1. Overview

1.1. Purpose of the Guide

The purpose of this document is to provide guidance on how to use the *Transfers* feature in People Management, including:

- How to create a transfer request.
- How to view the status of a request.
- How to approve / reject a request.
- How to cancel a request.
- How to complete a request and create the required contract.

1.2. What are *Transfers*?

1.2.1. HR Access

In CoreHR, the hr administrator's access to employees on the system is restricted based on their designated *HR Access*. This *HR Access* is aligned to an Organisational Unit e.g. this may be set to:

- Company = *ABC Solutions*
- Department = *Human Resources*
- Division = *Shared Services*

Every employee on CoreHR will be assigned to at least one contract. That contract will specify the Organisation Units that the employee's position is aligned to e.g.

- Company = *ABC Solutions*
- Department = *Human Resources*
- Division = *Shared Services*

If the user has access to the *Department* e.g. *Human Resources*, then they will be able to see the employee record and their contract in that department.

However, if the user doesn't have access to the *Department* e.g. *Finance*, then they will not be able to see the employee record and their contract in that department.

1.2.2. Transfer Requests

If a hr administrator doesn't have access to an employee on CoreHR, but requires the ability to transfer them into a new contract within their organisation, then they need to complete a 'Transfer Request'.

For example:

- John has one active contract in the *Accounts* department.
- Mary is a hr administrator and only has access to employees in the *HR* and *Payroll* departments.
- John will be moving to a new position with a new contract in the *Payroll* department. However, Mary cannot complete the *Replace Contract* steps that are usually used to replace one contract with a new contract, because she doesn't have access to the employee on CoreHR.
- Therefore, Mary must initiate a transfer request which will request for John to be:
 - transferred out of their current contract i.e. in *Accounts*.
 - transferred into a new proposed contract in their organisation i.e. in *Payroll*.
- Barry is a hr administrator with access to the *Accounts* department. He must approve / reject this request, in order for Mary to be able to create the new replacement contract in *Payroll*.

Further Considerations:

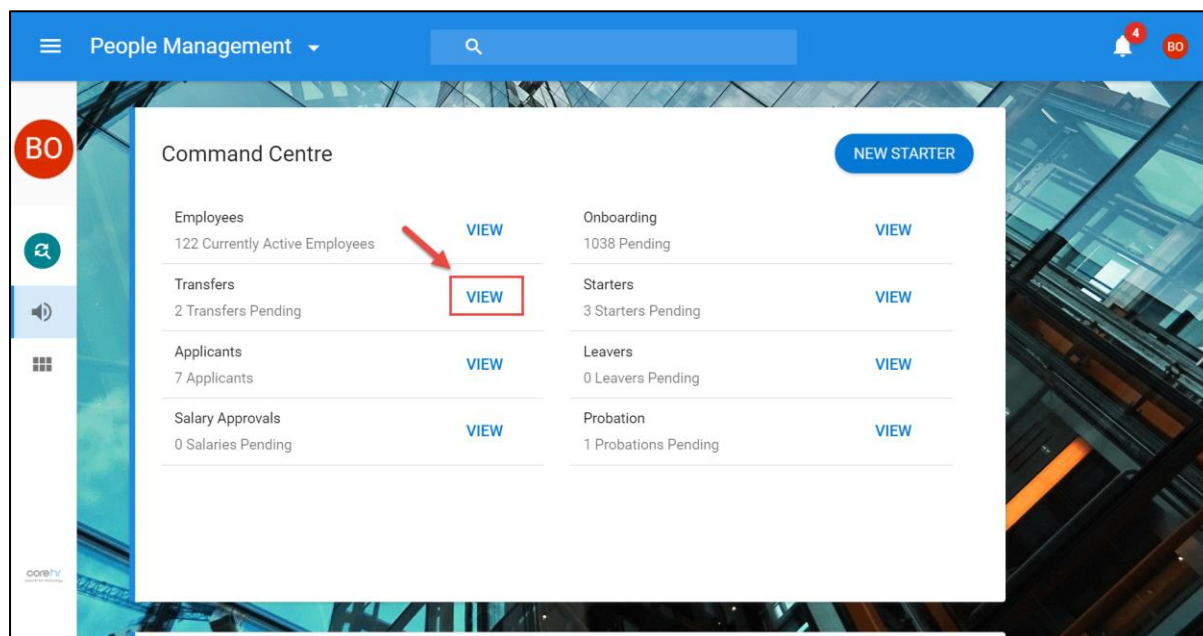

- The request will always be initiated by the user who doesn't have currently have access to the employee on CoreHR and who needs to create the new contract.
- The request is never initiated by the person who already has access to the employee but will not be creating the new contract
- If a user has access to the employee in the first place, they do not need to complete a transfer request. Instead, they can complete a *Replace Contract* process.

2. How to Use

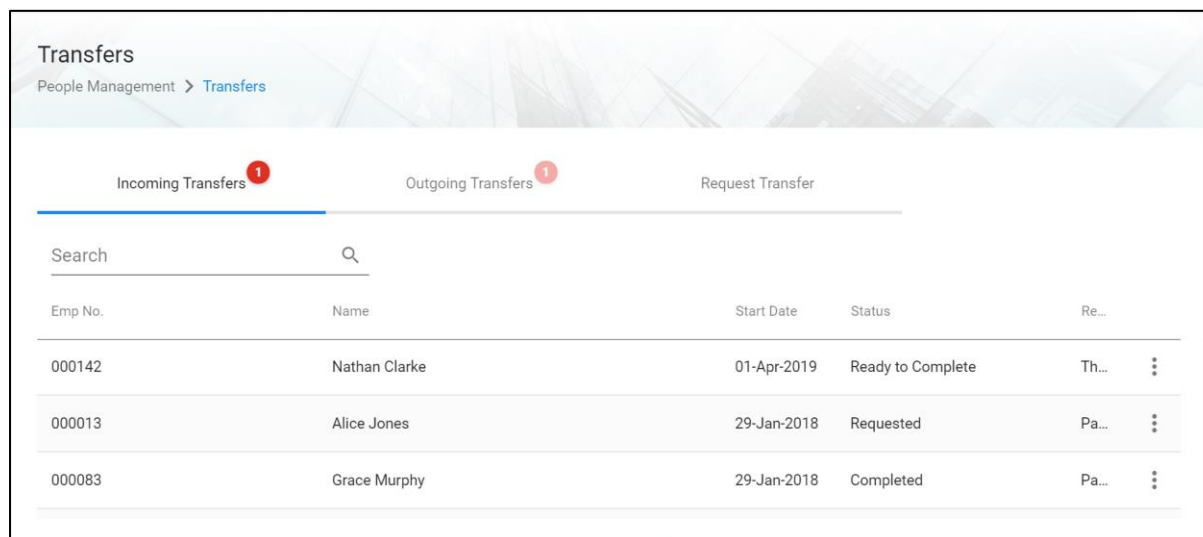

2.1. How to Access Transfer Requests

To access the *Transfers* feature:

