1.4	21/10/2025	Georga Edwards	Added a Note to section 2.1.1 To Recalculate a Balance

1. Overview

1.1. Purpose of the Guide

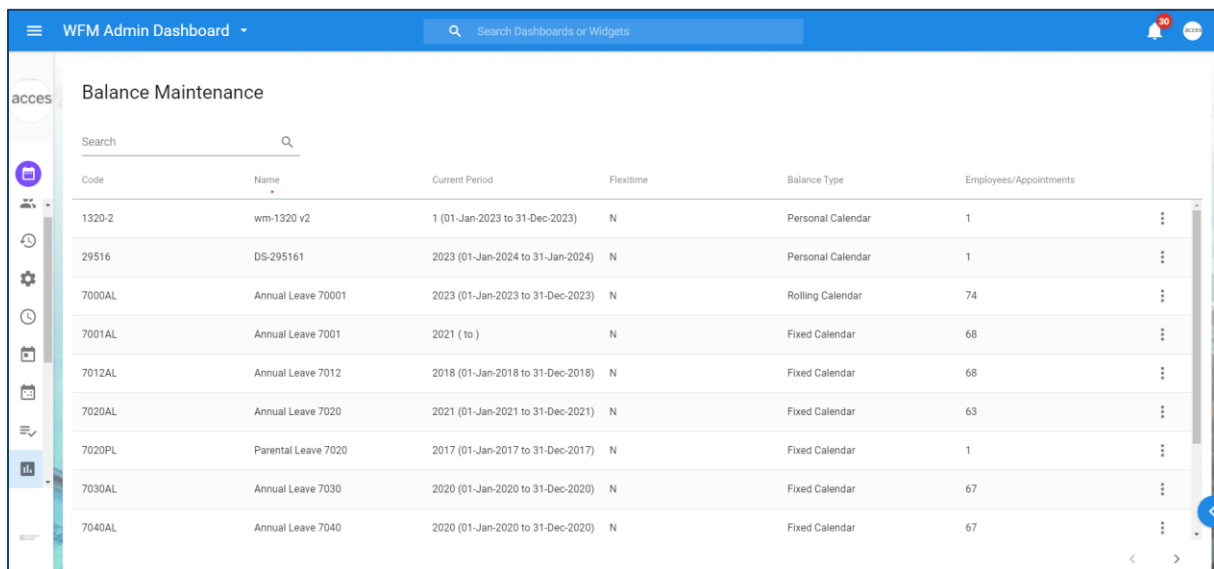

The purpose of this guide is to explain the Balance Maintenance screens. The *Balance Maintenance Screen* allows Administrators to complete daily balances tasks. This guide covers the following:

- Balance Recalculation
- Balance Activation
- Balance Period End
- Carried Forward Entitlement

1.2. Accessing the Balance Maintenance Screen

To access the Balance Maintenance Screen:

