1. Overview

1.1. Purpose of the Guide

This document provides an Admin user with configuration steps on how to build and roll out Succession Plans to an organisations management structure within the XD Talent Management product suite. Through using this document users gain an understanding on how to implement this feature to meet an organisation's talent strategy. This can be used in conjunction with other features within the XD Talent Management suite to meet an organisations talent strategy.

Note:

Before configuring Succession Plans, review the content in the following user guide for standard configuration details.

- XD Talent Management: Configuring Talent Setup - User Guide

1.2. What is Succession Planning?

Succession planning is the process of identifying and developing potential future leaders and senior managers, as well as individuals, to fill business-critical roles. The aim is to be able to fill key roles effectively if a current post holder leaves the organisation. (CIPD, 2020)

Within this functionality in XD Talent Management, users have the ability to find successors, identify key positions and build succession profiles. Succession Planning allows the organisation to ensure leadership continuity, retain & develop knowledge & intellectual capital for the future and encourage individual employee growth and development. It also helps set career objectives and determine appropriate educational and developmental programs to further develop the skills required to achieve short term and long term career objectives.

2. How to Configure

2.1. Menu Options

System	Menu Option	Description
CorePortal	Administrator Succession - Update Nominee/Successor	This gives an administrator access to update a succession plan and generate or amend nominees and successors on a plan.
CorePortal	Administrator Succession View	This gives an administrator access to view Job Titles and Employee details on the Succession Planning widget.
CorePortal	Manager Succession - Update Nominee/Successor	This gives a manager access to update a succession plan and generate or amend nominees and successors on a plan.
CorePortal	Manager Succession View	This gives access to view Job Titles and Employee details on the Succession Planning widget for a manager.
CorePortal	Manager Talent Succession Widget	This gives access to the Succession Planning widget for managers on the Manager Dashboard.
CorePortal	My Team - Succession	This gives access to the Nominate Successors feature on the My Team widget for each employee. This in turn creates an Employee based Succession Plan.
CorePortal	Succession - Add Vacancy	This allows you to add the selected employee to an open vacancy with an applicant status of "Applicant Applied".
CorePortal	Succession - Amend contract	This brings you to the Employee Profile of the selected employee where you can amend their contract.
9boxCorePortal	Talent Succession Plan	This populates the Succession Planning widget on the Talent Admin dashboard with data.

System	Menu Option	Description
CorePortal	Admin View 9-box	This controls access to the 9-box details on the Succession Planning widget for an administrator.
CorePortal	Manager 9-box	This gives managers access to view their 9 box grids based on their Potential Ratings and Performance Ratings

2.2. Reference Data

2.2.1. Talent Factor References

The following reference data can be created to appear on the *Talent Factors* section on a Performance Review / Appraisal form. This information is linked to an employee's position on the manager's / companies 9-box grid. These items are grouped together to allow the manager to review and report on certain aspects of their employee that drive performance, talent, and predictive analytics. All options available on this screen are managed by your organisation and can be renamed or re-used in many ways.

To create or amend the data, follow the steps below:

1. Go to the *Talent Setup* widget on the *Talent Administrator Dashboard*.
2. Select the **Scaled Reference List** option.
3. The following items are available to review and update here.

Performance Level

This information can be created to appear on the *Talent Factors* section on a Review form. It shows the level to which the employee is performing at currently.

Current Potential

This information can be used to track an employee's development and potential to develop further in their current role.

Readiness

This information is related to how ready the employee may be to move into a specific talent pool within the organisation.

Promotability

This information can be used to give an employee a score to measure how eligible for a promotion that they may be in terms of performance levels.

Flight Risk

This information refers to the level of risk of departing a department or the company that the employee may be.

The table below shows the items which are advised to be created as part of the standard Talent Management configuration:

Rating	Item	Colour
1	High Flight Risk	Red
2	Medium Flight Risk	Orange
3	No Flight Risk	Green

Note: Ensure that the lowest Rating value matches the least desirable description.

Flight Risk Impact of Loss

This information refers to the impact of the employee's departure has on the business or department.

The table below shows the items which are advised to be created as part of the standard Talent Management configuration:

Rating	Item	Colour
1	High	Red
2	Medium	Orange
3	Low	Green

Relevance

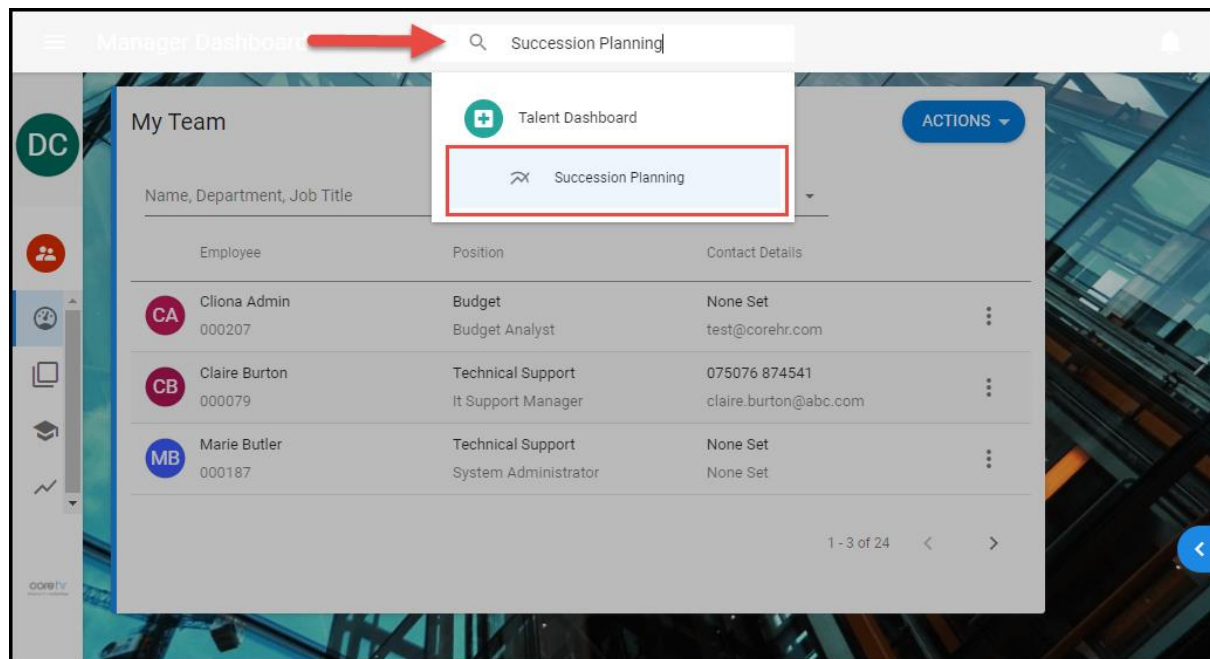

This information is related to how relevant the employees training, development and skills are to the current role.

