1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide an overview of the *People Management* dashboard on CorePortal, including detailed guidance on the standard tabs and widgets that are enabled for this feature.

Items covered include:

- How to access the *People Management* dashboard.
- The standard tabs and widgets that are available on this dashboard.
- How to search for employees on *People Management*.
- How to use the *Data Centre* widget.

This document is not intended to provide an overview of the full HR solution that is provided by PeopleXD.

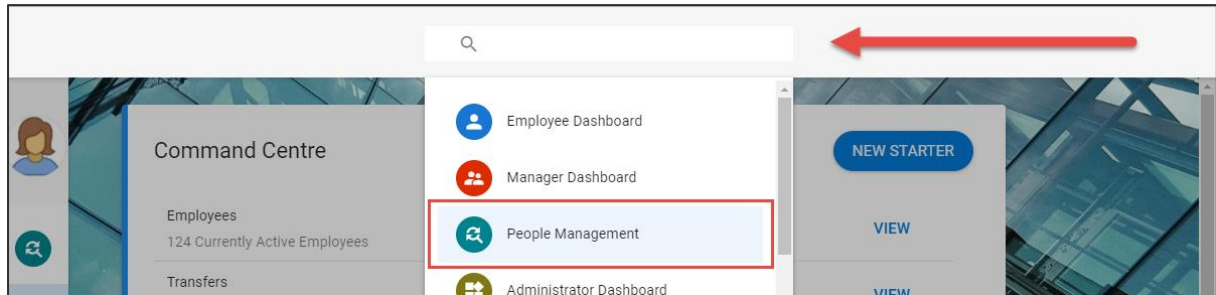

2. People Management Dashboard

2.1. How to Access People Management

There are two ways to access the People Management dashboard in CorePortal.

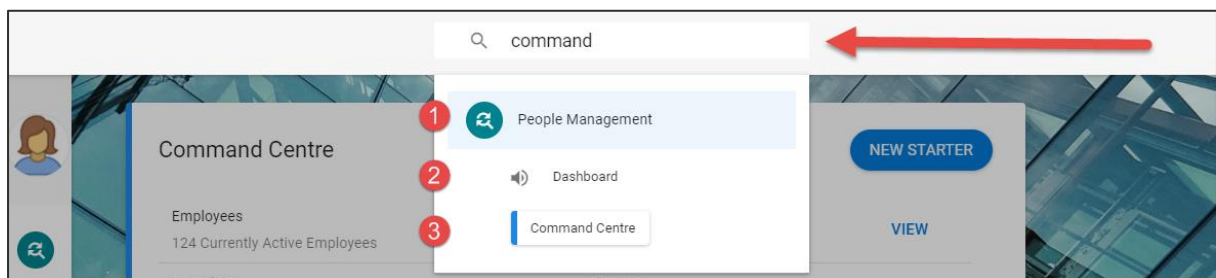

2.1.1. Quick Jump

Select *People Management* from the quick jump menu.

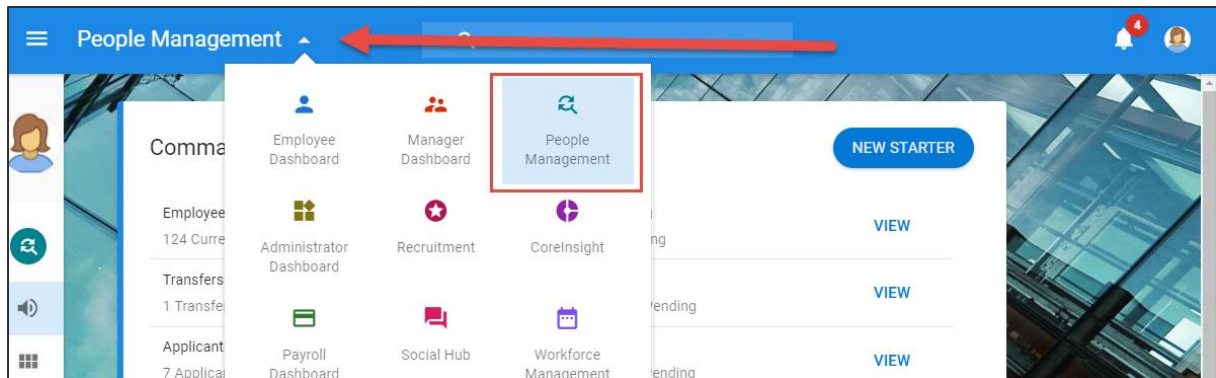

It is possible to search for a People Management tab or widget name in the Quick Jump menu, to jump straight to it. For example, searching for the term “Command Centre” returns the following items:

1. The dashboard that the screen is on i.e. *People Management*.
2. The tab that the screen is on i.e. *Dashboard*.
3. The widget itself i.e. *Command Centre*.

2.1.2. Dashboard Menu

Select **People Management** from the dashboard menu.

2.2. People Management Tabs

The People Management dashboard consists of 2 tabs as standard.

