1. Overview

1.1. Purpose of the Guide

This document provides guidance on how to use and configure the *HR Process Task Lists* on CoreHR including:

- Setting up a task list.
- The steps available for each task list.
- Managing access to configure task lists.
- Managing access to use task lists for employee contracts.
- How a task list is completed.

1.2. What are *HR Process Task Lists*?

Task Lists are used to define a set of steps that must be completed as part of a New Starter, New Contract, Additional Contract, Rehire or Leaver process.

Once a new contract has been assigned to an employee as part of the new hire, rehire or new contract steps on People Management, the task list pops up on screen. This presents the user with a list of mandatory steps to be completed. The user can then click on a step and be redirected to the screen required to input the data e.g. if the step is 'Allowances', clicking on this opens the 'Add Allowances' screen.

Different task lists can be created for each process type.

The advantage of using the task list feature includes:

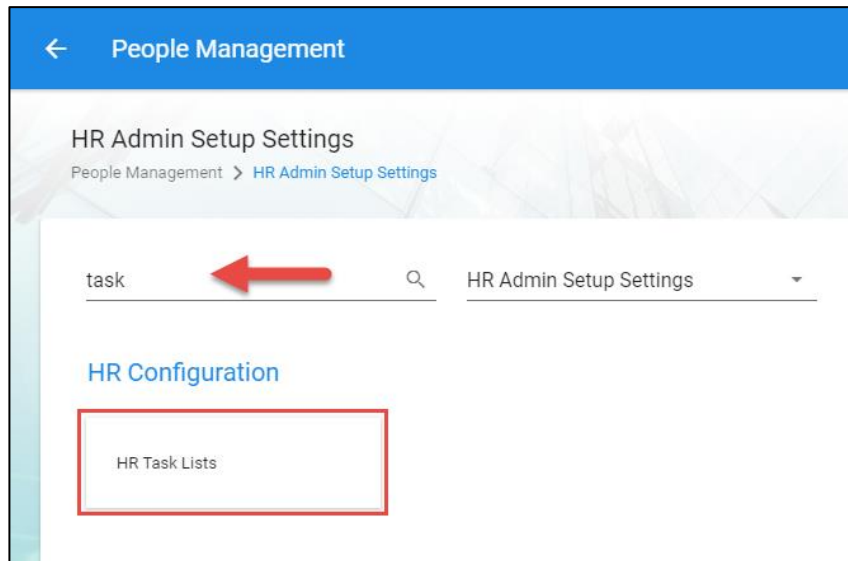

- Ability to direct the user to ensure the required employee and contract details are updated.
- One central location is provided to allow the user to jump directly to the required screens to update the data.
- The task list can be closed and reopened as many times as necessary before completion.

2. Task List Setup

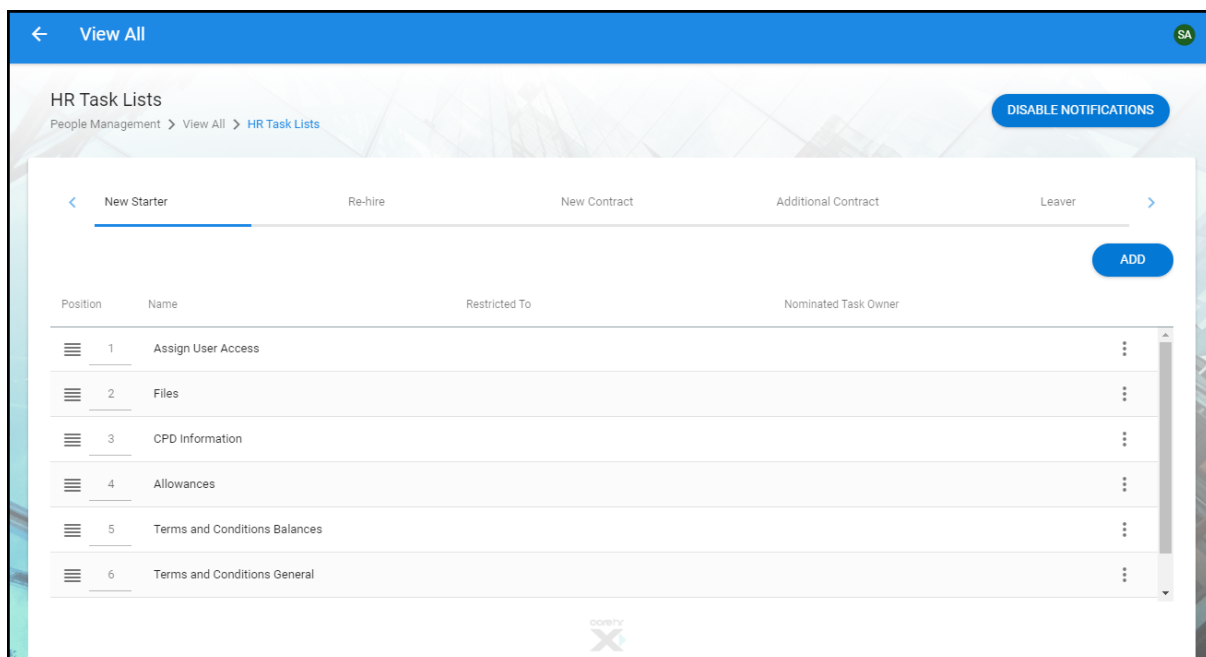

2.1. Accessing the *HR Task Lists* Screen

To setup *HR Process Task Lists*:

1. In *People Management*, select the *Data Centre* tab.
2. Open *HR Admin Setup Settings*.
3. Search for “HR Task Lists” and select the corresponding option.

The *HR Task List* screen opens.

