1. Overview

1.1. Purpose of Document

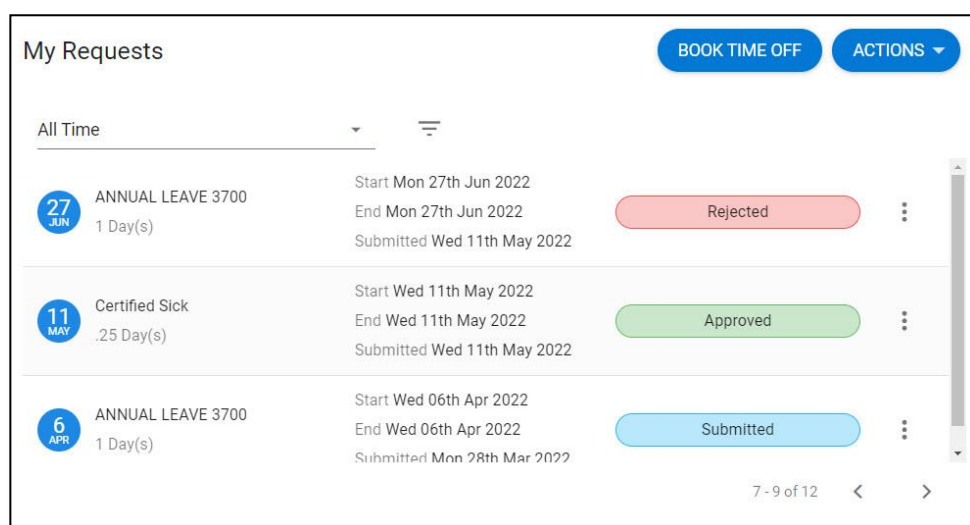

The purpose of this document is to provide an overview of the *Leave Requests and Absences* functionality in *Time and Attendance*, and how this is used. This includes:

- What are *Leave Requests and Absences* and when are they used?
- Assigning *Balances* to employees
- Employee self-service overview
- Manager self-service overview
- Configuration

1.2. What are Leave Requests and Absences?

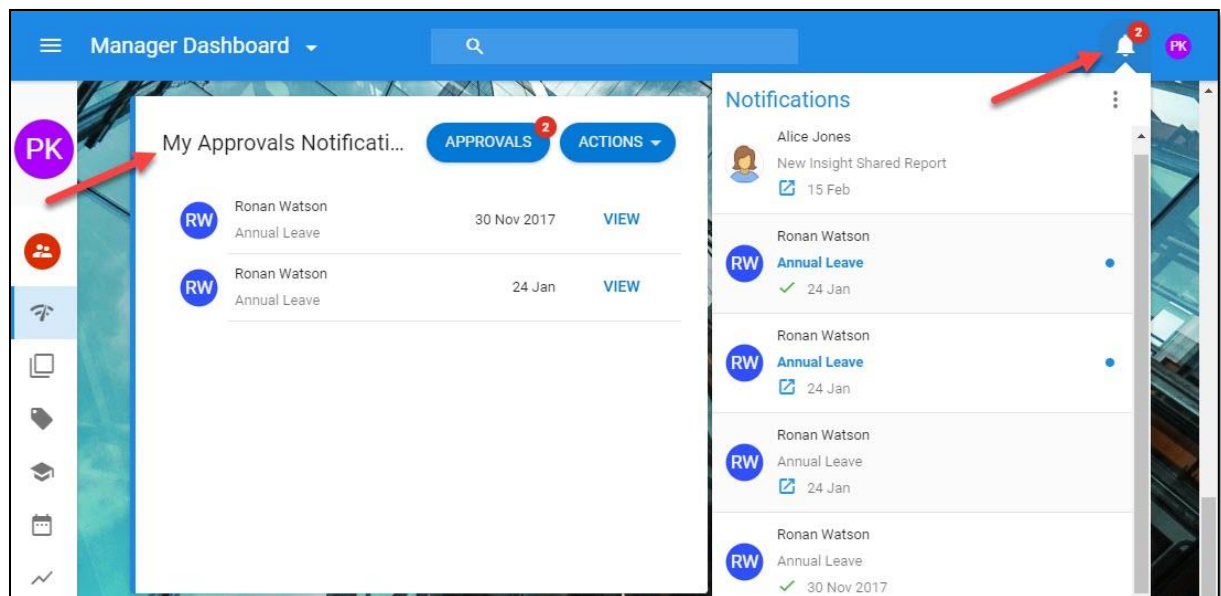

It is possible to configure *PeopleXD* to allow employees manage their own *Leave Requests*. This allows employees to submit *Leave Requests* to their managers for approval. It is also possible for employees to view and edit already submitted requests if required.

From their *Employee Dashboard*, employees can review the status of their requests, and make amendments as required, via the *My Requests* widget. The *My Requests* widget is shown in the below screenshot.

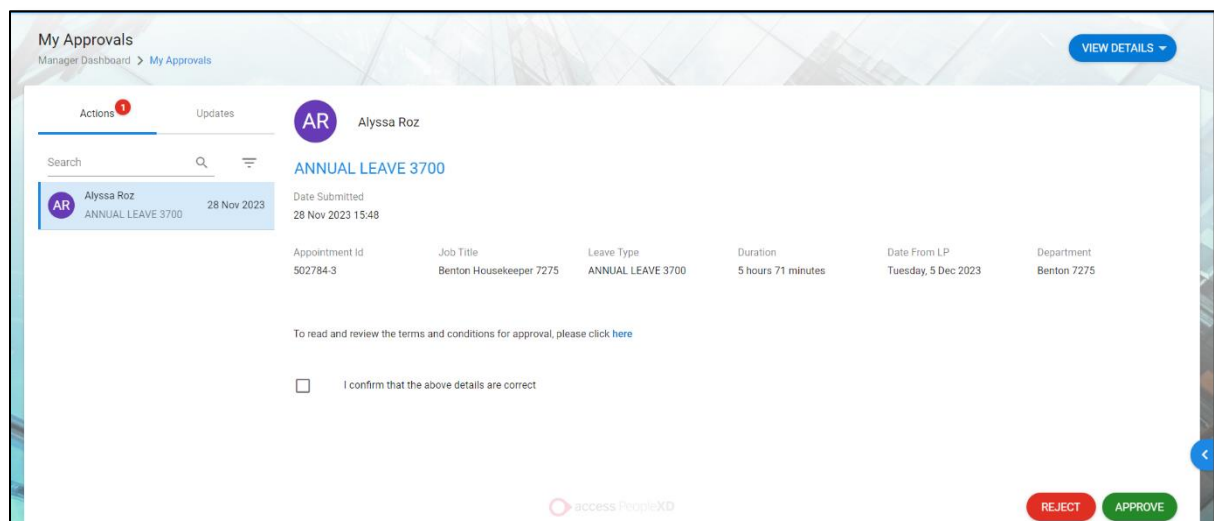

WFM: Leave Requests and Absences

Managers receive *Notifications* indicating they have requests that require action. They can then approve and/or reject the employee *Leave Requests* via the *My Approvals* screen. It is also possible for managers to drill into the employee's balance information and view the *Team Calendar* to aid in approval decision making. The below screenshot details both *Notifications*, and the *My Approvals Notifications* widget.

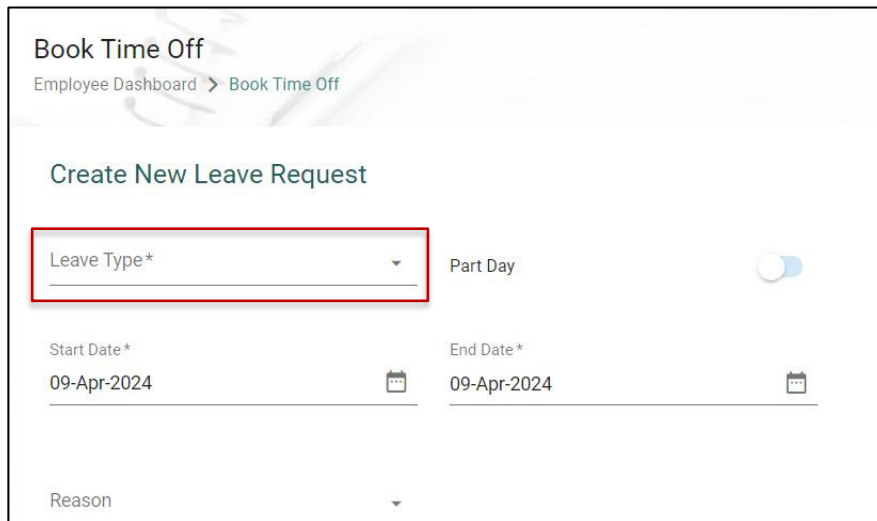

The below screenshot shows the *My Approvals* screen.

1.2.1. Leave Types

Leave Types are represented by configuring *Absence Pay Codes* within the system. By configuring a *Pay Code* as *Absence*, this allows for it to be available in the *Leave Type* drop-down lists, when an employee is entering a *Leave Request*, or a manager is entering absence for an employee.

The screenshot shows the 'Book Time Off' interface. At the top, it says 'Book Time Off' with a breadcrumb 'Employee Dashboard > Book Time Off'. Below this is the heading 'Create New Leave Request'. The form includes a 'Leave Type*' dropdown menu, which is highlighted with a red rectangular box. To the right of this is a 'Part Day' toggle switch. Below the dropdown are two date fields: 'Start Date*' with the value '09-Apr-2024' and 'End Date*' with the value '09-Apr-2024'. At the bottom is a 'Reason' dropdown menu.

Some examples of *Leave Types* that can be configured within the system are:

- Annual Leave
- Certified Sick Leave
- Graduation Day
- Parental Leave
- Study Leave
- Wedding Leave
- Bereavement Leave
- Force Majeure
- Jury Service
- Paternity Leave
- Uncertified Sick Leave

For further information on configuring a *Pay Code* as *Absence*, view section [5.2.3. Leave Request Pay Code Setup](#).

1.2.2. Leave Request Workflow - Standard

The below example outlines a high-level *Leave Request* workflow, where an employee submits a *Leave Request*, which is then approved by their manager.

1. Via the *My Requests* widget the employee submits a *Leave Request*.
2. The employee receives a *Notification*, indicating that the *Leave Request* has been successfully submitted.

3. The manager receives a *Notification* indicating that they have a *Leave Request* requiring action.
4. The manager reviews the *Leave Request* and can either, approve or reject the Leave Request.
5. The employee will receive a *Notification* indicating that their *Leave Request* has been either approved or rejected.

For further information on *Leave Request* processes, view the applicable sections below:

- [Employee Self Service](#)
- [Manager Self Service](#)

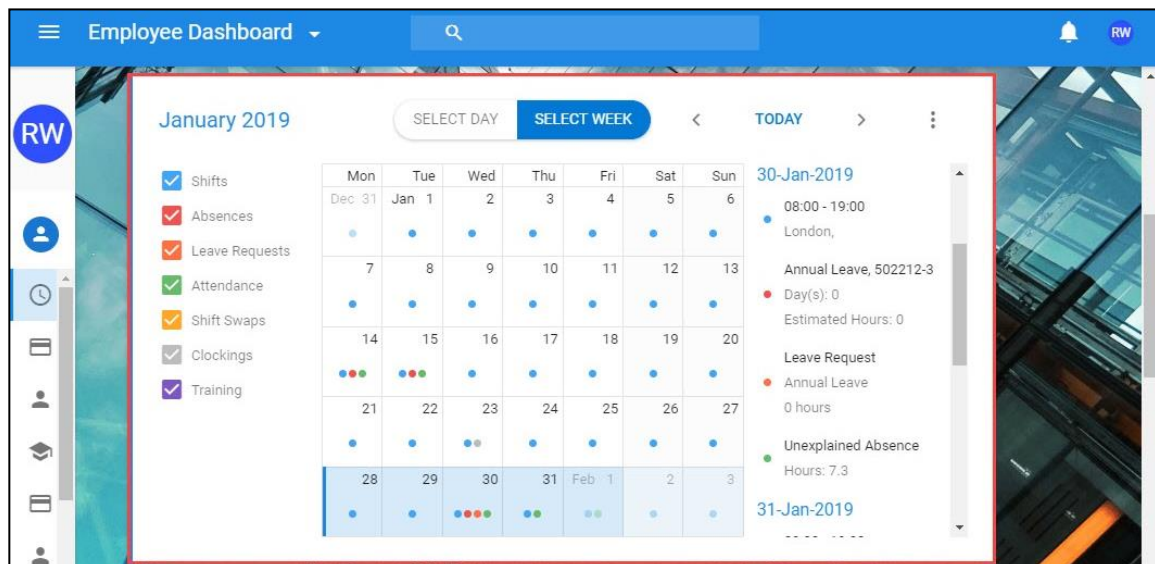

1.2.3. Leave Requests versus Absences

The following points should be taken into consideration regarding *Leave Requests* and *Absences*:

- A *Leave Request* is submitted by an employee and must be actioned by a manager, to either approve or reject it, before it is an official absence.
- An *Absence* can be directly entered on an employee record, by a manager.

When a *Leave Request* date has passed, it is seen as an historical timesheet within the system.

This *Leave Request* then shows as an *Absence*.

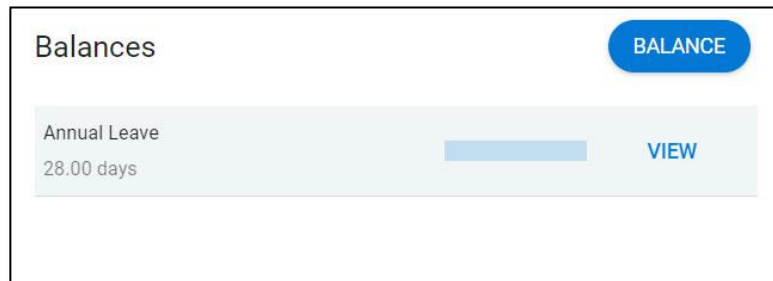

1.2.4. Balances

Balances, such as *Annual Leave*, can be assigned to employee records within the system.

WFM: Leave Requests and Absences

Employees can then use these balances to submit *Leave Requests* until fully used, subject to being *Active Balances*. It is possible for employees to review their balance information via the *Balances* widget.

It is possible for managers and/or admin users to review and manage balances for employees within their Org Role remit. Managers can review employee balances, manage existing balances, and assign new balances. The Balances screen can be accessed from various locations.

For further information on *Balances*, view section [2. Balances](#).

2. Balances

2.1. Accessing the Balances Screen

The Balances screen can be accessed from various locations within PeopleXD, these are outlined below:

Access from People Management

To access *Balances* from *People Management*:

1. From the *Command Centre* widget, select **View** Employees.
2. Search for and **View** the applicable employee.
3. From the left-hand menu, select **Balances**.
4. The Balance screen displays, for the Employee.

