1. Overview

1.1. Purpose of the Guide

The purpose of this guide is to walk you through enhancements that have been made to Occupational Absence Configuration screens.

These include:

- The First Anniversary Pro Rate section:
 - Ignore Absence Prior to First Anniversary
 - First Anniversary Start/End Month
 - Service First Anniversary Entitlement Pro Rata
- Closed Periods section:
 - Original Absences Not Processed
 - Original Absences Taken Ignored
 - Non-Original Absences Taken Ignored

Note: As Occupational Absence has not been moved to Portal most of these enhancements are configured through Back Office.

For more information on Occupational Absence see the [People XD Occupational Absence Configuration Guide](#) on the Customer Success Portal.

1.2. How to access the Occupational Absence Configuration screen

To access the Occupational Absence Configuration screen, in Back Office:

1. Navigate to **CoreTime/CoreRoster > System Parameters > Reference A-C > Absence Pay Parameters > Absence Rules**
2. Search for your company.
3. Select **More** against the rule you wish to edit.

WFM: Occupational Absence - Enhancements Guide

The screenshot shows the 'Absence Parameters' window. The 'Absence Rules' table is as follows:

Rule Id	Description	Priority	Calendar Basis	Rolling Periods	Calendar	Description	Consec. Occur.	Entitlements	Pay Codes	More
7275L	7275 LM 5 Day	1	Fixed		7275OS	7275 Occupational Sick		Entitlements	Pay Codes	More
7275L4	7275 LM 4 Day	1	Fixed		7275OS	7275 Occupational Sick		Entitlements	Pay Codes	More
7275O1	7275	1	Fixed		7275OS	7275 Occupational Sick		Entitlements	Pay Codes	More
A1	Adoption Scheme	1	Rolling	12				Entitlements	Pay Codes	More
A1111	Test Scheme	1	Rolling	12				Entitlements	Pay Codes	More

4. The Configuration screen displays.

The screenshot shows the 'Absence Rule Parameters' window for rule 7275. The 'First Anniversary Pro Rata' section is expanded, showing the following parameters:

- Service First Anniversary: Anniversary Month Start Date
- Entitlement Pro Rata: 1.00
- First Anniversary Start Month: 23.99
- First Anniversary End Month: 23.99
- Ignore Absences Prior to First Anniversary: ☒

The 'Pro-Rata Absence Category' section shows the Rule Identification as CATG.

2. First Anniversary Pro Rata Enhancements

2.1. Ignoring Absence Prior to First Anniversary

Ticking this option will mean that any absence starting before the 1st anniversary of the employee's start date will be ignored when calculating occupational sick. Occupational sick will only be calculated on the first new absence after the anniversary date.

The screenshot shows the 'Absence Rules: 7275 LM 5 Day' window. The 'First Anniversary Pro Rata' section is highlighted with a red box. It contains the following fields and values:

- Service First Anniversary: Anniversary Month Start Date
- Entitlement Pro Rata: 1.00
- First Anniversary Start Month: 1.00
- First Anniversary End Month: 23.99
- Ignore Absences Prior to First Anniversary: ☒

The 'Pro-Rata Absence Category' section is also visible, with a 'Rule Identification' field.

If the employee starts a sickness period anytime between their start date and the day before their one-year anniversary (inclusive) then they are not entitled to any Occupational Sick Pay, and their sick days do not count against any Occupational Sick Pay entitlement. For any sickness period starting on or after their one-year anniversary, the employee is entitled to Occupational Sick Pay based on the rules applicable to that employee.

Scenarios:

Example 1: Criteria	Outcome
• An employee joins on 15th September 2021. • The absence calendar runs from 1st April to 31st March. • <i>Ignore Absences Prior to First Anniversary</i> is enabled. • Employee is off sick from 5th January 2022 to 15th January 2022.	In this example, the employee will not be entitled to any Occupational Sick Pay, and the days will not count against the Occupational Sick entitlement, as the whole sick period is prior to the first anniversary of their start date.

Example 2: Criteria	Outcome
• An employee joins on 15th September 2021. • The absence calendar runs from 1st April to 31st March. • <i>Ignore Absences Prior to First Anniversary</i> is enabled. • Employee is off sick from 14th September 2022 to 20th September 2022.	In this example, the employee will not be entitled to any Occupational Sick Pay, and the days will not count against the Occupational Sick entitlement, as the start date of the sick period is prior to the first anniversary of their start date.

