1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how to configure the Recruitment Website and vacancy Application Forms to be used on the website.

This guide includes:

- What is configurable on the Recruitment Website and Application Forms and how they are managed.
- A breakdown of default/standard setup that needs to be created for initial website access.
- The creation of Application Forms for applicants to use to apply for open vacancies.
- Advice on best practice configuration.

 **Note:** Recruitment is highly configurable - therefore the settings and parameters highlighted in this user guide can be updated to fit your organisation's day-to-day recruitment operations. Where necessary, any mandatory configuration will be specified with its importance.

1.2. Recruitment Website and Application Forms

The focus of this guide is the configuration that supports the following elements of Recruitment:

1. The *Recruitment Website*, which is accessible via a standalone URL used by external applicants to apply for positions. Internal applicants are also directed here from the *Employee Dashboard* to apply for a vacancy online.

Print Friendly Summary

Note:

- You can configure as many application forms as required for your organisation e.g. different forms for different vacancy types.
- You must attach an application form to a vacancy for applicants to be able to apply online.

2. General Configuration Settings

2.1. Recruitment Master Company

The Recruitment Website URL uses a single company/organisation code. See the screenshot below for where this can be identified in the URL.

`https://my.corehr.com/pls/coreportal_corep/erq_search_package.search_form?p_company=1&p_internal_external=E`

You need to ensure that all of your companies are mapped to the code used in the URL:

- if your organisation has multiple companies on PeopleXD.

OR

- if a different company code is in use for your main company in PeopleXD.

This is required to ensure that you can create vacancies for all your companies and that they will then appear to applicants when searching on the Recruitment Website.

For Example:

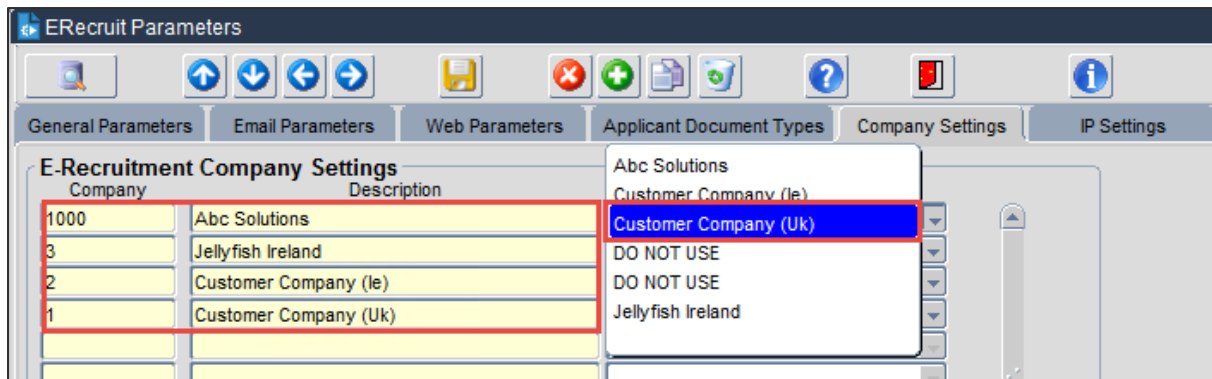

If Company Code = 1 is in the URL and you have vacancies set up in Company Codes 2 or 3, then these vacancies will not display on the website unless you have explicitly linked Companies 2 and 3 to Company 1 in PeopleXD.

To link the other companies to the master company:

1. Go to *Back Office > CorePersonnel > Recruitment. > Recruitment Reference > eRecruitment Web Parameters.*
2. Select the **Company Settings** tab.
3. Confirm the E-Recruitment Master Company.

This should be the same for all companies in the system.

Use the drop-down menu against each Company to select the E-Recruitment Master Company.

4. To save, click the  button.

Note: PeopleXD can support you to update the URL to use a different master company, if you do not use the default one referenced in your URL.

2.2. Recruitment Administrator Access to Configure the Website and Application Forms

In order to be able to configure the website and application forms, the user completing this must be set up on PeopleXD People Management, in a contract where the company is the same as the company code for the master company i.e. the code in the URL.

`https://my.corehr.com/pls/coreportal_corep/eq_search_package.search_form?p_company=1&p_internal_external=E`

If this is not the case, the administrator still has access the required *Recruitment Admin* screen, however the company available to select at the top of the screen does not represent the master company. Therefore, any website configuration or any application forms updated / created there do not actually apply to your Recruitment Website.

 **Note:** PeopleXD can support you to update the URL to use a different master company, if you do not use the default one referenced in your URL .

2.3. Stylesheet

The standard PeopleXD Stylesheet is applied to all clients by default. To update the Font and Heading styles, please contact PeopleXD to carry out this process.

 **Note:** In [Section 3.3.14 Formatting Heading Styles](#), there are steps to carry out changes to how the layout to the Job Descriptions looks.

2.4. Recruitment Parameters

2.4.1. Overview

The following section describes parameters and settings that are provided by default on install of PeopleXD. Due to the many features of Recruitment, the system is setup with the standard options and rules to provide the best-practice solution.

 **Note:** These parameters are configured as per baseline install on your environment. These can be reviewed when rolling out Recruitment. Where necessary, this guide will provide details if parameters have more impact on the system than others.

2.4.2. General Recruitment Parameters

These parameters are used to setup the Recruitment module and are for view-only purposes. To view this information:

1. Go to *back office* > *CorePersonnel* > *Recruitment* > *Reference* > *Recruitment Parameters*.
2. Select the **Recruitment Parameters** tab.

The screenshot shows the 'System Parameters' window with the 'Staff Request Parameters' tab selected. Under the 'General Recruitment Parameters' section, the following settings are visible:

- Recruitment Module Active:** ☒
- E-Recruitment Module Active:** ☒
- Recruitment Text:**
- Generate Applicant No.:** ☒
- Applicant No. Prefix:**
- Generate Recruitment Id:** ☒
- Mixed Case Allowed:** ☒

The following tables highlights what the most relevant parameters in the *General Recruitment Parameters* section mean.

Items	Setting	Explanation
Recruitment Module Active	On	This is the global parameter to turn on the recruitment module. This needs to be enabled and not switched off.
E-Recruitment Module Active	On	This is a global parameter to turn on the eRecruitment side of the recruitment module. This needs to be enabled and not switched off.
Generate Applicant No.	On	This allows applicant numbers to be generated automatically. This is a unique identifier against each applicant that applies.
Applicant No. Prefix	A	This is the prefix to be used before an applicant number. This distinguishes a person from being an employee on the database.
Generate Recruitment ID	On	This allows vacancies to have a unique identifier when created on the system. This is generated automatically
Default Address Type	Default	A drop-down allows the selection of a work address, home address or default. This is used in relation to the interview panel feature.

The menu option below will grant access to this screen, and all subsequent screens and tabs when accessed.

System	Menu Option	Explanation
CorePersonnel	RECRUITMNET REFERENCE- RECRUITMNET PARAMETERS	This turns on the Recruitment Parameters option on the Recruitment Reference menu in CorePersonnel. This is an all or nothing scenario (i.e. all items within this screen becomes available when this option is enabled for a user.)

Note:

- Updating these parameters without the advice of PeopleXD will impact on the day-to-day running of the Recruitment module.
- Super users of the system should only have access to this screen, to prevent unauthorised access and configuration changes.

2.4.3. Additional Client Parameters

These parameters have been built up over time and can be used in various ways to configure the online recruitment solution.

To access these:

1. Go to *back office* > *CorePersonnel* > *Recruitment* > *Recruitment Parameters*.
2. Select the **Recruitment Parameters** tab.
3. Click **Client Parameters**.

Note:

If these parameters updated without proper functional testing, the recruitment module can be impacted. These are additional parameters that are not mandatory to review.

The below parameter list is not exhaustive and only outlines the most common parameters that can be amended for your organisation. Please refer to the screen path above to review a full list of recruitment client parameters.

Parameter	Standard Setting	Explanation
Allow creation of interview panel before authorisation	On	A vacancy needs to be authorised before it is published online. This setting allows you to create a panel before or after this has occurred.
Applicant Notifications - send emails to applicants immediately after notifications have been created.	Off	This triggers an email to applicants once the system has been updated with information. If not, the system sends notifications based on preferences (i.e. once a day).
Applicant Offer: Allow Update of Offer Details	On	This allows you to update the offer details of an applicant at any stage of the application process.
Appt Offer: Allow start date to be optional	Off	On the offer details screen, the start date can be flagged as mandatory or optional. Whatever date is entered here flows to New Starter process.
Appt Offer: Hide Contract End Date	Off	On the offer details screen, the end date of the contract can be hidden from the applicant if necessary.
Disable link between job title and job description	Off	This breaks the connection between a job title and its job description that may have been created in the system.
Make Raised By field mandatory	Off	This is the field linked to the person who created the vacancy, or the staff request raiser who requested this role to be advertised.

Parameter	Standard Setting	Explanation
Make Reporting To field mandatory	Off	This shows a list of managers based on organisational rules on your environment.
Restrict Access to Internal Applicants based on Personnel Access	Off	This locks down access to applicants based on People Management system users' access. If this is not turned on, all users with recruitment access see all applicants.
Restrict Access to all applicants based on recruitment access.	On	This locks down access to applicants based on the recruitment system users' access (i.e. Department). If this is not turned on, all users see all applicants.

2.4.4. Configuring Standard Items for the Recruitment Website

These parameters ensure that the recruitment website is configured and setup according to standard rules.

Go to *back office > CorePersonnel > Recruitment > Reference > ERecruitment Web Parameters*.

There are 5 tabs including here which need to be reviewed by you during the initial setup of the recruitment module

1. General Parameters
2. Email Parameters
3. Web Parameters
4. Applicant Document Types
5. Company Settings (covered in [Section 2.1 Recruitment Master Company](#))

General Parameters

Most of these parameters are setup in baseline configuration and may not require additional configuration.

1. Go to *Back Office > CorePersonnel > Recruitment > Reference > ERecruitment Web Parameters*.
2. Select the **General Parameters** tab.

- Click the **Client Parameter** button to bring you to the Client Parameter screen (see [Configuring an Organisation's Parameters for the Recruitment Website](#)).
- Click on the **Email Extension** button to bring you to the [Email Extension](#) screen.

The screenshot shows the 'ERecruit Parameters' application window. The 'General Parameters' tab is active and highlighted with a red rectangle. Inside this tab, the 'Recruitment Times' section contains two buttons: 'Client Parameter' and 'Email Extension', both of which are also highlighted with red rectangles. Other sections visible include 'Default Ratings Values' with four input fields for Rating Levels 1 through 4, 'E-Recruitment Configuration' with a 'Personnel No' field and an 'E-Recruit Configuration' button, 'Online Settings' with fields for 'Timeout Minutes', 'Max Document Size for Loading in Megabytes', and 'Size in Bytes', and 'Applicant Notifications' with fields for 'Clear Down Days', 'Closing Minutes', 'Un-Submitted Minutes', 'Creation Last Date Run', 'Sending Last Date Run', and checkboxes for 'Creation in Progress' and 'Sending in Progress'.

Configuring an Organisation's Parameters for the Recruitment Website

These are parameters that can be found on the *Client Parameter* screen and can be changed in accordance with your organisation's needs and how the system should run based on certain decisions made within the company on what to show and not to show.

Note:

If these parameters updated without proper functional testing, the recruitment module can be impacted. These are additional parameters that are not mandatory to review.

Parameter	Standard Setting	Explanation
Automatically Link applicant to vacancy on submission of application.	On	This attaches the applicant to the vacancy on the recruitment dashboard without any manual intervention needed
Display All Previous Application Forms	On	This allows the applicant to view all historic application forms that they had submitted or not completed, on the Recruitment Website.
Display Submitted Application Forms only	Off	This only allows applicants to view submitted applications when viewing historic information.
Hide 'Prefer Not to Say' Option in Gender Dropdown List	Off	This does not show the <i>Preferred Not to Say</i> option on an application form.
Hide the CoreHR Recruitment Logo	On	This removes the CoreHR logo from the recruitment website. This is found on the bottom left of the screen if disabled.

Restricting Applicants on Recruitment Website Using an Email Extension

This can be used to monitor any applicant that is registering with a particular email address. It is mainly used to stop internal applicants from registering via the recruitment website. It is standard practice to only allow employees (i.e. internal applicants) to apply for vacancies via CorePortal.

Register New User

Email Restricted Message : Email not allowed

Forename *

Surname *

Email Address *

Password *

Reenter Password *

By clicking on the checkbox you agree to the [Terms & Conditions](#) as outlined in the document * ☐

Register

For example, if an applicant registered through the recruitment website with an @corehr.com email address, then the system would flag them as internal.

1. Go to *CorePersonnel > Recruitment > Reference > eRecruitment Web Parameters > Email Extension*.
2. Select the *Company* code from the list of values and enter in the email address under the *Description* heading.

[illegible]

3. Select the **Active Ind** checkbox.
This makes the rule active / inactive.
4. Select the **Restrict Ind** checkbox.
This can be set if you do not want certain email addresses to be used. If a user tries to register with this email address, this prevents them from creating an account.
5. Select the **Validate Ind** checkbox.
This requires an internal applicant to validate their email address. This allow them to create an account but requires validation before they are logged in for the first time.
 - a. Select the **Validate ind** checkbox and save.
 - b. Go to *back office > CorePersonnel > Recruitment > Reference > Erecruitment Web Parameters*.
 - c. Select the *Email Parameters* tab.
 - d. Select the *Internal Applicant Account Activation* email.

- e. Update *Email Subject* and *Email Body* as required.

Maintain Email Details

Email Type: **ACTIVINT**

Internal Applicant Account Activation

Email Subject: Internal Applicant Account Activation

Email Body: Dear <<FORENAME>> <<SURNAME>>,
Please follow the below link:
<<UNLOCK_URL>>

Available Fields

- Applicant No
- Forename

- Unlock Url

Save Clear Cancel

Note: PeopleXD recommends that only the **Active Ind** and **Restrict Ind** are enabled for the *Internal Email Extension*, as all internal applicants should be logging in via Portal and not registering a separate account on the recruitment website.

Automated Applicant Emails Issued from the Recruitment Website

- Note:**
- These parameters are separate to the Event Management System (EMS), from which notifications and emails can be created for specific recruitment and vacancy events.
 - These are system generated emails such as Account Activation or Vacancy Closing Notification

1. Go to *Recruitment > Reference > Recruitment Web Parameters*.
2. Select the **Email Parameters** tab and choose the email to be updated & edited. Click the **Details** button to bring you into the *Maintain Email Field* screen.
3. Edit the *Email Subject* and the *Email Body*.