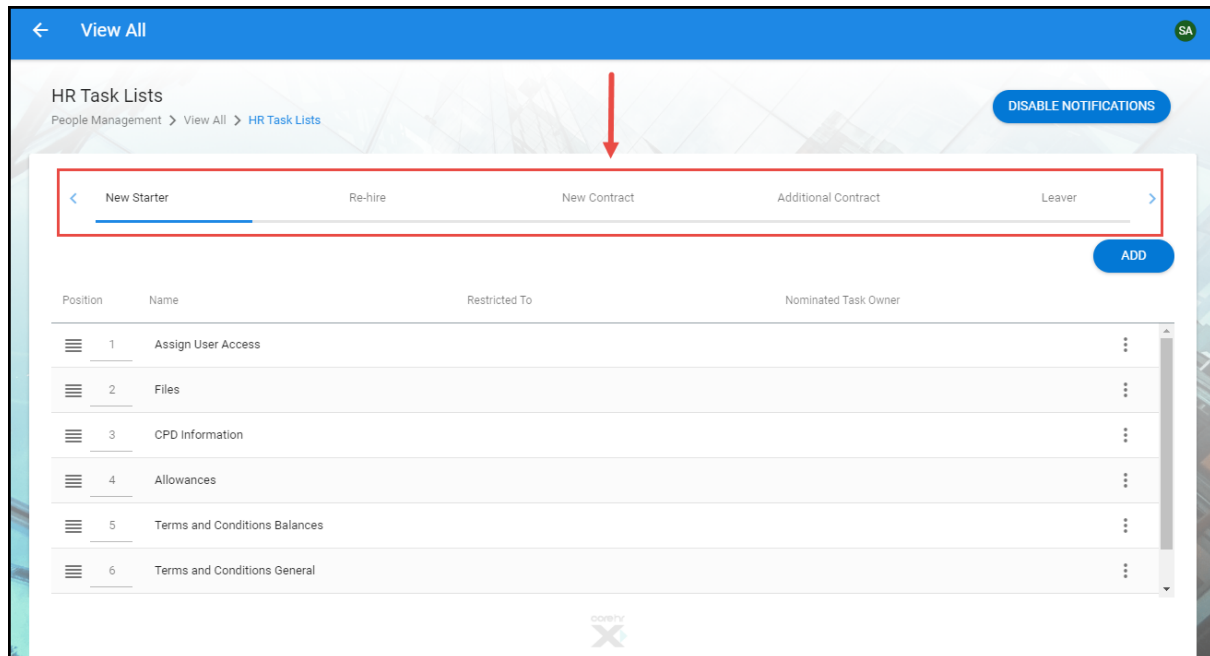

2.2. Create a Task List

2.2.1. Create Task List

To create a new Task List:

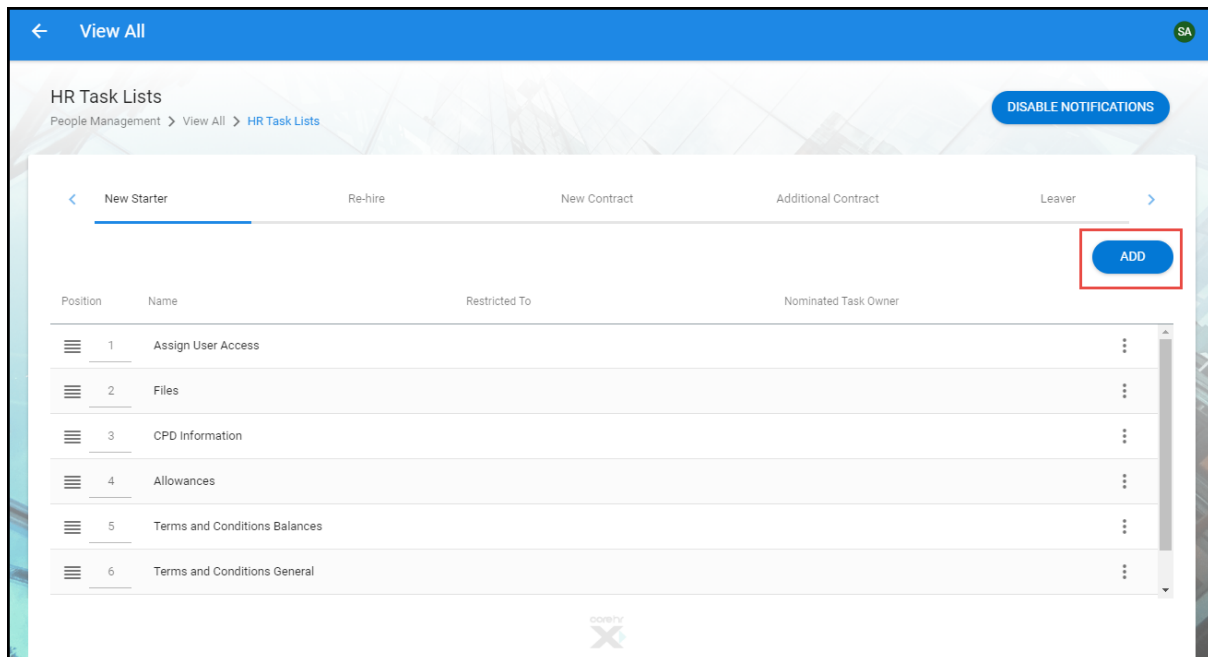

1. Select a Process from slider banner:

Process	Description
New Starter	Task list is available on completion of the <i>New Starter</i> wizard.
Re-hire	Task list is available on completion of the <i>Rehire Employee</i> wizard.
New Contract	Task list is available on completion of the <i>New Contract</i> wizard.
Additional Contract	Task list is available on completion of the <i>Additional Contract</i> wizard.
Leaver	Task list is available when an employee has been made a leaver.

