1. Overview

1.1. Purpose of the Guide

This document outlines how to access and manage the Notification Centre Management screen. The screen enables Administrators to manage all outstanding notifications for the organisation.

Features include:

- Lists all outstanding notifications and their key information.
- Supports all notification types.
- Hide notifications individually or in bulk.
- Filter options to refine notification search.
- Drill down view to display details of the notification.
- Details hidden notification recorded.

1.2. Notifications Supported

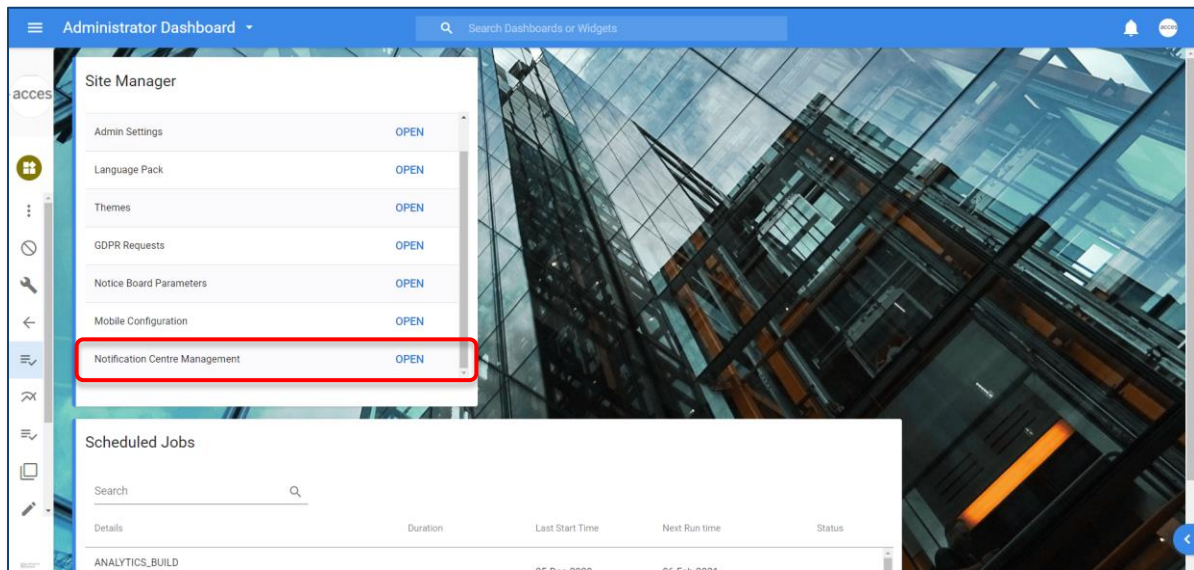

Notifications supported within the Notification Centre Management Screen are:

Notification Types	
Availability Change Request	Advance Request
Claimant Car	Employee Request
Expense Request	Expense Pre-Approval
Leave Request	Life Event
Manager Requests	Missed Clocking
Salary Approval	Shift Swap Request
Staff Request	Training Approval

