Version	Date	Author	Details
1.0	16 th Dec 2019	Peter Travers	Published to Access LMS
1.1	9 th Feb 2023	Kat Murie	Added section 3.1, reformatted.

1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how Organisational Roles are configured on PeopleXD.

This document will provide guidance on how to:

- Create & edit organisational role types.
- Assign organisational roles to employees.

This will also provide an overview of:

- areas of the system where organisational roles are used to support the completion of tasks.
- advanced organisational role options (covered in separate user guides).

1.2. What are Organisation Roles?

Organisational roles (org roles) are used to identify employees that have certain managerial or approval responsibilities for specific tasks in the organisation.

By default, the following roles are available on PeopleXD:

- HR Salary Approver (used for *Salary Approvals*)
- Payroll Salary Approver (used for *Salary Approvals*)
- Reports To (typically used for *Manager Dashboard* access)

However, this is a highly configurable element of the system. Further org roles can be defined so that employees can be engaged on the system to:

- Receive alerts and notifications.
- Complete approvals.
- Receive and update tasks.

An employee can have multiple org roles assigned to their employee record, to allow them to engage in a variety of tasks on PeopleXD.

1.3. Feature Specific Org Roles

There are a variety of features in PeopleXD that use notifications, tasks and approvals and many of these do so using Organisational Roles e.g.

- Send a new starter notification to the *IT Manager*
- Approve an expense item etc.

Where organisational roles are used to support these specific scenarios, these are covered in the relevant user guides.

Org roles are also used to control the employee records that a manager will see on PeopleXD e.g. in *My Team* on the *Manager Dashboard*.

1.4. Advanced Options

There are additional advanced options that can be set to assist with managing org roles for employees including:

- Delegation
- Manager Rollup +1
- Menu Profile Matrix

2. Configuring Org Role Types

2.1. Access to Organisational Role Type configuration

To access the Organisation Role Type configuration, on the People Management dashboard:

1. Select the *Data Centre* tab on the *People Management* dashboard.
2. Click **Reference Data**.
3. Search for *Organisational Role Types* and click on the corresponding option.
4. The *Maintain Organisational Role Types* screen will appear.

Organisational Role Types
People Management > Reference Data > Organisational Role Types

2.2. 'Maintain Organisational Role Type' Screen Overview

This screen is used to create the organisational roles, that will be assigned to an employee.

See the table below for an explanation of the elements available to be defined for each Org Role:

1	2	3	4	5	6	7	8	9	10

#	Item	Description
1	Role Type	This is the reference data code for the Org Role. Max 6 characters alphanumeric.
2	Description	This is the actual Org Role name. Max 40 characters alphanumeric.
3	Salary Approval Process	This is only relevant to the Salary Approval Process. Please refer to the Configuring Salary Approvals user guide for details.
4	Approval Group	This is only relevant to the Salary Approval Process. Please refer to the Configuring Salary Approvals user guide for details.
5	Approval Sequence	This is only relevant to the Salary Approval Process. Please refer to the Configuring Salary Approvals user guide for details.
6	Active	Makes the role active for selection to link to an employee.
7	ESS Approver	Not applicable to People Management.
8	Questionnaire Access	Not applicable to People Management.

#	Item	Description
9	Delegate	This is used as part of the Delegation feature. Please refer to the Org Role Delegation user guide for details.
10	Manager Rollup	This is used as part of the Manager Rollup +1 feature. Please refer to the Manager Rollup +1 user guide for details.

2.3. Create a New Org Role

To create a new Org Role:

1. Go to the *Maintain Organisational Role Types* screen.
2. Click **Add** to make a new blank row available.
3. Enter the following details (at a minimum).
 - **Role Type:** Max of 6 alphanumeric characters.
 - **Description:** Max of 40 alphanumeric characters.
 - **Active:** Should be enabled to ensure Org Role is available to link to employees.
4. Update other indicators as required.

