1. Overview

1.1. Purpose of the Guide

The purpose of this guide is to explain the *Team Calendars* screens and allow employees to view their co-workers' calendars and managers to view their team members calendars.

The screenshot displays the 'Team Calendar' interface within the 'Workforce Management' system. It shows a calendar grid for the month of May 2022, with a view for 'Ann Westons Team'. The grid lists employees and their status for each day of the month. Key features include a search bar, filters, and a list of employees with their respective calendar views.

Employee	MAY	JUN

The Team Calendars display leave and absence records for an employee's co-workers and managers 'reports to' team in a calendar format. The managers 'report to' team is based on the organisational hierarchy.

This document covers the following:

- Employees view of Team Calendars (co-workers)
- Managers & Admin view of Team Calendars
- The Team Calendar Configuration Screen

1.2. How to access the Team Calendar Screen

You can access the Team Calendar Screen using either the Employee Dashboard, Workforce Management Dashboard or the WFM Admin Dashboard.

Via Employee Dashboard:

1. Quick jump to *Employee Dashboard*.

2. Select **Co-Workers Calendars** from the Employee Calendar widget, Leave Request Actions button or Work Week Widget.
3. The screen displays.

Via Workforce Management Dashboard:

1. Quick jump to *Workforce Management Dashboard*.
2. Select **Teams Calendars** option or select **Employee Calendar** and Team Calendar option from the Actions button.
3. The screen displays.

Via WFM Admin Dashboard:

1. Quick jump to *WFM Admin Dashboard*.
2. Select **Employee Calendar** and Team Calendar option from the Actions button.
3. The screen displays.

2. The Team Calendar Screen

The *Team Calendars screen* displays the employees work schedule, leave records and bank holidays for the pay codes that have been configured to display within the configuration screens.

2.1. Employees viewing Co-Workers Calendars

The *Co-Workers Calendars screen* displays the work schedule, leave records, bank holidays of the employees for the date range. You can change the dates being viewed using the date picker or click the < > buttons to move forward/back, 7 days at the time.

The Co-Workers Calendars is available to Employees on the following screens:

- Employee Calendar (1-Month view)
- Work Week
- Book Time-Off
- My Calendar (12-Month view)

By default, the Co-workers calendars opens based on today date. Where accessed from the Book Time off widget, the calendar open based on the leave request start date entered.

My Dashboard

Note: If Leave Requests have not been actioned, they are highlighted by the colour legend located at the top of the screen.

The screen can be filtered using the following options:

Options	Details
Search Employees	You can search by employee should you wish to sign off hours on a specific employee.
Filter	The filter button allows you to refine your search to filter by: • Absence Only: Here you can elect to show/not show absences on the team calendar. • Work Schedule: Filter 'On' (default) displays the employee's schedules. • My Manager: Filter 'On' (default) includes the Manager calendars. • 1 Level Down: Filter 'On' (default) includes the Employees direct 'reports to' calendars. • 2 Levels Down: Filter 'On' (default) includes the Employees direct and indirect 'reports to' calendars that are next level down.
Group By	Enables the employees to re-order the Team Calendar display by one the additional information items configured e.g., if 'Job Title' was enabled, the Team Calendars view can be rearranged to view employees by job title.

 **Note:** The Filter and Group by options are only displayed if explicitly enabled within the Employees section in the Team Calendar configuration.

2.2. Managers viewing Team Calendars

The *Managers Team Calendars screen* displays the employees work schedule, leave records and bank holidays for the specific date range. You can change the dates being viewed using the date picker or click the < > buttons to move forward/back 7 days at the time. By default, the screen displays the Manager and the Managers Team with optional configuration to include the next level up manager and next level down 'reports to' Team.

The Team Calendars is available to Managers on the following screens:

- Employee Calendar (12-Month view)
- Workforce Management Dashboard

Richard Forbes

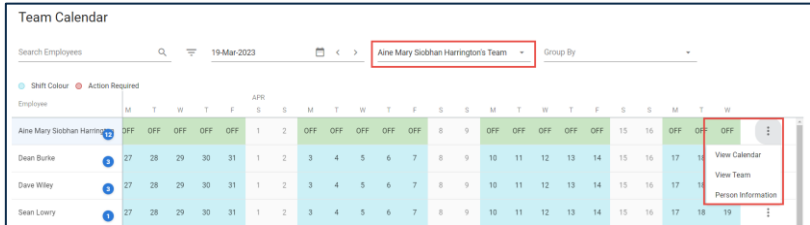

Note: The Manager's 'Reports To' team is based on **XD's Organisational structure** & the number of 'Reports To' Staff is displayed for the Manager and the Managers Team members.

The screen can be filtered using the following options:

Options	Details
Search Employees	You can search by employee should you wish to sign off hours on a specific employee.
Filter	Filter by Pay Code: Here you can select multiple pay codes to filter against. Action Override: This overrides other filters. Work Schedule: This is toggled on by default. Next Level Up Manager: Filter 'On' (default) includes the Employees direct 'reports to' calendars. New Level Down Team: Filter 'On' (default) includes the Employees direct and indirect 'reports to' calendars that are next level down.
Group By	Enables managers to re-order the Team Calendar display. For example, if Job Title is enabled, the Team Calendars view can be rearranged to view employees by job title.

