1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide an overview of the Pay Code Access Groups functionality.

It is intended for use by Administrators that manage the listings of Pay Codes available to managers and employees when entering leave requests, absences and timesheets.

This guide includes:

- Pay Code Access Groups explained.
- How to access and create Pay Code Groups.
- How to assign Pay Codes Groups to Managers and Employees.
- How to configure Managers and Employees to have access to the correct codes.

1.2. What are Pay Code Groups

Pay Code Access Groups which are also known as Personalised Pay Code Groups can be used to tailor the list of pay codes returned to employee and managers when inputting and viewing data.

1.2.1. Employees

By default, all Pay Codes are returned to employees in the data entry *Timesheet Input* and *Leave Request* screens. Pay code lists can be tailored to selective pay codes through the use of Pay Code Groups. Pay Code Groups can be assigned to:

- The employee
- The employee's appointment

For further information on this see [Section 3. Assign Pay Code Groups to Employees.](#)

1.2.2. Managers and Administrators

In the screens listed below, all Pay Codes are returned to managers and administrators by default:

- Timesheet Input
- Absence Details
- Time Exceptions
- Record Absence Details (back-office)
- Maintain hours (back-office)

Pay Code lists which are available can be tailored to selective Pay Codes using Pay Code Groups.

For managers and administrators Pay Code Groups can be assigned by:

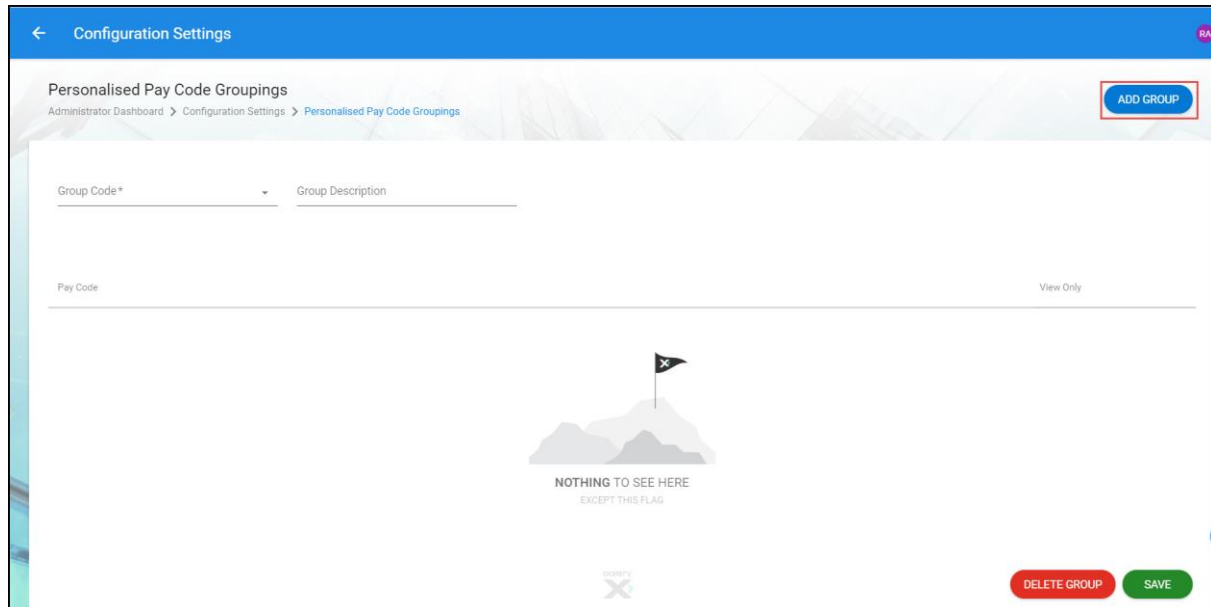

- WFM System User Configuration
 - Assign to a user
 - Assign to an org role
- Work Group configuration
- In Portal, Manager's entries can be linked to Pay Code Groups assigned at employee level. Managers can be granted access to additional pay codes within the group that are marked as *manager only*.

For further information please see [Section 4. Assign Pay Code Groups to Managers & Admins.](#)

2. Managing Pay Code Groups

2.1. Access the Pay Codes Groups Screen

The *Pay Code Groups* screen can be accessed from various areas of PeopleXD.

2.1.1. WFM Configuration

To access the *Pay Codes Groups* screen:

1. Navigate to the **WFM Admin Dashboard**.
2. Click the **WFM Configuration** tab.
3. Click the **Pay Code Groups** tile.

