1. Overview

1.1. Purpose of the Guide

Bulk Leave Approval allows a manager or admin to approve a group of leave requests without having to rely on notifications as previously the case.

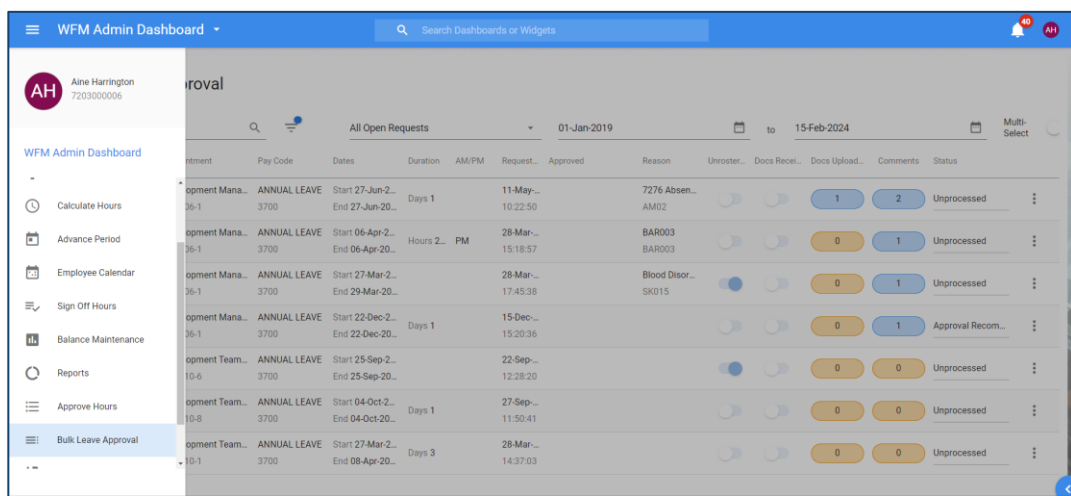

- This has helped with ease of use, bringing all your requests in to one place.
- You can now view or hide balances to further assist with approval.
- Links to attached documents.
- Counters show the number of documents attached and comments made.
- 3-dot menu access to Co-Workers' absence.
- Sliding overlay displaying the employees' balance.
- Approve using the drop down on Status.

1.2. How to access the Bulk Leave Approval Screen

You can access the Bulk Leave Approval Screen using either the WFM Admin Dashboard or the Workforce Management Dashboard.

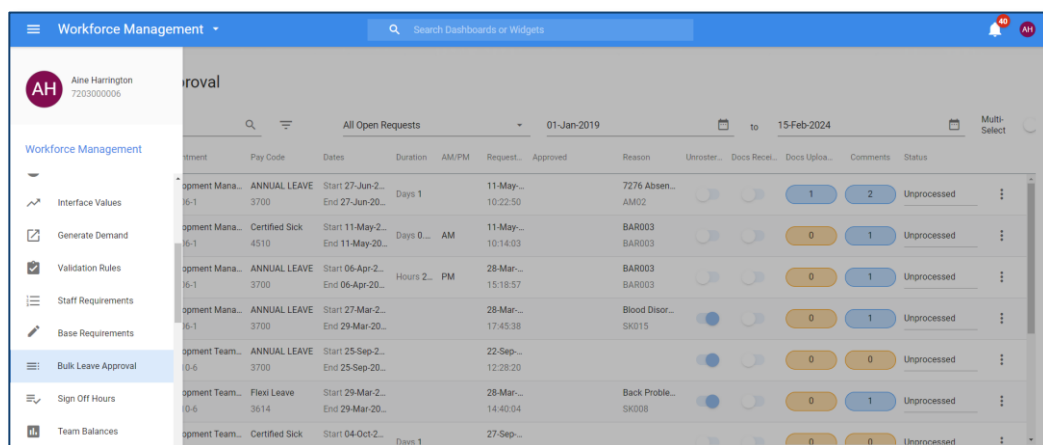

Via WFM Admin Dashboard:

1. Navigate to the *WFM Dashboard*.
2. Select **Bulk Leave Approval** from the menu on the left-hand side.
3. The *Bulk Leave Approval* screen displays.

Via Workforce Management:

1. Navigate to the *Workforce Management Dashboard*.
2. Select **Bulk Leave Approval** from the menu on the left-hand side.
3. The *Bulk Leave Approval* screen displays.

 **Note:** To view all reportees in the Bulk Leave Approval screen via Workforce Management; user will need an MSS account in BackOffice. Contact your System Administrator to arrange if reportees are not listed.

