1. Overview

1.1. Purpose of the Guide

This document outlines how to use and manage the Applicant side of PeopleXD Recruitment. It provides guidance on the Applicant Details that are created as part of an applicant's registration and application process on the Careers Website.

This guide includes how to navigate and use the dashboards and widgets available to PeopleXD users for the Recruitment product.

Note: This guide does not include:

- Steps on how to create a Vacancy within the Recruitment platform.
- Steps on how to manage the Careers Website.

2. Applicant Detail

2.1. Applicant Detail

2.1.1. Overview

Once a vacancy has been created, you are able to view applicants that have applied for the vacancy or manually add an applicant to the vacancy (bypassing applications from the Careers Website). The applicant record on PeopleXD Recruitment holds the following details:

- Applicant's personal detail
- Correspondence
- Events
- Diversity Details
- Vacancy & Application Detail
- References
- Documents
- Other Information (User Defined Fields)

 **Note:** Access to the Applicant Details is controlled by menu options. For detail on how to configure these screens and menu options, see the [XD Recruitment: Configuration Guide](#).

2.1.2. Creating an Applicant Manually

There is an option for you to create an applicant manually on behalf of a user that may not have the access to login to PeopleXD as an internal applicant or register as an external applicant via the recruitment website.

To do this:

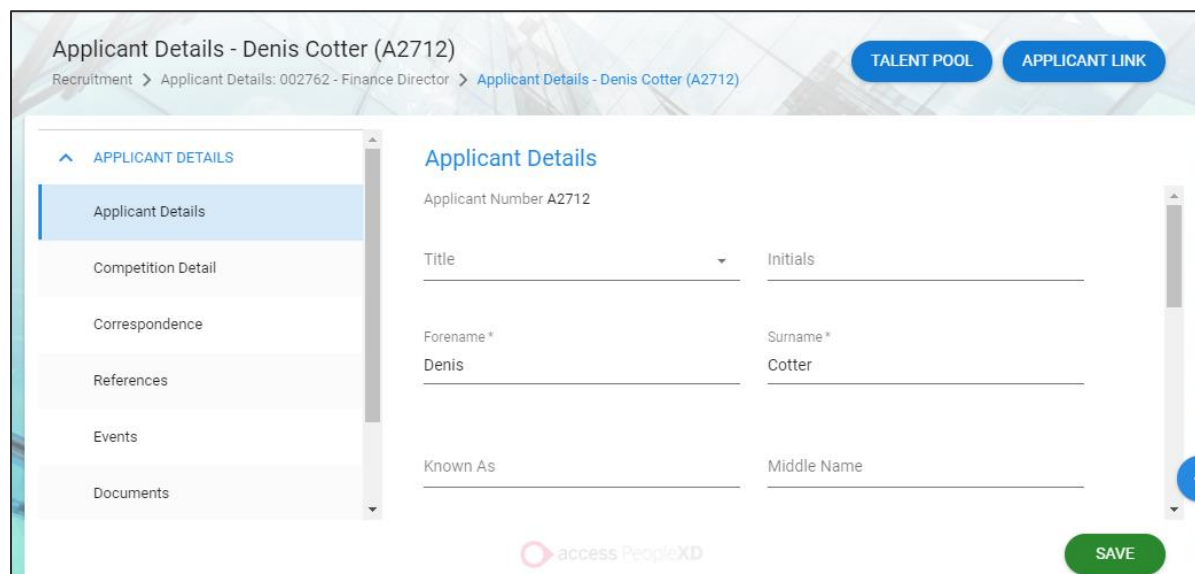

1. Navigate to the Recruitment dashboard.
2. Navigate to the Applicants widget on the Applicants tab.
3. Click **Add Applicant**.

The following options are available to select from on the *Add Applicant* pop-up box:

Item	Explanation
Select Person	This is a drop-down box with all employees listed for you to link this applicant to. If selected, the other 3 options automatically populate. Leave this blank if the applicant is external.
Forename	First name of the applicant.
Surname	Second name of the applicant.
Email Address	Email Address of the applicant.

- Click **OK** to save.
- This opens the *Applicant Detail* screen.

2.1.3. Applicant Details

Applicant Details

The table below shows what personal information is captured within this screen for an applicant.

Item	Mandatory	Item	Mandatory
Applicant Number	Y (System Generated)	Applicant Type	Y
Title	N	PPS / NI / RSI Number	N
Initials	N	Address	Y
Forename	Y	LinkedIn	N
Surname	Y	Phone Number	N
Known As	N	Mobile Number	N
Middle Name	N	Email Address	Y

 **Note:** The details updated on an applicant's application form take precedence over the details that are entered as part of the applicant's initial registration process.

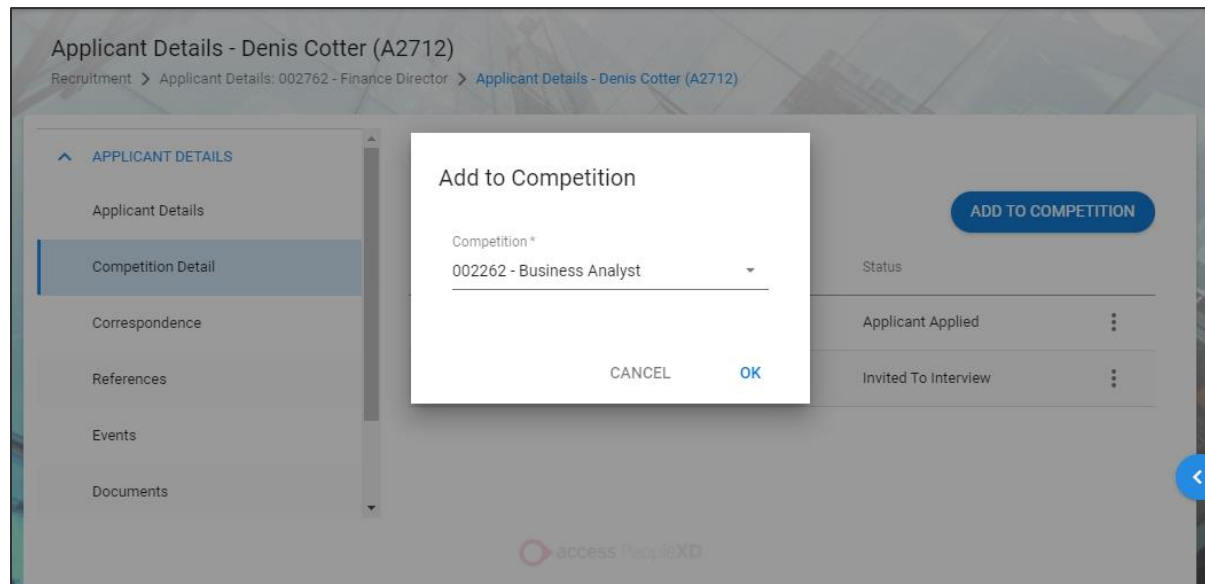

Applicant Address Details

This is captured when an applicant applies for the Vacancy on the Careers Website, but it requires the applicant to have supplied this information when they register initially. This information is captured during the website registration stage that the applicant carried out.