1. Quick jump to the *Command Centre* widget in People Management.
2. Click **View** in the *Transfers* row.

3. The *Transfers* window will appear:

4. This includes 3 tabs:

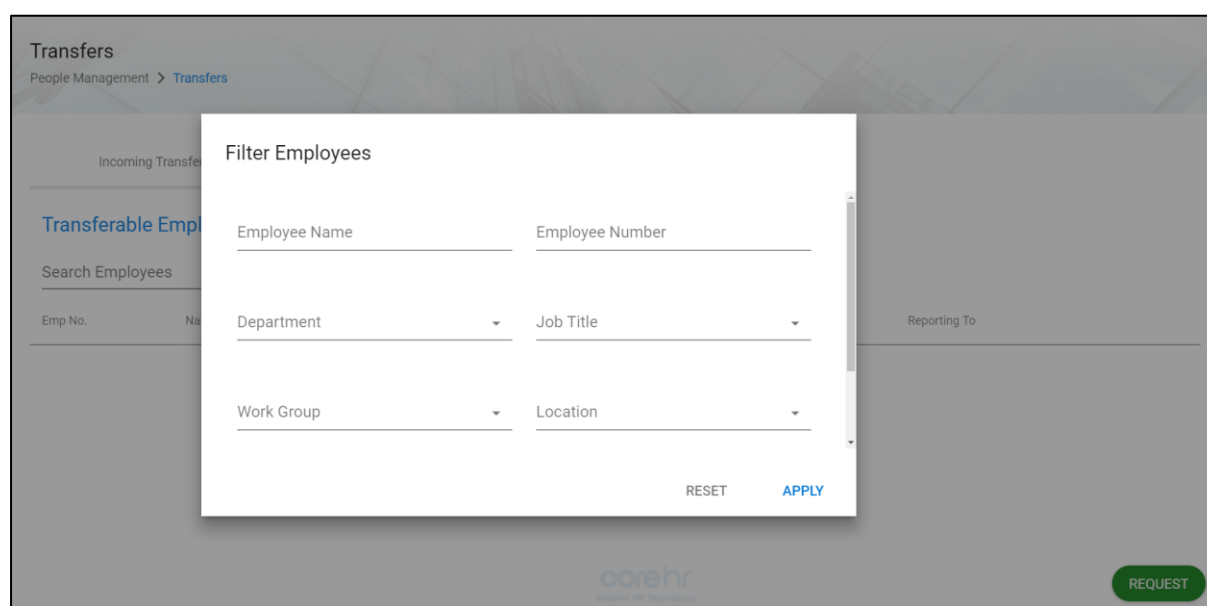

- Incoming Transfers
- Outgoing Transfers
- Request Transfer

2.2. Create a Transfer Request

Creating a new transfer request means that the hr administrator will request for an employee (who they don't currently have access to view on HR) can be transferred to a Post Appointment / Contract (that they do have access to on HR).

To create a Transfer Request:

1. On the *Transfers* window, click the **Request Transfer** tab.
2. The *Filter Employees* screen will appear. You can exit this Filter screen by just clicking outside it.

The screenshot shows the 'Transfers' section of the CoreHR interface. A modal titled 'Filter Employees' is open, allowing users to search for employees. The modal contains the following fields:

- Employee Name (text input)
- Employee Number (text input)
- Department (dropdown menu)
- Job Title (dropdown menu)
- Work Group (dropdown menu)
- Location (dropdown menu)

At the bottom of the modal are two buttons: 'RESET' and 'APPLY'. The background interface shows the 'Transfers' header, a breadcrumb 'People Management > Transfers', and a sidebar with options like 'Incoming Transfers', 'Transferable Employees', and 'Search Employees'. A 'REQUEST' button is visible in the bottom right corner of the main interface.

2.2.1. Search for the employee

The top section of this screen is used to search for the employee that the request is being made for.

corehr
Simplifying HR Technology

REQUEST

1. The search will only look for all current active employees that the user does not currently have access to on HR Admin. If the employee is available to the user on the *Employees* tab, they will not return in this search.
2. Use the *Search Employees* option to search for an employee using their forename, surname or personnel number.
3. Use the **Filter** button to search for a group of employees by
 - Department
 - Job Title
 - Work Group
 - Location
 - PPS/NI Number
 - Date of Birth
4. Employees will be listed on screen by contract i.e. if the employee has more than one active contract, they will appear twice on the search:

5. Click on the **View** button for the employee row to view the actual current contract details.
6. Select the required employee by selecting the relevant row and click the **Request** button.

2.2.2. Search for the Post

Scroll to the middle section of the screen to search for the Post that the employee will be transferred to.

1. This is the same principle used when searching for a Post when setting up a New Hire, New Contract, Replace Contract or Rehire.
2. The Posts available to search will be restricted to only the Posts that the user has access to in HR.

REQUEST

2.2.3. Complete the Request

1. Confirm the planned / proposed start date for the new Post Appointment / Contract:
 - Update the *Start Date* field.

The screenshot shows the 'Request Transfer' modal form overlaid on the 'Transfers' page. The modal has two main input fields: 'Start Date*' with a calendar icon and 'Comments*'. At the bottom of the modal are 'CANCEL' and 'OK' buttons. The background page shows a table of appointments with columns for Post, Post Title, Status, and Post FTE. The row for Post 502216-0 (Accountant) is selected. The CoreHR logo is visible at the bottom of the page.