Note: The Next Level Up Manager, Next Level Down Team and Group by options are only displayed if explicitly enabled within the Managers section in the Team Calendar

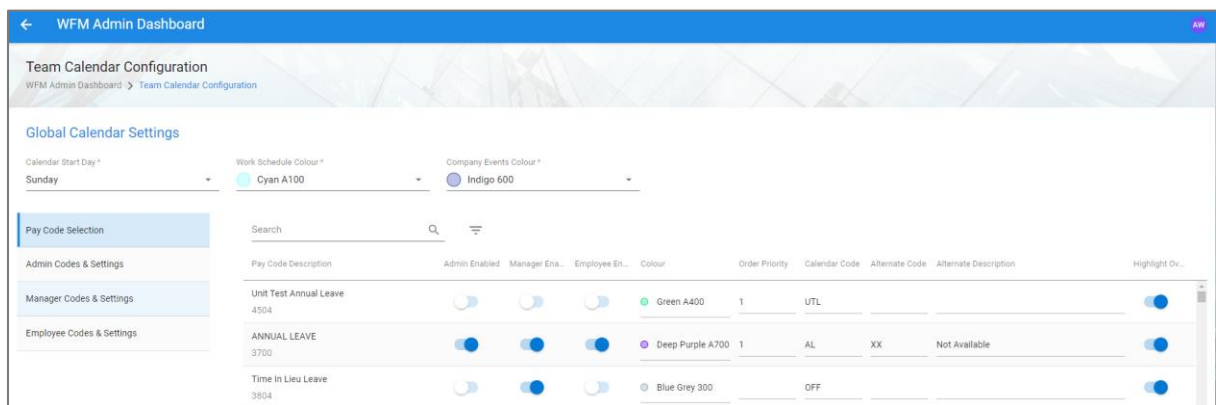

From the Team Calendar screen by using the 3-dot menu associated to an employee, you can:

Options	Details
View Calendar	This will return the employees 12-Month calendar. Note Manager must first navigation to the employee 12-Month Calendar to enter absences or approve leave requests.
View Team	Managers by default, can drill down into any Teams/Sub Team for staff reporting to them. To view, click on the name of the employee or alternatively select View Team from the three-dot menu.  To navigate back to previously viewed Teams, select the Team displayed selection to display previously selections. Note: Managers can continue down the organisation hierarchy structure to view employees that report into to them directly or indirectly.
Person Information	This will return additional information on the employee, defined in the configuration screen.

3. The Team Calendar Configuration Screen

Team Calendar Configuration controls the data presented to employees and managers when viewing Team Calendars. Example of this include:

- Types of leave and leave description displayed
- Tooltips for additional information
- Options to include the Managers calendar

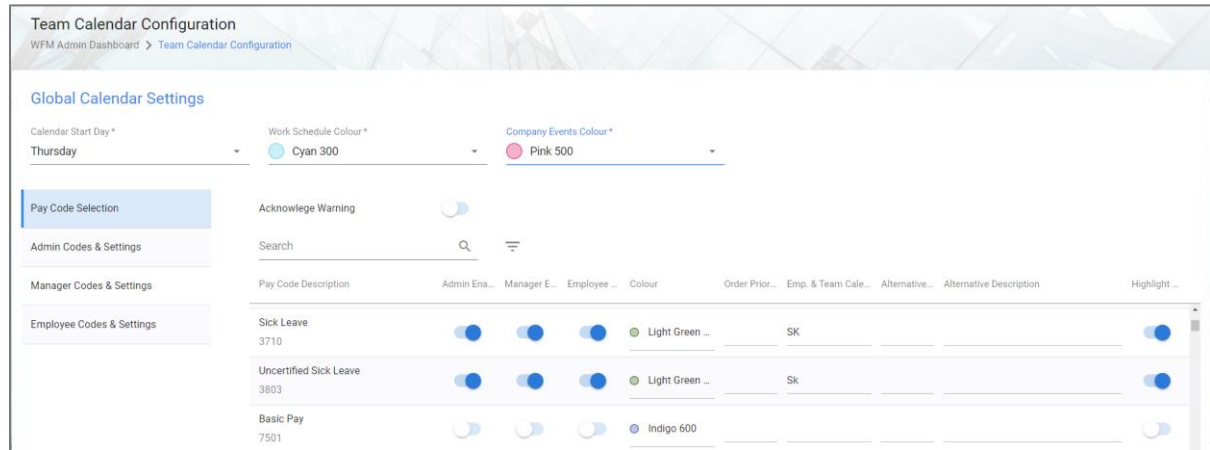

3.1. How to access the Team Calendar Configuration Screen

To access the *Team Calendar Configuration* screen, complete the following steps:

1. Go to *WFM Admin Dashboard*.
2. Select **WFM Configuration**.
3. Select **Team Calendar Configuration**.
4. From here you can update the following, which are detailed in the sections below:
 - Global Calendar settings (Header Information)
 - Pay Code Selection
 - Admin Codes & Settings
 - Manager Codes & Settings
 - Employee Codes & Settings

3.2. Global Calendar Settings

The Global Calendar settings allow you to configure and highlight working schedules and calendar events by the colour specified.

The screen can be filtered using the following options:

Field	Details
Calendar Start Date	Enter which day you wish the calendar to start on. For example, by selecting a Sunday, Sunday will be the first day displayed.
Work Schedule Colour	A colour code displays to represent an employee's working schedule. By default, rest days have no colour associated. It's recommended to use a lighter colour to represent a work schedule.
Company Events Colour	A colour code is displayed to represent company events. Company driven events are pre-planned dates that can be displayed on Teams Calendars for information purpose only. Examples may include Financial Year End, Black Friday.

3.3. Pay Code Selection

The *Pay Code Selection* tab allows you to decide which pay codes to display for each user type (Admin, Manger, and Employee). You can customise specific pay codes, by using the toggles and dropdowns.

ANNUAL LEAVE 3700	☒	☒	☒	Green 500	1	AL			☒

Note: All Pay codes are displayed, but only pay codes that have the Admin, Manager or Employee toggle enabled are displayed for the respective user type.

The **Pay Code Selection** screen contains the following fields:

Field	Details
Search	The Search feature lets you search the columns displayed on the grid for the text entered.
Filter	You can specifically filter the pay codes returned, for example only display Absence type pay codes.
Pay Code Description	This shows the Pay Code description and associated number.
Admin Enabled	Where enabled the code displays on the Admin's view of Team Calendars.
Manager Enabled	Where enabled the code displays on the Manager's view of Team Calendar.
Employee Enabled	Where enabled the code displays on the Employee's view of their co-workers' calendars.
Colour	Choose a colour to differentiate between types of pay codes.