Competition Details

To add any existing applicant to a vacancy:

1. Navigate to the *Recruitment dashboard* and select **Applicants**.
2. Navigate to the **Applicants** widget and search for the applicant.
3. Click **View**.
4. Select the *Competition Details* tab.
5. Click **Add to Competition**.
6. Select the vacancy from the drop-down list and click **OK** to save.

Note: Existing applicants can be added to a vacancy manually via this process. However, the application form is blank as it was not filled out on the recruitment website.

Correspondence

Full details on Applicant Correspondence can be found in [section 4. Applicant Correspondence](#)

References

To add a reference for an Applicant that has applied, follow the below steps.

1. Navigate to the *Recruitment dashboard* and select **Vacancies**.
2. Navigate to the **Vacancies** widget and search for the vacancy.
3. Expand the **Actions** menu and click **View Applicants**.
4. For the relevant applicant expand their 3-dot menu and select **Applicant Details**.
5. Select the **References** tab.
6. To add a new Reference, click **Add Reference**.

The following table outlines the information stored on this screen:

Item	Description
All Vacancies	This returns a list of Vacancies that this reference information relates to.
Permission to Contact	Enabling this confirms that you can contact this person as a reference for further details.
Title	The person's title.
Forename	The person's forename.
Surname	The person's surname.
Position	The person's job title / position in an organisation.
Company	The name of the company the person is employed at.
Contact Details	This is the person's contact details if required.
Address	This is the person's or company's address if required.

Events

To view these events on the applicant's record:

1. Navigate to the *Recruitment dashboard* and select **Vacancies**.
2. Navigate to the **Vacancies** widget and search for the vacancy.
3. Expand the **Actions** menu and click **View Applicants**.
4. For the relevant applicant expand their 3-dot menu and select **Applicant Details**.
5. Select the **Events** tab.

2.2. Applicant Types

2.2.1. Internal

Internal Applicants are applicants that have applied for a vacancy via the PeopleXD Portal widget *Open Positions*. The system flags any applicant as internal if their email address (registered / applied) matches the one specified in the email contact type in PeopleXD and they are active on People Management.

2.2.2. External

External Applicants are applicants that:

- have applied via the Careers Website. Have not registered using an internal email extension and **are not** linked to an existing employee record at the time of applying.
- are applying via a user using the agency portal functionality.

 **Note:** If applicant updates their email address on the Careers Website thereafter (and is now different to the email contact type on PeopleXD), the system determines if they are an internal or an external applicant following this update.

3. Managing Vacancy Applicants

3.1. Viewing Applicant Details

To view applicants for a vacancy:

1. Navigate to the *Recruitment dashboard* and select **Vacancies**.
2. Navigate to the **Vacancies** widget and search for the vacancy.
3. Expand the **Actions** menu and click **View Applicants**.

The Vacancy Summary screen displays. This screen displays all applicants and gives Recruiters and Hiring Managers a quick, visual overview of how many candidates are at each stage of the hiring process, making it easier to track progress and manage the recruitment pipeline.

Applicant Details: 001282 - Workforce Planner EDIT STAGE ACTIONS						
Recruitment > Applicant Details: 001282 - Workforce Planner						
All Stages	Applicant Applied	Applicant Shortlisted	Invited To Interview	Appointment Offer Made	Applicant Successfully Hired	
3	0	0	2	1	0	
Search Applicants Application Status ▼						
Applicant	Type	Status	Experience	Location	Comments	Progress
Emma Briggs (A2020)	External	Appointment Offer Made	<1Year	United Kingdom	0	0%
Fred Flintoff (A2149) Hr Receptionist	Internal	Invited To Interview	3 Years	United Kingdom	0	0%
Brian May (A2012)	External	Invited To Interview	<1Year	United Kingdom	0	0%

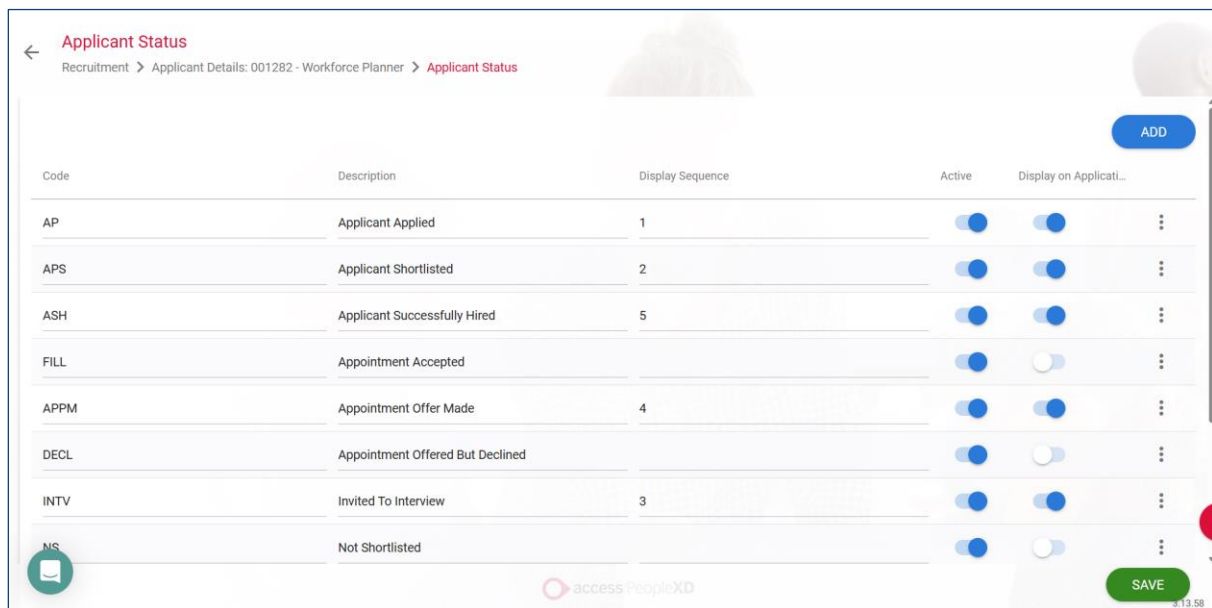

When viewing a vacancy, you can see:

- Total number of new applicants who haven't been reviewed yet
- Number of candidates at interview stage

- Number of offers made
- Number of candidates rejected

Administrators can customise which stages appear on the summary screen. To do this:

1. Click **Edit Stage**.
2. Use the **Display on Application List** toggle, to select which stages to display.
3. Use the **Display Sequence** to order the stages selected.
4. Click **Save**.
5. These changes will apply to all users in your organisation.