1. Dashboard

This is the first tab and landing page for the *People Management* dashboard.

This tab includes the following widget as standard:

- Command Centre

Other widgets can be added to this tab, depending on the features that you are using on People Management e.g.

- Employee Request Approvals

2. Data Centre

This tab provides access to all of the configuration options that are required to support the People Management product.

This tab includes the following widget as standard:

- Data Centre

Other widgets can be added to this tab, depending on the features that you are using on People Management e.g.:

- Social Hub Configuration

Note:

The configuration of the People Management dashboard may be reviewed per organisation during implementation. Please refer to the ***Configuring the People Management Dashboard*** guide for further details.

2.3. Command Centre Widget

2.3.1. Overview

The *Command Centre* is the centre for most of the HR tasks that you will be completing on People Management. The following options are available on this widget:

Command Centre

Option	Overview
Employees	This is where you can search for employees and view their full HR record. See 2.4 Employee Search for further details.
New Starters	This provides a list of all new starters / rejoiners in the current month.
Leavers	This provides a list of all leavers in the current month.
Probation	This provides a list all employees with a Probation Expiry Date in the current month.
Salary Approvals	This is used to access a list of employee salary or allowance approvals that are with you for approval / rejection. See the HR Salary Approvals user guide for full training on this.
Transfers	This is used to manage the transfer of employees between different parts of the organisation using a transfer request. See the Transfer Requests user guide for full training on this.
Onboarding	This is used to track employee onboarding progress. It provides a view of outstanding to-do list task per employee. For full training on this see the Social Onboarding user guide.

Option	Overview
Applicants	This provides a list of all applicants who have been offered a position in the company via the Recruitment module. For full training on this see the Successful Applicants user guide.
New Starter button	This is used to create a new employee record on CoreHR. For full training on this see the New Hire Contracts user guide.

 **Note:** Security is applied to the options available on this screen. Therefore, you will only see options that you have been granted access to see.

2.3.2. Starters, Leavers and Probation

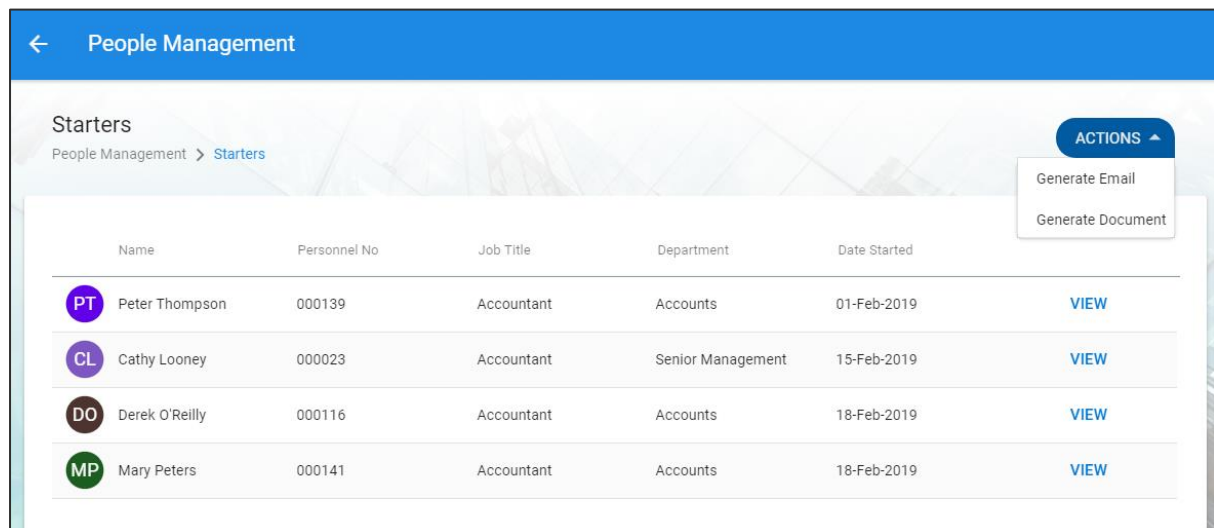

Command Centre		NEW STARTER	
Employees 124 Currently Active Employees	VIEW	Onboarding 1038 Pending	VIEW
Transfers 1 Transfers Pending	VIEW	Starters 4 Starters Pending	VIEW
Applicants 7 Applicants	VIEW	Leavers 3 Leavers Pending	VIEW
Salary Approvals 2 Salaries Pending	VIEW	Probation 0 Probations Pending	VIEW

These screens provide a quick view of all new starters, leavers and probation expiry dates in the current month

It is possible to directly access the full employee record for these employees from these screens as a shortcut, in order to complete any further required actions on their records.

People Management: People Management Dashboard Overview

Screen	What Records Will I See?
Starters	• 'Starters' are any employees that have a <i>Date Joined</i> or <i>Rejoin Date</i> in this month. • This does not include employees that are already active on CoreHR but have a new contract due to start in those months.
Leavers	• 'Leavers' are any employees that have a <i>Leave Date</i> in this month • This does not include employees who have ended contracts on CoreHR but are still active on the system with other contracts and do not have a <i>Leave Date</i>.
Probation	Probation refers to any employees where the <i>Probation Expiry Date</i> associated with one of their contracts falls in this month.

