1. Overview

1.1. Purpose of the Guide

This document outlines how to access and manage the Period Closure screen. The screen enables Administrators to pre-book company closure periods for example, Christmas or a summer shutdown and automatically deduct the relevant leave from staff entitlements.

Benefits include:

- Pre-booking of leave for closure periods ensures the required days/hours are automatically deducted from the staff entitlements.
- Stops staff from over-booking or forgetting to keep days/hours for closure periods.
- Staff can see the impact of the closure booking on the leave entitlements.
- The closure period automatically validates to employees working schedules & public holidays determining the number of days/hours required.
- Where staff change working schedules the booking days/hour are automatically updated.
- The closure period will be reflective of Joiners (new employees), Leaves (employee that leave before the closure period).
- Where required staff can be paid in advance for full periods of leave such as 2 weeks summer closure.

Note: The following preconditions need to be met for the roll out of period closures:

- Company calendar year and Company calendar to be set up in the system. See our [Company & Calendar](#) guide for further guidance.

1.2. How to access the Period Closure Screen

The Period Closure Screen is menu security driven, see section [6.1 Importing Menu Options](#) for further guidance, and once enabled the screen can be found in the WFM Admin Dashboard.

1. Go to the *WFM Admin Dashboard*.

2. Select **Period Closure** from the left-hand menu.

2. The Period Closure Screen

Once you have accessed the Period Closure Screen you will be presented with a filter to select the period closure criteria you wish to display. The filter allows you to refine the view by:

- **Status** – Assigned or Unassigned
- **Start Date** and/or **End Date** – select a specific date or date range
- **Pay Frequency** – Weekly or Fortnightly
- **Exceptions** – Yes or No

You can further refine your view using Search to search by period code or period name should you wish to manage a specific closure period from the list displayed.

The *Period Closure* screen contains the following fields:

Option	Details
Period Code	The code given to the closure period. This can be alphanumeric with a max character length of 6.
Period Name	The name given to the closure period for example Christmas24. This has a max character length of 40.
Start Date	The start date of the closure period.
End Date	The end date of the closure period.
Pay Code	The pay code associated to the closure period.  Note: We would recommend creating a specific Closure Period pay code.
Part Day Leave	If the closure period is a part day. Options available are: • No (Full Day): Closure period is a full day • Yes (Hours): If selected part day hours are required to be entered and will display. • Yes (Decimal): If selected part day decimal value is required to be entered and will display. • Yes (Start/End Times): If selected start/end times are required to be entered and will display.
Exceptions	This will show if exceptions have been applied to the criteria groups assigned to the closure period.
Assigned To	The criteria groups assigned to the closure period.
Pay Frequency	The pay frequency assign to the closure period. Option available are: • Weekly • Fortnightly
Company	The company the closure period is assigned to.
Status	The status of the closure period. Options available are: • Assigned – The period closure is active. Criteria group(s) are assigned, and the employees have been retrieved. • Running – The period closure is being processed.

Option	Details
	• Unassigned – The period closure is created, criteria group(s) have been assigned but the employees have NOT been retrieved.

3. How to set up a Period Closure

There are 4 steps required to setup and enable your closure period. These must be completed in order, to ensure your closure period works correctly. We will walk you through each of these steps below.

The options available from a period closure 3-dot menu changes depending on its place in the setup steps:

Stage	Options Available	
Period Closure Added	- View/Edit - Assign Criteria Groups •	- Copy - Delete
Criteria Groups Assigned	- View/Edit - Assign Criteria Groups - Delete •	- Copy - Retrieve Employees
Employee Retrieved	- View/Edit - Assign Criteria Groups - View Exceptions - Delete •	- Copy - Retrieve Employees - View Employees - Notify Employees

3.1. Step 1 – Add a Period Closure

To add a period closure:

1. From the *Period Closure* screen click **Add Period Closure**.
2. Enter a relevant **Code** and **Name** for the closure period.
3. Select a Start Date for the closure period
4. Select a Pay Code for the closure period.
 - We would recommend creating a specific closure period pay code. See our [Pay Codes](#) user guide for further guidance.
5. Select if the closure period is to be a part day:
 - If **No**:
 - a) Select the Pay Frequency, if required.
 - b) Select the Company the closure period is associated to.

