1. Overview

1.1. Purpose of the Guide

This guide is used to explain how to use the Payroll Instruction Forms via People Management. In order to capture and automatically share pay-affecting information with Payroll, as part of the joiner/mover/leaver processes e.g. holidays to be paid to a leaver, student loans for a new hire etc.

Within this User Guide you will learn how to:

- Create a custom form.
- Add a new HR task list item of Payroll Instructional Form.
- Assign a specific Org Role to this task.
- View & action the task on Pay Portal.

1.2. What is a Payroll Instructional Form?

A Payroll Instructional Form is a method of communication that is sent to Payroll directly from HR in terms of details that are going to affect the employee's payroll record once processed. Examples of these items include:

1. Balance adjustments needed for holidays owed to an employee.
2. Outstanding student loan payments.
3. PAYE / Tax Code changes.
4. Holiday/Average Pay calculations.
5. Hours (i.e. Overtime).
6. Adhoc Payments (i.e. Bonuses & once off payments).
7. Pension changes.
8. Pay Awards inc Position and Point updates/increases via AdHoc module (maybe this is covered in the Salary approvals piece)
9. Late Leavers / Joiners / Rejoiners
10. Temp Reinstatements
11. Any cancel/manual payments to be processed
12. Cost Allocation changes

1.3. Steps involved to carry out Payroll Instructional Form process.

The following steps are involved to ensure communication stays open and flows correctly from the HR Task List to the Payroll team processing the employees payroll record.

Step	Name
1	Create Custom Form
2	Adding Form to HR Task List
3	Restrict Form Access
4	Nominating Task Owner
5	Confirm Payroll Dashboard Tasks

Multiple forms can be created which can then be embedded as a HRA Task List item specific to business lines, employee grouping or leaving reason.

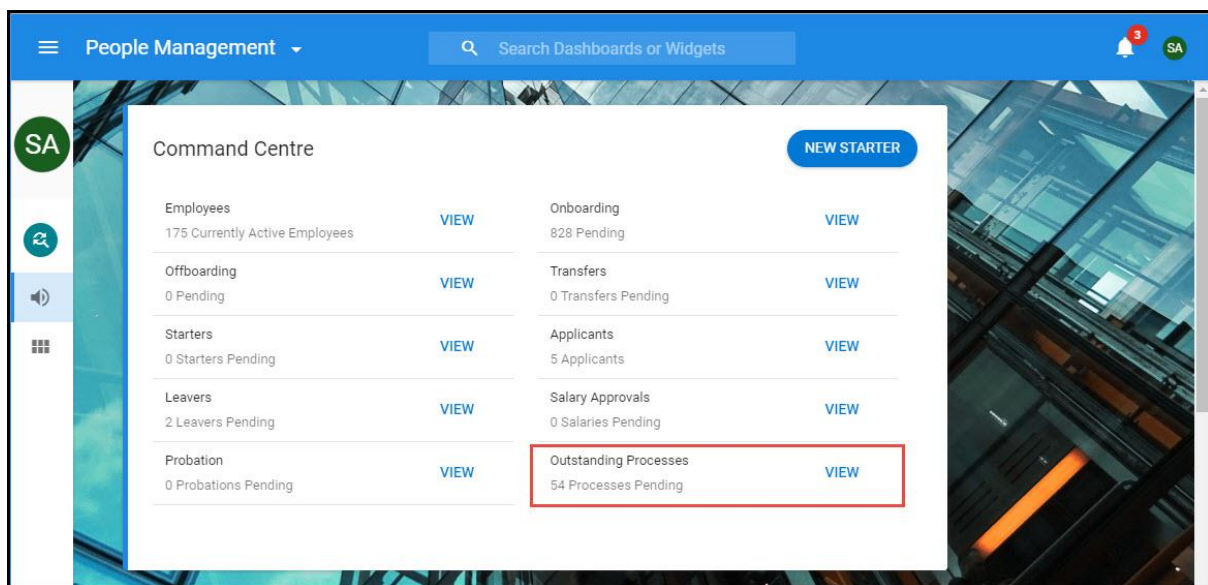

2. How to Use Payroll Instructional Forms

Once the Payroll Instructional Form custom form has been created (See section [Create Custom Form](#)) and added to the HR Task List (See section [Adding Form to HR Task List](#)), it can be viewed within the employee record on People Management.

2.1. Completing the HR Task List item

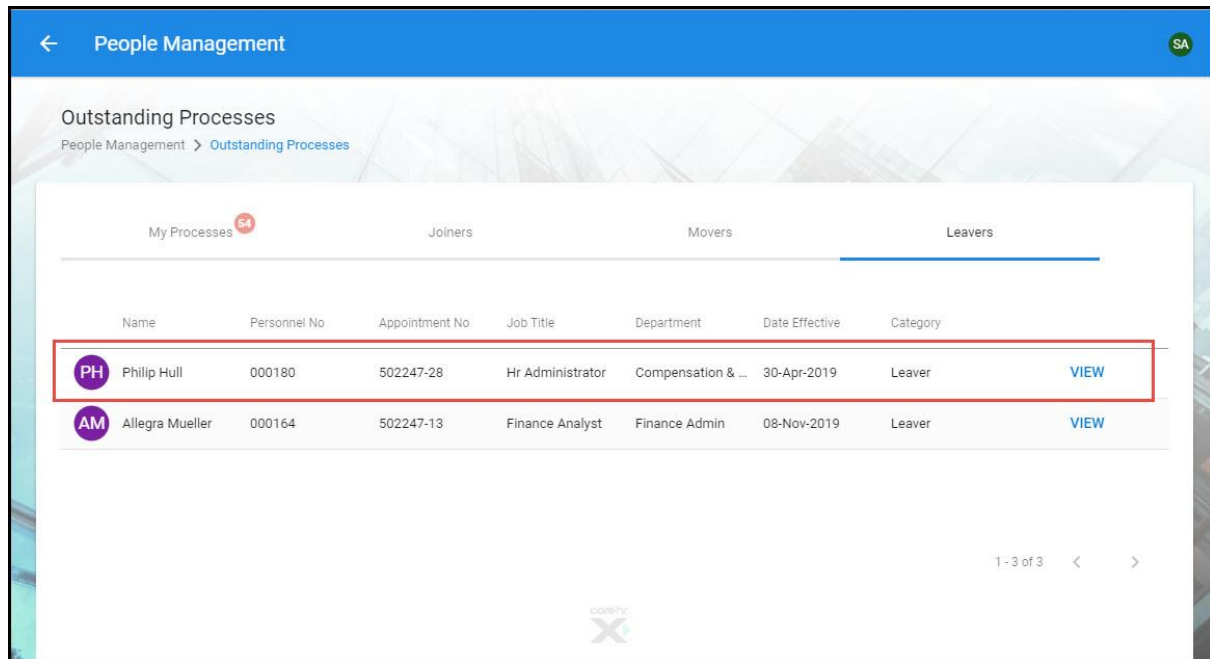

Below is how you access the Payroll Instructional Form on the HR Task List for a Leaver.

1. Quick Jump to the *People Management Dashboard* and select the *Command Centre* widget.
2. Click on the **View** button which corresponds to the *Outstanding Processes* option.

