1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on the employee talent profile. This is a full breakdown of an employee's career, performance, development, and qualification details that can be viewed and updated by the employee, a manager or an administrator. This is broken down into the following areas:

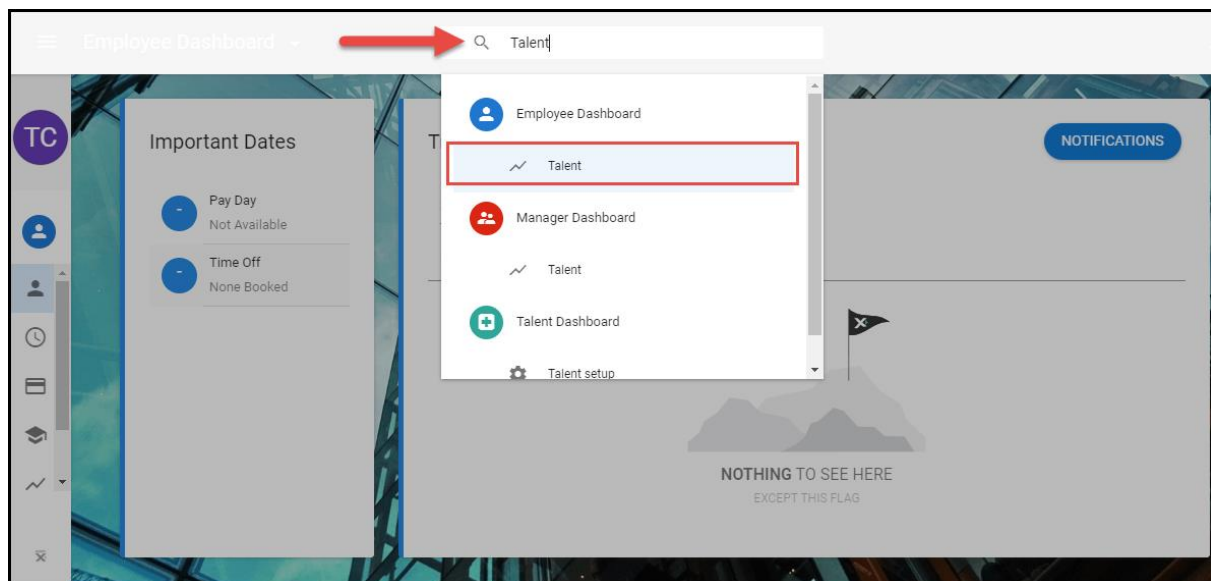

- Employee Dashboard
- Manager Dashboard
- Talent Admin Dashboard
- Configuration