Access from WFM Admin Dashboard

To access *Balances* from WFM Admin Dashboard:

1. Select *WFM Person Maintenance*, expand the 3-dot menu of the applicable user, select **Balances**.
2. The Balance screen displays, for the Employee.

Access from Manager Dashboard

To access *Balances* from the *My Team* widget:

1. From the *My Team widget*, expand the 3-dot menu of the applicable user, select **HR Dashboard**.
2. From the left-hand menu, select **Balances**.
3. The Balance screen displays, for the Employee.

Access from Workforce Management

To access *Balances* from Workforce Management:

1. Select *Team Balances*, expand the 3-dot menu of the applicable user and select **Balance Information**.
2. The Balance screen displays, for the Employee.

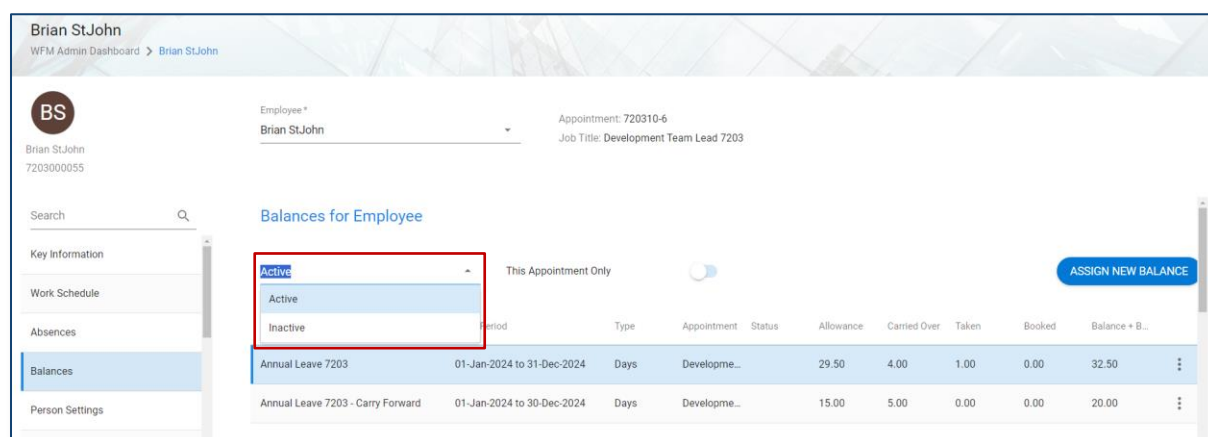

Further versions of the *Balances* screen are also available from:

- **Employee Dashboard** > *My Profile* > *Time Management* > *Balance Information* screen (View Only).
- **Employee Dashboard** > *Balances widget* > *Balances (View Only)*.
- **Manager Dashboard** > *My Team Widget* > *View Profile* > *Time Management* > *Balance Information* screen.

2.2. The Balances Screen

The *Balances* screen allows you to view the balance assigned to the employee. This displays all active balances assigned to the employee with transactions relating to the selected balance at the bottom section of the screen.

If configured, users can also view inactive balances which means a new balance can be assigned to the employee directly from this screen.

The screen can be filtered using the following options:

Option	Details
Active	This allows you to filter the display by Active or Inactive balances.
This Appointment Only	This toggle can be used if a user has multiple appointments. Enable to display active/inactive balances for the selected appointment only.

The **Balances** contains the following fields:

Field	Details
Balance	This displays the balance name.
Open Period	This is the current period.
Type	This displays the type of balance e.g., days.
Appointment	This displays the appointment the balance is assigned to.
Allowance	This displays the users balance allowance for the current period.
Carried Over	This displays the carried over balance to the current period.
Taken	This displays the balances taken for the current period.
Balance	This displays the total balance available for the current period.
Booked	This displays the booked balances not yet taken.
Balance + Booked	This displays a total remaining balance for the current period.
Delete	This allows you to delete the balance.

2.3. Managing Balance Assignments

2.3.1. Terminology

When assigning a new balance, only fields applicable to the balance selected are displayed. The table below provides explanations for each field:

Field	Explanation
Reserved entitlement	Refers to the portion of your entitlement that must be taken on certain days. You cannot choose when to take it. For example, a factory shutting down for two weeks in July.
Floating entitlement	Portion of your entitlement that you are free to take anytime (subject to approval and outage periods) i.e. you get an entitlement at the start of the year and you can take the leave any time (you don't have to wait until you have worked it up).
Accrued entitlement	Used for certain employees (casual employees, or employees working variable hours). They accrue their entitlements to leave over time (as opposed to getting their full entitlement at the start of the leave period).

Field	Explanation
Allowance	This is <i>Reserved + Floating + Accrued</i>
Carried Forward	This holds the days/hours that were automatically carried forward from the previous period into this period. Managers/Admins can manually adjust this also. The <i>Carried Over + Entitlement</i> values = <i>Balances</i> .
Taken	These hours are calculated to the employee's T&A record based on <i>Booked Absences</i> or <i>Approved Requests</i> . (This can be overridden).
Booked	This is leave requested that has been approved but not taken.
Requested	This is leave requested that hasn't been approved regardless of whether it is in the future or not.
Remaining	This is the remaining balance. This does <u>not</u> include requested leave.

There are three main variations of the *Assign New Balance* screen:

- **Variation 1:** Balances where the entitlement is *Auto Derived* from the employee's position, for example their *Pay Scale*, *Organisation Structure Element*; their *Company* or *Category*.
- **Variation 2:** Balances that are set up as *Balance Only* balances.
- **Variation 3:** Other balances – not set up as either Variation 1 or Variation 2.
- **Variation 4:** Balance start date and end date fields are only displayed if the balance selected is set up as a *Personal Calendar Balance*.

View section [5.1 Balance Types](#) for *Balance Variation* driving parameter configuration.

2.3.2. To Assign a New Balance

From the Balance Overview screen:

1. Click **Assign New Balance**.
2. Select the **Balance** from the dropdown options.
 - Based on the balance selected different fields are available to populate.
3. Complete the balance details, using the dropdown options available. Ensure all mandatory fields are entered.
4. Click **Save**.

Variation 1: Auto Derived Entitlement

If the balance selected is set up so that the entitlement is *Auto Derived* from the employee's position, for example their *Pay Scale*, or *Organisation Structure Element*. There is no option to enter entitlement *Starting Values* or *Entitlement Codes*.

1. Expand **Balances** and select the applicable balance.
2. Expand **Period** and select the applicable period.
 - The **Starting Values** fields and **Entitlement Codes** are not editable for this variation.
3. Select **Save**.

Add Balance

Variation 2: Maintain Only Balance

If a *Balance Only* balance, there is no option to enter entitlement *Starting Values* other than the *Starting Balance*, or *Entitlement Codes* other than the *Balance Entitlement Code*. There is also no option to enter a *Length of Service* code. If the balance is set up with a display format of *Minutes*, then the *Balance Type* defaults to Hours, as this is the only applicable option.

1. Expand **Balances** and select the applicable balance.
2. Expand **Period** and select the applicable period.
3. Expand **Balance Type** and select the applicable balance type.
4. Enter the **Starting Balance**.
5. Select the **Balance Entitlement Code**.
6. Click **Save**.

Additional Information

The balance listing of values will include any valid balances that you have access to, that have not already been assigned to the employee.

When adding a balance via the *Add Balance* screen, *Balance Type* and *Balance Segment* are mandatory fields. *Balance Segment* defaults to null, therefore, you must explicitly choose an option from the listing of values.

If the balance is set up to display in 'Minutes', then the *Balance Type* defaults to 'Hours'. If the balance is set up to display in 'Decimal' then the *Balance Type* defaults to null, therefore the user must explicitly choose 'Days', 'Hours' or 'Occurrences' from the listing values.

Note:

- Only users with the *See Hidden Balances* access privileges can view *Hide on PeopleXD* balances.
- A balance is not valid if it does not have a calendar set-up.

2.4. Balance Options

It is possible to complete the following actions on an employee's existing balance, from the *Balances* screen:

- Balance Adjustment
- Entitlement Basis

WFM: Leave Requests and Absences

- Recalculate
- Deactivate
- Edit Set Up
- Delete

FAS Balance - DS-32509	01-Jan-2024 to 31-Dec-2024	Occurrenc...	QA Engine...		0.00	0.00	4.00	0.00	

2.4.1. To make a Balance Adjustment:

1. Select **Balance Adjustment** from the 3-dot menu.
 - You are prompted to enter the following, using the dropdown options available:
 - Balance
 - Date Effective
 - Adjustment Amount
 - Period
 - Adjust
 - Reason for Adjustment, if required
 - If you do not enter a reason for adjustment and the *Comments Mandatory on Adjustments* toggle has been enabled when the balance was created, then when you save you will receive an error, 'Please review this form for errors' and the *Reason for Adjustment* field is highlighted. For further details on Balance Configuration see our [guide](#).
2. Once completed, click **Calculate Balance**.
 - You will be prompted to confirm the *Calculate from Period*, click **OK**.
3. Click **Save**.
4. The Adjustment will display under Adjustment History.

2.4.2. To view Balance Entitlements:

Entitlement Basis means that the employee's balance is calculated based on their *Position History*, or their *FTE*. To view the *Entitlement Basis* of a balance.

1. Select **Entitlement Basis** from the 3-dot menu.
2. The Balance Entitlement displays.

This displays the *Entitlement Basis* view only screen. It is not possible to input history on this screen via PeopleXD. This screen displays descriptions rather than codes.

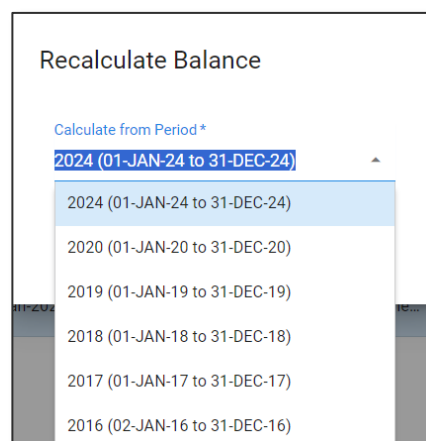

Entitlement Basis is only an option for balances configured with the following *Parameters*. See our [Balance Configuration](#) guide for further guidance:

- Populate Position History Details.
- Populate Status/FTE Details.
- Calculate Entitlement Based on Position History.

2.4.3. To Recalculate a balance:

As standard, all balances re-calculate as part of the overnight daily calculation job to ensure any changes, taken, or booked adjustments to the balances are brought up to date. However, it is possible action this calculation manually per employee, to view the balance after adjusted.

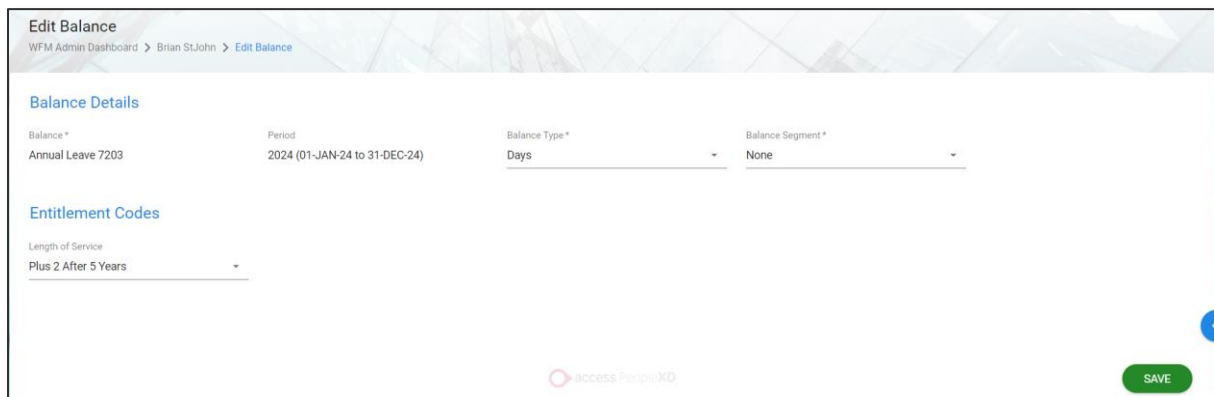

1. Select **Recalculate** from the 3-dot menu.
2. Select the *Calculate from Period* you wish to calculate.

3. Click **OK**.

2.4.4. To Edit the Setup of a Balance:

1. Select **Edit Setup** from the 3-dot menu.
2. Make the changes as applicable.
3. Click **Save**.

The screenshot shows the 'Edit Balance' form in the WFM Admin Dashboard. The breadcrumb trail is 'WFM Admin Dashboard > Brian St. John > Edit Balance'. The form is titled 'Edit Balance' and has a 'Balance Details' section. It contains the following fields:

- Balance ***: Annual Leave 7203
- Period**: 2024 (01-JAN-24 to 31-DEC-24)
- Balance Type ***: Days
- Balance Segment ***: None

Below the 'Balance Details' section is an 'Entitlement Codes' section with a 'Length of Service' dropdown menu set to 'Plus 2 After 5 Years'. At the bottom right of the form is a green 'SAVE' button. The footer of the form includes the 'access PeopleXO' logo.

2.4.5. To Deactivate a Balance:

It is possible to **Deactivate** active balances from the active view. This effectively marks the balance as inactive. Inactive balances are displayed in the *Inactive View* and can be **Reactivated**.

It may be required to make a balance inactive, to stop an employee submitting leave requests against it. For example, if a company had a temporary initiative for employees to take 'Innovation Days' or 'Wellness Days', these balances can be made **Active** or **Inactive**, as required.

1. Select **Deactivate** from the 3-dot menu.
 - The balance will automatically deactivate the balance, and it will be removed from the active balances screen.

If a balance needs to be restored:

1. Filter the Balances screen to **Inactive**.
2. From the 3-dot menu of the relevant balance, select **Activate**.
3. The balance will be restored.

2.5. People Management HR Task Lists

It is possible to configure People Management HR Task Lists to include Balances. For example, a New Starter or Re-joiner Checklist etc. where you can add a *Balances* task.

- Adding a *Balances* task makes it possible to navigate directly to the *Balances* screen from the *HR Task Lists* and **Activate** any required balances.
- When accessed from a *HR Task List*, the *Balances* screen has a **Complete** button. Therefore, it is possible to mark the task as complete, upon actioning and completing the task.

See our [Configuring Task Lists](#) guide for further guidance or watch the [video](#).

