1. Introduction

The purpose of this guide is to provide instruction on how to change or amend an end date that has been applied to an employee's contract.

The examples provided in this document will specifically review how to change an end date that was applied when a person was made a leaver on CoreHR. However, the steps to amend/remove the date are the same to remove an end date applied to a contract via any other standard CoreHR process.

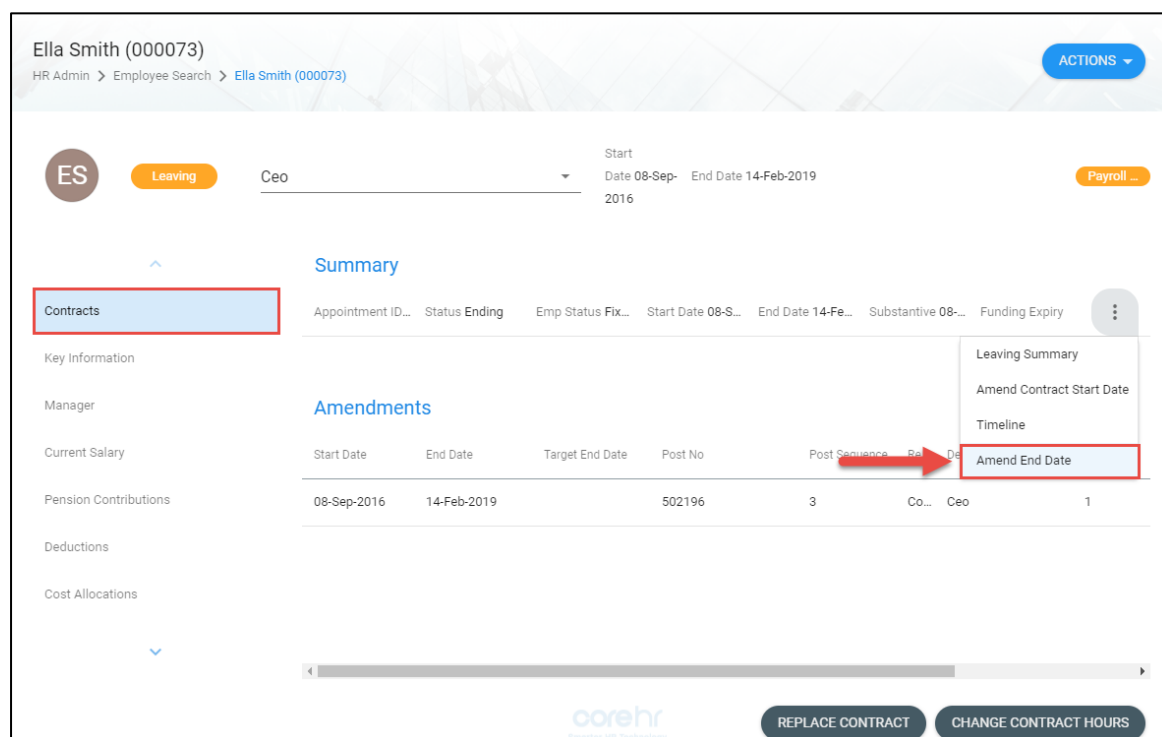

2. Changing / Amending End Dates

2.1. Change End Date for a Leaver

It is possible to amend the end date provided for a leaver in People Management. This is done by amending the end date for the employees last contract. This will amend their overall *End Date*.

To change an end date:

1. Search for the employee in the *Command Centre > Employee* screen.
2. Click the **View** button for the required employee.
3. In the *Summary* section, click on the  button and select *Amend End Date* for the relevant appointment.

The screenshot displays the 'Summary' section for employee Ella Smith (000073). The 'Contracts' tab is active. A dropdown menu is open, showing the 'Amend End Date' option highlighted. The 'Amendments' table shows a contract starting on 08-Sep-2016 and ending on 14-Feb-2019.

Start Date	End Date	Target End Date	Post No	Post Sequence	Re...	De
08-Sep-2016	14-Feb-2019		502196	3	Co...	Ceo

4. If the employee has multiple contracts or has had multiple contract amendments, ensure that the correct contract sequence is identified:
 - Appointment Status is *Ended / Ending*.
 - End Date is populated.
5. Select the option **Amend End Date**.
The *Modify Post Appointment End Date* screen opens.

6. Enter the new date in the format DD-Mon-YYYY.
7. Click **OK** to save.

Modify Post Appointment End Date

Person

Ella Smith

Pay Group

Monthly Payroll (Uk) (1)

Post Appointment Start Date

08-Sep-2016

Appointment Id

502196-3

☐ Remove End Date

Leave Date

14-Feb-2019

Completed Input Pay Period

n/a

Post Appointment End Date

14-Feb-2019

Substantive Date

08-SEP-2016

☒ Amend End Date

New Date Left

03-Jan-2019

OK

Cancel

**Note:**

This is only possible if the employee hasn't been processed as a leaver by Payroll.