Field	Details
	Colours are stored at pay code level, so the colours associated with the pay code are those previously configured as part of the Employee Calendar configuration. Note: Updates to colours also apply to the pay codes that are configured to display on the Employee Calendar view as the colour codes are shared.
Order Priority	You can decide the priority order of a pay code. If more than one code occurs on a day, the order priority decide which code takes precedence when viewing. (See Highlight Overlapping for more information).
Emp & Team Calendar Code	A unique three letter code which represents the pay code when displaying leave and absences on the Calendars, again the calendar code entered is shared between the Employee and Team Calendars.
Alternative Code	Option to output and alternative calendar code which overrides the pay code calendar code, for example 'SK- Sickness' could have an alternative code 'OFF - Not Working'. - Alternative codes and description can set at the Pay code, Manager and Employees Level to mask items displayed - If Set at the Pay code Level it applies to all user types (Admin, Managers and Employees) - If Set at the Employee level, if applies to the employees viewing co-workers' calendars - If set at the Manager Level, if applies to manager view of their Team members calendars
Alternative Description	Option to output and alternative description which overrides the pay code description, for example 'JS - Jury Service' could have and alternative code 'NW - Not Working'.
Highlight Overlapping	Where enabled the day on the calendar view is underlined to highlighting where two pay codes entries have occurred on the

Field	Details
	same day. Hovering the mouse over the day, the pay code details are displayed.

3.4. Employee Codes & Settings

The Employees Codes and Settings section configures the co-workers view i.e. Employee's viewing their co-workers or manager's calendar.

The screenshot displays the 'Team Calendar Configuration' interface. The 'Employee Codes & Settings' section is active, showing a sidebar with navigation links: 'Admin Codes & Settings', 'Manager Codes & Settings', and 'Employee Codes & Settings'. The main content area includes:

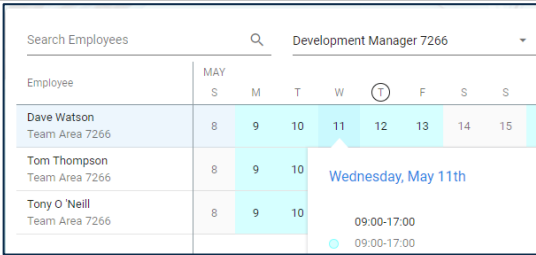

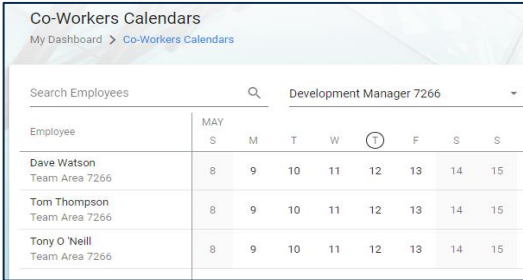

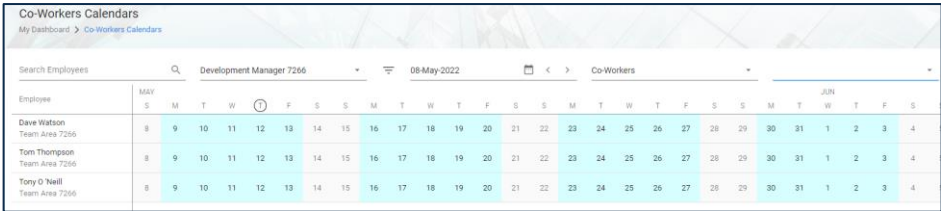

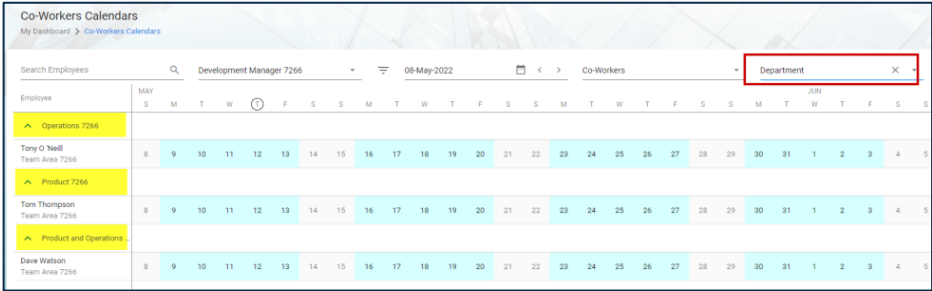

- Global Calendar Settings:** Calendar Start Day (Monday), Work Schedule Colour (Cyan 300), and Company Events Colour (Pink 500).
- Pay Code Selection:** A dropdown menu.
- Available Calendar Events:** Toggles for Shifts, Absences, and Show Requested. A 'Show Group By' dropdown is also present.
- Manager Masking Settings:** A toggle for 'Mask Manager Absences' and a table for 'Masking Code' (MSK) and 'Masking Description' (Masked Absence).
- Tooltips:** Fields for 'Emp. Information Line 1' (Location), 'Emp. Information Line 2' (Cost Centre), and 'Emp. Information Line 3'.

