1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how to use the objective administration features in XD Talent.

This guide includes how to navigate and use the objective widgets available to administrators for Talent Management including:

- Creating an objective cycle.
- Assigning an object type.
- Managing objective cycles once activated.

Note:

Before configuring objective cycles, review the content provided in the following user guide for some standard configuration details:

- [Talent Management: Administration Setup - User Guide](#)

1.2. Initial Configuration

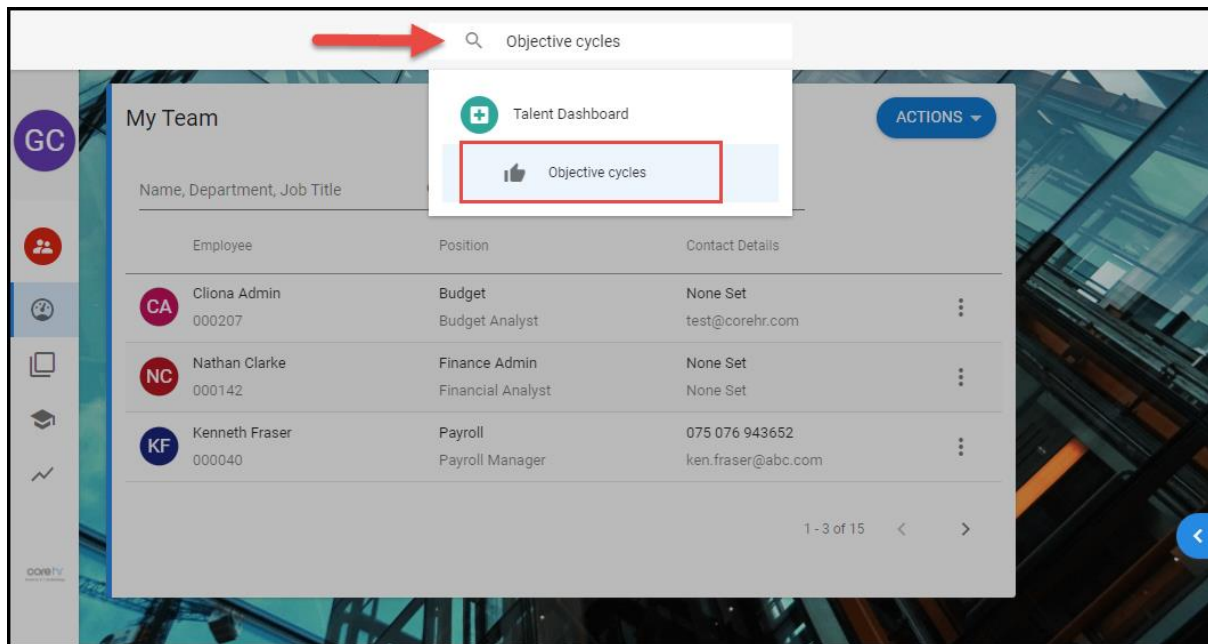

The Talent Dashboard is where Talent administrators configure the system for the organisation. From here, users can create objective cycles, manage the cycles, assign employees and managers, and monitor progress. XD Insight can also be used to monitor information through the creation of reports in the dedicated XD Talent business area.

2. Objective Cycles

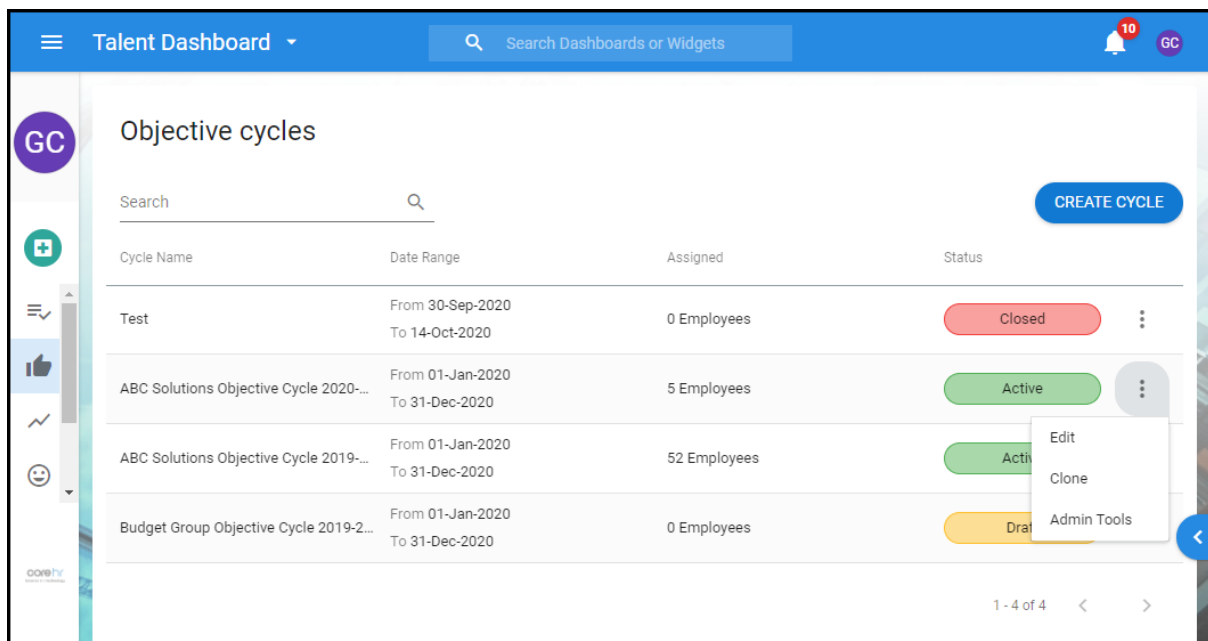

2.1. Accessing Objective Admin widget

To access the Objective Admin widget:

1. Quick jump to *Objective Cycles* on the Talent Dashboard.

2. The *Objective cycles* tab opens, showing the following items

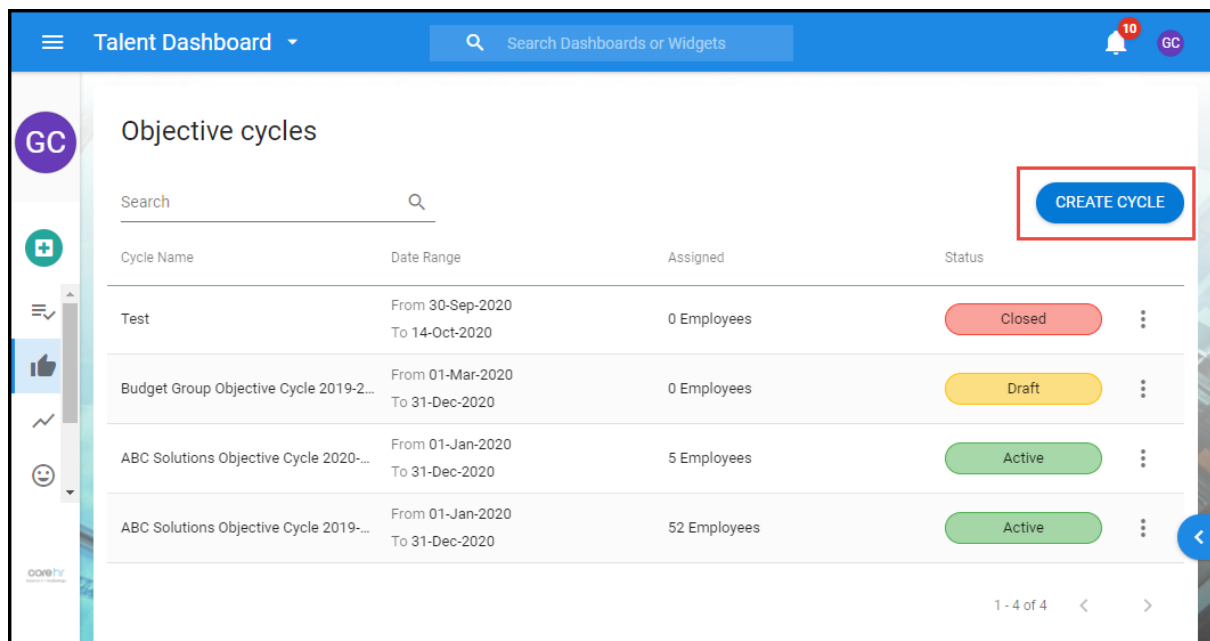

The below table outlines what is shown on this screen:

Item	Description
Search	This allow you to search on the title of the objective cycle.
Cycle Name	This shows the name / title of the objective cycle.
Date Range	This shows the start date and the end date of the objective cycle.
Assigned	This shows the number of employees currently assigned to this objective cycle. This is blank if the cycle hasn't been assigned yet.
Status	This shows the current status of an objective cycle. The statuses are: - Active (currently in use, cannot be deleted). - Draft (not in use, can be activated or deleted). - Closed (date range has passed).
Further Objective Cycle Options	Within the  button, there are additional options for objective administration.

2.2. Creating an Objective Cycle

To create a new objective cycle, follow the below steps:

1. Click **Create Cycle**.

2. Fill in the fields on the *Create Cycle* window.

Item	Description
Cycle Title	This is the name of objective cycle. Enter up to 500 alphanumeric characters.
Active From	This is the opening date of the objective cycle.
Active To	This is the closing date of the objective cycle.

3. Click **OK**.
4. The objective cycle wizard automatically displays on screen with the following sections
 - a. Cycle Details
 - b. Objective Types
 - c. Assign Employees

From here, you can complete the creation of the cycle or come back to it at a later time.

The screenshot shows the 'Edit Cycle - Budget Group Objective Cycle 2019-2020' screen. The interface includes a sidebar with three steps: 1. Details (selected), 2. Types, and 3. Assign. The main content area is titled 'Details' and contains the following fields:

- Title:** Budget Group Objective Cycle 2019-2020
- Active From:** 01-Mar-2020
- Active To:** 31-Dec-2020
- Description:** (empty)

A 'NEXT' button is located at the bottom right of the screen.

2.2.1. Cycle Details

The following details are editable within the *Details* screen while the cycle is in draft mode:

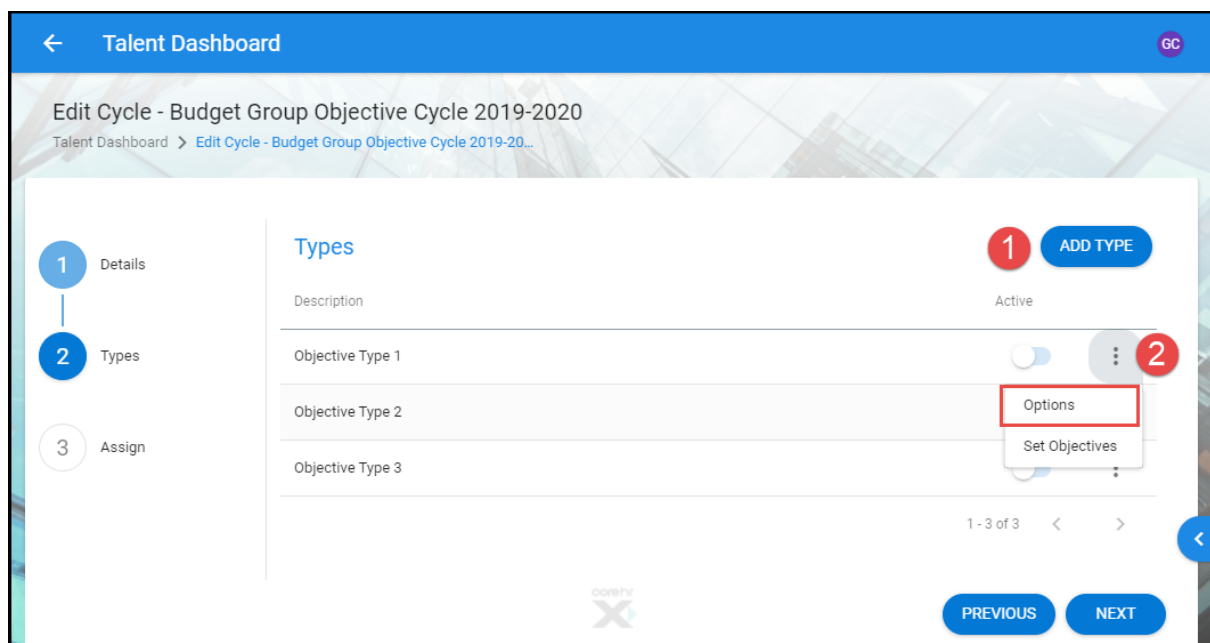

Item	Description
Title	This is the name of objective cycle. Enter up to 500 alphanumeric characters.
Active From	This is the opening date of the objective cycle.
Active To	This is the closing date of the objective cycle.

Item	Description
Description	This allows you to enter a description about the objective cycle. Enter up to 1000 alphanumeric characters.
Upload Document	This allows you to attach a supporting document to the cycle.

2.2.2. Objective Types

By default, there are three objectives types already created on a new objective cycle. These can be activated, re-named, or updated during the creation wizard. You can create a new Objective Type, or enable the existing types and edit those. Both methods lead into the same edit screens.

1. To add a new *Objective Type*, click **Add Type**.
2. To edit an existing *Objective Type*, click the  button and select **Options**.

Key Fields

The key field screen consists of the following items and settings:

Item	Description	Mandatory
Type Name	This is the name of the objective type.	Yes
Custom Workflow and Statuses	This adds an approval stage when creating and signing off on objectives. See section Custom Workflow & Status Setup for more details.	No
Input a detailed description	This allows each user to input additional details on an objective where required.	No
Decide who has visibility	When enabled, the person creating the objective can set the visibility. - Confidential (Default - Only the employee can view the objective). - Private (This allows an employee's line manager to view the objective). - Public (This allows an employee's team to view the objective).	No
Input the priority	This allows the user to decide on the objective's priority.	No

Setup metrics to measure progress

This allows a user to update a progress bar or a metric when reviewing an objective.

No

Custom Workflow & Status Setup

This setting only appears once the Custom Status and Workflow indicator has been enabled.

SAVE

To setup a workflow per objective cycle, follow the below steps:

1. Enable the *Custom Workflow and Statuses* indicator.
2. Click **Workflow & Status Setup**. The setup wizard appears on screen.
3. Enable or disable the following questions on the *Workflow Setup* step of the wizard:
 - a. Do you want the manager to approve the key fields before the employee can start working on the objective?
 - b. Do you want to open up the key fields for the employees after approval? This option is only available if a. is turned on.
 - c. Do you want the manager to approve the final objective?
4. The *Workflow Statuses* step includes the standard set of steps on an individual's objective. These are standard and cannot be deactivated, however their display name on the system can be customised by entering a new name in the *Custom Description* box.

5. The *Objective Statuses* step allows you to assign a *Work in Progress Group* to this objective type. Select a Group from the dropdown menu.
 - a. To view, edit, or create a new Status Group, click the **Manage Statuses** button.
6. Once you have finished configuring the three steps, click **Save**.