3.2. Viewing Application Details

To view the application of each applicant for a vacancy:

1. Navigate to the *Recruitment dashboard* and select **Vacancies**.
2. Navigate to the **Vacancies** widget and search for the vacancy.
3. Expand the **Actions** menu and click **View Applicants**.
4. For the relevant applicant expand their 3-dot menu and select **Application Details**.

The screenshot shows the 'Applicant Details: 002762 - Finance Director' page. At the top, there's a search bar and an 'ACTIONS' button. Below is a table of applicants with columns: Applicant, Application Date, Source, Type, Comments, Assessment Sco..., and Status. A dropdown menu is open for the first applicant, showing options: Edit Status, Comments, Schedule Video Interview, Applicant Details, Application Details (highlighted with a red box), Status History, and Assessment History.

Applicant	Application Date	Source	Type	Comments	Assessment Sco...	Status
Colm Glavin (A2091) Developer 7054	02-Apr-2021	Careers Webs...	Internal	0	0%	Applicant Applied
Gemma Hayes (A2733) Development Team Lead 7304	02-Apr-2021	Careers Webs...	Internal	0	0%	Applicant Applied
Keith Murphy (A2574)	02-Apr-2021	Careers Webs...	External	0	0%	Applicant Applied
Jack Sparrow (A2572)	02-Apr-2021	Careers Webs...	External	0	0%	Applicant Applied

Note: The details on this screen are read-only. The details shown on the Application Details represents the information that the applicant has supplied on the application form on the Careers Website.

The following table show what appears on this screen.

Section	Item	Description
Details	Applicant ID	This is the system generated Applicant ID
	Name	This is the name of the applicant
	Email	This is the applicant's email address that they have registered on the Careers Website with
	Address	
	Status	This is the applicant status
	Vacancy	This is the name of the vacancy the applicant has applied for
	Vacancy ID	This is the system generated Vacancy ID
Questions and Answers	Date Applied	This is the date the applicant applied for this position on
	Registration Questions and Answers	This returns the registration questions that were answered on initial sign-up to the Careers Website.

Section	Item	Description
	Application Questions and Answers	This returns the specific set of vacancy answers that are part of the application process on the Careers Website. Both questions that are added on the vacancy configuration and any questions created as part of the application form on the Careers Website are shown here.
Documents	Document Details	This includes any documents that were uploaded by the applicant as part of the application process for this vacancy

3.3. Update Applicant Status

The process of updating an applicant's status is one of the main features in recruitment that is needed to move applicants along from having applied, to being invited to interviews, eventually being sent an offer to the job, and then becoming a successful applicant that is to be hired into People Management.

There is also an email feature which allows for an email to be generated, based on the update of the applicant's Applicant Status value on the system. Details of this are provided in the [PeopleXD Recruitment: Configuration guide](#).

3.3.1. Updating Applicant Status Manually

To update an applicant's status manually:

1. Navigate to the *Recruitment dashboard* and select **Vacancies**.
2. Navigate to the **Vacancies** widget and search for the vacancy.
3. Expand the **Actions** menu and click **View Applicants**.
4. For the relevant applicant expand their 3-dot menu and select **Edit Status**.
5. The Edit Status pop-out opens.
6. Select the new applicant status from the **Status** dropdown menu.
7. Enter additional comments, if required.
8. Click **OK**.

The applicant statuses available to select are outlined in the below table:

Description	Explanation
Applicant Applied	Initial status that an applicant has when applying.
Applicant Shortlisted	Applicant put on shortlist
Applicant Successfully Hired	Applicant has been brought onto People Management as a new starter, rehire, or change in contract
Application Pack Sent Out	An application pack has been sent out to interview panel members to view their applicants.
Appointment Offer Made	Your organisation has sent an offer letter to the applicant in question.
Appointment Offer but Declined	The applicant has refused to accept your job offer.
Invited to Interview	The applicant has been invited to an interview.
Offer Accepted	The applicant has accepted the offer that you have provided.
Successful at Interview	The applicant has been successful at the interview round of this vacancy.
Unsuccessful at Interview	The applicant has gone through the interview process but has not been selected to go forward to any other rounds.
Withdrawn Application	This applicant has withdrawn their application.

 **Note:** Your organisation may configure many other applicant statuses to be used in the recruitment process. Please refer to the [PeopleXD Recruitment: Configuration](#) guide for steps on setting up new applicant statuses or editing existing ones.

3.3.2. Updating Applicant Status in Bulk

It is possible to update and manage the applicant statuses of applicants in bulk if there are changes to be made for many applicants. By using Bulk Update screen, the status of multiple applicants can be updated at once. You can select applicants depending on their status, and update from one status to another. The *Bulk Update* screen defaults to showing all applicant statuses. To do this:

1. Navigate to the *Recruitment dashboard* and select **Vacancies**.
2. Navigate to the **Vacancies** widget and search for the vacancy.
3. Expand the **Actions** menu and click **View Applicants**.

4. Expand the **Actions** menu and select **Bulk Update**.

4. Applicant Correspondence

4.1. Sending Correspondence to Applicants

At all stages throughout the recruitment process, it is possible to automatically generate correspondence to the applicant from the system.

For example:

- An automatic notified to confirm the application has been received.
- An email to confirm that they have been shortlisted.
- An email to invite them to attend an interview.
- A hard copy of a printed offer letter.