Post	Post Title	Status	Post FTE
502217-0	Accountant	Auto Authorised	1
502216-0	Accountant	Auto Commenced	2
502241-0	Accountant	Auto Authorised	1
502200-0	Administrator	Auto Authorised	1

2. Use the **Comments** field to capture any additional message required to support the transfer request.
 - Up to 500 characters are allowed.
3. Click the **Ok** button to submit the request.

2.3. View Submitted Requests

2.3.1. Access to Incoming Requests

By default, the *Incoming* tab on the Transfer Request screen, shows the user all incoming requests for employees based on their People Management hr data access.

New parameters have been introduced to override this to allow you to only show incoming requests for employees in a particular org structure level e.g. Department. When this is enabled:

- The request will be stamped with the Department that the user requesting the transfer resides in.
- A user will only see requests for employees in their own Department.

Note: These new parameters are available on the *Site Manager > Admin Settings* screen. Update these to use this new security feature.

- *Hr_restrict_transfers*: Set to 'Y' to enable this feature.
- *Hr_org_transfer_display*: Set to the code for the required org level e.g. 'DEPT'.

2.3.2. View Requests

The *Incoming Transfers* tab will provide the user with a view of all of the transfers.

- that the current user has requested.
- that other users have requested.
 - only requests for posts that the current user would have access to will display.
 - if the current user doesn't have access to the underlying post, then they will not see a request on this screen.

An *Incoming Transfer* refers to a request for an employee to join the user's current organisation.

To view submitted requests:

1. Open the **Incoming Transfers** tab.
2. If required, use the search field to search for requests using the employee's name or personnel number only.

2.3.3. View Current Contract

To view the current contract for the employee:

1. Click the  button for the employee and select **View Current Contract**.

The screenshot shows the 'Transfers' page with a table of employee transfers. The table has columns for Emp No., Name, Start Date, Status, and Requested By. A red arrow points to the 'View Current Contract' option in the dropdown menu for the first row.

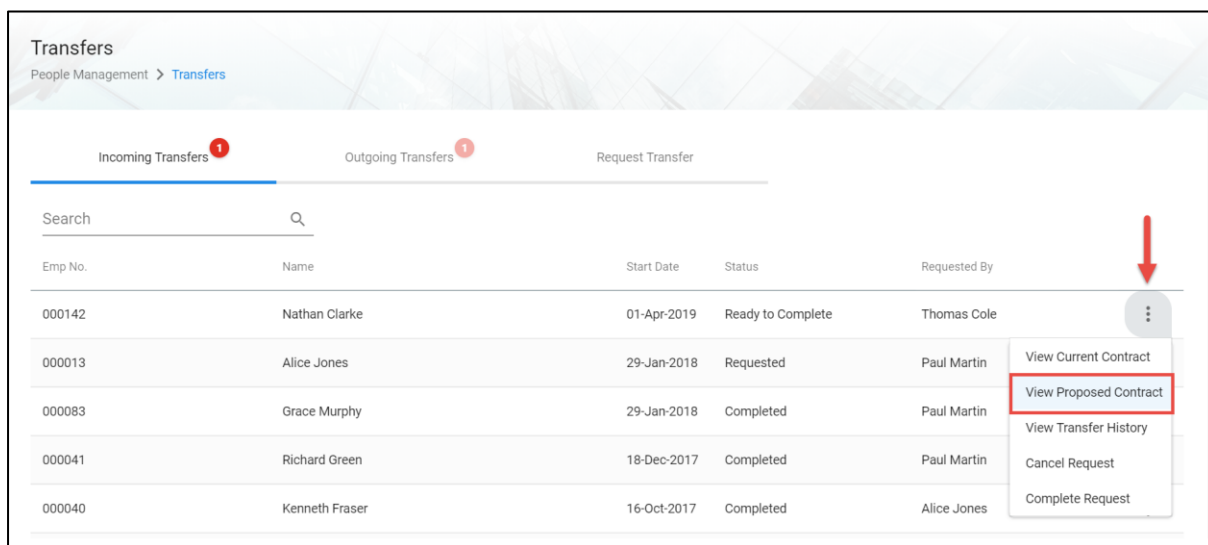

Emp No.	Name	Start Date	Status	Requested By
000142	Nathan Clarke	01-Apr-2019	Ready to Complete	Thomas Cole
000013	Alice Jones	29-Jan-2018	Requested	Paul Martin

000041	Richard Green	18-Dec-2017	Completed	Paul Martin
000040	Kenneth Fraser	16-Oct-2017	Completed	Alice Jones

2. The contract will open in a new window.

2.3.4. View Proposed Contract

To view the contract that it is proposed to transfer the employee into:

1. Click the  button for the employee and select **View Proposed Contract**.

The screenshot shows the 'Transfers' page with a table of employee transfers. A red arrow points to the 'View Proposed Contract' option in the dropdown menu for the first row.

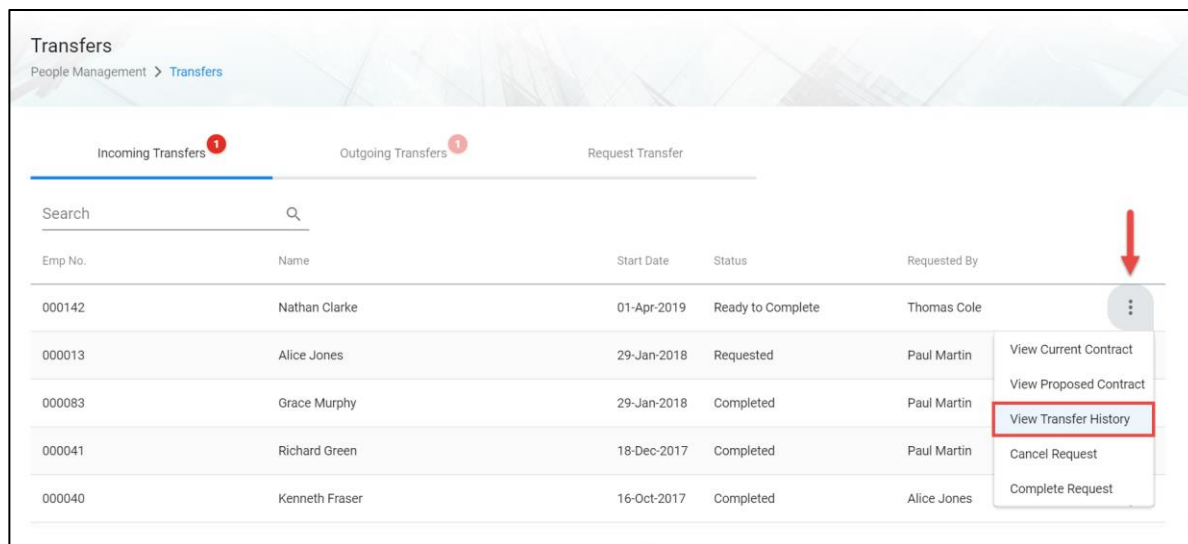

Emp No.	Name	Start Date	Status	Requested By
000142	Nathan Clarke	01-Apr-2019	Ready to Complete	Thomas Cole