Ratings

The rating screen allows you to add up to two ratings per objective type. This will allow employees to submit a rating for each objective they add for this objective type. Each rating has the below items:

- Active Start Date
- Rating Type
 - Star
 - Numeric
 - Descriptor

The screenshot shows the 'Edit Cycle - Budget Group Objective Cycle 2019-2020' interface. The 'Objective Type Options' tab is active, displaying configuration for two ratings. The 'Ratings' tab is selected, showing settings for 'First Rating' and 'Second Rating'. Each rating has an 'Active' toggle, an 'Active Start Date', a 'Rating Type' (Numeric or Star), and 'Min Value' and 'Max Value' fields. The 'First Rating' is set to 'Active', '01-Mar-2020', 'Numeric', '1', and '5'. The 'Second Rating' is also set to 'Active', '02-Aug-2020', 'Star', and '5'. A 'SAVE' button is visible at the bottom right.

Key Fields	Ratings	Text Editor	Scorecards & Milestones	Other Settings
First Rating	Active Start Date * 01-Mar-2020 Select a date to start the first rating Min Value * 1		Rating Type * Numeric Max Value * 5	
Second Rating	Active Start Date * 02-Aug-2020 Select a date to start the second rating Number of Stars 5		Rating Type * Star	

Text Editor

The text editor screen allows you to add up to two text editors per objective type. When added, the user has the ability to enter in further information about their objective progress or any other related text.

The screenshot shows the 'Text Editor' tab selected in the 'Objective Type Options' configuration screen. The breadcrumb trail is 'Talent Dashboard > Edit Cycle - Budget Group Objective Cycle 2019-20... > Objective Type Options'. The tabs are 'Key Fields', 'Ratings', 'Text Editor' (active), 'Scorecards & Milestones', and 'Other Settings'. The 'Text Editor' section has two toggle switches, both turned on, labeled 'Create a text editor to input details'. Between them is a 'Display Name*' field with a placeholder 'Enter a text editor label'. A 'SAVE' button is at the bottom right.

Scorecards / Milestones

Scorecards and milestones allow a user to mark certain items off on a scorecard and track progress and milestones on each individual objective.

The screenshot shows the 'Scorecards / Milestones' section in the 'Objective Type Options' configuration screen. The breadcrumb trail is 'Talent Dashboard > Edit Cycle - Budget Group Objective Cycle 2019-20... > Objective Type Options'. The section is divided into two panels: 'Balance scorecard' and 'Milestones'.
Balance scorecard: Has a toggle 'Link objective to a scorecard item' (turned on). Below it is a dropdown 'Scorecard Descriptor Group *' with 'Employee Scorecard' selected, and a label 'Select scorecard type'. Below this is a table:

Rating	Descriptor
1	Training
2	Pay Award
3	Financial

Milestones: Has a toggle 'Capture milestones and progress' (turned on). Below it is a dropdown 'Milestone Status *' with 'Milestone Status' selected, and a label 'Select milestone status'. Below this is a table:

Rating	Descriptor
1	Milestone Complete
2	Milestone Delayed
3	Milestone Not Started

A 'SAVE' button is at the bottom right.

Other Settings

The following image and table outline the additional settings for an objective type.

The screenshot shows the 'Edit Cycle - Budget Group Objective Cycle 2019-2020' interface. The 'Objective Type Options' tab is selected, and the 'Other Settings' sub-tab is active. Five toggle switches are visible, all of which are turned on:

- Link a training course to objective
- Align objective to other objectives
- Display audit history of objective
- Enter comments for objective
- Objective Should Follow Employee

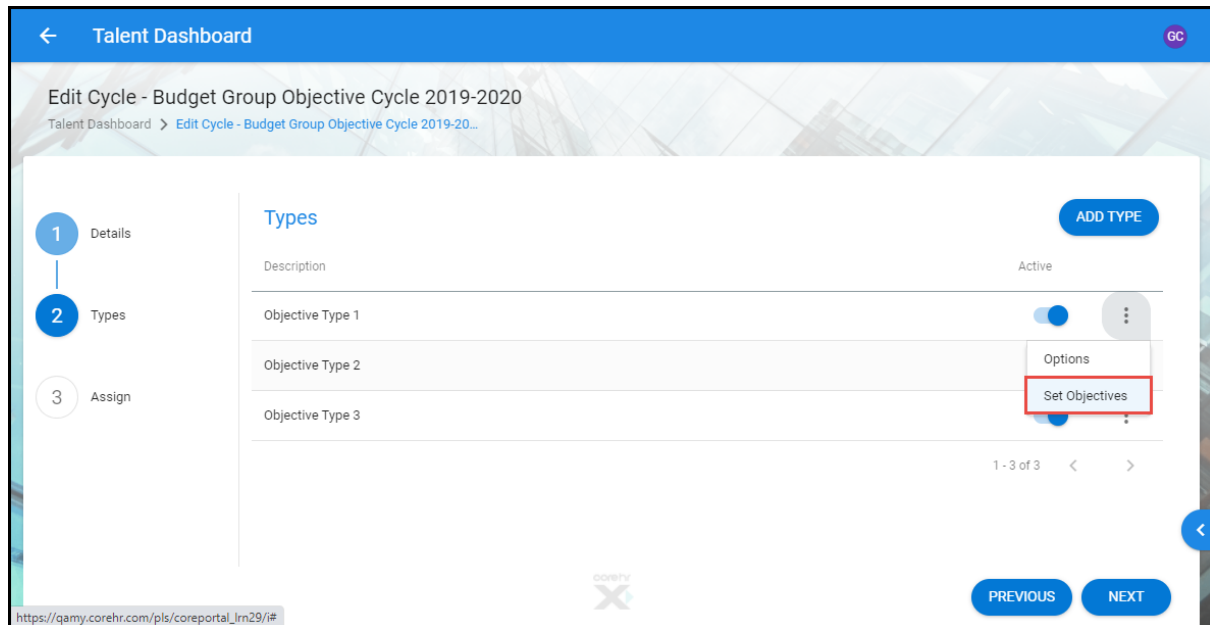

A 'SAVE' button is located at the bottom right of the interface.

Item	Explanation
Link a Training Course to Objective	This allows a user to link an existing CoreTraining course to an objective.
Align Objectives to Other Objectives	This allows a user to link one objective to another within the same objective cycle.
Display Audit History of Objective	This allows a user to see what amendments have been made to the objective since it was created.
Enter Comments for Objective	This allows a user to enter a comment on an objective.
Objective Should Follow Employee	If an employee changes appointment, this allows the objective to move with them on the system.

2.2.3. Set Objectives

Once an objective type has been set up, you can add specific objectives and assign them out to employees. This is useful when setting company-wide or department specific objectives. To do this:

1. On the *Objective Type* section, click the  and select **Set Objectives**.

2. Click **Create Objective**.
3. Complete the following items:
 - a. Objective Title
 - b. Description
 - c. Start Date
 - d. End Date
4. To assign out the objective to a criteria group or an org role, choose the appropriate radio button and fill in the subsequent details.
5. Click **Save**.

2.2.4. Activate Objective Types

Objective types must be activated to enable employees to add objectives within that type. If you are not using the default objective types, or you are using less than 3 objective types, these can be left inactivated so that they don't appear for employees.