Example 3: Criteria	Outcome
• An employee joins on 15th September 2021. • The absence calendar runs from 1st April to 31st March. • <i>Ignore Absences Prior to First Anniversary</i> is enabled. • Employee is off sick from 14th October 2022 to 20th October 2022.	In this example, the employee will be entitled to Occupational Sick Pay as per the Occupational Absence Rule assigned to them, as the start date of the sick period is after the first anniversary of their start date.

Example 4: Criteria	Outcome
• An employee joins on 15th September 2021. • The absence calendar runs from 1st April to 31st March. • <i>Ignore Absences Prior to First Anniversary</i> is disabled. • Employee is off sick from 5th January 2022 to 15th January 2022.	In this example, the employee will be entitled to Occupational Sick Pay as per the Occupational Absence Rule assigned to them, as the <i>Ignore Absences Prior to First Anniversary</i> is disabled.

2.2. First Anniversary Start/End Month

These settings allow you to pro-rata Occupational Sick entitlement from the first anniversary of the employee's start date until the end of the current sick year.

You can configure how many months you wish the anniversary date to fall on, for most people using this option this will be a start month of 12 and an end month of 23.99. This will configure the system to calculate the occupational entitlement from the first-year anniversary of the start to the end of the absence year, but not to pro-rata for more than one year.

If you were to pro-rate up until three years, you would enter a start month of 12 and an end month of 35.99.

The screenshot shows the 'Absence Rules: Adoption Scheme' dialog box. The 'First Anniversary Pro Rata' section is highlighted with a red box, showing the following fields:

- Service First Anniversary: Anniversary Date
- Entitlement Pro Rata:
 - First Anniversary Start Month: 12.00
 - First Anniversary End Month: 23.99
- Ignore Absences Prior to First Anniversary: ☐

Other visible fields include:

- Multiple Appointments/Roster Multiplier Rule: ☐
- Seven Day Entry Rule: ☐
- Multiple Appointments/Seven Day Entry Rule: ☐
- Apply Roster Multiplier to Taken: ☐
- Apply Roster Multiplier to Pay: ☐
- Pay Absence on Public Holidays: ☒
- Treat Public Holidays as Normal Day: ☒
- Do not Pay Out of Sequence Absences: ☐
- Exclude Saturdays: ☐
- Exclude Sundays: ☐
- Exclude Public Holidays: ☐
- Absence Day Basis: CoreTime Days
- Waiting days:
- No. of Days Between Illness:
- Days Between Illness Multiplier: 14.00
- Override Days In Year: 365
- Salary Offset: 1053
- ADOPT SALARY OFFSET:
- Entitlement Basis:
- Fixed Period Basis:
- Entitlement Rounding Days:
- Absence Status Basis: Sickness History
- Rolling Period Basis: Original Absence Date Forw...
- Entitlement Rounding Basis:
- Length of Service Basis: Latest Start Date
- Use Pay. Mult. to get Taken:
- Length of Service Method: Default
- Use Pay. Mult. to get Total Continuous Taken:
- Length of Service End Date:
- Part Time Multiplier:
- Length of Service End Date Reduction Days:
- Pro-Rata Absence Category:
- Rule Identification:

2.3. Service First Anniversary Entitlement Pro Rata

This option allows you to choose when in the month the first anniversary of the employee's start date is calculated from to get Occupational Sick entitlement.

The options available are:

- On the anniversary date.
- At the beginning of the month of the anniversary date.
- At the end of the month for the anniversary date.

The screenshot shows the 'Absence Rules : Adoption Scheme' dialog box. The 'Priority 1 Rule Parameters' section is expanded. Under the 'First Anniversary Pro Rata' section, the 'Service First Anniversary Entitlement Pro Rata' dropdown is highlighted with a red box. A blue box highlights the 'Anniversary Date', 'Anniversary Month Start Date', and 'Anniversary Month End Date' options. The 'Anniversary Date' option is currently selected.

Scenarios:

An employee starts on 15th January 2022 and the *Service First Anniversary Entitlement Pro Rata* is set to:

Anniversary Date	In this example, the employee's occupational absence entitlement will start on 15 th January 2023.
Anniversary Month Start Date	In this example, the employee's occupational absence entitlement will start on 1 st January 2023.
Anniversary Month End Date	In this example, the employee's occupational absence entitlement will start on 1 st February 2023.