2. How to use

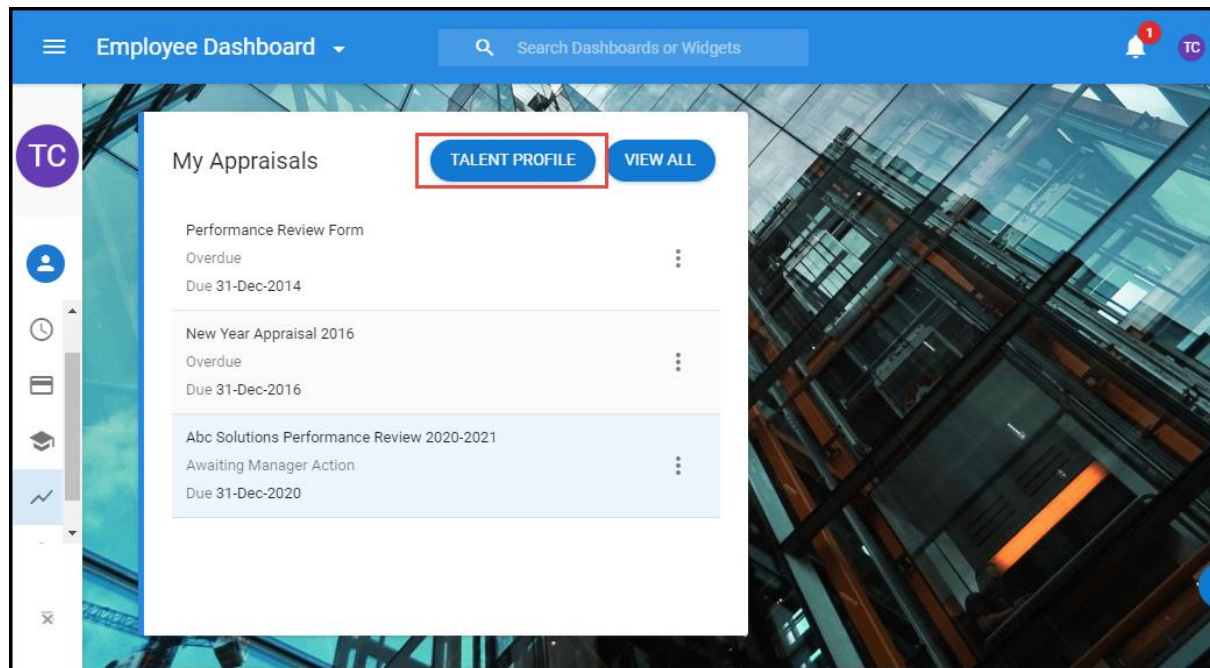

2.1. Employee Dashboard

This feature allows you to enter information based on your current role and position in the organisation, that could lead to better performance and enhanced job opportunities. To access this, follow the below steps:

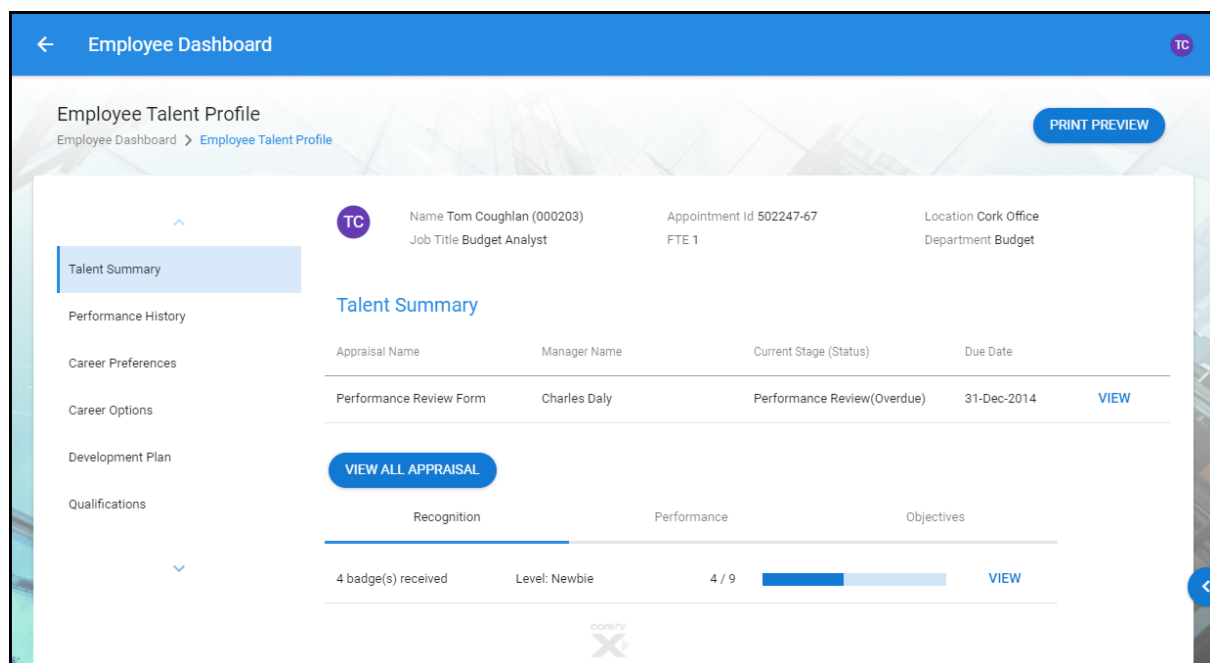

1. Quick Jump to the *Talent* tab on the *Employee Dashboard*.

2. Go to the *My Appraisals* widget.
3. Click **Talent Profile**.

4. This opens the *Employee Talent Profile* and is set to the *Talent Summary* section by default.

2.1.1. Talent Summary

This allows you to view an overall summary of your appraisal, recognition, performance, and objectives.