3. How to use

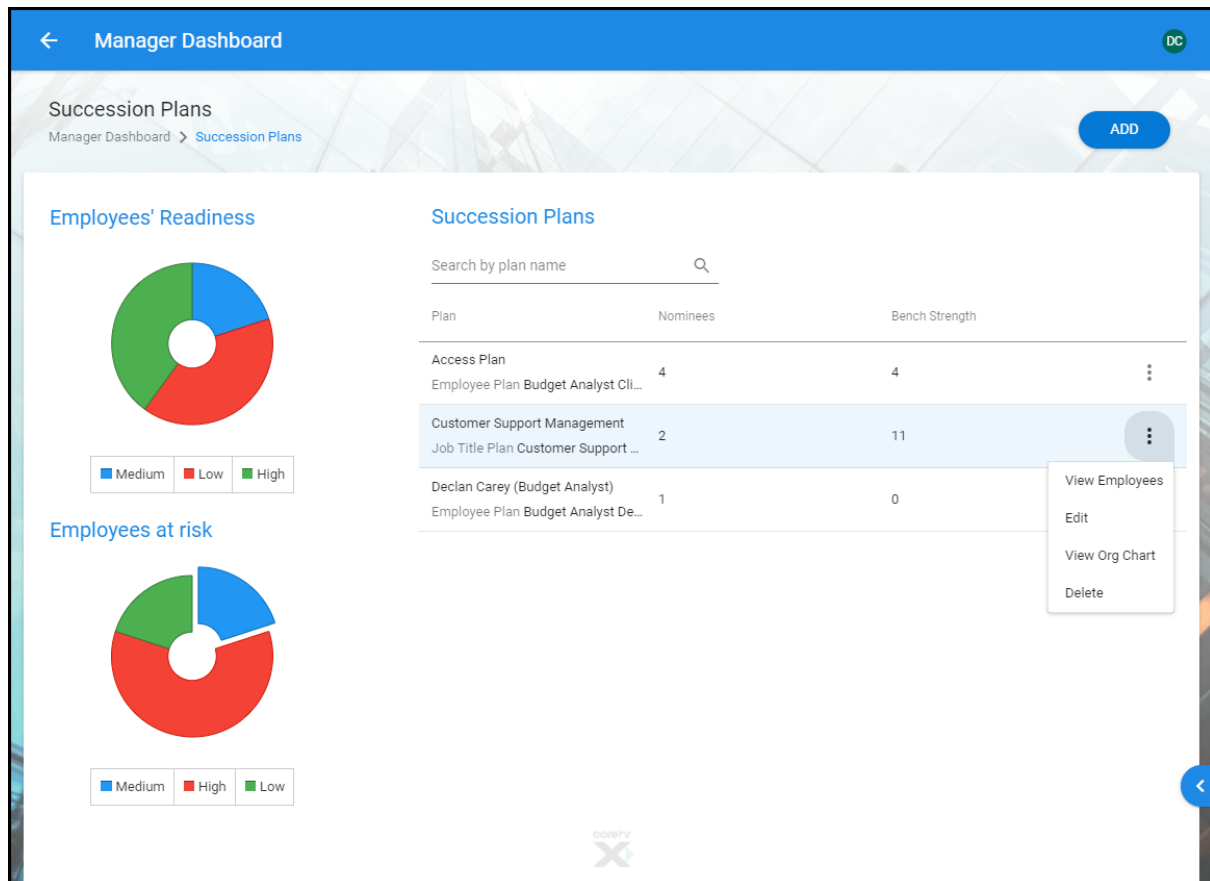

3.1. Administrator Succession Plan widget

To access the Succession Plan widget on the Talent Administrator Dashboard, follow the steps below.

1. Quick jump to the *Succession Planning* widget on the *Talent Dashboard*.

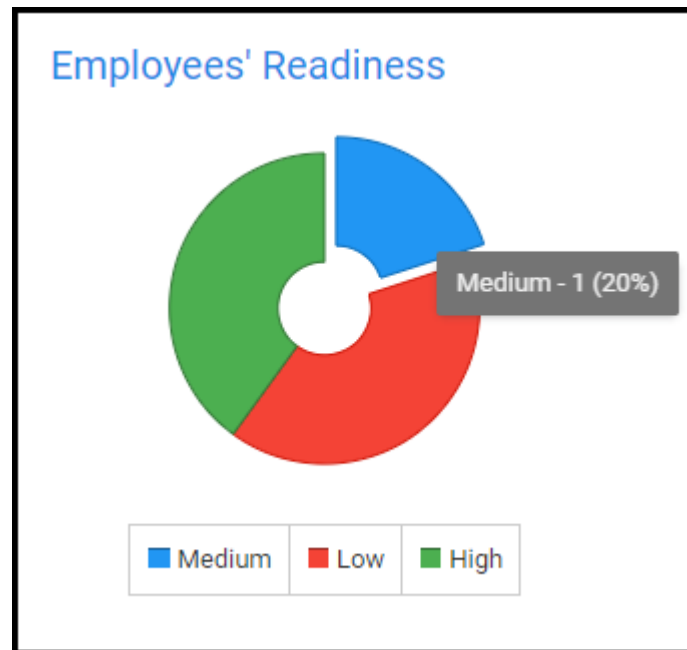

2. The *Succession Plans Admin* screen appears.

3.1.1. Employee Readiness

This pie chart is linked to the answers provided on an Employee's Talent Factors section on an appraisal or through their Talent Profile. This breaks up all employee's reference data for Readiness and allows an admin to clearly see the overall position of succession plans.

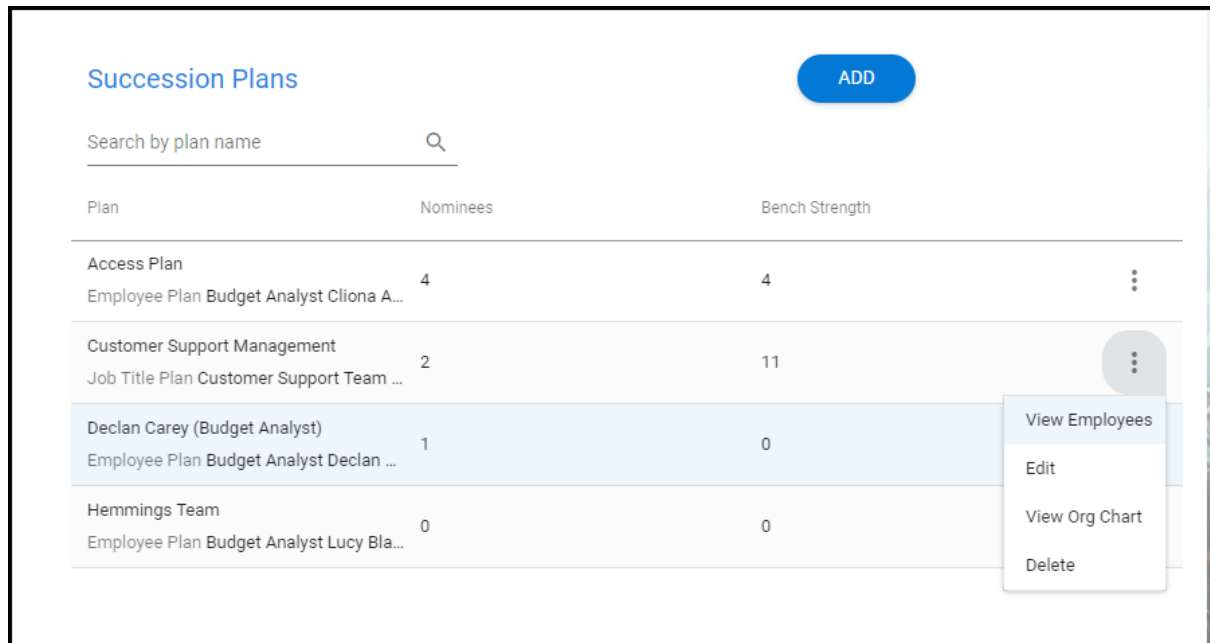

3.1.2. Employees at risk

This pie chart is linked to the answers provided on an Employee's Talent Factors section on an appraisal or through their Talent Profile. This breaks up all employee's reference data for their At Risk data and allows an admin to clearly see the overall position of succession plans.

3.1.3. Succession Plans

This admin area allows you to see all existing Succession Plans created by administrators or managers of teams. The following image and table outlines what is shown on screen.

Item	Description
Search by plan name	This allows you to search for an existing succession plan.
Add	This allows you to create a new succession plan.
Plan	This shows the Succession Plan and if it is linked to an individual employee or a Job Title.
Nominees	This returns the number of nominees for this role.
Bench Strength	This returns the number of employees that could be successfully moved into this role and assigned as a nominee.
View Employees	This allows you to view the list of nominees and benched employees.
Edit	This allows you to edit the weightings and the details of the succession plan.
View Org Chart	This allows you to view the Org Chart based on the employee or the Job Title that the succession plan is created for.
Delete	This allows you to delete the succession plan and the details of employees linked to it.

3.2. 9-Box Administration widget

To view 9-box admin on the Succession Plan widget, follow the below steps.

1. Click on the **View 9-box** button.

The screenshot shows the 'Succession Planning' section of the 'Talent Dashboard'. On the left, there's a donut chart titled 'Employees' Readiness' with a legend for Medium (blue), Low (red), and High (green). Below it, a section titled 'Employees at risk' is partially visible. On the right, the 'Succession Plans' section features a search bar and a table. The 'VIEW 9-BOX' button is highlighted with a red box.

Plan	Nominees	Bench Strength
Access Plan	4	4
Employee Plan Budget Analyst ...		
Customer Support Management	2	11
Job Title Plan Customer Suppo...		
Declan Carey (Budget Analyst)	1	0
Employee Plan Budget Analyst ...		
Hemmings	0	0

2. The 9-box Administration screen appears.

The screenshot shows the '9-Box' administration screen. At the top, there's a header with 'Talent Dashboard' and a back arrow. Below it, a section titled '9-Box' shows a list of employees: Brian Clifford, Brian Thornton, and Marie Butler. Below this, a table displays various metrics for each employee.