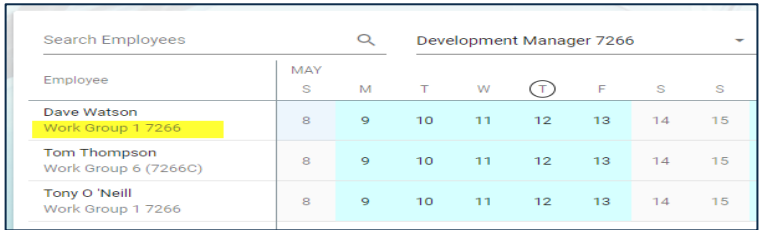

The Employee Codes & Settings screen is broken down into the following sections:

3.4.1. Available Calendar Events

The *Available Calendar Events* section contains the following fields:

Field	Details
Shifts	When enabled the employees underlying working schedule is displayed in the colour entered into the Work Schedule Colour field within the Global Calendars Settings Working Schedules 'On'

Field	Details
	 Working Schedules 'Off' 
Absences	Where enabled the calendar displays the employees leave/absences.
Show Requested	Where enabled the calendars include employees leave requests that have been requested (submitted which are pending approval)
Show Group By	Enable a group by function to support grouping the Team Calendar views by the 'Additional Emp Information' or 'Tooltips' columns. For example, if selection of 'Department' is selected the Team Calendars view can be rearranged to view employees within their department - Group By selection 'Off' (Default)  - Group By Selection 'Department' selected 

Field	Details
Calendar Days to Display	The number of days displayed in the Team Calendar - Recommendation is 31 or 31 days to avoid the need to scroll - If the number of Calendars days display is greater that the Calendars viewing area, the Team Calendar will include a left to right scroll bar. - Toggles buttons enable the Team Calendar views to be moved forward/backward 7 days at a time - Date picker, enables any reference period to display - To view an Employee's Calendar, click on the three-dot menu.
Display Additional Emp Info.	On the Team Calendar an additional line of employee information can displayed under the employee's name.  The screenshot shows a search bar with 'Development Manager 7266' and a dropdown arrow. Below is a table with columns for days of the week (S, M, T, W, T, F, S, S) and rows for employees: Dave Watson (Work Group 1 7266), Tom Thompson (Work Group 6 (7266C)), and Tony O'Neill (Work Group 1 7266). The calendar grid shows dates 8 through 15.

3.4.2. Manager Masking Settings

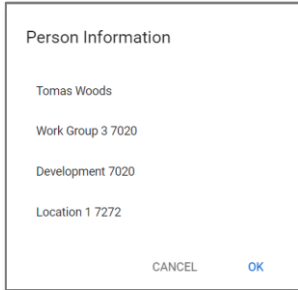

The *Manager Masking Settings* section contains the following fields:

Field	Details
Mask Manager Absences	If enabled this will mask the Managers leave/absences for employees when viewing co-worker's calendars.
Masking Code	Alternative code that is output for the Managers Leave & Absence records.
Masking Description	Alternative description that is output for the Managers Leave & Absence records.

3.4.3. Tooltips

Tooltips display additional employee information in the Person Information option available from the 3-dots menu. Note this information is presented to Employees view co-workers, there's a separate setting for Managers in the Managers Code & Settings settings.

The *Tooltips* section contains the following fields:

Field	Details
Emp. Info Line 1 to Line 3	Using the dropdown menus, select up to 3 lines of additional Information to be displayed in Person Information. For example, Work Group, Department & Location:  The screenshot shows a 'Person Information' dialog box with the following fields: Name (Tomas Woods), Work Group (3 7020), Department (Development 7020), and Location (1 7272). There are 'CANCEL' and 'OK' buttons at the bottom.

3.4.4. Co-Worker Levels

This section only applies to who an Employee sees when viewing their Co-Workers Calendars.

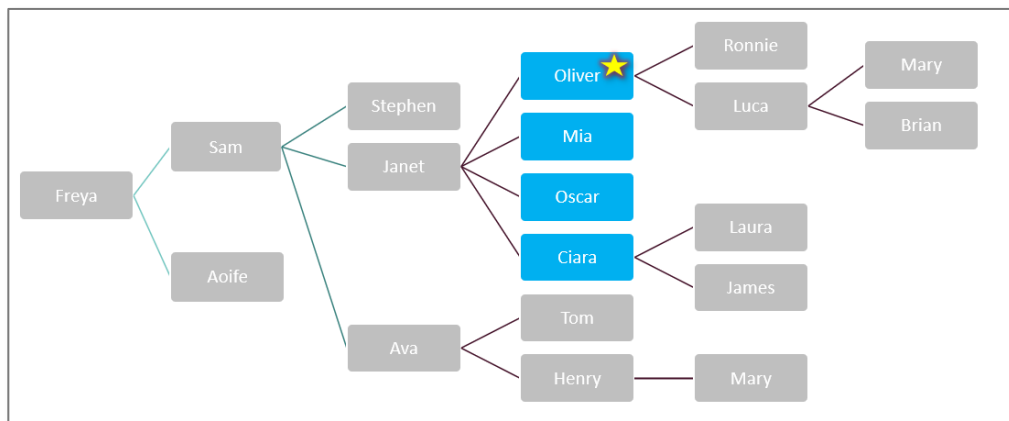

The *Co-Worker Levels* section contains the following fields:

Field	Details
All Toggles Off	The Employee and the Employees Co-workers are returned.
My manager	With the toggle is enabled, it automatically includes the Employee's Manager when viewing Co-Workers calendars.
1 Level Down	With the toggle is enabled, the Employee direct 'reports to' staff are automatically included.
2 Levels Down	With the toggle is enabled, the Employee's direct and indirect 'reports to' staff are automatically included. Indirect Employees are those who report into the Employees direct 'report to' team.
Co-Workers Show All Teams	With the toggle is enabled, this works in conjunction with 1 level down and 2 level down. For the 1 or 2 levels, the Co-Workers View automatically includes any employees that 'report into' your co-workers.

The sections below illustrate examples of Co-Worker Levels access for various settings. In these examples, Oliver is the employee viewing co-workers.