- If you have multiple companies, you will have to setup a closure period of each company.
- c) Turn on the Pre-Approve toggle, if required.

Add Period Closure

Period Code* Period Name*

Start Date* End Date*

Pay Code* Part Day Leave*
No (Full Day)

Pay Frequency Pre-Approve

Notify Future Employees

CANCEL OK

- If **Yes**:
 - a) Depending on the option selected enter the Hours, Decimal Value or Start and End times for the period closure.
 - b) Select whether to Deduct Unpaid Breaks. Only applicable to Part Day (Start/End Times)
 - a) Select the Pay Frequency, if required.
 - b) Select the Company the closure period is associated to.
 - If you have multiple companies, you will have to setup a closure period of each company.
 - c) Turn on the Pre-Approve toggle, if required.

Add Period Closure

Period Code*	Period Name*
Start Date* 	Pay Code* 
Part Day Leave* Yes (Start/End Times) 	Start Time* 
End Time* 	Deduct Unpaid Breaks* 
Pay Frequency 	Pre-Approve 
Notify Future Employees 	

CANCEL OK

- Turn on the **Notify Future Employees** toggle, if required.
 - We would recommend enabling as this will automatically notify Joiners; Movers & Leavers that fit into the criteria group assign to the period closure.
- Click **OK**.
- Your period closure will display.

Note: Duplicate period closure events cannot be created.

3.2. Step 2 – Create your Criteria Groups

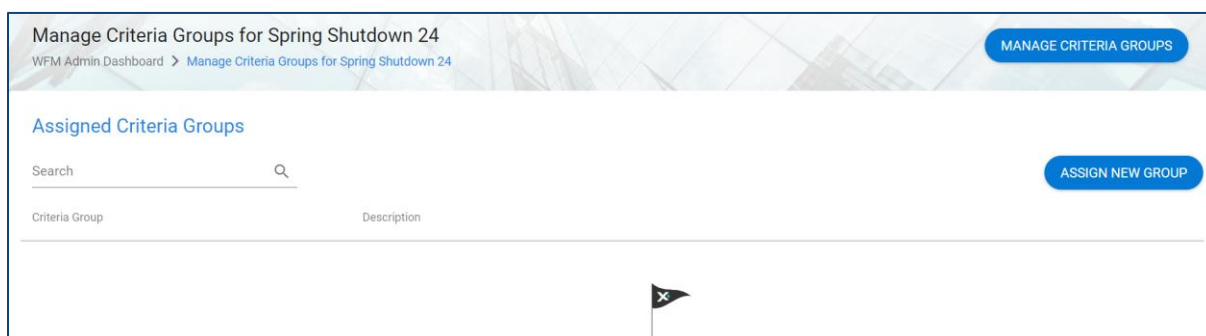

As part of the Period Closure setup process the next step you are required to complete is to add criteria groups to your period closure, this is done from the Period Closure screen.

Criteria groups allow you to group employees based on reference data in their employee record. For example, you could group all employees in a particular department or location.