Buttons: Save, Clear, Cancel

The following table provides a list of emails available that are sent from the recruitment website. It explains how they are triggered and sent to an applicant.

Email Type	Explanation
Application Unsubmitted Confirmation	This is linked to the <i>Notify me when I have unsubmitted applications</i> option on the Recruitment Website > My Account screen.
Online Job Application Acknowledgement	This is linked to when an applicant has responded to an offer to a vacancy online.
Reset Password	This is linked to the Reset Password option selected by a registered applicant via the Recruitment Website.
Applicant Email Change	This is linked to the Change Email Address on the Recruitment Website > My Profile screen.
Account Activation	This is linked the 3.2.6 Activate Account section
Reset Password Account Activation	This is linked to the Reset Password feature, once a new password has been activated.
Applicant New Vacancy Notification	This is linked to the <i>Notify me when vacancies are advertised</i> option on the Recruitment Website > My Account screen.
Applicant Closing Notification	This is linked to the <i>Notify me when vacancies are due to close</i> option on the Recruitment Website > My Account screen.

Note: The following email notifications can also be configured for use with the Agency Portal and Staff Request features in PeopleXD:

- Agency Interview Panel Member Notification
- Agency External Panel Member Creation
- Staff Request - Person Request Details
- Agency Reset Password
- Agency Un-submit Application
- Agency Application Submitted

Applicant Document Types

This section refers to the document reference data that needs to be setup against recruitment for applicants to be able to attach supporting documentation such as CVs or cover letters to their application form

1. Go to back office > CorePersonnel > Recruitment > Reference > Erecruitment Web Parameters.
2. Select the **Applicant Document Types** tab.

Setting	Explanation
Description	Name of Document Type (e.g. Microsoft Word)
File Extension	Document type file extension (e.g. .docx)
Bulk Print Type	Combine or Convert and Combine.
Allowed	This setting permits an applicant to upload this document type against their application form via the recruitment website.
MIME	See below

Description	File Extension	Bulk Print Type	Allowed	Aspose Type	MIME
Adobe PDF files	.PDF	Combine	☒	WORD PROCESSOR DOCUMENT	MIME
Microsoft Word	.DOC	Convert and Combine	☒	SPREADSHEET DOCUMENT	MIME
Microsoft EXCEL	.XLS	Convert and Combine	☒	WORD PROCESSOR DOCUMENT	MIME
Microsoft Word 2007	.DOCX	Convert and Combine	☒	SPREADSHEET DOCUMENT	MIME
Microsoft Excel 2007	.XLSX	Convert and Combine	☒	WORD PROCESSOR DOCUMENT	MIME
Rich Text File	.RTF	Convert and Combine	☒	WORD PROCESSOR DOCUMENT	MIME
Microsoft Word .DOCX	.DOCX	Convert and Combine	☒	WORD PROCESSOR DOCUMENT	MIME
			☐		MIME
			☐		MIME
			☐		MIME
			☐		MIME
			☐		MIME
			☐		MIME
			☐		MIME
			☐		MIME
			☐		MIME
			☐		MIME

MIME refers to a whitelist of file extensions and valid mime types for that extension. When the applicant uploads a document, this configuration is checked for a valid mime type. If the mime

type does not exist here, the applicant document will fail to upload.

Valid mime types include:

1. application/msword
2. application/vnd.openxmlformats
3. application/vnd.ms-word.document.12
4. application/vnd.ms-word
5. application/vnd.openxmlformats-officedocument.spreadsheetml.sheet
6. application/pdf
7. application/vnd.ms-excel

2.5. Document Management

Within this section instruction is provided on how to configure document profiles and attach documentation to these profiles. These profiles can then be attached to the application form and against the recruitment website.

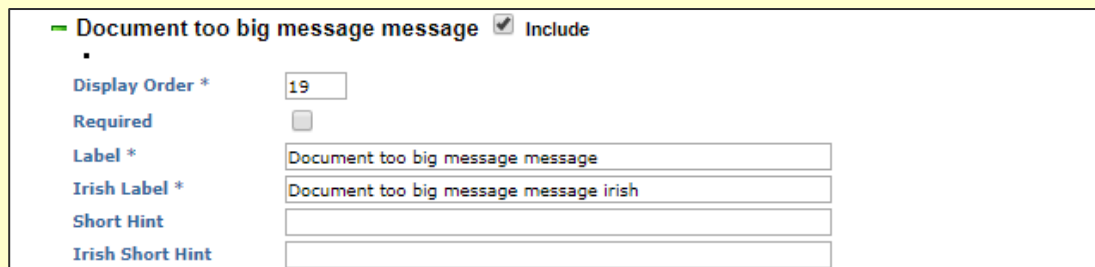

For example, a vacancy may need an additional supporting document to be added to an application, such as a Privacy Statement to ensure all applicants agree to the terms of the application form once submitted.

2.5.1. Setting the Maximum Document Size

1. Go to *back office > CorePersonnel > Recruitment > Reference > ERecruitment Web Parameters*.
2. On the *General Parameters* tab, define the *Max Document Size for Loading in Megabytes* within the *Online Settings* section. This restricts applicants from uploading large file sizes on their application form.
3. Click on the save button.

Note: If you change this parameter value, you will also need to change the message on the Application Form.

1. Go to *Portal > Recruitment Dashboard > Toolbox > Recruitment Admin*.
2. Select the Company from *Company* drop-down list and then select E-Recruitment Form from *Form Type* drop-down list.
3. Click the **My Profile** button, which brings you to the *My Profile* configuration screen.
4. Update the *Document too big message message* to give some further information as to why this document has failed to upload.

The screenshot shows a configuration form for the message 'Document too big message message'. The form includes the following fields and options:

- Document too big message message** (with an 'Include' checkbox checked)
- Display Order ***: 19
- Required**: ☐
- Label ***: Document too big message message
- Irish Label ***: Document too big message message irish
- Short Hint**: (empty field)
- Irish Short Hint**: (empty field)

2.5.2. Uploading a Document Against a Vacancy or an Application Form

You can now upload documents to a vacancy or an application form using the document profile that has just been created.

1. Go to *Portal > Recruitment Dashboard > Vacancies tab > Vacancies widget*.
2. Select the vacancy that you require a document to be loaded against and click the **Actions** button, followed by the **Edit Vacancy** button.
3. Go to *Vacancy Profile > Documents*.

1 - 1 of 1

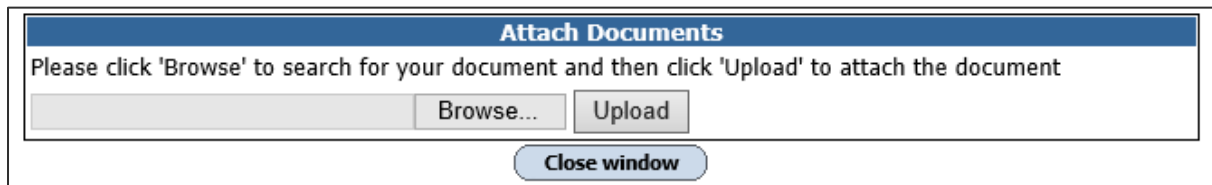

- Once a document has been uploaded, click the  and then the **Options** button.
- The following parameters can be enabled or disabled per vacancy:

Parameter	Explanation
Job Specification	This displays the document within the <i>Document</i> section of the <i>Vacancy Profile</i> in Portal.
Application Form	This displays the document within the <i>Document Details</i> section of an <i>Application Form</i> the applicant is filling out.
Online Interview Panel	This displays the document within the <i>Interview Panel</i> when an interviewer is reviewing an applicant's details.

2.5.3. Recruitment Website Terms and Conditions

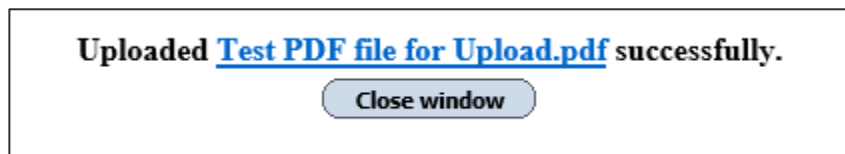

This links the documents to the Terms & Conditions section on the recruitment website or an application form.

1. Go to *CorePersonnel > Recruitment > Reference > General Document Management*.
2. Select the *Company* from the  and then choose the *Form Profile: E-Recruitment Form* from the .
3. Click the **Load Document** button to attach documents. This opens a new browser window to allow you to locate the document required.

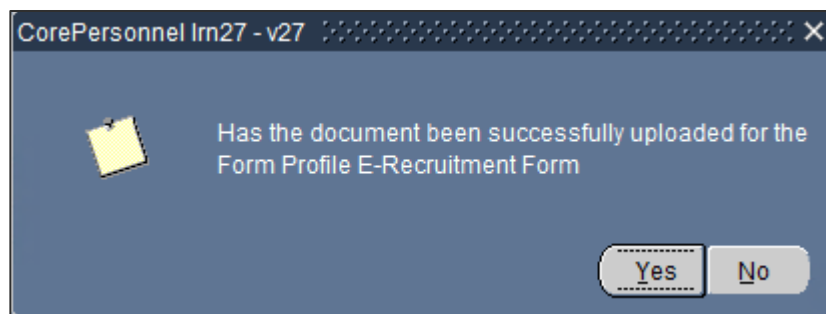

The dialog box has a blue header bar with the text "Attach Documents". Below the header, it says "Please click 'Browse' to search for your document and then click 'Upload' to attach the document". There is a text input field followed by a "Browse..." button and an "Upload" button. At the bottom, there is a "Close window" button.

4. Once uploaded, the following two prompt messages appears to confirm the upload has been successful:

The message box has a white background and a blue border. It contains the text "Uploaded Test PDF file for Upload.pdf successfully." in blue. Below the text is a "Close window" button.

The dialog box has a dark blue header bar with the text "CorePersonnel ln27 - v27". The main area has a light blue background and contains a yellow notepad icon. To the right of the icon, it says "Has the document been successfully uploaded for the Form Profile E-Recruitment Form". At the bottom right, there are "Yes" and "No" buttons.

5. The attached document is displayed within the *Document Detail* section once the above messages are acknowledged.
6. To ensure the document appears on the correct location on the recruitment website, select the Document Type drop-down menu, and choose one of the two options from the below table:

Document Type	Explanation
Terms & Conditions	The terms and conditions are on the Navigation pane of the application form.
Submission Guidelines	The submission guidelines are in the submit section located at the bottom of the application form.

7. Select the languages value from the drop-down list. For the document to display on the English version of the online application form, select English. Otherwise choose Gaeilge for the Irish version of the application form.
8. Press Save on toolbar.

3. Recruitment Website

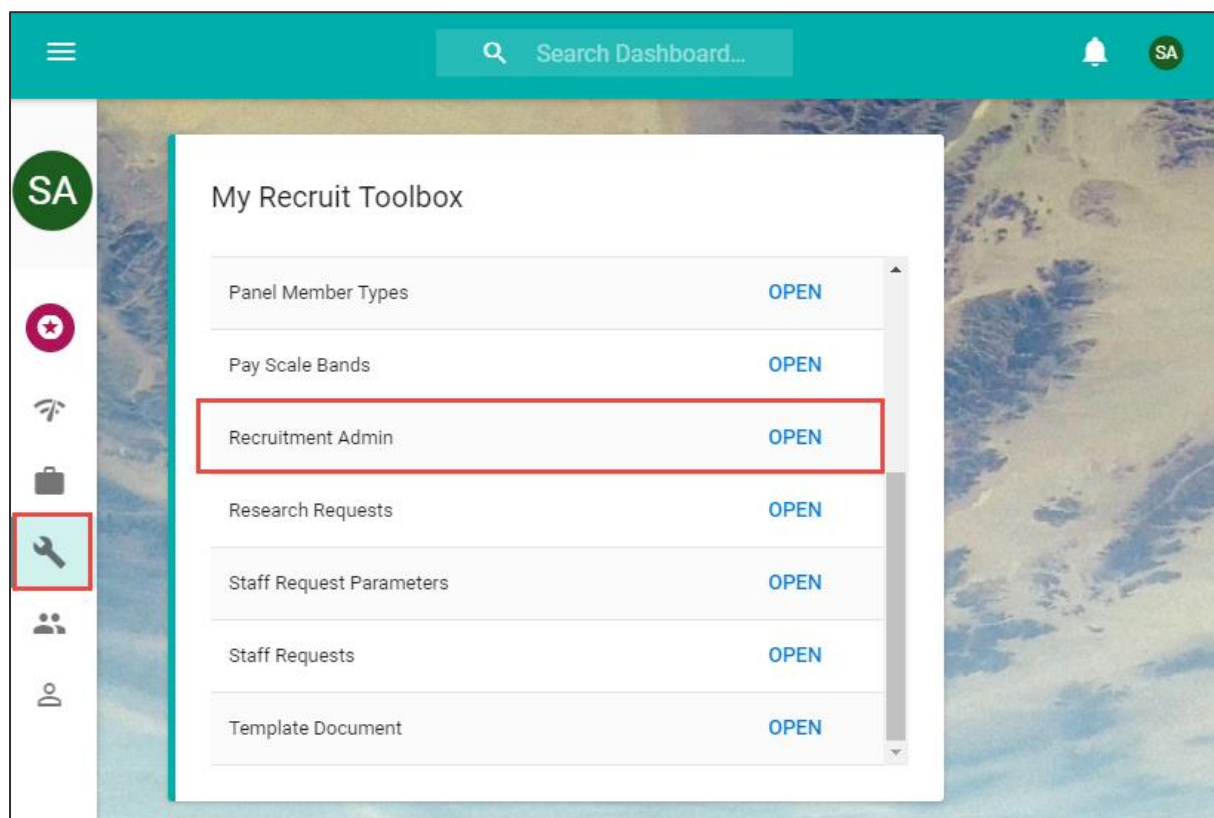

3.1. How to Access Website Configuration

To access the configuration features for the Recruitment website and application forms, the following menu profile is needed:

System	Menu Option	Explanation
CorePortal	Erecruitment - Toolbox - Recruitment Admin	This turns on access to the Recruitment Admin option on the Toolbox tab on Recruitment Dashboard

This provides access to the following screen:

1. Go to *Portal > Recruitment Dashboard > Toolbox tab > Toolbox* widget.
2. Open **Recruitment Admin**.

3.2. Website Sections

3.2.1. Configuring the Recruitment Website Sections

This section shows you how to configure items within the *Navigation Panel* of your recruitment website. This panel is available to visitors to the website and those who have registered as an applicant and logged in successfully to the website

The screenshot shows the 'corehr' logo at the top. Below it, a dark blue bar contains the text 'GMT Date & Time 01-August-2019 16:15' and 'Welcome Back Declan Carey'. The main content area is titled 'v27 Learning Centre Open Vacancies'. On the left, a 'Navigation Section' is highlighted with a red box and a red arrow pointing to it from a text box that says 'Navigation Items that can be configured'. The navigation section includes links for Search Vacancies, Application History, My Account, My Profile, Equal Opportunities Policy, Reset Password, Last Search Results, and Logout. The main content area contains search filters for Job Title, Vacancy ID, Vacancy Type, Department, and Keyword Search. The Department dropdown is open, showing options like Digital Marketing, HR Admin, and Technical Support. A 'Search' button is at the bottom right.