3. Closed Periods Enhancements

This feature allows for the calculation of occupational absence for employees covered by the **Conditions of Service for School Teachers in England and Wales** (The Burgundy Book).

To allow PeopleXD to calculate the number of days of Occupational Absence that should be paid and should be counted in an employee's entitlement, the closure periods for the schools need to be entered.

The *Closed Periods* options are:

Options	Description
Original Absence Not Processed	Selecting this means that any absence that started in a closure period will not pay Occupational Sick Pay and will not add to the Occupational Sick Days taken. This is one of the options to support the 'Conditions of Service for School Teachers in England and Wales'.
Original Absence Taken Ignored	Selecting this means that any absence that started in a closure period will pay Occupational Sick Pay but will not add to the number of Occupational Sick Days taken.
Non-Original Absence Taken Ignored	Selecting this means that any absence that started in an open period will pay Occupational Sick Pay for the open and closed periods but will only add to the number of days taken for the open period. This is one of the options to support the 'Conditions of Service for School Teachers in England and Wales'.

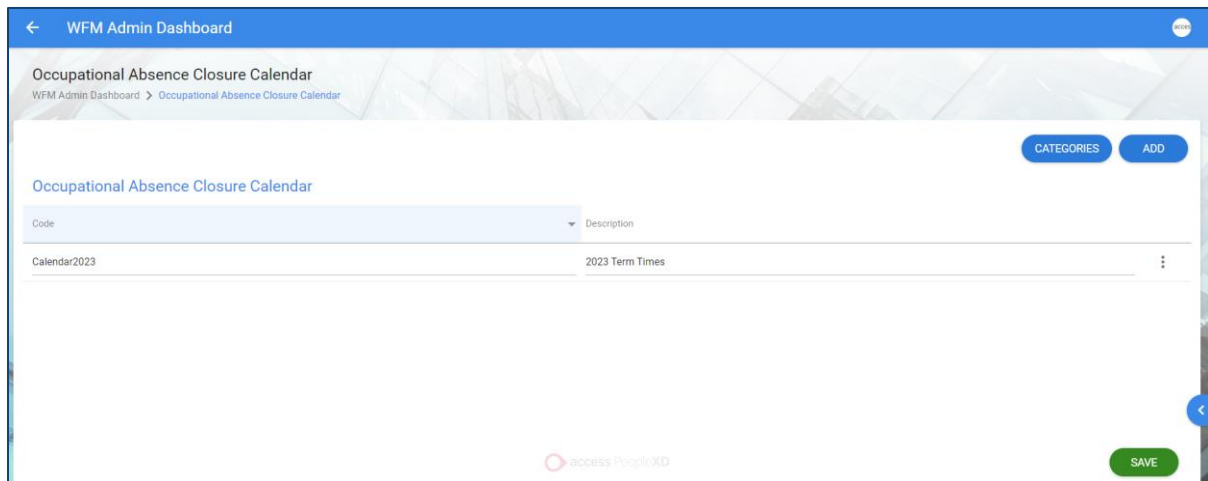

3.1. The Occupational Closure Calendars Screen

Configuring your Occupational Absence Closure Calendars is done through Portal. Here you will be able to create your Calendar, add closure periods and assign categories.