Employee Name	Appraisal Rating	Performance	Potential	Readiness	Flight Risk	Impact of Loss	Bench Strength
Brian Clifford 502212-8	N/A	Exceeded Expec...	Medium	High	Medium	Low	0
Brian Thornton 502228-1	N/A	Exceeded Expec...	High	Low	High	Low	0

3. The table below highlights what is found on this screen.

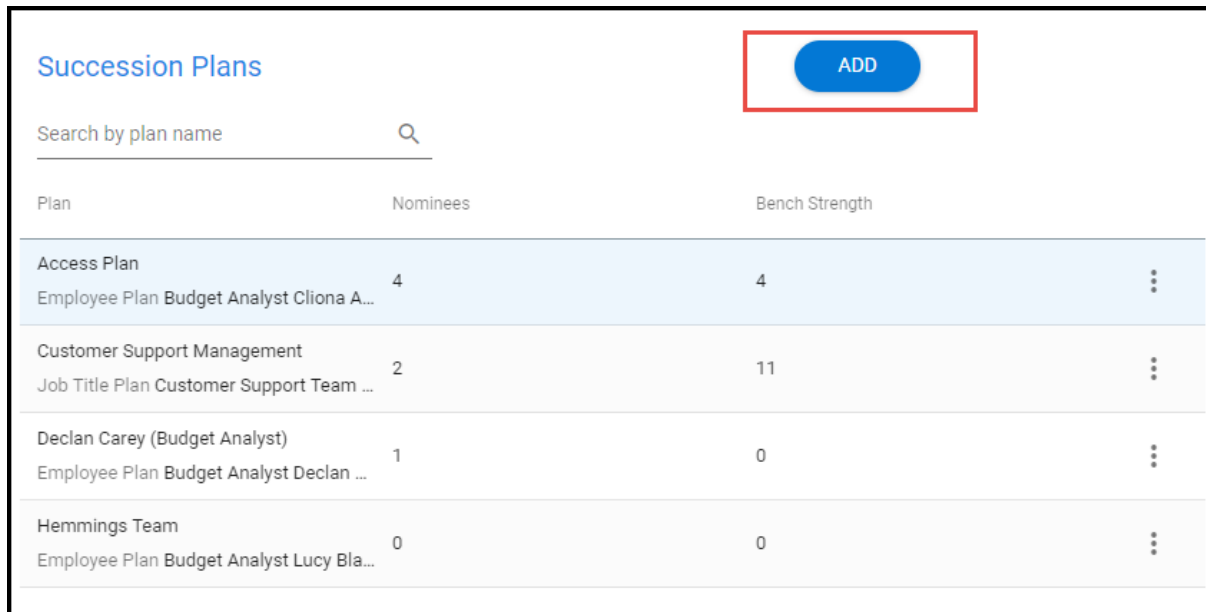

Item	Description
Search Employee	This allows you to search on an employee that has Talent Factor data assigned to them on their Talent Profile.
Employee Name	This is the name of the employee.
Appraisal Rating	This shows the final rating score of an employee.
Performance	This is the employees current performance rating as per Talent Factor information.
Potential	This is the employees current potential rating as per Talent Factor information.
Readiness	This is the employees current readiness rating as per Talent Factor information.
Flight Risk	This is the employees current flight risk rating as per Talent Factor information.
Impact of Loss	This is the employees current loss impact rating as per Talent Factor information.

3.3. Managing and Creating Succession Plans

3.3.1. Adding a new Succession Plan

To add a new succession plan:

1. Click on the Add button on the Succession Plan widget

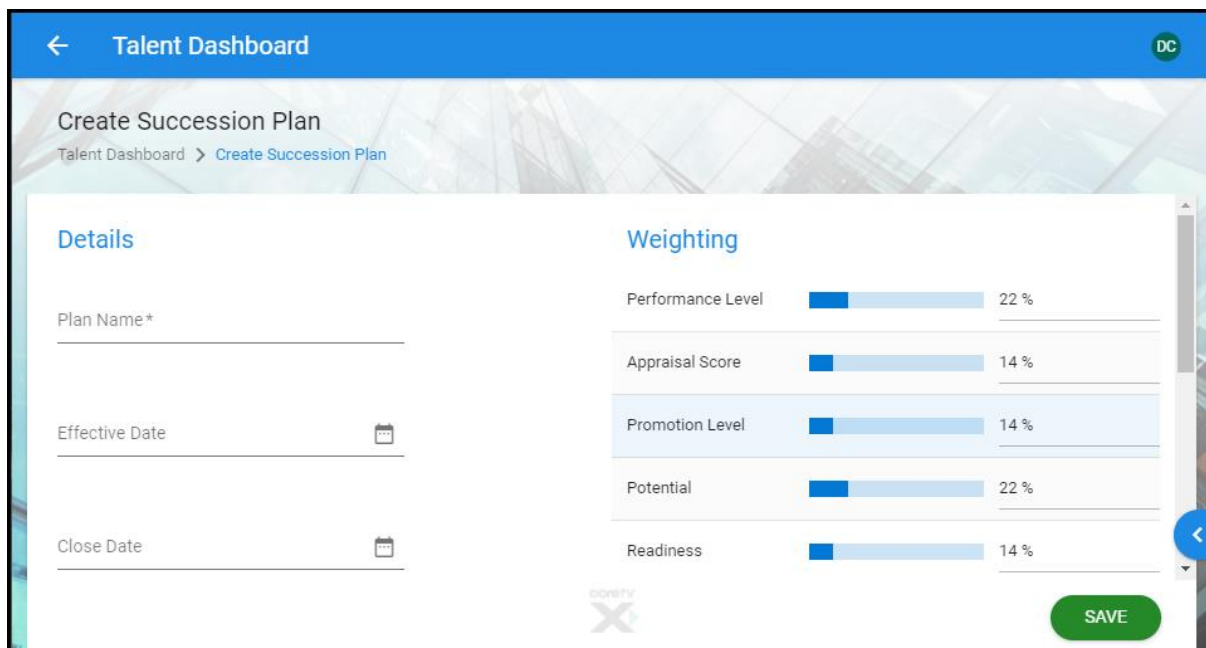

Succession Plans

Search by plan name

3. The following table outlines what items are required to be completed on this screen for the creation of a new plan

Item	Description	Mandatory
Plan Name	This is the name of the plan which can be named after a Job Title or an Employee.	Y
Effective Date	This is the date the plan begins (e.g. Today's date).	N
Close Date	This is when the plan can close	N
Description	This allows you to enter in further information as to why this plan was created.	N
Plan Type	You can create a plan based on the following: 1. Job Title 2. Employee Name	Y
Show Key Employees / Job Titles Only	Enable this to only show Key Job Titles	N

Succession Plan Weightings

Each Succession Plan has a weighting assigned to each Talent Factor reference item created and configured as part of the initial Scaled References setup.

Note: Talent Field Options that are used in a Succession Plan are required to be set as Mandatory. If they are not populated against an employee, they are not included in the weighting calculation.

Employee Weightings:

The follow image and table outlines the default factors that are taken into consideration here.

The screenshot shows the 'Create Succession Plan' form in the 'Talent Dashboard'. The 'Weighting' section is highlighted with a red box, showing the following default percentages:

Talent Factor	Weighting
Performance Level	22 %
Appraisal Score	14 %
Promotion Level	14 %
Potential	22 %
Readiness	14 %
Impact of Loss	14 %
Total	100%

Item	Description
Performance Level	This information can be created to appear on the Talent Factors section on a Review form. It shows the level to which the employee is performing at currently.
Potential	This information can be used to track an employee's development and potential to develop further in their current role.

Item	Description
Readiness	This information is related to how ready the employee may be to move into a specific talent pool within the organisation.
Impact of Loss	This information refers to the impact of the employee's departure has on the business or department
Promotability	This information can be used to give an employee a score to measure how eligible for a promotion that they may be in terms of performance levels.
Appraisal / Review Score	This is the Star rating that is inputted on the final rating step of an appraisal by the employee's manager

 **Note:** For the Final Rating on an Appraisal to be included in the weighting score, the Final Rating must have been created using the *Star Rating Type*.

