1. Overview

1.1. Purpose of the Guide

The purpose of this guide is to explain the *Employee Calendars* screens. We will walk through the following:

- The Employee Calendar Screen
- The Employee Calendar Configuration Screen

2. The Employee Calendar Screen

The *Employee Calendar screen* displays the work schedule of the employee for 12 months and any actions which are to be approved or rejected. The codes which have been configured and colour coded on the screen display on the calendar. Employee calendar is available from the following areas:

User	Area
Employee	• My Calendar widget • My Request widget • Work Week widget
Manager	• My Team widget • Workforce Management Dashboard
Admin	• WFM Admin Dashboard

2.1. How to access the Employee Calendar Screen

To access the Employee Calendar Screen for **Employees**:

1. From the relevant widget on the *Employee Dashboard*.
2. Expand **Actions**, or the 3-dot menu, and select **My Calendar**.

To access the Employee Calendar Screen for **Managers**:

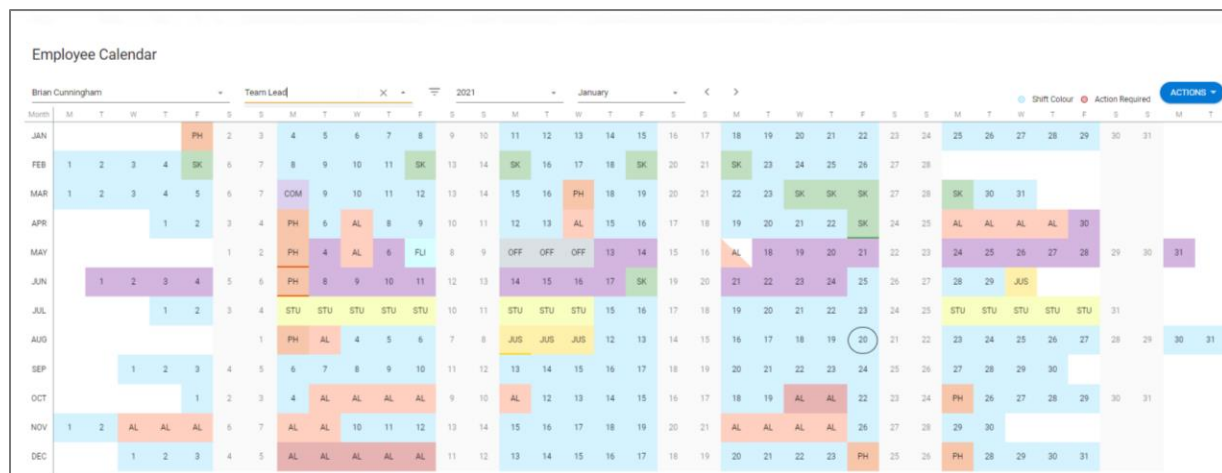

1. From the **My Team** widget on the *Manager Dashboard*.
2. Expand the 3-dot menu for the relevant employee and select **View Employee Calendar**.

Or

3. From the Workforce Management Dashboard select **Employee Calendar**.

To access the Employee Calendar Screen for **Admins**:

1. From the *WFM Admin Dashboard* select **Employee Calendar**.

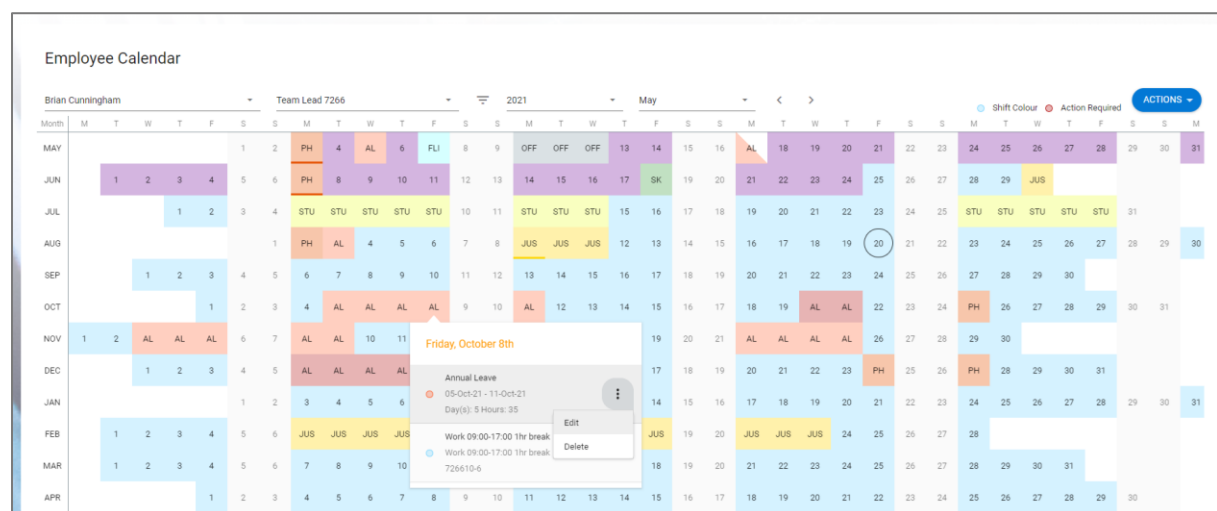

The screen can be filtered using the following options:

Options	Details
Active	Allows administrators to view employee calendars for staff that have left or are leaving the company. By default, this is set to Active however the drop-down menu can be used to filter by: • Active - active employees are displayed. • Leaver - employees that have left the organisation are displayed (i.e. WFM leaver status is set to leaver). • Unprocessed Leaver - employees that are leaving the organisation are displayed. In this case a leave date has been recorded which is before today's date and the employees WFM leaver status has not been set to a leaver.
Search Employees	You can flick between multiple employees by selecting the name in the drop-down menu. Once the employee is selected the Actions button becomes enabled.
Appointment	If you have multiple appointments, you need to select the appointment you wish to use before selecting the Action. If this is not completed, a message appears advising "Select an appointment first". If the user is in NMP the grid displays without the appointment dropdown.

Options	Details
Filter	The filter button allows you to refine your search to filter by: • Filter by Pay Code - select multiple pay codes to filter against. • Action Override - overrides other filters. • Work Schedule - displays the employees work schedule. This is on by default. • Training - displays training assigned to the employee. This is on by default. • Events - displays events assigned to the employee. This is on by default.
Year	If you wish to check a period in the past, use the dropdown menu to change the year.
Month	If you wish to check a period in the past, use the dropdown menu to change the month.
Arrows	Use the arrows to navigate, forward or backwards, a month at a time.

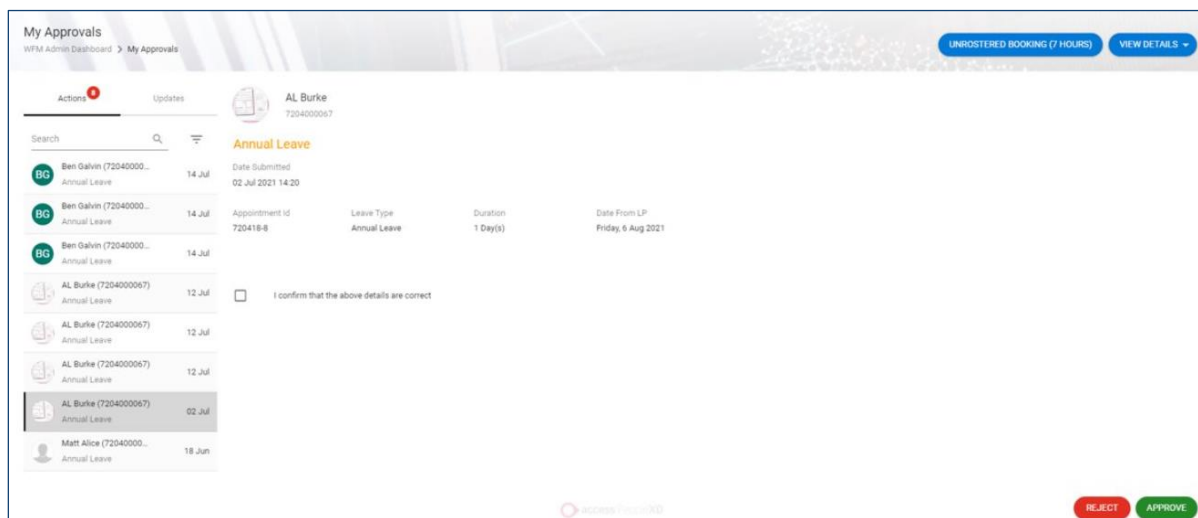

Approving or rejecting hours on the calendar grid

Within the calendar grid, you can hover the cursor over the highlighted dates and approve or reject them as appropriate.