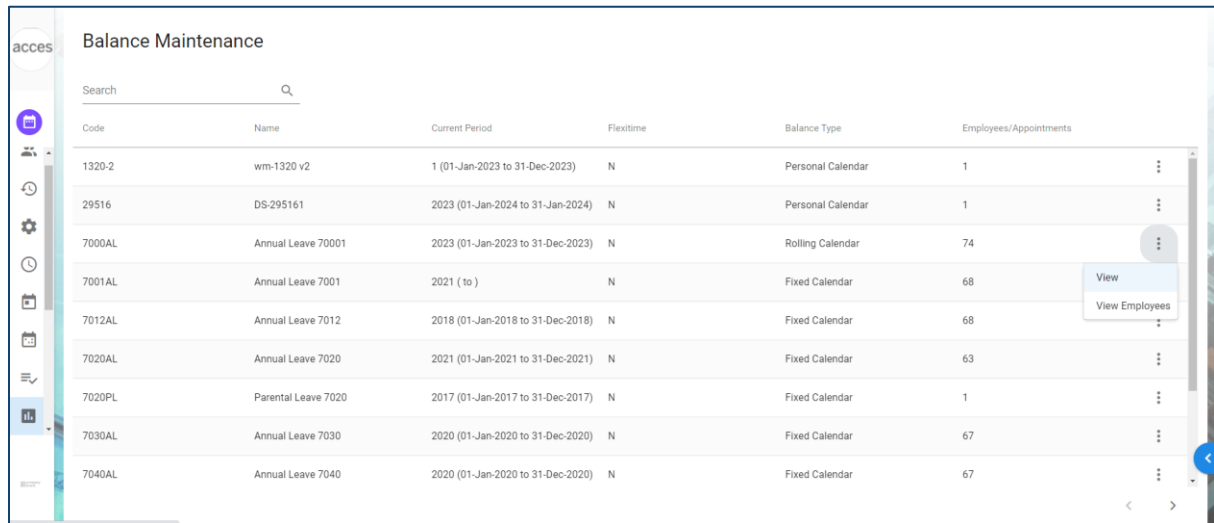

1. From the *WFM Admin Dashboard*.
2. Select **Balance Maintenance**.
3. The screen displays.

Code	Name	Current Period	Flexitime	Balance Type	Employees/Appointments
1320-2	wm-1320 v2	1 (01-Jan-2023 to 31-Dec-2023)	N	Personal Calendar	1
29516	DS-295161	2023 (01-Jan-2024 to 31-Jan-2024)	N	Personal Calendar	1
7000AL	Annual Leave 70001	2023 (01-Jan-2023 to 31-Dec-2023)	N	Rolling Calendar	74
7001AL	Annual Leave 7001	2021 (to)	N	Fixed Calendar	68
7012AL	Annual Leave 7012	2018 (01-Jan-2018 to 31-Dec-2018)	N	Fixed Calendar	68
7020AL	Annual Leave 7020	2021 (01-Jan-2021 to 31-Dec-2021)	N	Fixed Calendar	63
7020PL	Parental Leave 7020	2017 (01-Jan-2017 to 31-Dec-2017)	N	Fixed Calendar	1
7030AL	Annual Leave 7030	2020 (01-Jan-2020 to 31-Dec-2020)	N	Fixed Calendar	67
7040AL	Annual Leave 7040	2020 (01-Jan-2020 to 31-Dec-2020)	N	Fixed Calendar	67

2. The Balance Maintenance Screen

Once accessed the Balance Maintenance screen displays all balances in the system.

Code	Name	Current Period	Flexitime	Balance Type	Employees/Appointments
1320-2	wm-1320 v2	1 (01-Jan-2023 to 31-Dec-2023)	N	Personal Calendar	1
29516	DS-295161	2023 (01-Jan-2024 to 31-Jan-2024)	N	Personal Calendar	1
7000AL	Annual Leave 70001	2023 (01-Jan-2023 to 31-Dec-2023)	N	Rolling Calendar	74
7001AL	Annual Leave 7001	2021 (to)	N	Fixed Calendar	68
7012AL	Annual Leave 7012	2018 (01-Jan-2018 to 31-Dec-2018)	N	Fixed Calendar	68
7020AL	Annual Leave 7020	2021 (01-Jan-2021 to 31-Dec-2021)	N	Fixed Calendar	63
7020PL	Parental Leave 7020	2017 (01-Jan-2017 to 31-Dec-2017)	N	Fixed Calendar	1
7030AL	Annual Leave 7030	2020 (01-Jan-2020 to 31-Dec-2020)	N	Fixed Calendar	67
7040AL	Annual Leave 7040	2020 (01-Jan-2020 to 31-Dec-2020)	N	Fixed Calendar	67

The **Balance Maintenance** screen contains the following fields:

Option	Details
Code	This is the unique code associated with balance. Balances are displayed in Numerical & Alphabetical order.
Name	This displays the name describing the balance, this name is display to all users of the system e.g. Annual Leave.
Current Period	This displays the current period of the Balance.
Flexitime	This indicates whether the balance is flexitime.
Balance Type	This displays the type of Balance and whether the balance is based on a Fixed, Rolling or Personal calendar.
Active Emp./Appt.	This displays the total number of Active people assigned to the balance. To view a full list of active/inactive employees assigned, select View Employees from the 3-dot menu of the relevant balance.
Inactive Emp./Appt.	This displays the total number of Inactive people assigned to the balance. To view a full list of active/inactive employees assigned, select View Employees from the 3-dot menu of the relevant balance.