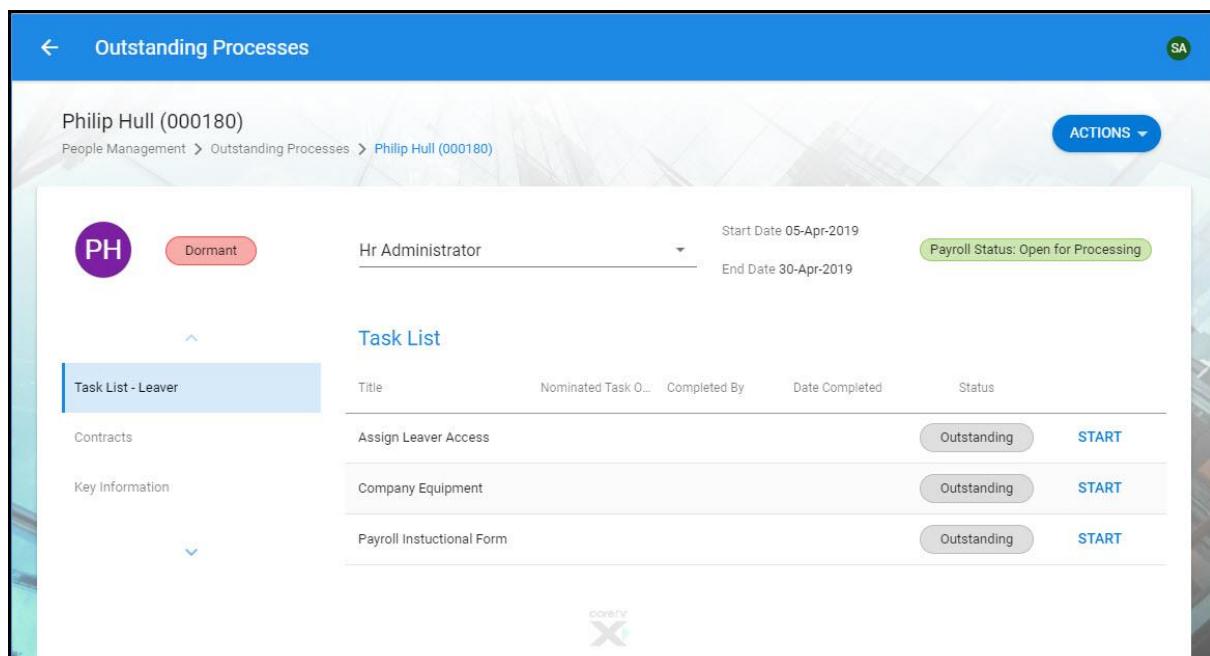

XD People Management: Payroll Instructional Forms - User Guide

3. Select the Leavers tab and choose the employee in question to view their current outstanding task list.

4. Click the **Start** button alongside the *Payroll Instructional Form* option to view the outstanding task:

5. Enter in the correct information that needs to be communicated from you to your Payroll team on the *Payroll Instructional Form* screen.

**Note:**

- The Payroll Instructional Form is also visible on the Employee Dashboard on the People Management Dashboard, instead of viewing all Outstanding Processes for all employees that you have access to.
- For further information of how to manage and complete HR Task Lists, see the *"People Management: Configuring HR Process Task Lists - User Guide"*.

2.2. Pay Portal

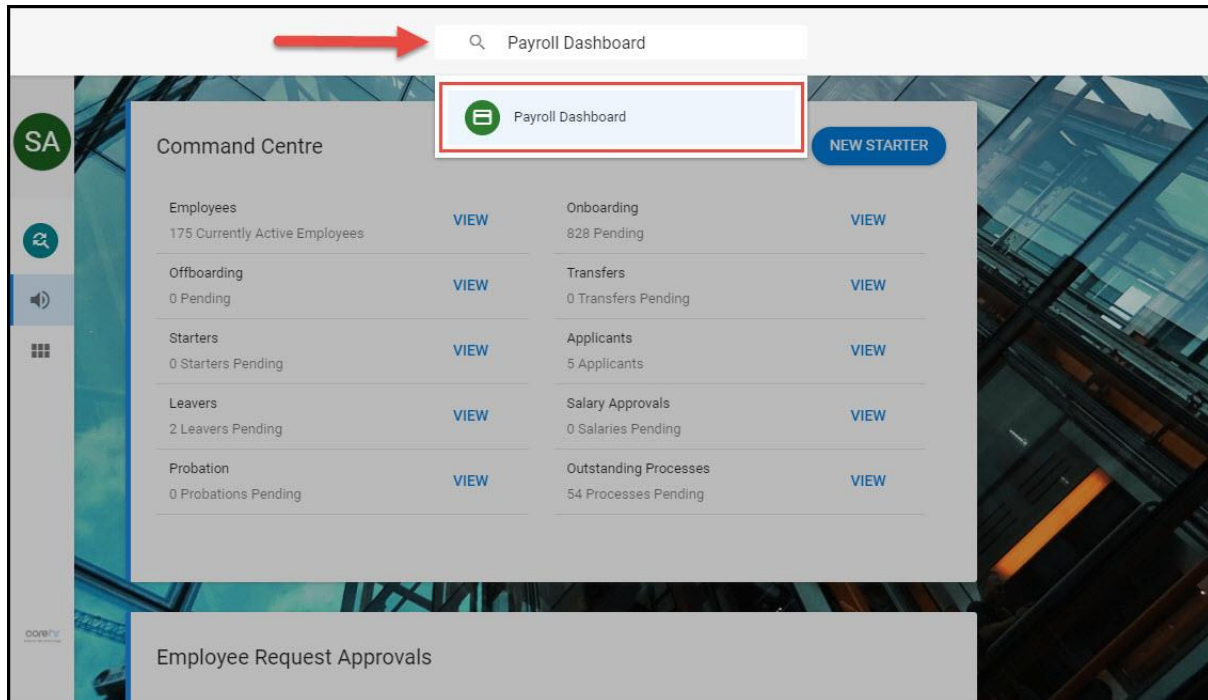

Once the Payroll Instructional Form has been completed via the HR Task List, it is also made available within Pay Portal for Payroll Administrators to view and confirm payments are correct.

- Joiners or Leavers within the current pay period are flagged to the Payroll Administrator with the addition of the Payroll Instructional Form if one has been sent through by HR.
- When the Payroll Instructional Form is viewed within Pay Portal, the Payroll Administrator can access the Time Sheet Adjustment screen to make any applicable adjustment.

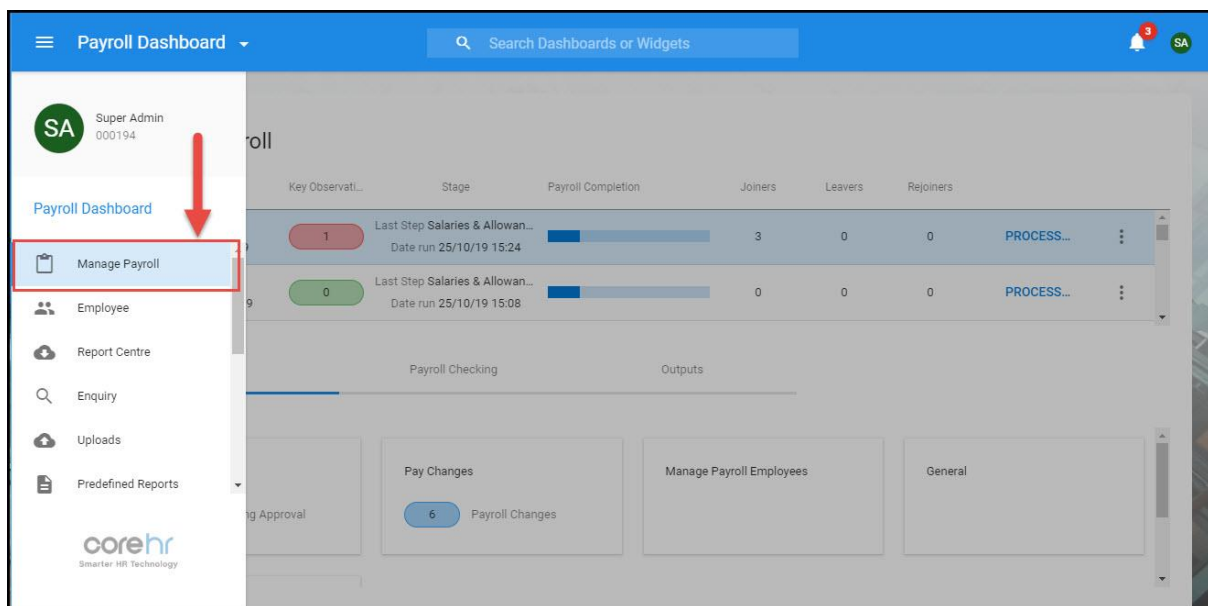

2.2.1. Accessing the Pay Portal

To view the payroll information that is affected by the Payroll Instructional Form coming from an employee's HR Task List:

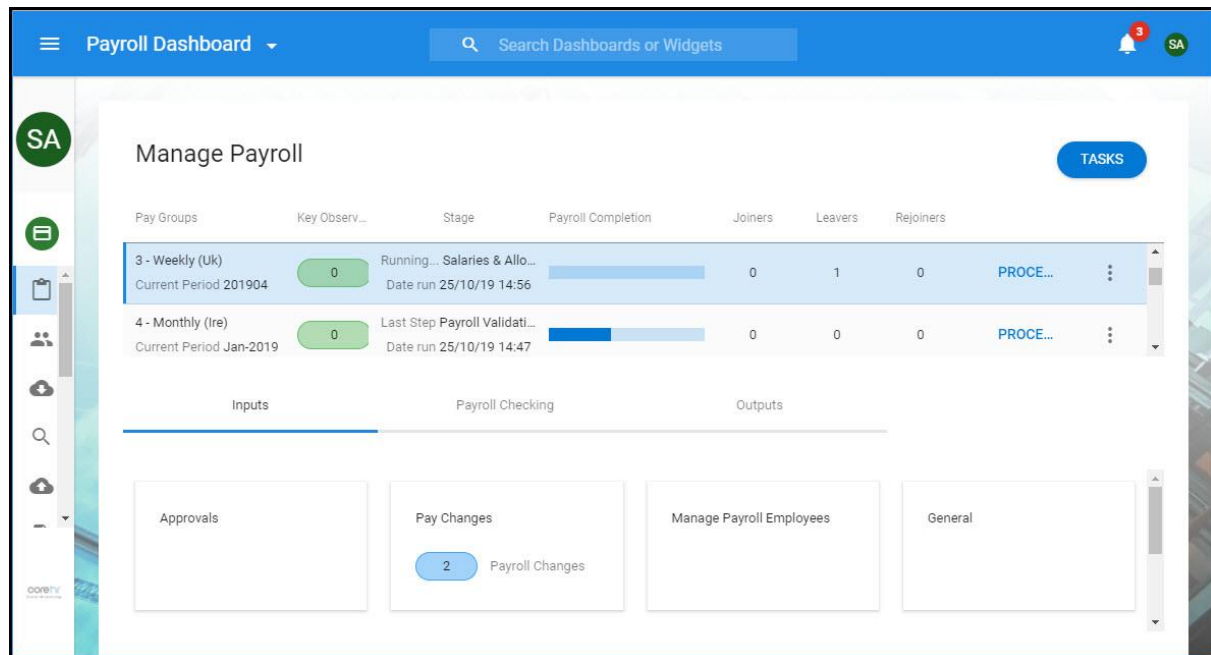

1. Quick Jump to the *Payroll Dashboard*.

2. Select the *Manage Payroll* tab.

3. The *Manage Payroll* screen appears. Within this screen, select the Pay Group that Payroll needs to be processed for. For Example, in the below screenshot, *Pay Group 3 - Weekly (UK)* has been chosen.

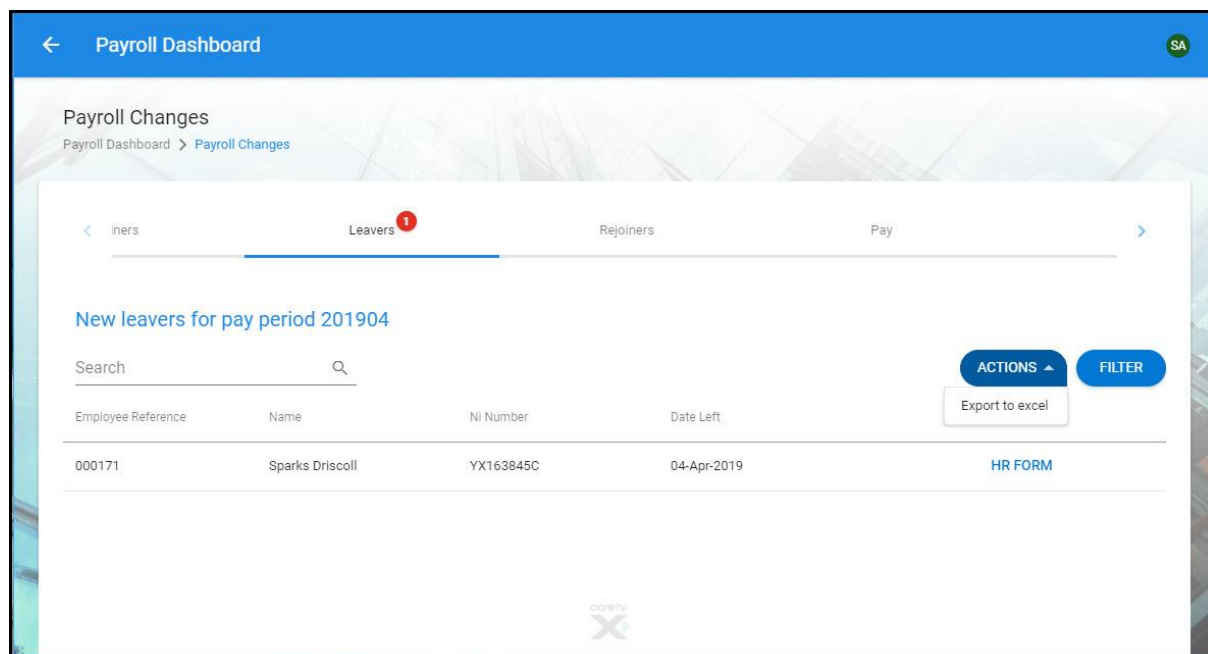

Note: To view the Payroll Instructional Form information for the Employees in question, you have to ensure that the correct Pay Group is chosen for the information to appear.

4. Once you have selected the Pay Group in question, click on the **Pay Changes** button under the *Inputs* section of the screen. This shows the number of changes awaiting completion.
5. The Payroll Changes screen is broken into the following sections:

Section	Description
Joiners	This section shows all new hires to the company, within a pay group, that has a Payroll Instructional Form completed via HR Task Lists
Leavers	This section shows all leavers who have left or due to leave the company, within a pay group. The Payroll Instructional Form needs to be completed as a HR Task List for employee to show here.
Rejoiners	This section shows all employees who have left the company but have been re-hired since. The Payroll Instructional Form needs to be completed as a HR Task List for employee to show here.

6. Each section will include a “counter”, which can be seen at a glance on how many actions are required for each type of employee.
7. Select the section in question to be actioned on, and a list of employees will be populated on screen, matching the “counter” number. Within this screen, there are a number of actions available to you to carry out:
 - a. **Export to excel.** This option will allow you to download an excel file with the details of each section shown on screen
 - b. **Filter.** This allows you to filter on an employee status of Active, Dormant or both.
 - c. **HR Form.** This is the main feature of this screen, which shows the data inputted on the Payroll Instructional Form via a HR Task List.

The screenshot displays the 'Payroll Dashboard' interface. At the top, there's a blue header with a back arrow and the text 'Payroll Dashboard'. Below this, the 'Payroll Changes' section is active, showing a breadcrumb trail 'Payroll Dashboard > Payroll Changes'. A horizontal navigation bar contains four tabs: 'Leavers' (with a red counter '1'), 'Rejoiners', 'Pay', and 'Iners'. The 'Leavers' tab is selected, showing the title 'New leavers for pay period 201904'. Below the title is a search bar. To the right of the search bar are two buttons: 'ACTIONS' (with a dropdown arrow) and 'FILTER'. The 'ACTIONS' dropdown menu is open, showing the option 'Export to excel'. Below these elements is a table with the following columns: 'Employee Reference', 'Name', 'NI Number', and 'Date Left'. The table contains one row of data: '000171', 'Sparks Driscoll', 'YX163845C', and '04-Apr-2019'. To the right of the table, there is a blue button labeled 'HR FORM'. At the bottom center of the screen, there is a small 'cority' logo.

Employee Reference	Name	NI Number	Date Left
000171	Sparks Driscoll	YX163845C	04-Apr-2019

2.2.2. Accessing the HR Form

To view the details on the Payroll Instructional Form that have been communicated from HR to Payroll, click on the **HR Form** button.

Yes - check AL Balance	400	€400 + Holiday Pay

ACTIONS

- 1 Leaver Details
- 2 Input Timesheet
- 3 MARK AS COMPLETE

There are 3 tasks that can be carried out via this screen:

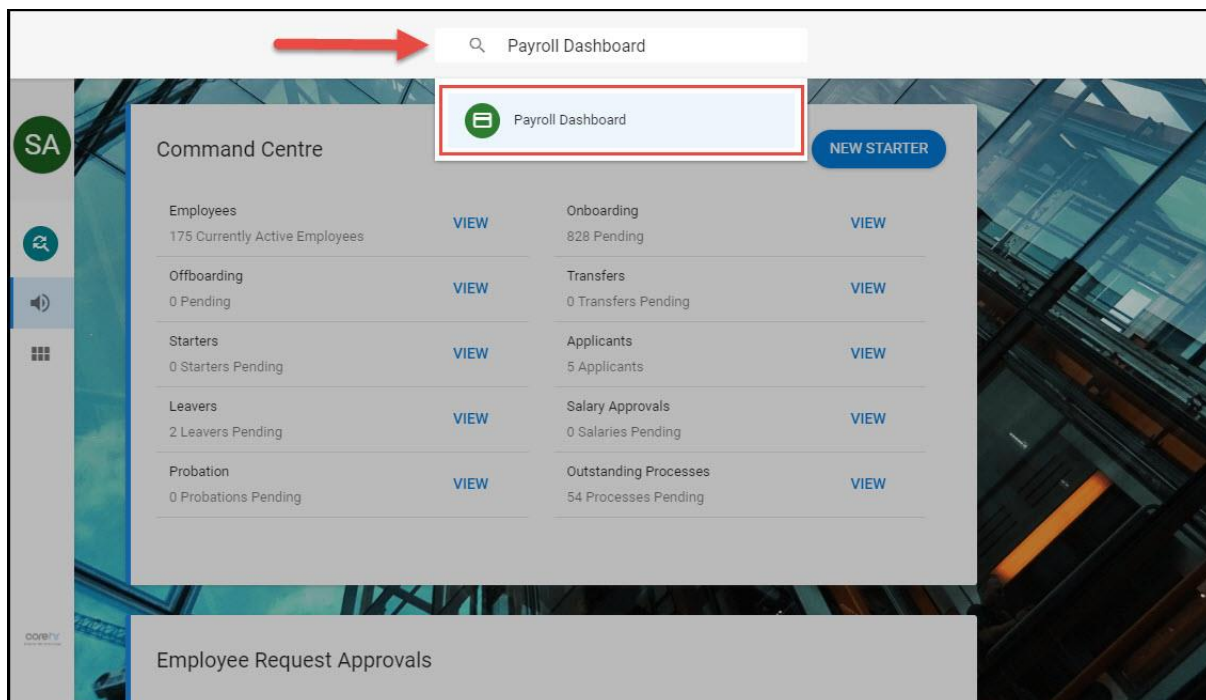

Task	Description
1. Leaver Details	This allows you to view the employee details for this person which includes: • Cost Allocations that have been ended. • Allowances that have been ended. • Deductions that have been ended. • Annual Leave that has been ended. • Pensions that have been ended • Option to leave a comment
2. Input Timesheet	This allows you to input a timesheet adjustment for the employee.
3. Mark as Complete	This allows you to mark the task as complete and continue with payroll process.

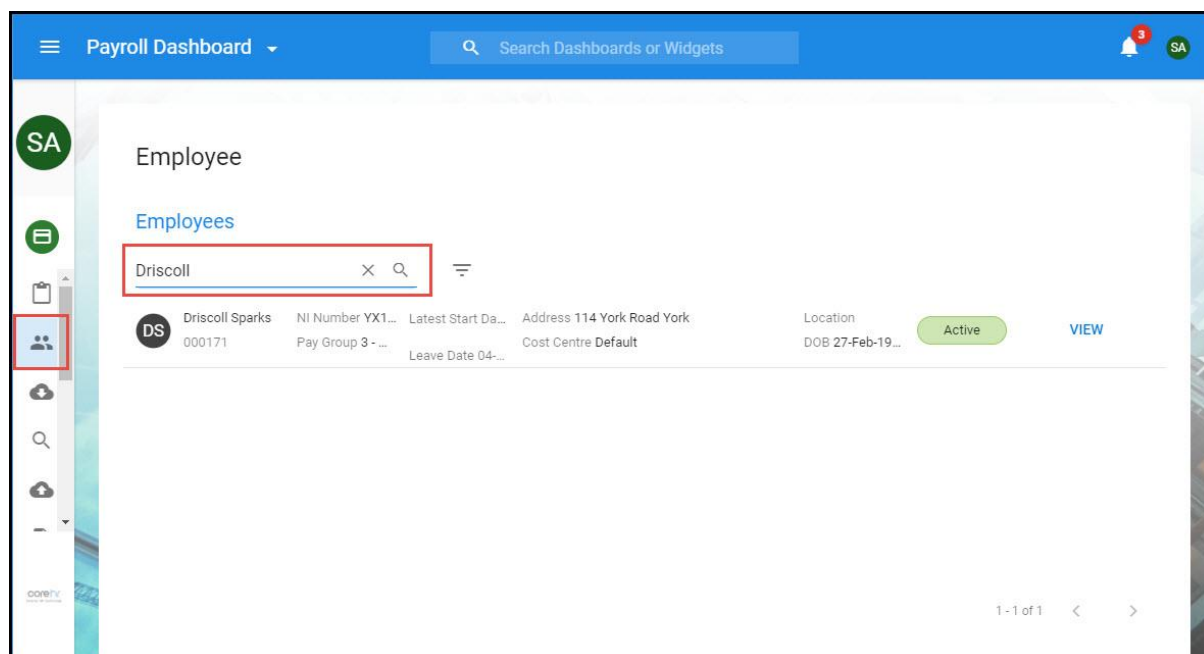

2.2.3. Instructional Form History Screen

A history screen is also available within the payroll employee record for you to view the payroll instructional form or previous one that had been assigned to an employee. To view these:

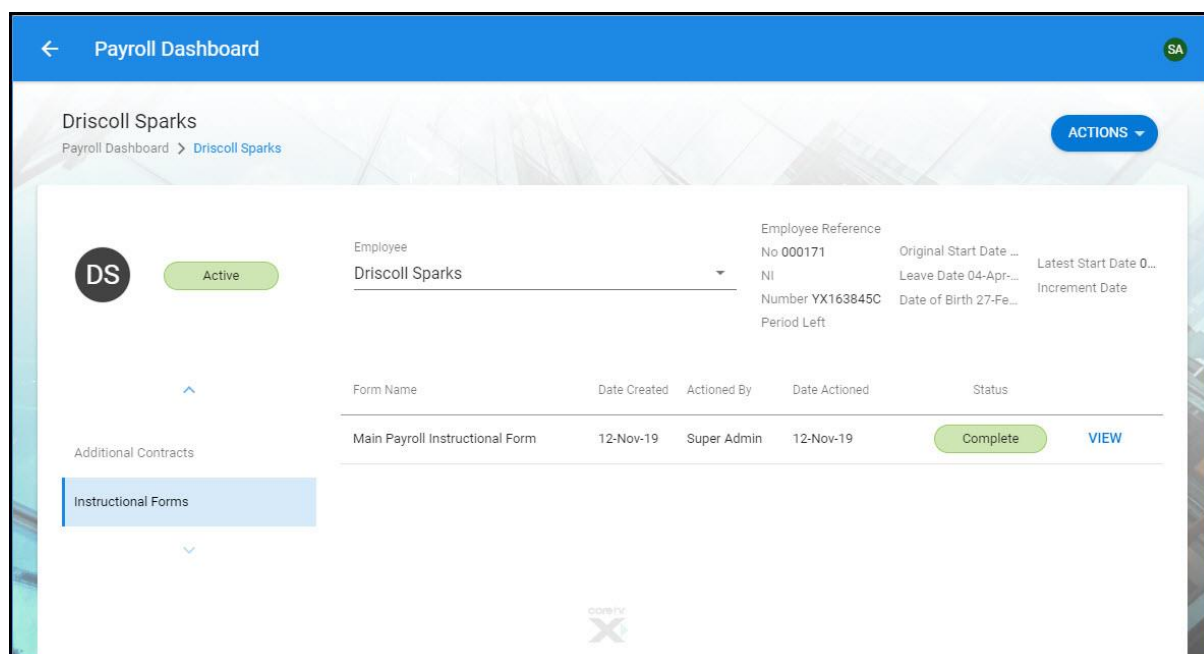

1. Quick Jump to the *Payroll Dashboard*.

2. Select the Employee tab, and search for the employee in question.

3. Within the employee profile, select the Instructional Forms tab, which returns all the Payroll Instructional Forms previously completed and in progress forms for this employee.

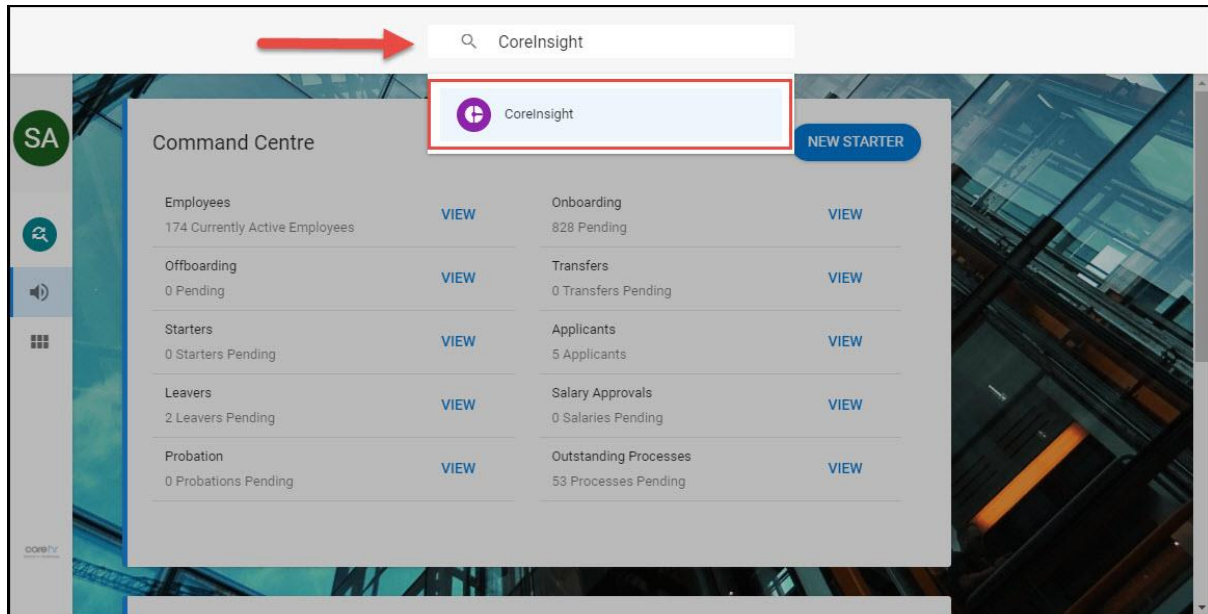

2.3. Reporting on Payroll Instructional Forms

Any Payroll Instructional Forms created will also be automatically created within CoreInsight for a report to be created / scheduled as appropriate.