2. Bulk Leave Approval

2.1. Bulk Leave Approval Screen

Once you have accessed the Bulk Leave Approval screen, you will see the following:

The screenshot shows the 'Bulk Leave Approval' interface. At the top, there's a search bar and filters for 'All Open Requests' and dates from '16-Jan-2019' to '15-Feb-2024'. Below this is a table of leave requests with columns: Person, Appointment, Pay Code, Dates, Duration, AM/PM, Request, Approved, Reason, Unroster, Docs Recel, Docs Uplos, Comments, and Status. The table lists several requests for Aine Harrington and Brian StJohn. Below the table, a section titled 'Balances - Aine Harrington(720306-1)' shows a summary table with columns: Name, Code, Reserved, Floating, Accrued, Carried, Taken, Balance, Booked, Type, and a 'VIEW' link.

Person	Appointment	Pay Code	Dates	Duration	AM/PM	Request	Approved	Reason	Unroster	Docs Recel	Docs Uplos	Comments	Status

Brian StJohn 7203000006	Development Team... 720306-1	ANNUAL LEAVE 3700	Start 25-Sep-2... End 25-Sep-20...			22-Sep-... 14:58:00			☒	☐	0	0	Unprocessed

Name	Code	Reserved	Floating	Accrued	Carried	Taken	Balance	Booked	Type
DS-29516	29516	0	0	0	0	5	-5	140	days
Annual Leave 7203	7203AL	0	25	0	75	0	100	0	days

The screen can be filtered using the following options:

Field	Details
Work Group*	You can choose to filter by a specific Work Group
Department*	You can choose to filter by a specific Department
Person	You can choose to filter by a specific Employee
Pay Code	You can choose to filter by a specific Pay Code
All Open Requests	This field defaults to All Open Requests but can be set to show a specific leave request type. For Example, Unprocessed or Approved
Sort By	Here you can choose how you wish to sort the results. For Example, by Person or Paycode

Note: Fields marked with an * Admin user access is based on System User or Org Role.

Once you have made your selection, click **Apply**. If you wish to change your selection you can click **Reset**.

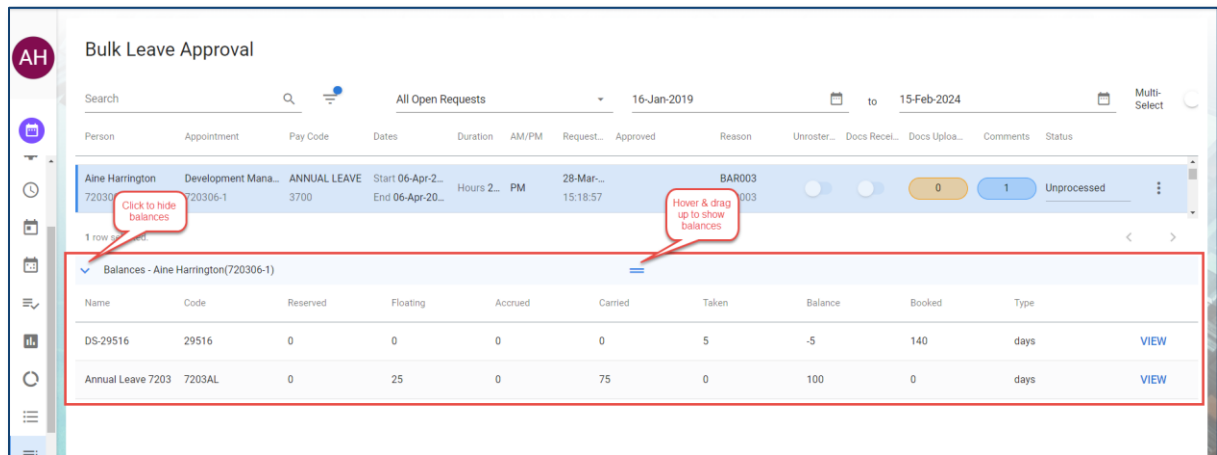

The *Bulk Leave Approval* screen contains the following fields:

Field	Details
Person	Name of the employee who submitted the leave.
Appointment	If using the Person field, Appointments can be used to select the correct appointment for the person.
Pay code	Pay code associated with the Leave type.
Dates	Dates of the leave request period.
Duration	Duration of the leave.
AM/PM	In the case of a half day, whether morning or afternoon is requested.
Requested	The date the leave was requested. This is helpful if the same period is requested by multiple employees.
Approved	This field shows whether the leave has been approved or not.
Reason	The reason for the leave taken.
Unrostered	This shows if the leave request is for hours which have not yet been rostered.
Docs Received	This shows if documents have been received to cover the leave. For example, prolonged absence.
Docs Uploaded	This shows the numbers of supporting documents which have been uploaded.
Comments	This shows the number of comments added to the leave request.
Status	Status of the leave request.