By clicking **Edit**, you are taken to the *Approvals* screen, where you can approve or reject the hours as appropriate.

Note: The dropdown menu also allows you to view the calendar in compact mode. This shows you the full month on screen for you to action.

2.2. Actions button

The Actions button on the top of the screen has a dropdown with the following screens:

- **Person Absences**
- **Add Absence**
- **Team Calendar**

2.2.1. Person Absences

The *Person Absences Screen* shows any recent absences which are recorded for a specific employee. Managers and Admins can check the status of the specific absence, whether it has been approved or rejected.

Search Leave Types

Absence Type	Start Date	End Date	Days	AM/PM	Hours	Weeks	Num Docs	Recurrence Id	RTW Interview	Status
Company Closure	04-Aug-2025	08-Aug-2025	0		.00	0.71	0			Approved
Jury Service Leave	06-May-2025	08-May-2025	3		15.00	0.43	0			Approved
Annual Leave	12-Mar-2025	13-Mar-2025	2		10.00	0.29	0			Approved
Sick Leave	17-Feb-2025	19-Feb-2025	3		15.00	0.43	0		Complete	Approved
Annual Leave	11-Feb-2025	13-Feb-2025	3		15.00	0.57	0			Approved

The screen can be filtered using the following options:

Option	Details
Search	Use the search feature to find a specific absence you wish to edit.
Filter	Use the filter button to refine your search. You can filter by, the following, and click Apply to filter the results. • Pay Code • Recurrence Id • RTW Interview • Status • From/To

The **Person Absences** screen contains the following fields:

Field	Details
Absence Type	the absence type.
Start Date	the start date of the absence.
End Date	the end date of the absence.
Days	the duration of the absence, in days.
From/To	the start and end time of the absence, if the <i>Start & End Times on Leave & Absence Screens</i> has been configured.
AM/PM	if the employee has taken a morning or afternoon part day absence.
Hours	the duration of the absence, in hours.
Weeks	the duration of the absence, in weeks

Field	Details
Num Docs	the number of documents attached to the absence.
Recurrence Id	relates to Recurring Absences only. It will display a number which links all related recurring absences to the original.
RTW Interview	the status of the RTW Interview e.g., Manager Pending or Complete
Status	the status of the absence e.g., Approved, Rejected, Cancelled or Submitted.

From the 3-dot menu of any Absence, you can:

- **View/Edit Absence Details** – gives you access to the Absence Details screen where you can review or edit.
- **Delete Absence** – allows you to delete an absence.
- **View Co-Workers Leave Absence** – opens the Team Calendar for you to be able to review conflicting absences in the team.
- **Weekly Work Schedule** – opens the employees work schedule, for the week.

If you wish to add an absence from this screen you can click the **Add Absence** button in the top right corner of the screen.

2.2.2. Add Absence

When you record an absence, it will open the *Absence Details* wizard. This is a 6-step process for adding an absence for an employee. It's accessed when you click **Add Absence** from the Person Absences screen. Details of each screen within the wizard are outlined below.

Absence Details screen:

The *Absence Details* screen is where the general details of the absence are entered.

The ***Absence Details*** screen contains the following fields:

Field	Details
Leave Type	Select from the dropdown options the required Leave Type e.g., Annual Leave.
Start Date	Enter the start date of the absence.
End Date	This will display for Full Days(s) absence request only. Enter the end date of the absence.
Start Time	Depending on configuration the option to enter the Start Time for the absence is displayed.
End Time	Depending on configuration the option to enter the End Time for the absence is displayed.
Cost Centre	This allows you to assign a cost centre to the absence, if required.
Project	This allows you to assign a project to the absence, if required.
Part Day Leave	Enable the toggle for a part day leave.
Hours	This will display if <i>Part Day Leave</i> toggle is enabled. Enter the number of hours of the absence.
Minutes	This will display if <i>Part Day Leave</i> toggle is enabled. Enter the number of minutes of the absence.
Open Ended	Enable the toggle if the absence is to be open ended. This will remove the End Date field.