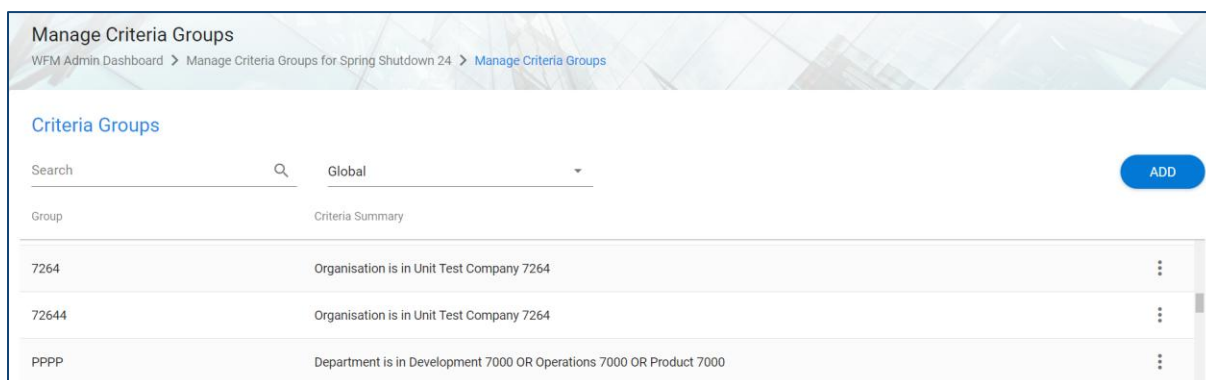

Your criteria groups will need to be created before they can be assigned to your period closure.

To create a criteria group:

1. Select the period closure you want to update.
2. Expand the 3-dot menu, select **Assign Criteria Groups**.
3. Click the **Manage Criteria Groups** button.
 - From here you can manage all existing criteria groups and create new criteria groups.

4. Click **Add** to create a new group.
5. Give your group a **Name** and select the **type**, then click **OK**.
6. Click on your required reference data from the left-hand menu.
7. Select the relevant attributes from the **Available column** and use the arrow to move them to the **Assigned column**, this list is automatically saved.
8. Using the breadcrumb to return to the **Manage Criteria Groups** screen and confirm the criteria is correct, you can delete/edit rules using the 3-dot menu.
9. Repeat to create all required criteria groups.

3.3. Step 3 – Assign your Criteria Groups

Now your criteria groups are created they are ready to be assigned to the period closure.

- If a pay frequency has been selected, then the criteria groups will filter back the relevant paid employees e.g., weekly/fortnightly.
- If no pay frequency has been selected, then the criteria groups will filter back all employees assigned.
- Criteria Groups will be reflective of Joiners (new employees) and Leavers (employees that leave before the closure period).
 - Joiners will be automatically picked up.
 - Leavers will get back their entitlements once processed as a leaver.
 - Movers will get picked up if reassigned to a different criteria group selected.

To assign a criteria group:

1. Use the breadcrumb to return to **Manage Criteria Groups** for your period closure.
2. Click the **Assign New Group** button.
3. Use the **drop-down menu** to select the criteria group you would like assign and click **OK**, this is automatically saved
4. Repeat the process to add additional criteria groups to your period closure, if required.
5. Use the breadcrumb to return to the **Period Closure** screen. The criteria groups assigned will display.