The screenshot shows the 'Employee Talent Profile' page with the 'Talent Summary' tab selected. The page header includes a back arrow, 'Employee Dashboard', and a user icon 'TC'. The main content area displays employee details: Name Tom Coughlan (000203), Appointment Id 502247-67, Location Cork Office, Job Title Budget Analyst, FTE 1, and Department Budget. A 'PRINT PREVIEW' button is in the top right. A left sidebar lists navigation options: Talent Summary (selected), Performance History, Career Preferences, Career Options, Development Plan, and Qualifications. The 'Talent Summary' section includes a table with appraisal details and a 'VIEW ALL APPRAISAL' button. Below this, there are sections for Recognition (4 badge(s) received), Performance (Level: Newbie, 4 / 9), and Objectives (VIEW).

Appraisal Name	Manager Name	Current Stage (Status)	Due Date	
Performance Review Form	Charles Daly	Performance Review(Overdue)	31-Dec-2014	VIEW

[VIEW ALL APPRAISAL](#)

Recognition	Performance	Objectives
4 badge(s) received	Level: Newbie 4 / 9	VIEW

2.1.2. Performance History

This allows you to view all your historical ratings from previous appraisals assigned to your record.

The screenshot shows the 'Employee Talent Profile' page with the 'Performance History' tab selected. The page header is identical to the previous screenshot. The left sidebar highlights 'Performance History'. The main content area is titled 'Historical Performance Rating' and contains a table with appraisal history.

Appraisal Name	Manager Name	Due Date	Current Stage	Final Rating
Performance Review Form	Charles Daly	31/Dec/20...	Performance Review Overdue	N/A
New Year Appraisal 2016	Fiona Robinson	31/Dec/20...	Stage 1 Overdue	N/A
Abc Solutions Performan...	Trevor Hemmings	31/Dec/20...	End Of Year - Final Sign Off Awaiting Manager Action	N/A

2.1.3. Career Preference

This allows you to create details surrounding your aspirations to travel during your career.

The screenshot shows the 'Employee Talent Profile' page with the 'Career Preferences' section active. The left sidebar contains links for 'Talent Summary', 'Performance History', 'Career Preferences' (highlighted), and 'Career Options'. The main content area is titled 'Career Preferences' and contains several form fields: 'Next Step*' (dropdown), 'Willing To Relocate*' (dropdown), 'Relocation Area' (dropdown), 'Willing To Travel*' (dropdown), and 'Travel Percentage' (range slider). Each dropdown menu has a red error message 'This field is required' below it. A 'SAVE' button is located at the bottom right of the form area. The top navigation bar shows 'Employee Dashboard' and a 'TC' icon.

2.1.4. Career Options

This shows you the automatically generated job titles that you may be interested in applying for in the future within your organisation.

The screenshot shows the 'Employee Talent Profile' page with the 'Career Options' section active. The left sidebar contains links for 'Talent Summary', 'Performance History', 'Career Preferences', and 'Career Options' (highlighted). The main content area is titled 'Jobs Interested In' and features a search bar and a table of job titles. The table has columns for 'Job Title', 'Avg. Tenure (Years)', 'Current Employees', and 'Percent...'. A single row is visible for 'System Administrator' with values 4.08, 4, and 100%. A green progress bar is shown next to the 100% value. An 'EXPLORE JOBS' button is located at the top right of the main content area. The top navigation bar shows 'Employee Dashboard' and a 'TC' icon.

Job Title	Avg. Tenure (Years)	Current Employees	Percent...
System Administrator	4.08	4	100%

To search for relevant roles and add them to your interested list, follow the below steps:

1. Click **Explore Jobs**. This shows a list of Job Titles that match your own Job Title.
2. Click **Mark as Interested** to add this to your watch list of potential future roles.
3. The job title appears on your list of interested jobs to view.