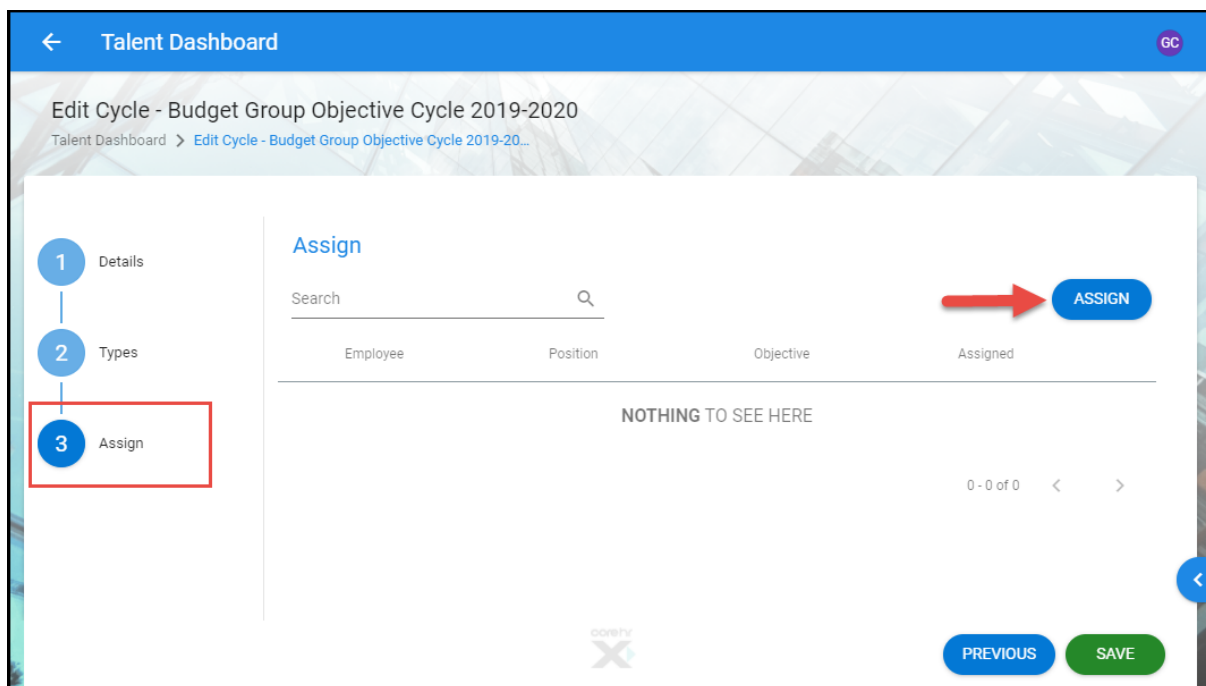

To activate an objective type, enable the active toggle for the relevant type on the *Objective Types* screen. Then, click **Save**.

Note: Objective types must be activated before you activate the cycle. Additional objective types cannot be created or activated after this point.

2.3. Assign Objective Cycle

To assign an objective cycle to a criteria group, follow the below steps:

1. On the *Assign* step, click **Assign**.

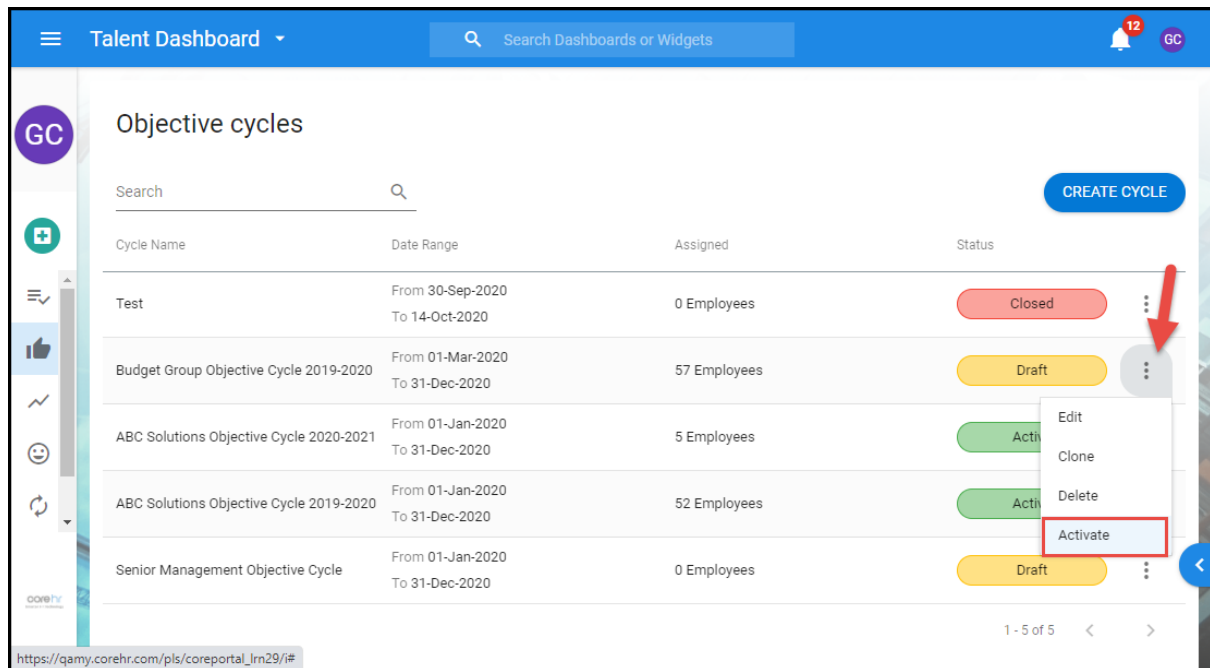

2. Search for a group to assign.
3. Enable the **Activate** indicator.
4. Click **Save**. You will then see a list of the employees assigned.

When all 3 sections of the Objective Cycle have been configured, click **Save** to complete the creation of the cycle and assign it to the correct employees.

2.4. Activating an Objective Cycle

To activate an objective cycle, follow the below steps:

1. On the *Objective cycles* widget, click the  button alongside the objective cycle to be activated.
2. Select **Activate**.

3. The following messages appear on screen during the activation process:
 - a. Activating Objective Cycle. This may take a few minutes
 - b. Objective Generated. Manager currently being assigned.

3. Administration Options

The following table outlines the options available to a user when the  button is clicked on an active objective cycle.

Item	Description
Edit / View	This allows you to view / edit the title and the date range that the objective cycle is active for.
Clone	This allows you to copy the objective cycle to a new inactive objective cycle. This can be used to save time when your current objective cycle comes to an end.
Admin Tools	For more detail on the administration options, see section 3.1 Admin Options .

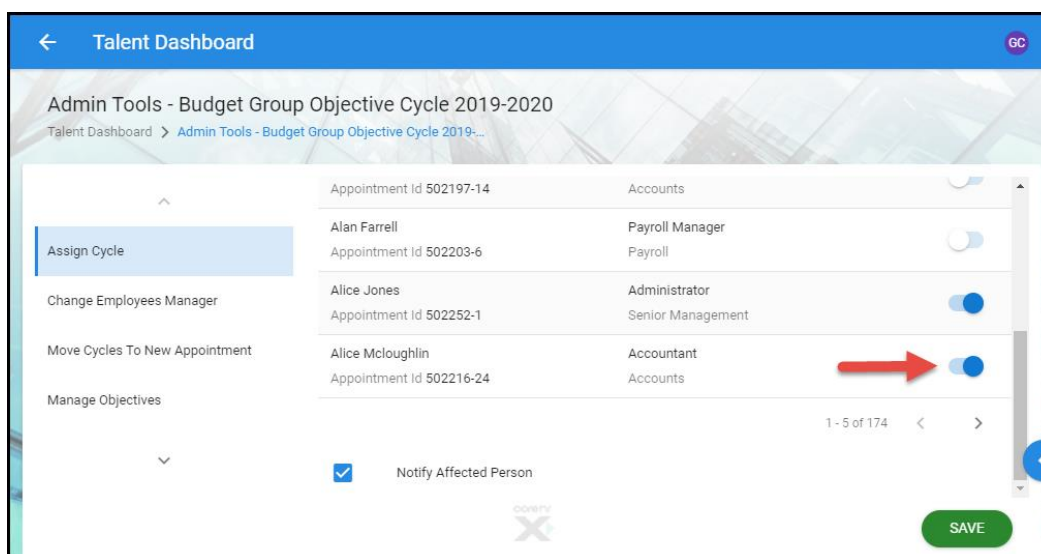

3.1. Admin Options

This section is used for ad hoc changes and day to day maintenance of active objective cycles. To access the *Admin Options* screen, click the  button and select **Admin Options**.

