1. Introduction

The Successful Applicants feature in People Management is relevant only if the Recruitment module is being used. This allows for the completion of contract details for successful applicants in a recruitment campaign for:

- New hires
- New contracts for existing employees
 - Replacement contracts
 - Additional contracts
- Rehires

In order for this option to be used, the successful applicant must be linked to a job offer in Recruitment and flagged as having accepted this offer. Only then will the applicant be available to the hr administrator to process. For full details on how this is managed from a recruitment perspective, please refer to the recruitment training material.

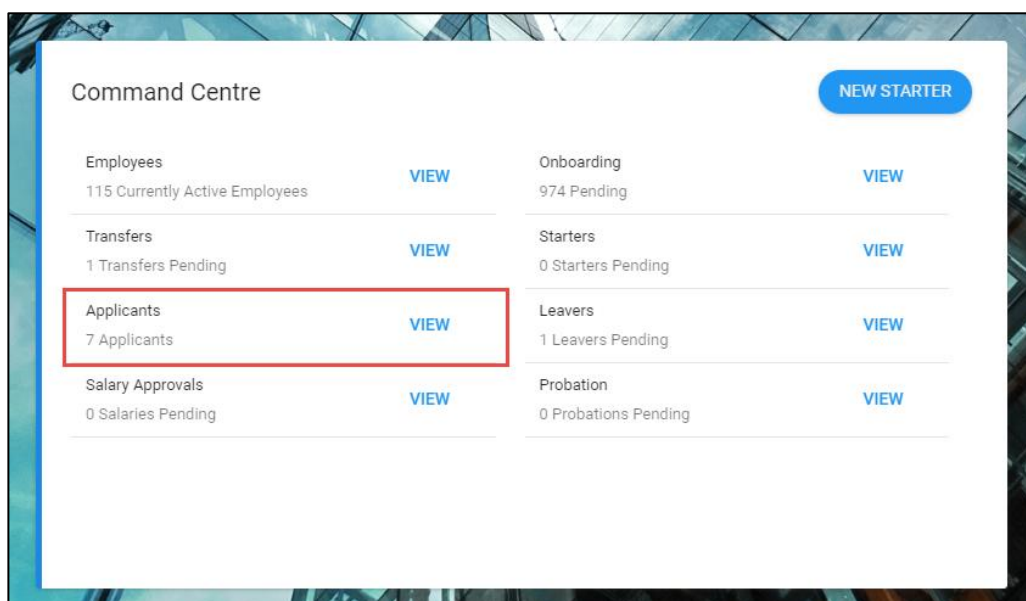

The purpose of this guide is to provide instructions on how to complete the contract creation for successful applicants (new hires, existing employees and rehires) on People Management.

2. Successful Applicants

2.1. Accessing Successful Applicants

To access the list of successful applicants, available to be processed on People Management:

1. Quick jump to the *Command Centre* widget.
2. Click the **View** button for *Applicants*.

If there are successful applicants available to be processed, then the list will be populated with *New Starters*, *Rehires* or *New Appointments*.

The *Successful Applicants* screen opens.

- This screen will list the applicants that are available to be set up.
- The list of applicants displayed is based on your designated hr access:
 - The list is restricted to show only applicants that have been associated with contracts/posts that the hr administrator should have access to in *People Management*.
 - I.e. if the your access is restricted to see only contracts in the *Budget* department, then the role in the *Training* department below will not be visible to them here. The number indicator on the previous 2 screens will only reflect the number of applicants that the end user has access to.
- Applicants will display here once the job offer has been made.
- If an applicant has been made a job offer and this has subsequently been flagged as declined, the applicant will no longer be listed on this screen.