People Management					
Starters					
People Management > Starters					
Name	Personnel No	Job Title	Department	Date Started	
 Peter Thompson	000139	Accountant	Accounts	01-Feb-2019	VIEW
 Cathy Looney	000023	Accountant	Senior Management	15-Feb-2019	VIEW
 Derek O'Reilly	000116	Accountant	Accounts	18-Feb-2019	VIEW
 Mary Peters	000141	Accountant	Accounts	18-Feb-2019	VIEW

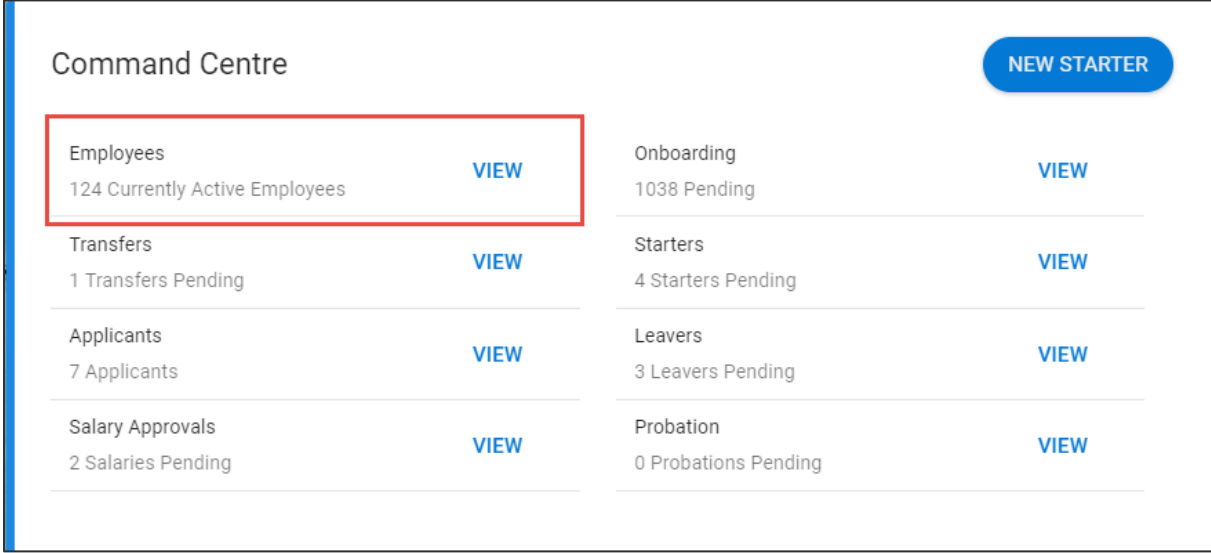

- Click **View** to open the full employee record.
- Click **Actions** to access options for **Generate Email** and **Generate Document**. See the **Document and Email Generation** user guide for further details on this functionality.

 **Note:** These screens only display employees that you have been granted access to see. If you do not have access to the underlying hr record for a new starter, leaver, or employee with probation due to expire, then that employee will not appear on these screens.

2.4. Employee Search

2.4.1. Search for an Employee Record

The **Employees** option on the *Command Centre* widget gives you access to search for and manage all employee records that you have been given access to see on People Management.

The screenshot shows the 'Command Centre' widget. It features a blue 'NEW STARTER' button in the top right corner. The main content is organized into two columns of metrics, each with a 'VIEW' link. The first column includes 'Employees' (124 Currently Active Employees), 'Transfers' (1 Transfers Pending), 'Applicants' (7 Applicants), and 'Salary Approvals' (2 Salaries Pending). The second column includes 'Onboarding' (1038 Pending), 'Starters' (4 Starters Pending), 'Leavers' (3 Leavers Pending), and 'Probation' (0 Probations Pending). The 'Employees' row is highlighted with a red rectangular border.

Command Centre		NEW STARTER	
Employees 124 Currently Active Employees	VIEW	Onboarding 1038 Pending	VIEW
Transfers 1 Transfers Pending	VIEW	Starters 4 Starters Pending	VIEW
Applicants 7 Applicants	VIEW	Leavers 3 Leavers Pending	VIEW
Salary Approvals 2 Salaries Pending	VIEW	Probation 0 Probations Pending	VIEW

Click **View** to open the *Employee Search* screen.

Smarter HR Technology

Person Filter

The screen defaults to display all of the 'active' employees that you have been granted access to see on CoreHR. 'Dormant' members of staff do not display here by default. Use the drop-down list to filter the list based on the following statuses:

- Active
- Dormant
- Active and Dormant

The search field at the top of the screen allows you to complete a keyword search for employees, using the following:

- Forename
- Surname
- Employee Number

VIEW

Click on the  button to open the *Filter Employees* screen. This provides further criteria that can be applied to search for employees.

