1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide detailed guidance on the *Diversity Config* option that is available on the *HR Admin Setup Settings* tab on the *People Management* dashboard.

1.2. What is 'Diversity Config'?

The *Diversity Config* feature provides the option to configure the elements that are displayed on the *Background* and *Disability* screens on the Personnel Information screen i.e.

The screenshot displays the 'Diversity Config' interface. On the left, a sidebar contains a tree view with categories: EMPLOYEE DETAIL, DIVERSITY (expanded), TIME MANAGEMENT, PAYROLL, and LEARNING AND DEVELOPMENT. Under 'DIVERSITY', 'Background' is selected and highlighted in blue, with 'Disability' listed below it. The main content area is titled 'Background' and 'Personal Details'. It contains several dropdown menus and text fields: 'Gender' (set to 'Female'), 'Gender Identity' (set to 'Female'), 'Sexual Orientation' (empty dropdown), 'Date Of Birth' (set to '19-Oct-1973' with a calendar icon), 'Ethnic Origin' (empty dropdown), 'Nationality' (set to 'British'), 'Citizenship' (empty dropdown), and 'National Identity 1' (empty dropdown). At the bottom right, there is a green 'SAVE' button. The 'corehr' logo is visible at the bottom center.

For each field displayed, it is also possible to control whether that field is view only or if it can be edited.

This configuration is a global setting and changes made here will apply to all users of CorePortal who access the *Employee Profile > Diversity* screens via:

- *Employee Dashboard > My Profile*
- *Manager Dashboard > My Team > Employee > View Profile*

Note: these changes do not update the hr administrator's view of these fields. All fields will be available and updateable as standard on these screens when accessed via the People Management dashboard. Changes only apply to the Employee & Manager view of the Employee Profile screen.

If hr administration tasks have been devolved to the manager via the Manager Dashboard and a manager has access to the employee record for their team, then they will have full unrestricted access to all these fields on the *Personal Information* screen, as per the hr administrator.

1.3. Field Options Available

The following options are available to configure for the sections and fields on the diversity *Background* and *Disability* screens.

Option	Description
View Only	The field or section is displayed on screen.
Hide	The field or section is not displayed on screen.
Update	The field is displayed on screen and is editable.

It is only possible to enable one option at a time for a field / section i.e.

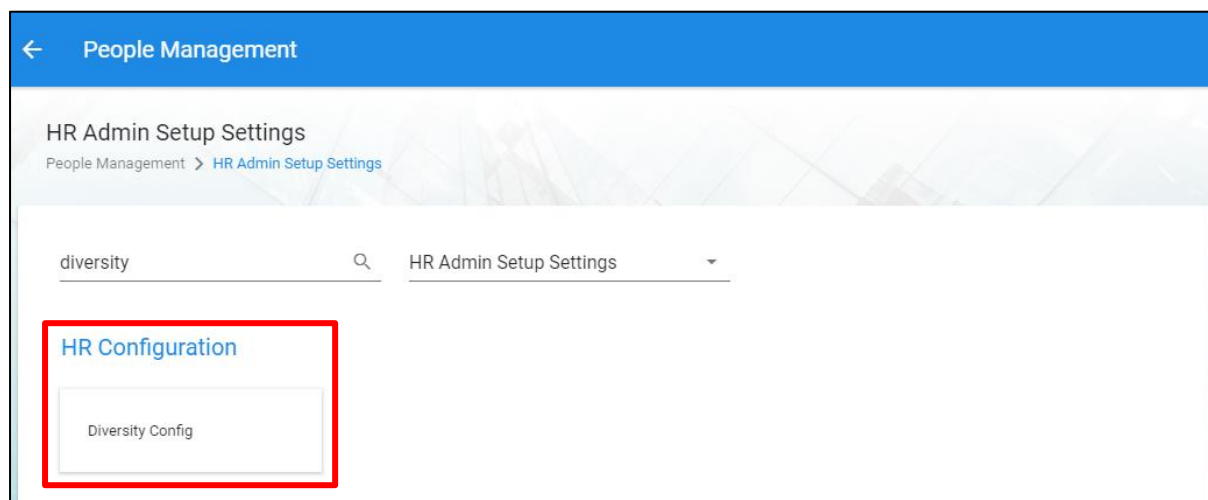

- a section is either *Display OR Hidden*
- a field is either *View Only OR Hidden OR Update*

The enabled option is highlighted in blue and a description will display to the right of the option.