Search by applicant name

APPLY

Summary level details are display per applicant including:

- Name
- Applicant No (generated in Recruitment)
- Personnel No (only populated if the applicant is an existing employee)
- Vacancy ID (generated in Recruitment)
- Vacancy Name
- Start Date (i.e. contract start date from the recruitment job offer details)
- Post
- Action
 - *New Starter* indicates that the applicant has not been recognised as an existing employee on the system. This may indicate a brand-new starter to the company OR this may reflect a dormant member of staff to be rehired.
 - *New Appointment* indicates that the applicant is currently active on the system with 1 or more contracts and is available to link to a new contract (replacement or additional)

3. Selecting the  button for each applicant provides further options.

Search by applicant name							
Name	Applicant No	Personnel No	Vacancy ID	Vacancy Name	Start Date	Post Code	Action

- **View Contract**

- This provides a read-only view on the job offer details that were captured in recruitment.
- The details are displayed in the 3-step *Applicant Offer Screen*.
- These details are view only and cannot be amended at this stage.

- **Applicant Link**

- Clicking this opens the *Applicant Link* screen.
- This option is not available if the applicant is *New Appointment* as they are already associated with an employee record on CoreHR.
- This allows the user to link the applicant record to an existing employee record OR another applicant record on the system if required.
- *Employee Link*
Select the employee from the *Search to link to an employee* drop down menu. This will provide a list of all active employees on the system only.

Applicant

Employee Link

Link Employee

Name

Linked Appoin...

Job Title

Substantive A...

Applicant Link

Link Applicants

Applicant Number

Name

NOTHING TO SEE HERE

NOTHING TO SEE HERE

- Once linked to an employee, the current screen updates to show the details for that employee, including their *Personnel Number*, *Job Title* and *Contract ID* (for their substantive contract).

The screenshot shows the 'Applicant' screen. On the left, under 'Employee Link', there is a table with columns: Name, Linked Appoin..., Job Title, Substantive A..., and a DELETED button. The first row shows a user with initials 'CN', Name 'Conor Nolan', Linked Appoin... '000024', Job Title 'Payroll Admi...', and Substantive A... '502204-3'. On the right, under 'Applicant Link', there is a 'Link Applicants' dropdown menu. Below it, there are columns for 'Applicant Number' and 'Name', but the area is currently empty, displaying 'NOTHING TO SEE HERE'.

- If linked, the previous screen updates to display the Personnel No and the action will now read *New Appointment*.
- To remove an employee link, click on the **Delete** button on the employee. Please note, this option is not available if the user has already left the pop-up screen. If the pop-up screen has been closed and a link needs to be broken, this will need to be done on the applicant record in Recruitment.
- *Applicant Link*
It is also possible to link the applicant to another existing applicant record on CoreHR. If the applicant has multiple applicant records on CoreHR, these may be linked using the *Link Applicants* drop down menu which displays a list of all CoreHR applicant records.

- **Decline Job Offer**

- This option is available to allow the hr administrator to clear out the applicant record from the screen, if the applicant has decided to decline the job offer at a late stage.
- Clicking this option will provide a prompt to the user to confirm they wish to decline the applicant's job offer details.

The screenshot shows a 'Decline Offer' dialog box. It contains the text 'Are you sure you want to decline a job offer for this applicant?' and two buttons at the bottom: 'NO' and 'YES'.

- Clicking **Yes** removes the applicant from the *Successful Applicants* screen. They will still be linked to the vacancy in Recruitment, but their status will reflect that they have declined the position.

2.2. New Starters

To complete the setup of a new starter, as a successful applicant from Recruitment:

1. On the *Select Applicants* screen, identify the applicant to be processed.
 - It is possible to search based on applicant forename and/surname if required.
 - The applicant should have an action of *New Starter*.

