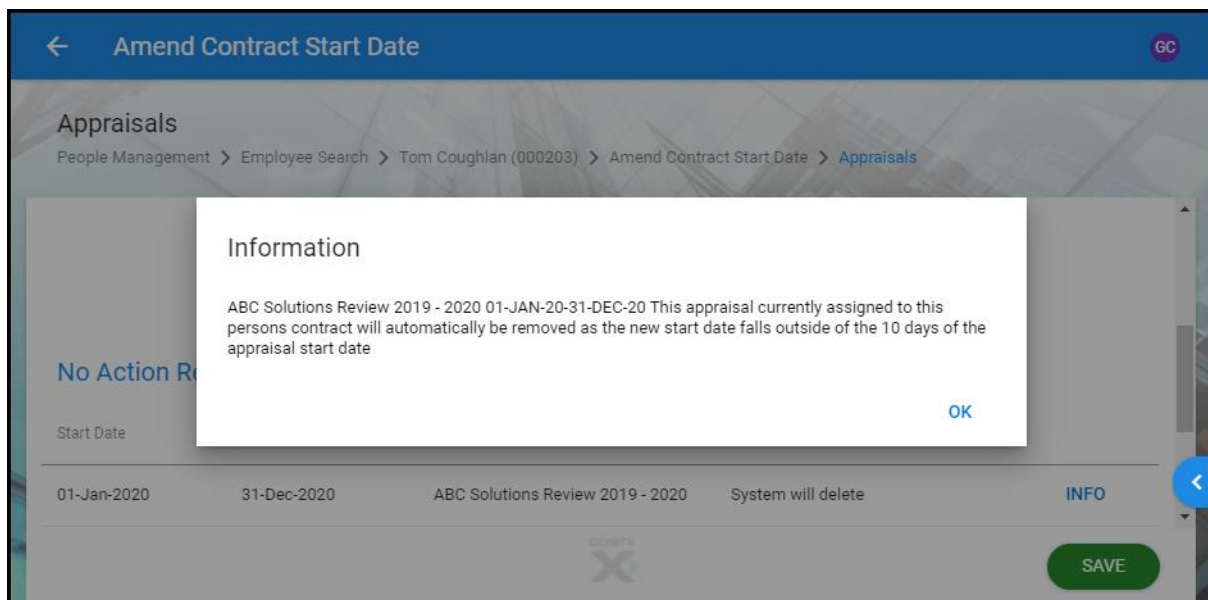

2.2.14. Talent Appraisals

When an employee's Start Date is being updated, either as a New Starter or a Rehire, the appraisal linked to their appointment may need to be removed or re-assigned.

The following checklist occurs behind the scenes:

Question	Confirmation	Next Check
Has Appraisal been assigned?	Yes	Yes
	No	No Change Required
Does appraisal have the following parameter enabled: "Automatically assign to employees whose start date is number of days after the Start Date"?	Yes (e.g. 10 days)	Yes
	No	No Change Required
Does Start Date fall within this parameter?	Yes	Remove Appraisal from Contract ID
	No	No Change Required

Note: On creating a new starter, an overnight job checks the following data:

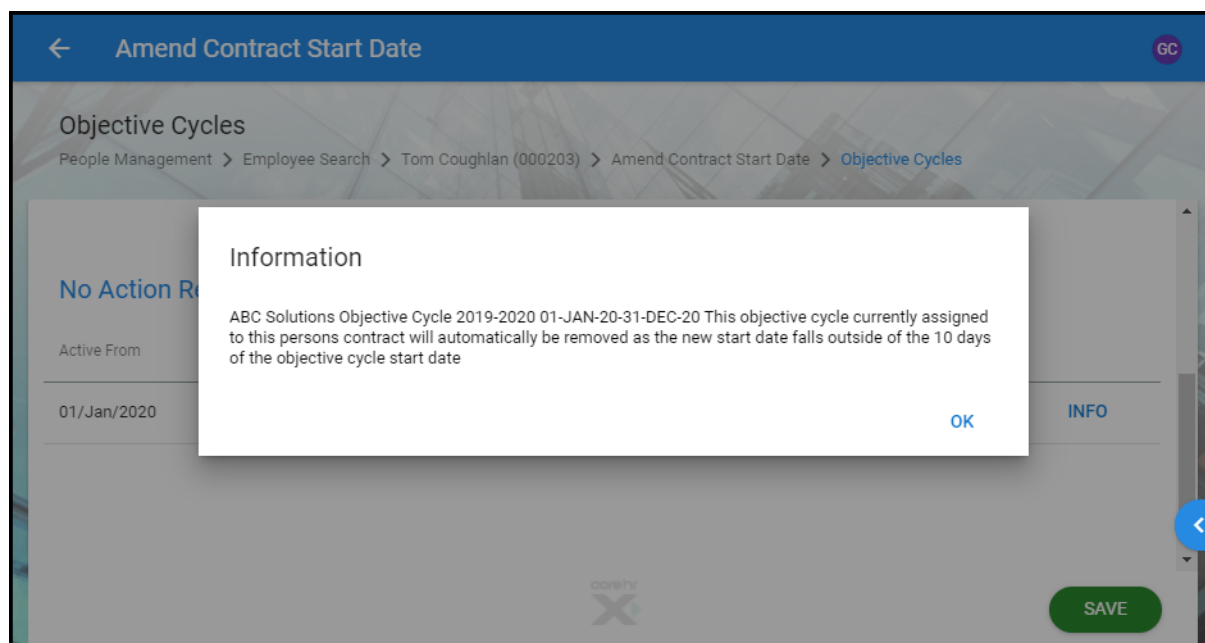

- Employee Start Date
- Employee's Criteria Group(s)
- Active appraisals with the "Automatically assign to employees whose start date is number of days after the Start Date" rule enabled.

