1. Overview

1.1. Purpose of Document

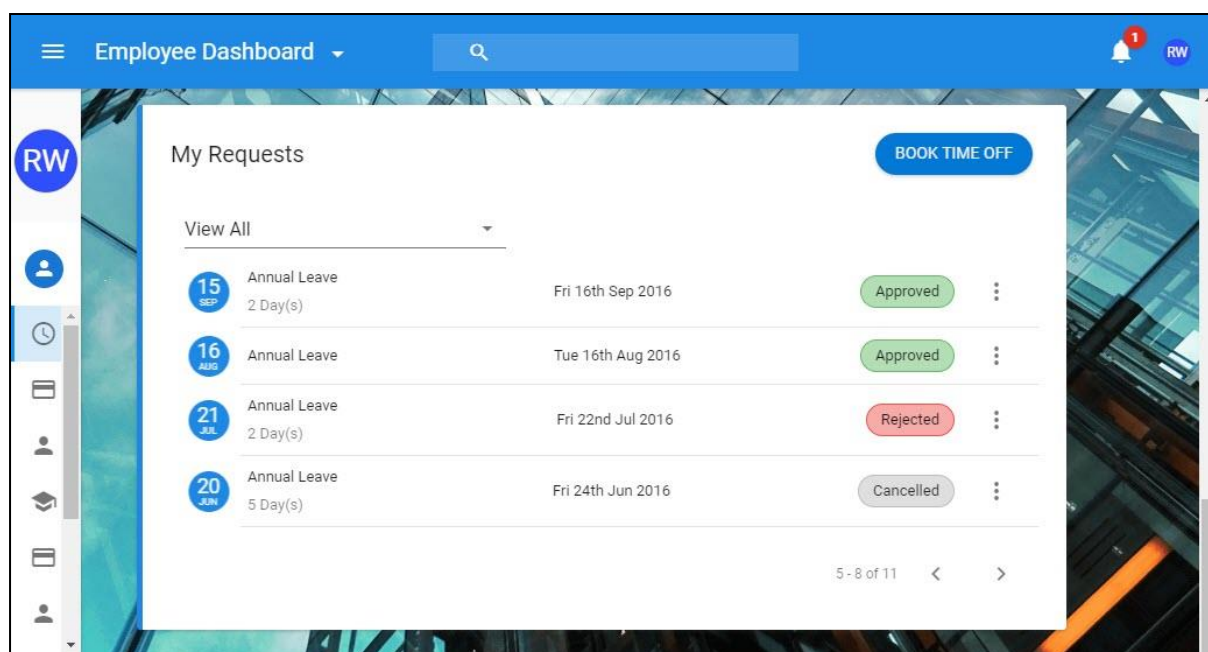

The purpose of this document is to provide an overview of the *Leave Requests and Absences* functionality in *Time and Attendance*, and how this is used. This includes:

- What are *Leave Requests and Absences* and when are they used?
- Assigning *Balances* to employees
- Employee self-service overview
- Manager self-service overview
- Guidance on the configuration options within *Leave Requests and Absences*

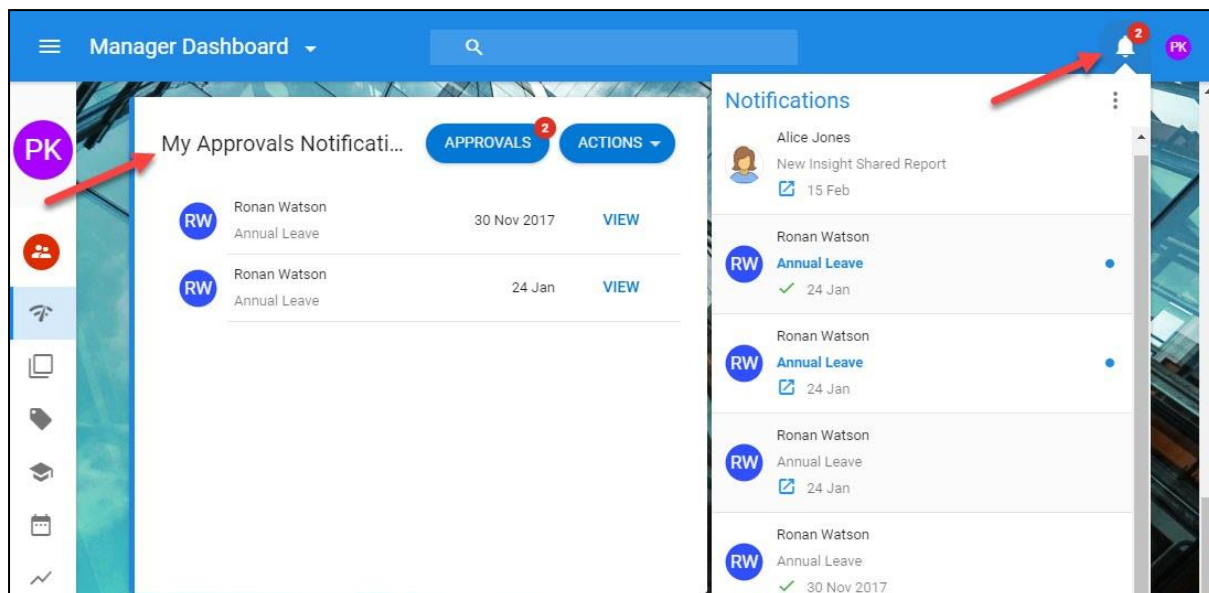

1.2. What are Leave Requests and Absences?

It is possible to configure *CorePortal* to allow employees manage their own *Leave Requests*. This allows employees to submit *Leave Requests* to their managers for approval. It is also possible for employees to view and edit already submitted requests if required.

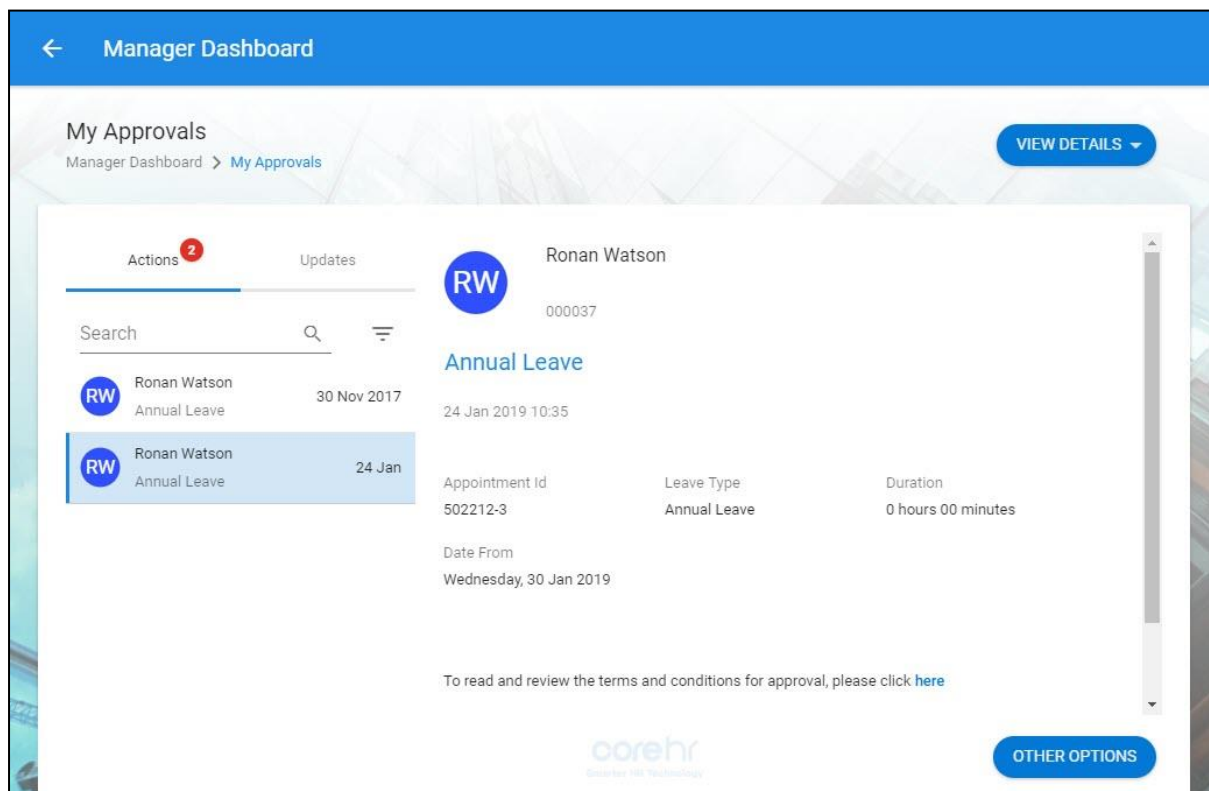

From their *Employee Dashboard*, employees can review the status of their requests, and make amendments as required, via the *My Requests* widget. The *My Requests* widget is shown in the below screenshot.

Managers receive *Notifications* indicating they have requests that require action. They can then approve and/or reject the employee *Leave Requests* via the *My Approvals* screen. It is also possible for managers to drill into the employee's balance information and view the *Team Calendar* to aid in approval decision making. The below screenshot details both *Notifications*, and the *My Approvals Notifications* widget.

The below screenshot shows the *My Approvals* screen.

1.2.1. Leave Types

Leave Types are represented by configuring *Absence Pay Codes* within the system. By configuring a *Pay Code* as *Absence*, this allows for it to be available in the *Leave Type* drop-down lists, when an employee is entering a *Leave Request*, or a manager is entering absence for an employee.

Name	Allowance	Requested	Booked	Remaining
Annual Leave	28.00	0.00	0.00	13.00

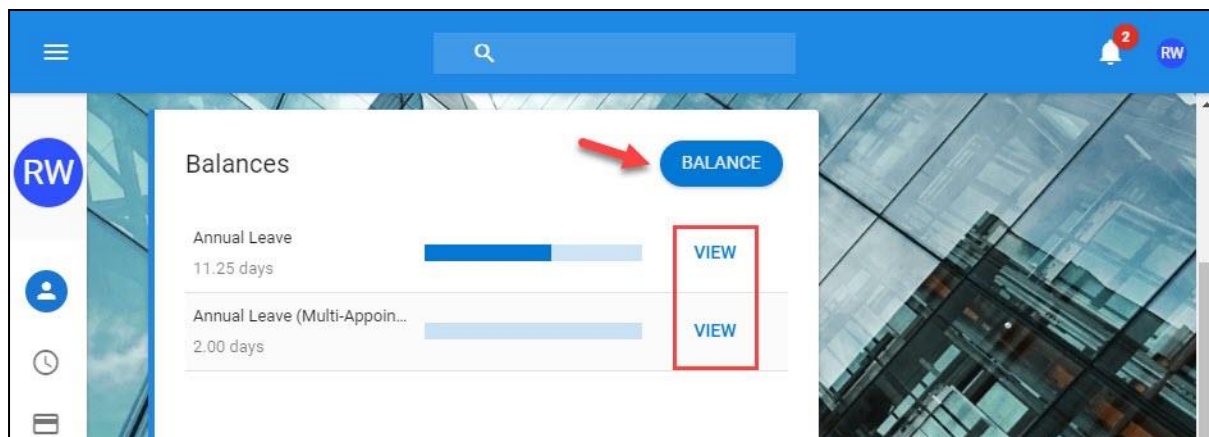

Some example *Leave Types* that can be configured within the system are listed below:

- Annual Leave
- Bereavement Leave
- Certified Sick Leave
- Force Majeure
- Graduation Day
- Jury Service
- Parental Leave
- Paternity Leave
- Study Leave
- Uncertified Sick Leave
- Wedding Leave

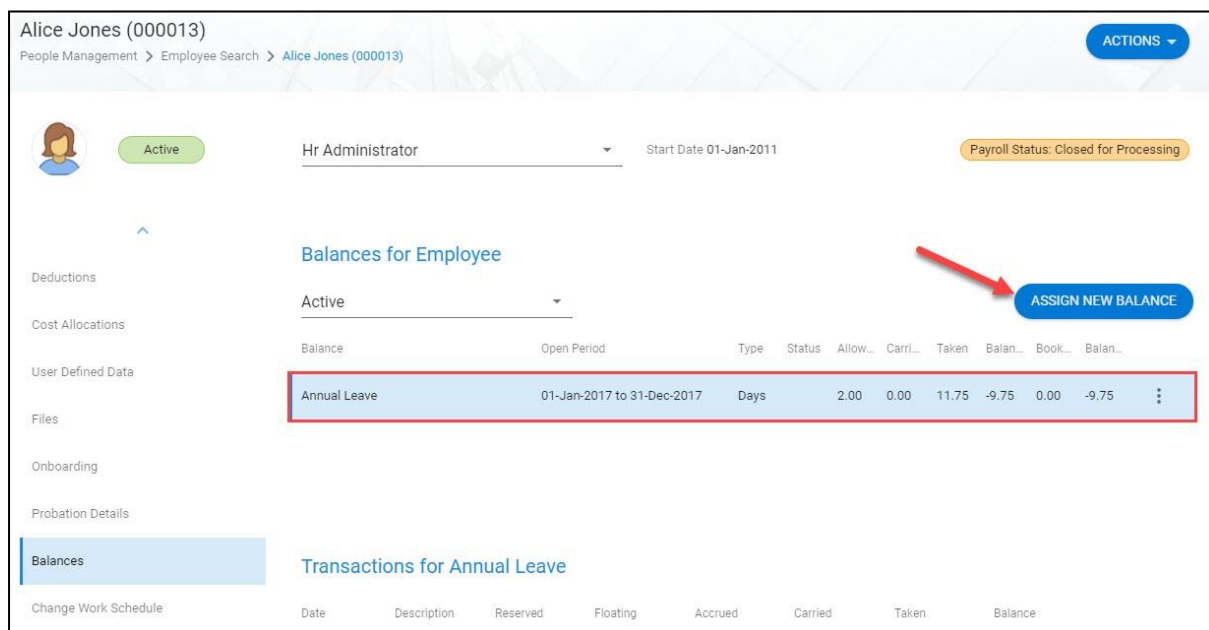

For further information on configuring a *Pay Code* as *Absence*, view section [6.3. Leave Request Pay Code Setup](#).

1.2.2. Balances

Balances, such as *Annual Leave*, can be assigned to employee records within the system. Employees can then use these balances to submit *Leave Requests* until fully used, subject to being *Active Balances*. It is possible for employees to review their balance information via the *Balances* widget.

It is possible for managers and/or admin users to review and manage balances for employees within their Org Role remit. Managers can review employee balances, manage existing balances, and assign new balances.

Types of balances include:

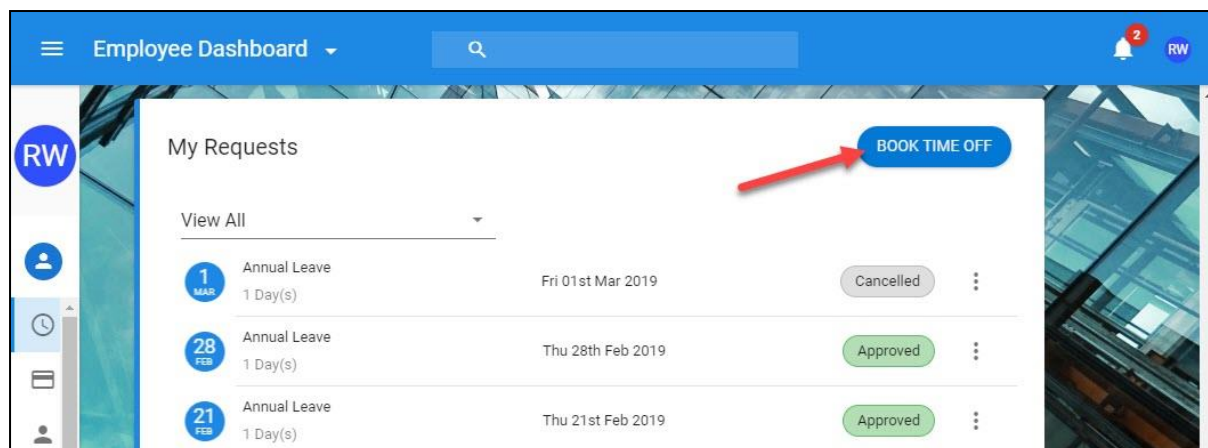

- Auto Derived Entitlement
- Maintain Only Balance
- Other Balances

For further information on *Balances*, view section [2. Employee Balances](#).