From the Balance Maintenance screen, select **View** from the 3-dot menu of the relevant balance, to access the *Balance Recalculation*, *Balance Activation*, *Balance Period End and Carried Forward Entitlements* screens.

These screens can be run in the following modes:

- HRA Access
- System User Access
- Team Area Access

2.1. Balance Recalculation

From the *Balance Recalculation* screen you can recalculate a balance for an employee or a group of employees. Access is based on the following options in the table below:

Access	Details
Structure Code Access	User can select an individual employee. If they leave it blank, it runs for all the employees which the user has access to.
System Users	Users run by Work Group, Dept or Individual employee based on their access.
Team Area	Users can run for a selected team area or for an individual employee based on Team Area Access.

There is an indicator on the screen which will show the percentage completion.

ERRORS

2.1.1. To Recalculate a Balance

To recalculate a balance follow the steps below:

1. **From Period** – using the drop-down options available select the period you wish to recalculate. The list is dependent on the calendar periods configured for the balance.
 - If the access is by Team Area, select the **Team Area dropdown**. You can restrict who you wish to recalculate by choosing by Work Group, Dept etc.
 - If the access is by System User and you wish to recalculate an individual employee, select from the **Person** drop down menu.
2. Select whether the balance is to be recalculated based on **Balance Values, Booked Values** or **Both**.
3. Click **Recalculate**.
4. A warn message displays, click **Yes** to continue.
5. The button status changes to **Recalculating** and displays as **In Progress**.

Work Group
Department

Note: When recalculating a New Year Leave Entitlement balance the *Calculate from Period* will default to the current period. All future balances, anything after the current period, will not be available to select on both the person level and balance level recalculation screen.

See our [New Year Leave Entitlement](#) guide for further details.

2.1.2. Errors Button

Errors found while recalculating the balance will be displayed. These will need to be actioned before the balance can be recalculated. You can check these on the *Errors Screen*.

To do this:

1. Click the **Errors** button.
2. All errors will be listed on the screen.

2.2. Balance Activation

Balances are activated based on what is selected in the Admin Dashboard Access. The access is detailed in the following table:

Access	Details
Structure	User can select an individual employee. If left blank the user has access based on their HR Access.
Code Access	
System Users	Users can run by Work Group, Department or Individual Employees based on their access to Work Group/ Dept combinations in System Users.
Team Area	Users will have the ability to run for a selected Team Area or for an individual employee based on the user Team Area Access.

Note: Balances can be assigned using the existing screens in People Management. If you wish to group assign, you can do so in Balance Activation.

CLEAR SAVE

2.2.1. To Activate a Balance

To activate a balance, complete the following steps:

1. Select the **From Period** to be activated
2. Select the **Balance Type**. Options available are Days, Hours and Occurrences.
3. Choose a **Balance Segment**. Options available are: Full, Half, Quarter or None.
4. Under **Personnel Criteria**:
 - If the access is by Team Area, select the **Team Area dropdown**. You can restrict who you wish to recalculate by choosing by Work Group, Dept etc.
 - If the access is by System User and you wish to recalculate an individual employee, select from the **Person** drop down menu.
 - Where operating in an appointment driven environment, an appointment selection is available for the person selected. **Two additional choices** are available:

Selections	Details
Select All Appointment (Excluding Ended)	Where an employee has one or multiple appointments (contracts), the select all toggle will activate the balance for all the

Selections	Details
	appointments assigned to the employee where the appointments status is: • Commenced • Confirmed Future • Pending
Appointment	Displays the available appointments for the Employee (including ended appointments). The appointment selection includes the: • Appointment Description & Id • Contract Hours & FTE • Start Date & End Date (where Ended) • Status