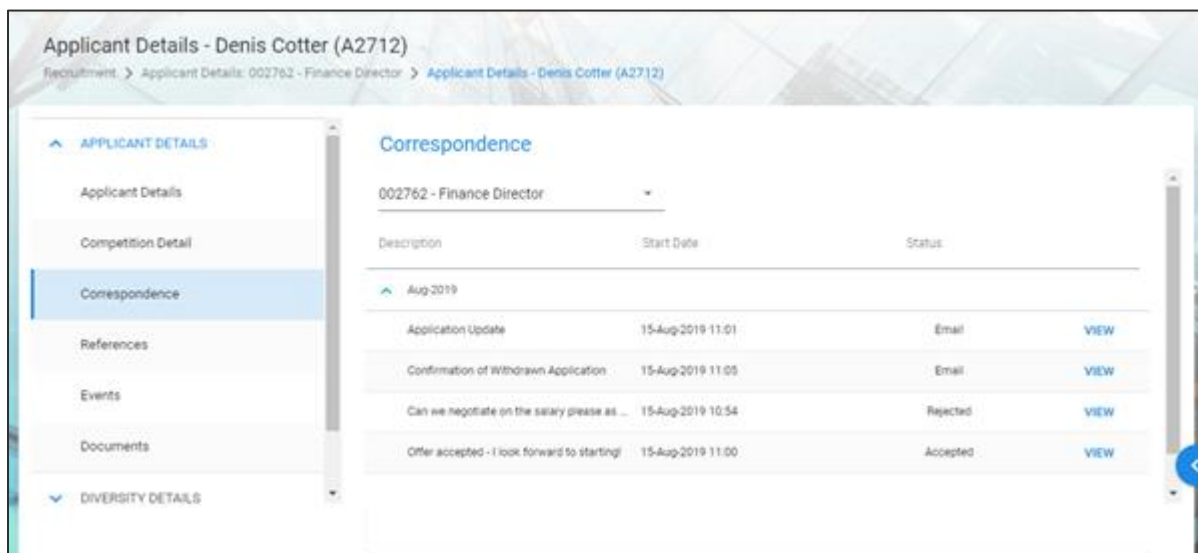

There are several ways that correspondence can be configured.

Correspondence Type	Description
Recruitment website alerts	These are automated notifications sent to the applicant triggered by a task that they have completed on the recruitment website e.g. applying for a vacancy. These are managed within the Careers Website.
Applicant Status emails	When an applicant status is updated, you can configure the system to give you the option to send an email directly to the applicant e.g. if the status was update to Application Withdrawn, an option may appear with a pre-populated email that you can update, attach documents to, and send to the applicant. See the Configuration Guide for further details.
Generate Document	The document and email generation functionality is available in Recruitment to produce a mail merged document which includes vacancy and applicant details e.g. this could be used to produce a hard copy of the job offer letter. This is a suitable option for any correspondence that need to be sent to the applicant rather than emailed. See the Document and Email Generation guide for further details.

Correspondence Type	Description
Generate Email	As per Generate Document, this allows you to generate an email to send to one or many applicants using a pre-configured email template e.g. you could use this option to send an email in bulk to all applicants who have not been shortlisted for a vacancy. See the Document and Email Generation guide for further details.
EMS	EMS alerts can also be sent to applicants and interview panel members as records are updated in the system. The following are the relevant EMS event categories for recruitment: • Recruitment Advertising Events • Recruitment Applicant Events • Recruitment Events

4.2. Applicant Correspondence

Applicant correspondence is displayed on the Applicant Details screen, under *Applicant Details > Correspondence*. This displays a list of specific email correspondence types with the applicant, per vacancy. If an applicant has applied for more than one vacancy, use the *Vacancy* drop-down list to select each vacancy and view the corresponding mails.

4.2.1. What Correspondence Types are Available?

Emails that have been sent from PeopleXD to the applicant via the following processes, are available on the *Correspondence* screen and are flagged with *Email* status:

- EMS alerts
- Generate Emails button

4.2.2. What Correspondence Types are Not Included?

The following applicant correspondence types are not captured/displayed on the *Correspondence* screen.

- Any reply to emails from an applicant, in response to an email that has been sent from PeopleXD Recruitment. These are not captured, as they are directly emailed to the mailbox of the 'From' email address.
- Applicant notifications via the Careers Website are not included in the correspondence section. These are the job alert notifications that the applicants can sign up for and job offer information.
- Any correspondence not sent to the applicant e.g. sent to the interview panel, referees etc.
- Any other email / correspondence type not listed in above.

4.3. Using Applicant Correspondence

4.3.1. Email Correspondence

Applicant Status Emails

Email templates can be configured to automatically send an email to the applicant, when their *Applicant Status* has been updated to a specific value. For this to occur, an email template must be set up for the *Applicant Status* value.

To manage applicant status templates:

1. Navigate to the **My Recruitment Toolbox** widget on the *Recruitment Dashboard*.
2. **Open** Applicant Status.
3. For each *Applicant Status*, expand it's 3-dot menu and select **Email Template** to define the email template.
4. Use the **Email Notification** dropdown options to insert merge field, where required.

5. Once updated click **Save**.

The screenshot shows the 'Email Template - Invited To Interview' form. At the top, there is a breadcrumb trail: 'Recruitment > Applicant Status > Email Template - Invited To Interview'. Below this, there are two dropdown menus for 'Data Source': 'Applicant Schedule Detail' and 'Email Notification'. The 'Notification Subject *' field contains the text 'Invitation to Interview (<<RECRUITMENT_ID>>)'. The 'Notification Body *' field contains the text 'Dear <<APPLICANT_NAME>>,' followed by 'Further to your recent application, we would like to invite you to interview for the position of POSITION.' and 'Time: <<SCHEDULE_TIME_24H>>' and 'Date: <<SCHEDULE_DATE1>>'. At the bottom right, there are 'CLEAR' and 'SAVE' buttons. The 'access PeopleXD' logo is visible at the bottom center.

Using the example template above. If the status of an applicant has been updated to *Invited to Interview*, an email pop-up would appear with the option to send an email to the applicant.

The screenshot shows the 'Email Template' form. At the top, there is a breadcrumb trail: 'Recruitment > Applicant Details: 002762 - Finance Director > Email Template'. A blue 'UPLOAD ATTACHMENT' button is in the top right corner. The 'To' field contains the email address 'denisvacancy@abcsolution.ie'. The 'Notification Subject *' field contains the text 'Invitation to Interview (Finance Director)'. The 'Notification Body *' field contains the text 'Dear Denis Cotter,' followed by 'Further to your recent application, we would like to invite you to interview for the position of Finance Director.' and 'Time: 12:00' and 'Date: 02-APR-2021'. At the bottom right, there is a green 'SEND' button. The 'access PeopleXD' logo is visible at the bottom center.

When an email is sent to the applicant using this feature, it appears in the *Applicant Details > Correspondence* screen.

This includes:

- Applicant name and applicant number
- Applicant email address
- Vacancy description and vacancy ID
- Applicant status

- Email subject
- Email body
- Attachments

EMS Triggered Emails

Emails can be set up to automatically send to an applicant, using the *Event Category* of **Recruitment Applicant Events**.