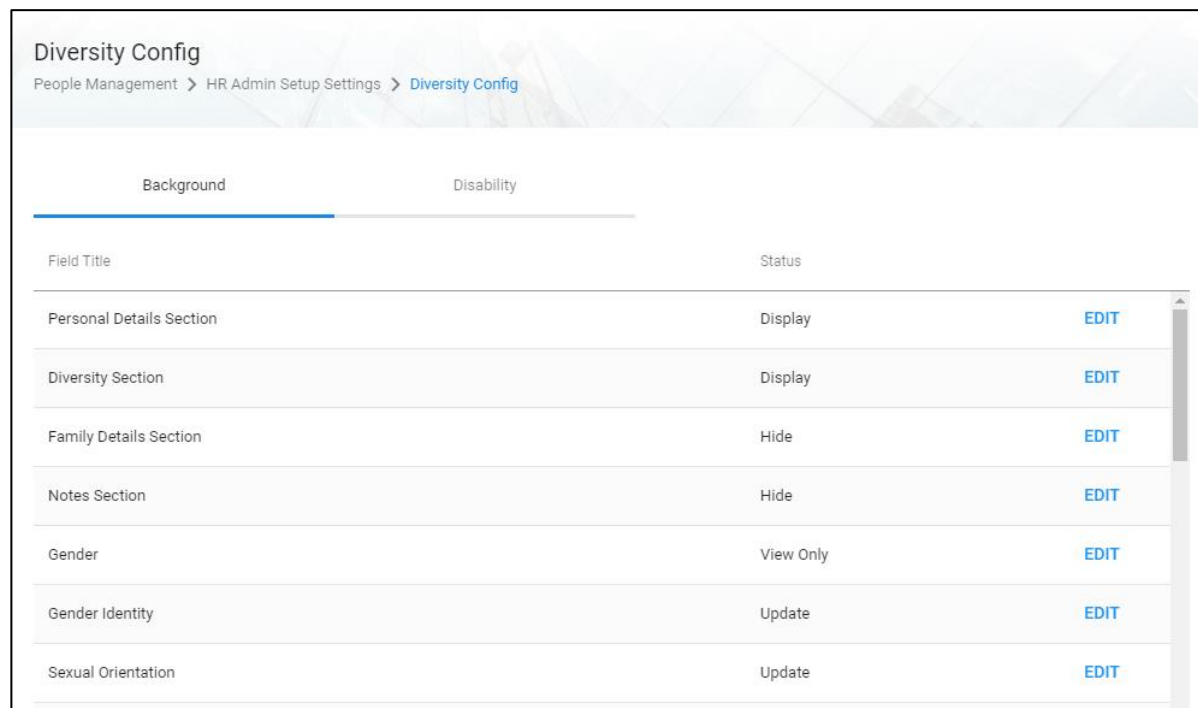

2. Access to 'Diversity Config' Screen

To access the Diversity Config functionality:

1. In People Management, Choose the *Data Centre* tab.
2. Click **Open** at *HR Admin Setup Settings*.
3. Click *Diversity Config*.

