# 1. Overview

## 1.1. Purpose of the Guide

The purpose of this guide is to provide detailed guidance on how to maintain the Organisational Hierarchy on PeopleXD.

This includes:

- Editing an existing hierarchy.
- Adding a business unit to a hierarchy.
- Deleting a business unit.

## 2. How to Use

### 2.1. Accessing the Structure Setup Screen

The Structure Setup screen can be accessed in two ways within Portal:

1. Post Management widget
  - a) Go to the People Management dashboard
  - b) Navigate to the Post Management widget
  - c) Click **Open** on Structure Setup
2. Data Centre
  1. Go to the People Management dashboard
  2. Navigate to the Data Centre widget
  3. Click **View All**
  4. Click **Structure Setup**

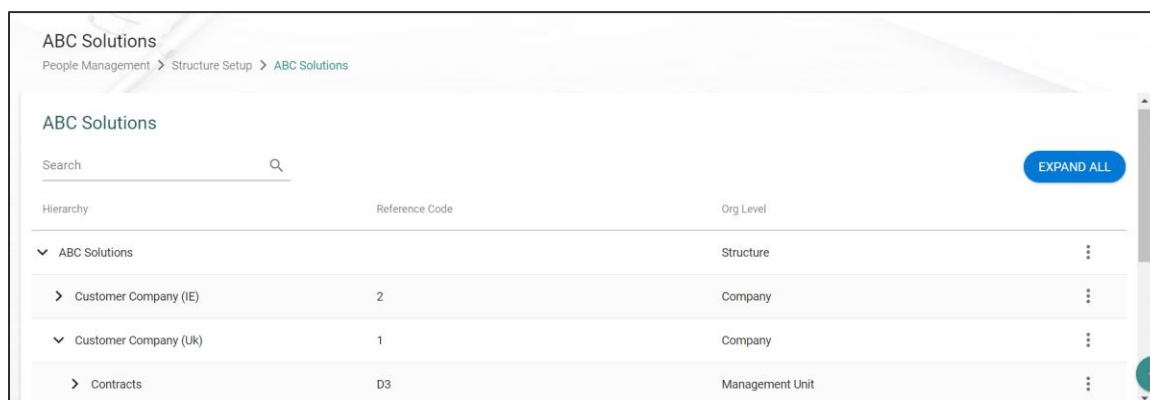

All existing Organisational Structures are listed on screen. For a new implementation, there will always be at least 1 record here i.e. the default Organisational Structure. To maintain a structure's hierarchy, click **Hierarchy** on the relevant row.

| Structure Setup                     |                |                |                  |                       |
|-------------------------------------|----------------|----------------|------------------|-----------------------|
| People Management > Structure Setup |                |                |                  |                       |
| Structures                          |                |                |                  |                       |
| Search Structure                    |                |                |                  |                       |
| Name                                | Date Effective | Date Activated | Date Deactivated |                       |
| ABC Solutions                       | 09-Aug-2008    | 17-Sep-2012    |                  | <b>HIERARCHY</b> VIEW |

### 2.2. Maintaining an Organisational Hierarchy

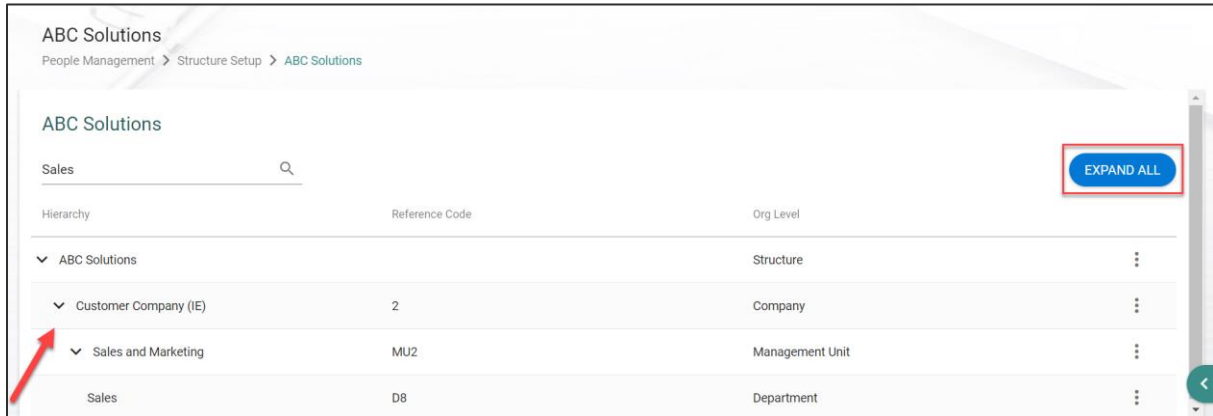

This screen allows you to maintain the Organisational Hierarchy:

| ABC Solutions                                       |                |                 |
|-----------------------------------------------------|----------------|-----------------|
| People Management > Structure Setup > ABC Solutions |                |                 |
| ABC Solutions                                       |                |                 |
| Search                                              |                |                 |
| Hierarchy                                           | Reference Code | Org Level       |
| ▼ ABC Solutions                                     |                | Structure       |
| ▶ Customer Company (IE)                             | 2              | Company         |
| ▼ Customer Company (UK)                             | 1              | Company         |
| ▶ Contracts                                         | D3             | Management Unit |