Element	Description
PPS Number	Search based on the employee's PPS / NI / Social Security number.
Employee Status*	Search based on the <i>Employee Status</i> on the employee's contract.
Company*	Search based on the <i>Company</i> on the employee's contract.
Management Unit*	Search based on the <i>Management Unit</i> on the substantive contract.
Department*	Search based on the <i>Department</i> on the employee's contract.
Cost Centre*	Search based on the <i>Cost Centre</i> on the employee's contract.
Job Title*	Search based on the <i>Job Title</i> on the employee's contract.
Location*	Search based on the <i>Location</i> on the employee's contract.
Sub Status*	Search based on the <i>Sub Status</i> on the employee's contract.
Work Group*	Search based on the <i>Work Group</i> on the employee's contract.
Pay Group	Search based on the employee's assigned Pay Group: • This will first base the search on person's actual Pay Group as set up on Payroll. • If they are not yet set up on Payroll, it will base the search on person's planned Pay Group (set up in HR).

People Management: People Management Dashboard Overview

Element	Description
	If person does not have a planned pay group, then the person will not be returned.
Nationality	Search based on the <i>Nationality</i> of the employee.
Date Started From	Search based on the <i>Date Joined</i> for an employee. - Employees returned in this search will have a <i>Date Joined</i> on or after the date provided. - This includes the <i>Rejoin Date</i>, if the employee was rehired.
To	Search based on the <i>Date Joined</i> for an employee. - Employees returned in this search will have a <i>Date Joined</i> on or before the date provided. - This includes the <i>Rejoin Date</i>, if the employee was rehired.

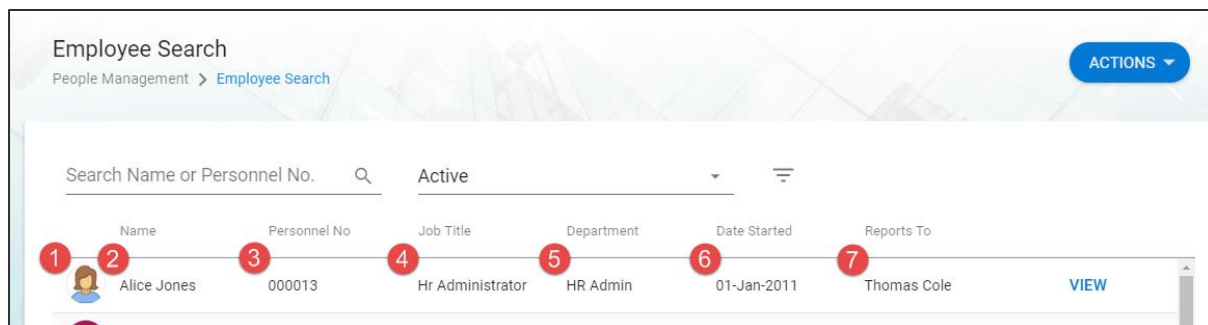

Note:

Items flagged above with * are contract fields. Searches performed will be based on the employee's current (as of today) substantive contract.

Click the **Apply** button to search for employees with these filters applied.

2.4.2. Employee Details

For all employees on the *Employee Search* screen, the following details are displayed.