1. Go to *Portal > Recruitment Dashboard > Toolbox tab > Toolbox widget > Recruitment Admin*
2. Select the Recruitment Master Company from the **Company** drop-down list.

Note: If you don't see the company that is part of the recruitment website URL here, as mentioned in section [2.1 Recruitment Master Company](#), then you are not in the correct post for this company configuration. Please refer to the above section for further details on this.

The screenshot shows the 'E-Form Maintenance' form. It has a 'Company' dropdown menu with 'Customer Company (Uk)' selected. The form is titled 'E-Form Maintenance' in a blue header bar.

3. Select **Form Type** of E-Recruitment Form and the configuration section appears.

E-Form Maintenance	
Company	Customer Company (Uk) ▼
Form Type	▼ E-Recruitment Form E-Recruitment Agency Form

The below table highlights the options that are available to be configured when this screen has been accessed:

Option	Detail
Application History Section	Used to configure the display of the Application History section for an applicant.
Change Password	Can be configured to allow password change configuration.
Copy of Previous Forms	Allows the applicant to copy previous application forms as opposed to adding details for each form.
My Account	If switched on, applicants can choose what notifications they receive based on registering their preferences.
My Profile	Also known as <i>Talent Pool Management</i> - applicants can register their interest areas/ against certain job titles, etc. This can be used in connection with
Navigation Section	Used to configure the navigation panel on the left-hand side of the Recruitment Website.
Online Interview Selection	This allows applicants to select an Interview Timeslot online if enabled on the Schedule.
Online Offer Response	This allows an applicant to accept the offer set by your company.
Page Header	This section is used to upload a site logo, display server time and all a homepage link
Register New User	Used for configuration of the Register New User page
Search Appointment (Version 4)	This functionality is used to configure the vacancy search functionality and associated results. This has replaced <i>Search Appointment</i> .
System Notifications	The System Notifications section can be used to notify applicants of server downtime.
Your Application	Your Application section needs to be set up to display the options required for an applicant to apply.

The table below shows the items are no longer used or are out of scope for configuration.

Option	Detail
Internal Login	Legacy option and does not need to be configured.
Online CV Section	Legacy option and does not need to be configured.
Online Request Reference	This is out of scope for a baseline Recruitment implementation.
Search Appointment	Legacy Option and does not need to be configured. Replaced by <i>Search Appointment Version 4</i> .

3.2.2. Repeated Configuration for Sections

Within most sections, there are standard items that can be configured to ensure the applicant's journey is an easy flowing process.

This screenshot of the Navigation Section is for example purposes only. The same options are available on the various sections to be reviewed throughout this guide.

Item	Explanation
Include (Section)	Select this field to include the Section / Item within Navigation Section or Application Form.
Available in Irish	Select this field to include the Irish version of the Section / Item with Navigation Section or Application Form.
Short Description	Enter the Short description of this section that should appear within the section or Application Form. This is Mandatory.
Detailed Description	Enter the detailed description of this section that should appear within the section or Application Form.
Section Items	This is the header field which shows the list of available items to include in this section on the website.
Reorder Items	This gives you the option of updating the display order of items on screen.
Include	Click on this to ensure the option is included in this section on the website.

Item	Explanation
Display Order	This shows the order of which each item appears on the website. You can update the value here manually or use the <i>Reorder Items</i> feature.
Required	Marks this field as mandatory.
Label	The label of the field on the recruitment website.
Short Hint	This displays on the field to give some further guidance on how to fill out this field.
Help Text	This is another field to give further information on the field in question.

Note:

- The re-order items link allows you to update the display order of items on screen, depending on each section and the items attached to it. For example:
 - The navigation section.
 - The application form sections.
 - The standard items within an application form section.
- Highlight the field that should be re-ordered and click on the down or up arrows to move the field accordingly. Click on Save or Cancel to close the screen.

3.2.3. Navigation Section

The navigation section of the recruitment website provides the list of options that a visitor or a registered applicant can take on their applicant journey before, during or after applying for a vacancy.

On the *E-Form Maintenance* screen:

1. Click on the *Navigation Section* option to configure the details that the applicant should see within the *Navigation Section*. The following screen displays showing the fields that can be configured.

This *Navigation Section* is available to on the left-hand side of the Recruitment Website. Some additional items on the main page need to be configured through this section also.

The screenshot displays the corehr recruitment website interface. On the left, a sidebar titled 'Navigation Section' is highlighted with a red box, listing various user actions. The main content area is titled 'v27 Learning Centre Open Vacancies' and contains a search form. The search form includes fields for 'Job Title' (a dropdown menu set to 'All'), 'Vacancy ID' (a text input field), 'Vacancy Type' (radio buttons for 'All' and 'Manual', with 'All' selected), 'Department' (a dropdown menu showing 'All' and 'HR Admin'), and 'Keyword Search' (a text input field). A 'Search' button is located at the bottom of the search form. The top of the page shows the corehr logo and a timestamp: 'GMT Date & Time 12-July-2019 15:22'.

Note: When configuring the next screens, untick *Available in Irish* first prior to ticking on other options.

3.2.4. Page Header

Click on the **Page Header** option to configure the details that should appear in the headers of each page.

The following screen displays showing the fields that can be configured.

The screenshot shows the 'Page Header' configuration window. At the top, the title 'Page Header' is displayed. Below the title, there are several configuration options:

- Include**: A checkbox that is checked.
- Available in Irish**: A checkbox that is unchecked.
- Short Description ***: A text input field containing 'Page Header'.
- Detailed Description**: A larger text input field, currently empty.

Below these options is a section titled 'Page Header Items' with a 'Reorder Items' link. This section contains two items:

- Client Logo**: A checkbox that is checked. It has several sub-fields:
 - Display Order ***: A text input field containing '1'.
 - Required**: A checkbox that is checked.
 - Alt Image Label ***: A text input field containing 'Client Logo'.
 - Image Name**: A text input field containing 'core.jpg'.
 - URL**: A text input field, currently empty.
- Server Time**: A checkbox that is checked. It has several sub-fields:
 - Display Order ***: A text input field containing '3'.
 - Required**: A checkbox that is checked.
 - Label ***: A text input field containing 'GMT Date & Time'.
 - Short Hint**: A text input field, currently empty.
 - Help Text**: A larger text input field, currently empty.

At the bottom of the window, there is a checkbox for **Home Page** which is unchecked. Below the checkboxes are two buttons: 'Save' and 'Cancel'.

Password Failed Validation

When creating a password on the Recruitment Website, this needs to adhere to the password policy that has been created in PeopleXD's Security module. To confirm what this is:

1. Go to *Portal > Security > Password Policy >* select an account profile.
2. The account profile configured on baseline for the recruitment website is *Portal*.

3. Select **Actions > Policy Details** and ensure the parameter *Use this policy on Portal/E-Recruitment* is enabled.

The screenshot shows the 'Update policy details for COREPORTAL' form. It includes a breadcrumb trail: Security > Update policy details for COREPORTAL.

Password Rules

Minimum length 4	Maximum length 128
Allow username for password ☒	Prevent incrementing ☒
Upper case characters 0	Lower case characters 0
Digits 1	Special characters 0

Blacklisted Passwords

ADD

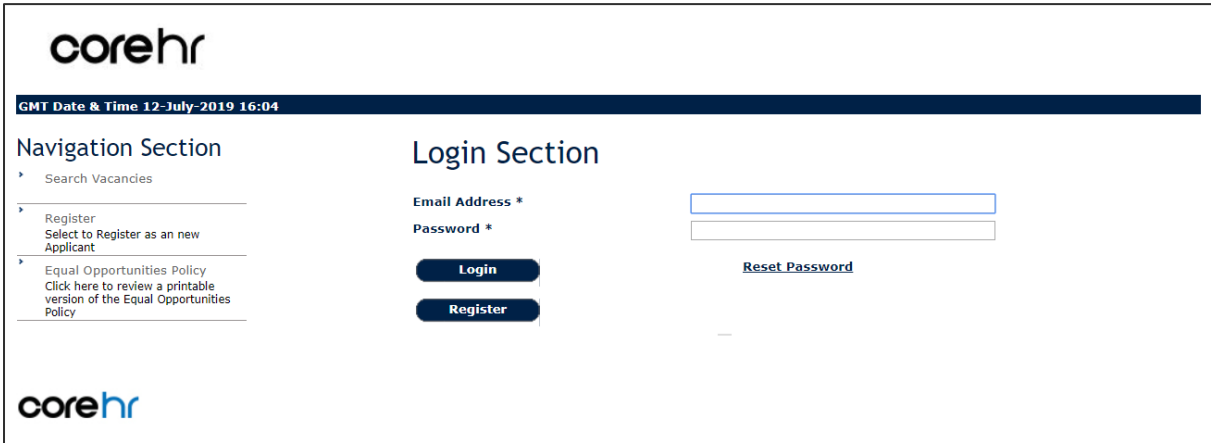

Password

4. Review / Update the *Password Rules* in place.

Note: These password rules also impact the password for Portal accounts if using native accounts. These passwords should match your organisation's password policies.

3.2.6. Login Page

This section allows previously registered applicants to login to the website and review previously submitted applications or apply for new positions.

The screenshot displays the corehr website's login interface. At the top left is the 'corehr' logo. A dark blue horizontal bar contains the text 'GMT Date & Time 12-July-2019 16:04'. Below this, the page is divided into two main sections. The 'Navigation Section' on the left includes links for 'Search Vacancies', 'Register' (with subtext 'Select to Register as an new Applicant'), and 'Equal Opportunities Policy' (with subtext 'Click here to review a printable version of the Equal Opportunities Policy'). The 'Login Section' on the right features input fields for 'Email Address *' and 'Password *', followed by 'Login' and 'Register' buttons. A 'Reset Password' link is also present. The 'corehr' logo appears again at the bottom left of the page.

The screenshot shows the 'Login Section' configuration window. At the top, there's a header 'Login Section'. Below it, there are several settings: 'Include' (checked), 'Available in Irish' (unchecked), 'Short Description *' (containing 'Login Section'), and 'Detailed Description' (empty). Below these is a section titled 'Login Section Items' with a 'Reorder Items' link. This section contains a list of items, each with a green plus icon, a checkbox, and the word 'Include'. The items are: 'Email Address' (checked), 'Password' (checked), 'Login' (checked), 'Password Sent' (checked), 'Register Now' (checked), 'Must Change Password new security' (checked), 'Must Change Password' (checked), 'Invalid Login Credentials' (checked), 'Account Locked' (checked), and 'Forgotten Password?' (checked). At the bottom of the window are 'Save' and 'Cancel' buttons.

Further explanation is provided below for some of the less obvious options on this screen.

Account Locked

This message shows if a registered applicant has had their account locked.

The screenshot shows the 'Login Section' user interface. At the top, there's a header 'Login Section'. Below it, there's a red message 'Account Locked'. Underneath, there are two input fields: 'Email Address *' (containing 'DCORE@GMAIL.COM') and 'Password *' (empty). Below the input fields are two buttons: 'Login' and 'Register'.

To update and view the setting that controls a locked record, you need to review the number of login retries an applicant can have. To do this:

1. Go to *back office > CorePersonnel > Recruitment > Reference > eRecruitment Web Parameters*.
2. Click the **Web Parameters** tab and select the LOGIN_RETRIES field in the *Other Web Parameters* section.
3. Update the value in this field to how many times your organisation allows an applicant to enter invalid login credentials before their account becomes locked.
4. Save your changes.
5. The *Activate Account* email in the below section is then sent to the applicant's email address.

Activate Account

This sends an email to your email address and ask you to validate it by clicking a validation URL.

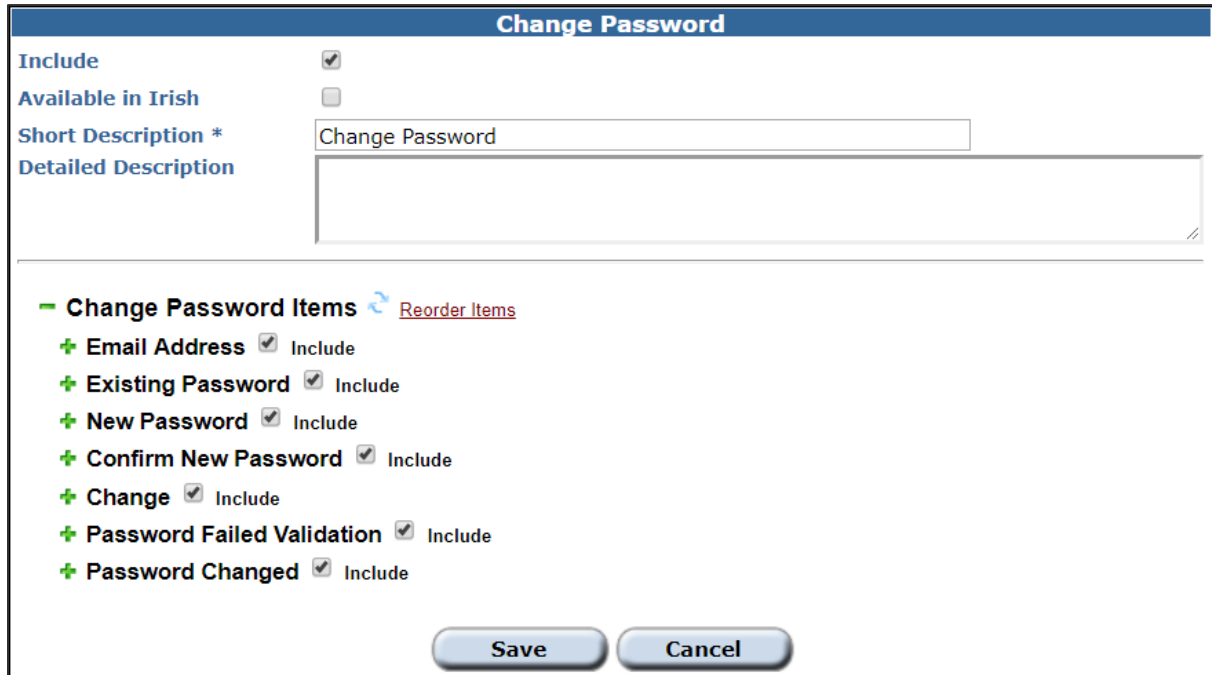

To configure the email that is sent:

1. Go to *back office > CorePersonnel > Recruitment > Reference > ERecruitment Web Parameters*.
2. Click on the **Email Parameters** tab.
3. Click the **Details** button for the *Account Activation* email.
4. Here you can update Email Subject and Body according to your organisation's needs.