 **Note:** To assign a balance for an ended appointment, this can be completed via the Appointment selection.

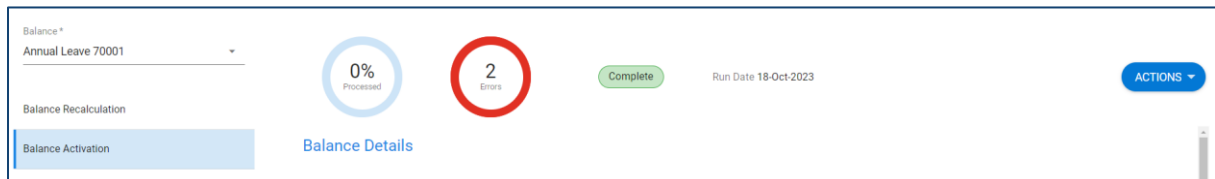

- Under **Starting Values** fill in the amount of days to be carried forward and those that have been taken.
- Under **Entitlement Codes**, choose the Length of Service.
- Click **Save**.
- On activation, you are given a count of the number of employees who will be activated and asked if you wish to proceed.
- When the activation is running, the **Save** button will be updated to **Activating**. The screen is locked once activation is run, the user can leave the screen and come back.
- Once activation is complete the percentage indicator will display as 100% processed and Complete.

 **Note:** Once selected the balance activation will check if the balance has already been assigned to someone in the selected criteria and alert the user.

2.2.2. Actions Button

The **Actions** button gives you access to the following screens:

- **Linked Balances:** Linked Balances can be viewed on this screen. You can see any other balances that are related to those which you have activated.
- **Errors:** Errors relating to a balance activation can be viewed by selecting the Actions option and selecting View Errors. Errors display for the last run for the employees / balance activation only. Errors are cleared once the balance is activated again by the same employee.

2.3. Balance Period End

Since balances are a key element of an employee's HR record, the balance period end must be run as and when dictated by the balance calendar. If the calendar is yearly (e.g. holidays) it must be run once a year. If it is a monthly calendar (e.g. flexitime) it must be run monthly.

Note: The balance period end can only be run after the appropriate system weeks have been closed.

The *Balance Period End* screen allows you to close the balance of the current period. On entry the current periods opening and closing values are displayed.

Hint: Override Threshold changes completed are automatically applied to the next period opening carried forward ☐ Include Inactive Balances **RUN PERIOD END**

The screen can be filtered using the following options:

Option	Details
Search	Use the search feature to search either by Personnel number or Employee name.
Period	The system will default to the current period, you can choose to view other periods, for historical periods the screen displayed shows that periods opening and closing values.
All, Applied or Not Applied	Use the dropdown to select the option required. Thresholds can be applied to period-end carryovers (the maximum amount allowed to be carried over from one period to the next is 5 days) The screen can be filtered to show where the threshold has been applied or not by selecting the associated filter.
Filter	Use the filter button to refine your search. You can filter by: Balance Type – Days, Hours or Occurrences Select Closing Balance to Filter On - Reserved Entitlement, Floating Entitlement, Accrued Entitlement, Carrying-Over, Taken or Balance - Value From and To

Note: Each of the fields show the balances at the **open** and the **close** of the period as shown in the screenshot above.

The **Balance Period End** screen contains the following fields:

Field	Details
Person	Personnel Number.
Name	Name of the Employee.
Balance Type	This will display the balance type e.g., Days.
Reserved	Part of an employee's entitlement that is reserved. When employees are booking leave, they cannot book against the reserved pool.
Floating	The entitlement available to employees to book their leave against.
Accrued	Time which has been built up.
Carrying-over	Time which has been carried forward from the previous period.
Taken	Time taken.
Balance	Balance remaining.
Threshold Impact	This shows the carry-over threshold impact on the closing value. If the allowed carryover threshold is 5 days and the employees had a closing value 8, the threshold impact is then 5 days (the employee loses 3 days).
Threshold Status	Shows if the threshold status was applied to closing values.
Threshold Override	Thresholds can be overridden in certain situations using this toggle.

For more details on Threshold, please refer to [Section 2.3.2](#)

The **Include Inactive Balances** check box should be ticked if you wish to include any currently inactive balance within the period.