3.1.1. To add an Occupational Absence Closure Calendar:

WFM: Occupational Absence - Enhancements Guide

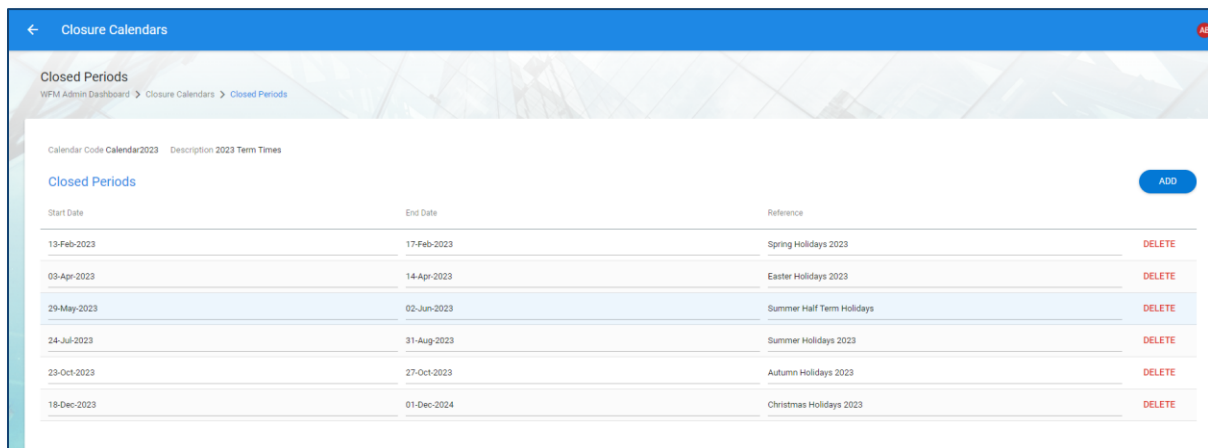

1. Navigate to the **WFM Admin Dashboard**.
2. Click on **WFM Configuration**.
3. Select **Occupational Closure Calendars**.
4. Click **Add**.
5. Enter the Code and Description, for the calendar.
6. Click **Save**.

The screenshot shows the 'Occupational Absence Closure Calendar' form in the WFM Admin Dashboard. The form has a blue header bar with a back arrow and the title 'WFM Admin Dashboard'. Below the header, the breadcrumb trail reads 'WFM Admin Dashboard > Occupational Absence Closure Calendar'. The main content area has a title 'Occupational Absence Closure Calendar' and two buttons: 'CATEGORIES' and 'ADD'. Below the title, there are two input fields: 'Code' and 'Description'. The 'Code' field contains 'Calendar2023' and the 'Description' field contains '2023 Term Times'. At the bottom right, there is a green 'SAVE' button. The footer of the form area contains the 'access PeopleXO' logo.

3.1.2. To add Closed Periods to your Occupational Absence Closure Calendar:

1. From the Occupational Closure Calendar created, use the 3-dot menu and select **View/Edit**.
2. Click **Add**.
3. Enter the Start and End date for your Closure Period, along with a reference.
4. Click **OK**.
5. Repeat for all closure periods required.

The screenshot shows the 'Closure Calendars' page in the WFM Admin Dashboard. The breadcrumb trail reads 'WFM Admin Dashboard > Closure Calendars > Closed Periods'. The page title is 'Closed Periods'. Below the title, there are two input fields: 'Calendar Code' with the value 'Calendar2023' and 'Description' with the value '2023 Term Times'. To the right of these fields is an 'ADD' button. Below the input fields is a table with the following data:

Start Date	End Date	Reference	
13-Feb-2023	17-Feb-2023	Spring Holidays 2023	DELETE
09-Apr-2023	14-Apr-2023	Easter Holidays 2023	DELETE
29-May-2023	02-Jun-2023	Summer Half Term Holidays	DELETE
24-Jul-2023	31-Aug-2023	Summer Holidays 2023	DELETE
23-Oct-2023	27-Oct-2023	Autumn Holidays 2023	DELETE
18-Dec-2023	01-Dec-2024	Christmas Holidays 2023	DELETE

3.1.3. To assign Categories to your Occupational Absence Closure Calendar

Note:

- Each category can only be associated with one calendar.
- A calendar can be associated with multiple categories.
- These categories are the Category from the employee's contract information.

1. From the Occupational Closure Calendar summary screen, click the **Categories** button.
2. Click **Add**.
3. Using the drop-down menus select the **Category Code** and **Closure Calendar** you want to attach.
4. Repeat as needed.
5. Click **Save**.

Category Code	Closure Calendar	
OPS - Operational	Calendar(2023 - 2023 Team Times)	DELETE
UTL_P - Local Test Category	Calendar(2023 - 2023 Team Times)	DELETE

4. Menu Options

To allow access to the Occupational Absence Closure Calendar function on *Portal*, the following *Menu Options* must be enabled on the relevant *Menu Profile*.

To do this:

1. Go to *Security* and select **Menu Profiles**.
2. Search for the relevant menu profile e.g., Coreportal_Manager
3. From its 3-dot menu, select **Manage Menu Options**.
4. Search for and enable the menu options below.

Menu Option	Menu ID	System
Occupational Absence Closure Calendar	WFM_CONFIG_MENU.OCC_ABSENCE_COMP_CALENDAR	CorePortal