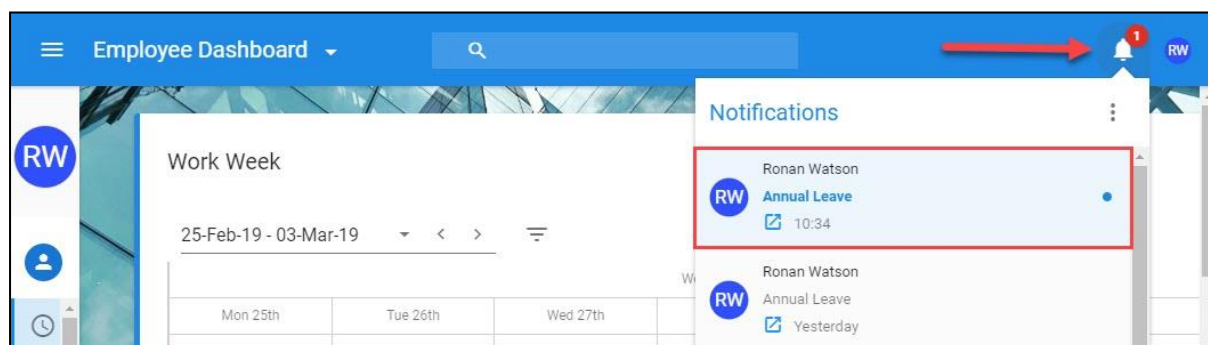

1.2.3. Leave Request Workflow

The below example outlines a high-level *Leave Request* workflow. An employee submits a *Leave Request*, which is then approved by their manager.

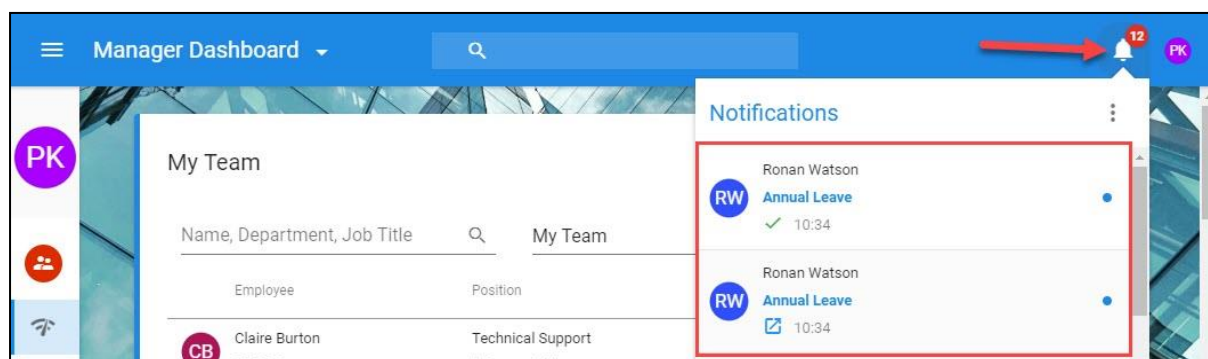

The employee navigates to the *My Requests* widget and follows the process to submit a *Leave Request*.

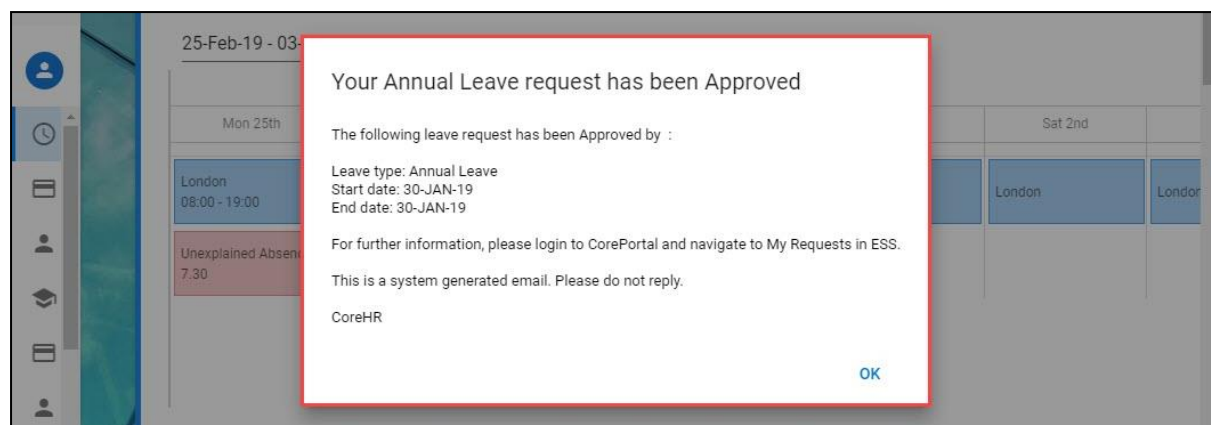

Once complete, the employee receives a *Notification*, indicating that the *Leave Request* has been successfully submitted.

The manager then receives a *Notification* indicating that they have a *Leave Request* requiring action. It is then possible for the manager to review and approve or reject the *Leave Request*.

Once the manager has approved or rejected the *Leave Request*, the employee then receives a *Notification* indicating that their *Leave Request* has been either approved or rejected.

For further information on *Leave Request* processes, view the applicable sections below:

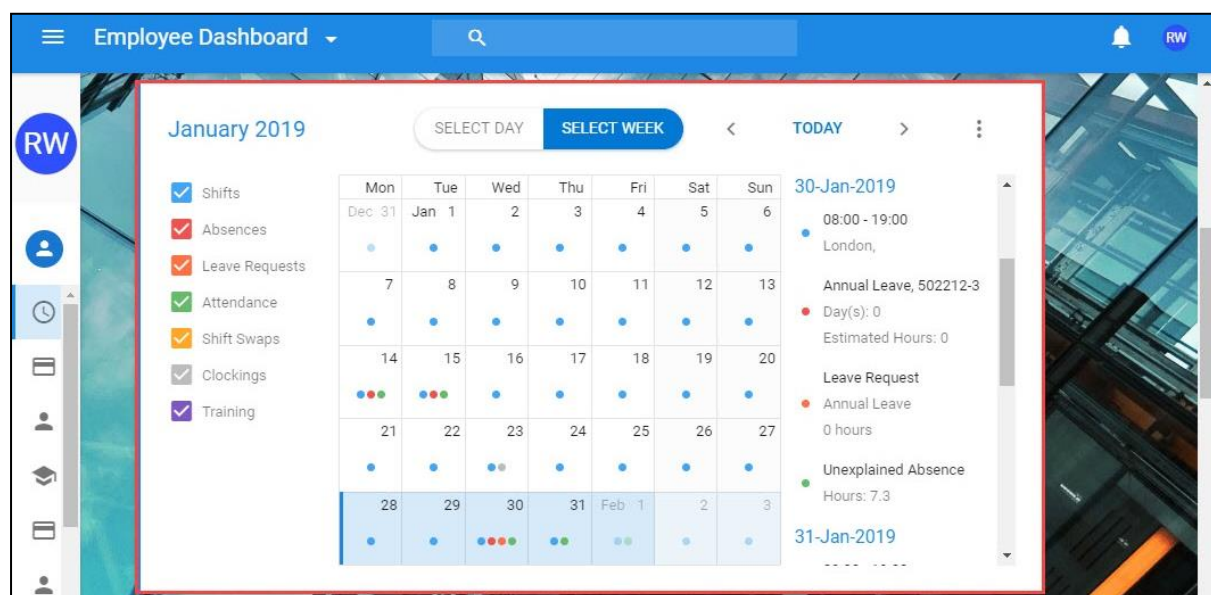

- [3. Employee Self Service](#)
- [4. Manager Self Service](#)

1.2.4. Leave Requests versus Absences

The following points should be taken into consideration regarding *Leave Requests* and *Absences*:

- A *Leave Request* is submitted by an employee, for manager approval. Before it may proceed as an official absence, a *Leave Request* must be actioned by a manager, to either approve or reject the request.
- An *Absence* can be directly entered on an employee record, by a manager.

When a *Leave Request* date has passed, it is seen as an historical timesheet within the system. This *Leave Request* then shows as an *Absence*.

2. Employee Balances

2.1. Balance Screen Overview

With *Employee Balance Management*, it is possible to fully administer an employee balance via the *People Management Admin Dashboard* (for *Devolved HR Tasks*). View section [5.2 Balance Management User Access](#), for information on user access.

The below functionality is available on this screen:

- View active/inactive employee balances
- Assign new balance to an employee
- Adjust and recalculate an employee balance
- View the entitlement basis for an employee balance
- De-activate/re-activate an employee balance
- Delete an employee balance

Note:

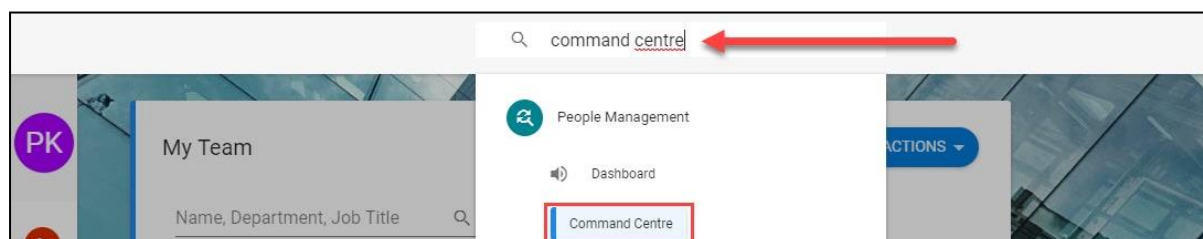

1. Only employee-level *Balance Administration* is available via *CorePortal*. Bulk *Balance Administration* must be completed via *Backoffice*.
2. Balance set up, including extending calendars, is not available via *CorePortal*.
3. Balance period end functionality is not available via *CorePortal*.

2.1.1. Accessing the Balance Overview Screen

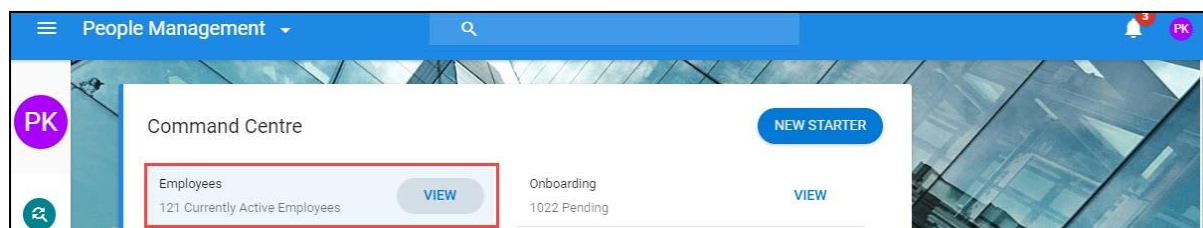

Access from People Management

To access *Balances* from *People Management*:

1. Quick Jump to the Command Centre

2. Select **View Employees**.

3. Search for and **View** the applicable employee.

5. Select **Balance Information**.

The *Balance Information* screen displays.

2.2. Managing Balance Assignments

2.2.1. Balances Overview

When assigning a new balance, only fields applicable to the balance selected are displayed. The table below provides explanations for each field:

Field	Explanation
Reserved entitlement	Refers to the portion of your entitlement that must be taken on certain days. You cannot choose when to take it. For example, a factory shutting down for two weeks in July.
Floating entitlement	Portion of your entitlement that you are free to take anytime (subject to approval and outage periods) i.e. you get an entitlement at the start of the year and you can take the leave any time (you don't have to wait until you have worked it up).
Accrued entitlement	Used for certain employees (casual employees, or employees working variable hours). They accrue their entitlements to leave over time (as opposed to getting their full entitlement at the start of the leave period).
Allowance	This is <i>Reserved + Floating + Accrued</i>
Carried Forward	This holds the days/hours that were automatically carried forward from the previous period into this period. Managers/Admins can manually adjust this also. The <i>Carried Over + Entitlement</i> values = <i>Balances</i> .
Taken	These hours are calculated to the employee's T&A record based on <i>Booked Absences</i> or <i>Approved Requests</i> . (This can be overridden).
Booked	This is leave requested that has been approved but not taken.
Requested	This is leave requested that hasn't been approved regardless of whether it is in the future or not.
Remaining	This is the remaining balance. This does <u>not</u> include requested leave.

There are three main variations of the *Assign New Balance* screen:

- **Variation 1:** Balances where the entitlement is *Auto Derived* from the employee's position, for example their *Pay Scale*, *Organization Structure Element*; their *Company* or *Category*.
- **Variation 2:** Balances that are set up as *Balance Only* balances.
- **Variation 3:** Other balances – not set up as either 'Variation 1' or 'Variation 2'.

View section [5.1 Balance Types](#) for *Balance Variation* driving parameter configuration.

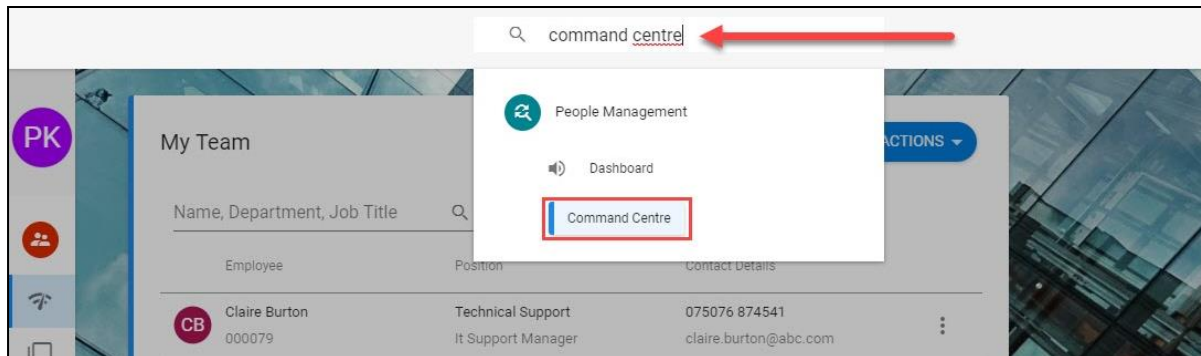

In addition, the balance start date and end date fields are only displayed if the balance selected is set up as a *Personal Calendar Balance*.

2.2.2. Assign New Balance

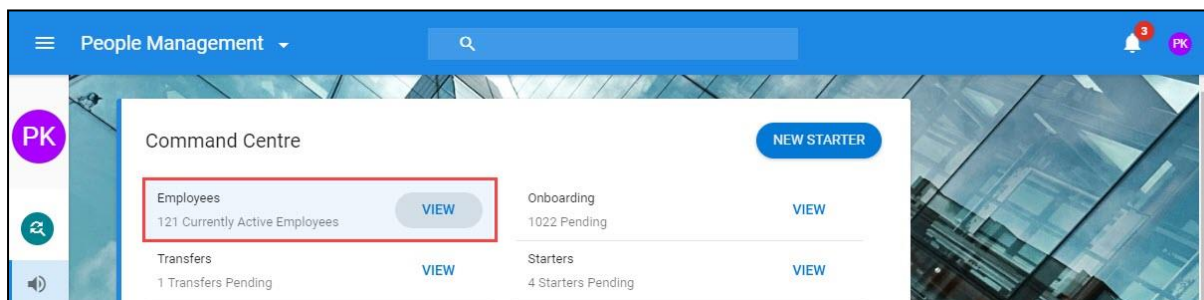

Access from People Management

To assign *Balances* from *People Management*:

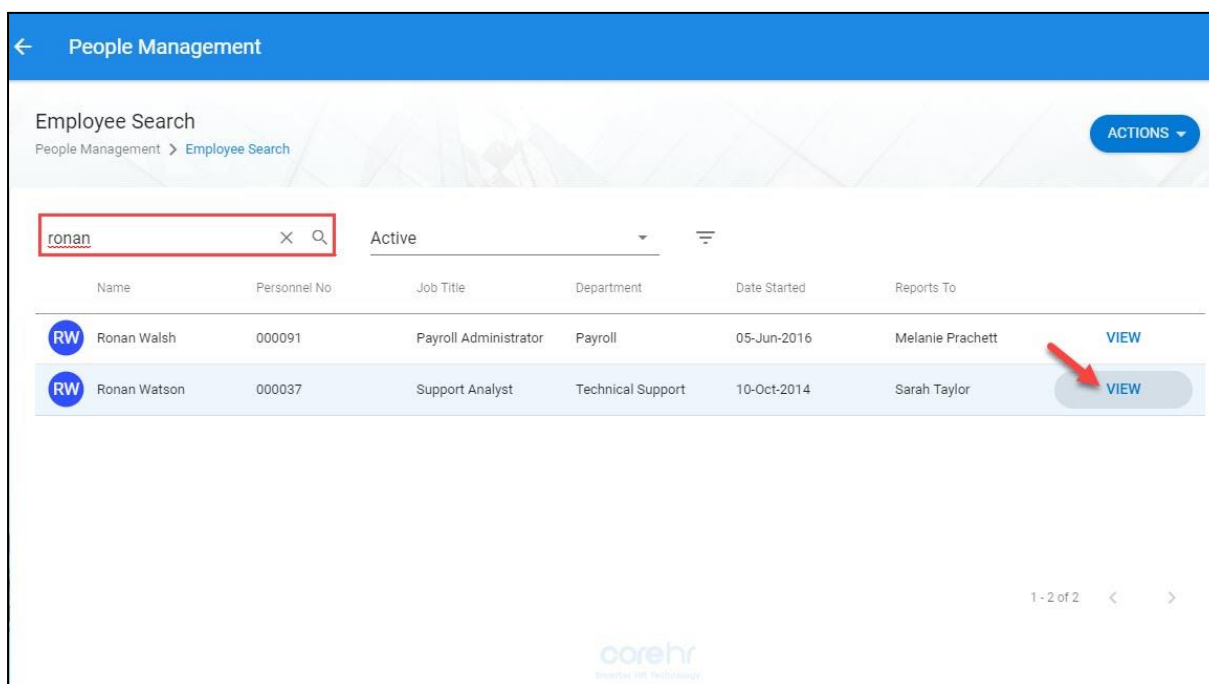

1. Quick Jump to the Command Centre.

2. Select **View Employees**.

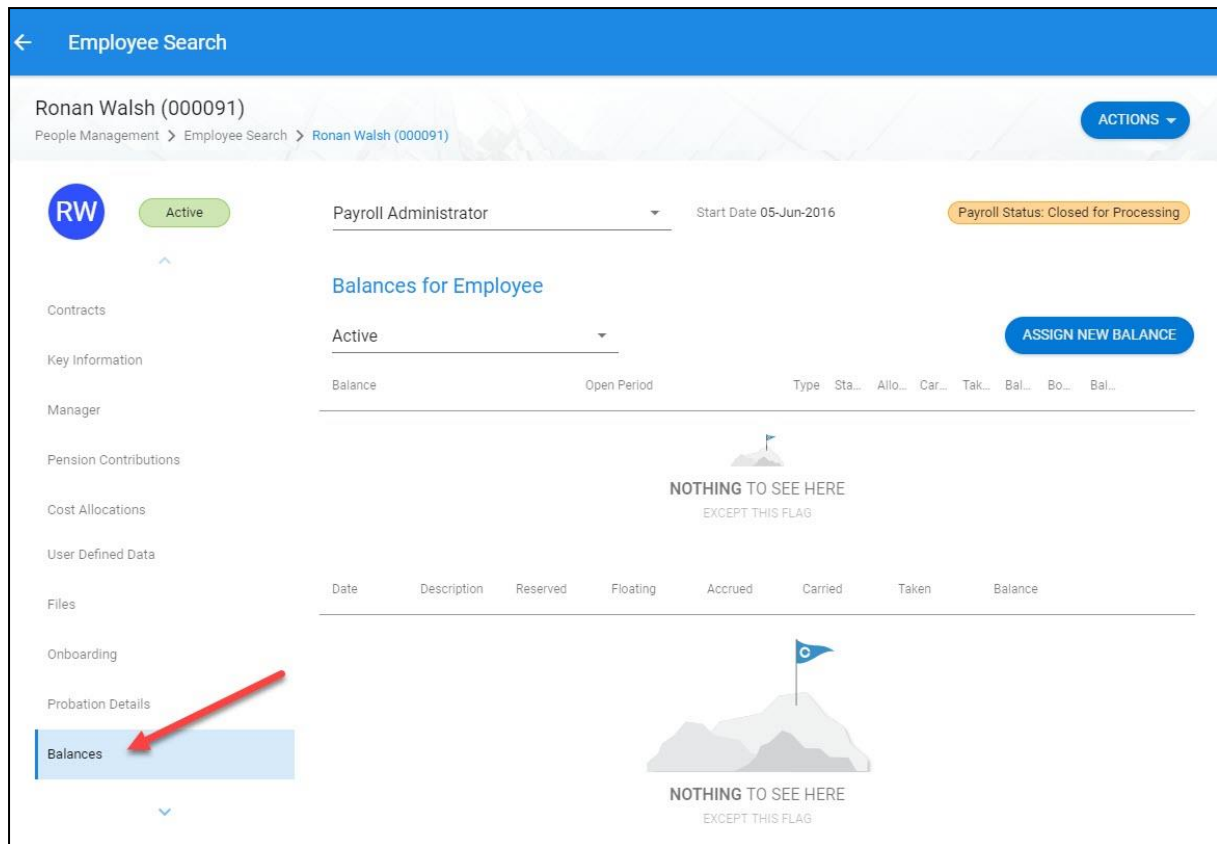

3. Search for and **View** the applicable employee.

4. Click the  button to locate **Balances** on the list.
5. Click **Balances**.

The *Balances for Employee* display on screen.

This action displays the *Add Balance* screen. To help simplify the *Assign New Balance* process, only fields applicable to the *Balance Variation* selected are displayed on screen.

Variation 1: Auto Derived Entitlement

If the balance selected is set up so that the entitlement is *Auto Derived* from the employee's position, for example their *Pay Scale*, or *Organization Structure Element*. There is no option to enter entitlement *Starting Values* or *Entitlement Codes*.

- Select the applicable balance from the *Balance* drop-down list.
- Select the applicable period from the *Period* drop-down list.

The **Starting Values** fields and **Entitlement Codes** are not be editable for this variation.

- Select **Save**.

Variation 2: Maintain Only Balance

If a *Balance Only* balance, there is no option to enter entitlement *Starting Values* other than the *Starting Balance*, or *Entitlement Codes* other than the *Balance Entitlement Code*. There is also no option to enter a *Length of Service* code. If the balance is set up with a display format of *Minutes* then the *Balance Type* defaults to Hours, as this is the only applicable option.

1. Select the applicable balance from the *Balance* drop-down list.
2. Select the applicable period from the *Period* drop-down list.
3. Specify the starting balance from the *Starting Values* drop-down list.
4. Select the balance entitlement code from the *Entitlement Codes* drop-down list.
5. Click **Save**.

Other Variations: Personal Calendar Balances

If the balance selected is set up as a *Personal Calendar Balance*:

- The *Period Field* is not displayed.
- The *User Defined Dates* fields are displayed:
 - Start Date
 - End Date

The screenshot shows the 'Add Balance' form for Ronan Walsh (000091). The 'Balance Details' section includes dropdowns for 'Balance' (set to 'Parental Leave (Child 1)'), 'Balance Type*' (set to 'Hours'), and 'Balance Segment*'. Below this, the 'User Defined Dates' section is highlighted with a red box and contains 'Start Date*' and 'End Date*' fields, each with a calendar icon. Further down are 'Starting Values' (Reserved, Floating, Accrued, Carried Forward, Taken, Booked) and 'Entitlement Codes' (Reserved Code, Floating Entitlement, Accrued Code, Length of Service, Percentage).

Additional Information

The balance listing of values will include any valid balances that you have access to, that have not already been assigned to the employee.

This screenshot shows the 'Add Balance' form with the 'Balance' dropdown menu open. A red arrow points to the 'Balance' label. The dropdown list includes: 'Annual Leave' (Code AL01), 'Force Majeure (1 Year Rolling Period)' (Code FM01), 'Flexitime (Bs)' (Code FX01), 'Annual Leave (Multi-Appointment)' (Code MA-AL), and 'Code MA-AL'.

- When adding a balance via the *Add Balance* screen, *Balance Type* and *Balance Segment* are mandatory fields. *Balance Segment* defaults to null, therefore, you must explicitly choose an option from the listing of values.
- If the balance is set up to display in 'Minutes', then the *Balance Type* defaults to 'Hours'. If the balance is set up to display in 'Decimal' then the *Balance Type* defaults to null, therefore the user must explicitly choose 'Days', 'Hours' or 'Occurrences' from the listing values.

Note:

- Only users with the *See Hidden Balances* access privileges can view *Hide on CoreTime* balances.
- A balance is not valid if it does not have a calendar set-up.

2.3. Balance Options

It is possible to complete the following actions on an employee's existing balance, from the *Balances* screen:

- Balance Adjustment
- Entitlement Basis
- Recalculate
- Edit Setup
- Deactivate
- Delete

The screenshot shows the 'Employee Search' page for Alice Jones (000013). The 'Balances for Employee' section is active, displaying a table with one balance entry: 'Annual Leave' for the period '01-Jan-2017 to 31-Dec-2017'. The table columns include Balance, Open Period, Type, Sta..., Allo..., Car..., Tak..., Bal..., Bo..., and Bal... The 'Annual Leave' row has values: 2.00, 0.00, 11..., -9.75, 0.00, -9.75. A red arrow points to a three-dot menu icon next to the 'Annual Leave' row, which has opened a dropdown menu with the following options: Balance Adjustment, Entitlement Basis, Recalculate, Edit Setup, Deactivate, and Delete.

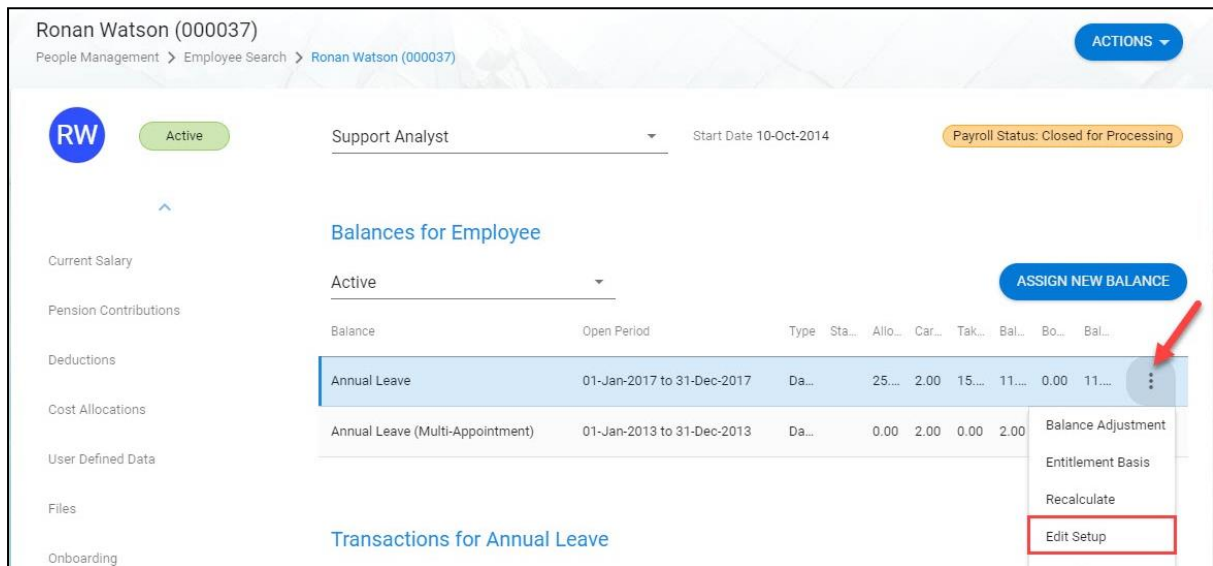

2.3.1. Edit Set-up

The following fields are editable, from the **Edit Setup** option on your *Balances* screen:

- Balance Segment
- Entitlement Codes (applicable to the balance)
- Length of Service codes
- Percentage
- Start Date/End Date (Personal Calendar Balances only)
- Flexitime indicator (flexitime balance only)

To edit a balance setup:

1. Click the  button, for the applicable balance, on the *Balances* screen.
2. Select **Edit Setup** from the list of options.

Balance Adjustment

Entitlement Basis

The *Balance Adjustment* screen displays. Here it is possible to adjust the balance details as required. For example, you may need to add *Carry Over* days at the start of the year for an employee.

3. Enter the balance adjustment details, for each item drop-down list.
 - o Balance
 - o Period
 - o Date Effective
 - o Adjust
 - o Adjustment Amount
 - o Reason for Adjustment
4. Select **Calculate Balance**.
5. Click **Save**.

Activate
Delete

It may be required to make a balance inactive, to stop an employee submitting leave requests against it. For example, if a company had a temporary initiative for employees to take 'Innovation Days' or 'Wellness Days', these balances can be made **Active** or **Inactive**, as required.

2.3.6. Delete

To **Delete** a balance:

1. Click the  button on the applicable balance.
2. Select **Delete**.

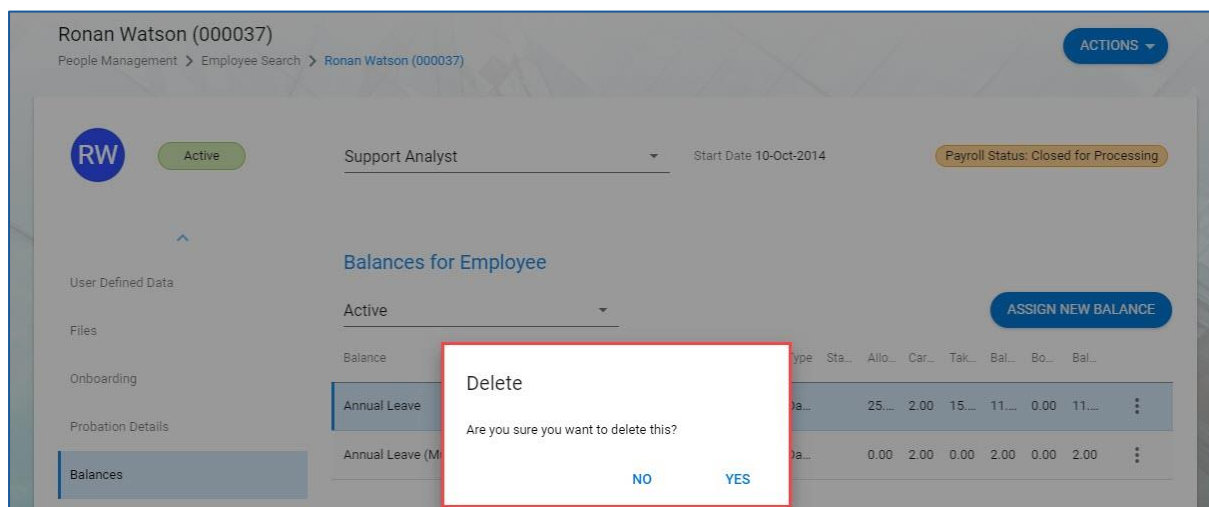

The screenshot shows the 'Balances for Employee' section for Ronan Watson (000037). The 'Annual Leave' balance is selected, and the 'Delete' option is highlighted in the dropdown menu. The 'Delete' option is highlighted with a red box and a red arrow.

Balance	Open Period	Type	Sta...	Allo...	Car...	Tak...	Bal...	Bo...	Bal...
Annual Leave	01-Jan-2017 to 31-Dec-2017	Da...	25...	2.00	15...	11...	0.00	11...	
Annual Leave (Multi-Appointment)	01-Jan-2013 to 31-Dec-2013	Da...	0.00	2.00	0.00	2.00	0.00	2.00	

The *Delete* pop-up displays. For example, you may need to delete a balance created in error or clear an incorrect balance that has been migrated into the system.

3. Click **Yes**, only if applicable.

The screenshot shows the 'Delete' pop-up dialog box. The dialog box contains the text 'Delete' and 'Are you sure you want to delete this?'. There are two buttons: 'NO' and 'YES'. The 'YES' button is highlighted with a red box.

2.4. People Management HR Process Task List

It is possible to configure *People Management HR Process Task Lists* to include *Balances*. For example, a 'New Starter Checklist', or a 'Re-joiner Checklist' etc. Therefore, you can add a *Balances* task.

- Adding a *Balances* task makes it possible to navigate directly to the *Balances* screen from the *HR Process Task List* and **Activate** any required balances.
- When accessed from a *HR Process Task List*, the *Balances* screen has a **Complete** button. Therefore, it is possible to mark the task as complete, upon actioning and completing the task.

For further information on general *HR Process Task Lists*, view CoreHR University.