2.1.2. Pay Codes Screen

To access the *Pay Codes Groups* screen:

1. Navigate to the **WFM Admin Dashboard**.
2. Click the **WFM Configuration** tab.
3. Click the **Pay Codes** tile.
4. Click **Add Pay Code Group**.

2.1.3. Employee Record

To access the *Pay Codes Groups* screen:

1. Navigate to the **Command Centre** widget on the **People Management** dashboard.

2. On the Employees option click **View**.
3. Search for the relevant employee.
4. Click **View** to open their employee record.
5. Click the **Pay Code Access Groups** tab.
6. Expand the actions drop-down menu.
7. Click **Edit Existing Group**.

2.1.4. WFM Configuration Data Centre Widget

To access the *Pay Codes Groups* screen:

1. Navigate to the **Administrator Dashboard**.
2. Click the **WFM Dashboard Config** tab.
3. On the **WFM Configuration Data Centre** widget, open the **Configuration Settings** option.
4. Click the **Pay Code Groups** tile.

2.2. Managing Pay Code Groups

2.2.1. Create a Pay Code Group

To create a group:

1. Click **Add Group**
2. Enter a **Group Code**.
3. Enter a **Group Description**.
4. Click **OK**.

To add Pay Codes to the group.

1. Click **Add**.
2. Search for and select a **Pay Code**.
3. If required enable the **View Only** toggle. This means the details display on the screen but the user cannot insert or update any details.
4. Repeat to add the required Pay Codes.
5. Click **Save**.

2.2.2. Manage Existing Pay Code Group

You may need to amend the Pay Codes in a Pay Code Group.

1. Select a **Pay Code Group** from the *Group Code* drop-down menu.
2. If required click **Add** to add new Pay Codes.
3. If required click **Delete** to delete existing Pay Codes.
4. Click **Save**.

2.2.3. Delete Existing Pay Code Group

To delete an existing Pay Code Group

1. Select a **Pay Code Group** from the *Group Code* drop-down menu.
2. Click **Delete Group**.

3. Assign Pay Code Groups to Employees

3.1. Assign Pay Code Groups to Employees

Pay Code Groups can be assigned at person level or appointment level. At the employee level, multiple pay code groups can be assigned

3.1.1. By Person & Appointment

To access the screen:

1. Navigate to the **Command Centre** widget on the **People Management** dashboard.
2. On the Employees option click **View**.
3. Search for the relevant employee.
4. Click **View** to open their employee record.
5. Click the **Pay Code Access Groups** tab.
6. Click **Add**.
7. Select the **Pay Code Access Group** from the drop-down menu.
8. Select the desired assignment level column i.e. Person or Appointment.

Note: Groupings assigned at the *Person* level will be for all the employee's Appointments unless a grouping is assigned to an Appointment. Groupings assigned at the appointment level override the Person Level for the Appointment being viewed.

