1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how to use the Recruitment module to manage and post vacancies.

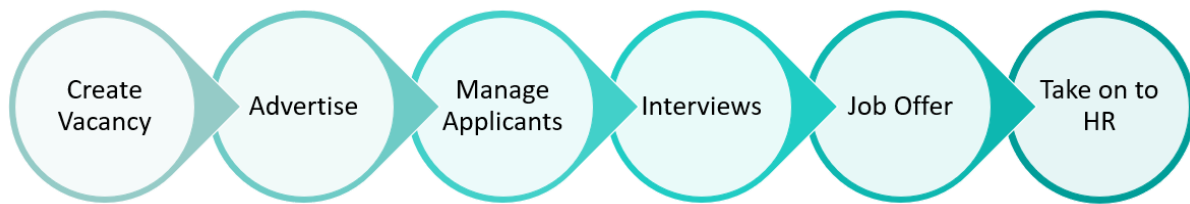

Note: This guide does not include:

- Steps on how to use staff requests and the approval process linked to creating a vacancy via a staff request. For further details see our [Staff Requests](#) guide.
- Steps on how to use applicant talent pools.
- Steps on how to use any 3rd Party integrations.
- Steps on how to register and apply for a vacancy on the Careers Website.

1.2. Recruitment Lifecycle

This section provides an overview of the key stages of the recruitment lifecycle on PeopleXD.

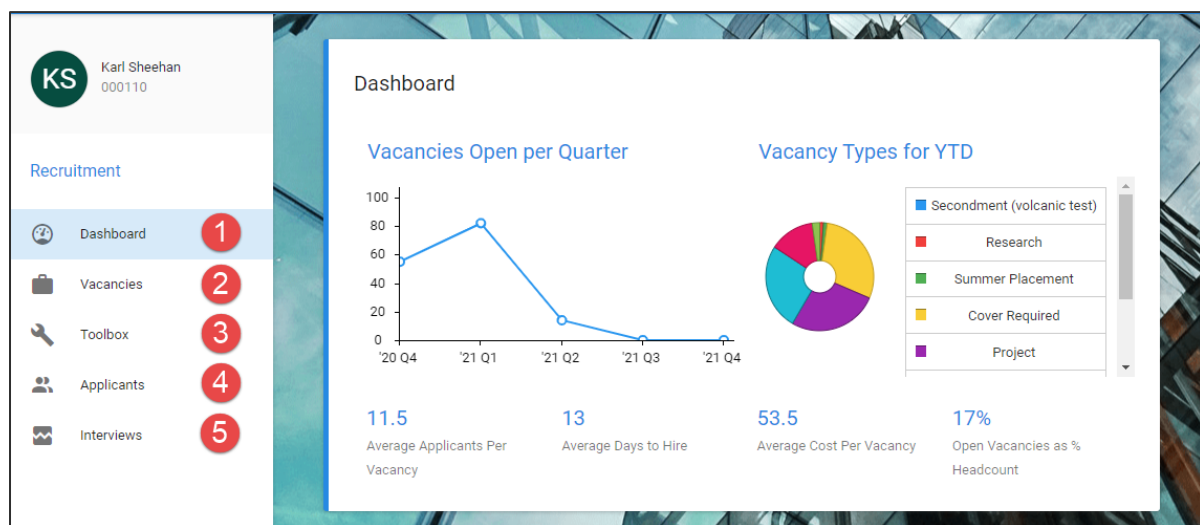

Stage	Overview
Create Vacancy	The recruitment administrator(s) sets up the vacancy on the <i>Recruitment</i> dashboard. This includes details such as the advertising title, advertising dates, job description, salary, department, vacancy questions, interview panel etc. Note: If using Staff Requests, this automatically results in the creation of a vacancy for an approved request.
Advertise	The vacancy is published online for applicants to review and apply for. This is published: - On the Portal for <i>Internal</i> applicants (staff). - On the external Careers Website for <i>External</i> applicants.
Manage Applicants	Internal and external applicants submit an online application form via the Careers Website. The recruitment administrator(s) can view the applications in real-time as they are submitted and update the records as part of the shortlisting process.
Interviews	Interview rounds are setup from the <i>Recruitment</i> dashboard, and applicants are invited to attend these. Applicants may attend many rounds of scheduled interviews/assessments as the vacancy progresses.
Job Offer	A job offer is recorded for the successful applicant, including the details that are used to create the corresponding employee contract on People Management e.g. the Post Appointment, org structure, salary details etc.
Take on to HR	When an applicant has accepted the offer, their applicant record is flagged to HR in People Management as a successful applicant. From here, they can be

Stage	Overview
	setup as an employee, using their applicant and job offer details as a foundation to build their employee contract.

1.3. Accessing XD Recruitment

1.3.1. Administrator

To access the *Recruitment* dashboard, click *Recruitment* on the dashboard menu. The *Recruitment* dashboard for an administrator contains the following tabs by default:

Tab	Description
1. Dashboard	This shows the <i>Dashboard</i> widget, which provides an overview of key recruitment statistics.
2. Vacancies	This holds the main widget for vacancy management for administrators to create and edit vacancies.
3. Toolbox	This holds administrator settings that control the configuration and reference data of the recruitment website and how other recruitment features work.
4. Applicants	This holds data on all applicants and applications that are on XD Recruitment and have come from the Careers Website for administrators to view and update.

Tab	Description
5. Interviews	This allows an administrator to manage interviews and applicants if they have been added to the interview panel for a vacancy.