3.2.7. Change Password

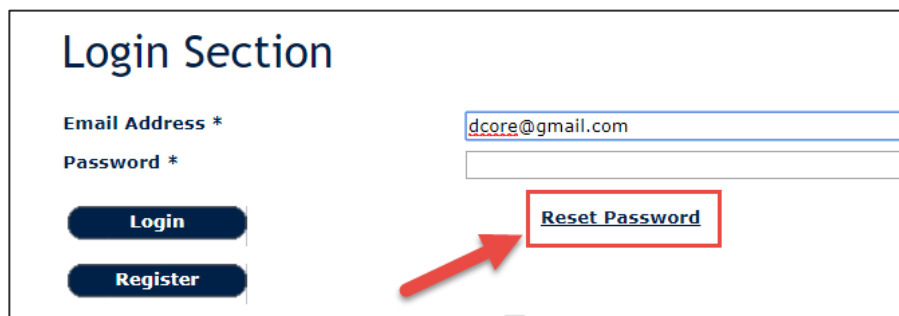

Click on the **Change Password** option to configure the details that the applicant should see when this option is selected. The following screen displays showing the fields that can be configured.

The screenshot shows the 'corehr' logo at the top left. Below it is a dark blue header bar with the text 'GMT Date & Time 12-July-2019 16:16'. The main content area is divided into two sections. On the left is the 'Navigation Section' with links: 'Search Vacancies', 'Register Select to Register as an new Applicant', and 'Equal Opportunities Policy Click here to review a printable version of the Equal Opportunities Policy'. On the right is the 'Change Password' section. It contains four fields: 'Email Address *' (with the value 'dcore@gmail.com'), 'Existing Password *', 'New Password *', and 'Confirm New Password *'. Each field has a corresponding input box. Below these fields is a blue button labeled 'Change'. The 'corehr' logo is also visible at the bottom left of the page.

The screenshot shows a configuration window titled "Change Password". It has a header bar with the title. Below the header, there are several fields: "Include" with a checked checkbox, "Available in Irish" with an unchecked checkbox, "Short Description *" with a text input containing "Change Password", and "Detailed Description" with a larger text area. Below these fields is a section titled "Change Password Items" with a "Reorder Items" link. This section contains a list of items, each with a plus icon, a name, a checked checkbox, and the word "Include": "Email Address", "Existing Password", "New Password", "Confirm New Password", "Change", "Password Failed Validation", and "Password Changed". At the bottom of the window are "Save" and "Cancel" buttons.

3.2.8. Forgotten Password

The screenshot shows a "Login Section" form. It has a title "Login Section" at the top. Below the title are two input fields: "Email Address *" containing "dcore@gmail.com" and "Password *". Below the input fields are three buttons: "Login", "Register", and "Reset Password". The "Reset Password" button is highlighted with a red box and a red arrow points to it.

The following steps need to be carried out to ensure that this feature is configured correctly:

1. Go to *back office > CorePersonnel > Recruitment > Reference > ERecruitment Web Parameters*.
2. Click on the **Email Parameters** tab.
3. Click the **Details** button for the *Reset Password* email.

The screenshot shows the 'ERecruit Parameters' window with the 'Email Parameters' tab selected. The table below lists various email parameters, with the 'Reset Password' row highlighted in red. A red arrow points to the 'Details' button for this row.

Parameter Name	Value	Action
Agency Reset Password	Agency Password Reset	Details
Agency External Panel Member Creation	Agency External Panel Member Creation	Details
Agency Application Submitted	Agency Application Submitted	Details
Agency Un-Submit Application	Agency Un-Submit Application	Details
Applicant Closing Notification	Vacancy Closing Notification	Details
Applicant New Vacancy Notification	New Vacancy Notification	Details
Talent Pool - Email Applicant	Talent Pool - Email Applicant	Details
Applicant Un-Submitted Notification	Un-Submitted Notification	Details
Online Job Application Acknowledgement		Details
Staff Request - Person Request Details	Staff Request - Person Request Details	Details
Reset Password	Reset password	Details
Application Unsubmitted Confirmation		Details

4. Update the Email Subject as per your company guidelines
5. Update the Email Body as per your company guidelines
 - a. The *Available Fields* contain Applicant No, Forename and Surname
 - b. Include this in the Email body as this populates with the information of the applicant who requested the password reset

The screenshot shows the 'Maintain Email Details' window. The 'Email Type' is set to 'RESETPASS'. The 'Email Subject' is 'Password Reset Requested | CoreHR Online Recruitment'. The 'Email Body' contains a template with placeholders for forename and surname, followed by a message about the new password. The 'Available Fields' list on the right includes Applicant No, Forename, and Surname.

Email Type: RESETPASS

Reset Password

Email Subject: Password Reset Requested | CoreHR Online Recruitment

Email Body: <<FORENAME>> <<SURNAME>>
Your new password is below. Once entered, you will be prompted to enter a new password, and confirm it.

Available Fields: Applicant No, Forename, Surname

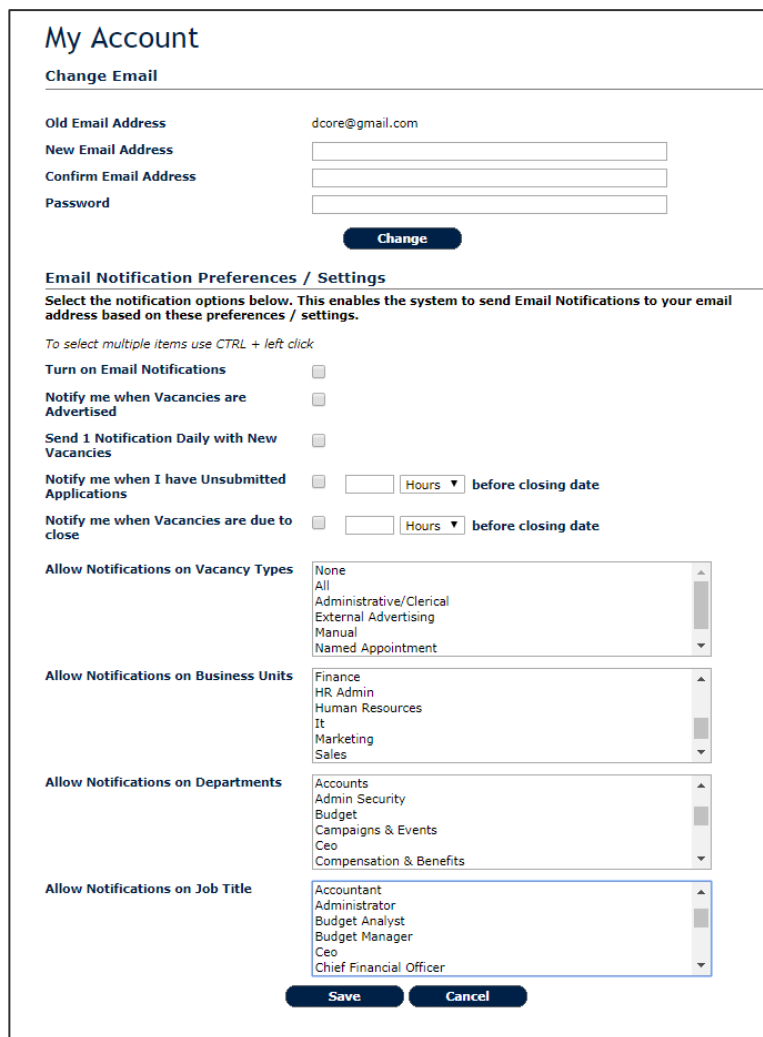

Buttons: Save, Clear, Cancel

- The password sent to an applicant is made up of 9 numeric numbers and will be added to the end of the email body after the text of the email body.

3.2.9. My Account

Click on the **My Account** option to configure the details that display when the applicant selects this option. The following screen displays showing the fields that can be configured (screenshot is on the next page).

 **Note:** Simple HTML tags can be used when updating text fields on the website configuration. For example, use `<b> </b>` for bold / strong text

Further explanation is provided below for some of the less obvious options on this screen.

Change Email Address

This feature allows an external applicant to change their email address.

Note:

- If an internal applicant goes to *My Profile*, and the *Change Email Address* feature is configured in the background, it still does not appear for the internal applicant.
- Email addresses for internal applicants can only be changed based on portal security rules (i.e. usually carried out by HR administrator).

To ensure this feature is setup correctly, enable the following items on screen:

Parameter	Explanation
Allowed change email address	Switch on this option if you want to allow an applicant to change their email address for notification alerts and for future applications.
Change email section heading	This section allows an applicant to change their registered email address. They must enter a new email address and then confirm this address again.
Old Email Address	This allows you to enter in your existing email address that your account is setup against
New Email Address	This allows you to enter your new email address
Confirm Email Address	This allows you to enter your new email address again
Password	This allows you to enter your existing password to enable the change email address feature to be carried out.
Change	This is the button that carries out the process.
Email details updated message	This relates to the on-screen message that appears once you have clicked on the Change button.
Email Change Request processed message	You have been sent an email to your new email address to verify that it is a valid email address. Please click on the link contained within the email.
Email change failure message	There was a problem changing your email address details. Please use navigation on left to go back to the page and re-enter.
New and confirmed email addresses do not match	New and confirm email addresses do not match. Please use navigation on left to go back to the page and re-enter.
New and confirm email not entered	You must enter new and confirm email addresses. Please use navigation on left to go back to the page and re-enter.
Password not entered	You must enter your password. Please use navigation on left to go back to the page and re-enter.
Password invalid	Your password is invalid. Please use navigation on left to go back to the page and re-enter.

The following steps need to be carried out to ensure that this email notification for this is configured correctly:

1. Go to *back office > CorePersonnel > Recruitment > Reference > ERecruitment Web Parameters*.
2. Click on the **Email Parameters** tab.
3. Click the **Details** button for the email *Applicant Email change*.

4. Update the Email Subject and Body as per your company guidelines.

Email Notification Preferences

This enables the system to send Email Notifications to an applicant's email address based on preferences / settings.

Parameter	Explanation
Send 1 notification daily with new vacancies	The recruitment website will send an email to an applicant daily with new vacancies if this setting is enabled.
Turn on email notifications	This is the global parameter which allows email notifications to be generated from the recruitment website.
Notify when vacancies are advertised	The recruitment website will send an email to an applicant when new vacancies have been posted.
Notify me when I have unsubmitted applications	This will allow you to receive email notifications on a certain number of days, hours or weeks before a vacancy closes.
Notify me when vacancies are due to close days / hours / weeks before closing date	As above.
Allow notifications on	This will allow you to receive email notifications based on certain organisational hierarchy elements.

Note: To select multiple items use CTRL + left click

 **Note:** The following sections relate to the validation of internal applicants. This is not in use, as internal applicants are directed via your organisation's Portal. These should not be configured.

- Internal Applicant Registration section heading
- Person Number
- NI Number
- Date of Birth
- Email Address
- Validate Details
- Validation Message - Successful
- Validation Message - Unsuccessful
- Validation Failures Allowed
- Validation Message - Failures
- No Internal Email Message

3.2.11. Terms & Conditions

This is a document / policy that can be added to the *Navigation Section* of the Recruitment Website.

Note: See section [2.5.4 Recruitment Website Terms and Conditions](#) for further detail on how to set-up this.

3.2.12. Search Vacancies (Search Appointments v4)

This screen is used for registered applicants to search and find current and open vacancies on the recruitment website.

- This is labelled *Search Appointments v4* and replaces *Search Appointments*.
- Allows you to search on organisation hierarchy elements or other reference types on a vacancy.

The screenshot shows a web interface titled "Search Appointments Version 4". On the left, there is a list of search criteria: "Include", "Available in Irish", "Short Description *", and "Detailed Description". To the right of these labels are checkboxes for "Include" (checked) and "Available in Irish" (unchecked). Below the checkboxes is a text input field containing the text "ABC Solutions Open Vacancies". At the bottom of the input field, there is a placeholder text: "Welcome to the ABC Solutions Recruitment Website. Please enter your search criteria below to search for Vacancies currently open within the Organisation." The interface has a blue header bar and a light blue background.

3.2.13. Search Results (Search Appointments v4)

This screen is accessed once a website visitor or registered applicant has confirmed search criteria and clicked the search button. To access this:

1. Go to Navigation Section > **Search Vacancies** and click the **Search** button.
2. This brings you to the corresponding *Current Job Vacancies* screen.

The fields found on this screen are configured using the *Search Appointments v4* option, under the section *Search Appointments Version 4 Results* section.

Item	Explanation
Results Page Heading	Enter the name of this section that should appear within the Results page.
Results Page Description	Enter the full description of this section that should appear within the Results page.
Number of Results Per Page	Enter the number of vacancies that should appear per page - e.g. 20.

3.2.14. Formatting Heading Styles

Note:

- Heading Styles are available to update the display of information on the following recruitment website pages only:
 - Vacancy Results
 - Job Specification
- The purpose of the Heading Styles is to provide a pre-defined set of formatting options to the data that is displayed on each page.

There are 5 separate heading style options available to select from.

Ref	Style	Font Style	Font Size	Font Colour	Other
1	Heading Style 1	Bold	Larger	Black	-
2	Heading Style 2	Bold	Regular	Black	-
3	Heading Style 3	Normal	Regular	Black	-
4	Heading Style 4	Normal	Regular	Grey	-
5	Heading Style 5	Normal	Regular	Black	Includes Item Label

Example use of Heading Styles on *Vacancy Results* page:

1
Hr Manager

Apply

Business Park, Cork City
2

4
Salary : Negotiable

Contact Email :
mary@company.com
5

3
We are looking for an experienced HR Manager to join our organisation to maintains and enhance the human resources function by planning, implementing and evaluating employee relations and human ... [show more details >>](#)

5
Vacancy ID : 001462
5
Close Date : 28-Feb-2015

Items generally display in a list type format i.e. each one appears below the item before.