Name	Applicant No	Personnel No	Vacancy ID	Vacancy Name	Start Date	Post Code	Action
Joan Mullins	A1850		001383	Training Administrator	07-Aug-2017	502201-0	New Starter
Cathy Looney	A1874	000023	001384	Budget Administrator	07-Aug-2017	502219-0	Rehire
Liam Gordon	A1872		001384	Budget Administrator	07-Aug-2017	502219-0	New Starter
Tina Brown	A1895		001385	Client Training Adminis...	14-Aug-2017	502235-1	New Starter
Clara Dawson	A1932	000024	001383	Training Administrator	02-Jan-2018	502201-0	New Appointment
Bob Hawke	A1894		001463	Junior Accounts	16-Apr-2018	502241-0	New Starter
Fiona Robinson	A1931	000033	001443	HR Manager	21-May-2018	502207-0	New Appointment

2. Select the relevant applicant row and click the **Apply** button.
3. The *Duplicate Employee Check* screen opens.
 - This is a useful step in the new hire process to prompt you to first search the system to ensure that the applicant you about to set up on the system doesn't already exist – either as an active or a dormant record. This is not mandatory and it is possible to skip by selecting the **Create New Employee** button.
4. Use the *Search Name or Social Security* box to search for an employee using the following:
 - Forename
 - Surname
 - PPS Number (Republic of Ireland) / NI Number (United Kingdom)

Note It is recommended to search based on PPS / NI Number if known as this is a true unique ID per employee and may identify scenarios where an employee exists on the system under another name e.g. an employee previously worked for the company under their maiden name and are rejoining under a married name.

Any employees (active or dormant) that match the search criteria, will display on the screen.

The screenshot shows a search bar with 'phillip' entered. Below it is a table with the following data:

Employee No.	Name	Known As	Date of Birth	Social Security No.	Gender	Department	Action
000058	Phillip Cross	Phillip	18-APR-89	*****254D	Male	Technical Support	New Contract
000118	Richard Phillips	Richard	13-MAR-82		Male	Accounts	New Contract
000081	Phillip Lyons	Phil	01-FEB-81	*****234C	Male	Training	New Contract

Below the table, it says '0 rows selected.' and '1 - 3 of 3'. At the bottom right, there are two buttons: 'NEXT' and 'CREATE NEW EMPLOYEE' (which is highlighted with a red box). The CoreHR logo is also visible.

- If a duplicate employee is identified, select the relevant row and click **Next**. This will guide you through the *New Contract* or *Rehire* steps required to link the employee to the contract (see the **New Contracts** and **Rehires** user guides for further guidance).
- If a duplicate employee is not identified, click the **Create New Employee** button. This opens the 4-step *New Starter* wizard

Step 1: Person Details

- The *Person Info* step is used to capture some basic personal information for the new employee's HR record.
- The majority of these fields may be pre-populated with the details supplied by the applicant as part of the application process. The details that are pre-populated are dependent on whether these details were supplied for the application.
- Update all fields as required on this screen.
- Mandatory fields are identified with a *-symbol.

5. Click the **Next** button to proceed to step 2.

Step 2: Organisational Structure

- The *Organisational Structure* step prompts you to record the details of where in the organisation the employee's new Contract/Post Appointment will be based.
- The post will be pre-populated on this screen and the majority of the available fields will be pre-populated also. This is because these will have been decided on and supplied by the recruiter when recording the job offer detail in recruitment.

Note It is possible to edit the post selected at this stage if required. The *Post* list displays all Posts (auto-authorised/auto-commenced) that you have been granted access to see (based on your HR Access). The **Post Search** button will return you to the Search for a Post screen used earlier in the process.

- Ensure that all required fields are populated. All mandatory fields are identified on the screen using a *-symbol.

8. Once all of the mandatory salary details have been recorded, click on the **Save** button to complete the wizard.
 - If an *Auto Authorised Post* or an *Authorised Post Appointment* has been used, this will need to be commenced.

2.2.1. Commence Appointment

When using an *Auto Authorised Post Profile* to create the contract, the contract is initially be created in an *appointed* status. This means that:

- the employee exists on the system and returns as *active* if using the employee search on the People Management dashboard.
- the contract exists for the employee and is available to view on their employee record with a status of *Pending*.