1.3.2. Manager

For a manager, the following widgets may be shared on the *Manager Dashboard* to support the recruitment process:

- *Interviews*
- *Vacancies Stream*

The screenshot displays the Manager Dashboard interface. On the left is a vertical sidebar with a purple circular profile icon labeled 'RA' and several smaller icons representing different dashboard sections. The main content area features two widgets. The top widget, titled 'Interviews' with a red circle containing the number '1', includes a 'VIEW ALL' button and a table with the following data:

Area	Items	
Interviews	0	VIEW
Interview Panel	0	VIEW
Job Gradings		VIEW

The bottom widget, titled 'Vacancies Stream' with a red circle containing the number '2', displays a table of applicant activities:

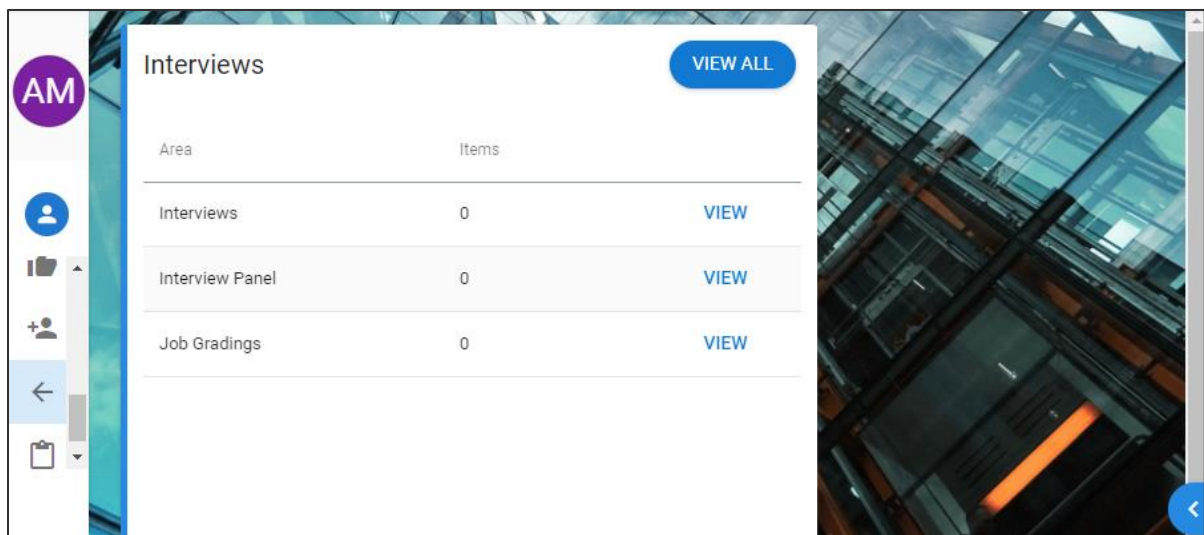

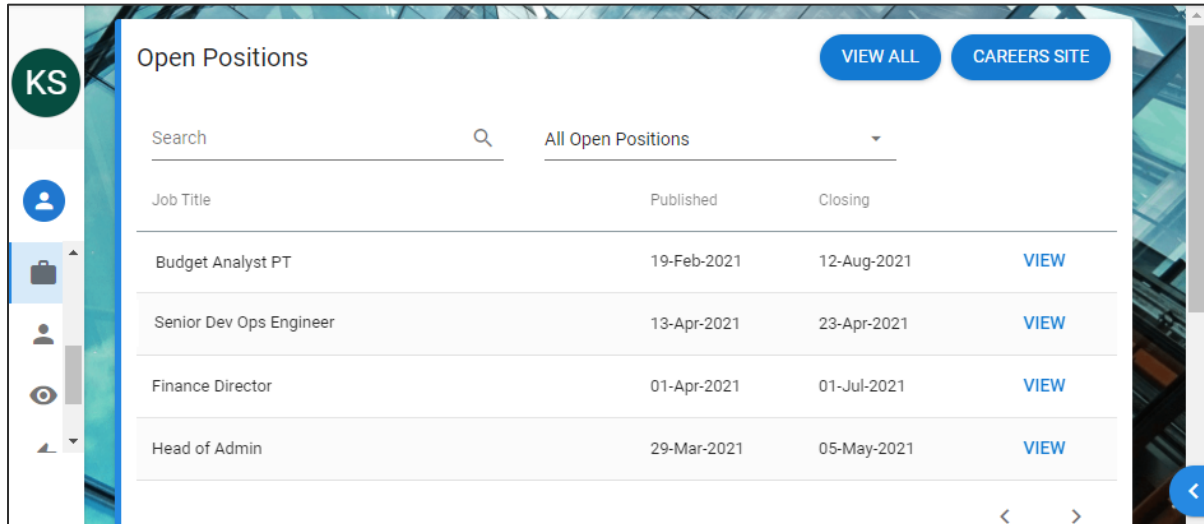

Applicant Activity	Date	Time	Vacancy
Declan Carey changed to Successful At Interview	05-Jul-2019	16:16	HR Admin 001544

In addition, the *Staff Request* widget may also be added to the *Manager Dashboard* for managers to create, raise & approve new requisitions.

Note: Full guidance on how to use the Staff Request feature can be found in the [Staff Requests](#) user guide.

1.3.3. Employee / Internal Applicant

For an employee, PeopleXD recommends that the *Open Positions* & the *Interviews* widget be added to the *Employee Dashboard*.

The following table outlines the widgets:

Widget	Description
Open Positions	This shows the user all vacancies that are being advertised internally, allowing them to view them in more detail or apply for that position directly. On the Open Vacancies widget, vacancies are displayed in same order as on the Careers Website - Featured Vacancies first, followed by all other open vacancies, ordered by latest published date.

Widget	Description
Interviews	This gives the user access to vacancy and applicant information, for vacancies that they are on the Interview Panel for.

1.3.4. External Applicant

An external applicant accesses the recruitment website by following a standalone URL provided by PeopleXD to your organisation. The URL can be embedded into your organisation's website, or your careers page etc.

2. Vacancy Management

2.1. Vacancy Overview

2.1.1. Key Stages in Vacancy Creation

The initial phase of the XD Recruitment process is setting up a vacancy record. This vacancy holds all the details of the job on offer, including interviews, assessment criteria, application forms, documentation, and opening & closing times.

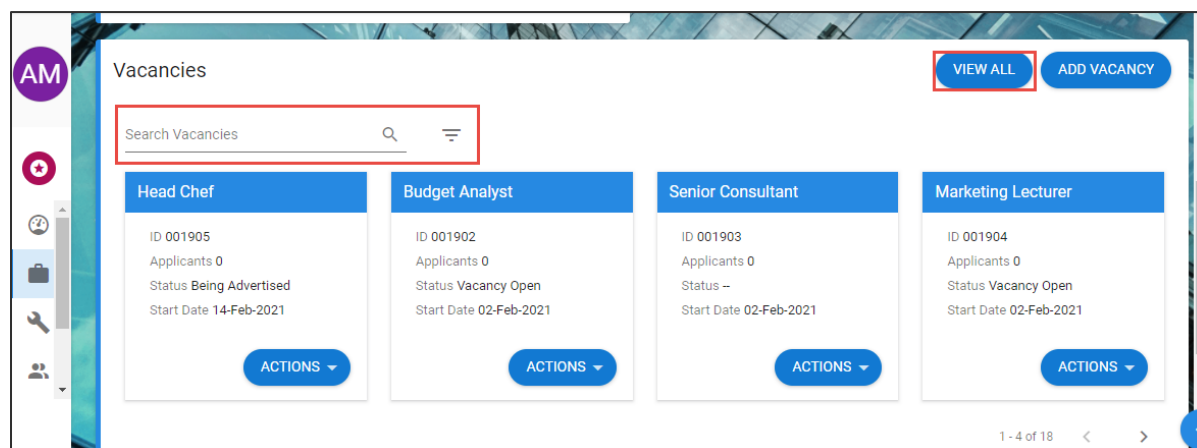

The following actions must be completed as you create and update the vacancy:

1. Create the vacancy. See [section 2.2 Creating a Vacancy](#) for further details.
2. Completing Vacancy Details.
 - Update the details within the vacancy to ensure all information can be viewed on the job advert. This also allows you to capture details to support the reporting of vacancy details and sharing with the interview panel. See [section 2.3 Edit Vacancy](#) for further details.
 - You can return to edit the details of a vacancy at any stage in the recruitment process, even if it has been published to the recruitment website. See [section 2.5 Updating Live Job](#) for further details.
3. Set up Application Forms. These are managed within the Careers Website Administration area and are automatically attached to a vacancy that has been published from XD Recruitment.
4. Set Job Posting Dates. Before a vacancy can be published, you must input advertising dates. See [section 2.4 Publishing a Vacancy](#) for further details.
5. Define Vacancy Questions. Questionnaires are used as part of the application form. See [section 2.3.1 Current Questions](#) for further details.

2.1.2. Access the Vacancies Widget

To access the Vacancies widget, complete the following steps:

1. Navigate to the *Recruitment* dashboard and select the **Vacancies** tab.
2. The Vacancies widget displays.

The screen can be filtered using the following options:

Option	Details
View All	Lists all existing vacancies. The results are ordered by recruitment opening date.
Search	Use the search feature to find a specific vacancy you wish to access.
Filter	Use the filter button to refine your search. You can filter by, the following, and click Apply to filter the results. - Recruitment Status - Opened Before (Date) - Division - Location - Pay Scale/Grade - Requested By - Opened After (Date) - Management Unit - Department - Cost Centre - Vacancy Type

2.2. Creating a Vacancy

Vacancies can be created in two ways:

- Managers create a staff request which goes through an approval process. If fully approved, the vacancy is available on the *Vacancies* widget. This vacancy needs to be reviewed and updated before it is published.
- Administrators create a vacancy manually via the *Vacancies* widget.

2.2.1. Add Vacancy

To create the vacancy manually:

PeopleXD Recruitment: Vacancy Management

1. Navigate to the *Recruitment Dashboard* and select the **Vacancies** tab
2. Go to the Vacancies widget and click **Add Vacancy**.
3. Input the following details:

Field	Description
Description	The title of the vacancy. This is visible on the <i>Recruitment</i> dashboard, and to internal and external applicants.
Department	Use the dropdown menu to select the relevant department. This is an optional organisational hierarchy field that links the vacancy to a department. Note: It is recommended to add this field, as it drives data access that needs to be provided to users who are managing vacancies.
Opening Date	The recruitment open date that allows the vacancy to be published from either Portal, or the Recruitment Website.
Closing Date	This is the optional final date that a vacancy can be published on either Portal, or the Recruitment Website.

4. Click **OK** to save the vacancy.
5. The *Vacancy Details* screen opens with the vacancy details you have provided. This information is the skeleton record of your vacancy. A *Vacancy ID* is also automatically created.

The screenshot shows the 'Vacancy Details' screen for a vacancy titled '001735 - HR Business Partner'. The interface includes a sidebar with navigation options and a main content area. The 'Vacancy Status' section contains the following details:

- Status:** Currently * Open
- Opening Date:** 22-Mar-2023
- Closing Date:** 31-Dec-2024

Below the status section is a **Checklist** with three items, all of which are marked as complete:

- Job Advert Details
- Job Description
- Vacancy Authorised

A **SAVE** button is located at the bottom right of the screen.

 **Note:** At this point, the vacancy has not been published online. Before publishing, there are additional elements, both mandatory and optional to be added. See section [2.4 Publish a Vacancy](#) for more details.

2.3. Edit Vacancy

After creating a vacancy, additional information can be added within the *Vacancy Details* screen.

This information ensures that:

- The correct details are available to you to report on, and track all tasks associated with the vacancy e.g. recording the vacancy status, or linking to a post for onboarding to HR.
- All information is provided when publishing the corresponding advert e.g. attaching application forms or defining advertising dates.

The following sections show you how to update the vacancy with this additional information.

 **Note:**

- If you have created this vacancy as part of a staff request, many of the details are automatically populated. These can be reviewed and updated before publishing.
- It is recommended that you complete as much of this as possible before you publish a vacancy. However, it is possible to edit this once the vacancy is live and advertised.

2.3.1. Vacancy Detail Tab

Vacancy Status

The **Vacancy Status** section contains the following fields:

Option	Description
Status	The status of the vacancy. Use the dropdown menu to select the required status.
Currently	This shows if the vacancy is currently Open, Closed, On-Hold, or Filled.
Number of Positions	The total number of positions the vacancy has to offer. This correlates to the number of job offers that you can make e.g. set to 2, if you expect to hire two candidates, with two separate job offers.
Opening Date	The first date that recruitment begins for the vacancy.
Closing Date	The final date that recruitment is open for this vacancy.

The **Checklist** section contains a **RAG status** to show the completion of the following sections:

- **Job Advert**
- **Job Description**
- **Authorisation Details**

The items will display **Green** when Complete, and **Amber** when Outstanding.

The **Job Posting** section contains the following fields:

Option	Description
Advertise to	Internal Candidates Only, Internal and External Candidates or Redeployment Candidates (At Risk).
Open Date	This is the first date that the vacancy appears on the Careers Website.
Closing Date	This is the last date that the vacancy appears on the Careers Website.
Status	Displays the status of the vacancy on the Careers Website e.g. Not Live, Live & Expired.
Publish	If emboldened, this allows you to publish the vacancy online. If faded out, the vacancy is published to the associated Advertised To selection.
Unpublish	If emboldened, this can be used to remove the vacancy from the Careers Website prior to its Closing Date.
Relist	If emboldened, this allows you to re-publish the vacancy online after it was taken down to be updated if required.

