Document Control

Version	Date	Author	Details
1.0	16 th Dec 2019	Peter Travers	Published to CoreHR University

1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide detailed guidance on the *Files* section of the HR employee record.

This screen is used by hr administrators to upload and view documents for the employee and their associated contracts.

It is also possible for the hr administrator to view documents that have been uploaded:

- By the employee on their *My Profile* screen.
- By the manager via the employee profile OR via the *Files* screen if People Management options have been devolved to the manager.
- Automatically as part of the *Document and Email Generation* feature.

1.2. Files Explained

1.2.1. How are Files Uploaded?

The *Files* feature in People Management is used to manage documentation associated with an employee's record.

Files may be linked to an employee's record in a number of ways:

- Directly uploaded by the hr administrator on **People Management > Files** screen.
- Generated by the system and automatically uploaded by the **Generate Document** feature on CoreHR.
- Uploaded by the employee via the **My Profile > Documents** screen.
- Uploaded by the manager via the **Employee Profile > Documents** screen OR as per the hr administrator (if hr tasks have been devolved to managers).

1.2.2. Who can View Files?

CoreHR can be configured to provide a variety of access options to the file for:

- Administrators
- Employees
- Managers

Guidance on how to configure each option is provided in the **Configuring Employee Files**.

1.2.3. What are Document Types?

When a document is uploaded, it is stored against a *Document Type*. This is essentially a categorisation or grouping that is applied to the document which can make it easier to store and search the files.

When it comes to sharing access to documents with employees and managers via the *Employee Profile* screen, it is possible to define per *Document Type*, whether the employee / manager should be able to view and/or upload documents. If those settings haven't been enabled on the *Document Type*, then employees and managers will be restricted from viewing and/or uploading files against it.

Document Types are defined as either:

1. **Person:** i.e. files of this type are related to the employee directly and not one of their contracts.
2. **Contract:** i.e. files of this type are related to a specific contract for an employee.

Guidance on how to configure Document Types is provided in the ***Configuring Employee Files*** user guide.

1.3. Security Options for Administrator Access to Files

There are 2 security options available when granting access to administrators to access files on People Management.

1. Access to All Files

It is possible to allow the hr administrator to access all files stored for an employee or their contracts i.e. access to all *Document Types*.

2. Access Restricted by Document Type

If required, the administrator's access can be configured in such a way that access to view / upload files is restricted per *Document Type*.

Guidance on how to configure each option is provided in the ***Configuring Employee Files*** user guide.

2. Managing Files

2.1. How to Access the Files Screen

To access the Files screen:

1. On the *Command Centre > Employees* screen, search for the employee and click **View** to open their HR record,
2. Select the option **Files** at the left of the screen:

Charles Green (000103)
People Management > Employee Search > Charles Green (000103)

CG Active Security Officer Start Date 23-Feb-2019 Payroll Status: Open for Processing

Offer Letter - Security Officer - ...	General Documents	08-Jan-2018	Alice Jones	17 KB
Annual Salary Review.Docx	Contract Details	08-Jan-2018	Alice Jones	17 KB

2.2. Viewing Files

The *Files* screen displays all of the files that are currently stored for the employee and their contracts.

1. Files associated directly with one of the employee's contracts will display based on the contract selected at the top of the screen.
2. Files associated with the employee will always be displayed, regardless of the contract selected at the top of the screen.

File Name	Document Type	Uploaded	Uploaded By	File Size
Ucc Transcript Charles Green....	General Documents	08-Jan-2018	Alice Jones	85 KB
Offer Letter - Security Officer - ...	General Documents	08-Jan-2018	Alice Jones	17 KB
Annual Salary Review.Docx	Contract Details	08-Jan-2018	Alice Jones	17 KB