2.2.2. Adding a Task List Item

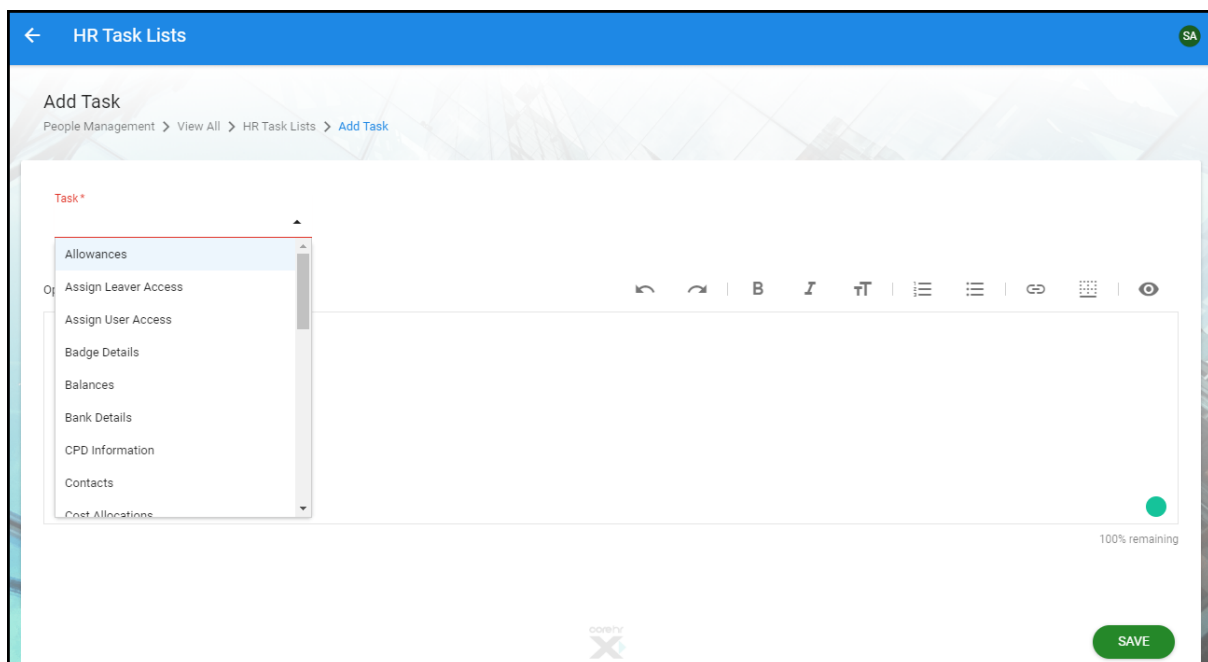

1. Click the **Add** button to add a task list step:

2. The *Add Task* screen appears

A drop-down list provides all of the steps that can be configured for the task list.

- Each step corresponds to a different screen.
- The same list of steps is available for each process.

3. Select the required step.

See the [2.1.3 Task List Steps & Screens](#) for guidance as to the what each step gives access to.

4. The *Optional Information* text field is available when configuring every task item. The information provided here is displayed to the user when completing the task, to give them further guidance on what they may need to do.
5. To remove a step from the list, click **Delete** for the step.
6. Once all steps have been added click the **Save** button.

The task list is available to the user on completion of the corresponding process in *People Management*.

Note:

- All tasks are mandatory.
- Tasks can be completed in any order.

2.3. Task List Steps & Screens

Each task list step opens an existing People Management screen. The task list is effectively a shortcut to allow the user to jump directly to the required screen to review update data for the employee/contract record.

In this section, each available step is listed, and a screenshot is provided for the corresponding screen.

Each of these screens is still subject to the same menu access requirements as it would be in its normal location e.g. if access is required to view and / or update data on the screen. Please refer to the relevant configuration guide for each screen for details on what menu options are required. These are not provided in this document.

2.3.1. Allowances

The screenshot shows the 'Allowances' screen within the XD People Management system. The breadcrumb trail at the top reads: 'People Management > Starters > Mark Lynch (000140) > Allowances'. The main heading is 'Allowances'. Below the heading is a form with a dropdown menu for 'Approval Status*' and a blue 'ADD' button. A table with the following headers is displayed: 'Allowance', 'Start Date', 'End Date', 'Value', and 'Status'. The table is currently empty, with the text 'NOTHING TO SEE HERE' centered below the headers. At the bottom right of the table area, it shows '0 - 0 of 0' with navigation arrows. The 'corehr' logo is visible at the bottom center, and a green 'SAVE' button is at the bottom right.

XD People Management: Task List Configuration - User Guide

2.3.2. Assign Leaver Access

The screenshot shows the 'Assign Leaver Access' interface for Allegra Mueller (000164). The interface is divided into two main sections. On the left, under the 'AM' profile icon, there is a search bar and a table of 'Leaver Profiles'. The table has columns for 'Profile Name' and 'Expire Days'. One row is selected: 'Leaver Profile' with '14' days. On the right, under the 'LP' profile icon, there is a search bar, a 'Full Copy' button, and a section for 'Access for Selected Employee' which shows a dropdown menu with 'COREPORTAL_EMPLOYEE' selected. At the bottom right, there is a green 'COPY ACCESS' button.

2.3.3. Assign User Access

The screenshot shows the 'Assign User Access' interface for Colin Park (000154). The interface is divided into two main sections. On the left, under the 'CP' profile icon, there is a search bar and a table of 'Employees'. The table has columns for 'Name', 'Job Title', 'Department', 'Start Date', 'End Date', and 'Match'. Four rows are listed, with 'Patrick Mason' (000144) selected. On the right, under the 'PM' profile icon, there is a search bar, a 'Full Copy' button, and a section for 'Access for Selected Employee' which shows a dropdown menu with 'Menu Profiles' selected. Below this, there are sections for 'Pay Users', 'Org Roles', 'Expense', and 'Training'. At the bottom right, there is a green 'COPY ACCESS' button.