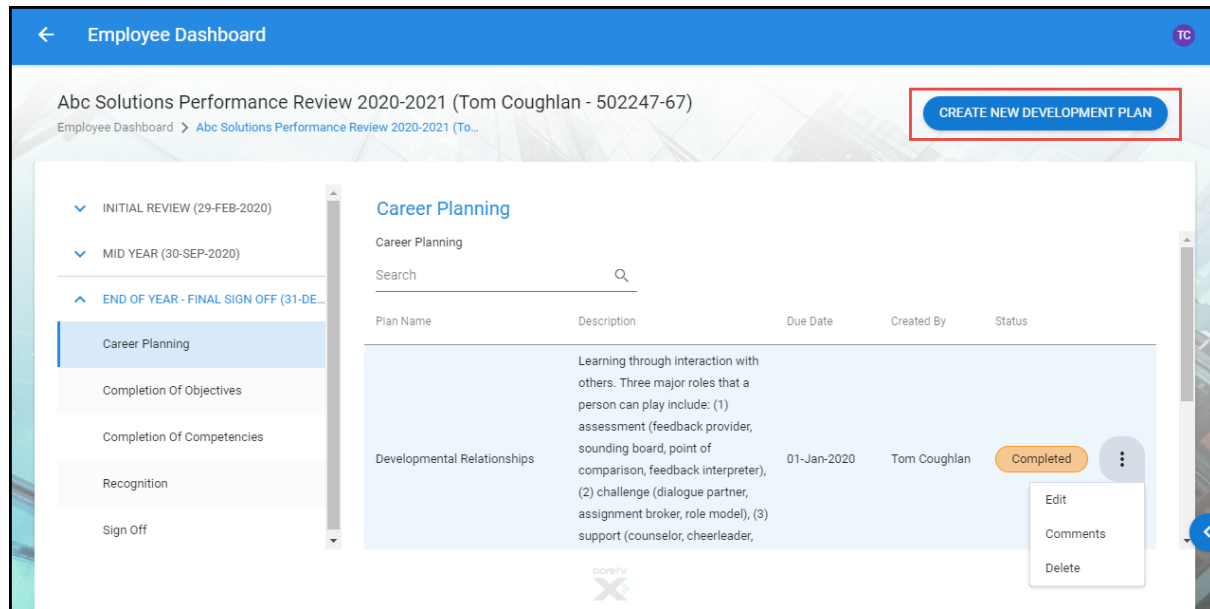

The following table explains the items on screen:

Item	Description
Search	This allows you to search the list of job titles based on their name.
Job Title	This is the name of the job title within your organisation.
Average Tenure	This shows the average number of years that someone has been working in the role in your organisation.
Current Employees	This shows how many current employees in your organisation have this job title.
Percentage Match	This gives a % of how close your skills and qualifications match this job title.
Mark as Interested	This allows you to track this job title for a possible move in the future.
View Gaps	This allows you to see how the ideal employee is setup if sitting in this job title.
Drill Down	This allows you to go further down the job title chain to view other potential roles. The further you drill down, the lower the % match becomes.

2.1.5. Development Plan

This allows you to create specific development plans linked to longer term aspirations for your career.

The screenshot displays an example of a Career Planning step:

The table below outlines each item:

Item	Description
Create New Development Plan	This allows you to create a new development plan.
Search	This allows you to search on the plan name.
Plan Name	This is the title of the development plan created.
Description	This shows a detailed explanation of the reasoning behind the plan.
Due Date	This is the date the plan needs to be completed by.
Created by	This shows the name of the person who created the plan.
Status	This shows the status of the plan (e.g. in progress or completed).
Edit	Clicking this button allows you to edit the details of the plan.
Comments	This allows you to leave comments against the plan.
Delete	This allows you to delete the plan. There is no validation for deleting a plan based on certain statuses.

To create a new development plan, follow the steps below:

1. Click **Create New Development Plan**.
2. Fill in the following details:
 - a. Plan Title (Mandatory)
 - b. Summary
 - c. Due Date (Mandatory)
 - d. Status (Mandatory)
3. Click **Save**.