Event Type	Last Run Date	Active Ind.	DB Trigger	Ignore Event Days	
Applicant Date Input	01-Mar-2007 00:00	☐	☒	60	...
Applicant Interview Date	01-Mar-2007 00:00	☐	☒	60	...
Applicant Nationality	01-Mar-2007 00:00	☐	☒	60	...
Applicant No.	01-Mar-2007 00:00	☐	☒	60	...
Applicant Start Date	01-Mar-2007 00:00	☐	☒	60	...
Applicant Status	25-Jul-2025 14:48	☒	☒	60	...
Applicant Status Date	01-Mar-2007 00:00	☐	☒	60	...
Application Committed Status	01-Mar-2007 00:00	☐	☒	60	...

Any emails sent to the client using EMS alerts that have been configured for this *Event Category* only, appear in the *Applicant Detail > Correspondence* screen.

Generate Emails (to Applicant)

Emails can be configured to send to applicants using the **Generate Email** option. These emails are displayed on the *Correspondence* screen.

This option is available on the following screens by expanding **Actions** and selecting **Generate Email**:

- Vacancy > Applicant Detail
- Vacancy > Vacancy Details > Schedule > Assign Applicant
- Vacancy > Vacancy Overview
- Interview Panel > Vacancy > View Applicants

XD Recruitment: Applicant Management - User Guide

The screenshot displays the 'Applicant Details: 001282 - Workforce Planner' page. At the top, there's a breadcrumb trail: Recruitment > Applicant Details: 001282 - Workforce Planner. A blue 'EDIT STATUS' button is visible. Below this, a summary bar shows the following counts: All Stages (3), Applicant Applied (0), Applicant Shortlisted (0), Invited To Interview (2), Appointment Offer Made (1), and Applicant S (0). A dropdown menu is open next to the 'Invited To Interview' count, showing options: Compare Applicants, Bulk Update, Generate Applications, Generate Document, and Generate Email. Below the summary bar is a search bar labeled 'Search Applicants' with a magnifying glass icon. Underneath is a table with columns: Applicant, Type, Status, Experience, Location, Comments, and Progress. The first row of the table shows: Emma Briggs (A2020), External, Appointment Offer Made, <1Year, United Kingdom, 0, and a progress bar at 0%.

Applicant	Type	Status	Experience	Location	Comments	Progress
Emma Briggs (A2020)	External	Appointment Offer Made	<1Year	United Kingdom	0	0%

Note: Only emails that are sent to the applicant via this process appear on the *Correspondence* screen. If emails are sent to others e.g. references, interview panel members etc, these are not tracked or displayed on the *Correspondence* screen.

5. Successful Applicants

5.1. Identifying Successful Applicants

A successful applicant is one that has gone through the recruitment process and has passed all interview rounds or assessments and has been shortlisted for the role. This applicant is now awaiting an offer for the job in your organisation.

To ensure the applicant is the ideal candidate to be hired, it is important to review:

- The application details of the applicant.
- Their performance in all interview rounds.
- Their assessment scores.
- Their applicant profile.

5.2. Applicant Offers

5.2.1. Create Offer

This is the final stage of the recruitment campaign for a vacancy. To create a job offer, it is required that you give an applicant the correct status to correctly show that an offer has been made. This means that applicant offers are triggered based on the selection of an appropriate applicant status value. This status is *Appointment Offer Made*.

To do this:

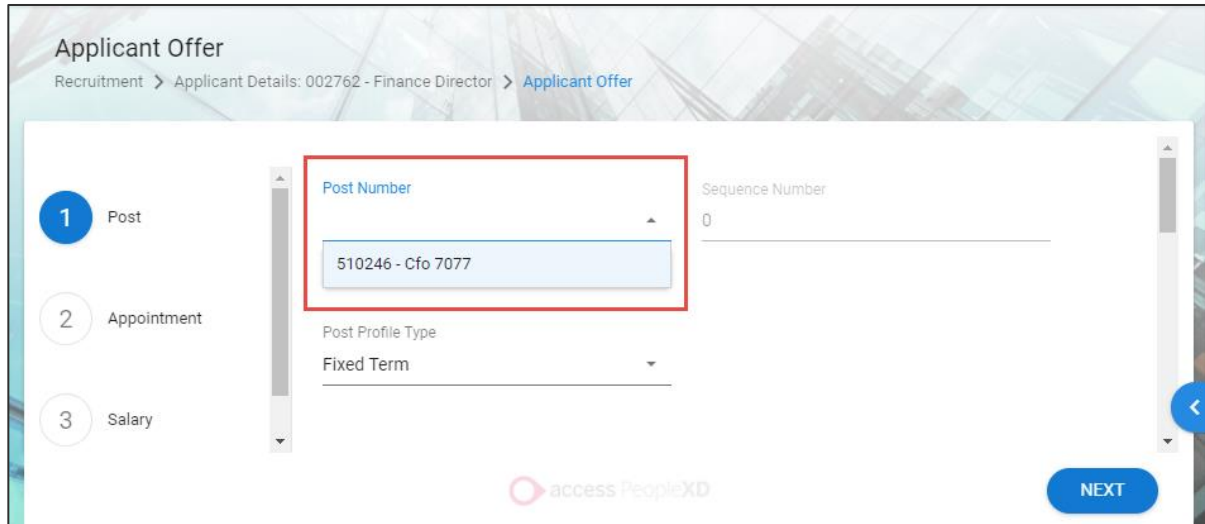

1. Navigate to the *Recruitment dashboard* and select **Vacancies**.
2. Navigate to the **Vacancies** widget and search for the vacancy.
3. Expand the **Actions** menu and click **View Applicants**.
4. For the relevant applicant expand their 3-dot menu and select **Edit Status**.
5. Select **Appointment Offer Made** and click **OK**.

Note:

- If the Staff Request process and / or Post Management is being used, the appointment that has been linked to the vacancy is used here to pre-populate the offer details.
- This includes information on the Post screen and the Salary screen; however details can be updated as required.

6. The *Applicant Offer* wizard opens. This is a 3-step wizard that guides you through the selection of the post that this applicant is to sit in once successfully hired.
7. As part of the vacancy creation, please review the [PeopleXD Recruitment: Vacancy Management](#) guide, where the linked post details are outlined.

8. Once the post has been selected, the *Hierarchy* details is updated with the details from the post. This is all the information that is needed to help the HR administrator set up this person on People Management as an employee:
 - Planned Start Date
 - Company, Division, and all other hierarchy fields defined on the post
 - Cost Centre
 - Location
 - Work Group
9. Click **Next**. This opens the *Appointment Details* screen. This allows you to record additional information on the appointment. There are several mandatory items that need to be recorded here:
 - Employee Status
 - Sub Status
 - Category
 - Hours (Employees Contracted Hours)
 - FTE Hours
 - Weeks (no of weeks an applicant is to work, i.e. on a reduced working week contract)
 - FTE Value

 **Note:** All these options are consistent with the setup of the new starter wizard in People Management.

10. Click **Next**. This opens the *Salary Details* screen.
11. Ensure that the following fields are filled out as this is filtered through to the New Starter wizard when the successful applicant is being brought into people management:
 - Pay Rate Type
 - Pay Scale
 - Scale Point
 - Rate (Hourly, Daily, Weekly or Annual)
 - Multiplier (This should be consistent with the FTE value on the Appointment screen)
 - Amount
12. Click **Save** to confirm the job offer details.
13. The applicant's status has now updated to be *Appointment Offer Made*.