To create a new report:

1. Quick Jump to CoreInsight.

2. Click on the **Create Report** button within the Home tab.
3. On the *Report Wizard*, select *Core Personnel* as the Business Area. Then, search for the name of the Custom Form created for the Payroll Instructional Form.

3. How to Configure Custom Forms

3.1. Create Custom Form

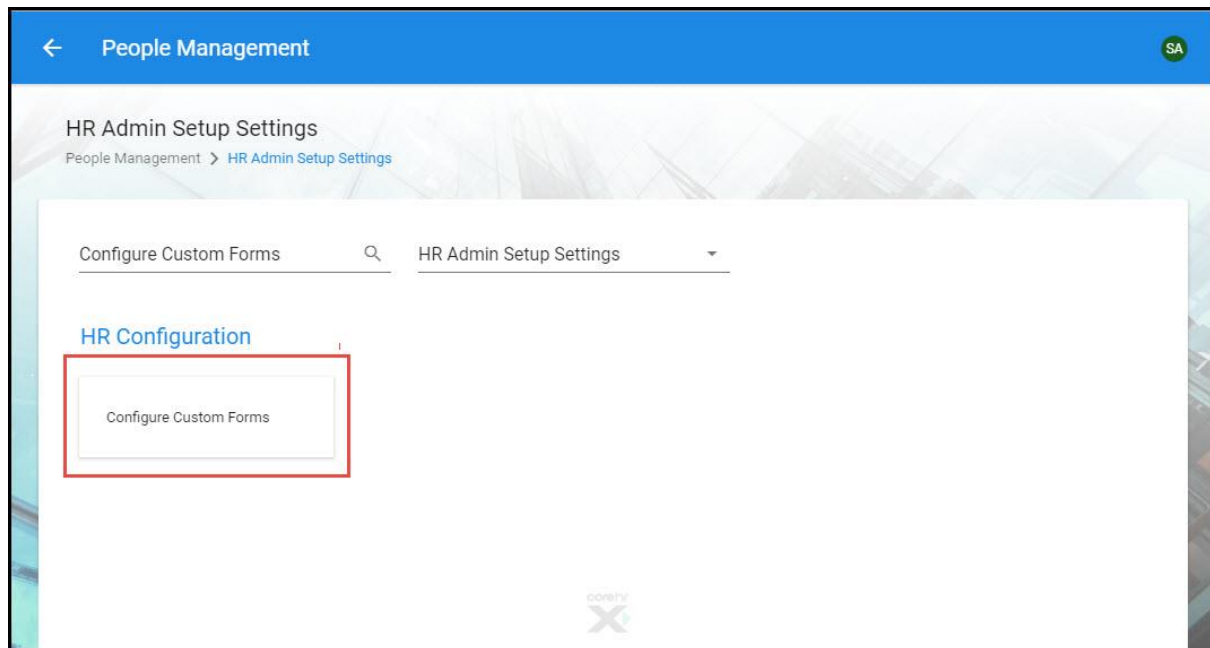

To use the Payroll Instructional Forms feature, CoreHR provides the ability to create custom content forms which can then be added as a checklist item for a payroll administrator or a specific org role to review and complete.

To create a custom form:

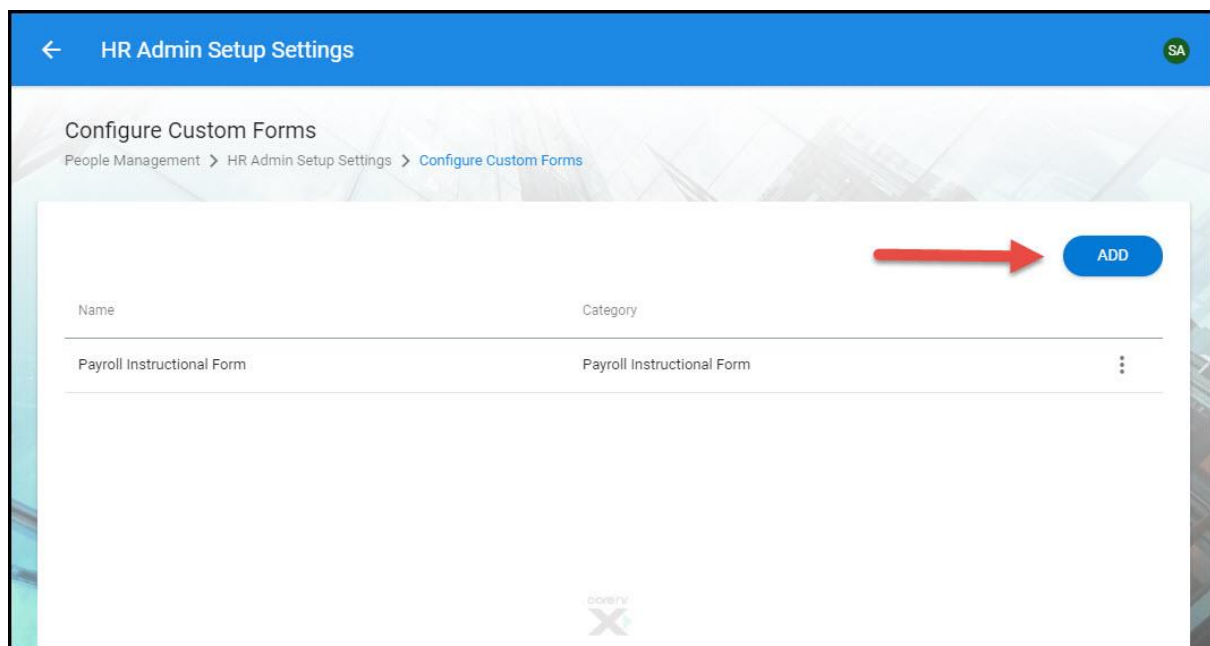

1. Quick jump to the *People Management* Dashboard.
2. Select the *Data Centre* tab and click on the **Open** button for *HR Admin Setup Settings*.