Job Title Weightings:

There are also additional items that can impact the score of a Succession Plan if it is created as a Job Title plan. These are outlined on the following table.

Item	Description
Skills	This allows you to add job skills from the People Management reference items to a job title.
Languages	This allows you to add languages from the People Management reference items to a job title.
Qualifications	This allows you to add qualification records to this job title for employees that they can reach.
Training Courses	This allows you to add existing training courses to a job title that can be completed by all employees with this job title.

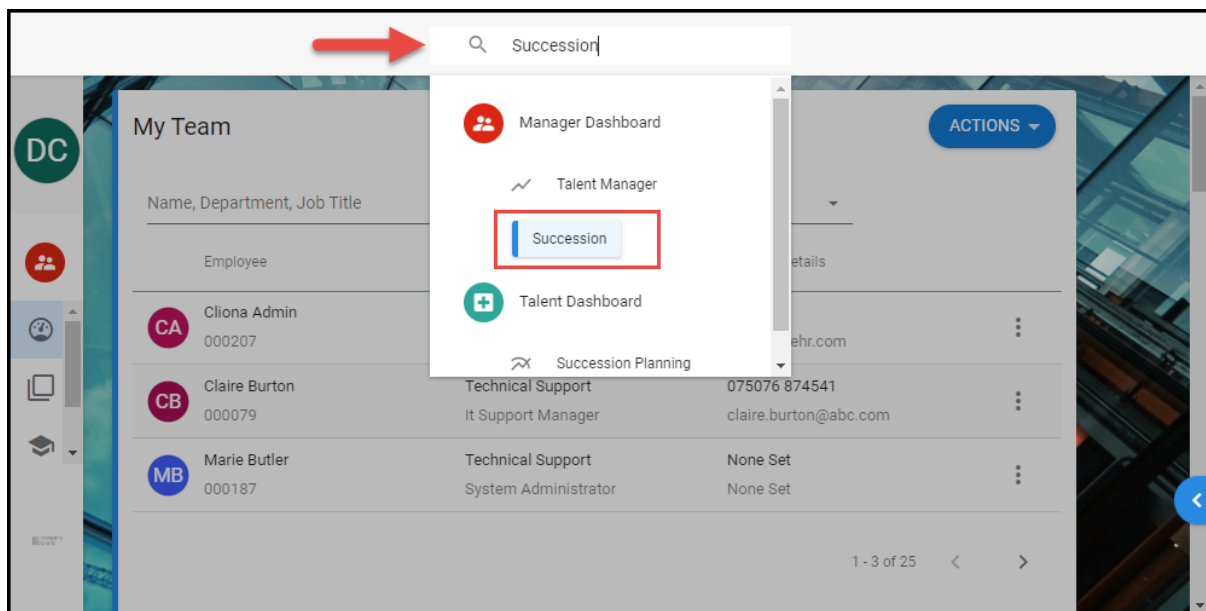

XD Talent Management: Succession Plans - User Guide

The succession plan weightings are calculated by the weighing % assigned to them when the succession plan is created. Weighting Calculation = Weighting / 100 * employee rating %.

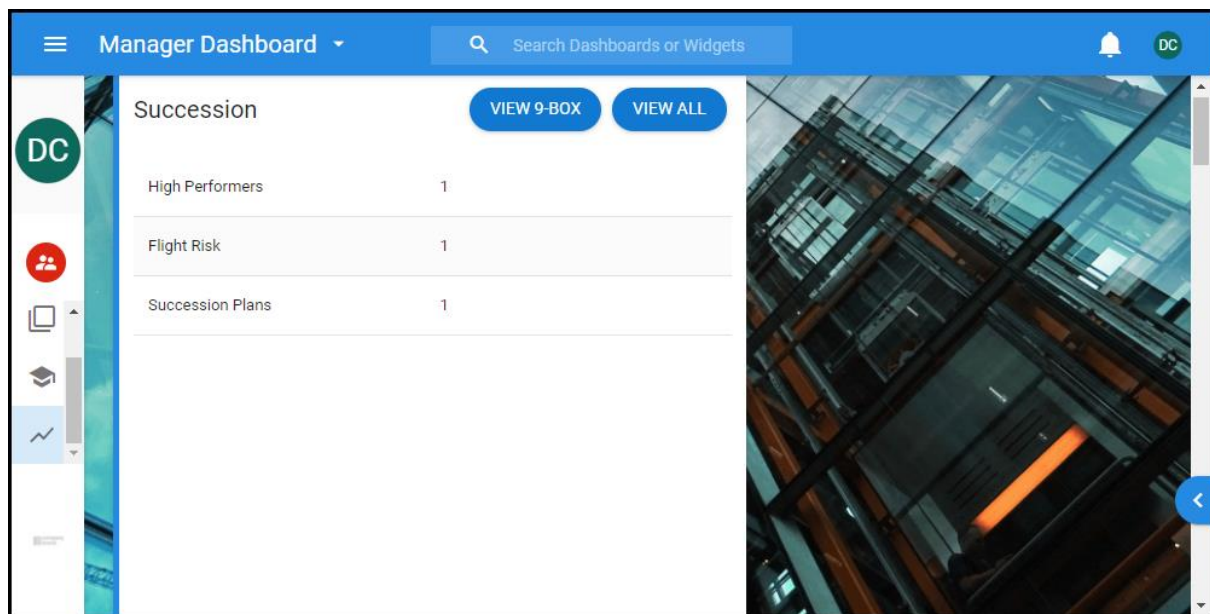

Weighting Item	Default Weighting	Max Value	Rating	Employee Rating Value	Employee Rating %
Performance	14	5		5	100%
Appraisal Score	9	5		4	80%
Promotion	9	3		3	100%
Potential	14	3		3	100%
Readiness	9	3		3	100%
Impact of Loss	9	3		1	33.33%

To view an employee's Succession Plan score, which applies to the Generate Recommendations function on the Bench Analysis screen, follow the below steps.

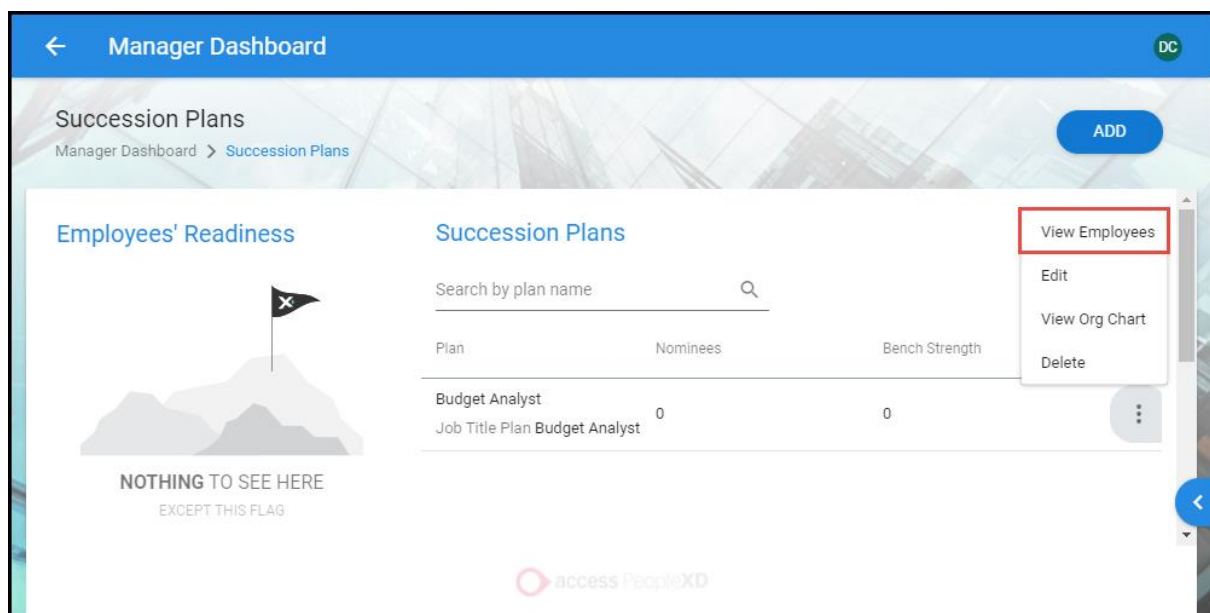

1. Quick Jump to the *Succession* widget.

2. The *Succession* widget opens on screen.
3. Click on the **View All** button.

4. Click on the **View Employees** button against the Succession Plan to be edited.

5. On the *Bench Analysis* tab, click on **Actions** button, then click on **Generate Recommendations**.

The screenshot shows the 'Succession Plans' interface for the 'Budget Analyst' role. The breadcrumb trail is 'Manager Dashboard > Succession Plans > Budget Analyst'. The 'ACTIONS' dropdown menu is open, highlighting 'Generate Recommendations'. The main content area shows 'Bench Analysis' and 'Succession Pool' tabs. Below the tabs, there are statistics: 'Role Non-Key role', 'People in Role 63', 'Open Vacancies 1', and 'Salary Range 0 - 65,000'. A search bar labeled 'Search Employee' is present. Below the search bar is a table with columns: Name, Performance, Potential, Readiness, Flight Risk, and Length of Service. The table is currently empty, displaying 'NOTHING TO SEE HERE' and '0 rows selected. Select All'. The 'access PeopleXD' logo is at the bottom.