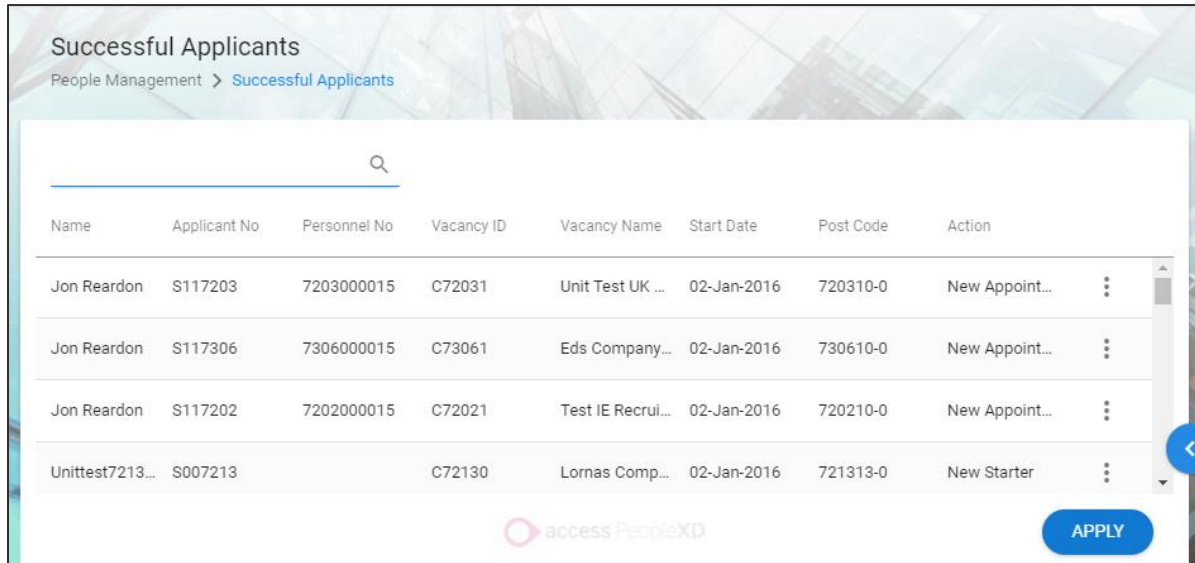

5.3. Onboarding Successful Applicants to HR

5.3.1. Searching for a Successful Applicant

Once a successful candidate has accepted the job offer and has been set to the correct applicant status, the applicant is available to review on the *Applicants* section of the *Command Centre* in People Management. To get to this area:

1. Navigate to the *People Management* dashboard.
2. From the *Command Centre* widget, click **View** on *Applicants*. This screen shows all available successful applicants that have had offers accepted via the recruitment module.

 **Note:** The applicant only appears on this screen once their offer has been accepted and their applicant status updated accordingly.

The following table outlines the items on this screen:

Item	Explanation
Name	The name of the successful applicant.
Applicant No	The unique applicant number given to the applicant.
Personnel No	This is the employee reference of an existing employee of the organisation if they already exist in the system.
Vacancy ID	This is the unique vacancy number on the vacancy the applicant applied for.
Vacancy Name	The name of the vacancy.
Start Date	This is the planned start date the applicant has.
Post Code	This is the appointment id / post number the applicant is assigned to once successfully hired.
Action	This is the type of applicant to be onboarded. • New Starter. • New Appointment • Rehire

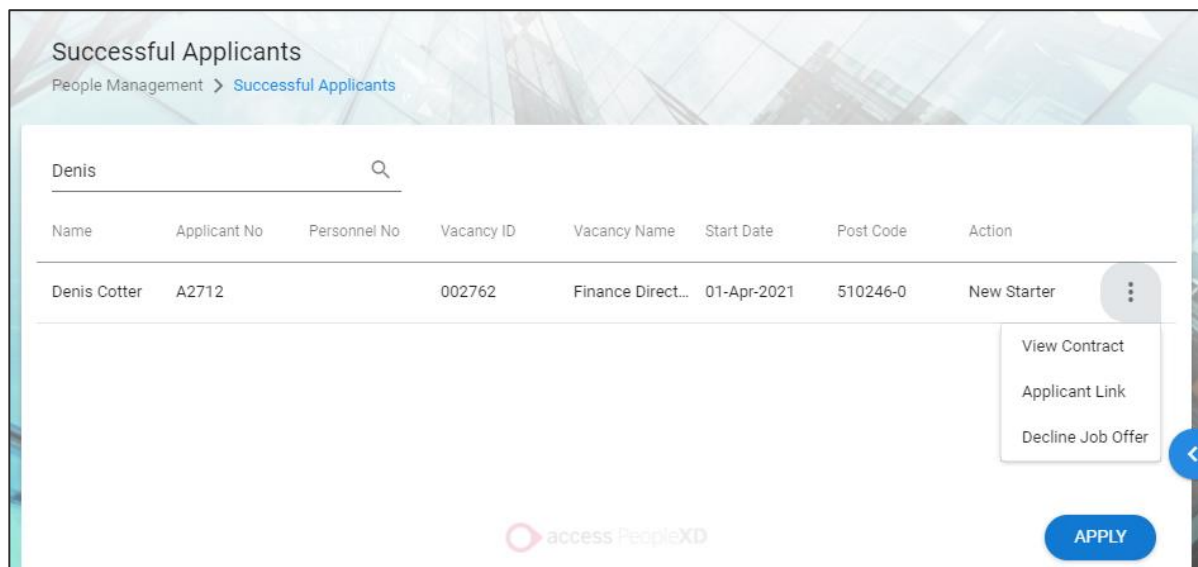

5.3.2. Creating a New Starter

Following on from searching for the applicant, one of the actions highlighted for an applicant is *New Starter*.

Note:

- The applicant is flagged as a *New Starter* on this screen i.e. someone who has never worked in your organisation before. This is confirmed as the *Personnel No* field is not populated for the applicant.
- This applicant is given a new personnel no that does not exist on the system already.

View Contract button

This opens the *Applicant Offer* screen in read-only mode for you to review. This is the same screen as you would have amended and updated with the appropriate offer details for the applicant.