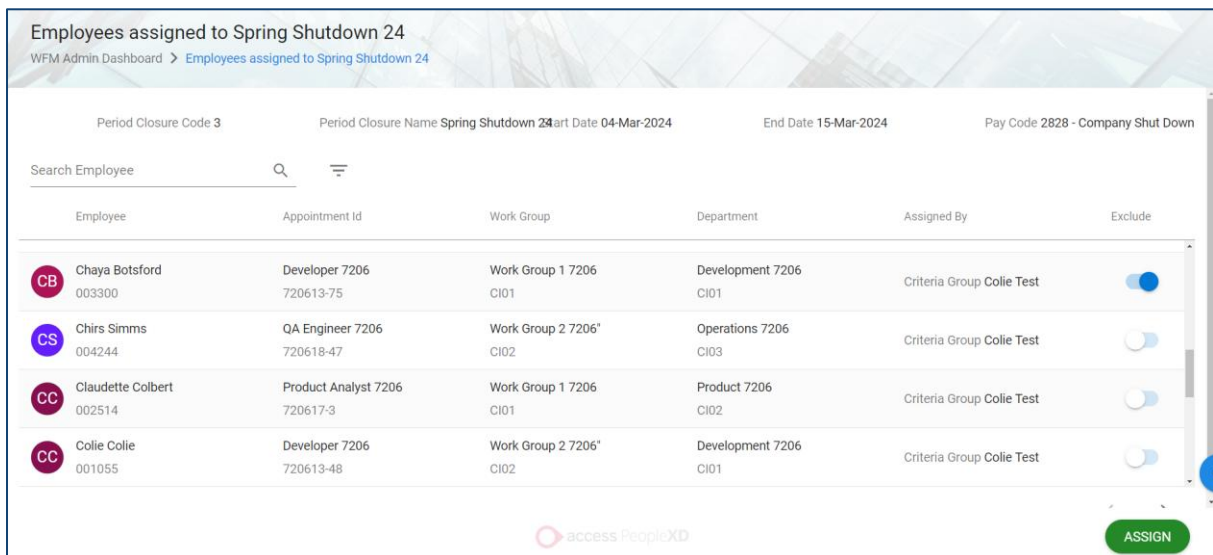

Period Closure										
Search										ADD PERIOD CLOSURE
Period Code	Period Name	Start Date	End Date	Pay Code	Part Day L...	Exceptions	Assigned To	Pay Frequ...	Company	Status

1	Christmas Bre...	22-Dec-2025	24-Dec-2025	1180 COMPANY PE...	No	Yes	Group 7203	Weekly	7204 Unit Test ...	Assigned

3.4. Step 4 – Retrieve Employees

Now your criteria groups have been assigned you can retrieve a list of employees that meet the pay frequency/criteria group requirements and activate them. At this point, Administrators can choose to exclude certain employees from the period closure by turning on the Exclude toggle against their details. For example, you may require a skeleton staff to work the closure period.

To retrieve employees:

1. Select the period closure you want to update.
2. Expand the 3-dot menu, select **Retrieve Employees**.
3. A list of all employees that meet the requirements will display.
4. Review the list and if required turn on the Exclude toggle for selected employees.

ASSIGN

5. Once happy with your selection, click **Assign**.

If you have made exclusions the status will update to Yes and you will now be able to access further options from the Period Closure 3-dot menu:

- **View Exceptions** – This displays the employees who have exceptions for the period closure and what the exceptions are. These will need to be resolved for the employees to be included in the period closure.
- **View Employees** – This displays a list of all employees assigned the period closure.
- **Delete** – You can only delete future or open period closures.
- **Notify Employees** – Once the period closure is active the admin may wish to notify the employee who are to receive a period closure day. This will be a notification center alert.

4. Manage Period Closures

4.1. View/Edit

The View/Edit option for a period closure event displays the event details and allows you to amend/update if required.

Note: Events that are not in the current or future periods can be viewed but not edited.

4.1.1. Period closure without pay frequency

For events that have not been set up with a pay frequency the available tab within View/Edit will be **View**. Click Save to apply any changes made to the details of the closure:

View/Edit Period Closure

The *View* screen contains the following editable fields:

Option	Details
Period Name	The name given to the closure period for example Christmas24. This has a max character length of 40.
Start Date	The start date of the closure period.
End Date	The end date of the closure period.
Pay Code	The pay code associated to the closure period.
Part Day Leave	If the closure period is a part day. Options available are: No (Full Day): Closure period is a full day

Option	Details
	• Yes (Hours): If selected part day hours are required to be entered and will display. • Yes (Decimal): If selected part day decimal value is required to be entered and will display. • Yes (Start/End Times): If selected start/end times are required to be entered and will display.
Pay Frequency	The pay frequency assign to the closure period. Option available are: • Weekly • Fortnightly
Company	The company the closure period is assigned to.
Pre-Approve	Can be turned on/off depending on whether pre-approval of the closure is required.
Status	The status of the closure period. Options available are: • Assigned – The period closure is active. Criteria group(s) are assigned, and the employees have been retrieved. • Unassigned – The period closure is created, criteria group(s) have been assigned but the employees have NOT been retrieved.