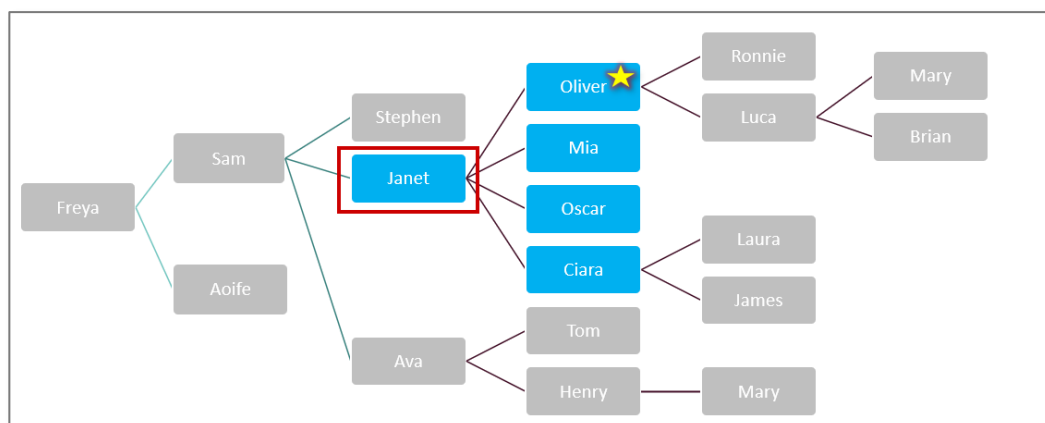

Co-Workers Levels – All Toggles Off

In this example, the Employee and the Employees Co-workers are returned. Oliver's co-workers are returned based on the Co-Workers access group selected (see section [Calendars Access Based On](#))

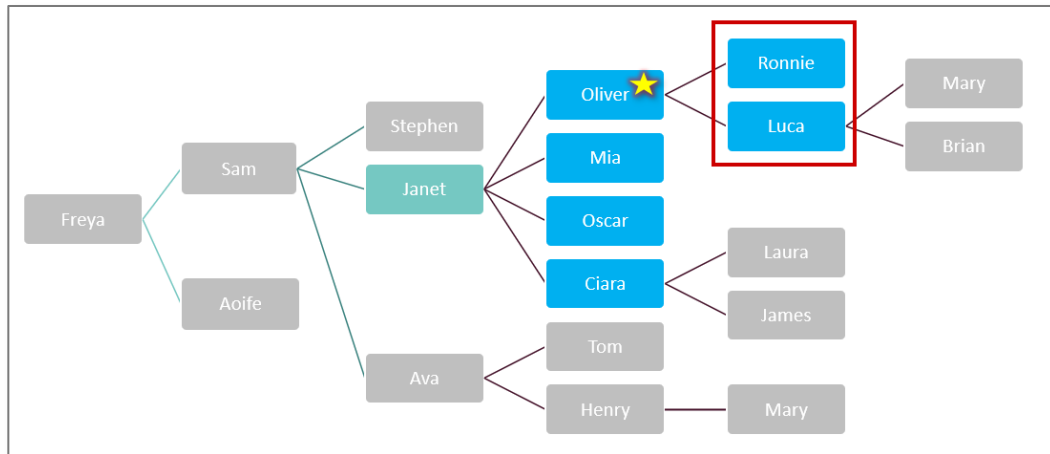

Co-Workers Levels – My Manager Toggle On

In this example, the Employee, the Employee's Co-workers, and the Employee's Manager display when viewing Co-Workers calendars. Oliver's Manager is returned based on the **Reports To** Access Group and Role group selected (see section [Calendars Access Based On](#))

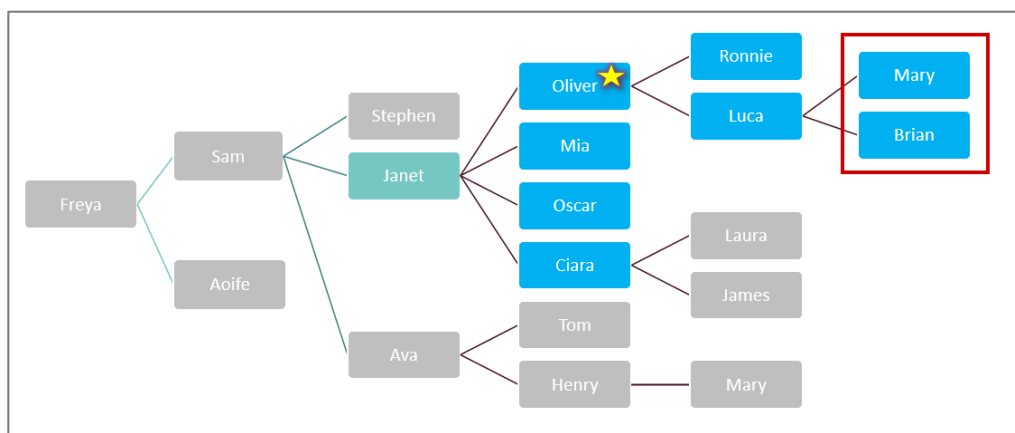

Co-Workers Levels - 1 Level Down Toggle On

In this example, the Employee, the Employee's Co-workers, and the employees' direct reports (one level down) display when viewing Co-Workers calendars.

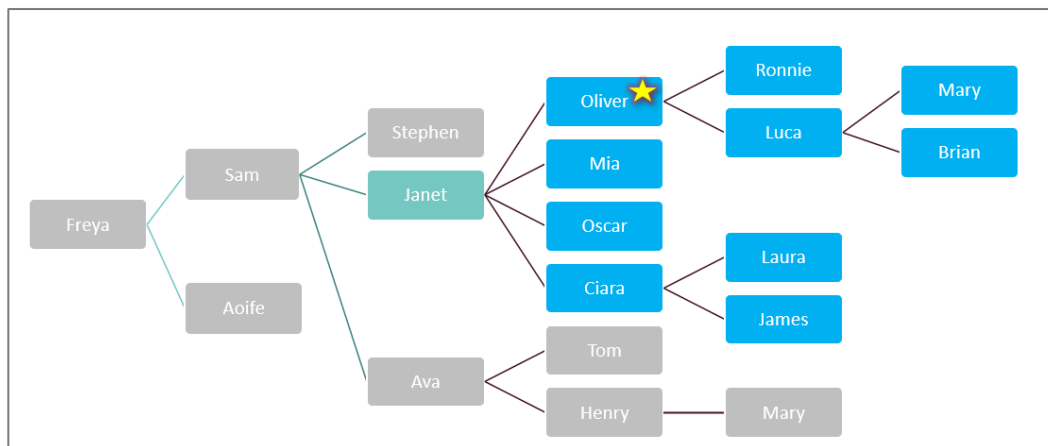

Co-Workers Levels - 2 Levels Down Toggle On

In this example, the Employee, the Employees Co-workers, and the Employee's direct and indirect 'reports to' staff display. Indirect Employees report into the Employees direct *report to* team.