3. Employee Self Service

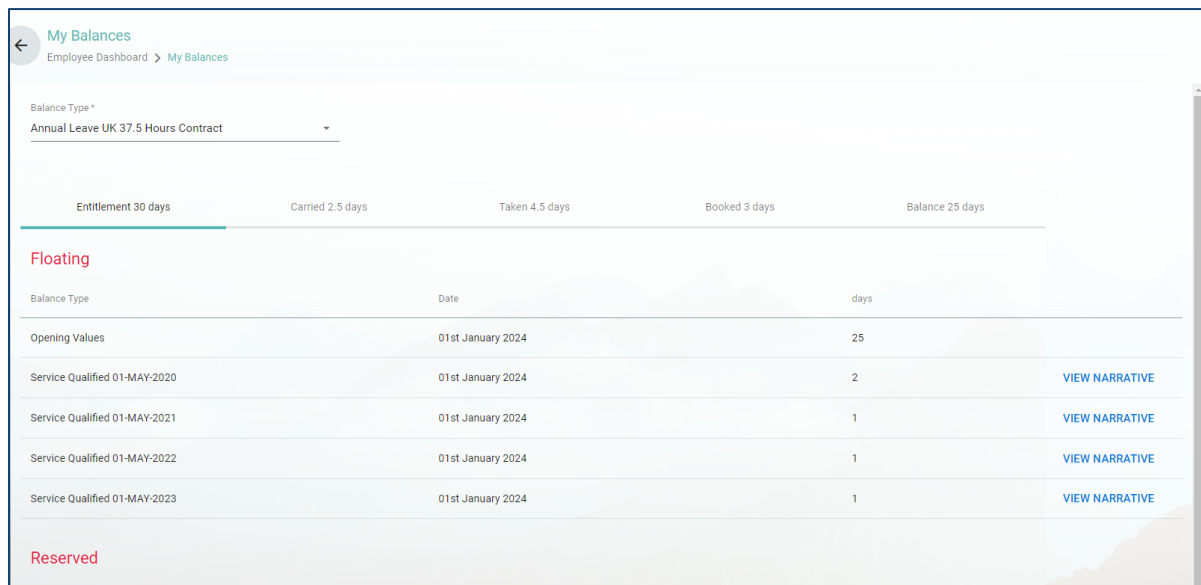

3.1. View Balances

It is possible for employees to view their balance information from various widgets within the Employee Dashboard/My Dashboard or via *My Profile*.

Widget / Screen	Accessing the screen
Balances	1. <i>Quick Jump to Balances.</i> 2. Select Balances.
My Work Week	1. <i>Quick Jump to My Work Week.</i> 2. Select Actions > Book Time Off > Balance Detail.
Calendar Board	1. <i>Quick Jump to Calendar.</i> 2. Expand the 3-dot menu > Book Time Off > Balance Detail.
My Requests	1. <i>Quick Jump to My Requests.</i> 2. Select Book Time Off > Balance Detail.
My Profile	1. Click My Profile. 2. Expand Time Management > Balance Information.

To view Balance Information:

1. From the *Employee Dashboard/My Dashboard*, select **Time**.
2. Navigate to the **Balances** widget.
 - Here it is possible to view all balances assigned to your employee record.
3. To view individual balance information, click **View**.
4. The *My Balances* screen displays for the balance type.

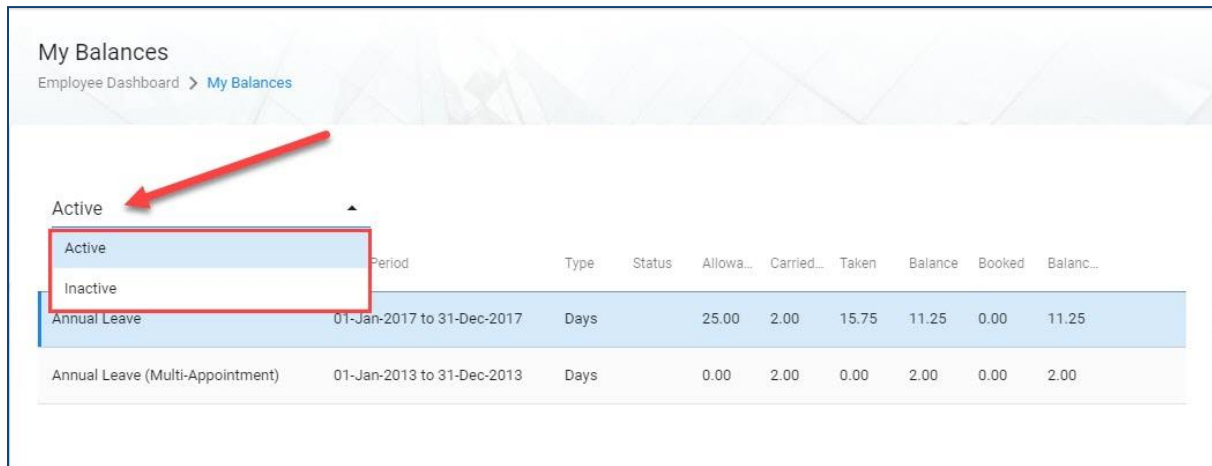

The **My Balances** screen contains the following fields:

Field	Description
Balance Type	This displays the name of the Balance type e.g., Annual Leave. Use the dropdown options to change the view to other balance types, if applicable.
Entitlement	This displays the entitled value for this balance assigned to the user e.g., 30 days Annual Leave.
Carried	This displays any balances carried forward, from the previous period, for this balance type.
Taken	This displays any balances taken in the current period.
Booked	This displays any balances booked in the current period.
Balance	This displays the remaining balance available to take.
Floating	This displays total balance available to take. For example, Entitlement + Carried + Accrued.
Reserved	This displays and balances booked but not taken.
Accrued	This displays and accrued balances.

To view Balance Information on all *Balance Types*

1. From the *Balances* Widget.
2. Click **Balance**.
3. The *My Balances* screen displays balance information relating to all *Balance Types*.
 - Here it is possible to specify **Active** or **Inactive Balance Types**, if required.

My Balances
Employee Dashboard > My Balances

Active

Active
Inactive

	Period	Type	Status	Allowa...	Carried...	Taken	Balance	Booked	Balanc...
Annual Leave	01-Jan-2017 to 31-Dec-2017	Days		25.00	2.00	15.75	11.25	0.00	11.25
Annual Leave (Multi-Appointment)	01-Jan-2013 to 31-Dec-2013	Days		0.00	2.00	0.00	2.00	0.00	2.00

It is also possible to view balance information via the *Balance Information* screen, accessed from *My Profile*.

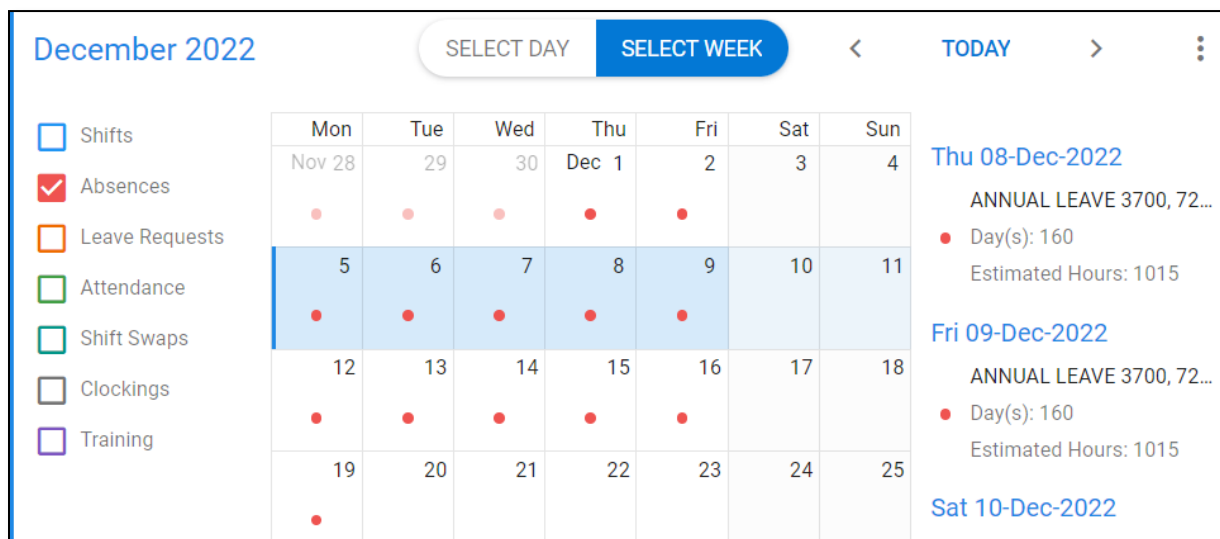

1. Select **My Profile**.
2. Expand **Time Management**.
3. Select **Balance Information**.

3.2. View Leave Requests & Absences

3.2.1. Calendar Widget

It is possible for employees to view their *Absences* and *Leave Requests* via the *Calendar* widget on the Employee /My Dashboard.

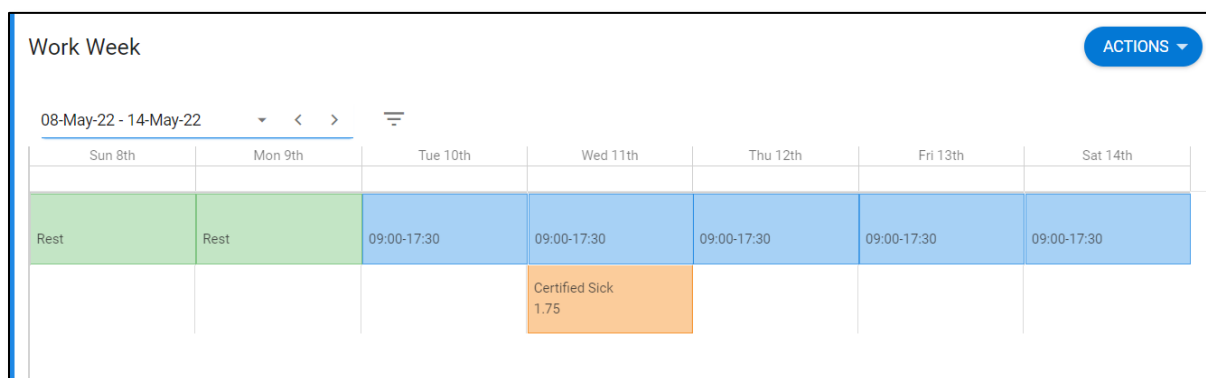

1. *Quick Jump to Calendar*.
2. Tick **Absences** or **Leave Requests**.
 - It is possible to click on the applicable date or week. This displays additional detail, regarding the absence or leave request, to the right of the *Calendar* widget.

3.2.2. Work Week

It is possible for employees to view their *Absences* and *Leave Request* from the *Work Week* widget on the Employee/My Dashboard.

1. *Quick Jump to Work Week.*
2. Navigate to the applicable week.

3.2.3. Co-Workers Leave / Absence

It is possible for employees to view Co-Worker Leave/Absence from the Team Calendar which can be accessed from various widgets within the Employee Dashboard/My Dashboard.

Widget / Screen	Accessing the screen
My Work Week	1. <i>Quick Jump to My Work Week.</i> 2. Select Actions > Co-Workers Leave/Absence.
Calendar Board	1. <i>Quick Jump to Calendar.</i> 2. Expand the 3-dot menu > Co-Workers Leave/Absence.
My Requests	1. <i>Quick Jump to My Requests.</i> 2. Expand the 3-dot menu of a leave request > Co-Workers Leave/Absence.

Here it is possible to view the rostering of colleagues within your team. Using the **Absences Only** toggle you can refine the view to only display colleagues Absences.

The screenshot shows the 'Team Calendar' interface. At the top, there's a header with 'Team Calendar' and a breadcrumb 'My Dashboard > Team Calendar'. Below this is a toggle switch labeled 'Absences Only' which is currently turned on. The main area is a calendar grid for the week of 21-May-2024 to 27-May-2024. The grid has columns for each day: Mon 20th, Tue 21st, Wed 22nd, Thu 23rd, Fri 24th, Sat 25th, and Sun 26th. On the left, there's a list of colleagues with their names and roles. Each colleague's row in the calendar grid shows their absence status for each day, with color-coded cells (e.g., light blue for 'Resting - AM01', light green for '09:00-17:00 - AM01').

Name	Mon 20th	Tue 21st	Wed 22nd	Thu 23rd	Fri 24th	Sat 25th	Sun 26th
Jane Smith (7264000006) Store Manager 7264	Resting - AM01	09:00-17:00 - AM01	09:00-17:00 - AM01	09:00-17:00 - AM01	09:00-17:00 - AM01	09:00-17:00 - AM01	Resting - AM01
Filipe Blogos (7264000013) Colleague	09:00-17:30 - AM01	09:00-17:30 - AM01	09:00-17:30 - AM01	09:00-17:30 - AM01	09:00-20:00 - AM01	09:00-17:30 - AM01	09:00-17:30 - AM01
Saoirse Butler (003052) Deputy Manager 7264							
Tom Cahill (7264000010) Deputy Manager 7264	Resting - AM01	09:00-17:00 - AM01	09:00-17:00 - AM01	09:00-17:00 - AM01	09:00-17:00 - AM01	09:00-17:00 - AM01	Resting - AM01

3.3. Leave Request Management

3.3.1. Submit a Leave Request

The *Create New Leave Request* screen is where users can submit a leave request. This screen can be access via various widgets on the Employee/My Dashboard by selecting *Book Time Off*.

Widget / Screen	Accessing the screen
My Requests	1. Quick Jump to My Requests 2. Select Book Time Off.
My Work Week	1. <i>Quick Jump to My Work Week.</i> 2. Expand Actions > Book Time Off.
Calendar Board	1. <i>Quick Jump to Calendar.</i> 2. Expand the 3-dot menu > Book Time Off.

Once selected the **Create New Leave Request** screen will display.

The screenshot shows the 'Book Time Off' screen with a breadcrumb trail 'My Dashboard > Book Time Off' and an 'ACTIONS' button. The main heading is 'Create New Leave Request'. The form includes the following fields:

- Appointment:** A dropdown menu currently showing 'Store Manager 7264' with a 'Select An Appointment' placeholder below it.
- Leave Type*:** A dropdown menu.
- Part Day:** A toggle switch currently turned on.
- Start Date*:** A date field showing '23-May-2024' with a calendar icon.
- End Date*:** A date field showing '23-May-2024' with a calendar icon.
- Start Time*:** A time selection dropdown.
- End Time*:** A time selection dropdown.
- Comments*:** A text area for additional notes.

At the bottom right, there is a 'access PeopleXD' logo and a green 'SUBMIT' button.

The **Create New Leave Request** screen contains the following fields:

Field	Description
*Appointment	By default this will display your Appointment. If on a Multi Appointment site, you can use the drop-down options to select the appointment the leave request is to be associated with.

