Document Control

Version	Date	Author	Details
1.0	19 th Dec 2019	Peter Travers	Published to Access LMS
1.1	9 th Feb 2023	Kat Murie	Added note about Assign Access guide. Reformatted.

1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide detailed guidance on how to configure the Files feature on PeopleXD.

This will include:

- Access to Files / Documents for:
 - Administrators
 - Employees
 - Managers
- Document Type configuration

2. Document Type

2.1. Where to Manage Document Types

Document Types are managed in the *Template Configuration Centre*. To access these:

1. Quick jump to *Data Centre* in *People Management*
2. Click **Open** on *Reference Data*.
3. Search for “Document Type” and click the relevant option.
4. The *Document Type* screen will open.

Maintain Document Types

Document Type	Description	Active	
1000	Salary	☒	...
1001	Employee Documents	☒	...
1002	Employee Contract Documents	☒	...
ACTDOC	Health And Safety	☒	...
APP	Appraisal Details	☒	...
APPDOC	Competition Applicant Document	☒	...

DIS	Disciplinary Details	☒	...
ESSG	General Documents	☒	...
GA_1	General Absence	☒	...
HS	Health & Safety Documents	☒	...
INSPDOC	Health And Safety Documents	☒	...
LTRDOC	Letter Documents	☒	...

CancelAddSave

2.2. Add a New Document Type

To add a new Document Type:

1. Click **Add** to add a new blank row on screen.
2. Update the required details:
 - **Document Type:** this is the reference data code and can be up to 13 alphanumeric characters.
 - **Description:** This will be the value that appears for the 'Document Type' throughout the system.
 - **Active:**
 - **Enabled:** The Document Type will be active for selection on all associated drop-down lists throughout the system i.e. when uploading a file.
 - **Disabled:** The Document Type will not appear on drop down lists throughout the system. Documents linked to that Document Type will no longer display on the File, Employee Profile, or Applicant Details screens.
3. Click **Save** to add the new document.
4. Click the  button and select **Options** to update the additional document options:

Field	Description
Document Type Indicator	Person: The document will be associated at a person level to the employee / applicant. Contract: the document will be associated with an employee's specific contract.
ESS	If this option is enabled, documents that are linked to this document type will be available to an employee to view via the Employee Profile screen. See 3.2 Employees. Add: If this option is enabled, the Document Type will appear in the <i>Document Type</i> drop down list displayed to the employee on the <i>Upload Document</i> screen. See 3.2 Employees.

MSS

If this option is enabled, documents that are linked to this document type will be available to a manager to view via the Employee Profile screen. See [3.3.2](#).

Add: If this option is enabled, the Document Type will appear in the *Document Type* drop down list displayed to the manager on the *Upload Document* screen, for employees in their team. See [3.3.2](#)

5. Click **OK**.

2.3. Edit a Document Type

To edit a *Document Type*:

1. Click into the *Description* and update.
2. Click **Save**

OR

Click the  button for the required Document Type.

3. Select **Options** to make further changes.

Maintain Document Types			
Document Type ↑	Description	Active	
1000	Salary	☒	...
1001	Employee Documents	☒	...
1002	Employee Contract Documents	☒	...

 Delete
 Duplicate

Document Type will be deleted

2.5. Access to Document Type Screen

The following menu option is required to access the 'Document Type' screen:

System	Menu Option
People Management	HR Reference Data

3. Managing Access to Files / Documents

3.1. Administrator

3.1.1. Full Access

Access to files on the *Files* screen can be configured so that a HR administrator will have access to all files uploaded for an employee / contract.

This implies that access does not need to be further restricted for an administrator, by Document Type.

The access is controlled by menu options:

System	Menu Option	Description
People Management	File Administrator	Makes the <i>Files</i> option available on the Employee Record. Using this option indicates that the user's access will be for all Document Types i.e. no further restriction is required.
People Management	File Upload	Makes the Add button available on the Files screen.