### 2.2.1. Expanding/Collapsing Business Units

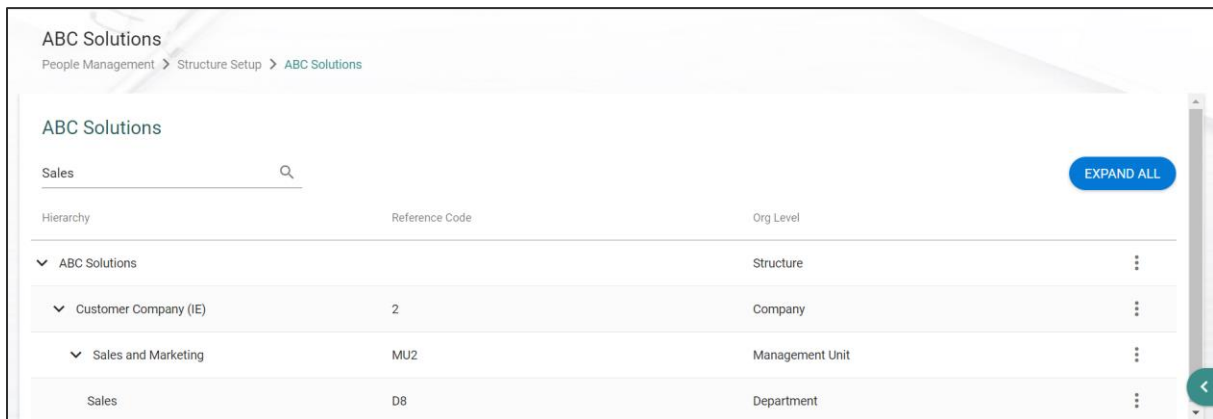

Click the arrows next to a business unit to expand/collapse the hierarchy. To expand/collapse all hierarchy branches, click **Expand All/Collapse All**.

### 2.2.2. Searching Business Units

The Search function can be used to find a specific business unit within the Hierarchy, using either the name or code. The hierarchy will automatically expand and filter out other hierarchies, in order to show the full hierarchy path/s where the business unit has been found.

The example below shows the path when searching for the Sales department:

### 2.3. Adding a Business Unit

To add a new business unit to a specified hierarchy, follow the steps below:

1. Click the three dot menu on the hierarchy you would like to add a business unit to
2. Click **Add**
3. Search for the business unit(s) you would like to add. The list will display any business units that correspond with the next level down to the Hierarchy selected.

For example, if the Sales Department is selected, the list will display sub departments:

| Description | Code | Active | Linked | Add to Hier...                      |
|-------------|------|--------|--------|-------------------------------------|
| Contracts   | D3   | Active | Linked | <input checked="" type="checkbox"/> |
| Finance     | D5   | Active | Linked | <input checked="" type="checkbox"/> |
| HR          | D2   | Active | Linked | <input checked="" type="checkbox"/> |

The name of the hierarchy path that these business units will be added to is displayed above the search box.

4. Enable the Add to the Hierarchy toggle for all business units you want to add
5. Click **Save**

It's possible to add business units that have already been added to the hierarchy at the same level. For example, a department may already have been added to a different management unit hierarchy. When searching for a business unit, select **Include Linked Items** from the filter to display any business units that have already been added to the hierarchy at the same level.

Sales

People Management > Structure Setup > ABC Solutions > Sales

### Add Sub Department

ABC Solutions - Customer Company (IE) - Sales and Marketing - Sales

Search

| Description | Code | Active                                | Linked                                | Add to Hier...           |
|-------------|------|---------------------------------------|---------------------------------------|--------------------------|
| Contracts   | D3   | <input type="button" value="Active"/> | <input type="button" value="Linked"/> | <input type="checkbox"/> |
| Finance     | D5   | <input type="button" value="Active"/> | <input type="button" value="Linked"/> | <input type="checkbox"/> |
| HR          | D2   | <input type="button" value="Active"/> | <input type="button" value="Linked"/> | <input type="checkbox"/> |

access PeopleXD

**Note:** The Active status indicates whether the reference items are active or inactive, and does not relate to it being active/inactive within the selected hierarchy.

Not all reference data supports the Active/Inactive status, this column may not be visible when adding some business units.

### 2.4. Deleting a Business Unit

To delete a business unit from a hierarchy, follow the below steps:

1. Click the three dot menu on the business unit
2. Click **Delete**
3. Click **Yes** to confirm your changes

**Note:** It is only possible to delete a business unit if no post/appointments (active or dormant) exist within that hierarchy. When deleting a business unit, all hierarchy levels below are also deleted.

### 3. How to Configure

#### 3.1. Menu Options

To access the Structure Setup screen and maintain the hierarchy, the following menu options are required:

| System            | Menu Option                    |
|-------------------|--------------------------------|
| People Management | Structure Setup                |
| CorePortal        | Show Org Hierarchy             |
| Web Services      | Delete hierarchy businessunits |
| Web Services      | Get hierarchy businessunits    |
| Web Services      | Get hierarchy items            |
| Web Services      | Get hierarchy levels           |
| Web Services      | Update hierarchy businessunits |