2.3.23. Terms and Conditions Balances

The screenshot shows the 'Balances' tab in the XD People Management system. The left sidebar contains a menu with items: Manager, Current Salary, Pension Contributions, Deductions, Cost Allocations, User Defined Data, Terms And Conditions (highlighted), Files, Onboarding, and Probation Details. The main content area has tabs for General, Pay, and Balances. The 'Balances' tab is active, displaying a table with columns: Balance, Balance Code, Balance Type, Segment, Rule, and Status. A single row is visible with the following data: Annual Leave, AL01, Days, Full, and a green 'Assigned' status button. At the top of the main content area, there is a header bar with a profile icon 'PL', an 'Active' status, the role 'Accountant', a dropdown arrow, the start date 'Start Date 08-Jan-2018', and a 'Payroll Status: Closed for ...' button.

Balance	Balance Code	Balance Type	Segment	Rule	Status
Annual Leave	AL01	Days	Full		Assigned

2.3.24. Tax Details

The screenshot shows the 'Tax Details' page in the XD People Management system. The breadcrumb trail at the top reads: People Management > Employee Search > Noel Murphy (000138) > Tax Details. The page is titled 'Tax Details' and features a 'Pay Profile' section. This section includes fields for Start Date (18-Feb-2018), Latest Start Date (18-Feb-2018), and Leave Date. Below these are fields for Period P45 Issued, Pay Group* (Focus Payroll), and Input Location* (Standard Default Input Location). There is also a toggle switch for 'Is Employee paid on Timesheet...' and a 'Project' label. The 'Pay Details' section below contains fields for Position, Point, and Rate. The 'corehr' logo is visible at the bottom center, and a green 'SAVE' button is located at the bottom right.

SAVE

2. Update as required:
 - Click **Add** to add a new step.
 - To remove a step from the list, click the **Delete** button for the step.
3. Once all steps have been added click the **Save** button.

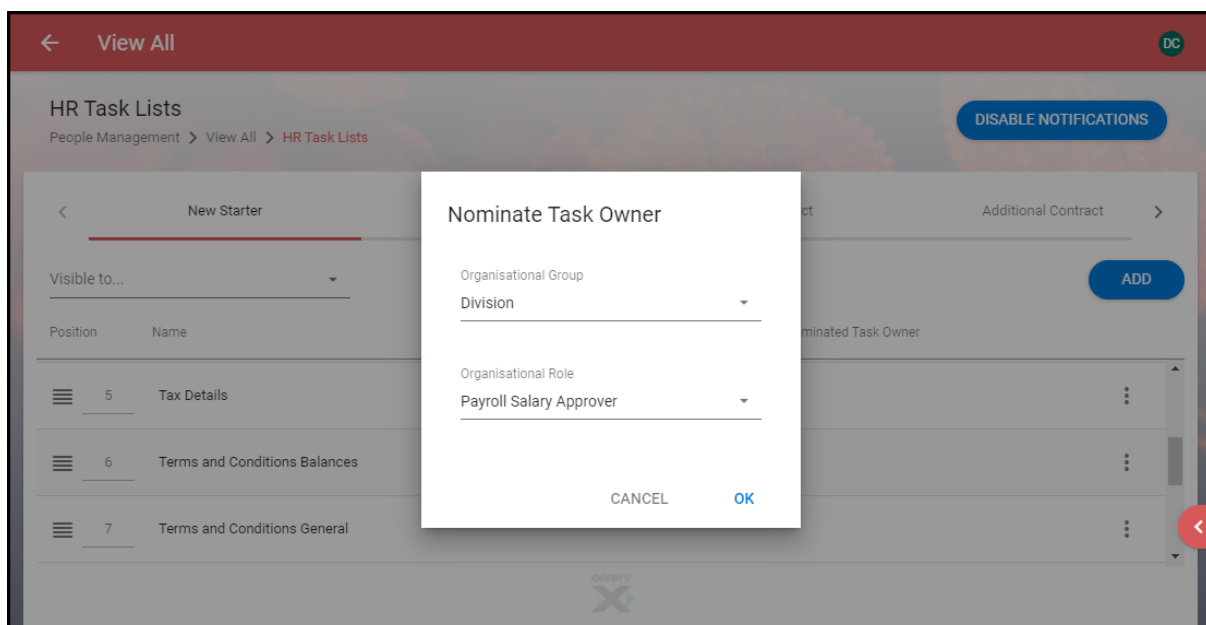

Note If the task list is currently in progress for an employee's contract, the completion status is cleared for all steps. However, and data recorded and saved by the step is still saved and available for the user to review. They just need to re-complete the task step.

2.5. Nominating Task List Step Owners

Task list items can now be assigned to specified owner to complete.