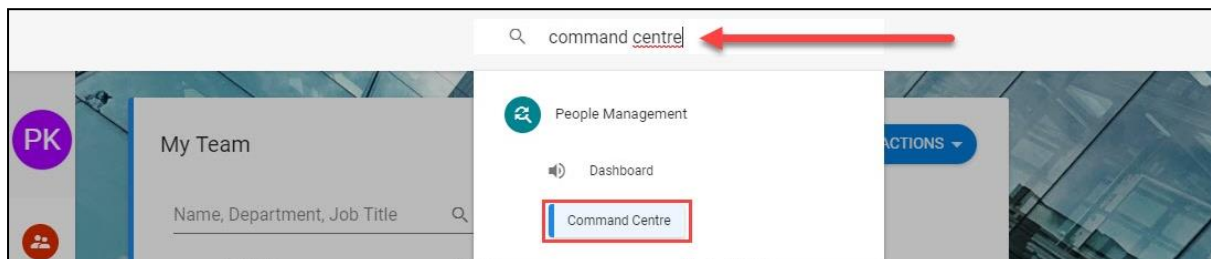

For further information on configuring a *Balances Task Lists*, view section [5.3 HR Process Task List](#).

The following example details a *People Management HR Process Task List* for a 'New Starter Checklist'.

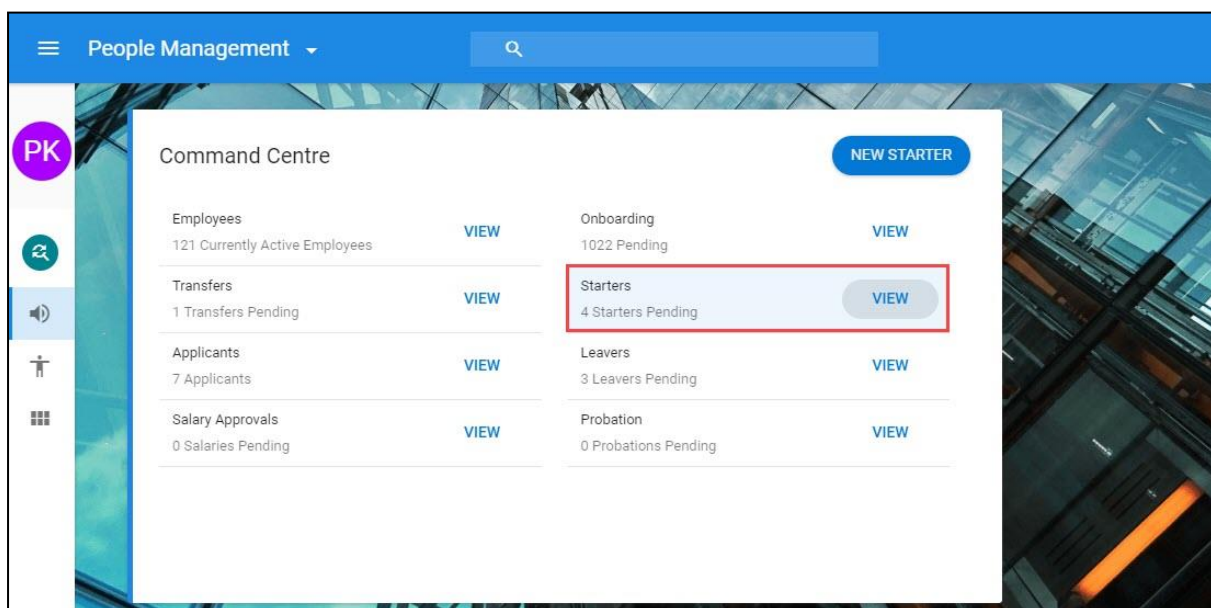

- A *Balances* task has been added to this list as *Optional* to complete.

To action the task:

1. Quick Jump to the Command Centre.

2. Select **View Starters**.

3. Select **View** for the applicable employee record.

3.1.3. My Profile

It is possible to view balance information via the *Balance Information* screen, accessed from *My Profile*.

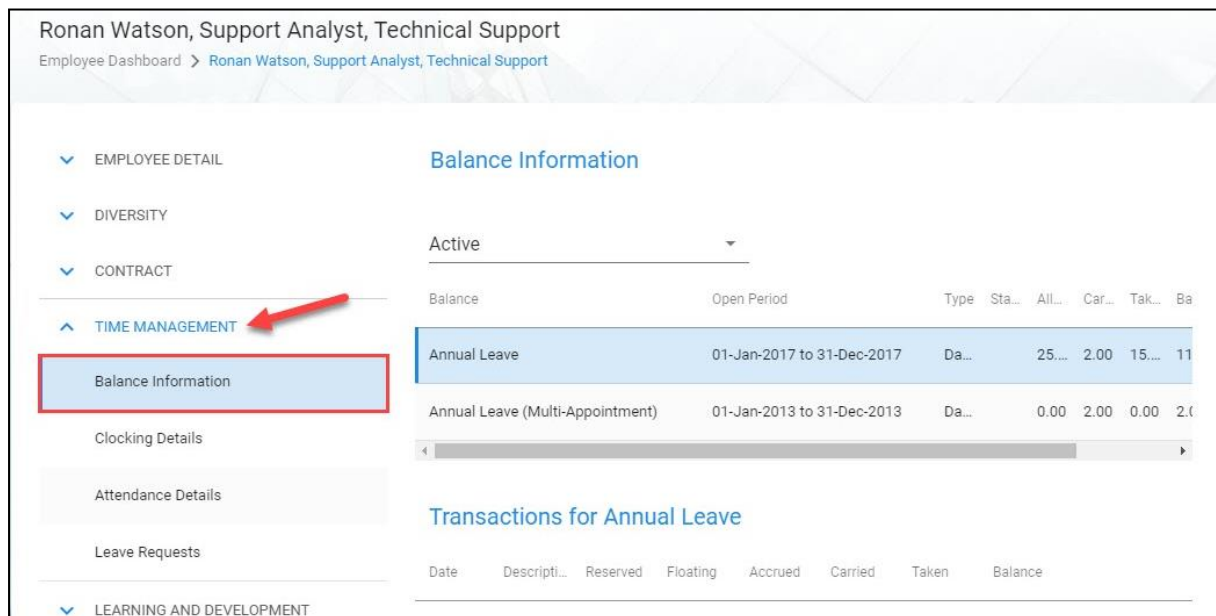

To access the *Balance Information* screen:

1. Select **My Profile**.

2. Click **Time Management** to expand.
3. Select **Balance Information**.

The *Balance Information* screen displays.

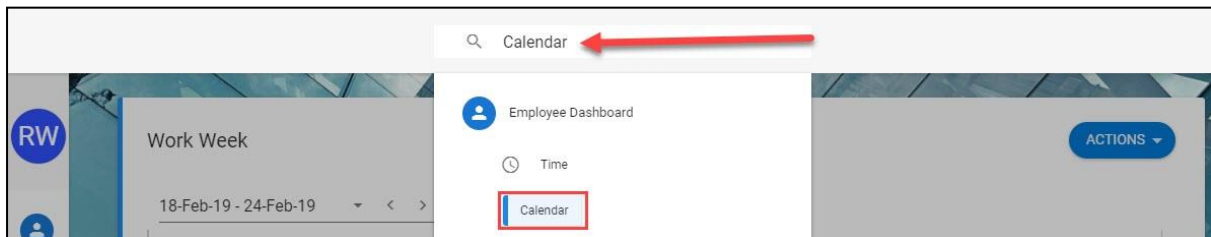

3.2. Viewing Leave Requests & Absences

3.2.1. Calendar Board

It is possible for employees to view their *Absences* and *Leave Requests* via the *Calendar* widget.

To view *Absences* via the *Calendar* widget:

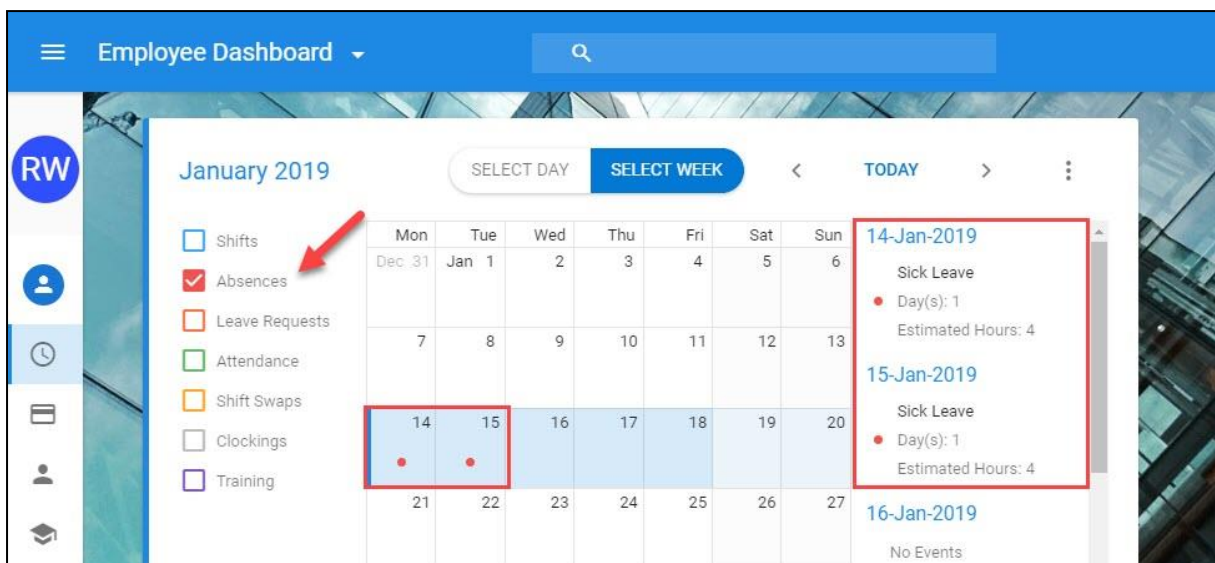

1. *Quick Jump to Calendar.*

2. Tick **Absences**.

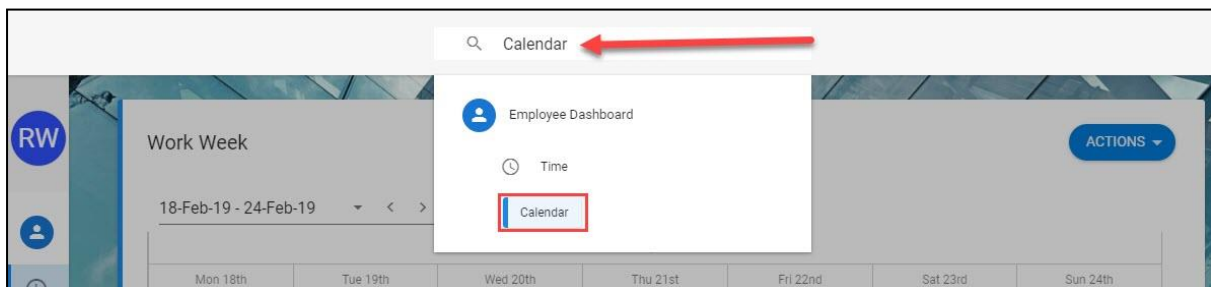

Red icons now display on the applicable dates where *Absences* occur.

It is possible to click on the applicable date or week. This displays additional detail, regarding the absences, to the right of the *Calendar* widget. This is highlighted in the below screenshot.

To view *Leave Requests* via the *Calendar* widget:

1. *Quick Jump to Calendar.*

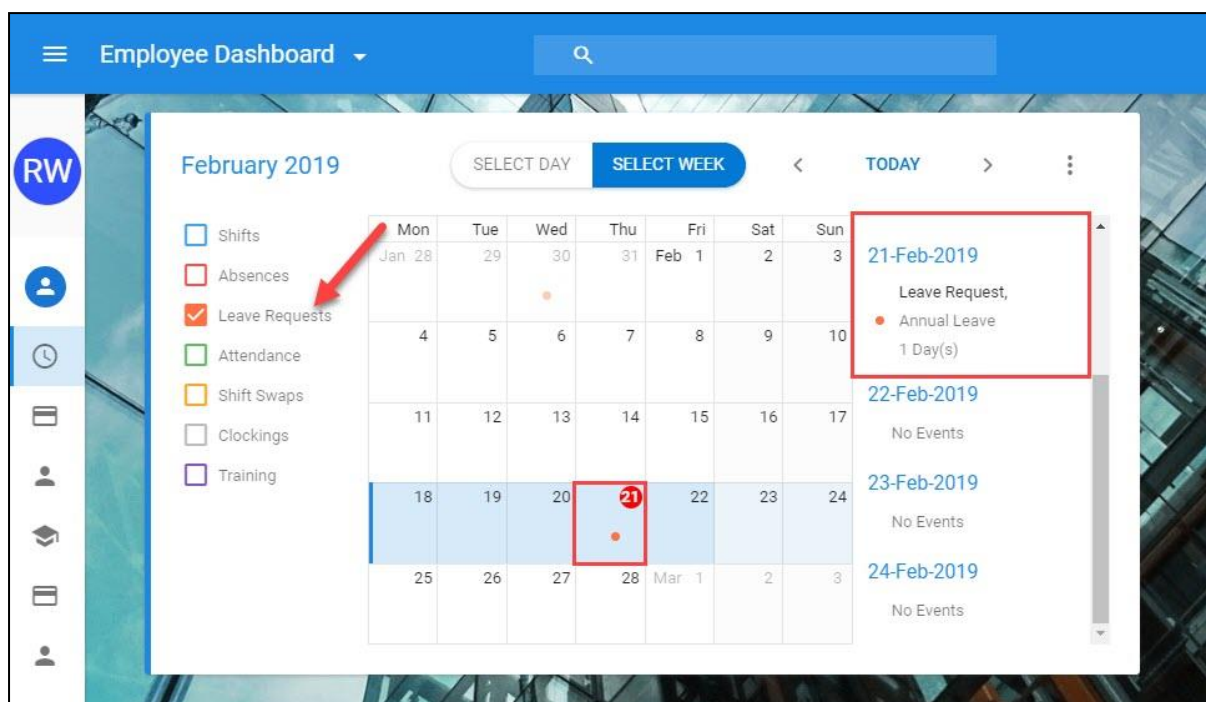

The *Calendar* displays.

3. Tick **Leave Requests**.

An orange icon now displays on the applicable date where a *Leave Request* occurs.

It is possible to click on the applicable date or week. This displays additional detail, regarding the *Leave Request*, to the right of the *Calendar* widget. This is highlighted in the below screenshot.

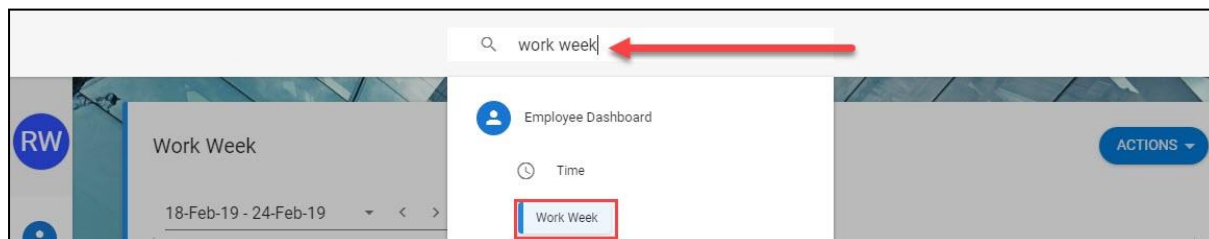

3.2.2. Work Week

It is possible for employees to view their *Absences* and *Leave Request* via the *Work Week* widget.