9. Click **Save**.

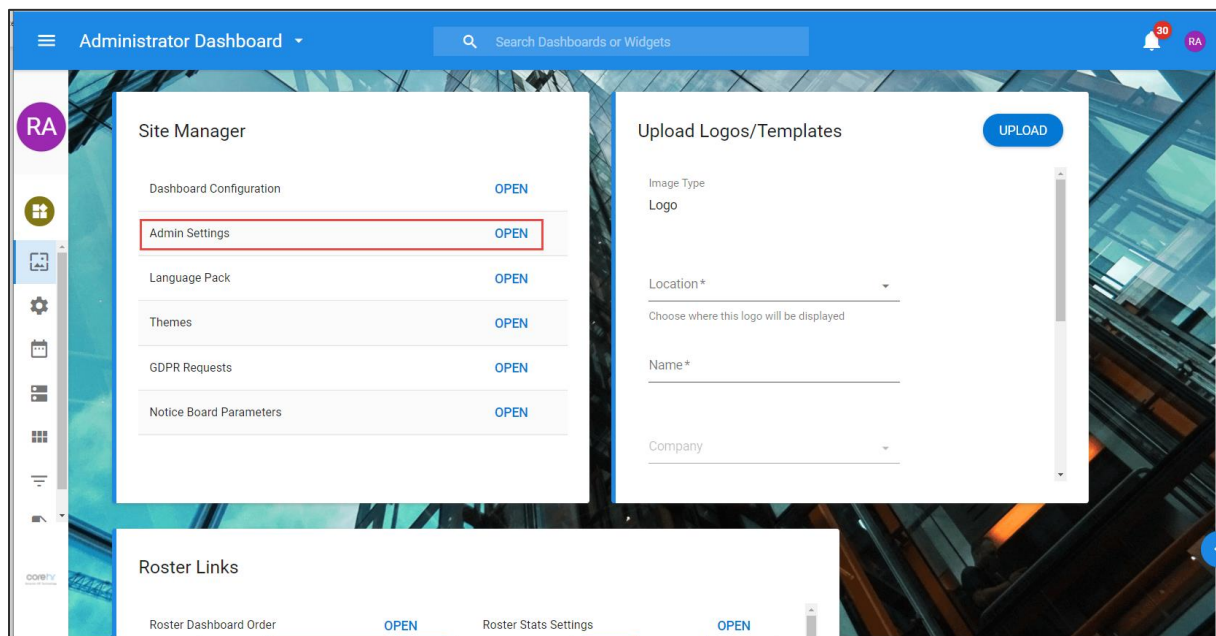

Upon saving, the default indicator will update to Y to indicate which is the default grouping used for the person or person/appointment combination.

3.1.2. Link Employee Leave Requests to their Pay Code Group

If you wish to limit leave requests, this is controlled by a Portal parameter. This step is optional.

To update the parameter, complete the following:

1. Navigate to the **Administrator Dashboard**.
2. Open the **Admin Settings** option.

3. In CorePortal Parameters, search for the parameter **ct_lr_personalised_codes**
4. Click **Edit**.
5. Update the parameter with the required value:
 - a. Set to **Y** to limit the leave request which the employee can see.
 - b. Set to **N** to ensure the code is not limited.
6. Click **OK**.

3.1.3. Delete Pay Code Group Assignment

1. Navigate to the **Command Centre** widget on the **People Management** dashboard.
2. On the Employees option click **View**.
3. Search for the relevant employee.
4. Click **View** to open their employee record.
5. Click the **Pay Code Access Groups** tab.
6. Click **Delete** against the relevant Pay Code Group.

The screenshot shows the 'Employee Search' interface for Declan Carey (000194). The page has a blue header with a back arrow and the title 'Employee Search'. Below the header, the employee's name and ID are displayed, along with a breadcrumb trail: 'People Management > Employee Search > Declan Carey (000194)'. On the right, there is an 'ACTIONS' dropdown menu. The main content area is divided into a left sidebar and a main panel. The sidebar contains a 'DC' profile icon, an 'Active' status tag, and a list of tabs: 'Change Work Schedule', 'Talent Pool', 'Demobilisation Date', 'Pay Code Access Groups' (which is selected and highlighted in blue), and 'Tax Details'. The main panel displays the 'Pay Code Access Groups' section. It includes a 'Budget Analyst' role, a 'Start Date 01-Apr-2019', and a 'Payroll Status: On Payroll' tag. Below this, there is a table with columns 'Pay Code Grouping', 'Assignment Level', and 'Default'. The table contains one row with values 'Sick', 'Person', and 'Y'. To the right of this row is a red 'DELETE' button. Below the table, there is an 'Additional Groups' section with two dropdown menus: 'Work Pattern Group' and 'Cost Centre Pattern'. At the bottom right of the main panel, there is a green 'SAVE' button. A 'COBALT X' logo is visible at the bottom center of the page.

7. You will then receive a warning. Click **Yes**.
8. Click **Save**.

4. Assign Pay Code Groups to Managers & Admins

In both *Timesheet Entry* and *Absence Entry*, the Pay Code lists which return to manager and administrators can be limited through use of Pay Code Groups. Pay Code Groups assigned at system user level takes precedence over the work group level.

The default manager/admin configuration is:

1. No Pay Code Group Applied

- In this case there are no limits applied and all pay codes are returned.

2. WFM System User/Organisational Role

- Pay Code groups which are assigned at System User/Organisational roles level take precedence over the Work Groups.
- Within site settings, the *Manager Before Org Roles Access* decides if an Organisation role or Username take precedence.

 **Note:** The setting *Manager Before Org Roles Access* setting applies to all indicators set within *WFM System Users Configuration > Access Privileges* screen.

3. Employees Work Group

- The personalised groups assigned to an employee's work group dictates codes. As an example, If a manager has employees in various work groups, the list of pay codes available will also vary.

4. Link Manager Input to Employee Pay Code Groups

Managers Portal *Absence Entry* and *Timesheet Entry* link to the pay code groups assigned at the employee level.