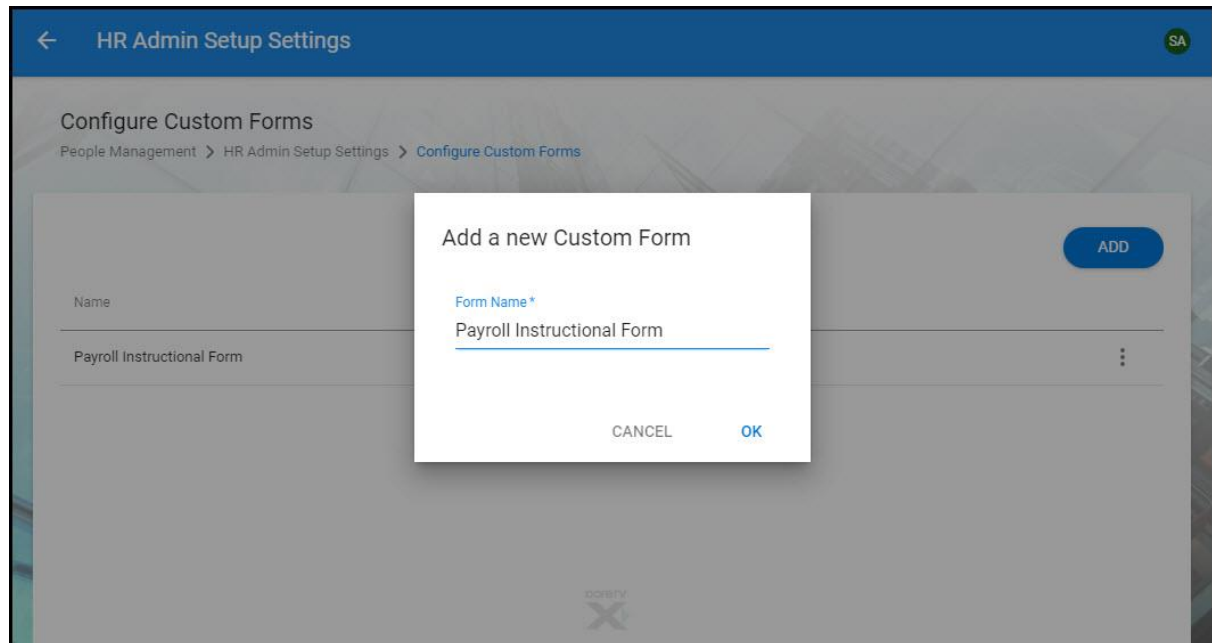

3. Search for Configure Custom Forms and click on the corresponding returned option.

4. Click on the **Add** button to create a new form.

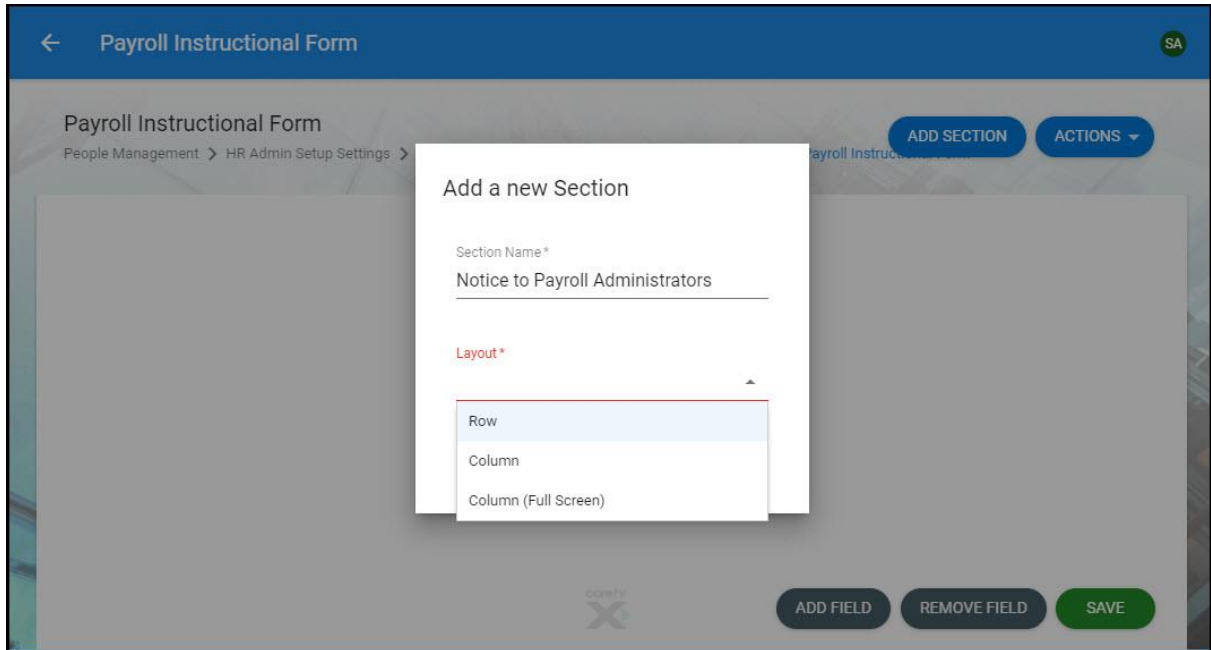

5. The *Add Custom Form* pop-up displays.
Enter a form *Form Name* and click **OK**.

3.2. Create Section

Once a new Form has been created, the *Add a new Section* pop-up screen displays automatically.

1. Enter a *Section Name* and the *Layout* required for the section.

The screenshot shows the 'Add a new Section' pop-up dialog box. The dialog has a title 'Add a new Section'. Below the title, there is a text input field labeled 'Section Name *' with the text 'Notice to Payroll Administrators' entered. Below that is a dropdown menu labeled 'Layout *' with three options: 'Row' (selected), 'Column', and 'Column (Full Screen)'. The background shows the 'Payroll Instructional Form' interface with a blue header, a breadcrumb trail 'People Management > HR Admin Setup Settings >', and buttons for 'ADD SECTION', 'ACTIONS', 'ADD FIELD', 'REMOVE FIELD', and 'SAVE'.

The following table outlines the layout options that can be chosen here:

Layout	Explanation
Row	Multiple fields per row
Column	1 field per row (reads top down)
Column (Full Screen)	Each field is on a row of its own but spans full page (more applicable to when creating surveys)

The *Payroll Instructional Form* has now been created.

The following options are available to choose from within this screen:

Item	Explanation
Section Name	This is mandatory, with a max of 250 alphanumeric characters allowed to be entered here.
Layout	As above.
Add Section	This allows you to add multiple sections to this form.
Remove Section	This is found within the Actions button and allows you to remove a section from the form.
Preview	This is found within the Actions button and allows you to preview the form and sections that have been created.
Add Field	This allows you to add a new field to the section of the form.

3.3. Add Field

On the Section page for your Custom Form, to include actual items for an employee to enter in data, you need to add at least one field to your section. To do this:

1. Click on the **Add Field** button.
2. The *Add New Field* pop-up is displayed.

The screenshot shows the 'Configure Custom Forms' interface for the 'Payroll Instructional Form'. A modal dialog titled 'Add a new Field' is open, with a red circle and the number '2' next to its title. The dialog contains a 'Field Name*' input field and 'CANCEL' and 'OK' buttons. In the background, the 'ADD FIELD' button is highlighted with a red circle and the number '1'.

3. Once the *Field Name* has been entered, click the **OK** button.
4. This adds the field to the already created section.
5. Before saving the section, you are required to select the type of field. The below table illustrates the options available:

The screenshot shows the 'Configure Custom Forms' interface for the 'Payroll Instructional Form'. A dropdown menu is open, showing various field types: Text Field, Text Area, Date Field, Number Field, Checkbox Field, Combo Field, Combo Field (Ref Data), Radio Group, Slider Field, and Type of Field*. The 'Text Field' option is selected. The background shows the 'Section Details' and 'Fields' sections, with the 'Name of Field*' input field containing 'Process Holiday Hours'. The 'Required Field' checkbox is checked. The 'ADD FIELD' button is highlighted with a red circle.