3. This will list all of the status updates for the Transfer Request including:
 - *Date Updated*: The date that the request Transfer Status was updated.
 - *Transfer Status*: The actual status that the Transfer Request was updated to.
 - *Updated By*: The name of the CoreHR user than updated the request.
 - *Comments*: Any comments that were supplied by the user when updating the request.

2.4. Cancel Request

A Transfer Request can be cancelled at any stage during the request process, up until it has been fully approved and the transfer completed.

To cancel a request:

1. Open the *Incoming Transfers* screen.
2. Search for the request.
3. Click the  button for the employee and select **Cancel Request**.
4. The *Cancel Request* screen pops up.
5. Enter a comment (required field) and click **Ok**.

2.5. Approve / Reject Transfer Requests

2.5.1. View Outstanding Transfer Requests

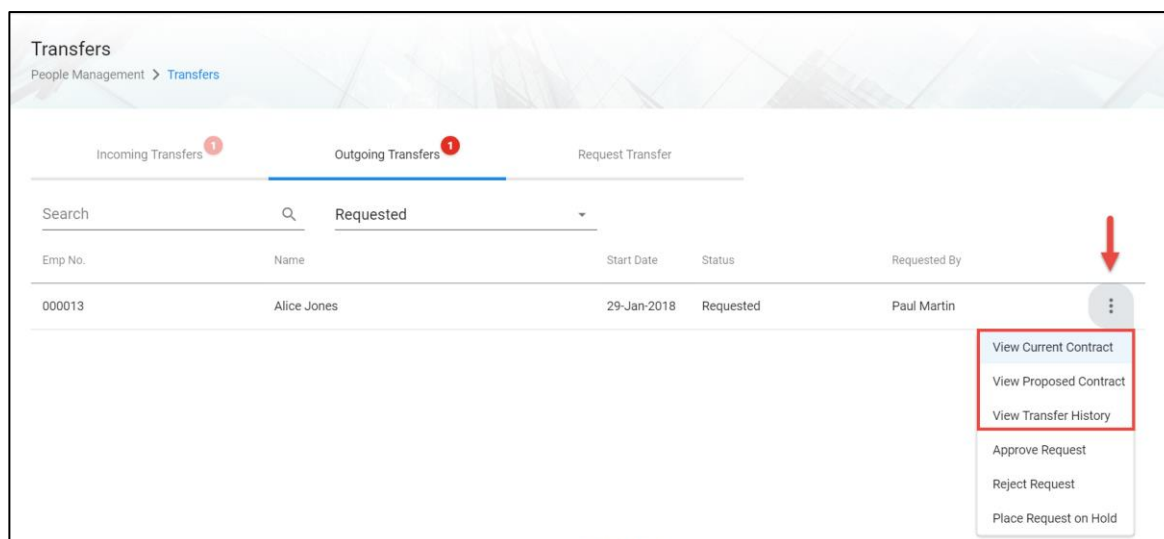

An *Outgoing Transfer* refers to a request for an employee to leave the user's current organisation, in order to take up a position in another area of the organisation.

To view outstanding transfer requests:

1. Quick jump to the *Command Centre* widget in People Management.
2. Click **View** in the *Outgoing Transfers* row.
3. The *Outgoing Transfers* tab will display a number, indicating that there are outstanding requests that the user can approve/reject/put on hold.
 - If there is no number displayed, then there are no requests to be actioned.
 - The number will display the actual number of requests that are outstanding.

Emp No.	Name	Start Date	Status	Requested By
000013	Alice Jones	29-Jan-2018	Requested	Paul Martin

