1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide detailed guidance on the how to configure the *Personal Information* screen.

This screen is used by hr administrators to access and amend some of the employee's personal details on CoreHR and is accessed by clicking the Actions button on the Employee's record.

Similar versions of this screen (in full or restricted view) may also be made available to the employee and their line manager as the *Employee Profile*, so that they too may view and amend these hr elements.

Note: Guidance provided is reflective only of the hr administrator's use of this screen. This does not cover the employee's or manager's use of the *Employee Profile* screen.

2. Access to 'Personal Information'

The following menu option is required to see the *Personnel Profile* option on the HR Employee Dashboard and access the corresponding pop up screen.

System	Menu Option
People Management	Personal Information View

3.1.1. Menu Options

The following menu options are required to view & update the next of kin details.

System	Menu Option	Description
People Management	Next of Kin View	Enables the <i>Next of Kin</i> option on the <i>Employee Detail</i> menu. User can view the data already captured for Next of Kin but cannot update this.
People Management	Next of Kin Update	User can view and update employee Next of Kin data. Makes the Save button available.

3.1.2. Allow Update of Next of Kin Address

There is an additional level of configuration required to control the update of the next of kin address. This is a global setting and controls the update of this feature for all users with update access to this screen.

This is managed in the CoreHR back office application:

1. Go to *CorePersonnel > Reference > Reference A-C > Address Type Codes*
2. Select button **New Address Type**

3. Tick on **Online Update** for the *Default Home Address*
4. Click the  button to save the changes.

3.1.3. Language Pack

All phrases are prefixed by “**cp_nok**”.

To update these:

1. Quick Jump to *Administrator Dashboard*
2. Click **Open** at *Language Pack* on *Site Manager*.
3. Search for *cp_nok*
 - All language pack elements will return on screen.
 - Ensure you select the relevant language e.g. English.
 - Click on the relevant Phrase Text
 - Update text

Changes are saved automatically.

3.2.1. Menu Options

The following menu options are required to view & update the contact & address details.

System	Menu Option	Description
People Management	Contact Information View	Enables the <i>Contacts</i> option on the <i>Employee Detail</i> menu. User can view the data already captured for Contact & Address data but cannot update this.
People Management	Contact Information Update	User can update employee Contact & Address data.  button will be available for all Contact Types. - The Add button is available. Click to Edit Address Details option will be available for the Address.

3.2.2. Reference Data

Each contact type displayed on screen here is a reference data item.

Please refer to the '**Employee Reference Data - Configuration Guide**' for details on how this reference data is managed.

3.2.3. Enable Map for Address Location

To enable the **View Map** for option on the address record:

1. Quick Jump to *Administrator Dashboard*
2. Click **Open** at *Language Pack* on *Site Manager*.
3. Search for parameter = *cp_myprofile_viewmap*
4. Update the parameter:
 - a. Y = **View Map** for option will display
 - b. N = **View Map** for option will not display
5. Save changes

The screenshot shows the 'EMPLOYEE DETAIL' sidebar on the left with 'Contacts' selected. The main content area has two sections: 'Contact Details' with fields for 'Other Email Address', 'Personal Mobile Number', and 'Salary User'; and 'My Address Details' which contains a table of address records. The table has columns for 'Address Type', 'Address', and 'Date Effective'. One record is shown: 'Default Home Address' with the address 'willow grove 34 blackpool Co. Cork Ireland' and 'Date Effective' '17-Jul-2...'. To the right of the table is an 'ADD' button. Below the table, there are two buttons: 'Edit Address Details' and 'View Map'. The 'View Map' button is highlighted with a red rectangle.

Note: Guidance provided is reflective only of the hr administrator's use of this screen. This does not cover the employee's or manager's use of the *Employee Profile* screen.

3.2.4. Language Pack

All phrases are prefixed by "**cp_contact**".

To update these:

1. Quick Jump to *Administrator Dashboard*
2. Click **Open** at *Language Pack* on *Site Manager*.
3. Search for *cp_contact*
 - o All language pack elements will return on screen
 - o Click on the relevant Phrase Text and update
4. Changes are saved automatically.

3.3.1. Menu Options

The following menu options are required to view & update the dependent details.

System	Menu Option	Description
People Management	Dependants View	Enables the <i>Dependants</i> option on the <i>Employee Detail</i> menu. User can view the data already captured for Dependents but cannot update this.
People Management	Dependants Update	User can view and update employee Dependent data. Add button will be available on screen Save button will be available on the Dependents pop up screen Delete option will be available on the  list

3.3.2. Reference Data

The following items available on this screen are reference data items:

- Country
- Nationality

Please refer to the **Employee Reference Data - Configuration Guide** for details on how this reference data is managed.

3.3.3. Make Fields Optional

The following fields are mandatory by default

- Date of Birth
- Country of Birth
- Relationship
- Nationality

To make these optional:

1. Quick Jump to *Administrator Dashboard*
2. Click **Open** at *Language Pack* on *Site Manager*.
3. Search for parameter = *cp_dependents_not_req*
4. Update parameter:
 - a. Y = Optional
 - b. N = Mandatory
5. Save changes

Name & Gender will always be mandatory.