View also displays the status of the period closure and who and when it was assigned by.

4.1.2. Period closure with pay frequency

For events that have been set up with a pay frequency the available tabs within View/Edit will be **View** and **Payment Options**. Click Save to apply any changes made to the details or payment options of the closure:

Pay Balance if Entitlement Exceeded ☐ Pay Zero Balance ☐

access PeopleXD

SAVE

The *View* screen contains the same editable options as above.

The *Payment Options* screen contains the following editable fields:

Option	Details
Holiday Periods	Select the number of periods you would like to pay the assigned employees in advance. Once populated the Pay in Period, Hold in Period & Arrears in Period fields are mandatory.
Pay in Period	Once the Holiday Period is populated a list of periods will be available to select. Once a period is selected it will auto populate the <i>Hold in Period</i> and the <i>Arrears Pay in Period</i> fields.
Hold in Period	This field is pre-populated based on the Pay in Period selection but can be changed, if required.
Arrears Pay in Period	This field is pre-populated based on the Pay in Period selection but can be changed, if required.
Pay Balance if Entitlement Exceeded	If enabled this allows the advance payment to be made even if the employee has exceeded their balance. Note: The Pay Balance if Entitlement Exceeded and Pay Zero Balance toggles are dependent on each other. The Pay Zero Balance toggle will not be available unless the Pay Balance if Entitlement Exceeded toggle is turned on.
Pay Zero Balance	This will create a record with zero hours/days if the balance is zero.

Example:

If the current open period is 202228 (04 to 10-Jul) and you wanted to run, it for 202229 (11 to 17-JUL)

- 11-JUL will be the start date.
- 1 will be entered in Holiday Periods.
- You want the employee to be paid in 202228 for 202229, therefore:
 - Enter 202228 as 'Pay Hols in Period'
 - Enter 202229 as 'Hold in Period'
 - Enter 202230 as 'Arrears Pay in Period'

When you generate timesheets for period 202228, the absence and pay code you have recorded for 202229 will go across for period 202228.

4.2. Copy

The Copy option for a period closure event allows you to copy a period closure with the same settings. This can be of benefit as it can save you time as the Pay Code, Criteria Groups & Pay Frequency are all maintained. To do this:

1. From the relevant period closure select **Copy**.
2. Enter a relevant **Code** and **Name** for the new closure period.
3. Select a **Start & End** Date for the new closure period.
4. Click **OK**.

Note: If the period closure being copied is a Part Day closure, the End Date field will not be available to populate.

4.3. Retrieve Employees

This screen lists the Employees that meet the pay frequency (if set) and criteria group requirements. It allows you to view the employees available to be assigned the Period Closure Absence and if necessary, exclude specific employees as they are required to work that day. For

example, if there is a period closure for summer shutdown but you require a skeleton staff to work, then you can exclude these employees from the period closure.

If an employee is excluded, they will not be assigned the period closure and will display on the *View Exceptions* option for the event.

Once employees are assigned the Assign button will change to Re-Assign.

If changes are made to an assigned Criteria Group, you will need to re-complete Step 4 for the changes to be applied to your closure period. To do this:

5. From the relevant period closure select **Retrieve Employees**.
6. Click **Re-Assign**.
 - This will display the Employees that meet the pay frequency (if set) and criteria group requirements.
7. Review the list and if required turn on the Exclude toggle for selected employees.
8. Once happy with your selection, click **Assign**.
9. If you have previously notified users, you will also need to resend notifications.

For **Joiners** and **Movers** allocated to an assigned period closure criteria group(s), these movements will be automatically picked up and the employees assigned the relevant period closure.