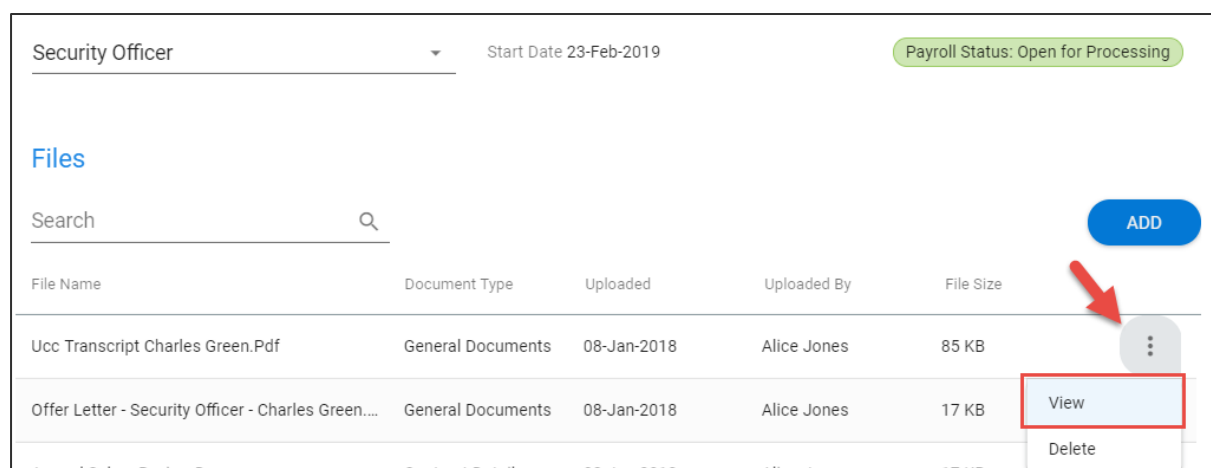

The following details are displayed per file:

Item	Description
File Name:	The actual name of the file OR the description provided for the file (if given during the upload process).
Document Type:	The category of documents that the file has been loaded to.
Uploaded:	When the file was uploaded.
Uploaded By:	Who uploaded the file.
File Size:	The size of the file.

The search option at the top of the screen allows you to do a keyword search for a document that will search based on the *File Name* only.

To view a file:

1. Click the  button for the required file and select **View**.

The screenshot shows the 'Files' section of the application. At the top, there's a 'Security Officer' dropdown, a 'Start Date' of '23-Feb-2019', and a 'Payroll Status: Open for Processing' badge. Below this is a search bar and an 'ADD' button. A table lists files with columns: File Name, Document Type, Uploaded, Uploaded By, and File Size. The first two rows are visible: 'Ucc Transcript Charles Green.Pdf' and 'Offer Letter - Security Officer - Charles Green....'. A red arrow points to the 'More options' button (three dots) for the first file, and a red box highlights the 'View' option in the dropdown menu.

File Name	Document Type	Uploaded	Uploaded By	File Size
Ucc Transcript Charles Green.Pdf	General Documents	08-Jan-2018	Alice Jones	85 KB
Offer Letter - Security Officer - Charles Green....	General Documents	08-Jan-2018	Alice Jones	17 KB
Annual Salary Review Docx	Contract Details	08-Jan-2018	Alice Jones	17 KB

The file will download via your browser download settings.

2.3. Add a File

2.3.1. Add an Employee File

To add a file to an employee's record:

1. On the *Files* screen, click the **Add** button at the top right of the screen to open the Upload File screen.
2. On the *Upload File* screen:
 - a. Select a **Document Type** from a predefined list. Document type is used to:
 - Categorise the documents that have been uploaded.

- Identify documents that should be shared with employees / managers on the *Employee Profile*, by category i.e. only share particular categories.

The screenshot shows the 'Upload File' interface. At the top, there is a breadcrumb trail: 'People Management > Employee Search > Charles Green (000103) > Upload File'. The main form area has a 'Document Type*' dropdown menu currently set to 'Employee Documents'. To the right of this dropdown, a message states: 'Document type selected is not associated with any specific contract'. Below the dropdown is a 'Description' text input field. At the bottom left of the form is a blue 'UPLOAD' button, and at the bottom right is a green 'SAVE' button. The 'corehr' logo is visible in the bottom center.

- Enter a **Description** for the file
 - This is an optional field.
 - If provided, this will display as the *File Name* on the *Files* screen.
 - If not provided, the actual file name will display on the *Files* screen.
- Click **Upload** to open the *Upload* screen:
 - Drag and drop a file into the 'File Upload' section of the screen**OR**
 - Click **Browse** to search for and select a file to uploadThe file will appear on the screen.

The screenshot shows the 'Upload' dialog box. It features a blue cloud icon with an upward arrow and the text 'Click or drop files here to upload'. Below this, a file named 'Charles Green NDA Feb 2019.docx' is shown with a green progress bar and the text '14kB (Upload Complete)'. A trash icon is to the right of the progress bar. At the bottom right, there is an 'OK' button.

- A progress bar will indicate a % value if the file is still uploading. Do not close the window until the progress bar disappears and the file name and size appear, as per screenshot below.

- Use the  to delete a file and upload a new one if necessary

d. Click **OK**.

3. Click **Save** to complete.

The file will now be listed on the *Files* screen.

2.3.2. Add a Contract File

Follow the steps outlined below to add a file to an employee's record and associate it directly with one of their contracts:

1. On the *Files* screen, select the required contract from the contract list at the top of the screen. This must be selected, before clicking **Upload**.

Security Officer

Start Date 23-Feb-2019

2.3.3. Adding Multiple Files

It is possible to add multiple files as part of a single upload. All files will be uploaded for a single Document Type. To do this.