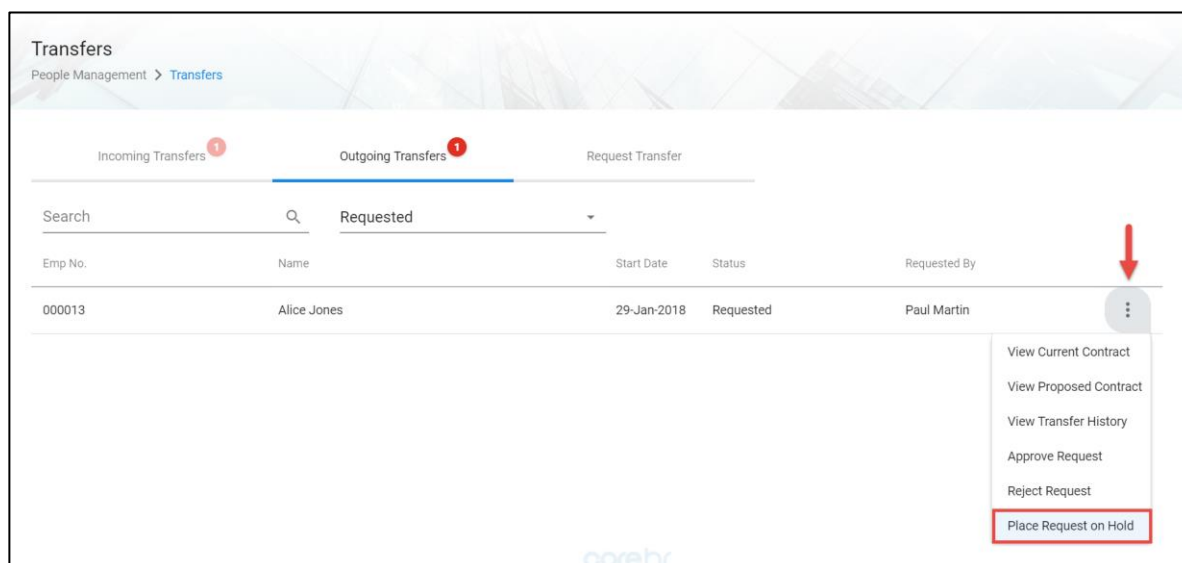

4. This screen will list all of the Transfer Requests for employees that are currently in the user's organisation i.e.
 - If the user has access to the employee and the Post that they are requested to be transferred out of, they will see the employee on screen.
 - If the user doesn't have access to the employee's Post, then they will not see the employee on screen.
5. Click the  button for the employee to access the following options:
 - **View Current Contract:** Select this option to view the employee's current contract details i.e. the contract that will be ended by this transfer, if approved.
 - **View Proposed Contract:** Select this option to view the contract that it is proposed to transfer the employee to.
 - **View Transfer History:** Select this option to view a history of all the updates made to the 'Transfer Status'.

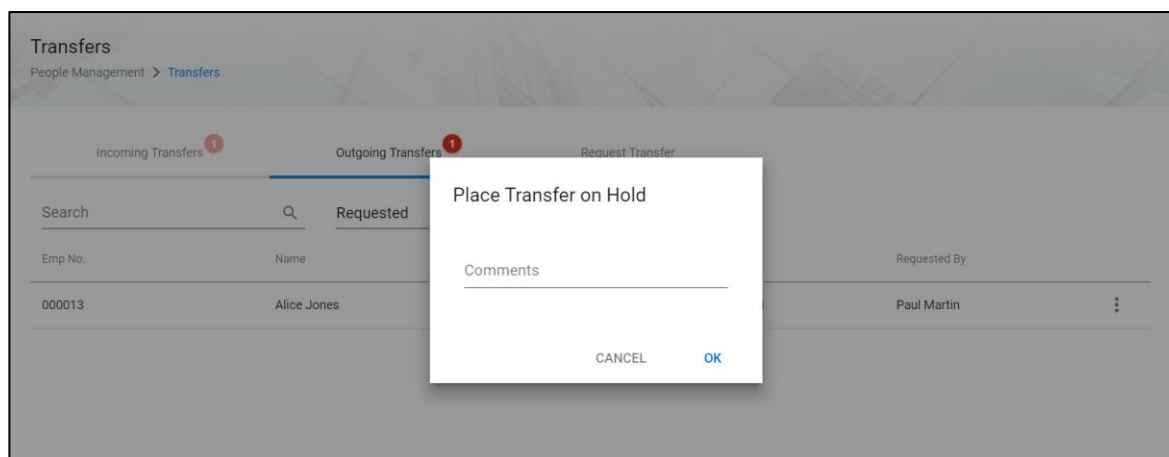

2.5.2. Place Transfer Request on Hold

To place a request on hold:

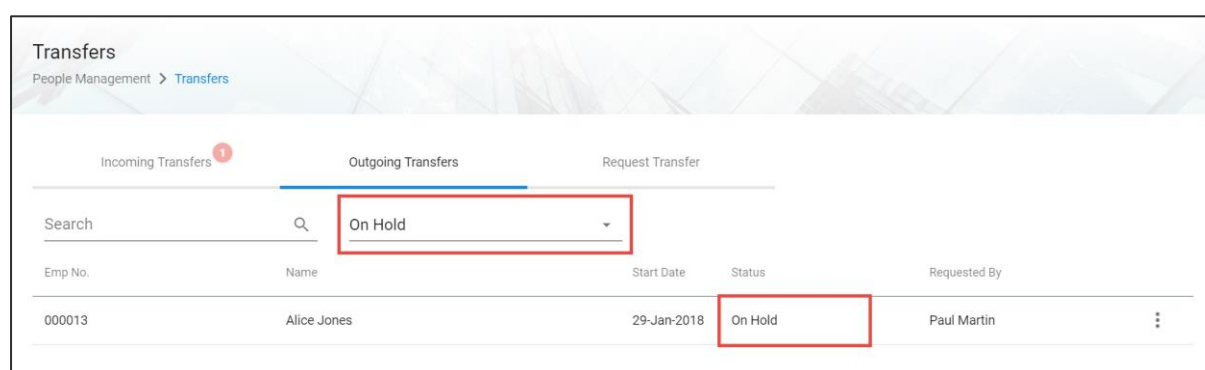

1. On the *Outgoing Transfers* screen, click the  button for the employee and select the option **Place Request on Hold**

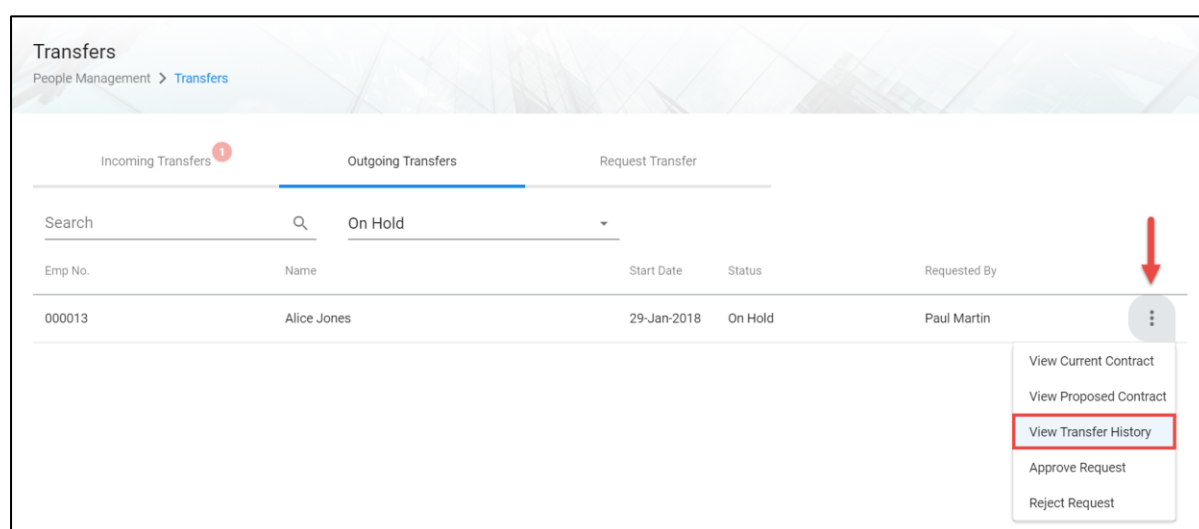

2. The *Place Transfer On Hold* window will pop up.
3. Supply a reason for the update, using up to 500 characters and click **Ok** to save.