Note: If the movement of Joiners and Movers creates exceptions, you will be notified, [see 4.4.1 Administrator Alerts](#), and will need to resolve the exceptions, as per section [4.4 view exceptions](#), and re-complete Step 4 for the changes to be applied to your closure period, as above.

4.4. View Exceptions

This screen displays the employees that will not get assigned a period closure absence. This could be because you have excluded the employee on purpose or one for one of the below exceptions:

- No Work Schedule (no shift or on rest)
- Annual Leave Booked
- Entitlement Exceeded

WFM: Period Closure Configuration - User Guide

- No Entitlement Assigned
- Out Sick, Maternity Leave, Parental or Parent leave
- Employee processed as a Leaver
- UnRostered Booking (roster non fixed shifts only)
- Employees in multiple criteria groups
- Shutdown already generated
- Absence already exists during the period closure

The exceptions will need to be resolved before the employee can be included in the period closure. Once resolved the employee will be removed from the screen and will be visible in the View Employees list.

The **Exceptions** screen can be filtered using the following options:

Field	Description
Search	Use the search feature to find the specific employee you wish to resolve an exception for.
Filter	Use the filter button to refine your search. You can filter by, the following, and click Apply to filter the results. • Employee • Department • Exception • Work Group • Job Title • Error Type

Field	Description
	Exception Date

The **Exceptions** screen contains the following fields:

Field	Description
Employee	The name of the employee an exception has been created for.
Appointment Id	The appointment Id for the employee.
Work Group	The work group the employee is assigned to.
Department	The department the employee is assigned to.
Exception	A description of the exception that has occurred for the employee.
Balance Code & Name	The balance code and name that is associated with the exception.
Balance Type	The balance type that is associated with the exception.
Remaining Balance	What is left of their balance entitlement.
Requested Balance	How much of the balance entitlement has been/would be used by this period closure.
Error Type	The error type e.g. Error or Warn.
Exception Date	The date the exception was created.

4.4.1. Administrator Alerts

When new joiners and movers are added and they meet the period closure criteria group requirements, they are assigned the period closure. If the movement of joiners and movers creates exceptions the administrator will be alerted, action is required to resolve the latest exceptions on the period closure.

The email alert is controlled by Admin Settings. To configure the email alert, follow the steps below:

1. From the *Administrator Dashboard* select **Site Manager**.
2. Open **Admin Settings**.
3. Search for the parameter **ct_periodclose_email_to**
4. Click **Edit**.
5. Enter the email address you wish the alert to be sent to.

- **Note:** we would recommend using a generic email address, administrator inbox, to ensure continuity of service rather than an individual's address which will need to be updated for periods of leave etc.

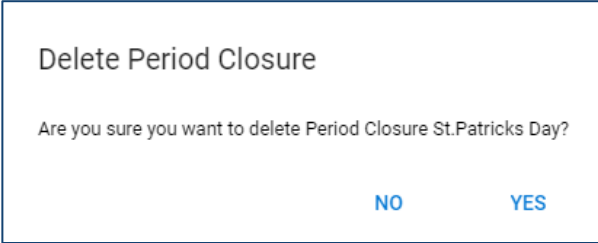

6. Click **OK**.

Once set up the system will send an email to the configured email address when a new error has been added to a period closure's exceptions; either when a period closure is manually run, or when it automatically runs overnight.

The email will have a subject title of **Company Period Closure Absence Exceptions** and identify the **period closure name** and **code** the administrator needs to access to resolve the latest exceptions.

4.5. Delete

The delete option for a period closure is available, only for administrators. This includes the option to delete Current, Future and Historical period closures.

A screenshot of a dialog box titled "Delete Period Closure". The text inside the dialog box asks, "Are you sure you want to delete Period Closure St.Patricks Day?". At the bottom right of the dialog box, there are two buttons: "NO" and "YES", both in blue text.