Field	Details
Enter Duration	Enable the toggle if you want to add a duration to the absence. This will remove the End Date field.
Duration	This will display if the Enter Duration toggle is enabled. Enter a numeric duration for the absence e.g., 4
Duration Type	This will display if the Enter Duration toggle is enabled. Select a duration type to be applied to the absence e.g., days.
Recurrence	Enable the toggle if you want the absence to be recurring. This will remove the End Date field.
Repeat Every	This will display if the Recurrence toggle is enabled. Enter a value for when the absence should repeat. This is in weeks
Repeat On	This will display if the Recurrence toggle is enabled. Enable the relevant toggle(s) you wish the absence to repeat on. at the frequency you have selected.
Ends	This will display if the Recurrence toggle is enabled. Select when the recurring absence will end. Options available are: On – select a specific date to end the recurring absence. After – select the number of weeks the recurring absence will end after.

The toggles can be used in conjunction with one another, if required. For example, you may want a Recurring Part Day Absence.

More screen:

The *More* screen is where you can add additional information relating to the absence.

The **More** screen contains the following fields:

Field	Details
Leave Type	This displays the leave type selected in the Absence Details screen.
Start Date	This displays the start date entered in the Absence Details screen.
End Date	This displays the end date entered in the Absence Details screen.
Reason	This allows you to select a reason for the absence, if required.
Narrative	This allows you to add additional information to the absence, if required. Maximum field length 2,000 characters.

Return to Work Interview:

The Return-to-Work Interview screen is where you can add details of the employees RTW, if required.

Note: If using the **Return-to-Work Interview templates**, when selecting the Leave Type in the Absence Details screen the Return-to-Work Interview screen will be automatically updated with the relevant RTWI questionnaire name. See our [Return to Work Interview](#) guide for further guidance.

The **Return to Work Interview** screen contains the following fields, if not using RTWI templates:

Field	Details
Leave Type	This displays the leave type selected in the Absence Details screen.
Start Date	This displays the start date entered in the Absence Details screen.
End Date	This displays the end date entered in the Absence Details screen.
Work Related	Enable the toggle if the absence is work related, if required
Interview Completed	Enable the toggle to show the interview has been completed, if required.
RTWI Date	Enter a date the interview was completed, if required.
Interview Notes	Enter relevant notes taken from at the interview. Format using the options to the top right of the field e.g., adding bold, bullet points, links and previewing.

Supporting Documents:

The Supporting Documents screen is where you can upload, view and make as received supporting documentation. For example, sickness certificates.

The **Supporting Documents** screen contains the following fields:

Field	Details
Leave Type	This displays the leave type selected in the Absence Details screen.
Start Date	This displays the start date entered in the Absence Details screen.
End Date	This displays the end date entered in the Absence Details screen.
Supporting Documentation Received	Select this to confirm all relevant documentation has been received, if required.
Upload Documents	This allows you to upload the documentation, if required. Click Upload Documents, click to search for the document or drag & drop the required document into the window, then click OK. Repeat as required. The document will then display under Documents.
Documents	This list all documents uploaded against the absence.

Balances:

The Balances screen displays an overview of the employee's balances.

The screen can be filtered using the following options:

Option	Details
Search	Use the search feature to find a specific absence type e.g., Annual Leave.
Filter	Use the filter button to refine your search. You can filter by, the following, and click Apply to filter the results. - Pay Code - Recurrence Id - From Date - RTW Interview

To Add an Absence, using the wizard:

1. Click **Add Absence**.
2. On the *Absence Details* screen select the **Leave Type**.
3. Enter a **Start Date**, then use the options available to add further details for the absence:
 - **Part Day Leave** – here you can enter details for a part day leave absence.
 - **Open Ended** – here you can enter details for an open-ended leave absence.
 - **Enter Duration** – here you can specify the duration of a leave absence e.g., days/weeks.
 - **Recurrence** – here you can setup a recurring absence.
4. Click **Next**.

5. On the *More* screen select, if required, select a Reason and enter a Narrative for the absence. Then click **Next**.
6. On the *Return to Work Interview* screen:
 - enter details of the RTWI e.g., Interview completed, Date RTWI took place and Interview details.
 - Or if using RTWI templates, complete the questionnaire and turn on the **Send to Employee** toggle so when saved the RTWI questionnaire will display in the RTWI widget for the employee to action.
7. On the *Supporting Documents* screen, confirm & upload supporting documents that have been provided. Then click **Next**.
8. The *Balances* screen displays an overview of the employees balances. Then click **Next**.
9. The *Upcoming Absences* screen displays details of all employee absences.
10. Click **Save**.
11. You can view an absence and edit/update screens at any point by selecting **View/Edit Absence Details** from its 3-dot menu on the Absence screen.