3.1.2. Access by Document Type

Access to files on the *Files* screen can be configured so that a HR administrator's access will be restricted based on Document Types. This means that the user will need to be granted access specifically to view and upload files for each Document Type as required.

To do this, the following menu options are required:

System	Menu Option	Description
People Management	File View	Makes the <i>Files</i> option available on the Employee Record. Using this option indicates that the requires an additional level of access per Document Type.
People Management	File Upload	Makes the Add button available on the Files screen.

XD People Management: Employee Files Configuration

Access can be configured in the *Assign Access* screen on the user's employee record. For more information, see the **Assign Access** user guide. Alternatively, follow the instructions below:

1. Quick Jump to *Data Centre* in *People Management* and click **Open** at *People Management*.
2. Search for *HR User Access* and select the corresponding option.
3. On the HR User Access screen, search for the user and select the *Security Type* of "Document Access".
4. Click **Show Access** to display all Document Types on screen.

The screenshot shows the 'Assign Access' screen. At the top, there are input fields for 'Accounts' (with a radio button for 'Portal' selected), 'Username' (000017), 'Security Type' (Document Access), 'Back Office' (radio button), 'Structure Code', 'Access Level' (Document Type), and a 'Document Type' dropdown. Below these fields are four buttons: 'Delete User Access', 'Copy User Access', 'Clear', and 'Show Access' (highlighted with a red box and a red arrow). Below the buttons is a table with columns: Reference Code, Description, Active, View, Add, Delete, and Edit. The table lists several document types, with rows 1001 and 1002 highlighted by a red box. Row 1001 is 'Employee Documents' and row 1002 is 'Employee Contract Documents'. Both have their 'View' and 'Add' indicators turned on (green).

Reference Code	Description	Active	View	Add	Delete	Edit
1000	Salary	☒	☐	☐	☐	☐
1001	Employee Documents	☒	☒	☒	☐	☐
1002	Employee Contract Documents	☒	☒	☒	☐	☐
ACTDOC	Health And Safety	☒	☐	☐	☐	☐
APP	Appraisal Details	☒	☐	☐	☐	☐
APPDOC	Competition Applicant Document	☒	☐	☐	☐	☐
CON	Contract Details	☒	☐	☐	☐	☐
DIS	Disciplinary Details	☒	☐	☐	☐	☐

5. For the required Document Types, update the following indicators:

- **View:** User will see Files of this type
- **Add:** User will see this type on the Document Type drop-down list when adding a new file.

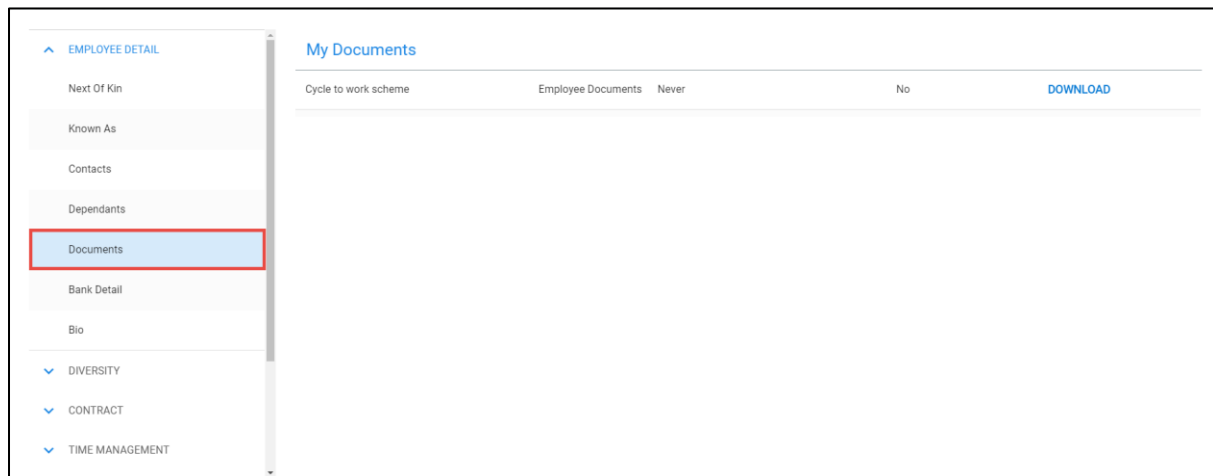

Note Delete and Edit are not relevant. If the user can view a document, they can also edit or delete.