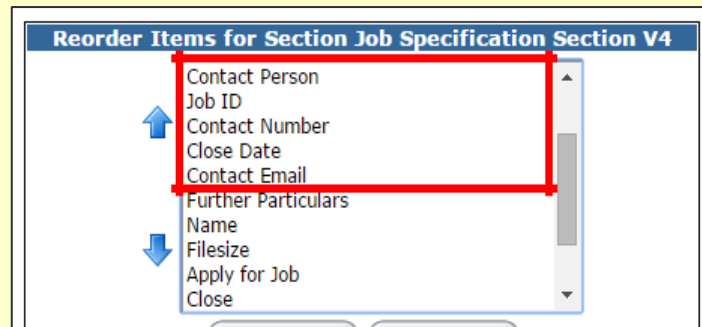

Contact Person : Mary Bloggs
Job ID : 001462

Contact Number : (077) 0768552145
Close Date : 28-Feb-2015

Contact Email : mary@company.com

Note: The exception to this rule is Heading Style 5.

- If two items are listed one after the other and are flagged as Heading 5, they appear next to one another on screen as per Vacancy ID and Close Date in the first example above.
- E.g. Note the ordering for the fields *Contact Person* through to *Contact Email* here to achieve the desired layout in the second example above.

3.2.15. Application History

This screen can show applicants their applications that are either in progress, historic applications, or applications that have not been submitted yet. Full options that can be viewed / actioned here are:

- **Current application in progress**

This shows any current applications in progress with a status of *Application not Submitted*.

- **Historic applications**

This shows any old applications that you have submitted in the past, with a status of *Application Submitted*

- **Delete applications**

You are able to delete any application that are currently in progress with the status of *Application not Submitted*.

- Interview timeslots (see section [3.5 Online Interview Selection](#))
- Offer responses (see section [3.6 Online Job Offers](#))

Application History Section

Recruitment id	Description	Date Input	Applicant status	Delete Actions	Details
001644	SQL Developer		Application not Submitted	✗

In addition to standard items, the following need to be confirmed per customer:

View results in a scroll area

To configure this, ensure the *View Results in Scroll Area* indicator is enabled on the *Application History Section* configuration screen.

Historical Applications Start Date

This shows applications from a certain date onwards for an applicant. To determine this, enter a date on the *Application History Section* configuration screen in the *Historical Applications Start Date*.

Note: This date must be in the format DD/MM/YY.

3.2.16. Previously Submitted Forms

This section allows you to select historical application forms before you begin the process of applying for a vacancy. This reduces repetition on a new application form of information that has not changes since you last applied through the recruitment website.

Vacancy ID	Job Title	Vacancy Description	Select
001544	Sales Manager	HR Admin	Select

New Application

The below image shows what is to be shown on the *Copy of Previous Application Forms* screen.

Note: The above configuration is specific to the *Copy of Previous Application Forms* screen and not the actual *application form* to be submitted for a vacancy, i.e. just the Heading, Table elements and the **Select** button.

3.2.17. Your Application

This screen is directly linked to section [4. Application Forms](#). The details shown as per configuration here and the layout is based on items on the application form. Also refer to section [4.4 Recommended Navigation Guidelines](#) which states the standard approach PeopleXD recommended when configuring the layout of an application form.

Your Application

HR Admin

Section	Completed

Questionnaire Section	✓
CV and Covering Letter Upload	✓
Reference Details	✓
Previous Employment Details	✓
Qualification Details	✓
Professional Bodies	✓
Equal Opportunities Monitoring	✓

[Print Friendly Summary](#)

 **Note:** Each vacancy is linked to an application form, therefore a person applying to multiple vacancies may see some differences in setup and details needed to input.

As part of the application form set-up there are 5 options within the section Application Form that flag to an applicant if a vacancy is closed or is due to close during the application process.

Item	Explanation
Application Successful but late	This means that your application has been successfully submitted but it was a late application to the vacancy. You can no longer edit the details of this application.
Competition Closed	This means that the vacancy is closed therefore your application was not successful.
Competition Closed Allow Late	This means that the vacancy has closed but your organisation allows late applications. If the application is new and the vacancy is now closed, this message appears.
Competition Closing Message	This means that when a competition is approaching the closing date & time, this message is displayed.
Application Cancelled	If an application was started prior to the closing time but an applicant did not reach the final stage until after the closing time, then the Apply and Save buttons are not available to the applicant. This means that the applicant status is set to cancelled.

Note: If late applications are not permitted, and the application is a new application and the closing time has been reached and late submissions are not allowed, then the Competition Closed message above shows.

The screenshot shows a web-based configuration window titled "Your Application". It contains several sections for configuring the application form:

- Include:** A checkbox that is checked.
- Available in Irish:** A checkbox that is unchecked.
- Short Description *:** A text input field containing "Your Application".
- Detailed Description:** A larger text input field.
- Your Application Items:** A list of items with checkboxes for inclusion:
 - Section: ☒ Include
 - Completed: ☒ Include
 - Required: ☒ Include
 - Optional: ☒ Include
 - Save for later: ☒ Include
 - Print Friendly Summary: ☒ Include
 - Submit: ☒ Include
 - Terms & Conditions: ☒ Include
 - Application Successful: ☒ Include
 - Save Application for later: ☒ Include

At the bottom of the window are "Save" and "Cancel" buttons.

3.3. System Notifications

The system notifications feature is used to allow administrators to post messages if the recruitment module is going to be unavailable or have planned downtime. To set-up this:

1. Go to *back office > CorePersonnel > Recruitment > Maintenance > System Notifications*.
2. Insert the date and time that you require the notification to be visible on the recruitment website as the *Posting Date* and select notification type of view only or no access. Choosing one of the below types impact the functionality of the recruitment website.
 - a. **No Access**: no vacancies are displayed, nor can application be viewed or updated.
 - b. **View only**: vacancies can be viewed but no applications can be submitted.

Posting Date	Posting Time	Start Date	Start Time	End Date	End Time	Notification Type	Message
31-JUL-2019	01:00	31-JUL-2019	08:00	02-AUG-2019	23:59	No Access	CoreHR Recruitment Website is currently unavailable due to essential mainten
31-JUL-2019	01:00	03-AUG-2019	00:00	04-AUG-2019	23:59	View Only	View Only Access

3. To ensure that this section is included on the recruitment website go to *Portal > Recruitment Dashboard > Toolbox > Recruitment Admin*.
4. Select Recruitment Master Company from the **Company** drop-down list.
5. Select **Form Type** of E-Recruitment Form and the configuration section appears.
6. Go to the System Notifications section and click the *Include* indicator.

3.4. Online Interview Selection

To allow an applicant to select their own interview time from a predefined list, this section need to be added to the recruitment website. This feature is available on the *Application History Section* from the *Actions* column

The following items need to be added to ensure the applicant can pick their preferred timeslot for an interview.

The screenshot shows the 'Online Interview Selection Items' configuration form. It lists various items with checkboxes for 'Include'. The items are: Date Available, Time Available, Select, Back, Submit, Cancel, Remaining Slots, No interviews available message, Interview Time Submitted Successfully, and Interview Time Cancelled Successfully. There are 'Save' and 'Cancel' buttons at the bottom.

- ☒ Date Available Include
- ☒ Time Available Include

Cancel

To add these:

1. Go to *Portal > Recruitment Dashboard > Toolbox > Recruitment Admin*.
2. Select the **Online Interview Section** option and enable the items on screen.

Note: More details are found on the *Recruitment User Guide*.

3.5. Online Job Offers

Once an applicant has been successful in the interview process, you can choose to allow the applicant to accept the offer online. This feature is available on the *Application History Section* from the *Actions* column

Application History Section

Recruitment id	Description	Date Input	Applicant status	Delete	Actions	Details
001624	eLearning Consultant	15-JUL-19, 12:29	Application Submitted			
001544	HR Admin	02-JUL-19, 12:00	Application Submitted			

The following items can be added to ensure the applicant can respond to an offer on the recruitment website. There are other items such as

organisational hierarchy reference data that can be added to give further information on the job offer sent to an applicant.

The screenshot shows the 'Online Offer Response' form. At the top, it says 'This section allows you to enter Online Offer Response details.' Below this, there are fields for 'Job Title' (Recruitment Consultant), 'Department' (Recruitment), 'Start Date' (11-MAR-2019), and 'End Date'. There is also a 'Reason Code' field and a 'Comments' text area. At the bottom, there is a table for 'Offer Documents' with columns for 'Date Loaded', 'Filename', 'Filesize', and 'View Document'. Below the table, there is a text area for 'Offer message.' and two buttons: 'Accept Offer' and 'Reject Offer'.

To add these items:

1. Go to *Portal > Recruitment Dashboard > Toolbox > Recruitment Admin.*
2. Select the **Online Offer Response** option and enable the items on screen.

The screenshot shows the 'Online Offer Response' configuration screen. At the top, there is a header 'Online Offer Response'. Below this, there are checkboxes for 'Include' (checked), 'Available in Irish' (unchecked), and 'Short Description *' (Online Offer Response). There is also a 'Detailed Description' text area. Below this, there is a section titled 'Online Offer Response Items' with a 'Reorder Items' link. This section contains a list of items with checkboxes for 'Include'. The items are: Offer History (checked), Job Title (checked), Department (checked), Start Date (checked), End Date (checked), Reason Code (checked), Comments (checked), Accept (checked), Reject (checked), Offer message (checked), Offer has been accepted (checked), Offer has been rejected (checked), Online Offer Response (checked), Offer Documents (checked), Company (unchecked), Management Unit (unchecked), Division (unchecked), Cost Centre (unchecked), Location (unchecked), User Code1 (unchecked), User Code2 (unchecked), User Code3 (unchecked), User Code4 (unchecked), User Code5 (unchecked), Post Type (unchecked), Employee Status (unchecked), Employee Sub Status (unchecked), Category (unchecked), Sub Category (unchecked), FTE (unchecked), Pay Scale (unchecked), Point (unchecked), Salary Amount (unchecked), and Job Category (unchecked).

4. Application Forms

4.1. Overview

An application form is the feature that allows an applicant to submit their details and additional information when applying for a role. Each vacancy is tied to an application form that can be configured per vacancy or setup as standard across the organisation to be used on multiple vacancies.

 **Note:** Multiple application forms can be created for use on the recruitment website, based on your organisation's requirements.

The sections that can be included within an application form are:

- Applicant Document Details
- Application Form
- Conference
- Document Details
- Equal Opportunities Monitoring
- Industry / External Links
- Job Specification Section v4
- My Profile
- Previous Employment Details
- Professional Bodies
- Qualification Details
- Qualification Results
- Questionnaire Section
- Reference Details
- Registration / Personal Details
- Research
- Research Interests
- Training (only if CoreL&D in use)
- User Defined Information
- Publication Details

4.2. Managing an Application Form

4.2.1. Create an Application Form

Go to *Recruitment Admin dashboard > Toolbox > Recruitment Admin*

1. Select Recruitment Master Company from the **Company** drop-down list.
2. Select **Form Type** of E-Recruitment Form and the configuration section appears.
3. Click **New Profile** button.

4. The *Create E-Recruitment Form* screen below opens which allows you to enter in the basic details for your new application form

Create E-Recruitment Form

Short Description * Application Form v2 (Standard)

Detailed Description Standard Application Form for Online Applications for CoreHR 2019

Irish Short Description

Irish Detailed Description

Available In Irish ☐

In Test Mode ☐

Save **Cancel**

5. Enter details as follows to set up the application.
 - a. *Short Description*: This is the short description of the application form that appears on the *Vacancy Details -1* screen on the recruitment dashboard in Portal. This is a mandatory field.
 - b. *Detailed Description*: This is an additional description of the application form that can be added if required.
 - c. *In Test Mode*: Turning on this indicator allows the user to edit the profile when testing. Once the profile is complete then this should be turned off so that it is available for selection against a vacancy.

6. Click on the **Save** button to save the changes. The following updated screen displays:

Form Profile for Application Form v2 (Standard)

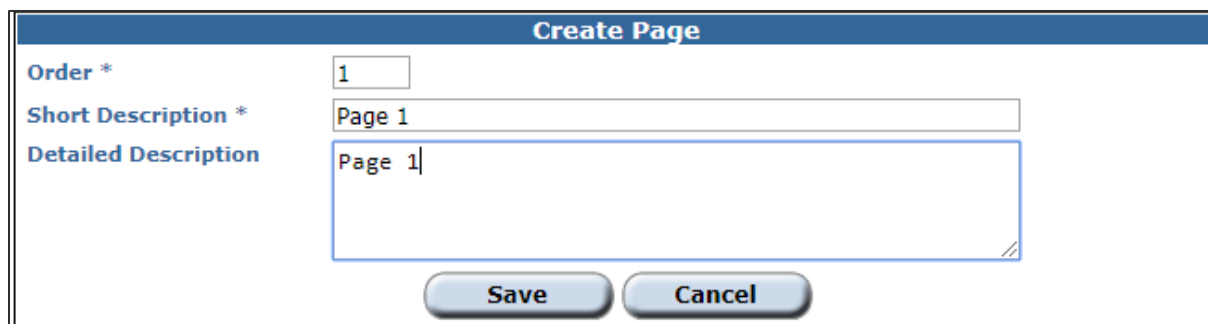

- Application Form v2 (Standard)

Delete Form **Cancel**

Adding a New Page

For the application form to have sections and information included, it is required for one page to be added to the blank form as it stands.

1. Click on the **New Page** button, which opens the below corresponding screen.
2. Click the **Save** button.

The 'Create Page' dialog box has a blue header bar with the title 'Create Page'. It contains three input fields: 'Order *' with the value '1', 'Short Description *' with the value 'Page 1', and 'Detailed Description' with the value 'Page 1'. At the bottom, there are two buttons: 'Save' and 'Cancel'.

Note: Only one page is required.

Adding a New Section

Once a new page has been added, it is then required to add in a Section to ensure all the items are added to the application form.