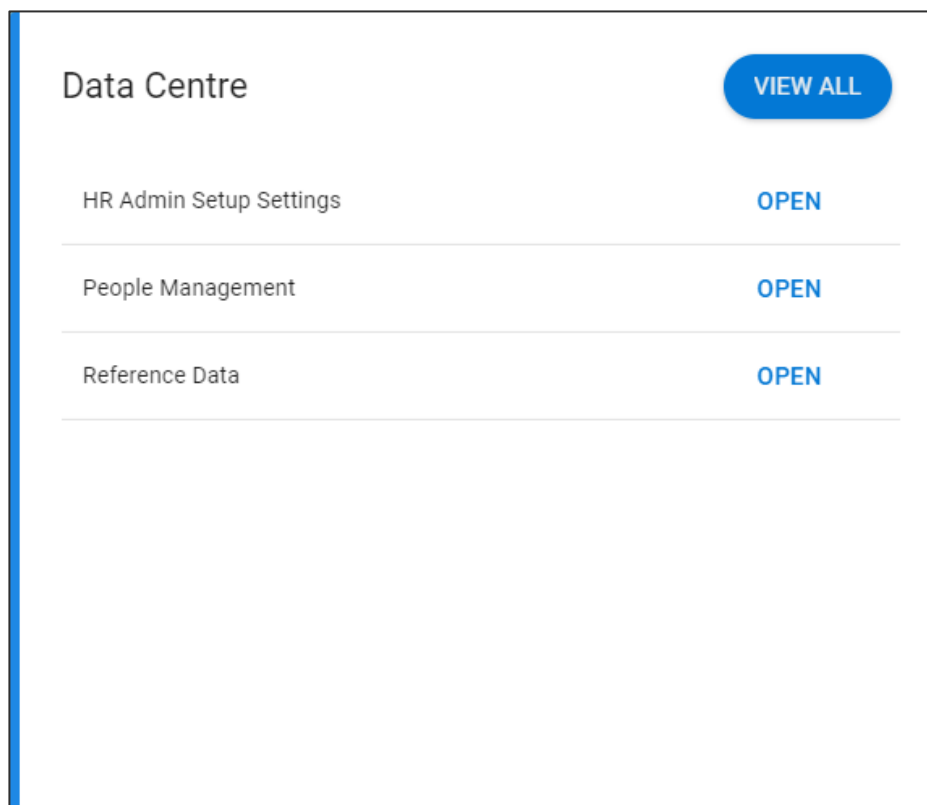

#	Element	Description
1	Picture / Initials	- If a picture has been uploaded to CoreHR for the employee, this will be displayed. - If no picture has been uploaded, then the circle will display the employee's initials.
2	Name	The employee's current forename and surname,
3	Employee Number	The employee's personnel number
4	Job Title	- The job title for the employee's current active contract. - If the employee has multiple active contracts, this will be the job title for their substantive contract.
5	Department	- The department for the employee's current active contract. - If the employee has multiple active contracts, this will be the department for their substantive contract.
6	Start Date	The date the employee joined the organisation. This will be either the Join Date or the Rehire Date, if the employee has been rehired on CoreHR.
7	Reports To	- The manager that has been assigned to the employee, based on the Reports To Manager setup on CoreHR. - If the employee has multiple active contracts, this will be the manager for their substantive contract.

2.5. Data Centre Widget

2.5.1. Overview

The *Data Centre* widget provides a range of options that are used to support the configuration of People Management on CoreHR.

The configuration items are grouped in to 3 main sections:

- HR Admin Setup Settings
- People Management
- Reference Data

Click **Open** for any option to access to the full range of configuration settings for the selected group i.e. view *Reference Data* only.

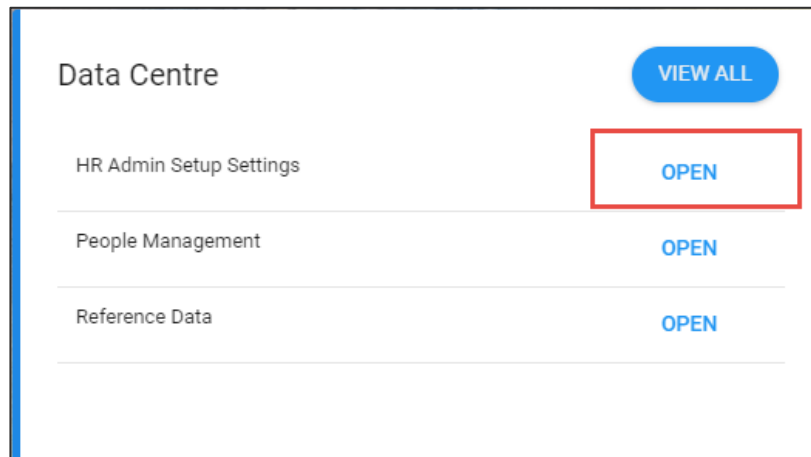

OR

Click **View All** to access all settings for all groups i.e. without prefiltering on "HR Admin Setup Settings", "People Management" or "Reference Data". This is a particularly useful option if you are unsure which group the setting you require is under.