Maintain Organisational Role Types

Cancel Add Save

5. Click **Save**.

2.4. Edit an Existing Org Role

To edit an existing Org Role:

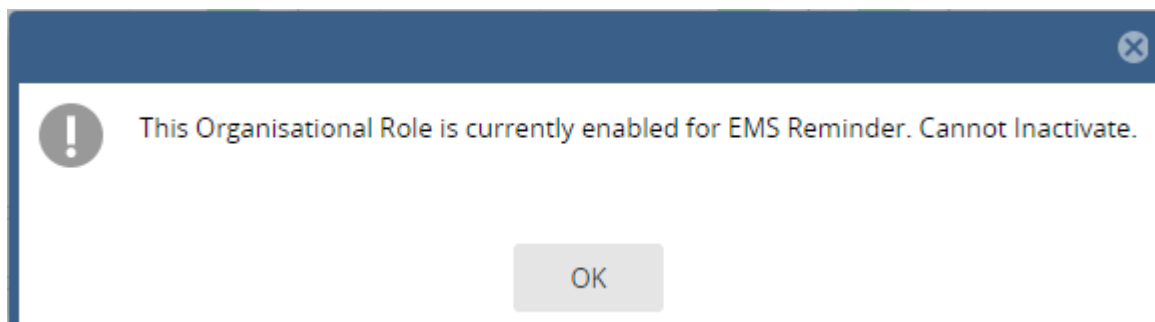

1. Go to the *Maintain Organisational Role Types* screen.
2. Update the details as required.
3. Click **Save**.

 **Note:** Care should be taken when editing existing organisation roles, as this will have an immediate impact to any employees that are currently assigned to those roles.

2.5. Deactivate an Org Role

Org Roles cannot be deleted. If required, edit the org role (see [2.4 Edit an Existing Org Role](#)) and disable the **Active** indicator, to ensure the role is not available for selection throughout PeopleXD.

 **Note:** If the org role is currently in use to support a feature or process on PeopleXD, there is validation to prevent this from being disabled. A popup message will appear to inform the user if they disable the **Active** indicator.

3. Assigning Org Roles to Employees

Organisational roles need to be linked to the employee record of the user that will be fulfilling the role on PeopleXD.

For example, for an employee to receive notifications as the *Head of Department* for the *Technology* department, their PeopleXD employee record needs to be flagged with the corresponding org role for that organisational unit.

3.1. Assign Access screen

The Assign Access screen allows you to manage a user's security privileges centrally from the employee record, including assigning org roles. For more information, see the **Assign Access** guide.

3.2. Maintain Organisational Roles

This screen allows for the user to search for the organisational unit and then identify the employee who will be assigned a role for that unit.

To assign a role to an employee via the *Maintain Org Roles* screen:

1. Quick jump to the *Data Centre* widget.
2. Click **Open** for *People Management*.
3. Search for *Maintain Organisation Roles* and click on the corresponding option under *Employee Administration*.

The *Maintain Organisation Roles* screen opens.

4. Select the required Org Structure from the *Structure* drop down list.
This will be defaulted if there is only 1 structure set up on PeopleXD.
5. Select the *Organisational Group* that the role will be defined against.
E.g. *Department* for the Head of Department; *Pay Group* for *Payroll Salary Approver*; *Work Group* for *Reports to Manager* etc.
6. The *Group Item* list will update to display all the items that are currently defined on the system, for the selected group.

Use the *Search Group Item* field and **Find** button to do a keyword search based on the Group Item & Description

7. Select the required level from the *Group Item* list
Any employees that already have an org role for that group will be listed on screen.
8. To assign an Org Role for the selected level:
 - a. Click the **Add** button and the end of the screen to create a new row.
 - b. Select the Org Role from the *Role* drop down list.
 - c. Enter a *Date From*.
 - Format DD-MON-YYYY.
 - This is the date the employee will be recognised on PeopleXD as having that role.
 - d. Enter a *Date To*.
 - Format DD-MON-YYYY.
 - This is optional.
 - Identifies the date that the employee ceased in that role.
 - e. Enter *Personnel Number*.
 - f. Directly input the personnel number if known
OR
 - g. Select from the drop-down list.