To view *Absences* and *Leave Requests* via the *Work Week* widget:

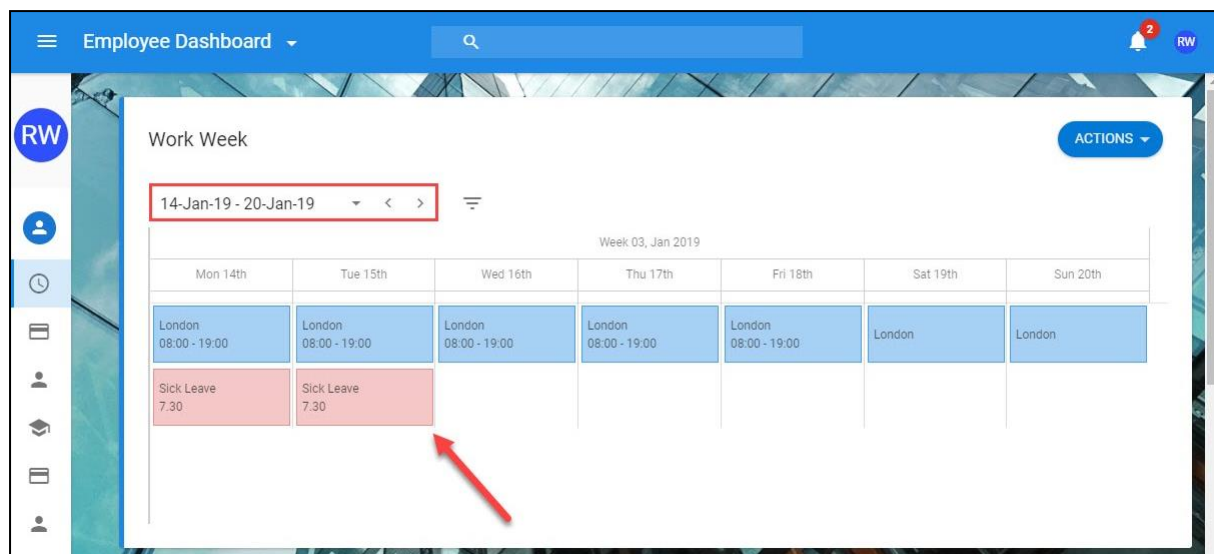

1. *Quick Jump to Work Week.*

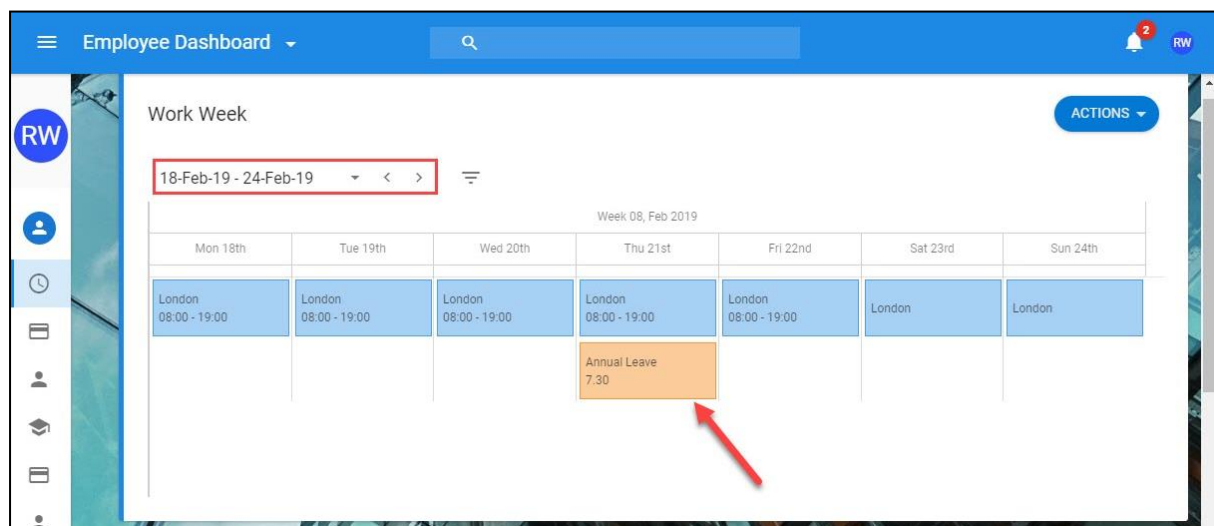

4. Navigate to the applicable week.

The below examples show 'Sick Leave' *Absences* and an 'Annual Leave' *Leave Requests*, displaying on the *Work Week* widget.

Absences Example

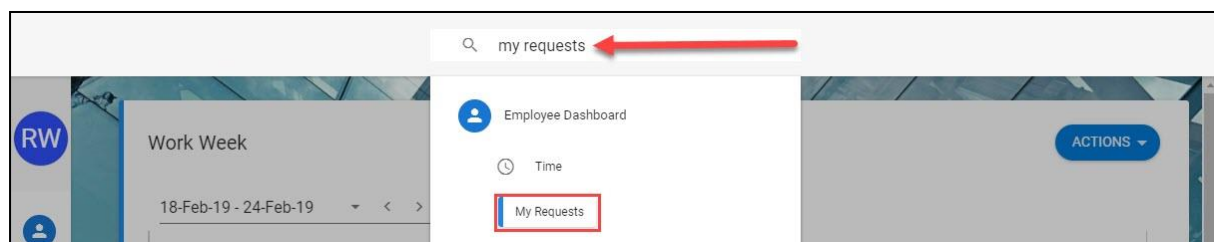

Leave Request Example

3.2.3. My Requests

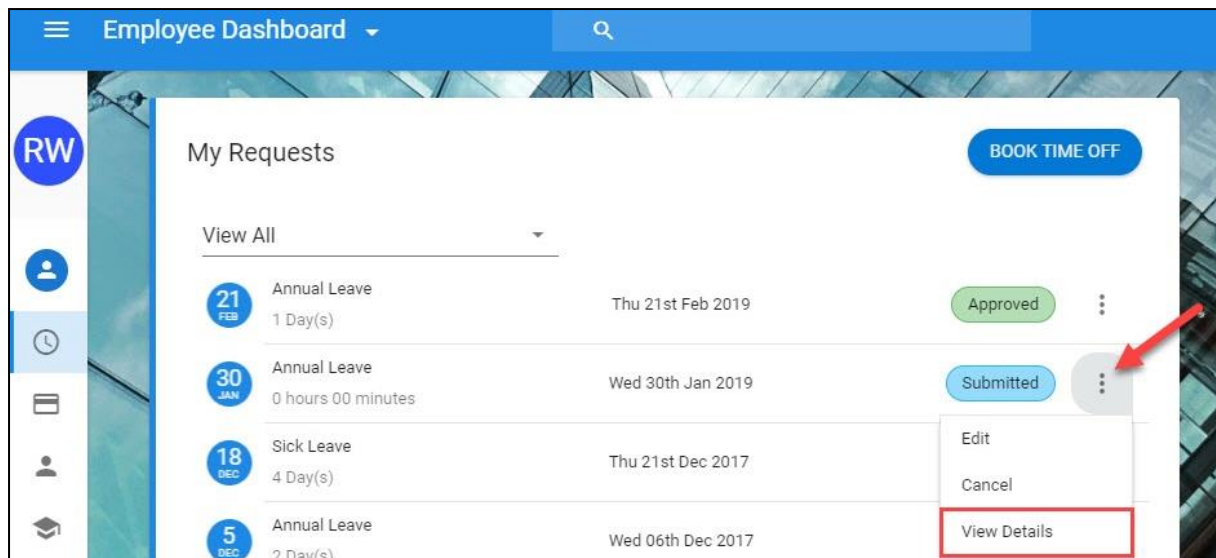

To view *Leave Requests* from the *My Requests* widget:

1. *Quick Jump to My Requests.*

The *My Requests* widget displays.

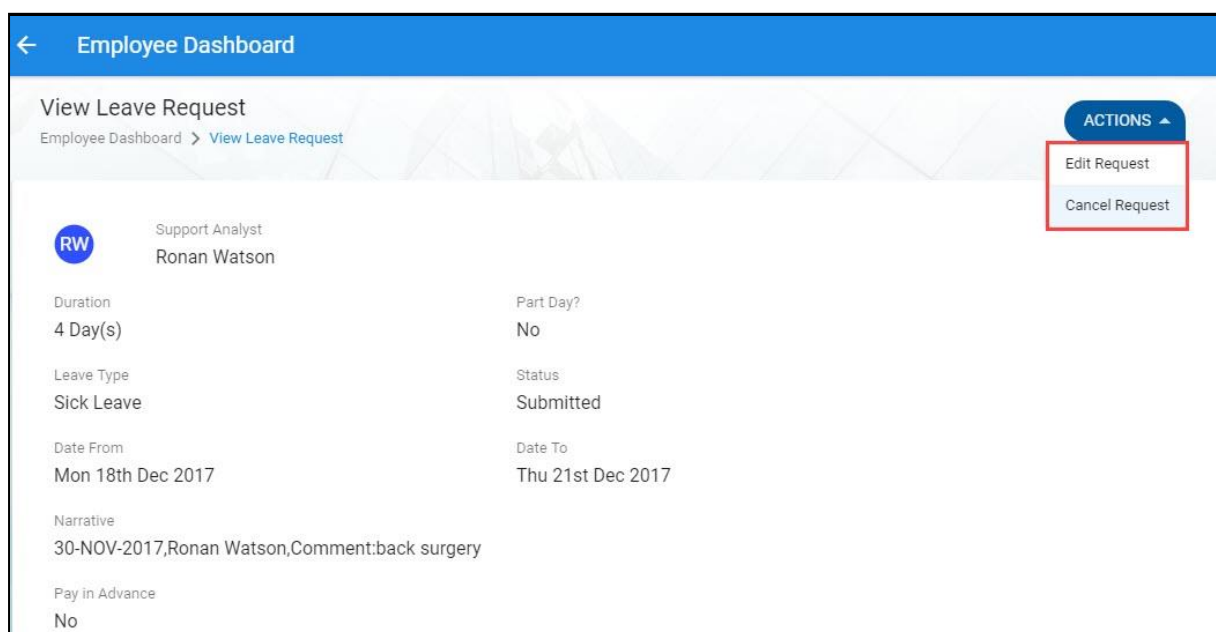

- Click the  button on the applicable Leave Request.
- Select **View Details**.

The *View Leave Request* screen displays all relevant information regarding the leave request, as list below:

- Duration
- Leave Type
- Date From
- Date To
- Narrative
- Pay in Advance
- Part Day
- Status

In this example, it is also possible to **Edit** or **Cancel** the request. For further information on *ESS Leave Request* management, see section [3.3. ESS Leave Request Management](#).

3.2.4. Co-Workers Leave / Absence

It is possible to view **Co-Workers Leave/Absence** via the *Team Calendar* screen, accessible from the widgets listed in the table below.

Widget / Screen	Accessing the screen
My Work Week	1. <i>Quick Jump to My Work Week.</i> 2. Select Actions > Co-Workers Leave/Absence.
Calendar Board	1. <i>Quick Jump to Calendar.</i> 2. Click the  button > Co-Workers Leave/Absence.
My Requests	1. <i>Quick Jump to My Requests.</i> 2. Click the  button, on a <i>Leave Request.</i> 3. Select View Team Absences.

Here it is possible to view the rostering of colleagues within your team.

CorePortal	Coreportal - Employee Request Widget	Allows employees to see the <i>My Requests</i> widget.
CorePortal	Main Menu - My Profile	Allows employees to see the <i>My Profile</i> screen.
CorePortal	Coreportal - Calendar - Time	Allows employees to see the <i>Calendar</i> widget.
CorePortal	Coreportal - Calendar - CoWorkerRoster	Allows employees to see <i>Co-Workers Leave / Absence</i> .
CorePortal	Widget - Time - Book Leave Request	Allows employees to <i>Book Time Off</i> from the <i>Calendar</i> and <i>Work Week Widgets</i> .

4. Manager Self Service

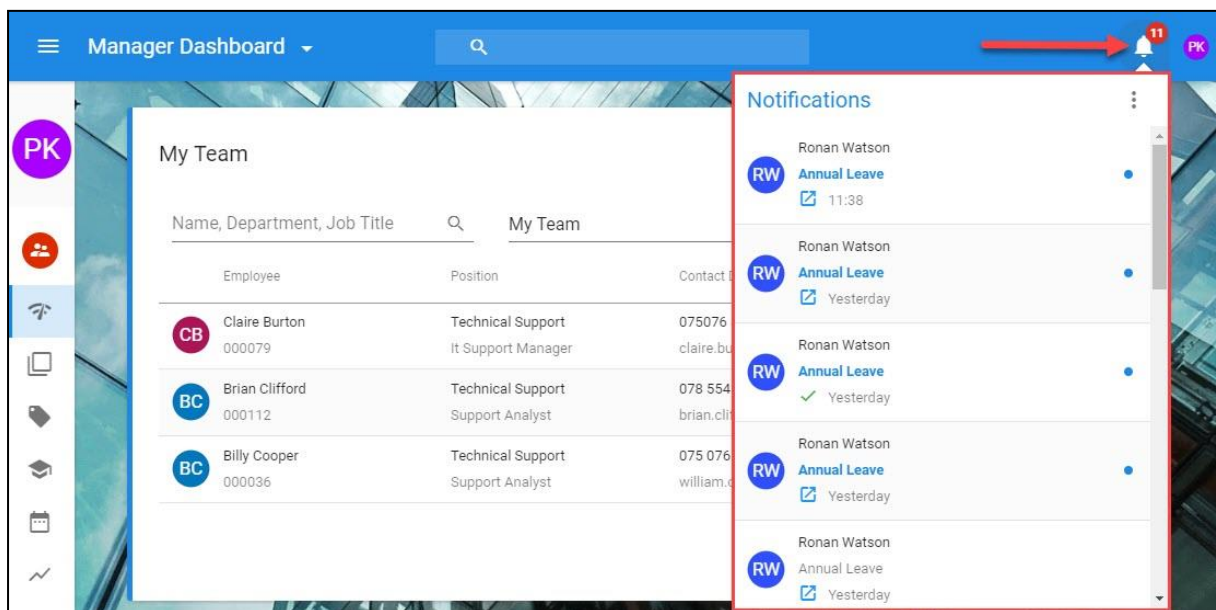

4.1. Approving / Rejecting Leave Requests

4.1.1. Notification Centre Overview

When an employee submits a *Leave Request* for approval, their applicable manager receives a *Notification*, indicating that there is an alert to be actioned.

Notifications are represented by the  bell icon:

- The counter shows the number of unread notifications. For example, if there are 10 items on the list but 3 have been read, the counter will display 7.
- Alerts are displayed in descending order, based on the date generated i.e. most recent first.

- Unread alerts are flagged with .

- Action items (*Approvals*) are flagged with .

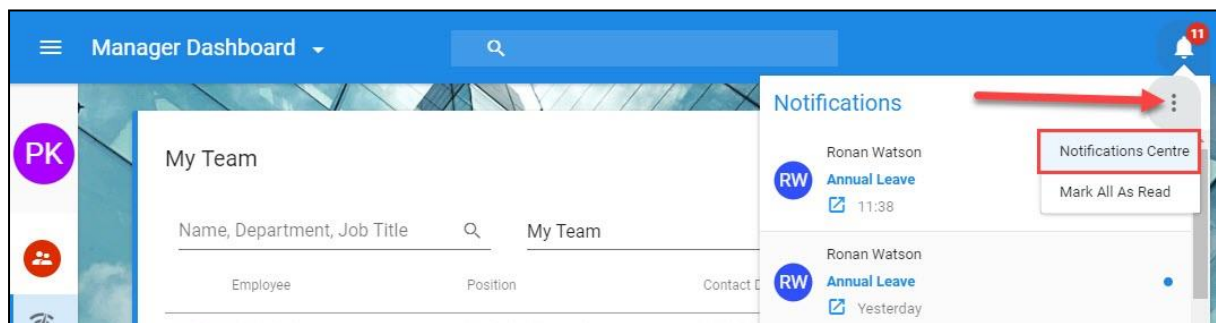

- Update items (*Notifications*) are flagged with .

To access the *Notification Centre* screen:

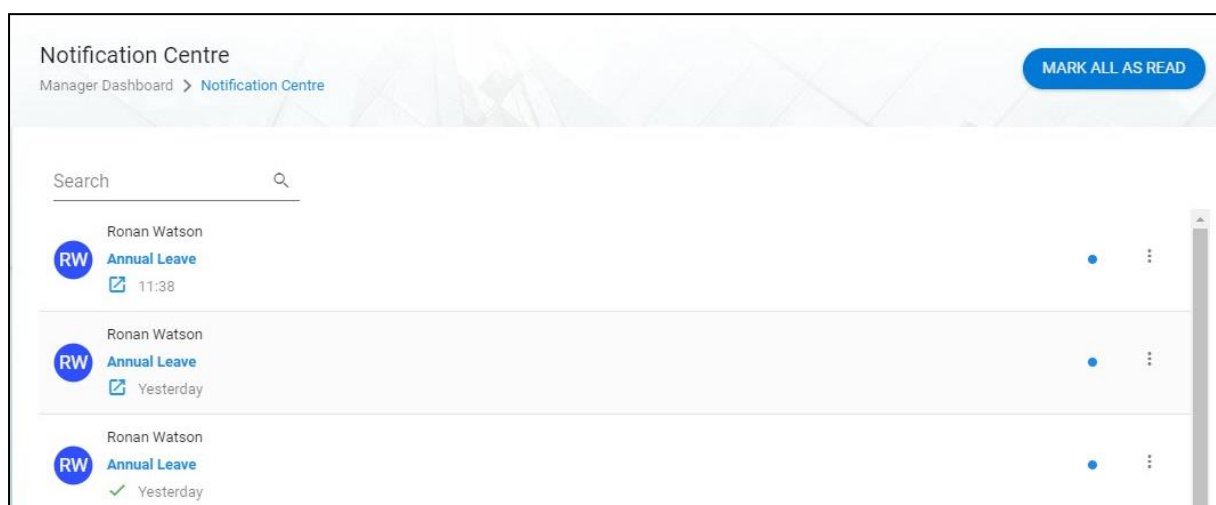

- Click the  button.
- Select **Notification Centre**.