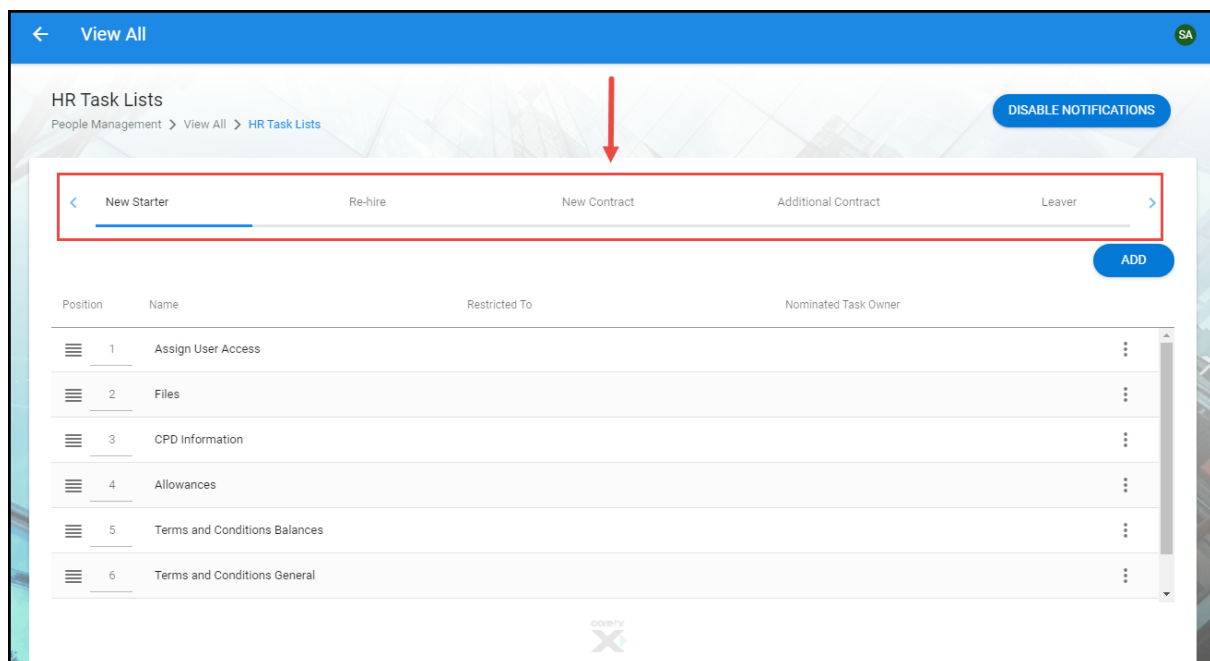

Field Type	Explanation
Text	This is a free text field with max of 250 alphanumeric characters allowed to be entered.
Text Area	This is a free text area with a max of 250 alphanumeric characters allowed to be entered.
Date	This requires you to enter in a date, either manually or via the date picker on the task list item.
Number	This is a field where numbers and decimal places can be used.
Checkbox	Field that can be checked to confirm an item.
Combo	This is a field where multiple choices can be entered and chosen by the user.
Combo (Reference Data)	This is a field where multiple choices can be entered and chosen by the user. These are based on the selected Reference Type during configuration.
Radio Group	This is a field where multiple choices can be configured and 1 selected by the user.
Slider Field	This is a field where the user can choose a value based on a range of numbers on screen.

3.4. Adding Form to HR Task List

To ensure that you are able to complete the Payroll Instructional Form as part of the HR Task List as a checklist item, follow the below steps:

To add to an existing Task List:

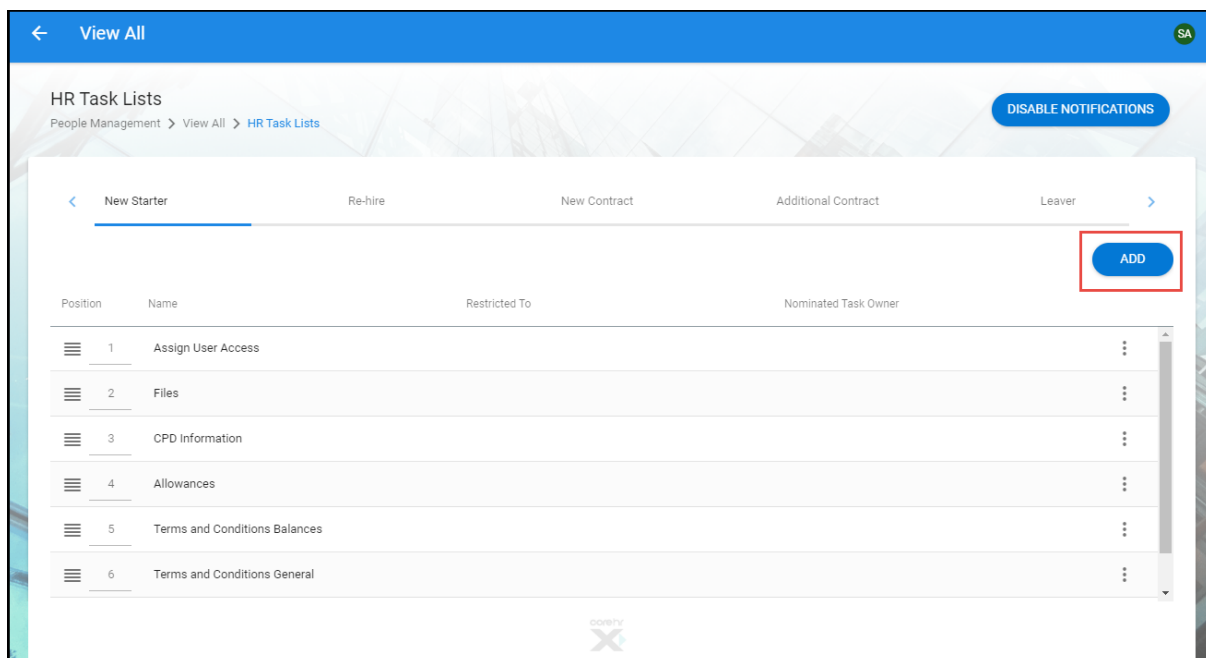

1. Go to the People Management Dashboard.
2. Select the Data Centre tab and click on the **Open** button which corresponds to the *HR Admin Setup Settings* item.
3. Search for 'HR Tasks Lists' and once that option returns on screen, click on the button to bring you to the **HR Task Lists** screen.
4. Select a Process from slider banner:

Process	Description
New Starter	Task list will be available on completion of the <i>New Starter</i> wizard.
Re-hire	Task list will be available on completion of the <i>Rehire Employee</i> wizard.
New Contract	Task list will be available on completion of the <i>New Contract</i> wizard.
Additional Contract	Task list will be available on completion of the <i>Additional Contract</i> wizard.
Leaver	Task list will be available when an employee has been made a leaver.

3.4.1. Adding a Payroll Instructional Form Item

1. Click the **Add** button to add a task list step:

2. The *Add Task* screen appears
A drop-down list provides all of the steps that can be configured for the task list.
3. Select the required 'Payroll Instructional Form', along with the correct Custom Form that has been configured for this step.

4. The *Optional Information* text field is available when configuring every task item. The information provided here is displayed to the user when completing the task, to give them further guidance on what they may need to do.
5. To remove a step from the list, click **Delete** for the step.
6. Once all steps have been added click the **Save** button.

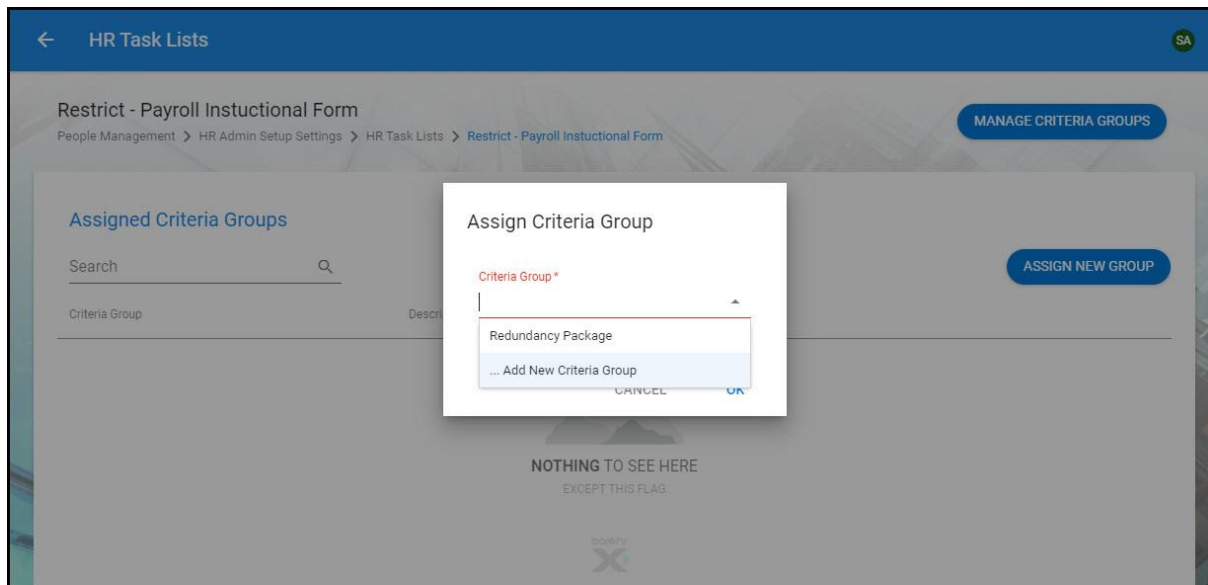

3.4.2. Restricting Form Access

- Task list items can be restricted, allowing you to create tailored task lists for different employee categories and functions
- This is achieved using criteria groups i.e. only assign this task if the employee is in one of the defined Criteria Groups. This can be used for Employee's who have different Leaving Reason Codes. For example, if an employee has left the company due to voluntary redundancy, the Payroll Instructional Form that appears for this person, may be different to one that shows for an employee who has retired.