6. All employees that have a score against their record appear here.

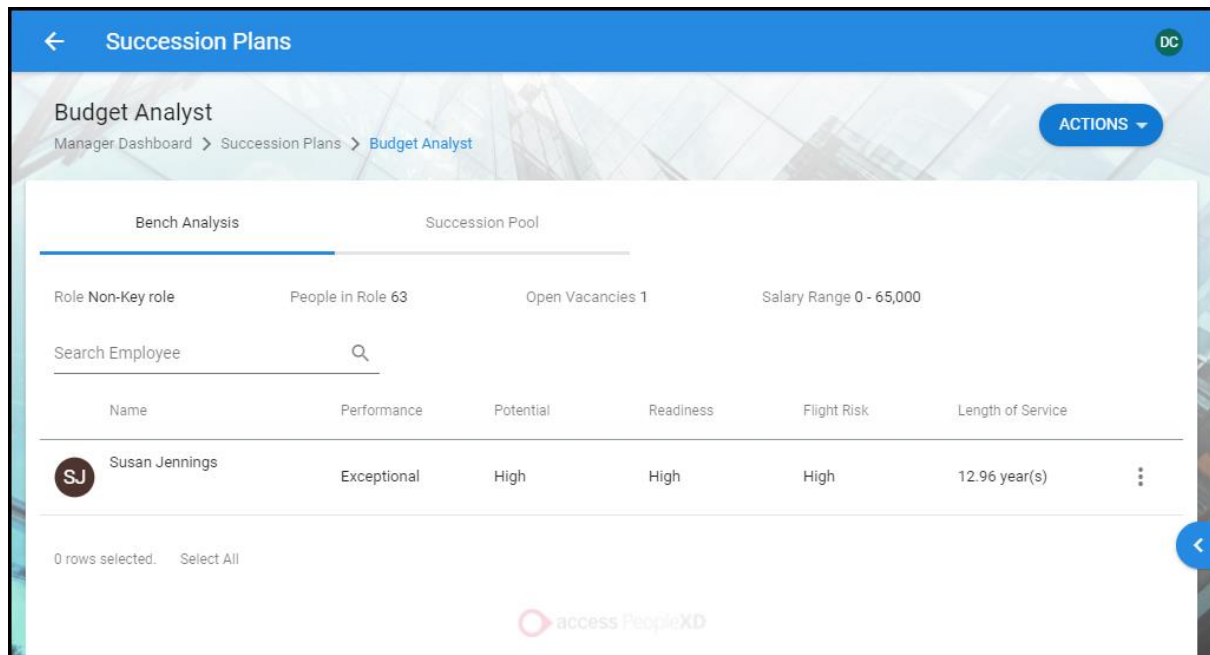

The screenshot shows the 'Budget Analyst' interface for the 'Recommend Employees' section. The breadcrumb trail is 'Manager Dashboard > Succession Plans > Budget Analyst > Recommend Employees'. The 'Available Employees' section has a search bar and a table with columns: Name, Overall Score, Performance, Potential, and Readiness. The table lists two employees: Susan Jennings (Senior Accountant, Accounts) with an Overall Score of 58, Performance of Exceptional, Potential of High, and Readiness of High; and Brian Clifford. The 'Assign to Talent Pool' section is also visible, with a search bar and a table with columns: Name, Overall Score, Performance, Potential, and Readiness. The 'ADD' button is at the bottom right.

This is a close-up of the 'Available Employees' table. It shows the following data:

Name	Overall Score	Performance	Potential	Readiness
Susan Jennings Senior Accountant Accounts	58	Exceptional	High	High

3.3.2. Bench Analysis

The following image and table outlines what is shown on the Bench Analysis tab.

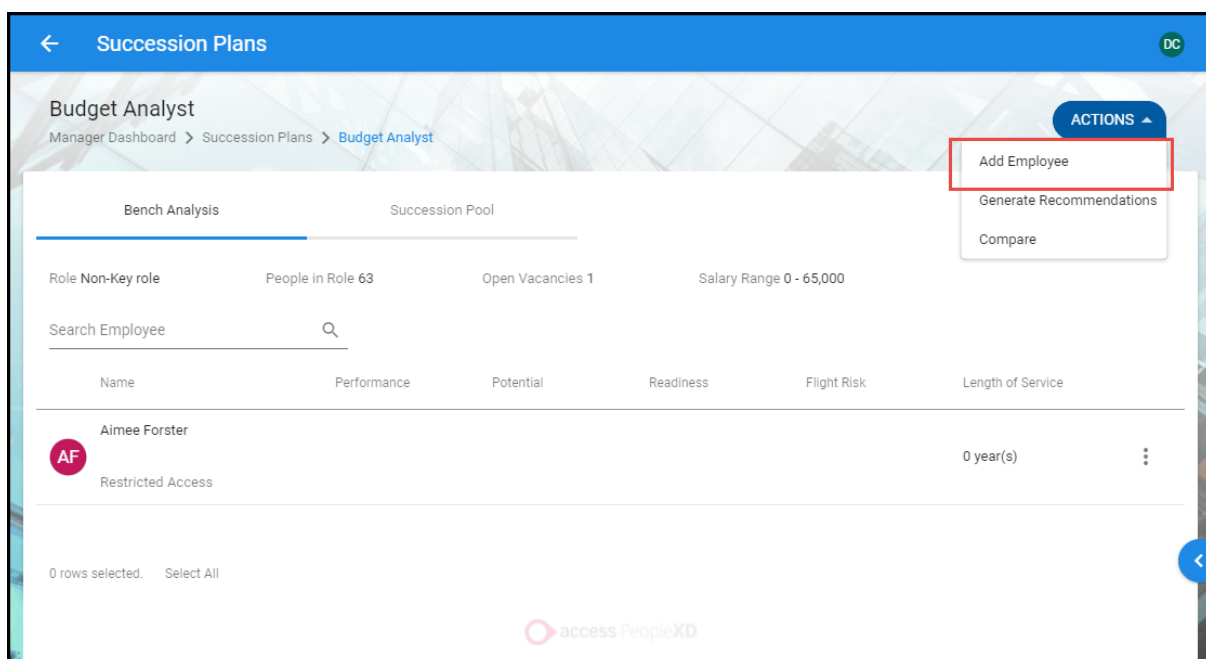

Item	Description
Role	This is linked to the Job Description Builder within the Talent Setup screen. It shows if a Job Title is a Key Position or not.
People in Role	This shows the number of employees within this Job Title.
Open Vacancies	This returns the number of open vacancies for this job title on the XD Recruitment platform.
Salary Range	- This takes all employee's current salary value that have been placed on the bench or succession pool and calculates the minimum & maximum salary values to determine the Salary Range. - There needs to be more than 1 person on the bench for salary range to show up, otherwise the person's salary is shown.
Search	This allows you to search for an employee already assigned to the bench.
Name	This shows the Forename & Surname of the employee.
Performance	This shows the employees performance rating as assigned in Talent Factors.
Potential	This shows the employees potential rating as assigned in Talent Factors.
Readiness	This shows the employees readiness rating as assigned in Talent Factors.

Item	Description
Flight Risk	This shows the employees flight risk rating as assigned in Talent Factors.
Length of Service	This shows an employee's Length of Service.

Manually Add Employees

To add an employee to the bench analysis screen, follow the below steps.