2.3.1. To run Period End

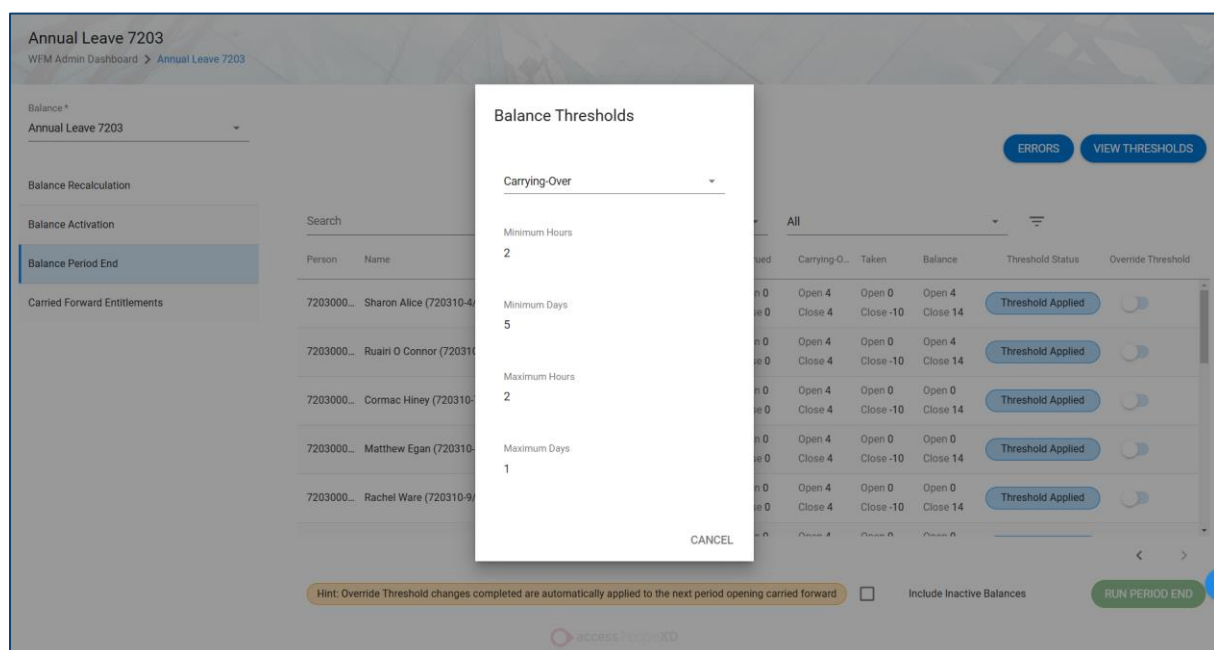

To run Period End you need to complete the following steps:

1. Select the **Run Period End** button.
2. A message displays explaining that this will end the current period.

3. Select **Yes**.
4. The button changes to **Running Period End...**
5. Once the process is finished, you will see **Complete** at the top of the screen.

2.3.2. View Thresholds Button

By selecting **View Thresholds**, you can view the minimum or maximum threshold in days or hours which are allowed to be carried over or as part of period end. Thresholds values are entered in the balance calendar configuration stage to as they may vary from period to period.

Thresholds allow the system to automatically apply a limit to the allowed carry over from one period to the next, e.g. the maximum allowed may be 5 days from one leave year to the next. In certain circumstances, employees may be allowed to carry over values in excess of the allowed threshold. In this case, admin staff can apply an Override Thresholds that bypasses the defined threshold limit.

To Override Thresholds

Where applicable, the following steps outline how to apply threshold overrides.

- **Run the Period End**

The Threshold status of **Applied** displays for employees indicating the **Threshold** automatically applies a limit on the allowed carry forward from one period to the next.

Note: The Period end must be completed first, once completed you can then override as required.

- **Apply the Override Threshold**

When the override is completed (see the status chip and progress bar) the period remains on screen. Search for the employee(s) and enable the override toggle. Once enabled, this automatically overrides the previously applied threshold, and the carryover values are updated.