The *Notification Centre* screen displays.

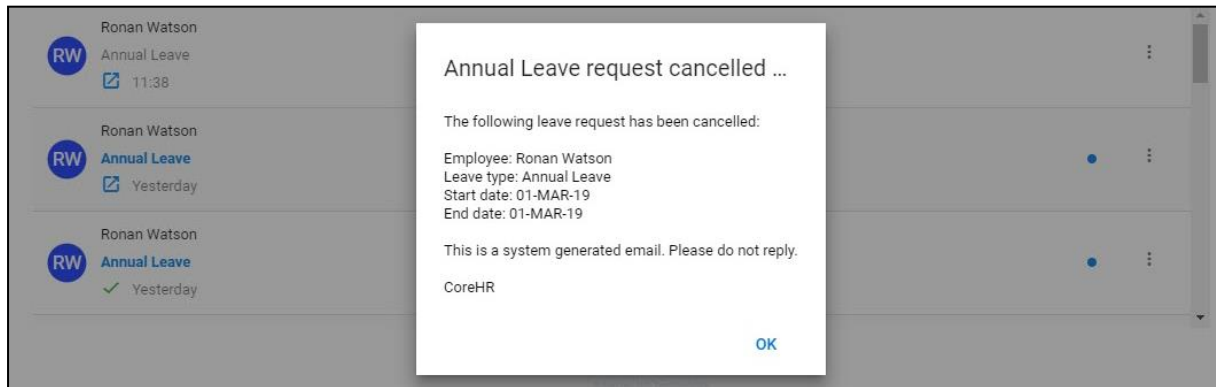

You can search the list of **Actions** and **Updates** using the search field at the top of the screen. This keyword search will return any records that match based on:

- Name
- Employee number
- Action type, for example 'Annual Leave'
- Update description, for example 'Annual Leave'

If you click on an *Update*  item, the message pops up on screen, as shown in the below screenshot.

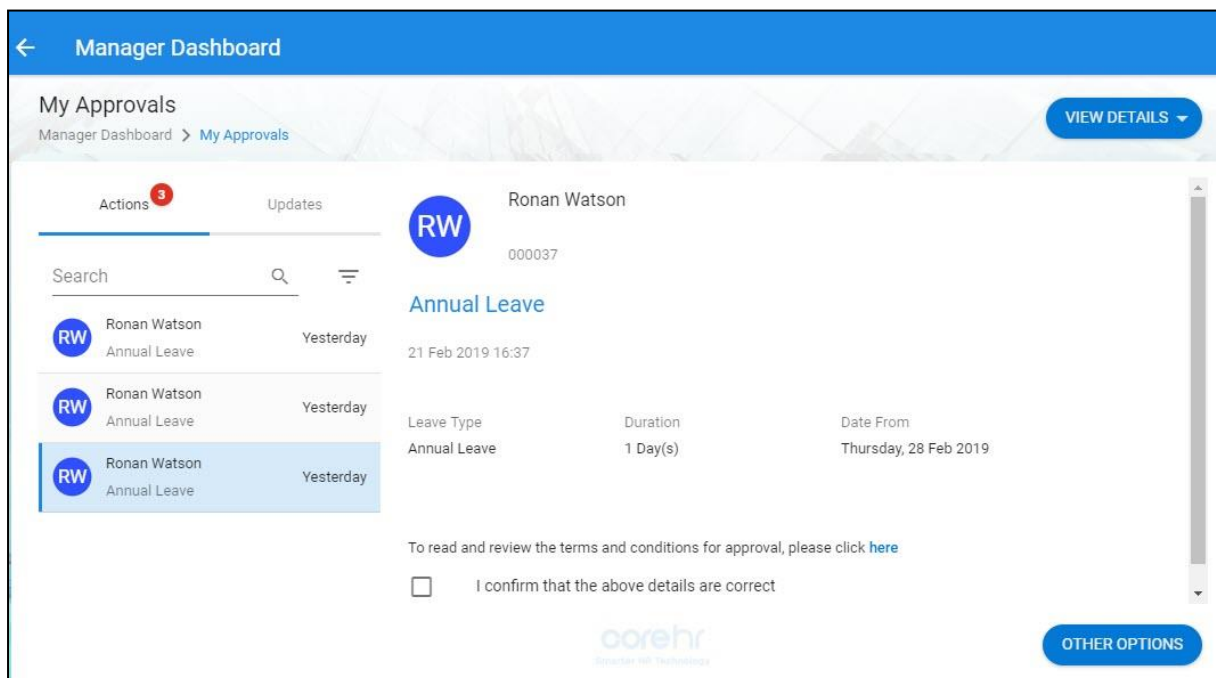

- This is then marked as read.
- The *Update* remains on the list for 30 days.

If you click on an *Action*  item, the *My Approvals* screen opens on that item, allowing you to complete the required actions. For example: **Approve** and/or **Reject**.

- Clicking on an unread *Action* marks that as read on this list, even if the *Action* has not been completed.
- This continues to appear as read on the list until the *Action* has been completed.
- Once the *Action* is completed, it is removed from the list.

The below screenshot details an example *My Approvals* screen.

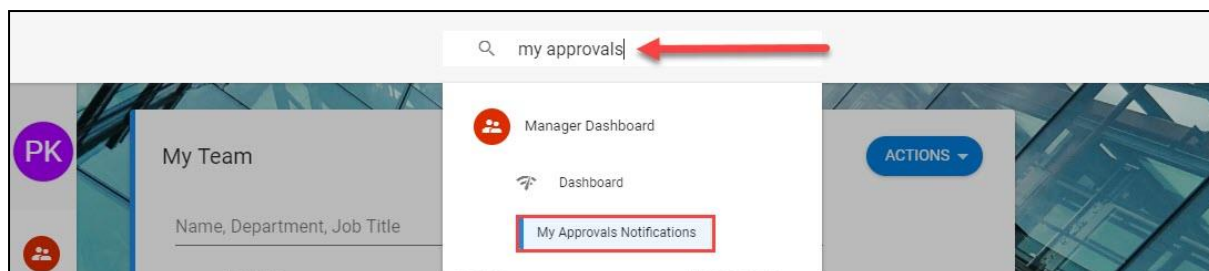

Note: There is no counter for *Updates*, even if there are unread items.

4.1.2. My Approvals Notifications Widget Overview

The *My Approvals Notifications* widget displays the *Actions* that are outstanding for you. This does not include *Updates*. This widget provides a clear view of the number of outstanding *Action* items awaiting completion of approval in your queue.

To access the *My Approvals Notifications* widget:

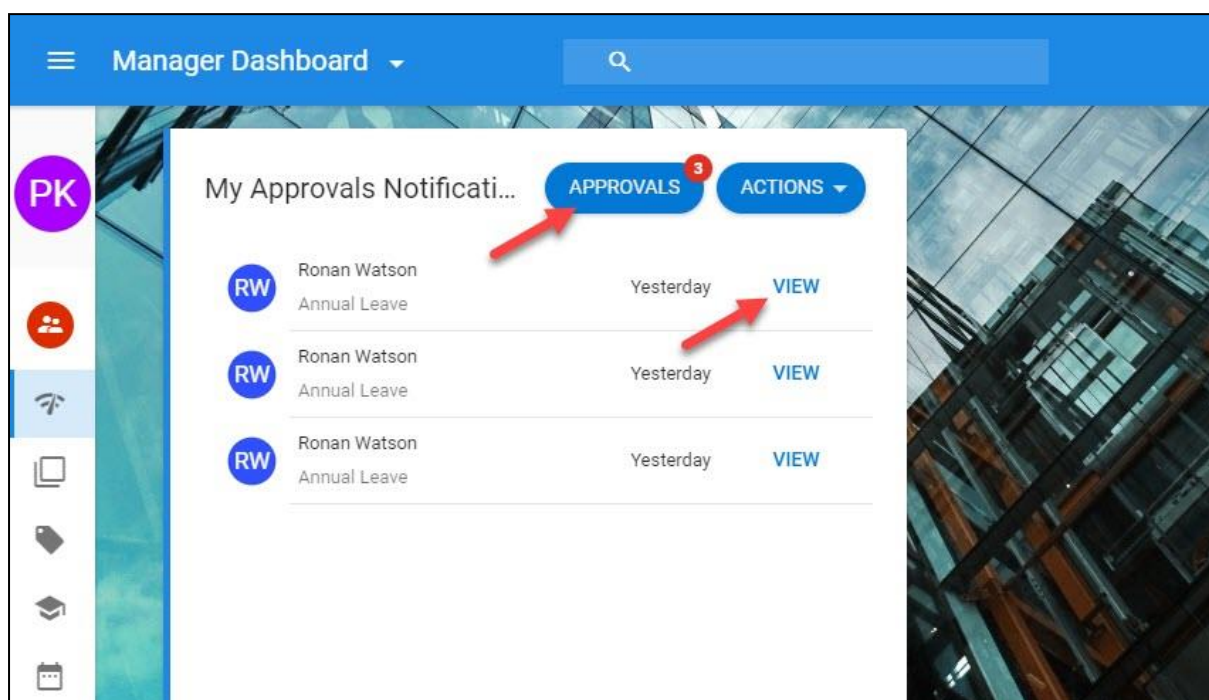

1. *Quick Jump to My Approvals Notifications.*

The *My Approvals Notifications* widget displays.

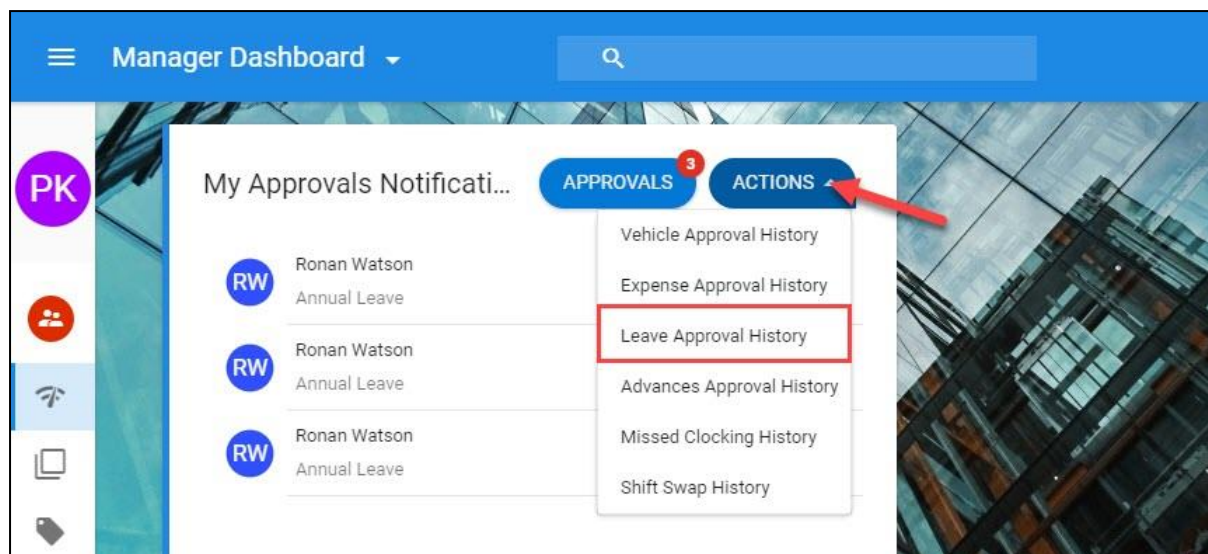

Actions continue to appear on this widget until they have been fully completed. For example, **Approved** and/or **Rejected**:

- Click the **Approvals** button to jump straight to the *My Approvals* screen, to view the full list of *Action* items. The counter on this button reflects the number of open action items, both read and unread.
- Click the **View** button on an applicable *Action* to open the *My Approvals* screen on that item, this allows you to complete the required actions. For example, **Approve** and/or **Reject**.

It is possible to view a *Leave Approval History* for items already completed. To do this:

1. Click the **Actions** button.
2. Select **Leave Approval History**.

The *Leave Approval History* screen displays.

This screen lists all your historic *Leave Requests Approvals*, and clearly shows their status.

By clicking the  button on an applicable *Leave Request*, it is possible to:

- **View Balances Details** for the employee.
- **View Narrative** for the applicable *Leave Request*.

The screenshot shows the 'Leave Approval History' screen. It has a breadcrumb trail: 'Manager Dashboard > Leave Approval History'. Below the title is a section 'Historic Leave Approvals' with a table. The table has columns: Employee, Appointment, Date Approved, Start Date, End Date, Leave Type, Duration, Documentation, and Status. There are six rows of data for Peter King. The 'Status' column shows 'Unprocessed' and 'Approved'. A red arrow points to the 'More options' button (three dots) in the 'Status' column of the second row. A red box highlights the 'View Balance Details' and 'View Narrative' options in the dropdown menu.

Employee	Appointment	Date Approved	Start Date	End Date	Leave Type	Duration	Documentation	Status
Peter King		N/A	10-Jul-2017	14-Jul-2017	Annual Leave	5	Not Recie...	Unprocessed
Peter King		10-Jul-2017	10-Jul-2017	14-Jul-2017	Annual Leave	5	Not Recie...	Approved
Peter King		N/A	10-Jul-2017	14-Jul-2017	Annual Leave	5	Not Recie...	Unprocessed
Peter King		10-Jul-2017	22-Jun-2017	22-Jun-2017	Sick Leave	1	Not Recie...	Approved
Peter King		10-Jul-2017	22-Jun-2017	22-Jun-2017	Sick Leave	1	Not Recie...	Approved
Peter King		10-Jul-2017	22-Jun-2017	22-Jun-2017	Sick Leave	1	Not Recie...	Approved

4.1.3. Approving / Rejecting Leave Requests - My Approvals Screen

It is possible to **Approve** and/or **Reject** *Leave Requests* via the *My Approvals* screen. This screen is accessible from the *Notification – Actions*, and the *My Approvals Notifications* widget. For detailed overviews of each, view the sections outlined below:

- 4.1.1. [Notification Centre Overview](#)
- 4.1.2. [My Approvals Notifications Widget Overview](#)

To **Approve** or **Reject** a *Leave Request*, on the *My Approvals* screen:

1. Click the **Actions** tab.
2. Select the applicable **Leave Request**.

Details for the *Annual Leave* request are displayed on screen for review.

In this example, a notice is displayed on screen indicating that 'Events occur on this date'.

If this *Leave Request* was an *Overlapping Leave Request* a notice would also display. For further information view the [Overlapping Leave Requests and Absences](#) training material on CoreHR University.

The screenshot displays the 'My Approvals' screen within the 'Manager Dashboard'. The left sidebar shows a list of leave requests for 'Ronan Watson' under the 'Actions' tab, which has a red notification badge with the number '3'. The selected request is 'Annual Leave' from 'Yesterday' at '15:31'. The main content area shows the details of this request, including the user's profile (Ronan Watson, ID 000037), the request type ('Annual Leave'), duration ('1 Day(s)'), and date ('Thursday, 28 Feb 2019'). A yellow banner indicates 'Events occur on this date'. At the bottom, there is a checkbox for confirmation and two buttons: 'REJECT' (red) and 'APPROVE' (green).

To view additional information regarding the *Leave Request*.