Applicant Link button

This allows you to view and update any employee record that may be already set-up on the system for this applicant's record. To link an employee or an applicant:

1. Click the **Link Employee / Link Applicant** dropdown lists.
2. Find the record in question that may be linked or duplicated by this applicant.

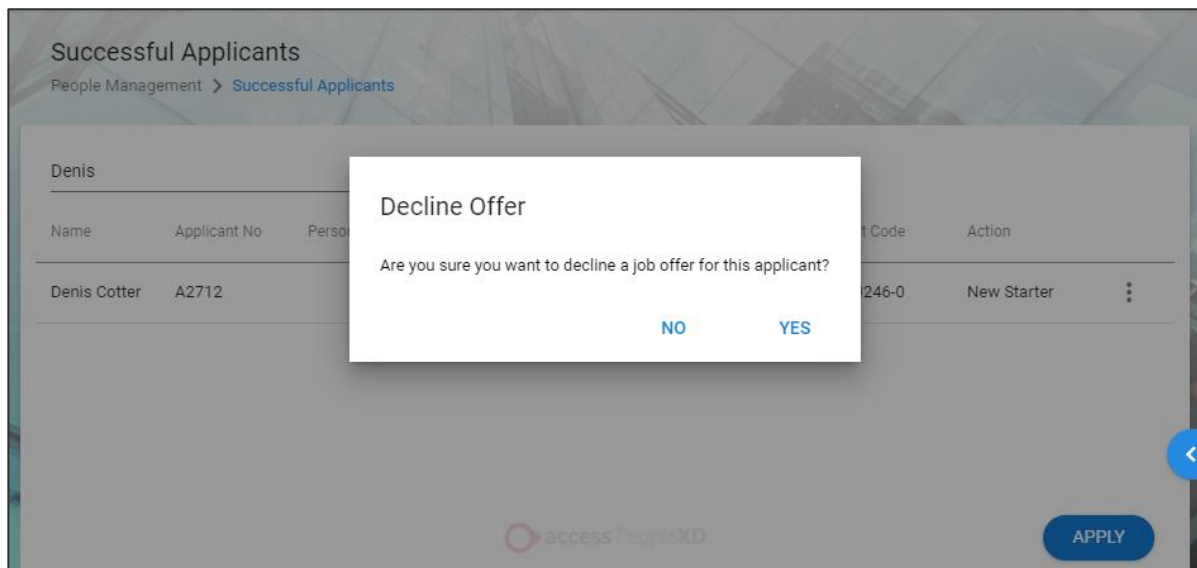

3. The Employee Link & Applicant Link sections is populated by your choice

If there is now an employee linked to this applicant, the applicant is no longer flagged as a new starter.

Decline Job Offer

This option is available for you to remove the applicant from the *Successful Applicants* screen, if the applicant is no longer required/available to fill the role that was offered to them. Once the

Decline Job Offer option is selected, the following confirmation message is shown:

The applicant is then removed from the successful applicant list if **Yes** is clicked.

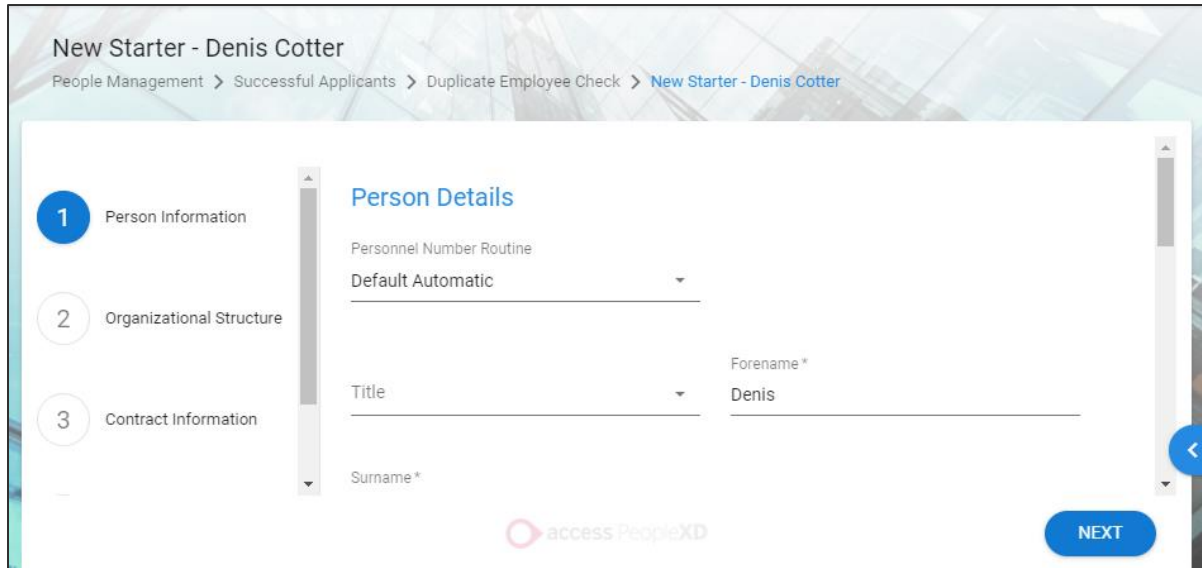

Apply button

This button allows you to complete the onboard process for the applicant record. To do this:

1. Ensure an applicant record is highlighted on screen and click **Apply**.
2. The *Duplicate Employee* screen appears which allows you to carry out a search for a record that might match this applicant's details
 - a. Enter the applicant's name or PPS No / Social Security Number.
 - b. Click Search.

Note: PeopleXD Recruitment recommends that you search by PPS No / Social Security number as the name supplied on the application may not match exactly to the details that are currently stored on the system for that employee.

3. If there is no match, click **Create New Employee**.
4. This opens the **New Starter** wizard.

All details for the applicant are populated here based on their applicant record, and the information supplied at the job offer stage. These details are broken into four sections on this wizard:

- Person Information
- Organisational Structure
- Contract Information
- Salary Information.

This screen allows you to assign a pay group to the employee and confirm their pay details are correct.

Note: If there are any details that are not pre-populated or completed at the time of proceeding on each screen, the system prompts you for completion.

5. Once the wizard has been completed and the employee record successfully created, their employee record opens automatically. Typically, this opens on the Task List screen, if you have a New Starter task list configured.

5.3.3. Updating an Existing Employee

Following on from the section [Searching for a Successful Applicant](#), one of the actions is *New Appointment*.

Note:

- The applicant only appears on this screen once their offer has been accepted and their applicant status updated accordingly.
- The applicant is flagged as with an action of *New Appointment*.
- This means the applicant is an existing employee on the system and needs to be given a new appointment / contract record for this new role.