3.1.1. Assign Cycle

To assign an objective cycle to an employee after it has been activated, follow the below steps:

1. Go to the *Assign Cycle* tab.
2. Find the employee and enable the **Assign** toggle.

3. Enable the *Notify Affected Person* indicator if required.
4. Click **Save** and confirm your changes.

3.1.2. Change Employee Manager

To change an employee's objective manager after the cycle has been activated:

1. Go to the *Change Employees Manager* tab.

The following details appear:

Item	Description
Search	This allows you to search for an employee not already assigned to this objective cycle.
All Employees / Employee with no manager	This allows you to toggle between employees with or without a manager assigned to them.
Employee	This shows the employee's name and appointment ID.
Position	This shows the employee's job title and department.
Manager	This shows the name of the employee's current manager.
New Manager	This is a drop-down list of all users in the system.

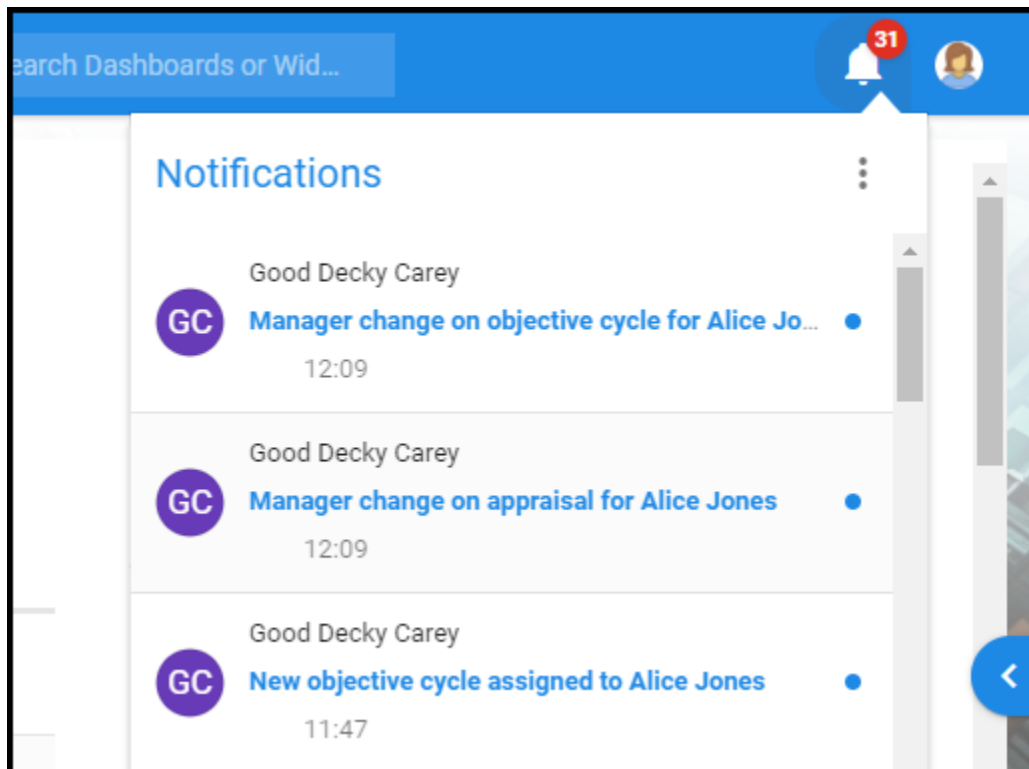

2. Search for the employee whose manager needs to be updated.
3. Click on the *New Manager* drop-down list to change their manager to the correct one.

The screenshot displays the 'Talent Dashboard' with the 'Admin Tools - Budget Group Objective Cycle 2019-2020' section. The 'Change Employees Manager' tab is active. On the left, there are navigation links: 'Assign Cycle', 'Change Employees Manager' (highlighted), 'Move Cycles To New Appointment', and 'Manage Objectives'. The main area features a search bar containing 'alice jones' and a dropdown menu set to 'All Employees'. Below this is a table with the following data:

Employee	Position	Manager	New Manager
Alice Jones	Administrator	Brian O'Keeffe	Trevor Hemmings
Appointment Id 502252-1	Senior Management		

Below the table, there is a checkbox for 'Notify Affected Person' which is currently unchecked. At the bottom right, there is a green 'SAVE' button. A dropdown menu for 'New Manager' is open, showing 'Trevor Hemmings (000204)' as the selected option. The interface also shows 'Rows selected 0' and a '1 - 1 of 1' pagination indicator.

4. To notify the employee, tick *Notify Affected Person*. This sends the following notification:

5. Click **Save**.
6. Confirm your changes.

Note:

- This option does not change an employee's line manager in People Management or WFM. This update is only linked to their objective cycle manager.
- If you update an objective manager, it updates all objectives where the End Date is greater than or equal to today's date.

3.1.3. Move Cycle to New Appointment

This allows you to move an objective cycle to an additional contract that an employee may have on top of their substantive contract in PeopleXD. All objective cycles get assigned to an employee's substantive contract, and are not linked to any additional contracts unless updated using the below steps:

1. Go to the *Move Cycles to New Appointment* tab.

The following details appear on screen:

Item	Description
Search	This allows you to search for the employee's name.
Employee	This shows the employee's name and their appointment ID.
Position	This shows the employee's job title and department.
Manager	This shows the employee's objective cycle manager.
New Appointment ID	This allows you to move the objectives to an additional contract that the employee may have on their record.

2. Search for the employee in question and select a new appointment ID from the appointment ID drop-down box.

The screenshot shows the 'Talent Dashboard' with a sidebar on the left containing options: 'Assign Cycle', 'Change Employees Manager', 'Move Cycles To New Appointment' (highlighted), and 'Manage Objectives'. The main area is titled 'Admin Tools - Budget Group Objective Cycle 2019-2020'. It features a search bar and a table with columns: Employee, Position, Manager, and New Appointment ID. The table lists three employees: Kate Simpson, Kenneth Mills, and Liam Gordon, all with the position 'Budget Analyst'. The 'New Appointment ID' column shows a dropdown menu for each employee, with '502204-7' selected for Kate Simpson and '502219-9 (Current)' for the others. A green 'SAVE' button is at the bottom right.