The **Expiry Date and Time** section contains the following fields:

Option	Description
Expiry Date	This field is automatically populated with the latest closing date among all your publication methods. The system uses the closing date from whichever publication method runs the longest.
Expiry Time	This optional field allows you to specify the exact time of day (hour and minute) when the application deadline occurs. If left blank, applications will be accepted until the end of the expiry date (typically 11:59 PM). Use this field when you need precise application cutoff times.

Job Advert

A number of fields on the Job Advert screen are configurable to display the information relevant to your organisational requirements. For further details see our [Configuration](#) guide.

The **Job Advert** section can contain the following fields:

Option	Description
Advertised Job Title	This is a mandatory field. Enter the advertised job title. Max characters 255.
Vacancy Type	This is a mandatory field used to group vacancies. Use the dropdown menu to select the relevant vacancy type. Note: This is pre-populated if used within the staff request approval process.
Position Type	This is a mandatory field used to group vacancies. Use the dropdown menu to select the relevant position type. Note: This is pre-populated if used within the staff request approval process.
Discipline	This is a mandatory field used to group disciplines. Use the dropdown menu to select the relevant discipline to show what area of speciality this vacancy is for.
Advertised Location	The location of the vacancy. Enter the city or country. Max characters 50.
Post Code	The postcode for the vacancy.
Job Start Date	The vacancy start date. Max characters 50.
Job Duration	The vacancy duration. Max characters 50.
Advertised Salary	The advertised salary for the vacancy. Max characters 255.
Salary Low	The starting range of the salary for the vacancy.
Salary High	The highest salary figure for this vacancy.
Salary Per	The format the salary is paid in e.g. Hourly, Daily, Weekly, Monthly or Yearly.

Option	Description
Contact Name	The contact person that is shown on the recruitment website for the vacancy.
Contact Email	The contact person's email address that is shown on the recruitment website for the vacancy.
Contact Phone	The contact person's phone number that is shown on the recruitment website for the vacancy.
Video URL	The URL of an online video that can be shown as part of the job advert.
Referral	Enter referral details for consultation, review or further action. Max character 255.
Featured Job	If enabled, this marks the vacancy as featured on the Careers Website. It will also be shown as a top result on the Job Homepage with an Asterix.
Language	Use the dropdown menu to select the languages the vacancy can be published as.

The **Position Details** section can contain the following fields:

Option	Description
Job Title	Select the system job title that the successful applicants will have once hired.
Company	Select the company as per your organisational hierarchy structure.
Management Unit	Select the relevant management unit as per your organisational hierarchy structure.
Department	This is a mandatory field used to select the department as per your organisational hierarchy structure. This is used to control access to vacancy data within Portal.
Cost Centre	Select the relevant cost centre for the vacancy.
Location	Select the relevant location for the vacancy.
Org Unit & Location	This is a free-text field to enter in further details.
Pay Scale / Grade	Select the Pay Scales as per your Payroll configuration.

Option	Description
Reporting to	This is the manager the successful applicant reports into once hired. Note: This is pre-populated if the vacancy was created via the staff request approval process.
Requested By	This is the person who has requested the vacancy to be created. Note: This is pre-populated if the vacancy was created via the staff request approval process.

Job Description

Here you can create the job description for a vacancy. The job description can be formatted, using the formatting toolbar helping you create professional looking content. This ensures consistency, as the formatted content will automatically appear in any Staff Request or Vacancy created from the Post. Meaning hiring managers and recruiters no longer need to reformat or rewrite job descriptions when raising a new vacancy, improving both efficiency and accuracy.

Click **Save** after making changes to this screen.

Note: The character limit is 30,000

When the vacancy is published online, the *Job Description* appears on the website with formatting and styles replicated.

Current Questions

The *Current Questions* tab is where questionnaires for a vacancy can be added and managed.

The **Current Questions** screen contains the following fields:

Option	Description
Order	The order the question appears on the application form.
Question	The question as shown on the application form.
Category	The question category the question sits in.
Active	This allows you to display or hide the question on a vacancy by marking it active or inactive.
Details	This allows you to drill down into the settings and further details of the question configuration.
Actions	Allows you to add a question or assign a category to this vacancy.

To add a question to a vacancy:

1. Expand **Actions** and click **Add Question**.
2. Enter the details for the question.
 - a. Add in your *Question*.
 - b. Select your *Answer Type*.
 - c. Assign the question to a *Category*.
 - d. Confirm the order the question should appear in the questionnaire sequence.
 - e. Select if it is to be mandatory or private.

3. Click **Save**.

To assign a category to a vacancy:

You can add as many default question categories to your vacancy as required.

1. Expand **Actions** and click **Assign Category**.
2. To link an existing *Question Category* to the vacancy.
 - a. Enter the **Order** you want the category to show on the vacancy e.g. 1,2,3 etc
 - b. Turn on the **Active** toggle. This is used to include all the profile's questions on the vacancy.
 - c. Click **Save**.

Authorisation Details

This is the final level of approval (authorisation) on a vacancy before it can be published on the recruitment website. All recruitment admins can complete this task. Consider this the final checkpoint, before the vacancy is published.

VACANCY DETAIL

- Vacancy Status
- Job Advert
- Job Description
- Current Questions
- Authorisation Details**

Authorisation Details

Date *
07-Apr-2022

Restricted ☐

Authorised By Jane Taylor

The **Authorisation Details** screen contains the following fields:

Option	Description
Date	The date the vacancy was authorised.
Restricted	This is useful for confidential recruitments, executive-level positions, or any situation where you need tighter control over who can view and manage a specific vacancy. When enabled, this toggle allows you to limit vacancy access to specific users, overriding the standard security settings. By default, all users with recruitment access to a particular area (Department, Cost Centre, Management Unit, or Company) can view its vacancies. However, when a vacancy is restricted, only the users you specifically select will be able to see and work with it. For example, if User A and User B both have access to Department X vacancies, but you need to restrict a sensitive position to only User B, you can enable this toggle and select User B from the available users list. User A will then not be able to see this particular vacancy, even though they normally have access to all Department X positions.  Note: You can only select from users who already have some level of recruitment access to the relevant organisational area (Department, Cost Centre, Management Unit, or Company). The system will not allow you to grant access to users who don't have the underlying permissions for that area.
Authorised By	The username of the person who authorised the vacancy.