1. Click on the **Actions** button.
2. Click on the **Add Employees** button.

3. A list of employees appear on the left-hand-side of the screen that are available to add to the Succession Plan.

4. Use the   to assign an employee to a succession plan.

2. Click on the **Actions** button.
3. Click on the **Compare** button.

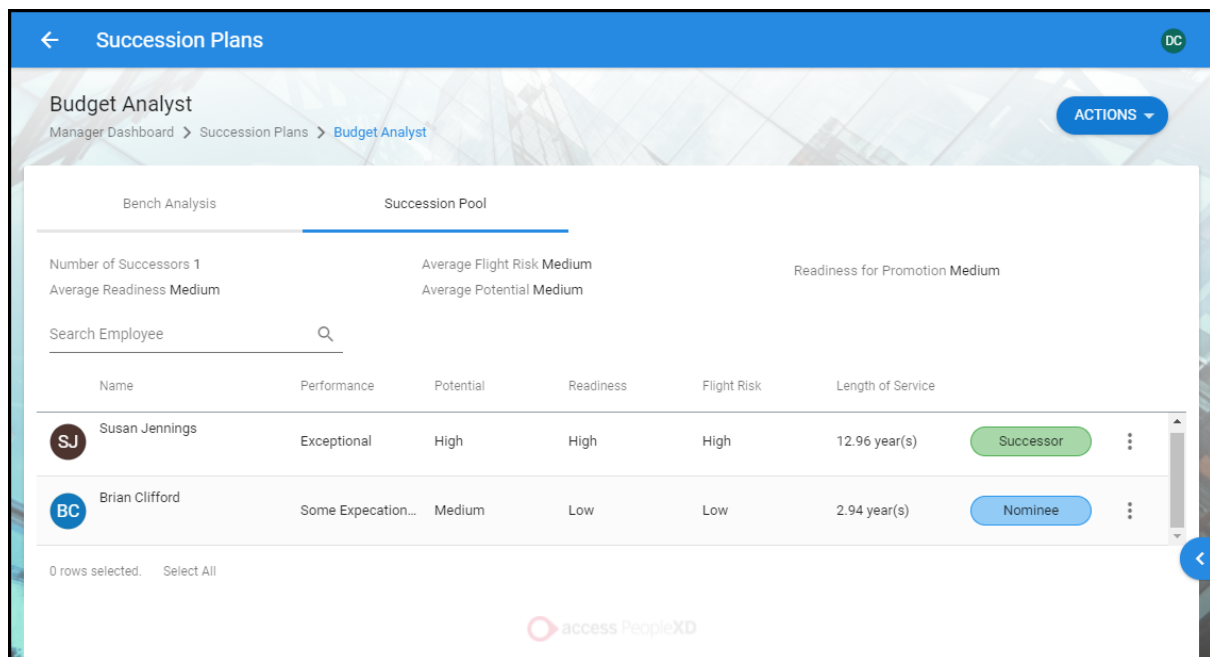

4. The *Compare Employees* screen opens.

5. This allows you to easily compare the different scores from each employee's Talent Factor details.

3.3.3. Succession Pool

The following image and table shows the information that is found on the Succession Pool tab.

Item	Description
Number of Successors	This shows the number of successors flagged for this role.
Average Flight Risk	This shows the average flight risk rating of all employees in the succession pool.
Readiness for Promotion	This shows the average promotability rating of all employees in the succession pool.
Average Readiness	This shows the average readiness rating of all employees in the succession pool.
Average Potential	This shows the average pot rating of all employees in the succession pool.
Search	This allows you to search for an employee already assigned to the bench.
Name	This shows the Forename & Surname of the employee.
Performance	This shows the employees performance rating as assigned in Talent Factors
Potential	This shows the employees potential rating as assigned in Talent Factors
Readiness	This shows the employees readiness rating as assigned in Talent Factors

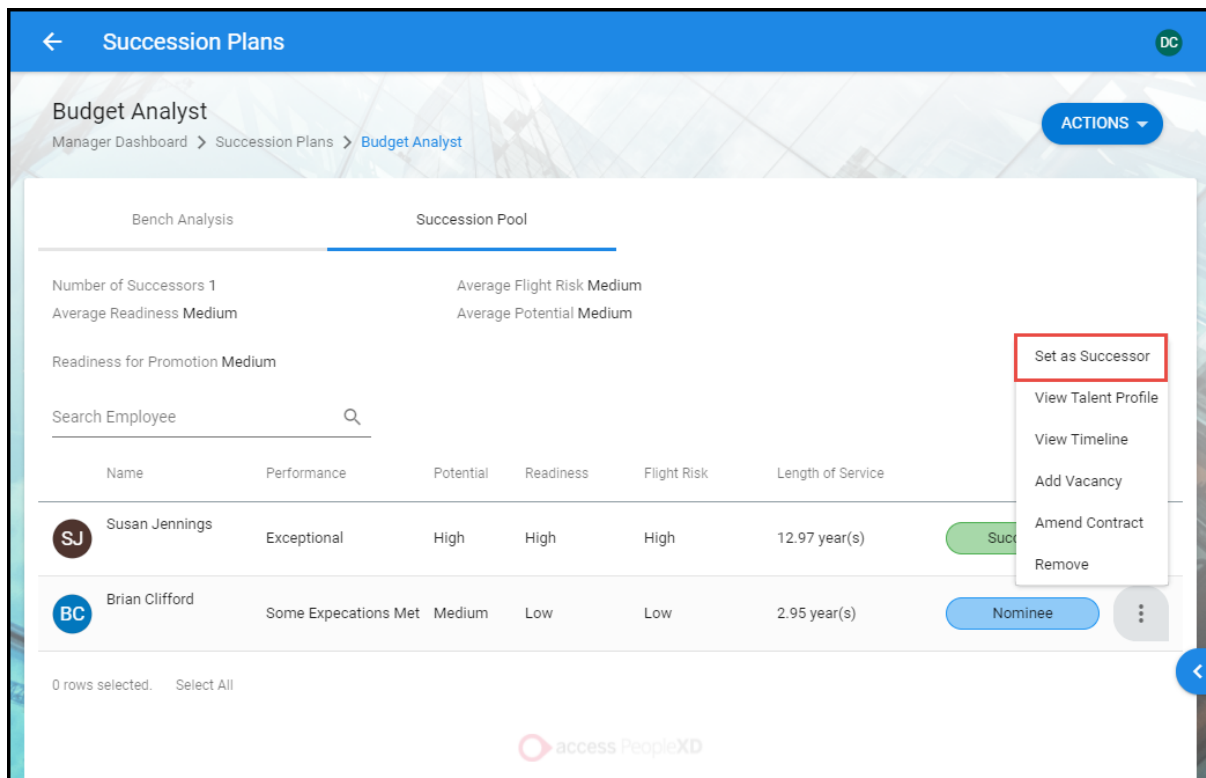

Item	Description
Flight Risk	This shows the employees flight risk rating as assigned in Talent Factors
Length of Service	This shows an employee's Length of Service.
Decision	This shows as either Successor or Nominee

Set as Successor

In order for your organisation to be successful over a long period of time, a succession plan is needed to measure talented employees. As they leave, it is important to understand who is considered as a successor to these employees. Setting an employee as a successor, allows you to know who to promote when the time is right.

To set an employee as a successor, follow the below steps:

1. From either the Bench Analysis screen or the Succession Pool screen, click on the  button against an employee.
2. Click on the **Set as Successor** button.

The screenshot shows the 'Succession Plans' interface with the 'Succession Pool' tab selected. The interface displays a table of employees with columns: Name, Performance, Potential, Readiness, Flight Risk, and Length of Service. Two employees are listed: Susan Jennings and Brian Clifford. A dropdown menu is open for the 'Set as Successor' button, showing options: Set as Successor, View Talent Profile, View Timeline, Add Vacancy, Amend Contract, and Remove. The 'Set as Successor' option is highlighted with a red box.

Name	Performance	Potential	Readiness	Flight Risk	Length of Service
SJ Susan Jennings	Exceptional	High	High	High	12.97 year(s)
BC Brian Clifford	Some Expectations Met	Medium	Low	Low	2.95 year(s)

3.3.4. Employee Options

The following options are available to view on the succession plan screens for each employee.

View Talent Profile

This allows you to view the employees talent profile and update the details if needed.