4. On the *Outgoing Transfers* screen, the Status is now *On Hold*:
 - Update the status filter to *On Hold* in order to view the request.

5. Click the  button for the employee.
 - Notice that the Place Request Status is *On Hold*.
 - Select **View Transfer History** to see the details associated with the update.

Note: The status update and transfer history will also be available on the *Incoming Requests* screen.

Transfers History				
People Management > Transfers > Transfers History				
Date Updated	Transfer Status	Updated By	Comments	
11-Mar-2019	On Hold	Bart Ooms	On hold pending sign off from head of division	
25-Jan-2018	Requested	Paul Martin	Request to transfer employee to HR Director post	

2.5.3. Reject Transfer Request

To reject a request:

1. On the *Outgoing Transfers* tab, click the  button for the employee and select the option **Reject Request**.

000013	Alice Jones			Paul Martin	

Reject Transfer

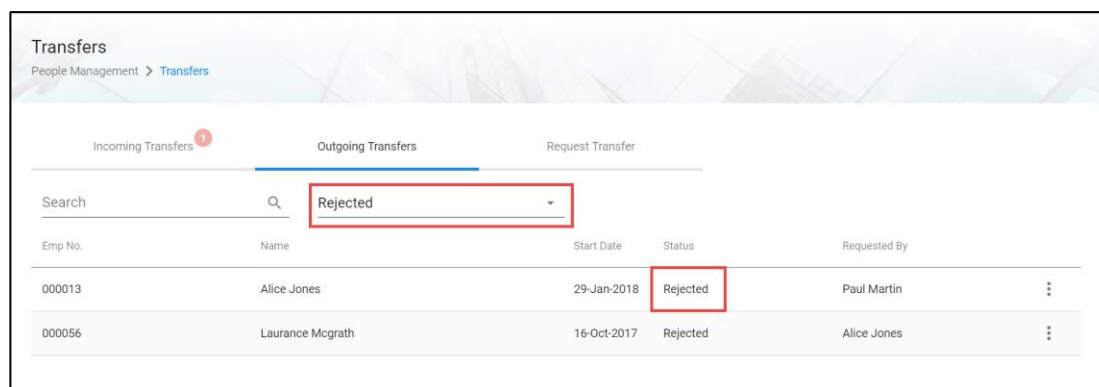

Comments*

CANCEL OK

4. On the *Outgoing Transfers* screen, the Status is now *Rejected*:
 - Update the status filter to *Rejected* in order to view the request.

5. Click the  button for the employee and notice that the options available are restricted only to *View Current Contract*, *View Proposed Contract* and *View Transfer History*.
6. On the Incoming Transfers screen, the status will also be updated to *Rejected*.
 - This is where the original requestor (or another user in the requestor's organisation) can view the status and history of their request.

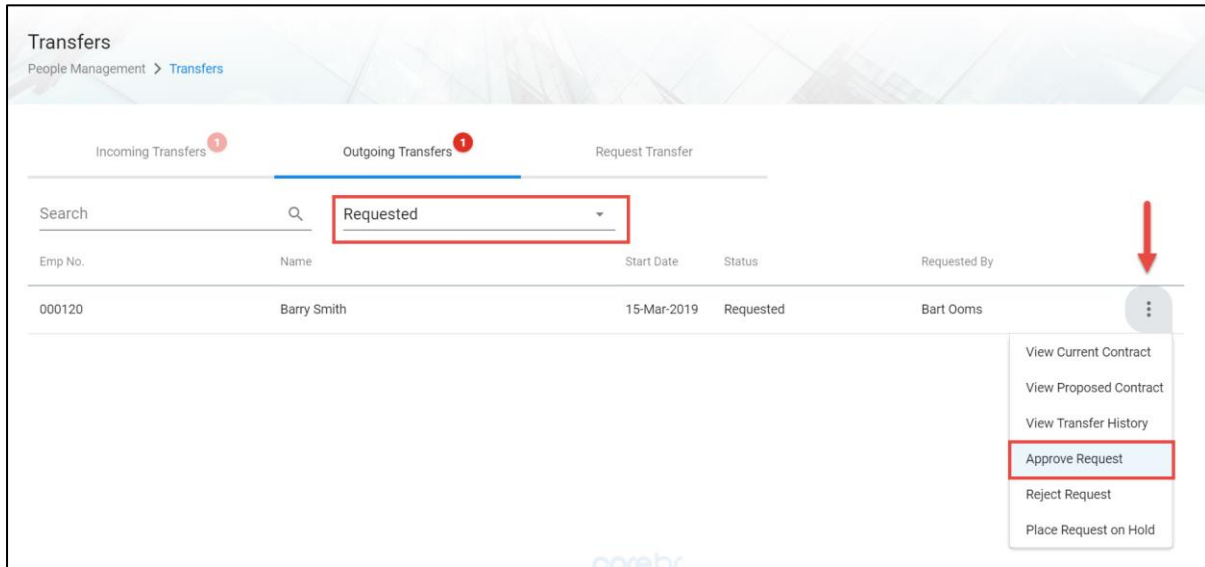

- Click the  button for the employee and select **Transfer History** to view the full history of updates to this request, including the rejection.

Note: Once a request has been rejected, that signifies the end of the transfer request process. The rejected request can be viewed on the 'Transfers' window by users on by the 'Incoming' and 'Outgoing' sides. However, no updates will be applied to the employee's current contract and no new contract is created.