To authorise a vacancy:

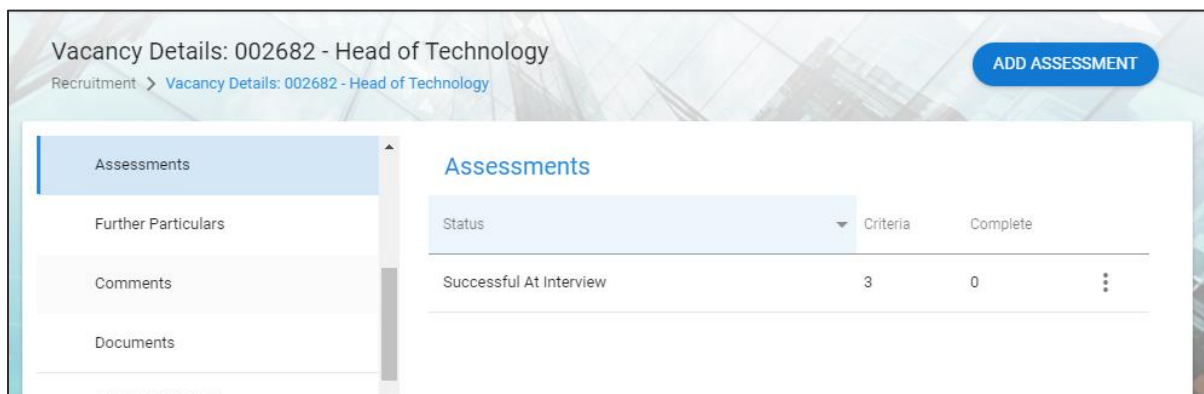

1. Enter the authorisation date.
2. Click **Save**.
3. Your username is then entered as the *Authorised By* user.

Assessments

It is possible to add an Assessment Scorecard for the interview panel shortlisting process i.e. providing panel members with an Assessment Scorecard to complete for each applicant.

To create an Assessment Scorecard:

1. Click **Add Assessment**.
2. Select the Applicant Status e.g. Successful At Interview.
3. The **Allow Multiple Score Cards** toggle is enabled by default. This ensures that each individual interview panel member can complete a unique assessment for the applicant.
4. Enable the **Shortlisting Assessment** toggle.
5. Select the Available Items to assign to the Assessment scorecard by using the directional arrows.
6. Click **Save**.
7. The *Assessment Scorecard* displays, including the applicant status, number of assessment Items included, and the number of assessments that have been completed for an applicant.

From the 3-dot menu of an Assessment you can drill down into the assessment details to manage or delete the assessment.

Note: Further information on managing the applicant Assessment details can be found in our [Interview Management](#) guide.

Further Particulars

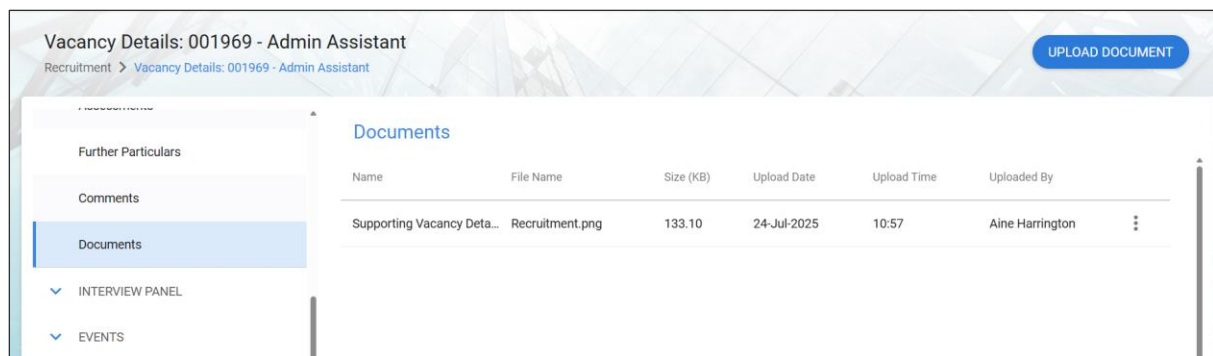

This is an additional free text area where more information regarding the vacancy can be entered. The corresponding section can be added to the Job Specification page on the Recruitment Website.

Comments

This is an additional free text area where more information regarding the vacancy can be entered. The corresponding section can be added to the Job Specification page on the Recruitment Website.

Documents

Documents can be uploaded to a vacancy, for example to provide the applicant with a detailed job spec file, policies etc.

To upload a document:

1. Click **Upload Document**.
2. Fill in the *Upload Document* popup and upload the relevant document (max size is 10MB).
3. Click **OK**.

From the 3-dot menu of a Document, you can:

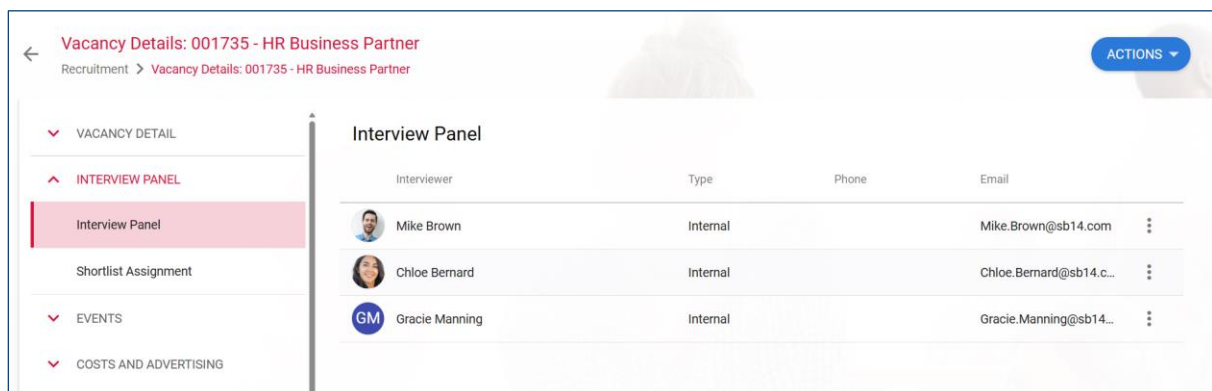

- **Description** - this allows you to create a description for the document. The character limit for this feature is 4000 characters.
- **Options** – this allows you to select the Language for the document and select where it appears. Options available are:
 - **Job Specification** – if enabled, the document appears in the *Job Description* screen for a vacancy before an applicant begins the application process.