The screenshot shows the 'Employee Talent Profile (Susan Jennings)' interface. The top navigation bar is blue with a back arrow and the title 'Budget Analyst'. Below the title, there's a breadcrumb trail: 'Manager Dashboard > Succession Plans > Budget Analyst > Employee Talent Profile (Susan Jennings)'. On the right, there are two buttons: 'TALENT FACTORS' and 'PRINT PREVIEW'. The main content area has a left sidebar with a list of options: 'Talent Summary' (selected), 'Performance History', 'Career Preferences', 'Career Options', 'Development Plan', and 'Qualifications'. The main content area displays the 'Talent Summary' for Susan Jennings. It includes a profile card with her name, job title, appointment ID, and location. Below this is a table with columns: 'Appraisal Name', 'Manager Name', 'Current Stage (Status)', and 'Due Date'. The table shows one appraisal: 'Performance Excellence Cy...' by 'John Wallis' in the 'Initial Review Stage(Overdue)' with a due date of '31-Dec-2020' and a 'VIEW' link. Below the table, there's a progress bar for 'Recognition' and 'Performance' stages. The 'Recognition' stage shows '0 badge(s) received' and 'Level: Newbie'. The 'Performance' stage shows '0 / 9' and a 'VIEW' link. The bottom of the screen has a logo for 'access PeopleXD'.

Appraisal Name	Manager Name	Current Stage (Status)	Due Date
Performance Excellence Cy...	John Wallis	Initial Review Stage(Overdue)	31-Dec-2020 VIEW

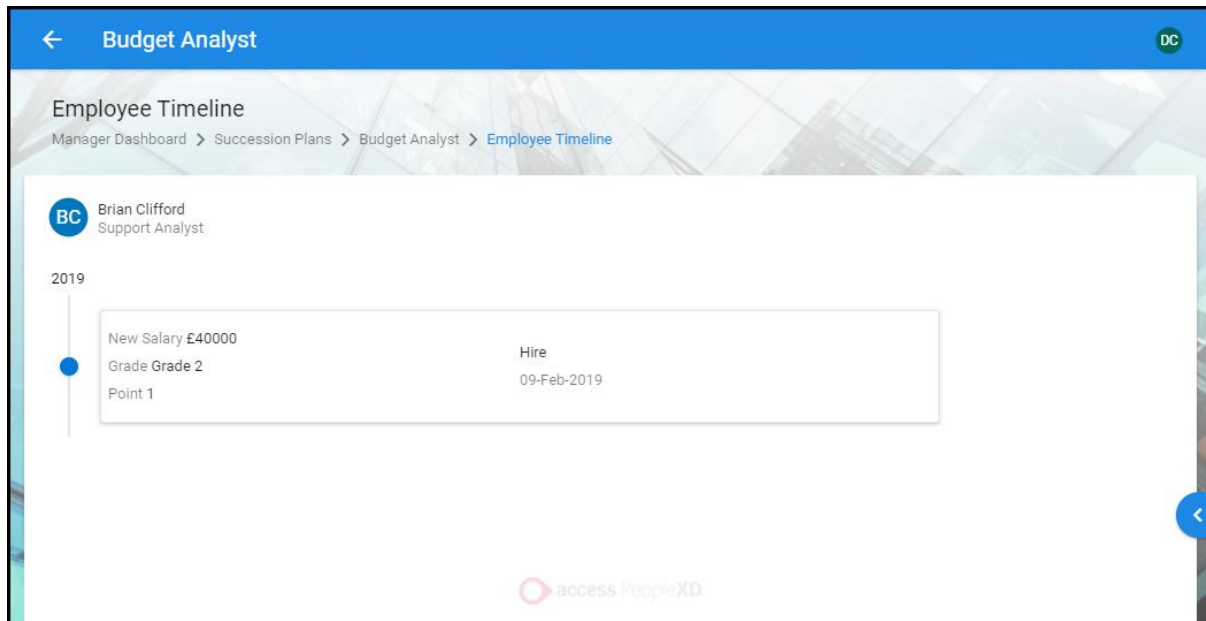

Recognition	Performance	Objectives
0 badge(s) received Level: Newbie	0 / 9	VIEW

Amend Employee's Contract

This opens the Employee's Dashboard for you to amend, depending on your access.

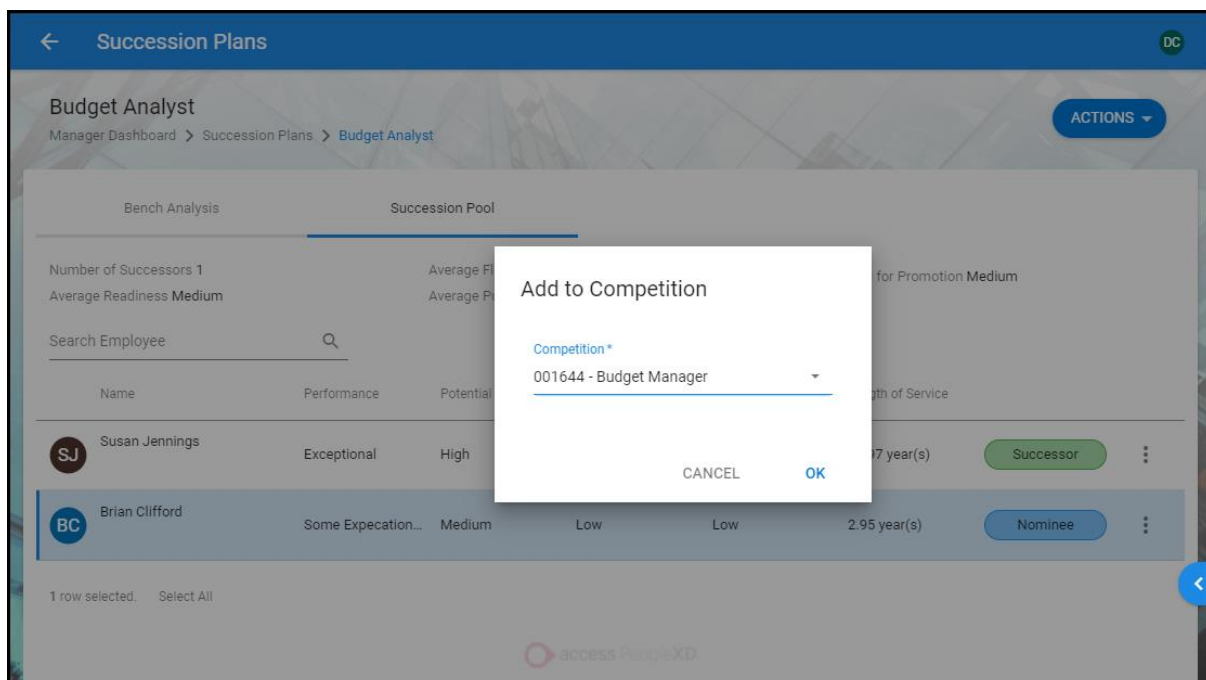

View Salary Timeline

This allows you to view an employees base salary and any additional payroll information that have been assigned to them

Add Employee to a Vacancy

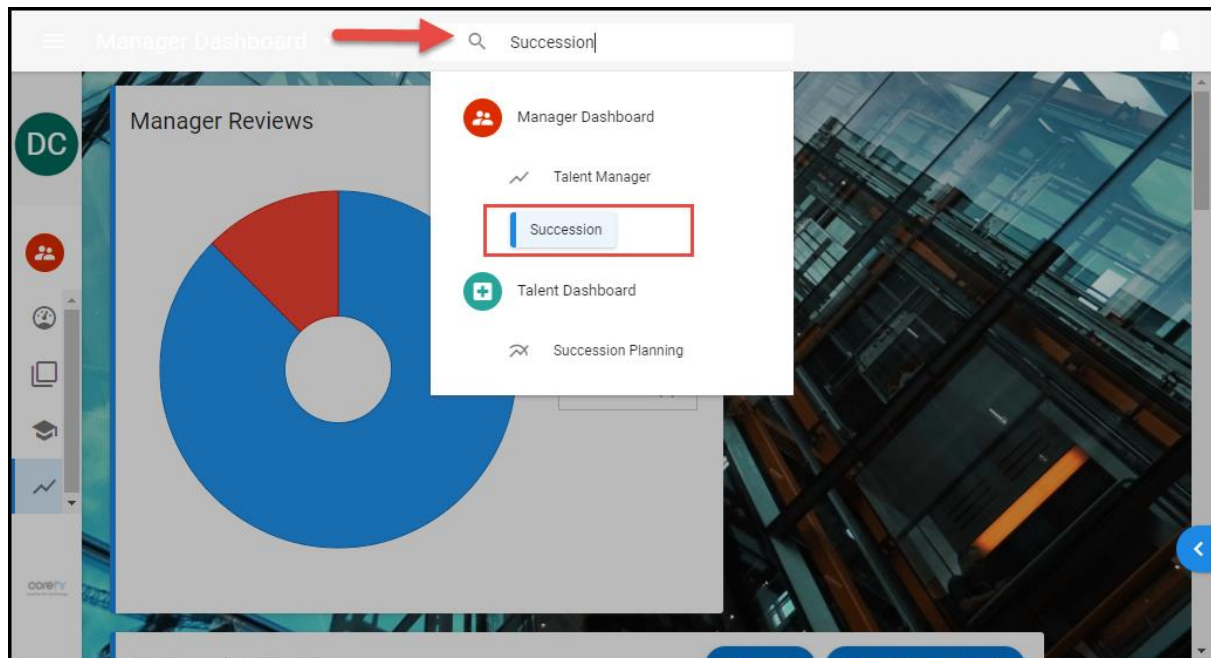

This allows you to manually add an employee to an open vacancy as a new applicant.