Field	Description
Leave Type	Select from the dropdown options the required Leave Type e.g., Annual Leave, Holiday Entitlement Accrual.
Start Date	Enter the Start Date of the leave request.
End Date	This will display for Full Day(s) leave requests only. Enter the End Date of the leave request.
Start Time	Depending on configuration the option to enter the Start Time for the leave request is displayed.
End Time	Depending on configuration the option to enter the End Time for the leave request is displayed.
Part Day	Enable the toggle if not taking a full day's leave.
Time of Day	Depending on configuration this can display if the <i>Part Day</i> toggle is enabled. Select from the dropdown options the time of day the leave request relates to. Options available are: • Morning • Afternoon
Part of Day	Depending on configuration this can display if the <i>Part Day</i> toggle is enabled. Select from the dropdown options the part of the day the leave request relates to. Options available are: • 1/4 of a Day • 1/2 of a Day • 3/4 of a Day
Choose a Time	Depending on configuration this can display if the <i>Part Day</i> toggle is enabled. Select the specific number of hours and minutes you would like to request.
Hours	This will display if the <i>Choose a Time</i> toggle is enabled. Enter the number of hours you would like to request.
Minutes	This will display if the <i>Choose a Time</i> toggle is enabled. Enter the number of minutes you would like to request.

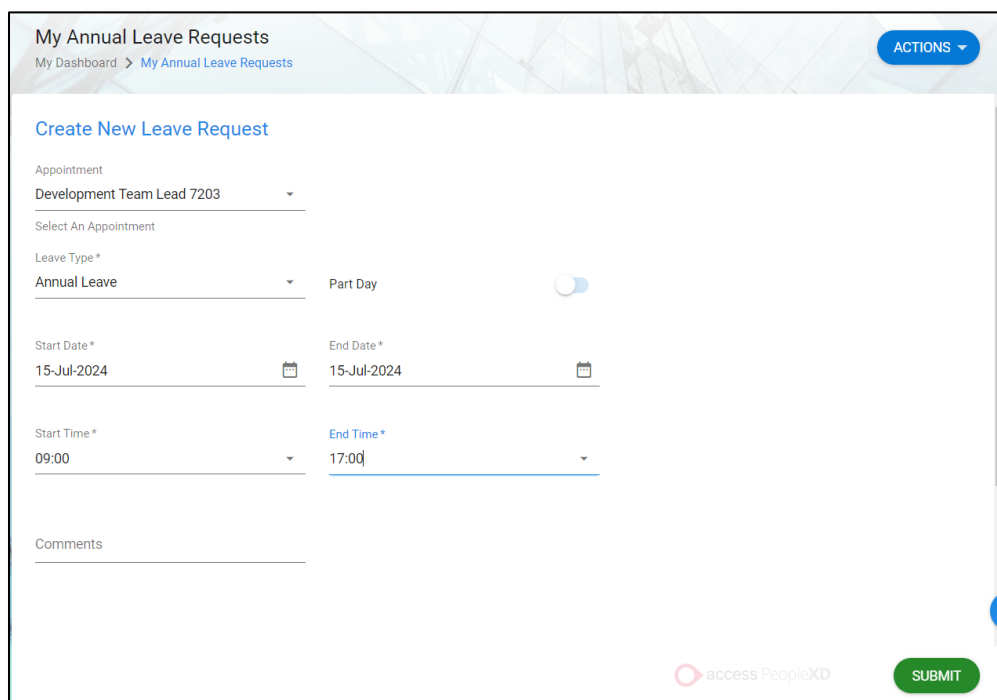

WFM: Leave Requests and Absences

Field	Description
Comments	This is a free text field where you can add any related comments for your manager regarding the leave request. Maximum field length 200 characters.

Complete the *Create New Leave Request* form for whichever variation of leave is required; ensuring all mandatory fields are populated and once happy, click **Submit**.

Examples of the how you might complete the different variations are shown below:

A Full Days Leave Request

The screenshot shows the 'My Annual Leave Requests' page with a 'Create New Leave Request' form. The form includes the following fields and options:

- Appointment:** Development Team Lead 7203 (dropdown menu)
- Select An Appointment:** (text input)
- Leave Type*:** Annual Leave (dropdown menu)
- Part Day:** Toggle switch (currently off)
- Start Date*:** 15-Jul-2024 (calendar icon)
- End Date*:** 15-Jul-2024 (calendar icon)
- Start Time*:** 09:00 (dropdown menu)
- End Time*:** 17:00 (dropdown menu)
- Comments:** (text input)

At the bottom right, there is a 'SUBMIT' button and a logo for 'access PeopleXD'.

Where [General System Parameters](#) have been used to configure Book Time Off (Leave Requests) & Absence Entry screens; employees are required to select the date of their full days leave.

A Part Day Leave Request – AM/PM

The screenshot shows the 'My Annual Leave Requests' form. At the top, there's a header with 'My Dashboard > My Annual Leave Requests' and an 'ACTIONS' button. The form fields are as follows:

- Leave Type ***: Annual Leave (dropdown)
- Part Day**: Toggle switch (turned on)
- Start Date ***: 15-Jul-2024 (calendar icon)
- Start Time ***: 06:30 (dropdown)
- End Time ***: 09:30 (dropdown)
- Time of Day**: Morning (dropdown)
- Choose a Time**: Toggle switch (turned on)
- Part of Day**: A dropdown menu is open, showing options: 1/4 of a day, 1/2 of a day, and 3/4 of a day.

At the bottom right, there is a 'SUBMIT' button and the 'access PeopleXD' logo.

Where [General System Parameters](#) have been used to configure Book Time Off (Leave Requests) & Absence Entry screens on selecting the Part Day toggle employees can select the *Time of Day* and *Part of Day* from the dropdown options.

A Chosen Time Leave Request

The screenshot shows the 'My Annual Leave Requests' form. At the top, there's a header with 'My Dashboard > My Annual Leave Requests' and an 'ACTIONS' button. The form fields are as follows:

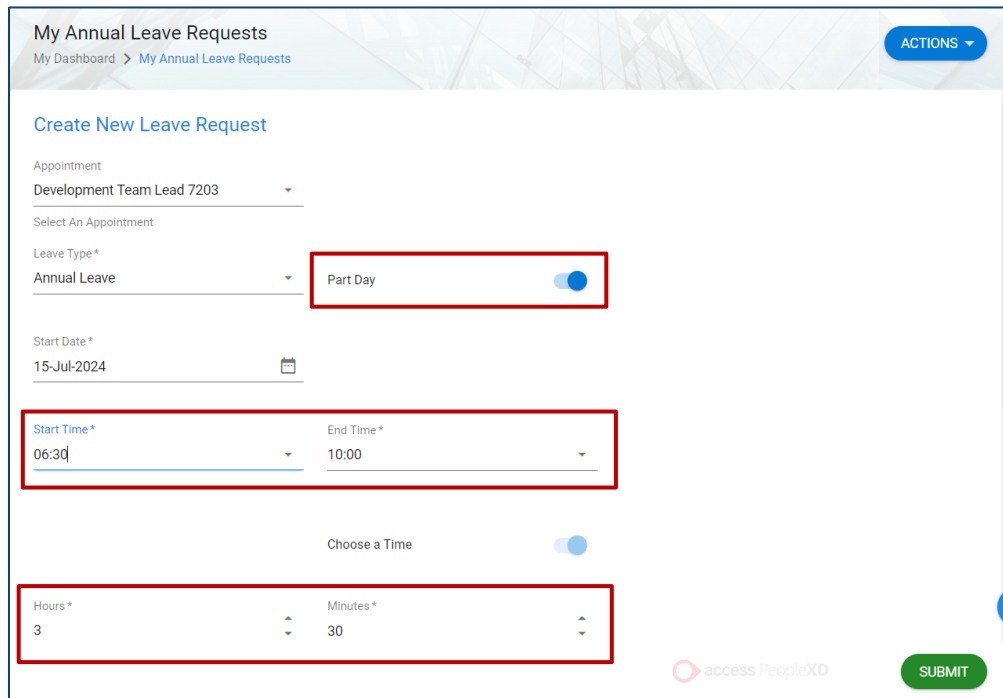

- Leave Type ***: Annual Leave (dropdown)
- Part Day**: Toggle switch (turned on)
- Start Date ***: 15-Jul-2024 (calendar icon)
- Start Time ***: 06:30 (dropdown)
- End Time ***: 10:00 (dropdown)
- Time of Day**: Morning (dropdown)
- Choose a Time**: Toggle switch (turned on)
- Hours**: 3 (up/down arrows)
- Minutes**: 30 (up/down arrows)
- Comments**: A text input field.

At the bottom right, there is a 'SUBMIT' button and the 'access PeopleXD' logo.

WFM: Leave Requests and Absences

Where [General System Parameters](#) have been used to configure Book Time Off (Leave Requests) & Absence Entry screens on selecting the Part Day toggle employees can select the *Time of Day* and specify the number of hours/minutes required.

A Part Day Leave Request – with Start & End Times

The screenshot shows the 'My Annual Leave Requests' interface. At the top, there's a header with 'My Dashboard > My Annual Leave Requests' and an 'ACTIONS' button. Below this is a 'Create New Leave Request' section. It includes a dropdown for 'Appointment' (Development Team Lead 7203), a 'Select An Appointment' link, and a 'Leave Type *' dropdown (Annual Leave). A red box highlights the 'Part Day' toggle switch, which is currently turned on. Below this is a 'Start Date *' field (15-Jul-2024). Another red box highlights the 'Start Time *' and 'End Time *' fields, with 'Start Time' set to 06:30 and 'End Time' set to 10:00. Below these is a 'Choose a Time' toggle switch, also turned on. A third red box highlights the 'Hours *' and 'Minutes *' fields, with 'Hours' set to 3 and 'Minutes' set to 30. At the bottom right, there's a 'SUBMIT' button and a 'access PeopleXD' logo.

Where enabled, see [section 5.2.8](#), on selection of a *Part Day* the Book Time Off & Absence Entry screens require users to enter start & end times supporting the part day absence.

- The Start Time is populated with the scheduled start time e.g. 09:00. If an employee's underlying schedule has no start or end time (e.g. Resting) the time defaults to 00:00
- Employees can update the Start Time and must enter an End Time.
- Once entered, the Hours/Minutes duration is automatically populated, based on the Times entered. Depending on the option configured for the **Start/End Time to Calculate Duration** the following will apply:
 - **No** – the duration is not calculated.
 - **Yes** - the duration is calculated based on the start/end times entered.
 - **Yes (Deduct Unpaid Breaks)** - the duration is reduced for unpaid breaks that cross over or occur between the start and end times entered.

WFM: Leave Requests and Absences

- On Submission, where the **Updates Allowed Validate to Schedule** is selected the Times entered are validated to the Employees underlying schedule start & end times.
- The Employee can update the Hours Duration, but the total Hours duration cannot exceed the end time minus start time duration.

Note: The Part Day Duration (e.g. AM/PM) is not available for selection as the duration is based on the Start/End times entered.

A Full Days Leave Request – with Start & End Times

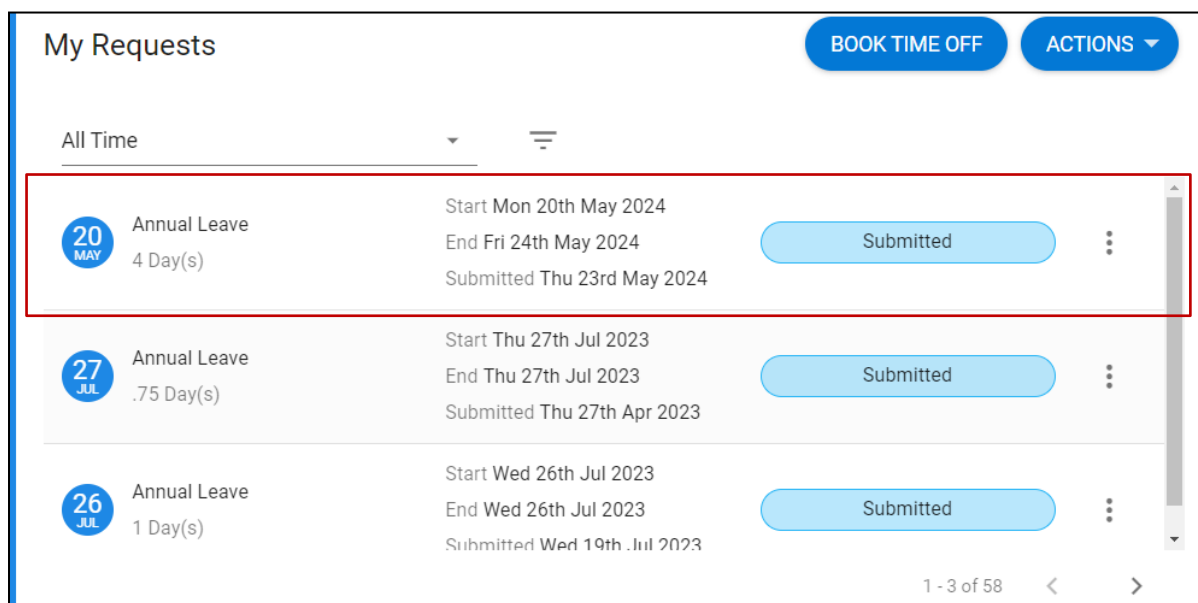

The screenshot shows the 'My Annual Leave Requests' interface. The 'Create New Leave Request' section is active. The 'Appointment' dropdown is set to 'Development Team Lead 7203'. The 'Leave Type' is 'Annual Leave'. The 'Start Date' is '15-Jul-2024' and the 'End Date' is '15-Jul-2024'. The 'Start Time' is '06:00' and the 'End Time' is '17:00'. The 'Start Time' and 'End Time' fields are highlighted with a red box. A 'SUBMIT' button is visible at the bottom right.

Where enabled, see [section 5.2.8](#), the Book Time Off & Absence Entry screens display the start & end times based on the employees underlying schedule.

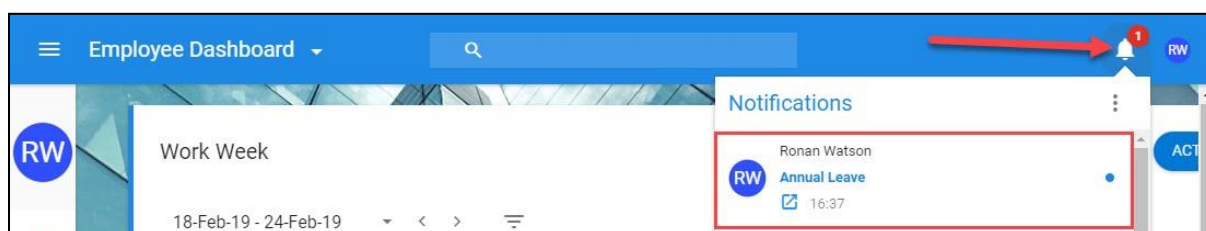

- The Duration is not available as the employee is requesting the full day or a date range.
- Where a date range is selected, it's the start & end time of their respective shifts/pattern from the employee underlying schedule. Note, if employee underlying schedule has not start or end time (e.g. Resting) the times default to 00:00
- Where **Updates Allowed** is selected, Employee can enter any start/end times.

WFM: Leave Requests and Absences

Once submitted successfully the leave request will display on the *My Requests* widget.

The system also generates a *Notification* to confirm that your *Leave Request* have been successfully submitted. You can drill down into the notification to see the Leave Request detail.