However, until the contract is commenced for the employee, the employee and their contract will not be available to the payroll team to process. The act of *commencing* the appointed contract on a specified *Commenced Date* will confirm that the employee has started in organisation and should be paid the contracted salary amount from that date.

There is one specific area from which the you can access the *Commence* option for the contract:

1. On the Command Centre widget, go to the *Employees* section and search for the employee.
2. Select the relevant row and click the **View** button.

The screenshot shows the employee profile for Claire Smith (000059). The page includes a header with the employee's name and a search path: People Management > Employee Search > Claire Smith (000059). A blue 'ACTIONS' button is in the top right. The main content area has a left sidebar with a 'Contracts' tab selected. The 'Contracts' tab displays a table with columns: Appointment ID, Status, Emp Status, Per..., Start Date, End Date, Substantive, and Funding Expiry. A red box highlights a dropdown menu for 'Sales Manager' with options: 'Sales Manager, Senior Management' (marked with a star) and 'Appointment ID 502199-1' (marked 'Pending'). Below the table, there is an 'Amendments' section with a table showing start and end dates. At the bottom, a red arrow points to a 'COMMENCE' button, which is also highlighted with a red box. Other buttons visible are 'REPLACE CONTRACT' and 'CHANGE CONTRACT HOURS'.

3. For a new hire, the *Contracts* tab should default to display the only contract for the employee. However, if in doubt, select the drop-down option to confirm that the correct contract has been selected. The contract will be flagged as *Pending*.
4. Select the **Commence** option.
5. Enter the *Commencement Date*.
6. Click **Ok**.

Note:

The *Date Commenced* cannot be earlier than *Effective Date* that was entered when creating the contract. This must be either equal to or later than that date. This date will be the date that the employee will be paid from for this contract.

2.3. New Contracts

To complete the setup of a new contract for an existing employee, as a successful applicant from Recruitment:

1. On the *Applicants* screen, identify the applicant to be processed.
 - It is possible to search based on applicant forename and/surname if required.
 - The applicant should have an action of *New Appointment*.

NOTHING TO SEE HERE						

corehr

Smarter HR Technology

APPLY

1. Select the contract to be replaced.
 - The screen shows a list of all current active contracts for the employee, of which there may be more than 1. This includes contracts that start in the future and contracts that have been future ended.
 - Use **View** to review the existing contract details, if required.
 - You must select the contract that will be replaced. It will be highlighted with a blue surrounding.
2. Click the **Save** button to proceed.
3. The 3-step *Replace Appointment* wizard appears.
4. **Step 1: Organisational Structure**
 - The Post is automatically pre-populated with the Post/Post Appointment that was specified on the job offer.
 - The org structure elements that have been defined on the job offer are also pre-populated on this screen.

The screenshot displays the 'Step 1: Organisational Structure' screen. On the left, a sidebar lists three steps: '1 Organizational Structure' (highlighted with a blue circle), '2 Contract Information', and '3 Salary Information'. The main content area contains a form with the following fields and values:

Field	Value
Post	502201 - Training Manager
Company *	Abc Solutions
Division *	Shared Services
Management Unit *	Human Resources
Department *	HR3 - Training
Cost Centre	Default
Location	Branch Office 2
Work Group	HR3 - Training

At the bottom right, there is a blue 'NEXT' button. The CoreHR logo is visible in the bottom center.

Note It is possible to edit the post selected at this stage if required. The Post list displays all *Posts* (auto-authorised/auto-commenced) that you have been granted access to see (based on your HR Access). The **Post Search** button returns you to the *Search for a Post* screen used earlier in the process.

- Update all fields as required. Mandatory fields are flagged with a * symbol.

5. Click the **Next** button to proceed to step 2.

Step 2: Contract Information

- The *Contract* step requires the hr administrator to input further particulars for the employee's contract.
- The *Effective Date* entered on this screen is very important. The contract that is to be replaced by this new contract will have an end date of the day before the new contract's *Effective Date* i.e. if the new contract effective date is 31st Jul 2017 then the replaced contract will have an end date of 30th Jul 2017.
- Most of these fields are automatically populated because these have been decided on and supplied by the recruiter when recording the job offer detail in recruitment.
- All other fields should be completed as required. Mandatory fields are flagged with a * symbol.