Co-Workers Levels - Show All Teams Toggle On

Where **Show all Teams** and **Level 2** is enabled. The Employee, the Employees Co-workers and any employees that reports into the employee or the employees' co-workers for the 2 levels down display when viewing Co-Workers calendars. In the example below, we see Level 2 & Co-Workers Show all Teams enabled.

3.4.5. Calendar Access Based On

This section applies to Employee and co-workers and reporting to access.

The *Calendar Access Based On* section contains the following fields:

Field	Details
Co-Workers Access Group	The Organisational Group is used to determine co-workers. As an example, if Work Group is selected, the co-workers displayed are those in the same work group as the employee. The available list of co-worker access groups is based on existing configured from the following: • Previous version of the Co-Workers Calendar • Leave Approval • Team Scheduler • My Team (Manager Dashboard)
Reports To Access Group	The Organisational Group used to determine the employees 'report to' manager
Reports To Access Role	The Organisational Role used to determine the employees 'report to' manager

3.4.6. Pay Code Selection

This section shows the pay codes visible to Employees when viewing co-worker's calendars. The section also enables overrides of calendar codes, descriptions displayed to Employee when viewing co-workers' calendars. Pay Codes can be quickly added & removed from the employees list within this section.

The *Pay Code Selection* section contains the following fields:

Field	Details
Search	This allows you to search the columns displayed on the grid.
Pay Code Description	This shows the Pay Code description and associated number.
Colour	Display only. This shows the colour that is displayed in conjunction with the calendar code on the Calendars screen.
Alternative Calendar Code	Applies the Employee Co-Worker Calendar views. Option to output and alternative calendar code which overrides the pay code calendar code, for example 'SK – Sickness' could have an alternative code 'OFF – Not Working'.
Alternative Description	Applies the Employee Co-Worker Calendar views. Option to output and alternative description which overrides the pay code description, for example 'JS – Jury Service' could have an alternative code 'OFF – Not Working'.
Delete	Removes the pay code form the co-workers views.

To Add a Pay Code:

1. Click the **Add** button.
2. Select the **Pay Code** from the drop-down list.
3. Enter an **Alternative Calendar Code**, if required.
4. Enter an **Alternative Description**, should you wish to label it differently.
5. Click **Ok**.
6. Your Pay Code will now be added to the Employees view.

3.5. Manager Codes & Settings

Development Manager 7266

Employee	MAY	S	M	T	W	T	F	S	S
Dave Watson Team Area 7266	8	9	10	11	12	13	14	15	
Tom Thompson Team Area 7266	8	9	10	11	12	13	14	15	
Tony O'Neill Team Area 7266	8	9	10	11	12	13	14	15	

Field	Details
Calendar Days to Display	The number of days displayed in the Team Calendar - Recommendation is 31 or 31 days to avoid the need to scroll - If the number of Calendars days display is greater that the Calendars viewing area, the Team Calendar will include a left to right scroll bar. - Team Calendar views can be moved forward/backward 7 days at a time
Display Additional Emp Info.	On the Team Calendar an additional line of employee information can displayed under the employee's name. 

3.5.2. Manager Masking Settings

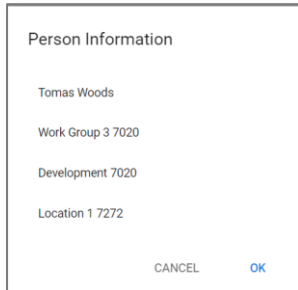

The *Manager Masking Settings* section contains the following fields:

Field	Details
Mask Manager Absences	Mask the Managers Leave/Absences when viewing team calendars. When a manger is viewing their team and their manager is included, their managers calendar is masked whereas the team's details are not.
Masking Code	Alternative code that is output for the Managers Leave & Absence records.
Masking Description	Alternative description that is output for the Managers Leave & Absence records.

3.5.3. Tooltips

Tooltips display additional employee information in the Person Information option available from the 3-dots menu e.g. for example, display employees FTE, Work Group.

The Tooltips section contains the following fields:

Field	Details
Emp. Info Line 1 to Line 3	Using the dropdown menus, select up to 3 lines of additional Information to be displayed in Person Information. 

3.5.4. Reports To

This section only applies to Managers viewing their Team Calendar. In addition to their teams' calendars, additional options are available to include their Manager and Team members next level down.

Note:

- The Manager's 'Reports To' team is based on XD's Organisational structure.
- The number of 'Reports To' Staff is displayed for the Manager and the Managers Team members. This only applies to Manager and Admin views only.