- **Application Form** – if enabled, the document appears on the *Applicant Document* section of the application form.
- **Online Interview Panel** – if enabled, the document appears on the vacancy profile on the *Interviews* widget for an interviewer.
- **Download** - this allows you to download the document from this location.
- **Delete** - this allows you to delete the document from the vacancy.

2.3.2. Interview Panel

Interview Panel

The Interview Panel is where you can add and manage interview panel members and can be added to the vacancy at any stage. These are the employees or the external interviewers that support the vacancy process e.g. by shortlisting applications and facilitating interviews.

The **Interview Panel** screen contains the following fields:

Option	Description
Interviewer	The name of the interviewer.
Type	Whether the interviewer is Internal or External. ● Internal - are employees on the system. You can link the employee record to the vacancy. They then have the option to view the vacancy details and upcoming interview schedules via the <i>Interviews</i> widget. ● External - are panel members who are not set up as employees on PeopleXD. You can record their involvement in the recruitment process and include them in any system generated

Option	Description
	correspondence to the interview panel. However, they do not have access to the <i>Interviews</i> widget like an internal panel member would. • Chairperson – the designated member to lead the vacancy process.
Phone	Phone contact details for the interviewer.
Email	Email contact details for the interviewer.
Actions	Allows you to add an Interviewer.

From the 3-dot menu of any Interviewer, you can:

- **Interviewer Details** – give you access to the interviewer details.
- **Delete** – allows you to remove the interviewer.

To add a panel member to a vacancy:

1. Expand the **Actions** menu and click **Add Interviewer**.
2. Add the interviewer:

Option 1: Internal Interviewer

- a. Ensure that the *Interviewer Type* is set to **Internal**.
- b. Select the employee from dropdown list.
- c. Their details are automatically populated on screen.

Option 2: External Interviewer

- a. Ensure that the *Interviewer Type* is set to **External**.
- b. Populate all required details on screen.

Option 3: Chairperson

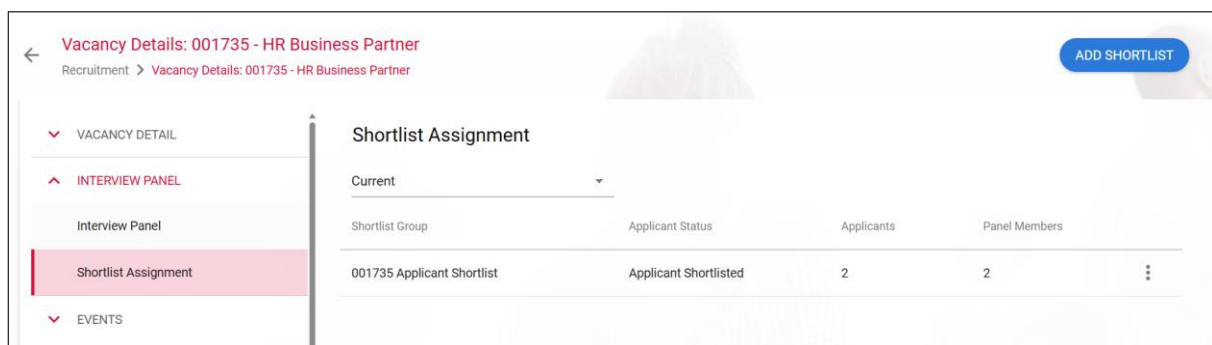

- a. Ensure that the *Interviewer Type* is set to **Chairperson**.
 - If the chairperson is Internal, select the employee from the dropdown list. Their details are automatically populated on screen.
 - If the chairperson is External, populate all required details on screen.
3. Click **Save**.
 4. Repeat for all panel members.

Note: Further information on Interview Panel Configuration can be found in our [Interview Management](#) guide.

Shortlist Assignment

The *Shortlist Assignment* feature is an extension of the *Interview Panel* functionality, which allows for the creation of groups of applicants who are then assigned out to individual panel members to review. A *Shortlist Group* is used to identify the specific set of applicants that will be assigned to an individual interview panel member to review.

For example, 60 applicants apply for a vacancy and there are 3 interview panel members identified for this vacancy. It is possible to divide the applicants into separate 'shortlist groups'.

The screen can be filtered to refine your display by **Current** or **Completed** shortlist assignments.

The **Shortlist Assignment** screen contains the following fields:

Option	Description
Shortlist Group	The name of the shortlist group.
Applicant Status	The applicant status selected for the shortlist group.
Applicants	The number of applicants assigned.
Panel Members	The number of panel members assigned.
Add Shortlist	Allows you to add a shortlist assignment.

To add a shortlist assignment:

1. Click **Add Shortlist**.
2. The 3-Step Shortlist Details wizard opens.

3. Step 1 Setup
 - Enter the **Title** of the shortlist group, then select the relevant **Applicant Status** and add a **Start** and **End** date for the assignment.
 - Then click **Next** or select Applicants.
4. Step 2 Applicants
 - Select the **Available Applicants** to assign and use the directional arrows to move them to **Selected Applicants**.
 - Then click **Next** or select Panel Members.
5. Step 3 Panel Members
 - Select the **Available Panel Members** to assign and use the directional arrows to move them to **Selected Panel Members**.
6. Click **Save**.
7. The Shortlist Assignment displays.

From the 3-dot menu of any Interviewer, you can:

- **Shortlist Details** – give you access to the shortlist details.
- **Delete** – allows you to remove the interviewer.

 **Note:** Further information on managing Shortlist Groups can be found in our [Interview Management](#) guide.

2.3.3. Events

Events are like a checklist that can be used to track tasks that are typically done during the recruitment process. These will display on the applicants record and are usually items that are not within the features of Recruitment, and occur outside the system, for example:

- Book a room.
- Notify reception of interviews.
- Check applicant's driver licence.

Applicant Events

The Applicant Events screen displays an *Available* list of all the standard Applicant Events that you can add to and track for your applicants.