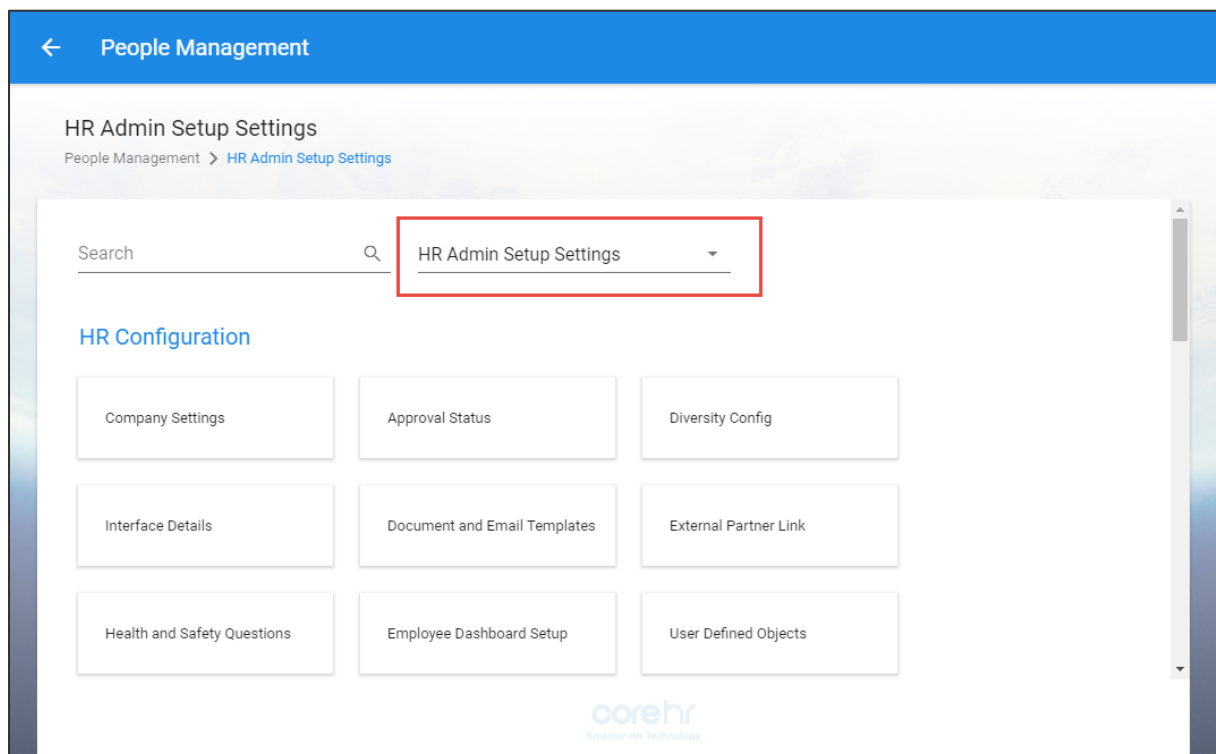

Note: All of the options available on this tab are controlled by menu options. This means that different users may be given access to different options on the screen, based on their role and requirements.

Follow these steps to use the *Data Centre* widget.

1. To view all of the options under *HR Admin Setup Settings*, click **Open** for that option.

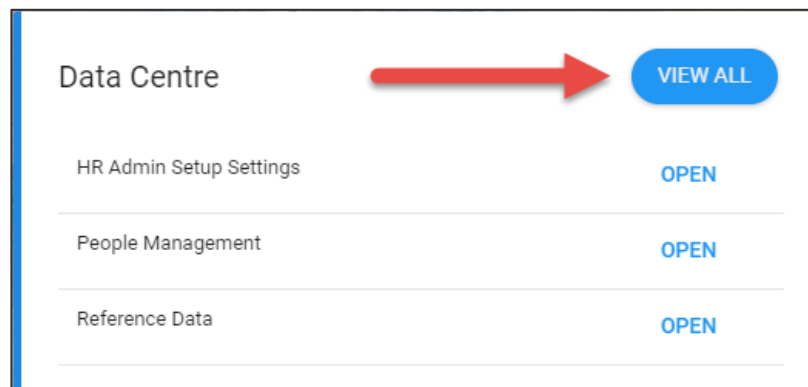

The *Hr Admin Setup Settings* screen opens.