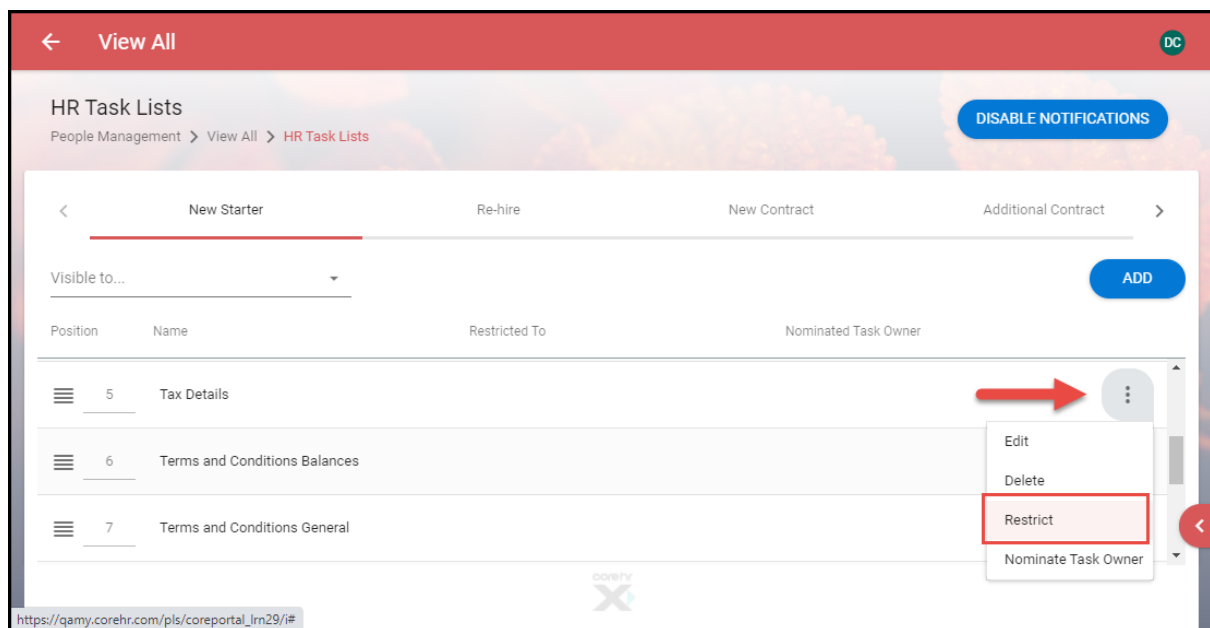

- The task ownership is identified using a specified org role/org group assignment.
- For example, access to *Assign User Access* may be restricted to security administrators only.