See [section 7 FAQ's](#) for a list of screens that display Start & End Times, if enabled.

3.3.2. Document Upload

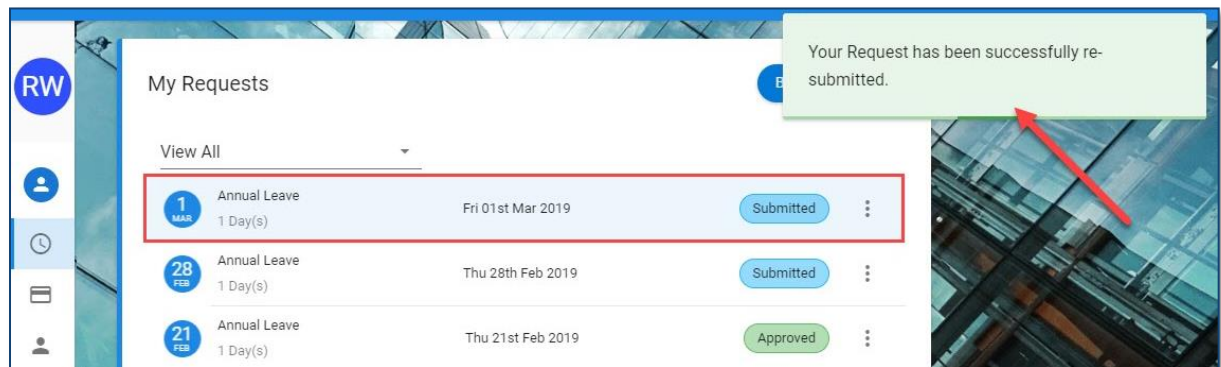

For further information on uploading supporting documentation as part of submitting a Leave Request, view the [Upload Documents](#) guide.

3.3.3. Editing Leave Requests

Note: It is only possible to **Edit** a *Leave Request* if its status is **Submitted**. Leave Requests that have the status of Approved, Cancelled or Rejected cannot be edited.

To edit a *Leave Request* from the *My Requests* widget:

1. *Quick Jump to My Requests*.
2. From the 3-dot menu of the request you wish to edit, select **Edit**.
3. The *Edit Request* screen displays.
4. Make your changes and click **Submit**.
5. The successfully edited *Leave Request* will now display.

3.3.4. Cancelling Leave Requests

Leave request cancellations can be configured to require Manager approval so managers are notified and leave cancellations can be completed from the Manager My Approval widget (see section [4.1.3 Manager Approval to Cancel Leave Requests](#))

An overview of the available employee leave cancellation options are:

- **Cancellations Not Allowed:** Leave requests cannot be cancelled once submitted.
- **Cancellations with/without Notification:** Notifications are sent to managers when an 'approved' leave request is cancelled. No action is required from the manager; this is for information only.
- **Cancellation with Workflow:** Notifications are sent to the manager, and action is required to approve or reject the cancellation of an 'approved' leave request.

Note: If cancellations are allowed, where leave requests are 'submitted', employees can cancel leave without notice, as the manager has not yet actioned the request.

WFM: Leave Requests and Absences

If Leave Cancellation has been allowed, the following parameters must be enabled to allow visibility of the 'Cancel' option. These can be accessed via: Administrator Dashboard>Site Manager>Admin Settings.

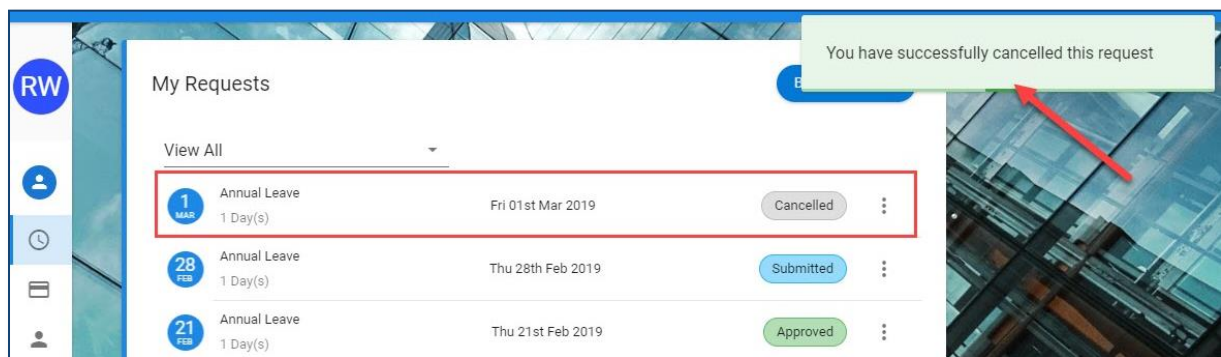

Parameter	Details
cp_leave_req_delete	Set to Y, to allow the 'Cancel' option on leave request bookings
cp_leave_req_func	Set to Y, to allow the 'Cancel' option on leave request bookings

For further guidance, see our [Pay Codes](#) guide.

Note: It's not possible to **Cancel** a *Leave Request* if its status is *Rejected* or reverse a *Leave Request Cancellation*.

To cancel *Leave Requests* from the *My Requests* widget:

1. From the 3-dot menu of the request you wish to edit, select **Cancel**.
2. The *Leave Request* is now successfully cancelled.

4. Manager Self Service

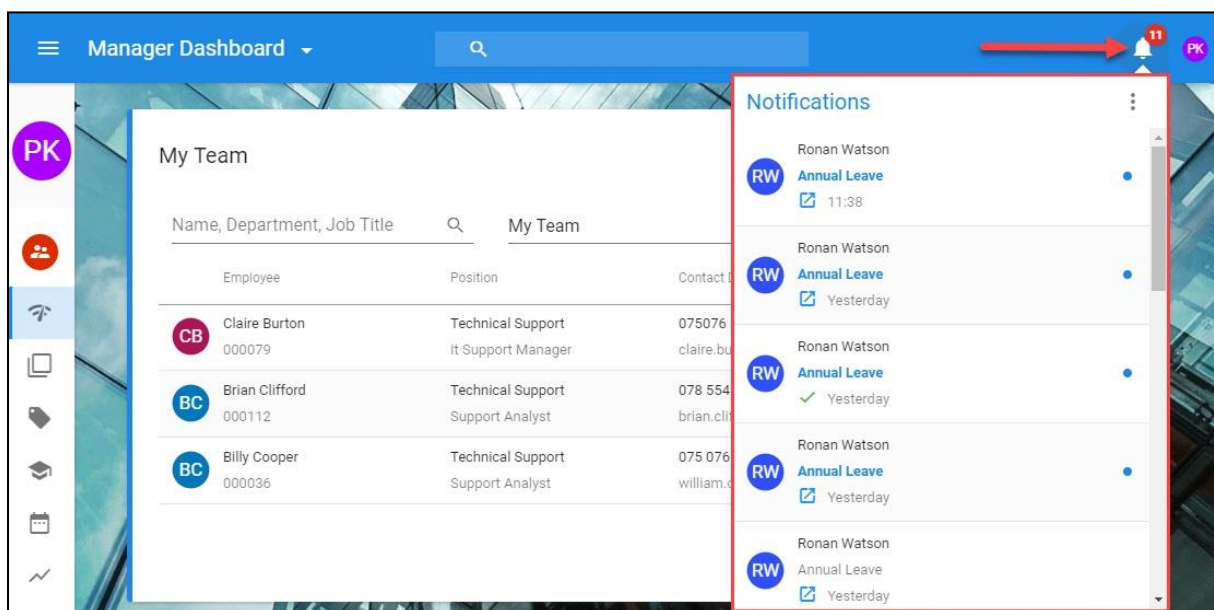

4.1. Approve / Reject Leave Requests

4.1.1. Notification Centre

When an employee submits a *Leave Request* for approval, their applicable manager receives a *Notification*, indicating that there is an alert to be actioned. This is displayed in the *Notification Centre* and also on the *My Approvals Notification Widget*.

The Notification Icon:

- The counter shows the number of unread notifications. For example, if there are 10 items on the list but 3 have been read, the counter will display 7.
- Alerts are displayed in descending order, based on the date generated i.e. most recent first.
- Unread alerts are flagged with a Dot.
- Action items (Approvals) are flagged with a Tick.
- Update items (*Notifications*) are flagged with Box and Arrow.

From the 3-dot menu you can access:

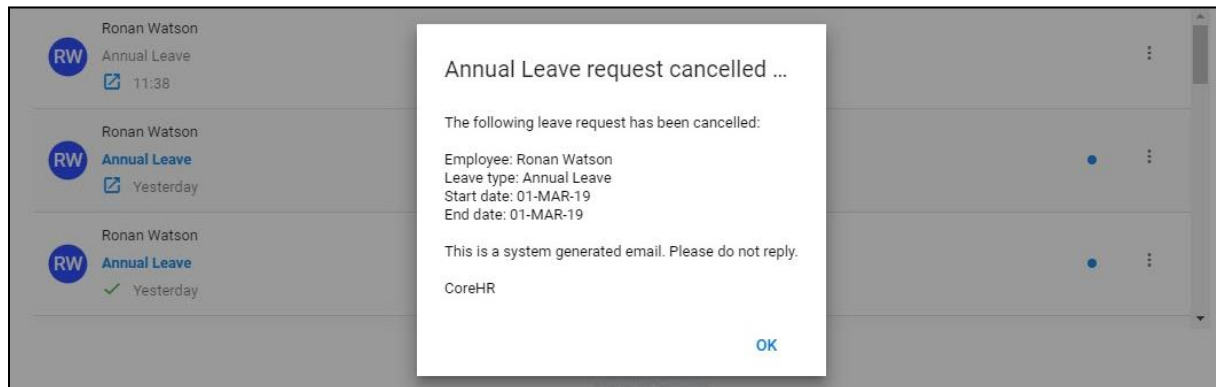

- The Notification Centre
- Mark All items as Read

WFM: Leave Requests and Absences

The Notification Centre displays all items. You can search the list of **Actions** and **Updates** using the Search field. This keyword search will return any records that match based on:

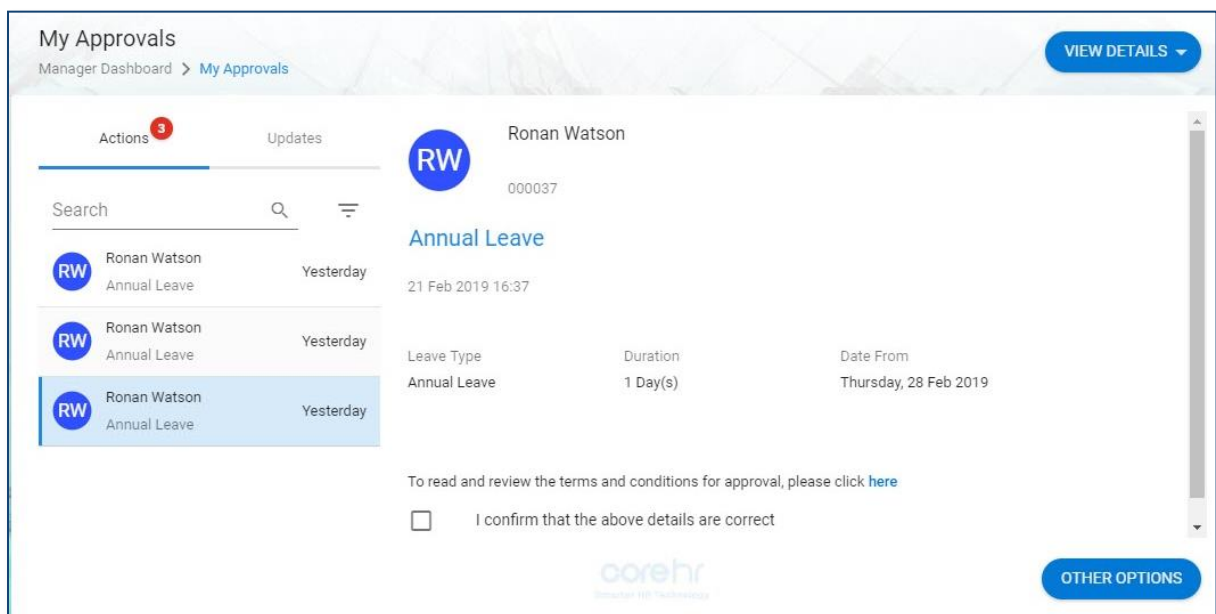

- Name or Employee number
- *Action* type or *Update* description, for example 'Annual Leave'

If you click on an *Update* item, the details are displayed, and the item will then be marked as Read and will remain on the list for 30 days.

If you click on an *Action* item, the *My Approvals* screen opens on that item, allowing you to complete the required actions. For example: **Approve** and/or **Reject**.

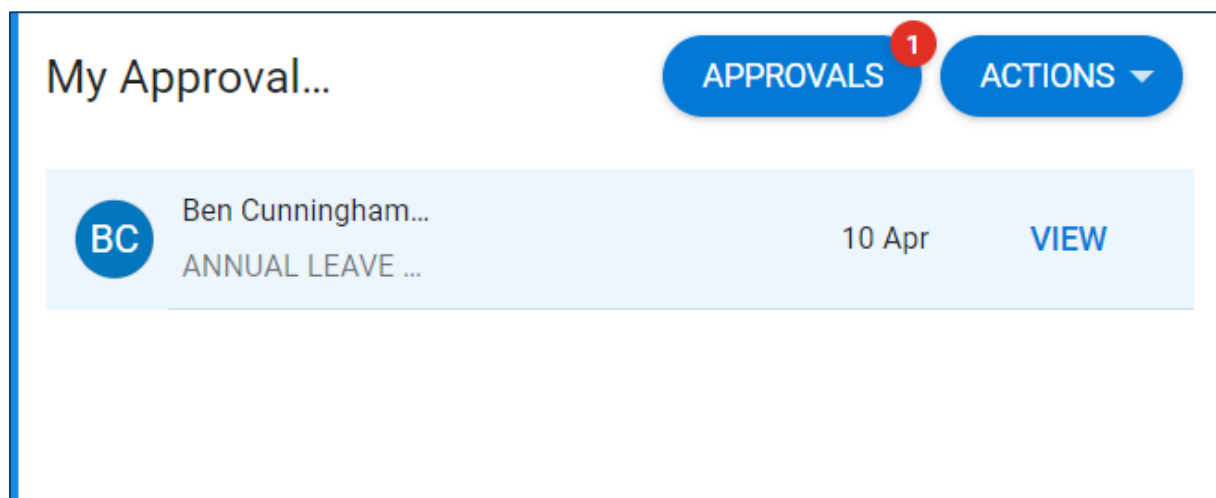

- The Action will be marked as Read on this list, even if the *Action* has not been completed.
- The item will continue to display on the list until the *Action* has been completed.
- Once the *Action* is completed, it is removed from the list.

Note: There is no counter for *Updates*, even if there are unread items.