2.1.6. Other Sections

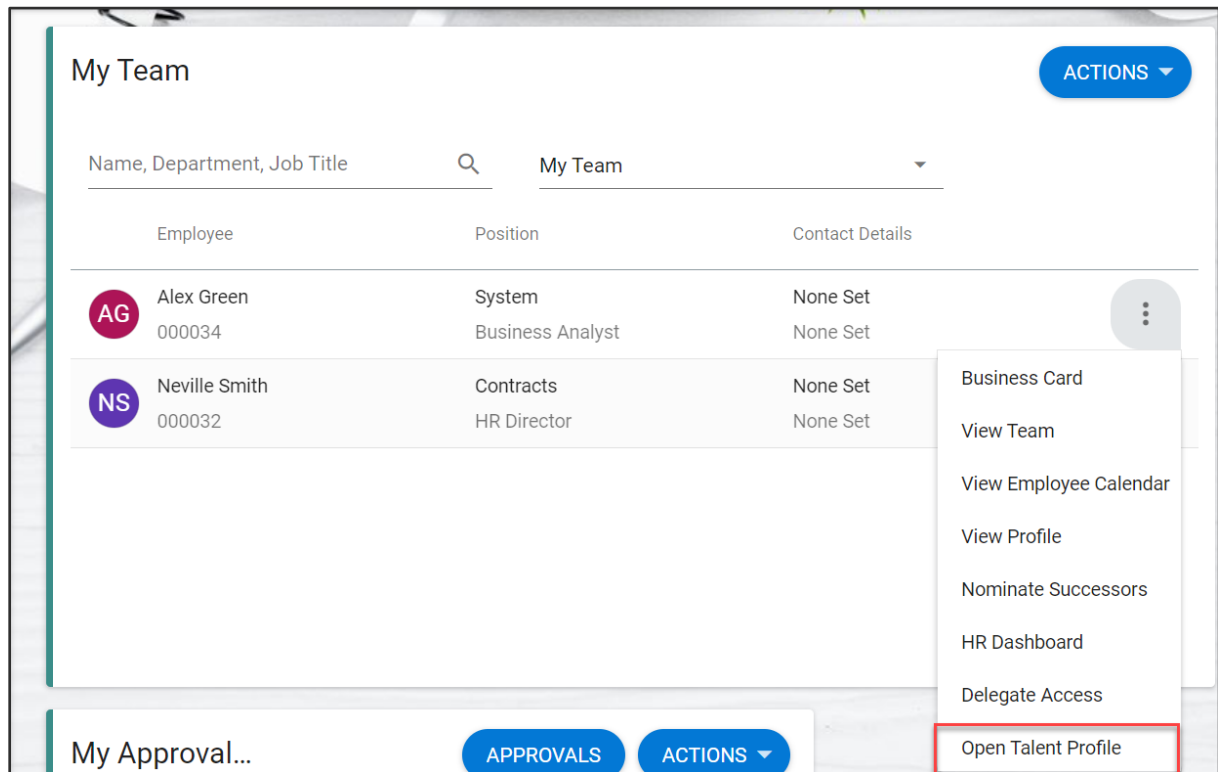

The following sections can also be found within the My Profile screen:

Reference Type Name	Talent Profile Label	Personal Profile
Education Codes	Qualifications	Qualifications
CPD Type	Professional Development	Continuous Development
Professional Body Names	Professional Body Membership	Professional Bodies
Languages	Languages	Languages
Skills	Skills	<i>Not Included</i>
Teaching Qualification Types	<i>Not Included</i>	Teaching Qualifications

2.2. Manager Dashboard

To access an employee's Talent Profile as a manager, follow the steps below:

1. Go to the *My Team* widget on the Manager Dashboard
2. For one of the Employees, click  button and then the **Open Talent Profile** button.

3. This opens the employee's Talent Profile, on the Manager's Dashboard. As a manager, you will be able to see all items that the employee sees, with the addition of their Talent Factors.

2.2.1. Talent Factors

Talent Factors allow managers to review and report on certain aspects that drive performance, talent, and predictive analytics. All options on this screen are managed by your organisation and may be renamed. The following tables detail each item:

Performance

Item	Description
Last Appraisal Rating	This shows the rating the employee received in their previous appraisal.
Performance Level	This allows the manager to rate the employee's overall performance.