- If the configuration is set, this **overrides** the three examples above i.e, the Pay Codes listed are dictated by the groups assigned to the employee records.
- If an employee has no Pay Code Group assigned, the system defaults back to whichever one of the options explained above is set as the default.

 **Note:** Linking Manager Input to Employee Pay Code Groups only applies to Portal Screens.

4.1. Assign to WFM System User / Organisational Role

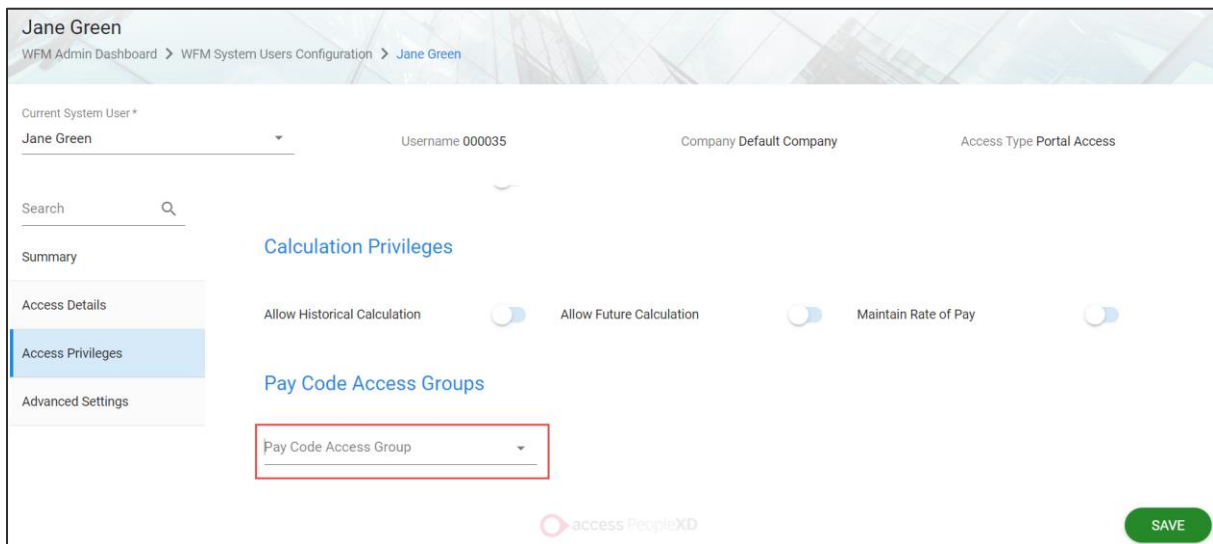

Pay Code Groups can be assigned to a WFM system user or organisation role (e.g. Line Manager) within the WFM system user configuration.

Where it is applied at WFM system level, the manager or administrator entry is restricted to the grouping that is assigned to their username or organisational role. This applies to the following screens:

- **Portal:** Timesheet Input & Absence Entry.
- **Back-Office:** Maintain Hours & Record Absence Details

To assign to a WFM system user or organisation role:

1. Navigate to the **WFM Admin Dashboard**.
2. Click the **WFM Configuration** tab.
3. Search for and click the **WFM System Users Configuration** tile.
4. Search for the user or organisation role.
5. From the 3-dot menu click **View/Edit**.
6. Click the **Access Privileges** tab.
7. Select a **Pay Code Access Group** from the drop-down menu.

The screenshot shows the 'WFM Admin Dashboard' for user 'Jane Green'. The breadcrumb trail is 'WFM Admin Dashboard > WFM System Users Configuration > Jane Green'. The 'Current System User' is 'Jane Green' with 'Username 000035', 'Company Default Company', and 'Access Type Portal Access'. The left sidebar has a search bar and tabs for 'Summary', 'Access Details', 'Access Privileges' (selected), and 'Advanced Settings'. The main content area shows 'Calculation Privileges' with three toggle switches: 'Allow Historical Calculation' (on), 'Allow Future Calculation' (on), and 'Maintain Rate of Pay' (on). Below this is the 'Pay Code Access Groups' section, which contains a dropdown menu labeled 'Pay Code Access Group' highlighted with a red box. At the bottom right, there is a 'SAVE' button and the 'access PeopleXD' logo.

8. Click **Save**.

Note: Advanced configuration supports a precedence order. You can have the order of username overriding organisational role or the other way around.

4.2. Assign to Work Group

Where Pay Code Groups are recorded at work group level, the manager's available Pay Codes list is based on groupings assigned at the employee's work group.