The screenshot displays the 'Vacancy Details: 001735 - HR Business Partner' page. On the left, a sidebar menu includes 'VACANCY DETAIL', 'INTERVIEW PANEL', 'EVENTS' (expanded), 'Applicant Events' (selected), 'Vacancy Events', 'COSTS AND ADVERTISING', 'SCHEDULES', 'BROADBEAN', 'POST TO AGENCY', and 'LINKED APPOINTMENTS'. The main content area is titled 'Applicant Events' and is divided into two columns: 'Available' and 'Selected'. Each column has a search bar and a list of events with checkboxes. The 'Available' column lists 'Description', 'Crb Required', and 'Cy Received'. The 'Selected' column lists 'Description', 'References Requested', 'References Chased', 'References Confirmed Satisfactory', 'References Received', and 'Driving Licence'. Navigation arrows are present between the columns. At the bottom right, there is a green 'SAVE' button. The footer shows 'access PeopleXD' and a timestamp '13.58'.

To add an applicant event:

1. Tick the box to the left of the relevant event on the *Available* column.
2. If multiple items are required select all required items OR click the **Select All** option. This works for removing items too.
3. Click the > button to move these to the *Selected* column.
4. Click **Save**.

To view these events on the applicant's record:

1. Navigate to the *Recruitment Dashboard* and select **Vacancies**.
2. From the **Vacancies** widget search for the relevant vacancy.
3. Expand **Actions** and select **View Applicants**.
4. Expand the 3-dot menu of the relevant applicant and select **Applicant Details**.
5. Select the **Events** tab.

Costs

The *Costs* tab allows you to capture the details of any costs associated with the vacancy, for reporting purposes e.g. room hire, interview panel member lunches etc.

To add a new cost:

1. Click **Add Cost**.
2. Select a cost from the **Type** dropdown menu.
3. Enter a total cost for this item.
4. Select a date that this cost occurred on.
5. Include any additional comments that may be needed to explain this cost.
6. Click **OK**.

Form the 3-dot menu of any Cost item, you can:

- **Cost Details** – access to the cost details.
- **Delete** – allows you to remove the cost item.

Advertising

The *Advertising* tab allows you to record details of any other external advertising options you have used for this vacancy e.g. newspapers, journals, radio etc.

Description	Name	Start Date	End Date	Cost	Posting Date	Posting Status
Trade Journal	Recruit Ireland	31-Jul-2025	07-Aug-2025	500	31-Jul-2025	

To add a new advert:

1. Click **Add Advert**.
2. Select a *Type* and *Name* from the drop-down menus.
3. Enter a *Start Date* and *End Date* for the advert.
4. Enter the *Posting Date* that you sent this advert into the company / advertising agency.
5. Enter the *Cost* of running this advert.
6. Click **OK**.

Form the 3-dot menu of any Advert, you can:

- **Advert Details** – access to the advert details.
- **Delete** – allows you to remove the advert.

2.3.5. Schedules

Schedules

The schedules screen allows you to create schedules for a vacancy. These can be used to track interview rounds and assessments associated with the vacancy. For example:

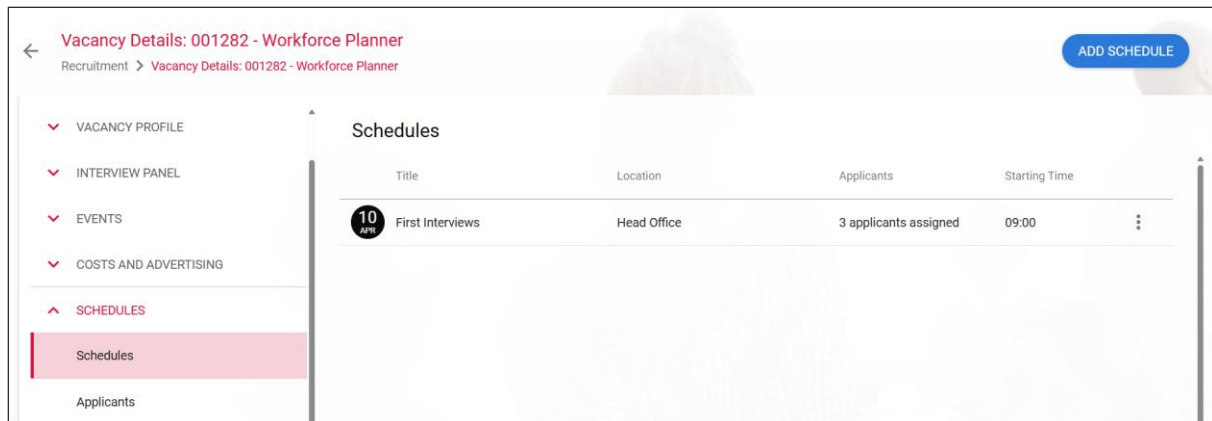

- Pre-interview assessments for a group of candidates.

PeopleXD Recruitment: Vacancy Management

- Multiple rounds of interviews.

For each schedule you need to define key information such as dates, times and locations.

Interview panel members can be assigned to one or all the schedules as required so that they can see the details of who is to be interviewed and access their application details.

Note: Further information on managing Schedules can be found in our [Interview Management](#) guide.

Applicants

The Applicants screen gives, and overview of all applicants assigned to schedules. The screen includes the Applicant Name, Schedule Title, Applicant Status and the assigned Date and Time for the applicant.

2.3.6. Broadbean

This allows you to publish the vacancy to Broadbean. Broadbean is an advert distribution tool which enables adverts to be submitted to multiple job boards via a single posting form.

PeopleXD integrates with Broadbean to allow recruitment administrators to share adverts for vacancies, which then improves efficiency and reduces time wasted in your recruitment process.

Note: For guidance on integrating PeopleXD Recruitment and Broadbean, see our [Integration with Broadbean](#) guide.

2.3.7. Post to Agency

This allows you to post the vacancy to the Agency Portal.

The ***Post to Agency*** section contains the following fields:

Option	Description
Start Date	Enter the start date for the vacancy posting.
Start Time	Select the start time for the vacancy to be available.
End Date	Enter the end date for the vacancy posting.
End Time	Select the end time for the vacancy to be removed.
Application Form	Select the type of application form e.g. Internal Application Form

The ***Agencies*** section contains the following fields:

Option	Description
Username	The Agency code.
Agency Name	The name of the Agency.
Selected	Allows you to select the relevant Agencies to post the vacancy to.
Enable All	Allows you to select all Agencies to be selected, rather than manually enabling each Agency.

Click **Save** to submit your vacancy to the selected Agencies.

2.3.8. Linked Appointments

Before an offer is made to a successful applicant, there needs to be a linked appointment attached to a vacancy. This can be completed later in the recruitment process but needs to be done prior to the Job Offer.

Note: This Post Appointment is already populated if this vacancy was created as part of the staff request process.