4.1.2. My Approvals Notifications

The *My Approvals Notifications* widget is accessed via the Manager Dashboard and displays all outstanding *Actions*. This does not include *Updates*. This widget provides a clear view of the number of outstanding *Action* items awaiting approval in your queue.

Actions continue to appear on this widget until they have been fully completed. For example, **Approved** and/or **Rejected**.

From here you can:

- Click **Approvals** to access the *My Approvals* screen, where a full list of *Actions* is displayed. The counter on this button reflects the number of open action items, both read and unread.
- Click **View** button on an applicable *Action* to open the *My Approvals* screen on that specific item.
- Expand **Actions** to access:
 - Vehicle Approval History
 - Leave Approval History
 - Missed Clocking History
 - Expense Approval History
 - Advances Approval History
 - Shift Swap History

WFM: Leave Requests and Absences

If the *Leave Approval History* is selected this will display all your historic *Leave Requests Approvals*, and clearly shows their status. This screen can be filtered, or the Search field used to refine your view.

By expanding the 3-dot menu of a specific leave request you can access:

- **View Balances Details** for the employee.
- **View Employee Comments** for the applicable Leave Request.
- **View Manager Comments** for the applicable Leave Request.
- **Request Details** for the applicable Leave Request.

To **Approve** or **Reject** a *Leave Request*, from the *My Approvals* screen:

1. Click **Approvals** and select the applicable **Leave Request**.
 - or Click View against the relevant Leave Request
2. Details for the *Annual Leave* request is displayed for review.
3. Click **View Details** to view additional information regarding the Leave Request, if required.
4. Confirm the Leave Request details are correct by selecting the **I confirm that the above details are correct** checkbox.
5. Click **Approve** or **Reject**.
6. The *Leave Request* is now approved and removed from the *Action* list.

Annual Leave
21 Feb 2019 14:36

Leave Type: Annual Leave
Duration: 2 Day(s)
Date From: Tuesday, 5 Dec 2017
Date To: Wednesday, 6 Dec 2017
Reason: Unknown

Events occur on this date

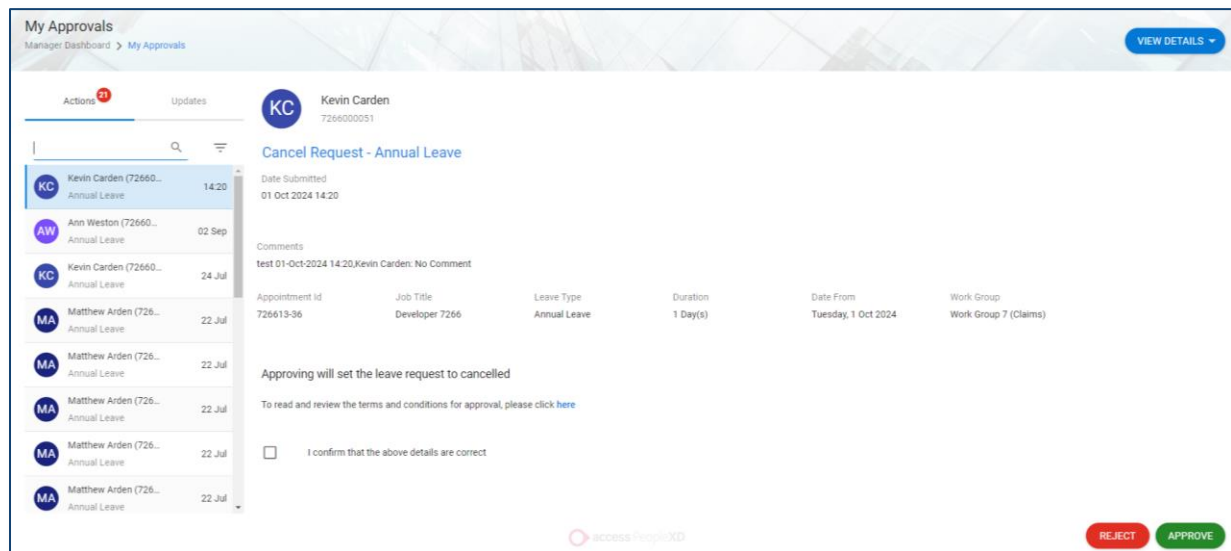

To read and review the terms and conditions for approval, please click [here](#)

☐ I confirm that the above details are correct

REJECT **APPROVE**

4.1.3. Manager Approval to Cancel Leave Requests

Where Leave request cancellations are configured to require Manager approval, see our [Pay Codes](#) guide, managers are notified and leave cancellation can be completed from the My Approvals screen.

From the *My Approvals* screen, you can **Approve** or **Reject** an employee's request to Cancel a previously approved Leave Request. The screen can be accessed via the Notifications Centre or My Approval Notifications widget.

To **Approve** or **Reject** a Cancellation of a *Leave Request*, on the *My Approvals* screen:

1. Click the **Actions** tab.
2. Select the applicable **Cancel Leave Request**.
 - Details for the *Cancelled* request is displayed for review.
 - Click **View Details** to view additional information regarding the *Cancel Request*.
3. Confirm the Cancel Leave Request details are correct by selecting the *I confirm that the above details are correct* checkbox.
4. Click **Approve** or **Reject**.
5. The *Leave Request* is now actioned and removed from the *Action* list.

4.1.4. Display Additional Information

WFM: Leave Requests and Absences

To provide extra detail when review your Approvals, it is possible to configure which item of additional information to display on the My Approvals screen.

1. Navigate to the *WFM Admin Dashboard* and select **WFM Configuration**.
2. Search for and select the **General Settings** tile.
3. From the Site Parameters section, locate the **Output Additional Contract Information** field.
4. Use the dropdown options to select the required additional information.
5. Click **Save**.
6. The additional information will now be displayed on the My Approval screen.

The options available from the Output Additional Contract Information dropdown are:

- Company
- Department
- Location
- Pay Group
- Work Group
- Cost Centre
- Division
- Management Unit
- User_Code 1

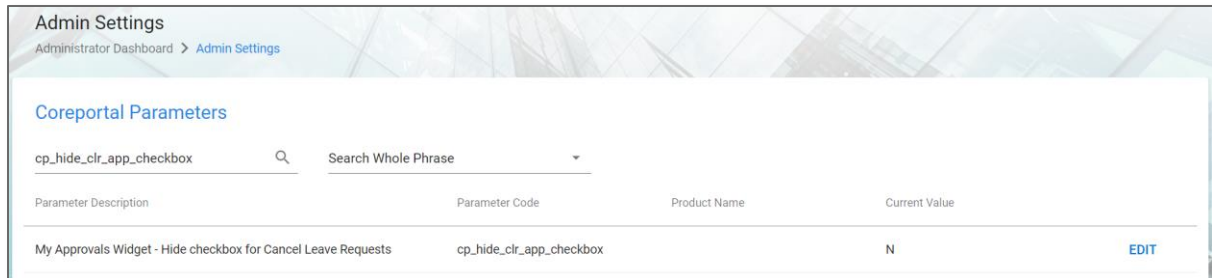

The screenshot shows the 'My Approvals' interface. At the top, there's a header with 'My Approvals' and a 'VIEW DETAILS' button. Below the header, there's a section for 'Alyssa Roz' with a profile picture and the text 'ANNUAL LEAVE 3700'. The 'Date Submitted' is '28 Nov 2023 15:48'. Below this, there's a table with columns: Appointment Id (502784-3), Job Title (Benton Housekeeper 7275), Leave Type (ANNUAL LEAVE 3700), Duration (5 hours 71 minutes), Date From LP (Tuesday, 5 Dec 2023), and Department (Benton 7275). The Department field is highlighted with a red box. Below the table, there's a checkbox labeled 'I confirm that the above details are correct'. At the bottom right, there are 'REJECT' and 'APPROVE' buttons.

4.1.5. Confirm Details Checkbox

To turn on or off the '*I confirm that the above details are correct*' checkbox for Leave Cancellations, follow the steps below:

1. Navigate to the *Administrator Dashboard*.
2. Select Site Manager and open **Admin Settings**.

3. Search for cp_hide_clr_app_checkbox.
 - To **turn on** the checkbox set the current value to **N**.
 - To **turn off** the checkbox set the current value to **Y**.

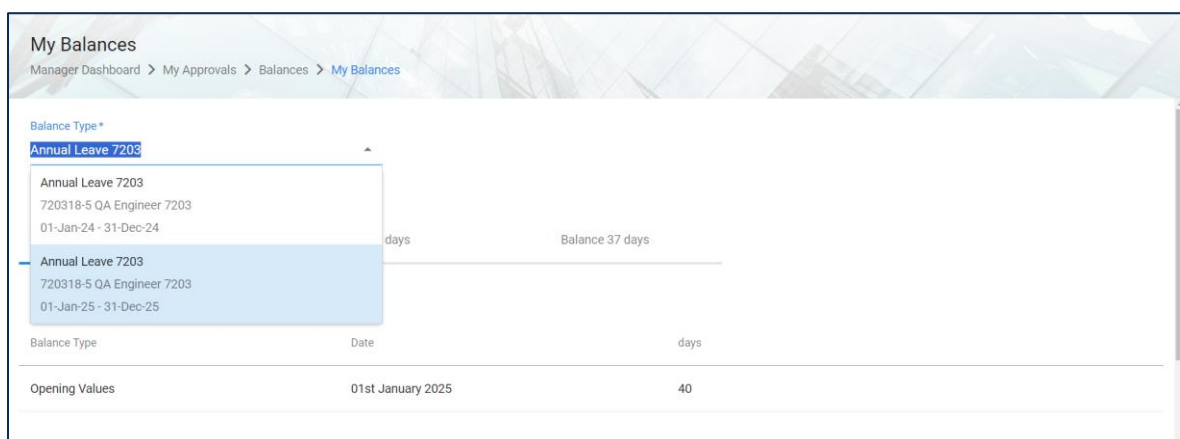

The screenshot shows the 'Admin Settings' page with the breadcrumb 'Administrator Dashboard > Admin Settings'. Under 'Coreportal Parameters', a search bar contains 'cp_hide_clr_app_checkbox'. Below the search bar is a table with the following data:

Parameter Description	Parameter Code	Product Name	Current Value	
My Approvals Widget - Hide checkbox for Cancel Leave Requests	cp_hide_clr_app_checkbox		N	EDIT

4.1.6. New Year Leave Entitlement

The new year entitlement feature support employees to submit and validate leave requests for the next leave year. As part of the Manager approvals process the entitlement can be validated to ensure it is not exceeded. This will improve the employee's user experience as they will be able to plan future leave requests and submit them without having to wait for the new year. For further guidance see our guide, [New Year Leave Entitlement](#).

Once enabled the leave process works as normal. Managers can use **View Details>Balances** as part of the approval process to check the new year leave entitlements and ensure it is not exceeded before approving.

The screenshot shows the 'My Balances' page with the breadcrumb 'Manager Dashboard > My Approvals > Balances > My Balances'. A dropdown menu for 'Balance Type*' is open, showing 'Annual Leave 7203' selected. Below the dropdown, a table displays the balance details:

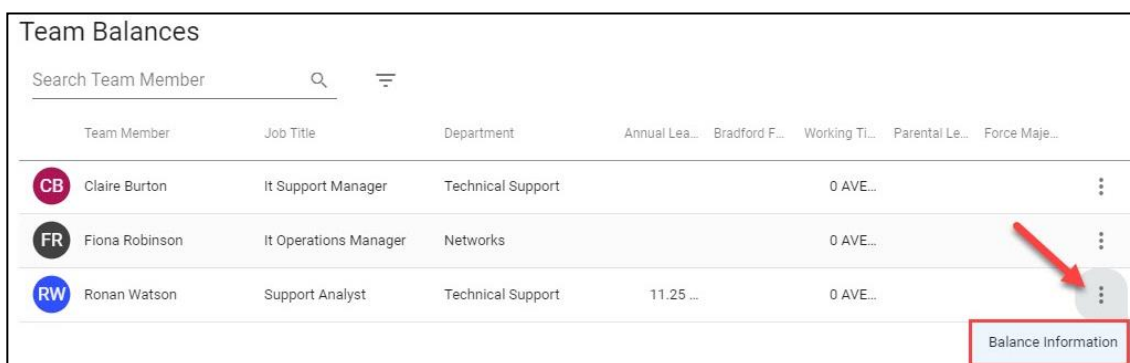

Balance Type	Date	days
Annual Leave 7203	01-Jan-24 - 31-Dec-24	Balance 37 days
Annual Leave 7203	01-Jan-25 - 31-Dec-25	
Opening Values	01st January 2025	40

4.2. Balances

4.2.1. Team Balances Screen

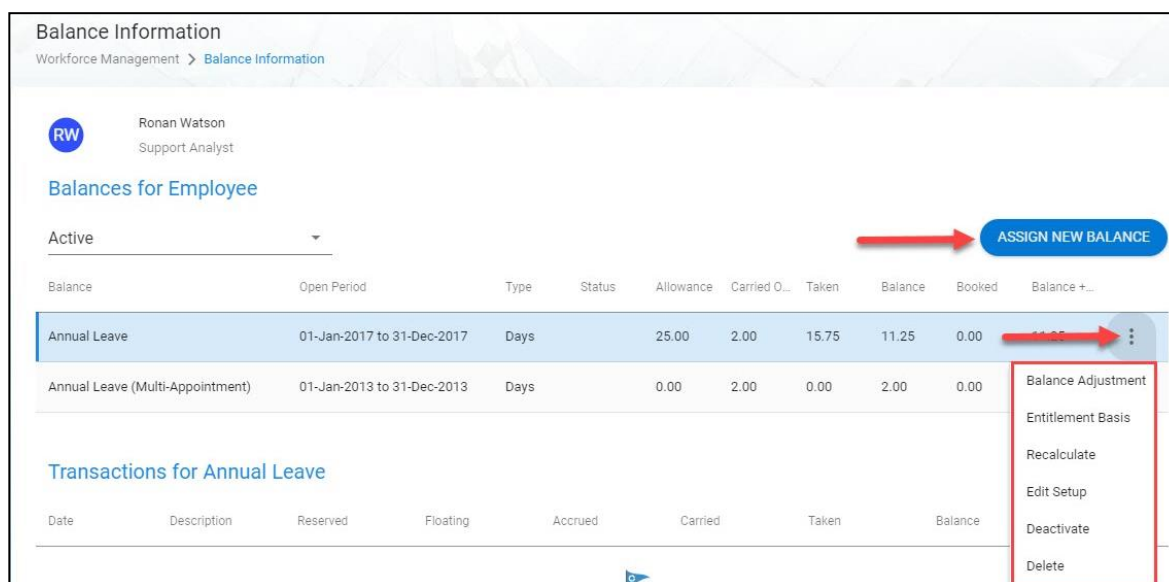

It is possible to view balance information and complete balance management, for employees within your remit, from the *Team Balances* screen located on the *WFM Dashboard*. To access this screen:

1. *Quick Jump to Team Balances.*
 - The *Team Balances* screen displays employees, dependant on your access to applicable *Team*.
2. Expand the 3-dot menu for the applicable employee and select, **Balance Information**.