Aine Westons Team

Employee	MAY	S	M	T	W	T	F	S	S	M	T	W	T	F	S
Aine Weston Work Group 1 7266	15	16	17	18	19	20	21	22	23	24	25	26	27	28	

The *Reports To* section contains the following fields:

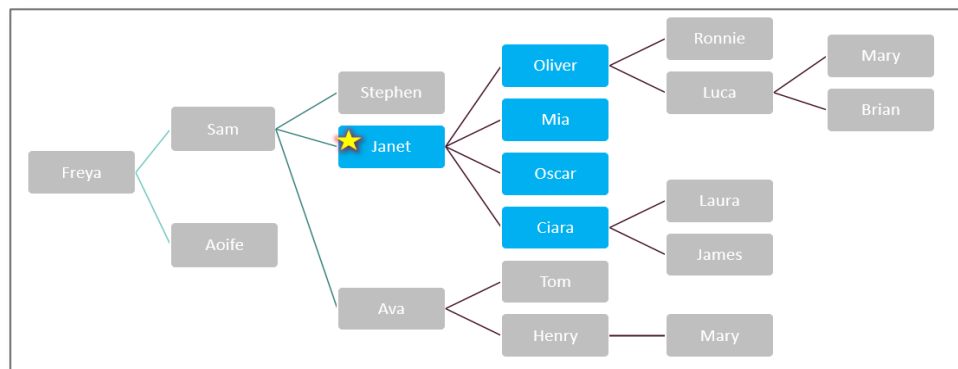

Field	Details
All Toggles Off	When all toggles are off, the Manager and their direct 'Reports to' Team are display.
Next Level Up Manager	When enabled, the Managers next level up manager is displayed by default.

Field	Details
	Note: Managers have view only access to see their managers' calendar and their managers calendars detail can be masked (see Manager Masking Settings above)
Next Level Down Team	When enabled, the Managers Team and any employees that report into the managers direct team members are displayed by default. Managers can continue to drill down to the view any team lower down their organisational hierarchy.
Employee Calendar incl. Indirect Staff	When enabled, managers can view employee calendars of indirect 'report to' staff from the Team Calendar or the My Team Widget. Note: Managers can also maintain & view absences for staff they are viewing.

The section below outlines graphical examples of the Manager Team Views for the various settings. In the examples Janet is the manager viewing her team.

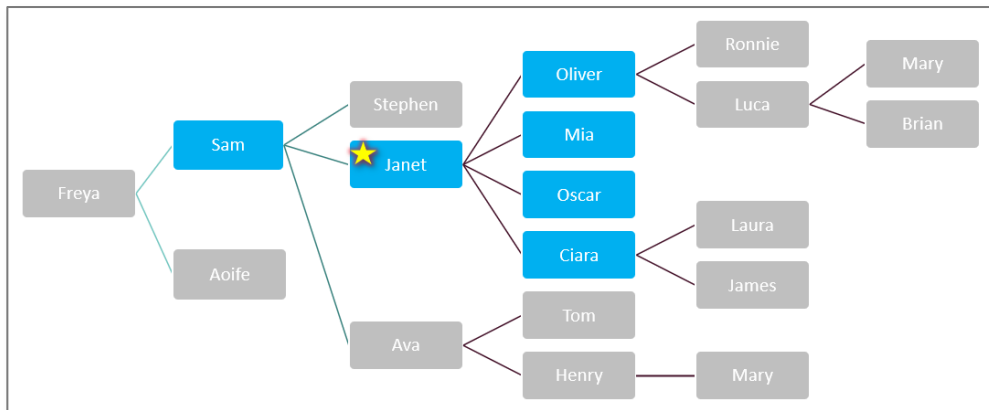

Reports To – Both Toggles Off

The Manager and the Managers Team is displayed.

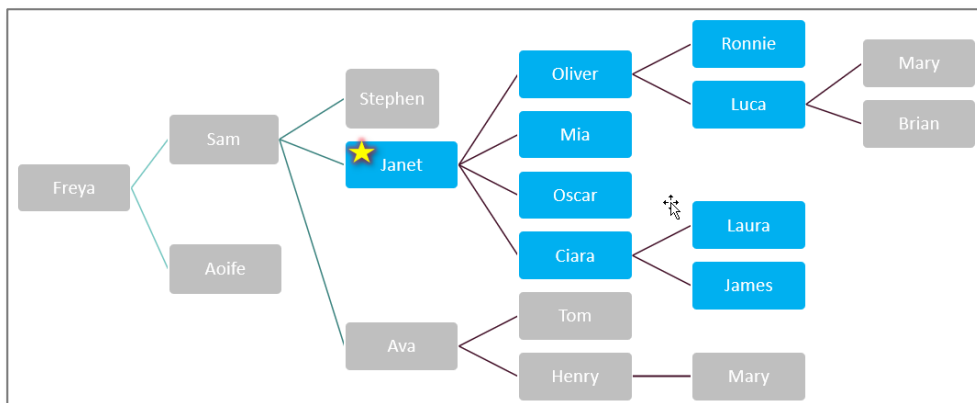

Report To – Next Level Up Manager Toggle On

The Manager, the Managers Team and the managers next level up manager is displayed.

Repts To – Next Level Down Team Toggle On

The Manager, the Managers Team and employees who report into the team members are displayed.

By default, managers can continue to drill down to the view any team lower down their organisational hierarchy. For example, if the manager selects Oliver's Team, Ronnie and Laura will display.

3.5.5. Pay Code Selection

This section lists the pay code that are visible to Managers when viewing Team Calendars. The section also enables overrides of calendar codes, descriptions, and the addition or deletion of pay codes from the managers list.

The *Pay Code Selection* section contains the following fields:

Field	Details
Search	Search the columns displayed on the grid.
Pay Code Description	The Pay Code description and the pay code number.
Colour	Display only, colour that is displayed in conjunction with the calendar code on the Calendars.
Alternative Calendar Code	This applies the Managers view only. Option to output and alternative calendar code which overrides the pay code calendar code, for example 'SK – Sickness' could have and alternative code 'OFF – Not Working'
Alternative Description	Applies the Managers view only. Option to output and alternative description which overrides the pay code description, for example 'JS – Jury Service' could have and alternative code 'OFF – Not Working'
Delete	Removes the pay code form the Manager's Team views.

To Add a Pay Code:

1. Click the **Add** button.
2. Select the **Pay Code** from the drop-down list.
3. Enter an **Alternative Calendar Code**, if required.
4. Enter an **Alternative Description**, should you wish to label it differently.
5. Click **Ok**.
6. Your Pay Code will now be added to the Managers view.