Employee	Position	Manager	New Appointment ID
Kate Simpson	Budget Analyst	Brian O'Keeffe	502204-7
Kenneth Mills	Budget Analyst	No manager	502219-9 (Current)
Liam Gordon	Budget Analyst	Brian O'Keeffe	502219-9 (Current)

3. Click **Save** and confirm your changes.

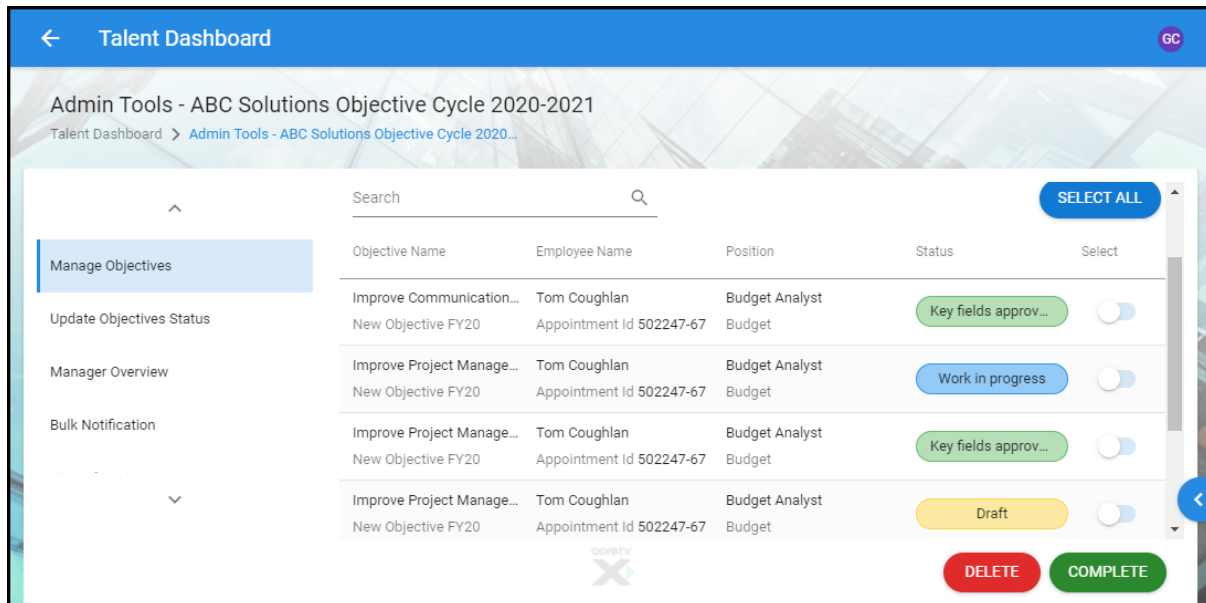

3.1.4. Manage Objectives

This allows you to carry out the following tasks on an employee's objective:

- Delete it from an employee's record
- Complete it on behalf of an individual

To action on these items, follow the below steps:

1. Go to the *Manage Objectives* tab.
2. The following details appear on screen:

Item	Description
Search	This allows you to search for an objective's name
Select All	This allows you to select all objectives from the current selection.
Objective Name	This is the objective's title
Employee Name	This shows the employee's name and contract that the objective is assigned to.
Position	This shows the employee's job title and department.
Status	This is the objective's current status according to the Work in progress statuses
Select	This indicator allows you to select an objective to be deleted or completed.

3. Enable the Select indicator for one or all objectives.
4. The following options are available;
 - a. Delete the objective by clicking **Delete**.
 - b. Complete the objective by clicking **Complete**.

3.1.5. Update Objective Status

This allows you to update an objective to have any status from the work in progress status list as defined on the objective cycle. To do this, follow the below steps:

1. Go to the *Update Objective Status* tab.

The following details appear on screen:

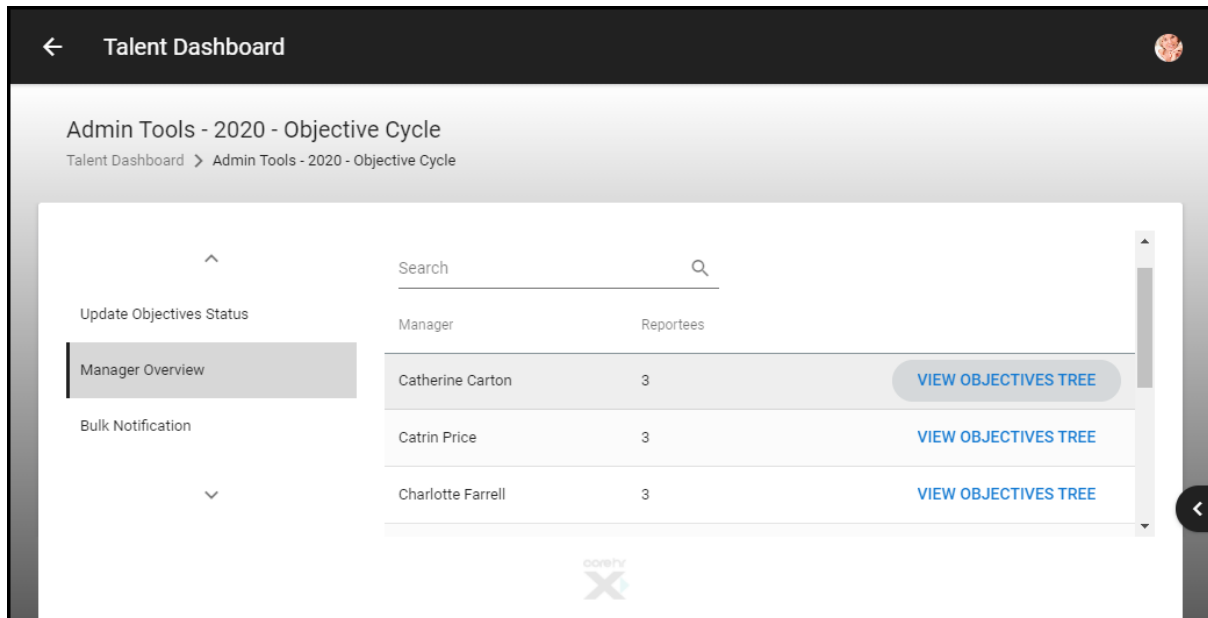

The screenshot displays the 'Update Objective Status' tab within the 'Admin Tools - ABC Solutions Objective Cycle 2020-2021' section. The interface includes a search bar and a table with the following columns: Objective Name, Employee Name, Position, Status, and New Status. The table lists four objectives, all assigned to Tom Coughlan, a Budget Analyst. The 'New Status' dropdown menu is open, showing options: Draft, Work in progress, Complete, and Cancelled. The 'Work in progress' option is selected. A 'SAVE' button is located at the bottom right of the interface.

Item	Description
Search	This allows you to search on an objective's name
Objective Name	This is the objective's title
Employee Name	This shows the employee's name and contract that the objective is assigned to.
Position	This shows the employee's job title and department.
Status	This is the objective's current status according to the Work in progress statuses.
New Status	This allows you to update an objective to a new objective status.