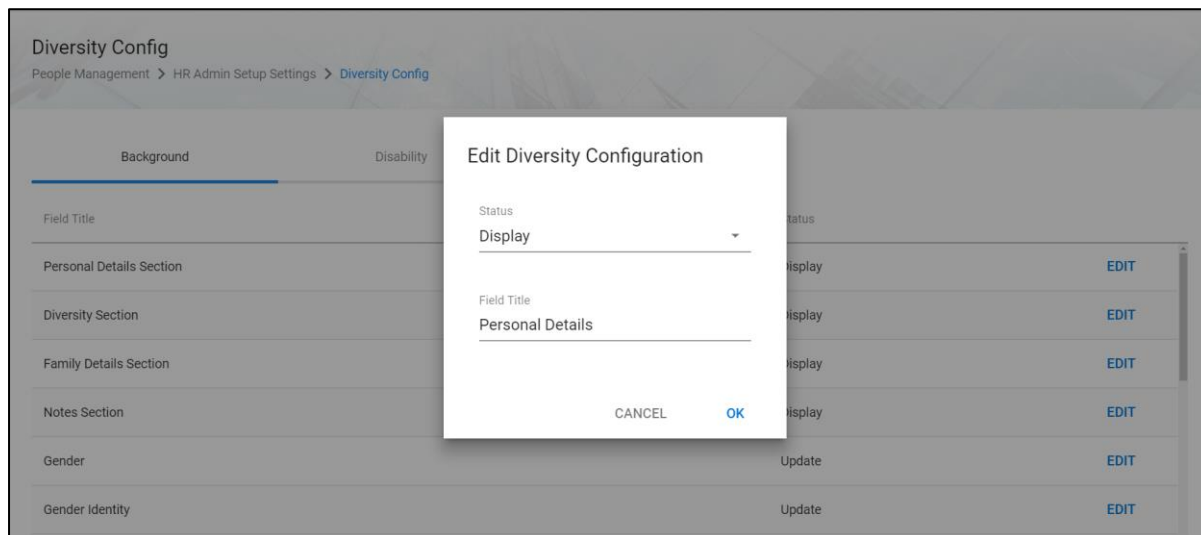

The *Diversity Config* pop up screen opens.

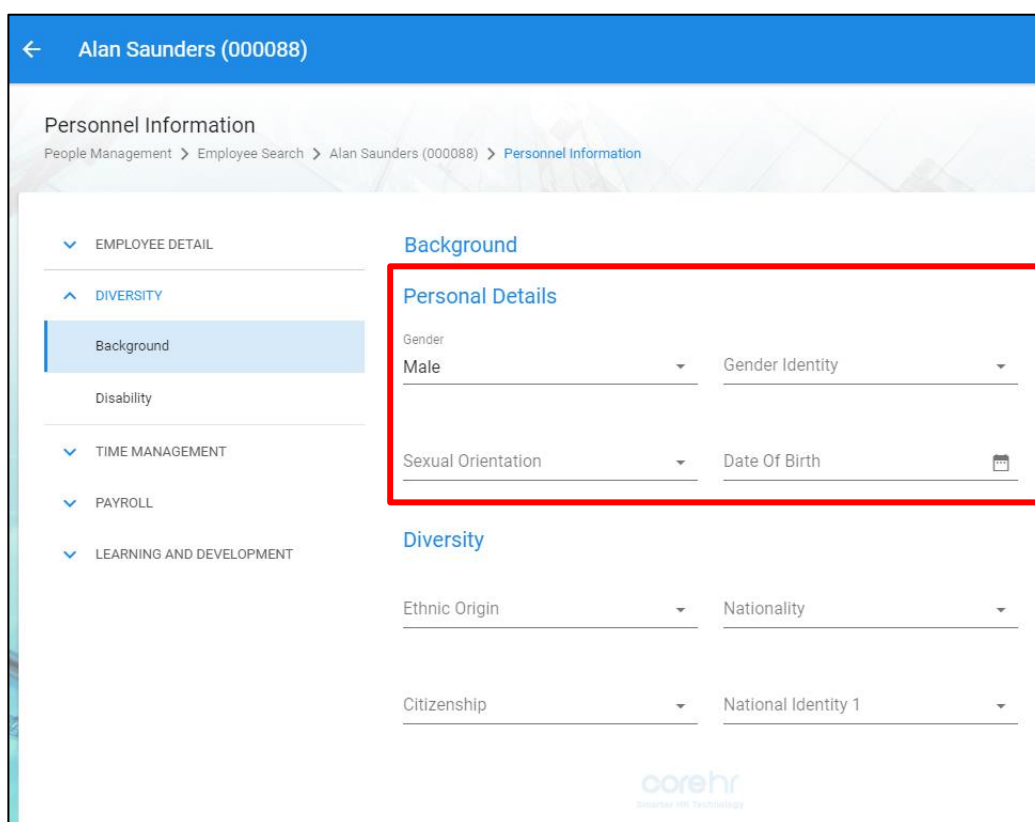

3. Diversity Config Options