- h. The employee's *Forename* and *Surname* will automatically populate on selection.

☒ Person Notification ☐ Email Notification

Role	Date From	Date To	Personnel Number	Forename	Surname	Interfaced
Head Of Department	12-Dec-2017		000017	Paul	Martin	☐
Level 2 Approver	21-Mar-2016		000017	Paul	Martin	☐

- i. Click **Save**.

That employee is now identified as having the org role for the selected element of the organisation. They will now be able to engage in any system processes that use that org role on PeopleXD.

3.3. Maintain Organisational Roles by Person

This screen allows for the user to search for an employee first and then assign an org role to them for a specified element of the organisation.

Note: This provides the same outcome as [3.2 Maintain Org Roles](#).

To assign a role to an employee via the *Maintain Org Roles* screen:

1. Quick jump the *Data Centre* widget on the *People Management* dashboard.
2. Click **Open** for *People Management*.
3. Search for *Maintain Organisation Roles by Person* and click on the corresponding option under *Employee Administration*.
4. Use the search option at the top of the screen to do a keyword search on employee name: Enter the employee name and click **Find**.

The active employees matching the search criteria entered display on the *Personnel No* list at the left of the screen.

5. Click on the employee that the Org Roles should be assigned to.

Personnel No.	Name
000060	Claire Smith
000061	Claire Smith
000020	Claire Jackson
000045	Claire Atkinson

6. In the *Personnel No* field either:
 - enter the employee's personnel number, if known **OR**
 - select the employee from the drop-down list.

Note: Use the  button to filter the results returned by Active, Dormant or All.

7. Any org roles already assigned to the selected employee will be listed in the centre of the screen:

Organisational Roles By Person Maintenance

Personnel No.

Search

Personnel No.	Name
000108	Paul Keane
000017	Paul Martin

Structure

Role	Org Group	Date From	Date To	Org Group Item Code	Org Group Item Description
Head Of Department	Department	12-Dec-2017		HR5	Hr Admin
Level 2 Approver	Department	21-Mar-2016		HR2	Compensation & Benefits
Level 2 Approver	Department	21-Mar-2016		HR3	Training
Level 2 Approver	Department	21-Mar-2016		HR4	Payroll
Level 2 Approver	Department	21-Mar-2016		HR1	Recruitment

To assign an org role to the selected employee:

- Select the required Org Structure from the *Structure* drop down list.
This will be defaulted if there is only 1 structure set up on PeopleXD.
- Click the **Add** button to create a new row.
- Select the org role from the *Role* drop down list.
- Select the *Org Group* that the role will be defined against.
E.g. *Department* for the *Head of Department*; *Pay Group* for *Payroll Salary Approver*; *Work Group* for *Reports to Manager* etc.
- Enter a *Date From*.
 - Format DD-MON-YYYY.
 - This is the date the employee will be recognised on PeopleXD as having that role.
- Enter a *Date To*.
 - Format DD-MON-YYYY.
 - This is optional.
 - Identifies the date that the employee ceased in that role.
- Select the *Org Group Item*

This list is directly related to the 'Org Group' already selected e.g. a list of departments If the 'Org Group' is set to "Department".

Directly input the reference data code for the group item if known **OR** select from the drop-down list

h. Click **Save**.

That employee is now identified as having the Org Role for the selected element of the organisation. They will now be able to engage in any system processes that use that Org Role on PeopleXD.

4. Interfaced Org Roles

If an organisational role assignment has been interfaced into PeopleXD, the employee's details will be available to view on the following screens.

The **Interfaced** indicator will identify interfaced roles. This can only be updated by the interface process. It cannot be amended by the user.

- *Maintain Organisational Roles by Person* screen

See [3.3 Maintain Organisational Roles by Person](#) for guidance on how to lookup the employee.

Use the horizontal scroll bar at the end of the screen to access the **Interfaced** indicator.