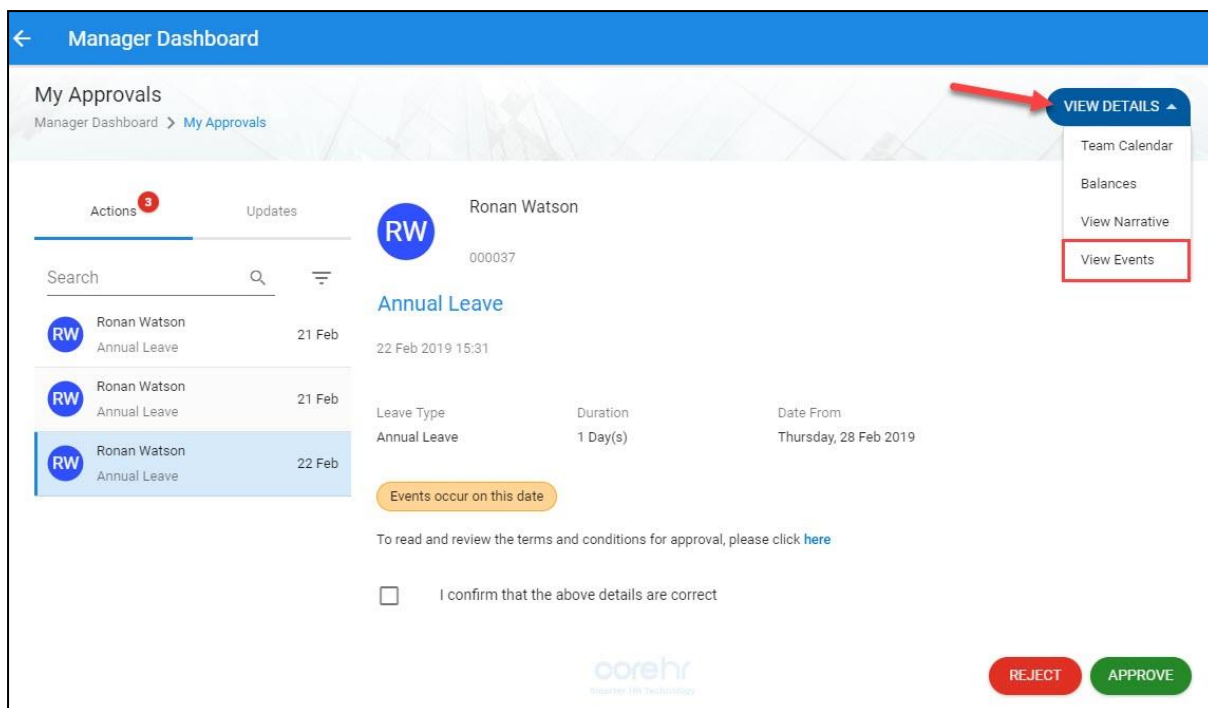

3. Click the **View Details** button.

Here it is possible to view the:

- Team Calendar
- Balances
- Narrative
- Events

In this example, the *Events* are viewed.

4. Select **View Events**.

4.4. MSS User Access

The below table outlines the *Menu Options*, applicable to *Manager Self Service*, that can be added to the relevant *Menu Profile*.

System Type	Menu Options	Explanation
CorePortal	CorePortal - Notification Actions Tab	Allows managers to see the <i>Notifications Actions</i> tab.
CorePortal	Widget - Manager - My Approvals Manager Toolbox - My Approvals menu option	Allows managers to see the <i>My Approvals</i> screen.
CorePortal	CorePortal Leave Request Approval	Allows managers to complete <i>Leave Request</i> approval/rejection.
CorePortal	Events - Event Diary	Allows managers to see the <i>Events Diary</i> screen.
CorePortal	COREPORTAL - MANAGER VIEW TEAM BALANCE	Allows managers to view <i>Team Balances</i> .
CorePortal	Manager Toolbox - Team Scheduler	Allows managers to see the <i>Team Scheduler</i> screen.
CorePortal	Core Portal - Manager Person Absence Screen	Allows managers to see the <i>Person Absences</i> screen.
CoreTime / CoreRoster	TIME MGT - RECORD ABSENCE DETAILS	Allows managers to <i>Record Absences</i> for employees.

5. Balance Management Configuration

5.1. Balance Type Driving Parameters

5.1.1. Variation 1: Auto Derived Entitlement

This *Balance Type* is driven from the *Calculate Entitlement Based On Position History* indicator on the *Balance Parameters* screen.

To view this screen:

1. Go to *Backoffice > CoreTime > System Params > Balances > Parameters*.

5.1.2. Variation 2: Maintain Only Balance

This *Balance Type* is driven from the *Maintain Balance Only* indicator on the *Balance Parameters* screen.

To view this screen:

1. Go to *BackOffice > CoreTime > System Params > Balances > Parameters*.

5.1.3. Variation 3: Other Balances

This *Balance Type* is driven from the *Personal Calendar – Start On* 'User Specified Dates' option, on the *Balance Parameters* screen.

To view this screen:

1. Go to *Backoffice > CoreTime > System Params > Balances > Parameters*.

5.2. Balance Management User Access

All employee-level *Balance Management* options are controlled by their own *Menu Option*. These *Menu Options* are located under the *People Management - System Type*.

To allow *Balance Management*, the below *Menu Options* must be added to the applicable *Menu Profile*.

System Type	Menu Option	Explanation
People Management	Balance View	Turns on/off the <i>Balance Tile</i> on the <i>Employee Dashboard</i> .
People Management	Assign New Balance	Turns on the option to <i>Assign New Balance</i> on the ellipse menu.
People Management	Balance Adjustment	Turns on the option to <i>Balance Adjustment</i> on the ellipse menu.

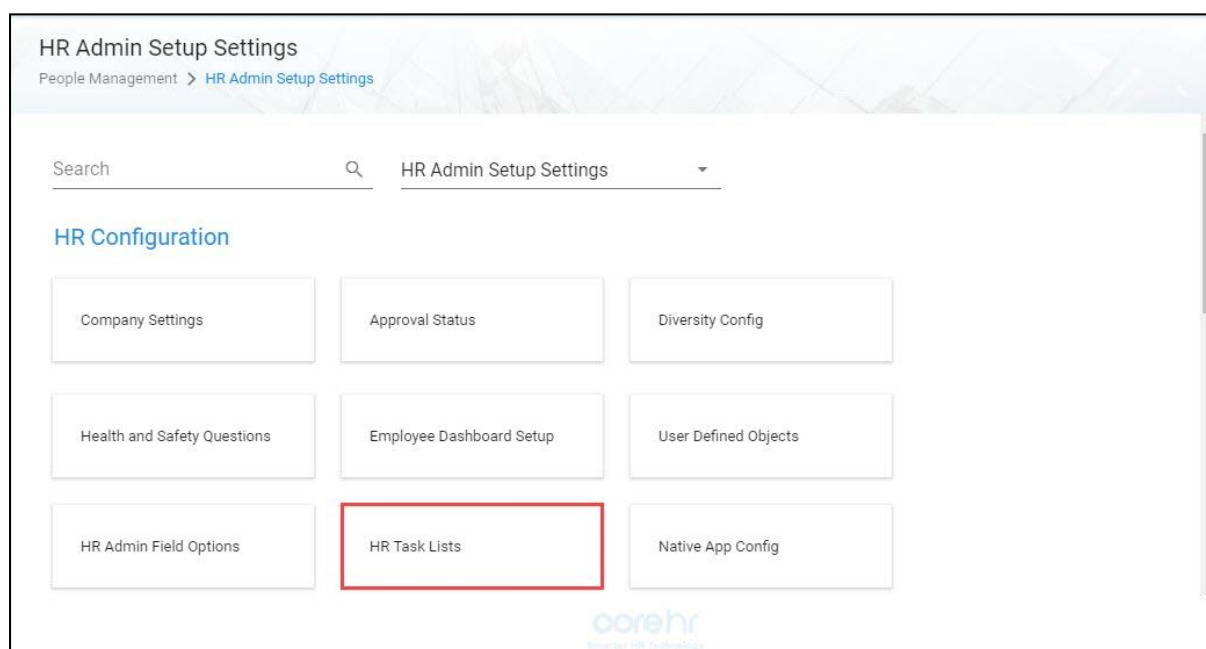

System Type	Menu Option	Explanation
People Management	Balance Entitlement Basis	Turns on the option to view <i>Entitlement Basis</i> on the ellipse menu.
People Management	Balance Recalculate	Turns on the option to <i>Recalculate</i> on the ellipse menu.
People Management	Balance Edit Setup	Turns on the option to <i>Edit Setup</i> on the ellipse menu.
People Management	Balance Deactivate	Turns on the option to <i>De-activate</i> an active balance option on the ellipse menu. Only available for active balances.
People Management	Balance Delete	Turns on the option to <i>Delete</i> on the ellipse menu.
People Management	Balance Activate	Turns on the option to <i>Re-activate</i> an inactive balance. Only available in the balance ellipse menu for inactive balances.

5.3. HR Process Task List

5.3.1. Setup a HR Task List

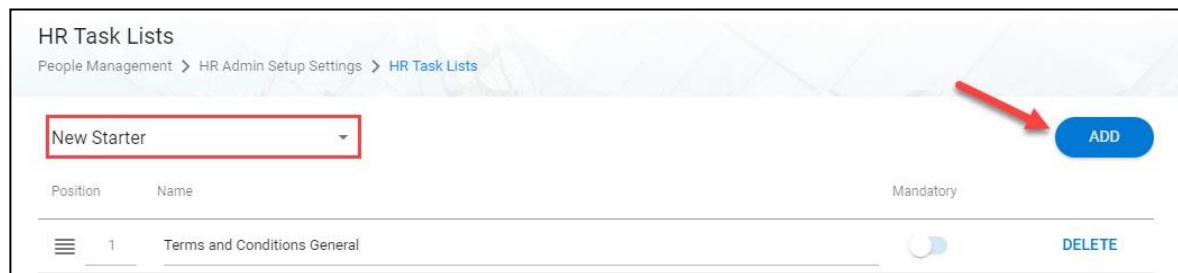

To setup *HR Process Task Lists*:

1. *Quick Jump to Data Centre.*
2. Select **Open HR Admin Setup Settings.**
3. Click **HR Task Lists.**

4. Select a *Process* from the drop-down list at the top of the page.
 - **New Starter** – Task is available on completion of the 'New Starter' wizard.
 - **Re-hire** - Task is available on completion of the 'Rehire Employee' wizard.
 - **New Contract** - Task is available on completion of the 'New Contract' wizard.This does not apply to the 'Additional Contract' wizard.

5. Click **Add**.

Balance column on Roster Details	cp_roster_show_col_bal	Displays the Balance column on the Roster Details screen.
My Team Balance view	team_bal_max_columns	The maximum number of columns allowed to be used on the My Team Balance view.
Working Time Directive on My Balance Enquiry	cp_bradfordwtd_balenq	Option to turn on/off get Bradford Working Time Directive on My Balance Enquiry

6. Leave Request Configuration

6.1. Enabling Leave Request Functionality

The following prerequisites are required for the *Leave Requests* feature to be functional on *CorePortal*:

- [ESS & MSS user access](#)
- [Organisational Roles & System parameters defined](#)

6.1.1. Employee & Manager Prerequisites

The table below outlines the requirements for ESS and MSS users for the *Leave Requests* feature to be functional on *CorePortal*.

User Type	Requirements
ESS	• The employee must have an active <i>CorePortal</i> account. • The employee must have access to the leave <i>Pay Code</i>. For example, <i>Annual Leave</i>. • The <i>Pay Code</i> parameter to Display on Co-Workers Roster is configured for the relevant <i>Pay Code</i>. (Optional) • The employee can view their <i>Balance/Entitlements</i>. • The employee has the required <i>Balance/Entitlements</i> remaining.
MSS	• The manager must have an active <i>CorePortal</i> account. • The manager must have access to the employee(s) within a <i>Work Group</i>. • The employee(s) within the manager's remit: ○ Can successfully submit <i>Leave Requests</i>. ○ Have an active <i>Balance</i> assigned to their record.

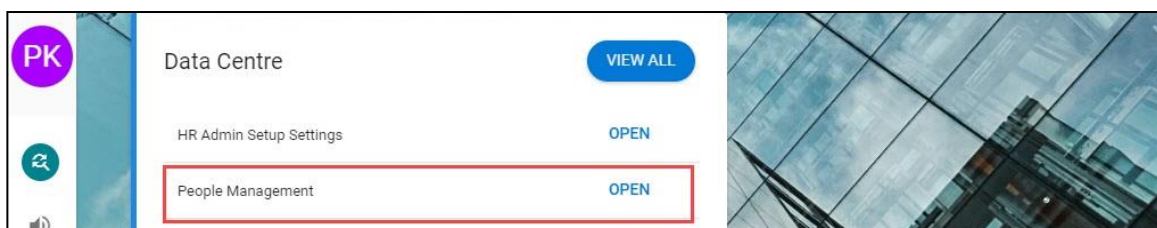

6.1.2. Organisation Roles & System Parameter Prerequisites

The applicable manager must have access to the employee(s) within a *Work Group*. Therefore, *Organisational Roles* must be assigned. The *Organisational Role* and the *Organisation Group* must then also be specified on *System Parameters* for *Leave Requests*.

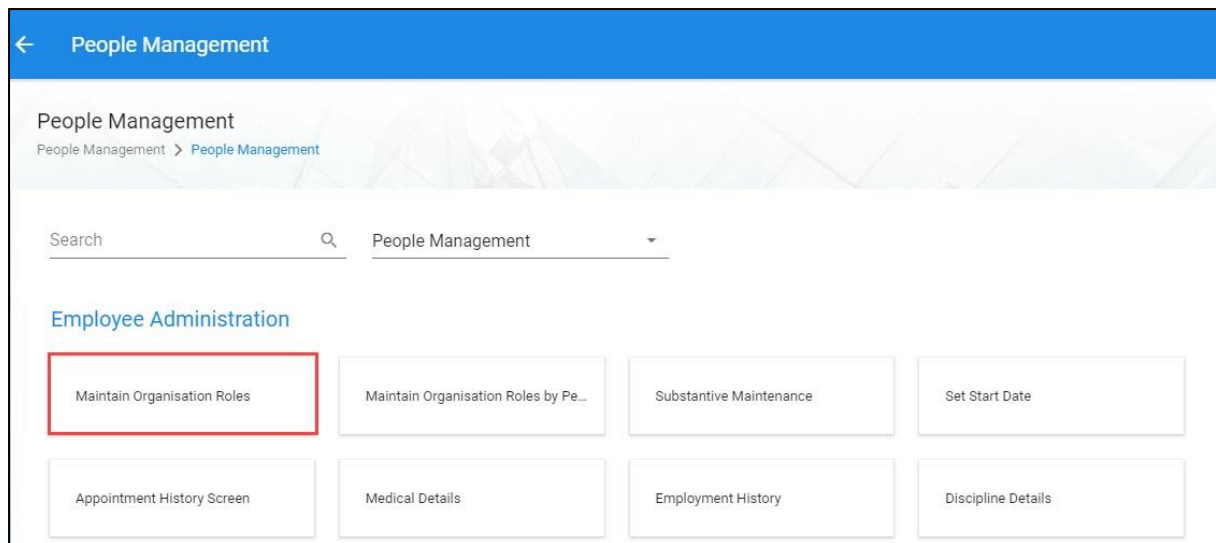

Assigning Organisational Roles

To assign a role to a manager/administrator via the *Maintain Org Roles* screen:

1. *Quick Jump to Data Centre*.
2. **Open People Management**.

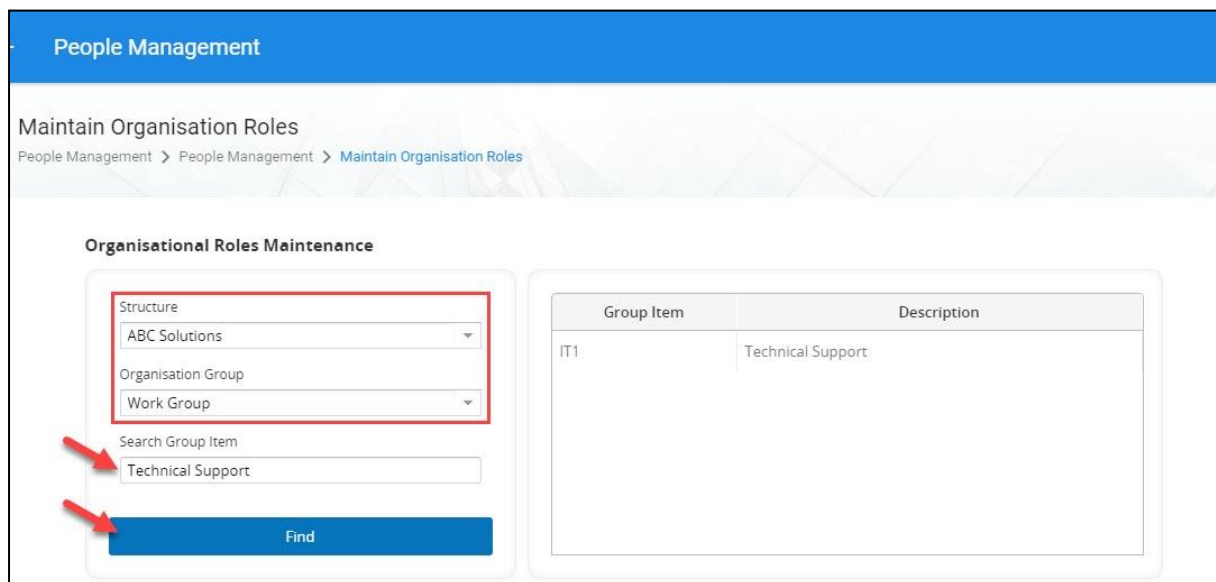

3. Select **Maintain Organisation Roles**.

The screenshot shows the 'People Management' interface. Under the 'Employee Administration' section, there are several buttons. The 'Maintain Organisation Roles' button is highlighted with a red rectangular box.

