1. Overview

1.1. Purpose of the Guide

This short guide covers the automatic transfer of an employee's future dated appointments, leave requests or absences when they take up a new appointment (i.e., Future Dated Replacement).

1.1.1. What has changed with Leave and Balance Transfer?

As part of a future dated appointment replacement, any leave/absence records and balances remaining from the previous appointment are automatically transferred to the new appointment. You no longer need to manually complete the process. This streamlines the process by automating the manual steps, so you **no longer need to:**

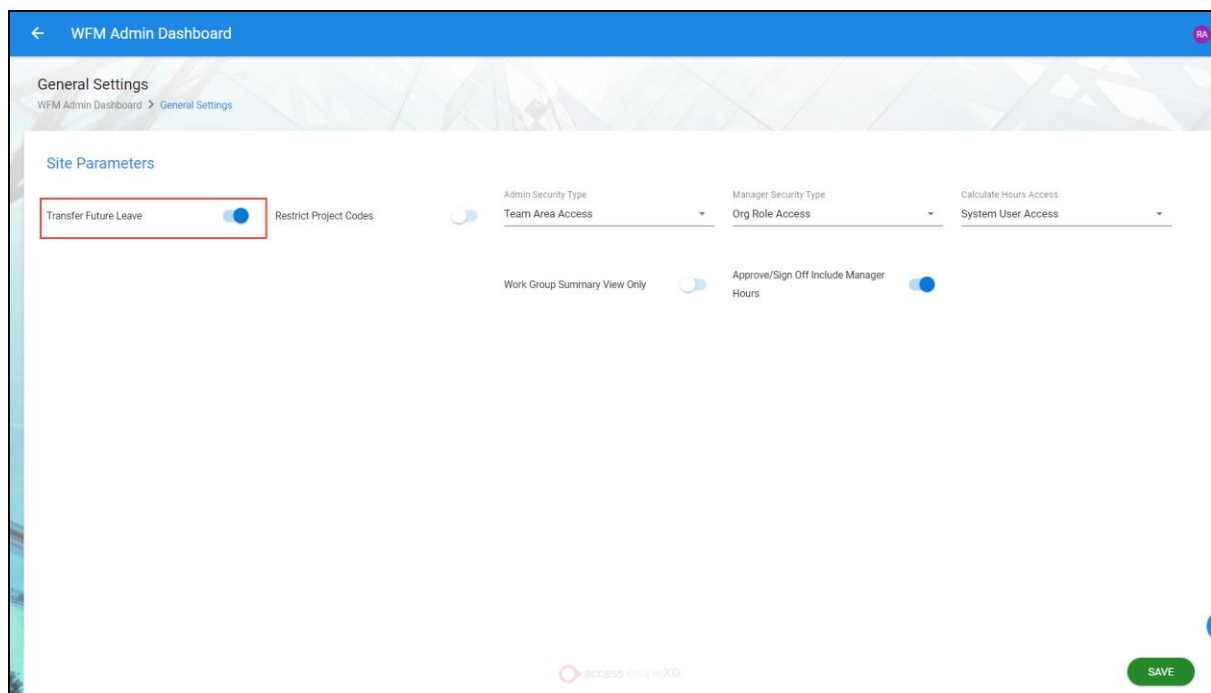

- Manually calculate the Entitlements that remain on the previous balance and assign them to a new balance.
- Manually adjust the days or hours carried over from the previous appointment.
- Re-enter future dated absence records for the new appointment.
- Request Employees to re-submit leave requests booked with the previous appointment.

2. How to Transfer Leave and Balances

In order to access the screens and transfer the leave, you will need to enable the functionality. To do so, follow the steps below.