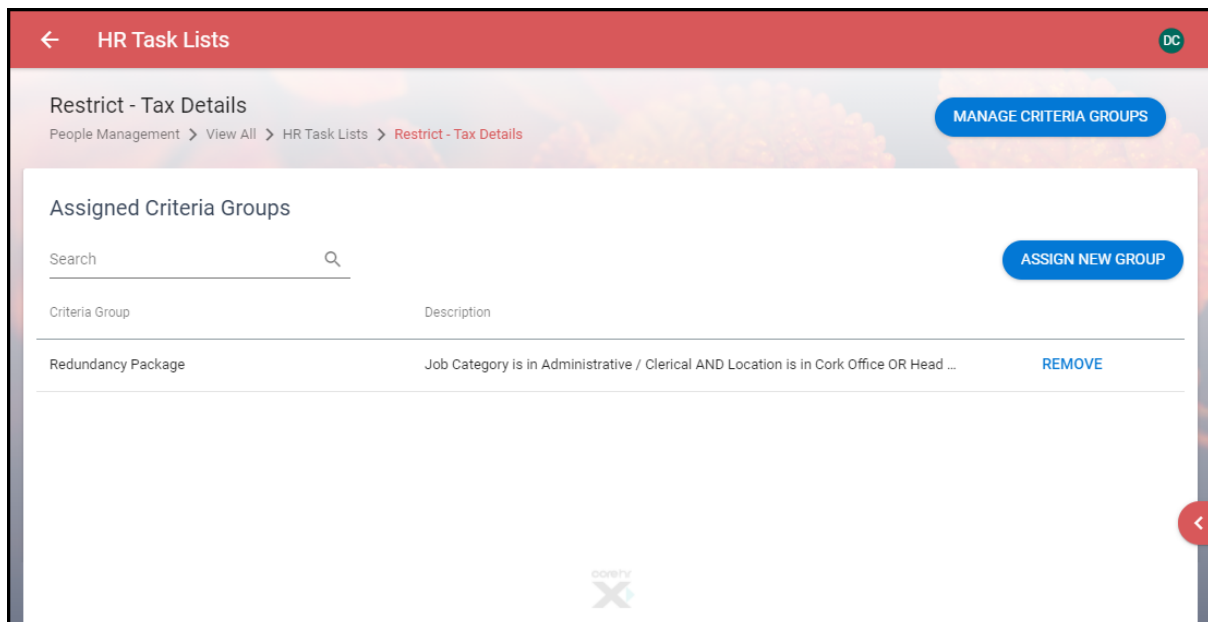

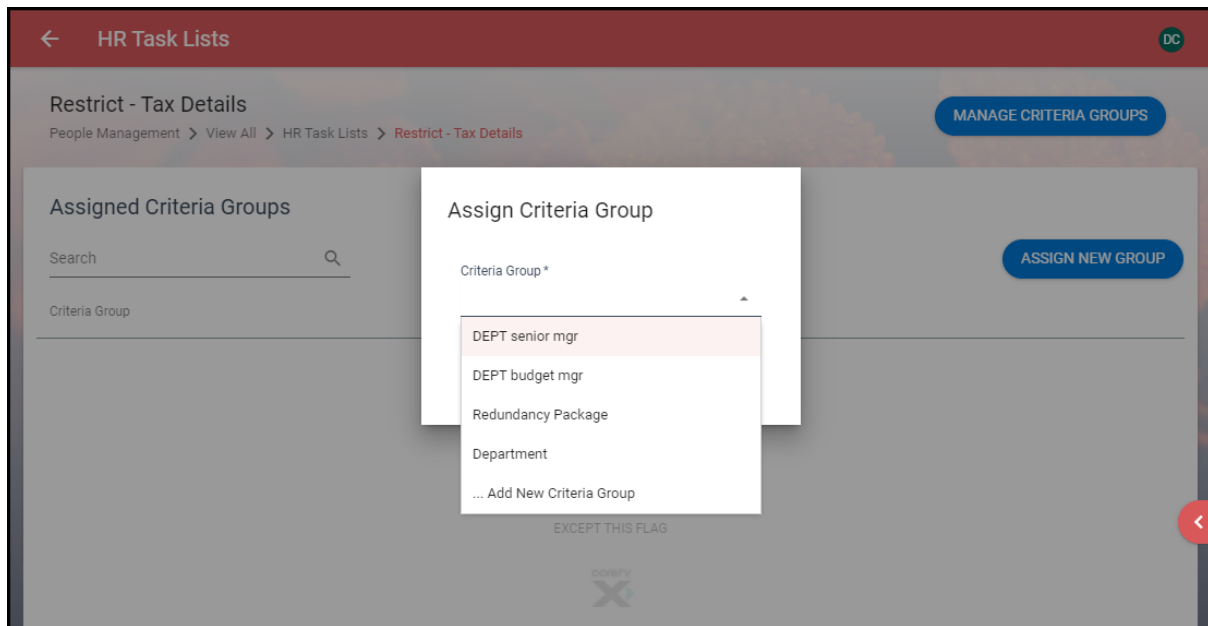

- If a user is not the owner and doesn't have access to complete a task item, they will see the item on the Task List screen, which flags the Org Role responsible for completing the task and they will be prevented from access the task itself.

2.6. Restricting Task List Steps

- Task list items can be restricted, allowing you to create tailored task lists for different employee categories and functions e.g. different task list items to be assigned to permanent v agency staff.

- This is achieved using criteria groups i.e. only assign this task if the employee is in one of the defined Criteria Groups.

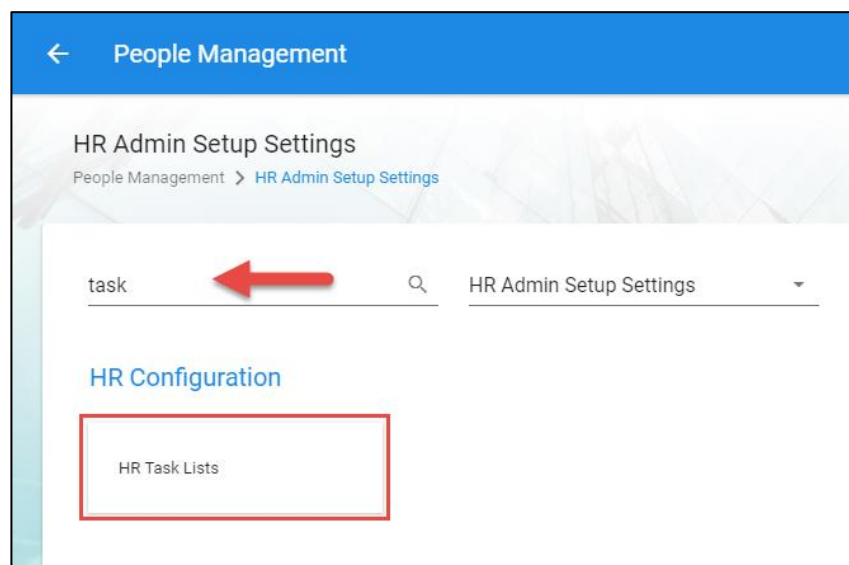

- If no restrictions are set, the task is applicable to all employees.

3. Task List Notifications

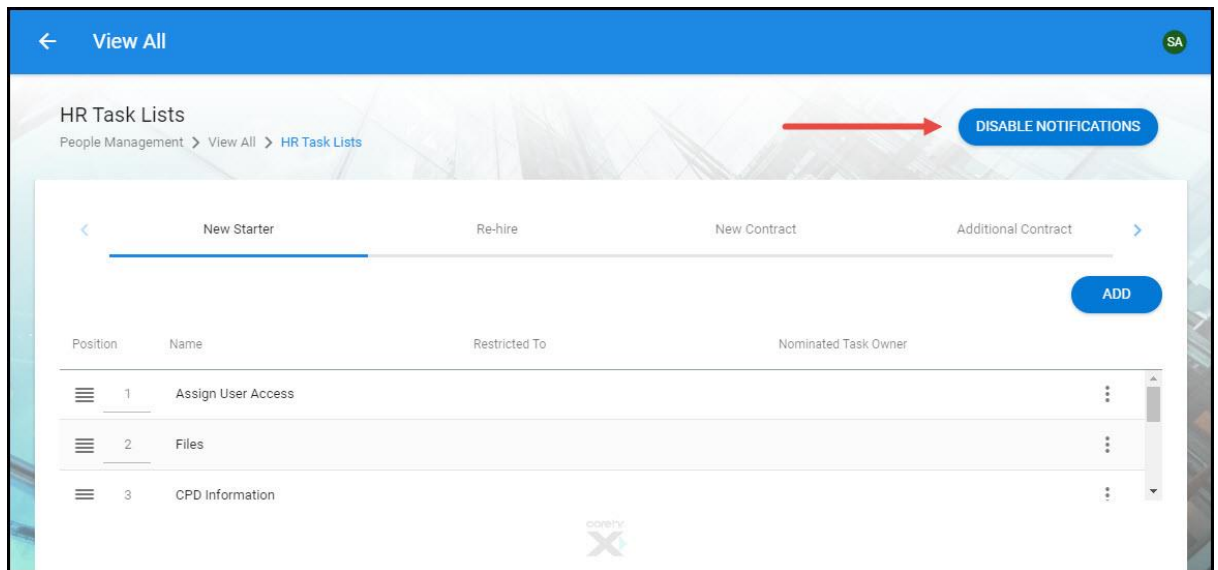

There is an option to enable / disable notifications that can be sent to all users for all task lists that are outstanding.