The screenshot displays the 'Contract Information' step of the CoreHR system. On the left, a sidebar indicates the current step (2) among three: Organizational Structure, Contract Information, and Salary Information. The main form area is titled 'Dates' and includes fields for 'Effective Date *' (populated with '02-Jan-2018'), 'Target End Date', and 'Planned End Date'. Below this, a 'Description' section contains fields for 'Job Title *' (populated with 'TRM - Training Manager'), 'Job Category', 'Post Type *' (populated with 'P - Permanent'), 'Project', 'Comments', 'Job Description', 'Employee Status *' (populated with 'P - Permanent'), 'Sub Status', 'Category', 'Sub Category', 'Contracted Hours', and 'Standard Hours'. The 'corehr' logo is centered at the bottom, and 'PREVIOUS' and 'NEXT' buttons are located in the bottom right corner.

6. Click the **Next** button to proceed to step 3.
See next page.

Step 3: Salary Information

- When a contract is replaced, the employee's salary details are also amended. The salary details for the original contract are ended and a new salary record will be created for this contract.

- The *Salary* step prompts you to provide all the details relevant to the employee's regular salary arrangements, specific to this contract.
 - Most of these fields are automatically populated because these have been decided on and supplied by the recruiter when recording the job offer detail in recruitment
 - NI Number/PPS Number are populated with the value already held for the employee.
 - All other fields should be completed as required. Mandatory fields are flagged with * symbol.
9. Once all of the mandatory salary details have been recorded, click on the **Save** button to complete the wizard.
- If an *Auto Commenced Post* was used to create the contract, no further steps are required.
 - If an *Auto Authorised Post* or an *Authorised Post Appointment* was used to create the contract, then this will need to be commenced.

10. Ensure that the new *Contract/Post Appointment* is *commenced*.

For details on the various options available for commencing a contract, please refer to [2.2.1 Commence Appointment](#).

Note If the new contract is not commenced, the corresponding salary will not be available to payroll to process.

11. When viewing the employee's Contract History/Timeline screen, note the following:

- The contract being replaced has a status of *Ended* and the *End Date* is automatically set to the new contract start date -1. This will be the case if the end date is past, present or future

- The new contract has a status of *Started* and the start date is the *Effective Date* recorded in the *New Contract* wizard.
 - If a future start date is recorded for the new contract, the status of the new contract is *Future*.

2.3.2. Additional Contract

1. Select the option to *Create New Additional Contract*.

The screen updates to hide the list of current employee contracts.