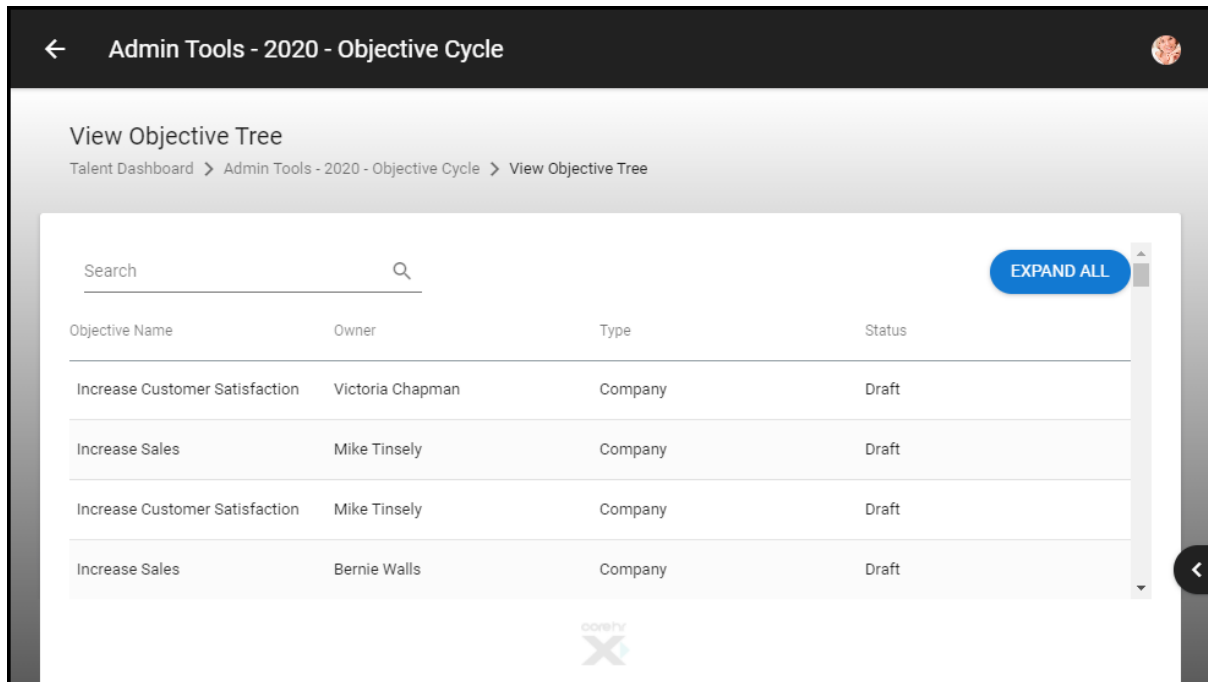

2. Click **Save**.
3. Confirm your changes.

3.1.6. Manager Overview

This displays the objective status for each manager's reportees.

1. Click on the **View Objective Tree** button to drill down to a manager's reportees details.
2. The following image and table outlines what appears on the View Objective Tree screen.

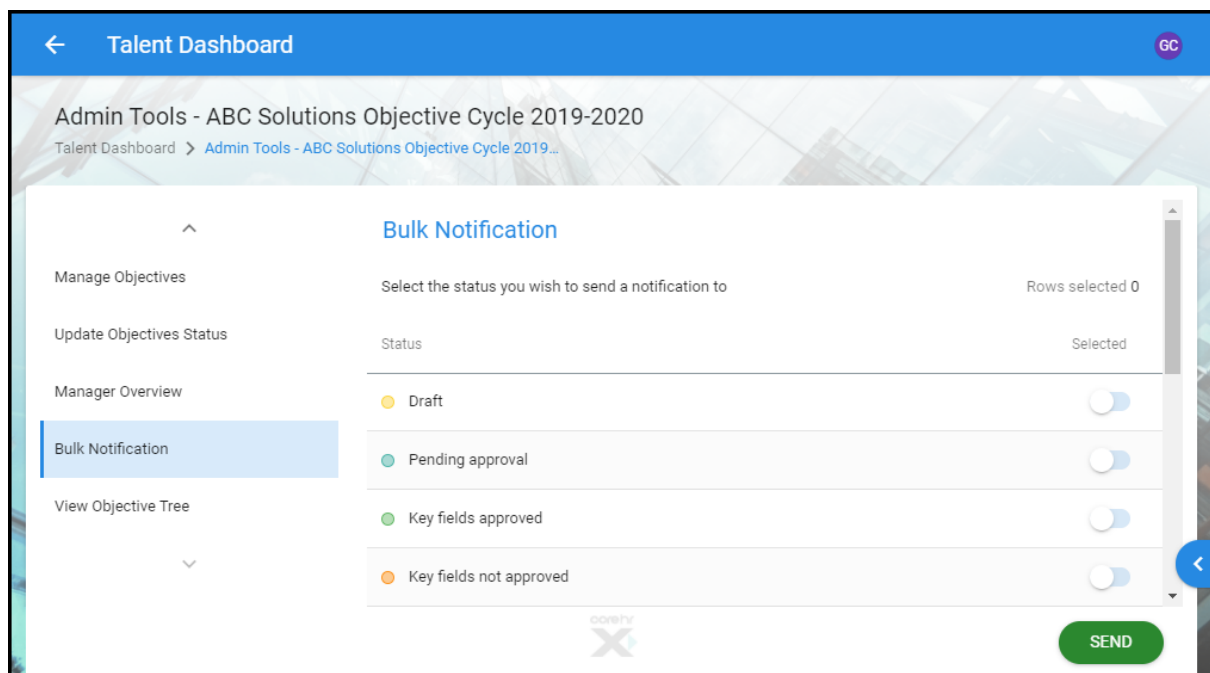

Item	Description
Search	This allows you to search on an objective's name / title
Expand All / Collapse All	This allows you to expand each objective and view more details
Objective Name	This shows the objective's name / title.
Owner	This is the employee who has been assigned the objective in question.
Type	This is shows if the objective has been assigned out by a criteria group or if it is employee specific.
Status	This shows the objective's current status.

3.1.7. Bulk Notifications

This allows you to send a notification to all employees that have an objective set to a specific status. To do this, follow the below steps:

1. Go to the *Bulk Notifications* tab.
2. The following details appear on screen.

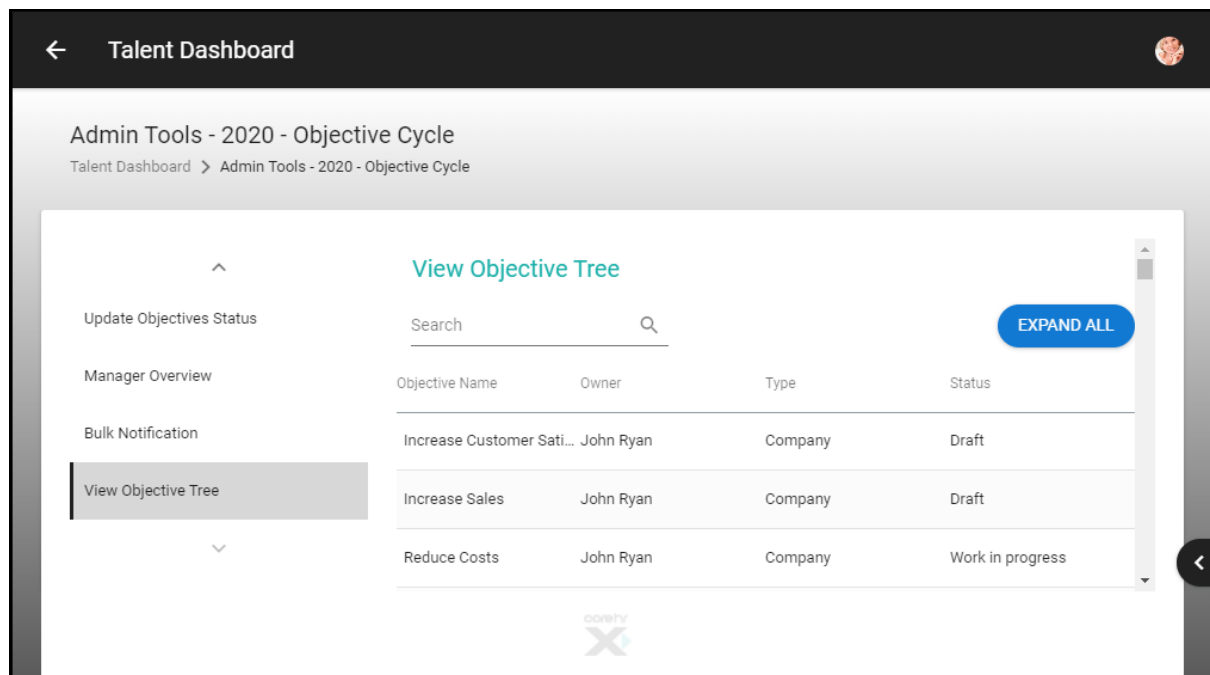

3. Select a status to send a notification to.

4. Enter the notification message to be sent to employees.
5. Click **Save**.

3.1.8. View Objective Tree

This displays the status of all employee's objectives.