To update this parameter:

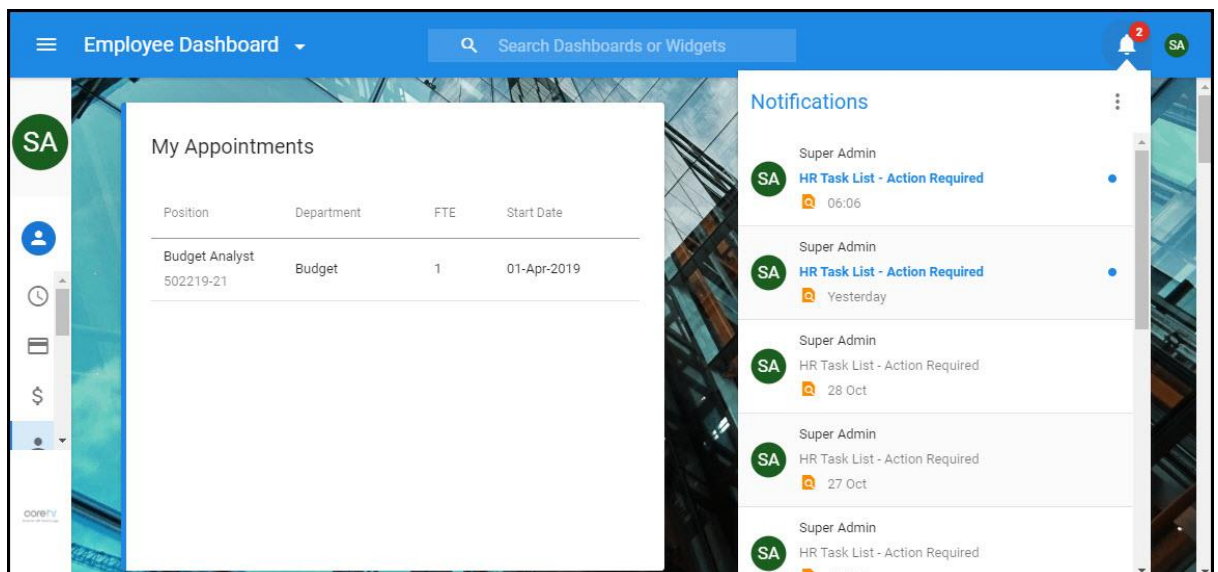

1. Go to the *People Management* dashboard, select the *Data Centre* tab.
2. Open *HR Admin Setup Settings*.
3. Search for “HR Task Lists” and select the corresponding option.

4. On the HR Task List configuration screen click on the **Disable Notifications / Enable Notifications** button.

If on, daily notifications are triggered to send to users via the Notification Centre, with task list items to complete. You can click on the task and jump straight to the Onboarding Progress screen to complete it:

5. To update the text in the notification, go to the *Administrator Dashboard > Site Admin > Language Pack*.
6. Search for 'HR Task List' and update the label as required

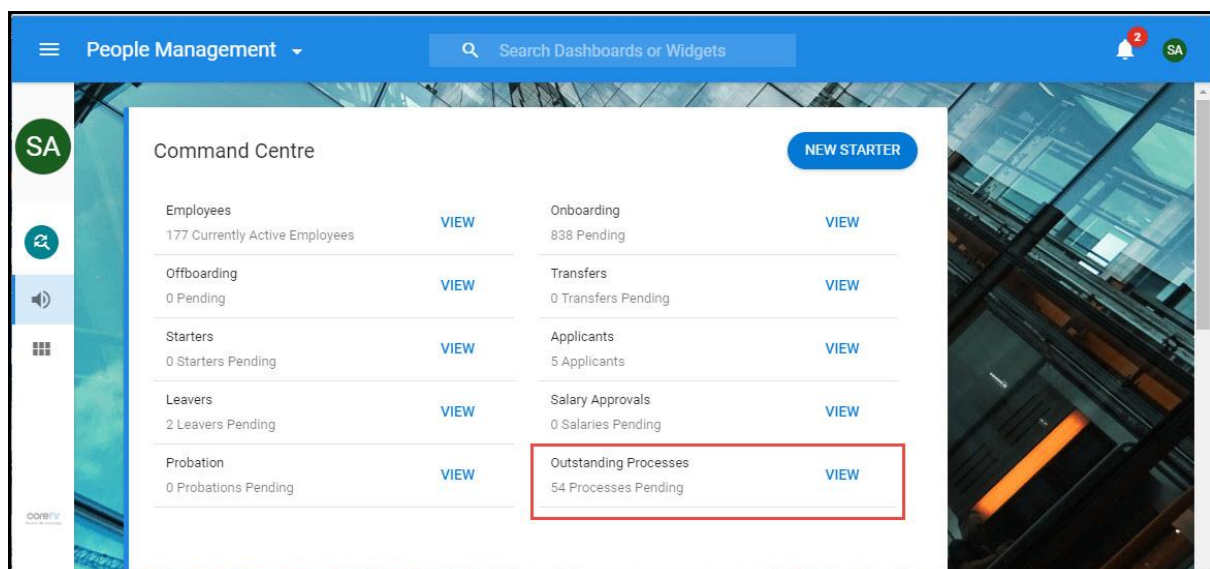

4. Outstanding Processes Screen

The *Outstanding Processes* screen can be added to the *Command Centre* which gives you a view of all of the task lists that are currently outstanding for joiners, movers, leavers that they have created.

You also have visibility of task lists for other employees that you have access to on People Management, so that you can complete tasks for them if required.

To view this screen and carry out a task:

1. Go to the *People Management* dashboard, select the *Dashboard* tab.
2. On the *Command Centre* widget, click the **View** button that corresponds to the *Outstanding Processes* option.