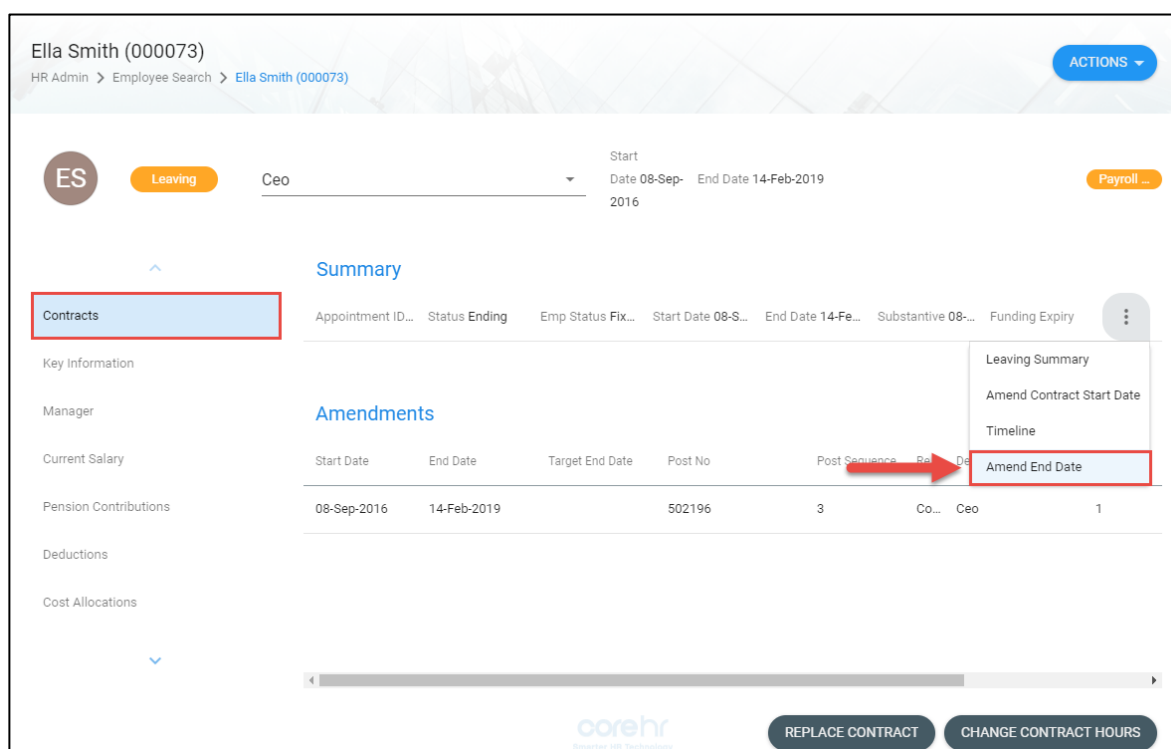

2.2. Remove End Date for a Leaver

It is possible to remove the end date provided for a leaver in People Management. This is done by amending the end date for the employee's last contract. This removes their overall *End Date* and returns that employee's record to 'Active' on CoreHR.

Note This is typically used to correct an employee's record that has been ended in error i.e. an *End Date* should never have been applied to the contract. This process should not be followed to rehire an employee.

To remove an end date:

1. Search for the employee in the *Command Centre > Employee* screen.
2. Click the **View** button for the required employee.
3. In the *Summary* section, click on the  button and select *Amend End Date* for the relevant appointment.

The screenshot shows the employee record for Ella Smith (000073). The 'Summary' section is active, displaying a table of appointments. The 'Contracts' tab is selected on the left. A dropdown menu is open for the 'Amend End Date' option, which is highlighted with a red box. A red arrow points to the 'Amend End Date' option in the dropdown menu.

Appointment ID...	Status Ending	Emp Status Fix...	Start Date 08-Sep-2016	End Date 14-Feb-2019	Substantive 08-Sep-2016	Funding Expiry
			08-Sep-2016	14-Feb-2019	502196	3

If the employee has multiple contracts or has had multiple contract amendments, ensure that the correct contract sequence is identified:

- Appointment Status is *Ended / Ending*.
- End Date is populated.

4. Select the option **Remove End Date**.

The *Modify Post Appointment End Date* screen opens.

5. Click **OK** to save.

The screenshot shows a web form titled "Modify Post Appointment End Date". The form contains several input fields and two radio buttons. The fields are arranged in two columns. The left column includes: "Person" (Ella Smith), "Pay Group" (Monthly Payroll (Uk) (1)), "Post Appointment Start Date" (08-Sep-2016), "Appointment Id" (502196-3), and "New Date Left" (empty). The right column includes: "Leave Date" (14-Feb-2019), "Completed Input Pay Period" (n/a), "Post Appointment End Date" (14-Feb-2019), and "Substantive Date" (08-SEP-2016). Below the fields are two radio buttons: "Remove End Date" (selected) and "Amend End Date". At the bottom right of the form are two buttons: "OK" and "Cancel".

- The end date is removed, and the employee's contract is no longer *Ended*.
- The employee will no longer be processed as a leaver. Both their employee record and contract records are active again on People Management.

Note:

This is only possible if the employee hasn't been processed as a leaver by Payroll.