1.3. How to access the Notification Centre Management Screen

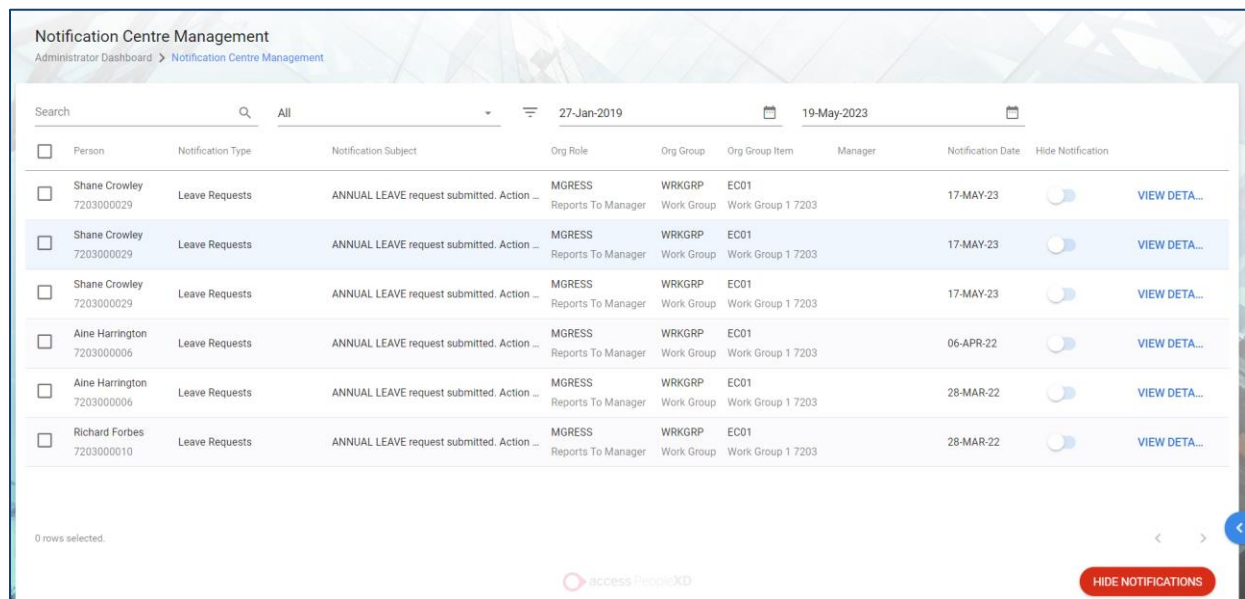

You can access the Notification Centre Management Screen using the Administrator Dashboard.

1. Go to the *Administrator Dashboard*.
2. Select **Site Manager** from the left-hand menu.
3. From the Site Manager Widget click **OPEN** against Notification Centre Management.

2. The Notification Centre Management Screens

Once you have accessed the Notifications Management Screen, you will see the following:

The *Notification Centre Management* screen can be filtered using the following options:

Option	Details
Search	You can search by employee, using their <i>Known As</i> name, employee number and Hidden By should you wish to manage notifications for a specific employee.
Drop-Down	The drop-down filter is default to All. This can be used to refine the list by specific notification type. For example, Leave Requests
Filter	The filter button allows you to: • Show Hidden notifications by enabling the toggle. • Refine the notification list by Org Role or Org Group.
Calendar Start/End	Use the calendars to define the period of the search. By default, the period will display the last 7 days notifications.

The *Notification Centre Management* screen contains the following fields:

Option	Details
Person	This shows the User's 'Known As' name and Employee ID, the notification relates to.