2.3.3. Errors Button

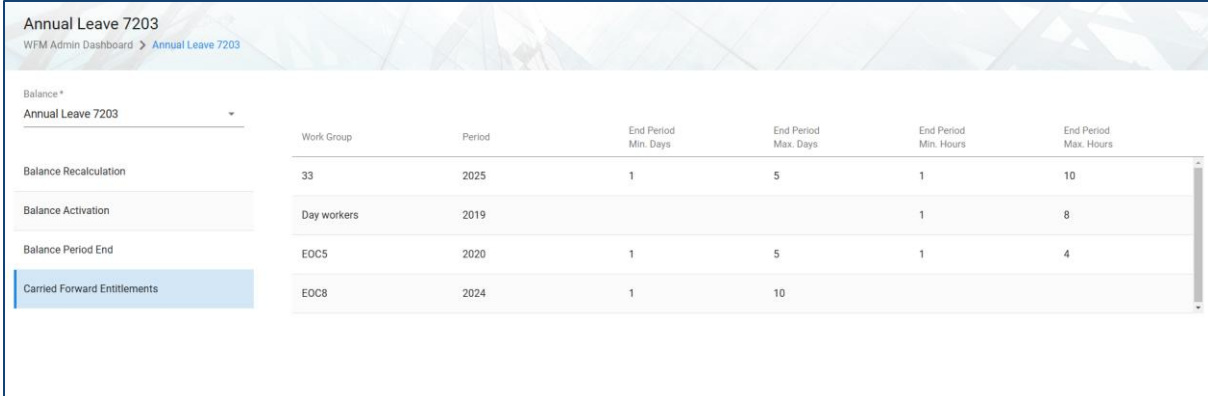

Should any errors be found by the system during the Balance Period End process, these can be viewed and resolved on the Errors Screen.

2.4. **Carried Forward Entitlement**

The Carried Forward Entitlements screen is a read only screen. It allows administrators to have access to all balance information when completing year-end balance tasks.

The screen is only displayed if the *Carried Forward Entitlements* have been configured for the balance, see our [Balance Configuration](#) guide for further assistance.

Carried Forward Entitlements are driven by the *Entitlement Based On* parameters within general settings. Balance period end picks up the annual leave carry over at entitlement level, if configured.

Work Group	Period	End Period Min. Days	End Period Max. Days	End Period Min. Hours	End Period Max. Hours
33	2025	1	5	1	10
Day workers	2019			1	8
EOC5	2020	1	5	1	4
EOC8	2024	1	10		

The **Carried Forward Entitlements** screen contains the following read only fields:

Field	Details
Parameter Entitlement	This displays whatever the parameter entitlement is based on within FTE Exceptions e.g. Work Group, Category, Department.
Period	This displays the period of the Balance.
End Period Min/Max Days	Displays the End Period min/max entitlement value in Days.
End Period Min/Max Hours	Displays the End Period min/max entitlement value in Hours.

3. Menu Options

3.1. Importing Menu Options in Portal

Menu profiles has been created to provide users full access to the Balance Maintenance screens:

- **WFM_BALANCE_ADMIN** (Gives access to Balance Recalculation and Activation screens)
- **WFM_BALANCE_PERIOD_END** (Gives access to the Balance Period End screen)
- **WFM_CARRY_FORWARD_ENTITLEMENT** (Gives access to the Carried Forward Entitlement screen)

You can [assign this menu profile to users](#) or import the menu options to an existing menu profile.

1. Go to *Security* and select **Menu Profiles**.
2. Search for the relevant menu profile e.g. Coreportal_Admin.
3. Select **Import Menu Options**.
4. Select **From existing Menu Profile** and click **OK**.
5. Search for the menu profile, for example **WFM_BALANCE_ADMIN**
6. Review the Confirmation message and click **Yes**.
7. Once imported, the menu options and webservices are assigned to the existing menu profile.

3.2. Menu Options

The following tables show the menu options needed to access the **Balance Recalculation Screen**.

All menu options are included in the menu profile **WFM_BALANCE_ADMIN**

Menu	Menu ID	System