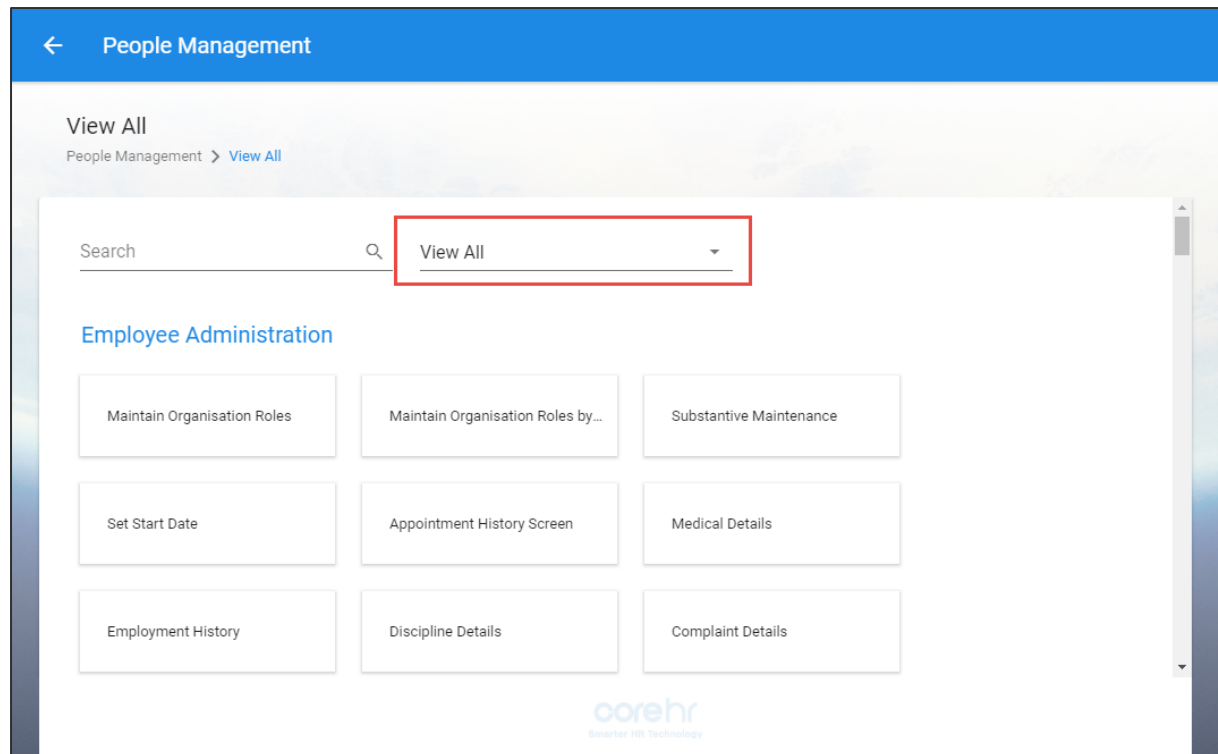

People Management: People Management Dashboard Overview

2. Repeat for the other 2 options i.e.
 - a. Click **Open** for *People Management*.
 - AND/OR
 - b. Click **Open** for *Reference Data*
3. Click on the **View All** button to open the corresponding screen, without prefiltering by “HR Admin Setup Settings”, “People Management” or “Reference Data”.

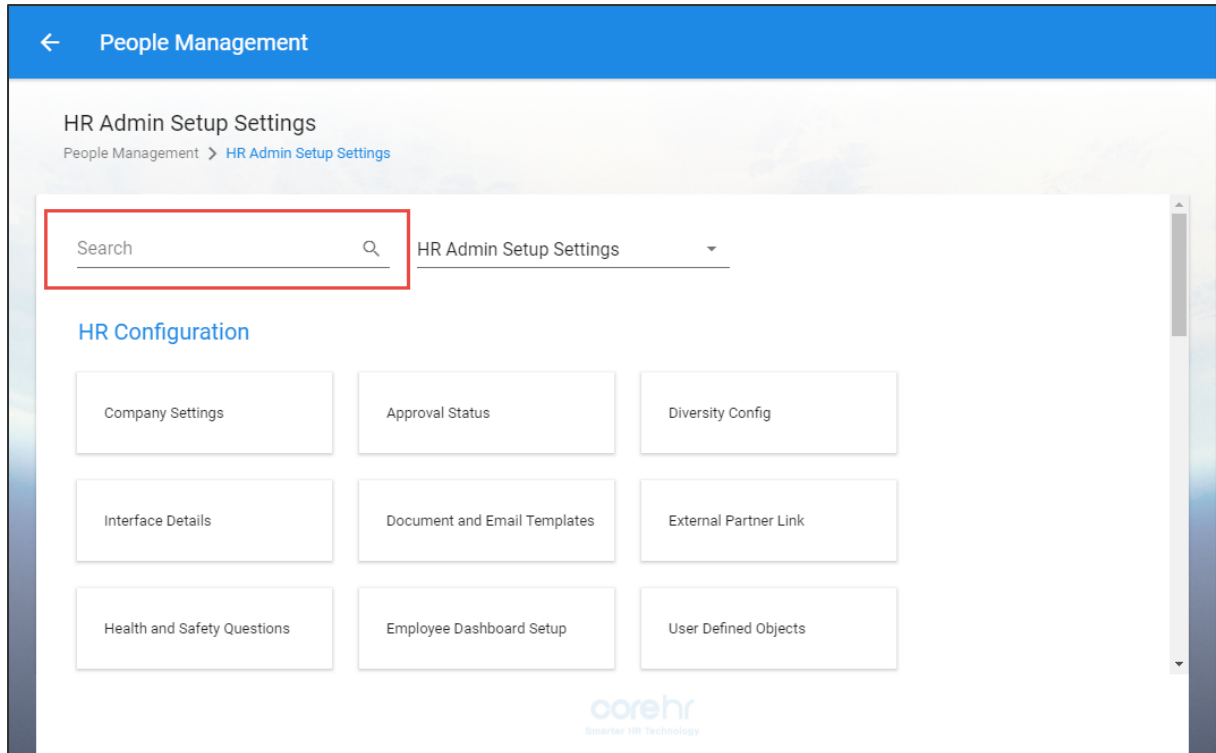

The screen lists all of the options.

Note that the dropdown is set to “View All”.

4. Use the *Search* box to perform a keyword search. This searches for any option on screen and is dependent on the filter selection i.e.
- If the filter is set to **View All**, this will search all possible options.
 - If the filter is set to **HR Admin Setup Settings**, this will only search options related to that group.

The next sections in this guide provide an overview of what options are available for each group i.e.

- HR Admin Setup Settings
- People Management
- Reference Data

2.5.2. People Management

The People Management group provides you with access to a range of actions required to support the management of Post and Employee records. All of the options available on this tab are controlled by menu options. This means that different users may be given access to different options on the screen, based on their role and requirements.

Options that can be made available are listed below, grouped by category.