6. Click **Save**.

In the example in the screenshot, the user will be able to see *Employee Documents* and see & upload *Employee Contract Documents*.

3.2. Employees

Employees access documents that have been shared with them via the Employee Profile screen:

Access to files for an employee is based on a Document Type. To manage this:

1. View the Document Type settings (see [2. Document Type](#))
2. Update the indicators highlighted below as required:
 - **ESS** i.e. The employee will be able to view files for this Document Type. The cannot add or edit files.
 - **ESS > ADD** i.e. The employee will be able to upload files for this Document Types.
3. Click **OK**.

The user will also require the following menu options to view / upload files via the Employee Profile screen:

System	Menu Option	Description
CorePortal	Coreportal - Employee Documents	Makes the <i>Documents</i> option available on the employee profile. Any Document Types flagged to share with employees will be available to view.
CorePortal	Coreportal - Employee Document Upload	Makes the Upload button available on the Document screen. Any Document Types flagged to share with employees will be available to select for upload.

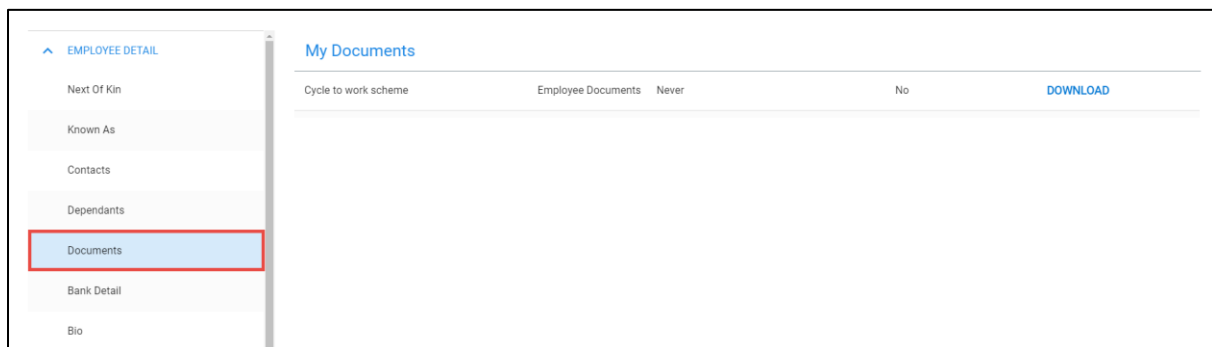

3.3. Managers

3.3.1. Files Option

If the *HR Employee Profile* has been shared with the manager, they will be able to manage employee files as per the options provided under [3.1 Administrator](#).

3.3.2. Employee Profile option

Employees access documents that have been shared with them via the Employee Profile screen:

Access to files for an employee is based on a Document Type. To manage this:

1. View the Document Type settings (see [2. Document Type](#))
2. Update the indicators highlighted below as required:
 - **MSS** i.e. The employee will be able to view files for this Document Type. The cannot add or edit files.
 - **MSS > ADD** i.e. The employee will be able to upload files for this Document Types.
3. Click **OK**.

The user will also require the following menu options to view / upload files via the Employee Profile screen:

System	Menu Option	Description
CorePortal	Coreportal - Manager Document View	Makes the <i>Documents</i> option available on the employee profile. Any Document Types flagged to share with employees will be available to view.
CorePortal	Coreportal - Manager Document Upload	Makes the Upload button available on the Document screen. Any Document Types flagged to share with employees will be available to select for upload.