Potential

Item	Description
Current Potential	This allows the manager to update the employee's potential rating within the company.
Readiness	This allows the manager to update the employee's readiness rating within their current role.
Promotability	This allows the manager to update the employee's promotability score.

Retention

Item	Description
Flight Risk	This allows the manager to update the likelihood that the employee will leave the department or organisation.
Impact of Loss	This allows the manager to update the impact that the employee's loss would have on the department or organisation.

Mobility

Item	Description
Willing to Relocate	This allows the manager to view or provide information on the employee's willingness to relocate as part of their role.
Relocate to	This shows where the employee is willing to relocate to.
Next Step	This allows the manager to input steps required to make a move happen.

Talent Pool

This shows a list of the talent pools the employee has been assigned to. For further information on talent pools, please refer to *People Management: Talent Pools - User Guide*.

Critical Individual

This allows the manager to mark the employee as a valued member of staff, which can be taken into consideration when signing off on the final appraisal stage.

2.3. Talent Admin Dashboard

To access an employee's Talent Profile as an administrator, follow the below steps:

1. Go to the Talent Admin Dashboard.
2. Click the Employees tab.
3. Click **View** on the relevant employee. This opens up the Employee Talent Profile as an Administrator.
4. As an Administrator, you can view all information that both the employee & manager sees for that employee.

3. Configuration

3.1. Employee Dashboard Menu Options

System	Menu Option	Description
CorePortal	Employee Talent Profile - Display Widget	This allows the employee to view their Talent Profile from the Appraisals widget on the Employee Dashboard

3.2. Manager Dashboard Menu Options

System	Menu Option	Description
CorePortal	My Team - Employee Talent Profile	This allows the manager to view an employee's Talent Profile from the My Team widget on the Manager Dashboard.

Note: Access to the data shown to a manager on the Manager Dashboard is linked to a manager's Org Role privileges and their My Team widget by default. Any other employees shown on Talent Manager widgets have been assigned by a Talent Admin or linked to an employee's historical appointment details.

3.3. Talent Admin Dashboard

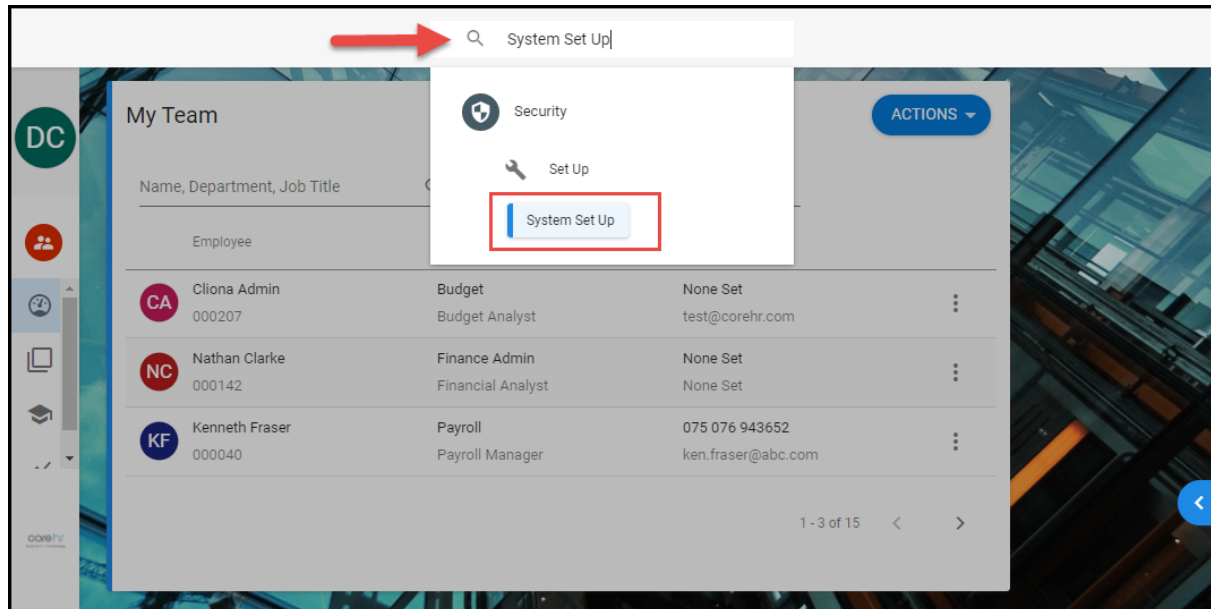

3.3.1. Menu Options

System	Menu Option	Description
Web Services	Talent > Get employees	This enables the Employees tab on the Talent Admin Dashboard.