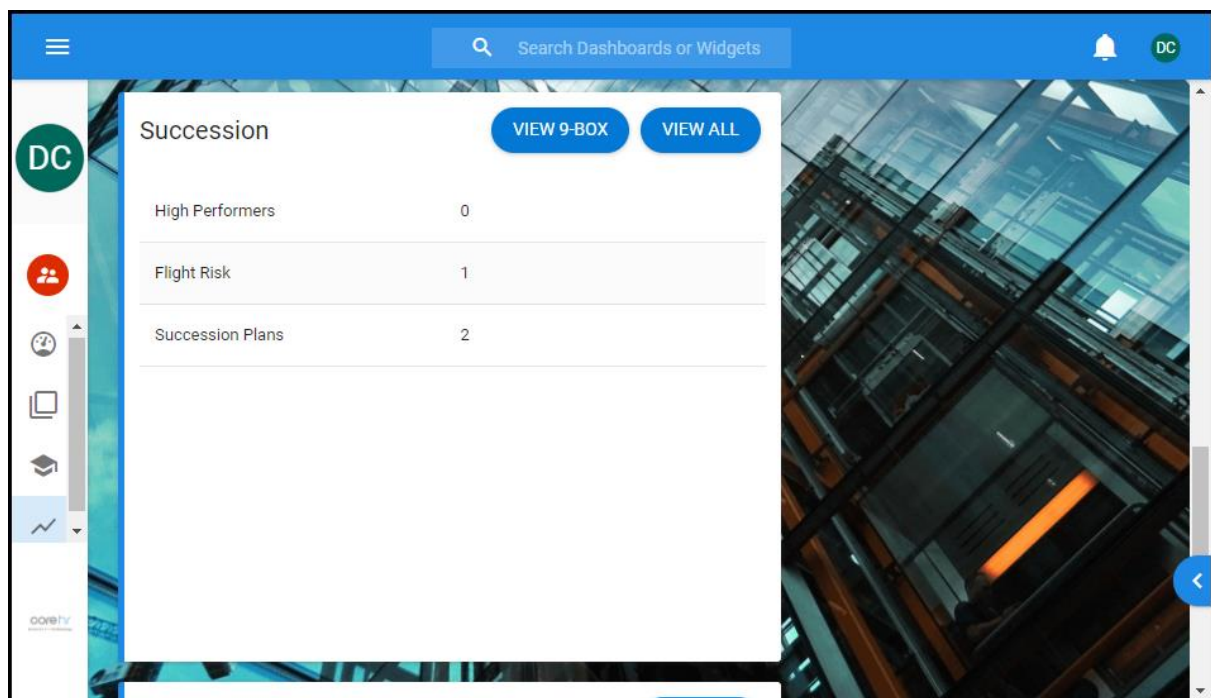

3.4. Manager Succession Plan widget

To access the Succession Plan widget on the Manager Dashboard, follow the steps below.

1. Quick jump to the *Succession* widget on the *Manager Dashboard*

2. The Succession widget appears on screen.

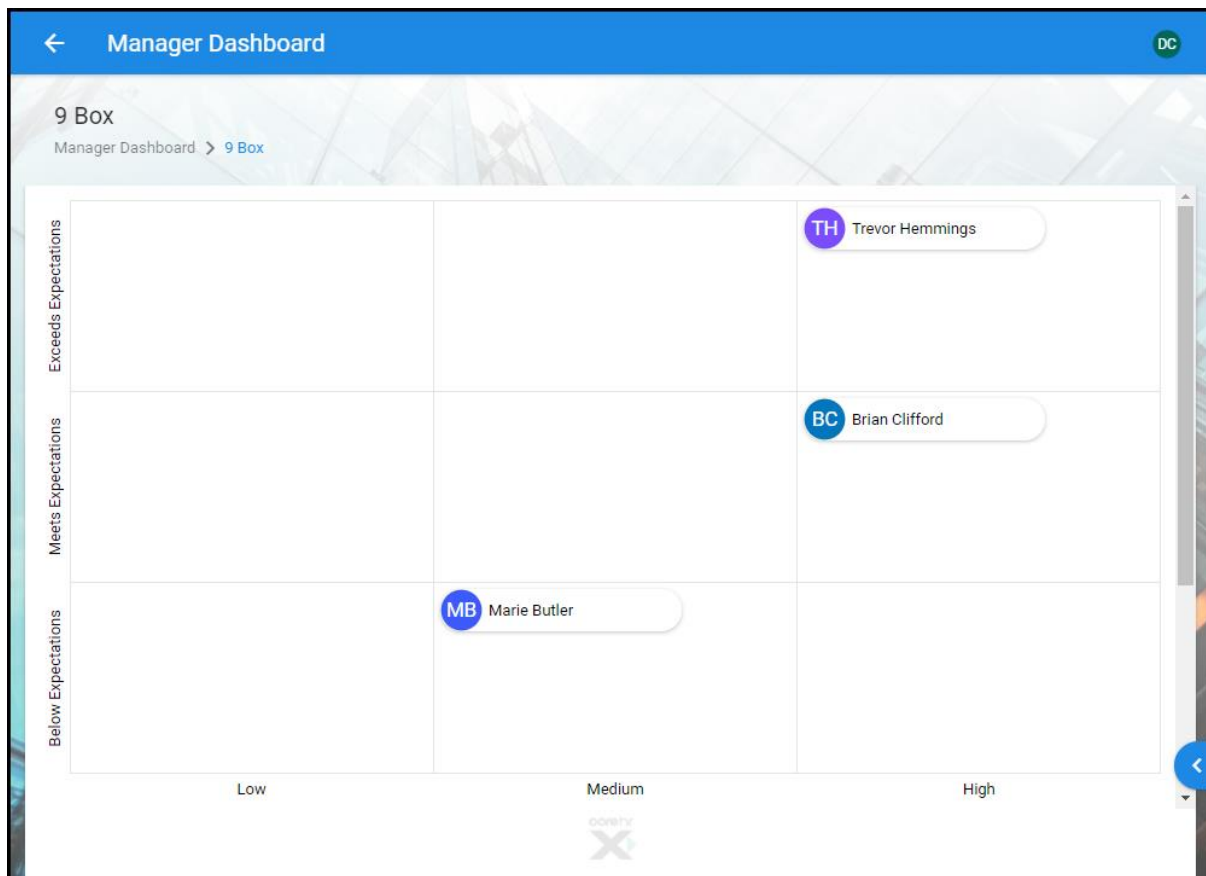

3. The following table explains what this widget includes

Item	Description
9-Box	This opens the 9-box grid for your team.
View All	This opens the Succession Plan admin screen.
High Performers	This is the number of employees in your team that are High Performers.
Flight Risk	This is the number of employees in your team that are Flight Risk
Succession Plans	This is the number of Succession Plans that you have access to.

3.4.1. 9-box

This returns all employees on your team that have Talent Factor information on their Talent Profile.

3.4.2. View All

For further details, go to the [Succession Planning Admin](#) and [Managing and Creating Succession Plans](#) sections.

3.5. My Team widget

Within the My Team widget on the Manager Dashboard, a manager can create an employee succession plan by clicking the **Nominate Successors** button. This opens the Create Succession Plan screen directly for the employee in question.