2.2.3. Team Calendar

The Team Calendars display leave and absence records for an employee's co-workers and managers 'reports to' team in a calendar format. The managers 'report to' team is based on the organisational hierarchy.

The screen can be filtered using the following options:

Options	Details
Search Employees	You can search by employee should you wish to sign off hours on a specific employee.

Options	Details
Filter	• Filter by Pay Code: Here you can select multiple pay codes to filter against. • Action Override: This overrides other filters. • Work Schedule: This is toggled on by default. • Next Level Up Manager: Filter 'On' (default) includes the Employees direct 'reports to' calendars. • New Level Down Team: Filter 'On' (default) includes the Employees direct and indirect 'reports to' calendars that are next level down.
Group By	Enables managers to re-order the Team Calendar display. For example, if Job Title is enabled, the Team Calendars view can be rearranged to view employees by job title.

From the Team Calendar screen by using the 3-dot menu associated to an employee, you can:

Options	Details
View Calendar	This will return the employees 12-Month calendar. Note Manager must first navigation to the employee 12-Month Calendar to enter absences or approve leave requests.
View Team	Managers by default, can drill down into any Teams/Sub Team for staff reporting to them. To view, click on the name of the employee or alternatively select View Team from the three-dot menu.  To navigate back to previously viewed Teams, select the Team displayed selection to display previously selections. Note: Managers can continue down the organisation hierarchy structure to view employees that report into to them directly or indirectly.

Options	Details
Person Information	This will return additional information on the employee, defined in the configuration screen.

See our [Team Calendar](#) guide for further guidance.

2.3. Control of Edit and Delete Options

The parameters listed in the table below can be used to stop an employee from deleting or editing a leave request. The parameters control the delete and edit options for the My Leave Request widget on the Employee Dashboard.

The Parameters are:

- CP_LEAVE_REQ_FUNC
- CP_LEAVE_REQ_EDIT
- CP_LEAVE_REQ_DELETE

Different permutations that can occur when each parameter is turned on or off:

FUNC	EDIT	DELETE	Result
Y	Y	Y	If the status is not Approved and not Cancelled, hides none. If the status is approved, hide Edit.
Y	N	Y	If the status is not Approved and not Cancelled, hides Edit. If the status is Approved, hides Edit.
Y	N	N	If the status is not Approved and not Cancelled, hides Both. If the status is Approved hides Both.
N	Y	Y	If the status is not Approved and not Cancelled, hides none. If the status is Approved hides none. This overrides all the above for Return to Employee Requests. If Approved and Return to Employee Request, hides Cancel.
Y	Y	N	Edit and Cancel options are hidden.
N	N	Y	Edit and Cancel options are hidden.

FUNC	EDIT	DELETE	Result
N	Y	N	Edit and Cancel options are hidden.
N	Y	N	Edit and Cancel options are hidden.
N	N	N	Edit and Cancel options are hidden.

2.4. Roll Back Weeks & Historical Hours

The **Access Privileges** screen, within *WFM System Users Configuration*, allows you to enable toggles to decide what the user can see when they have access to certain tasks on the system. Once the **Maintain Historical Hours** toggle is enabled within the *Attendance* section, then the roll back weeks for Employee and Manager can be triggered if the employee calendar is also on.

The **Ignore Date Entry Restriction** toggle, found in the *Absence Privileges* section, allows data entry restrictions on the user to be ignored when this toggle is enabled.

To access WFM System Users Configuration:

1. From the *WFM Admin Dashboard* select **WFM Configuration**.
2. Search for and click the **WFM System Users Configuration** tile.
3. Navigate to the **Access Privileges** screen.

2.5. Viewing Employees that are Leavers

Administrator can view employee calendars for staff that have left or are leaving the company. On connection to the Employee Calendars (from the WFM Admin Dashboard) an employee type selection is available.

Field	Details
Active (Default)	In the Employee drop down selection, active employees are displayed for selection (default setting).
Leaver	Employees that have left the organisation are displayed (i.e. WFM leaver status is set to leaver)
Unprocessed Leaver	Employees that are leaving the organisation are displayed. In this case a leave date has been recorded which is before today's date and the employees WFM leaver status has not been set to a leaver.

Note: This option is only available to Administrators and Leaver Status is updated when the period containing the leave date is closed.