1. Click on the **New Section** button on the newly created *Page*.

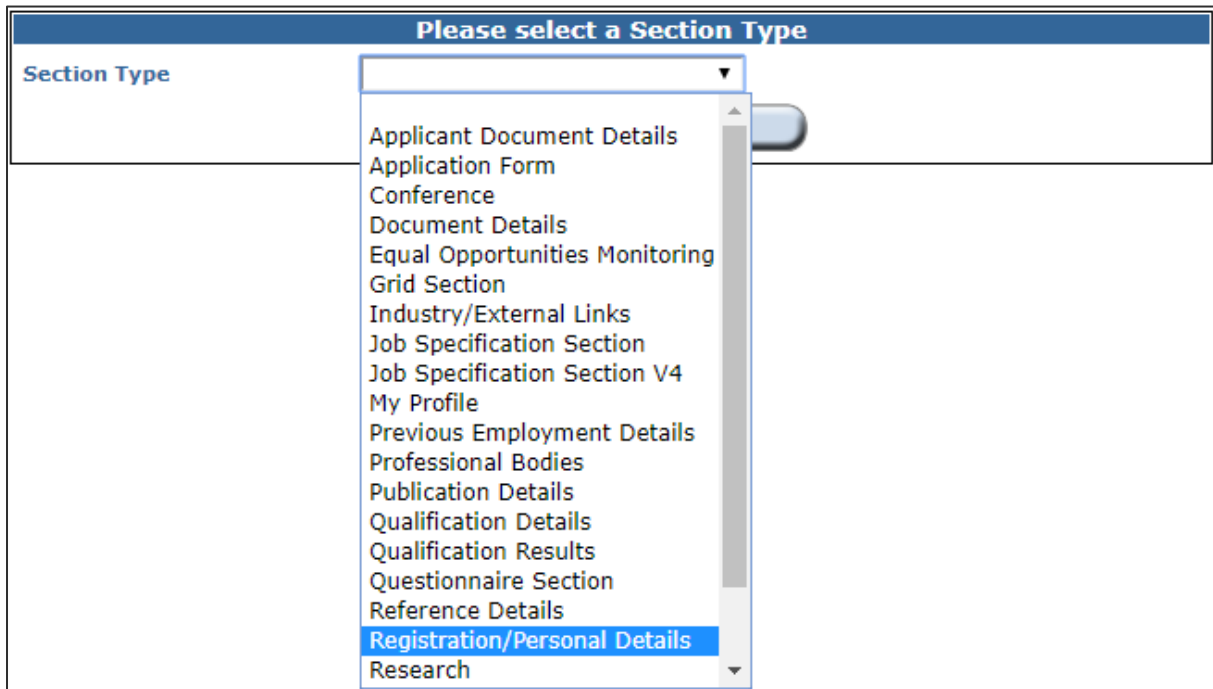

The 'Form Profile for Standard Application Form' dialog box has a blue header bar with the title 'Form Profile for Standard Application Form'. It contains two expandable sections: 'Standard Application Form' and 'Application Form'. The 'Application Form' section is expanded, showing a 'New Section' button highlighted with a red box. Other buttons include 'Delete Form' and 'Cancel'.

2. For this example, the Registration/Personal details is the first section to be selected. This is the first section that an applicant completes.

The next screen gives you the options of all the items that can be added to an application form.

3. Select the appropriate item and then click **Next**.

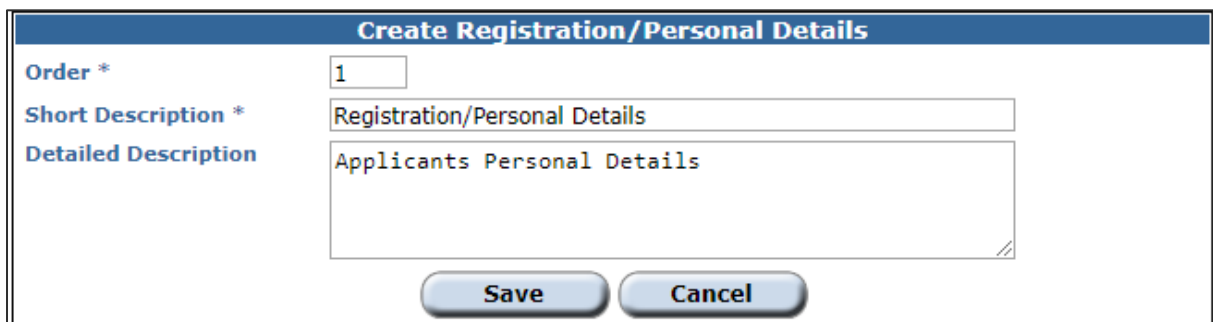

Please select a Section Type

Section Type

Adding Standard Items to a Section

Note: These steps can be repeated for all subsequent sections added to an application

1. Click on the **Standard Items** button within the new section that has been created.

In this example, the Personal Details screen appears. (Refer to section [4.3.2 Personal Details](#) for specific details on these items).

2. Tick on items you wish to include in this section.
3. To view an items settings and labels, use the  Expand button. Some of these items are flagged as mandatory such a *Forename*, *Surname*. An order number should be added in terms of how the items display (1 will mean first on page, etc).

Note: There are recommended guidelines that PeopleXD recommends that you review, to ensure that each section follows consistent configuration. See section [4.4 Recommended Navigation Guidelines](#) on how to set-up and confirm.

Reordering Items for Each Section

To ensure that each item appears on each section in the most practical way, it is important to order items correctly for the applicant filling out an application form.

1. Click on the **Reorder Items** button on the section in question which opens the following screen:

2. Highlight the field that should be re-ordered and click on the down or up arrows to move the field accordingly.
3. Click on **Save** to save the changes.

Multiple Instance Items

These settings need to be set-up so that an applicant can enter and save information on sections that require more than one row of data need to be entered, for example on the **Qualification Details** screen.

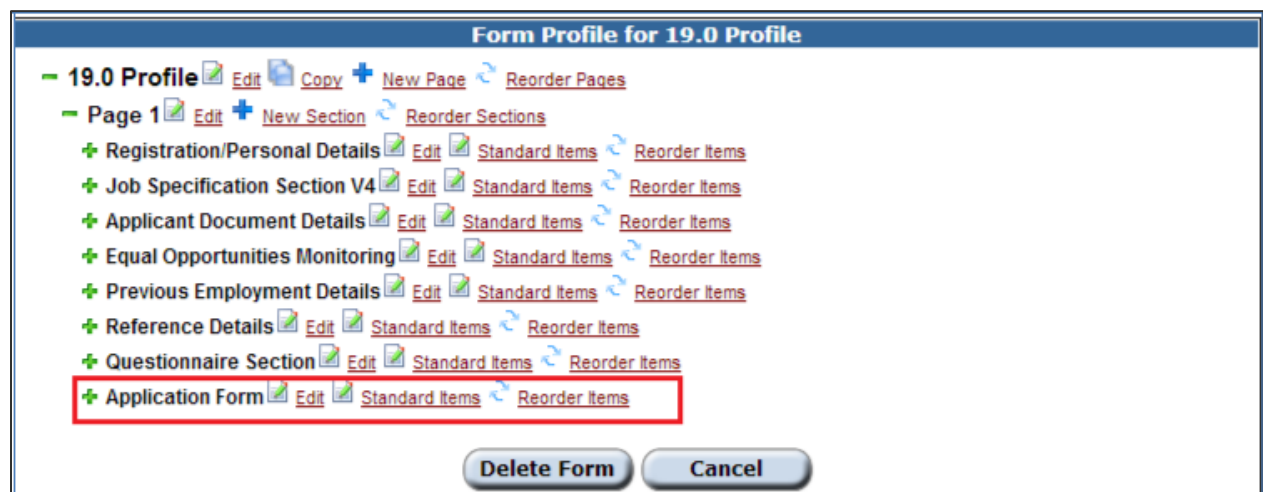

The screenshot displays the 'Create Qualification Details' form. The top section contains fields for 'Order *' (12), 'Short Description *' (Qualification Details), and 'Detailed Description' (Applicants Qualification Details). Below these are 'Min Number of Rows' and 'Max Number of Rows' (both empty), and 'Allow Non-Applicable' (checked). The 'Multiple Instance Entry Section' is highlighted with a red box. It includes a 'Section Description' field and a list of configuration items: 'Add Row Text' (Add), 'Add Row Icon' (erq_multi_add_button.gif), 'Update Row Text' (Edit), 'Update Row Icon' (erq_multi_edit_button.gif), 'Delete Row Text' (Delete), 'Delete Row Icon' (erq_multi_section_delete.gif), 'Confirm Delete Text' (Are you sure?), and 'Back Button Text' (Return to Summary). At the bottom of the red box are 'Save' and 'Cancel' buttons.

Create Qualification Details	
Order *	12
Short Description *	Qualification Details
Detailed Description	Applicants Qualification Details
Min Number of Rows	
Max Number of Rows	
Allow Non-Applicable	☒
Multiple Instance Entry Section	
Section Description	
Add Row Text	Add
Add Row Icon	erq_multi_add_button.gif
Update Row Text	Edit
Update Row Icon	erq_multi_edit_button.gif
Delete Row Text	Delete
Delete Row Icon	erq_multi_section_delete.gif
Confirm Delete Text	Are you sure?
Back Button Text	Return to Summary
Save Cancel	

Options within these screens are as follows:

Option	Explanation
Min. Number of rows	This limits the number of minimum number of rows that an applicant can add to this section. Should be set to 1.
Max. Number of rows	This limits the number of maximum number of rows that an applicant can add to this section.
Allow Non-Applicable	This indicator allows an applicant to leave this section blank or not.
Section Description	Describes the purpose of this multiple entry section and can be used to outline the rules of min and maximum rows.
Add Row Text	This shows on the Add Row button.
Add Row Icon	This is standard configuration, so there is no need to change.
Update Row Text	This shows on the Update Row button.
Update Row Icon	This is standard configuration, so there is no need to change.
Delete Row Text	This shows on the Delete Row button.
Delete Row Icon	This is standard configuration, so there is no need to change.
Confirm Delete Text	This shows when the Delete Row button is clicked.
Back Button Text	This shows on the Back button. This returns the applicant to the section summary page and not the application summary page.

Application Form Section - Vacancy Closing Options

As part of the application form set-up there are 5 options within the section Application Form that will flag to an applicant if a vacancy is closed or is due to close during the application process.

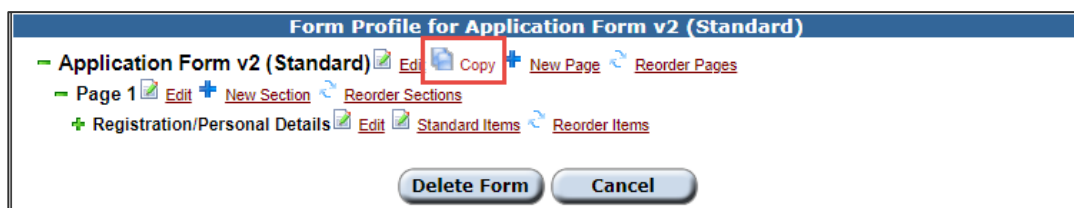

Item	Explanation
Application Successful but late	This means that your application has been successfully submitted but it was a late application to the vacancy. You can no longer edit the details of this application.
Competition Closed	This means that the vacancy is closed therefore your application was not successful.
Competition Closed Allow Late	This means that the vacancy has closed but your organisation allows late applications. If the application is new and the vacancy is now closed, this message appears.
Competition Closing Message	This means that when a competition is approaching the closing date & time, this message is displayed.
Application Cancelled	If an application was started prior to the closing time but an applicant did not reach the final stage until after the closing time, then the Apply and Save buttons are not available to the applicant. This means that the applicant status is set to cancelled.

Note: If late applications are not permitted, and the application is a new application and the closing time has been reached and late submissions are not allowed, then the Competition Closed message above shows.

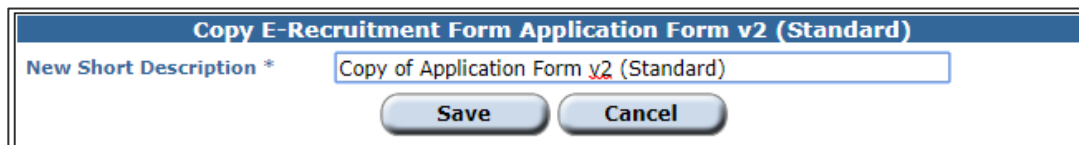

4.2.2. Copy Existing Application Form

If your organisation needs to create multiple application forms and adjust some sections to be specific to certain vacancy types or positions, it may be easier to copy an existing application form and update the sections instead of created a new application form from scratch. To do this:

1. Select Recruitment Master Company from the **Company** drop-down list.
2. Select **Form Type** of E-Recruitment Form and the configuration section appears.
3. Select an application form from the *Form Profile* drop-down and then click the **Edit** button.
4. Once on the application form configuration screen, click the **Copy** button.

5. This brings you to the *Copy E-Recruitment Form New Short Description* screen as below.

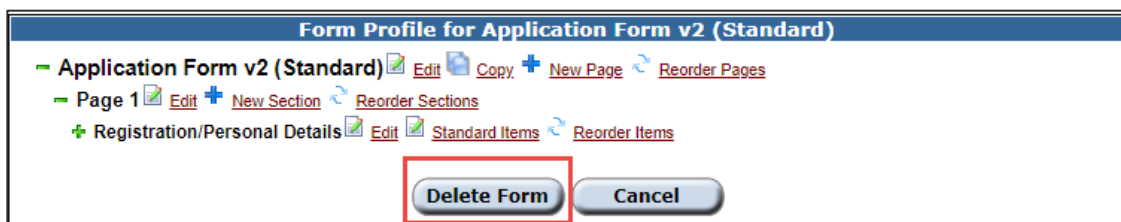

6. Click the **Save** button and continue editing as normal.

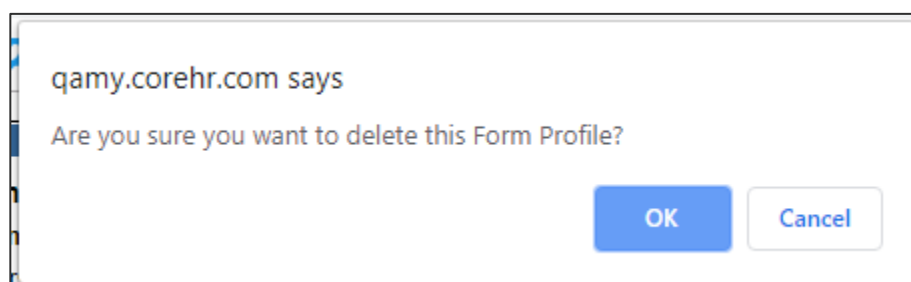

4.2.3. Delete an Application Form

There is also a feature to delete an existing application form if required. To do this:

1. Select Recruitment Master Company from the **Company** drop-down list.
2. Select **Form Type** of E-Recruitment Form and the configuration section appears.
3. Select an application form from the *Form Profile* drop-down and then click the **Edit** button.
4. Once on the application form configuration screen, click on the **Delete Form** button.

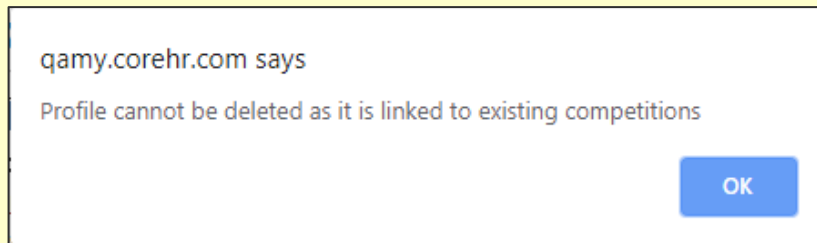

5. The following prompt appears on screen, asking you to confirm your action.

6. If happy to delete this form, click the **OK** button.
The form is now deleted from the recruitment website.

Note: If you try to delete an application form that is linked to a vacancy, the following message appears. Therefore, you will not be able to delete an application form that is in use.