Note: This is a global setting and will affect all users with access to this screen, including Managers and Employees.

3.3.4. Language Pack

All phrase codes include the text *dependant*. To update these:

1. Quick Jump to *Administrator Dashboard*
2. Click **Open** at *Language Pack* on *Site Manager*.
3. Search for *dependant*
 - All language pack elements will return on screen
 - Click on the relevant Phrase Text and update text

Changes are saved automatically

3.4. Bank Detail

3.4.1. Menu Options

The following menu options are required to view & update the employee's bank account details.

System	Menu Option	Description
People Management	Bank Details View	Makes the Account Type of <i>Pay</i> available to view on the Bank Detail screen.
People Management	Bank Details Update	Makes the View button available for the Account Type of <i>Pay</i> , to add / edit the main payroll bank account for the employee.
People Management	Bank Details Expense View	Makes the Account Type of <i>Expense</i> available to view on the Bank Detail screen. The employee must also be setup on Expense for this appear.
People Management	Bank Details Expense Update	Makes the View button available for the Account Type of <i>Expense</i> , to add / edit the expense bank account for the employee.

3.4.2. Display Building Society Reference Fields for 'Pay' Bank Account

There is a CorePortal parameter that controls the display of the *Building Society* fields on the *Bank Account Information* screen i.e.

The screenshot shows the 'Bank Account Information' screen. At the top, there is a section titled 'Bank Account Information' in blue. Below this, there are three input fields: 'Sort Code*' with the value 'A I B (930121)', 'Account Number', and 'Confirm Account Number'. Below these fields is a red rectangular box highlighting the 'Building Society Details' section. This section contains two input fields: 'Building Society Reference' and 'Confirm Building Society Reference'. Below the red box, there is a checkbox labeled 'I accept that saving will update my bank details.' At the bottom of the screen, there is a small text note: 'Set your Sort Code and Account Number details on this screen. Pressing the Save option updates your details immediately in Core.'

To display/hide these fields:

1. Quick jump to *Administrator Dashboard*.
2. Click **Open** at the *Admin Settings* on the *Site Manager* widget.
3. Search for parameter = *cp_ext_bank_buildsoc_ind*
4. Click **Edit** button.
5. Update the value:
 - a. Y = Display the fields
 - b. N = Hide the fields
6. Click **Ok**

3.4.3. Display Building Society Reference Fields for 'Expense' Bank Account

There is a CorePortal parameter that controls the display of the *Building Society* fields on the *Add Bank Details* screen for the Expense bank account.

To display/hide these fields:

1. Quick jump to *Administrator Dashboard*.
2. Click **Open** at the *Admin Settings* on the *Site Manager* widget.
3. Search for parameter = *ex_bank_bldg_ref*
4. Update the value:
 - a. Y = Display the fields
 - b. N = Hide the fields
5. Click **Ok**

3.4.4. Language Pack

Phrases are prefixed by “*cp_per_bank*” or “*cp_bank*” or include the text “*bank*”

To update these:

1. Quick jump to *Administrator Dashboard*.
2. At *Site Manager*, Click **Open** at *Language Pack*.
3. Search for *cp_per_bank* or *cp_bank* or *bank*
 - All language pack elements will return on screen
 - Click on the relevant Phrase Text and update
4. Changes are saved automatically

3.4.5. SEPA v Non-SEPA

The bank details screen can be configured to support sites that require bank details to be provided SEPA / non-SEPA format or both e.g.

- Non-SEPA only e.g. for UK sites
- SEPA only e.g. for ROI sites
- SEPA & non-SEPA sites

This configuration is managed by CoreHR during the implementation project. This is not configured by the client.

Each company that is set up for an organisation will be flagged as SEPA or non-SEPA to ensure that the bank account details screen request the required details and apply the appropriate validation.

This configuration is required for both Pay and Expense bank accounts.

4. Diversity

4.1. Background

4.1.1. Menu Options

The following menu options are required to view & update the *Diversity > Background* screen.

System	Menu Option	Description
People Management	Diversity View	Makes the <i>Background</i> option available on the <i>Diversity</i> Menu. Access to the corresponding screen is read only.
People Management	Diversity Update	Provides access to update/edit the fields on the <i>Background</i> screen. Save button is available at the end of the screen.

4.1.2. Reference Data

The following items available on this screen are reference data items:

- Gender Identity
- Sexual Orientation
- Ethnic Origin

The following menu options are required to access the *Training Details* option.

System	Menu Option	Description
People Management	Training Details View	Enables the display of the <i>Training Details</i> option under the <i>Learning & Development</i> menu. User can view the employee's training details.

7.6.2. Language Pack

All phrases include the text “**training**”.

To update these:

1. Quick Jump to *Administrator Dashboard*
2. Click **Open** at *Language Pack* on *Site Manager*.
3. Search for *training*
 - All language pack elements will return on screen
 - Ensure you select the relevant language e.g. English
 - Click on the relevant Phrase Text
 - Update text

Changes are saved automatically
