1. Overview

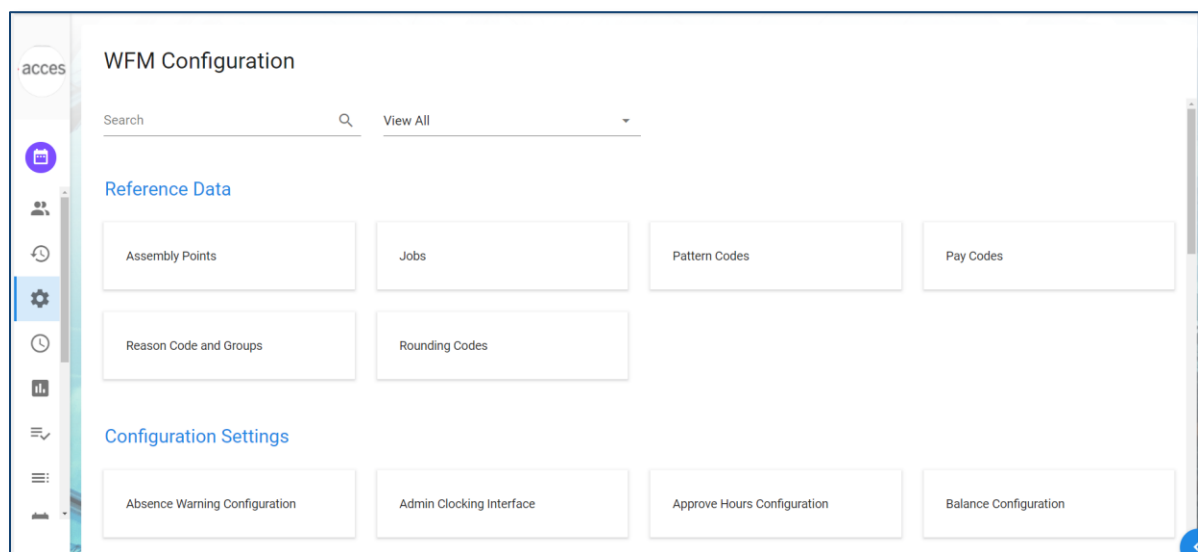

1.1. Purpose of the Guide

This document outlines how to access and manage the Assembly Points screen. The screen enables Administrators to create and manage company emergency assembly points. These designated safe areas can then be assigned to employees.

1.2. How to access the Assembly Points Screen

The Assembly Points Screen is menu security driven, see section [3 Menu Options](#) for further guidance, and once enabled the screen can be found in WFM Configuration.

1. Go to the *WFM Admin Dashboard* and click **WFM Configuration**.
2. Search for and select the **Assembly Points** tile.

2. The Assembly Points Screen

Once you have accessed the Assembly Points screen, you will see the following:

Assembly Point Code	Assembly Point Description	Label	Active
ZONE1	Evacuation Point 1	Main Car Park	☒
ZONE2	Evacuation Point 2	South Exit	☒
ZONE3	Evacuation Point 3	East Exit	☒
ZONE4	Evacuation Point 4	Visitors and Contractors	☒

The *Assembly Points* screen can be filtered using the following options:

Option	Details
Search	You can search by code, description or label should you wish to manage a specific assembly point.
Filter	The filter button allows you to refine your search to filter by: • Active Assembly Points • Inactive Assembly Points

The *Assembly Points* screen contains the following fields:

Option	Details
Assembly Point Code	This displays the code given to the assembly point. This can be alphanumeric with a max character length of 6.
Assembly Point Description	This displays the description given to the assembly point for example Evacuation Zone1. This is the detail that will display on the employee record. This can be alphanumeric with a max character length of 40.
Label	This displays the additional information you have added about the assembly point for example, this Located at Car Park 1. This can be alphanumeric with a max character length of 40.

Option	Details
Active	This displays the status of the assembly point. For example active or inactive.  Note: Only Active Assembly Points will be available to select for employee assignment.

2.1. Add an Assembly Point

To add an assembly point, follow the steps below:

1. From the Assembly Points screen, click **Add**.
2. Enter a relevant **Code** and **Description** for the assembly point.
3. Add additional information in the label, if required.
4. Click **OK**.

Add Assembly Point

Assembly Point Code *
ZONE5

Assembly Point Description *
Evacuation Point 5

Active

Label
Blue zone in overspill carpark

CANCEL
OK

5. Your assembly point will display.

2.2. Assign an Assembly Point

From the 3-dot menu of an assembly point on the Assembly Point screen you can *View Employees*. This allows you to see the employees assigned to that assembly point.

Name	Personnel No	Appointment ID	Job Title	Work Group	Department
 Barry Hoare	7203000020	720311-3	Product Team Lead 7203	Work Group 5 7203	Product 7203
 Ben Cunningham	7203000028	720313-40	Product Manager	Work Group 1 7203	Development 7203
 Brian StJohn	7203000055	720313-45	Product Manager	Work Group 1 7203	Development 7203
 Brian StJohn	7203000055	720310-6	Development Team Lead 7203	Work Group 2 7203	Development 7203
 Colm Foley	7203000048	720313-33	Product Manager	Work Group 2 7203	Development 7203

To assign an assembly point, follow the steps below:

1. From the *WFM Admin Dashboard* select **Person Maintenance**.
2. Search for the employee you wish to assign an assembly point.
3. Expand the 3-dot menu and select **View**.
4. Scroll to the *Emergency Details* tab.
5. Select the Assembly Point from the dropdown options.
6. Click **Save**.

3. Menu Options

To enable Assembly Points the following menu options needs to be enabled on the relevant Admin profile.

To do this:

1. Go to *Security* and select **Menu Profiles**.
2. Search for the relevant menu profile e.g., Coreportal_Admin
3. Select **Manage Menu Options**.
4. Search for the **below menu options**.
5. Turn on the **Active** toggle.
6. The user will now have access to the Assembly Points tab and configuration screen.

Menu Option	Menu ID	System
Assembly	CONFIG_SET_MENU.ASSEMBLY_POINTS	CorePortal