4.2.4. Edit Existing Application Form

It may be necessary to edit an application form a during certain recruitment stages in your company. To do this:

1. Select Recruitment Master Company from the **Company** drop-down list.
2. Select **Form Type** of E-Recruitment Form and the configuration section appears.
3. Select an application form from the *Form Profile* drop-down and then click the **Edit** button.

A screenshot of the "E-Form Maintenance" web interface. The title bar is blue with the text "E-Form Maintenance". Below the title bar, there are two main sections: "Company" and "Form Type". The "Company" section has a dropdown menu showing "Customer Company (Uk)". The "Form Type" section has a dropdown menu showing "E-Recruitment Form". Below these, there is a list of application form profiles, each with a small icon and a text label: "Application History Section", "Change Password", "Copy of Previous Forms", "Internal Login", "Login Section", "My Account", "My Profile", "Navigation Section", "Online CV Section", "Online Interview Selection", "Online Offer Response", "Online Reference Request", "Page Header", "Register New User", "Search Appointments", "Search Appointments Version 4", "System Notifications", and "Your Application". At the bottom, there is a "Form Profile" section with a dropdown menu showing "Standard Application Form". To the right of the dropdown, there are two links: "Edit Profile" and "Test Profile". A red arrow points to the "Edit Profile" link. Below the links, there is a "New Profile" button.

Note: You will be able to edit an application form even if it is attached to an open vacancy. Therefore, any changes made to an application form will impact any applicants currently in the application process. The same also applies to historic vacancies or applicants that submitted applications forms in the past. This information will be updated as you edit the linked application form.

4.3. Form Sections

4.3.1. Job Description

This section is required to allow an applicant to view the Job Description further and apply for the job. Without this included, you are not able to proceed with your application. On the application form, this section is entitled *Job Specification Section v4*

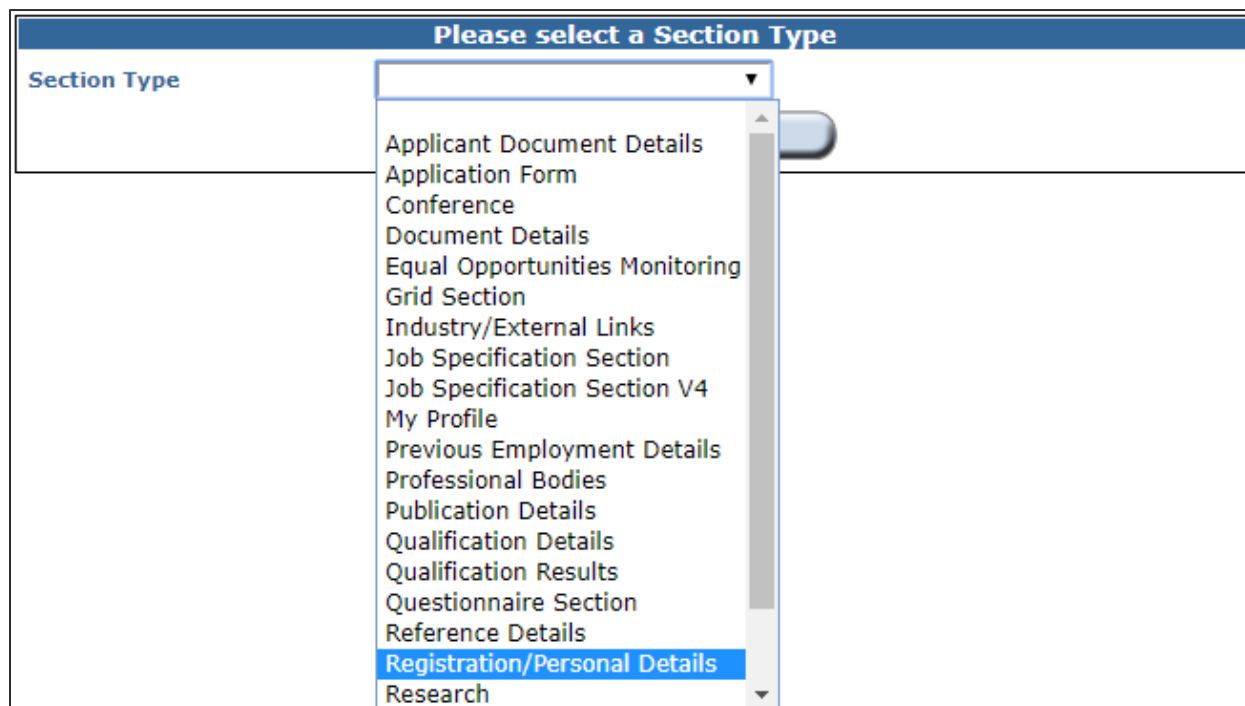

Header Styles are applicable here, which are explained in section [3.2.15 Formatting Heading Styles](#).

The screenshot shows a job application form section for 'Hr Manager'. It includes a blue 'Apply' button in the top right corner. The form is divided into several sections, each marked with a blue circle and a number: 1. Job Title: 'Hr Manager'. 2. Location: 'Business Park, Cork City'. 4. Salary: 'Negotiable'. 5. Contact Email: 'mary@company.com'. 3. Job Description: 'We are looking for an experienced HR Manager to join our organisation to maintains and enhance the human resources function by planning, implementing and evaluating employee relations and human ... [show more details >>](#)'. 5. Vacancy ID: '001462'. 5. Close Date: '28-Feb-2015'.

4.3.2. Personal Details

This section is the area where a registered applicant (be it internal or external) can enter their basic personal information to be saved and included in this application form. This section is accessed from the application form section configuration screen:

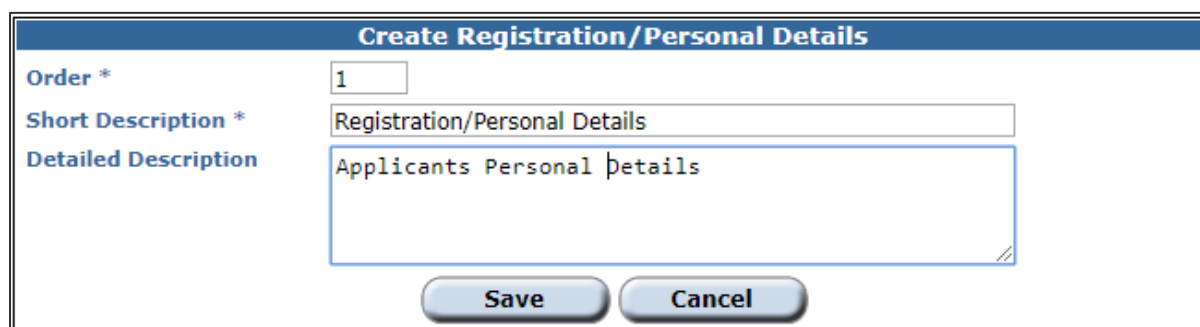

1. Click on **New Section** button on the application form and add the *Registration / Personal Details* option from the drop-down list.

Please select a Section Type

Section Type
Applicant Document Details
Application Form
Conference
Document Details
Equal Opportunities Monitoring
Grid Section
Industry/External Links
Job Specification Section
Job Specification Section V4
My Profile
Previous Employment Details
Professional Bodies
Publication Details
Qualification Details
Qualification Results
Questionnaire Section
Reference Details
Registration/Personal Details
Research

2. Click **Next**, which guides you through the description page for this section. This shows on the recruitment page as the title of the section.
3. Click **Save** and close the screen to return to application form configuration screen.

Create Registration/Personal Details

Order *	1
Short Description *	Registration/Personal Details
Detailed Description	Applicants Personal details

Save **Cancel**

The below options are available to be selected and added to the *Registration / Personal Details* section of an application form.

Items Personal Details

Items [Select All](#) [Select None](#)

- + Forename ☒ Include
- + Known As ☒ Include
- + Surname ☒ Include
- + Address 1 ☒ Include
- + Address 2 ☒ Include
- + Address 3 ☒ Include
- + Address 4 ☒ Include
- + Address 5 ☒ Include
- + Post Code Prefix ☒ Include
- + Post Code Suffix ☒ Include
- + Contact No. ☒ Include
- + Email ☒ Include
- + Email Exists Message ☒ Include
- + Back ☒ Include
- + Save and Next ☒ Include
- + Publish on Web ☐ Include
- + Agency Applicant Reference ☐ Include
- + Competition Closing Message ☐ Include
- + Country ☐ Include
- + County ☐ Include
- + Initials ☐ Include
- + Middle Name ☐ Include
- + Mobile ☐ Include
- + Nationality ☐ Include
- + Next ☐ Include
- + Title ☐ Include

Save **Cancel**

Note: The address on the Personal Details section of the application form needs to follow the same set-up and include the same fields as the *Default Home Address* in People Management.

The following items can be added to the section depending on your organisation's requirements:

Item	Explanation
Agency Applicant Reference	This is used in conjunction with agency application form configuration only.
Email Exists Message	This shows if the recruitment website already has an applicant using this email address.

4.3.3. Applicant Document Details

This section allows an applicant to upload requested documents or any other supporting documentation to their application e.g. their CV etc.

The below image shows what can be included in this section:

Items CV and Covering Letter Upload

Items [Select All](#) [Select None](#)

- + Filename ☒ Include
- + Filesize(KB) ☒ Include
- + Date Loaded ☒ Include
- + Empty Document message ☒ Include
- + Document too big message ☒ Include
- + Invalid Document type message ☒ Include
- + Filename too big message ☒ Include
- + Back ☒ Include
- + Upload ☒ Include
- + Next ☐ Include
- + Single quote in filename ☒ Include

Save Cancel

The following items are added to this section by default and cannot be removed.

Item	Explanation
Empty Document message	This shows if an applicant tries to upload a document which has nothing included on it (i.e. 0 KB / 0 MB).
Document too big message	This shows if the document loaded is above the allowed size limit. See section 2.5.2 Maximum Document Size for further information.
Invalid Document type message.	This shows if the document does not meet the valid document types as outlined in section 2.4.4 Applicant Document Types .
Filename too big message	This shows if the filename is too big.

Note: The *Applicant Document Details* section is a Multiple Instance Item, meaning they can add many documents if required. See section [4.2.1 Multiple Instance Items](#) for further detail on this configuration.

4.3.4. Questionnaire

This section is used to track any additional questions added to a vacancy via the Questionnaire Profile on the Vacancy Details screen in Portal. Refer to the *Recruitment User Guide* for further information.

This automatically displays the questions that have been attached to the vacancy by the Recruitment Administrator. You do not specify questions from this screen.

The only standard items on this screen are related to the section [4.4 Recommended Navigation Guidelines](#), as everything else is configured using the Portal Questionnaire feature.

4.3.5. Qualification Details

This allows the applicant to attach details of their qualifications to the application form. Reference data displayed here is based on the reference data used to manage the Qualification record in HR.

If an applicant has been successful with their application, then all details entered here are linked to the employee's education and qualification details for the successful candidate.

The below image shows the items that are available for selection on the Qualification Details section:

The screenshot shows a window titled "Items Qualification Details". It contains a list of items with checkboxes for "Include". The items are:

- Course Name ☒ Include
- Qualification ☒ Include
- Qualification Other ☒ Include
- Result ☒ Include
- Awarding Body ☒ Include
- Awarding Body Other ☒ Include
- Institute ☒ Include
- Institute Other ☒ Include
- From Month ☒ Include
- From Year ☒ Include
- To Month ☒ Include
- To Year ☒ Include
- Back ☒ Include
- Save and Next ☒ Include
- Comments ☐ Include
- Conferral Date ☐ Include
- Country ☐ Include
- Duration ☐ Include
- Duration Type ☐ Include
- Graduation Date ☐ Include
- Level Attained ☐ Include
- Next ☐ Include
- Publish on Web ☐ Include
- Save and Add ☐ Include
- Thesis Phd title ☐ Include

At the bottom of the window are two buttons: "Save" and "Cancel".

Note: Throughout the application form, there are certain reference values that can be opened for the applicant to input free text information. For this to occur, create a reference code of OTHER and a description which explains that if this reference code is chosen, the following field becomes editable. For example:

Qualification Details
SQL Developer

Course Name * Business Information Systems

Qualification * Other

Qualification Other

Result *

Awarding Body Awarding Body 1

Awarding Body Other

Institute

Institute Other

From Month * From Year *

To Month * To Year *

Return to Qualifications Save and Next

Free Text field opens up due to 'Other' selection

Free Text field unavailable due to selection

Note: The *Qualifications* section is a Multiple Instance Item, meaning they can add many documents if required. See section [4.2.1 Multiple Instance Items](#) for further detail on this configuration.

4.3.6. Previous Employment Details

This section allows the applicant to provide details of employment history or work experience that is valid to their application.

The below screenshot shows what can be included in this section:

Items Previous Employment Details

Items [Select All](#) [Select None](#)

- + Publish on Web ☐ Include
- + Job Description ☐ Include
- + Company Category ☐ Include
- + Company Category Other ☐ Include
- + Employer Name ☒ Include
- + Employer Address ☐ Include
- + End Date ☐ Include
- + Industry Category ☐ Include
- + Industry Category Other ☐ Include
- + Reason for Leaving ☐ Include
- + Next ☐ Include
- + Position ☒ Include
- + Back ☐ Include
- + Salary ☐ Include
- + Save and Add ☐ Include
- + Save and Next ☐ Include
- + Start Date ☒ Include

Save Cancel

Note: The *Previous Employment Details* section is a Multiple Instance Item, meaning they can add many documents if required. See section [4.2.1 Multiple Instance Items](#) for further detail on this configuration.

4.3.7. Equal Opportunities & Monitoring

This section relates to the diversity and background section on an applicant record, which is then saved on the employee record if the applicant is successful in their application.

Information provided on this section by the applicant is subject to additional security.

- It is excluded from the Generate and Merge Application Forms process
- It is excluded when viewing the Print Friendly form.... Etc

The below image shows what can be included in this section:

Items Equal Opportunities Monitoring

Items [Select All](#) [Select None](#)

- + Disabled ☒ Include
- + Disability 1 ☒ Include
- + Disability 2 ☒ Include
- + Nature of Disability ☒ Include
- + Gender ☒ Include
- + Ethnic Origin ☒ Include
- + Sexual Orientation ☒ Include
- + Religion ☒ Include
- + Back ☒ Include
- + Save and Next ☒ Include

- + NI Number is invalid ☐ Include
- + Notes ☐ Include
- + Parent/Guardian ☐ Include
- + Registered Disabled ☐ Include
- + Member of the Travelling Community ☐ Include

[Save](#) [Cancel](#)

4.3.8. Professional Bodies

A Professional Body is an organisation with individual members practicing a profession or occupation in which the organisation maintains an oversight of the knowledge, skills, conduct and practice of that profession or occupation.