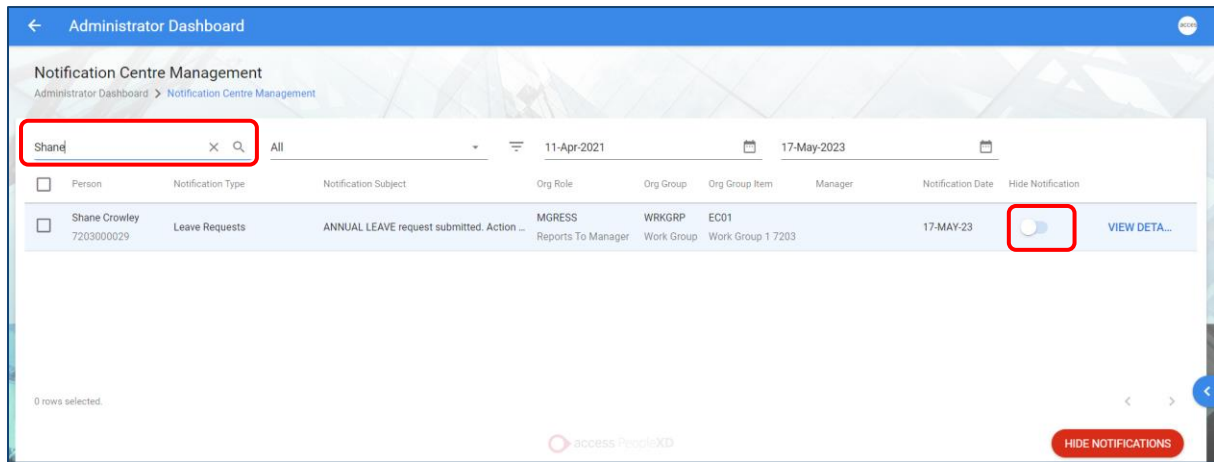

Option	Details
Notification Type	This shows the notification type. For example, Leave Request, Manager Request.
Notification Subject	This shows the description of the notification request.
Org Role	This shows the Organisation Role of the User.
Org Group	This shows the Organisational Group of the User.
Org Group Item	This shows the Organisational Group Item.
Manager	Manager will be displayed if not using Organisation Role or Organisation Group.
Notification Date	This shows the date the notification was raised.
Hide Notification	This shows the status of the notification. The toggle can be used to Hide a specific notification.
*Unhide Notification	This shows the status of the notification. The toggle can be used to Unhide a specific notification.
*Hidden By	This shows the details of the Administrator who has hidden the notification, their Employee ID and the Date the notification was hidden.
View Details	This displays the details of the notification as per the notification centre.

The options marked with an * only display when viewing Hidden notifications.

2.1. Hide Individual Notifications

To hide an individual notification:

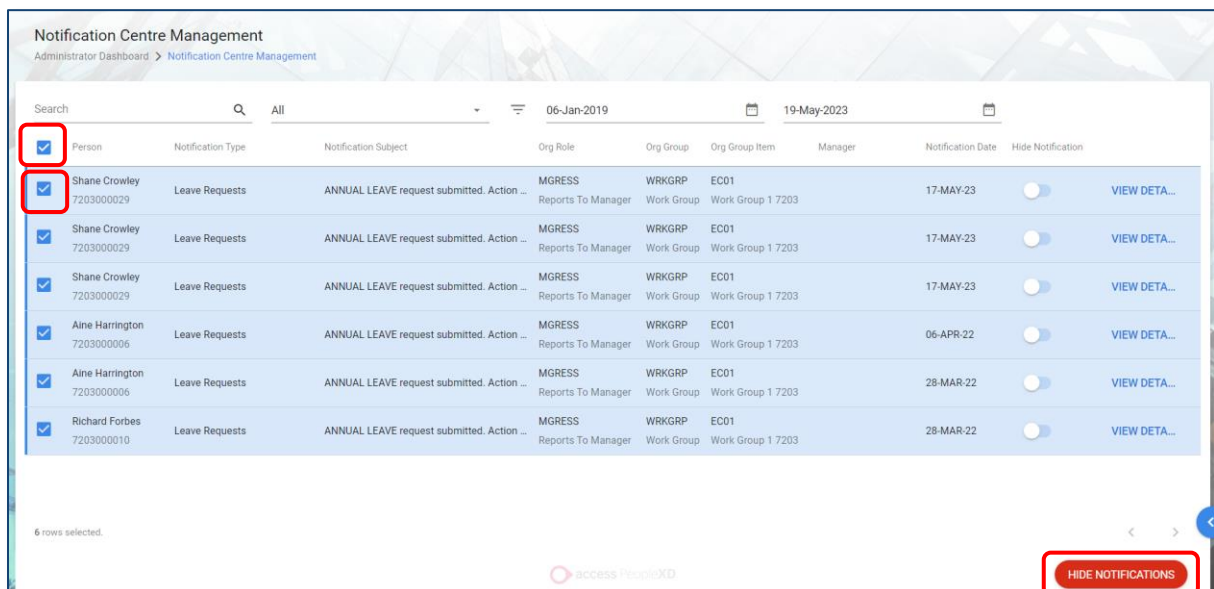

1. From the **Notification Centre Management** screen.
2. **Search** for the notification.
3. **Activate** the Hide Notification toggle.
4. The screen automatically saves changes.