3.6. Admin Codes & Settings

This section steps through what leave/absences that are available to Administrators when viewing Team calendars. For Administrators to viewing Team Calendar they firstly need to navigate to the Employee Calendars select the Manager they wish to view and from there they can navigate to the Team Calendar View.

**Note:**

- If an Administrator is also a Manager, they should navigate to the Workforce Management Dashboard to view their team.
- The Pay Codes list returned can be different to that of managers or employees (if required).

Administrators can now view Team Calendars in Manager mode. To access the Team Calendars:

1. Go to *Employee Calendar*.
2. Enter the employee.
3. From the **Actions** menu, choose **Team Calendar**.

3.6.1. Pay Code Selection

This section lists the pay code that are visible to Managers when viewing Team Calendars. The section also enables overrides of calendar codes, descriptions, and the addition or deletion of pay codes from the managers list.

The *Pay Code Selection* section contains the following fields:

Field	Details
Search	The Search bar searches the columns display on the grid for the text entered.
Pay Code Description	The Pay Code description and the pay code number.
Colour	Display only, colour that is displayed in conjunction with the calendar code on the Calendars.
Alternative Calendar Code	Applies the Employee Calendar view only. Option to output and alternative calendar code which overrides the pay code calendar code, for example 'JS – Jury Service' could have an alternative code 'NW – Not Working'
Alternative Description	Applies the Employee Calendar view only. Option to output and alternative description which overrides the pay code description, for example 'JS – Jury Service' could have an alternative code 'NW – Not Working'.

Field	Details
Delete	Removes the pay code form the admins views.

To Add a Pay Code:

1. Click the **Add** button.
2. Select the **Pay Code** from the drop-down list.
3. Enter an **Alternative Calendar Code**, if required.
4. Enter an **Alternative Description**, should you wish to label it differently.
5. Click **Ok**.
6. Your Pay Code will now be added to the Managers view.

4. Menu Options

This section details the menu options and webservices which need to be enabled in order to configure the calendar screens.

4.1. Importing Menu Profiles

Three default menu profiles have been created for Admins, Managers and Employees to support faster deployment of the Calendars.

Note: The WFM_TEAM_CALENDAR_ADM includes the Team Calendar configuration screen

To import the menu profiles, complete the following:

1. Navigate to Security.
2. Click on the **Menu Profiles**.
3. Select the Menu Profiles widget and choose the menu profile you wish to use.
4. Select the **Import Menu** options, from here you can import the above default menu profiles to the users own menu profile.
5. Within the import window, select the **From Existing menu profiles** and select one of the menu profiles listed below.

Group Menu Name	Details
WFM_TEAM_CALENDAR_ADM	Enables the Team Calendars and Team Calendars configuration screen for Administrators
WFM_TEAM_CALENDAR_EMP	Enables the Team Calendars for Employees
WFM_TEAM_CALENDAR_MGR	Enables the Team Calendars for Managers

6. From here a Confirm import message appears and click **Yes** or **No**.

4.2. Menus & Webservices Options Detailed

If you wish to configure both the Calendar screens without using the defaulted menu profiles, you need to enable the following menu options.

4.2.1. Calendar Configuration Screen

Menu Option	Menu ID	System
Team Calendar Configuration	CONFIG_SET_MENU.TEAM_CALENDAR_CONFIG	CorePortal
Get settings abscalendar paycode	WS_ROSTER_MENU.GET_SETTINGS_ABSCALENDAR_PAYCODE	Web Services
Create settings teamcalendar	WS_ROSTER_MENU.POST_SETTINGS_TEAMCALENDAR	Web Services
Delete settings teamcalendar	WS_ROSTER_MENU.DELETE_SETTINGS_TEAMCALENDAR	Web Services
Get settings teamcalendar	WS_ROSTER_MENU.GET_SETTINGS_TEAMCALENDAR	Web Services
Get settings teamcalendar filter	WS_ROSTER_MENU.GET_SETTINGS_TEAMCALENDAR_FILTER	Web Services
Update settings teamcalendar	WS_ROSTER_MENU.PATCH_SETTINGS_TEAMCALENDAR_ID	Web Services
Update settings teamcalendar filter	WS_ROSTER_MENU.PATCH_SETTINGS_TEAMCALENDAR_FILTER	Web Services
Get settings global	WS_ROSTER_MENU.GET_SETTINGS_GLOBAL	Web Services
Update settings global	WS_ROSTER_MENU.PATCH_SETTINGS_GLOBAL	Web Services

4.2.2. Admin Menu Options

Menu Option	Menu ID	System
CorePortal Team Calendar - WFM Admin	WFM_ADMIN_MENU.TEAM_CALENDAR_ADMN	CorePortal

4.2.3. Manager Menu Options

Menu Option	Menu ID	System
CorePortal Team Calendar - WFM Manager	WFM_MANAGER_MENU.TEAM_CALENDAR_MGR	CorePortal

4.2.4. Employee Menu Options

Menu Option	Menu ID	System
Coreportal - Calendar - CoWorkerRoster	WS_PEOPLE_MENU.GET_COWORKER	CorePortal
CorePortal Team Calendar - Employee	MAIN_MENU.TEAM_CALENDAR_EMP	CorePortal

4.2.5. Web Service for Team Calendars

Web services to support Employee and Manager views of Team Calendars:

Menu Option	Menu ID	System
Get coworker	WS_PEOPLE_MENU.GET_COWORKER	Web Services
Create coworker	WS_PEOPLE_MENU.POST_COWORKER	Web Services
Create coworker Proxy (Self Access, Direct Reportees, Pers Post Access, Team Area Access, Leave Request Org, System User Access)	WS_PEOPLE_MENU.POST_COWORKER_PROXY	Web Services
Get team shifts	WS_SHIFTS_MENU.GET_TEAM_SHIFTS	Web Services
Get absences team	WS_LEAVE_MENU.GET_ABSENCES_TEAM	Web Services
Get settings coworkers	WS_ROSTER_MENU.GET_SETTINGS_COWORKERS	Web Services