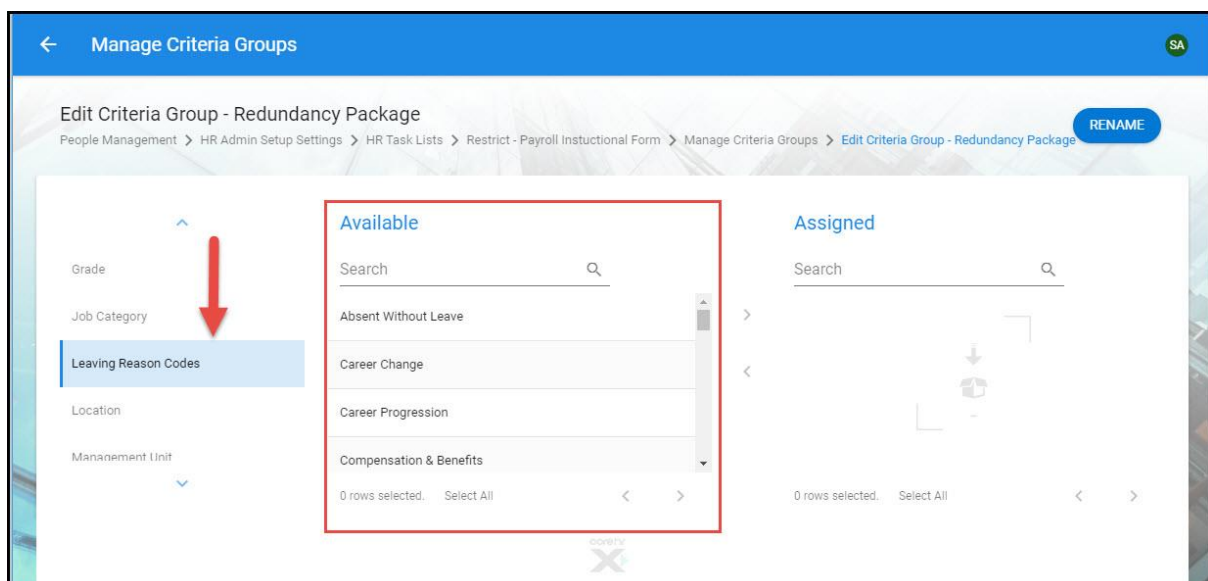

To add a restriction on a Task List, follow the below steps:

1. Once the Payroll Instructional Form has been added to the HR Task List, click on the  button and click on the **Restrict** button.

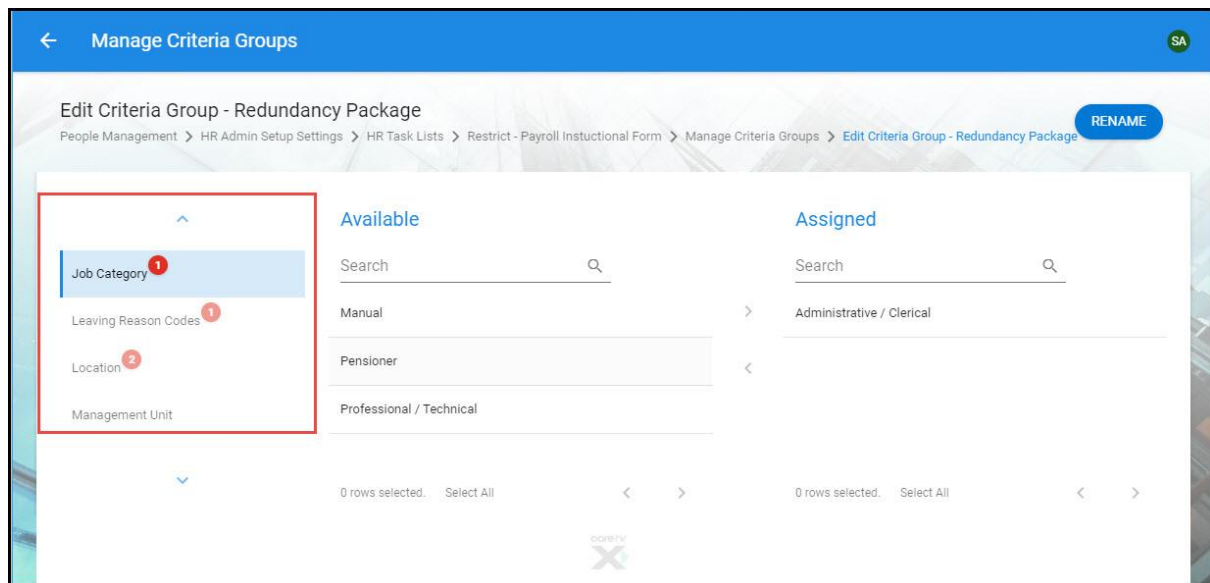

2. The *Restrict* screen appears which allows you to create and manage criteria groups for the purpose of restricting access to the Payroll Instructional Forms.
3. To create a new criteria group:
 - a. Click on the **Assign New Group** button.
 - b. Choose the Criteria Group in question or the option “...Add New Criteria Group”

- c. A list of Reference Types appears on the left-hand side of the screen for you to choose from.
- d. On this screen, the *Available* list will provide a list of all Reference Data that can be added to the criteria group based on the reference type selected. The search box can be used to search for a specific reference item.

- e. Select the reference item that should be in this group. The **Select All** option can be used to select all references in either list.
 - f. Click the > button to add the reference items to the *Assigned* list.
 - g. To remove a reference item from the *Assigned* list, highlight it and click the < button.
They appear back on the *Available* list instead.
4. It is possible to assign multiple Reference Types to 1 criteria group. A notification counter will provide you with clarity on how many are included in your criteria group:

5. This is not restricted based on the *Applicant Status*.
6. The search box can be used to search for a specific applicant on the list.

Note: If no restrictions are set, the task is applicable to all employees.

3.4.3. Nominating Task Owner

Task list items can now be assigned to specified owner to complete.

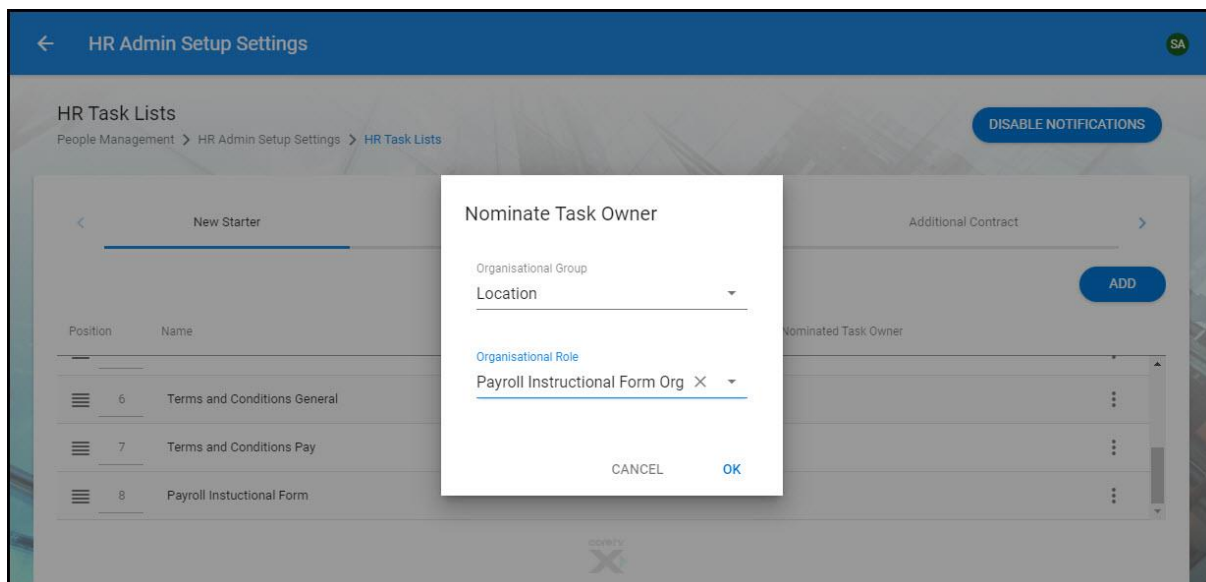

- The task ownership is identified using a specified org role/org group assignment.
- For example, access to *Assign User Access* may be restricted to HR administrators only.
- If a user is not the owner and doesn't have access to complete a task item, they will see the item on the Task List screen, which will flag the Org Role responsible for completing the task and they will be prevented from access the task itself.

To nominate a task owner, follow the below steps:

1. Once the Payroll Instructional Form has been added to the HR Task List, click on the  button and click on the **Nominate Task Owner** button.
2. The *Nominate Task Owner* pop-up box appears which allows you to enter in this information:

Item	Description
Organisational Group	This is the Organisational Attribute that the Org Role has been created against. e.g. Department, Pay Group, Location.
Organisational Role	This is the Org Role that will have access to this Task List item. It will be required to be completed by this Org Role only.

The image below shows you how to setup the Payroll Instructional Form Org Role, based on Location.

The task list will now be available to the user on completion of the corresponding process in *People Management*.

Note:

- All tasks are mandatory.
- Tasks can be completed in any order.