Apply button

This button allows you to complete the onboard process for the applicant record. To do this:

1. Ensure an applicant record is highlighted on screen and click **Apply**.
2. The following screen appears with 2 options
 - a. Replace Current Contract. This option lists out all current appointments / contracts that this employee has on the system. Click **View** to drill down further to see the details.
 - b. Create new Additional Contract

This screen allows you to create a new appointment contract which is included alongside any other current contract that this person has on the system.

3. Click **Apply** on either option. This opens the contract wizard screen.

On the Organisational Structure, Contract Information & Salary Information screens, the details populate as per the Offer Appointment details given to the employee at the offer stage.

Note: If there are any details that are not pre-populated or completed at the time of proceeding on each screen, the system prompts you for completion.

4. Complete the wizard to create the new contract. The steps are the same whether the replace existing appointment or create additional appointment process was used.

5.3.4. Rehiring Dormant Employee

Following on from the section [Searching for a Successful Applicant](#), one of the actions is *Rehire*.

 Note:

- The applicant only shows on this screen once their offer has been accepted and their applicant status updated accordingly.
- The applicant is flagged as with an action of *Rehire*.
- This means the applicant is an existing employee on the system that has been ended with a Leaving Date. This person is *dormant* in the system.

Apply button

This button allows you to complete the onboard process for the applicant record. To do this:

1. Ensure an applicant record is highlighted on screen and click **Apply**.
This opens the *Rehire Wizard*.
2. All details for the applicant is populated here based on their applicant record, and the information supplied at the job offer stage. These details are broken into four sections on this wizard:
 - Person Information
 - Organisational Structure
 - Contract Information
 - Salary Information. This screen allows you to assign a pay group to the employee and confirm their pay details are correct.

 **Note:** If there are any details that are not pre-populated or completed at the time of proceeding on each screen, the system prompts you for completion.

3. Once the wizard has been completed and the employee successfully rehired, their employee record opens automatically. Typically, this opens on the Task List screen if you have a Rehire task list configured.

6. Applicant Right To Be Forgotten Requests

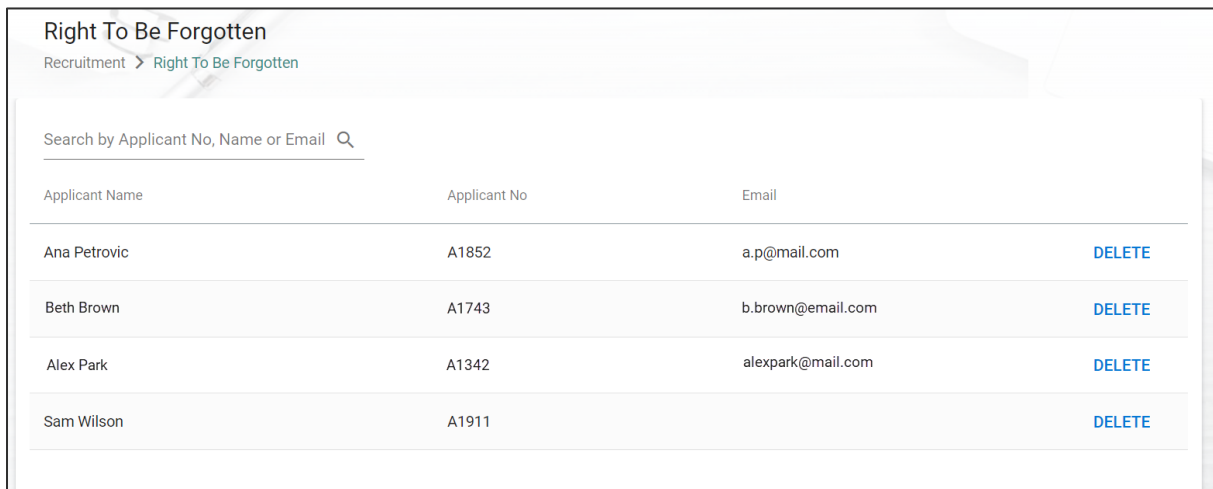

6.1. Overview

GDPR gives individuals the right to ask organisations to delete their personal data. In the scenario where a candidate has registered on an organisation's website e.g. Careers Portal, or has submitted an application but been unsuccessful, they may request the right to be forgotten. The Right To Be Forgotten feature in PeopleXD Recruitment allows users to action this request by deleting any candidate information retained with PeopleXD.

6.2. Process Candidate Right to be Forgotten Requests

To process a request, follow the below steps:

1. Navigate to the My Recruit Toolbox widget on the Recruitment Dashboard.
2. Click **Open** on Right To Be Forgotten.
3. Search for the applicant to be deleted using their name, applicant number, or email address. Alternatively, click **OK** to view all available candidates.

Right To Be Forgotten

Recruitment > Right To Be Forgotten

Search by Applicant No, Name or Email 🔍

Applicant Name	Applicant No	Email	
Ana Petrovic	A1852	a.p@mail.com	DELETE
Beth Brown	A1743	b.brown@email.com	DELETE
Alex Park	A1342	alexpark@mail.com	DELETE
Sam Wilson	A1911		DELETE

4. Click **Delete** on the relevant row.
5. Click **Yes** to confirm the deletion.

Note: Only candidates who are eligible to be deleted will be available on the Right To Be Forgotten screen. These are candidates who:

- Do not have an employee record i.e. an applicant record with a personnel number attached.
- Do not have another application at the accepted stage.

6.3. What Candidate Data is Deleted

The following are all deleted when a Right to be Forgotten request has been processed:

- All Candidate Data held within the PeopleXD ATS i.e. Portal View of PeopleXD Recruitment
- Generated PDF View of Candidate Application
- Candidate Data held within eRecruitment website

The following candidate data is **not deleted**:

- Candidate Data held within the new Careers Website (powered by Volcanic). However, customers have a self-serve facility to delete this data.
- Merged PDF Packs of Candidates (multiple candidates merged into the one PDF document). These merged documents can be deleted manually by users, or as part of a process when closing the vacancy. These documents can also be deleted as part of the automated Applicant Cleardown process subject to the vacancy and candidate being eligible for cleardown. See the user guide for further information.

6.4. Access to Right To Be Forgotten Requests

To access to the Right To Be Forgotten option, the following menu options must be enabled on the user's menu profile:

Menu Option	ID	System
Delete rtbf	WS_RECRUITMENT_MENU.DELETE_RTBF	Web Services
Get rtbf	WS_RECRUITMENT_MENU.GET_RTBF	Web Services
Recruitment - Right to be forgotten	MAIN_MENU.RIGHTTOBEFORGOTTEN	CorePortal