If included in an application form, an applicant can enter any details of membership to one of these organisations. Details captured here go on to be shared on the employee record, for the successful candidate.

The below image shows what can be included in this section:

Items Professional Bodies

Items [Select All](#) [Select None](#)

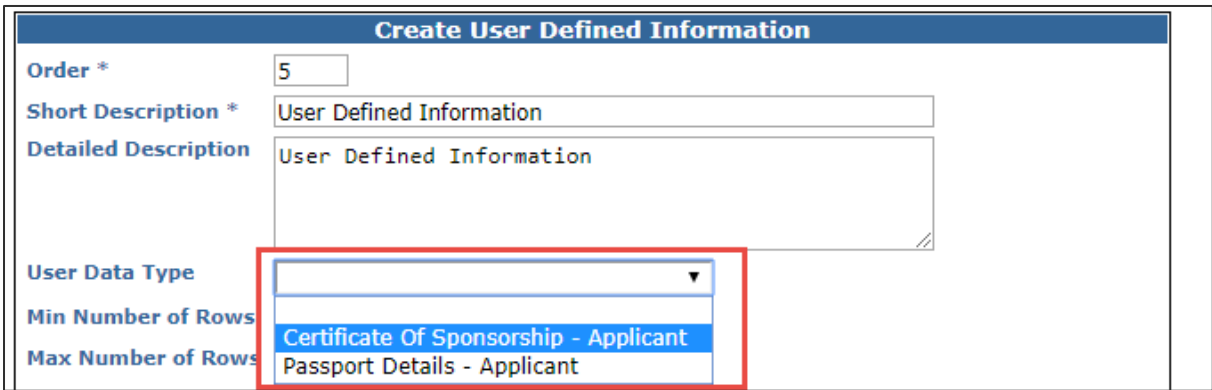

- + Name ☒ Include
- + Name ☒ Include
- + Year Admitted ☒ Include
- + Expiration Date ☒ Include
- + Membership No. ☒ Include
- + Back ☒ Include
- + Save and Add ☒ Include

- + Means of Entry ☐ Include
- + Other Means ☐ Include
- + Comments ☐ Include
- + Publish on Web ☐ Include
- + Save and Next ☐ Include
- + Next ☐ Include

[Save](#) [Cancel](#)

Note: The *Professional Bodies* section is a Multiple Instance Item, meaning they can add many documents if required. See section [4.2.1 Multiple Instance Items](#) for further detail on this configuration.

4.3.9. User Defined Fields

User Defined Fields (UDFs) can be added to the application form to capture details from the applicant, where a standard section is not available to support this on PeopleXD.

Create User Defined Information	
Order *	5
Short Description *	User Defined Information
Detailed Description	User Defined Information
User Data Type	Certificate Of Sponsorship - Applicant Passport Details - Applicant
Min Number of Rows	
Max Number of Rows	

To ensure that the User Data Type appears on the above drop-down list:

1. Go to Portal > People Management > Data Centre > View All > User Defined Objects
2. Select  > click on the **Advanced** button > Ensure the *E-Recruitment* indicator is enabled.
3. Click **Ok**.

The only items that are included in this section are the Next, Back, Save and Add, Save and Next options as per section [4.4 Recommended Navigation Guidelines](#).

Note: The *User Defined Fields* section is a Multiple Instance Item, meaning they can add many documents if required. See section [4.2.1 Multiple Instance Items](#) for further detail on this configuration.

4.3.10. Training

This is used to track any training courses that an applicant has completed. The reference data behind this screen is created and maintained in the Training module in PeopleXD back office.

Save and Next **Save and Add** **Next** **Back**

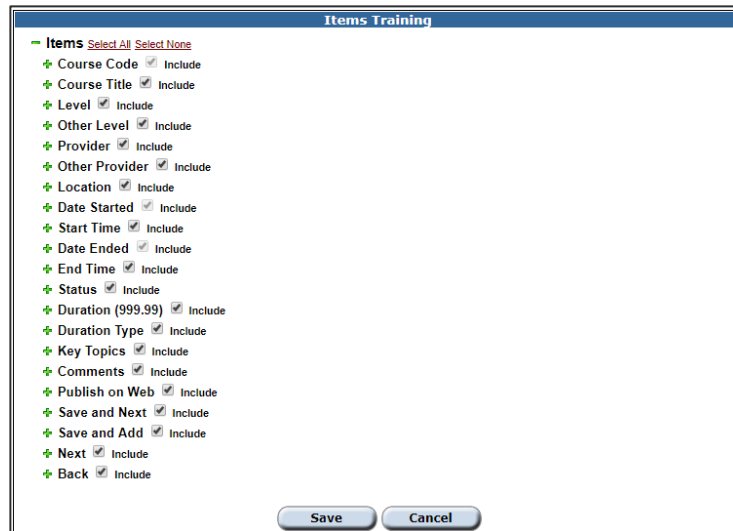

Note: This application form section should only be added to an internal vacancy, as the reference data relates to training course set-up in the system for internal candidates.

To ensure that the training courses in the Course Code list on this section:

1. Go to *back office > CorePersonnel > Training > Maintenance > Course Setup*.

2. Select *Course Code* from  and double-click on it once returned.
3. Ensure the *Online CV Course* indicator is enabled.
4. Save.

These are the options that are available to configure the application form section:

Item	Include

4.3.11. Other Sections

The following sections can also be added to allow applicants upload external pieces of work or supporting accreditation:

- Conference
- Internal / External Links
- Publication Details
- Research
- Research Interests

4.4. Recommended Navigation Guidelines

4.4.1. Overview

PeopleXD recommends that a standard navigation format is applied to all application form configurations.

This refers to how the applicant moves between each section of the application form, as they are completing this online.

The recommendation here is to use the application summary page (see section [3.2.17 Your Application](#)) as the focus point and landing page for the applicant. This is like a table of contents found in any user guide which allows the applicant to select between variety of options available

Note: This setup is in place on the pre-configured application form to review and copy, as required however all changes should be standard and consistent across the recruitment website.

The screenshot shows the 'corehr' logo at the top left. Below it, a dark blue bar displays 'GMT Date & Time 01-August-2019 11:59' and 'Welcome Back Declan Carey'. The main content area is titled 'Application Summary Page' for the role of 'SQL Developer'. On the left, a 'Navigation Section' lists links: Search Vacancies, Application History, My Account, My Profile (with a sub-link to change profile details), Equal Opportunities Policy (with a sub-link to review a printable version), Reset Password, and Logout. The central table lists application sections and their completion status:

Section	Completed
Personal Details	✓
Questionnaire Section	Optional
CV and Covering Letter Upload	✓
Reference Details	Required
Previous Employment Details	Optional
Publication Details	Optional
Qualification Details	Optional
Document Details	✓
Professional Bodies	Optional
Training	Required
Equal Opportunities Monitoring	Required

At the bottom of the table are two buttons: 'Save for later' and 'Print Friendly Summary'.

For example, in this configuration an applicant automatically is shown the *Personal Details* section when they click on the **Apply** button on a vacancy. Once this information is saved, the navigation

automatically directs the applicant to the *Your Application* page. This shows the full selection of items that are available within the application form.

This is broken down into the sections that are:

- Required to complete
- Optional to complete
- Completed items

On accessing this page, the applicant can use the **Save for Later** option. This saves the details and allows them to return to this application form at a later stage to complete their application and submit it.

In all sections, the **Back** and **Save** buttons should all be configured to return the user to the overall summary page (i.e. your application). Every page needs to be configured this way to ensure the applicants journey hold true to a consistent approach and the applicant can expect the flow of the application process.

Note:

- The recommendation from PeopleXD is that all your **Back** and **Save** buttons return the user from the section they are in back out to the application summary.
- Treat the *Your Application* page like a table of contents with the list of items that the applicants need to complete.
- This allows them to jump in and out of the application form with ease, until all required items are completed.

4.4.2. Benefits

1. At a minimum, you are ensuring that the applicant becomes aware of the options that are mandatory and optional on an application form.
2. You are managing applicants' expectations and their journey up front to show them the size of the application form, what they need to complete to submit it and what the optional items are that can be provided.

3. It allows an applicant to track their own completion and progress because it shows outstanding items and which ones are required and which ones are optional.
4. Sections of application form can be completed in any order. This helps the applicant to choose to complete at certain times as the information required may not be available to the applicant. They may not wish to complete each section, one after another. They can save for later and return at a later stage.
5. This enhances usability by giving the applicant a free-flowing process which is the most user-friendly way of completing an application form.
6. This ensures that any additional features and details that can help their application can be used.

4.4.3. Where to find Application Form Navigation Buttons

The recommended application form navigation solution is achieved through the consistent configuration applied to the buttons available in each section. The buttons available are:

- **Back / Previous**
- **Save**
- **Save and Add**
 - Only applicable for multi row instances
- **Save and Next**
 - Progresses straight through to the next section without returning to the Application summary

Note:

- Do not include the Save or the Save and Add button.
- Ensure the *Return to Summary* page indicator is selected for
 - Back / Previous
 - Save and Next

Personal Details

Within here, there are 2 buttons available.

- **Save** - allows user to save details and progress through application. When selected, it directs the user back to the Application Summary page or the *Your Application* page.
- **Return to Summary**. This returns the user to the summary page, without saving any detail.

The screenshot shows the 'corehr' website interface. At the top, a dark blue header bar displays 'GMT Date & Time 01-August-2019 11:59' and 'Welcome Back Declan Carey'. On the left, a 'Navigation Section' lists links: Search Vacancies, Application History, My Account, My Profile (with a sub-link 'Click to change profile details'), Equal Opportunities Policy (with a sub-link 'Click here to review a printable version of the Equal Opportunities Policy'), Reset Password, and Logout. The main content area is titled 'Personal Details' for an 'SQL Developer'. Below this, it says 'Applicants Personal Details'. The form fields include: Title * (dropdown menu showing 'Dr'), Forename * (text input 'Declan'), Known as (text input), Surname * (text input 'Carey'), Address Line 1 * (text input 'Cork'), Address Line 2 * (text input 'Cork'), Address Line 3 * (text input 'Cork'), Address Line 4 (text input), Address Line 5 (text input), Post Code (split into 'T12' and 'DY8P' inputs), Contact No. * (text input '0863451234'), and Email * (text input 'declan5@gmail.com'). At the bottom of the form, two buttons are highlighted with a red box: 'Return to Summary' and 'Save'.

Questionnaire Section

- Save and Next option
- Back

The screenshot shows the 'corehr' website interface for the 'Questionnaire Section'. The header bar is the same as the previous page. The 'Navigation Section' on the left is identical. The main content area is titled 'Questionnaire Section' for an 'SQL Developer'. Below this, it says 'Questionnaire Section details'. The form includes several questions with radio button or dropdown answers: 'Can you drive? *' (Yes/No), 'Are you an EU citizen? *' (Yes/No), 'How did you hear about this vacancy? *' (dropdown menu), 'Do you have evidence of your entitlement to live and work in the Country? *' (Yes/No), 'Do you need a work permit to allow you to work in the country? *' (Yes/No), 'Do you hold a current full driving licence? *' (Yes/No), and 'Have you ever been convicted of a criminal offence or been investigated or convicted of fraud? *' (Yes/No). Below these is a text area for 'Please give brief details of your leisure activities, sports, hobbies, interests etc *' with a '950 Characters Left' indicator. At the bottom left, there is a checkbox labeled 'Section Not Applicable' which is checked. At the bottom center, two buttons are highlighted with a red box: 'Back' and 'Save and Next'.

Multiple Row Sections E.g. Qualification Details

- Only one option to **Return to Summary**.

How to Configure the Application Form Navigation Buttons

1. Go to *Portal > Recruitment Dashboard > Toolbox > Recruitment Admin*.
2. Select the *Company* from the **Company** drop-down list.
3. Select the *Form Type* as **E-Recruitment Form** from the drop-down list.
4. Select the *Form Profile* in question from the drop-down list
5. Select a section e.g. *Registration / Personal Details section*
6. Select **Standard Items**.

The screenshot shows a configuration window titled "Items Personal Details". It contains a list of items with checkboxes for "Include". The items are:

- Items [Select All](#) [Select None](#)
- Title ☒ Include
- Forename ☒ Include
- Known As ☒ Include
- Surname ☒ Include
- Address 1 ☒ Include
- Address 2 ☒ Include
- Address 3 ☒ Include
- Address 4 ☒ Include
- Address 5 ☒ Include
- Post Code Prefix ☒ Include
- Post Code Suffix ☒ Include
- Contact No. ☒ Include
- Email ☒ Include
- Email Exists Message ☒ Include
- Back ☒ Include
- Save and Next ☒ Include
- Publish on Web ☐ Include
- Agency Applicant Reference ☐ Include
- Competition Closing Message ☐ Include
- Country ☐ Include
- County ☐ Include
- Initials ☐ Include
- Middle Name ☐ Include
- Mobile ☐ Include
- Nationality ☐ Include
- Next ☐ Include

At the bottom of the window are two buttons: "Save" and "Cancel".

The screenshot displays the configuration interface for two buttons in the Recruitment v27 system. The first button is labeled 'Back' and has an 'Include' checkbox checked. Its 'Order' is set to 15, and it is not required. The 'Label' is 'Return to Summary', and the 'Return to Summary Page' checkbox is checked. The second button is labeled 'Save and Next' and also has an 'Include' checkbox checked. Its 'Order' is set to 16, and it is required. The 'Label' is 'Save', and the 'Return to Summary Page' checkbox is checked. Both buttons have fields for 'Short Hint' and 'Help Text'.

- The *Back* button includes the option *Return to Summary* page.
Ensure this **is enabled**.
If this is not enabled, the user is brought back to the screen they were on prior to accessing the Personal Details page.
- The *Save and Next* button also includes the *Return to Summary* option.
Ensure this **is enabled**.
If this is not selected, the user in this instance is automatically brought though to the next section on the application form. According to the above example, this is the *Questionnaire* section. If this is turned off, the applicant does not know what section is next, how many elements there are left to complete. This leads to the applicant not being able to understand the amount of time it is going to take them to complete the application process.

Note: Always ensure within standard items that the option for Back option and the Save and Next option are enabled and the **Return to Summary** indicator is included on both items.