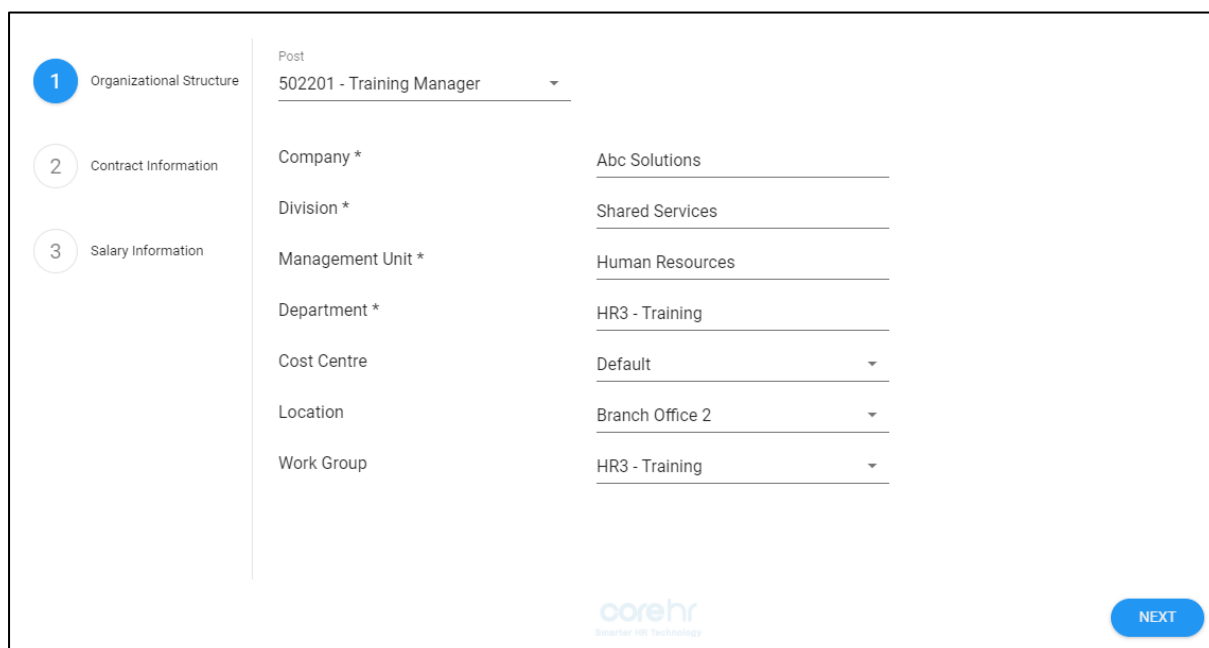

☐ Replace Existing Contract ☒ Create New Additional Contract

2. Click the **Apply** button to create the new additional contract.
3. The 3-step *New Appointment* wizard will appear.

Step 1: Org Structure

The *Post* is automatically pre-populated with the Post/Post Appointment that was specified on the job offer.

1	Organizational Structure	Post 502201 - Training Manager
2	Contract Information	Company * Abc Solutions
		Division * Shared Services
3	Salary Information	Management Unit * Human Resources
		Department * HR3 - Training
		Cost Centre Default
		Location Branch Office 2
		Work Group HR3 - Training

corehr
Smarter HR Technology

NEXT

The org structure elements that have been defined on the job offer are also pre-populated on this screen

Note It is possible to edit the post selected at this stage if required. The *Post* list displays all Posts (auto-authorized/auto-commenced) that you have been granted access to see (based on your HR Access). The **Post Search** button will return the user to the Search for a Post screen used earlier in the process.

Update all fields as required. Mandatory fields are flagged with a *-symbol.

7. Click the **Next** button to proceed to step 2.

Step 2: Contract Information

- The *Contract* step requires you to input further particulars for the employee's contract.
- Most of these fields are automatically populated because these have been decided on and supplied by the recruiter when recording the job offer detail in recruitment.
- All other fields should be completed as required. Mandatory fields are flagged with a *-symbol.

The screenshot shows the 'Step 2: Contract Information' form. On the left, a sidebar indicates the current step is '2. Contract Information', with '1. Organizational Structure' and '3. Salary Information' as previous and next steps. The main form area is titled 'Dates' and contains several input fields. 'Effective Date *' is set to '02-Jan-2018'. 'Target End Date' is empty. 'Planned End Date' is empty. 'Job Title *' is set to 'TRM - Training Manager'. 'Job Category' is empty. 'Post Type *' is set to 'P - Permanent'. 'Project' is empty. 'Job Description' is empty. 'Comments' is a large text area. At the bottom right, there are 'PREVIOUS' and 'NEXT' buttons. The CoreHR logo is at the bottom center.

8. Click the **Next** button to proceed to step 3.

Step 3: Salary Information

Awarding an additional contract to an employee also results in the awarding of an additional salary.