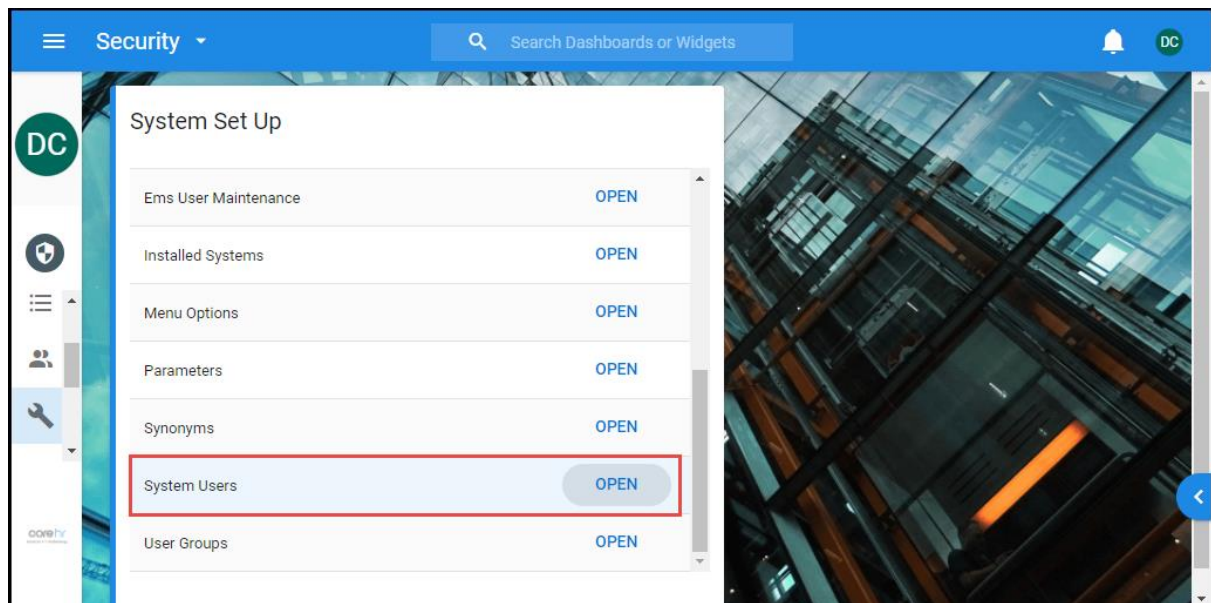

3.3.2. Talent Administration Employee Data Access

To access the data for every employee in Talent Management, access needs to be granted as part of the People Management System Users within the Security module.

1. Quick jump to *System Set Up* on the Security Dashboard

2. Select *System Users* and click **Open**.

3. The System Users screen appears

The screenshot shows the 'System Users' screen under the 'Security' tab. The form contains the following fields:

- Accounts:** Radio buttons for 'Portal' (selected) and 'Back Office'.
- Username (a):** A dropdown menu showing '000203'.
- Security Type (b):** A dropdown menu showing 'Personnel Access'.
- Structure Code (c):** A dropdown menu showing 'Abc Solutions'.
- Access Level (d):** A dropdown menu showing 'Department'.

Below the form are four buttons: 'Delete User Access', 'Copy User Access', 'Clear', and 'Show Access'.

Below the buttons is a table with the following data:

Reference Code	Reference Description	Active	Access Granted	Hierarchy Structure
FIN2	Budget	☒	☒	1000 Abc Solutions, 1001 Shared Services, FIN Finance

4. Ensure the following options are selected before assigning access to a username:
- a. Username
 - b. Security Type = Personnel Access
 - c. Structure Code
 - d. Access Level
5. Access is saved automatically. Access is now replicated on both People Management Dashboard and Talent Dashboard for the user in question.