2.1.1. Balances

Balances allows you to see all current balances for an employee. By selecting an employee, the balances section will populate with their data.

Hover over the  and drag up to extend the balances section or click  to hide.

The screen contains the following fields:

Field	Details
Name	Name and number of the employee.
Code	Pay Code associated with the leave request.
Reserved	This shows the number of reserved days for times such as company shutdown
Floating	The floating entitlements is the balance without the reserved time.
Accrued	This shows if there is any accrued leave on the balance.
Carried	This field indicates if the leave has been carried over from a previous period.
Taken	This field indicates if the leave has already been taken.
Balance	The balance which is left for the employee to use.
Booked	This field shows upcoming leave which has already been booked.
Type	Type of leave which has been requested.

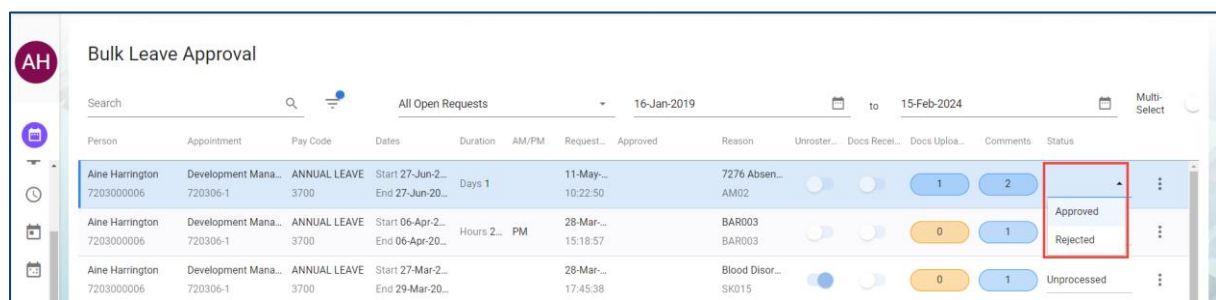

Clicking **View** will display details of the employee's balances showing **Opening** and **Current Closing** balances.

2.2. Managing Bulk Leave Approval

The *Bulk Leave Approval* screen brings all your requests together in one place which allows you to approve request individually or in bulk. You can also add & view comments to leave requests, review any attached documents and view co-workers calendars and leave requests.

2.2.1. Approve or Reject an employee leave request

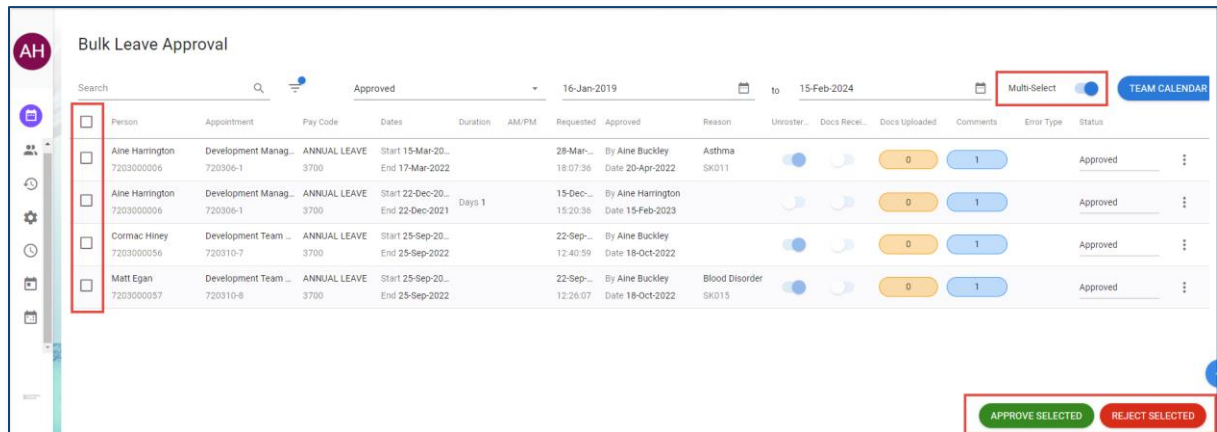

The status column will show the current status of the leave request. Using the drop-down menu within the status column you are able to Approve or Reject an employee leave request.