2.5.4. Approve Transfer Request

To approve a request:

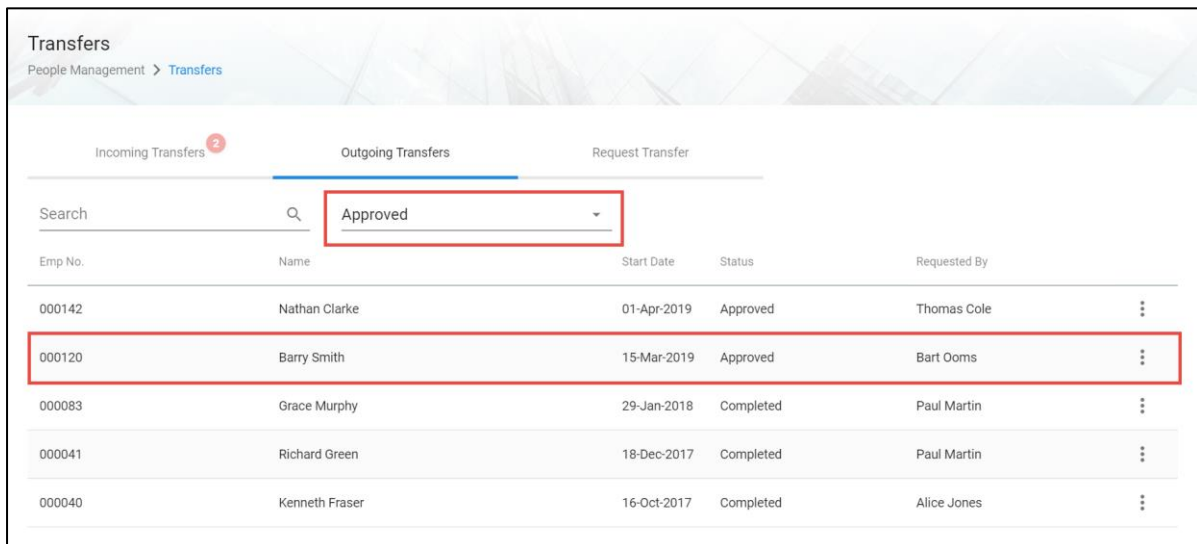

1. On the *Outgoing Transfers* screen, click the  button for the employee and select the option **Approve Request**.

The screenshot shows the 'Transfers' page with the 'Outgoing Transfers' tab selected. The status filter is set to 'Requested'. A dropdown menu is open for the employee Barry Smith, showing the 'Approve Request' option highlighted.

Emp No.	Name	Start Date	Status	Requested By
000120	Barry Smith	15-Mar-2019	Requested	Bart Ooms

2. The *Approve Transfer* window will pop up.
3. Supply a reason for the rejection, using up to 500 characters and click **Ok** to save.
4. On the *Outgoing Transfers* screen, the Status is now *Approved*:
 - Update the status filter to *Approved* in order to view the request

The screenshot shows the 'Transfers' page with the 'Outgoing Transfers' tab selected. The status filter is set to 'Approved'. The employee Barry Smith is now listed with a status of 'Approved'.

Emp No.	Name	Start Date	Status	Requested By
000142	Nathan Clarke	01-Apr-2019	Approved	Thomas Cole
000120	Barry Smith	15-Mar-2019	Approved	Bart Ooms
000083	Grace Murphy	29-Jan-2018	Completed	Paul Martin
000041	Richard Green	18-Dec-2017	Completed	Paul Martin
000040	Kenneth Fraser	16-Oct-2017	Completed	Alice Jones

5. Click the  button for the employee and notice that the options available are restricted only to *View Current Contract*, *View Proposed Contract* and *View Transfer History*.

 **Note:** At this point the Transfer Request process has not been completed. The request has been fully approved. The requestor (or another user in the requestor's organisation) can now complete the transfer by creating the new contract on HR.

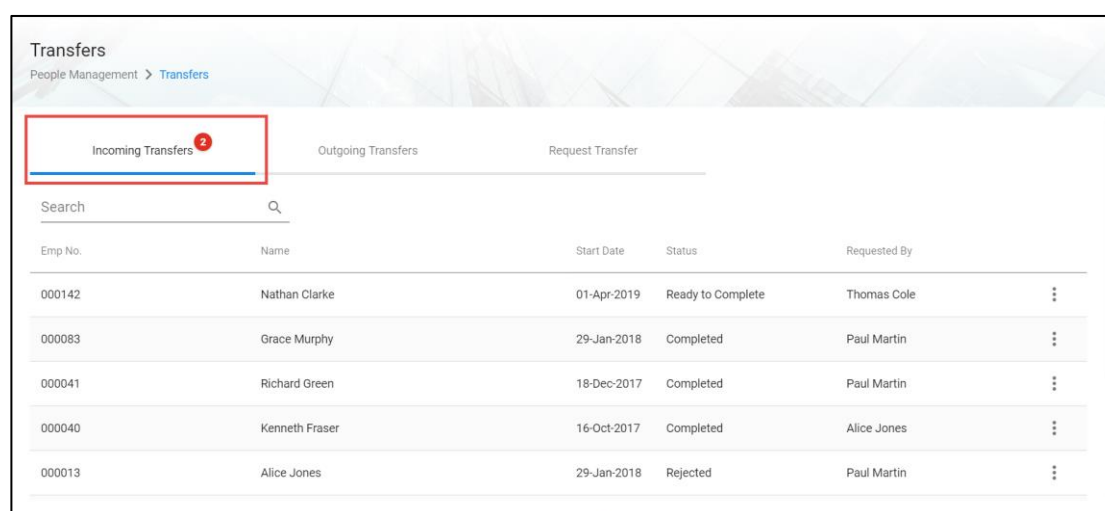

2.6. Complete the Transfer

The completion of a transfer request will be done either by:

- The original requestor.
- Another user in the requestor's organisation i.e. someone with access to the Post that the employee is to be transferred into.