The screenshot shows the 'Talent Dashboard' interface. The main heading is 'Admin Tools - 2020 - Objective Cycle'. Below this, there is a breadcrumb trail: 'Talent Dashboard > Admin Tools - 2020 - Objective Cycle'. The left sidebar contains a menu with the following items: 'Update Objectives Status', 'Manager Overview', 'Bulk Notification', and 'View Objective Tree' (which is highlighted). The main content area is titled 'View Objective Tree' and features a search bar with a magnifying glass icon and a blue 'EXPAND ALL' button. Below the search bar is a table with the following columns: 'Objective Name', 'Owner', 'Type', and 'Status'. The table contains three rows of data:

Objective Name	Owner	Type	Status
Increase Customer Sati...	John Ryan	Company	Draft
Increase Sales	John Ryan	Company	Draft
Reduce Costs	John Ryan	Company	Work in progress

At the bottom of the page, there is a 'corefy' logo with a stylized 'X'.

4. Notifications

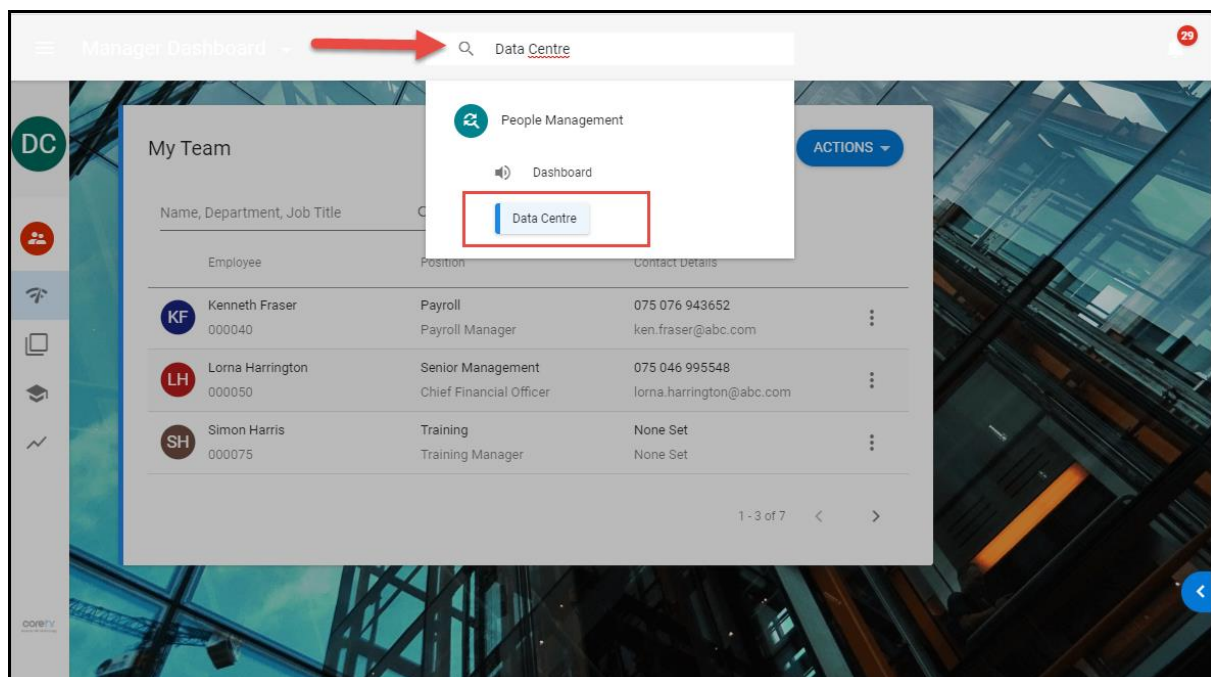

4.1. Event Management

There are two categories that notifications and emails can be created for:

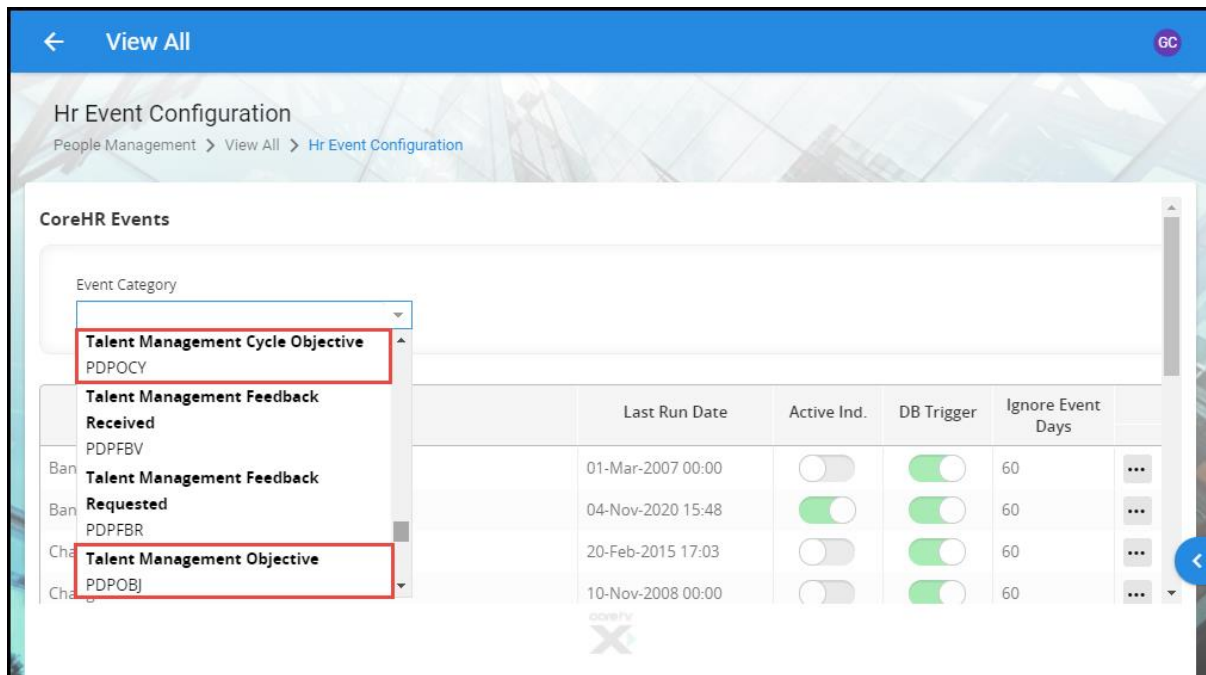

1. Talent Management Cycle Objective
2. Talent Management Objective

These can be configured using the following steps:

1. Quick Jump to *Data Centre* on the People Management dashboard

2. Click **Open** on the *HR Setup Settings* option.
3. Search for HR Event Configuration.
4. Select the Talent Management Review options from the event category drop down list.

5. Create and manage all notification events available.