2.2.2. Approve or Reject employees' leave requests in bulk

The Multi-Select toggle allows you to filter leave requests by Pay Code and Status which can then be approved or rejected in bulk. To do this:

1. **Activate** the **Multi- Select** toggle
2. Populate the filter; ensuring you select a **Pay Code & Absence Status**
3. Click **Apply**, this will return all employees' leave requests that match the criteria
4. Using the **tick boxes**, select all leave request you would like to Approve/Reject
 - Using the top tick box will select **All** leave requests listed
5. Click the **Approve Selected** or **Reject Selected** button, as required
6. Your leave requests have now been processed
7. To return to the *Bulk Leave Approval* screen deactivate the Multi-Select toggle

2.2.3. Comments

On the Bulk Leave Approvals Screen, you can manage the comments attached to a request for the employee. The summary screen shows the number of comments attached.

To view or add a comment to an employee's request:

1. Access their **3-dot menu**
2. Click **Comments**
3. From here you can see the Absence Detail requested along with Employee, Manager/Admin and Response to Employee comments
4. Type in your comments under the relevant section and click **Add**
5. If you have added a comment in error or want to amend, click **Reset**
6. Once happy click **Save**
7. The summary screen will update to reflect the number of comments added

The screenshot displays the 'Absence Details' form for Brian StJohn (7203000055). The form includes sections for 'Absence Details', 'Employee', and 'Manager / Admin Comments'. The 'Absence Details' section shows 'Leave Type' as 'Flexi Leave', 'Start Date' as '29-Mar-2022', and 'End Date' as '29-Mar-2022'. The 'Employee' section has a 'test comments' field. The 'Manager / Admin Comments' section shows a comment from Aine Harrington dated 16-Feb-2023 09:06, stating 'Test Comment: Approved'. At the bottom, there are 'ADD' and 'RESET' buttons, a 'Response to Employee' field, and a 'SAVE' button. The footer includes 'Access People:XD' and a 'SAVE' button.

2.2.4. Documents

On the Bulk Leave Approvals Screen, you can view the documents attached to a request for the employee. The summary screen shows the number of documents attached. If unattached documents have been received a tick box is available for you to indicate documents have been received but not uploaded or unavailable for upload.

To view or mark unattached documents as received for an employee's request:

1. Access their **3-dot menu**
2. Click **Documents**
3. From here you can see the Absence Detail requested along with a list of any documents uploaded
4. Use the **Supporting Documents Received** tick box to indicate unattached documents have been received. This will update the summary screen to show the Documents Received toggle as active
5. From the 3-dot menu of a listed document click **View**. This will download the document for review

2.2.5. Co-Workers Calendar

On the Bulk Leave Approvals Screen, you can view an employee's Co-Workers calendar. This can be useful to review before approving a request.

To access the Co-Workers Calendar:

1. From the users **3-dot menu**
2. Click **Co-Workers Calendar**
3. Use the **breadcrumb** to return to the Bulk Leave Approval screen

2.2.6. Co-Workers Leave Absence

On the Bulk Leave Approvals Screen, you can view an employee's Co-Workers Leave Absence for the week of the requested absence. This can be useful to review before approving a request.

To access the Co-Workers Calendar:

1. From the users **3-dot menu**
2. Click **Co-Workers Leave Absence**

3. Use the **Absence Only** toggle to change the view to Absence only
4. Use the **breadcrumb** to return to the Bulk Leave Approval screen

3. Configuration

You can configure the Bulk Leave Approval screen to return a defined period when opened. By default, the Bulk Leave Approval screen will always show a year in advance of today however, the start date offset can be configured to show leave requests for a defined period. For example, to show all leave approvals for the last year you would set the start date offset to 365.

To do this:

1. Go to *WFM Admin Dashboard*.
2. Select **WFM Configuration**.
3. Select **General Settings**.
4. Set the period required under **Bulk Leave Approval Start Date Offset**
5. Click **Save**

The screenshot shows the 'General Settings' page in the WFM Admin Dashboard. The 'Site Parameters' section contains several settings:

- Transfer Future Leave:** Toggle is ON.
- Restrict Project Codes:** Toggle is OFF.
- Admin Security Type:** System User Access.
- Manager Security Type:** Org Role Access.
- Calculate Hours Access:** System User Access.
- Work Group Summary View Only:** Toggle is OFF.
- Approve/Sign Off Include Manager Hours:** Toggle is ON.
- Bulk Leave Approval Start Date Offset:** Set to 365 (highlighted with a red box).

A 'SAVE' button is located in the bottom right corner.