To add a post appointment to a vacancy:

1. Search for the **Post** using the dropdown menu.
2. Then, click **Add** to link it to the vacancy.

LINKED APPOINTMENTS
Linked Appointments

- Note:**
- The appointments that appear on screen here are either Authorised Post Appointments or Auto-Authorised / Auto-Commenced Posts.
 - If needed, you can add more than one post to a vacancy. This comes into play when sending out the offer to an applicant, as you can choose which post is to be assigned to an applicant if successful.
 - You cannot add the same Post Appointment to the vacancy more than once.

2.4. Publishing a Vacancy

2.4.1. How to Publish a Vacancy

A published vacancy refers to a vacancy that is available for internal/external applicants to search and apply for. The checklist items on the *Vacancy Status* screen show which items need to be completed. Once a vacancy has been created, if the following mandatory details have been supplied, it determines if it displays or not.

If any of these details are not supplied, the vacancy cannot be published to applicants on PeopleXD Recruitment or the Careers Website.

Job Description Details

This refers to the completion of the Job Description section with Vacancy Detail.

The screenshot shows the 'Vacancy Details: 002682 - Head of Technology' page. The left sidebar has a menu with 'VACANCY DETAIL' expanded, and 'Job Description' is highlighted with a red circle containing the number '2'. The main content area is titled 'Job Description' and contains sections for 'Description', 'Responsibilities', 'Skills', and 'Qualifications'. The 'Responsibilities' section lists two bullet points: 'Managing the company's technological plans.' and 'Ensuring technologies currently in use are efficient and making changes wherever necessary.' The 'Skills' section lists two bullet points: 'Effective hiring practices so that they can build the right team to work for them and further the company's aims.' and 'An ability to respond well to constructive feedback.' There is an 'UPDATE LIVE JOB' button in the top right and a 'SAVE' button in the bottom right.

Vacancy Authorised

This refers to the authorisation of a Vacancy within Vacancy Detail.

The screenshot shows the 'Vacancy Details: 002682 - Head of Technology' page. The left sidebar has a menu with 'VACANCY DETAIL' expanded, and 'Authorisation Details' is highlighted with a red circle containing the number '3'. The main content area is titled 'Authorisation Details' and contains fields for 'Date *' (28-Mar-2021), 'Restricted' (toggle), and 'Authorised By Karl Sheehan'. There is a 'SAVE' button in the bottom right.

2.4.2. Job Posting

To post a vacancy to the Careers Website, follow the below steps.

1. From the *Vacancy Status* screen, enter an open date and close date for the vacancy. The open date can only be from today onwards.
2. Scroll to the *Job Posting* section and click **Publish** for the relevant channel.

- The following statuses appear against a vacancy depending on the published information:
 - **Not Live:** User can Publish
 - **Expired:** User can Relist
 - **Live:** User can unpublish
 - **Future:** User can unpublish

Note: Before a vacancy is published, the system checks for:

1. Vacancy ID.
2. Advertised Job Title
3. Job Description.
4. Position Type.
5. Job Start Date.
6. Discipline.
7. Vacancy Type

2.4.3. Where is the Vacancy Published?

Internal Applicants

As an internal applicant (i.e. current employee), you can view the vacancies via the *Open Positions* widget on the *Employee Dashboard*.

Job Title	Published	Closing	
HR Business Partner	22-Mar-2021	09-Apr-2021	VIEW
Ken Test Jan28	19-Feb-2021	12-Aug-2021	VIEW
Head of Admin	29-Mar-2021	05-May-2021	VIEW
Budget Analyst Perm	22-Mar-2021	10-Apr-2021	VIEW

The *Open Positions* widget shows all internal vacancies once they have been published to the Internal Candidates Only channel on the Job Advert screen.

To view and access these vacancies:

1. Navigate to the *Open Positions* widget on the *Employee Dashboard*.
2. To view the job spec and find out more information, click **View**.
3. The Recruitment Website opens on the job description page for the vacancy you selected in XD.

There is also an option on the *Open Positions* widget, for internal applicants to jump to the main Recruitment Website and browse for all vacancies listed there. To do this, click **Career Site**.

Open Positions on Mobile Web

The Open Position widget is also available on the mobile web version of PeopleXD, enabling employees to view open vacancies directly from their company mobile devices. This can help enhance talent retention by keeping employees informed of internal opportunities, supports career development and internal mobility, and improves accessibility for mobile-only users

To configure open positions for the mobile web:

1. Navigate to **Dashboard Configuration**.
2. Select a **Dashboard Tab** that is enabled for mobile access e.g. Employee Dashboard. To check this:
 - Expand the 3-dot menu of the tab and click **Edit Tab**.
 - Ensure the **Display on CoreMobile** toggle is turned on.
 - Click **Save**.
3. Under the *Tab Widgets* section, search for **Open Vacancies**.
 - **Note:** Some systems may display this as "Open Positions" due to configuration differences.
4. Turn on the **Selected** toggle.

External Applicants

As an external applicant, the vacancy is published to the recruitment website and appears on the search results screen once you search for a vacancy. The vacancy only appears once it has been published to the Internal and External Candidates channel on the Job Advert page.

Note: External Applicants need to register / login to apply for the vacancy.

Redeployment Candidates

These are internal staff that have been identified as *At Risk* of losing their job / being made redundant. An organisation can give first dibs to these internal candidates to view a vacancy ahead of all other internal candidates if they want via publishing it to them.

2.5. Updating a Live Job

During the lifetime of an open vacancy, details may need to be updated. To do this make the relevant changes to the Vacancy via **Edit Vacancy**. Then use the **Update Live Job** button that can be found on any of the following vacancy screens, if any one of the vacancy channels are live:

- Vacancy Status
- Job Advert
- Job Description
- Current Questions

Vacancy Details: 002762 - Finance Director
Recruitment > Vacancy Details: 002762 - Finance Director

UPDATE LIVE JOB

SAVE

A message will display stating the vacancy is **Successfully Published**.

2.6. Unpublishing a Vacancy

When publishing a vacancy to a specific channel, the expiry date of the vacancy on the Careers Website is the closing date of that channel. When a vacancy is unpublished from a channel, a new expiry date on the Careers Website is set if the remaining channels have an earlier closing date.

2.7. Relisting a Vacancy

When a channel is expired before its intended closing date, the closing date for that channel on screen updates accordingly. To re-list a vacancy after its closing date, click the **Re-List** button.