4. Select the required Org Structure from the *Structure* drop-down list.
5. Select the *Organisational Group* that the role is defined against.
In this example, the *Organisational Group* is **Work Group** for the **Reports to Manager Role**.
The *Group Item* list updates to display all items currently defined on the system, for the group.
6. Use the *Search Group Item* field and the **Find** button to do a keyword search.
This is based on the *Group Item* and *Description*.

The screenshot shows the 'Maintain Organisation Roles' interface. The 'Organisational Roles Maintenance' section contains a form with the following elements:

- Structure** dropdown menu: Set to 'ABC Solutions'.
- Organisation Group** dropdown menu: Set to 'Work Group'.
- Search Group Item** text field: Contains 'Technical Support'.
- Find** button: A blue button with the text 'Find'.

Red arrows point to the 'Search Group Item' field and the 'Find' button. To the right of the form is a table showing the results of the search:

Group Item	Description
IT1	Technical Support

7. Select the required level from the *Group Item* list.
In this example, 'IT1' is selected.
8. Click the **Add** button at the end of the screen to create a new row.

9. Select the Org Role from the *Role* drop-down list.
10. Enter a *Date From*.
11. Enter a *Date To*, if applicable.
12. Enter the *Personnel Number*.
13. Click **Save**.

This successfully grants *CorePortal* manager access to the relevant employees/teams.

In this example, the *Organisational Group* is **Work Group** for the **Reports to Manager Role**.

Maintain Organisation Roles
People Management > People Management > Maintain Organisation Roles

Organisational Roles Maintenance

Structure: ABC Solutions
Organisation Group: Work Group
Search Group Item: Technical Support
Find

Group Item	Description
IT1	Technical Support

☒ Person Notification ☐ Email Notification

Role	Date From	Date To	Personnel Number	Forename	Surname	Interfaced
Reports To Manager	15-Mar-2015		000032	Peter	King	☐

Cancel **Add** **Save**

For full training on *Organisational Roles*, view the [Organisational Roles Configuration Guide](#), on CoreHR University.

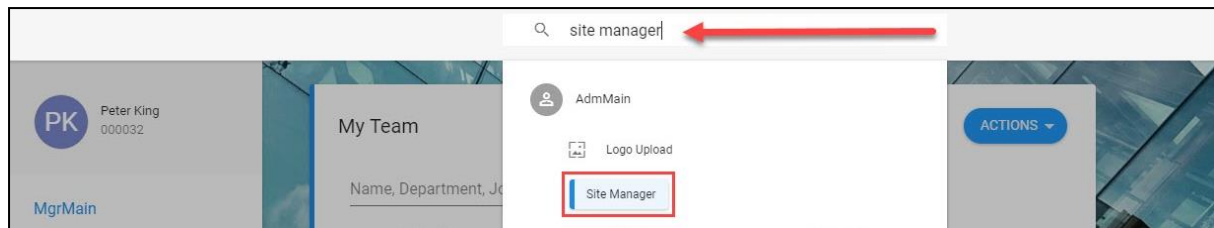

Define System Parameters

Using the above *Organisational Role* example, where the *Organisational Group* is **Work Group** for the **Reports to Manager Role**. The following System Parameters must be defined:

Parameter Description	Parameter	Explanation
Approval Role Name for Leave Request	cp_time_app_l_role_name	This must be specified to reflect the <i>Organisational Group</i> . For example: WRKGRP (Work Group)
Approval Role TYPE for Leave Request	cp_time_app_l_role_type	This must be specified to reflect the <i>Organisational Role</i> . For example: MGRESS (Reports To Manager)

To edit a *System Parameter*:

1. *Quick Jump to Site Manager.*

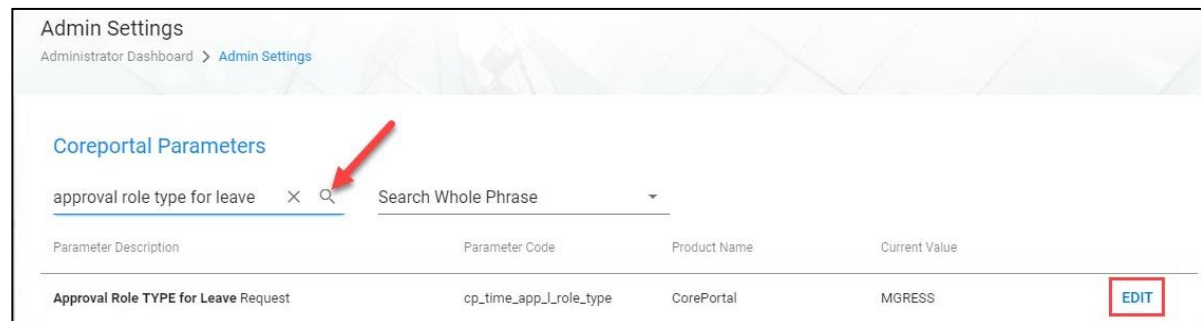

2. Click to open **Admin Settings**.

3. Search for the applicable *Parameter Description*.
The parameter displays on screen for review.

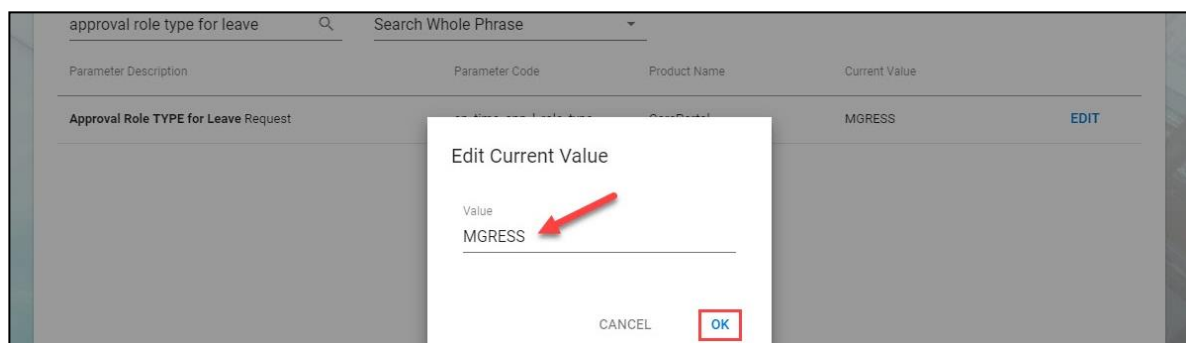

4. Click **Edit**.

5. Set the *Current Value*.

6. Click **OK**.

The *System Parameter* is now updated.

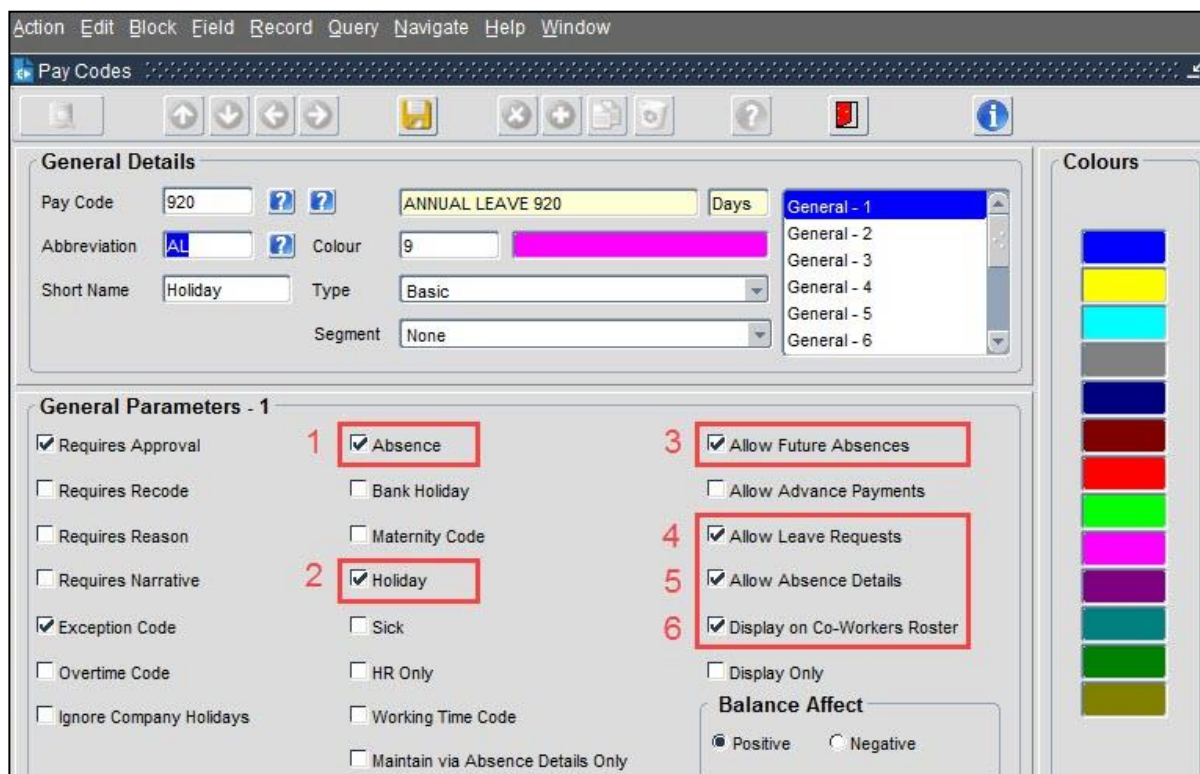

6.2. Leave Request/Absence Pay Code Setup

To set a *Pay Code* as *Absence*:

1. Go to *Backoffice > CoreTime/CoreRoster > System Params > Pay Codes*.
2. Enter the applicable *Pay Code*, then tab.

The below screenshot and corresponding table detail the applicable indicators on this screen.

3. Once complete, click the  button to save.

Indicator	Explanation
1	Absence Tick on to indicate that this is an <i>Absence</i> code. Can be ticked for all absence Pay Codes, for example, Annual Leave, Sick Leave etc.
2	Holiday Tick on to indicate that this is a <i>Holiday</i> code. Should only be ticked for holiday Pay Codes, such as Annual Leave. i.e not for Sick Leave.
3	Allow Future Absences Tick on to allow this code to be used to book a future absence.
4	Allow Leave Requests Tick on to allow this code to be used to make a <i>Leave Request</i> .
5	Allow Absence Details Tick on to allow this code to be used to <i>Record Absence Details</i> . This allows managers to select this code when inputting absence for employees.
6	Display on Co-Workers Roster Tick on to allow this code to be viewed on <i>Co-Workers Roster</i> . This allows employees to view colleague absences.

6.3. Leave Request - System Parameter References

6.3.1. Leave Request – General System Parameters

The *Leave Request System Parameters* outlined in the below table can be updated depending on your *Leave Request* configuration requirements.

Parameter Description	Parameter
Allow user to input ESS Leave Requests in Hours and Minutes.	ct_leave_req_hours
Maximum Hours for ESS Leave Requests in Hours and Minutes.	ct_leave_req_maxhours
Maximum Mins for ESS Leave Requests in Hours and Minutes.	ct_leave_req_maxmins
Increment in Minutes for drop down list for ESS Leave Requests in Hours and Minutes.	ct_leave_req_incr_mins
Message to display on Leave Request screen	ct_leavereq_msg
Standard Time Approver logic (as opposed to Organizational Roles based approver logic) for TouchScreen Leave Requests.	ct_touch_time_app_logic
Check leave requests have not exceeded booked limit for the paycode for that time.	ct_check_booked_limit
Leave Request: Switch on AJAX validation	ct_lr_ajax
Leave Request: Switch on 1/4 day option	ct_lr_show_1q
Leave Request: Switch on 1/2 day option	ct_lr_show_2q
Leave Request: Switch on 3/4 day option	ct_lr_show_3q
Approval Role Name for Leave Request	cp_time_app_l_role_name
Approval Role TYPE for Leave Request	cp_time_app_l_role_type
Turning Administration Access on for Leave Requests allows you to see all Leave Requests in your area rather than just those submitted directly to you.	ct_admin_explain_msg
Allow managers to approve their own leave requests on the Leave Request approval screen.	ct_leavereq_mgr_app_own
Use Appointment IDs on Leave Requests.	cp_appt_on_lr
The number of days to be added from the start date of the Leave Request when showing Appointments.	cp_appt_lr_date_add
Parameterisation of edit and delete button on Leave Request Screen	cp_leave_req_func
Flexbenefit email subject sent to employee when annual leave request has been rejected.	fb_al_rejempsub
Option to turn on/off get Bradford Working Time Directive from Balances on Create Leave Request screen	cp_bradfordwtd_on_lr
Flexbenefit email body sent to employee when annual leave request has been rejected.	fb_al_rejemphbody

Parameter Description	Parameter
Hide Admin on Leave Request History Screen.	cp_hide_lvrq_admin_btn
Indicator to allow approval of Confirmed Future Leave Requests	approve_cf_leave_request

Team Scheduler - Display leave requests by default (on/off)	sch_default_leave_req
Do not show Protected Leave in the pay code drop-down list used for creating Leave Requests.	cp_hide_prot_leave_days
Do not show Protected Leave request in the My Requests widget on the Employee Dashboard.	cp_hide_prot_leave_reqs
Do not send manager notifications for Protected Leave requests.	cp_mgr_nonotify_prot_lrs
Leave Request Staff Shortage Error Message	ct_lr_error10
My Approvals Widget - Hide checkbox for Leave Requests	cp_hide_lr_app_checkbox
Parameterisation of edit on Leave Request Screen	cp_leave_req_edit
Parameterisation of delete button on Leave Request Screen	cp_leave_req_delete
If set to Y this will show the narrative button for requests.	cp_show_narrative_button
Switch on/off changes to comments field	ct_new_cmnts_field

6.3.2. Leave Request – Error Message System Parameters

The *Leave Request System Parameters* outlined in the below table can be updated depending on your *Leave Request – Error Message* configuration requirements.

Parameter Description	Parameter
Leave Request Part Day Error Message - quarter	ct_lr_error3
Leave Request Part Day Error Message - half	ct_lr_error4
Leave Request Part Day Error Message - full	ct_lr_error5
Leave Request Error Message - in period limit	ct_lr_error6
Leave Request Error Message - booked limit	ct_lr_error7
Leave Request Error Message - no balance	ct_lr_error8
Leave Request Error Message	ct_lr_error9
Leave Request Entitlement Error Message	ct_lr_error1
Leave Request Part Day Error Message	ct_lr_error2
Leave Request Error: Leave Type	ct_lre_1
Leave Request Error: Start Date Mandatory	ct_lre_2
Leave Request Error: Start Date Invalid	ct_lre_3
Leave Request Error: Start Date Too Far In Past	ct_lre_4
Leave Request Error: No part day segment selected	ct_lre_5
Leave Request Error: 0hrs0mins not allowed	ct_lre_6
Leave Request Error: End date mandatory	ct_lre_7

Parameter Description	Parameter
Leave Request Error: End date invalid	ct_lre_8
Leave Request Error: End date less than or equal to start date	ct_lre_9
Leave Request Error: Comments are mandatory for selected leave type	ct_lre_10
Leave Request Error: No approver selected	ct_lre_11
Leave Request Error: Pay in advance is mandatory	ct_lre_12
Leave Request Error: Agreement checkbox not ticked	ct_lre_13
Leave Request Error: Warnings encountered	ct_lre_14
Leave Request Error: Part day leave indicator	ct_lre_15

6.3.3. Leave Request – Label System Parameters

The *Leave Request System Parameters* outlined in the below table can be updated depending on your *Leave Request – Label* configuration requirements.

Parameter Description	Parameter
Leave Request: Is this part day leave label	ct_lr_pdl
Leave Request: Time of day label	ct_lr_ampm
Leave Request: Description for A.M. Option (Morning)	ct_lr_am
Leave Request: Part Day Segments label	ct_lr_seg
Leave Request: How Many Hours label	ct_lr_hrs
Leave Request: How Many Mins label	ct_lr_mins
Leave Request: Start Date label	ct_lr_stdtd
Leave Request: End Date label	ct_lr_endtd
Leave Request: Number of days label	ct_lr_ndys
Leave Request: Pay in advance label	ct_lr_pia
Leave Request: To Be Approved By label	ct_lr_tba
Leave Request: Leave Type (Pay Code) label	ct_lr_lt
Leave Request: Comments label	ct_lr_cmt
Leave Request: Supporting docs label	ct_lr_pr
Leave Request: I agree label	ct_lr_agr
Leave Request: Please select label	ct_lr_ps