The screenshot displays the 'Salary Information' step of a user guide. On the left, a vertical sidebar shows three steps: 1. Organizational Structure, 2. Contract Information, and 3. Salary Information (highlighted with a blue circle). The main content area is divided into two columns. The left column contains the following fields: 'NI Number' with the value 'YT257015D', 'Employee to be paid based on *' with a dropdown menu showing 'Personal', 'Point on Scale' with the value '9999', 'This to be paid *' with a dropdown menu showing 'Annual', and 'Apply next increment on' with a calendar icon. The right column contains: 'Paygroup employee will be paid in *' with a dropdown menu showing '1280 - Monthly Pay', 'Scale *' with a dropdown menu showing 'Personal Rate', 'Multiplier *' with a value of '1' and up/down arrows, and 'Amount to be paid' with a value of '50000' and up/down arrows. At the bottom of the form, there is a 'corehr' logo and two buttons: 'PREVIOUS' (blue) and 'SAVE' (green).

- The *Salary* step prompts you to provide all the details relevant to the employee's regular salary arrangements, specific to this contract.
- Most of these fields are automatically populated because these have been decided on and supplied by the recruiter when recording the job offer detail in recruitment
- NI Number/PPS Number is populated with the value already held for the employee.
- All other fields should be completed as required. Mandatory fields are flagged with * symbol.

12. Once all of the mandatory salary details have been recorded, click on the **Save** button to complete the wizard.

- If an *Auto Commenced* Post was used to create the contract, no further steps are required.
- If an *Auto Authorised* Post or an *Authorised Post Appointment* was used to create the contract, then this will need to be commenced.

13. Ensure that the new Contract/Post Appointment is commenced.

For details on the various options available for commencing a contract, please refer to [2.2.1 Commence Appointment](#).

 **Note** If the new contract is not commenced, the corresponding salary will not be available to payroll to process.

14. When viewing the employee's *Contract History/Timeline* screen, note the following:

- All existing contracts remain unaffected by the new contract. The contract dates and status will not have changed.
- The new contract has a status of *Started* and the start date is the *Effective Date* recorded in the *New Contract* wizard.
 - If a future start date is recorded for the new contract, the status of the new contract will *Future*.

2.4. Rehires

In order to rehire a member of staff on CoreHR, the assumption is that the employee already exists on CoreHR but in a dormant state.

 **Note** It is not possible to complete this rehire process if the employee record does not already exist on the system. In that instance, please follow steps required to complete a *New Starter* setup on the system.

When rehiring a successful applicant please be aware that the applicant has applied for a vacancy on Recruitment as an “external applicant”. This is because they no longer have an active employee account on CoreHR.

 **Note** It is not possible to use the *Applicant Link* feature to link the applicant to a dormant employee record as the employee list on that screen is restricted to show active employees only.

To complete the rehire process for a successful applicant:

1. On the *Successful Applicants* screen, identify the applicant to be processed.
 - It is possible to search based on applicant forename and surname if required.
 - The applicant has an action of *New Starter*.

APPLY

2. Select the applicant row and click the **Apply** button.
3. The 4-step *Rehire Person* wizard opens.

Step 1: Person Information

1. This step is used to prompt you to review and update the personal details that are currently saved on CoreHR for the employee as these may be subject to change, since the last period of employment.
2. The details are updated to reflect the personal details supplied by the applicant during the application process.
3. Update all fields as required. Mandatory fields are flagged with a *-symbol.

4. Click the **Next** button to proceed to step 2.

Step 2: Organizational Structure

- The *Org Structure* step prompts you to record the details of where in the organisation the employee's new *Contract/Post Appointment* will be based.
- The post is pre-populated on this screen and the majority of the available fields are pre-populated also. This is because these have been decided on and supplied by the recruiter when recording the job offer detail in recruitment.

Note It is possible to edit the post selected at this stage if required. The *Post* list displays all *Posts* (auto-authorised / auto-commenced) that you have been granted access to see (based on your HR Access). The **Post Search** button will return the user to the Search for a Post screen used earlier in the process.

Ensure that all required fields are populated. All mandatory fields are identified on the screen using a *-symbol.