Example:

A manager inputs data for employee 001. The list of codes returned is based on the ABC group codes assigned to the employee work group. This comprises of Basic, Commission and Extra Hours.

Employee	Employee's Work Group	Pay Code Group	Pay Codes in the group
001	Sales	ABC	Basic, Commission, Extra hours
002	Prod	XYZ	Basic, Overtime1.5, Overtime 2.0

To assign to a Work Group:

1. Navigate to the **WFM Admin Dashboard**.
2. Click the **WFM Configuration** tab.
3. Search for and click the **Work Groups** tile.
4. Search for the Work Group.
5. From the 3-dot menu click **View/Edit**.
6. Click the **Group Codes** tab.
7. Select a **Personalised Pay Code Group** from the drop-down menu.

4.3. Link Manager Input to Employee's Pay Code Groups

Through advance configuration, Portal *Timesheet Input* and *Absence Entry* screens can be linked to the employee's Pay Code Group. In addition:

- Managers can now enter additional Pay Codes such as sickness, which are for **manager use only**. This is supported by a new indicator setting.

4.3.1. Step One: Enable Advanced Options

To link a Managers Absence Entry and/or Timesheet Input to the Pay Code Groups attached to employees, the below advanced options need to be enabled.

Option	Parameter
Absence Entry	ABSENCE ENTRY PAY CODE LIST MANAGER MODE APPLY EMP FIRST
Timesheet Input	TIMESHEET INPUT PAY CODE LIST MANAGER MODE APPLY EMP FIRST AND MANAGER WG LAST

To enable the advanced options:

- Navigate to the **WFM Admin Dashboard**.
- Click the **WFM Configuration** tab.
- Search for and click the **Company and Calendar Config** tile.
- Search for the Company.
- From the 3-dot menu click **View/Edit**.
- Click the **Advanced Options** tab.
- Search for the parameters.
 - If the parameters exist:
 - Enable the indicator.
 - If the parameters don't exist:
 - Click **Add Advanced Option**.
 - Enter the Option Names:
 - ABSENCE ENTRY PAY CODE LIST MANAGER MODE APPLY EMP FIRST
 - TIMESHEET INPUT PAY CODE LIST MANAGER MODE APPLY EMP FIRST AND MANAGER WG LAST

- iii. Enable the toggle.
- iv. Click **OK**.

access PeopleXD

4.3.2. Step Two: Configure Manager Only Pay Codes

You can configure Pay Codes to be manager input only. When a Pay Code is marked as Manager Only it means:

- Manager only Pay Codes can be assigned to a Pay Code Group. To create Pay Code Groups, see [Section 2](#).
- Manager only Pay Codes will not display to employee's assigned the Pay Code Group
- Where a managers input is linked to an employee's Pay Code Group the manager will have manager only Pay Codes available

Note: To identify Manager only pay codes, contact an XD consultant with a list of Pay Code numbers and names.

4.3.3. Step Three: Assign Pay Code Groups to Employees

Manager input is now linked to employee's Pay Code Groups. And if configured they will have manager only Pay Codes to select from.

Pay Code Groups can now be assigned to employees. For further details see section [3.1. Assign Pay Code Groups to Employees](#).

5. Non-Payroll Pay Code Groups

Non-Payroll Pay Code Groups can be used to tailor the list of pay codes you do not want to send to payroll. In the same way as pay code groups the list of non-payroll pay codes can be used when employee and managers are inputting and viewing data.

The *Group Non Payroll Code* tile is a tile within WFM Configuration. To grant access to the functionality the following menu option will need to be enabled on the relevant user profiles.

Menu Option	Menu ID
Group Nonpay	CONFIG_SET_MENU.GROUP_NON_PAYROLL_Codes

5.1. Access the Group Non Payroll Code Screen

To access the Group Non Payroll Codes screen:

1. From the *WFM Admin dashboard* select **WFM Configuration**.
2. Search for and click the **Group Non Payroll Codes** tile.
3. The screen will display.

5.2. Managing Non-Payroll Pay Code Groups

From the screen you can create and manage your non-payroll pay code groups. The *Actions* button can be used to display the Work Groups and Employee assigned to the non-payroll pay code group.

5.2.1. Create a Non-Payroll Pay Code Group

To create a group:

1. Click **Actions**
2. Click **Add Group**
3. Enter a **Group Code**.
4. Enter a **Group Description**.
5. Click **OK**.

To add Pay Codes to the group.