Team Member	Job Title	Department	Annual Lea...	Bradford F...	Working Ti...	Parental Le...	Force Maje...
CB Claire Burton	It Support Manager	Technical Support			0 AVE...		
FR Fiona Robinson	It Operations Manager	Networks			0 AVE...		
RW Ronan Watson	Support Analyst	Technical Support	11.25 ...		0 AVE...		

The *Balance Information* screen displays. From here it is possible to review the employee's balances, assign new balances or complete balance management actions for existing balances.

Balance	Open Period	Type	Status	Allowance	Carried O...	Taken	Balance	Booked	Balance +...
Annual Leave	01-Jan-2017 to 31-Dec-2017	Days		25.00	2.00	15.75	11.25	0.00	11.25
Annual Leave (Multi-Appointment)	01-Jan-2013 to 31-Dec-2013	Days		0.00	2.00	0.00	2.00	0.00	

For further information on this screen, view section [2. Employee Balances](#).

4.3. Absences

The *Person Absences* screen allows you to review or manage existing absences and enter new absences, for employees within your remit.

4.3.1. Accessing the Person Absences screen

The *Person Absences* screen can be accessed in the following areas of the Workforce Management Dashboard:

Employee Calendar

1. From the *Workforce Management Dashboard*, select **Employee Calendar**.
2. Search for the relevant employee.
3. Expand Actions and select **Person Absences**.

Team Scheduler

4. From the *Workforce Management Dashboard*, select **Team Scheduler**.
5. Search for the relevant employee and click on the applicable day.
6. A dropdown list of options displays, select **Person Absences**.

Roster Details

1. From the *Workforce Management Dashboard*, select **Roster Details**.
2. Search for the relevant employee and click on their name.
3. A dropdown list of options displays, select **Absences**.

Note: The WFM Roster module and its components does not support start and end times on leave and absence records or gaps that may occur when leave/absence records have start/end times entered.

4.3.2. The Person Absences Screen

The *Person Absences* screen allows you to view a list of all absences associated to the employee.

Absence Type	Start Date	End Date	Days	AM/PM	Hours	Weeks	Num Docs	Recurrence Id	RTW Interview	Status
Company Closure	04-Aug-2025	08-Aug-2025	0		.00	0.71	0			Approved
Jury Service Leave	06-May-2025	08-May-2025	3		15.00	0.43	0			Approved
Annual Leave	12-Mar-2025	13-Mar-2025	2		10.00	0.29	0			Approved
Sick Leave	17-Feb-2025	19-Feb-2025	3		15.00	0.43	0		Complete	Approved
Annual Leave	11-Feb-2025	13-Feb-2025	3		15.00	0.57	0			Approved

The screen can be filtered using the following options:

Option	Details
Search	Use the search feature to find a specific absence you wish to edit.
Filter	Use the filter button to refine your search. You can filter by, the following, and click Apply to filter the results. • Pay Code • Recurrence Id • RTW Interview • Status • From/To

The *Person Absences* screen contains the following fields:

Field	Details
Absence Type	the absence type.
Start Date	the start date of the absence.
End Date	the end date of the absence.
Days	the duration of the absence, in days.
From/To	the start and end time of the absence, if the <i>Start & End Times on Leave & Absence Screens</i> has been configured.

Field	Details
AM/PM	if the employee has taken a morning or afternoon part day absence.
Hours	the duration of the absence, in hours.
Weeks	the duration of the absence, in weeks
Num Docs	the number of documents attached to the absence.
Recurrence Id	relates to Recurring Absences only. It will display a number which links all related recurring absences to the original.
RTW Interview	the status of the RTW Interview e.g., Manager Pending or Complete
Status	the status of the absence e.g., Approved, Rejected, Cancelled or Submitted.

From the 3-dot menu of any Absence, you can:

- **View/Edit Absence Details** – gives you access to the Absence Details screen where you can review or edit.
- **Delete Absence** – allows you to delete an absence.
- **View Co-Workers Leave Absence** – opens the Team Calendar for you to be able to review conflicting absences in the team.
- **Weekly Work Schedule** – opens the employees work schedule, for the week.

4.3.3. To Record an Absence

When you record an absence, it will open the *Absence Details* wizard. This is a 6-step process for adding an absence for an employee. It's accessed when you click **Add Absence** from the Person Absences screen. Details of each screen within the wizard are outlined below.

Absence Details screen:

The *Absence Details* screen is where the general details of the absence are entered.

Absence Details: Tomas Buckley - 7203000038

The ***Absence Details*** screen contains the following fields:

Field	Details
Leave Type	Select from the dropdown options the required Leave Type e.g., Annual Leave.
Start Date	Enter the start date of the absence.
End Date	This will display for Full Days(s) absence request only. Enter the end date of the absence.
Start Time	Depending on configuration the option to enter the Start Time for the absence is displayed.
End Time	Depending on configuration the option to enter the End Time for the absence is displayed.
Cost Centre	This allows you to assign a cost centre to the absence, if required.
Project	This allows you to assign a project to the absence, if required.

Field	Details
Part Day Leave	Enable the toggle for a part day leave.
Hours	This will display if <i>Part Day Leave</i> toggle is enabled. Enter the number of hours of the absence.
Minutes	This will display if <i>Part Day Leave</i> toggle is enabled. Enter the number of minutes of the absence.
Open Ended	Enable the toggle if the absence is to be open ended. This will remove the End Date field.
Enter Duration	Enable the toggle if you want to add a duration to the absence. This will remove the End Date field.
Duration	This will display if the Enter Duration toggle is enabled. Enter a numeric duration for the absence e.g., 4
Duration Type	This will display if the Enter Duration toggle is enabled. Select a duration type to be applied to the absence e.g., days.
Recurrence	Enable the toggle if you want the absence to be recurring. This will remove the End Date field.
Repeat Every	This will display if the Recurrence toggle is enabled. Enter a value for when the absence should repeat. This is in weeks
Repeat On	This will display if the Recurrence toggle is enabled. Enable the relevant toggle(s) you wish the absence to repeat on. at the frequency you have selected.
Ends	This will display if the Recurrence toggle is enabled. Select when the recurring absence will end. Options available are: On – select a specific date to end the recurring absence. After – select the number of weeks the recurring absence will end after.

The toggles can be used in conjunction with one another, if required. For example, you may want a Recurring Part Day Absence.

More screen:

The *More* screen is where you can add additional information relating to the absence.

Start Date	This displays the start date entered in the Absence Details screen.
End Date	This displays the end date entered in the Absence Details screen.
Reason	This allows you to select a reason for the absence, if required.
Narrative	This allows you to add additional information to the absence, if required. Maximum field length 2,000 characters.

Return to Work Interview:

The Return-to-Work Interview screen is where you can add details of the employees RTW, if required.

Note: If using the **Return to Work Interview templates**, when selecting the Leave Type in the Absence Details screen the Return to Work Interview screen will be automatically updated with the relevant RTWI questionnaire name. See our [Return to Work Interview](#) guide for further guidance.

The **Return to Work Interview** screen contains the following fields, if not using RTWI templates:

Field	Details
Leave Type	This displays the leave type selected in the Absence Details screen.
Start Date	This displays the start date entered in the Absence Details screen.
End Date	This displays the end date entered in the Absence Details screen.
Work Related	Enable the toggle if the absence is work related, if required
Interview Completed	Enable the toggle to show the interview has been completed, if required.
RTWI Date	Enter a date the interview was completed, if required.
Interview Notes	Enter relevant notes taken from at the interview. Format using the options to the top right of the field e.g., adding bold, bullet points, links and previewing.

Supporting Documents:

The Supporting Documents screen is where you can upload, view and make as received supporting documentation. For example, sickness certificates.

Upcoming Absences:

The Upcoming Absences screen displays details of all employee absences.

The screen can be filtered using the following options:

Option	Details
Search	Use the search feature to find a specific absence type e.g., Annual Leave.
Filter	Use the filter button to refine your search. You can filter by, the following, and click Apply to filter the results. • Pay Code • Recurrence Id • From Date • RTW Interview

To Add an Absence, using the wizard:

1. Click **Add Absence**.
2. On the *Absence Details* screen select the **Leave Type**.
3. Enter a **Start Date**, then use the options available to add further details for the absence:
 - **Part Day Leave** – here you can enter details for a part day leave absence.
 - **Open Ended** – here you can enter details for an open-ended leave absence.
 - **Enter Duration** – here you can specify the duration of a leave absence e.g., days/weeks.

- **Recurrence** – here you can setup a recurring absence.
4. Click **Next**.
 5. On the *More* screen select, if required, select a Reason and enter a Narrative for the absence. Then click **Next**.
 6. On the *Return to Work Interview* screen:
 - enter details of the RTWI e.g., Interview completed, Date RTWI took place and Interview details.
 - Or if using RTWI templates, complete the questionnaire and turn on the **Send to Employee** toggle so when saved the RTWI questionnaire will display in the RTWI widget for the employee to action.
 7. On the *Supporting Documents* screen, confirm & upload supporting documents that have been provided. Then click **Next**.
 8. The *Balances* screen displays an overview of the employees balances. Then click **Next**.
 9. The *Upcoming Absences* screen displays details of all employee absences.
 10. Click **Save**.
 11. You can view an absence and edit/update screens at any point by selecting **View/Edit Absence Details** from its 3-dot menu on the Absence screen.

4.4. Overlapping Absence

Overlapping absence is where a period of open-ended absence overlaps with other planned leave types such as annual leave. If you have overlapping absences and one of the absences is open ended, it will result in an issue where the absence won't calculate correctly.

The Overlapping Leave and Absence Parameters, see [section 5.2.7](#), can be enabled to mitigate calculation errors and employees being overpaid.

4.4.1. Overlapping Leave and Absence features

- Improve accuracy of Occupational Absences processes in payroll for Sickness.
- Provides an automated solution where the system will close an open-ended absence where there is upcoming leave.

WFM: Leave Requests and Absences

- An email notification will be sent to the employees' manager to notify them of the Upcoming Overlap.

Hi,

Employee {Know As Name and Number} has an active open ended absence and upcoming absence on [date]. Please take action or the system will end the open-ended absence on [date]

Sincerely,
The PeopleXD Support Team.

Note: This email address cannot accept replies

- Alert the manager when entering an open-ended absence that the employee has approved upcoming leave. They can then use the Upcoming Absences screen to review.

Absence Details: MA Alice - 7206000057

5. Configuration

5.1. Balance Management

5.1.1. Balance Type Driving Parameters

Variation 1: Auto Derived Entitlement

This *Balance Type* is driven from the *Calculate Entitlement Based On Position History* indicator on the *Balance Parameters* screen.

To view this screen:

1. Go to *Backoffice > CoreTime > System Params > Balances > Parameters*.

The screenshot shows the 'Balance Parameters' window. The 'Balance Selection' section has 'Code' set to 'A2_A2' and 'Name' set to 'Annual Leave - auto enti - pos'. A note explains that the balance code determines the display order of balances. On the right, a list of parameters is shown, with 'Advanced Parameters' selected. The 'Advanced Parameters' section contains several checkboxes: 'Populate Position History', 'Details From CoreHR', 'Populate Status/FTE Details From CoreHR', and 'Calculate Entitlement Based On Position History' (which is checked and highlighted with a red box). Other fields include 'Entitlement Based On' (a dropdown), 'Number of Closed Periods to Recalculate' (a text input), 'Use FTE Exceptions' (a checkbox), 'View FTE Exceptions' (a button), 'Adjustment Type' (a dropdown set to 'Holiday'), and a 'When Limit Exceeded' section with radio buttons for 'Stop', 'Warn', and 'Allow' (selected), and a checkbox for 'Do Not Apply In-Period Limits in Calculation'.

Variation 2: Maintain Only Balance

This *Balance Type* is driven from the *Maintain Balance Only* indicator on the *Summary* configuration screen for the Balance.

To access this screen:

1. Go to *WFM Admin Dashboard* and select *WFM Configuration*
2. Select the **Balance Configuration** tile.
3. From the relevant balance expand its 3-dot menu and select **View/Edit Balance**.
4. Under the *Summary* tab you will see the **Maintain Balance Only** toggle.

Variation 3: Other Balances

1. Go to *WFM Admin Dashboard* and select **WFM Configuration**
2. Select the **Balance Configuration** tile.
3. From the relevant balance expand its 3-dot menu and select **View/Edit Balance**.
4. Under the *Calendar Parameters* tab you will see the **Use Personal Calendars** toggle.
5. Once enabled, **Advanced Personal Calendar** options will display.

See our [Balance Configuration](#) guide for further details.

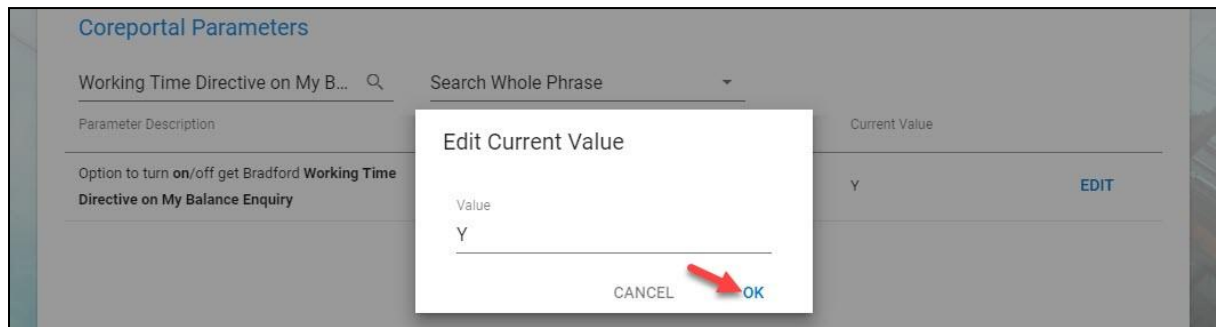

5.1.2. Balance System Parameters

The following *Balance System Parameters* can be switched **On** or **Off** depending on your *Balance* configuration requirements.

Parameter Description	Parameter	Explanation
Display balance booked value	cp_team_bal_balbooked	Displays an employees Booked Balance. If off, only the balance value will display.
Balance column on Roster Details	cp_roster_show_col_bal	Displays the Balance column on the Roster Details screen.
My Team Balance view	team_bal_max_columns	The maximum number of columns allowed to be used on the My Team Balance view.
Working Time Directive on My Balance Enquiry	cp_bradfordwtd_balenq	Option to turn on/off get Bradford Working Time Directive on My Balance Enquiry

To review or edit *System Parameter*:

1. *Quick Jump to Site Manager*.
2. Open **Admin Settings**.
3. Search for the applicable *Parameter Description*.
4. Click **Edit**.
5. Set the *Current Value* as required.
6. Click **OK**.
7. The *System Parameter* is now updated.