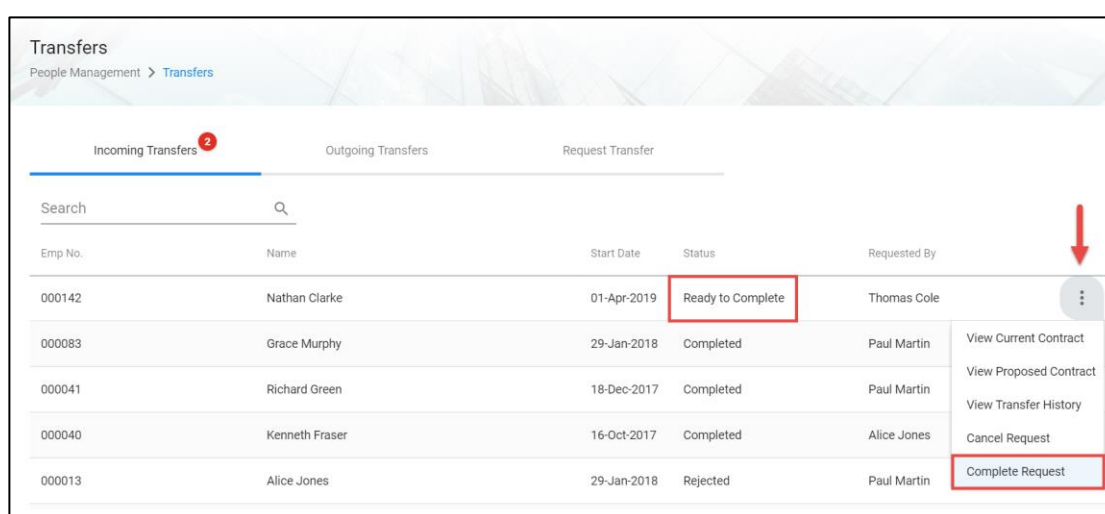

To complete the transfer:

1. Quick jump to the *Command Centre* widget in People Management.
2. Click **View** in the *Transfers* row.
3. The **Incoming Transfers** tab will display a number, indicating that there are approved requests that the user can complete.
 - If there is no number displayed, then there are no requests to be actioned.
 - The number will display the actual number of requests that are available to complete.

The screenshot shows the 'Transfers' page in the People Management system. The 'Incoming Transfers' tab is selected and highlighted with a red box containing the number '2'. Below the tabs is a search bar and a table of transfer requests.

Emp No.	Name	Start Date	Status	Requested By
000142	Nathan Clarke	01-Apr-2019	Ready to Complete	Thomas Cole
000083	Grace Murphy	29-Jan-2018	Completed	Paul Martin
000041	Richard Green	18-Dec-2017	Completed	Paul Martin
000040	Kenneth Fraser	16-Oct-2017	Completed	Alice Jones
000013	Alice Jones	29-Jan-2018	Rejected	Paul Martin

The screenshot shows the 'Transfers' page with the 'Incoming Transfers' tab selected. A red box highlights the 'Ready to Complete' status in the first row. A red arrow points to the 'Complete Request' button in the actions column of the same row.

Emp No.	Name	Start Date	Status	Requested By	Actions
000142	Nathan Clarke	01-Apr-2019	Ready to Complete	Thomas Cole	- View Current Contract - View Proposed Contract - View Transfer History - Cancel Request - Complete Request
000083	Grace Murphy	29-Jan-2018	Completed	Paul Martin	
000041	Richard Green	18-Dec-2017	Completed	Paul Martin	
000040	Kenneth Fraser	16-Oct-2017	Completed	Alice Jones	
000013	Alice Jones	29-Jan-2018	Rejected	Paul Martin	

4. Search for the required request which will have a status of *Ready to Complete*.

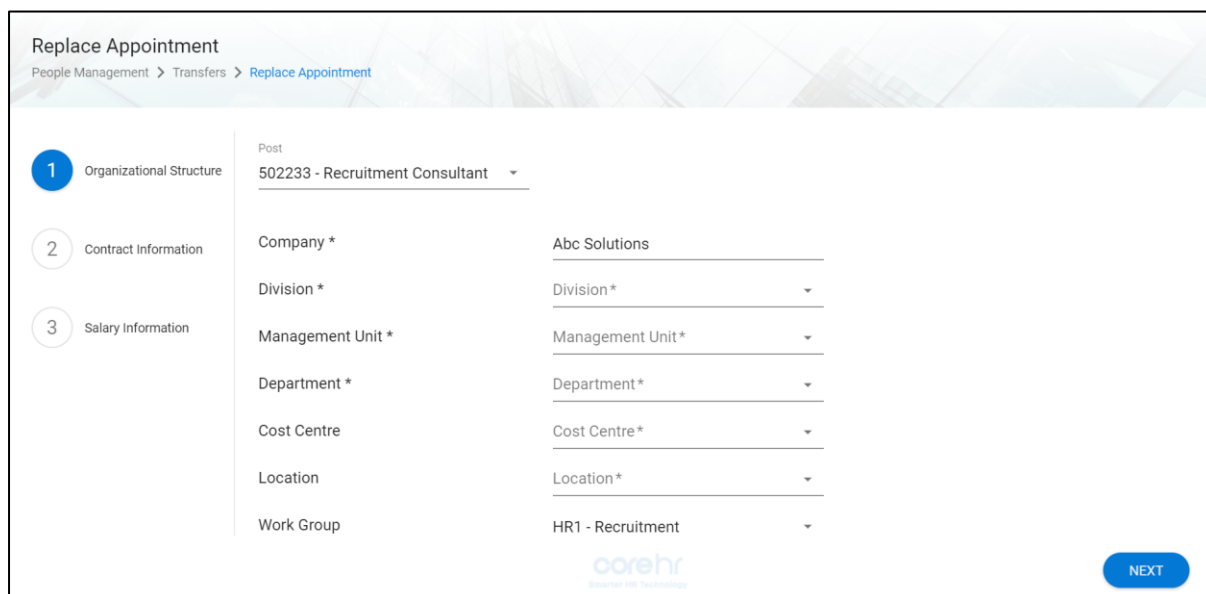

- Click the  button for the employee and select the option **Complete Request**

 **Note:** The *Cancel Request* option is still available to select on this screen while the status is *Ready to Complete* (see [2.4 Cancel Request](#)).

- The *Complete Transfer* wizard will open.
 - This will guide the user through the contract creation process for the employee's new contract.
 - This is effectively a 'Replace Contract' task which will both create a new contract and end the employee's current contract.

Step 1: Confirm the *Org Structure* details

- The details on this screen will be pre-populated based on the Post that has been linked to the transfer request.
- All fields on this screen are mandatory.
- Select the required values from the drop-down lists.
- Click the **Next** button to proceed to the second step.