3. Configuration

For the employee calendar to show data, the calendar first needs to be configured. This means you can assign colours to absences as well as shift types, pay codes and annual leave, depending on your preference. The following can be configured on the Employee Calendar:

- Global Calendar settings
- Pay codes setting
- Employee Pay Codes
- Manager Pay Codes
- Admin Pay Codes

3.1. The Employee Calendar Configuration Screen

The *Calendar Configuration Screen* controls the data displayed on the calendar grid.

To access the Employee Calendar Configuration screen:

1. From the *WFM Admin Dashboard* select **WFM Configuration**.
2. Select the **Employee Calendar Configuration** tile.

The screenshot shows the 'Employee Calendar Configuration' screen. At the top, it says 'Employee Calendar Configuration' and 'WFM Admin Dashboard > Employee Calendar Configuration'. Below this is the 'Global Calendar Settings' section with three dropdown menus: 'Calendar Start Day*' (Monday), 'Rolling Months*' (Month), and 'Offset Current Month By*' (1). Below these are three more dropdown menus: 'Work Schedule Colour*' (Teal 800), 'Action Required Colour*' (Red A700), and 'Company Events*' (Purple 800). Below these is the 'Pay Code Settings' section. On the left, there is a sidebar with 'Pay Code Settings' selected, and below it are 'Admin Pay Codes', 'Manager Pay Codes', 'Employee Pay Codes', and 'Native App Pay Codes'. The main area shows a table with columns: 'Pay Code Description', 'Admin Enab...', 'Manager En...', 'Employee E...', 'Native App ...', 'Colour', 'Order Priority', 'Calendar C...', and 'Highlight ...'. The table has two rows: 'Jury Service Leave 3754' and 'Basic Hours 1005'. The 'Jury Service Leave' row has 'Admin Enab...' (blue), 'Manager En...' (grey), 'Employee E...' (blue), 'Native App ...' (grey), 'Colour' (Blue 800), 'Order Priority' (JS), and 'Highlight ...' (blue). The 'Basic Hours' row has 'Admin Enab...' (blue), 'Manager En...' (blue), 'Employee E...' (blue), 'Native App ...' (blue), 'Colour' (Blue 400), 'Order Priority' (empty), and 'Highlight ...' (blue).

The **Employee Calendar Configuration** screen displays the following fields.

Field	Details
Calendar Start Day	With this dropdown menu, you can decide which day of the week you wish the calendar to start on.
Rolling Months	This allows you to choose either Fixed or Month . Some companies will have a fixed year while others will have a rolling year. This facilitates this difference.
Offset Current Month By	This allows you to view previous calendar months. For example, if you select -3 it means viewing the previous 3 calendar months from the current month.
Work Schedule Colour	You can decide what colour you wish to associate with shifts.
Action Required Colour	You can use colour codes for any specific action that is required such as approving or rejecting.
Company Events	You can use colour codes to highlight company events on the calendar.

3.1.1. Pay Code Settings

The *Pay Code Settings* tab allows you to customise specific pay codes, by using the toggles and dropdowns. There is a separate toggle for Admin, Manager and Employee. If any one of these is enabled, it will make the pay code visible to that level.

Note: The pay codes displayed are entirely configurable for each site.

The screen can be filtered using the following options:

Options	Details
Search Pay Code	You can search by pay code should you wish to configure a specific pay code.
Filter	Refine your view using the filter to display groups of pay codes . Options available to filter are: • Absence • Holiday • Public Holiday • Sick • Maternity

The **Pay Code Settings** screen contains the following fields.

Field	Details
Pay Code Description	The pay code name and code.
Admin	When this toggle is enabled, an admin specifically can see the pay code.
Manager	When this toggle is enabled, a manager specifically can see the pay code.
Employee	When this toggle is enabled, an employee specifically can see the pay code.
Colour	You can use a colour to differentiate a specific pay code. Select the colour from the colour picker drop-down menu.
Order Priority	You can decide the priority of a pay code and have it displayed first for that day on the calendar.
Calendar Code	Enter a unique three letter code which is associated with the pay code e.g. AL for Annual Leave.
Highlight	By enabling this toggle, it underlines the pay code on the Employee calendar screen.

Available Calendar Events

For each user pay codes tab there are further controls which allow you to configure visibility of the following items on the related calendar.

Option	Details
Shifts	This toggle controls the visibility of shifts.
Absences	This toggle controls the visibility of absences.
Attendance	This toggle controls attendance.
Company Events	This toggle controls company events.