5. Click the **Next** button to proceed to step 3.

Step 3: Contract Information

- The *Contract* step requires the hr administrator to input further particulars for the employee's contract.
 - The *Effective Date* provided cannot be earlier than the employee's *Leave Date* for their previous period of employment i.e. if the employee has a *Leave Date*

of 1st Jan 2010, the effective date of the additional contract must be on or after that date

- Most of these fields are automatically populated because these will have been decided on and supplied by the recruiter when recording the job offer detail in recruitment.
- All other fields should be completed as required. Mandatory fields are flagged with a *-symbol.

6. Click the Next button to proceed to step 4.

Step 4: Salary Information

- The *Salary* step prompts you to provide all the details relevant to the employee's regular salary arrangements, specific to this contract.
- Most of these fields are automatically populated because these will have been decided on and supplied by the recruiter when recording the job offer detail in recruitment i.e. NI Number/PPS Number.
- PPS Number/NI Number should reflect the number currently held on CoreHR for the employee.
- All other fields should be completed as required. Mandatory fields are flagged with *-symbol.

PREVIOUS SAVE

7. Click on the **Save** button to complete the wizard.

- If an *Auto Authorised Post* or an *Authorised Post Appointment* has been used, this will need to be commenced.

8. Ensure that the new Contract/Post Appointment is commenced.

For details on the various options available for commencing a contract, please refer to [2.2.1 Commence Appointment](#).

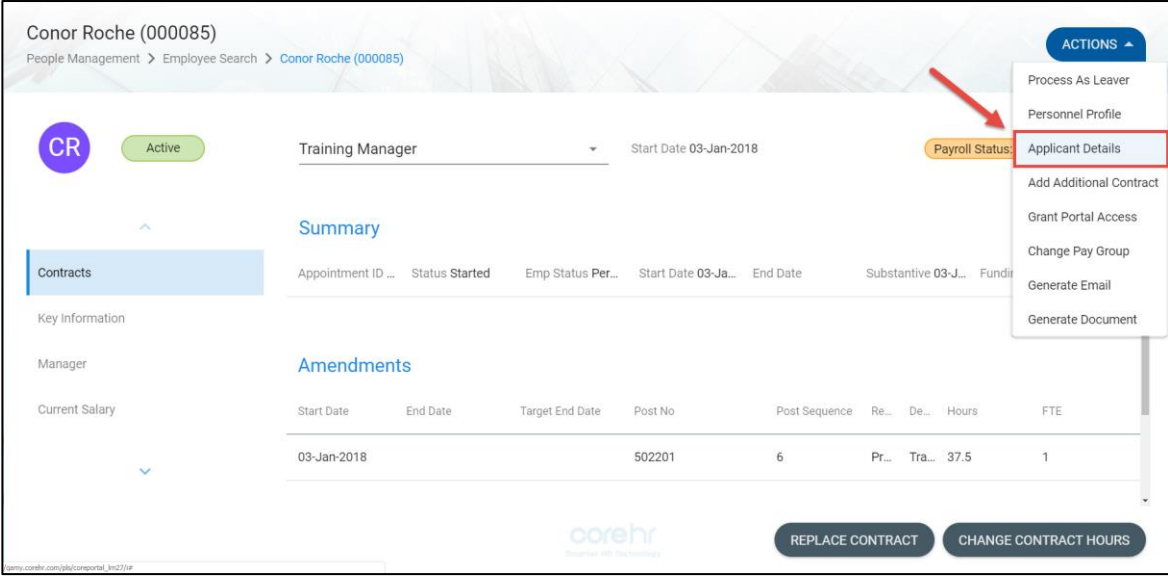

Note If the new contract is not commenced, the corresponding salary will not be available to payroll to process.

2.5. Applicant Details on the Employee Record

If an employee's contract has been setup via the successful applicant process, then there will be a link available on the employee's record to review their application details.

To access this information for the employee via People Management:

1. On the employee's Dashboard, select the **Application Details** option.