Employee Administration Section

Option	Description
Maintain Organisational Roles	Assign organisational roles to employees so that they can participate in hr processes and approvals on CoreHR.
Maintain Organisational Roles by Person	As above.
Substantive Maintenance *	Manage the 'Substantive Dates' assigned the employee's contract on CoreHR.
Set Start Date *	Manually override the employee's Join Date or Rehire Date.
Appointment History Screen *	Manually update the employee's contract details.
Medical Details	Manage medical details on the employee's record.
Employment History	Update details of the employee's employment history, prior to joining the organisation.
Discipline Details	Manage the employee's discipline record.
Complaint Details	Manage the employee's complaint record.
Release P11d *	Release P11ds.
HR User Access	Grant access to CoreHR users to access HR specific data.
HR User Access (Basic)	Lightweight version of the above functionality.
View Email Queue *	View emails queued and sent from CoreHR.

* These items are advanced system features which should not be shared with all users and should be used with caution. Please refer to the corresponding user guides for further details.

Post Management Section

Option	Description
Terms and Conditions Setup	Set up and manage Terms and Conditions profiles.
Post Profile Maintenance	Set up and manage Post Profile records.
Post Appointment Maintenance	Another way to view and update employee contract records, outside of the standard recommended contract options on the Search widget and employee record.

Option	Description
View Post Appointments	Another way to view and update employee contract records, outside of the standard recommended contract options on the Search widget and employee record.
Post Management Parameters *	Advanced settings that control Post Management on CoreHR.

* These items are advanced system features which should not be shared with all users and should be used with caution. Please refer to the corresponding user guides for further details.

Salary Administration Section

Option	Description
Recognition and Reward	Used to review nominations and reward employees, based on recognition provided via the <i>Recognition</i> widget.
Salary Approvals	Opens the same <i>Salary Approvals</i> screen as the option on the <i>Command Centre</i> widget.

2.5.3. HR Admin Setup Settings

This group provides you with a range of options that are used to support the configuration of People Management on CoreHR. All of the options available on this screen are controlled by menu options. This means that different users may be given access to different options on the screen, based on their role and requirements.

Options that can be made available are listed below, grouped by category.

 **Note:** Full training is provided on each of these options where relevant in the **People Management - How to Configure** user guides. Please do not attempt to update configuration on any of these options without first consulting the relevant guides or contacting CoreHR, if support is required.

HR Configuration Section

Option	Description
Company Settings	Manage settings at a company level including FTE Weeks per Year.
Approval Status	Add and update approval status which may be used as part of a process workflow in Event Management.
Diversity Config	Manage the display of 'Background' and 'Disability' data on the 'Personnel Profile - Diversity' screen, that is shared with employees and managers.
Interface Details	Related to CoreInsight. Please refer to the CoreInsight training material for further guidance.
Document and Email Templates	Create and manage document & email templates, to be used as part of the 'Document and Email Generation' functionality.
External Partner Link	Ability to configure an external link e.g. to an LMS, bookmarks etc.
Health and Safety Questions	Define questionnaires to be used as part of the Health and Safety module.
Employee Dashboard Setup	Drag and drop items to control the order in which options are displayed on the employee record.
User Defined Objects	Configure the 'User Defined Object' templates that are used to capture additional data on employee and contract records.
HR Admin Field Options	Update the display of employee and contract related fields on People management including: • Show / hide • Make mandatory / optional • Display Reference Code on Combo Fields
HR Task Lists	Define task lists to track the completion of specific processes on People Management.

HR Settings Section

Option	Description
HR System Parameters	CoreHR access only.
Personnel Numbering Maintenance	Define the rules for the employee number generation on CoreHR.
System Parameters	Update key system settings, to enable / disable features & functionality
System Parameters - Advanced	As above, for an extended set of parameters.

Organisation Rules Section

Option	Description
Menu Profile Matrix	Define rules to allow for menu profiles to be automatically assigned to groups of employees.
UDF Assignment	Define rules to allow for UDFs to be automatically assigned to groups of employees.
Social Security Settings	Define rules for when NI Number, PPS Number or another social security setting should be applied to a group of employees.
Payscale Restrictions	Restrict the pay scales that are available to assign to an employee's contract.
Employer Notice Period Rules	Define notice periods based on an employee's length of service.
Eligible Service Rules	Define rules to control the employees: • Continuous Service • Job Seekers Register • Funding End Management
Wage Warning Setup	Define rules to warn the user if an employee's assigned hourly rate is less than the defined minimum or living wage.
Total Reward Statements	These are used as part of Payroll.
Community Setup	Configure the communities for use of the Community widget.

Event Management Section

Option	Parameter	Description
EMS Maintenance		Update key event management settings, to enable / disable features & functionality
HR Event Configuration		Configure EMS Alerts.
HR Process Administration		Review and manage processes that have been triggered on CoreHR.
HR Process Configuration		Configure workflow processes.

2.5.4. Reference Data

This provides a range of options that are used to support the configuration of reference data lists, that are used on People Management.

 **Note:** Full training is provided on managing reference data in ***People Management - How to Configure*** user guides. Please do not attempt to update configuration on any of these options without first consulting the relevant guides or contacting PeopleXD if support is required.