2.2.15. Talent Objectives

When an employee's Start Date is being updated, either as a New Starter or a Rehire, the Objective Cycle linked to their appointment may need to be removed or re-assigned.

The following checklist occurs behind the scenes:

Question	Confirmation	Next Check
Has an Objective Cycle been assigned?	Yes	Yes
	No	No Change Required
Does the Objective Cycle have the following parameter enabled: "Automatically assign to employees whose start date is number of days after the Start Date"?	Yes (e.g. 10 days)	Yes
	No	No Change Required
Does Start Date fall within this parameter?	No	Remove Objective Cycle from Contract ID
	Yes	

2.3. Impact on Payroll

2.3.1. Unprocessed by Payroll

If the new appointment has not yet been processed by payroll and the previous appointment has not yet been ended, then the following updates occur:

1. When the replacement appointment start date has changed, other attributes and elements linked to the replacement appointment are also updated. These items include:
 - a. Salary
 - b. Allowances
 - c. Cost Allocations
 - d. Pensions (If by Appointment)
 - e. Appointment status
2. The previous appointment end date is also updated if applicable, together with its linked element end dates as above.
3. If the replacement appointment start date is being set to a date in the past, then the new start date cannot be less than the latest sequence start date of the previous post.

2.3.2. Payroll Currently in Process

If payroll is currently in process for that employee, it is not possible to amend their contract.

- A message will be displayed to confirm that payroll is in progress.

2.3.3. Contract Has Already Been Processed on Payroll

An admin user now has the ability to update an employee's contract Start Date even if it has been processed by payroll. However, only non-payroll attributes are updated. These are:

- Org Role
- Original Join Date
- Latest Start Date
- Appointment Start Dates

- Substantive Dates

The following items are not updated:

- Deductions
- Cost Allocations
- Allowances
- Salaries
- Pension

However, if the employee exists on payroll but the contract has not yet been processed, they can still amend the date i.e.

- The contract start date is in a future payroll period.

OR

- The contract start date is in the current payroll period but the payroll has not been processed as far as the 'Confirm Timesheets' step.

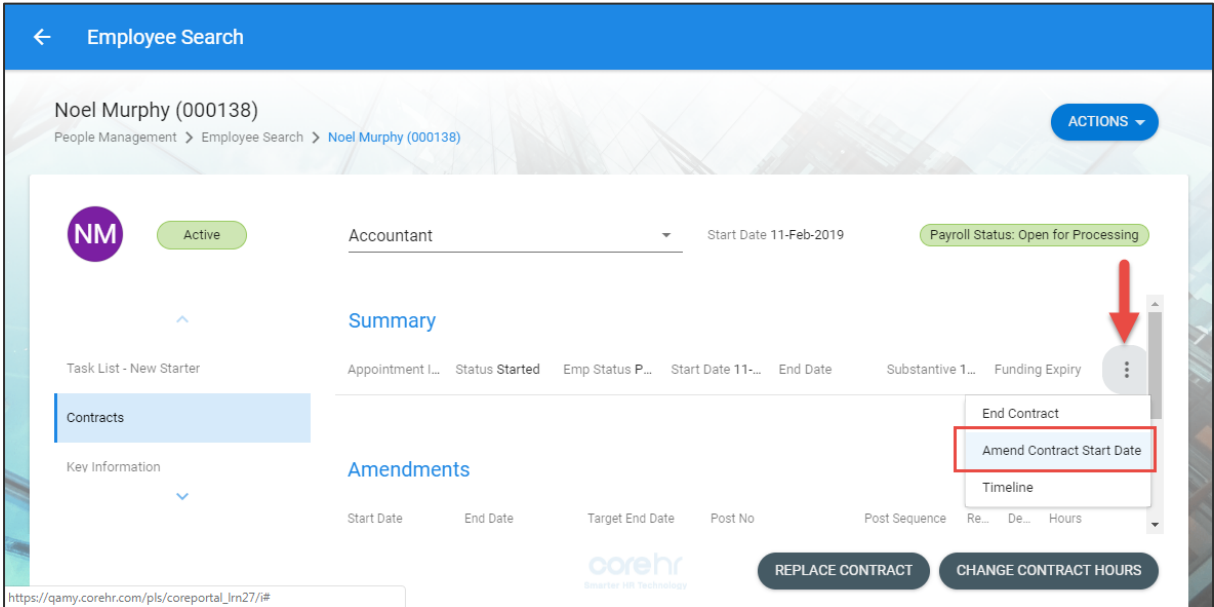

If the replacement appointment has been processed by payroll and the previous appointment has been ended, then the following updates occur:

1. Only HR attributes are updated, which are
 - a. New contract Start Date
 - b. Existing contract End Date
 - c. Appointment status
2. If the replacement contract start date is being set to a date in the past, then the new start date cannot be less than the latest sequence start date of the previous post.

3. How to Configure

3.1. User Access to Amend Contract Start Date

The following menu option is required to see the **Amend Contract Start Date** option on the *Contracts* screen i.e.

System	Menu Option
People Management	Amend Contract Start Date