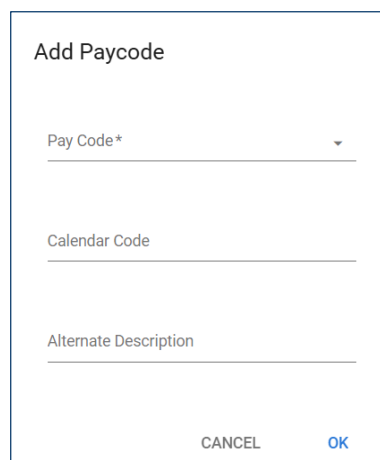

From the Pay Code Selection section, you can also do the following:

- **Search** for a pay code by description or pay code number.
- **Add** a new pay code by selecting ADD and selecting a pay code from the drop-down menu.
- **Edit or Add** a pay codes Colour, Calendar Code and Alternative Description.
- **Delete** a pay code within the grid. A confirmation dialog appears to confirm the deletion.

To Add a Pay Code

To add a pay code to a user groups calendar:

1. From the relevant user pay codes tab, click **Add**.
2. Select the **Pay Code** from the drop-down list.
3. Enter a **Calendar Code**, if required.
4. Enter an **Alternate Description**, should you wish to label it differently.
5. Click **OK**.

4. Menu Options

4.1. Importing Menu Profiles

Three menu profiles have been created to provide users full access to the Employee Calendar functionality: **WFM_EMP_CALENDAR_ADMN**, **WFM_EMP_CALENDAR_MGR** & **WFM_EMP_CALENDAR_EMP**. You can [assign this menu profile to users](#) or import the menu options to an existing menu profile.

1. Go to *Security* and select **Menu Profiles**.
2. Search for the relevant menu profile e.g., Coreportal_Admin
3. Select **Import Menu Options**.
4. Select **From existing Menu Profile** and click **OK**.
5. Search for the menu profile, for example, **WFM_EMP_CALENDAR_ADMN**
6. Review the Confirmation message and click **Yes**.
7. Once imported, the menu options and webservices are assigned to the existing menu profile.

4.2. Menu Options

The following menu options can be used to customise the Employee Calendar screens.

4.2.1. Administrator Access

All menu options included in the menu profile **WFM_EMP_CALENDAR_ADMN**

Menu Option	Menu ID	System

Get settings global	WS_ROSTER_MENU.GET_SETTINGS_GLOBAL	Web Services
Shifts	MAIN_MENU.WS_SHIFTS	Web Services
Get person shifts	WS_SHIFTS_MENU.GET_PERSON_SHIFTS	Web Services

 **Note:** The following parameter is needed to allow an admin access to approve leave. This parameter **cp_lv_req_process_role** should be set to Y in order to work.

The user is marked as an admin leave approver with either of these options.

1. **LEAVE_REQUEST_ADMIN_USER** on ct_user_type for the users record set to Y.
2. Alternatively, the following menu option will also grant this access - **CorePortal - Admin leave approval override.**

4.3. Link Manager Input to Employee's Pay Code Groups

Through advance configuration, Portal *Timesheet Input* and *Absence Entry* screens can be linked to the employee's Pay Code Group. In addition:

- Managers can now enter additional Pay Codes such as sickness, which are for **manager use only**. This is supported by a new indicator setting.

To link a Managers Absence Entry and/or Timesheet Input to the Pay Code Groups attached to employees, the below advanced options need to be enabled.

Option	Parameter
Absence Entry	ABSENCE ENTRY PAY CODE LIST MANAGER MODE APPLY EMP FIRST
Timesheet Input	TIMESHEET INPUT PAY CODE LIST MANAGER MODE APPLY EMP FIRST AND MANAGER WG LAST

To enable the advanced options:

- Navigate to the **WFM Admin Dashboard** and select **WFM Configuration**.
- Search for and click the **Company and Calendar Config** tile.
- For the relevant Company, expand the 3-dot menu and click **View/Edit**.
- Click the **Advanced Options** tab.
- Search for the parameters.
 - If the parameters exist - enable the indicator.
 - If the parameters don't exist:
 - Click **Add Advanced Option**.
 - Enter the Option Names:
 - ABSENCE ENTRY PAY CODE LIST MANAGER MODE APPLY EMP FIRST
 - TIMESHEET INPUT PAY CODE LIST MANAGER MODE APPLY EMP FIRST AND MANAGER WG LAST
 - Enable the toggle & click **OK**.