3. The number shown reflects how many Employees have outstanding processes against their record.
4. Within this screen, there are 4 sections which lists the employees in question who have tasks left to complete.

Section	Explanation
My Processes	This shows all employees that you have access to and can update and carry out processes on their behalf.
Joiners	This section explicitly shows all the Joiners that you have access to.
Movers	This section explicitly shows all the Movers that you have access to.
Leavers	This section explicitly shows all the Leavers that you have access to.

5. Access to Contract Task Lists

5.1. Menu Options

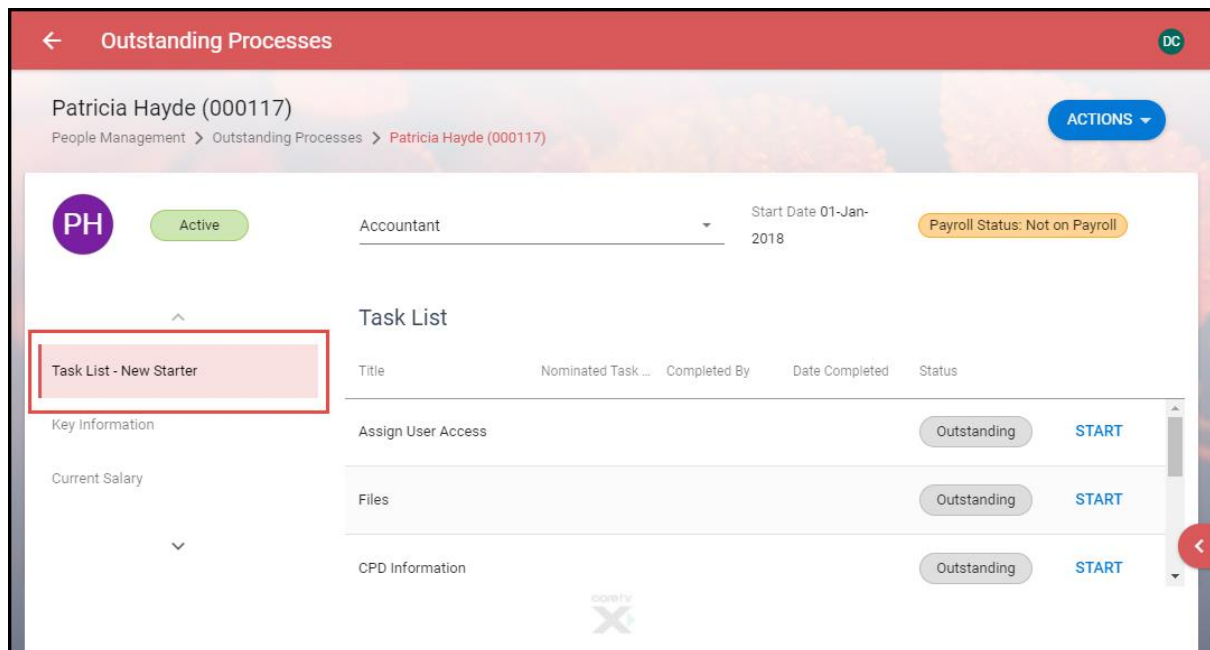

5.1.1. View & Update Task List

To access the *Task List* screen the following menu option is required:

System	Menu Option
People Management	Hr Process Update

This both:

- ensures the task list will pop up on completion of the new hire / replace contract / rehire wizard.
- makes the *Task List* option available on the employee record.

If the user does not have the menu option, the task list will not pop up or be available on the dashboard.

5.1.2. Task List Items

Each step on the task list will open an existing People Management screen (see [2.3 Task List Steps & Screens](#)). The user will require the same view & update menu options that are used to control the screen when it is accessed as normal.

If the user has not been granted the required access, the task item appears but the *Status* is “**No Access**” - see below:

The screenshot displays the 'Outstanding Processes' interface for user Gillian Morris (000125). The page includes a header with a back arrow, the title 'Outstanding Processes', and a user profile icon. Below the header, the user's name and ID are shown, along with a breadcrumb trail: 'People Management > Outstanding Processes > Gillian Morris (000125)'. A blue 'ACTIONS' button is visible in the top right corner.

The main content area is divided into two sections. On the left, there is a sidebar with a 'Task List - New Starter' section. The right section, titled 'Task List', contains a table with the following columns: Title, Nominated Task ..., Completed By, Date Completed, and Status.

Title	Nominated Task ...	Completed By	Date Completed	Status
CPD Information				Outstanding START
Tax Details				No Access VIEW
Payroll Instructional Form				Outstanding START

The 'Tax Details' row is highlighted with a red box, indicating the 'No Access' status. The 'CPD Information' and 'Payroll Instructional Form' rows show an 'Outstanding' status with a 'START' button.

Please refer to the relevant configuration guide for those screens, in order to find the menu options required.

5.2. Completing the Task List

1. On completion of the corresponding task, the status will be marked as *Complete* on the Task List.
2. Each item can still be reopened and updated until the task list has been fully completed.

The screenshot shows the 'Outstanding Processes' screen for Gillian Morris (000125). The screen displays a 'Task List' section with a table of tasks. A red box highlights the 'Status' column, which contains 'Complete', 'Outstanding', and 'Complete' buttons. The 'Outstanding' button is highlighted in blue, and the 'Complete' buttons are highlighted in green. The 'VIEW' button is also visible next to each task.

Title	Nominated Task ...	Completed By	Date Completed	Status	
Assign User Access		Declan Carey	13/Jan/2021 16...	Complete	VIEW
Files				Outstanding	START
CPD Information		Declan Carey	13/Jan/2021 16...	Complete	VIEW

The *Task List* option on the employee record is available until the list has been marked as completed. Once all steps are completed the screen is removed from the employee's record.