On the *Upload File* screen:

1. Select a *Document Type*
2. Browse for the required files OR drag and drop the required files into the window.

Upload

Click or drop files here to upload

Document 3.docx
14kB (Upload Complete)

Document 1.docx
14kB (Upload Complete)

Document 2.docx
14kB (Upload Complete)

OK

Note: When uploading files in bulk, it is recommended to leave the *Description* blank. If this is provided, this will overwrite the *File Name* for all files uploaded and it will make it impossible for you to distinguish between these on the *Files* screen. If this is left blank, the actual file name will appear as the *File Name* on the *Files* screen.

Please Note: For full guidance on this functionality, please refer to the *Document and Email Generation* user guide.

2.6. Employee Access to Files

Employees have access to view files via:

- The *Employee Profile > Documents* screen.
- The *Documents Search* widget.

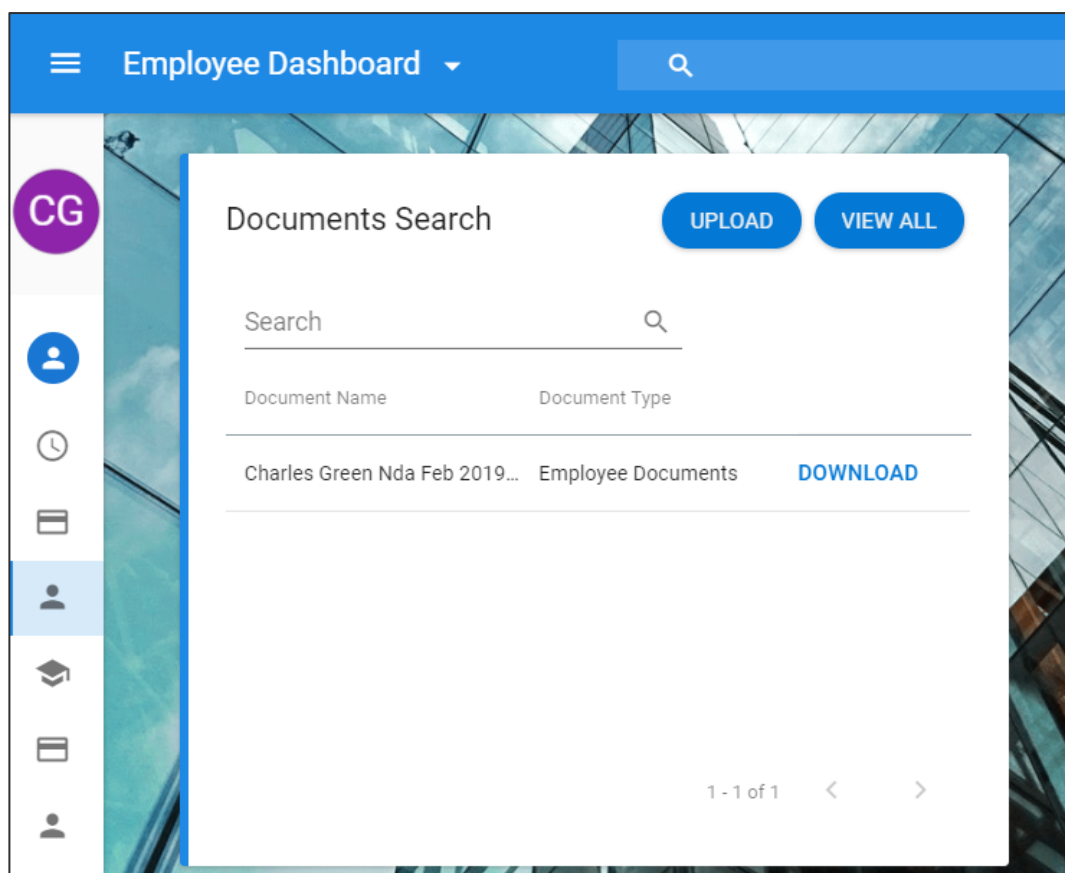

Files that are available to the employee are restricted to only files that have been linked to a *Document Type* that has been configured to allow the employee to:

- view files
- upload files

If the corresponding indicators are not set on the *Document Type*, the files associated with that document type will not be available to the employee to view / upload against.

For example, files exist for both “General Documents” and “Employee Documents” *Document Types*.

If you have made the *Documents Search* widget available on the *Employee Dashboard*, the same rules apply as per the *My Profile* screen:

2.7. Manager Access to Files

2.7.1. Via Files option

If *People Management* functionality has been devolved to managers, they will be able to view files as per the administrator's access i.e. using the *Files* option on the main employee record.

2.7.2. View Employee Profile

If *People Management* functionality has not been devolved to managers, they will be able to access files for the employee on the ***Employee Profile > Documents*** screen i.e. similar to [2.6 Employee Access to Files](#).

Files that are available to the manager will be restricted to only files that have been linked to a *Document Type* that has been configured to allow the employee to:

- view files
- upload files

If the corresponding indicators are not set on the *Document Type*, the files associated with that document type will not be available to the employee to view / upload against.

Please refer to the ***Configuring Employee Files*** user guide for further guidance.