When selected the period closure event is removed from the grid. All absence entries are removed from the assigned employees and the day(s)/hours will be added back to the employee's entitlement.

4.5.1. Delete a Period Closure Absence

Administrators can also delete a period closure absence, for an employee. This can be done from any of the Absence screens the admin has been granted access to. This is menu security driven, the following menu option must be enabled on the relevant user profile:

WFM: Period Closure Configuration - User Guide

Menu Option	Menu ID	System
Period Closure Allow Delete	WFM_ADMIN_MENU.PERIOD_CLOSURE_ALLOW_DELETE	CorePortal

Once enabled the delete absence option will be available within the 3-dot menu of the Absence.

The screenshot shows the WFM Admin Dashboard for Amelia May. The left sidebar contains navigation links: Key Information, Team Area Assignment, Work Schedule, Absences (selected), Balances, and Person Settings. The main area displays a table of absences for Amelia May. The table columns are: Pay Code, Start Date, End Date, Days, AM/PM, Hours, Weeks, Num Do..., Recurrence Id, RTW Interview, and Status. The table lists several absences, including 'Other Leave', 'Company Clos...', 'Sick Leave', and 'Annual Leave'. A 3-dot menu is open for the 'Sick Leave' entry, showing options: 'View/Edit Absence Details', 'Delete Absence', 'View Co Workers Leave Absence', and 'Weekly Work Schedule'. An 'ADD ABSENCE' button is visible in the top right corner.

The delete warning message displays both on the absence screen and when deleting the absence from the employee calendar.

Delete

Are you sure you want to delete this Period Closure absence? Please note that if this absence is in the future you must exclude the employee from the Period Closure.

NO YES

Note: If deleting a future period closure absence, for an employee. It is also recommended that the employee is excluded from the period closure. As if the period closure is executed again the employee will re-receive the period closure unless excluded.

4.6. Notify Employees

Once the period closure is active the admin may wish to **Notify Employees** who are to receive a period closure day.

Note: If changes have been made to the assign criteria group(s) and employees re-assigned you will need to re-notify users. This will notify all assigned users.

Once selected, from the 3-dot menu, an email and a notification will be sent to all employees within the associated criteria group.

Example: This system generated email cannot accept replies.

Subject: Company Period Closure Absence has been assigned to you.

Body: Hi XXX,

You Have Been Assigned a Company Period Closure Absence On [[period closure start date]].
Please review your Holiday Entitlement for any updates.

Sincerely, The PeopleXD Support Team.

Notification features include:

- End date included, if applicable.
- If a half day closure it will include AM/PM.
- If a part day closure the start & end times will be included.

5. View Period Closures

Within the existing screens that currently display absence details, manager and employees will be able to view the period closure absence entry.

Managers can view an Absence from:

- Team Calendar
- Person Maintenance
- Team Scheduler
- Timesheet Entry

Employees can view an Absence from:

- My work week
- My calendar widget
- My calendar

Once a company closure period is active employees or managers booking/requesting leave for the same dates will be notified a company shut down exists.

6. Menu Options

A menu profile **WFM_PERIOD_CLOSURE** has been created to provide users full access to Period Closure. You can [assign this menu profile to users](#) or import the menu options to an existing menu profile.

6.1. Importing Menu Options

1. Navigate to the **Security Dashboard** and select the **Menu Profiles** tab.
2. Search for the existing menu profile e.g.: Coreportal_Admin.
3. Expand the 3-dot menu and select **Import Menu Options**.
4. Select **From existing Menu Profile** and click **OK**.
5. Search for the menu profile **WFM_PERIOD_CLOSURE**.
6. Review the confirmation message.

Once imported, the menu options and webservices are assigned to the existing menu profile.

6.2. Menu Options

The following menu options need to be enabled for access to the Period Closure screen.

All menu options are included in the menu profile **WFM_PERIOD_CLOSURE**.