4. Menu Options

4.1. Importing Menu Options in Portal

Two menu profiles have been created, depending on role, to provide users full access to configure the Bulk Leave Approval screen: **WFM_BULK_LEAVE_APPROVALS_ADMIN** or **WFM_BULK_LEAVE_APPROVALS_MGR**. You can [assign this menu profile to users](#) or import the menu options to an existing menu profile. .

To import menu options, complete the following steps:

1. Go to **Security**
2. Select **Menu Profiles**
3. Search for the relevant menu profile e.g. Coreportal_Admin
4. Select **Import Menu Profiles** from the 3-dot menu
5. Select **From existing menu profile**
6. Click **OK**
7. Search for **WFM_BULK_LEAVE_APPROVALS_MGR**
8. Click **OK** and you receive a confirmation message
9. Repeat this process for the Admin menu Profile.
10. Your menus are not setup and all menu options enabled

4.2. Menu Options

The following menu options can be used to customise the Bulk Leave Approvals screens.

All menu options are included in the relevant menu profiles listed above.

Menu Option	Menu ID	System
Bulk Leave Approval*	WFM_ADMIN_MENU.BULK_LEAVE_APPROVAL	CorePortal
CorePortal - Admin leave approval override*	MAIN_MENU.ADMIN_LEAVE_REQUEST_APPROVAL	CorePortal
CorePortal - Workforce Management Admin*	MAIN_MENU.WRKMGMTADMIN	CorePortal

Menu Option	Menu ID	System

Get balances detail	WS_ROSTER_MENU.GET_BALANCES_DETAIL	Web Services
Get balances detail proxy	WS_ROSTER_MENU.GET_BALANCES_DETAIL_PROXY	Web Services

4.3. Advanced Options

These approval parameters can be enabled via: WFM Admin Dashboard > WFM Configuration > Company and Calendar Config > Select Company > Advanced Options

Parameter	Details
ALLOW APPROVAL OF HISTORICAL LEAVE REQUESTS	This parameter dictates if a user can approve historical leave requests. It is passed into ct_historical_data_entry_proc and this returns earliest_date_of_entry.
IGNORE MISC HOLIDAY VALUES ON PATTERN FOR CALCULATION	This parameter dictates what hours are returned for a part day

Parameter	Details
ESS MESSAGES DISALLOWED	This parameter dictates whether a row is inserted into hr_person_message or not.
RESTRICT DATA ENTRY ACCORDING TO FLEXTIME CALENDAR	This parameter dictates if a user can approve historical leave requests. It is passed into ct_historical_data_entry_proc and this returns earliest_date_of_entry

4.4. Advanced Options and Coreportal Parameters

If you are using the Advanced Option **Leave Request Processes**, you need to set the Coreportal Parameter **cp_lv_req_process_role** to **Y**

 **Note:** Use the Org role attached to the process when checking for access rather than the role in portal params.

If this is not done, then an error '*An error occurred retrieving the leave request*' may be received.

To do this:

1. From the *Administrator Dashboard* select **Site Manager**.
2. **Open Admin Settings**.
3. Search for **cp_lv_req_process_role**.
4. Set the value to **Y**.
5. Click **OK**.

5. Frequently Asked Questions

Q. I am getting the error 'An error occurred retrieving leave request' when trying to use the Bulk Leave Approval feature?

A. There are two possible solutions for this:

1. If you have the advanced option 'Leave Request Processes' set to 'Y', then the parameter `cp_lv_req_process_role` should also be set to 'Y'.
2. If you are the manager or administrator and you do not have direct access to the leave request via org role and area, and instead use the admin leave approval toggle then the permission is dependent on `CP_HIDE_LVRQ_ADMIN_BTN`. This value must be set to 'N' or else you will be stopped getting the admin override approval.
3. The pay code doesn't have a leave request process code assigned to it. The Bulk Leave Approval screen won't let you approve leave requests for pay codes with no process code assigned.

To do this:

- a. Navigate to the *WFM Admin Dashboard* and select **WFM Configuration**
- b. Search for and select the **Pay Codes** tile.
- c. Expand the 3-dot menu of the relevant pay code and select **View/Edit Pay Code**.
- d. Navigate to the *Leave Request Settings* screen.
- e. Enter the relevant process code under the *Leave Request Process Code* and the *Leave Request Cancellations* options. See our [Pay Codes](#) guide for further details.
- f. Click **Save**.

Note: Once added any newly created requests will go to the manager for approval in 'My Approvals' and can also be approved via Bulk Leave Approval.

For any requests already submitted they will either need to be:

- Cancelled and re-submitted (once the process codes are assigned)
- Ask the employees to cancel the requests and managers/admin record them directly as absences.