5.2. Leave Request

5.2.1. Employee & Manager Prerequisites

The following prerequisites are required for the *Leave Requests* feature to be functional on PeopleXD.

User Type	Requirements
Employee Self-Serve	• The employee must have an active PeopleXD account. • The employee must have access to the leave <i>Pay Code</i>. For example, <i>Annual Leave</i>. • The <i>Pay Code</i> parameter to Display on Co-Workers Roster is configured for the relevant <i>Pay Code</i>. (Optional) • The employee can view their <i>Balance/Entitlements</i>. • The employee has the required <i>Balance/Entitlements</i> remaining.
Manager Self-Serve	• The manager must have an active PeopleXD account. • The manager must have access to the employee(s) within a <i>Work Group</i>. • The employee(s) within the manager's remit: ○ Can successfully submit <i>Leave Requests</i>. ○ Have an active <i>Balance</i> assigned to their record.

5.2.2. Organisation Roles & System Parameter

The applicable manager must have access to the employee(s) within a *Work Group*. Therefore, *Organisational Roles* must be assigned. The *Organisational Role* and the *Organisation Group* must then also be specified on *System Parameters* for *Leave Requests*.

Assigning Organisational Roles

To assign a role to a manager/administrator via the *Maintain Org Roles* screen:

1. *Quick Jump to Data Centre.*
2. **Open People Management.**
3. Select **Maintain Organisation Roles.**
4. Select the required Org Structure from the *Structure* drop-down list.
- Select the *Organisational Group* that the role is defined against. For example, **Work Group.**
The *Group Item* list updates to display all items currently defined on the system, for the group.
5. Use the *Search Group Item* field and the **Find** button to do a keyword search.
 - This is based on the *Group Item* and *Description*.
6. Select the required level from the *Group Item* list.
7. Click the **Add** button at the end of the screen to create a new row.
8. Select the Org Role from the *Role* drop-down list e.g., Reports to Manager
9. Enter a *Date From* and *To*.
10. Enter the *Personnel Number*.
11. Click **Save**.
12. This successfully grants PeopleXD manager access to the relevant employees/teams.

Maintain Organisation Roles

People Management > People Management > Maintain Organisation Roles

Organisational Roles Maintenance

Structure: ABC Solutions

Organisation Group: Work Group

Search Group Item: Technical Support

Find

Group Item	Description
IT1	Technical Support

☒ Person Notification ☐ Email Notification

Role	Date From	Date To	Personnel Number	Forename	Surname	Interfaced
Reports To Manager	15-Mar-2015		000032	Peter	King	☐

Cancel **Add** **Save**

See our [Organisational Role Delegation](#) guide for further details.

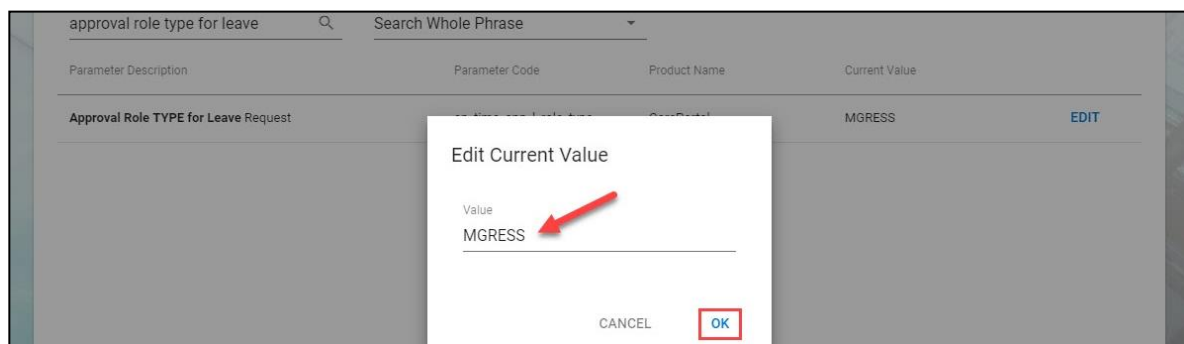

Define System Parameters

Using the above *Organisational Role* example, where the *Organisational Group* is **Work Group** for the **Reports to Manager** *Role*. The following System Parameters must be defined:

Parameter Description	Parameter	Explanation
Approval Role Name for Leave Request	cp_time_app_l_role_name	This must be specified to reflect the <i>Organisational Group</i> . For example: • WRKGRP (Work Group)
Approval Role TYPE for Leave Request	cp_time_app_l_role_type	This must be specified to reflect the <i>Organisational Role</i> . For example: • MGRESS (Reports To Manager)

To edit a *System Parameter*:

1. Quick Jump to Site Manager.
2. Click to open **Admin Settings**.
3. Search for the applicable *Parameter Description*.
4. Click **Edit**.
5. Set the *Current Value*.
6. Click **OK**.
7. The *System Parameter* is now updated.

5.2.3. Leave Request/Absence Pay Code Setup

To set a *Pay Code* as *Absence*:

1. Go to *WFM Admin Dashboard* and select *WFM Configuration*
2. Select the **Pay Codes** tile.

3. From the relevant pay code expand its 3-dot menu and select **View/Edit Pay Code**.
4. Use the configuration screens to set up your pay code as required.

See our [Pay Code](#) guide for further guidance.

5.2.4. Leave Request – General System Parameters

The *Leave Request System Parameters* outlined in the below table can be updated depending on your *Leave Request* configuration requirements.

Theses can be accessed via: *Administrator Dashboard>Site Manager>Admin Settings*

Parameter Description	Parameter
Allow user to input ESS Leave Requests in Hours and Minutes.	ct_leave_req_hours
Maximum Hours for ESS Leave Requests in Hours and Minutes.	ct_leave_req_maxhours
Maximum Mins for ESS Leave Requests in Hours and Minutes.	ct_leave_req_maxmins

Parameterisation of cancel button on Leave Request Screen	cp_leave_req_delete
If set to Y this will show the narrative button for requests.	cp_show_narrative_button
Switch on/off changes to comments field	ct_new_cmnts_field

5.2.5. Leave Request – Error Message System Parameters

The *Leave Request System Parameters* outlined in the below table can be updated depending on your *Leave Request – Error Message* configuration requirements.

Parameter Description	Parameter
Leave Request Part Day Error Message - quarter	ct_lr_error3
Leave Request Part Day Error Message - half	ct_lr_error4
Leave Request Part Day Error Message - full	ct_lr_error5
Leave Request Error Message - in period limit	ct_lr_error6
Leave Request Error Message - booked limit	ct_lr_error7
Leave Request Error Message - no balance	ct_lr_error8
Leave Request Error Message	ct_lr_error9
Leave Request Entitlement Error Message	ct_lr_error1
Leave Request Part Day Error Message	ct_lr_error2
Leave Request Error: Leave Type	ct_lre_1
Leave Request Error: Start Date Mandatory	ct_lre_2

Parameter Description	Parameter
Leave Request Error: Start Date Invalid	ct_lre_3
Leave Request Error: Start Date Too Far In Past	ct_lre_4
Leave Request Error: No part day segment selected	ct_lre_5
Leave Request Error: 0hrs0mins not allowed	ct_lre_6
Leave Request Error: End date mandatory	ct_lre_7
Leave Request Error: End date invalid	ct_lre_8
Leave Request Error: End date less than or equal to start date	ct_lre_9
Leave Request Error: Comments are mandatory for selected leave type	ct_lre_10
Leave Request Error: No approver selected	ct_lre_11
Leave Request Error: Pay in advance is mandatory	ct_lre_12
Leave Request Error: Agreement checkbox not ticked	ct_lre_13
Leave Request Error: Warnings encountered	ct_lre_14
Leave Request Error: Part day leave indicator	ct_lre_15

5.2.6. Leave Request – Label System Parameters

The *Leave Request System Parameters* outlined in the below table can be updated depending on your *Leave Request – Label* configuration requirements.

Parameter Description	Parameter
Leave Request: Is this part day leave label	ct_lr_pdl
Leave Request: Time of day label	ct_lr_ampm
Leave Request: Description for A.M. Option (Morning)	ct_lr_am
Leave Request: Part Day Segments label	ct_lr_seg
Leave Request: How Many Hours label	ct_lr_hrs
Leave Request: How Many Mins label	ct_lr_mins
Leave Request: Start Date label	ct_lr_stdtd
Leave Request: End Date label	ct_lr_endtd
Leave Request: Number of days label	ct_lr_ndys
Leave Request: Pay in advance label	ct_lr_pia

Parameter Description	Parameter
Leave Request: To Be Approved By label	ct_lr_tba
Leave Request: Leave Type (Pay Code) label	ct_lr_lt
Leave Request: Comments label	ct_lr_cmt
Leave Request: Supporting docs label	ct_lr_pr
Leave Request: I agree label	ct_lr_agr
Leave Request: Please select label	ct_lr_ps

5.2.7. Overlapping Leave and Absence Parameters

To enable *Overlapping Leave and Absence* parameters, follow the steps below:

1. Navigate to the *WFM Admin Dashboard* and select **WFM Configuration**.
 2. Search for and select the **General Settings** tile.
 3. Scroll to the *Overlapping Leave and Parameters* section.
 4. Turn on the **Enable Overlapping Leave and Absence** toggle.
- Once enabled a warning message will be presented advising that the existing advance overlapping leave parameters will be turned off.

Please Note

Enabling this feature will disable the following parameters for all companies.

- ALLOW OVERLAPPING LEAVE REQUESTS
- OVERLAPPING LEAVE REQUESTS - WARNING ONLY
- FAS NO OVERLAPPING ABSENCES

Please refer to use guide for additional information.

NO YES

5. The **Overlapping Absence Restriction** period defaults to 7 days, amend if required.
- This is the number of days the system will check to see if there is any upcoming planned absence.
6. Click **Save**.

 **Note:** For new PeopleXD sites the *Overlapping Leave & Absences Parameters* are turned on by default.

5.2.8. Leave Request – Start & End Times

The **Start & End Times on Leave & Absences Screens** section within General Settings allows you to configure the options to display the Start/End Times on Leave and Absence entry screens. Where configured, employees submitting leave or managers entering absence will be required to enter the start/end time for part days.

Having employees accurately record their start and end times on part day leave enables managers to efficiently plan for periods of unavailability.

Note: If Start & End Times are enabled the Part Day Duration (e.g. AM/PM) is not available for selection as the duration is based on the Start/End times entered.

These can be accessed via: WFM Admin Dashboard > WFM Configuration > General Settings

General Settings
WFM Admin Dashboard > General Settings

Start & End Times on Full Days	Use the dropdown menu to select your required option. Options available are:

Option	Decsription
	None – Start & End time are not displayed. Display Only - Start & End times are displayed and cannot be updated. Updates Allowed – Start & End times are displayed, and entry is not validated to the employees underlying schedule.
Start & End Times on Part Days	Use the dropdown menu to select your required option. Options available are: None – Start & End time are not displayed. Updates Allowed - Start & End times are displayed, and entry is not validated to the employees underlying schedule. Updates Allowed Validate to Schedule – Start & End times are displayed, and entry is validated to the employees underlying schedule.
Use Start/End Time to Calculate Duration	Options to automatically calculate the Absence duration based on the start/end time entered. Options available are: • No - Duration is not calculated and users are required to enter the duration. • Yes - Duration is calculated. 09:00 to 11:00 is a 2-hour 0 minutes duration. • Yes (Deduct Unpaid Breaks) - Duration excludes unpaid breaks where the start/end times overlap/cross unpaid breaks e.g. Employee has 30-minute unpaid break from 13:00-13:30 ○ 10:00 to 14:00 is 3 hours 30 minutes in duration ○ 10:00 to 13:00 is 3 hours 0 minutes in duration

Option	Decsription
	10:00 to 13:15 is 3 hours 0 minutes in duration

The following menu options need to be enabled on the relevant Menu Profile for Leave Request - Start & End times:

Menu Option	Menu ID	System
Get absences startendtimes	WS_LEAVE_MENU.GET_ABSENCES_STARTENDTIMES	Web Services
Get settings global	WS_ROSTER_MENU.GET_SETTINGS_GLOBAL	Web Services

See [section 7 FAQ's](#) for a list of screens that display Start & End Times, if enabled.

5.2.9. Team Scheduler and Coreportal Parameters

Team Scheduler requires additional configuration to enable the display of start/end times. The current value for the Coreportal Parameter **sch_show_from_to** must be set to **Y**.

To do this:

1. From the *Administrator Dashboard* select **Site Manager**.
2. **Open Admin Settings**.
3. Search for **sch_show_from_to**.
4. Set the value to **Y**.
5. Click **OK**.

6. Menu Options

6.1. Employee Self-Serve User Access

The below table outlines the *Menu Options*, applicable to *Employee Self Service*, that can be added to the relevant *Menu Profile*.

System	Menu Option	Explanation

7. Frequently Asked Questions

Q: What is the leave Status when a cancellation is requested

A: The Status is changed to 'Cancel Requested' while waiting manager's action. If the Request is approved, the leave status is 'Cancelled' and if rejected, that status reverts back to 'Approved'

Q: How can PXD support or Admins know that a leave request cancellation was either approved or rejected?

A: Yes, the Last Action Date/User is stored which is visible in the Person Maintenance screen or through Insight Reporting.

Q: Can an employee cancel a leave request that they have just been submitted

A: Yes, as it was just requested and not manager action was taken an employee can cancel the just submitted leave request

Q: Can an employee request to cancel leave where the cancellation request was previously rejected?

A: Yes, the process remains open to support last minutes changes

Q: Where do Manager review/action the Leave Cancellation request.

A: Via the Notification Centre, Managers are notified, where they can review the request and either approve or reject.

WFM: Leave Requests and Absences

Q: What happens where an employee schedule changes post leave request or absence entry being recorded.

A: The calculation routine (overnight routine)

- For **Part Days** the duration is updated based on the original start and end times entered
 - if the part day start/end times are outside the new schedule, the duration is set to zero
 - if the part day start/end times cross over the new schedule, the duration is updated to reflect the duration work based on underlying schedule.
- For **Full Days** (Still under Review)

Q: Can you exclude unpaid breaks form the duration?

A: Yes, Unpaid breaks can be excluded from the duration calculated.

Q: Does WFM Roster Module support Start/End Times on Leave and Absences?

A: No, WFM Roster Module does not support start/end times.

Q: Which screens display Start and End Times, if enabled?

A: Start and End Times are displayed on the following screens:

- Employee/Team Calendars views (tooltips) on Desktop and Native App
- Absence & Leave Summary Screens on Desktop and Native App
- Leave Approval on Desktop and Native App
- Team Scheduler (tooltips)
- Employee Calendar Widget (Portal)
- My Requests Widgets, Expanded View from Actions button
- Leave Request History (Person Maintenance)
- Employee Work Schedule Widget (WIP)
- Bulk Leave Approval (WIP)
- MS Outlook Integration
- As optional columns in the External Absence Interface