7. FAQs

To support you with the period closure feature, we have collated the most common questions you've asked us:

Question	Answer
What is not supported in the Period Closure feature?	The period closure feature does not support: - Multiple pay codes for a period closure. You can only assign a single pay code to a period closure. However, you can create as many period closures, as required, for the same date and assign a different pay code to each. - UDC Calendars. Only system calendars are supported.
Can I use any pay code for Period Closures?	Yes, but we would recommend it is best practice to create new period closure pay codes. As this will help identification and reporting.
Can an employee delete a period closure on their calendar?	No, employees cannot delete or cancel a period closure in their calendar.
Can a Period Closure be deleted?	Only current period or future period closures can be deleted. Historical closures cannot be deleted i.e., historical period that are outside the system calendar. Only Admins can make changes to a period closure, from the Period Closure screen.
What happens to an employee's balance if a Period Closure is Deleted?	The employee's balance will automatically recalculate to show the additional day(s).
Can the employee request annual leave on the same date as a period closure?	Yes, but the manager will be notified that a period closure exists for this day when they receive the request approval so it can be rejected.

Question	Answer
Can I run a period closure for past dates?	No
Can historical period closure be viewed on the Period Closure screen?	Yes, the period closure screen can be filtered to <i>Show Historical Closures</i>. 
Are employees notified about a period closure?	Only, if the administrator selects the <i>Notify Employees</i> option against the period closure. To automatically notify Joiners; Movers & Leavers that fit into the criteria group the Notify Future Employees toggle must be turned on. This can be done when creating the period closure or once the period closure is created using the View/Edit option in the 3-dot menu.
When will a future commenced employee receive a period closure?	When a period closure is run, it looks at current commenced contract only. If the employee has a commenced future appointment, when the confirmed future starter is commenced, they will be included.  Note: Future commenced employee's will only be picked up if they are allocated to the criteria group(s) assigned to the period closure.
How are employees notified of a period closure?	By email and by the bell notification.

Question	Answer
What are the predefined conditions that need to be in place before rolling out Period Closure?	Company calendar year and Company calendar needs to be set up. If you are using bank holidays feature, then these also need to be configured for the year. If the pre-conditions are not set up, then once the add period closure button is selected an error message is displayed advising the pre-condition have not been met. Please be advised the Balance calendar needs to be configured for the next period in order to enable this feature DISMISS
What is the Deduct Unpaid Breaks toggle, when creating a period closure?	Deduct Unpaid Breaks is a mandatory field when creating a Period Closure for a Part Day using (Start/End Times). Options to select are: - YES – this will deduct any unpaid breaks from the duration of an employee’s absence. It supports fixed and variable breaks. - NO – this will include any unpaid breaks from the duration of an employee's absence.
If a Pay Frequency is selected when creating a Period Closure, will it filter the employees when creating a criteria group?	Yes, once a pay frequency is applied (weekly or fortnightly) then the criteria group(s) will filter back the weekly or fortnightly paid employees.  Note: Period Closures does not look at UDC Calendars, only system calendars. As generate timesheet only support system calendars.
Can I re-assign a Period Closure?	Yes, there are no limitation on re-assigning a period closure.

Question	Answer
What happens to Leavers?	A person is processed as a leaver when generate timesheet is run for that person. The period closure is removed and if the period closure is set up against their balance they will get their entitlement back.
Will an employee receive a period closure if they have a future end date?	No, if employee has a future end date, then they will not receive a period closure after their future end date. For example, an employee has a future end date for 01/09/25 therefore they will not receive any period closures dated after 01/09/25 as their appointment will be ended.
Are Administrators alerted if the movement of joiners & movers creates exceptions?	Yes, an email alert parameter is controlled by Admin Settings. See section 4.4.1 Administrator Alerts for guidance. Once set up the system will send an email to the configured email address when a new error has been added to a period closure's exceptions; either when a period closure is manually run, or when it automatically runs overnight.