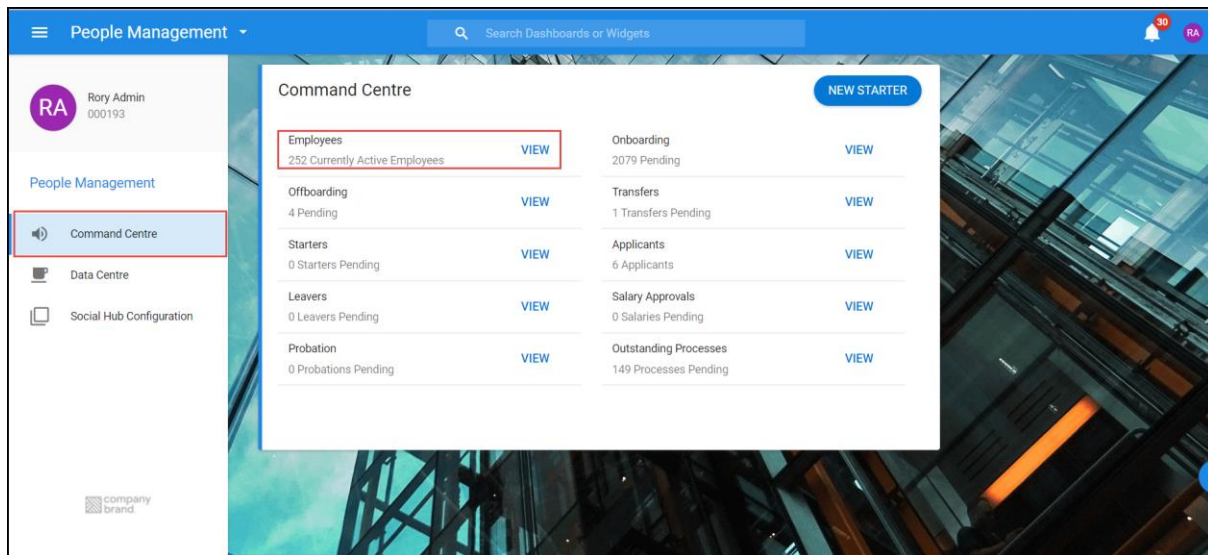

2.1. Enabling Transferring Leave

1. Go to the **WFM Admin Dashboard**.
2. Click on **General Settings**.
3. Enable the toggle **Transfer Future Leave**.

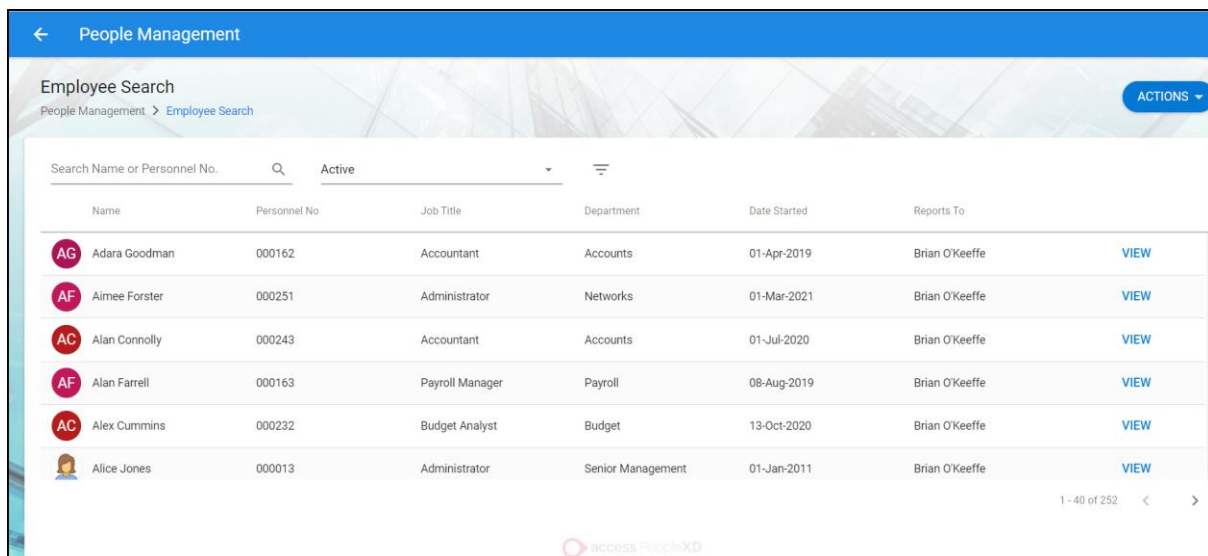

2.2. How to Transfer Leave

1. Go to *People Management*.
2. Select **Command Centre**.

3. Under Employee Search, click **View**.

4. Select **Contracts**

6. Click **Apply**.

7. The New 'Balance section' in the replace contract screen displays.

8. Select the required balance i.e., Transfer Balance.

9. The balance transfer completes when the “actual” future transfer date is reached.

2.3. Transfer Results

Once the transfer has been completed, the following changes take place:

- The previous appointments balance is pro-rata calculated on the replacement date to determine entitlement remaining.
- The new appointments balance is assigned/pro rata calculated.
- The entitlement remaining from the previous appointment is applied to the carried forward.
- A narrative is included on the carried forward adjustments to support the transfer.
- Any Leave/absence records that start on or after the new appointment start date are automatically transferred, keeping employee calendars up to date.

2.4. Examples of Transferring Leave

In this section we see two examples of Transferring Leave and Balances to further illustrate the process.

2.4.1. Transfer Example 1

In this example, we see the following information:

On the 1st July, the old appointment is replaced with the new one.

Appointment 1 (Old): Annual Leave Entitlement is 20 days.

Appointment 2 (New): Annual Leave Entitlement is 22 days.

Old Appointment	Entitlement
Opening (01 Jan)	20.00
Taken to 30 June	7.00
Remaining	13.00
Pro- Rata Entitlement (01 Jan – 30 June) 20 days Entitlement is reduced to 10 days Entitlement 20 – 10 Pro Rata – 7 taken = 3 days	3.00
Transfer to New Balance Adjustment to written to old balance taken element.	+3.00
Entitlement at 01 July	0

New Appointment	Entitlement
Opening 01 Jul pro-rated for 6 months 22 days entitlement is reduced to 11 days Entitlement 22 (-11 pro rata) – 0 taken=3 days remaining.	11.00
Taken**	0.00
Transfer to New Balance	+3.00
Entitlement 01 July	13.00

**** If future date leave was transferred, this would impact the booked leave**

2.4.2. Transfer Example 2

1st July: Employee Appointment 1 is replaced to Appointment 2

Appointment 1 (old): Annual Leave Entitlement is 20 days

Appointment 2 (new): Annual Leave Entitlement is 22 days

Old Appointment	Balance Entitlement
Opening (01 Jan)	20.00
Taken to 30 June	15.00
Remaining	5.00
Pro Rata Entitlement	-5.00
Transfer to New Balance	-5.00
Entitlement at 01 July	0.00

New Appointment	Balance Entitlement
Opening Pro Rata 01 July	11.00
Taken	0.00
Transfer to New Balance	-5.00
Entitlement 01 July	6.00

2.5. What Happens the Screen and the Process

Old balance: The system calculates and determines the balance remaining (excluding future bookings and absences)

New balance: A new balance is assigned. The new balance is calculated and updated. Carryover from the old balance is included and future booked leave/absence is assigned to the new appointment.

Process Summary

- The Employee's New Appointment replaces their existing appointment.
- The HR Admin ends the old appointment and starts the new. They are prompted to transfer balances.

- The system auto transfers Balances, and the new balance is created. Old/New calculated. The old remaining transfers to the new and the old balance is ended. There is a narrative to support.
- The system auto transfers future leave records to the new appointment.

3. Constraints

To support the auto transfer of appointment-based Balances, the balance parameters configuration must have the following set.

Calculation Entitlement Based On is selected to a value such as Category

- To auto transfer a balance to a new appointment, the software needs to be able auto determine the new Appointment's Entitlement, so where use of 'Calculate Entitlement Based on' category, job title etc. ... this can be achieved.
- Where a balance is assigned directly to an employee/appointment, the software **cannot be pre-determined** as the details are entered at input stage when assigning the balance.

Multi-Appointment – Apply Appointment ID

- Apply appointment id, indicates the balance is by appointment & only balances that are appointment driven support transfers.

Balance Selection

Code: 7266AL Name: Annual Leave 7266

Note: The balance code you enter will determine that you wish to be displayed first should Holidays to be first, assign a code such as