6. Click **Add**.
7. Search for and select a **Pay Code**.
8. Select a **Start Date** the group will be effective from and an End Date, if required.
9. Click **OK**.
10. Repeat to add the required Pay Codes.

5.2.2. Manage Existing Non-Payroll Pay Code Group

You may need to amend the Pay Codes in a Non-Payroll Pay Code Group.

1. Select a **Pay Code Group** from the *Group Code* drop-down menu.
2. If required, click **Add** to add new Pay Codes.
3. If required, click **Delete** to delete existing Pay Codes.

5.2.3. Delete Existing Non-Payroll Pay Code Group

To delete an existing Non-Payroll Pay Code Group

1. Select a **Pay Code Group** from the *Group Code* drop-down menu.
2. Click **Delete Group**.

5.3. Assign Non-Payroll Pay Code Groups

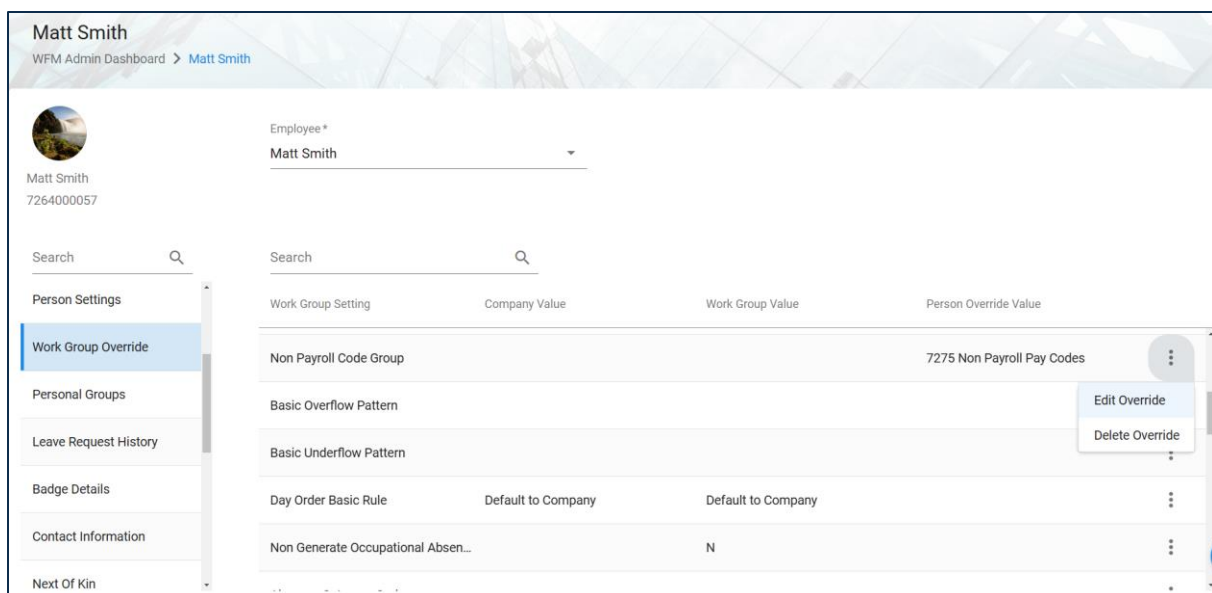

Non-Payroll Pay Code Groups can be assigned at an employee or work group level.

5.3.1. Assign at Employee Level

Non-Payroll Pay Code Groups can be assigned at person level.

To do this:

1. From the **WFM Admin Dashboard**.
2. Select **WFM Person Maintenance**.
3. Search for the relevant employee.
4. Expand their 3-dot menu and select **View**.
5. From the left-hand menu click the **Work Group Override** tab.
6. Search Non Payroll Code Group.
7. Expand it's 3-dot menu and click **Edit Override**.
8. Select the **Non Payroll Code Group**.
9. Click **OK**.

Employees assigned to specific non-payroll pay code groups can be view from the *Group Non Payroll Codes* screen using the **View Employees Assigned** option.

5.3.2. Assign at Work Group Level

Where Non-Payroll Pay Code Groups are recorded at work group level, the manager's available Pay Codes list is based on groupings assigned at the employees work group.

To assign to a Work Group:

1. From the **WFM Admin Dashboard** select **WFM Configuration**.
2. Search for and click the **Work Groups** tile.
3. Search for the Work Group.
4. From the 3-dot menu click **View/Edit Work Group**.
5. Click the **Group Codes** tab.
6. Select a **Group Non-Payroll Code** from the drop-down menu.
7. Click **Save**.
